RE: Case 24-T-0446: Petition of New York Transco LLC and New York Power Authority for a Certificate of Environmental Compatibility and Public Need, Pursuant to Article VII of the New York Public Service Law, to Construct, Operate, and Maintain an Approximately 89.7-Mile Underground Transmission Line through Suffolk, Nassau, Queens, Bronx, and Westchester Counties

Dear Secretary Phillips:

On September 17, 2026, the New York State Public Service Commission (NYSPSC) adopted the terms of a Joint Proposal and issued New York Transco LLC and the New York Power Authority (together, the Certificate Holders) a Certificate of Environmental Compatibility and Public Need (CECPN) to construct, operate, and maintain the Propel NY Energy project (the Project) subject to certain certificate conditions (the Certificate Conditions).[1] One such condition, Condition 16, requires the filing of permits and approvals required for construction or operation of the Project within 15 days of receipt and before commencement of construction in the affected area.

In accordance with Condition 16, enclosed for filing in the above-referenced proceeding please find the Certificate Holders' Letter of Authorization (LOA) issued by the New York State Department of Environmental Conservation authorizing coverage under State Pollutant Discharge Elimination System (SPDES) General Permit No. GP-0-25-001 for the Hudson Park & Beach Landfall Stormwater Pollution Prevention Plan (the HP&B SWPPP), which is relevant to construction associated with Environmental Management and Construction Plan (EM&CP) Phase 2. A copy of the underlying, approved HP&B SWPPP, which includes the relevant Municipal
