Subject: Ad Hoc committee members

Dear Acting Secretary Cohen,
In your most recent posting of the names of the nominees to the Siting Board committee, the name of Thomas Brown was omitted. Assuming his resume was not included in the packet one is enclosed at this time. Also enclosed is an article that was published in the Watertown Daily Times this AM. Tom would be a great asset to the committee inasmuch as he is the past DEC District 6 director and is currently a member of the International St. Lawrence River Board of Control currently tasked with establishing water level targets of the Great Lakes and St Lawrence River. His knowledge and participation in many environmental boards makes him a valuable asset to the Siting Board.
Thank you in advance for his inclusion of our candidate recommendations.
Sincerely,

Urban Hirschey
