

Deficiency Category Descriptions		
	Energy Impact	Non-Energy Impact
Incidental	May result in a savings shortfall, but the impact will be small and may not be measurable	An incidental nonconformance is a violation that does not require a licensed professional to address and is not expected on its own to pose a substantial risk of system failure or hazard.
Minor	Will result in a savings shortfall, but the impact will be small and may not be measurable.	Minor nonconformances require a licensed professional to address but not expected to pose a substantial risk of system failure or hazard.
Major	Will result in a measurable shortfall in energy savings.	Major nonconformances present an increased risk of system failure or hazard but not determined to be in imminent danger.
Critical	N/A	Critical nonconformances present an imminent hazard and/or probability of system failure. These issues must be addressed quickly to prevent injury or damage to property.
Req't	N/A	Required items are mandatory and nonconformances must be remedied prior to proceeding.

QA Scoring Matrix				
Score	Incidental	Minor	Major	Critical
5	Up to 3	Up to 2	0	0
4	More than 3	Up to 3	0	0
3	N/A	More than 3	0	0
2	N/A	N/A	Up to 1	0
1	N/A	N/A	More than 1	More than 0
