VIA EMAIL (Electronic Filing)  
The Honorable Jaclyn A. Brilling  
Secretary  
New York State Public Service Commission  
3 Empire State Plaza  
Albany, NY 12223-1350

RE: Case 12-E-0058 Incorporated Village of Rockville Centre --  
Net Metering Tariff Leaves

Dear Secretary Brilling:

Enclosed for filing are further revisions to the tariff leaves filed in the above referenced case. Tariff leaf numbers have been added and an issue date of today has been added.

This filing has been completed electronically.

Respectfully submitted,

Paul J. Pallas, P.E.  
Superintendent of Electric Utilities

PJP:dmb  
Cc: Roseanne Maiello  
Department of Public Service Staff

**SERVICE CLASSIFICATION 1, 3 OR 5 AMENDMENT**

**PURCHASE OF RENEWABLE ENERGY  
FROM NEW DISTRIBUTED GENERATORS**

**ELIGIBILITY:**

Residential or non-residential customers who receive service under Service Classification No. 1, 3 or 5 and own or operate Solar, Wind or other Electric Generating Equipment with a rated capacity of no more than twenty-five kilowatts (25 kW) located and used at their premise may be eligible for service under this tariff. Service will be provided to eligible customers under this tariff on a first come, first served basis, until the total rated generating capacity of the individual facilities is equal to 300 kW.

**REQUIREMENTS FOR INTERCONNECTION**

1. The generating equipment must be designed, installed, interconnected, tested and operated in accordance with applicable government, industry and Village of Rockville Centre requirements and must comply with the *New York State Standardized Interconnection Requirements* which are available on the Commission website, Distributed Generation Information.
2. All electrical connections must be completed by an Electrical Contractor Licensed in the Village of Rockville Centre and are subject to inspection by an Electrical Inspector and Village of Rockville Centre staff prior to interconnection. All service connections shall comply with the Village of Rockville Centre Electric Tariff, unless otherwise specified in this Tariff Leaf, or in the Standardized Interconnection Requirements.
3. The Village of Rockville Centre may elect to install a dedicated transformer or transformers if necessary to protect the safety or adequacy of electric service provided to other Customers. Upon written explanation of the decision to require a dedicated transformer, the Customer taking service under this Classification shall pay all costs of installing such transformer.
4. System design output shall not exceed 100% of the prior 12 months of metered energy consumption.

**METERING**

Village of Rockville Centre will provide one revenue meter for the purpose of billing. This meter will have bidirectional energy flow capability to determine the net amount of energy delivered or received by the Village of Rockville Centre. The charge for this meter will be included in the applicable monthly service charge.

Date of Issue April 24, 2012

Date Effective June 1, 2012

Issued by Paul J. Pallas, Supt. of Utilities, Rockville Centre, NY 11571

**INTERCONNECTION COSTS:**

Customers receiving service under this service classification will be responsible for necessary interconnection costs. These costs shall include the cost of installing any equipment deemed necessary by the Village of Rockville Centre to protect the safety and adequacy of electric service to other customers as required under *Standard Interconnection Requirements*.

**MONTHLY CHARGES & CREDITS:**

**Basic Service Charge:**

A basic monthly service charge equivalent to 125% of the Service Classification basic service charge shall be billed to the Customer regardless of energy usage.

**Energy Charge**

**1. Charges to Customer:**

The Customer will pay the rates and charges for the Customer's applicable Service Classification for net energy supplied.

**2. Credits to Customer:**

- a. If a Customer produces more energy than consumed during an individual billing cycle, a kWh credit will be carried forward until consumed, or the end of the calendar year, as described below.
- b. If a Customer produces more energy than consumed during any calendar year, the Customer will receive a money credit following the first billing cycle that ends on or after the last day of each calendar year. The credit will be calculated by multiplying the kWh credit balance times the average of the Average Cost of Fuel from the Village of Rockville Centre's monthly Statements of Fuel Adjustment Cost filed during the past 12 months, adjusted by the Factor of Adjustment. Upon payment of the credit, the kWh credit balance shall be reset to zero.

Date of Issue April 24, 2012

Date Effective June 1, 2012

Issued by Paul J. Pallas, Supt. of Utilities, Rockville Centre, NY 11571
