cruised New York harbor, MacKenzie-Childs said.

Wayne Higby, longtime professor of ceramic art at Alfred and now director of the Alfred Ceramic Art Museum, has known the couple since before they were graduate students. He says of the two, they have "an amazing vision," along with "the skill and ability to make unexpected things ...

"moments of astonishment," said Higby.

For the couple, the work of fellow graduate student Andrea Gill, '76, now a member of Alfred University's Division of Ceramic Art faculty, proved seminal, according to Higby. They learned from Gill's research and incorporated it into their own ceramic work when they launched MacKenzie-Childs.

JUDGES

From Page A1

It saw Senate Republicans trigger the "nuclear option" to eliminate the

60-vote filibuster threshold for Gorsuch and all future high court nominees. The change allowed the Senate to hold a final vote to approve Gorsuch with a simple majority.

PUBLIC NOTICE

New York State Electric & Gas Corporation (NYSEG)

NYSEG has filed tariff revisions June 29, 2016 with the New York State Public Service Commission (PSC) for new electricity and natural gas delivery rates to become effective May 1, 2017. These tariff revisions cover the second of three annual delivery rate increases under the terms of a three-year rate plan approved by the PSC in June 2016 and they include a \$29.9 million increase in electricity revenue and a \$13.9 million increase in natural gas revenue.

A residential electricity customer with an average use of 600 kilowatt-hours/month can expect an average monthly bill increase of \$1.76. A residential natural gas heating customer using 80 therms/month can expect an average monthly bill increase of \$4.01.

Customers may see some charges prorated on a May or June bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect.

RESIDENTIAL CUSTOMERS

Regular Residential Customers: The electricity delivery charge will increase 0.287 cents per kilowatt-hour. The per-therm natural gas delivery charge for the 4-to-50-therms block will increase 7.277 cents per therm and 1.709 cents for the block rate over 50 therms. There are no changes to monthly customer or minimum charges.

Day/Night and Time-of-Use Customers: The electricity delivery charge will increase 0.234 cents per kilowatt-hour for Service Class 8 and 0.198 cents per kilowatt-hour for Service Class 12. There are no changes to monthly customer charges.

Additional information about changes in residential electricity and natural gas delivery charges is available at nyseg.com (click on "For Suppliers and Partners," then on "Pricing and Tariffs" and then on "PSC Filings").

NONRESIDENTIAL CUSTOMERS

Information about changes in nonresidential electricity customer charges, electricity demand and energy charges (where applicable), natural gas minimum charges and natural gas therm charges is available at nyseg.com.

NYSEG has also filed revisions on May 2, 2017 to revise balancing requirements for customers taking service pursuant to PSC No. 88 - Basic Electric Generation Transportation Service.

Changes are also in effect for standby, street lighting, and economic development rates. Please check page 2 of your bill for bill messages and nyseg.com for detailed information.

Regarding energy supply: If you purchase energy supply from NYSEG, your price will continue to be based on market prices; if you purchase your energy supply from a supplier other than NYSEG (also known as an energy services company or ESCO), what you pay for energy supply depends on your agreement with your ESCO.

to bring a dish to pass and table service.

Business scheduled includes the election of officers, schedule for the year, banquet plans, \$15 for Southwestern basket, collection of dues and turning in of raffle tickets.

"In addition to the week-ends, he (Baker) received felony probation, which is a very hard thing to do. If he violates the terms and conditions of that probation, he can be brought back before the court and be sentenced to state prison."

Pelych said he had been in negotiations with the court and district attorney's office since shortly after the pursuit took place.

"This has been an ongoing process. This isn't something that occurs in the dead of night," he said. "They (the other charges) were covered as part of the negotiated settlement, but there were other charges in Steuben County that were not included."

At around 8:30 p.m. Feb. 3, a Hornell police marked vehicle was manned by Officers Brett Flaitz and Pete McDaniels, who attempted to pull a vehicle over on

stop and go circles on a high-speed pursuit, which traveled through Almond, Alfred Station, Andover and Wellsville, where Baker was arrested after pulling into the driveway of his residence at 2020 State Route 19. The highest speeds were reached on the long straight stretches of state Route 21 between Hornell and Almond, Murray said.

Following the pursuit, Hornell police charged Baker with driving while intoxicated, driving with a blood-alcohol content greater than .08 percent, speeding, failure to comply, insufficient headlamp, open container and unlawfully fleeing a police officer. Andover police charged him with speeding.

Pelych said he does not represent Baker on the charges out of Steuben County. Steuben County Court officials said there was no case pending in county court as of Monday.
