NOTE:

All projected costs were based on information available at the time they were developed and on anticipated actions of others such as approval by the DEC, access provided by property owners, and property owners' development plans. The estimated costs presented in my testimony and exhibits concerning the SIR programs are subject to change based upon design and construction-related contingencies, which may include regulatory review, approval schedules, permitting processes, access and cooperation issues with property owners, results of site investigations, unanticipated field conditions and/or force majeure events. Delays in a project may result in acceleration or substitution of other projects.
