RE: Notice of Intention to Install/Upgrade Cable Television Facilities and Service - Inspection and Survey at:
89-07 169, Queens NY

Dear Property Owner/Manager:

Verizon is pleased to introduce you to FiOS! The FiOS network provides world-class voice, data and video services to you and your tenants, and uses fiber optic technology to transmit voice, data and video signals at unprecedented speeds and capacities. This advanced network is in your neighborhood, and now we want to bring it to your block and your building.

Verizon and its representatives will work closely with you to bring these services to you and your tenants. In order to get started, FiOS engineers must first coordinate with you to perform a site survey of your property. During this survey, we will determine and propose the best engineering design for the building(s), which will take into account the safety, functioning and appearance of the premises.

Once the survey is complete, we will schedule a meeting with you to review the proposed work plan and obtain your approval. For additional information on our proposed site survey date, please see the enclosed form from the New York Public Service Commission ("Commission"), "Notice of Intention to Install/Upgrade Cable Television Facilities and Service – Inspection and Survey," which has been completed by Verizon and includes a copy of the relevant New York law related to this process. Please note that the enclosed notice is required by the rules of the Commission; the notice does not mean that the Commission has granted an order of entry with respect to your property.

A Verizon representative will contact you shortly to schedule the site survey and answer any questions you may have about our FiOS facilities. If you have any questions or concerns in the interim, please contact NYC FiOS Real Estate Department at (888) 364-3467 or send email to NYCFiOS@verizon.com.

Thank you for your cooperation and assistance.

Sincerely,

NYC FiOS Real Estate Department
