Mr. Greg Ludwig  
Section Manager, Gas Measurement  
ConEdison  
1560 Bruckner Blvd.  
Bronx, NY 10473

In response to your recent inquiry regarding the Sensus RT-230 residential diaphragm meter, I confirmed with our engineering department that the RT-230 is identical to the model R-275 TC meter with accuWAVE™ diaphragm approved under NY PUC Case 14-G-1025, with the exception of the side inlet and outlet cover configuration. The meter's capacity is limited to 230 cubic foot per hour only by the 5 LT connections.

Thank you for your interest in this product and if you have any questions or concerns, please contact me.

Best regards,

A handwritten signature in purple ink, appearing to read "Bobbie Mohney", is written over a light blue horizontal line.
