July 26, 2012

Jaclyn A. Brillling, Secretary
Public Service Commission
Three Empire State Plaza
Albany, New York 12223-1350

Dear Secretary Brillling,

The New York Solar Energy Society, a chapter of the American Solar Energy Society, educates children and families about energy efficiency and renewable energy, especially solar. As a 501(c)(3) we raise funds primarily through dues from approximately 110 members. Typical events include demonstrations, exhibits and extensive handouts. We support groups doing community solar buying and hands-on workshops. Most of our conferences are free and open to the public.

I am writing on behalf of the society's membership in support of the petition Jeff Irish filed with you on July 20, Reference Case: 08-E-1305: HVCE request for Increase in the Net Metering Limit for CHGE under PSL 66-j.

Any abrupt, negative changes to the bottom line on an installers' proposal will cause an immediate halt to the growth of solar energy.

Sincerely,

Wyldon King Fishman
Founder and President
