Re: NY P.S.C. Tariff No 2

Dear Ms. Brillling:

Pursuant to the March 17, 2006 Order of the New York Department of Public Service in Case 05-C-1653, attached for filing is are revisions to Comcast Phone of New York LLC, d/b/a Comcast Digital Phone NY P.S.C. Tariff No. 2 (Access Services). It is requested that this filing become effective on July 13, 2012.

The purpose of this filing is to implement the Federal Communications Commission's (FCC's) Second Order on Reconsideration, FCC 12-47, released April 25, 2012.

Background: On November 18, 2011, the FCC released FCC 11-161 and revised its policies and rules governing the billing of Switched Access Service, including the adoption of interstate originating access rates for carriers who exchanged traffic that originated or terminated in IP format. In December of 2011, the Company modified its filed tariffs to implement the FCC's directives set forth in FCC 11-161.

Today's Filing: As noted above, on April 25, 2012, the FCC issued its Second Order on Reconsideration with a proposed effective date of July 13, 2012. The FCC's Second Order reconsidered the intercarrier compensation framework for originating traffic that originated or terminated in IP format and modified 47 CFR part 51 to state (in part):

“Until June 30, 2014, intrastate originating Access Reciprocal Compensation subject to this subpart exchanged between a local exchange carrier and another telecommunications carrier in Time Division Multiplexing format that originates and/or terminates in IP format shall be subject to a rate equal to the relevant intrastate originating access charges specified by this subpart.”

With this filing, the Company revises the originating access provisions of its tariff to conform with the FCC's revised rules set forth in FCC 12-47. The proposed effective date of this filing is July 13, 2012. Customers have been notified of these rate changes.

NY12-003

Hon. Jaclyn A. Brillig

**SECTION 3 - SWITCHED ACCESS SERVICE**

**3.1 GENERAL**

Switched Access Service provides for the switching and routing of interexchange telecommunications traffic to or from the called party's premises, either directly or via contractual or other arrangements with an affiliated or unaffiliated entity, regardless of the specific functions provided or facilities used.

**3.2 TRAFFIC TYPE DESIGNATION**

The Company affirms that all of its New York traffic either originates from or terminates to a VoIP end user and is, therefore, VoIP-PSTN.

(C)

**3.3 SWITCHED ACCESS RATES**

(N)

**3.3.1 SWITCHED ACCESS RATES (TERMINATING)**

Terminating usage is billed under the terms and rates set forth in the Company's Tariff FCC No. 1 on file with the Federal Communications Commission.

**3.3.2 SWITCHED ACCESS RATES (ORIGINATING)**

Originating usage is billed under the rates set forth in the Rate Schedule in this Tariff.

**A. Carrier Common Line**

The Carrier Common Line rate category provides Customers with the use of services, facilities, and/or equipment owned, or controlled through contractual or other arrangements, by the Company, in order to access End Users to furnish intrastate communications.

(N)

**SECTION 3 - SWITCHED ACCESS SERVICE**

**3.3.2 SWITCHED ACCESS RATES (ORIGINATING) (CONT'D)**

(T)

**B. Tandem Transport**

(N)

The Tandem Transport rate category provides for the transmission between an access tandem and the Company's End Office, Trunk Gateway or functionally equivalent location. Rate elements include:

**1. Transport Termination**

The Transport Termination element includes the non-distance sensitive portion of Tandem Transport and is assessed on a per-access-minute-of-use basis.

**2. Transport Mileage**

The Transport Mileage element includes the distance sensitive portion of Tandem Transport and is assessed on a per-access-minute-of-use-per-mile basis. Transport mileage will be calculated based on the airline mileage between the access tandem (or functional equivalent) and the Company's End Office, Trunk Gateway or functionally equivalent location within the applicable LATA.

**C. Local Switching**

**1. Local Switching**

Local Switching provides for: (a) the establishment of a call path for the routing of Customer communications from the Company's End Office, Trunk Gateway, or functionally equivalent location to a Company End User and (b) the establishment of a call path for the routing of communications originating from a Company End User for delivery to the Company's End Office, Trunk Gateway, or functionally equivalent location.

The "establishment" of call path and routing is achieved through equipment and facilities, including, in some cases, a soft switch or similar equipment, owned, or controlled through contractual or other arrangements, by the Company, which allows for the routing of voice communications between the Company's End Office, Trunk Gateway, or functionally equivalent location and End Users via SS7 signaling based on telephone numbers obtained by the Company and assigned to End Users as set forth in the LERG.

**SECTION 3 - SWITCHED ACCESS SERVICE**

**3.3.2 SWITCHED ACCESS RATES (ORIGINATING) (CONT'D)**

(T)

C. Local Switching (Cont'd)

(N)

2. Common Trunk Port

Provides for the termination of tandem transport trunks in shared ports at the Company's End Office, Trunk Gateway, or functionally equivalent location. The Common Trunk Port rate is assessed on a per-MOU basis to all trunkside originating and terminating access minutes routed to the Company via a third-party access tandem.

**3.3.3. 8XX TOLL-FREE ACCESS SERVICE**

A. Description

800 Data Base Access Service is a service offering utilizing originating trunk side Switched Access Service. The service provides for the forwarding of end user dialed 800 calls to a Company Service Switching Point which will initiate a query to the data base to perform the customer identification function. The call is forwarded to the appropriate customer based on the dialed 800 number. The customer has the option of having the dialed 800 number or, if the 800 to POTS Number Translation feature is specified, a translated ten digit POTS number delivered to the customer premises. Rates and charges for 800 Data Base Access Services are as set forth in Section 5.1.5 following.

B. Customer Identification Charge

The 800 Data Base Access Service Customer Identification Charge applies for the identification of the appropriate customer for 800 Data Base Access Service. The charge is assessed to the customer on a per query basis and may include an area of service which may range from a single NPA/NXX to an area consisting of all LATAs and NPAs in the State of New York.
