ESCO Phase I Testing Application

BASIC INSTRUCTIONS

1. The applicant ESCO should complete the first page of the application.
2. If the applicant ESCO is plans to utilize an EDI Service Provider (EDISP) and the EDISP plans to certify the ESCO's Phase I capability, the EDISP should fill out the Established EDI Service Provider (EDISP) Certification section on the second page.
3. When the Utility is satisfied that the applicant ESCO is Phase I capable, either a result of testing or the EDISP's certification, it should complete the Utility Acceptance/Certification section on the second page and provide the completed ESCO Phase I Testing Application to DPS Staff.

NOTES

The Phase I Testing Rules and a list of Established EDI Service providers are available from the New York EDI website.
