for a Certificate of Environmental Compatibility and
Public Need Pursuant to Article VII for a High Voltage
Direct Current Electric Transmission Line Running
Between National Grid's Edic Substation in the Town
of Marcy, and Central Hudson Gas & Electric's Rock
Tavern Substation Located in the Town of New Windsor

Case 06-T-0650

New York Regional Interconnect Inc.
INTERROGATORY/DOCUMENT REQUEST

Request No.: NYRI-162
Directed To: Staff of the Department of Public Service
Date of Request: January 28, 2009
Reply Date: February 7, 2009
Witness: Quimby & Schrom

NYRI-162 Please identify and provide any standard or guideline published by an established engineering organization or independent standard-setting body, or government health agency that indicates that DC electric fields at intensities of 15 kV/m or 28 kV/m have been regarded as causing either health or environmental impacts at locations such as the edge of a transmission right-of-way.

Response:

We have not studied it.
