***Re: Case No. 16-F-0267: Application of Atlantic Wind LLC, for a Certificate of Environmental Compatibility and Public Need Pursuant to Article 10 to Construct a Major Electric Generating Facility in the Towns of Pinckney, Harrisburg and Montague, County of Lewis, and Town of Rodman, County of Jefferson, New York***

Dear Secretary Burgess:

Atlantic Wind LLC ("Atlantic Wind"), is proposing to construct a major electric generating facility in the Towns of Pinckney, Harrisburg and Montague, Lewis County, and the Town of Rodman in Jefferson County, New York ("Deer River Wind Farm" or the "Facility"). To construct and operate the Facility, Atlantic Wind is seeking a Certificate of Environmental Compatibility and Public Need ("Certificate") from the New York State Board on Electric Generation Siting and the Environment ("Siting Board") pursuant to Article 10 of the Public Service Law ("PSL").

Atlantic Wind filed its Preliminary Scoping Statement ("PSS") on May 15, 2017. The deadline for party comments on the PSS was extended to June 15, 2017, and the deadline for Atlantic Wind's corresponding PSS Comment Response was extended to July 7, 2017.

By this filing, in accordance with 16 NYCRR § 1000.5(g) Atlantic Wind submits its Response to PSS Comments, including a revised Figure 1 Project Area Map showing the location of the National Grid 115 kV transmission line, and the project's existing temporary

meteorological towers, as requested in the PSS Comments. This response will be served on the individuals listed in 16 NYCRR 1000.5(c), in the same manner prescribed for service of the PSS.

Atlantic Wind looks forward to working with the interested parties and stakeholders during the pre-application phase of this process on the scope and content of the Application.

Please do not hesitate to call me with any questions.

Respectfully submitted,

Laura K. Bomyea, Esq.
