

STATE OF NEW YORK
PUBLIC SERVICE COMMISSION

CASE 07-M-0548 - Proceeding on Motion of the Commission
Regarding an Energy Efficiency Portfolio
Standard.

NOTICE SOLICITING COMMENTS

(Issued June 18, 2009)

The Commission is currently considering electric and gas energy efficiency program proposals as part of the Energy Efficiency Portfolio Standard (EEPS). One integral issue in such consideration is how to estimate energy savings from such energy efficiency programs on a standardized basis. The Commission seeks comment from the parties in this proceeding regarding this issue. To facilitate consideration of this issue, the Department's Advisory Staff has caused TecMarket Works, a contractor, to prepare a document entitled "New York Standard Approach for Estimating Energy Savings from Energy Efficiency Programs, 90 Day Program Residential & Commercial Measures, Public Comment Draft" dated June 16, 2009. Parties are encouraged to review the document, which can be found at the Internet link: http://www.dps.state.ny.us/Phase2_Case_07-M-0548.htm, and provide their comments.

Parties may submit comments on these issues no later than June 29, 2009. An original and five copies should be submitted to Hon. Jaclyn A. Brilling, Secretary to the New York State Public Service Commission, Three Empire State Plaza, Albany, New York 12223-1350. Comments should be served electronically on the Secretary at Secretary@dps.state.ny.us and the parties via the ListServe established for use in this proceeding, and by first-class mail to any parties that issue a request for such service.
