

## Central Hudson:

---

### Electric:

All service classification 1 & 6 customers are residential. The non-demand rates are not able to be determined by service classification. Rate code E230 and E235 are considered non demand rates and are part of service classification 2.

*Link to electric rate code map:* [http://inet.cenhud.com/ic\\_esco/general\\_information/ElecRateCode.pdf](http://inet.cenhud.com/ic_esco/general_information/ElecRateCode.pdf)

### Gas:

All customers in service classification 1 and 12 are residential. There is no way to determine by rate code which accounts meet the 750 DTH. They will be part of service classification 2. A manual calculation will need to be performed on all customers in service classification 2 to ensure they meet the threshold.

*Link to gas rate code map:* [http://inet.cenhud.com/ic\\_esco/general\\_information/GasRateCode.pdf](http://inet.cenhud.com/ic_esco/general_information/GasRateCode.pdf)

You can use the usage and billing website to see what rate code an account is currently on:

<http://inet.cenhud.com/RetailChoice/ICforESCOs/InqAcct.aspx>

Central Hudson provides a group of pre-established rate codes that may be used by ESCOs. These rate codes are designed to track the Central Hudson electric and gas prices and are intended to allow ESCOs to provide customers with a price that is guaranteed to be a stated percent or dollar amount below or above the Central Hudson price for a given period. Central Hudson updates these prices whenever the Central Hudson price changes, in order to maintain the stated relationship. A table showing the indexed rates can be found on the Central Hudson website link below:

[http://inet.cenhud.com/ic\\_esco/CH\\_Index\\_Rate\\_Tables.pdf](http://inet.cenhud.com/ic_esco/CH_Index_Rate_Tables.pdf)

## Definition of Mass Market Customer

Pursuant to the Commission's Order Resetting Retail Energy Markets and Establishing Further Process, issued and effective February 23, 2016, in Cases 15-M-0127, 12-M-0476, and 98-M-1343, we are providing criteria as to how to identify mass market customers. Below is a list of Gas and Electric Service Classes identified by residential or small commercial.

Residential Electric:

SC = 1, 7, 16, 18, 21, 27, 41, 70, 72, 73, 75, 116, 118, 901, 907, 921 or 941

Religious Electric SC:

SC = 37, 42, 51 or 71

Electric Small Commercial SC

SC = 2, 6, 22, 26, 28, 30, 31, 117, 330 or 331

Residential Gas:

SC = 1, 8, 11, 21, 28, 31, 38, 39, 41, 101, 104, 111, 113, 131, 138, 139, 500, 501, 504, 506, 508, 511, 513, 514, 521, 527, 528, 531, 535, 538, 539, 548, 549, 551, 555, 557, 561, 565, 569, 570, 571, 575, 579, 586, 588, 589, 590, 596, 598, 599, 601, 611, 613, 621, 627, 628, 631, 638, 639, 801, 811, 813, 821, 826, 827, 828, 831, 838, 839, 862, 864, 868, 872, 874, 878, 901, 911, 913, 921, 927, 928, 929, 930, 931, 934, 935, 938, 939, 969, 971, 979 or 985

Please note that Electric small commercial customers may still have demand meters. These customers are not considered Mass Market. You may determine this through the RAIS website, or by reviewing the meter information in the EDI Files 867HU, 867MU or 814E. Non-demand billed customers will not have any kW readings in EDI or RAIS.

Please note that Gas small commercial customers have a threshold of 750 dekatherms per year. For customers with multiple meters, this threshold shall be calculated using the sum of all meters in the customer's name within a utility service territory. You may determine if a customer meets this threshold by utilizing the 867HU EDI file and evaluating the customer's usage. Con Edison does not have a method to identify these customers.

---

**If you have any responses, comments or questions, please forward them to [RetailAccess@coned.com](mailto:RetailAccess@coned.com), unless otherwise noted.**

**Case No. 15-M-0127 et al. – “Resetting Order” Transition Bulletin**

**Gas Service Class Information**

On February 23, 2016, the Commission issued an Order<sup>1</sup> changing the conditions under which residential and small non-residential customers are served in New York. National Fuel Gas Distribution Corporation (“National Fuel”) is providing criteria as to how to identify mass market customers. Below is a list of Gas Service Classes provided through EDI transactions (REF~NH) used to identify customer accounts as residential:

1, 2, 5, 21, 42, 50, 55-57, 64, 65, 70-79

The Gas Service Classes listed below are non-residential and may contain customers with consumption less than 750 Dth per year potentially qualifying them as mass market customers:

3, 6, 23, 46, 50<sup>2</sup>

For these Gas Service Classes, ESCOs should obtain account usage information to make their determination whether the customer should be classified as a mass market customer or not.

National Fuel accounts assigned to other Gas Service Classes not listed above have consumption excess of 750 Dth per year.

---

<sup>1</sup> Order Resetting Retail Energy Markets and Establishing Further Process in Cases 15-M-0127, 12-M-0476 and 98-M-1343 (“Resetting Order”).

<sup>2</sup> Gas Service Class 50 may be residential or non-residential.

To All ESCOs:

In compliance with the "Order Resetting Retail Energy Markets and Establishing Further Process issued and February 23, 2016, please be advised National Grid rates are publicly published on the Company's website:

**New York (KEDNY):**

[http://gasrates.nationalgridus.com/nyc/select\\_RegionNY.jsp](http://gasrates.nationalgridus.com/nyc/select_RegionNY.jsp)

- Select New York City under "Gas Delivery Rates"
- Select a Monthly Rate/Surcharge/Interruptible Rates & Select the Date Range for which you need to review

The Supply rate will be listed under "Monthly Cost of Gas".

**Long Island (KEDLI):**

[http://gasrates.nationalgridus.com/nyc/select\\_RegionNY.jsp](http://gasrates.nationalgridus.com/nyc/select_RegionNY.jsp)

- Select Long Island under "Gas Delivery Rates"
- Select either Nassau, Suffolk, or Far Rockaway
- Select a Monthly Rate/Surcharge/Interruptible Rates & Select the Date Range for which you need to review

The Supply rate will be listed under "Monthly Cost of Gas".

**Niagara Mohawk Electric:**

[https://www9.nationalgridus.com/niagaramohawk/home/rates/4\\_elec\\_rate.asp](https://www9.nationalgridus.com/niagaramohawk/home/rates/4_elec_rate.asp)

[https://www9.nationalgridus.com/niagaramohawk/business/rates/5\\_supp\\_charge.asp](https://www9.nationalgridus.com/niagaramohawk/business/rates/5_supp_charge.asp)

[https://www9.nationalgridus.com/niagaramohawk/business/rates/5\\_hour\\_charge.asp](https://www9.nationalgridus.com/niagaramohawk/business/rates/5_hour_charge.asp)

Under the title ELECTRIC RATE STATEMENTS, there will be choices from drop down menu. Select "SUPPLY SERVICE CHARGE STATEMENTS" and hit "List Documents" Supply Service Charge Statements are listed in date order. NEXT, go back to the original drop down and choose "MERCHANT FUNCTION CHARGE" and hit "List Documents" This will provide the most current MFC information.

**Niagara Mohawk Gas:**

[https://www9.nationalgridus.com/niagaramohawk/home/rates/4\\_gas\\_rate.asp](https://www9.nationalgridus.com/niagaramohawk/home/rates/4_gas_rate.asp)

[https://www9.nationalgridus.com/niagaramohawk/home/rates/4\\_gas\\_supply.asp](https://www9.nationalgridus.com/niagaramohawk/home/rates/4_gas_supply.asp)

On the left side options, click on "Gas Supply" This will list the gas prices by month and year for each respective rate class. NEXT, follow the options on the left side and choose "Gas Rate Statements" and drop down and choose "Merchant Function Charge Statement" and hit "List Documents" This will provide the most current MFC information.

Orange and Rockland Utilities Mass-Market Rate Codes

	Gas		Electric	
	Residential	Mass-Market Non-Residential	Residential	Mass-Market Non-Residential
<b>O&amp;R</b>	406,231, 716, 531, 906, 631, 706, 731, 306, 931, 306, 931, 406, 231, 906, 631	All Non-Residential rate codes except the following are potential Mass-Market customers: 261, 462, 862, 106, 206, 616, 936	101,181,201,X2E,301,X3E,401,481 ,501.X5E,601,X6E,701,X7E,801,X8E	902,X9D
<p><b>Note (1) Non-Residential Gas Service Classes may contain customers with consumption less than 750 Dth per year potentially qualifying them as mass market customers. ESCOs should obtain account usage information to make their determination whether the customer should be classified as a mass market customer or not.</b></p>				
<p><b>Note (2) The table above is summary information. ESCOs should contact individual utilities directly to obtain more detailed information about each utility's service classes.</b></p>
