April 5, 2018

Dear Judge Mullany:

This is a quarterly report on spring raptor survey carried out by the Delaware-Otsego Audubon Soc. in the matter of Case 16-F-0559, the Application of Bluestone Wind, LLC for a Certificate of Environmental Compatibility and Public Need Pursuant to Article 10 for Construction of the Bluestone Wind Farm Project Located in the Towns of Windsor and Sanford, Broome County. Our organization was approved for intervenor funding for this study at the pre-application procedural conference in Windsor, NY on October 16, 2017.

We completed fall raptor surveying for this project and submitted our report on that work on Jan. 11, 2018.

This document is intended to meet reporting requirements set forth in 16 NYCRR 1000.10(b)(10).

Field survey work was completed on March 22, 2018, and covered 15 dates of raptor migration in March, as per the approval for intervenor funding. The data from these surveys is being compiled and quality checked. Our intention is to have a final report completed by May 1, 2018. We will provide the final report to you and to the project sponsor and the service list for the project at that time.

Please contact me with any questions or for further information.

Sincerely,

Andrew Mason, Co-President
