Kathleen Burgess
Secretary to the New York State Public Service Commission
Three Empire State Plaza
Albany, New York 12223-1350

Re: Request to extend public comment period on adoption of Large-Scale Renewable Program and Clean Energy Standard to 45 days.

Dear Secretary Burgess:

We join other watchdog groups in asking that the Public Service Commission extend the public comment period on case 15-E-0302 (large scale renewables and nuclear plant subsidies) to 45 days.

Given the magnitude of the potential costs imposed on the public we believe more time for public review and comment is necessary.

Thank You,

Blair Horner
