

Consolidated Edison Company of New York, Inc.

Superstorm Sandy Incremental Cost Report

July 26, 2013

This report describes and provides details regarding the incremental deferred O&M costs the Consolidated Edison Company of New York, Inc. (“Company”) incurred as of May 31, 2013 responding to and restoring its electric and steam systems as a result of the impact of Superstorm Sandy.

This report reflects the incremental Superstorm Sandy deferred O&M costs incurred that were segregated in appropriate work orders along with a detailed vendor listing of payments processed as of May 31, 2013. Descriptions of the major categories of work have also been provided.

Through the date of this filing, the Company has received \$50 million of insurance recoveries associated with Superstorm Sandy costs.

The Company continues to review these costs and has made adjusting entries when necessary to exclude non-incremental costs that may have been charged to the Superstorm Sandy work orders. There is extensive additional detail regarding the costs available but the extent of it makes it infeasible to include here.

The Company will continue to work with Staff to provide its support and documentation for major storm costs as it has done in the past.
