RE: Case 08-E-1305

Dear Secretary Brillling,

Mountaintop Greene Clean Energy designs and installs photovoltaic systems the Catskills and Hudson Valley Regions of Upstate New York. A substantial portion of our customer base is served by Central Hudson Electric & Gas. The recent suspension of net metering by Central Hudson has had an immediate and detrimental effect on our business in this already difficult economic climate.

Mountaintop Greene Clean Energy is in support of the petition filed by Hudson Solar. Furthermore, we feel that there should be no cap for net metering programs in New York State. In light of Governor Cuomo's NY-Sun program, we hope that the PSC will help New York State move forward regarding support of renewable energy, and act to remedy this unfortunate step in the opposite direction.

Respectfully,

Robert S Hostetter Jr  
Owner
