

Before acquiring any customer usage data, proper customer authorization must be received in compliance with all State regulations and Local Delivery Company (LDC) requirements.

The rules vary widely for each State and each LDC. In New York, the specific details listed below must be included with the authorization:

1. Type of information to be obtained. (Historical Usage, Interval Data, Tariff, Rate)
2. Whom the data will be given to. (MidAmerican Energy Services and any Berkshire Hathaway Energy Company subsidiary or affiliate)
3. How the data will be used. (Pricing, Energy Management)
4. How long the Authorization is valid. (Default 6 months, or the length of the sales agreement)

Letter of Authorization (LOA): When a Letter of Authorization form is used, the Authorization and Release form following this procedure will be dated, signed, and submitted to the Energy Data Coordinators.

Email Authorization: E-mail authorization should include positive confirmation that MidAmerican Energy Services is authorized to access the customer's Monthly Usage and Interval Data.

Any authorization received from a customer or agent is kept on file with the Energy Data Coordinators team.

AUTHORIZATION AND RELEASE
