814 Related Questions - ICAP Tags are effective in ISO-NE from 6/1 through 5/31 via 814						
When are 814 Changes sent for the new ICAP Tags?	They will be sent by mid April.	The new ICAP tags should be ready shortly. I have been working with our IT Department on a process for the 814C, as sending all of them out at once would "choke" our system.	Two weeks prior to the end of April.	New values will be processed towards the end of April in multiple batches until the end of the month.	The first business day of May	New values will be processed towards the end of April in multiple batches until the end of the month.
If any customers enroll after 814 Changes are sent, is an 814 Change sent to that new supplier for the future value(s)?	Only if the ICAP has changed since the enrollment, otherwise the ICAP on the enrollment is the most current.	The ICAP Tag is included in the 814E Response	No, the new ICAP tag value will be outlined in the 814E acknowledgment response and 867HU response.	Change requests will be sent out to the current ESCO as well as a pending ESCO (if exists) for an account.	O&R sends Change Transactions to active ESCOs only not to pending ESCOs	Change requests will be sent out to the current ESCO as well as a pending ESCO (if exists) for an account.
Is there an exact date that you stop sending the current ICAP tag on the 814 Enrollment Response and start sending the new ICAP Tag?	This is based on when we make the changes in our system which will be before mid April.	No, the new ICAP Tag is sent when they have been updated in our system	No, the new ICAP tag value will be out lined with in the 814E acknowledgment response when they are updated in our billing system.	Current and Future ICAP Tags are sent in April; otherwise only Current ICAP Tags are sent	April 30th	Current and Future ICAP Tags are sent in April; otherwise only Current ICAP Tags are sent
If you send 814 Change transactions for ICAP, would you include an 814 Change transaction for a customer account where the ICAP value did not change?	Yes.	The 814C will be sent, even if the ICAP Tag is the same, as the period will have changed.	Yes, an 814C will be sent, even if the ICAP Tag stays the same, as the period will have changed.	Yes	No. A change transaction is send only when a value changes	Yes
