

Case No. 12-M-0476 et. al.
EDI Business/Technical Working Groups
Accelerated Switching Implementation Workpaper – 1/16/2015

Questions for utilities:

1. The implementation, based upon the Ordering Clause 3 of ORDER AUTHORIZING ACCELERATED SWITCH OF COMMODITY SUPPLIERS, Issued and Effective December 15, 2014 appears to be Friday, February 13, 2015 – is this correct?
 - a. What is the last date that and cutoff time that each utility will process under the prior 15 calendar rule?
2. Generally, for each utility, what is the cutoff time for EDI Transactions to be received in order to be processed in that night's batch?
3. Enrollment Cancellation Rules
 - a. Confirm that a standard drop, with reason code B38, will effectuate a cancel enrollment if received in time.
 - b. What is the cutoff day for a drop to be sent in order to effectuate a cancel enrollment (i.e., can it be sent the same day of the scheduled meter read date, or must it be the day prior, etc.)?
4. Can the incumbent ESCO cancel a drop, i.e. is the Reinstatement transaction still valid?
5. What is the cutoff day for a drop to be sent in order to be effective on the next scheduled read date?
 - a. Electric - Is it the day before the scheduled read date?
 - b. Gas - For those utilities that serve by calendar month, is it the last day of the prior month?
6. Will the accelerated enrollment changes have any impact upon billing? If so, please explain.
