Critical Facility Script # 2 – March 9, 2017 5:00 PM.

Hello, this is National Grid calling to inform you that as a Critical Facility Customer we are providing you with the following update:

- Yesterday, National Grid experienced a wind storm that created a significant number of outages across our Western New York service area. The hardest hit areas by the wind storm are Niagara County and the Genesee Region.
- A total of 164,248 customers across Upstate New York lost power. We are expecting ~~to restore~~ 90% of the total number of customers that were impacted across Upstate New York to be restored by midnight tomorrow. Of the remaining 10%, we expect to restore 90% of those customers by midnight Saturday. The remaining customers are expected to be restored by Sunday.
- In the event you have an emergency or questions, please contact National Grid at 1-800-NIAGARA or 1-800-642-4272.
- You may also report an outage or check on outage status by visiting nationalgridus.com
- Please treat all downed power lines as live and do not touch or handle any electric circuits you may find on the ground.
- If you plan to operate a generator, please make sure you open your main breaker and place the generator outside of your facility. Do not operate your generator indoors or in any enclosed space.
- Thank you!

Critical Facility Script # 3 – March 10, 2017 8:00 AM.

Hello, this is National Grid calling to inform you that as a Critical Facility Customer we are providing you with the following update:

- On Wednesday, National Grid experienced a wind storm that created a significant number of outages across our Western New York service area. The hardest hit areas by the wind storm are Niagara County and the Genesee Region.
- A total of 164,248 customers across Upstate New York lost power as a result of the event. We are expecting to restore 90% of the total number of customers that were impacted across Upstate New York to be restored by midnight tonight. Of the remaining 10%, we expect to restore 90% of those customers by midnight Saturday. The remaining customers are expected to be restored by Sunday.
- In the event you have an emergency or questions, please contact National Grid at 1-800-NIAGARA or 1-800-642-4272.
- You may also report an outage or check on outage status by visiting nationalgridus.com
- Please treat all downed power lines as live and do not touch or handle any electric circuits you may find on the ground.
- If you plan to operate a generator, please make sure you open your main breaker and place the generator outside of your facility. Do not operate your generator indoors or in any enclosed space.
- Thank you!

Critical Facility Script #4 – March 10, 2017 PM Outreach

Hello, this is National Grid calling to inform you that as a Critical Facility Customer we are providing you with the following update:

- On Wednesday, National Grid experienced a wind storm that created a significant number of outages across our Western New York service area. The hardest hit areas by the wind storm are Niagara County and the Genesee Region.
- A total of 164,248 customers across Upstate New York lost power as a result of the event. We are expecting to restore 90% of the total number of customers that were impacted across Upstate New York to be restored by midnight tonight. Of the remaining 10%, we expect to restore 90% of those customers by midnight Saturday. The remaining customers are expected to be restored by Sunday.
- In the event you have an emergency or questions, please contact National Grid at 1-800-NIAGARA or 1-800-642-4272.
- You may also report an outage or check on outage status by visiting nationalgridus.com
- Please treat all downed power lines as live and do not touch or handle any electric circuits you may find on the ground.
- If you plan to operate a generator, please make sure you open your main breaker and place the generator outside of your facility. Do not operate your generator indoors or in any enclosed space.
- Thank you!
