WHEREAS, this Franchise Agreement complies with the franchise standards required by the New York State Public Service Commission and the Cable Consumer Protection Act of 1992 and is subject to the review and approval of the New York State Public Service Commission.

NOW, THEREFORE, in consideration of the mutual conditions and covenants contained herein:

IT IS MUTUALLY AGREED AS FOLLOWS:

1. GRANT

The Town of Claverack, including the Village of Philmont, hereby grants to Mid-Hudson, its successors and assigns the non-exclusive right and privilege to erect, place in the Town and/or Village and to construct, maintain and operate in, over and under the present and future streets, sidewalks, alleys, public land and places and highways in or of the Town and/or Village, towers, poles, lines, cables, necessary wiring and other apparatus for the purpose of transmitting, receiving, amplifying and distributing of cable television, telephone, telegraph, television, radio signals and data transmissions and other video and aural programming and communications within the said Town and Village and to the inhabitants thereof, for the purpose of providing telecommunications and related services to the residents of the Town.

2. FRANCHISE AREA

- A. **PRIMARY SERVICE AREA.** Mid-Hudson's rights and obligations set forth in this agreement shall be applicable to the Primary Service Area as shown on the attached map marked 'Exhibit II'. Mid-Hudson agrees to have cable service available, without a contribution in aid of construction, to any resident who lives within 250 feet of a cabled public right-of-way in the Primary Service Area. Areas outside the Primary Service Area will be considered as line extension areas and residents may receive service in accordance with the line extension formula as stated in section 2B. The primary service area is highlighted on the attached map, Exhibit II. The rest of the Town of Claverack, including the Village of Philmont is designated as line extension area.

Mid-Hudson shall comply with the requirements for construction of cable television plant and the provision of cable television services as set forth in Section 895.5 of the rules of the NYS PSC. Mid-Hudson may provide cable television service to the Primary Service Area at a minimum of 20 dwelling units per linear mile. This will be accessed on a case by case basis and is a voluntary change from the PSC requirement of 35 homes per mile (hpm). Mid-Hudson shall not deny service to any resident of the Town of Claverack or Village of Philmont based upon age, race, creed, color, sex, national origin or income level of the residences in their local area.

B. NEW SERVICE AREA: A new service area is set forth in Exhibit III. Such new service area will be constructed as set forth in Exhibit III. Mid-Hudson will use its best efforts to apply for all utility permits for all areas identified in Exhibit III as soon as the PSC has granted approval and all of the mapping and engineering survey work has been completed and begin construction of new service area as stated above upon the receipt of all mandatory utility permits. MHC will complete construction of the first phase of the new service area as listed on Exhibit III within twelve (12) months from the receipt of all utility permits and complete each phase thereafter in order as they appear in Exhibit III. It is to be noted this area falls well below Mid-Hudson's standard of (20 hpm) for a line extension. The NYSPSC standard is (35 hpm). This New Service Area will be built as a one-time exception to our standard of 20 hpm without any contribution in aid of construction from the residents within 250' of the cabled public right-of-way in the areas on Exhibit III. This is a one-time exception to our standard of 20 hpm and as a good faith gesture to finalize the franchise renewal; Mid-Hudson has agreed to build the area listed in Exhibit III.

B. LINE EXTENSION AREA. Any area in the Town or Village not specified as part of the primary service area is hereby designated a line extension area.

Service shall be provided to any line extension area upon request provided that the criteria set forth by the PSC of 35 homes per mile (HPM) is met **or** line extensions may be considered on a case by case basis at a minimum density of 20 HPM provided that at least 15 of the homes passed are willing to commit to a multi-year level of service. The HPM statistic for the primary service area will be determined by dividing the total dwelling units passed in the primary service area by the total linear miles of the cable plant in the primary service area.

Any resident in a line extension area falling below the minimum HPM figure outlined above shall be able to receive service upon payment in full and in advance of a sum to be designated as a contribution in aid of construction (CAC) or subscriber contribution (SC) Such SC shall be computed as follows:

$$\frac{C}{LE} - \frac{CA}{P} = SC (CAC)$$

- C** = the cost of construction of new plant.
- CA** = the average cost of construction per mile in the primary service area.
- P** = either 20 HPM or the average number of dwelling units per mile of aerial cable in the primary area whichever is less
- LE** = the number of dwelling units requesting service in the line extension area.
- SC** = subscriber contribution in aid of construction for the line extension.

Mid-Hudson shall apply for all mandatory licenses, permits, amendments and approvals within 30 days of the receipt of all SC payments for a line extension area. Mid-Hudson shall provide service to line extension area within 12 months of the receipt of all mandatory licenses, permits, amendments, and approvals.

During the five year period commencing at the completion of SC line extension, a prorated refund may be paid to previous subscribers as new subscribers are added to the particular line extension; the amount of the refund, if any, shall be determined annually by application of the above stated formula. The refunds shall be paid annually to the subscribers, or former subscribers, entitled to receive them.
