Subject: Re: NYSEG Power Line Application Case No. 12-T-0248

Dear Secretary Brilling:

I received an e-mail from Jim Salmon of the New York State Gas and Electric Company on August 28, 2012, in response to my comments to you of August 15th regarding the Columbia County Transmission Proposal. Since I still believe, despite Mr. Salmon's response, that serious questions remain unanswered on the NYSEG application as it currently stands, I am filing a copy of my response to Mr. Salmon directly with you and the Commission in the hope that you will request that these questions be answered. I herewith attach Mr. Salmon's e-mail and my response as a PDF, and appreciate your continued understanding of my great concern over this matter as a Ghent landowner whose property and those of his neighbors would be affected by the proposed transmission line.

Sincerely,

Benjamin Swett
