

To: Jeffrey Cohen, Acting Secretary of the PSC

I get my electricity from NYSEG in the region that includes the coal-fired Cayuga Power Plant. I support the NYSEG plan to upgrade the transmission lines to ensure reliable electricity services because it is by far the cheapest option and would keep rates as low as possible. I do not favor converting the plant to use natural gas.

If the Cayuga Power Plant has to close because it is losing money, I urge the PSC to advocate for NY State regional development and/or other funds to provide transition funding for workers, the Lansing school district, and municipalities affected by local tax losses.
