Dear NYSEG Customer;

Thank you for your comments regarding NYSEG's electric rates. Your comments will be included in the case file and reported to the Commission.

As you may know, the NYS Public Service Commission issued its order August 23, 2006 reducing NYSEG's electric delivery rates by \$36 million for 2007. NYSEG, as well as seven other parties to the proceeding, representing a variety of interests, have each filed petitions for rehearing or clarification regarding various aspects of the Commission's decision. The Commission will be considering the petitions for rehearing and the responses to them, as well as public comments such as yours, and will rule on the petitions at a future session.

Thank you for writing to the Commission.

Comments

Please don't make NYSEG have to trim electric delivery rates! It is detrimental to the companys financial health that an increase goes through. I have been paying NYSEG for over 5 years and I dont feel my bill is that bad.
