

NEW YORK STATE BOARD ON ELECTRIC
GENERATION SITING AND THE ENVIRONMENT

CASE 99-F-1625 - Application by KeySpan Energy for a Certificate of Environmental Compatibility and Public Need to Construct and Operate a 250 Megawatt, Cogeneration, Combustion Turbine Electric Generating Facility to be Developed at the Existing Ravenswood Generating Station in Long Island City, Borough of Queens.

NOTICE OF ISSUES CONFERENCE

(Issued January 25, 2001)

TAKE NOTICE that a conference will be held on Thursday, March 1, 2001 in this proceeding before Presiding Examiner Robert R. Garlin and Associate Examiner Helene G. Goldberger, beginning at 10:00 a.m. in the Boardroom at the Public Service Commission's New York City offices at One Penn Plaza (Borough of Manhattan), Eighth Floor. The conference will continue from day to day, as necessary.

The conference, which will be held jointly with the New York State Department of Environmental Conservation's Issues Conference relating to permits required by the subject facility, is being held to consider requests for intervenor funding, identify all issues that will be adjudicated at future joint evidentiary hearings, identify the parties (other than the applicant) who will be sponsoring testimony at those hearings, discuss scheduling and other procedural matters, and address such other matters as may be necessary.

Parties seeking funds for expert witness and consulting fees, pursuant to 16 NYCRR §1000.9, must submit their requests to the Presiding Examiner not later than February 9, 2001, which is 15 days after the issuance of this notice.
