3. Notwithstanding any other provision of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a retiree who: (1) has met the criteria of subdivision one of this section and retired on a service or disability retirement, or would have met the criteria if not already retired on an accidental disability; and (2) has not been retired for more than twenty-five years; and (3) dies from a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such retiree shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such retiree's eligible beneficiary, as set forth in section 13-244 of this subchapter, shall be entitled to an accidental death benefit as provided by section 13-244 of this subchapter, however, for the purposes of determining the salary base upon which the accidental death benefit is calculated, the retiree shall be deemed to have died on the date of his or her retirement. Upon the retiree's death, the eligible beneficiary shall make a written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in section 13-244 of this subchapter requesting conversion of such retiree's service or disability retirement benefit to an accidental death benefit. At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits payable under the service or disability retirement benefit, including any post-retirement death benefits, since the retiree's death. If the eligible beneficiary is not the only beneficiary receiving or entitled to receive a benefit under the service or disability retirement benefit (including, but not limited to, post-retirement death benefits or benefits paid or payable pursuant to the retiree's option selection), the accidental death benefit payments to the eligible beneficiary will be reduced by any amounts paid or payable to any other beneficiary.

4. Notwithstanding any other provision of this code or of any general, special or local law, charter, or rule or regulation to the contrary, if a member who: (1) has met the criteria of subdivision one of this section; and (2) dies in active service from a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board to have been caused by such member's participation in the World Trade Center rescue, recovery or cleanup operations, as defined in section two of the retirement and social security law, then unless the contrary be proven by competent evidence, such member shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such member's eligible beneficiary, as set forth in section 13-244 of this subchapter, shall be entitled to an accidental death benefit provided he or she makes written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in section 13-244 of this subchapter.

**HISTORICAL NOTE**

Section amended chap 489/2008 § 15, eff. Aug. 5, 2008 and deemed to

have been in full force and effect Sept. 11, 2001.

Subd. 4 added chap 5/2007 § 19, eff. Mar. 13, 2007 and deemed to have been in full force and effect Sept. 11, 2001.

**CASE NOTES**

¶ 1. In Serrano v. Kelly, 14 Misc.3d 1203(A), 2006 WL 3691277 (Sup.Ct. New York Co.), a police officer had worked at the Fresh Kills landfill and at the morgue during the 9/11 recovery efforts. He later suffered from atrial fibrillation (irregular heartbeat) and sought accidental disability retirement. Although the Medical Board granted ordinary disability retirement (ODR), it denied petitioner accidental disability retirement (ADR). In a subsequent Article 78 action, the court sustained the Medical Board's determination. The court explained that § 13-152.1 creates a presumption of accidental disability for any condition or impairment of health caused by a **qualifying condition**, where the officer participated in the World Trade Center recovery operation for a minimum of 40 hours. However, atrial fibrillation does not come within the definition of "qualifying condition or impairment of health." Petitioner attempted to show that his condition falls under diseases of the upper or lower respiratory tract, which does come within the definition of qualifying condition. Petitioner pointed out that the Mayo Clinic states that atrial fibrillation can be caused by lung disease. However, where petitioner had no pulmonary complaints at the time of his appearance before the Medical Board, the court sustained the Medical Board's finding that petitioner did not qualify for ADR (note-although

petitioner's own physician found the pulmonary function tests to be somewhat abnormal, that physician did not say that the pulmonary evaluation was "not significantly revealing").

¶ 2. Traumatic stress disorder can be a basis for recovery of accidental disability benefits. Where a police officer who worked at the World Trade Center site following 9/11 has such a disorder, there is a presumption in favor of accidental disability. In order for the presumption to be rebutted, there must be some credible evidence to support a "no causation" finding. In Jefferson v. Kelly, 14 Misc.3d 191, 829 N.Y.S.2d 418 (Sup.Ct. New York Co. 2006), where there was evidence that the stress disorder was related to the death of petitioner's mother and his cardiac disease, the court held that the Medical Board had a reasonable basis for finding that the presumption had been rebutted.

¶ 3. The City Fire Department cannot refuse to process a firefighter's application for disability retirement merely because a disciplinary proceeding is pending against the firefighter. Benson v. City of NY, 15 Misc.3d 1022, 834 N.Y.S.2d 647 (Sup.Ct. Kings Co. 2007).

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-253 Dependent benefits for surviving spouses and orphans.

a. The board shall pay a dependent benefit to the surviving spouse, child or children or dependent parent or parents of any deceased member if the death of such member occur during his or her service or after he or she was retired from service. The amount of any such dependent benefit to be paid by the board to each of the several representatives of such member, in case there shall be more than one, from time to time, may be determined by such board according to the circumstances of each case. The annual dependent benefit to the representative or representatives of such member, however, shall be six hundred dollars, and no part of such sum shall be paid to any such surviving spouse who shall remarry, after such remarriage, or to any child after it shall have reached the age of eighteen years.

b. Dependent benefits shall be granted to the surviving spouse, child or children or dependent parent or parents of a member pursuant to this section only if such member, upon becoming a member, shall elect to contribute the additional deductions provided by subdivision d of section 13-227 of this subchapter.

c. The benefits granted pursuant to this section shall be in addition to any other benefit provided for by this subchapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B18-44.0 added LL 2/1940 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. Evidence that plaintiff's former husband had disappeared in the spring of 1921, under circumstances indicating that he had taken his life shortly thereafter, inasmuch as he had been gassed in the World War, was in poor health and threatened suicide, that he was never thereafter heard from although inquiry was made at morgues, hospitals and among friends and relatives, that plaintiff and her second husband, who was a New York City police officer, commenced to live together as man and wife in 1924, believing that plaintiff's former husband was dead, and continued to live together in such relationship without interruption openly and in good faith until the second husband died in 1940, and that at a formal gathering of friends and relatives they had acknowledged themselves as married in 1930, **held** to establish that plaintiff was the lawful wife of the second husband until his death, and was entitled to a pension from the City of New York Police Pension Fund on ground she was his widow.-Cavanaugh v. Valentine, 109 (71) N.Y.L.J. (3-27-43) 1205, Col. 5 F.

¶ 2. A policeman in 1938 entered into a separation agreement with his first wife pursuant to which he agreed not to change beneficiary in any of his insurance policies or "benefits on his life". In 1940, he nominated his first wife as the person to receive a return of deductions in accordance with § B18-7.0. In 1944 he retired to Florida, divorced his first wife and remarried. **Held,** the right to the widow's allowance was not an insurance policy or benefit. Such a right depends upon the statute and not upon the terms of a separation agreement. Also the right to receive deductions had no bearing upon the question, since upon retirement no one had any right to deductions.-Kriedler v. Kreidler, 1 Misc. 2d 85, 146 S 2d 160 [1955].

**CASE NOTES**

¶ 1. Where the Board of Trustees denies an application for accident disability pension by a tie vote based on the procedural practice set forth in Matter of City of New York v. Schoeck, 294 N.Y. 559, a reviewing court may set aside that determination only if it can conclude as a matter of law that the disability was the natural and proximate result of a service related accident. Although the Board of Trustees is not bound by the determination of the medical board on the issue of causation, it may, at its discretion, rely on the medical board's opinion. So long as there is no indication that the medical board disregarded the proper rule of causation, the Board of Trustees is not required to conduct an independent investigation as to whether a service related accident precipitated the development of a latent condition or aggravated a pre-existing condition. Shedd v. Board of Trustees of the New York City Fire Dept., 177 A.D.2d 632, 575 N.Y.S.2d 336 (2nd Dept. 1991).

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-254 Safeguards on disability retirement.

a. Once each year the board may, and upon his or her application shall, require any disability pensioner, under the minimum age or period for service retirement elected by him or her, to undergo medical examination. Such examination shall be made at the place of residence of such beneficiary or other place mutually agreed upon. Upon the completion of such examination the medical board shall report and certify to the board whether such beneficiary is or is not totally or partially incapacitated physically or mentally and whether he or she is or is not engaged in or able to engage in a gainful occupation. If the board concurs in a report by the medical board that such beneficiary is able to engage in a gainful occupation, he or she shall certify the name of such beneficiary to the appropriate civil service commission, state or municipal, and such commission shall place his or her name as a preferred eligible on such appropriate lists of candidates as are prepared for appointment to positions for which he or she is stated to be qualified. Should such beneficiary be engaged in a gainful occupation, or should he or she be offered city-service as a result of the placing of his or her name on a civil service list, such board shall reduce the amount of his or her disability pension and his or her pension-for-increased-take-home-pay, if any, to an amount which, when added to that then earned by him or her, or earnable by him or her in city-service so offered him or her, shall not exceed the current maximum salary for the title next higher than that held by him or her when he or she was retired. Should the earning capacity of such beneficiary be further altered, such board may further alter his or her pension and his or her pension-for-increased-take-home-pay, if any, to an amount which shall not exceed the rate of pension and his or her pension-for-increased-take-home-pay, if any, upon which he or she was originally retired but which, subject to such limitation, shall equal, when added to that

earnable by him or her, the current maximum salary for the title next higher than that held by him or her when he or she was retired. The provisions of this section shall be executed, any provision of the charter or the code to the contrary notwithstanding.

b. Should any disability pensioner, under the minimum age or period for service retirement elected by him or her, refuse to submit to one medical examination in any year by a physician or physicians designated by the medical board, his or her pension and his or her pension-for-increased-take-home-pay, if any, may be discontinued until his or her withdrawal of such refusal. Should such refusal continue for one year, all his or her rights in and to such pension and his or her pension-for-increased-take-home-pay, if any, may be revoked by such board.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-255 Retirement allowances; for service.

Upon retirement for service, a member shall receive a retirement allowance which shall consist of:

1. An annuity based on his or her required annuity savings at the termination of his or her required minimum period of service, and in addition, a pension which when added to the annuity shall be equal to one-half of his or her annual earnable compensation on the date of retirement, for his or her minimum period of service. For the purpose only of determining the pension portion of the retirement allowance for minimum service, the member's annuity shall be computed as it would be, (a) if it were not reduced by the actuarial equivalent of any outstanding loan, (b) if it were not increased by the actuarial equivalent of any additional contributions, (c) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, (d) as it would be without any optional modification;

2. For each additional year of service in the police force, or fraction thereof, beyond his or her required minimum service, a member shall be entitled to, in addition to the benefits provided in subdivision one of this section:

(a) a pension of one-sixtieth of his or her average annual earnings from his or her date of eligibility for retirement to the actual date of retirement; and

(b) a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for all periods of such service in the police force rendered both (1) after the completion of such required minimum service in such police force and (2) after December thirty-first, nineteen hundred sixty-six.

3. For each year, or fraction thereof, of service credit transferred from the New York city employees' retirement system, a pension of fiftyfive per cent of one-sixtieth of his or her final compensation if such service credit was for service rendered prior to October first, nineteen hundred fifty-one, or seventy-five per cent of one-sixtieth of his or her final compensation if such service was rendered subsequent to October first, nineteen hundred fifty-one.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-256 Vested retirement rights.

a. Any member who:

(1) discontinues police service on or after July first, nineteen hundred sixty-nine, other than by death, retirement or dismissal; and

(2) prior to such discontinuance, completed five or more years of allowable police service; and

(3) does not withdraw his or her accumulated deductions in whole or in part; and

(4) at least thirty days prior to the date of such discontinuance, files a duly executed application for a deferred retirement allowance hereunder; shall have a vested right to receive a deferred retirement allowance as provided in this section.

b. (1) Upon such discontinuance under the conditions and in compliance with the provisions of subdivision a of this section, such deferred retirement allowance shall vest automatically.

(2) Such retirement allowance shall become payable on the earliest date on which such discontinued member could have retired for service if discontinuance had not occurred.

c. Such deferred retirement allowance shall consist of:

(1) an annuity which is the actuarial equivalent of an amount equal to the member's accumulated deductions for the period of his or her police service, plus any accumulated contributions transferred to his or her credit pursuant to section forty-three of the retirement and social security law, as the total of such accumulated deductions and contributions is on the earliest date on which such member could have retired for service; and

(2) a pension, which together with his or her annuity shall be equal to:

(i) in the case of any discontinued member whose minimum period for service retirement is twenty years, two and one-half per cent of his or her annual earnable compensation on the date of his or her discontinuance of police service, multiplied by a number equal to the number of years of allowable police service credited to him or her on the date of such discontinuance, plus the number of his or her years of service for which credit was transferred pursuant to section forty-three of the retirement and social security law; or

(ii) in the case of any discontinued member whose minimum period for service retirement is twenty-five years, two per cent of his or her annual earnable compensation on the date of his or her discontinuance of police service, multiplied by a number equal to the number of years of allowable police service credited to him or her on the date of his or her discontinuance of police service, plus the number of years of his or her service for which credit was transferred pursuant to section forty-three of the retirement and social security law; and

(3) for each year, or fraction thereof, of his or her service credit transferred from the New York city employees' retirement system, a pension of fifty-five per cent of one-sixtieth of his or her final compensation if such service credit was for service rendered prior to October first, nineteen hundred fifty-one, or seventy-five per cent of one-sixtieth of his or her final compensation if such service was rendered on or after October first, nineteen hundred fifty-one.

d. For the purpose only of determining the pension portion of such retirement allowance pursuant to paragraphs one and two of subdivision c of this section, the annuity referred to in such paragraph one shall be computed as it would be (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage and (4) as it would be without any optional modification.

e. Regular interest on the accumulated deductions of a discontinued member and on his or her reserve-for-increased-take-home-pay shall be credited after discontinuance of police service at the rate which would be applicable if he or she had not discontinued service.

f. If a discontinued member dies before attaining the earliest age at which he or she could have retired for service if discontinuance had not occurred, his or her accumulated deductions shall be paid (1) to the beneficiary designated by him or her pursuant to section 13-243 of this subchapter to receive his or her accumulated deductions in the event that such deductions were to become payable under such section, or (2) if such member had made no such designation, to his or her estate.

g. A discontinued member may elect any option under section 13-261 of this subchapter at any time prior to the first payment on account of his or her retirement allowance under this section.

h. Withdrawal of accumulated deductions, in whole or in part, after discontinuance of police service, shall terminate the right to a deferred retirement allowance under this section.

i. If a discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently re-enter police service before the earliest date on which such discontinued member could have retired for service if discontinuance had not occurred, he or she shall be entitled to the service credit and status to which he or she

was entitled immediately prior to his or her discontinuance of police service and shall be credited with regular interest on his or her accumulated deductions and his or her reserve-for-increased-take-home-pay from the time of such discontinuance to the time of his or her re-entry into service, at the rate which would have been applicable if he or she had not discontinued service.

j. (1) If a discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently and on or after the earliest date on which such discontinued member could have retired for service if discontinuance had not occurred, re-enter police service, the payment of his or her pension only shall be suspended and forfeited during the period of such police service, except as herein otherwise provided.

(2) Such member may again become a member of the pension fund if, within ninety days after his or her return to service, he or she files a duly executed and acknowledged application for such membership.

(3) If such beneficiary shall again become a member of the pension fund, the payment of his or her annuity shall also be suspended and forfeited and his or her annuity reserve shall be transferred to his or her credit in the annuity savings fund and he or she shall become such member as a new entrant; provided, however, that he or she shall contribute to such fund at the rate (before modification, if any, to which such discontinued member may be entitled pursuant to section 13-226 of this subchapter) at which he or she would have been contributing if he or she had not discontinued police service. Upon his or her subsequent retirement, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and he or she shall receive therefor a retirement allowance, payable in such form as he or she shall select under section 13-261 of this subchapter, consisting of:

(i) an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of such retirement; and

(ii) a pension equal to one-sixtieth of his or her average annual earnings from the date of his or her re-entry into membership to the date of his or her subsequent retirement, multiplied by the number of years of his or her allowable service in the police force rendered by him or her from such date of re-entry; and

(iii) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for the period of his or her allowable service in the police force rendered by him or her from such date of re-entry.

(4) In addition, upon his or her subsequent retirement, he or she shall receive the pension which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(5) In lieu of suspension during restoration to police service of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension, any such beneficiary may pay to the fund or funds from which his or her ordinary pension was payable, the amount by which his or her ordinary pension exceeded the optional pension heretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment was suspended.

k. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in the pension fund who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the pension fund shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-243 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. a amended chap 659/1999 § 6, eff. Feb. 4, 2000 and applicable only to members who discontinue service on or after Feb. 4, 2000.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-257 Retirement allowances; for ordinary disability.

Upon retirement for ordinary disability, a member shall receive a retirement allowance which shall consist of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. A pension, which, together with his or her annuity and the pension-providing-for-increased-take-home-pay, if any, shall be equal to:

a. In the case of a member who contributes on the basis of retirement after twenty years of city-service, a retirement allowance equal to one-fortieth of his or her annual earnable compensation on the date of retirement multiplied by the number of years of city-service credited to him or her, but not less than (i) one-half of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are ten or more, or (ii) one-third of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are less than ten; or

b. In the case of a member who contributes on the basis of retirement after twenty-five years of city-service, a retirement allowance equal to one-fiftieth of his or her annual earnable compensation on the date of retirement, multiplied by the number of years of city-service credited to him or her, but not less than (i) one-half of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are ten or more, or (ii) one-third of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are less than ten; or

c. (1) In the case of a member who contributes on the basis of retirement at age fifty-five the retirement allowance that would be payable to him or her after a like amount of total-service and annual earnable compensation on the date of retirement, had he or she attained his or her minimum age for service retirement if such retirement allowance exceeds one-quarter of his or her annual earnable compensation on the date of retirement; otherwise,

(2) The retirement allowance not exceeding one-quarter of his or her annual earnable compensation on date of retirement, that would be paid to him or her were his or her service and present annual earnable compensation on the date of retirement to continue until attainment by him or her of his or her minimum age of service retirement.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-258 Retirement allowances; for accident disability.

Upon retirement for accident disability, a member shall receive a retirement allowance which shall consist of:

1. An annuity, which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. A pension, of three-quarters of his or her annual earnable compensation on the date of retirement, in addition to the annuity and pension provided for by subdivisions one and two of this section.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-259 Accidental disability benefits in the case of retirements prior to July first, nineteen hundred sixty-five.

a. Notwithstanding the provisions of section 13-258 of this subchapter, in any case where a retirement allowance was or is awarded under the provisions of such section, by reason of the retirement for accidental disability of a member occurring before July first, nineteen hundred sixty-five, such retirement allowance shall not be less than three-fourths the annual salary or compensation payable to a first grade patrolman on July first, nineteen hundred sixty-five. In the case of a member receiving a lesser retirement allowance than three-fourths the annual salary or compensation of a first grade patrolman as of July first, nineteen hundred and sixty-five, there shall be added to the pension portion of his or her retirement allowance an amount which when added to his or her retirement allowance provided for under section 13-258 of this subchapter, shall equal three-fourths the annual salary or compensation payable to a first grade patrolman as of July first, nineteen hundred and sixty-five. For the purpose of computing the annuity portion of such retirement allowance, his or her accumulated deductions shall be the required amount of such deductions at the time of his or her retirement from the police force, without any increase resulting from excess contributions and without any decrease resulting from withdrawals, loans, optional modification, payment of his or her contributions for old age and survivors insurance coverage, or from any other transaction authorized by law.

b. Such retirement allowance shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to terminations, as the retirement allowance which would otherwise be payable to the member under section 13-258 of this subchapter or any other law.

c. The retirement allowance payable pursuant to the provisions of subdivisions a and b of this section shall be in lieu of any retirement allowance which would otherwise be payable on and after the effective date of this section pursuant to the provisions of section 13-258 of this subchapter.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-260 Retirement allowances; restrictions on.

a. If a lump sum which has been paid or which is payable under the provisions of the workers' compensation law equals or exceeds the present value of all amounts otherwise payable out of moneys provided or to be provided by the city under the provisions of this subchapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this subchapter. If such lump sum be a percentage less than one hundred per cent of the present value of all such amounts, there shall be paid as it becomes due under the provisions of this subchapter, in lieu of each amount otherwise payable, an amount equal to the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

b. If an amount which is payable throughout a period under the provisions of the workers' compensation law equals or exceeds the amounts otherwise payable during the same period out of the moneys provided or to be provided by the city under the provisions of this article on account of the same disability of the same person, no payment shall be made to such person under the provisions of this subchapter during such period nor thereafter, until the total amount of such omitted payments, together with the regular interest which they would have accumulated, equals the amount paid under the workers' compensation law, together with the regular interest which it would have accumulated. If an amount which is payable throughout a period under the provisions of the workers' compensation law be a percentage less than one hundred per cent of the amounts otherwise payable during the same period out of moneys provided or to be provided by the city under the provisions of this subchapter on account of the same disability of the same person, there shall be paid during such period as it becomes due under the provisions of this subchapter, in lieu of each amount

otherwise payable, the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

c. No decision of the workers' compensation board shall be binding on the medical board or on the board in the determination of eligibility of a claimant for an accident disability or an accidental death benefit.

d. Notwithstanding any of the foregoing provisions of this section or any other law to the contrary, pending the final determination of a claim for workers' compensation benefits, the board may authorize payment of all or any part of the benefits which are payable under this subchapter and to which any of the foregoing provisions of this section apply, and in that event the pension fund shall be entitled to reimbursement out of the unpaid installment or installments of compensation due under the workers' compensation law provided that claim therefor is filed with the workers' compensation board, together with proof of the fact and amount of payment.

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-261 Retirement; options in which retirement allowances may be taken.

a. Until the first payment on account of any benefit is made, except pursuant to the provisions of section 13-261.2 of this subchapter, the beneficiary, or, if such beneficiary is an incompetent, then the husband or wife of such beneficiary, or, if there be no husband or wife, a committee of the estate, may elect to receive such benefit in a retirement allowance payable throughout life, or the beneficiary or the husband or wife or committee so electing may then elect to receive the actuarial equivalent at that time of his or her annuity, his or her pension, or his or her retirement allowance in a lesser annuity or a lesser pension or a lesser retirement allowance, payable throughout life with the provision that:

Option 1. If he or she die before he or she has received in payments the present value of his or her annuity, his or her pension, or his or her retirement allowance, as it was at the time of his or her retirement, the balance shall be paid to his or her legal representatives or to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board.

Option 2. Upon his or her death, his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 3. Upon his or her death, one-half of his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 4. Upon his or her death, some other benefit or benefits shall be paid to such other person or persons as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate, provided such other benefit or benefits, together with such lesser annuity, or lesser pension, or lesser retirement allowance, shall be certified by the actuary to be of equivalent actuarial value to his or her annuity, his or her pension or his or her retirement allowance, and shall be approved by such board.

b. For purposes of this section, the terms "pension" and "retirement allowance" shall be deemed to include the pension-providing-for-increased-take-home-pay, if any.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-261.1 Modified Option 1 pension computation formula.

a. The board may by resolution direct that under such circumstances as are designated in such resolution, benefits under Option 1 which consist of or are derived from the pension component of a retirement allowance and which are payable to or on account of members who:

(1) became members prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this section; and

(2) retired or retire, on or after August first, nineteen hundred eighty-three, for service or superannuation or for ordinary or accident disability, or on or after such August first, discontinued or discontinue service so as to become a discontinued member;

shall be determined under the modified Option 1 pension computation formula (as defined in subdivision twenty-eight of section 13-214 of the code).

b. If the board makes a direction, pursuant to the provisions of subdivision a of this section, for use of such formula, it may also direct by resolution:

(1) that any member who is subject to the modified Option 1 pension computation formula may elect, at such

time and in accordance with such procedures as are prescribed in such resolution, that such formula shall not apply to such member and that the initial reserve determined for the purpose of providing the benefits payable by reason of his or her selection of Option 1 and the pension component of his or her Option 1 allowance shall be determined on the basis of gender-neutral mortality tables and regular interest of seven per centum per annum, compounded annually; and

(2) that the benefit payable, upon the death of the member making such election, to his or her beneficiary or estate shall be the difference between such Option 1 initial reserve and the total of the payments of such pension component received by or payable to such member for the period prior to his or her death; and

(3) that where any member subject to the modified Option 1 pension computation formula retired before the effective date of the board resolution adopted pursuant to subdivision a of this section, and where the first payment on account of the retirement allowance of any discontinued member subject to such formula was made before the effective date of such resolution, such retiree or discontinued member, within such period of time after such effective date and in accordance with such procedures as are prescribed in such resolution, may elect the method of Option 1 benefit determination set forth in the preceding paragraphs of this subdivision b.

c. In any case, where, pursuant to board resolution, a benefit is required to be determined under the modified Option 1 pension computation formula and the determination of such benefit is also required by a board resolution adopted pursuant to sub-item (3) of item (A) of subparagraph (ii) of paragraph (g) of subdivision eight of section 13-214 of the code to reflect different computations of separate portions of such benefit, the methods of computation under the modified Option 1 pension computation formula shall be appropriately adjusted so as to give effect to the provisions of such resolution adopted pursuant to such sub-item (3).

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-261.2 Death of applicant before effective date of retirement.

a. If a member who is otherwise eligible for retirement pursuant to sections 13-251 and 13-252 of this subchapter dies within thirty days after the filing with the pension board of the application for retirement pursuant to section 13-251 or 13-252 of this subchapter and it is established that the physical or mental impairment or incapacitation of the applicant specified in such application was directly related to the cause of the applicant's death, such application shall be approved by the pension board effective one day before the date of the applicant's death, provided, however, that:

1. if a member is entitled to an ordinary disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-251 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-243 of this subchapter, in which event the greater benefit shall be payable; or

2. if a member is entitled to an accidental disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-252 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-244 of this subchapter, in which event the greater benefit shall be payable.

b. Notwithstanding any law to the contrary, for the purpose of electing an option pursuant to section 13-261 of this subchapter, the pension board shall notify the surviving spouse of any applicant described in subdivision a of this

section, or, if no such spouse exists, the personal representative of the estate of such applicant of the right of election pursuant to said section 13-261 and such surviving spouse or personal representative of such estate may elect any such option within thirty days after receipt of such notice.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-262 Benefits upon re-entry into membership; after retirement.

a. (1) Should a beneficiary receiving or entitled to receive a retirement allowance under the provisions of section 13-246, 13-247 or 13-248 of this subchapter, re-enter city service, his or her retirement allowance and his or her pension-providing-for-increased-take-home-pay, if any, shall cease.

(2) If he or she had not served the period of service elected by him or her or is under the minimum service retirement age elected by him or her, he or she shall again become a member of the pension system. Except as otherwise provided in paragraph three of this subdivision a, if he or she has served the minimum period of service elected by him or her or has attained the minimum service retirement age elected by him or her he or she may file a duly executed and acknowledged application therefor within ninety days after his or her return to service and thereupon again become a member of such fund.

(3) In the case of any such beneficiary who is appointed police commissioner or a deputy police commissioner, he or she shall again become a member of the pension system and shall remain such a member while serving as police commissioner or deputy police commissioner.

(4) The annuity reserve of any such member whose membership is restored as above provided in this section shall be transferred to his or her credit in the annuity savings fund, and he or she shall contribute to such fund as if he or she were a new entrant.

(5) Upon the subsequent retirement of any such member whose membership is so restored, he or she shall be credited with all his or her service as a member subsequent to his or her last restoration to membership, and shall receive a retirement allowance therefor as if he or she were a new entrant, payable in such form as he or she shall select under section 13-261 of this subchapter.

(6) In lieu of suspension during restoration to city-service of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension and the pension-providing-for-increased-take-home-pay, if any, a beneficiary may pay to the fund or funds from which his or her ordinary pension and his or her pension-providing-for-increased-take-home-pay, if any, were payable, the amount by which his or her ordinary pension and the pension-providing-for-increased-take-home-pay, if any, exceeded the optional pension and the pension-providing-for-increased-take-home-pay, if any, heretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment were suspended.

(7) In addition, upon his or her subsequent retirement, he or she shall receive the pension and the pension-providing-for-increased-take-home-pay, if any, which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

b. (1) Subject to the provisions of paragraph two of this subdivision, where any beneficiary mentioned in subdivision a of this section, other than a beneficiary serving as police commissioner or deputy police commissioner, shall have earned at least five years of member credit for service in the police force after restoration to active service, and where any beneficiary serving as police commissioner or deputy police commissioner shall have earned at least three years of member credit for service during restoration to membership pursuant to this section, the total service credit to which he or she was entitled at the time of his or her earlier retirement may, at his or her election, again be credited to him or her and upon his or her subsequent retirement he or she shall be credited in addition with all member service earned by him or her subsequent to his or her last restoration to membership.

(2) Such total service credit to which he or she was entitled at the time of his or her earlier retirement shall be credited as provided in paragraph one of this subdivision b only in the event that he or she returns to the pension fund with regular interest the actuarial equivalent of the amount of the retirement allowance he or she received; provided, however, that in the event that such amount is not so repaid, the actuarial equivalent thereof shall be deducted from his or her subsequent retirement allowance.

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-267.1 Excess benefit plan.

a. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(1) "Retirement benefits" shall mean benefits payable to a beneficiary by the pension fund or a variable supplements fund established pursuant to subchapter three or four of this chapter which are subject to the limitations imposed by section 415(b) of the Internal Revenue Code.

(2) "Beneficiary" shall mean a person who is receiving retirement benefits from the pension fund.

(3) "Excess benefit plan" shall mean the excess benefit plan established by this section for the sole purpose of paying benefits as permitted under section 415(m) of the Internal Revenue Code.

(4) "Eligible participant" shall mean a beneficiary who is entitled to replacement benefits from the excess benefit plan for a plan year in accordance with subdivisions d and e of this section.

(5) "Replacement benefits" shall mean the benefits payable by the excess benefit plan to an eligible participant as determined pursuant to subdivision e of this section.

(6) "Internal Revenue Code" shall mean the Federal Internal Revenue Code of 1986, as amended.

(7) "Plan year" shall mean the limitation year of the pension fund as provided in section six hundred twenty of the retirement and social security law.

b. There is hereby established an excess benefit plan, the sole purpose of which shall be to provide replacement benefits, as permitted by section 415(m) of the Internal Revenue Code, to beneficiaries whose annual retirement benefits have been reduced because such benefits exceed the limitations imposed by section 415(b) of the Internal Revenue Code. The excess benefit plan shall be administered by the board of trustees of the pension fund.

c. There is hereby established a fund to be known as the excess benefit fund which shall be maintained for the sole purpose of providing replacement benefits to eligible participants in the excess benefit plan established by this section, as permitted under section 415(m) of the Internal Revenue Code. Such fund shall consist of such employer contributions as shall be made thereto pursuant to subdivision f of this section. Such contributions to the excess benefit fund shall be held separate and apart from the assets held by the other funds of the pension fund, provided, however, that the assets of the excess benefit fund may be invested with the other pension fund assets, but such excess benefit fund assets shall be accounted for separately from the other pension fund assets.

d. All beneficiaries of the pension fund whose retirement benefits for a plan year are being reduced because of section 415(b) of the Internal Revenue Code shall be eligible participants in the excess benefit plan for that plan year. Participation in the excess benefit plan shall be determined for each plan year. No beneficiary of the pension fund shall be an eligible participant in the excess benefit plan for any plan year for which his or her retirement benefits are not reduced because of section 415(b) of the Internal Revenue Code.

e. (1) For each plan year in which a beneficiary is an eligible participant in the excess benefit plan, such eligible participant shall receive replacement benefits from the excess benefit plan equal to the difference between the full amount of the retirement benefits otherwise payable to the eligible participant for that plan year prior to any reduction because of section 415(b) of the Internal Revenue Code, and the retirement benefits payable to the eligible participant for that plan year as reduced because of section 415(b) of the Internal Revenue Code. No replacement benefits for any plan year shall be paid pursuant to this subdivision to any beneficiary who is not receiving retirement benefits from the pension fund for that plan year.

(2) Replacement benefits pursuant to this section shall be paid at the same time and in the same manner as the retirement benefits which are being replaced. At no time shall an eligible participant be permitted directly or indirectly to defer compensation under the excess benefit plan.

f. (1) The required employer contributions to the excess benefit fund for each plan year shall be an amount, as determined by the actuary, which is necessary to pay the total amount of replacement benefits that are payable pursuant to this section to eligible participants for that plan year.

(2) Such required employer contributions shall be paid into the excess benefit fund from an allocation of the employer contribution amounts paid pursuant to section 13-228 of this subchapter and other applicable provisions of law. Such allocation of employer contribution amounts shall be paid into the excess benefit fund at such times and in such amounts as determined by the actuary.

(3) The benefit liabilities of the excess benefit plan shall be funded on a plan year to plan year basis, provided, however, that any employer contributions to the excess benefit fund, including any investment earnings on such contributions, which are not used to pay replacement benefits for the current plan year shall be used to pay replacement benefits for future plan years.

g. The right of an eligible participant to receive replacement benefits pursuant to this section, and the replacement benefits received pursuant to this section, shall be exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment or any other process whatsoever, and shall be unassignable, except as otherwise specifically provided for benefits payable by the pension fund.

h. Nothing contained in this section shall be construed to mean or imply that variable supplements payments from a variable supplements fund established pursuant to subchapter three or four of this chapter constitute pension or retirement allowance payments, or that any such variable supplements fund constitutes a pension or retirement system or fund.

i. Nothing contained in this section shall be construed as affecting in any way the eligibility of any person for variable supplements pursuant to applicable provisions of subchapter three or four of this chapter.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 3*7 [POLICE OFFICER'S VARIABLE SUPPLEMENTS FUND]

§ 13-268 Definitions.

As used in this subchapter, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

1. "Variable supplements fund". The police officer's variable supplements fund established by this subchapter.

1-a. "Minimum period". The minimum period of credited service which a member of pension fund, subchapter one or pension fund, subchapter two is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

1-b. "Police officer". A member of either pension fund referred to in subdivision one-a of this section who, at the time of retirement for service by reason of fulfillment of the minimum period, was not a police superior officer as defined in subdivision four of section 13-278 of subchapter four of this chapter.

2. "Association". The patrolmen's benevolent association of the city of New York.

3. "Fiscal year". Any year commencing with the first day of July and ending with the thirtieth day of June next following.

4. "Board". The board of trustees provided for in section 13-270 of this subchapter.

5. "Pension fund beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund, subchapter one or pension fund, subchapter two and as a police officer.

6. "Variable supplement". Any sum authorized to be paid to a pension fund beneficiary pursuant to the provisions of this subchapter.

7. "Pension fund, subchapter one". The New York police department pension fund maintained pursuant to subchapter one of chapter two of this title.

8. "Pension fund, subchapter two". The New York police department pension fund maintained pursuant to subchapter two of chapter two of this title.

Subds. 1-a, 1-b added chap 247/1988 § 1

Subds. 5, 6 amended chap 247/1988 § 2

**DERIVATION**

Formerly § B18-60.0 added chap 876/1970 § 1

**CASE NOTES**

¶ 1. Petitioner is a former police officer retired with a disability. As such he is not a "pension fund beneficiary" as defined in § 13-268(5), because he is not "retired for service". This makes him ineligible for these supplemental payments. Petitioner asserts this clause is discriminatory because he contributed to the police pension fund for 22 years and is ineligible for variable supplements simply because of his disabled status. Distinction between service and disability retirees is an economic one. Allocation of Variable Supplements Fund payments are based on rational and reasonable classification. Ryan v. Board of Trustees, 138 Misc. 2d 826 [1988].

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 3*7 [POLICE OFFICER'S VARIABLE SUPPLEMENTS FUND]

§ 13-269 Police officer's variable supplements fund.

a. There is hereby established a fund, to be known as the police officer's variable supplements fund. Such fund shall consist of such monies as may be paid thereto from pension fund, subchapter two, pursuant to the provisions of sections 13-232 and 13-232.1 of this chapter and all other monies received by such fund from any other source pursuant to law.

b. It is hereby declared by the legislature that the police officer's variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, shall be made in accordance with the provisions of this subchapter, to eligible pension fund beneficiaries as a supplement to benefits received by them under subchapter one or two of chapter two of this title. The legislature hereby reserves to the state of New York and itself the right and power to amend, modify or repeal any or all of the provisions of this subchapter.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 3*7 [POLICE OFFICER'S VARIABLE SUPPLEMENTS FUND]

§ 13-270 Board of trustees.

a. The variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law and to the prior approval of the board of estimate, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

b. Such board shall consist of:

1. The representative of the mayor who is a member of the board of trustees of pension fund, subchapter two, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

2. The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of pension fund, subchapter two, may be authorized by the comptroller, in accordance with the provisions of such subdivision b, to act in the place of the comptroller as a member of the board.

2-a. The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in his

or her place at meetings of the board, in the event of such commissioner's absence therefrom.

3. Two members of the association designated by it, who shall each be entitled to cast one vote. The members so designated shall be officers of the association who are members of the board of trustees of pension fund, subchapter two. Each such designee may at any time, by written authorization filed with the board, authorize any other officer of the association to act in his or her place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the by-laws or constitution of the association provide for the designation of a representative for such purpose.

c. Every act of the board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

d. The actuary appointed pursuant to section 13-121 of the code shall be the technical advisor of the board.

e. (1) As of June thirtieth of the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and as of June thirtieth of each succeeding fiscal year, the actuary referred to in subdivision d of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding paragraphs of this subdivision e.

(2) The actuary shall base such annual valuation of liabilities only (A) upon the person who, as of each such June thirtieth, are pension fund beneficiaries and (B) upon the persons who, being police officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as police officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of pension fund beneficiaries and number of police officers in service as of June thirtieth who will retire for service with twenty or more years of service creditable toward the minimum period, shall be adopted by the board on the recommendation of the actuary.

(4) For the purposes of such annual valuation of the assets of the variable supplements fund, such assets shall be valued at their fair market value as of each June thirtieth.

f. The police commissioner shall assign to the board such number of clerical and other assistants as may be necessary for the performance of its functions.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 3*7 [POLICE OFFICER'S VARIABLE SUPPLEMENTS FUND]

§ 13-271 Payment of supplemental benefits.

a. (1) The variable supplements fund shall pay variable supplements to pension fund beneficiaries in accordance with the provisions of the succeeding paragraphs of this subdivision a.

(2) Subject to the provisions of paragraphs three and four of this subdivision a, and the provisions of subpragraphs (i) and (ii) of paragraph one of subdivision b of this section, for the period from January first, nineteen hundred eighty-eight to December thirty-first, nineteen hundred eighty-eight, variable supplements shall be payable monthly for each month of eligibility therefor under the provisions of this subchapter and the benefit plan and payment resolution as in effect immediately prior to July first, nineteen hundred eighty-eight:

(i) to persons who, having retired on or before June thirtieth, nineteen hundred eighty-eight, were or are pension fund beneficiaries eligible for monthly payments with respect to such period from January first, nineteen hundred eighty-eight to December thirty-first, nineteen hundred eighty-eight, or a part thereof, under such prior law, benefit plan and resolution; and

(ii) to persons who, as of June thirtieth, nineteen hundred eighty-eight, were in service as members of the police pension fund, subchapter two and who retired during the period from July first, nineteen hundred eighty-eight to November thirtieth, nineteen hundred eighty-eight so as to become pension fund beneficiaries who would be entitled, if such prior law, plan and resolution were in effect for such period, to receive monthly payments thereunder for such

period from such July first or a part thereof.

(3) The number of full calendar months in the calendar year nineteen hundred eighty-eight for which each such pension fund beneficiary referred to in paragraph two of this subdivision a is entitled to receive monthly payments under such prior law, plan and resolution in accordance with the provision of such paragraph two shall be multiplied by one-twelfth of the sum of twenty-five hundred dollars.

(4) The total of the monthly amounts payable to each such pension fund beneficiary for full calendar months in such calendar year under the provisions of such paragraph two shall be subtracted from the applicable product computed pursuant to paragraph three of this subdivision a.

(5) Subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, on or about December fifteenth, nineteen hundred eighty-eight, the variable supplements fund shall pay to each such eligible beneficiary referred to in paragraph two of this subdivision a, an amount equal to the remainder resulting from the subtraction prescribed by paragraph four of this subdivision, as applicable to such pension fund beneficiary.

(6) Nothing contained in the preceding paragraphs of this subdivision a shall be construed as entitling any pension fund beneficiary therein described to any payment for any month in which the retirement or death of such pension fund beneficiary occurred or occurs.

(7) For calendar years succeeding December thirty-first, nineteen hundred eighty-eight, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each pension fund beneficiary who retired prior to July first, nineteen hundred eighty-eight, variable supplements payments as follows:

(i) for each calendar year following calendar year nineteen hundred eighty-eight, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| Calendar Year | Supplement |
|---|---|
| 1989 | $ 3,000 |
| 1990 | $ 3,500 |
| 1991 | $ 4,000 |
| 1992 | $ 4,500 |
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |
| 1995 | $ 6,000 |
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(ii) for the calendar year of the beneficiary's death (for those pension fund beneficiaries who die on or after

February first, nineteen hundred eighty-nine), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph (i) of this paragraph seven, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(8) For calendar years succeeding December thirty-first, nineteen hundred eighty-eight, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each person who, as of June thirtieth, nineteen hundred eighty-eight, was in service as a member of pension fund, subchapter two and who retired for service thereafter so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) for the calendar year of retirement (for those beneficiaries who retire on or after January first, nineteen hundred eighty-nine), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph (i) of paragraph seven of this subdivision a, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph (i) of such paragraph seven, which payment shall be made on or about December fifteenth of such year;

(iii) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred eighty-nine), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph (i) of such paragraph seven, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under (i) and (iii) above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(9) The variable supplements fund, subject to the provisions of subparagraphs (i) and (iii) of paragraph one of subdivision b of this section, shall pay to each person who becomes a member of pension fund, subchapter two on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) (A) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs before January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(B) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs on or after January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twelve thousand dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) subject to the provisions of subparagraph (ii-a) of this paragraph, for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) | SUPPLEMENT |
|---|---|

| | |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based component and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(ii-a) for each calendar year which occurs both after the year of retirement and after December thirty-first, two thousand seven (but not including the calendar year of the beneficiary's death), notwithstanding any provision of subparagraph (ii) of this paragraph which otherwise would be applicable, a single annual payment of twelve thousand dollars, which payment (A) shall be in lieu of any other amount which otherwise would be payable under subparagraph (ii) of this paragraph for such calendar year and (B) shall be made on or about December fifteenth of such year; (iii) (A) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and prior to January first, two thousand eight, an amount calculated in accordance with the formula which would apply to the year of death under subparagraph (ii) of this paragraph nine if such death had not occurred, but prorated on the basis of the number of full calendar months the beneficiary lived during the year of death prior to the month of his or her death;

(B) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and in the calendar year two thousand eight or thereafter, an amount calculated by multiplying one-twelfth of twelve thousand dollars by the number of months the beneficiary lived during the year of death prior to the month of his or her death; and

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

b. (1) (i) Subject to the provisions of subparagraphs (ii), (iii) and (iv) of this paragraph one, on or after July first, nineteen hundred eighty-eight, where a pension fund beneficiary is entitled to receive variable supplements payments pursuant to subdivision a of this section, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after July first, nineteen hundred eighty-eight (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any pension fund beneficiary referred to in paragraph two or paragraph seven or paragraph eight of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand

seven.

(iii) For any pension fund beneficiary referred to in paragraph nine of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the earlier of (1) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs or (2) January first, two thousand eight.

(iv) In any case where the reduction of variable supplements payments to a pension fund beneficiary has ceased pursuant to subparagraph (ii) or subparagraph (iii) of this paragraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such subparagraph (ii) or subparagraph (iii).

(v) The payment of all variable supplements payable pursuant to subdivision a of this section are hereby made obligations of the city, and the city hereby guarantees that such supplements shall be paid to all eligible pension fund beneficiaries.

(2) The legislature hereby declares that the variable supplements authorized by this subchapter and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any pension fund beneficiary or with any member of pension fund, subchapter one or pension fund, subchapter two; and

(ii) shall not constitute a pension or retirement allowance or benefit under pension fund, subchapter one or pension fund, subchapter two or otherwise.

(3) Except as otherwise provided in sections 13-232 and 13-232.1 of this chapter, nothing contained in this subchapter shall create or impose any obligation on the part of pension fund, subchapter one or pension fund, subchapter two or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this subchapter or for any purpose thereof.

c. Pension fund beneficiaries shall be eligible to receive variable supplements pursuant to this subchapter, notwithstanding any other provision of law to the contrary.

d. The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this subchapter, except that they may be invested as authorized by section 13-273 of this subchapter.

e. In addition to the payments set forth in paragraphs eight and nine of subdivision a of this section, there shall be paid to each pension fund beneficiary, on or about the December fifteenth next succeeding his or her date of retirement, an amount equal to the variable supplements payments, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, that he or she would have received, had he or she retired on the date of his or her earliest eligibility for service retirement, in the period measured from (1) the later of (i) such earliest eligibility date and (ii) January 1, 2002, and (2) his or her date of retirement.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 4*8 [POLICE SUPERIOR OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-278 Definitions.

As used in this subchapter, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

1. "Variable supplements fund". The police superior officers' variable supplements fund established by this subchapter.

1-a. "Minimum period". The minimum period of credited service which a member of pension fund, subchapter one or pension fund, subchapter two is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

1-b. "Police officer". A member of either pension fund referred to in subdivision one-a of this section who, at the time of retirement for service by reason of fulfillment of the minimum period, was not a police superior officer.

2. "Fiscal year". Any year commencing with the first day of July and ending with the thirtieth day of June next following.

3. "Board". The board of trustees provided for in section 13-280 of this subchapter.

4. "Police superior officer". Any member of the uniformed force of the police department who (a) hold the

position of sergeant or any position of higher rank in such force, or (b) is a detective.

5. "Pension fund beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund, subchapter one or pension fund, subchapter two and as a police superior officer.

6. "Variable supplement". Any sum authorized to be paid to a pension fund beneficiary pursuant to the provisions of this subchapter.

7. "Pension fund, subchapter two". The New York police department pension fund maintained pursuant to subchapter two of chapter two of this title.

8. "Pension fund, subchapter one". The New York police department pension fund maintained pursuant to subchapter two of this title.

SUBCHAPTER 4*8 [POLICE SUPERIOR OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-279 Police superior officers' variable supplements fund.

a. There is hereby established a fund, to be known as the police superior officers' variable supplements fund. Such fund shall consist of such monies as may be paid thereto from pension fund, subchapter two, pursuant to the provisions of sections 13-232, 13-232.2 and 13-232.3 of this chapter and all other monies received by such fund from any other source pursuant to law.

b. It is hereby declared by the legislature that the police superior officers' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, shall be made in accordance with the provisions of this subchapter, to eligible pension fund beneficiaries as a supplement to benefits received by them under subchapter one or two of this chapter. The legislature hereby reserves to the state of New York and itself the right and power to amend, modify or repeal any or all of the provisions of this subchapter.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 4*8 [POLICE SUPERIOR OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-280 Board of trustees.

a. The variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law and to the prior approval of the board of estimate, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

b. Such board shall consist of:

1. The representative of the mayor who is a member of the board of trustees of pension fund, subchapter two, who shall be entitled to cast two votes. The mayor may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

2. The comptroller of the city, who shall be entitled to cast two votes. Any deputy comptroller authorized, pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of pension fund, subchapter two, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the board.

2-a. The commissioner of finance, who shall be entitled to cast two votes. Such commissioner may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to

act in his or her place at meetings of the board, in the event of such commissioner's absence therefrom.

3. Four representatives of the police superior officers, who shall each be entitled to cast one vote, and who shall be the four members of the board of trustees of pension fund, subchapter two, serving as such pursuant to paragraphs nine, ten, eleven and twelve of subdivision a of section 13-216 of this chapter.

c. Every act of the board shall be by resolution adopted only by a vote of at least six-tenths of the whole number of votes authorized to be cast by all of the members of such board.

d. The actuary appointed pursuant to section 13-121 of the code shall be the technical advisor of the board.

e. (1) As of June thirtieth of the nineteen hundred ninety-two-nineteen hundred ninety-three fiscal year and as of June thirtieth of each succeeding fiscal year, the actuary referred to in subdivision d of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding paragraphs of this subdivision e.

(2) The actuary shall base such annual valuation of liabilities only (A) upon the persons who, as of each such June thirtieth, are pension fund beneficiaries and (B) upon the persons who, being police officers or police superior officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as police superior officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of pension fund beneficiaries and number of police officers and police superior officers in service as of June thirtieth who will retire for service as police superior officers with twenty or more years of service creditable toward the minimum period, shall be adopted by the board on the recommendation of the actuary.

(4) For the purposes of such annual valuation of the assets of the variable supplements fund, such assets shall be valued at their fair market value as of each such June thirtieth.

f. The police commissioner shall assign to the board such number of clerical and other assistants as may be necessary for the performance of its functions.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 4*8 [POLICE SUPERIOR OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-281 Payment of supplemental benefits.

a. (1) The variable supplements fund shall pay variable supplements to pension fund beneficiaries in accordance with the provisions of the succeeding paragraphs of this subdivision a.

(2) For calendar years succeeding December thirty-first, nineteen hundred ninety-two, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each pension fund beneficiary who retired prior to July first, nineteen hundred eighty-eight, and to each person who, having been in service as a member of pension fund, subchapter two on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-three so as to become a pension fund beneficiary, varible supplements payments as follows:

(i) for each calendar year following calendar year nineteen hundred ninety-two, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| Calendar Year | Supplement |
|---|---|
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |

| | |
|---|---|
| 1995 | $ 6,000 |
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(ii) for the calendar year of the beneficiary's death (for those pension fund beneficiaries who die on or after February first, nineteen hundred ninety-three), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph (i) of this paragraph two, by the number of full calendar months the beneficiary lives during that calendar year prior to the month of his or her death.

(3) For calendar years succeeding December thirty-first, nineteen hundred ninety-two, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each person who, as of June thirtieth, nineteen hundred eighty-eight, was in service as a member of pension fund, subchapter two and who retired for service on or after January first, nineteen hundred ninety-three, so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph (i) of paragraph two of this subdivision a, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph (i) of such paragraph two, which payment shall be made on or about December fifteenth of such year;

(iii) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-three), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph (i) of such paragraph two, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(4) The variable supplements fund, subject to the provisions of subparagraphs (i) and (iii) of paragraph one of subdivision b of this section, shall pay to each person who became or becomes a member of pension fund, subchapter two on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) (A) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement,

where such retirement occurs before January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(B) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs on or after January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twelve thousand dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) subject to the provisions of subparagraph (ii-a) of this paragraph, for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) | SUPPLEMENT |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2,500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3,000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based component and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(ii-a) for each calendar year which occurs both after the year of retirement and after December thirty-first, two thousand seven (but not including the calendar year of the beneficiary's death), notwithstanding any provision of subparagraph (ii) of this paragraph which otherwise would be applicable, a single annual payment of twelve thousand dollars, which payment (A) shall be in lieu of any other amount which otherwise would be payable under subparagraph (ii) of this paragraph for such calendar year and (B) shall be made on or about December fifteenth of such year;

(iii) (A) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and prior to January first, two thousand eight, an amount calculated in accordance with the formula which would apply to the year of death under subparagraph (ii) of this paragraph if such death had not occurred, but prorated on the basis of the number of full calendar months the beneficiary lived during the year of death prior to the month of his or her death;

(B) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and in the calendar year two thousand eight or thereafter, an amount calculated by multiplying one-twelfth of twelve thousand dollars by the number of months the beneficiary lived during the year of death prior to the month of his or her death; and

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

b. (1) (i) Subject to the provisions of subparagraphs (ii), (iii) and (iv) of this paragraph one, on or after January first, nineteen hundred ninety-three, where a pension fund beneficiary is entitled to receive variable supplements payments pursuant to subdivision a of this section, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-three (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such otther supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any pension fund beneficiary referred to in paragraph two or paragraph three of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any pension fund beneficiary referred to in paragraph four of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) the earlier of (1) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs or (2) January first, two thousand eight.

(iv) In any case where the reduction of variable supplements payments to a pension fund beneficiary has ceased pursuant to subparagraph (ii) or subparagraph (iii) of this paragraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such subparagraph (ii) or subparagraph (iii).

(v) The payments of all variable supplements payable pursuant to subdivision a of this section are hereby made obligations of the city, and the city hereby guarantees that such supplements shall be paid to all eligible pension fund beneficiaries.

(2) The legislature hereby declares that the variable supplements authorized by this subchapter and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any pension fund beneficiary or with any member of pension fund, subchapter one or pension fund, subchapter two; and

(ii) shall not constitute a pension or retirement allowance or benefit under pension fund, subchapter one or pension fund, subchapter two or otherwise.

(3) Except as otherwise provided in sections 13-232, 13-232.2 and 13-232.3 of this chapter, nothing contained in this subchapter shall create or impose any obligation on the part of pension fund, subchapter one or pension fund, subchapter two or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this subchapter or for any purpose thereof.

c. Pension fund beneficiaries shall be eligible to receive variable supplements pursuant to this subchapter, notwithstanding any other provision of law to the contrary.

d. The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this subchapter, except that they may be invested as authorized by section 13-283 of this subchapter.

e. In addition to the payments set forth in paragraphs three and four of subdivision a of this section, there shall be paid to each pension fund beneficiary, on or about the December fifteenth next succeeding his or her date of retirement, an amount equal to the variable supplements payments, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, that he or she would have received, had he or she retired on the date of his or her earliest eligibility for service retirement, in the period measured from (1) the later of (i) such earliest eligibility date and (ii) January 1, 2002, and (2) his or her date of retirement.

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-301 Definitions.

As used in this subchapter the following terms shall mean and include:

1. "Member." A person who was an officer, member or probationary member of the uniformed force of the department at the time when this section shall take effect.

2. "Board of trustees." The board of trustees provided for in section 13-302 of this subchapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B19-1.0 added LL 3/1940 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. The 1940 amendment to Admin. Code § 319-6.0, subd. a, so as to provide that the Board of Trustees of the pension fund shall pay a pension to the widow of any deceased member of the uniformed forces, did not affect the rights

of the widow of a person who had ceased to be a member of the Department 25 years before the amendment took effect, inasmuch as § B19-1.0 which forms part of the 1940 amendment, defines a "member" as a person who was a member of the force at the time the section took effect.-Gilshion v. Walsh, 183 Misc. 172, 53 N.Y.S. 2d 564 [1944].

¶ 2. That the old New York City Fire Department Pension Fund Law was repealed and a new statute enacted in 1940 before any action was taken by the trustees of the fund on the medical report respecting petitioner's proposed retirement, did not render such report ineffective nor preclude the trustees from thereafter acting upon it, since Local Law No. 3 of 1940, § 5, contained an express saving clause, the effect of which was to continue pending proceedings, and in any event such result would follow under the rule of statutory construction relating to statutes simultaneously repealed and re-enacted, and which are substantial re-enactments of the prior law.-In re Balacek (Bd. of Trustees of Fire Department Pension Funds), 26 N.Y.S. 2d 419 [1941], rev'd on other grounds, 263 App. Div. 712, 30 N.Y.S. 2d 1007 [1941], aff'd 288 N.Y. 640, 43 N.E. 2d 740 [1942].

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-302 Board of trustees.

a. A board of trustees shall be the head of the New York fire department pension fund and, subject to the provisions of law and to the prior approval of the board of estimate, from time to time shall establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof. Such board shall consist of:

1. The fire commissioner who shall be chairperson of the board and who shall be entitled to cast three votes.

2. The comptroller of the city who shall be entitled to cast three votes.

3. A representative of the mayor who shall be appointed by the mayor and who shall be entitled to cast three votes.

4. The commissioner of finance of the city who shall be entitled to cast three votes.

5. The president of the uniformed firemen's association of greater New York who shall be entitled to cast two votes.

6. The vice-president of the uniformed firemen's association of greater New York who shall be entitled to cast two votes.

7. The treasurer of the uniformed firemen's association of greater New York who shall be entitled to cast two votes.

8. The chairperson of the board of trustees of the uniformed firemen's association of greater New York who shall be entitled to cast two votes.

9. Three elected members of the executive board of the uniformed fire officers' association of the fire department, city of New York, of whom one shall be an officer of the said department with rank above that of captain and shall be entitled to cast one vote; another shall be a captain of the said department and shall be entitled to cast one vote; another shall be a lieutenant of the said department and shall be entitled to cast one and one-half votes.

10. The president of the uniformed pilots and marine engineers association, fire department, city of New York, who shall be entitled to cast one-half vote.

b. Every act of the board of trustees shall be by resolution which shall be adopted only by a vote of at least seven-twelfths of the whole number of votes authorized to be cast by all of the members of such board.

c. The board of trustees shall receive all moneys applicable to such fund and deposit the same to the credit of such fund, in banks or trust companies to be selected by it, and continue to receive and deposit the funds applicable to the same, as received, to the credit of such fund, and shall have full power to invest the same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks, and, subject to like terms, conditions, limitations and restrictions, such board of trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of the funds provided for by this subchapter shall have been invested as well as of the proceeds of such investments and of any moneys belonging to such fund, and such board of trustees shall have the power to make all necessary contracts and to take all necessary remedies in the premises.

d. The fire commissioner shall assign to the board of trustees a sufficient number of clerical and other assistants to permit the board efficiently to exercise their powers and to perform their duties.

e. On or before the first day of September of each year, the board of trustees shall make a detailed verified report to the mayor.

f. Any member of the board referred to in paragraphs five, six, seven, eight and ten, respectively, of subdivision a of this section, shall be members of the uniformed force and may authorize in writing at any time any other officer of the respective associations to represent him or her on such board in the event of his or her absence or disability, provided, however, that the by-laws or constitution of such respective associations provide for the designation of a representative in such event.

g. Notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the duties and responsibilities of the board of trustees of administering the provisions of this subchapter shall be transferred in accordance with the provisions of subdivision f of section 13-312.1 of this subchapter to the board of trustees of the fire department pension fund provided for in subchapter two of this chapter.

Amended LL 21/1946 § 1

Sub f added LL 65/1952 § 1

Sub c amended chap 929/1958 § 1

Sub a par 4 amended chap 100/1963 § 409

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where the Medical Board had found that petitioner member of the uniformed force of the Fire Department was physically disqualified for performance of his duties in the uniformed force, the peremptory statutory duty was imposed upon the board of trustees of the Fire Department Pension Fund to retire the member even though the board could not agree whether such retirement should be on one-half pay on ground the disability was not caused by actual performance of the duties of his position, or whether it should be at three-fourths pay on ground it was so induced. However, since there was no room for discretion in the performance of the board's duty to retire a member who was physically disqualified from performance of his duties, the court might direct the board to retire the member so that he would become entitled to payment of a pension of at least one-half his previous salary, but since there was room for the exercise of discretion in the board's determination of the amount of the salary he should receive, the court could not direct the board to determine that amount which the court might deem wise.-City of N.Y. v. Schoeck, 294 N.Y. 559, 63 N.E. 2d 104 [1945], aff'g 268 App. Div. 979, 51 N.Y.S. 2d 899 [1944].

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-303 Composition.

The New York fire department pension fund shall consist of:

1. The capital, interest, income, dividends,cash deposits, securities and credits in such fund on the first day of January, nineteen hundred forty.

2. All forfeitures and fines imposed by the fire commissioner, from time to time, upon any member or members by way of discipline.

3. All rewards, in money, fees, gifts, testimonials and emoluments that may be paid or given for extraordinary services by any members, except such as have been or shall be allowed by such commissioner, to be retained by such member or members, and such as have been or shall be given to endow a medal or other permanent or competitive reward.

4. All fines and proceeds of suit for penalties under title fifteen and chapter four of title twenty-seven and all license fees payable thereunder which may be paid in from or collected in the boroughs of Manhattan, Brooklyn, Bronx, Queens and Staten Island except as is otherwise provided in section 13-381 of this chapter.

5. All moneys, pay, compensation or salary or any part thereof forfeited, deducted or withheld from any member

or members, for or on account of absence from duty, to be paid semi-monthly to the board of trustees of such fund by the comptroller.

6. All gifts, grants, devises or bequests to such fund of any money, real or personal property, right of property or other valuable thing.

7. All moneys received pursuant to section 11-909 of the code.

8. a. A sum of money equal to but not greater than:

(1) Five per cent of the semi-monthly pay, salary or compensation of each member of the force who shall elect to contribute on the basis of retirement after twenty-five years of service in such force, or

(2) Six per cent of the semi-monthly pay, salary or compensation of each member of the force who shall elect to contribute on the basis of retirement after twenty years of service in such force which sum shall be deducted semi-monthly by the comptroller from the pay, salary, or compensation of each such member and forthwith paid to the board of trustees of such fund. Every member shall be deemed to consent and agree to such deductions and shall receipt in full for his or her pay, salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such member during the period covered by such payment, except his or her claim to the benefits to which he or she may be entitled under the provisions of this subchapter.

b. Each member shall signify in writing to the board of trustees on or before the fifteenth day of May, nineteen hundred forty-one, his or her election to contribute on the basis of retirement either after twenty years of service or after twenty-five years of service.

9. If the amount derived from the above-mentioned sources included in this section shall be insufficient to pay the pensions, allowances, benefits and returns of salary deductions which have been or which may hereafter be granted, it shall be the duty of the commissioner each year at the time of submitting the departmental estimate to the director of the budget, to submit a full and detailed statement of the assets of such fund and the amount required to pay all such sums in full. There shall annually be included in the budget a sum sufficient to provide for such deficiency. The comptroller shall pay the money so provided to the board of trustees.

10. Notwithstanding any other provision of law to the contrary, on and after July first, nineteen hundred ninety-five, the composition of this pension fund shall be as modified by the provisions of section 13-312.1 of this subchapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. 10 added chap 500/1995 § 2, eff. Aug. 2, 1995.

**DERIVATION**

Special provision LL 3/1940 § 2

Sub 8 par b amended LL 14/1941 § 1

Special provision LL 14/1941 § 3

Sub 4 amended LL 130/1952 § 3

Sub 9 amended chap 100/1963 § 410

**CASE NOTES FROM FORMER SECTION**

¶ 1. City fireman's written agreement with the City of New York that the cost of living bonus granted him should not be regarded as salary for the purpose of computing his pension, was supported by consideration in that he was granted an increase which he would otherwise have had no legal right to demand or compel. Moreover, his agreement that the bonus would not be calculated in establishing the amount of his pension was in full conformity with the public policy of the State and the Constitution, which recognizes membership in a retirement system as a "contractual relationship" and thus obviously authorizes agreements with respect thereto.-Carroll v. Grumet, 281 App. Div. 35, 117 N.Y.S. 2d 553 [1952].

¶ 2. The pension statute, which constitutes part of the contract between the parties, leaves open to the City the discretion to fix the salary upon which the amount of an employer's pension is to be computed.-Id.

¶ 3. Art. V, § 7 of the Constitution, making membership in a pension or retirement system a contractual relationship, did not prevent the Board of Estimate from conditioning a cost of living adjustment for employees on the employee agreeing that such adjustment should not be included in pension computations. Moreover, the withholding of consent by any one employee could not prevent the resolution of the Board of Estimate relative to the cost of living adjustment going into effect as to other employees. That a clerk inadvertently gave plaintiff-employee his check including the cost of living adjustment without receiving a signed waiver from him, could not be deemed a waiver by the City of the condition attached to the payment of additional compensation.-Schwartz v. Sampson, 114 N.Y.S. 2d 730 [1952].

¶ 4. Although it would have been preferable that the action of the trustees of the Fire Department Pension Fund in fixing the salary of the plaintiff for pension purposes be reviewed in the Supreme Court, particularly in view of constitutional and other important questions raised, nevertheless the language of the Court of Appeals in a somewhat similar case was susceptible of a construction that an action at law was maintainable to recover a pension wrongfully withheld, and accordingly, in face of such uncertainty, court would determine the matter on the merits.-Id.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-304 Payment of pensions; disability; retirement for service.

a. The board of trustees shall retire any member who, upon an examination, as provided in subdivision d of this section, may be found to be disqualified, physically or mentally, for the performance of his or her duties. Such member so retired shall receive from such pension fund an annual allowance or pension as provided in this section. In every case such board shall determine the circumstances thereof, and such pension or allowance so allowed is to be in lieu of any salary received by such member at the time of his or her being so retired. The department shall not be liable for the payment of any claim or demand for services thereafter rendered, and the amount of such pension or allowance shall be determined upon the following conditions:

1. In case of total permanent disability at any time caused in or induced by the actual performance of the duties of his or her position, the amount of annual pension to be allowed shall be not less than three-fourths of the annual compensation allowed such member as salary at the date of his or her retirement and in the case of a member acting in a higher rank, an amount not to exceed three-quarters of the compensation of such rank on the day such injury was suffered.

1-a. In any case where a member is allowed, pursuant to paragraph one of this subdivision a, a pension equal to but not exceeding three-fourths of the annual compensation allowed such member as salary at the date of his or her retirement, such member shall receive, in addition, the amount of the deductions, without interest, made from his or her pay, salary or compensation pursuant to subdivision eight of section 13-303 of this chapter, such amount to be paid

either in a lump sum or in the form of an annuity which is the actuarial equivalent of such amount of deductions, as the member may elect. Such annuity, if so elected, shall be computed on the basis of the mortality tables adopted pursuant to section 13-321 of this chapter, as in effect on the date of retirement of such member, and on the basis of regular interest.

2. In case of partial permanent disability at any time caused in or induced by the actual performance of the duties of his or her position, which disqualifies him or her only from performing active duty in the uniformed force, the member so disabled shall be relieved by the commissioner from active service at fires and assigned to the performance of such light duties as a medical officer of such department may certify him or her to be qualified to perform, or he or she shall be retired on his or her own application at not less than three-fourths of his or her salary at the date of his or her retirement from the service, on an examination, as provided by subdivision d of this section, showing that his or her disability is permanent.

2-a. Notwithstanding any other provisions of this code to the contrary, any condition of impairment of health caused by diseases of the lung, resulting in total or partial disability or death to a member of the uniformed force, who successfully passed a physical examination on entry into the service of such department, which examination failed to reveal any evidence of such condition, shall be presumptive evidence that it was incurred in the performance and discharge of duty, unless the contrary be proved by competent evidence.

2-b. In any case where a member is allowed, pursuant to paragraph two of this subdivision a, a pension equal to but not exceeding three-fourths of his or her salary at the date of his or her retirement from the service, such member shall receive, in addition, the amount of the deductions, without interest, made from his or her pay, salary or compensation pursuant to subdivision eight of section 13-303 of this chapter, such amount to be paid either in a lump sum or in the form of an annuity which is the actuarial equivalent of such amount of deductions, as the member may elect. Such annuity, if so elected, shall be computed on the basis of the mortality tables adopted pursuant to section 13-321 of this title, as in effect on the date of retirement of such member, and on the basis of regular interest.

3. In case of total permanent disability not caused in or induced by the actual performance of the duties of his or her position, which shall occur after the expiration of ten years' service in such department, but before he or she has performed service in the force for a period greater than the minimum period for service retirement elected by him or her, the amount of annual pension to be allowed shall be one-half of the annual compensation allowed such member at the date of his or her retirement from the service.

4. In case of partial permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur after ten years' service in such department, the member so disabled may be relieved by the commissioner from active service at fires, but shall remain a member of the uniformed force, subject to the rules governing such force, and be assigned to the performance of such light duties as a medical officer of such department may certify him or her to be qualified to perform, or, if such member be retired after the expiration of ten years' service, but before he or she has performed service in the force for a period greater than the minimum period for service retirement elected by him or her, the annual allowance to be paid to such member shall be one-half of the annual compensation allowed such member at the date of his or her retirement from the service.

5. In case of total permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur before the expiration of ten years' service in such department, the amount of annual pension to be allowed shall be one-third of the annual compensation allowed such member at the date of his or her retirement from the service.

6. In case of partial permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur before ten years' service in such department, the member so disabled shall be relieved by the commissioner from active service at fires, but shall remain a member of the uniformed force, subject to the rules governing such force, and be assigned to the performance of such light duties as a medical officer of such department

may certify him or her to be qualified to perform, or, if such member be retired before the expiration of ten years' service, the annual allowance to be paid to such member, shall be one-third of the annual compensation allowed such member at the date of his or her retirement from the service.

b. Any member of such department, who has or shall have performed duty therein for a period of twenty years or upwards, upon a medical examination, as provided in subdivision d of this section, showing that such member is permanently disabled, physically or mentally, so as to be unfit for duty, shall be retired from such force and service, and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund:

1. an annual pension during his or her lifetime, of a sum not less than one-half his or her full salary or compensation at the date of his or her retirement from the service; and

2. if such member is awarded and granted, pursuant to paragraph one of this subdivision b, an annual pension equal to but not exceeding one-half of his or her full salary or compensation at the date of his or her retirement from the service, and if such member, at the time of such retirement, has performed service in the force for a number of years greater than the minimum period for service retirement elected by him or her, an annual pension, in addition to the pension provided for by paragraph one of this subdivision b, which shall be equal to:

(i) one-fortieth of his or her full salary or compensation on the date of his or her retirement from the service, multiplied by the number of years of service in the force performed by him or her after completion of such minimum period of service elected by him or her, if such member elected a minimum period of twenty years; or

(ii) one-fiftieth of his or her full salary or compensation on the date of his or her retirement from the service, multiplied by the number of years of service in the force performed by him or her after completion of such minimum period of service elected by him or her, if such member elected a minimum period of twenty-five years.

c. Any member who:

1. Shall have elected to contribute on the basis of retirement after twenty years of service and who has or shall have performed service in the force for at least twenty years, or

2. Shall have elected to contribute on the basis of retirement after twenty-five years of service and who has or shall have performed service in the force for at least twenty-five years, upon his or her own application in writing to and filed with the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be retired as of the date specified in said application from such force and service, and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund, an annual pension during his or her lifetime, not less than one-half his or her full salary or compensation at the date of his or her retirement from the service, and provided further that at the time so specified for his or her retirement his or her term or tenure of office or employment shall not have terminated or have been forfeited, provided further that upon his or her request in writing the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective.

d. All medical examinations required by or made pursuant to the provisions of this subchapter shall be conducted by a medical board appointed by the commissioner, provided, however, that any member, within thirty days after receipt of the decision of such medical board, in writing may request that the decision of such board be reviewed by a special medical board which shall consist of one doctor of the medical board and a doctor selected and compensated by such member. The decision of such special board shall supersede the decision of the medical board. In the event that the two doctors of the special board shall disagree, a recognized specialist on the condition, disease or injury for which such member has been examined or for which disability is claimed shall be selected by such doctors to be a third member of the special board. The decision of a majority of the three members of such special board shall supersede the decision of the medical board. The specialist selected by the two doctors of the special board shall be compensated by the city. Such compensation shall be fixed by the comptroller and shall be subject to his or her audit.

e. The board of trustees shall have the power to grant, award or pay a pension on account of physical or mental disability or disease, only upon a certificate of a medical board or a special medical board after examination as provided in subdivision d of this section. Such certificate shall set forth the cause, nature and extent of the disability, disease or injury of such member.

f. The granting of a pension on severance from service for fault or delinquency shall not be a matter of right, but such a pension may be granted in consideration of special circumstances by the board of trustees and a vote of at least two-thirds of the whole number of votes authorized to be cast by all of the members of such board.

g. The terms "total permanent disability" and "partial permanent disability" as used in this section may be defined in the rules and regulations of the board of trustees.

h. Notwithstanding any other provision of this code, and in lieu of any lesser amount otherwise provided, any member of the department who has or shall have performed duty therein for a period of at least thirty-five years may elect to be retired and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund, an annual pension during his or her lifetime, of a sum equal to his or her full salary at the date of his or her retirement from service.

i. Except as otherwise provided, the pensions granted under this section shall be for the life of the pensioner, and shall not be revoked, repealed or diminished.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under Greater New York Charter § 790 providing that a retired fireman was entitled to an annual pension of not less than three-quarters of his annual salary upon a finding that his total permanent disability was caused by actual performance of duties of his position, finding of the Medical Board as to whether disability was caused by performance

of duties was not conclusive upon Fire Commissioner but was merely advisory and hence court might review the findings of the Board and of the Commissioner. However, papers upon which review in immediate case was sought were insufficient inasmuch as no facts were set forth and no affidavit of a physician was presented to show that the permanent disability was caused by performance of duties, and as a matter of fact the diagnosis made at hospital and incorporated in moving papers indicated illness, not trauma, as basis of the condition claimed.-Matter of Walsh (McElligott), 169 Misc. 457, 8 N.Y.S. 2d 101 [1938].

¶ 2. A policeman and a fireman retired for service-connected total permanent disability may not be allowed "extra service pension credits".-Lowe v. Police Pension Fund, 141 (68) N.Y.L.J. (4-9-59) 13, Col. 3 F.

¶ 3. Award to fireman of a retirement allowance for ordinary disability rather than for disability in the line of duty was proper where the injury was a cardiac condition and the Board had before it evidence, including hospital records and electrocardiograms upon which it based its judgment.-In re Keogh (Cavanagh), 149 (14) N.Y.L.J. (1-21-63) 15, Col. 4 T.

¶ 4. No statutory provision grants to a member of the Fire Department the right to a formal hearing upon the question of his retirement for physical disability, and consequently, even though a hearing had been accorded a fireman who had been retired, the App. Div. had no power to examine into the question as to whether, under Civil Practice Act § 1296, subds. 6 or 7, the weight of the evidence sustained the determination.-Doherty v. McElligott, 258 App. Div. 257, 16 N.Y.S. 2d 489 [1939].

¶ 5. Where it is demonstrated that the Fire Commissioner or the Medical Board of the Fire Department, in retiring a member of the Fire Department for disability, has acted on false information or through fraud or mistake, or without evidence to support its determination, the member would be entitled to relief under Civil Practice Act, Art. 78, since it would clearly be improper for administrative officials to remove the member from his position by retiring him if there were no basis in fact for such an order.-Id.

¶ 6. In proceeding by fireman for an order under Civil Practice Act, Art. 78, to review determination of Fire Commissioner finding the fireman permanently physically disqualified, petition of fireman alleging that he was making an excellent recovery from his injury, that report of the Medical Board was contrary to the facts and unsupported by any evidence and that no ground existed for his retirement, **held** sufficient, on motion to dismiss for insufficiency, and the Commissioner would be required to make answer to the petition as required by Civil Practice Act, § 1291.-Id.

¶ 7. Fire Commissioner, by failing to answer petition of retired member of Fire Department in proceeding under Civil Practice Act, Art. 78, to review the order of the Commissioner retiring him at half-pay, and by moving under Civil Practice Act § 1293 for an order dismissing the petition for failure to state a cause of action, admitted the facts alleged in the petition, including the allegations that the medical officers and the Commissioner's order based thereon were not founded on fact and were in derogation of valuable property rights which had accrued to petitioner, and were in violation of law, arbitrary, capricious and an abuse of discretion.-Schwab v. McElligott, 282 N.Y. 182, 26 N.E. 2d [1940], rev'g 257 App. Div. 808, 12 N.Y.S. 2d 587 [1939].

¶ 8. In proceeding by member of Fire Department who had been retired at half-pay, for an order seeking reinstatement in the Department or retirement at three-fourths pay on ground his injuries were sustained in performance of duties, petition which alleged that report of the medical officers and order of the Fire Commissioner based thereon were not founded on fact and were in violation of law, arbitrary, and an abuse of any discretion, **held** to state a cause of action, where Commissioner had failed to answer the petition and had admitted the allegations by moving to dismiss the petition, since the courts may review the exercise of discretionary power vested in an administrative officer to determine whether the case discloses circumstances which leave no possible scope for reasonable exercise of discretion in the manner in which it was exercised, and in immediate case it was admitted that Commissioner's acts were arbitrary.-Id.

¶ 9. Fireman, alleging the circumstances of his retirement, that he developed bronchial asthma in performance of

his duty, that he was only partially disqualified so as to prevent him from performing active duty in the uniformed force, that the Fire Commissioner had failed to inquire whether he was able to perform any duties of the uniformed force and had failed to examine into the circumstances in connection with his disqualification, and that his action in retiring him for total permanent disability was in violation of law, arbitrary and capricious, **held** to state a sufficient cause of action in a proceeding under Civil Practice Act Art. 78 for reinstatement and assignment to light duties. Respondents should serve upon the fireman a verified answer containing proper denials and statements of matter, with an opportunity to the fireman to reply thereto, and if a triable issue should be raised proof might be adduced to establish whether there was evidence to sustain the order retiring the fireman.-Id.

¶ 10. Where a report of the Special Medical Board stated that petitioner was "found totally, physically unfit for any duty in the department", and such certificate was based on all the records of prior physical examinations of petitioner made over a six-month period by some 11 physicians, and the finding was amply supported by the reports in the case, the trustees of the Fire Department Pension Fund were fully justified in retiring petitioner as unable to perform any services in the Department, and in refusing to assign him to light duties.-Balacek v. Board of Trustees of Fire Department Pension Fund, 263 App. Div. 712, 30 N.Y.S. 2d 1007 [1941], rev'g 26 N.Y.S. 2d 419 [1941], aff'd without opinion, 228 N.Y. 640, 42 N.E. 2d 740 [1942].

¶ 11. Petitioner, a member of the uniformed force of the Fire Department, **held** entitled to have set aside an order of the Fire Commissioner granting him an indefinite leave of absence without pay as result of the finding of a special medical board, pursuant to Admin. Code § B19-4.0, that petitioner was disqualified physically because of coronary thrombosis not induced in the performance of duty, and the subsequent report of the chief medical officer of the Department who, without further examination, had reported to the Commissioner that petitioner was disqualified for the performance of any duty in the Fire Department. Petitioner had not received the fair and impartial hearing to which he was entitled on the question of his ability to perform light duty, as to which question he was entitled to a jury trial, particularly in view of the claim of a member of the Special Medical Board that he was induced to sign the report because of his reliance on alleged misstatements of the chief medical officer relative to the retirement law.-In re Kullmann (Walsh), 112 (80) N.Y.L.J. (10-4-44) 750, Col. 5 T, modified, 268 App. Div. 980, 51 N.Y.S. 2d 778 [1944], to extent of reinstating determinations of the Medical Boards and directing re-examination before a special medical board, on ground Special Term's finding that petitioner's rights were not properly safeguarded upon the examination was supported by some evidence, 294 N.Y. 557, 63 N.E. 2d 103.

¶ 12. Order annulling determinations of the Fire Department's Medical Board and Special Medical Board in proceeding by a veteran against the Fire Department for reinstatement as a member of the Department, was modified by eliminating a provision directing that he should be continued on sick leave pending the determination at trial of the issues remaining unsettled.-Mack v. Walsh, 268 App. Div. 979, 51 N.Y.S. 2d 901 [1944], modified on other grounds, 294 N.Y. 554, 63 N.E. 2d 102 [1945].

¶ 13. Proceeding seeking to have trustees of the Fire Department Pension Fund "revaluate and determine the petitioner's medical condition" as of time of his retirement, on ground that the Medical Board of the Department was mistaken in its diagnosis of petitioner's ailment, was dismissed on ground petitioner had waived his right to review by a special medical review board pursuant to Admin. Code § B19-4.0 when he chose not to avail himself of such review, and moreover the proceeding was not commenced within four months from the determination as required by C.P.A. § 1286.-Heiberger v. Monaghan, 126 (29) N.Y.L.J. (8-10-51) 234, Col. 7 M.

¶ 14. Petitioner, seeking an order directing the Fire Commissioner to restore him to his former position as lieutenant in the Fire Department, from which position he was removed for alleged disability, **held** entitled to a jury trial of issues raised by the petition and answer, where some members of the Medical Board of the Fire Department believed that petitioner's injuries might have been caused by the active performance of his duties, and this appeared to be a fair inference from the record submitted to the court. Petitioner should be given an opportunity by cross-examination to probe into the reasoning behind the opinion of the majority of the Medical Board.-Schwab v. McElligott, 175 Misc. 840, 26 N.Y.S. 2d 364 [1941].

¶ 15. Petitioners were retired for disability after more than 20 years of service. The Special Medical Board found that their disabilities were service incurred. The Board of Trustees divided evenly on the question of whether the disabilities were service incurred. As a result the petitioners were retired at only one-half salary, instead of at three-quarters salary. **Held,** The Board of Trustees had discretion to accept or reject the findings of the Medical Board. In the absence of a majority vote by the Board of Trustees that the disabilities were service connected, petitioners were entitled to only one-half salary.-Matter of Pilkington, 12 N.Y. 2d 888, 237 N.Y.S. 2d 998, 188 N.E. 2d 264 [1962].

¶ 16. If the Fire Commissioner's determination that respondent fireman was totally permanently disqualified by bronchial asthma and that such disqualification was a nonservice-connected disability was correct, the Commissioner's direction that respondent be retired from the Department at one-third pay was proper, where the disability occurred before the end of ten years' service, and court should then not have directed his reinstatement to light duties at full pay. However, if respondent could establish that his disability was caused by continuous exposure to smoke, fire, cold and wetness in the performance of his duties, then his pension should be not less than three-fourths of his salary.-Maresca v. McElligott, 262 App. Div. 179, 28 N.Y.S. 2d 280 [1941].

¶ 17. Fireman claiming right to disability pension for pulmonary disorders allegedly caused by inhalation of smoke, was required to show that such injury was a predominant cause of disability and not merely a secondary contributing cause, which it would seem to be in the present case.-Cullen v. McElligott, 101 (134) N.Y.L.J. (6-10-39) 2689, Col. 4 M.

¶ 18. Where medical board of Fire Department found that petitioner's claimed disability did not exist, mere existence of a contrary opinion on part of petitioner's physician was an insufficient basis for interference by the court with the finding of the medical board.-In re Bondy (McElligott), 102 (114) N.Y.L.J. (11-16-39) 1655, Col. 1 F, aff'd without opinion, 261 App. Div. 896, 26 N.Y.S. 2d 315 [1941].

¶ 19. Where petitioner had been retired as permanently disabled by the Fire Commissioner by reason of blindness in one eye due to cataract, and the medical board had found that his injury was not caused by performance of his duties but such opinion was based upon the statement of the board's medical officer and included in his report was the opinion of an oculist stating that he would consider his disability to have been caused in line of duty inasmuch as constant heat was known to cause cataract, and the board had refused petitioner the opportunity to present the opinions of eye specialists, there was presented an issue as to whether the board had acted arbitrarily. Hence petitioner was entitled to an order, in the alternative, for a trial of the issue before a jury.-Siefring v. McElligott, 103 (92) N.Y.L.J. (4-19-40) 1781, Col. 4 M.

¶ 20. The Board of Trustees is not bound by the findings of the Medical Board as to the "circumstances" of a disability and must make a finding as to whether or not the disability was service-incurred. Thus, where the Medical Board and a Special Medical Board found that the disability was not incurred in the performance of the petitioner's duties, and the Board of Trustees were deadlocked, the Court could not make its own determination of the "circumstances" nor could it direct the Board of Trustees to accept the Medical Board's finding. The ordinary rule as to trustees has no application where, as here, the powers and duties of the Board of Trustees are defined and regulated by statute. The Court directed that the petitioner be retired at one-half pay until the Board should, by resolution, determine the cause of his disqualification.-Matter of City of New York (Schoeck), 294 N.Y. 559, 63 N.E. 2d 104 [1945].

¶ 21. Fireman who, after more than 20 years service had met with an accident in the course of performance of his duty which resulted in a permanent partial disability and his assignment to light duty pursuant to Admin. Code § B19-4.0, subd. 2, might not be retired pursuant to subd. b of § B19-4.0, which permits retirement of a permanent disabled member of the department who has had 20 years' service. Retirement under subd. b would be at half pay, and would penalize the member as he could have elected, upon suffering his disability, to retire at three-fourths pay instead of accepting employment at light duty.-Breen v. Bd. of Trustees of N.Y. Fire Dept. Pension Fund, 299 N.Y. 8, 85 N.E. 2d 161 [1949], rev'g 273 App. Div. 689, 79 N.Y.S. 2d 548 [1948], aff'g 190 Misc. 661, 74 N.Y.S. 2d 442 [1947].

¶ 22. While it is the duty of the Board of Trustees of the Fire Department Pension Fund to determine the circumstances of the disability of a member of the Department, and whether it was incurred in the performance of duty, it was nevertheless their duty to accept the Medical Board's determination as to the nature and extent of the disability and whether it disqualified the member for performance of his duties. The Medical Board's determination in this respect is final and binding on the trustees. However, the determination must be the result of an examination by a medical board duly appointed or selected in the manner prescribed by statute.-In re Shaw (Quayle), 120 (97) N.Y.L.J. (11-19-48) 1215, Col. 2 T, aff'd 275 App. Div. 758, 88 N.Y.S. 2d 894 [1949].

¶ 23. Where, after Medical Board had disapproved petitioner's application for retirement based on an alleged permanent disability of his right hand permanently disabling him from performing active duty, the Special Medical Board disagreed as to whether the mild deformity of petitioner's little finger disqualified him for performance of his duties and thereupon a traumatic surgeon was chosen as a third or neutral member of the Special Board, the majority report thereupon rendered certifying that petitioner was mentally and physically disqualified for performance of active duty by reason of a psychoneurosis and causalgia of the little finger, **held** properly rejected by the Board of Trustees, as the third member of the board had been selected as a recognized specialist on traumatic surgery and not as a neuro-psychiatrist.-Id.

¶ 24. Court would not upset action of Board of Trustees which, by tie vote, refused to retire heart attack victim at three-quarters pay and issue was whether disability was service connected.-Feibusch v. Thompson, 153 (18) N.Y.L.J. (1-27-65) 15, Col 1 F.

¶ 25. A finding that the rights of the petitioner were not properly safeguarded upon the examination by the Special Medical Board, required that a new examination be had. The Medical Board had determined that petitioner was disqualified but that the disability was not caused in the performance of duty. Thereafter, a Special Medical Board made the same determination. The Commissioner, thereupon, placed petitioner on indefinite leave of absence without pay. The Court of Appeals directed a new examination by the Special Medical Board but otherwise affirmed a lower court order including the act of the Commissioner in placing the petitioner on leave of absence without pay.-Matter of Kullman (Walsh), 294 N.Y. 557, 63 N.E. 2d 103 [1945].

¶ 26. Members of the Fire Department may retire at three-quarters of their annual salary for service connected disability but only upon a resolution to that effect by a vote of at least seven-twelfths of the board of trustees. The board voted to retire but divided 12-12 on the question of service connected disability and petitioner was retired at half-pay. Argument that where the board of trustees failed to reach a determination by a seven-twelfths vote the opinion of the Special Medical Board shall control is rejected. Such opinion has been held to be merely advisory.-Matter of Pilkington (Cavanagh), 145 (30) N.Y.L.J. (2-14-61) 14, Col. 1 T.

¶ 27. Where deceased member of the Fire Department had designated his mother and father as the beneficiaries of his life insurance benefit, and his father had predeceased him, the designation lapsed and the father's share would go to the widow pursuant to Admin. Code § B19-8.0, subd. d, as the designation of the mother and father was as individuals and not as a class, and they took as tenants in common and shared distributively and not collectively.-Cuchal v. Walsh, 185 Misc. 1008, 59 N.Y.S. 2d 435 [1945], modified 186 Misc. 131, 60 N.Y.S. 2d 776 [1945], aff'd 270 App. Div. 1001, 63 N.Y.S. 2d 828 [1946].

¶ 28. Propriety of act of Fire Commissioner as sole trustee of the Fire Department's Pension Fund in retiring member of the Department at an allowance greatly in excess of one-half pay, **held** not triable by the court notwithstanding the charge that the application for retirement was granted in anticipation of the effect of new pension laws and that the present Commissioner had not theretofore granted any pensions in excess of one-half pay. There was no showing that the Commissioner in fixing the pension did so in bad faith or in fraud of the rights of the City or other beneficiaries of the Pension Fund, the gist of the complaint being that the duty cast on the Commissioner, as trustee, was not properly exercised in the particular case.-Heffernan v. McGoldrick, 259 App. Div. 671, 20 N.Y.S. 2d 341 [1940].

¶ 29. Under § 791 of the Former Greater New York Charter, the Fire Commissioner was authorized or required to stop pension payments to a widow whenever there was a showing to him of misconduct by her so grave as, in his judgment to call for such action, and whether such a revocation should be ordered was a matter for the Commissioner's discretion, and the exercise thereof was not subject to court review.-Curtin v. Dorman, 293 N.Y. 505, 58 N.E. 2d 515 [1944].

¶ 30. Even if the widow, whose pension was revoked for alleged misconduct, had rights such as to entitle her to an opportunity to appear before the Commissioner and state her side of the case, she was not barred from relief in the courts because she had waited several years before bringing suit after exhausting her efforts to see the Fire Commissioner. Even before the enactment of C.P.A. § 1286 in 1937, the courts had for years prior to that applied to mandamus proceedings a four-month period of limitations.-Id.

¶ 31. A retired New York City fireman may not have his pension recomputed on the ground that a "cost-of-living" bonus should have been treated as part of his "full salary or compensation" where more than three months before he retired, he had received the bonus and voluntarily executed an agreement with the City, that it would not constitute salary for the purpose of computing his pension. Under the agreement, neither the City nor the petitioner was required to make payment into the pension system on account of such additional compensation.-Matter of Carroll (Grumet), 281 App. Div. 35, 117 N.Y.S. 2d 553 [1952].

¶ 32. Article 78 proceeding brought by fireman who was retired for nonservice connected disability to set aside his retirement and for reinstatement was barred by four month limitation where determination to retire him had been made at a meeting of the Board of Trustees of the pension fund on June 21, 1967 and this proceeding was commenced on December 7. Court also found that petitioner was not denied due process because he was not permitted to have counsel appear before the pension board. Matter of Stokes (City of N.Y.), 160 (61) N.Y.L.J. (9-25-68) 2, Col. 8 T.

¶ 33. Determination of Trustees of the Fire Department Pension Fund that back injuries due to a fall were not service connected was reversed as factually unfounded although petitioner had a back injury prior to entering the fire department.-In re Skeele (Board of Trustees, Fire Dept. Pension Fund), 165 (47) N.Y.L.J. (3-1-71) 17, Col. 1 M.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-305 Service-incurred disability benefits in the case of retirements prior to July first, nineteen hundred sixty-five.

a. Notwithstanding the provisions of section 13-304 of this chapter, in any case where a pension was awarded under the provisions of such section, or any predecessor section, by reason of the retirement of a member for disability caused or induced by the actual performance of the duties of his or her position, prior to July first, nineteen hundred sixty-five, such member shall be entitled to a pension of not less than three-fourths the annual salary or compensation payable to a first grade fireman as of July first, nineteen hundred sixty-five. In the case of any member receiving a pension less than three-fourths the annual salary or compensation of a first grade firefighter as of July first, nineteen hundred sixty-five, his or her pension will be increased to an amount which will equal three-fourths the annual salary or compensation of a first grade fireman as of July first, nineteen hundred sixty-five.

b. Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination as the pension which would otherwise be payable under section 13-304 of this chapter or any other law.

c. The pension payable under this section shall be in lieu of any pension which would otherwise be payable to the member under section 13-304 of this chapter.

d. Nothing in this chapter shall be construed as creating any rights on behalf of any person who dies prior to October twenty-seventh, nineteen hundred sixty-six, and benefits due thereunder shall be calculated and paid only from

such date.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-306 Reduction of contributions by members.

a. The mayor, by executive order, adopted prior to the first day of June, nineteen hundred sixty-four, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-four, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-five, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by two and one-half per centum of such pay, salary or compensation of such member.

b. The mayor, by executive order, adopted prior to June nineteenth, nineteen hundred sixty-five, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-five and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-six, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by two and one-half per centum of such pay, salary or compensation of such member.

c. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-six and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-seven, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by two and one-half per centum of such pay, salary or compensation of such member.

d. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may direct that beginning with the payroll period, the first day of which is nearest to July first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by two and one-half per centum of such pay, salary or compensation of such member.

e. (1) Subject to the provisions of paragraph two of this subdivision, beginning with the first full payroll period following January first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that, the first day of which is nearest June thirtieth, nineteen hundred sixty-eight, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by two and one-half per centum of such pay, salary or compensation of such member.

(2) The reduction provided for by paragraph one of this subdivision shall be in addition to any reduction made during the period mentioned in such paragraph one pursuant to subdivision c or d of this section. The amount of the reduction made pursuant to paragraph one of this subdivision in the deductions of any such member for such portion of the period mentioned in such paragraph one as precedes the effective date of this subdivision shall be refunded without interest.

(3) Beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, and ending with the payroll period immediately prior to that the first day of which is nearest June thirtieth, nineteen hundred seventy-one, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by five percentum of such pay, salary or compensation of such member.

f. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by five per centum of such pay, salary or compensation of such member.

g. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred seventy-three, the deduction from the pay, salary or compensation of a member pursuant to the provisions of this subchapter shall be reduced by five per centum of such pay, salary or compensation of such member.

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-307 Extra service pension credits.

Except as provided in subdivisions a and b of section 13-304 of this chapter, a member who has served the minimum period of time elected by him or her for retirement may continue in the service. In such event and upon his or her retirement for any cause whatsoever, there shall be added to his or her annual pension to which he or she shall upon his or her retirement be entitled an additional amount computed at the rate of one-sixtieth of his or her final salary for each year of such additional service. Any such member who has elected to contribute on the basis of retirement after twenty years of service and who thereafter continues in the service shall have his or her deductions made at the rate of five per cent per annum after completing twenty-five years of service.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-309 Payment of pensions; death.

a. The board of trustees of the pension fund shall pay a pension out of such fund to the surviving spouse, child or children or dependent parent or parents of any deceased member of the uniformed force of such department, if the death of such member occur during his or her service in such uniformed force, or after he or she was retired from service in such uniformed force. The amount of any such pension to be paid by the board of trustees to each of the several representatives of such member, in case there shall be more than one, from time to time, may be determined by such board according to the circumstances of each case. The annual allowance to the representative or representatives of such member, however, shall be six hundred dollars, and no part of such sum shall be paid to any such surviving spouse who shall remarry, after such remarriage, or to any child after it shall have reached the age of eighteen years.

b. In case any member of the uniformed force of such department is killed while actually engaged in the performance of duty, or if death ensues, or results from a disease, as the immediate effect of injuries received, the board of trustees of such fund, upon evidence submitted to it, shall have power to decide whether death so occurred and upon such decision shall award to the surviving spouse of such member an annual allowance as a pension, to be paid out of such fund in an amount not to exceed, except as herein provided, one-half of the salary or compensation of such member at the date of his or her decease and in the case of a member acting in a higher rank an amount not to exceed one-half the salary or the compensation of such rank. If such member, dying, leaves no surviving spouse surviving him or her, but leaves a child or children, under the age of eighteen years, or dependent parent or parents, such board shall award to the legal guardian of such child or children, or dependent parent or parents, for its or their support and

maintenance, an annual allowance out of such fund, in an amount not to exceed one-half of the salary or allowance of such member at the date of his or her decease. The amount of such allowance to any surviving spouse shall cease upon his or her death. Such annual allowance shall cease upon the death or marriage of such child, or upon his or her reaching the age of eighteen years. If such payment to the surviving spouse of any such member shall cease by reason of his or her death, such board shall make payments to the child or children, or dependent parent or parents of such member, if any, as though he or she had died without leaving a surviving spouse.

c. (1) Notwithstanding the provisions of subdivision b of this section, in any case where a pension was or is awarded under the provisions of such subdivision, or any predecessor provision by reason of the death of any such member, occurring before July first, nineteen hundred and sixty-five, such pension, subject to the provisions of paragraphs two and three of this subdivision c, shall consist:

(a) For each full calendar year, on and after January first, nineteen hundred and sixty-five, of a sum as a pension to be paid out of such fund and in an amount not to exceed, except as herein provided, one-half of the annual salary or compensation payable, on July first, nineteen hundred and sixty-five, to a member of the uniformed force of rank, seniority, and other salary-determining status, equal to that of the deceased member on the date of his or her decease, but in no case less than one-half of the salary payable to a firefighter first grade on July first, nineteen hundred and sixty-five, and

(b) For any portion of a calendar year, on and after January first, nineteen hundred and sixty-five, the appropriate pro rata portion of the amount which would be payable, under the provisions of subparagraph (a) of this paragraph one, for the full calendar year which includes such portion of a year, if a pension were payable under this subdivision c for such full calendar year.

(2) Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination, as the pension which would otherwise be payable, on and after January first, nineteen hundred and sixty-five, pursuant to subdivision b of this section or any applicable predecessor provision, by reason of the death of such member.

(3) The pension payable pursuant to the provisions of paragraphs one and two of this subdivision c shall be in lieu of any pension which would otherwise be payable on or after January first, nineteen hundred sixty-five, pursuant to the provisions of such subdivision b, or predecessor provision, and, except as otherwise provided in paragraph one of subdivision e of section 13-686 of this chapter, shall be in lieu of any supplemental retirement allowance which would otherwise be payable, on and after such date, under the provisions of subchapter six of chapter five of this title or any other law.

Sub c par 3 amended LL 994/1973 § 4

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where it was found that the fireman had come to his death as the result of a disease which was the immediate effect of injuries sustained in performance of his duties, Fire Commissioner's denial of a full pension to his widow was arbitrary, entitling her to peremptory mandamus order.-Sheridan v. McElligott, 97 (135) N.Y.L.J. (6-11-37) 2947, Col. 3 F.

¶ 2. This section imposes a duty upon the Board of Trustees to award a pension upon a determination of a service-connected death and that determination is reviewable by the courts. In any event, since the Board exercised the power given it by the Code and denied the petitioner's application, there was a clear right of review. Matter of Sheridan v. McElligott (278 N.Y. 59) distinguished.-Matter of Martucci, 18 App. Div. 2d 3, 237 N.Y.S. 2d 818 [1963].

¶ 3. Upon the rehearing of an application for a service-connected death award the petitioner was not entitled to a complete adversary procedure.-Id.

¶ 4. C.P.A. § 1286, providing that a proceeding "to compel performance of a duty specifically enjoined by law" must be commenced within four months after respondent's refusal upon demand to perform his duty, **held** not to bar proceeding by widow of deceased fireman to compel Fire Commissioner to grant widow a pension, notwithstanding Commissioner's refusal to grant pension took place on December 14, 1936 and proceeding was not commenced by widow until September, 1937. However, if court were not bound by precedent **it would be inclined** to view that widow had no right to a pension at time C.P.A. § 1286 was enacted, in view of fact that Greater New York Charter § 791 appears to make granting of pension discretionary with Fire Commissioner, and hence widow, having no right to pension, could not have lost any right by enactment of § 1286 and no valid reason would then exist for refusing to apply such section.-In re Murtagh (McElligott), 98 (91) N.Y.L.J. (10-18-37) 1203, Col. 5 M.

¶ 5. Fire Commissioner was vested with discretionary powers to deny a pension in the first instance to widow of former fireman, and his decision would not be disturbed by the Court in absence of arbitrary action.-In re Gilmartin (McElligott), 101 (98) N.Y.L.J. (4-28-39) 1955, Col. 4 F.

¶ 6. Action of Fire Commissioner in denying pension to widow of former fireman **held** not to have been arbitrary where such widow was a foreigner, was married to the deceased fireman fifteen years after his retirement from the department, was married to him only ten months and never was a resident or citizen of the United States, was the owner of a farm assumed to be conducted profitably, had four adult children by a former marriage, and no such destitution was shown for which the fund was created and no satisfactory explanation was made of the delay of ten years in bringing the proceeding.-Id.

¶ 7. The Court will not overrule or set aside a tie vote decision of the Board of Trustees refusing to overrule a finding by a Special Medical Board that the death of a fireman 10 years after a fire was not service-incurred.-Matter of Mandracchia, 36 Misc. 2d 936, 234 N.Y.S. 2d 22 [1962].

¶ 8. A fireman died of aortic insufficiency and rheumatic heart disease. Ten years before his death, he had experienced severe chest pains while releasing the bow line on a fireboat. He suffered from a rheumatic heart condition when he was appointed. **Held,** the fireman's death was not "immediate" within the meaning of this section and his widow was not entitled to a pension.-Mandracchia v. Cavanagh, 147 (120) N.Y.L.J. (6-21-62) 10, Col. 5 F.

¶ 9. Under the statute plaintiff's right to a pension rested in the discretion of the trustees of the relief fund, so that neither of the parties claiming the pension as widow was entitled to it as a matter of right, except to extent that plaintiff was declared the deceased's widow and his duly designated beneficiary.-Imbrioscia v. Quayle, 278 App. Div. 144, 103 N.Y.S. 2d 593 [1951], aff'd 303 N.Y. 841, 104 N.E. 2d 378 [1952].

¶ 10. The refusal of the Board of Trustees to grant a pension application in 1943 was not unreasonable where the widow of the deceased fireman was confined to a State institution for the insane and as such was a public charge requiring no pension for her support. The children of the deceased fireman were all over 18 years of age and under § 791 had no right to receive a pension. Contention that the Board of Trustees did not deny petitioner's demand for a pension because the vote upon the resolution to grant her relief was 6 to 6, was without merit, since, unless the resolution was affirmatively carried, the Board, by its own inaction, in effect was refusing to comply with petitioner's demand.-Gilshion v. Walsh, 183 Misc. 172, 53 N.Y.S. 2d 564 [1944].

¶ 11. Under Greater New York Charter § 791 authorizing trustee of Relief Fund to pay widow of member of the uniformed service who was killed in the line of duty an amount annually "not to exceed * * * one-half of the salary or compensation of such officer or member at the date of his decease * * *," trustee possessed power to award less than one-half of the salary, and his award of an annual pension in the instant case which was only $350 less than the maximum one-half would not be disturbed for insufficiency.-Seeman v. McElligott, 99 (119) N.Y.L.J. (5-23-38) 2492, Col. 3 M.

¶ 12. Greater New York Charter § 791 merely **empowers** the Fire Commissioner to grant a pension in excess of the minimum pension of $600 therein authorized, and the Commissioner can not be mandamused to exercise his discretion even as to a requested pension of an unspecified amount.-Matter of Monaco (McElligott), 99 (132) N.Y.L.J. (6-8-38) 2767, Col. 3 T.

¶ 13. The 1940 amendment of Admin. Code § B19-6.0, subd. a, so as to provide that the Board of Trustees of the Pension Fund **shall** pay a pension to the widow of any deceased member of the uniformed force, did not affect the rights of the widow of a person who had ceased to be a member of the Department 25 years before the amendment took effect, inasmuch as § B19-1.0, which forms part of the 1940 amendment, defines member as a person who was a member of the force at the time the section took effect.-Gilshion v. Walsh, 183 Misc. 172, 53 N.Y.S. 2d 564 [1944].

¶ 14. Admin. Code § B19-6.0, directing payment of a pension to the widow or other dependent of a deceased member, does not apply to one who was not a member of the force on February 1, 1940, and hence motion for order directing trustees of the Pension Fund to pay pension to widow of deceased member who retired from active service in the Department on April 1, 1921, was denied. The widow's pension rights were governed by § 791 of the Greater New York Charter (278 App. Div. 59).-Mathews v. City of N.Y., 126 (114) N.Y.L.J. (12-14-51) 1650, Col. 3 F.

¶ 15. Under provisions of Greater New York Charter § 791, which was in effect in 1916 when the fireman died, providing that the trustee of the Relief Fund "is authorized and empowered" to pay a pension to the widow of a fireman provided that such pension "may be ordered to cease and terminate at any time if, in the opinion of the trustee, the circumstances should warrant the same", the power of the trustee of the Pension Fund to revoke the pension of a widow was discretionary and immune to judicial review.-Gilshion v. Walsh, 183 Misc. 172, 53 N.Y.S. 2d 564 [1944].

¶ 16. The authorization in § 791 to terminate a widow's pension for improper conduct was intended to apply only to the immediately preceding provisions relating to pensions of widows of members dying in connection with the performance of their duty.-Id.

¶ 17. Determination of Board of Trustees of Fire Department that petitioner failed to establish her status as widow of deceased fireman so as to be entitled to the widow's pension as provided in Admin. Code § B19-6.0, would not be disturbed, as the Board of Trustees had no duty to determine at its peril the validity of the divorce decree obtained by deceased in Mexico after a four months residence there. Burden rested upon petitioner to establish invalidity of the decree and her status as widow by a plenary suit brought for such purpose.-Imbrioscia v. Quayle, 197 Misc. 1049, 96 N.Y.S. 2d 635 [1950], rev'd on ground the evidence established that decedent did not intend to, and had not in fact, established a bona fide domicile in Mexico sufficient to give the Mexican court jurisdiction to grant a divorce, 278 App. Div. 144, 103 N.Y.S. 2d 593 [1951], aff'd 303 N.Y. 841, 104 N.E. 2d 378 [1952].

¶ 18. A proceeding under C.P.A. Art. 78, brought by the first wife of a deceased, retired fireman, seeking to reach certain pension and life insurance funds, was dismissed. Her claim depends upon her ability to establish the invalidity of a Mexican divorce obtained by the decedent, and this she can do only by a plenary suit brought for that purpose. There was no duty upon the Board of Trustees to determine at its peril the status of said divorce. The Board did not err in denying her the life insurance proceeds, since the decedent had made a specific written designation of his second wife as beneficiary thereof. The "cross-petition" of said second wife is in effect a counter-claim, is therefore improper in this proceeding, and is dismissed.-Matter of Imbrioscia v. Quayle, 2 Misc. 2d 327, 91 N.Y.S. 2d 86 [1949].

¶ 19. The plaintiff, the second wife of a deceased, retired City fireman brings this action for declaratory judgment establishing her as the decedent's lawful wife and the rightful claimant to certain pension and insurance funds. Her success depends upon establishing the validity of a Mexican divorce procured by the decedent against his first wife, who also lays claim to the funds in question. While there was some slight testimony that showed that the decedent contemplated remaining permanently in Mexico, the weight of the credible evidence clearly proved that he did not intend to, nor did he in fact, establish a bona fide domicile there so as to give the Mexican court jurisdiction. The judgment in plaintiff's favor is reversed, and judgment is hereby awarded on the counterclaim declaring the first wife to be the lawful widow of the decedent.-Matter of Imbrioscia v. Quayle, 278 A.D. 144, 103 N.Y.S. 2d 593 [1951], aff'd without opinion 303 N.Y. 841, 104 N.E. 2d 378 [1952].

¶ 20. Evidence that, after being separated from his wife some three years, the decedent in 1925 went to Mexico, stating to a co-employee that he thought he could do better in Mexico and that he was not feeling too good and wanted to quit his job, that at the suggestion of the fellow employee he did not resign from his position but obtained an indefinite leave of absence, that he tried hard to find work in Mexico but was unsuccessful, and that when he returned to New York shortly after obtaining the divorce, he was obliged to work in a lesser capacity, **held** to indicate that deceased had intended to settle in Mexico permanently, and accordingly the Mexican divorce obtained by him would be deemed valid and his subsequent marriage to plaintiff sustained, to the extent that she would be declared his legal widow so far as his rights as a retired fireman were concerned. Moreover, the equities were with plaintiff, as she and decedent had lived together for over 20 years, he had been separated and divorced from the former wife for 33 years, and she had never contested the validity of his divorce and remarriage.-Imbrioscia v. Quayle, 278 App. Div. 144, 103 N.Y.S. 2d 593 [1951], aff'd 303 N.Y. 841, 104 N.E. 2d 378 [1952].

¶ 21. In a death benefit proceeding before the Pension Board, petitioner was not entitled to a complete adversary proceeding. However, she was entitled to have the statements made by the chief medical officer and others made under oath, and an opportunity to rebut them.-Martucci v. Fire Dept. Pension Fund, 150 (123) N.Y.L.J. (12-26-63) 7, Col. 1 M.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 1 NEW YORK FIRE DEPARTMENT PENSION FUND

§ 13-312.1 Transfer of assets, liabilities and administration of pension fund, subchapter one to pension fund, subchapter two; payment of certain benefits by pension fund, subchapter two.

a. The following terms, as used in this section, shall have the following meanings unless a different meaning is plainly required by the context:

1. "Pension fund, subchapter one". The fire department pension fund provided for in this subchapter.

2. "Pension fund, subchapter two". The fire department pension fund provided for in subchapter two of this chapter.

3. "Fire subchapter one beneficiary". Any person who is entitled under the laws in effect immediately prior to July first, nineteen hundred ninety-five to receive benefits from pension fund, subchapter one.

b. Subject to the provision of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, all assets held by pension fund, subchapter one shall be transferred to pension fund, subchapter two, and shall be credited to the contingent reserve fund of pension fund, subchapter two.

c. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on and after July first, nineteen hundred ninety-five, all moneys which otherwise would be paid to pension

fund, subchapter one pursuant to the provisions of section 13-303 of this subchapter or any other provision of law, or from any other source whatsoever, shall instead be paid to the general fund of the city established pursuant to section one hundred nine of the charter.

d. Subject to the provision of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, all liabilities of pension fund, subchapter one as of such date, including, but not limited to, liability for the payment of all benefits required under laws in effect immediately prior to such date to be paid on and after such date by pension fund, subchapter one to fire subchapter one beneficiaries, shall be transferred to and assumed by pension fund, subchapter two, and such benefits payable to fire subchapter one beneficiaries on and after such date shall be paid to such beneficiaries by pension fund, subchapter two.

e. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the liability of the city supplemental pension fund established under section 13-650 of this title for the payment of all supplemental benefits required under laws in effect immediately prior to such date to be paid on and after such date by such supplemental pension fund to fire subchapter one beneficiaries shall be transferred to and assumed by pension fund, subchapter two, and such supplemental benefits payable to such fire subchapter one beneficiaries on and after such date shall be paid to such beneficiaries by pension fund, subchapter two.

f. Notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the duties and responsibilities of administering the provisions of this subchapter conferred upon the board of trustees of pension fund, subchapter one by the provisions of this subchapter in effect immediately prior to such date shall be transferred to and assumed by the board of trustees of pension fund, subchapter two.

g. Notwithstanding any other provision of law to the contrary, for all funding or accounting purposes, including but not limited to, the funding or accounting purposes associated with the implementation of the provisions of this section, the provisions of subparagraph (d) of paragraph two of subdivision b of section 13-331 of this chapter or the provisions of paragraph six of subdivision b of such section 13-331, the transfer of certain assets or liabilities to pension fund, subchapter two as required by subdivision b, d or e of this section to be made on July first, nineteen hundred ninety-five shall be deemed to have been made on July first, nineteen hundred ninety-four, and the payment of certain moneys to the general fund of the city as required by subdivision c of this section to be made on and after July first, nineteen hundred ninety-five shall be deemed to have been made on and after July first, nineteen hundred ninety-four.

*NYC Administrative Code 13-313*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-313 Definitions.

The following words and phrases as used in this subchapter unless a different meaning is plainly required by the context, shall have the following meanings:

1. "Pension fund" shall mean the fire department pension fund subchapter two provided for in this chapter.

2. "Medical board" shall mean the board of physicians provided for in section 13-323 of this subchapter.

3. (a) "City-service", in the case of an original plan member, (as defined in subdivision four-b of this section), shall mean service in the uniformed force of the department and shall include service credit acquired by transfer pursuant to section 15-111 of this code.

(b) "City-service", in the case of an improved benefits plan member (as defined in subdivision four-f of this section), shall mean service in the uniformed force of the department and shall include service credit acquired (i) by transfer pursuant to section 15-111 of this code, or (ii) by transfer pursuant to section forty-three or three hundred forty-three of the retirement and social security law, or (iii) by transfer from another pension or retirement system, of funds actuarially determined in a manner similar to that provided by these sections of the retirement and social security law.

(c) An "accident" sustained by such original plan member or such improved benefits plan member, while off-duty and within the geographic limits of the city of New York, shall be deemed to have occurred while in the performance of duty and in the performance of city service for the purpose of granting retirement for accident disability pursuant to the provisions of section 13-353 of this subchapter in cases in which:

(i) a substantial and imminent danger to life or property occasioned the off-duty intervention of the member;

(ii) the conduct of the member was reasonable in the circumstances; and

(iii) the member, in the course of his or her off-duty intervention, utilized skills within the scope of his or her employment by the New York city fire department.

(d) In any case where a member, after completing his or her minimum period for service retirement, is appointed fire commissioner, and in any case where a person who retired from service as a member of the pension fund is thereafter appointed fire commissioner, his or her service as fire commissioner shall constitute city-service.

(e) In any case where a member, after completing his or her minimum period for service retirement, is appointed a deputy fire commissioner, and in any case where a person who retired for service as a member of the pension fund is thereafter appointed a deputy fire commissioner, his or her service as deputy fire commissioner shall constitute city-service.

4. "Member" shall mean any person included in the membership of the pension fund as provided in section 13-314 of this subchapter.

4-a. "Original plan" shall mean all the terms and conditions of this subchapter, and of all other laws, applicable to original plan members.

4-b. "Original plan member" shall mean any member of the original plan pursuant to the provisions of subdivision a of section 13-315 of this subchapter or other applicable provisions of this subchapter.

4-c. "Original plan member not subject to article eleven" shall mean an original plan member to whom, under the provisions of law governing the applicability of article eleven of the retirement and social security law, such article eleven does not apply.

4-d. "Original plan member subject to article eleven" shall mean an original plan member to whom, under the provisions of law governing the applicability of article eleven of the retirement and social security law, such article eleven applies.

4-e. "Improved benefits plan" shall mean all the terms and conditions of this subchapter, and all other laws, applicable to improved benefits plan members.

4-f. "Improved benefits plan member" shall mean any member who, under the applicable provisions of subdivisions b, c, d, e and f of section 13-315 of this subchapter or other applicable provisions of this subchapter, is entitled to the rights, privileges, and benefits of the improved benefits plan and is subject to the obligations thereof, as applicable to him or her.

4-g. "Elective improved benefits plan member" shall mean a member who became an improved benefits plan member as a result of filing an election application pursuant to section 13-315 of this subchapter.

4-h. "Non-elective improved benefits plan member" shall mean a member who became an improved benefits plan member pursuant to the provisions of subdivision b of section 13-315 of this subchapter.

4-i. "Improved benefits plan member not subject to article eleven" shall mean any improved benefits plan

member who, under the provisions of law governing the applicability of article eleven of the retirement and social security law, is not subject to such article eleven.

4-j. "Improved benefits plan member subject to article eleven" shall mean any improved benefits plan member to whom, under the provisions of law governing the applicability of article eleven of the retirement and social security law, such article eleven applies.

5. "Beneficiary" shall mean any person in receipt of a pension, an annuity, a retirement allowance, a dependent benefit, a death benefit or any other benefit provided by this subchapter.

6. "Final compensation", in the case of an original plan member, shall mean the annual compensation earnable by a member for city-service upon the date of his or her retirement.

6-a. "Five-year-average compensation", in the case of an improved benefits plan member, shall mean the average annual compensation earnable by such member for city-service during his or her last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

6-b. "Prior original plan member accumulated contributions" shall mean the sum of all the amounts, deducted from the compensation of an original plan member or contributed by him or her while such a member, standing to the credit of his or her individual account in the retirement allowance accumulation fund (as such fund existed prior to the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of this section)), without interest thereon.

6-c. "Subsequent original plan member accumulated contributions" shall mean the sum of all amounts, if any, deducted from the compensation of an original plan member or contributed by him or her on or after the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of this section) and while he or she is such a member, standing to the credit of his or her individual account in the contingent reserve fund, without interest thereon.

7. "Total accumulated contributions" shall mean, with respect to an original plan member, the amount obtained by adding together his or her prior original plan member accumulated contributions (as defined in subdivision six-b of this section) and his or her subsequent original plan member accumulated contributions (as defined in subdivision six-c of this section) if any, without interest on any of such contributions.

7-a. "Accumulated deductions", with respect to an improved benefits plan member, shall mean the sum of all the amounts, deducted from the compensation of such member or contributed by him or her, standing to the credit of his or her individual account in the annuity savings fund, together with regular interest and special interest, if any, thereon, provided that nothing contained in this subdivision shall be construed as providing or requiring that where any original plan member elects to become an improved benefits plan member, regular interest shall accrue or be credited for any period prior to the effective date of such election on the accumulated contributions of such member transferred to the credit of his or her account in the annuity savings fund pursuant to the applicable provisions of this subchapter.

8. (a) "Regular interest", in the cases of persons who are members on the thirtieth day of June, nineteen hundred forty-seven, shall mean, subject to the provisions of paragraphs (b), (e), (f), (g), (h) and (j) of this subdivision, interest at four per centum per annum, compounded annually, and in the cases of persons becoming members thereafter, shall mean, subject to the provisions of such paragraphs, interest at three per centum per annum, compounded annually to and including the thirty-first day of December, nineteen hundred sixty-seven, and interest at four per centum, compounded annually, from and after the first day of January, nineteen hundred sixty-eight.

(b) The provisions of paragraph (a) of this subdivision shall not apply to any non-elective improved benefits plan member (as defined in subdivision four-h of this section). Such provisions shall not apply to any elective improved

benefits plan member (as defined in subdivision four-g of this section) during any period wherein he or she is such a member.

(c) "Regular interest", in the case of each non-elective improved benefits plan member, shall mean, subject to the provisions of paragraphs (e), (f), (g), (h), (i) and (j) of this subdivision, interest at four per centum per annum, compounded annually.

(d) "Regular interest", in the case of each elective improved benefits plan member, shall mean, subject to the provisions of paragraphs (e), (f), (g), (h), (i) and (j) of this subdivision, interest at four per centum per annum, compounded annually, during the period wherein he or she is such a member. Nothing contained in this paragraph shall be construed as providing or requiring that regular interest shall accrue or be credited, for any period prior to the effective date of the election of any such member to be an elective improved benefits plan member, on the accumulated contributions of such member transferred to the credit of his or her account in the annuity savings fund pursuant to the provisions of section 13-315 of this subchapter.

(e) The provisions of paragraphs (a), (c) and (d) of this subdivision shall not apply to any actuarial valuation, determination or appraisal which (i) is made pursuant to this subchapter and (ii) is used to determine the amount of any contribution required to be paid by the city into the contingent reserve fund of the pension fund in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year of the city or any subsequent fiscal year thereof.

(f) (A) Subject to the provisions of subparagraph (B) of paragraph i of this subdivision, and except as otherwise provided in paragraph four of subdivision b of section 13-331 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this subchapter and which is used to determine the amount of any contribution required to be paid by the city into the contingent reserve fund of the pension fund in the nineteen hundred eighty-nineteen hundred eighty-one fiscal years and nineteen hundred eighty-one-nineteen hundred eighty-two of the city, "regular interest" shall mean interest at the rate of seven and one-half per centum per annum, compounded annually.

(B) Subject to the provisions of subparagraph (B) of paragraph (i) of this subdivision, and except as otherwise provided in paragraph four of subdivision b of section 13-331 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this subchapter and which is used to determine the amount of any contribution required to be paid by the city into the contingent reserve fund of the pension fund in the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year thereof, "regular interest" shall mean interest at the rate of eight per centum per annum, compounded annually.

(C) Subject to the provisions of subparagraph (B) of paragraph (i) of this subdivision, and except as otherwise provided in paragraph four of subdivision b of section 13-331 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this subchapter and which is used to determine the amount of any contribution required to be paid by the city into the contingent reserve fund of the pension fund in the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year of the city and the nineteen hundred eighty-nine-nineteen hundred ninety fiscal year thereof, "regular interest" shall mean interest at the rate of eight and one-quarter per centum per annum, compounded annually.

(g) Subject to the provisions of subparagraph (B) of paragraph (i) of this subdivision, and except as otherwise provided in paragraph four of subdivision b of section 13-331 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability

contributions, for the purpose of any actuarial valuation, determination or appraisal which (i) is made pursuant to this subchapter and (ii) is used to determine the amount of any contribution required to be paid by the city into the contingent reserve fund of the pension fund in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year of the city and in any subsequent fiscal year thereof, "regular interest" shall mean interest at such rate per annum, compounded annually, as shall be prescribed by the legislature in section 13-638.2 of*1 title.

(h) On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the board shall submit to the governor, the temporary president and minority leader of the senate, the speaker of the assembly, the majority and minority leaders of the assembly, the state superintendent of insurance, the chairperson of the permanent commission on public employee pension and retirement systems, the mayor of the city and the members of the board of estimate and city council thereof, the written recommendations of the board as to the rate of interest and effective period thereof which should be established by law as "regular interest" for the purpose specified in paragraph (g) of this subdivision.

(i) (A) Subject to the provisions of subparagraph (c) of paragraph two of subdivision b of section 13-331 of this subchapter, nothing contained in paragraphs (e), (f), (g) and (h) of this subdivision shall be construed as prescribing, for the purpose of crediting interest to individual accounts of improved benefits plan members in the annuity savings fund or to reserves-for-increased-take-home-pay of such members or for any other purpose besides that specified in such paragraphs, a rate of regular interest other than as prescribed by the applicable provisions of paragraph (c) or paragraph (d) or paragraph (j) of this subdivision.

(B) Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (f) and (g) of this subdivision shall be construed as requiring the unfunded accrued liability contribution, as defined in paragraph three of subdivision b of section 13-331 of this subchapter, to be determined in any manner other than as prescribed in such paragraph three. Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (f) and (g) of this subdivision shall be construed as requiring any balance sheet liability or balance sheet liability contribution computed pursuant to the provisions of paragraph four of subdivision b of section 13-331 of this subchapter to be determined in any manner other than as prescribed in such paragraph four.

(j) (i) Commencing on August first, nineteen hundred eighty-three, and continuing thereafter, "regular interest", in the cases of persons who were members on July thirty-first, nineteen hundred eighty-three or who thereafter became or become members, shall mean, subject to the provisions of subparagraphs (ii) to (x), inclusive, of this paragraph (j), interest at seven per centum per annum, compounded annually.

(ii) (A) (1) Subject to the provisions of sub-items (2) and (3) of this item (A), regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining any actuarial equivalent benefit payable to or on account of any seven percent member for actuarial equivalent benefit purposes.

(2) Where an actuarial equivalent benefit is required by board resolution to be determined for any seven percent member for actuarial equivalent benefit purposes through the use of the modified Option 1 pension computation formula (as defined in subdivision thirty-two of this section) the actuarial interest assumptions used in making such determination shall be as prescribed in such formula.

(3) Where it is provided by board resolution that a portion of an actuarial equivalent benefit shall be determined for any seven percent member for actuarial equivalent benefit purposes on the basis of gender-neutral mortality tables, and that the remainder of such benefit shall be determined on the basis of mortality tables which are not gender-neutral, regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining the portion of such benefit required by such resolution to be determined on the basis of gender-neutral mortality tables and such rate of regular interest shall not apply to the determination of the remainder of such benefit.

(B) Notwithstanding that the process of determining whether a member is a seven percent member for actuarial benefit purposes may include, for the purpose of ascertaining the higher applicable benefit, alternative hypothetical benefit calculations utilizing a rate of regular interest other than such rate of seven per centum, nothing contained in subparagraph (i) of this paragraph (j) or in item (A) of this subparagraph (ii) shall be construed as requiring that in the determination of any actuarial equivalent benefit payable to or on account of any member who is not a seven percent member for actuarial equivalent benefit purposes, any rate of interest be used as the actuarial interest assumption other than regular interest, compounded annually, as prescribed by the applicable provisions of paragraph (a) or paragraph (c) or paragraph (d) of this subdivision eight.

(iii) The provisions of item (A) of subparagraph (ii) of this paragraph (j) shall not apply to any person who, prior to August first, nineteen hundred eighty-three, retired as a member of the pension fund for service or superannuation or for ordinary or accident disability and was such a retiree immediately prior to such August first; provided, however, that if any such retiree returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, was or is restored to membership in the pension fund as required or permitted by law, the provisions of such item (A), from and after the date of such restoration to membership, shall apply to such restored member with respect to determination of any actuarial equivalent benefit which is both (A) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (B) a benefit which is not a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior retirement; provided further that nothing contained in the preceding provisions of this subparagraph (iii) shall be construed as making the provisions of such item (A) applicable to any such restored member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of such subsequent retirement or subsequent discontinuance of service.

(iv) (A) Subject to the provisions of items (B) and (C) of this subparagraph (iv), the provisions of item (A) of subparagraph (ii) of this paragraph (j) shall not apply to any member who, (1) prior to August first, nineteen hundred eighty-three, discontinued service under such circumstances that such member became an original plan discontinued member (as defined in subdivision sixteen of this section 13-313) or an improved benefits plan discontinued member immediately prior to such August first.

(B) If such a discontinued member returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and before payability of his or her retirement allowance as such member began or begins, again became or becomes an active member pursuant to the applicable provisions of section 13-360 or 13-361, the provisions of item (A) of subparagraph (ii) of this paragraph (j) shall apply to him or her on and after the date of such resumption of active membership; provided that nothing contained in the preceding provisions of this item (B) shall be construed as making the provisions of item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(C) If such an original plan discontinued member or improved benefits plan discontinued member returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and on or after the date on which payability of his or her retirement allowance as such member began or begins, again became or becomes an active member pursuant to the applicable provisions of section 13-360 or 13-361 of this subchapter, the provisions of item (A) of such subparagraph (ii), on and after the date of such resumption of active membership, shall apply to him or her with respect to determination of any actuarial equivalent benefit which is both (1) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (2) a benefit which is not a continuation, without change, of a benefit which had previously become payable to him by reason of his or her prior discontinuance of service; provided that nothing contained in the preceding provisions of this item (C) shall be construed as making item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at such time of subsequent discontinuance of service.

(v) (A) Subject to the provisions of item (B) of this subparagraph (v) and to the provisions of subparagraph (viii) of this paragraph (j), the selection of mode of benefit (as defined in subdivision thirty-three of this section 13-313) made prior to the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of this paragraph (j) by a person entitled to a recomputation of benefits pursuant to the better-of-two-computations method (as defined in subdivision thirty-five of this section) in relation to the retirement allowance (or any component thereof) which became payable to him or her prior to such date of enactment shall be the selection of mode of benefit applicable to the recomputed retirement allowance (or any corresponding component thereof) to which he or she is entitled under the better-of-two-computations method (as defined in subdivision thirty-four of this section), and any such person entitled to a recomputation of benefits pursuant to the better-of-two-computations method shall not be entitled to make any change in such selection of mode of benefit.

(B) (1) Notwithstanding the provisions of item (A) of this subparagraph (v), a person entitled to a recomputation of benefits pursuant to the better-of-two-computations method shall be entitled, to the extent and in the manner prescribed in the succeeding sub-items of this item (B), to change the original selection of mode of benefit applicable to the retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of this paragraph (j).

(2) In any case where the original selection of mode of benefit of a person entitled to a recomputation of benefits pursuant to the better-of-two-computations method was a selection of a joint and survivor option (as defined in subdivision thirty-six of this section), no change from such original selection of a joint and survivor option may be made under this item (B) to any other selection of mode of benefit if the designated beneficiary selected with respect to such joint and survivor option by such person entitled to a recomputation is not alive at the time of filing of the form whereby such person entitled to a recomputation seeks to change, pursuant to this item (B), his or her original selection of such joint and survivor option.

(3) Except for a change of selection of mode of benefit prohibited by sub-item two of this item (B), any original selection of mode of benefit may be changed pursuant to this item (B) to another selection of mode of benefit, provided all of the conditions set forth in sub-items four, six and eight of this item (B) are met.

(4) Subject to the provisions of sub-items seven and eight of this item (B), a person entitled to a recomputation of benefits pursuant to the better-of-two-computations method may, pursuant to this item (B), effect any such permissible change of his or her original selection of mode of benefit by executing, acknowledging and filing with the pension fund, within the applicable period of time prescribed by sub-item six of this item, a new selection of mode of benefit. If the original selection of mode of benefit of the person filing such new selection was a selection of a joint and survivor option, such new selection shall be void and of no effect unless (a) the designated beneficiary named in such original selection of a joint and survivor option signs and acknowledges, in the form for such new selection of mode of benefit, a consent to such changed selection of mode of benefit, and (b) such original designated beneficiary is alive on the date of filing of such new selection.

(5) The pension fund shall mail to each person entitled to a recomputation of benefits pursuant to the better-of-two-computations method a letter showing amounts of benefits, as recomputed for such person under the better-of-two-computations method for modes of benefit other than joint and survivor options, together with a statement advising such person that upon request, the amounts of recomputed benefits under joint and survivor options will be provided.

(6) The period of time within which any such person entitled to a recomputation may file a new selection of mode of benefit as provided for in sub-items three and four of this item (B) shall be sixty days after the date of issuance set forth in such letter mailed to such person pursuant to sub-item five of this item; provided, however, that if, pursuant to the request of such person, a later letter setting forth benefits information in relation to new selection of a mode of benefit is mailed to such person by the pension fund, such period of time for filing a new selection of mode of benefit shall be thirty days after the date of issuance set forth in such later letter.

(7) Upon the filing of a new selection of mode of benefit pursuant to this item (B) by any such person entitled to a recomputation, such new selection shall be irrevocable and such person shall not be entitled to file any other selection of mode of benefit with respect to such retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of paragraph (j).

(8) No new selection of mode of benefit filed pursuant to the preceding sub-items of this item (B) shall be valid or effective as a change of mode of benefit or for any other purpose unless the person entitled to a recomputation of benefits pursuant to the better-of-two-computations method who files such new selection is alive on the date (hereinafter referred to as the "validating date") three hundred sixty-five days after the date of filing of such new selection of mode of benefit. If such person filing such new selection of mode of benefit is alive on the validating date with respect to such new selection, such new selection shall become valid and effective on such validating date; provided, however, that from and after the effective date of retirement of such person making such valid and effective new selection of mode of benefit (if he or she retired for service or superannuation or for ordinary or accident disability) or from and after the date on which payability of the original benefits of such person began (if he or she was a discontinued member), such new selection of mode of benefit shall supersede such original selection of mode of benefit and shall apply to and govern the amount of benefits payable to such person or to his or her designated beneficiary or estate.

(vi) Subject to the provisions of subparagraph (viii) of this paragraph (j), in any case where a member who retired before August first, nineteen hundred eighty-three for service or superannuation or for ordinary or accident disability returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three re-entered or re-enters membership in the pension fund, nothing contained in subparagraphs (i) to (iv), inclusive, of this paragraph (j) shall be construed as authorizing or permitting him or her to change any selection of mode of benefit (as defined in subdivision thirty-three of this section 13-313) made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior retirement.

(vii) Subject to the provisions of subparagraph (viii) of this paragraph (j), in any case where a discontinued member referred to in item (A) of subparagraph (iv) of this paragraph (j) returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, again became or becomes an active member pursuant to applicable provisions of law, nothing contained in subparagraphs (i) to (iv), inclusive, of this paragraph shall be construed as authorizing or permitting him or her to change any selection of mode of benefit (as defined in subdivision thirty-three of this section 13-313) made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior discontinuance of service.

(viii) Nothing contained in subparagraphs (v), (vi) and (vii) of this paragraph (j) shall be construed as preventing:

(A) any person subject to such subparagraph (v) who, on or after July thirty-first, nineteen hundred eighty-three, re-entered or re-enters city-service and again became or becomes an active member; or

(B) any re-entered member referred to in such subparagraph (vi) or subparagraph (vii);

upon his or her subsequent retirement, from exercising any right which any other applicable law grants to him or her under such circumstances to make a selection of mode of benefit (as defined in subdivision thirty-three of section 13-313).

(ix) Notwithstanding the provisions of subparagraph (i) of this paragraph (j) prescribing a rate of regular interest of seven per centum per annum, compounded annually, for specified members described in such subparagraph (i), the

rate of regular interest which shall be applied to fix the rate of interest on any loan to any such member eligible to borrow shall be four per centum per annum, compounded annually.

(x) (A) Subject to the provisions of item (B) of this subparagraph (x), the rate of regular interest applicable to determination of the rate of member contribution of any member whose last membership began prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this paragraph (j) shall be the rate of regular interest which was applicable, under the provisions of law in effect prior to such date of enactment, to the determination of the rate of member contribution of such member, and nothing contained in the preceding subparagraphs of this paragraph (j) shall be construed as applicable to the determination of the rate of member contribution of any such member whose last membership so began or as changing or affecting the rate of member contribution of any such member.

(B) The rate of regular interest applicable to determination of the rate of member contribution of any elective improved benefits plan member who became or becomes such a member by reason of an election made on or after August first, nineteen hundred eighty-three shall be the rate of regular interest, as prescribed by the applicable provisions of paragraph (a) of subdivision eight of section 13-214 of the code, which is required by the provisions of subdivision (i) of section 13-315 to be applied to the determination of such rate of member contribution. Nothing contained in the preceding subparagraphs of this paragraph (j) shall be construed as applicable to the determination of the rate of member contribution of any such elective improved benefits plan member or as changing or affecting the rate of the member contribution of any such member.

8-a. "Pension", with respect to any retired or deceased improved benefits plan member and with respect to any improved benefits plan discontinued member and with respect to the beneficiaries of any such member, shall mean payments for life derived from appropriations made by the city as provided in this subchapter.

8-b. "Annuity", with respect to any retired or deceased improved benefits plan member and with respect to any improved benefits plan discontinued member and with respect to the beneficiaries of any such member, shall mean payments for life derived from contributions made by such member as provided in this subchapter.

9. "Retirement allowance", in the case of a retired or deceased original plan member and in the case of an original plan discontinued member and in the case of the beneficiaries of any such member, shall mean payments for life derived from appropriations made by the city as provided in this subchapter and from contributions made by a member as provided in this subchapter.

9-a. "Retirement allowance", in the case of a retired or deceased improved benefits plan member and in the case of an improved benefits plan discontinued member and in the case of the beneficiaries of any such member, shall mean pension plus the annuity and the pension-providing-for-increased-take-home-pay, if any.

10. "Dependent benefit" shall mean payments derived from contributions made by a member as provided in sections 13-329 and 13-355 of this subchapter.

11. "Retirement allowance reserve", with respect to any original plan member or his or her beneficiaries, shall mean the present value of all payments to be made on account of any retirement allowance, payable to or on account of a person who retired as an original plan member, or benefit in lieu of any retirement allowance, granted under the provisions of this subchapter, computed upon the basis of such mortality tables as shall be adopted by the board with regular interest.

11-a. "Pension reserve", with respect to any improved benefits plan member or his or her beneficiaries, shall mean the present value of all payments to be made on account of any pension, or benefit in lieu of any pension, granted under the provisions of this subchapter, computed upon the basis of such mortality tables as shall be adopted by the board, with regular interest.

11-b. "Annuity reserve", with respect to any improved benefits plan member or his or her beneficiaries, shall mean the present value of all payments to be made on account of any annuity, or benefit in lieu of any annuity, granted under the provisions of this subchapter computed on the basis of such mortality tables as shall be adopted by the board, with regular interest.

12. "Fiscal year" shall mean any year commencing with the first day of July and ending with the thirtieth day of June next following.

13. "Total service", in the case of an original plan member, shall mean all service of such member allowable with respect to such member as provided in subdivision three of this section and section 13-318 of this subchapter.

13-a. "Total service", in the case of an improved benefits plan member, shall mean all service of such member allowable with respect to such member as provided in subdivision three-a of this section and section 13-318 of this subchapter.

14. "Board" shall mean the board of trustees provided for in section 13-316 of this subchapter.

15. "Accumulation-for-increased-take-home-pay", with respect to any original plan member, shall mean a sum consisting of the total of all products obtained by multiplying the compensation of such member, during each period of reduction of his or her member contributions pursuant to the provisions of section 13-326 of this subchapter and subdivision b of section four hundred eighty of the retirement and social security law, occurring while he or she is an original plan member, by the percentage of reduction of his or her contributions applicable under such provisions with respect to such period, without interest thereon.

15-a. "Pension-providing-for-increased-take-home-pay", with respect to any improved benefits plan member, shall mean the annual allowance for life payable in monthly installments derived from contributions which the city made to the contingent reserve fund, pursuant to section 13-326 of this subchapter and subdivision b of section four hundred eighty of the retirement and social security law, with respect to the period wherein he or she was an improved benefits plan member.

15-b. "Reserve-for-increased-take-home-pay", with respect to an improved benefits plan member, shall mean:

(a) the amount of the reserve provided by the city which shall be a sum consisting of the total of all products obtained by multiplying the compensation of the member, during each period of reduction of member contributions under the provisions of section 13-326 of this subchapter and subdivision b of section four hundred eighty of the retirement and social security law while he or she is an improved benefits plan member, by the percentage of reduction of his or her contributions applicable under such provisions with respect to such period, plus regular interest, and additional interest, if any, thereon; plus

(b) in the case of any elective improved benefits plan member, the amount of the accumulation-for-increased-take-home-pay, if any, of such member, as such accumulation was on the date next preceding the effective date of his or her election to be such a member, plus regular interest and additional interest, if any, on and after such effective date on the amount of such accumulation; plus

(c) in the case of any non-elective improved benefits plan member who is credited, immediately prior to becoming such a member, with an accumulation-for-increased-take-home-pay, the amount of such accumulation-for-increased-take-home-pay, as such accumulation was on the date next preceding the date on which such member became a nonelective improved benefits plan member, plus regular and additional interest, if any, on and after such date on which he or she became a nonelective improved benefits plan member, on the amount of such accumulation.

16. "Original plan discontinued member" shall mean an original plan member who has a vested right to a

deferred retirement allowance under section 13-360 of this subchapter.

16-a. "Original plan discontinued member not subject to article eleven" shall mean an original plan member not subject to article eleven (as defined in subdivision four-c of this section) who has a vested right to a deferred retirement allowance under section 13-360 of this subchapter.

16-b. "Original plan discontinued member subject to article eleven" shall mean an original plan member subject to article eleven (as defined in subdivision four-d of this section) who has a vested right to a deferred retirement allowance under section 13-360 of this subchapter.

16-c. "Fire uniformed force service" shall for purposes of section 13-361 of this subchapter mean service in the uniformed force of the fire department, as a member of such force, including service for which credit is granted by section 15-111 of the code, but excluding any service credit acquired by transfer or otherwise under any provision of law.

16-d. "Improved benefits plan discontinued member" shall mean any improved benefits plan member who has discontinued fire uniformed force service (as defined in subdivision sixteen-c of this section) and who has a vested right to a deferred retirement allowance under section 13-361 of this subchapter.

16-e. "Improved benefits plan discontinued member not subject to article eleven" shall mean an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of this section) who has a vested right to a deferred retirement allowance under section 13-361 of this subchapter.

16-f. "Improved benefits plan discontinued member subject to article eleven" shall mean an improved benefits plan member subject to article eleven (as defined in subdivision four-j of this section) who has discontinued fire uniformed force service and who has a vested right to a deferred retirement allowance under section 13-361 of this subchapter.

17. "Normal rate of contribution as an original plan member" shall mean:

(a) in the case of any original plan member who is required to make member contributions as such a member under the applicable provisions of this subchapter, the proportion of his or her earnable compensation which is required to be deducted from the compensation of such member by the applicable provisions of section 13-325 of this subchapter as his or her member contributions, exclusive of any reduction of such proportion on account of any program for increased-take-home-pay in effect.

(b) in the case of any original plan member who heretofore completed, or who, on or after the effective date of this subdivision, shall complete, his or her minimum period for service retirement, the proportion of his or her earnable compensation (exclusive of any reduction of such proportion on account of any program of increased-take-home-pay in effect) which, as of the date on which he or she completed his or her minimum period for service retirement, was required to be deducted from the compensation of such member by the applicable provisions of section 13-325 of this subchapter, as in effect on such date.

18. "Normal rate of contribution as an improved benefits plan member" shall mean:

(a) in the case of any improved benefits plan member who is not eligible to elect to discontinue making member contributions under the applicable provisions of this subchapter, the proportion required to be deducted from the compensation of such member by the applicable provisions of section 13-315 and/or section 13-327 of this subchapter as his or her member contributions, exclusive of any increase in such proportion pursuant to subdivision c or subdivision d of section 13-327 of this subchapter or any reduction thereof on account of any program for increased-take-home-pay in effect or pursuant to subdivision one of section one-hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social

security coverage).

(b) in the case of any improved benefits plan member who completed his or her minimum period for service retirement before becoming an improved benefits plan member and who is eligible under the provisions of this subchapter to elect to discontinue making member contributions or has made such election, the proportion of his or her earnable compensation (exclusive of any increase in such proportion pursuant to subdivision c or subdivision d of section 13-327 of this subchapter or any reduction thereof on account of any program of increased-take-home-pay in effect) which, as of the date on which he or she completed his or her minimum period for service retirement, would have been required to be deducted from his or her compensation by the applicable provisions of sections 13-315 and/or 13-327 of this subchapter if the improved benefits plan had been in effect on his or her date of inception of pension fund membership (as defined in subdivision twenty of this section) and he or she had become an improved benefits plan member on such date of inception.

19. "Date of commencement of contributions as an improved benefits plan member" shall mean the first day (on or after the last commencement of the status of an improved benefits plan member as such member) for which deductions from the compensation of such member are required by the applicable provisions of subdivision i of section 13-315 of this subchapter and/or section 13-327 of this subchapter to be made on account of his or her contributions as an improved benefits plan member.

20. "Date of inception of pension fund membership", in the case of any original plan member (as defined in subdivision four-b of this section) or elective improved benefits plan member (as defined in subdivision four-g of this section), shall mean the earliest date on which such member last became eligible for membership in any pension fund established pursuant to former article one-A repealed by chapter three hundred eighty-five of nineteen hundred eighty-one or subchapter two of this chapter. Nothing herein provided shall limit member service credit restoration pursuant to section 13-319 of this subchapter.

20-a. "Date of commencement of credited member service in the fire uniformed force" shall mean, with respect to any improved benefits plan member, the date of commencement of the period of service in the uniformed force of the fire department as a member of the pension fund which is credited to such member as of the date on which any benefit under this subchapter becomes payable to such member.

21. (a) "Contribution rate deficiency" shall mean with respect to each elective improved benefits plan member (as defined in subdivision four-g of this section) and shall mean with respect to any non-elective improved benefits plan member (as defined in subdivision four-h of this section) who is subject to such a deficiency, an amount equal to the excess, if any, of (ii) over (i) hereof where: (i) is the amount of the total accumulated contributions (as defined in subdivision seven of this section) of such member (as such amount would be in the absence of a loan) as of the earlier of (1) the date next preceding his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of this section) or (2) the date of completion of his or her minimum period for service retirement; and (ii) is the amount (i) would be if the contribution rate of the member to the date specified in (i) had been his or her normal rate of contribution as an improved benefits plan member.

(b) "Contribution rate deficiency" shall mean, with respect to an improved benefits plan discontinued member (as defined in subdivision sixteen-d of this section) who is subject to such a deficiency, an amount equal to the excess, if any, of (ii) over (i) hereof where: (i) is the amount of the total accumulated contributions of such discontinued member (as such amount would be in the absence of a loan) as of the date next preceding his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of this section); and (ii) is the amount (i) would be if the contribution rate of the member to the date specified in (i) had been his or her normal rate of contribution as an improved benefits plan member.

22. "Subsequent period for election of the improved benefits plan" shall mean any of the following three-month periods: the period of three months beginning on the date next succeeding the date which is the last day of a period of

thirty months next succeeding the starting date of the improved benefits plan (as defined in subdivision twenty-seven of this section), and subsequent, successive periods of three months' duration, such period for the calendar year nineteen hundred eighty-six beginning on September first, nineteen hundred eighty-six, and ending three months thereafter, and for successive calendar years, beginning with the calendar year nineteen hundred eighty-seven, such periods beginning on June first and ending on August thirty-first of each such year.

23. "Pension fund one-A" shall mean the pension fund provided for by article one-A of title B of chapter nineteen of the code, as in effect immediately prior to July first, nineteen hundred eighty-one.

24. "Special interest" shall mean a distribution to the annuity savings fund, in addition to regular interest, which distribution (a) for each of the periods as to which the provisions of section 13-337 of this subchapter or section 13-638.2 of this title grant special interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to the accounts in the annuity savings fund of improved benefits plan members who are eligible under such provisions for crediting of such amount for such period.

25. "Additional interest", with respect to any improved benefits plan member, shall mean a distribution to the reserve-for-increased-take-home-pay in addition to regular interest, which distribution (a) for each of the periods, if any, as to which the provisions of section 13-337 of this subchapter or section 13-638.2 of this title grant additional interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is included in such applicable amount in the reserve-for-increased-take-home-pay of each member who is eligible under such provisions for inclusion of such amount for such period.

26. "Supplementary interest" shall mean an annual allowance, in addition to regular interest, of interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter (excluding, however, the annuity savings fund and the amounts of total accumulated contributions, accumulations-for-increased-take-home-pay and reserve-for-increased-take-home-pay in the contingent reserve fund), which allowance, (a) for each of the periods as to which the provisions of section 13-337 of this subchapter or section 13.638.2*2 of this title grant supplementary interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to such funds at the time, in the manner, to the extent and subject to the exclusions prescribed by the provisions of such section.

27. "Starting date of the improved benefits plan" shall mean the date of enactment of the act which added this subdivision twenty-seven, as such date is certified pursuant to section forty-one of the legislative law.

28. "Five-year-average-salary", in the case of an original plan member, shall mean the average annual compensation earnable by such member for city-service during his or her last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

29. "Actuarial equivalent benefit." Any benefit which by law is required to be an actuarial equivalent or by law is required to be determined on the basis of an actuarial equivalent.

30. "Seven percent member for actuarial equivalent benefit purposes." (a) A member who meets all of the following conditions:

(i) subparagraph (i) of paragraph (j) of subdivision eight of this section (relating to the definition of members as to whom regular interests at seven per centum per annum, compounded annually applies) applies to such member; and

(ii) an actuarial equivalent benefit has become payable to or on account of such member; and

(iii) it is provided by a resolution of the board (A) that a mortality table which takes effect on or after the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision and which does not differentiate on the basis of sex shall be used to calculate such actuarial equivalent benefit or a portion of such benefit,

or (B) that the modified Option 1 pension computation formula (as defined in subdivision thirty-two of this section) shall be used to calculate such actuarial equivalent benefit.

(b) Except in cases to which the modified Option 1 pension computation formula applies pursuant to a resolution adopted by the board, nothing contained in subparagraph (iii) of paragraph (a) of this subdivision thirty shall be construed as referring to or including any calculation of an actuarial equivalent benefit (or portion of such benefit) payable to any person where such calculation is required by such resolution to be made through the use of a mortality table in effect prior to such date of enactment.

31. "Tier I member." A member whose benefits (other than a supplemental retirement allowance) are prescribed by this article and who is not subject to the provisions of article eleven, article fourteen or article fifteen of the retirement and social security law.

32. "Modified Option 1 pension computation formula." (a) The method, as set forth in the succeeding paragraphs of this subdivision, of computing the following benefits:

(i) the Option 1 retirement allowance payable to a Tier I member who retired as an original plan member for service or superannuation or for ordinary or accident disability or who became an original plan discontinued member not subject to article eleven (as defined in subdivision sixteen-a of this section); and

(ii) the pension component of an Option 1 retirement allowance payable to a member who retired as an improved benefits plan member for service or superannuation or ordinary or accident disability or who became an improved benefits plan discontinued member (as defined in subdivision sixteen-d of this section); and

(iii) the method of computing the amount of the Option 1 benefit payable to the beneficiary or estate of any such member above referred to in this paragraph.

(b) The initial reserve for such original plan retirement allowance or improved benefits plan pension component shall be computed through use of mortality tables which are adopted on or after the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision and which do not differentiate on the basis of sex (hereinafter referred to as "gender-neutral mortality tables") and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually.

(c) Solely for the purpose of use as the minuend from which the payments of such original plan retirement allowance or improved benefits plan pension component to such member are subtracted in order to determine the amount of the Option 1 benefit payable, upon such member's death, to such member's beneficiary or estate by reason of such Option 1 selection in relation to such retirement allowance or pension component, the present value of such member's maximum original plan retirement allowance or maximum improved benefits plan pension, as it was at the time of such member's retirement, shall be deemed to be the greater of:

(i) such present value determined on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(ii) such present value determined on the basis of the mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision.

(d) The original plan retirement allowance or improved benefits plan pension component payable to such member shall be computed on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually, so that:

(i) the present value, as it was at the time of such member's retirement, of such retirement allowance or pension

component; plus

(ii) the present value, as it was at the time of such member's retirement, of the amount payable to such member's Option 1 beneficiary or estate upon the death of the member as provided for by the applicable provisions of paragraph (e) of this subdivision; shall be equal to the Option 1 initial reserve determined for such original plan retirement allowance or improved benefits plan pension component with respect to such member pursuant to the provisions of paragraph (b) of this subdivision.

(e) Where such member dies before he or she has received payments on account of such original plan retirement allowance or improved benefits plan pension component equal to the present value of such member's maximum original plan retirement allowance or maximum improved benefits plan pension as computed pursuant to paragraph (c) of this subdivision, the Option 1 benefit payable to the beneficiary or estate of such deceased member, by reason of such Option 1 selection in relation to such retirement allowance or pension component, shall be the remainder obtained by subtracting from such present value determined pursuant to such paragraph (c) in relation to such retirement allowance or pension component, the total of such Option 1 payments on account of such retirement allowance or pension component received by or payable to such member for the period prior to his or her death.

(f) In relation to the Option 1 benefits determined pursuant to the method of computation set forth in this subdivision by reason of discontinuance of service by an original plan discontinued member or an improved benefits plan discontinued member, the phrase "time of such member's retirement," as set forth in paragraphs (c) and (d) of this subdivision, shall be deemed, for the purpose of this subdivision, to mean the date of commencement of the retirement allowance of such discontinued original plan member or discontinued improved benefits plan member.

33. "Selection of mode of benefit." The choice made by a member (as permitted by and pursuant to the requirements of law governing such choice by such member) as to whether the maximum amount of his of her retirement allowance of a component thereof shall be payable or such retirement allowance or a component thereof shall be payable under an option selected by the member. The term "selection of mode of benefit" shall include a case where the maximum retirement allowance or a maximum component thereof becomes payable because of a member's omission, within the time permitted by law, to select the maximum benefit or an option.

34. "Better-of-two-computations method." (a) A method (as prescribed by a resolution of the board) under which a retirement allowance (or portion thereof) payable to a member is required to be determined for such member so as to be the greater of:

(i) such retirement allowance (or portion thereof) determined on the basis of gender-neutral mortality tables and regular interest at the rate of seven per centum per annum, or

(ii) such retirement allowance (or portion thereof) determined on the basis of the mortality tables and the regular interest applicable to such member, as such tables and interest were in effect as of a time prescribed in such resolution.

(b) Where, under the provisions of any such resolution of the board, the modified Option 1 pension computation formula (as defined in subdivision thirty-two of this section) applies to any member, the term, "better-of-two-computations method," where used in relation to such member, shall be deemed to include such modified Option 1 pension computation formula, to the extent that such formula governs the determination of (i) such member's retirement allowance (or portion thereof), in the case of an original plan member, or (ii) the pension component (or portion thereof) of such member's retirement allowance in the case of an improved benefits plan member.

35. "Person entitled to a recomputation of benefits pursuant to the better-of-two-computations method." Any person who meets all of the conditions stated below in this subdivision:

(a) such person, during the period beginning on August first, nineteen hundred eighty-three and ending on the date next preceding the date of enactment (as such date is certified pursuant to section forty-one of the legislative law)

of this subdivision, (i) retired for service or superannuation or for ordinary or accident disability, or (ii) discontinued service so as to become an original plan discontinued member (as defined in subdivision sixteen of this section) or an improved benefits plan discontinued member (as defined in subdivision sixteen-d of this section); and

(b) such person's retirement allowance (or a portion thereof), by reason of such retirement or discontinuance of service, is required by a resolution adopted by the board to be redetermined pursuant to the better-of-two-computations method (as defined in subdivision thirty-four of this section); and

(c) a first payment on account of his or her retirement allowance (as such retirement allowance was determined prior to the date of enactment of this subdivision) was made prior to such date of enactment.

36. "Joint and survivor option." (a) Any option under which, at the time when such option is selected, a choice is made which includes both:

(i) a benefit payable for the lifetime of the retired or vested member by whom or in whose behalf such option is selected; and

(ii) a benefit (A) which consists of an amount equal to or constituting a percentage of such retired or vested member's benefit and (B) which is payable for the lifetime of a designated beneficiary selected at the time when such option is selected.

(b) In any case where an option described in paragraph (a) of this subdivision includes a provision prescribing that if the designated beneficiary predeceases such retired or vested member, a maximum benefit shall become payable to such member, such option shall nevertheless be deemed to be a joint and survivor option.

37. "Original plan member contributions eligible for pick up by the employer." (a) With respect to any payroll period for an original plan member who is required to make member contributions during such payroll period under the provisions of section 13-325 of this subchapter, the term "original plan member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of an employer pick up program applicable to such member pursuant to section 13-327.1 of this subchapter (providing for pick up of required member contributions), would be required by law to be deducted, on account of such member's normal rate of contribution (as defined in subdivision seventeen of this section) from the compensation of such member for such payroll period, after (1) giving effect to any reduction in such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay and (2) excluding any deductions from such compensation (or redeposits or payments) on account of (i) loans or withdrawals of contributions or (ii) any election by such member to increase his or her contributions pursuant to subdivision d of section 13-325 of this subchapter or (iii) any other cause not attributable to the member's normal rate of contribution, after reduction, if any, in such rate, as described in subparagraph one of this paragraph (a).

(b) If no deductions on account of an original plan member's normal rate of contribution are required by law to be made from the compensation of such member for any payroll period, such member shall not have, for such payroll period, any original plan member contributions eligible for pick up by the employer. The amount of an original plan member's original plan member contributions eligible for pick up by the employer for any payroll period shall be determined solely on the basis of compensation paid to such member for such payroll period by his or her public employer. An original plan member shall not have any original plan member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid compensation by his or her public employer.

38. "Improved benefits plan member contributions eligible for pick up by the employer." (a) With respect to any payroll period for an improved benefits plan member (other than any such member who is not required to contribute during such payroll period because of his or her currently effective election to discontinue member contributions pursuant to subdivision b of section 13-327 of this subchapter), the term "improved benefits plan member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of an

employer pick up program applicable to such member pursuant to section 13-327.1 of this subchapter (providing for pick up of required member contributions), would be required by law to be deducted, on account of such member's normal rate of contribution, from the compensation of such member for such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and (2) excluding any deductions from such compensation (or redeposits, restorations or payments) on account of (i) loans or withdrawals of excess contributions or (ii) any contribution rate deficiency (as defined in subdivision twenty-one of this section) of such member or (iii) any election by such member to increase his or her member contributions pursuant to subdivision c or subdivision d of section 13-327 of this subchapter or (iv) any other cause not attributable to the member's normal rate of contribution after reduction, if any, in such rate as described in subparagraph one of this paragraph (a).

(b) If no deductions on account of an improved benefits plan member's normal rate of contribution are required by law to be made from the compensation of such member for any payroll period, such member shall not have, for such payroll period, any improved benefits plan member contributions eligible for pick up by the employer. The amount of an improved benefits plan member's improved benefits plan member contributions eligible for pick up by the employer for any payroll period shall be determined solely on the basis of compensation paid to such member for such payroll period by his or her public employer. An improved benefits plan member shall not have any improved benefits plan member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid compensation by his or her public employer.

39. "Starting date for pick up." The first day of the first whole payroll period commencing after the date which is three months after the internal revenue service shall have issued a ruling that member contributions picked up pursuant to section 13-327.1 of this subchapter are not includible as gross income for federal income tax purposes until distributed or made available.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Petitioner who transferred from the Sanitation Department to the Fire Department was not entitled to credit for "city-service" for his prior service since city service includes only credit acquired by transfer from the Police Department and not the Sanitation Department.-Fontone v. Lowery, 36 App. Div. 2d 119, 318 N.Y.S. 2d 640 [1971], aff'd 30 N.Y. 2d 975, 287 N.E. 2d 625, 335 N.Y.S. 2d 836 [1972].

**CASE NOTES**

¶ 1. "Earnable" compensation at time of retirement is that at which employee is being compensated (depending on raises in final year) plus overtime actually earned in final year. Recomputation was not allowed for a no-fault insurance award for "loss of earnings" during medical leave. Clanton v. Spinnato, 131 A.D. 2d 475 [1987].

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-314 Membership; composition and eligibility.

The membership of the pension fund shall consist of:

a. all persons in city-service, as defined in this subchapter, in positions in the competitive class of the civil service, who shall have served the required probationary period and shall have been appointed medical officers of the fire department or who shall have served the required probationary period and shall have been appointed as fourth grade firefighters after March twenty-ninth, nineteen hundred forty and prior to the date on which this section as hereby amended takes effect, and shall have elected to become a member of the fire department pension fund pursuant to this subchapter prior to such appointment as a fourth grade firefighter or such medical officer; and

b. (1) all persons in city-service, as defined in this subchapter, in positions in the competitive class of the civil service:

(A) who shall have been appointed probationary medical officers of the fire department or probationary firefighters on or after April fourteenth, nineteen hundred fifty-six and prior to the starting date of the improved benefits plan (as defined in subdivision twenty-seven of section 13-313 of this subchapter), and shall have elected to become a member of the fire department pension fund pursuant to this subchapter prior to such appointment as probationary firefighters or probationary medical officers; and

(B) who shall have been appointed on or after such starting date as probationary medical officers of the fire department or probationary firefighters; and

(2) all persons in city-service, as defined in this subchapter, who hold a position of medical officer of the fire department classified in the non-competitive class of the civil service; and

(3) all persons in city-service, as defined in this subchapter, who, during the period commencing on July first, nineteen hundred ninety-five and ending on June thirtieth, nineteen hundred ninety-six, are appointed as provisional firefighters; and

(4) a person in city-service in the position of chief of department in the exempt class of the civil service.

c. in determining the terms of service of any member of the fire department, service as a physician and surgeon in the classified service in any other department in the city; service not exceeding three years as an interne duly appointed and removable by the city of New York in any hospital owned and operated by such city, provided further that such interne shall pay into the pension fund an amount equal to the amount he or she would have paid during such period of service if he or she had been a medical officer in such fire department receiving compensation based on an annual amount of five thousand dollars per year; and temporary service in the fire department as a medical officer, and subsequently thereafter in the fire department shall be counted and held to be service in the fire department of the city. Any person, however, becoming a member of the fire department, in the manner herein provided, shall not be entitled to participate in the benefits of the fire department pension fund, unless he or she shall pay into such fund the total amount he or she would have been required to pay in order to participate therein had he or she been a member of the fire department during the time he or she shall have served in the same or such other department.

d. (1) Notwithstanding any other provision of this subchapter or any other law to the contrary, but subject to the provisions of paragraph two of this subdivision d, in any case where a member who has completed his or her minimum period for service retirement is appointed fire commissioner or deputy fire commissioner he or she shall, while serving as fire commissioner or deputy fire commissioner, continue to be a member of the pension fund. Such member, if he or she was an original plan member at the time of his or her appointment as fire commissioner, shall continue to be an original plan member while serving as fire commissioner, unless he or she elects to become an improved benefits plan member pursuant to the provisions of section 13-315 of this subchapter, and if he or she was an improved benefits plan member at the time of his or her appointment as fire commissioner, he or she shall continue to be an improved benefits plan member while serving as fire commissioner.

(2) Notwithstanding any other provision of this subchapter or any other law to the contrary, but subject to the provisions of paragraph three of this subdivision, in any case where an improved benefits plan member who is eligible to retire for service is appointed a deputy fire commissioner, he or she shall, while serving as a deputy fire commissioner, continue to be an improved benefits plan member of the pension fund.

(3) The status of any member referred to in paragraph one or paragraph two of this subdivision with respect to applicability or inapplicability of the provisions of article eleven of the retirement and social security law to him or her as a member of the pension fund shall not be affected or changed by his or her appointment as fire commissioner or deputy fire commissioner, as the case may be.

(4) For the purposes of this subchapter, an improved benefits plan member serving as a fire commissioner or deputy fire commissioner whose membership is continued pursuant to the applicable provisions of paragraph one or paragraph two of this subdivision or whose membership is restored pursuant to the applicable provisions of section 13-371 or section 13-372 of this subchapter shall, during the period of such continuance or restoration of membership, be deemed to be a member of the uniformed force of the fire department and his or her service as fire commissioner or deputy fire commissioner during such period shall be deemed service in such force.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-315 Plan membership; original plan, improved benefits plan.

a. Each person who is a member of the pension fund on the date next preceding the starting date of the improved benefits plan (as such starting date is defined in subdivision twenty-seven of section 13-313 of this subchapter) shall be entitled to the rights, benefits and privileges and be subject to the obligations of the original plan (as defined in subdivision four-a of such section 13-313), unless and until he or she elects, pursuant to the applicable provisions of this subchapter, to be an improved benefits plan member (as defined in subdivision four-f of such section 13-313).

b. Except in the case of re-entry pursuant to section 13-319 and as otherwise provided in this subchapter, each person who becomes or again becomes a member of the pension fund on or after the starting date of the improved benefits plan shall be entitled to the rights, privileges and benefits and be subject to the obligations of the improved benefits plan and shall not be entitled to the rights, privileges and benefits or be subject to the obligations of the original plan.

c. Any original plan member, who is in city-service at the time of filing an application to become an improved benefits plan member as hereinafter provided in this subdivision c, may, by a written application duly executed and filed with the board on or after the starting date of the improved benefits plan (as such starting date is defined in subdivision twenty-seven of section 13-313 of this subchapter) and prior to the date next succeeding the date six months after such starting date, or on or after the effective date of subdivision m of this section and prior to January first, nineteen hundred eighty-three, elect to terminate his or her status as an original plan member and become entitled to the rights, benefits

and privileges and be subject to the obligations of the improved benefits plan.

d. Any original plan member who files an application pursuant to subdivision c of this section shall cease to be an original plan member at the end of the day next preceding the starting date of the improved benefits plan and shall become an improved benefits plan member as of such starting date.

e. Any original plan member, who is in city-service at the time of filing an application to become an improved benefits plan member as hereinafter provided in this subdivision e, may, by a written application duly executed and filed with the board during any subsequent period for election of the improved benefits plan (as defined in subdivision twenty-two of section 13-313 of this subchapter), elect to terminate his or her status as an original plan member and become entitled to the rights, privileges and benefits and be subject to the obligations of the improved benefits plan.

f. Any original plan member who files an application pursuant to subdivision e of this section shall cease to be an original plan member at the end of the day next preceding the date of filing of such application and shall become an improved benefits plan member commencing on such date of filing.

g. Any election to be an improved benefits plan member made pursuant to the provisions of this section shall be irrevocable.

h. The status of an original plan member, who elects to become an improved benefits plan member pursuant to the provisions of this section, with respect to applicability or inapplicability of the provisions of article eleven of the retirement and social security law to him or her as a member of the pension fund, shall not be affected or changed by such election.

i. Beginning with the payroll period, the first day of which coincides with or next occurs after the date or commencement of the status of an elective improved benefits plan member as such a member, as prescribed by the applicable provisions of this subchapter, there shall be deducted from the compensation of each such member on each and every payroll of such member for each and every payroll period a proportion of his or her earnable compensation equal to the proportion which would have been determined by the actuary, as of his or her date of inception of pension fund membership (as defined in subdivision twenty of section 13-313 of this subchapter), as his or her rate of member contribution (before reduction on account of increased-take-home-pay) as a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, if, as of such date of inception of pension fund membership, he or she had not become a member of this pension fund and had instead become a member of such police pension fund; provided, however, that if the foregoing provisions of this subdivision i would otherwise require that such proportion be determined pursuant to the provisions of subdivision a of section 13-225 of this title, as enacted by local law number two of the city for nineteen hundred forty, such proportion shall be determined by the actuary in the same manner as if, as of such date of inception of pension fund membership, the provisions of such subdivision a, as amended by local law number eighty-nine of the city for nineteen hundred fifty-one, and been in effect, so that the fraction to be used in such computation shall be twenty-five seventy-fifths. Such proportion of compensation determined for any elective improved benefits plan member pursuant to the provisions of this subdivision i shall be computed to remain constant. The provisions of section 13-327 of this subchapter shall apply to such deductions and to each elective improved benefits plan member, except insofar as the provisions of such section 13-327 are inconsistent with the provisions of this subdivision i.

j. (1) Each elective improved benefits plan member shall be subject to a contribution rate deficiency (as defined in subdivision twenty-one of section 13-313 of this subchapter) unless and until the amount thereof is paid in full to the pension fund.

(2) Each non-elective improved benefits plan member (as defined in subdivision four-h of section 13-313 of this subchapter) who is or becomes entitled under any provision of this subchapter to credit for member service in the uniformed force of the fire department with respect to any period:

(i) which precedes the date of the last commencement of his or her membership in the pension fund as a non-elective improved benefits plan member; and

(ii) with respect to which period he or she was required to make member contributions to the pension fund; and

(iii) with respect to which period he or she made required member contributions determined pursuant to section 13-325 of this subchapter, as in effect before or on or after the effective date of this subdivision; shall be subject to a contribution rate deficiency, unless and until the amount thereof has been paid in full to the pension fund.

(3) Any improved benefits plan discontinued member (as defined in subdivision sixteen-d of such section 13-313) who, immediately prior to the discontinuance of service which qualified him or her to become such a member, was subject to a contribution rate deficiency, shall be subject to such deficiency while he or she is an improved benefits plan discontinued member, unless and until the amount thereof has been paid in full to the pension fund.

(4) In any case where an original plan discontinued member (as defined in subdivision sixteen of such section 13-313) becomes an improved benefits plan discontinued member pursuant to the provisions of paragraph six of subdivision i of section 13-360 of this subchapter, he or she shall be subject to a contribution rate deficiency unless and until the amount thereof has been paid in full to the pension fund.

(5) For the purpose of payment of a contribution rate deficiency or any part thereof to the pension fund by an improved benefits plan member who is subject to such a deficiency, such deficiency shall be deemed to consist of:

(i) the amount thereof, without regular interest thereon, if such member completed his or her minimum period for service retirement before becoming an improved benefits plan member; or

(ii) the amount thereof, plus regular interest and special interest, if any, thereon, from his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of such section ) 13-313 to (A) the date of completion of his or her minimum period for service retirement, or (B) the date of payment, if such member becomes an improved benefits plan member before completion of his or her minimum period for service retirement.

(6) For the purpose of payment of a contribution rate deficiency or any parts thereof to the pension fund by an improved benefits plan discontinued member who is subject to such deficiency, such deficiency shall be deemed to consist of the amount thereof, plus regular interest and special interest, if any, thereon from the date of commencement of contributions as an improved benefits plan member, as applicable to such member, to and including the date next preceding the date of payment.

(7) No contribution rate deficiency which includes regular interest and special interest, if any, thereon as provided for by paragraphs five and six of this subdivision j shall be deemed paid unless the amount thereof, together with such regular interest and special interest, if any, is paid in full to the pension fund.

(8) Subject to the provisions of paragraphs five, six and seven of this subdivision, each improved benefits plan member who is subject to a contribution rate deficiency may, at any time while he or she is a member, at his or her election pay to the pension fund the amount of such deficiency or so much thereof as remains unpaid.

(9) Subject to the provisions of paragraph five of this subdivision, at any time before the date of required commencement of payment of any benefit payable to an improved benefits plan discontinued member who is subject to a contribution rate deficiency, he or she may at his or her election pay to the pension fund the amount of such deficiency or so much thereof as remains unpaid.

(10) The board shall adopt rules and regulations governing the payment of a contribution rate deficiency or the unpaid portion thereof in a lump sum, in periodic installments or in such other manner as the board shall prescribe;

provided, however, that such rules and regulations shall not conflict with the provisions of paragraphs five to nine, inclusive, of this subdivision j.

k. For the purposes of section 13-342 of this subchapter (relating to loans to members), the accumulated deductions of any elective improved benefits plan member shall not be deemed to include any part of his or her contribution rate deficiency remaining unpaid.

l. (1) Upon the filing of an application by an original plan member to become an elective improved benefits plan member, an amount equal to his or her accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter), as such contributions were as of the date next preceding the date of commencement of his or her status as an elective improved benefits plan member, shall be transferred from the contingent reserve fund to the credit of such member's account in the annuity savings fund.

(2) In any case where a non-elective improved benefits plan member is credited, immediately prior to becoming such a member, with accumulated contributions, such contributions, upon his or her becoming such a member, shall be transferred from the contingent reserve fund to the credit of such member's account in the annuity savings fund.

m. (1) For the purposes of this subdivision m, the term "additional contribution rate deficit" shall mean with respect to a retiree subject to such a deficit under the provisions of paragraph four of this subdivision m, an amount equal to the excess, if any, of (b) over (a), where: (a) is the amount of the subsequent original plan member accumulated contributions (as defined in subdivision six-c of section 13-313 of this subchapter) of such retiree (as such amount would be in the absence of a loan), and (b) is the amount (a) would be if (i) the contribution rate of such retiree on and after July first, nineteen hundred eighty-one had been the rate which would be his or her normal rate of contribution as an improved benefits plan member (as defined in subdivision eighteen of such section 13-313 of this subchapter) and (ii) regular and special interest had been credited on and added to such retiree's hypothetical member contributions on and after such July first resulting from such normal rate.

(2) For the purposes of this subdivision m, the term "additional contribution rate deficit" shall mean with respect to a person who is deemed to be an improved benefits plan discontinued member (as defined in subdivision sixteen-d of section 13-313 of this subchapter) under the provisions of paragraph eight of this subdivision and who is subject to such a deficit under the provisions of paragraph nine of this subdivision, an amount equal to the excess of (b) over (a), where: (a) is the amount of the subsequent original plan member accumulated contributions (as defined in subdivision six-c of such section 13-313) of such person (as such amount would be in the absence of a loan) and (b) is the amount (a) would be if (i) the contribution rate of such person on and after July first, nineteen hundred eighty-one had been the rate which would be his or her normal rate of contribution as an improved benefits plan member (as defined in subdivision eighteen of such section 13-313) and (ii) regular and special interest had been credited on and added to such person's hypothetical member contributions on and after such July first resulting from such normal rate.

(3) Notwithstanding any other provision of law to the contrary, in any case where, during the period beginning on July second, nineteen hundred eighty-one and ending on the date thirty days after the effective date of this subdivision m, any member was or shall be retired for service or superannuation or for ordinary or accident disability, and at the time of such retirement, such member was or shall be an original plan member, such retiree may, by a written application duly executed and filed with the board on or after the effective date of this subdivision and prior to January first, nineteen hundred eighty-three, elect the applicable benefits of this subdivision. Any retiree who makes such election (a) shall be deemed to have become an improved benefits plan member, effective July first, nineteen hundred eighty-one, (b) shall be deemed to have been retired, on the effective date of his or her retirement, as an improved benefits plan member and (c) shall be entitled to receive, as of the effective date of his or her retirement and in lieu of any other retirement allowance to which he or she would have been entitled if he or she had not made such election, a retirement allowance determined (subject to the provisions of paragraph four of this subdivision m) for him or her in the same manner as if, where such retirement occurred during the period beginning on July second, nineteen hundred eighty-one and ending on January first, nineteen hundred eighty-two, such retiree, on the date next preceding the

effective date of his or her retirement, had elected to be an improved benefits plan member, or as if, where such retirement occurred or occurs during the period beginning on January second, nineteen hundred eighty-two and ending on the date thirty days after the effective date of this subdivision m, the provisions of this subchapter had permitted such retiree, on the date next preceding the effective date of his or her retirement, to elect to be an improved benefits plan member, effective July first, nineteen hundred eighty-one, and he or she had made such election on such next preceding date.

(4) A retiree who makes such election pursuant to paragraph three of this subdivision m shall be subject to a contribution rate deficiency (as defined in subdivision twenty-one of section 13-313 of this subchapter) unless and until the amount thereof is paid to the pension fund in the manner provided for in paragraph five of this subdivision, and in any case where any such retiree had not completed his or her minimum period for service retirement prior to July first, nineteen hundred eighty-one, he or she shall also be subject to an additional contribution rate deficit (as defined in paragraph one of this subdivision m ), unless and until the amount thereof is paid to the pension fund in the manner provided for in such paragraph five. The provisions of paragraphs five and seven of subdivision j of this section shall apply to the determination and payment of the amount of the contribution rate deficiency of any retiree making such election. The rules and regulations adopted pursuant to paragraph ten of subdivision j of this section shall not apply to payment of any such contribution rate deficiency.

(5) A retiree who makes such election may elect to pay to the pension fund, in the manner hereinafter provided for in this paragraph five, the whole or any part of the contribution rate deficiency to which he or she is subject or the whole or any part of any additional contribution rate deficit to which he or she is subject. Any such payment, if elected by such retiree, shall be completed no later than the date of filing of such retiree's applicable under paragraph three of this subdivision m electing the application benefits hereof.

(6) For the purpose only of determining the pension portion of the retirement allowance for the required minimum period of service of any retiree retired for service or superannuation who has filed an election application pursuant to paragraph three of this subdivision m:

(i) in any case where such retiree is subject to a contribution rate deficiency which remains unpaid in whole or in part, the annuity computed for such retiree pursuant to paragraph one of subdivision a of section 13-359 of this subchapter shall be computed as it would be under assumptions (i) to (iv) inclusive, of subparagraph (a) of such paragraph one and in addition, as such annuity would be if an amount equal to the whole or any part of such contribution rate deficiency remaining unpaid as of the date of the filing of such retiree's election of the applicable benefits of this subdivision pursuant to paragraph three thereof had been paid to the pension fund on the earlier of (A) such member's date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of section 13-313 of this subchapter) or (B) the date next following the date of termination of such member's required minimum period of service; and

(ii) in any case where such retiree is subject to an additional contribution rate deficit which remains unpaid in whole or in part, such annuity computed for such retiree shall be computed as it would be under assumptions (i) to (iv), inclusive, of such subparagraph (a) and in addition, as such annuity would be if an amount equal to the whole or any part of such additional contribution rate deficit remaining unpaid as of the date of the filing of such member's election of the applicable benefits of this subdivision pursuant to paragraph three thereof had been paid to the pension fund on the date next following the date of completion of such member's required minimum period of service.

(7) For the purpose only of determining the pension portion of the retirement allowance payable to any retiree retired for ordinary disability who has filed an election application pursuant to paragraph three of this subdivision m:

(i) in any case where such retiree is subject to a contribution rate deficiency which remains unpaid in whole or in part, the annuity computed for such retiree pursuant to paragraph one of subdivision a of section 13-363 of this subchapter shall be computed as it would be under assumptions (i) to (iv), inclusive, of subdivision b of such section,

and in addition, as such annuity would be if an amount equal to the whole or any part of such contribution rate deficiency remaining unpaid as of the date of filing of such member's election of the applicable benefits of this subdivision pursuant to paragraph three thereof had been paid to the pension fund on the earlier of (A) the date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of section 13-313 of this subchapter) or (B) the date next following the date of completion of such member's minimum period for service retirement; and

(ii) in any case where such retiree is subject to an additional contribution rate deficit which remains unpaid in whole or in part, such annuity computed for such retiree shall be computed as it would be under assumptions (i) to (iv), inclusive, of such subdivision b and in addition, as such annuity would be if an amount equal to the whole or any part of such additional contribution rate deficit remaining unpaid as of the date of such member's election of the applicable benefits of this subdivision pursuant to paragraph three thereof had been paid to the pension fund on the earlier of (A) the date of completion of such retiree's minimum period for service retirement or (B) the day next preceding the effective date of such retiree's retirement.

(8) Notwithstanding any other provision of law to the contrary, in any case where, during the period beginning on July second, nineteen hundred eighty-one and ending on the date thirty days after the effective date of this subdivision m, any original plan member discontinued or shall discontinue service so as to acquire a vested right to a deferred retirement allowance under section 13-360 of this subchapter, such original plan discontinued member (as defined in subdivision sixteen of section 13-313 of this subchapter) may, by a written application duly executed and filed with the board on or after the effective date of this subdivision and prior to January first, nineteen hundred eighty-three, elect the applicable benefits of this subdivision. Any such person making such election (a) shall be deemed to have elected to become an improved benefits plan member, effective July first, nineteen hundred eighty-one, (b) shall be deemed to have discontinued service, as of the date of such discontinuance of service as an original plan member, so as to become an improved benefits plan discontinued member (as defined in subdivision sixteen-d of such section 13-313) and (c) shall be entitled to receive, in lieu of any other deferred retirement allowance to which he or she would have been entitled if he or she had not made such election, a deferred retirement allowance determined for him or her (subject to the provisions of paragraph nine of this subdivision) in the same manner as, and payable at the same time as if, where such discontinuance of service occurred during the period beginning on July second, nineteen hundred eighty-one and ending on January first, nineteen hundred eighty-two, such person, on the date next preceding the date of his or her discontinuance of service, had elected to be an improved benefits plan member, or as if, where such discontinuance of service occurred or occurs during the period beginning on January second, nineteen hundred eighty-two and ending on the date thirty days after the effective date of this subdivision, the provisions of this subchapter had permitted such person, on the date next preceding the date of his or her discontinuance of service, to elect to be an improved benefits plan member, effective July first, nineteen hundred eighty-one, and he or she had made such election on such next preceding date.

(9) A person who is deemed to be an improved benefits plan discontinued member by reason of an election made pursuant to paragraph eight of this subdivision m shall be subject to a contribution rate deficiency (as defined in subdivision twenty-one of section 13-313 of this subchapter) and he or she shall also be subject to an additional contribution rate deficit (as defined in paragraph two of this subdivision), unless and until the amounts of such deficiency and deficit are paid to the pension fund in the manner provided for in paragraph ten of this subdivision. The provisions of paragraphs six and seven of subdivision j of this section shall apply to the determination and payment of the amount of the contribution rate deficiency of any such person deemed to be an improved benefits plan discontinued member.

(10) (i) A person deemed to be an improved benefits plan discontinued member by reason of an election made pursuant to paragraph eight of this subdivision m may elect to pay to the pension fund, in the manner prescribed by subparagraph (ii) of this paragraph ten the whole or any part of the contribution rate deficiency and/or additional contribution rate deficit to which he or she is subject.

(ii) The board shall adopt rules and regulations governing the payment of any such contribution rate deficiency or additional contribution rate deficit or unpaid portion thereof in a lump sum, in periodic installments or in such other manner as the board shall prescribe, provided, however, that any such payment, if elected by any such person deemed to be an improved benefits plan discontinued member, shall be completed no later than the later of (A) the date of filing of such person's application under paragraph eight of this subdivision electing the applicable benefits hereof, or (B) the date of required commencement of payment of benefits to such person under the provisions of section 13-361 of this subchapter.

(11) For the purpose only of determining the pension portion (payable pursuant to paragraph two of subdivision c of section 13-361 of this subchapter) of the deferred retirement allowance payable to a person deemed to be an improved benefits plan discontinued member by reason of an election made pursuant to paragraph eight of this subdivision m, the annuity computed for such person pursuant to paragraph one of such subdivision c shall be computed as it would be under assumptions one to five, inclusive, of subdivision d of such section 13-361 and in addition, as it would be in an amount equal to the additional contribution rate deficit of such person had been paid to the pension fund on the day next preceding the date of such person's discontinuance of service which qualified him or her as an original plan discontinued member.

(12) An election made pursuant to paragraph three or paragraph eight of this subdivision m shall be irrevocable.

(13) Nothing contained in this subdivision m shall affect the applicability of section eleven hundred seventeen of the charter or section 13-356 or section 13-357 of this subchapter or article seven of the retirement and social security law to any person making such an election.

(14) The privilege of making an election pursuant to paragraph three or paragraph eight of this subdivision m shall not apply to and may not be exercised by the estate, personal representatives, distributees or beneficiaries of any deceased person.

(15) (i) In any case where a retiree files an application electing the applicable benefits of this subdivision m pursuant to the provisions of paragraph three hereof, or an original plan discontinued member (as defined in subdivision sixteen of section 13-313 of this subchapter) files an application electing the applicable benefits of this subdivision pursuant to the provisions of paragraph eight hereof, and prior to the filing of such application, the period had expired wherein such retiree or original plan discontinued member was entitled to select an option with respect to the original plan retirement allowance to which he or she was entitled prior to the filing of such application, neither such retiree nor discontinued member nor any person who would otherwise be entitled to select an option in behalf of such retiree or discontinued member shall have any other or further period for selection of an option or for a choice or election that a maximum retirement allowance be paid.

(ii) In any such case wherein the period for selection of an option expired as described in subparagraph (a) of this paragraph fifteen, any option selected prior to such expiration by or on behalf of any such retiree or discontinued member in relation to his or her original plan retirement allowance or any choice or election prior to such expiration by or on his or her behalf that the maximum of such original plan retirement allowance shall be paid, shall apply to the improved benefits plan retirement allowance to which such retiree or discontinued member becomes entitled by reason of the filing of such application under paragraph three or paragraph eight, as the case may be, of this subdivision.

(16) The status of any person who files an application electing the applicable benefits of this subdivision m pursuant to the provisions of paragraph three or paragraph eight hereof with respect to applicability or inapplicability of the provisions of article eleven of the retirement and social security law shall not be affected or changed by such election.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-316 Board of trustees.

a. A board of trustees shall be the head of the New York fire department pension fund subchapter two, and, subject to the provisions of law and to the prior approval of the board of estimate, from time to time shall establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof. Such board shall consist of:

1. The fire commissioner who shall be chairperson of the board and who shall be entitled to cast three votes.

2. The comptroller of the city who shall be entitled to cast three votes.

3. A representative of the mayor who shall be appointed by the mayor and who shall be entitled to cast three votes.

4. The commissioner of finance of the city who shall be entitled to cast three votes.

5. The president of the uniformed firefighters' association of greater New York who shall be entitled to cast two votes.

6. The vice-president of the uniformed firefighters' association of greater New York who shall be entitled to cast two votes.

7. The treasurer of the uniformed firefighters' association of greater New York who shall be entitled to cast two votes.

8. The chairperson of the board of trustees of the uniformed firefighters' association of greater New York who shall be entitled to cast two votes.

9. Three elected members of the executive board of the uniformed fire officers' association of the fire department, city of New York, of whom one shall be an officer of the said department with rank above that of captain and shall be entitled to cast one vote; another shall be a captain of the said department and shall be entitled to cast one vote; another shall be a lieutenant of the said department and shall be entitled to cast one and one-half votes.

10. The president of the uniformed pilots and marine engineers association, fire department, city of New York, who shall be entitled to cast one-half vote.

11. (i) Where, during any six-month period during a fiscal year, as defined in subdivision three of section 13-382 of the code, the equity portion of the assets of the pension fund is less than forty-five percent, subparagraph (ii) of this paragraph eleven shall be effective during the succeeding fiscal year.

(ii) Two investment representatives, one of whom shall be appointed by the mayor and one of whom shall be appointed by the comptroller upon the occurrence of the condition specified in subparagraph (i) of this paragraph eleven. Each such representative shall be entitled to cast two votes only in relation to determinations of the board:

(A) as to whether the assets of the pension fund shall be invested in equities or fixed income securities and the proportion of the assets of the pension fund to be invested in equities and fixed income securities; and

(B) as to the identity, nature, character and amounts of the equities (within the proportion as determined under item (A) of this subparagraph) to be acquired, held, sold, disposed of or otherwise dealt with by the pension fund; and

(C) as to any steps necessary to effectuate any of the functions set forth in items (A) and (B) of this subparagraph; and

(D) as to delegation by the board, pursuant to law, of the functions described in items (A), (B) and (C) of this subparagraph.

b. Subject to the provisions of subdivision b-1 of this section, every act of the board of trustees shall be by resolution which shall be adopted only by a vote of at least seven-twelfths of the whole number of votes authorized to be cast by all of the members of such board.

b-1. Every act of the board of trustees in relation to the investment matters referred to in paragraph thirteen of subdivision a of this section shall be by resolution which shall be adopted only by a vote of at least eight-fourteenths of the whole number of votes authorized to be cast by all of the members of the board empowered to vote on such investment matters.

c. The fire commissioner shall assign to the board of trustees a sufficient number of clerical and other assistants to permit the board efficiently to exercise their powers and to perform their duties.

d. Any member of the board referred to in paragraphs five, six, seven, eight and ten, respectively, of subdivision a of this section, shall be members of the uniformed force and may authorize in writing at any time any other officer of the respective associations to represent him or her on such board in the event of his or her absence or disability, provided, however, that the by-laws or constitution of such respective associations provide for designation of a representative in such event.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-318 Credit for service.

a. Subject to the following and to all other provisions of this subchapter, including such rules and regulations as such board shall adopt in pursuance thereof, such board shall determine and may modify allowances for service.

b. Such board shall fix and determine how much service rendered in any year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred fifty or more days of service and not more than one year for all service in any calendar year.

c. Time during which a member was absent on leave without pay shall not be allowed in computing service as a member except as to time subsequent to approval of such allowance for retirement purposes granted by the commissioner and approved by such board. Time during which a member was on a preferred civil service list for firefighter shall not be construed to form part of the period within which membership must begin.

d. (1) Any person who was a member of the New York city employees' retirement system and whose membership therein was terminated by his or her attaining membership in the fire department pension fund, subchapter two, and who had withdrawn his or her contributions to the New York city employees' retirement system shall receive credit in the said fire department pension fund for prior creditable city service by paying into the annuity savings fund of the said fire department pension fund the amount of the employee contributions required to have been paid into the New York city employees' retirement system for such prior creditable city service, prior to July first, nineteen hundred

eighty-two.

Subject to the provisions of paragraphs two and three of this subdivision, no member of the said fire department pension fund shall be eligible for retirement for service until he or she has served in the fire department for a minimum period of twenty or twenty-five years, or until he or she has reached the age of fifty-five, according to the minimum period or age of retirement elected by such member prior to the certification of his or her rate of contribution.

(2) (a) Subject to the provisions of subparagraph (b) of this paragraph any period of allowable service rendered as an "EMT member," as defined in paragraph one of subdivision a of section 13-157.2 of this title, as added by chapter five hundred seventy-seven of the laws of two thousand, which immediately precedes service in the uniformed force of the fire department, and any period of allowable service rendered (i) as a peace officer, as defined in section 2.10 of the criminal procedure law, (ii) in the title of sheriff, deputy sheriff, marshal or district attorney investigator, or (iii) in any position specified in appendix A of the agreement dated October twenty-seventh, two thousand five, among the city of New York, the uniformed firefighters association and the uniformed fire officers association, which immediately precedes service in the uniformed force of the fire department, and any period of allowable service in the uniformed transit police force, uniformed correction force, housing police service and the uniformed force of the department of sanitation immediately preceding service in the uniformed force of the fire department, credit for which immediately preceding allowable service was or is obtained pursuant to paragraph one of this subdivision, shall be deemed to be service in the uniformed force of the fire department for purposes of eligibility for benefits and to determine the amount of benefits under the fire department pension fund.

(b) In any case where by reason of credit for such immediately preceding service, the date of completion of such member's minimum period for service retirement under the fire department pension fund became or becomes earlier than such date would have been or would be if such credit for such immediately preceding service had not been so acquired, there shall be effected with respect to such member:

(i) such increase in such member's normal rate of contribution, effective as of the date on which such member last became a member of the fire department pension fund, as may be necessary to reflect such earlier date of eligibility for service retirement; and

(ii) the charging of such member who acquired or acquires such credit for such immediately preceding service with a contribution rate deficiency:

(A) which shall accrue from the date on which such member last became a member of the fire department pension fund; and

(B) which shall be in such amount as shall be the product of the increase provided in item (i) of this subparagraph (b) and the member's compensation during the period of time provided in sub-item (A) of this item (ii); and

(C) which, unless paid by such member in such manner as shall be prescribed by rules and regulations adopted by the board of trustees of such pension fund, shall require an appropriate adjustment of any benefit which may become payable to or on account of such member.

(3) Nothing contained in subparagraph (b) of paragraph two of this subdivision d shall cause a member who acquires or acquired service credit by reason of the provisions of subparagraph (a) of such paragraph two to be denied:

(a) the right or entitlement, if any, to terminate or reduce contributions to such pension fund or to a refund of or credit for contributions paid during a period when the member would have been entitled to terminate or reduce such contributions if he or she had such service credit on the date when he or she last became a member of the pension fund; or

(b) any other right, benefit or entitlement of a similarly situated member of such pension fund with equal total service credit consisting only of service in the uniformed force of the fire department, provided that the foregoing provisions of this paragraph three shall not be construed in a manner inconsistent with the provisions of subparagraph (b) of paragraph two of this subdivision d.

e. Any improved benefits plan member who was a member of the board of education retirement system and whose membership therein was terminated by his or her attaining membership in this pension fund shall receive credit in such pension fund for prior creditable city-service by paying into the annuity savings fund of such pension fund the amount of the employee contributions required to have been paid into the board of education retirement system for such prior creditable city-service, within one year after becoming a member of such pension fund, and shall have the period of such prior creditable city-service counted as service as a firefighter for the purpose only of determining the amount of his or her pension or retirement allowance, provided, however, that no member of such pension fund shall be eligible for retirement for service until he or she has served in the uniformed force of the department for a minimum period of twenty or twenty-five years, according to the minimum period elected by such member prior to the certification of his or her rate of contribution.

f. The rights and privileges of any original plan member subject to article eleven (as defined in subdivision four-d of section 13-313 of this subchapter) or improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313) under the preceding subdivisions of this section shall be as prescribed by such provisions, except to the extent and in the manner that any such provision is modified by article eleven.

g. (1) Upon election, any member of the fire department pension fund, of this subchapter, who was a member of the New York city employees' retirement system while employed as a New York city police department trainee shall receive credit in the said fire department pension fund, of this subchapter, for prior creditable service in the New York city employees' retirement system earned while employed as a New York city police department police trainee by paying into the annuity savings fund of said fire department pension fund additional member contributions plus interest which would have been paid or credited had such member been a member of the fire department pension fund, of this subchapter, from his or her last date of appointment as a New York city police department trainee or date of membership in the New York city employees' retirement system, whichever is later, provided such payment is made within one year after this subdivision shall take effect, and the period of such prior service credit shall be deemed to be service in the fire department for purposes of eligibility for benefits and to determine the amounts of benefits under the fire department pension fund.

(2) A member of the fire department pension fund, of this subchapter, who acquires service credit by reason of the provisions of paragraph one of this subdivision shall be entitled to any other right, benefit or entitlement of a similarly situated member of such pension fund with equal total service credit consisting only of service in the uniformed force of the fire department.

h. Any member of the city of New York fire department pension fund who by reason of simultaneous membership in two public retirement systems, would have been entitled to transfer membership in a public retirement system pursuant to any provision of law, but failed to make a timely election to do so shall be entitled to transfer such membership if written notice is given to the first retirement system joined no later than one year subsequent to the effective date of this subdivision. A member who provides such notice may file a written request for retroactive membership in the fire department pension fund within three years of the effective date of this subdivision. The additional cost due to the retroactive membership shall be borne by the first retirement system.

§ 13-319 Re-entry into membership after withdrawal of contributions.

a. Subject to the provisions of subdivision c of this section, if an original plan member has received benefits under subdivision a of section 13-343 of this subchapter, his or her member-service credit at the time of leaving service shall be restored in full provided such member return to service within five years after leaving service and redeposits the total amount so withdrawn.

b. Subject to the provisions of subdivision c of this section, if an improved benefits plan member has received benefits under subdivision b of such section 13-343, his or her member-service credit at the time of leaving service shall be restored in full provided such member return to service within five years after leaving service and redeposits the total amount so withdrawn. Subsequent contributions shall be at the rate applicable to his or her age on re-entry to service.

c. The rights and privileges of any original plan member subject to article eleven (as defined in subdivision four-d of section 13-313 of this subchapter) under subdivision a of this section and the rights and privileges of any improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313) under subdivision b of this section shall be as prescribed by the provisions of such subdivision a or subdivision b, as the case may be, except to the extent and in the manner that any such provision is modified by article eleven.

§ 13-321 Pension fund; adoption of tables and certification of rates.

The actuary appointed by the board of estimate shall be the technical adviser of the board on all matters regarding the operation of the funds provided for by this subchapter and shall perform such other duties as are required of him or her. He or she shall keep in convenient form such data as shall be necessary for the actuarial valuation of such funds. Every five years, he or she shall make an actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries as defined by this subchapter and shall make a valuation, as of June thirtieth of each year, of the assets and liabilities of the various funds provided for by this subchapter. Upon the basis of such investigation and valuation such board shall:

1. Adopt for the pension fund such mortality, service and other tables as shall be deemed necessary; and

2. Certify the rates of deduction from compensation computed to be necessary to pay the annuities authorized under the provisions of this subchapter.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-323 Medical board.

a. (1) There shall be a medical board of three physicians. One of such physicians shall be appointed by the board and shall hold office at the pleasure of such board, one shall be appointed by the commissioner of health and mental hygiene and shall hold office at the pleasure of such commissioner, and the third shall be appointed by the commissioner of citywide administrative services and shall hold office at the pleasure of such commissioner.

(2) The board, the commissioner of health and mental hygiene and the commissioner of citywide administrative services shall each have power to appoint three alternate physicians, who shall hold office at the pleasure of such appointing board or official. Whenever the board of trustees of the pension fund shall so direct, the functions, powers and duties of the medical board, in addition to being performed and exercised by the three physicians appointed pursuant to paragraph one of this subdivision, shall be performed and exercised by one or more groups of three physicians as hereinafter prescribed. Each such group of three physicians shall function separately as the medical board and each such group may consist partly of a physician or physicians appointed pursuant to such paragraph one and partly of one or more alternate physicians, or may consist entirely of alternate physicians; provided, however, that one of the physicians or alternate physicians in each such group shall be appointed by the board, one by the commissioner of health and mental hygiene and one by the commissioner of citywide administrative services.

b. The medical board shall arrange for and shall pass upon all medical examinations required under the provisions of this subchapter, shall investigate all essential statements and certifications by or on behalf of a member in

connection with an application for disability retirement, and shall report to the board its conclusions and recommendations thereon.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-325 Contributions by original plan members.

a. (1) The retirement allowance accumulation fund, as established by the provisions of this subdivision as in effect prior to the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of section 13-313 of this subchapter), shall cease to exist on such starting date.

(2) There shall be transferred from such retirement allowance accumulation fund to the contingent reserve fund established by sections 13-324 and 13-331 of this subchapter all assets of the retirement allowance accumulation fund as of such starting date, including the obligation represented by all unpaid amounts which are due and payable to the retirement allowance accumulation fund up to and including such date pursuant to the rates of member deduction and city contribution certified under section 13-321 of this subchapter prior to such date. Any such unpaid amounts which constitute assets of the retirement allowance accumulation fund as of such starting date and which are due from and payable by the city shall be appropriated and paid by the city pursuant to the provisions of this section and section 13-334 of this subchapter as in effect immediately prior to such date.

(3) Of such transferred amount, the prior original plan member accumulated contributions (as defined in subdivision six-b of section 13-313 of this subchapter), as of such starting date, of each original plan member shall be transferred to his or her credit in an individual account in the contingent reserve fund.

b. (1) Subject to the provisions of paragraph two of subdivision c of this section, on and after such starting date,

each original plan member shall contribute to the pension fund, through deductions from his or her compensation as provided for by paragraph one of such subdivision c, a proportion of his or her earnable compensation (before reduction of such proportion on account of any program for increased-take-home-pay in effect) equal to the proportion of his or her earnable compensation (before reduction on account of any program for increased-take-home-pay in effect) which he or she was required to contribute to the pension fund as of the date next preceding such starting date.

(2) The normal rate of contribution as an original plan member (as defined in subdivision seventeen of section 13-313 of this subchapter) of any original plan member shall continue unchanged while he or she is an original plan member.

(3) The cash benefits payable under the provisions of this subchapter to, or upon the death of, an original plan member in active service shall be paid from the contingent reserve fund. Upon the retirement of an original plan member, or upon his or her death in the performance of duty, an amount equal to the retirement allowance reserve for the retirement allowance payable on account of his or her city-service as a member, shall be transferred from the contingent reserve fund to the retirement allowance reserve fund.

c. (1) Such board shall certify to the commissioner who shall deduct from the compensation of each original plan member on each and every payroll of such member for each and every payroll period, the proportion of his or her earnable compensation which he or she is required to contribute to the pension fund as provided for by subdivision b of this section, provided that such proportion shall be reduced on account of any program for increased-take-home-pay to the extent and for the period prescribed by any laws providing for such a reduction for members of the pension fund, as applicable to such member. In determining the amount earnable by a member in a payroll period, such board may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and such board may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period. To facilitate the making of deductions, such board may modify the contribution required of any member by such an amount as shall not exceed one-tenth of one per cent of the compensation upon the basis of which such contribution is to be made. The deductions provided herein shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the reductions made and provided for herein and shall receipt in full for his or her salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except his or her claim to the benefits to which he or she may be entitled under the provisions of this subchapter. The commissioner shall certify to the comptroller on each and every payroll the amounts to be deducted. Each of such amounts shall be deducted and when deducted shall be paid into the contingent reserve fund, and shall be credited to an individual account of the member from whose compensation such deduction was made.

(2) Notwithstanding any other provision of law to the contrary, in the case of any original plan member whose years of fire service credited to him or her equal or exceed the minimum period for service retirement elected by him or her, that part of any earnable compensation of such member earned after completion of such minimum period and on or after July first, nineteen hundred sixty-nine, which part is obtained by multiplying such compensation by the excess, if any, of his or her normal rate of contribution as an original plan member (as defined in subdivision seventeen of section 13-313 of this subchapter) rate over five per cent, shall not be deducted under subdivision b of this section and paragraph one of this subdivision c. Nothing contained in this paragraph two shall affect or impair any rights conferred upon any such member by section 13-326 of this subchapter.

d. In addition to the contributions from compensation hereinbefore provided, any original plan member may redeposit in the contingent reserve fund by a single payment an amount equal to the total amount which he or she withdrew previously therefrom as provided in this subchapter. Such additional amount so deposited shall become a part of his or her accumulated contributions. The accumulated contributions of an original plan member withdrawn as provided in this subchapter shall be paid out of the contingent reserve fund.

**CASE NOTES FROM FORMER SECTION**

¶ 1. The amendment in 1947 Legislature in enacting this, giving retroactive seniority to firemen by virtue of their war service, and providing that the City was to pay 100 per cent contributions for the Pension Fund, intended that after the war years, the veteran should pay 45 per cent of the annual contributions. A directive to that effect by the City Fire Department did not violate Article 5, § 7 of the State Constitution prohibiting the impairment of contracts.-Dunn v. City of New York, 7 N.Y. 2d 232, 196 N.Y.S. 2d 686, 164 N.E. 2d 709 [1959].

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-326 Pension-for-increased-take-home-pay.

a. 1. The mayor, by executive order adopted prior to the first day of June, nineteen hundred sixty-three, may direct that beginning with the first full payroll period following January first, nineteen hundred sixty-three, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-four, the contribution of each member made pursuant to section 13-325, shall be reduced by two and one half percentum of the compensation of such member. Such executive order may also provide a method or procedure for the refunding or crediting to a member by the pension fund of the amount of the reduction in his or her deductions for any period prior to the date of adoption of such executive order.

2. The mayor, by executive order adopted prior to the first day of June, nineteen hundred sixty-four, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-four, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-five, the contribution of each member made pursuant to section 13-325, shall be reduced by two and one-half percentum of the compensation of such member.

3. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-five, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-five, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-six, the contribution of each member made pursuant to section 13-325 of this subchapter shall be reduced by two and one-half

percentum of the compensation of such member.

4. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-six, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-seven, the contribution of each member made pursuant to section 13-325 of this subchapter shall be reduced by two and one-half percentum of the compensation of such member.

5. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may direct that beginning with the payroll period, the first day of which is nearest to July first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the contribution of each member made pursuant to section 13-325 of this subchapter shall be reduced by two and one-half percentum of the compensation of such member.

6. (a) Subject to the provisions of subparagraph b of this paragraph, beginning with the first full payroll period following January first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the contribution of each member made pursuant to section 13-325 of this subchapter shall be reduced by two and one-half percentum of the compensation of such member.

(b) The reduction provided for by subparagraph a of this paragraph shall be in addition to any reduction made during the period mentioned in such subparagraph a pursuant to paragraphs four or five of this subdivision a. The amount of the reduction made pursuant to subparagraph a of this paragraph in the deductions of any such member for such portion of the period mentioned in such subparagraph as precedes the effective date of this paragraph shall be refunded without interest.

(c) Beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, the contribution of each member made pursuant to section 13-325 of this subchapter shall be reduced by five percentum of the compensation of such member.

7. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, the contribution of each member made pursuant to section 13-326 of this subchapter shall be reduced by five per centum of the compensation of such member.

8. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred seventy-three, the contribution of each member made pursuant to section 13-326 of this subchapter shall be reduced by five percentum of the compensation of such member.

b. For such period of time as the reduction pursuant to the provisions of subdivision a of this section and subdivision b of section four hundred eighty of the retirement and social security law shall be in effect, contributions shall be made to the contingent reserve fund by the city, in addition to the city contributions required by section 13-331 of this subchapter, in an amount equal to the amount of the reduction in the contributions of such member pursuant to this section and subdivision b of section four hundred eighty of the retirement and social security law.

c. The benefits provided pursuant to paragraph one of subdivision a of this section shall apply only to members

of the pension fund who are in active service in the uniformed force of the fire department on or after the date of adoption of the executive order of the mayor pursuant to such paragraph one.

d. The reduction of the contribution of each original plan member on account of increase-take-home-pay shall be in the amount and for the period prescribed by the program provided for by the preceding subdivisions of this section and subdivision b of section four hundred eighty of the retirement and social security law.

e. (1) Subject to the provisions of the succeeding paragraphs of this subdivision e, the contribution of each improved benefits plan member pursuant to the applicable provisions of section 13-315 of this subchapter and/or subdivision b of section 13-327 of this subchapter shall be reduced in the amount and for the period prescribed by the program provided for by the preceding subdivisions of this section and subdivision b of section four hundred eighty of the retirement and social security law.

(2) (i) In the case of any elective improved benefits plan member (as defined in subdivision four-g of section 13-313 of this subchapter) whose election of such plan becomes effective on the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of such section 13-313) and prior to the termination of such reduction as provided for in subdivision b of section four hundred eighty of the retirement and social security law, such reduction pursuant to paragraph one of this subdivision e shall begin on such starting date.

(ii) In the case of any elective improved benefits plan member whose election of such plan becomes effective after such starting date and prior to such time of termination, such reduction pursuant to paragraph one of this subdivision shall begin on the effective date of such election.

(iii) In the case of any non-elective improved benefits plan member (as defined in subdivision four-h of such section 13-313) whose membership in the pension fund begins on or after such starting date and prior to such time of termination, such reduction pursuant to paragraph one of this subdivision shall begin on the date of commencement of the membership of such member in the pension fund.

(iv) Such reduction shall end, in the case of each such elective improved benefits plan member or non-elective improved benefits plan member above referred to in this paragraph two, at such time of termination provided for in subdivision b of section four hundred eighty of the retirement and social security law.

(3) The contribution of each improved benefits plan member which is made pursuant to the applicable provisions of section 13-315 of this subchapter and/or subdivision b of section 13-327 of this subchapter and which is reduced as provided for in this subdivision e shall be exclusive of any increase thereof pursuant to subdivisions c and d of such section 13-327 or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law.

(4) The reduction of the contribution of each improved benefits plan member as prescribed by the preceding provisions of this subdivision shall be subject to waiver of such member as provided in paragraph seven of this subdivision and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

(5) For such period of time as the reduction pursuant to the provisions of the preceding paragraphs of this subdivision shall be in effect with respect to an improved benefits plan member, contributions shall be made to the contingent reserve fund by the city at a rate fixed by the actuary, which shall be computed to be sufficient to provide (i) the pension-providing-for-increased-take-home-pay which is or may become payable on account of such member as an improved benefits plan member, and (ii) the death benefit which is or may become payable hereunder in the case of any such member who is an improved benefits member not subject to article eleven (as defined in subdivision four-i of section 13-313 of this subchapter).

(6) Such a death benefit and such a pension-providing-for-increased-take-home-pay payable with respect to an improved benefits plan member shall be based on a reserve-for-increased-take-home-pay, which shall be a sum consisting of the total of all products obtained by multiplying the compensation of the improved benefits plan member, during each period of reduction of member contributions under the preceding paragraphs of this subdivision by the percentage of reduction of his or her contributions applicable thereunder with respect of such period, plus regular interest on such sum, and additional interest, if any, thereon.

(7) Where an improved benefits plan member's rate of contribution is reduced because the city contributes towards the pension-providing-for-increased-take-home-pay pursuant to this section, such improved benefits plan member may by written notice duly acknowledged and filed with the pension fund within one year after such reduction or within one year after he or she last became a member, whichever is later, elect to waive such reduction. One year or more after the filing thereof, an improved benefits plan member may withdraw any such waiver by written notice duly acknowledged and filed with the pension fund. Where an improved benefits plan member makes an election to waive such reduction he or she shall contribute to the pension fund as otherwise provided by the applicable provisions of section 13-315 of this subchapter and/or section 13-322 of this subchapter.

(8) An improved benefits plan member who waives a reduction of contribution pursuant to paragraph seven of this subdivision or who elects or has elected to discontinue his or her contributions pursuant to subdivision b of section 13-327 of this subchapter shall be entitled to a pension-providing-for-increased-take-home-pay and death benefits in the same cases and to the same extent as if such waiver or election had not been made.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-327 Contributions of improved benefits plan members and their use; annuity savings fund.

a. (1) The annuity savings fund shall be the fund in which shall be accumulated deductions from the compensation of improved benefits plan members to provide for their annuities and their withdrawal allowances.

(2) Upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each non-elective improved benefits plan member (as defined in subdivision four-h of section 13-313 of this subchapter) the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for retirement and accumulated at regular interest upon the attainment of the minimum period of service retirement elected by him or her, shall be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her for service as a member. Such proportion of compensation shall be computed to remain constant.

(3) The proportion of earnable compensation required to be applied in making deductions from the compensation of an elective improved benefits plan member (as defined in subdivision four-g of section 13-313 of this subchapter) shall be computed as provided for in subdivision i of section 13-315 of this subchapter.

(4) In any case where the membership of any improved benefits plan member is terminated and he or she thereafter acquires a status whereby, under the applicable provisions of this subchapter, he or she is required to make member contributions as an improved benefits plan member consisting of a proportion of his or her earnable

compensation (before reduction on account of any program for increased-take-home-pay in effect) other than the proportion of his or her earnable compensation (before reduction on account of any such program) which, before such termination of membership, was required to be deducted from his or her earnable compensation as his or her member contributions, such new proportion of his or her earnable compensation required to be deducted as his or her member contributions as an improved benefits plan member shall be fixed pursuant to the provisions of paragraph two of this subdivision a and such subsequent required deductions from the compensation of such member shall be made on the basis of such new proportion of his or her earnable compensation.

b. Such board shall certify to the commissioner who shall deduct from the compensation of each improved benefits plan member on each and every payroll of such member for each and every payroll period, the proportion of his or her earnable compensation so computed. Such board shall not certify nor shall the commissioner make any deduction for annuity purposes from the compensation of an improved benefits plan member who elects not to contribute if his or her total service is such as would entitle a new entrant to retire for service on a pension not less than seventy-five per cent of one-half of his or her annual earnable compensation on the date of retirement. In determining the amount earnable by an improved benefits plan member in a payroll period, such board may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and such board may omit deductions from compensation for any period less than a full payroll period if such an employee was not a member on the first day of the period. To facilitate the making of deductions, such board may modify the deduction required by any such member of such amount as shall not exceed one-tenth of one per cent of the compensation upon the basis of which such deduction is to be made. The deductions provided herein shall be made notwithstanding that the minimum compensation provided by law for any improved benefits plan member shall be reduced thereby. Every improved benefits plan member shall be deemed to consent and agree to the deductions made and provided for by the applicable provisions of section 13-315 of this subchapter and/or this section and shall receipt in full for his or her salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except his or her claim to the benefits to which he or she may be entitled under the provisions of this subchapter. The commissioner shall certify to the comptroller on each and every payroll the amounts to be deducted. Each of such amounts shall be deducted and when deducted shall be paid into the annuity savings fund, and shall be credited, together with regular interest, to an individual account of the member from whose compensation such deduction was made. The method of computation and deductions prescribed by this subdivision and subdivision a of this section shall be appropriately modified in the case of an improved benefits plan member for whom a rate is otherwise fixed pursuant to section 13-326 of this subchapter.

c. In addition to the computed deductions, any improved benefits plan member may elect to contribute at a rate fifty percentum in excess of that heretofore provided, for the purpose of purchasing additional annuity. In computing the amount of such additional rate any modification of the normal rate pursuant to section 13-326 of this subchapter shall be disregarded. These additional contributions shall be credited to the annuity savings fund with regular interest. Such additional contributions shall not enter into the computation for allowance on ordinary disability retirement as described in section 13-352 of this subchapter. A member may elect to discontinue his or her additional contributions at any time.

d. In addition to the deductions from compensation hereinbefore provided, any improved benefits plan member may redeposit in the annuity savings fund by a single payment an amount equal to the total amount which he or she withdrew previously therefrom as provided in this subchapter. Such amount so deposited shall become a part of his or her accumulated deductions. The accumulated deductions of an improved benefits plan member withdrawn as provided in this subchapter shall be paid out of the annuity savings fund. Upon retirement of an improved benefits plan member, his or her accumulated deductions shall be transferred from such fund to the annuity reserve fund.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-327.1 Employer pick up of member contributions.

a. Notwithstanding any other provision of law to the contrary, on and after the starting date for pick up, the city shall:

(1) pick up and pay into the contingent reserve fund the original plan member contributions eligible for pick up by the employer which each original plan member would otherwise be required to make on and after such starting date; and

(2) pick up and pay into the annuity savings fund the improved benefits plan member contributions eligible for pick up by the employer which each improved benefits plan member would otherwise be required to make on and after such starting date.

b. An amount equal to the amount of such picked up contributions shall be deducted by the city from the compensation of such member (as it would be in the absence of a pick up program applicable to him or her hereunder), and shall not be paid to such member. Such deduction shall be effected by means of subtraction from such member's current compensation (as so defined), or offset against future pay increases, or a combination of such methods.

c. (1) The member contributions picked up pursuant to this section, including any member contributions required to be made for the purchase of credit for previous service or credit for military service pursuant to subdivision

e of this section, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contribution account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law, for any member shall be paid by the city in lieu of an equal amount of the member contributions otherwise required to be paid by such member under the provisions of this subchapter and shall be deemed to be and treated as employer contributions pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, as amended, for the purposes, under federal law, for which such subsection h so classifies such picked up contributions. Subject to the provisions of subdivision b of this section, for all other purposes, including but not limited to:

(i) the obligation of such member to pay New York state and New York city income and/or wages or earnings taxes and the withholding of such taxes; and

(ii) the determination of the amount of such member's original plan member contributions eligible for pick up by the employer or improved benefits plan member contributions eligible for pick up by the employer, as the case may be; and

(iii) the determination of the amount of any retirement allowance or other pension fund benefit payable to or on account of such member or any other pension fund right, benefit or privilege of such member; the amount of the member contributions picked up pursuant to this section shall be deemed to be a part of the employee compensation of such member, and such member's gross compensation (as such compensation would be in the absence of a pick up program applicable to him or her hereunder) shall not be deemed to be changed by such member's participation in such program.

(2) Nothing contained in paragraph one of this subdivision c shall be construed as superseding the provisions of section four hundred thirty-one of the retirement and social security law or any similar provision of law which limits the salary base for computing retirement benefits payable by a public retirement system.

d. (1) For the purpose of determining the pension fund rights, benefits and privileges (including the procurement of loans) of any member whose original plan member contributions eligible for pick up by the employer or improved benefits plan member contributions eligible for pick up by the employer are picked up pursuant to this section, such picked up member contributions shall be deemed to be and treated (i) as member contributions made by such member pursuant to law, and (ii) as included in the total accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter) of any such member who is an original plan member, and (iii) as included in the accumulated deductions (as defined in subdivision seven-a of such section 13-313) of any such member who is an improved benefits plan member.

(2) During any period wherein picked up member contributions of an original plan member remain in the contingent reserve fund to the credit of an individual account of such member pursuant to paragraph four of this subdivision, interest shall not accrue or be payable on such picked up contributions.

(3) Interest on the picked up member contributions of any improved benefits plan member shall accrue in favor of such member and be payable by the city at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable by the city on such picked up contributions if they were made by the member in the absence of an employer pick up program applicable to such member under the provisions of this section.

(4) The picked up member contributions of any original plan member paid into the contingent reserve fund by the city pursuant to this section shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(5) The picked up member contributions of any improved benefits plan member paid into the annuity savings fund by the city pursuant to this section shall be credited to a separate account within the individual account of such

member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(6) Nothing contained in this subdivision d shall be construed as granting member contributions picked up under this section any status, under federal law, other than as employer contributions, pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, for the federal purposes for which such subsection h so classifies such picked up contributions.

e. Employer pick-up of contributions in respect of previous service or military service. Notwithstanding any other provision of law, any member eligible to purchase credit for previous service with a public employer pursuant to this chapter or to purchase credit for military service pursuant to article twenty of the retirement and social security law, may elect to purchase any or all of such service by executing a periodic payroll deduction agreement where and to the extent such elections are permitted by the retirement system by rule or regulation. Such agreement shall set forth the amount of previous service or military service being purchased, the estimated total cost of such service credit, and the number of payroll periods in which such periodic payment shall be made. Such agreement shall be irrevocable, shall not be subject to amendment or modification in any manner, and shall expire only upon completion of payroll deductions required therein. Notwithstanding the foregoing, any member who has entered into such a payroll deduction agreement and who terminates employment prior to the completion of the payments required therein shall be credited with any service as to which such member shall have paid the contributions required under the terms of such agreement.

f. No member whose member contributions are required to be picked up pursuant to this section shall have any right to elect that such pick up of contributions, with accompanying deduction from the compensation of such member as prescribed by subdivision b of this section, shall not be effectuated.

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-329 Contributions of members and their use; dependent benefit reserve funds.

a. The dependent benefit reserve fund shall be the fund from which shall be paid all dependent benefits payable as provided in section 13-355 of this subchapter.

b. The dependent benefit contingent reserve fund shall be the fund in which shall be accumulated the contributions of members to create the reserve necessary to pay all benefits provided in section 13-355 of this subchapter.

c. Upon the basis of the mortality and other tables herein authorized, and regular interest, the actuary shall compute the amount of contributions, expressed as a proportion of the compensation paid to each such member, which, if paid semi-monthly during the entire prospective cityservice of the member, would be sufficient to provide for the reserve required at the time of his or her death to cover the dependent benefits which might be payable pursuant to the provisions of section 13-355 of this subchapter. Such proportion of compensation shall be computed to remain constant during his or her prospective city-service. Upon the death of such a member, an amount equal to the reserve for such dependent benefits shall be transferred from the dependent benefit contingent reserve fund to the dependent benefit reserve fund.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-331 Contributions of the city and their use; contingent reserve fund.

a. (1) The contingent reserve fund shall be the fund in which shall be accumulated the reserve necessary to pay all retirement allowances, withdrawal allowances and all death benefits allowable by the pension fund on account of the city-service of original plan members as provided in this subchapter and other applicable provisions of law.

(2) The contingent reserve fund shall be the fund in which shall be accumulated the reserve necessary to pay all pensions and the reserve-for-increased-take-home-pay, and all death benefits allowable by the city on account of the city-service of improved benefits plan members as provided in this subchapter and other applicable provisions of law.

b. (1) (a) Subject to the provisions of paragraph five of this subdivision, the city shall contribute to the contingent reserve fund:

(i) annually, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one, an amount to be known as the normal contribution; and

(ii) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one, and ending on the last day of fiscal year two thousand fourteen-two thousand fifteen, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the unfunded accrued liability contribution and which shall be determined as provided for in subparagraphs (b), (c), (d) and (e) of paragraph

three of this subdivision; and

(iii) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-one-nineteen hundred eighty-two, and ending on the last day of fiscal year two thousand twenty-two thousand twenty-one, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the balance sheet liability contribution and which shall be determined as provided for in paragraph four of this subdivision; and

(iv) in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the amount of one year's interest, at the rate of seven and one-half per centum per annum, on the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty, as determined pursuant to the provisions of paragraph four of this subdivision; and

(v) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, (A) the amount required to fulfill the public employer obligation, if any, which accrued in such fiscal year, to provide accumulations-for-increased-take-home-pay (as defined in subdivision fifteen of section 13-313 of this subchapter) of original plan members, and (B) the amount required to fulfill the public employer obligation, if any, which accrued in such fiscal year, to provide reserves-for-increased-take-home-pay (as defined in subdivision fifteen-b of such section 13-313) of improved benefits plan members; provided, however, that such amount to be contributed hereunder shall not include regular interest and additional interest, if any, required by other provisions of this subchapter to be included in such reserves-for-increased-take-home-pay; and

(vi) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the public employer obligation, which accrued in such fiscal year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members.

(b) (i) If the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to subparagraph (e) of paragraph three of this subdivision b is a credit, the total of the amounts required to be contributed by the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, pursuant to subparagraph (a) of this paragraph one and otherwise pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(ii) If the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to such subparagraph (e) is a charge, the city shall contribute in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, in addition to the amounts required to be contributed under the provisions of subparagraph (a) of this paragraph, one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(iii) The total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year and ending with the two thousand eleven-two thousand twelve fiscal year pursuant to items (i), (ii), (iii), (iv), (v) and (vi) of subparagraph (a) of this paragraph (1) and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant to law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-two unfunded accrued liability adjustment determined pursuant to subparagraph (f) of paragraph (3) of this subdivision b.

(iv)*3 The total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and ending with the two thousand fourteen-two thousand fifteen fiscal year pursuant to items (i), (ii), (iii), (iv), (v) and (vi) of subparagraph (a) of this paragraph one and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant

to law shall be increased by the amount of one annual installment of the nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to subparagraph (g) of paragraph three of this subdivision b.

(iv)* For the purpose of effectuating the nineteen hundred eighty-eight unfunded accrued liability adjustment provided for in section 13-638.1 of the code, contributions to the contingent reserve fund shall be made by the responsible obligor (as defined in paragraph six of subdivision a of such section) or credits shall be allowed to such obligor against contributions otherwise payable by such obligor, as the case may be, to the extent and in the manner provided for in such section. The annual determination of the normal contribution for fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight shall appropriately take account of the nineteen hundred eighty-eight unfunded accrued liability adjustment and the provisions of subparagraph (b) of paragraph two of this subdivision b shall be deemed to be comformably modified for such purpose.

(c) (i) Any amount required by the provisions of items (ii), (iii), (iv), (v) and (vi) of subparagraph (a) of this paragraph one and subparagraph (b) of this paragraph one and section 13-704 of this title to be contributed to the contingent reserve fund in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year or any subsequent fiscal year shall be payable with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable in such fiscal year.

(ii) Any amount required to be contributed by the city to the retirement allowance accumulation fund prior to July first, nineteen hundred eighty-one, other than the contributions required to be made by the city prior to such date with regular interest as provided for by paragraph one of subdivision b of section 13-325 of this subchapter, as in effect prior to such July first, shall be deemed to have been required to be paid with regular interest on such amount.

(iii) It is hereby declared that the provisions of items (i) and (ii) of this subparagraph (c), in so far as they relate to provisions of this article or other laws requiring payment of employer contributions to the pension fund prior to such July first, express the intent of such provisions of this article or other laws requiring such payment.

(2) Normal contribution. (a)(i) Upon the basis of the latest mortality and other tables herein authorized and regular interest, the actuary shall determine, as of June thirtieth, nineteen hundred eighty and as of each succeeding June thirtieth, the amount of the total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund, provided, however, that in determining such total liability for all benefits as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the actuary shall include (A) the liability on account of future increased-take-home-pay contributions, if any, (B) the liability on account of future public employer obligations under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members and (C) the liability for benefits attributable to the annuity savings fund.

(ii) For the purposes of subparagraphs (b) and (c) of this paragraph two, the actuary shall determine, as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the total liability of the pension fund which shall be an amount equal to the sum of (A) the total liability for all benefits as determined pursuant to item (i) of this subparagraph and (B) the amount, as estimated by the actuary, of the total liability of the pension fund on account of all payments which the pension fund may be required to make for base fiscal years (as defined by the applicable provisions of paragraph one of subdivision b of section 13-335.1 of this subchapter and paragraph one of subdivision b of section 13-335.3 of this subchapter) beginning on or after July first, nineteen hundred ninety-four to the firefighters' variable supplements fund, pursuant to subdivisions d, e and f of such section 13-335.1 and to the fire officers' variable supplements fund pursuant to subdivisions d, e and f of such section 13-335.3.

(a-1) Notwithstanding any other provision of law to the contrary, for the purpose of calculating the amount of the normal contribution due from the city to the contingent reserve fund pursuant to subparagraph (c) of this paragraph in fiscal year two thousand five-two thousand six, and in each fiscal year thereafter, both the total liability of the pension fund, as calculated by the actuary in accordance with subparagraph (a) of this paragraph, and the normal rate of contribution, as calculated by the actuary in accordance with subparagraph (b) of this paragraph, shall be determined as of June thirtieth of the second fiscal year preceding the fiscal year in which the normal contribution is payable, provided, however, that (i) the actuary shall use for such calculations the mortality and other tables that are applicable at the time he or she performs such calculations; (ii) the total funds on hand, as determined by the actuary pursuant to sub-item (G) of item (i) of subparagraph (b) of this paragraph, shall be adjusted by adding to such amount the present value of all employer contributions required to be paid into the contingent reserve fund in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary; and (iii) the present value of the prospective future salaries of all members, as computed by the actuary for the purposes of item (ii) of subparagraph (b) of this paragraph, shall be reduced by the present value of the salaries expected to be paid to all members in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary.

(b) The normal rate of contribution shall be the rate per centum obtained:

(i) by deducting from the amount of such total liability the sum of:

(A) (1) the amount obtained by adding together the present value of all required future revised unfunded accrued liability contributions and the present value of all required future payments of installments of the nineteen hundred eighty unfunded accrued liability adjustment, determined pursuant to subparagraph (e) of paragraph three of this subdivision b, if such adjustment is a charge; or

(2) the remainder obtained by subtracting from the present value of all required future unfunded accrued liability contributions, the present value of all future installments of the nineteen hundred eighty unfunded accrued liability adjustment required to be credited, if such nineteen hundred eighty adjustment is a credit;

(3) minus (whether (1) or (2) of this sub-item (A) is applicable) the present value of all future installments of the nineteen hundred eighty-two unfunded accrued liability adjustment; and

(A-1) the present value of all future installments of the nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to subparagraph (g) of paragraph three of this subdivision b; and

(B) the present value of all required future balance sheet liability contributions, plus, in the case of the determination of the normal contribution payable in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the present value, as of June thirtieth, nineteen hundred eighty, of the payment of interest on the balance sheet liability as required by item (iv) of subparagraph (a) of paragraph one of this subdivision b; and

(C) the present value of all required future member contributions of original plan members (as defined in subdivision four-b of section 13-313 of this subchapter); and

(D) the present value of all future member contributions on account of dependent benefits; and

(E) the present value of all required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(F) in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, the present value of future member contributions of all members; and

(G) the total funds on hand, including the amount of any unpaid moneys appropriated pursuant to section 13-334

of this subchapter and, in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, including the amount in the annuity savings fund; and

(H) the present value of all other future installments of accrued liability contributions to the pension fund required by the applicable provisions of section 13-638.3 of this title which are not covered by the preceding subitems of this item (i); and

(ii) by dividing the remainder by one per centum of the present value of the prospective future salaries of all members, as computed by the actuary on the basis of the latest mortality and service tables adopted pursuant to section 13-321 of this subchapter, and on the basis of regular interest. The normal rate of contribution determined by the actuary shall not be less than zero, shall be certified by the actuary after each such valuation and shall continue in force until the next succeeding valuation and certification.

(c) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand four-two thousand five fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of June thirtieth next preceding such fiscal year, by the aggregate annual salaries of the members on such next preceding June thirtieth, and shall be payable in such fiscal year next following such June thirtieth, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(ii) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the two thousand five-two thousand six fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of the second June thirtieth preceding the fiscal year in which the normal contribution is payable, in accordance with the provisions of subparagraphs (a-1) and (b) of this paragraph, by the aggregate amount of the salaries expected to be paid to the members during the fiscal year in which the normal contribution is payable, as determined by the actuary, and such normal contribution shall be payable in the second fiscal year following the June thirtieth as of which the normal rate of contribution is determined, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(iii) In the case of the normal contribution payable in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in any subsequent fiscal year, the term "regular interest", as used in this subparagraph (c), shall mean regular interest as defined by the applicable provisions of paragraph (f) or paragraph (g) of subdivision eight of section 13-313 of this subchapter.

(d)(i) For the purposes of this subparagraph (d), the terms "pension fund, subchapter one" and "fire subchapter one beneficiary" shall have the meanings set forth in paragraphs one and three, respectively, of subdivision a of section 13-312.1 of this chapter.

(ii) The amount of the normal contribution due from the city to the contingent reserve fund in the city's nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year shall be equal to the amount of the normal contribution for such fiscal year, as calculated in accordance with the provisions of subparagraph (c) of this paragraph, minus the sum (calculated by the actuary to reflect regular interest in accordance with the provisions of subparagraph (c) of this paragraph) of the following:

(A) the amount of the assets deemed to have been transferred on July first, nineteen hundred ninety-four from pension fund, subchapter one to this pension fund and credited to the contingent reserve fund in accordance with the provisions of subdivisions b and g of section 13-312.1 of this chapter, as if such transfer actually had been made on such July first; and

(B) the amount of the benefits payable during the nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year by pension fund, subchapter one to fire subchapter one beneficiaries; and

(C) the amount of supplemental benefits payable during the nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year, including the increase in certain of such benefits provided by paragraph four of subdivision a of section 13-687 of this title, as added by the chapter of the laws of nineteen hundred ninety-five which added this subparagraph, by the city supplemental pension fund established under section 13-650 of this title to fire subchapter one beneficiaries.

(3) (a) The unfunded accrued liability contribution shall be an amount determined as prescribed in subparagraphs (b), (c) and (d) of this paragraph three.

(b) (i) The "assumed original unfunded accrued liability contribution" shall be a hypothetical amount determined as provided for in this subparagraph (b).

(ii) On the basis of the actuarial tables adopted pursuant to section 13-321 of this subchapter for the purpose of determining the assumed original unfunded accrued liability contribution and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-five, the amount of the total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions.

(iii) From such total liability computed pursuant to item (ii) of this subparagraph (b), there shall be subtracted the sum of:

(A) the present value, as of such June thirtieth, of all then required future member contributions pursuant to the provisions of section 13-325 of this subchapter, as then in effect; and

(B) the sum obtained by adding together the total funds on hand and the balance sheet liability as of such June thirtieth, as such liability is determined pursuant to the provisions of subparagraphs (c) to (i), inclusive, of paragraph four of this subdivision b; and

(C) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this article (as then in effect) of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(D) the present value, as of such June thirtieth, of future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal costs.

(iv) The assumed original unfunded accrued liability contribution shall be a hypothetical amount, which, if paid to the pension fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year, would be the actuarial equivalent, on the basis of five and one-half per centum interest and the actuarial tables adopted pursuant to section 13-321 of this subchapter for the purpose of determining the assumed original unfunded accrued liability contributions, of the remainder computed pursuant to item (iii) of this subparagraph (b).

(c) (i) To the amount of the remainder computed pursuant to item (iii) of subparagraph (b) of this paragraph three, there shall be added interest thereon at the rate of five and one-half per centum per annum for the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty.

(ii) There shall be computed in the manner provided for in item (iii) of this subparagraph (c), the discounted value of each of the installments of the assumed original unfunded accrued liability contribution which would have been hypothetically payable, pursuant to the provisions of item (iv) of subparagraph (b) of this paragraph three, in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight, nineteen hundred seventy-eight-nineteen hundred seventy-nine, nineteen hundred seventy-nine-nineteen hundred eighty, nineteen hundred eighty-nineteen hundred

eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years.

(iii) Such discounted value of each such installment shall be computed as of January first of the city's second fiscal year preceding the fiscal year in which such installment would have been hypothetically payable and on the basis of five and one-half per centum interest per annum on the amount of such installment.

(iv) There shall be computed with respect to such discounted value of each such installment, interest thereon from January first of such second fiscal year preceding the fiscal year in which such installment would have been hypothetically payable to June thirtieth, nineteen hundred eighty at the rate of five and one-half per centum per annum.

(v) The discounted values of all of such installments with respect to such fiscal years, computed as provided for in items (ii) and (iii) of this subparagraph (c), together with interest on each such installment as provided for in item (iv) of this subparagraph, shall be added together.

(vi) From the sum computed pursuant to item (i) of this subparagraph (c), the sum computed pursuant to item (v) of this subparagraph shall be subtracted.

(d) (i) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-five equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of the remainder computed pursuant to item (vi) of subparagraph (c) of this paragraph three.

(ii) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-three equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the unfunded accrued liability contribution computed pursuant to item (i) of this subparagraph (d), which installments are hypothetically allocated by such item (i) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(iii) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the revised unfunded accrued liability contributions shall be the annual installment, applicable to such fiscal year, of an amount which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability contribution computed pursuant to item (ii) of this subparagraph (d), which installments are hypothetically allocated by such item (ii) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(e) (i) The nineteen hundred eighty unfunded accrued liability adjustment shall be an amount determined as prescribed in items (ii), (iii), (iv) and (v) of this subparagraph (e).

(ii) (A) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty, the amount of the total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay

contributions.

(B) From such total liability computed pursuant to sub-item (A) of this item (ii), there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred eighty, of all future normal costs, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all future installments of the balance sheet liability contribution (as defined in paragraph four of this subdivision b); and

(3) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(4) the present value, as of such June thirtieth, of all required future member contributions at the rates of member contribution in effect as of such June thirtieth; and

(5) the total funds on hand as of such June thirtieth, including the amount of any unpaid moneys appropriated pursuant to section 13-334 of this subchapter.

(iii) (A) If the amount computed pursuant to item (ii) of this subparagraph (e) is larger than the amount computed pursuant to item (vi) of subparagraph (c) of this paragraph three, the latter amount shall be subtracted from the former amount and the remainder resulting from such subtraction shall constitute a charge.

(B) If the amount computed pursuant to item (ii) of this subparagraph (e) is smaller than the amount computed pursuant to item (vi) of subparagraph (c) of this paragraph, the former amount shall be subtracted from the latter amount and the remainder resulting from such subtraction shall constitute a credit.

(iv) (A) If the remainder computed pursuant to item (iii) of this subparagraph is a charge, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(B) If the remainder computed pursuant to item (iii) of this subparagraph is a credit, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year) in reduction of the amounts which the city would otherwise be required to pay to the contingent reserve fund pursuant to subparagraph (a) of paragraph one of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(v) (A) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of the city's nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (e), which installment is applicable to such fiscal year, shall be applied as a charge or a credit, as the case may be, in relation to such contributions payable in such fiscal year.

(B) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid (if a charge) or credited (if a credit) in twenty-eight equal annual installments, commencing with

a payment or credit, as the case may be, in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (e), which installments are hypothetically allocated by such item (iv) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(C) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand ten, the nineteen hundred eighty unfunded accrued liability adjustment shall be in an amount which, when paid (if a charge) or credited (if a credit) in twenty-two equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (B) of this item (v), which installments are hypothetically allocated by such sub-item (B) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(D) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of such city fiscal years referrred to in sub-item (B) or sub-item (C) of this item (v), the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (B) or sub-item (C) of this item (v), which installment is applicable to such fiscal year, shall be applied as a charge or credit, as the case may be, in relation to such contributions payable in such fiscal year.

(f) (i) The nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount determined as prescribed in items (ii), (iii), (iv) and (v) of this subparagraph (f).

(ii) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-one for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iii) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-two for valuation purposes and interest at the rate of eight per centum per annum, there shall be determined, as of June thirteith, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iv) With respect to determination of the amount of contributions payble to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year) in reduction of the amounts which the city would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (ii), (iii), (v) and (vi) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum of the excess of the amount computed pursuant to item (ii) of this subparagraph (f) over the amount computed pursuant to item (iii) of this subparagraph.

(v) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twelve, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, when credited in twenty-four equal annual installments (the first of which installments is to be credited

in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (ii), (iii), (v) and (vi) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of the installments of the nineteen hundred eighty-two unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (f), which installments are hypothetically allocated by such item (iv) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(g) (i) The nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount determined as prescribed in items (ii), (iii) and (iv) of this subparagraph (g).

(ii) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution to the contingent reserve fund in the city's nineteen hundred eighty-four-nineteen hundred eighty-five fiscal year, and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iii) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution to the contingent reserve fund in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year, and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iv) (A) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum of the excess of the amount computed pursuant to item (iii) of this subparagraph (g) over the amount computed pursuant to item (ii) of this subparagraph.

(B) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-five unfunded accrued liability adjustment computed pursuant to sub-item (A) of this item (iv), which installments are hypothetically allocated by such sub-item (A) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(4) (a) As used in this section, the following words and phrases, unless a different meaning is plainly required by the context, shall have the following meanings:

(i) (A) "Normal contribution for balance sheet liability purposes." The hypothetical amount which the assumed normal contribution payable in each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty would have equalled if such assumed normal contribution had been required by law to be paid to the pension fund in the city fiscal year in which the obligation to make such assumed normal contribution accrued and such assumed normal contribution had been required

by law to be determined in the manner provided for in sub-items (B), (C) and (D) of this item (i).

(B) Upon the basis of the mortality and other tables adopted pursuant to section 13-321 of this subchapter for the purpose of determining the balance sheet liability contribution and interest at the rate of five and one-half per centum per annum, the actuary shall determine, as of June thirtieth next preceding each such fiscal year for which such assumed normal contribution is being determined (hereinafter referred to as the "subject fiscal year") the amount of the then total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all then members and beneficiaries, excluding the then liability on account of future annual contributions, for balance sheet liability purposes, on account of accumulations-for-increased-take-home-pay (as defined in item (iv) of this subparagraph (a)), if any.

(C) The assumed normal rate of contribution with respect to the subject fiscal year shall be the rate per centum obtained:

(i) by deducting from the amount of such total liability, the sum of:

(A) the present value of all then required future unfunded accrued liability contributions for balance sheet liability purposes (as defined in item (ii) of this subparagraph (a)); and

(B) the present value of all then required future annual contributions, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this article (as defined in item (iii) of this subparagraph (a)); and

(C) the present value of all then required future member contributions on account of dependent benefits; and

(D) the amount obtained by adding together the total funds on hand and the balance sheet liability as of such June thirtieth next preceding the subject fiscal year; and

(ii) by dividing the remainder by one per centum of the then present value of the prospective future salaries of all members, as computed on the basis of the mortality and service tables adopted pursuant to section 13-321 of this subchapter for the purpose of determining the balance sheet liability contribution, and on the basis of interest at the rate of five and one-half per centum per annum.

(D) The amount of the assumed normal contribution for balance sheet liability purposes hypothetically payable in the subject fiscal year shall be the amount obtained (1) by multiplying such assumed normal rate of contribution computed with respect to the subject fiscal year by the aggregate annual salaries of the members as of June thirtieth of the subject fiscal year and (2) by adding to the product of such multiplication interest on such product at the rate of five and one-half per centum per annum for a period of six months.

(ii) "Unfunded accrued liability contribution for balance sheet liability purposes." (A) With respect to the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, such term shall mean a hypothetical amount which, if paid to the pension fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed in the manner prescribed by sub-items (B) and (C) of this item (ii).

(B) Upon the basis of the actuarial tables adopted pursuant to such section 13-321 for the purpose of determining the balance sheet liability contribution and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-four, the amount of the total liability for all benefits provided by this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions.

(C) From such total liability computed pursuant to sub-item (B) of this item there shall be subtracted the sum of:

(1) the present value, as of such June thirtieth, of all then required future member contributions pursuant to the provisions of section 13-325 of this subchapter, as then in effect; and

(2) the sum obtained by adding together the total funds on hand and the balance sheet liability as of such June thirtieth, as such liability is determined pursuant to the provisions of subparagraph (b) of this paragraph four; and

(3) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this article (as then in effect) of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(4) the present value, as of such June thirtieth, of future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal costs.

(D) With respect to each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty, such term shall mean a hypothetical amount which, if paid to the pension fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed pursuant to sub-items (E) and (F) of this item (ii).

(E) Upon the basis of the actuarial tables adopted pursuant to section 13-321 of this subchapter for the purpose of determining the balance sheet liability contribution and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-five, the amount of the total liability for all benefits provided by this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund, on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions.

(F) From such total liability computed pursuant to sub-item (E) of this item (ii), there shall be subtracted the sum of:

(1) the present value, as of such June thirtieth, of all then required future member contributions pursuant to the provisions of section 13-325 of this subchapter, as then in effect; and

(2) the sum obtained by adding together the total funds on hand and the balance sheet liability as of such June thirtieth, as such liability is determined pursuant to the provisions of subparagraphs (c) to (i), inclusive, of this paragraph four; and

(3) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this article (as then in effect) of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(4) the present value, as of such June thirtieth, of future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal costs.

(iii) "Annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this article." A hypothetical annual payment to the retirement allowance accumulation fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount of the excess of the installments (payable in such year) of losses on prior dispositions of securities within the meaning of section 13-704 of this article over the installments (creditable in such fiscal year) of gains on such prior dispositions,

which annual amount shall be determined in the manner provided in subdivision h of such section 13-704.

(iv) "Annual contribution, for balance sheet liability purposes, on account of accumulations-for-increased-take-home-pay." A hypothetical annual payment to the retirement allowance accumulation fund in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such fiscal year, to provide accumulations-for-increased-take-home-pay (as defined in subdivision fifteen of section 13-313 of this subchapter).

(v) "Annual military law contribution or balance sheet liability purposes." A hypothetical annual payment to the retirement allowance accumulation fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of military service of such members.

(vi) "Contribution on account of amortization, pursuant to section 13-704 of this article, of losses on dispositions of certain securities." The total annual amount by which the sum of the installments of losses, payable pursuant to section 13-704 of this chapter (as in effect prior to July first, nineteen hundred eighty) in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty in relation to dispositions of securities within the meaning of such section, exceeds the sum of the installments of gains creditable in the same fiscal year in relation to the same dispositions of securities.

(b) The balance sheet liability as of June thirtieth, nineteen hundred seventy-four shall be the sum of eighty-seven million, sixty-four thousand, two hundred seventy-three dollars ($87,064,273), consisting of the sum of:

(i) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of forty-two million, ninety thousand dollars ($42,090,000), which constituted the amount payable into the retirement allowance accumulation fund in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year by the city in fulfillment of its obligations to make contributions to the pension fund payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of six months extending retroactively from January first, nineteen hundred seventy-five to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of forty million, nine hundred seventy-eight thousand, one hundred ninety-three dollars ($40,978,193); and

(ii) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of forty-nine million, nine hundred forty thousand dollars ($49,940,000), which constituted the amount payable to the retirment allowance accumulation fund in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year by the city in fulfillment of its obligations to make contributions to the pension fund payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of eighteen months extending retroactively from January first, nineteen hundred seventy-six to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of forty-six million, eighty-six thousand, eighty dollars ($46,086,080).

(c) The balance sheet liability, as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four to and including June thirtieth, nineteen hundred eighty, shall be determined as provided for in subparagraphs (d) to (j), inclusive, of this paragraph four.

(d) To the amount of the balance sheet liability as of June thirtieth next preceding the June thirtieth (which last-mentioned June thirtieth is hereinafter referred to as the "subject June thirtieth") as of which the balance sheet liability is being determined as provided for in subparagraph (c) of this paragraph four, there shall be added one year's

interest on such amount at the rate of five and one-half per centum per annum.

(e) With respect to the city's fiscal year ending on the subject June thirtieth (hereinafter referred to as the "subject fiscal year") there shall be added together the contribution components hereinafter specified in this subparagraph (e), which components, for the purposes of this paragraph four, are hypothetically deemed to have accrued in the subject fiscal year and to have been payable therein, as follows:

(i) the amount of the normal contribution for balance sheet liability purposes (as defined in item (i) of subparagraph (a) of this paragraph four); and

(ii) the amount of the applicable installment of the unfunded accrued liability contribution for balance sheet liability purposes (as defined in item (ii) of subparagraph (a) of this paragraph); and

(iii) the amount of the annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this chapter (as defined in item (iii) of subparagraph (a) of this paragraph); and

(iv) the amount of the annual contribution, for balance sheet liability purposes, on account of accumulations-for-increased-take-home-pay (as defined in item (iv) of subparagraph (a) of this paragraph); and

(v) the amount of the annual military law contribution for balance sheet liability purposes (as defined in item (v) of subparagraph (a) of this paragraph).

(f) To the amount resulting from the addition prescribed by subparagraph (e) of this paragraph four, there shall be added interest thereon at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth of such fiscal year.

(g) The amount computed pursuant to subparagraph (d) of this paragraph four in relation to the balance sheet liability as of June thirtieth next preceding the subject June thirtieth (together with one year's interest on such balance sheet liability as provided for in such subparagraph) shall be added to the amount computed pursuant to subparagraph (f) of this paragraph in relation to the subject fiscal year.

(h) From the amount computed pursuant to subparagraph (g) of this paragraph, there shall be subtracted the sum of:

(i) the total amount of:

(A) the sum paid to the retirement allowance accumulation fund during the subject fiscal year by the city as contributions pursuant to the provisions of section 13-325 of this subchapter as then in effect; and

(B) the amount of the contribution on account of amortization, pursuant to section 13-704 of this chapter, of losses on dispositions of certain securities (as defined in item (vi) of subparagraph (a) of this paragraph four) payable in the subject fiscal year; and

(C) the amount payable in the subject fiscal year on account of accumulations-for-increased-take-home-pay; and

(D) the amount payable in the subject fiscal year in behalf of members pursuant to subdivision twenty of section two hundred forty-three of the military law; plus

(ii) interest on such total amount referred to in item (i) of this subparagraph (h) at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth thereof.

(i) The remainder resulting from the subtraction prescribed by subparagraph (h) of this paragraph four shall be

the balance sheet liability as of June thirtieth of the subject fiscal year.

(j) The balance sheet liability as of June thirtieth, nineteen hundred eighty shall be the amount resulting from the successive computations of the balance sheet liability as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four up to and including June thirtieth, nineteen hundred eighty, as prescribed by subparagraphs (c) to (i), inclusive, of this paragraph four.

(k) The balance sheet liability contribution payable in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year shall be the first annual installment of an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-one, on the basis of seven and one-half per centum interest per annum, of an amount equal to the balance sheet liability as of June thirtieth, nineteen hundred eighty.

(l) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight shall be one annual installment of an amount which, if paid to the contingent reserve fund in thirty-nine equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-two, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (k) of this paragraph four, which installments are hypothetically allocated by such subparagraph (k) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(m) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twenty-one shall be one annual installment of an amount which, when paid to the contingent reserve fund in thirty-three equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-eight, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (l) of this paragraph four, which installments are hypothetically allocated by such subparagraph (l) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(5) Contributions to the contingent reserve fund payable by the city in fiscal years of the city beginning on or after July first, nineteen hundred ninety shall be governed by the provisions of this section, as modified and supplemented by sections 13-638.2 and 13-638.3*4 of this title, and such other laws as may be applicable.

(6) (a) On the basis of interest at the rate of eight and one-half per centum per annum and the actuarial tables in effect as of July first, nineteen hundred ninety-four, the actuary shall determine the present value, as of such July first, of the future liability of the pension fund for paying all benefits and supplemental benefits on and after such date to fire subchapter one beneficiaries (as defined in paragraph three of subdivision a of section 13-312.1 of this chapter), which liability is deemed to have been transferred to and assumed by the fund pursuant to subdivisions d, e and g of section 13-312.1 of this chapter, as if such transfers actually had been made on such July first.

(b) The city shall pay to the contingent reserve fund in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year, an amount which, when paid in such installments, is the actuarial equivalent of the amount determined pursuant to subparagraph (a) of this paragraph.

c. Whenever the board, upon recommendation by the actuary, shall determine that it is necessary to increase the

reserves held in the retirement allowance reserve fund, the annuity reserve fund, the pension reserve fund or dependent benefit reserve fund, the board may direct that the amount so needed shall be transferred thereto from the contingent reserve fund.

d. The cash benefits payable under the provisions of this subchapter or other applicable laws to, or upon the death of, a member in active service shall be paid from such contingent reserve fund.

e. (1) Upon the retirement of such a member who is an original plan member, or upon his or her death in the performance of duty, an amount equal to the retirement allowance reserve for the retirement allowance payable on account of his or her city-service as a member, shall be transferred from the contingent reserve fund to the retirement allowance reserve fund.

(2) Upon the retirement of a member in active service who is an improved benefits plan member or upon his or her death in the performance of duty, an amount equal to the pension reserve for the pension payable by the city on account of his or her city-service as a member, together with the reserve-for-increased-take-home-pay, shall be transferred from the contingent reserve fund to the pension reserve fund. Contributions shall be paid into the contingent reserve fund, in the manner and to the extent specified by section 13-326 of this subchapter, to provide reserves-for-increased-take-home-pay.

f. Repealed.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-332 Contributions of the city and their use; pension reserve fund.

The pension reserve fund shall be the fund from which shall be paid all pensions, and all pensions-providing-for-increased-take-home-pay, and all benefits in lieu of pensions, and all benefits in lieu of pensions-providing-for-increased-take-home-pay, if any, allowable by the city on account of the city-service of improved benefit plan members. Should any pension or pension-providing-for-increased-take-home-pay payable from such pension reserve fund be cancelled, the pension reserve or reserve-for-increased-take-home-pay thereon shall thereupon be transferred from the pension reserve fund to the contingent reserve fund. Should any pension-providing-for-increased-take-home-pay payable from such fund be reduced, the amount of the annual reduction in such pension or pension-providing-for-increased-take-home-pay shall be paid annually into the contingent reserve fund during the period of such reduction.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-334 Guarantee of funds.

a. Regular interest, charges payable, the creation and maintenance of reserves in the contingent reserve fund, the retirement allowance reserve fund and the pension reserve fund and the maintenance of retirement allowance reserves with respect to original plan members, annuity reserves, pension reserves, dependent benefit reserves and reserves-for-increased-take-home-pay as provided for in this subchapter, maintenance of the accumulation-for-increased-take-home-pay and the payment of all retirement allowances payable to or on account of original plan members, pensions, pensions-providing-for-increased-take-home-pay, annuities, retirement allowances payable to or on account of improved benefits plan members, refunds, death benefits, dependent benefits and any other benefits granted under the provisions of this subchapter, are hereby made obligations of the city. Except as otherwise provided in sections 13-335, 13-335.1, 13-335.2 and 13-335.3 of this subchapter and section 13-391.1 of this chapter, all income, interest and dividends derived from deposits and investments authorized by this subchapter shall be used and disposed of in the manner prescribed by subdivision b of this section; provided, however, that nothing contained in this sentence shall diminish or impair the obligations of the city provided for by the preceding sentence of this subdivision a. Upon the basis of each actuarial determination and appraisal provided for in this subchapter, the commissioner shall prepare pursuant to section one hundred twelve of the charter and submit to the director of management and budget an itemized estimate of the amounts necessary to be appropriated by the city to the various funds to provide for payment in full during the ensuing fiscal year of all such obligations of the city accruing during the ensuing fiscal year. There shall annually be included in the budget a sum sufficient to provide for such obligations of

the city. The comptroller shall pay the sums so provided into the various funds provided for by this subchapter; subject to the provisions of subdivision b of this section.

b. (1) Subject to the provisions of paragraph two of this subdivision b, all income, interest and dividends derived from deposits and investments authorized by this chapter, which income, interest and dividends were heretofore or are hereafter received during any city fiscal year commencing on or after July first, nineteen hundred eighty, shall (after payment therefrom of the sum, if any, required to be paid pursuant to sections 13-335, 13-335.1, 13-335.2 and 13-335.3 of this subchapter and section 13-391.1 of this chapter) be used in such fiscal year for the purposes hereinafter specified in this paragraph one (to the extent that such income, interest and dividends are sufficient for such purposes), in the order or priority herein stated, as follows:

(A) first, to pay into the funds of the pension fund the amounts of regular interest which are required to be paid into such funds in such fiscal year by reason of being required to be allowed to such funds pursuant to the provisions of section 13-337 of this subchapter, and to pay into such funds the amounts of supplementary interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the annuity savings fund the amounts of special interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the contingent reserve fund the amounts of additional interest, if any, required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses the pension fund sustained during such fiscal year by reason of sales or other dispositions of securities, and (ii) for which net losses the pension fund is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply;

(C) third, if the total amount of such income, interest and dividends received during such fiscal year is in excess of the total amount required to make, in such fiscal year, the payment prescribed by subparagraphs (A) and (B) of this paragraph one, the amount of such excess shall be paid into the contingent reserve fund and shall become a part of the assets of such fund.

(2) Notwithstanding the provisions of paragraph one of this subdivision or any other law to the contrary, any such income, interest or dividends which are received by the pension fund may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investments), regardless of when received and prior to use for the purposes stated in such paragraph one.

(3) Subject to the provisions of paragraph four of this subdivision b, all income, interest and dividends which were derived from deposits and investments authorized by this chapter and which were received during each of the city's nineteen hundred seventy-eight-nineteen hundred seventy-nine and nineteen hundred seventy-nine-nineteen hundred eighty fiscal years shall be used (after payment therefrom of the sum, if any, required to be paid pursuant to section 13-335 of this subchapter) in each such fiscal year for the purposes hereinafter stated in this paragraph three, in the order of priority herein stated, as follows:

(A) first, to pay into the funds of the pension fund the amounts of regular interest which are required to be paid into such funds in such fiscal year wherein such income, interest and dividends were received, which interest is so payable by reason of being required to be allowed to such funds in such fiscal year pursuant to the provisions of section 13-337 of this subchapter; and

(B) second, to pay into the retirement allowance accumulation fund the amount of any losses in excess of gains (i) which net losses were sustained by the pension fund during such fiscal year in which such income, interest and dividends were received and which net losses were sustained by reason of sales or other dispositions of securities, and (ii) for which net losses the pension fund is required to be reimbursed in such fiscal year, and (iii) to which net losses

section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply; and

(C) third, if the total amount of such income, interest and dividends received during such fiscal year is in excess of the total amount required to make, in the same fiscal year, the payments prescribed by subparagraphs (A) and (B) of this paragraph three, the amount of such excess shall be paid into the contingent reserve fund as of June thirtieth of such fiscal year and shall become a part of the assets of such fund as of such date.

(4) Notwithstanding the provisions of paragraph three of this subdivision b or any other law to the contrary, any such income, interest or dividends which were received by the pension fund in either such fiscal year referred to in such paragraph three may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investments) prior to use for the purposes stated in such paragraph three.

c. (1) The comptroller shall make monthly payments, in twelve equal installments, with respect to obligations which the city incurs to pay sums to the pension fund.

(2) The equal monthly payments in each city fiscal year shall be in respect of obligations which accrue in such fiscal year and shall be made in such fiscal year on or before the last day of each month.

(3) The board of trustees of the pension fund may waive the requirements of the foregoing provisions of this subdivision with respect to time of payment to such fund, provided that any such waiver of time of payment in any instance shall not apply to the time of subsequent payments unless there shall be a subsequent waiver.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-335 Payments to variable supplements funds.

a. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred sixty-nine, with respect to which fiscal year a computation of earnings differential, based on equity investments made or held by the pension fund during such fiscal year, is being made pursuant to this section.

2. "Current fiscal year". The fiscal year of the city next succeeding the base fiscal year.

3. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred sixty-nine and which precedes the base fiscal year.

4. "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the interest comparison factor with respect to the base fiscal year. If such equity experience factor is greater than such interest comparison factor, the difference between the two shall be expressed as a positive quantity. If such interest comparison factor is greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

5. (a) "Equity experience factor". Subject to the provisions of subparagraph (c) of this paragraph five, an amount (expressed as a positive or negative quantity) equal to (i) the income earned by the pension fund during the base fiscal year from its investments in equities, plus (ii) the capital gains, realized or unrealized, occurring during such fiscal year by reason of such investments, less (iii) the capital losses, realized or unrealized, occurring during such fiscal year by reason of such investments.

(b) In the event that any equity is sold during the base fiscal year the expense of such sale, including by not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, determining whether such sale produced a capital gain or a capital loss and the amount thereof.

(c) (i) The equity experience factor for any base fiscal year beginning on or after July first, nineteen hundred eighty-eight shall be determined pursuant to the provisions of this subparagraph (c).

(ii) There shall be computed the sum which would be the equity experience factor for such base fiscal year, if such factor were determined pursuant to subparagraphs (a) and (b) of this paragraph five.

(iii) There shall be computed the amount which would have been the sum computed pursuant to item (ii) of this subparagraph in the absence of the enactment of the act which added this subparagraph (c) to the paragraph five.

(iv) The amount required to be computed pursuant to the provisions of item (iii) of this subparagraph (c) shall be computed pursuant to scientific method recommended to the board by the actuary and approved by the board; provided that if the board is unable to approve, by the required majority vote, any such formula recommended by the actuary such amount shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated pursuant to the procedure set forth in subparagraph (b) of paragraph eight of this subdivision a.

(v) The equity experience factor for such base fiscal year shall be the amount (expressed as a positive or negative quantity) computed pursuant to the provisions of item (iii) of this subparagraph.

6. "Income". Any yield of equities, including but not limited to dividends, other than capital gains.

7. "Hypothetical fixed income securities earnings". (a) Subject to the provisions of subparagraph (e) of this paragraph seven, the aggregate of the hypothetical interest yields computed pursuant to subparagraphs (b), (c) and (d) of this paragraph.

(b) The board shall compute with respect to each investment made or maintained by the pension fund in an equity during the base fiscal year, the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this subparagraph seven, if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by such fund for a period (in the base fiscal year) co-extensive with the period during which such equity was held by such fund in the base fiscal year.

(c) For the purposes of this section, the amount of any such investment in an equity during the base fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the base fiscal year, in the case of any such equity acquired by the pension fund prior to the commencement of such fiscal year and held by such fund on the first day of such fiscal year; and

(ii) the total amount paid by such fund to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by such fund during the base fiscal year.

(d) For the purposes of this section, the amount of interest which would have been earned by the pension fund on such hypothetical fixed income securities during the base fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph (c) of this paragraph seven, by the assumed rate of interest for the base fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the pension fund for a part of the base fiscal year.

(e) (i) The hypothetical fixed income securities earnings for any base fiscal year beginning on or after July first, nineteen hundred eighty-eight shall be determined pursuant to the provisions of this subparagraph (e).

(ii) There shall be computed the amount which the hypothetical fixed income securities earnings for such base fiscal year would be, if determined pursuant to the provisions of subparagraphs (a), (b), (c) and (d) of this paragraph seven.

(iii) The amount computed pursuant to item (ii) of this subparagraph shall be multiplied by a fraction, the numerator of which is the equity experience factor for such base fiscal year prescribed by item (v) of subparagraph (c) of paragraph five of this subdivision a and the denominator of which is the sum computed pursuant to item (ii) of such subparagraph (c).

(iv) The hypothetical fixed income securities earnings for such base fiscal year shall be the product of the multiplication prescribed by item (iii) of this subparagraph.

8. "Assumed rate of interest". (a) In relation to any base fiscal year, a hypothetical rate of interest, fixed as hereinafter in this paragraph eight prescribed, which shall be used for the purpose of computing, pursuant to paragraph seven of this subdivision a, amounts of interest which would have been hypothetically earned on hypothetical investments of the pension fund in fixed income securities during such fiscal year.

(b) The board shall fix the assumed rate of interest with respect to each base fiscal year. In the event of a tie vote with respect to the fixation of such rate, it shall be fixed by the arbitrator designated, for the purpose of resolving disputes, in the collective bargaining agreement then in effect between the city and the uniformed firefighters' association of greater New York. If such arbitrator is unable or unwilling to serve, or if there be no such agreement then in effect, such rate shall be fixed by an arbitrator designated by the board. If there is a tie vote as to the designation of such an arbitrator, such rate shall be fixed by an arbitrator appointed by the supreme court, on the application of any member of the board. The cost of any arbitration pursuant to the foregoing provisions of this subparagraph (b) shall be paid from transferable earnings.

9. "Six per cent interest offset". In relation to any base fiscal year, the excess, if any, of the hypothetical fixed income securities earnings with respect to such year, over the amount which such earnings would be if they had been computed on the basis of an interest rate of six per cent, rather than on the basis of the assumed rate of interest; provided, however, that there shall be no six per cent interest offset with respect to any base fiscal year unless the hypothetical fixed income securities earnings with respect to such fiscal year exceeds the equity experience factor with respect to such fiscal year; and provided further that no six percent interest offset with respect to any base fiscal year shall in any event exceed the amount obtained by subtracting the equity experience factor with respect to such fiscal year from the hypothetical fixed income securities earnings with respect to such fiscal year.

10. "Interest comparison factor". In relation to any base fiscal year, the amount obtained by subtracting the six per cent interest offset, if any, with respect to such fiscal year, from the hypothetical fixed income securities earnings with respect to such fiscal year.

11. "Cumulative earnings differential for the base fiscal year". In relation to a base fiscal year, the amount

(expressed as a positive or negative quantity) obtained by adding to the earnings differential for such base fiscal year, the total of all earnings differentials for all prior base fiscal years.

12. "Transferable earnings". In relation to a base fiscal year, the total amount required by the provisions of subdivision c of this section to be distributed, with respect to such base fiscal year, in the manner provided by subdivision d of this section.

13. "Cumulative distributions of transferable earnings for prior base fiscal years". In relation to a base fiscal year, the total of all payments of transferable earnings made or required to be made by the pension fund to the firefighters' variable supplements fund and the fire officers variable supplements fund with respect to all prior base fiscal years pursuant to subdivisions c and d of this section.

14. "Firefighters' variable supplements fund". The firefighters' variable supplements fund established by subchapter five of this chapter.

15. "Fire officers' variable supplements fund". The fire officers' variable supplements fund established by subchapter six of this chapter.

16. "Firefighters". (a) All firefighters and (b) all wipers (uniformed) who are members of the fire department pension fund subchapter two.

17. "Fire officers". (a) All members of the uniformed force of the fire department holding the rank of lieutenant or any position of higher rank in such force and (b) all pilots, marine engineers (uniformed) or assistant marine engineers (uniformed) who are members of the New York fire department pension fund subchapter two.

b. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board shall compute:

(1) the earnings differential with respect to such base fiscal year, and the interest offset, if any, with respect to such base fiscal year; (2) the total contributions made to the pension fund subchapter two with respect to such base fiscal year on behalf of all personnel who are firefighters, as of the last day of such base fiscal year; and

(3) the total contributions made to the pension fund subchapter two with respect to such base fiscal year on behalf of all personnel who are fire officers, as of such last day.

c. If the cumulative earnings differential for the base fiscal year is a positive quantity and exceeds the cumulative distributions of transferable earnings for prior base fiscal years, a sum equal to the amount of such excess shall be distributed by the pension fund in the manner provided by subdivision d of this section.

d. (1) If there be transferable earnings with respect to the base fiscal year, computed as hereinabove provided, such transferable earnings shall be divided into a firefighters' variable supplements fund share and a fire officers' variable supplements fund share in the ratio that the total contributions made to the pension fund subchapter two with respect to such base fiscal year on behalf of firefighters bears to the total contributions made to the pension fund subchapter two with respect to such base fiscal year on behalf of fire officers, as computed for such base fiscal year pursuant to the provisions of paragraphs two and three of subdivision b of this section.

(2) On or before August thirty-first, of the current fiscal year, the pension fund shall pay from the contingent reserve fund to the firefighters' variable supplements fund and the fire officers' variable supplements fund their respective shares of such transferable earnings with respect to the base fiscal year, as such shares are computed pursuant to paragraph one of this subdivision d.

e. The comptroller shall furnish to the board such information and data as it may request for the purpose of

carrying out the provisions of this section.

f. The firefighters' variable supplements fund and the fire officers' variable supplements fund shall not have any rights under this section to any payments by the pension fund to such variable supplements funds derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after July first, nineteen hundred eighty-eight. Any and all rights of the firefighters' variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after such July first shall be governed solely by the provisions of section 13-335.1 of this subchapter. Any and all rights of the fire officers' variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city included in the period commencing on such July first and ending on June thirtieth, nineteen hundred ninety-two shall be governed solely by the provisions of section 13-335.2 of this subchapter. Any and all rights of the fire officers' variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after July first, nineteen hundred ninety-two shall be governed solely by the provisions of section 13-335.3 of this subchapter. Any and all rights of the wiper variable supplements assets account to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city included in the period commencing July first, nineteen hundred eighty-eight and ending June thirtieth, nineteen hundred ninety-two shall be governed solely by the provisions of section 13-391.1 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-335.1 Payments to firefighters' variable supplements fund for base fiscal years commencing on or after July first, nineteen hundred eighty-eight.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, five, six, seven, eight and fourteen of subdivision a of section 13-335 of this subchapter shall apply to this section 13-335.1 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred eighty-eight.

2. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen eighty-eight and which precedes the base fiscal year.

3. "Cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight". (a) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in subparagraph (b) of this paragraph three.

(b) (i) The cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-335 of this subchapter), as applicable to the nineteen hundred eighty-seven-nineteen hundred

eighty-eight base fiscal year (as so defined) shall be computed pursuant to the provisions of such section 13-335.

(ii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-335) shall be computed pursuant to such section 13-335 with respect to such nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year.

(iii) The amount of transferable earnings (as defined in paragraph twelve of subdivision a of such section 13-335), if any, for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, determined pursuant to such section 13-335, shall be added to the cumulative distributions of transferable earnings computed pursuant to item (ii) of this subparagraph (b).

(iv) The sum resulting from the addition prescribed by item (iii) of this subparagraph (b) shall be subtracted from the amount computed pursuant to item (i) of this subparagraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight.

4. "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the hypothetical fixed income securities earnings with respect to the base fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

5. "Cumulative earnings factor." (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year, increased with interest at a rate equal to the assumed rate of interest fixed with respect to such base fiscal year pursuant to the provisions of paragraph eight of subdivision a of section 13-335 of this subchapter, as made applicable to this section 13-335.1 by subdivision a hereof.

(b) In applying the provisions of this paragraph five for the base fiscal year nineteen hundred eighty-eight-nineteen hundred eighty-nine the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight" shall be substituted for the term "cumulative earnings factor for the immediately preceding base fiscal year".

6. "FVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the fire department pension fund subchapter two with respect to such base fiscal year on behalf of all members of the uniformed force of the fire department who are firefighters, fire marshals (uniformed) and wipers (uniformed), as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to such fire department pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the fire department as of the last day of such base fiscal year.

7. "FVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the firefighters'

variable supplements fund by the actuary pursuant to subdivision e of section 13-384 of this chapter shows that for any base fiscal year, such liabilities exceed such assets, the term "FVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such base fiscal year.

8. "Firefighter". A member of either this pension fund or the fire department pension fund provided for in subchapter one of this chapter who, at the time of retirement for service, was a firefighter and was not a fire officer as defined in subdivision five of section 13-392 of this chapter.

c. As soon as practicable after the close of each base fiscal year, but not later than December thirty-first of the current fiscal year, the board shall compute the FVSF cumulative earnings factor with respect to such base fiscal year.

d. If the FVSF cumulative earnings factor for such base fiscal year is a positive quantity, the pension fund, on or before December thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the firefighters' variable supplements fund, as the payment due for such base fiscal year under this section, an amount determined pursuant to the provisions of subdivision e of this section.

e. The amount payable for such base fiscal year as provided for in subdivision d of this section shall be the lesser of (1) the FVSF cumulative earnings factor for such base fiscal year referred to in such subdivision d or (2) the FVSF unfunded accrued liability for such base fiscal year.

f. No amount shall be due from or payable by the pension fund to such variable supplements fund under this section for any base fiscal year which shall exceed the FVSF unfunded accrued liability for such base fiscal year, regardless of the amount and character of the FVSF cumulative earnings factor for such base fiscal year.

g. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

**HISTORICAL NOTE**

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-335.2 Payments to fire officers' variable supplements fund for base fiscal years included in the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-two.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, four, six, eight, nine and ten of subdivision a of section 13-335 of this subchapter shall apply to this section 13-335.2 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city included in the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-two.

2. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred eighty-eight and which precedes the base fiscal year.

3. "Cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight". (a) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in subparagraph (b) of this paragraph three.

(b) (i) The cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of

subdivision a of section 13-335 of this subchapter), as applicable to the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year (as so defined) shall be computed pursuant to the provisions of such section 13-335.

(ii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-335) shall be computed pursuant to such section 13-335 with respect to such nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year.

(iii) The amount of transferable earnings (as defined in praragraph twelve of subdivision a of such section 13-335), if any, for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, determined pursuant to such section 13-335, shall be added to the cumulative distributions of transferable earnings computed pursuant to item (ii) of this subparagraph (b).

(iv) The sum resulting from the addition prescribed by item (iii) of this subparagraph (b) shall be subtracted from the amount computed pursuant to item (i) of this subparagraph.

(v) The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight.

4. "Equity experience factor." (a) An amount (expressed as a positive or negative quantity) which shall be determined for each base fiscal year in accordance with the method of computation set forth in the succeeding subparagraphs of this paragraph four.

(b) The amount of income earned by the pension fund during the base fiscal year from its investment in equities shall be computed.

(c) To each such amount of income for a base fiscal year there shall be added the capital gains, realized and unrealized, occurring during such base fiscal year of reason of such investments.

(d) From the sum resulting from the addition prescribed by subparagraph (c) of this paragraph there shall be subtracted the capital losses, realized or unrealized, occurring during such base fiscal year by reason of such investment.

(e) In the event that any equity is sold during the base fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or a capital loss and the amount thereof.

(f) (i) With respect to base fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, the remainder resulting from the subtraction prescribed by subparagraph (d) of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapters five hundred eighty-one and five hundred eighty-three of the laws of nineteen hundred eighty-nine.

(ii) With respect to each base fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-two, the remainder resulting from the subtraction prescribed by subparagraph (d) of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapter five hundred eighty-three of the laws of nineteen hundred eighty-nine.

(iii) For the purpose of determining the entitlement, with respect to any base fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-two, of the fire officers' variable supplements fund to receive payment of any sum from the pension fund pursuant to this section, the cumulative earnings factor for such base fiscal year shall be calculated in the same manner as if (A) that part of this subparagraph, which part, prior to July twenty-sixth, nineteen hundred ninety-one, referred to chapter five hundred eighty-one of the laws of nineteen hundred eighty-nine, had never been enacted and (B) item (ii) of this subparagraph

and this item (iii), as such items were in effect immediately prior to such July twenty-sixth, had never been enacted.

(g) Any adjustment required to be made pursuant to the provisions of subparagraph (f) of this paragraph shall be computed pursuant to a scientific method recommended to the board by the actuary and approved by the board; provided that if the board is unable to approve, by the required majority vote, any such formula recommended by the actuary, such adjustment shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated pursuant to the procedure set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-335 of this subchapter.

(h) The equity experience factor for such base fiscal year shall be the amount remaining after the adjustment prescribed by subparagraphs (f) and (g) of this paragraph has been made.

5. "Hypothetical fixed income securities earnings". (a) The aggregate of the hypothetical interest yields computed pursuant to subparagraphs (b), (c) and (d) of this paragraph five.

(b) The board shall compute with respect to each investment made or maintained by the pension fund in an equity during the base fiscal year, the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this paragraph five, if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by such fund for a period (in the base fiscal year) co-extensive with the period during which such equity was held by such fund in the base fiscal year.

(c) For the purposes of this section, the amount of any such investment in an equity during the base fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the base fiscal year, in the case of any such equity acquired by the pension fund prior to the commencement of such fiscal year and held by such fund on the first day of such fiscal year; and

(ii) the total amount paid by such fund to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by such fund during the base fiscal year.

(d) For the purposes of this section, the amount of interest which would have been earned by the pension fund on such hypothetical fixed income securities during the base fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph (c) of this paragraph five, by the assumed rate of interest for the base fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the pension fund for a part of the base fiscal year; and

(iii) by multiplying the amount of interest computed for the full base fiscal year pursuant to items (i) and (ii) of this subparagraph by a fraction, the numerator of which is the amount designated as the equity experience factor with respect to such base fiscal year by subparagraph (h) of paragraph four of this subdivision b and the denominator of which is the remainder produced by the subtraction prescribed by subparagraph (d) of such paragraph four with respect to such base fiscal year; and (iv) by adding together the products of all such multiplications performed pursuant to item (iii) of this subparagraph in relation to all such equities held by the pension fund during such fiscal year.

6. "Cumulative earnings factor". (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year.

(b) In applying the provisions of this paragraph six for the base fiscal year nineteen hundred eighty-eight-nineteen hundred eighty-nine, the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight" shall be substituted for the term "cumulative earnings factor for the immediately preceding base fiscal year".

7. "FOVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all members of the uniformed force of the fire department who are fire officers, as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the fire department as of the last day of such base fiscal year.

8. "Fire officers". (a) All members of the uniformed force of the fire department holding the rank of lieutenant or any position of higher rank in such force, and (b) all pilots, marine engineers (uniformed) or assistant marine engineers (uniformed) who are members of the New York fire department pension fund subchapter two.

9. "Fire officers' variable supplements fund". The fire officers' variable supplements funds established by subchapter six of this chapter.

c. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board shall compute the FOVSF cumulative earnings factor with respect to such base fiscal year.

d. If the FOVSF cumulative earnings factor for the base fiscal year is a positive quantity, the pension fund, on or before August thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the fire officers' variable supplements fund a sum equal to the amount of such factor.

e. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-335.3 Payments to fire officers' variable supplements fund for base fiscal years commencing on or after July first, nineteen hundred ninety-two.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, five, six, seven, eight and fifteen of subdivision a of section 13-335 of this subchapter shall apply to this section 13-335.3 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred ninety-two.

2. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred ninety-two and which precedes the base fiscal year.

3. "Cumulative earnings factor as of June thirtieth, nineteen hundred ninety-two". An amount, expressed as a positive or negative quantity, as the case may be, which shall be equal to the cumulative earnings factor for the nineteen hundred ninety-one-nineteen hundred ninety-two base fiscal year computed pursuant to section 13-335.2 of this subchapter.

4. "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity

experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the hypothetical fixed income securities earnings with respect to the base fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quanity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

5. "Cumulative earnings factor". (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year, increased with interest at a rate equal to the assumed rate of interest fixed with respect to such base fiscal year pursuant to the provisions of paragraph eight of subdivision a of section 13-335 of this subchapter, as made applicable to this section 13-335.3 by subdivision a hereof.

(b) In applying the provisions of this paragraph five for the base fiscal year nineteen hundred ninety-two-nineteen hundred ninety-three, the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred ninety-two" shall be substituted for the term "cumulative earnings factor for the immediately preceding base fiscal year".

6. "FOVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all members of the uniformed force of the fire department who are fire officers, as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the fire department as of the last day of such base fiscal year.

7. "FOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the fire officers' variable supplements fund by the actuary pursuant to subdivision e of section 13-394 of this chapter shows that for any base fiscal year, such liabilities exceed such assets, the term "FOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such base fiscal year.

8. "Fire officers". (i) All members of the uniformed force of the fire department holding the rank of lieutenant or any position of higher rank in such force and (ii) all pilots, marine engineers (uniformed) or assistant marine engineers (uniformed) who are members of the pension fund and (iii) any member of the pension fund holding a position in the fire marshal occupational group above the rank of fire marshal (uniformed).

c. As soon as practicable after the close of each base fiscal year, but not later than December thirty-first of the current fiscal year, the board shall compute the FOVSF cumulative earnings factor with respect to such base fiscal year.

d. If the FOVSF cumulative earnings factor for such base fiscal year is a positive quantity, the pension fund, on or before December thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the fire officers' variable supplements fund, as the payment due for such base fiscal year under this section, an amount determined pursuant to the provisions of subdivision e of this section.

e. The amount payable for such base fiscal year as provided for in subdivision d of this section shall be the lesser of (1) the FOVSF cumulative earnings factor for such base fiscal year referred to in such subdivision d or (2) the FOVSF unfunded accrued liability for such base fiscal year.

f. No amount shall be due from or payable by the pension fund to such variable supplements fund under this section for any base fiscal year which shall exceed the FOVSF unfunded accrued liability for such base fiscal year, regardless of the amount and character of the FOVSF cumulative earnings factor for such base fiscal year.

g. The comptroller shall furnish to the board such information and data as it may request for the purose of carrying out the provisions of this section.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-336 Trustees of funds; investments.

a. The members of the board shall be the trustees of the several funds provided for by this subchapter, and shall have full power to invest the same, subject, except as otherwise provided in subdivision b of this section, to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of the funds provided for by this subchapter shall have been invested as well as of the proceeds of such investments and of any moneys belonging to such funds.

b. Notwithstanding the provisions of subdivision two of section one hundred seventy-seven of the retirement and social security law, or any other provision of law to the contrary, the amounts which may be invested by the pension fund in securities pursuant to the provisions of paragraphs (a), (b), (c), (d), (e) and (f) of subdivision twenty-six of section two hundred thirty-five of the banking law, shall be subject to the following maximum limits, in lieu of any such limits imposed by any other provision of law:

(1) Not more than fifty per cent of the assets of the pension fund shall be invested in such securities; and

(2) Not more than five per cent of such assets shall be invested in the securities of any one corporation and its subsidiaries; and

(3) Not more than two per cent of the total issued and outstanding equity securities of any one corporation shall be owned by the pension fund.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-337 Allowance of interest.

a. Such board shall annually allow regular interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter. The amount so allowed shall be due and payable to such funds, and shall be annually credited thereto by such board.

b. (1) Subject to the provisions of subdivision d of this section, during the period commencing on July first, nineteen hundred eighty-one and ending on June thirtieth, nineteen hundred eighty-two, special interest at the rate of three and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each improved benefits plan member in the annuity savings fund.

(2) (i) Subject to the provisions of subdivision d of this section, during the period beginning on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three, special interest at the rate of four per centum per annum, compounded annually, shall be allowed with respect to the individual account of each improved benefits plan member in the annuity savings fund.

(ii) Subject to the provisions of subdivision d of this section, during the period beginning on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each improved benefits plan member in the annuity savings fund.

(iii) Subject to the provisions of subdivision d of this section, during the period commencing on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each improved benefits plan member in the annuity savings fund.

(iv) Subject to the provisions of subdivision d of this section, during the period commencing on July first, nineteen hundred eighty-eight and ending June thirtieth, nineteen hundred ninety, special interest at the rate of one and one-quarter per centum per annum, compounded annually, shall be allowed with respect to the individual account of each improved benefits plan member in the annuity savings fund.

(3) The special interest referred to in paragraphs one and two of this subdivision b shall be credited to such individual account of each such member entitled thereto in the same manner and at the same time as regular interest is required to be credited to such account with respect to the same period of time.

(4) Such special interest referred to in paragraphs one and two of this subdivision b shall not be considered in determining rates of contributions of such members. Nothing contained in this subdivision b shall be construed as applicable to any member who is subject to the provisions of article fourteen of the retirement and social security law.

c. (1) Subject to the provisions of subdivision d of this section, in determining the reserve-for-increased-take-home-pay of each improved benefits plan member entitled to such a reserve, additional interest at the rate of three and one-half per centum per annum compounded annually shall be included for the period commencing on July first, nineteen hundred eighty-one, and ending on June thirtieth, nineteen hundred eighty-two.

(2) (i) Subject to the provisions of subdivision d of this section, in determining the reserve-for-increased-take-home-pay of each improved benefits plan member entitled to such a reserve, additional interest at the rate of four per centum per annum compounded annually shall be included for the period commencing on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three.

(ii) Subject to the provisions of subdivision d of this section, in determining the reserve-for-increased-take-home-pay of each improved benefits plan member entitled to such a reserve, additional interest at the rate of one per centum per annum compounded annually shall be included for the period commencing on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five.

(iii) Subject to the provisions of subdivision d of this section, in determining the reserve-for-increased-take-home-pay of each improved benefits plan member entitled to such a reserve, additional interest at the rate of one per centum per annum compounded annually shall be included for the period commencing on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight.

(iv) Subject to the provisions of subdivision d of this section, in determining the reserve-for-increased-take-home-pay of each improved benefits plan member entitled to such a reserve, additional interest at the rate of one and one-quarter per centum per annum compounded annually shall be included for the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety.

(3) Additional interest shall not be considered in determining rates of contribution of such members. Nothing contained in this subdivision c shall be construed as applicable to any member who is subject to the provisions of article fourteen of the retirement and social security law.

d. (1) The provisions of subparagraph (i) of paragraph two of subdivision b of this section, to the extent that such provisions grant special interest for any period prior to December sixteenth, nineteen hundred eighty-two, and the provisions of subparagraph (i) of paragraph two of subdivision c of this section, to the extent that such provisions of such subdivision c grant additional interest for any period prior to such date, shall not apply to any person who was not an improved benefits plan member on such date and shall not apply to any person to whom, on such date, a deferred

retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-361 of this chapter.

(2) The provisions of subparagraph (iv) of paragraph two of subdivision b of this section, to the extent that such provisions grant special interest for any period prior to the date of enactment of the provisions of this paragraph two (as such date is certified pursuant to section forty-one of the legislative law), and the provisions of subparagraph (iv) of paragraph two of subdivision c of this section, to the extent that such provisions grant additional interest for any period prior to such date, shall not apply to any person who was not an improved benefits plan member on such date and shall not apply to any person to whom on such date, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-361 of this chapter.

(3) Nothing contained in subdivision b or subdivision c of this section shall be construed as entitling any person to the crediting of special or additional interest with respect to any period wherein he was not (a) an improved benefits plan member entitled to crediting of regular interest with respect to the same period or (b) an improved benefits plan discontinued member (as defined in subdivision sixteen-d of section 13-313 of this subchapter) entitled to crediting of regular interest as an improved benefits plan discontinued member with respect to the same period.

e. (1) Subject to the provisions of paragraph (3) of this subdivision e, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty to June thirtieth, nineteen hundred eighty-two on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of three and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(2) (i) Subject to the provisions of paragraph three of this subdivision e, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-two to July thirty-first, nineteen hundred eighty-three on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of four per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(ii) Subject to the provisions of paragraph (3) of this subdivision e, in addition to regular interest annually allowed for the period from August first, nineteen hundred eighty-three to June thirtieth, nineteen hundred eighty-five on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(iii) Subject to the provisions of paragraph (3) of this subdivision e, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-five to June thirtieth, nineteen hundred eighty-eight on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(iv) Subject to the provisions of paragraph (3) of this subdivision e, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-eight to June thirtieth, nineteen hundred ninety on the

mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-quarter per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(3) The provisions of paragraphs one and two of this subdivision e shall not apply to or affect (a) the allowance of interest on or the crediting of interest to accounts of improved benefits plan members or improved benefits plan discontinued members in the annuity savings fund, or (b) the allowance of interest on or crediting of interest to reserves-for-increased-take-home-pay of improved benefits plan members or improved benefits plan discontinued members, or (c) the determination of the amount of any benefit payable to any member or beneficiary.

f. On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the board shall submit to the public officers and permanent commission referred to in paragraph (h) of subdivision eight of section 13-313 of this subchapter the recommendations of such board:

(1) as to whether legislation should be enacted providing for the crediting of special interest to improved benefits plan members after June thirtieth, nineteen hundred ninety and if so, the recommended rate thereof and duration of such crediting; and

(2) as to whether legislation should be enacted providing that in the determination of reserves-for-increased-take-home-pay of improved benefits plan members entitled to such a reserve, additional interest shall be included for any period after June thirtieth, nineteen hundred ninety, and if so, the recommended rate thereof and the period as to which such interest should be included; and

(3) as to whether legislation should be enacted providing for the crediting of supplementary interest after June thirtieth, nineteen hundred ninety to such funds to which subdivision e of this section is applicable and if so, the recommended rate thereof and duration of such crediting.

g. The allowance of special interest, additional interest and supplementary interest, if any, with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety shall be governed by the applicable provisions of section 13-638.2 of this title.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-342 Rules regulating loans to members.

Any member who shall have been a member continuously at least three years, may borrow from the pension fund, subject to such rules and regulations as may be approved by such board, an amount not exceeding seventy-five per cent of the amount of his or her accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter), in the case of an original plan member, or an amount not exceeding seventy-five per cent of the amount of his or her accumulated deductions (as defined in subdivision seven-a of such section 13-313), in the case of an improved benefits plan member, provided that the amount so borrowed by any such original plan member or improved benefits plan member, together with interest thereon, can be repaid before attainment of age sixty-five years by additional deductions of ten per cent from his or her compensation made at the same time compensation is paid to the member. Upon retirement, an original plan member may borrow up to ninety percent of his or her accumulated contributions. An improved benefits plan member may borrow up to ninety percent of his or her accumulated deductions. The amount so borrowed together with regular interest applicable to the member (if he or she is an original plan member) or creditable to his or her account (if he or she is an improved benefits plan member) on any unpaid balance thereof shall be repaid to the pension fund in equal installments by deduction from the compensation of the member at the time the compensation is paid, but such installments shall be at least five per cent of the member's earnable compensation and at least sufficient to repay before attainment of age sixty-five years, the amount borrowed with interest thereon. Notwithstanding anything to the contrary in this subchapter, the additional deductions required to repay the loan shall be made, and the interest paid on the loan shall be credited to the proper funds of the pension fund.

In lieu of loan, any improved benefits plan member whose rate or contribution is cancelled, may withdraw from his or her account and may restore thereto in any year as he or she may elect any sum in excess of the maximum in his or her annuity savings account and due thereto at the end of the calendar year in which he or she became entitled to cancel his or her rate. The actuarial equivalent of any unpaid balance of a loan at the time any benefit may become payable shall be deducted from the benefit otherwise payable, except that each loan made pursuant to this section shall be insured by the pension fund, without cost to the member, against the death of such member in an amount up to but not exceeding twenty-five thousand dollars, as follows:

1. Until thirty days have elapsed after the making thereof, no part of the loan shall be insured.

2. From the thirtieth through the fifty-ninth day after the making thereof, twenty-five per centum of the present value of the outstanding loan shall be insured.

3. From the sixtieth through the eighty-ninth day after the making thereof, fifty per centum of the present value of the outstanding loan shall be insured.

4. On and after the ninetieth day after the making thereof, all of the present value of the outstanding loan shall be insured.

Upon the death of a member, the amount of insurance so payable shall be credited to his or her accumulated contributions in the case of an original plan member, or to his or her accumulated deductions, in the case of an improved benefits plan member.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-343 Termination of membership; discontinuance of service.

a. Should an original plan member discontinue city-service except by death or retirement, he or she shall be paid such part of the amount of the accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter), that is, his or her contributions without interest, standing to the credit of his or her individual account in the contingent reserve fund as he or she shall demand. Such board, however, in its discretion, may withhold for not more than one year after such member last rendered city-service all or part of his or her accumulated contributions, if after a previous discontinuance of service he or she withdrew from the retirement allowance accumulation fund or the contingent reserve fund, as the case may be, all or part of the amount of his or her accumulated contributions and failed to redeposit such withdrawn amount in such fund.

b. Should an improved benefits plan member discontinue city-service except by death or retirement, he or she shall be paid such part of the amount of the accumulated deductions (as defined in subdivision seven-a of such section 13-313 of this subchapter) standing to the credit of his or her individual account in the annuity savings fund as he or she shall demand. Such board, however, in its discretion, may withhold for not more than one year after such a member last rendered city-service all or part of his or her accumulated deductions, if after a previous discontinuance of service he or she withdrew from the annuity savings fund all or part of the amount of his or her accumulated deductions and failed to redeposit such withdrawn amount in such fund.

§ 13-345 Termination of membership; miscellaneous.

Membership in the pension fund shall cease upon the occurrence of any one of the following conditions:

1. When the time out of city-service, other than time on a preferred civil service list, of any member who has resigned or has been separated from the service through no fault of his or her own, and who has total service of less than twenty-five years, shall aggregate more than five years in any period not exceeding ten consecutive years since he or she last became a member.

2. When any member who is an original plan member shall have withdrawn more than one-half of his or her accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter), or when any member who is an improved benefits plan member shall have withdrawn more than one-quarter of his or her accumulated deductions.

3. When any member shall die.

4. When any member who is an original plan member shall be retired on a retirement allowance or when any member who is an improved benefits plan member shall be retired on a pension.

5. When any member becomes eligible to participate in another pension or retirement system supported in whole

or in part by the city or state of New York.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-346 Death benefits; ordinary death benefits.

a. Upon the death of an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) who has not completed the period of service, as elected by him or her for retirement, or upon the death of a former original plan member not subject to article eleven, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed with such board during the lifetime of the member:

1. His or her accumulated contributions, that is, his or her contributions without interest; and, in addition thereto,

2. If such member is in city-service or is on a civil service preferred eligible list by reason of city-service, unless a retirement allowance be payable by the city under the provisions of section 13-347 of this subchapter, an amount equal to the compensation earnable by him or her while a member, during the six months immediately preceding his or her death, and, if the total number of years in which allowable service was rendered exceeds ten, then an amount equal to the compensation earnable by him or her in city-service while a member during the twelve months immediately preceding his or her death, and in addition, in either such case, the accumulation-for-increased-take-home-pay, if any.

a-1. Upon the death of an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of such section 13-313) or of a former improved benefits plan member not subject to article eleven, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly

executed and filed with such board during the lifetime of the member:

1. His or her accumulated deductions; and, in addition thereto,

2. If such member is in city-service or is on a civil service preferred eligible list by reason of city-service, unless a pension be payable by the city under the provisions of section 13-347 of this subchapter, an amount equal to the compensation earnable by him or her while a member, during the six months immediately preceding his or her death, and, if the total number of years in which allowable service was rendered exceeds ten, then an amount equal to the compensation earnable by him or her in city-service while a member during the twelve months immediately preceding his or her death, and in addition, in either such case, the reserve-for-increased-take-home-pay.

b. Until the first payment has been made on account of a retirement benefit without optional selection of an original plan member not subject to article eleven or an improved benefits plan member not subject to article eleven, such member may be construed by such board to have been in city-service and the applicable benefits provided in this section may be paid in lieu of the retirement allowance.

c. The original plan member not subject to article eleven or the improved benefits plan member not subject to article eleven, or on the death of any such member, the person nominated by him or her to receive, in the case of an original plan member not subject to article eleven, his or her accumulated contributions or his or her death benefit, together with the accumulation-for-increased-take-home-pay, or both, or, in the case of an improved benefits plan member not subject to article eleven, the person nominated by him or her to receive either his or her accumulated deductions, his or her death benefit, together with the reserve-for-increased-take-home-pay, or both, may provide by written designation duly executed and filed with such board that the actuarial equivalent of the benefit otherwise payable in a lump sum shall be paid to the person designated in the form of an annuity payable in installments not more often than once a month, the amount of such annuity to be determined at the time of such member's death on the basis of the age of the beneficiary at that time.

d. Upon the death of an original plan member not subject to article eleven who has completed the period of service, as elected by him or her for retirement, but who shall not have filed application for retirement or who, having filed application for retirement shall die prior to the first payment on account of the benefits thereunder, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed with such board:

1. His or her accumulated contributions, that is his or her contributions without interest; and in addition thereto,

2. The present value of the pension he or she would have received if he or she had retired and had become entitled to a pension for service on the day immediately preceding the day of his or her death.

e. Notwithstanding the foregoing provisions of this section, and in lieu of any lesser amount thereby prescribed, upon the death of an improved benefits plan member not subject to article eleven, prior to the first payment of a retirement benefit, who has completed the minimum period of service, as elected by him or her for retirement, and whether or not such member shall have filed application for retirement, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed in accordance with the requirements of this subchapter:

1. His or her accumulated deductions; and in addition thereto,

2. The amount of reserve equal to the present value of the pension he or she would have received if he or she had retired and became entitled to a pension on the day immediately preceding his or her death.

The beneficiary of such deceased member shall have the right to accept such benefits in lump sum or in such periodic payments, on an annuity basis, as such beneficiary shall elect.

f. 1. The provisions of the preceding subdivisions of this section applicable to original plan members not subject to article eleven shall apply to an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313), except to the extent and in the manner that any such provision is modified by article eleven.

2. The provisions of the preceding subdivisions of this section applicable to improved benefits plan members not subject to article eleven shall apply to an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313), except to the extent and in the manner that any such provision is modified by article eleven.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-347 Death benefits; accidental death benefits.

a. Upon the accidental death of an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) before retirement, or upon the accidental death of an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of such section 13-313) before retirement, provided that evidence shall be submitted to such board proving that the death of such original plan member not subject to article eleven or of such improved benefits plan member not subject to article eleven, as the case may be, was the natural and proximate result of an accident sustained while a member and while in the performance of duty at some definite time and place and that such death was not the result of wilful negligence on his or her part:

(1) his or her accumulated contributions (as defined in subdivision seven of such section 13-313) that is, his or her contributions without interest, if he or she was an original plan member not subject to article eleven at the time of his or her death, shall be paid to his or her estate, or to such persons as he or she has nominated or shall nominate by written designation, duly acknowledged and filed with such board; and (2) his or her accumulated deductions (as defined in subdivision seven-a of such section 13-313), if he or she was an improved benefits plan member not subject to article eleven at the time of his or her death, shall be paid to his or her estate or to such persons as he or she has nominated or shall nominate by written designation, duly acknowledged and filed with such board.

b. Upon application by or on behalf of the dependents of such deceased member:

(1) such board, if such deceased member was an original plan member not subject to article eleven at the time of his or her death, shall grant, to the payee or payees and to the extent and in the manner provided for in subdivision c of this section, a lump sum payment of the accumulation for increased take-home-pay and, in addition, an allowance of one-half of the final compensation of such employee, which allowance shall in no case be less than one-half of the full salary payable to a first grade firefighter on the date of death of such employee and in the case of a member acting in a higher rank an amount not to exceed one-half the salary at the compensation of such rank; and

(2) such board, if such deceased member was an improved benefits plan member not subject to article eleven at the time of his or her death, shall grant, to the payee or payees and to the extent and in the manner provided for in subdivision c of this section, a lump sum payment of the reserve-for-increased-take-home-pay and, in addition thereto, a pension of one-half of the five-year-average compensation (as defined in subdivision six-a of such section 13-313) of such employee, which pension shall in no case be less than one-half of the full salary payable to a first grade firefighter on the date of death of such employee.

c. The applicable lump sum payment and allowance or pension, as the case may be, referred to in subdivision b of this section shall be granted:

(1) To such deceased member's surviving spouse, to continue until the death of the surviving spouse; or

(2) If there be no surviving spouse, or if the surviving spouse dies before any child of such deceased member shall have attained the age of eighteen years or if a student under the age of twenty-three years, then to his or her child or children under such age, divided in such manner as such board in its discretion shall determine, to continue, if such deceased member was an original plan member not subject to article eleven at the time of his or her death, as a joint and survivor pension of one-half of his or her final compensation until every such child dies or attains such age, and to continue, if such deceased member was an improved benefits plan member not subject to article eleven at the time of his or her death, as a joint and survivor pension of one-half of his or her five-year-average compensation until every such child dies or attains such age; or

(3) If there be no surviving spouse or child under the age of eighteen years or if a student under the age of twenty-three years surviving such deceased member, then to his or her dependent father or mother, as such deceased member shall have nominated by written designation duly acknowledged and filed with such board; or, if there be no such nomination, then to his or her dependent father or to his or her dependent mother, as such board in its discretion shall direct, to continue for life.

d. (1) The provisions of the preceding subdivisions of this section applicable to original plan members not subject to article eleven shall apply to an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313), except to the extent and in the manner that any such provision is modified by article eleven.

(2) The provisions of the preceding subdivisions of this section applicable to improved benefits plan members not subject to article eleven shall apply to an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313), except to the extent and in the manner that any such provision is modified by article eleven.

e. An accident resulting in the death of an original plan member (as defined in subdivision four-b of section 13-313 of this subchapter) or improved benefits plan member (as defined in subdivision four-f of such section 13-313), while off-duty and within the geographic limits of the city of New York, shall be deemed to have occurred while in the performance of duty for the purpose of granting accidental death benefits pursuant to the provisions of subdivision a of this section in cases in which:

(1) a substantial and imminent danger to life or property occasioned the off-duty intervention of the member;

(2) the conduct of the member was reasonable in the circumstances; and

(3) the member, in the course of his or her off-duty intervention, utilized skills within the scope of his or her employment by the New York city fire department.

f. Notwithstanding any other provision of law to the contrary, and solely for the purposes of this section, a member shall be deemed to have died as the natural and proximate result of an accident sustained in the performance of duty upon which his or her membership is based, and not as a result of willful negligence on his or her part, provided that such member was in active service upon which his or her membership is based at the time that such member was ordered to active duty, other than for training purposes, pursuant to Title 10 of the United States Code, with the armed forces of the United States, and such member died while on such active duty on or after the effective date of the chapter of the laws of two thousand five which added this subdivision while serving on such active military duty.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Petitioner's husband, a fireman who attended a fire while he was off duty and to which he was ordered not to attend, died in bed after he returned to the quarters of his company from occlusive coronary arteriosclerosis. Petitioner's application for a one-half pay line-of-duty death pension pursuant to this section was lawfully denied when the Board of Trustees reached a tied vote. Wagner v. Lowery, 158 (13) N.Y.L.J. CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-348 Accidental death benefits in the case of deaths occurring prior to July first, nineteen hundred sixty-five.

a. Notwithstanding the provisions of section 13-347 of this subchapter, in any case where a pension was or is awarded under the provisions of such section, by reason of the death of a member occurring before July first, nineteen hundred sixty-five, such pension, subject to the provisions of subdivisions b and c of this section, shall be:

(1) For each full calendar year, on and after January first, nineteen hundred sixty-five an amount equal to one-half of the annual salary or compensation payable, on July first, nineteen hundred sixty-five, to a member of the uniformed force of rank, seniority and other salary-determining status, equal to that of the deceased member on the date of his or her death, but in no case less than one-half of the salary payable, to a first grade firefighter on July first, nineteen hundred sixty-five, and

(2) For any portion of a calendar year, on and after January first, nineteen hundred sixty-five, the appropriate pro rata portion of the amount which would be payable, under the provisions of paragraph one of this subdivision a, for the full calendar year which includes such portion of a year, if a pension were payable under this section for such full calendar year.

b. Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination, as the pension which would otherwise be payable, on and after January first, nineteen hundred sixty-five, pursuant to section 13-347 of this subchapter by reason of the death of such member.

c. The pension payable pursuant to the provisions of subdivisions a and b of this section shall be in lieu of any pension which would otherwise be payable on and after January first, nineteen hundred sixty-five, pursuant to the provisions of section 13-347 of this subchapter and, except as otherwise provided in paragraph one of subdivision e of section 13-686 of this title, shall be in lieu of any supplemental retirement allowance which would otherwise be payable, on and after such date, under the provisions of subchapter six of chapter five of this title or any other law.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-351 Method of computing retirement allowance of chief of department.

a. Any member who shall have been appointed as a chief of department of the fire department shall be entitled, upon retirement for service from such position, to elect to receive, in lieu of any other service retirement benefit to which he or she may be entitled, the applicable retirement allowance provided for in the succeeding subdivisions of this section.

b. If such member was an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) at the time of such retirement, such retirement allowance shall be equal to two-thirds of his or her salary as chief of department.

c. If such member was an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of such section 13-313) at the time of such retirement, such retirement allowance shall consist of an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of such retirement and a pension, which, when added to such annuity, will make such retirement allowance equal to two-thirds of his or her salary as chief of department. For the purpose of computing the annuity portion of such retirement allowance, his or her accumulated deductions shall be the required amount of such deductions at the time of his or her retirement from such position, including any amount then remaining unpaid with respect to his or her contribution rate deficiency (as defined in subdivision twenty-one of such section) 13-313, if any, without any increase resulting from excess contributions and without any decrease resulting from withdrawals, loans, optional modification, payment of his or her contributions for

old age and survivor's insurance coverage, or from any other transaction authorized by law. For the purposes of this subdivision c, any such unpaid amount of contribution rate deficiency, in the case of any such member who becomes an improved benefits plan member before completion of his or her minimum period for service retirement, shall be deemed to consist of such amount plus regular interest thereon from his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of such section) 13-313 to the date of completion of his or her minimum period for service retirement.

d. If such member was an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313) at the time of such retirement, such retirement allowance shall be determined pursuant to the provisions of subdivision b of this section, except to the extent and in the manner that any such provision is modified by article eleven. e. If such member was an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section) 13-313 at the time of such retirement, such retirement allowance shall be determined pursuant to the provisions of subdivision c of this section, except to the extent and in the manner that any such provision is modified by article eleven.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-352 Retirement; for ordinary disability.

Medical examination of a member in city-service for ordinary disability shall be made upon the application of the commissioner, or upon the application of such member or of a person acting in his or her behalf, stating that such member is physically or mentally incapacitated for the performance of duty and ought to be retired. If such medical examination shows that such member is physically or mentally incapacitated for the performance of duty and ought to be retired, the medical board shall so report and the board shall retire such member for ordinary disability not less than thirty nor more than ninety days after the execution and filing of application therefor with the pension fund.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B19-7.83 added LL 53/1941 § 16

**CASE NOTES FROM FORMER SECTION**

¶ 1. Fireman was compulsorily retired for "acute asthmatic breathing" pursuant to § B19-7.83 without a hearing and based upon medical reports. Petitioner's claim that he should have had a trial pursuant to § 487a-12.0 denied as that

section refers only to disciplinary proceedings.-Greenidge v. Cavanagh, 145 (53) N.Y.L.J. (3-20-61) 13, Col. 1 F.

¶ 2. The time limitations in this section are directory and do not constitute a statute of limitations rendering action by the Pension Board outside these limitations nugatory.-Gratz v. Cavanagh, 18 App. Div. 2d 887, 237 N.Y.S. 2d 654 [1963].

**CASE NOTES**

¶ 1. The court upheld the denial of an application for accidental disability retirement. The Medical Board rejected petitioner's contention that he was disabled from performing his duties by an injury to his left ankle. The court found that the determination was supported by credible evidence consisting of the report of its independent orthopedic consultant who examined the petitioner, reviewed medical records and reports of other physicians, and concluded that petitioner was not permanently disabled for the performance of full fire duty. Although petitioner's independent consultant came to a different conclusion, it was up to the Medical Board to resolve conflicts in the evidence. Campbell v. Bd. of Trustees of NYC Fire Dept., 47 AD3d 926, 850 NYS2d 593 (App. Div. 2nd Dept. 2008).

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-353 Retirement; for accident disability.

Medical examination of a member in city-service for accident disability and investigation of all statements and certifications by him or her or on his or her behalf in connection therewith shall be made upon the application of the commissioner, or upon the application of a member or of a person acting in his or her behalf, stating that such member is physically or mentally incapacitated for the performance of city-service, as a natural and proximate result of such city-service, and certifying the time, place and conditions of such city-service performed by such member resulting in such alleged disability and that such alleged disability was not the result of wilful negligence on the part of such member and that such member should, therefore, be retired. If such medical examination and investigation shows that such member is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the medical board shall so certify to the board, stating the time, place and conditions of such city-service performed by such member resulting in such disability, and such board shall retire such member for accident disability forthwith.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B19-7.84 added LL 53/1941 § 16

**CASE NOTES FROM FORMER SECTION**

¶ 1. Although board of trustees does not act merely ministerially in granting or denying pensions and has general discretionary powers over the fire department pension fund its power must be exercised reasonably and the board may not arbitrarily reject the conclusion of the Medical Board. Thus a rejection of a report by a 1B Medical Board should state its predicate and conclusion as to the nature and cause of an applicant's disability and as to whether causality was tied to the performance of his duties.-Matter of Maschino v. Lowery, 34 App. Div. 2d 255, 310 N.Y.S. 2d 900 [1970].

**CASE NOTES**

¶ 1. Where the Board of Trustees denies an application for accidental disability benefits as a consequence of a tie vote, the Board's determination can be set aside on judicial review only if it can be concluded as a matter of law that the petitioner's disability was the natural and proximate result of a service-related accident. Petitioner has the burden of establishing that, as a matter of law, a causal relationship exists between a service-related accident and the subject disability. If there is conflicting medical evidence in the record and the circumstances admit of more than one inference as to the cause of the petitioner's disability, the court cannot decide, as a matter of law, which inference should be drawn. Matter of Regan v. Board of Trustees of the New York Fire Department Article 1-B Pension Fund, 641 N.Y.S.2d 863 (2d Dept. 1996). Accord, Romanelli v. Board of Trustees of the New York City Fire Dept., 210 A.D.2d 232 (2d Dept. 1994).

¶ 2. The court set aside a denial of accidental disability retirement by the Board of Trustees. The evidence showed that petitioner had sustained a line of duty injury, and there was not evidence that petitioner had a knee problem prior to becoming a fireman or that since becoming a fireman he had sustained knee injuries which were not incurred in the line of duty. Mescall v. Board of Trustees of the New York City Fire Department, Article 1-B Pension Fund, 204 A.D.2d 643, 612 N.Y.S.2d 624 (2nd Dept. 1994).

¶ 3. Where the Board of Trustees denies an application for accident disability pension by a tie vote based on the procedural practice set forth in Matter of City of New York v. Schoeck, 294 N.Y. 559, a reviewing court may set aside that determination only if it can conclude as a matter of law that the disability was the natural and proximate result of a service related accident. Although the Board of Trustees is not bound by the determination of the medical board on the issue of causation, it may, at its discretion, rely on the medical board's opinion. So long as there is no indication that the medical board disregarded the proper rule of causation, the Board of Trustees is not required to conduct an independent investigation as to whether a service related accident precipitated the development of a latent condition or aggravated a pre-existing condition. Shedd v. Board of Trustees of the New York City Fire Dept., 177 A.D.2d 632, 575 N.Y.S.2d 336 (2nd Dept. 1991).

¶ 4. The Board of Trustees, in deciding to award ordinary disability rather than accidental disability, can rely upon the Medical Board's recommendation that there is no causal relation between the claimed disability and a service related injury, even though the Medical Board did not examine the pension member itself. Although factors such as the member's failure to return to full duty following a service related injury and the absence of a prio medical history of the disabling condition may be relevant on the issue of causation, none of these factors is dispositive, and a denial of accidental disability benefits may be upheld despite their existence. Thus, so long as the determination is based on credible evidence, i.e. where there is a rational explanation for the findings of the Board of Trustees based on review of records, x-rays, etc. by the Medical Board, the determination will be upheld. Meyer v. Board of Trustees of the New York City Fire Department, 90 N.Y.2d 139, 659 N.Y.S.2d 215 (1997).

¶ 5. In Tesoriero v. Bd. of Trustees of New York Fire Dept., Article 1-B, 17 Misc.3d 497, 844 N.Y.S.2d 611 (Sup.Ct. New York Co. 2007), the court overturned a finding of the Board that the firefighter's mild intermittent asthma did not render him unable to perform his duties without posing unacceptable risks to him or his colleagues. The court

found that the determination of the Medical Board (on which the trustees based their findings) was not credible since its scant six-sentence determination did not have any articulated basis for concluding that "mild intermittent asthma" was not a disabling condition for a firefighter. The report does not indicate the characteristics of "mild intermittent asthma," the performance requirements for a firefighter, or an assessment of any risk that "mild intermittent asthma" may pose to the safety of petitioner and his colleagues while performing duties as a firefighter. A similar result was reached in Marley v. Scopetta, 15  Misc.3d 1068, 834 NYS2d 833 (Sup.Ct. Kings Co. 2007).

*NYC Administrative Code 13-353.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-353.1 Accidental disability retirement; World Trade Center presumption.

1. (a) Notwithstanding any provisions of this code or of any general, special or local law, charter or rule or regulation to the contrary, if any condition or impairment of health is caused by a qualifying World Trade Center condition as defined in section two of the retirement and social security law, it shall be presumptive evidence that it was incurred in the performance and discharge of duty and the natural and proximate result of an accident not caused by such member's own willful negligence, unless the contrary be proved by competent evidence.

(b) The New York City Fire Department Pension Fund (NYCFDPF) board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.

2. (a) Notwithstanding the provisions of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a member who participated in World Trade Center rescue, recovery or cleanup operations as defined in section two of the retirement and social security law, and subsequently retired on a service retirement, an ordinary disability retirement, an accidental disability retirement, or a performance of duty disability retirement and subsequent to such retirement is determined by the head of the retirement system to have a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, upon such determination by the NYCFDPF board of trustees, it shall be presumed that such disability was incurred in the performance and discharge of duty as the natural and proximate result of an accident not caused by such member's own willful negligence, and that the member would have been physically or mentally incapacitated for the performance and

discharge of duty of the position from which he or she retired had the condition been known and fully developed at the time of the member's retirement, unless the contrary is proven by competent evidence.

(b) The NYCFDPF shall consider a reclassification of the member's retirement as an accidental disability retirement effective as of the date of such reclassification.

(c) Such member's retirement option shall not be changed as a result of such reclassification.

(d) The member's former employer at the time of the member's retirement shall have an opportunity to be heard on the member's application for reclassification by the NYCFDPF board of trustees according to procedures developed by the NYCFDPF.

(e) The NYCFDPF board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.

3. Notwithstanding any other provision of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a retiree who: (1) has met the criteria of subdivision one of this section and retired on a service or disability retirement, or would have met the criteria if not already retired on an accidental disability; and (2) has not been retired for more than twenty-five years; and (3) dies from a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such retiree shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such retiree's eligible beneficiary, as set forth in section 13-347 of this subchapter, shall be entitled to an accidental death benefit as provided by sections 13-347 and 13-348 of this subchapter, however, for the purposes of determining the salary base upon which the accidental death benefit is calculated, the retiree shall be deemed to have died on the date of his or her retirement. Upon the retiree's death, the eligible beneficiary shall make a written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in sections 13-347 and 13-348 of this subchapter requesting conversion of such retiree's service or disability retirement benefit to an accidental death benefit. At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits payable under the service or disability retirement benefit, including any post-retirement death benefits, since the retiree's death. If the eligible beneficiary is not the only beneficiary receiving or entitled to receive a benefit under the service or disability retirement benefit (including, but not limited to, post-retirement death benefits or benefits paid or payable pursuant to the retiree's option selection), the accidental death benefit payments to the eligible beneficiary will be reduced by any amounts paid or payable to any other beneficiary.

4. Notwithstanding any other provision of this code or of any general, special or local law, charter, or rule or regulation to the contrary, if a member who: (1) has met the criteria of subdivision one of this section; and (2) dies in active service from a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such member shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such member's eligible beneficiary, as set forth in section 13-347 of this subchapter, shall be entitled to an accidental death benefit provided he or she makes written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in section 13-347 of this subchapter.

**DERIVATION**

Formerly § B19-7.84.1 added chap 1106/1969 § 1

**CASE NOTES**

¶ 1. Petitioner became a member of the New York City Fire Department fifteen months after he had sustained a gunshot wound to the chest. He was diagnosed as having adhesions to his right diaphragm but was nevertheless found to be qualified for the job with "normal pulm[onary] function". However four years later he complained of chest pains and

exhausion while working and was diagnosed as having a lung condition and advised to retire. Request for accidental retirement benefits was denied because of a tie vote by the Board resulting in granting ordinary disability benefits. However, the court overruled the board and found petitioner was entitled to accidental disability benefits, pursuant to § 13-354, because petitioner had the benefit of a presumption that disability occurred in line of duty. Battista v Bd. of Trustees, 188 AD 2d 598, 591 N.Y.S.2d 492, leave to appeal denied 82 N.Y.2d 659, 605 N.Y.S.2d 5 [1993].

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-355 Dependent benefits for surviving spouses and orphans.

a. (1) Where any member who became a member prior to the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of section 13-313 of this chapter), elected to purchase dependent benefits pursuant to section B19-7.42 of former article one-A of former chapter nineteen, and such member, prior to such starting date, makes additional contributions required by sections B19-7.21 and B19-7.42 of such former article one-A to the contingent dependent benefit reserve fund provided for by subdivision c of such section B19-7.21, and such member on and after such starting date makes additional contributions, at the same rate to the dependent benefit contingent reserve fund provided for by subdivision b of section 13-329 of this subchapter, dependent benefits shall be payable on and after such starting date with respect to such member as provided for in subdivision b of this section from the dependent benefit reserve fund provided for by subdivision a of such section 13-329.

(2) In any case where prior to such starting date, dependent benefits were granted with respect to any deceased member or deceased retired member pursuant to the provisions of this section and such sections B197.21 and B19-7.42 as then in effect, dependent benefits with respect to such member shall be payable on and after such starting date to the person or persons eligible to receive same pursuant to the provisions of subdivision b of this section.

b. (1) Except as otherwise provided in paragraph two of this subdivision and subject to the provisions of subdivisions a and d of this section, the board shall pay a dependent benefit to the surviving spouse, child or children or dependent parents of any deceased member if the death of such member occur during his or her service or after he or

she was retired from service. The amount of any such dependent benefit to be paid by the board to each of the several representatives of such member, in case there shall be more than one, from time to time, may be determined by such board according to the circumstances of each case. The annual dependent benefit to the representative or representatives of such member, however, shall be six hundred dollars, and no part of such sum shall be paid to any such surviving spouse who shall remarry, after such remarriage, or to any child after it shall have reached the age of eighteen years.

(2) In any case where an original plan member subject to article eleven (as defined in subdivision four-d of section 13-313 of this subchapter) or an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313) who has elected to contribute the additional deductions provided for by subdivision c of section of this subchapter dies during his or her service, no dependent benefits shall be paid under this section to any person by reason of such death; provided, however that the contributions of such member to the dependent benefit contingent reserve fund, without interest thereon, if such member was an original plan member subject to article eleven at the time of his or her death, and with regular interest thereon, if such member was an improved benefits plan member subject to article eleven at the time of his or her death, shall be paid, subject to the determination of the board as provided for by paragraph one of this subdivision b, to the person or persons who would have been entitled under the provisions of such paragraph one to receive a dependent benefit by reason of such death if such member had not been subject to the provisions of article eleven of the retirement and social security law at the time of his or her death.

c. Dependent benefits shall be granted pursuant to this section to the surviving spouse, child or children or dependent parent or parents of a member:

(1) only upon satisfaction of the applicable requirements set forth in subdivision a of this section, if such member last became a member prior to such starting date; and

(2) only if the member, where he or she becomes a member on or after such starting date, shall elect to contribute the additional deductions provided for by subdivision c of section 13-329 of this subchapter.

d. The benefits granted pursuant to this section shall be in addition to any other benefit provided for by this subchapter.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-356 Safeguards on disability retirement; disability retirees other than disability retirees under improved benefits plan.

a. Once each year the board may, and upon his or her application shall, require any member, after retirement for disability and while under the minimum period for service retirement elected by him or her, to undergo medical examination. Such examination shall be made at the place of residence of such beneficiary or other place mutually agreed upon. Upon the completion of such examination the medical board shall report and certify to the board whether such beneficiary is or is not totally or partially incapacitated physically or mentally and whether he or she is or is not engaged in or able to engage in a gainful occupation. If the board concur in a report by the medical board that such beneficiary is able to engage in a gainful occupation, it shall certify the name of such beneficiary to the appropriate civil service commission, state or municipal, and such commission shall place his or her name as a preferred eligible on such appropriate lists of candidates as are prepared for appointment to positions for which he or she is stated to be qualified. Should such beneficiary be engaged in a gainful occupation, or should he or she be offered city-service as a result of the placing of his or her name on a civil service list, such board shall reduce the amount of his or her disability retirement allowance to an amount which, when added to that then earned by him or her, or earnable by him or her in city-service so offered him or her, shall not exceed the current maximum salary for the title next higher than that held by him or her when he or she was retired. Should the earning capacity of such beneficiary be further altered, such board may further alter his or her retirement allowance to an amount which shall not exceed the rate of retirement allowance upon which he or she was originally retired but which, subject to such limitation, shall equal, when added to that

earnable by him or her, the current maximum salary for the title next higher than that held by him or her when he or she was retired. The provisions of this section shall be executed, any provision of the charter or the code to the contrary notwithstanding.

b. Should any member, after retirement for disability and while under the minimum period for service retirement elected by him or her, refuse to submit to one medical examination in any year by a physician or physicians designated by the medical board, his or her retirement allowance may be discontinued until his or her withdrawal of such refusal. Should such refusal continue for one year, all his or her rights in and to such retirement allowance may be revoked by such board.

c. (1) The provisions of this section shall apply to:

(i) any beneficiary who retired for disability prior to the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of section 13-313 of this subchapter); and

(ii) any beneficiary who becomes a beneficiary by retiring for disability on or after such starting date and who at the time of such retirement, is an original plan member.

(2) The provisions of this section shall not apply to any beneficiary who becomes a beneficiary by retiring for disability and who at the time of such retirement is an improved benefits plan member.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-358 Retirement allowances of original plan members; for service.

a. Subject to the provisions of subdivision b of this section, upon retirement for service an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) shall receive a retirement allowance which shall be equal to one-half his or her final compensation plus, for each year he or she shall have served in the uniformed force of the fire department after having attained the minimum period of service retirement elected by him or her, the additional amount provided for by section two hundred seven-b of the general municipal law with respect to such year.

b. In addition to the benefits provided for in subdivision a of this section, an original plan member not subject to article eleven, upon retirement for service, shall receive, for each year, or fraction thereof, of service credit transferred from the New York city employees' retirement system, a retirement allowance of fifty-five percent of one-sixtieth of his or her five-year-average-salary (as defined in subdivision twenty-eight of section 13-313 of this subchapter) if such service credit was for service rendered prior to October first, nineteen hundred fifty-one or seventy-five percent of one-sixtieth of his or her five-year-average-salary if such service was rendered on or after October first, nineteen hundred fifty-one. Nothing contained in this subdivision b shall be construed as denying or impairing any right granted to any member by any other provision of law with respect to any such transferred service credit which consists of credit for service as a member of a uniformed force, the members of which, during their service in such force, are eligible for membership in the New York city employees' retirement system.

c. Upon retirement for service, an original plan member subject to article eleven (as defined in subdivision four-d of section 13-313 of this subchapter) shall receive a retirement allowance determined pursuant to the provisions of subdivisions a and b of this section, except to the extent and in the manner that any such provision is modified by article eleven.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-359 Retirement allowances of improved benefits plan members; for service.

a. Subject to the provisions of subdivision b of this section, upon retirement for service, an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of section 13313 of this subchapter) shall receive a retirement allowance which shall consist of:

1. (a) An annuity based on his or her required annuity savings at the termination of his or her required minimum period of service, and in addition, a pension which when added to the annuity shall be equal to one-half of his or her annual earnable compensation on the date of retirement, for his or her minimum period of service. For the purpose only of determining the pension portion of the retirement allowance for minimum service, such member's annuity under this paragraph one shall be computed as it would be, (i) if it were not reduced by the actuarial equivalent of any outstanding loan, (ii) if it were not increased by the actuarial equivalent of any additional contributions, (iii) if it were not reduced by reason of such member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, (iv) as it would be without any optional modification, and (v) as it would be, in the case of any improved benefits plan member not subject to article eleven who is subject to a contribution rate deficiency (as defined in subdivision twenty-one of such section 13-313) under the provisions of this subchapter, if an amount equal to the whole or any part of such deficiency remaining unpaid as of the effective date of such member's retirement for service had been paid to the pension fund on the earlier of (A) his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of such section 13-313) or (B) the date next following the date of termination of such member's

required minimum period of service.

(b) If such member became an improved benefits plan member after the date of termination of such member's required minimum-period of service, his or her required annuity savings at the termination of his or her required minimum period of service shall be deemed to be such member's accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter) credited to him or her as an original plan member as of such date of termination, provided, however, that for the purpose only of determining the pension portion of the retirement allowance for minimum service, such member's annuity under this paragraph one shall be computed as it would be under the conditions prescribed in items (i), (iv), and (v) of subparagraph (a) of this paragraph.

2. For each additional year of service in the uniformed force of the fire department, or fraction thereof, beyond his or her required minimum service, such a member shall be entitled to, in addition to the benefits provided in paragraph one of this subdivision a;

(a) a pension of one-sixtieth of his or her average annual earnings from his or her date of eligibility for retirement to the actual date of retirement; and

(b) a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for all periods of such service in the uniformed force of the department rendered both (1) after the completion of such required minimum service in such uniformed force and (2) after December thirty-first, nineteen hundred sixty-six.

3. For each year, or fraction thereof, of service credit transferred from the New York city employees' retirement system, or service credit acquired pursuant to subdivision d of section 13-318 of this subchapter or pursuant to the applicable provisions of subdivisions e and f of such section, a pension of fifty-five percent of one-sixtieth of his or her five-year-average compensation (as defined in subdivision six-a of such section 13-313) if such service credit was for service rendered prior to October first, nineteen hundred fifty-one or seventy-five percent of one-sixtieth of his or her five-year-average compensation if such service was rendered subsequent to October first, nineteen hundred fifty-one.

4. (a) For service in the uniformed force of the fire department in addition to and in excess of his or her required minimum period of service, such member shall be entitled to receive, in addition to the benefits provided for by the preceding paragraphs of this subdivision a, an annuity which shall be determined in the manner provided for in subparagraphs (b), (c), (d) and (e) of this paragraph four.

(b) There shall be added together (i) the total amount of the accumulated deductions of such member, if any, whenever made, as the same are on the date next preceding the date on which such member's retirement becomes effective, including all voluntary additional contributions, whenever made, and (ii) the unpaid amount of any loan of such member outstanding as of such date.

(c) Subject to the provisions of subparagraph (d) of this paragraph four, there shall be determined the amount of the accumulated deductions, if any, credited to such member with respect to the years of his or her service credited as his or her minimum period of service, as such deductions were on the date of completion of such minimum period of service (but also as such deductions would then be in the absence of a loan), excluding, however, from such accumulated deductions:

(i) the value, as of such completion date, of all of such member's voluntary, additional contributions made with respect to such years of service credited as his or her minimum period of service;

(ii) the value, as of such completion date, of any accumulated deductions credited with respect to any period of service preceding and not included in such period of service credited as such member's minimum period of service.

(d) If such member became an improved benefits plan member after the date of completion of such member's

minimum period of service, his or her accumulated deductions with respect to his or her minimum period of service shall be deemed to be, only for the purposes of this paragraph four, such member's accumulated contributions (as defined in subdivision seven of section 13-313 of this subchapter) credited to him or her as an original plan member as of such completion date with respect to the period of service credited to such member as his or her minimum period of service, as such accumulated contributions would be in the absence of a loan, and excluding from such accumulated contributions the value, as of such date, of any accumulated contributions credited with respect to any period of service preceding and not included in such period of service credited as such member's minimum period of service.

(e) From the amount computed pursuant to subparagraph (b) of this paragraph four, there shall be subtracted the amount computed pursuant to subparagraph (c) of this paragraph or subparagraph (d) hereof, as the case may be.

(f) The annuity to which such member shall be entitled under this paragraph four, if any, shall be the actuarial equivalent, as of the date next preceding the date on which such member's retirement becomes effective, of the remainder computed pursuant to subparagraph (e) of this paragraph four.

b. Upon retirement for service, an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313) shall receive a retirement allowance consisting of an annuity and a pension determined pursuant to the provisions of subdivision a of this section, except to the extent and in the manner that any such provision is modified by article eleven.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-360 Vested retirement rights; original plan members.

a. For the purposes of this section, the term "service" shall mean service in the uniformed force of the fire department, as a member of such force, including service for which credit is granted pursuant to section 15-111 of the code, but excluding any service credit acquired by transfer or otherwise under any other provision of law.

b. (1) Any member who:

(i) discontinued "service" on or after July first, nineteen hundred sixty-nine, and prior to the starting date of the improved benefits plan (as such starting date is defined in subdivision twenty-seven of section 13-313 of this subchapter) other than by death, retirement or dismissal; and

(ii) prior to such discontinuance, completed fifteen or more years of "service", at least five of which immediately preceded such discontinuance; and

(iii) does not withdraw his or her accumulated contributions in whole or in part; and

(iv) at least thirty days prior to the date of such discontinuance, filed a duly executed application for a deferred retirement allowance hereunder; shall have a vested right to receive a deferred retirement allowance as provided in this section. For the purposes of this subchapter, any such member who acquired such a vested right pursuant to the

provisions of this paragraph one shall be deemed to have become an original plan discontinued member.

(2) Any original plan member who:

(i) discontinues "service" on or after such starting date, other than by death, retirement or dismissal; and

(ii) prior to such discontinuance, completed five or more years of "service"; and

(iii) does not withdraw his or her accumulated contributions in whole or in part; and

(iv) at least thirty days prior to the date of such discontinuance, filed a duly executed application for a deferred retirement allowance hereunder; shall have a vested right to receive a deferred retirement allowance as provided in this section and shall be an original plan discontinued member.

c. (1) Upon such discontinuance under the conditions and in compliance with the provisions of subdivision b of this section, such deferred retirement allowance shall vest automatically.

(2) Such retirement allowance shall become payable on the earliest date on which such original plan discontinued member could have retired for service if discontinuance had not occurred.

d. Such retirement allowance, in the case of an original plan discontinued member not subject to article eleven (as defined in subdivision sixteen-a of section 13-313 of this subchapter), shall be:

(1) An amount equal to:

(i) in the case of any such original plan discontinued member not subject to article eleven whose minimum period for service retirement is twenty years, two and one-half percent of his or her final compensation on the date of his or her discontinuance of "service", multiplied by the number of years of "service" credited to him or her on the date of such discontinuance; or

(ii) In the case of any such original plan discontinued member not subject to article eleven whose minimum period for service retirement is twenty-five years, two percent of his or her final compensation on the date of his or her discontinuance of "service", multiplied by the number of years of "service" credited to him or her on the date of such discontinuance; and

(2) an amount equal to fifty dollars for each year of city-service credited to him or her, other than "service".

d-1. Such retirement allowance, in the case of an original plan discontinued member subject to article eleven (as defined in subdivision sixteen-b of such section 13-313) shall consist of an amount determined pursuant to the provisions of subdivision d of this section, except to the extent and in the manner that any such provision is modified by article eleven.

e. If an original plan discontinued member dies before attaining the earliest age at which he or she could have retired for service if discontinuance had not occurred, his or her accumulated contributions shall be paid (1) to the beneficiary designated by him or her pursuant to section 13-346 of this subchapter to receive his or her accumulated contributions in the event that such contributions were to become payable under such section, or (2) if such member had made no such designation, to his or her estate.

f. An original plan discontinued member may elect any option under section 13-369 of this subchapter at any time prior to the first payment on account of his or her retirement allowance under this section.

g. Withdrawal of accumulated contributions, in whole or in part, after discontinuance of "service", shall terminate the right to a deferred retirement allowance under this section.

h. If an original plan discontinued member who has not withdrawn his or her accumulated contributions in whole or in part shall subsequently reenter "service" before the earliest date on which such original plan discontinued member could have retired for service if discontinuance had not occurred, he or she shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her discontinuance of "service".

i. (1) If an original plan discontinued member who has not withdrawn his or her accumulated contributions in whole or in part shall subsequently and on or after the earliest date on which such original plan discontinued member could have retired for service if discontinuance had not occurred, re-enter "service", his or her retirement allowance shall be suspended and forfeited during the period of such "service".

(2) (i) Such original plan discontinued member may again become a member of the pension fund if, within ninety days after his or her return to such "service", he or she files a duly executed and acknowledged application for such membership.

(ii) Subject to the provisions of subparagraphs (iii) and (iv) of this paragraph two, if any such original plan discontinued member shall again become a member of the pension fund, he or she shall become such member as a new entrant.

(iii) If such original plan discontinued member, at the time of his or her discontinuance of "service", was an original plan discontinued member not subject to article eleven, he or she shall, as such new entrant, continue to be an original plan discontinued member not subject to article eleven. If such original plan discontinued member, at the time of his or her discontinuance of "service", was an original plan discontinued member subject to article eleven, he or she shall, as such new entrant, continue to be an original plan discontinued member subject to article eleven.

(iv) Any original plan discontinued member who again becomes a member of the pension fund pursuant to the preceding subparagraphs of this paragraph two shall contribute to such fund at the rate (before modification, if any, to which such original plan discontinued member may be entitled pursuant to section 13-326 of this subchapter) at which he or she would have been required to contribute if he or she had not discontinued "service". The provisions of paragraph two of subdivision c of section 13-325 of this subchapter shall not apply to an original plan discontinued member who again becomes a member pursuant to this paragraph two.

(3) (i) Upon the subsequent retirement of any such original plan discontinued member who, pursuant to the provisions of subparagraph (iii) of paragraph two of this subdivision i, is an original plan discontinued member not subject to article eleven, he or she shall be credited with all of his or her "service" as a member subsequent to his or her last restoration to membership and he or she shall receive therefor a retirement allowance equal to one-sixtieth of his or her average annual salary or wages from the date of his or her re-entry into membership to the date of his or her subsequent retirement, multiplied by the number of years of "service" rendered by him or her from such date of re-entry.

(ii) Upon the subsequent retirement of any such original plan discontinued member who, pursuant to the provisions of subparagraph (iii) of paragraph two of this subdivision i, is an original plan discontinued member subject to article eleven, he or she shall be credited with all of his or her "service" as a member subsequent to this last restoration to membership and he or she shall receive therefor a retirement allowance determined pursuant to the provisions of subparagraph (i) of this paragraph three, except to the extent and in the manner that any such provision is modified by article eleven. If, after the restoration of any such original plan discontinued member subject to article eleven, he or she separates from "service" at a time when he or she is ineligible to retire under the provisions of such article eleven, that part of his or her accumulated contributions which is attributable to the period of his or her service subsequent to his or her last restoration to membership and which remains to his or her credit shall be refunded to him or her, without interest, pursuant to rules and regulations promulgated by the board with respect to refunds under such circumstances.

(4) In addition to the applicable retirement allowance provided for by paragraph three of this subdivision i, any

such new entrant original plan discontinued member, upon his or her subsequent retirement, shall receive the retirement allowance which he or she was receiving or entitled to receive immediately prior to his or her last restoration. If, after the restoration of any such original plan discontinued member subject to article eleven, he or she separates from service at a time when he or she is ineligible to retire under the provisions of such article eleven, he or she shall receive, in addition to the refund of a portion of his or her accumulated contributions as provided for in subparagraph (ii) of such paragraph three, the retirement allowance which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(5) During restoration to "service", in lieu of suspension of any benefits payable in the event of his or her death by reason of any option selection in respect to his or her retirement allowance, a beneficiary may pay to the fund from which his or her ordinary retirement allowance was payable, the amount by which his or her ordinary retirement allowance exceeded the optional retirement allowance theretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment were suspended.

(6) Any original plan discontinued member who has again become a member of the pension fund pursuant to the provisions of paragraphs one and two of this subdivision i may, during such restored membership, by a written application duly executed and filed with the board pursuant to the provisions of subdivision c or subdivision e of section 13-315 of this subchapter, as the case may be, elect to become an improved benefits plan discontinued member restored to membership. As of the applicable time specified in subdivision d or subdivision f of such section with respect to commencement of status as an improved benefits plan member, any such original plan discontinued member who filed such an application shall cease to be an original plan discontinued member restored to membership and shall become an improved benefits plan discontinued member restored to membership. If such member was a restored original plan discontinued member not subject to article eleven immediately prior to the commencement of his or her status as a restored improved benefits plan discontinued member, he or she shall thereafter be an improved benefits plan discontinued member not subject to article eleven, restored to membership. If such member was a restored original plan discontinued member subject to article eleven immediately prior to the commencement of his or her status as a restored improved benefits plan discontinued member, he or she shall thereafter be an improved benefits plan discontinued member subject to article eleven, restored to membership. On and after the date on which the status of any such member as an improved benefits plan discontinued member restored to membership begins, his or her rights, privileges, benefits and obligations as such member shall be as prescribed by the provisions of section 13-359 of this subchapter; provided, however, that he or she shall contribute to the annuity savings fund on and after such date at the rate of contribution (before modification, if any, to which he or she may be entitled on account of increased-take-home-pay) which would have been applicable to him or her if the improved benefits plan had been in existence and he or she had become a non-elective improved benefits plan member as of the date of commencement of the period of member service in the uniformed force of the fire department which was credited to him or her at the time when he or she last discontinued service so as to become entitled to benefits under this section.

j. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in the pension fund who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the pension fund shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-346 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-361 Vested retirement rights; improved benefits plan members.

a. Any improved benefits plan member who:

(1) discontinues fire uniformed force service (as defined in subdivision sixteen-c of section 13-313 of this subchapter) on or after the starting date of the improved benefits plan (as such date is defined in subdivision twenty-seven of such section 13-313), other than by death, retirement or dismissal; and

(2) prior to such discontinuance, completed five or more years of allowable fire uniformed force service; and

(3) does not withdraw his or her accumulated deductions in whole or in part; and

(4) at least thirty days prior to the date of such discontinuance, filed a duly executed application for a deferred retirement allowance hereunder; shall have a vested right to receive a deferred retirement allowance as provided in this section.

b. (1) Upon such discontinuance under the conditions and in compliance with the provisions of subdivision a of this section, such deferred retirement allowance shall vest automatically.

(2) Such retirement allowance shall become payable on the earliest date on which such improved benefits plan discontinued member could have retired for service if discontinuance had not occurred.

c. Such deferred retirement allowance, in the case of an improved benefits plan discontinued member not subject to article eleven (as defined in subdivision sixteen-e of such section 13-313), shall consist of:

(1) an annuity which is the actuarial equivalent of an amount equal to such member's accumulated deductions for the period of his or her fire uniformed force service, plus any accumulated contributions transferred to his or her credit pursuant to section forty-three of the retirement and social security law, as the total of such accumulated deductions and contributions is on the earliest date on which such member could have retired for service; and

(2) a pension, which together with his or her annuity shall be equal to:

(i) in the case of any such improved benefits plan discontinued member not subject to article eleven whose minimum period for service retirement is twenty years, two and one-half percent of his or her annual earnable compensation on the date of his or her discontinuance of fire uniformed force service, multiplied by a number equal to the number of years of allowable fire uniformed force service credited to him or her on the date of such discontinuance, plus the number of his or her years of service for which credit was transferred pursuant to section forty-three of the retirement and social security law; or

(ii) in the case of any such improved benefits plan discontinued member not subject to article eleven whose minimum period for service retirement is twenty-five years, two percent of his or her annual earnable compensation on the date of his or her discontinuance of fire uniformed force service, multiplied by a number equal to the number of years of allowable fire uniformed force service credited to him or her on the date of his or her discontinuance of such service, plus the number of years of his or her service for which credit was transferred pursuant to section forty-three of the retirement and social security law; and

(3) for each year, or fraction thereof, of his or her service credit transferred from the New York city employees' retirement system, a pension of fifty-five percent of one-sixtieth of his or her five-year-average compensation (as defined in subdivision six-a of such section 13-313) if such service credit was for service rendered prior to October first, nineteen hundred fifty-one or seventy-five percent of one-sixtieth of his or her five-year-average compensation if such service was rendered on or after October first, nineteen hundred fifty-one.

d. For the purpose only of determining the pension portion of such retirement allowance pursuant to paragraphs one and two of subdivision c of this section, the annuity referred to in such paragraph one shall be computed as it would be (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of such member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, (4) as it would be without any optional modification, and (5) as it would be, in the case of any improved benefits plan discontinued member not subject to article eleven who is subject to a contribution rate deficiency (as defined in subdivision twenty-one of section 13-313 of this subchapter), if the whole or any part of such deficiency remaining unpaid at the time when such retirement allowance becomes payable had been paid to the pension fund on his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of such section 13-313).

d-1. Such deferred retirement allowance, in the case of an improved benefits plan discontinued member subject to article eleven (as defined in subdivision sixteen-f of such section 13-313), shall consist of an annuity and pension determined pursuant to the provisions of subdivisions c and d of this section, except to the extent and in the manner that any such provision is modified by article eleven.

e. Regular interest on the accumulated deductions of an improved benefits plan discontinued member and on his or her reserve-for-increased-take-home-pay shall be credited after discontinuance of fire uniformed force service at the rate which would be applicable if he or she had not discontinued such service.

f. If an improved benefits plan discontinued member dies before attaining the earliest age at which he or she

could have retired for service if discontinuance had not occurred, his or her accumulated deductions shall be paid (1) to the beneficiary designated by him or her pursuant to section 13-346 of this subchapter to receive his or her accumulated deductions in the event that such deductions were to become payable under such section, or (2) if such member had made no such designation, to his or her estate.

g. An improved benefits plan discontinued member may elect any option under section 13-369 of this subchapter at any time prior to the first payment on account of his or her retirement allowance under this section.

h. Withdrawal of accumulated deductions, in whole or in part, after discontinuance of fire uniformed force service, shall terminate the right to a deferred retirement allowance under this section.

i. If an improved benefits plan discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently re-enter fire uniformed force service before the earliest date on which such improved benefits plan discontinued member could have retired for service if discontinuance had not occurred, he or she shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her discontinuance of fire uniformed force service and shall be credited with regular interest on his or her accumulated deductions and his or her reserve-for-increased-take-home-pay from the time of such discontinuance to the time of his or her re-entry into fire uniformed force service, at the rate which would have been applicable if he or she had not discontinued such service.

j. (1) If an improved benefits plan discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently and on or after the earliest date on which such improved benefits plan discontinued member could have retired for service if discontinuance had not occurred, re-enters fire uniformed force service, the payment of his or her pension only shall be suspended and forfeited during the period of such fire uniformed force service, except as herein otherwise provided.

(2) Such improved benefits plan discontinued member may again become a member of the pension fund, if within ninety days after his or her return to fire uniformed force service, he or she files a duly executed and acknowledged application for such membership.

(3) (i) Subject to the provisions of subparagraphs (ii) and (iii) of this paragraph three, if such beneficiary shall again become a member of the pension fund, the payment of his or her annuity shall also be suspended and forfeited and his or her annuity reserve shall be transferred to his or her credit in the annuity savings fund and he or she shall become such member as a new entrant.

(ii) If such improved benefits plan discontinued member, at the time of his or her discontinuance of fire uniformed force service, was an improved benefits plan discontinued member not subject to article eleven, he or she shall, as such new entrant, continue to be an improved benefits plan discontinued member not subject to article eleven. If such improved benefits plan discontinued member, at the time of his or her discontinuance of fire uniformed force service, was an improved benefits plan discontinued member subject to article eleven, he or she shall, as such new entrant, continue to be an improved benefits plan discontinued member subject to article eleven.

(iii) Any improved benefits plan discontinued member who again becomes a member of the pension fund pursuant to the provisions of paragraph two of this subdivision j and the preceding subparagraphs of this paragraph three, shall contribute to such fund at the rate (before modification, if any, to which such improved benefits plan discontinued member may be entitled pursuant to section 13-326 of this subchapter) at which he or she would have been contributing if he or she had not discontinued fire uniformed force service.

(iv) Upon the subsequent retirement of any such improved benefits plan discontinued member who, pursuant to the provisions of subparagraph (ii) of this paragraph three, is an improved benefits plan discontinued member not subject to article eleven, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and he or she shall receive therefor a retirement allowance, payable in such form as he or

she shall select under section 13-369 of this subchapter, consisting of:

(A) an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of such retirement; and

(B) a pension equal to one-sixtieth of his or her average annual earnings from the date of his or her re-entry into membership to the date of his or her subsequent retirement, multiplied by the number of years of his or her allowable service in the uniformed force of the fire department rendered by him or her from such date of re-entry; and

(C) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for the period of his or her allowable service in the uniformed force of the fire department rendered by him or her from such date of re-entry.

(v) Upon the subsequent retirement of any such improved benefits plan discontinued member who, pursuant to the provisions of subparagraph (ii) of this paragraph three, is an improved benefits plan discontinued member subject to article eleven, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and he or she shall receive therefor a retirement allowance determined pursuant to the provisions of subparagraph (iv) of this paragraph three, except to the extent and in the manner that any such provision is modified by article eleven.

(vi) In addition to the applicable retirement allowance provided for by subparagraph (iv) or subparagraph (v) of this subdivision j, as the case may be, any such improved benefits plan discontinued member, upon his or her subsequent retirement, shall receive the pension which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(vii) If, after the restoration of any such improved benefits plan discontinued member subject to article eleven, he or she separates from service at a time when he or she is ineligible to retire under the provisions of such article eleven, he or she shall receive a retirement allowance which shall consist of an annuity which is the actuarial equivalent of his or her accumulated deductions and the pension, including the pension-providing-for-increased-take-home-pay, if any, which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(viii) In lieu of suspension during restoration to fire uniformed force service of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension, any such beneficiary may pay to the fund or funds from which his or her ordinary pension was payable, the amount by which his or her ordinary pension exceeded the optional pension heretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment was suspended.

k. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in the pension fund who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the pension fund shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-346 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

**HISTORICAL NOTE**

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-362 Retirement allowances of original plan members; for ordinary disability.

a. Upon retirement for ordinary disability, an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) shall receive a retirement allowance which shall be equal to:

1. If the number of years of city-service credited to him or her is equal to or exceeds the minimum period for service retirement elected by him or her, (a) one-fortieth of his or her final compensation multiplied by the number of years of city-service credited to him or her, in the case of any such member whose minimum period is twenty years of city-service, and (b) one-fiftieth of his or her final compensation multiplied by the number of years of city-service credited to him or her, in the case of any such member whose minimum period is twenty-five years of city-service; or

2. One-half of his or her final compensation as such member, if the number of years of city-service credited to him or her is equal to or exceeds ten, but is less than his or her minimum period for service retirement; or

3. One-third of his or her final compensation as such member, if the number of years of city-service credited to him or her is less than ten.

b. Upon retirement for ordinary disability, an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313) shall receive a retirement allowance determined pursuant to the provisions of subdivision a of this section, except to the extent and in the manner that any such provision is modified by article

eleven.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-363 Retirement allowances of improved benefit plan members; for ordinary disability.

a. Subject to the provisions of subdivision b of this section, upon retirement for ordinary disability, an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of section 13-313 of this subchapter) shall receive a retirement allowance which shall consist of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. A pension, which, together with his or her annuity and the pension-providing-for-increased-take-home-pay, if any, shall be equal to:

(i) In the case of any such member who contributes on the basis of retirement after twenty years of city-service, a retirement allowance equal to one-fortieth of his or her annual earnable compensation on the date of retirement multiplied by the number of years of city-service credited to him or her, but not less than (A) one-half of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are ten or more, or (B) one-third of his or her annual earnable compensation on the date of retirement, if the years of city-service

credited to him or her are less than ten; or

(ii) In the case of any such member who contributes on the basis of retirement after twenty-five years of city-service, a retirement allowance equal to one-fiftieth of his or her annual earnable compensation on the date of retirement, multiplied by the number of years of city-service credited to him or her, but not less than (A) one-half of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are ten or more, or (B) one-third of his or her annual earnable compensation on the date of retirement, if the years of city-service credited to him or her are less than ten.

b. For the purpose only of determining the pension portion of the retirement allowance payable for ordinary disability under the provisions of this section, the member's annuity shall be computed as it would be (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, (4) as it would be without optional modification, and (5) as it would be, in the case of any improved benefits plan member not subject to article eleven who is subject to a contribution rate deficiency (as defined in subdivision twenty-one of such section 13-313) under the provisions of this subchapter, if the whole or any part of such deficiency remaining unpaid as of the effective date of such member's retirement for ordinary disability had been

paid to the pension fund on the earlier of (i) his or her date of commencement of contributions as an improved benefits plan member (as defined in subdivision nineteen of such section 13-313) or (ii) the date next following the date of completion of such member's minimum period for service retirement.

c. Upon retirement for ordinary disability, an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313) shall receive a retirement allowance determined pursuant to the provisions of subdivisions a and b of this section, except to the extent and in the manner that any such provision is modified by article eleven.

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-364 Retirement allowances of original plan members; for accident disability.

a. Upon retirement for accident disability, an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) shall receive:

1. a retirement allowance which shall be equal to three-quarters of his or her final compensation on the date of his or her retirement and in the case of a member acting in a higher rank, an amount not to exceed three-quarters of the compensation of such rank on the day such injury was suffered; and

2. his or her accumulated contributions, without interest, either in a lump sum or in the form of an annuity which is the actuarial equivalent of such accumulated contributions, as such member shall elect; and

3. for each year he or she shall have served in the uniformed force of the fire department after having completed the minimum period of service retirement elected by him or her, the additional amount provided for by section two hundred seven-b of the general municipal law with respect to such year.

b. Upon retirement for accident disability, an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313) shall receive a retirement allowance determined pursuant to the provisions of subdivision a of this section, except to the extent and in the manner that any such provision is modified by article eleven.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-365 Accidental disability benefits in the case of retirements prior to July 1, 1965.

a. Notwithstanding the provisions of section 13-364 of this subchapter, in any case where a retirement allowance was awarded under the provisions of such section, by reason of the retirement for accidental disability of a member occurring before July first, nineteen hundred sixty-five, such retirement allowance shall be not less than three-fourths the annual salary or compensation earnable by a first grade firefighter on July first, nineteen hundred and sixty-five. In the case of a member receiving a lesser retirement allowance, such retirement allowance shall be increased to an amount which will equal three-fourths of the earn able salary or compensation of a first grade firefighter on July first, nineteen hundred and sixty-five. Such retirement allowance shall be computed as it would have been without deduction for outstanding loans and optional modifications.

b. Such retirement allowance shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to terminations, as the retirement allowance which would otherwise be payable to the members under section 13-364 of this subchapter or any other law.

c. The retirement allowance payable pursuant to the provisions of such subdivisions a and b of this section shall be in lieu of any retirement allowance which would otherwise be payable on and after the effective date of this section pursuant to the provisions of section 13-364 of this subchapter.

d. Nothing in this section shall be construed as creating any rights on behalf of any person who dies prior to

October twenty-seventh, nineteen hundred sixty-six and benefits due thereunder shall be calculated and paid only from such date this law becomes effective.

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-366 Retirement allowances of improved benefits plan members; for accident disability.

a. Upon retirement for accident disability, an improved benefits plan member not subject to article eleven shall receive a retirement allowance which shall consist of:

(1) An annuity, which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

(2) A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

(3) A pension, of three-quarters of his or her annual earnable compensation on the date of retirement and in the case of a member acting in a higher rank, an amount not to exceed three-quarters of the annual earnable compensation of such rank on the day such injury was suffered, in addition to the annuity and pension provided for by paragraphs one and two of this subdivision a; and

(4) For each year he or she shall have served in the uniformed force of the fire department after having completed the minimum period of service retirement elected by him or her, the additional amount provided for by section two hundred seven-b of the general municipal law with respect to such year.

b. Upon retirement for accident disability, an improved benefits plan member subject to article eleven shall receive a retirement allowance determined pursuant to the provisions of subdivision a of this section, except to the extent and in the manner that any such provision is modified by article eleven.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-367 Retirement allowances of improved benefits plan members credited with certain service as battalion chief.

a. In the case of the retirement of an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of section 13-313 of this subchapter), who, pursuant to certification from an eligible list and permanent appointment to the position of battalion chief, shall have served in such rank for a period of not less than five years, such member shall be entitled to receive a retirement allowance which shall be the larger of:

(1) the retirement allowance which would be computed for such member if this section had not been enacted; or

(2) a retirement allowance computed pursuant to the provisions of subdivision b of this section.

b. (1) A retirement allowance shall be computed for such member in all respects pursuant to the applicable provisions of this subchapter as if this section had not been enacted, except as provided in paragraphs two and three of this subdivision b.

(2) Solely for the purpose of calculating the annual earnable compensation on the date of retirement in computing a retirement allowance under the applicable provisions referred to in paragraph one of this subdivision b, the component thereof consisting of the base salary on the date of retirement shall not be such member's base salary in the position held by him or her on such date, but shall instead be deemed to be an amount equal to the base salary which would have been payable on the date of such member's retirement, if he or she had been promoted to the position of

deputy chief of the department on that date. The said deputy chief's base salary shall not be used for the purpose of calculating any other component of such member's retirement allowance under this subdivision.

(3) For the purpose of computing a retirement allowance pursuant to this subdivision b, any additional compensation of such member for acting in a higher rank shall be excluded.

c. Where an improved benefits plan member subject to article eleven (as defined in subdivision four-j of section 13-313 of this subchapter) shall have served in the rank of battalion chief for a period of not less than five years as described in subdivision a of this section, he or she shall, upon retirement, be entitled to a retirement allowance determined pursuant to the applicable provisions of subdivisions a and b of this section, except to the extent and in the manner that any such provision is modified by article eleven.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-368 Retirement allowances; restrictions on.

a. If a lump sum which has been paid or which is payable under the provisions of the workers' compensation law equals or exceeds the present value of all amounts otherwise payable out of moneys provided or to be provided by the pension fund under the provisions of this subchapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this subchapter. If such lump sum be a percentage less than one hundred per cent of the present value of all such amounts, there shall be paid as it becomes due under the provisions of this subchapter, in lieu of each amount otherwise payable, an amount equal to the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

b. If an amount which is payable throughout a period under the provisions of the workers' compensation law equals or exceeds the amounts otherwise payable during the same period out of the moneys provided or to be provided by the pension fund under the provisions of this subchapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this subchapter during such period nor thereafter, until the total amount of such omitted payments, together with the regular interest which they would have accumulated, equals the amount paid under the workers' compensation law, together with the regular interest which it would have accumulated. If an amount which is payable throughout a period under the provisions of the workers' compensation law be a percentage less than one hundred per cent of the amounts otherwise payable during the same period out of moneys provided or to be provided by the pension fund under the provisions of this subchapter on account of the same disability of the same person, there shall be paid during such period as it becomes due under the provisions of this

subchapter, in lieu of each amount otherwise payable, the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

c. No decision of the state industrial board shall be binding on the medical board or on the board in the determination of eligibility of a claimant for an accident disability or an accidental death benefit.

d. Notwithstanding any of the foregoing provisions of this section or any other law to the contrary, pending the final determination of a claim for workers' compensation benefits, the board may authorize payment of all or any part of the benefits which are payable under this subchapter and to which any of the foregoing provisions of this section apply, and in that event the pension fund shall be entitled to reimbursement out of the unpaid installment or installments of compensation due under the workers' compensation law provided that claim therefor is filed with the workers' compensation board, together with proof of the fact and amount of payment.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-369 Retirement of original plan members; options in which retirement allowances may be taken.

a. Subject to the provisions of subdivision b of this section, until the first payment on account of any benefit is made, except pursuant to the provisions of subdivision c of this section, any beneficiary who was an original plan member at the time of his or her retirement, or, if such beneficiary is an incompetent, then the spouse of such beneficiary, or, if there be no spouse, a committee of the estate, may elect to receive such benefit in a retirement allowance payable throughout life, or any such beneficiary or the spouse or committee so electing may then elect to receive the actuarial equivalent at the time of his or her retirement allowance in a lesser retirement allowance, payable throughout life with the provision that:

Option 1. If he or she die before he or she has received in payments the present value of his or her retirement allowance, as it was at the time of his or her retirement, the balance shall be paid to his or her legal representatives or to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board.

Option 2. Upon his or her death, his or her retirement allowance shall be continued throughout the life of and paid to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 3. Upon his or her death, one-half of his or her retirement allowance shall be continued throughout the

life of and paid to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 4. Upon his or her death, some other benefit or benefits shall be paid to such other person or persons as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate, provided such other benefit or benefits, together with such lesser retirement allowance, shall be certified by the actuary to be of equivalent actuarial value to his or her retirement allowance, and shall be approved by such board.

b. In the case of an original plan member subject to article eleven (as defined in subdivision four-d of section 13-313 of this subchapter) or any beneficiary who was an original plan member subject to article eleven at the time of such member's retirement, the provisions of subdivision a of this section shall apply except to the extent and in the manner that any such provision is modified by article eleven.

c. If a member who is otherwise eligible for retirement pursuant to section 13-352 or 13-353 of this subchapter dies within thirty days after the filing with the pension board of the application for retirement pursuant to section 13-352 or 13-353 of this subchapter and it is established that the physical or mental impairment or incapacitation of the applicant specified in such application was directly related to the cause of the applicant's death, such applicant shall be approved by the pension board effective one day before the date of the applicant's death, provided however that:

(1) if a member is entitled to an ordinary disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-352 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-346 of this subchapter, in which event the greater benefit shall be payable; or

(2) if a member is entitled to an accidental disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-353 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-348 of this subchapter, in which event the greater benefit shall be payable.

d. Notwithstanding any law to the contrary, for the purpose of electing an option pursuant to this section, the pension board shall notify the surviving spouse of any applicant described in subdivision c of this section, or, if no such spouse exists, the personal representative of the estate of such applicant of the right of election pursuant to this section and such surviving spouse or personal representative of such estate may elect any such option within thirty days after receipt of such notice.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-370 Retirement of improved benefits plan members; options in which retirement allowances may be taken.

a. Subject to the provisions of subdivision c of this section, until the first payment on account of any benefit is made, except pursuant to the provisions of subdivision d of this section any beneficiary who was an improved benefits plan member at the time of his or her retirement, or, if such beneficiary is an incompetent, then the spouse or such beneficiary, or, if there be no spouse, a committee of the estate, may elect to receive such benefit in a retirement allowance payable throughout life, or any such beneficiary or the spouse or committee so electing may then elect to receive the actuarial equivalent at the time of his or her annuity, his or her pension, or his or her retirement allowance in a lesser annuity or a lesser pension or a lesser retirement allowance, payable throughout life with the provision that:

Option 1. If he or she die before he or she has received in payments the present value of his or her annuity, his or her pension, or his or her retirement allowance, as it was at the time of his or her retirement, the balance shall be paid to his or her legal representatives or to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board.

Option 2. Upon his or her death, his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 3. Upon his or her death, one-half of his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 4. Upon his or her death, some other benefit or benefits shall be paid to such other person or persons as such beneficiary, or the spouse or committee so electing, has nominated or shall nominate, provided such other benefit or benefits, together with such lesser annuity, or lesser pension or lesser retirement allowance, shall be certified by the actuary to be of equivalent actuarial value to his or her annuity, his or her pension or his or her retirement allowance, and shall be approved by such board.

b. For purposes of this section, the terms "pension" and "retirement allowance" shall be deemed to include the pension-providing-for-increased-take-home-pay, if any.

c. In the case of an improved benefits plan member subject to article eleven (as defined in subdivision four-j of section 13-313 of this subchapter) or any beneficiary who was an improved benefits plan member subject to article eleven at the time of such member's retirement, the provisions of subdivisions a and b of this section shall apply except to the extent and in the manner that any such provision is modified by article eleven.

d. If a member who is otherwise eligible for retirement pursuant to this section dies within thirty days after the filing with the pension board of the application for retirement pursuant to this section and it is established that the physical or mental impairment or incapacitation of the applicant specified in such application was directly related to the cause of the applicant's death, such application shall be approved by the pension board effective one day before the date of the applicant's death, provided however that:

(1) if a member is entitled to an ordinary disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-352 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-346 of this subchapter, in which event the greater benefit shall be payable; or

(2) if a member is entitled to an accidental disability retirement allowance under the provisions of this subchapter, the benefits provided pursuant to section 13-353 of this subchapter shall be payable unless the member would otherwise be entitled to a greater benefit pursuant to section 13-348 of this subchapter, in which event the greater benefit shall be payable.

e. Notwithstanding any law to the contrary, for the purpose of electing an option pursuant to this section, the pension board shall notify the surviving spouse of any applicant described in subdivision d of this section, or, if no such spouse exists, the personal representative of the estate of such applicant of the right of election pursuant to this section and such surviving spouse or personal representative of such estate may elect any such option within thirty days after receipt of such notice.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-371 Benefits upon re-entry into membership; after retirement of original plan members.

a. (1) Should a beneficiary receiving or entitled to receive a retirement allowance under the provisions of section 13-349, or 3-350 of this subchapter, who was an original plan member at the time of his or her last retirement, re-enter city-service, his or her retirement allowance shall cease. In the case of any such beneficiary who re-enters city-service (other than as fire commissioner or deputy fire commissioner), he or she shall again become a member of the fund as an original plan member, and in the case of any such beneficiary who re-enters city-service by reason of being appointed fire commissioner or deputy fire commissioner, he or she shall again become a member of the fund as an original plan member and, subject to the provisions of paragraph two of this subdivision shall remain such a member while serving as fire commissioner or deputy fire commissioner, and an amount equal to the retirement allowance reserve of any such member shall be transferred to the contingent reserve fund.

(2) Where any beneficiary who again becomes a member as provided for in paragraph one of this subdivision a elects to become an improved benefits plan member pursuant to the applicable provisions of section 13-315 of this subchapter:

(i) he or she shall, if he or she became an original plan member not subject to article eleven (as defined in subdivision four-c of section 13-313 of this subchapter) upon such restoration of membership, be from the effective date of such election an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of such section 13-313); and

(ii) he or she shall, if he or she became an original plan member subject to article eleven (as defined in subdivision four-d of such section 13-313) upon such restoration of membership, be from the effective date of such election an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313).

(3) On and after the effective date of such election, his or her rights, privileges, benefits and obligations, as such restored improved benefits plan member, shall be governed by the provisions of section 13-372 of this subchapter.

b. (1) Subject to the applicable provisions of paragraphs five and six of this subdivision b, in any case where any such beneficiary who is appointed fire commissioner or deputy fire commissioner, subsequently retires while fire commissioner or deputy fire commissioner and without having elected to become an improved benefits plan member pursuant to the applicable provisions of section 13-315 of this subchapter, he or she shall receive the retirement allowance, if any, which he or she was receiving or entitled to receive immediately prior to his or her appointment as fire commissioner or deputy fire commissioner and in addition, a further retirement allowance as provided for by the applicable provisions of paragraph two or paragraph three of this subdivision b.

(2) If such appointee is an original plan member not subject to article eleven at the time of such retirement as fire commissioner or deputy fire commissioner, he or she shall receive a further retirement allowance of one-sixtieth of his or her average annual salary earned during his or her credited service as fire commissioner or deputy fire commissioner, multiplied by the number of years of his or her credited service as fire commissioner or deputy fire commissioner.

(3) If such appointee is an original plan member subject to article eleven at the time of such retirement as fire commissioner or deputy fire commissioner, he or she shall receive a further retirement allowance determined pursuant to the provisions of paragraph two of this subdivision b, except to the extent and in the manner that any such provision is modified by article eleven.

(4) The further retirement allowance payable to such appointee as prescribed by the applicable provisions of paragraph two or paragraph three of this subdivision shall be payable in such form as he or she shall select under section 13-369 of this subchapter.

(5) Subject to the provisions of paragraph six of this subdivision, where any beneficiary who is appointed fire commissioner or deputy fire commissioner shall have earned at least three years of member credit for service as fire commissioner or deputy fire commissioner, the total service credit to which he or she was entitled at the time of his or her earlier retirement may, at his or her election, again be credited to him or her and upon his or her subsequent retirement as fire commissioner or deputy fire commissioner, he or she shall be credited in addition with all service as fire commissioner or deputy fire commissioner.

(6) Such total service credit to which such fire commissioner or deputy fire commissioner was entitled at the time of his or her earlier retirement shall be credited as provided in paragraph five of this subdivision b only in the event that he or she returns to the pension fund with regular interest the actuarial equivalent of the amount of the retirement allowance he or she received; provided, however, that in the event that such amount is not so repaid, the actuarial equivalent thereof shall be deducted from his or her subsequent retirement allowance.

c. During restoration to service for the city, other than city-service as defined in this subchapter, in lieu of suspension of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her retirement allowance, a beneficiary who was an original plan member at the time of his or her last retirement prior to his or her last restoration to city-service may pay to the fund from which his or her ordinary retirement allowance was payable, the amount by which his or her ordinary retirement allowance exceeded the optional retirement allowance theretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment were suspended.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-372 Benefits upon re-entry into membership; after retirement of improved benefits plan members.

a. (1) Should a beneficiary receiving or entitled to receive a retirement allowance under the provisions of section 13-349 or 13-350 of this subchapter, and who was an improved benefits plan member at the time of his or her last retirement, re-enter city-service, his or her retirement allowance and his or her pension-providing-for-increased-take-home-pay, if any, shall cease.

(2) If he or she had not served the period of service elected by him or her, he or she shall again become a member of the pension fund as an improved benefits plan member. Except as otherwise provided in paragraph three of this subdivision a, if he or she has served the minimum period of service elected by him or her, he or she may file a duly executed and acknowledged application therefor within ninety days after his or her return to service and thereupon again become a member of such fund as an improved benefits plan member.

(3) In the case of any such beneficiary who is appointed fire commissioner or a deputy fire commissioner, he or she shall again become a member of the pension fund as an improved benefits plan member and shall remain such a member while serving as fire commissioner or deputy fire commissioner.

(4) The annuity reserve of any such member whose membership is restored as above provided in this section shall be transferred to his or her credit in the annuity savings fund, and he or she shall contribute to such fund as if he or she were a new entrant.

(5) Upon the subsequent retirement of any such member whose membership is restored as above provided in this section and who, as such restored member, is an improved benefits plan member not subject to article eleven (as defined in subdivision four-i of section 13-313 of this subchapter), he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and shall receive a retirement allowance therefor as if he or she were a new entrant, which retirement allowance shall be determined pursuant to the applicable provisions of this subchapter governing the granting of such a retirement allowance to an improved benefits plan member not subject to article eleven.

(6) Where any such member whose membership is restored as above provided in this section is, as such restored member, an improved benefits plan member subject to article eleven (as defined in subdivision four-j of such section 13-313), he or she shall, upon his or her subsequent retirement, be credited with all of his or her service as a member subsequent to his or her last restoration to membership and shall receive a retirement allowance therefor as if he or she were a new entrant, which retirement allowance shall be determined pursuant to the applicable provisions of this subchapter governing the granting of such a retirement allowance to an improved benefits plan member subject to article eleven.

(7) A retirement allowance determined pursuant to the applicable provisions of subdivision five or subdivision six of this section shall be payable in such form as such member entitled thereto shall select under section 13-370 of this subchapter.

(8) In lieu of suspension during restoration to city-service of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension and the pension-providing-for-increased-take-home-pay, if any, a beneficiary who was an improved benefits plan member at the time of his or her last retirement prior to his or her last restoration to city-service may pay to the fund or funds from which his or her ordinary pension and his or her pension-providing-for-increased-take-home-pay, if any, were payable, the amount by which his or her ordinary pension and the pension-providing-for-increased-take-home-pay, if any, exceeded the optional pension and the pension-providing-for-increased-take-home-pay, if any, heretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment were suspended.

(9) In addition, upon his or her subsequent retirement, any such member who again becomes a member as an improved benefits plan member under the applicable provisions of paragraphs one, two, three and four of this subdivision shall receive the pension and the pension-providing-for-increased-take-home-pay, if any, which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(10) Where any member who again becomes a member as an original plan member under section 13-371 of this subchapter elects pursuant to the provisions of section 13-315 of this subchapter while he or she is such a restored member to become an improved benefits plan member, the following shall apply:

(i) Subject to the provisions of subparagraph (iv) of this paragraph ten, the termination of his or her earlier retirement allowance, as provided for by such section,*5 13-371 shall not be affected by such election and shall continue in effect while such member remains in city-service.

(ii) The accumulated contributions of such member as an original plan member shall remain in the retirement allowance reserve fund and shall not be transferred to his or her credit in the annuity savings fund. On and after the effective date of his or her election to become an improved benefits plan member, he or she shall contribute to the pension fund as if he or she were a new entrant as an improved benefits plan member.

(iii) Upon the subsequent retirement of any such member who, as a restored member, is an improved benefits plan member by reason of such election, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and he or she shall receive a retirement allowance therefor

determined pursuant to the applicable provisions of paragraph five or paragraph six of this subdivision, which retirement allowance shall be payable in such form as he or she shall select under section 13-370 of this subchapter.

(iv) Upon becoming entitled to a retirement allowance as provided for by subparagraph (iii) of this paragraph, he or she shall receive, in addition to such retirement allowance, the retirement allowance, if any, which he or she was receiving or entitled to receive as an original plan retiree immediately prior to his or her last restoration.

b. (1) Subject to the provisions of paragraphs two and three of this subdivision b:

(i) where any beneficiary mentioned in subdivision a of this section, other than a beneficiary serving as fire commissioner or deputy fire commissioner, shall have earned at least five years of member credit for service in the uniformed force of the fire department after restoration to active service; and

(ii) where any beneficiary serving as fire commissioner or deputy fire commissioner shall have earned at least three years of member credit for service during restoration to membership pursuant to this section;

the total service credit to which any such restored member above referred to in this paragraph one was entitled at the time of his or her earlier retirement may, at his or her election, again be credited to him or her and upon his or her subsequent retirement he or she shall be credited in addition with all member service earned by him or her subsequent to his or her last restoration to membership.

(2) Such total service credit to which any such restored member referred to in paragraph one of this subdivision b was entitled at the time of his or her earlier retirement shall be credited as provided in such paragraph one only in the event that he or she returns to the pension fund with regular interest the actuarial equivalent of the amount of the retirement allowance he or she received; provided, however, that in the event that such amount is not so repaid, the actuarial equivalent thereof shall be deducted from his or her subsequent retirement allowance.

(3) In any case where any restored member who is eligible for and elects the crediting of his or her total service credit (to which he or she was entitled at the time of his or her earlier retirement) pursuant to the provisions of paragraphs one and two of this subdivision b became an improved benefits plan member by election made pursuant to the provisions of section 13-315 of this subchapter after his or her restoration to membership, he or she shall, upon his or her subsequent retirement, receive for such total service credit a retirement allowance determined pursuant to the provisions of section 13-359 of this subchapter, and he or she shall not receive any other retirement allowance or benefit for such total service credit.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-372.1 Modified Option 1 pension computation formula.

a. The board may by resolution direct that under such circumstances as are designated in such resolution:

(1) benefits under Option 1 payable to or on account of original plan members who (i) were Tier I members in city-service on July thirty-first, nineteen hundred eighty-three and (ii) retired or retire on or after August first, nineteen hundred eighty-three for service or superannuation or for ordinary or accident disability or on or after such August first, discontinued or discontinue service so as to become original plan discontinued members; and

(2) benefits under Option 1 which consist of or are derived from the pension component of a retirement allowance and which are payable to or on account of improved benefits plan members who (i) became such members prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this section and (ii) retired or retire on or after August first, nineteen hundred eighty-three for service or superannuation or ordinary or accident disability or on or after such August first, discontinued or discontinue service so as to become improved benefits plan discontinued members;

shall be determined under the modified Option 1 pension computation formula (as defined in subdivision thirty-two of section 13-313 of the code).

b. If the board makes a direction, pursuant to the provisions of subdivision a of this section, for use of such

formula, it may also direct by resolution:

(1) that any member who is subject to the modified Option 1 pension computation formula may elect, at such time and in accordance with such procedures as are prescribed in such resolution, that such formula shall not apply to such member and that the initial reserve determined for the purpose of providing the benefits payable by reason of his or her selection of Option 1 and the Option 1 retirement allowance of any such original plan member or pension component of the Option 1 retirement allowance of any such improved benefits plan member shall be determined on the basis of gender-neutral mortality tables and regular interest of seven per centum per annum, compounded annually; and

(2) that the benefit payable, upon the death of the member making such election, to his or her beneficiary or estate shall be the difference between such Option 1 initial reserve and the total of the payments of such retirement allowance or pension component received by or payable to such member for the period prior to his or her death; and

(3) that where any member subject to the modified Option 1 pension computation formula retired before the effective date of a board resolution adopted pursuant to subdivision a of this section, and where the first payment on account of the retirement allowance of any original plan discontinued member or improved benefits plan discontinued member subject to such formula was made before the effective date of such resolution, such retiree or discontinued member, within such period of time after such effective date and in accordance with such procedures as are prescribed in such resolution, may elect the method of Option 1 benefit determination set forth in the preceding paragraphs of this subdivision b.

c. In any case, where, pursuant to board resolution, a benefit is required to be determined under the modified Option 1 pension computation formula and the determination of such benefit is also required by a board resolution adopted pursuant to sub-item (3) of item (A) of subparagraph (ii) of paragraph (j) of subdivision eight of section 13-313 of the code to reflect different computations of separate portions of such benefit, the methods of computation under the modified Option 1 pension computation formula shall be appropriately adjusted so as to give effect to the provisions of such resolution adopted pursuant to such sub-item (3).

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-375 Exemption under original plan from tax and legal process.

The right of a person under the provisions of law governing the original plan to a retirement allowance or a dependent benefit, to the return of contributions, the retirement allowance or dependent benefit itself, any optional benefit, any other right accrued or accruing to any person under the provisions of this subchapter relating to such plan, and the right to any benefit under subchapter five or subchapter six of this chapter and any such benefit itself, and the moneys in the various funds provided for by this subchapter and in the funds provided for by such subchapter five and subchapter six, are hereby exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment, or any other process whatsoever, and shall be unassignable except as in any such subchapter specifically provided.

Notwithstanding the foregoing provisions of this section, a retired member shall have the right, at any time after the retired member's retirement, to execute and file a dues deduction authorization card or an authorization in writing with the New York fire department pension fund authorizing the deduction from the retired member's retirement allowance of membership dues or premiums for employee organization sponsored group insurance plans and the payment thereof to a retiree organization of which the retired member certifies he or she is then a member and which the retired member certifies is then affiliated with either an employee organization certified or recognized as the collective bargaining representative of all employees in the negotiating unit of which the retired member was a part prior to his or her retirement or an employee organization with which such employee organization is then affiliated. The comptroller shall thereafter deduct from the retirement allowance of such retired member the amount of membership dues required

to be paid by such retired member or premiums for employee organization sponsored group insurance plans and shall transmit the sum so deducted to said retiree organization. Such authorization shall continue in effect until revoked in writing by such retired member. The board shall determine the cost of administering deductions for premiums for employee organization sponsored group insurance plans and the cost incurred by the pension fund and the comptroller in administering the same shall be paid by the employee organization.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 2 [FIRE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-379.1 Excess benefit plan.

a. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(1) "Retirement benefits" shall mean benefits payable to a beneficiary by the pension fund or a variable supplements fund established pursuant to subchapter five or six of this chapter which are subject to the limitations imposed by section 415(b) of the Internal Revenue Code.

(2) "Beneficiary" shall mean a person who is receiving retirement benefits from the pension fund.

(3) "Excess benefit plan" shall mean the excess benefit plan established by this section for the sole purpose of paying benefits as permitted under section 415(m) of the Internal Revenue Code.

(4) "Eligible participant" shall mean a beneficiary who is entitled to replacement benefits from the excess benefit plan for a plan year in accordance with subdivisions d and e of this section.

(5) "Replacement benefits" shall mean the benefits payable by the excess benefit plan to an eligible participant as determined pursuant to subdivision e of this section.

(6) "Internal Revenue Code" shall mean the Federal Internal Revenue Code of 1986, as amended.

(7) "Plan year" shall mean the limitation year of the pension fund as provided in section six hundred twenty of the retirement and social security law.

b. There is hereby established an excess benefit plan, the sole purpose of which shall be to provide replacement benefits, as permitted by section 415(m) of the Internal Revenue Code, to beneficiaries whose annual retirement benefits have been reduced because such benefits exceed the limitations imposed by section 415(b) of the Internal Revenue Code. The excess benefit plan shall be administered by the board of trustees of the pension fund.

c. There is hereby established a fund to be known as the excess benefit fund which shall be maintained for the sole purpose of providing replacement benefits to eligible participants in the excess benefit plan established by this section, as permitted under section 415(m) of the Internal Revenue Code. Such fund shall consist of such employer contributions as shall be made thereto pursuant to subdivision f of this section. Such contributions to the excess benefit fund shall be held separate and apart from the assets held by the other funds of the pension fund, provided, however, that the assets of the excess benefit fund may be invested with the other pension fund assets, but such excess benefit fund assets shall be accounted for separately from the other pension fund assets.

d. All beneficiaries of the pension fund whose retirement benefits for a plan year are being reduced because of section 415(b) of the Internal Revenue Code shall be eligible participants in the excess benefit plan for that plan year. Participation in the excess benefit plan shall be determined for each plan year. No beneficiary of the pension fund shall be an eligible participant in the excess benefit plan for any plan year for which his or her retirement benefits are not reduced because of section 415(b) of the Internal Revenue Code.

e. (1) For each plan year in which a beneficiary is an eligible participant in the excess benefit plan, such eligible participant shall receive replacement benefits from the excess benefit plan equal to the difference between the full amount of the retirement benefits otherwise payable to the eligible participant for that plan year prior to any reduction because of section 415(b) of the Internal Revenue Code, and the retirement benefits payable to the eligible participant for that plan year as reduced because of section 415(b) of the Internal Revenue Code. No replacement benefits for any plan year shall be paid pursuant to this subdivision to any beneficiary who is not receiving retirement benefits from the pension fund for that plan year.

(2) Replacement benefits pursuant to this section shall be paid at the same time and in the same manner as the retirement benefits which are being replaced. At no time shall an eligible participant be permitted directly or indirectly to defer compensation under the excess benefit plan.

f. (1) The required employer contributions to the excess benefit fund for each plan year shall be an amount, as determined by the actuary, which is necessary to pay the total amount of replacement benefits that are payable pursuant to this section to eligible participants for that plan year.

(2) Such required employer contributions shall be paid into the excess benefit fund from an allocation of the employer contribution amounts paid pursuant to section 13-331 of this subchapter and other applicable provisions of law. Such allocation of employer contribution amounts shall be paid into the excess benefit fund at such times and in such amounts as determined by the actuary.

(3) The benefit liabilities of the excess benefit plan shall be funded on a plan year to plan year basis, provided, however, that any employer contributions to the excess benefit fund, including any investment earnings on such contributions, which are not used to pay replacement benefits for the current plan year shall be used to pay replacement benefits for future plan years.

g. The right of an eligible participant to receive replacement benefits pursuant to this section, and the replacement benefits received pursuant to this section, shall be exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment or any other process whatsoever, and shall be unassignable, except as otherwise specifically provided for benefits payable by the pension fund.

h. Nothing contained in this section shall be construed to mean or imply that variable supplements payments from the variable supplements fund established pursuant to subchapter five or six of this chapter constitute pension or retirement allowance payments, or that any such variable supplements fund constitutes a pension or retirement system or fund.

i. Nothing contained in this section shall be construed as affecting in any way the eligibility of any person for variable supplements pursuant to applicable provisions of subchapter five or six of this chapter.

**HISTORICAL NOTE**

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 3 NEW YORK FIRE DEPARTMENT LIFE INSURANCE FUND

§ 13-380 Life insurance fund.

a. The life insurance fund shall consist of all moneys in such fund on the first day of January, nineteen hundred forty.

b. The board of trustees of the New York fire department pension funds shall be the head of the New York fire department life insurance fund and shall have power and authority, from time to time, to establish and amend rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof in accordance with the provisions of this code and all laws applicable thereto. The chairperson and first vice-chairperson of such board, respectively, shall be the treasurer and assistant treasurer of the fund. They shall make a semi-annual report verified by the members of such board of the condition of such fund, containing a statement of the accumulated cash and securities in such fund and of all receipts and disbursements for or on account of such fund, together with the names of all beneficiaries and the amount paid to each, and file such report in the office of the comptroller.

c. (1) There shall be deducted from the monthly pay of each firefighter, officer and probationary firefighter of such department, and from the monthly pension of retired members of such department, a monthly sum not exceeding nine dollars, but not less than one dollar, which shall be received and deposited by such board to the credit of the New York fire department life insurance fund, in banks or trust companies to be selected by the board. Such board shall, subject to the provisions of paragraph two of this subdivision, have full power to invest such fund, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments

by savings banks; and subject to like terms, conditions, limitations and restrictions, such board shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such funds shall have been invested. The comptroller shall be the custodian of all investments purchased pursuant to the authority vested herein.

(2) The members of the board shall have the same investment powers and power to delegate such powers as are vested by this code and the retirement and social security law in the members of the board of trustees of the fire department pension fund, subchapter two.

d. (1) In case of the death of any active member or of any pensioned or retired member of such department, and so contributing, there shall be paid to the beneficiary or beneficiaries named in a written designation filed with the board of trustees, or if there be no such written designation, then to the surviving spouse, or if there be no surviving spouse, then to the legal representatives of such deceased active member or pensioned and retired member out of the monies so assessed, a sum as hereinafter in this paragraph one provided:

(i) subject to the provisions of subdivision g of this section, the sum of five thousand dollars, if such member was an active member at the time of his or her death; or

(ii) subject to the provisions of subdivision g of this section, the sum of two thousand dollars, if such member was a pensioned or retired member of such department at the time of his or her death.

(2) The assessment, in the discretion of the board, may be increased to not exceeding the sum of nine dollars in each month's pay, or each month's pension or pensioned and retired members of such department.

(3) None but active and retired members of the uniformed force and probationary firefighters shall be eligible to membership in this fund.

e. Such treasurer and assistant treasurer shall give bond for the faithful and honest performance of their respective duties under this subchapter in such sum as may be fixed and with sureties to be approved by the comptroller. Any such bond shall run to the New York fire department life insurance fund.

f. Any member of such fund who is on leave of absence from the fire department for military duty as defined in sections two hundred forty-two and two hundred forty-three of the military law of the state of New York shall continue to be a member of such fund during such military duty. Upon his or her restoration to his or her position in the fire department, there shall be deducted monthly from his or her salary and paid to the New York fire department life insurance fund, such sum, as will over a period of five years, equal the amount which he or she would have been required to contribute if he or she had been continuously employed in the fire department during such period of service, or any part of such amount remaining unpaid at the date of such restoration. In lieu of such deduction, however, such amount or any part thereof may be paid by such member at any time or from time to time while in such service, or, in a lump sum or by larger monthly deductions, after his or her restoration to his or her position in the fire department, or by any other method of deduction which will complete the payment of such amount in a period less than five years from the date of such restoration. In the event such member has failed or shall fail to complete full payment of such amount of contributions remaining due and unpaid within the time herein specified, there shall be deducted monthly from the salary of such member or by any other method of deduction and paid to the New York fire department life insurance fund within a period of eighteen months, such sum as will equal the amount which he or she would have been required to contribute if he or she had been continuously employed in the fire department during such period of service, or any part of such amount remaining unpaid, plus interest at the rate of two and one-half per centum per annum computed from either five years after the date of such restoration or January first, nineteen hundred fifty-three, whichever date is later. In case of death of any member during his or her absence in such service or at any time prior to the full payment by him or her of the contributions due and payable to such fund during his or her absence, his or her beneficiary or beneficiaries or his or her surviving spouse or legal representatives, as the case may be, shall receive the sum required to

be paid pursuant to subdivision d or g of this section in the case of the death of an active member, less the amount of such contributions remaining due and unpaid.

g. From time to time, but not longer than every three years, the board of trustees may request the actuary of the fire department pension fund to make a valuation of the assets and liabilities of the fund in order to determine whether (i) an increase in the sums payable under this section would be consistent with operations of the life insurance fund on a basis whereby the cost of sums payable is met from deductions made pursuant to the provisions of this section from the pay or pensions of members or retired members or assessments made pursuant to the provisions of this section against members or retired members, or (ii) a decrease in sums payable is required in order to maintain the life insurance fund on such basis. If the actuary certifies to the board of trustees that an increase in such sums payable is warranted or that a decrease in such sums payable is required, the board shall, by resolution, increase or decrease such sums payable in accordance with the certification of the actuary. Such resolution and the actuarial data upon which an increase or decrease of sums is justified shall be public information.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where, following the amendment in 1940 of Admin. Code § B19-8.0(d) to provide for payment of the pension of a member upon his death to the beneficiary named in a written designation filed with the trustees, the husband of the intervener had filed an instrument designating petitioner as the beneficiary of the sum payable on his death as a member of the Fire Department Life Insurance Fund, although when he retired the benefits from the Fund were then payable upon his death to his widow, an order granting petitioner's application for payment of the proceeds to her was affirmed, without opinion, notwithstanding the widow's contention that as beneficiary she had a vested right which could not be constitutionally divested by legislation.-Davis v. Walsh, 290 N.Y. 654, 49 N.E. 2d 618 [1943].

¶ 2. Where deceased had entered the Armed Forces in June 1943, and on June 19, 1944, the Commissioner of the Fire Department had appointed him as a fireman as of February 1, 1943, with assignment to the Military Service Division, subject to a medical examination by the Fire Department Medical Board and without compensation until such time as he was discharged from military service and began performance of his duties in the Fire Department, and deceased subsequently died while in the military service, his widow was entitled to a death benefit as provided for in Admin. Code § B19-8.0, since by the June 19, 1944 order the Commissioner had formally and legally appointed deceased and he thus became a member of the Fire Department and of the Fund. The Fire Department's rule requiring a medical examination was lawfully modified when the Commissioner appointed deceased subject to later physical examination, and the oath of office required by Civil Service Law § 30 and Admin. Code § 487a-5.0 could be taken on return from military service and before entering actively on the duties of the position.-Molinari v. Quayle, 300 N.Y. 55, 88 N.E. 2d 820 [1949].

¶ 3. A member of the Fire Department life insurance fund designated his father and mother "respectively" as the beneficiary or beneficiaries of his life insurance benefit. Held, upon the death of a father during the lifetime of a member, the designation lapsed, and the father's share, upon the death of the member, went to the member's widow as provided in subdivision D as if there was no written designation.-Cuchal v. Walsh, 185 Misc. 1008, 59 N.Y.S. 2d 435 [1945], aff'd 270 App. Div. 1001, 63 N.Y.S. 2d 828 [1946].

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 4 PAYMENTS TO EXEMPT OR VOLUNTEER ASSOCIATIONS AND FIREFIGHTERS HOME

§ 13-381 Payments to exempt or volunteer firefighters' associations; Queens and Richmond.

a. Each of the following exempt or veteran volunteer firefighters' associations of the boroughs of Queens and Richmond, to wit:

1. The exempt firemen's association of the town of Newtown,
2. The exempt firemen's association, fifth ward, borough of Queens,
3. The veteran volunteer firemen's association of the village of Jamaica,
4. The Woodhaven exempt volunteer firemen's association,
5. The exempt firemen's association of Flushing,
6. The veteran firemen's association of Long Island city,
7. The exempt firemen's association of Long Island city,
8. The exempt firemen's benevolent association of College Point,

9. The veteran firemen's association of the north shore fire department of Staten Island,

10. The veteran and exempt volunteer firemen's association of the Edgewater fire department of Staten Island,

11. The veteran volunteer firemen's association of Tottenville fire department,

12. The south shore veteran and exempt firemen's association, which on and after the first day of January, nineteen hundred fifty-two shall own, operate and maintain a clubhouse for the benefit of the members of such respective associations, shall be entitled to receive from and shall be paid by the comptroller of the city, in advance of and for each year beginning on the first day of January, the sum of forty dollars for each bona fide member of such association, plus five hundred dollars, or the sum of forty-five hundred dollars, whichever is less, upon presenting to the comptroller on or after the preceding first day of November in each year, a verified statement signed by the duly authorized officers of such association which shall set forth the number of living bona fide members thereof on such preceding first day of November and which shall state further whether or not the association owns, operates and maintains a clubhouse for the benefit of its members.

b. In determining the membership of such associations, only exempt or honorably discharged volunteer firefighters shall be considered as members.

c. The fire commissioner shall set aside annually, from the fines and proceeds of suits for penalties brought by him or her under the code which may be collected or paid in from the boroughs of Queens and Staten Island, and from the license fees payable to him or her under the code which may be collected or paid in from such boroughs, a sum of money sufficient to cover the payments required to be made to the exempt or veteran volunteer firefighters' associations as provided in subdivision a of this section.

d. Upon receipt from the comptroller of a notification as to the amounts required to be paid in any year in order to carry out the provisions of subdivision a of this section, the fire commissioner shall pay such amounts to the comptroller from the revenues set aside by such commissioner pursuant to the provisions of subdivision c of this section.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 5 [FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND]

§ 13-382 Definitions.

As used in this subchapter, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

1. "Variable supplements fund". The firefighters' variable supplements fund established by this subchapter.

1-a. "Minimum period". The minimum period of credited service which a member of pension fund subchapter one or pension fund subchapter two is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

1-b. "Firefighter". A member of either pension fund referred to in subdivision one-a of this section who, at the time of retirement for service by reason of fulfillment of the minimum period, was a firefighter and was not a fire officer as defined in subdivision five of section 13-392 of subchapter six of this chapter.

2. "Association". The uniformed firefighters' association of greater New York.

3. "Fiscal year". Any year commencing with the first day of July and ending with the thirtieth day of June next following.

4. "Board". The board of trustees provided for in section 13-384 of this subchapter.

5. "Pension fund beneficiary". (a) Subject to the provisions of paragraph (b) of this subdivision and except as provided in subdivision e of section 13-385 of this subchapter, any person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund subchapter one or subchapter two and as a firefighter or fire marshal (uniformed).

(b) With respect to benefits payable under this subchapter for calendar years succeeding December thirty-first, nineteen hundred ninety-two, the term "pension fund beneficiary" 6 *subject to the provisions of paragraph thirteen of subdivision a of section 13-385 of this subchapter) shall include each person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund subchapter one or pensions fund subchapter two and as a wiper (uniformed).

6. "Variable supplement". Any sum authorized to be paid to a pension fund beneficiary pursuant to the provisions of this subchapter.

7. "Pension fund subchapter two". The New York fire department pension fund subchapter two maintained pursuant to subchapter two of chapter three of this title.

8. "Pension fund subchapter one". The New York fire department pension fund maintained pursuant to subchapter one of chapter three of this title.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 5 [FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND]

§ 13-383 Firefighters' variable supplements fund.

a. There is hereby established a fund, to be known as the firefighters' variable supplements fund. Such fund shall consist of such monies as may be paid thereto from pension fund subchapter two, pursuant to the provisions of sections 13-335 and 13-335.1 of this chapter and all other monies received by such fund from any other source pursuant to law.

b. It is hereby declared by the legislature that the firefighters' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, shall be made in accordance with the provisions of this subchapter, to eligible pension fund beneficiaries as a supplement to benefits received by them under subchapter one or subchapter two of this chapter. The legislature hereby reserves to the state of New York and itself the right and power to amend, modify or repeal any or all of the provisions of this subchapter.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 5 [FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND]

§ 13-384 Board of trustees.

a. The variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law and to the prior approval of the board of estimate, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

b. Such board shall consist of:

1. The representative of the mayor who is a member of the board of trustees of pension fund subchapter two, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

2. The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized, pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of pension fund, subchapter two, may be authorized by the comptroller, in accordance with the provisions of such subdivision b, to act in the place of the comptroller as a member of the board.

2-a. The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in his

or her place at meetings of the board, in the event of such commissioner's absence therefrom.

3. Two members of the association designated by it, who shall each be entitled to cast one vote. The members so designated shall be officers of the association who are members of the board of trustees of pension fund subchapter two. Each such designee may at any time, by written authorization filed with the board, authorize any other officer of the association to act in his or her place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the by-laws or constitution of the association provide for the designation of a representative for such purpose.

c. Every act of the board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

d. The actuary appointed pursuant to section 13-121 of the code shall be the technical advisor of the board.

e. (1) As of June thirtieth of the nineteen hundred eighty-eight-nineteen hundred eighty-nine base fiscal year and as of June thirtieth of each succeeding base fiscal year, the actuary referred to in subdivision d of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding paragraphs of this subdivision e.

(2) The actuary shall base such annual valuation of liabilities only (A) upon the persons who, as of each such June thirtieth, are pension fund beneficiaries or persons eligible to receive supplemental benefits pursuant to subdivision e of section 13-385 of this subchapter and (B) upon the persons who, being firefighters or fire marshals (uniformed) in service as of such June thirtieth, may be actuarially expected to retire thereafter as firefighters or fire marshals (uniformed) for service with twenty or more years of service creditable toward the minimum period and (C) with respect to any such valuation for any base fiscal year beginning on or after July first, nineteen hundred ninety-two, also upon the persons who, being wipers (uniformed) in service as of June thirtieth of such base fiscal year beginning on or after such July first, may be actuarially expected to retire thereafter as wipers (uniformed) or firefighters or fire marshals (uniformed) for service with twenty or more years of service creditable toward the minumum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of pension fund beneficiaries and number of firefighters and fire marshals (uniformed) in service as of June thirtieth who will retire for service as firefighters or fire marshals (uniformed) with twenty or more years of service creditable toward the minimum period, and, with respect to the base fiscal years referred to in subparagraph (C) of paragraph two of this subdivision, the number of wipers (uniformed) in service as of the applicable June thirtieth who will retire for service as wipers (uniformed) or firefighters or fire marshals (uniformed) with twenty or more years of service creditable toward the minimum period, shall be adopted by the board on the recommendation of the actuary.

(4) For the purposes of such annual valuation of the assets of the variable supplements fund, such assets shall be valued at their fair market value as of each such June thirtieth.

f. The fire commissioner shall assign to the board such number of clerical and other assistants as may be necessary for the performance of its functions.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 5 [FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND]

§ 13-385 Payment of supplemental benefits.

a. (1) The variable supplements fund shall pay variable supplements to pension fund beneficiaries in accordance with the provisions of the succeeding paragraphs of this subdivision a.

(2) Subject to the provisions of paragraphs three, four, six and seven of this subdivision a, and the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, for the period from January first, nineteen hundred eighty-eight to December thirty-first, nineteen hundred eighty-nine, variable supplements shall be payable monthly for each month of eligibility therefor under the provisions of this subchapter and the benefit plan and payment resolution as in effect immediately prior to July first, nineteen hundred eighty-eight:

(i) to persons who, having retired on or before June thirtieth, nineteen hundred eighty-eight, were or are pension fund beneficiaries eligible for monthly payments with respect to such period from January first, nineteen hundred eighty-eight to December thirty-first, nineteen hundred eighty-nine, or a part thereof, under such applicable prior law, benefit plan and resolution; and

(ii) to persons who, as of June thirtieth, nineteen hundred eighty-eight, were in service as members of the fire department pension fund subchapter two and who retired during the period from July first, nineteen hundred eighty-eight to November thirtieth, nineteen hundred eighty-nine so as to become pension fund beneficiaries who would be entitled, if such prior law, plan and resolution were in effect for such period, to receive monthly payments thereunder

for such period from such July first or a part thereof.

(3) The number of full calendar months in the calendar year nineteen hundred eighty-eight for which each such pension fund beneficiary referred to in paragraph two of this subdivision a is entitled to receive monthly payments under such applicable prior law, plan and resolution in accordance with the provisions of such paragraph two shall be multiplied by one-twelfth of the sum of twenty-five hundred dollars.

(4) The total of the monthly amounts payable to each such pension fund beneficiary for full calendar months in such calendar year under the provisions of such paragraph two shall be subtracted from the applicable product computed pursuant to paragraph three of this subdivision a.

(5) Subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, as soon as practicable after the enactment of the chapter which added this paragraph five of this subdivision a, the variable supplements fund shall pay to each such eligible beneficiary referred to in paragraph two of this subdivision a, an amount equal to the remainder resulting from the subtraction prescribed by paragraph four of this subdivision, as applicable to such pension fund beneficiary.

(6) The number of full canendar months in the calendar year nineteen hundred eighty-nine for which each such pension fund beneficiary referred to in paragraph two of this subdivision a is entitled to receive monthly payments under such applicable prior law, plan and resolution in accordance with the provisions of such paragraph two shall be multiplied by one-twelfth of the sum of three thousand dollars.

(7) The total of the monthly amounts payable to each such pension fund beneficiary for full calendar months in such calendar year under the provisions of such paragraph two shall be subtracted from the applicable product computed pursuant to paragraph six of this subdivision a.

(8) Subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, on or about December fifteenth, nineteen hundred eighty-nine, the variable supplements fund shall pay to each such eligible beneficiary referred to in paragraph two of this subdivision a, an amount equal to the remainder resulting from the subtraction prescribed by paragraph seven of this subdivision, as applicable to such pension fund beneficiary.

(9) Nothing contained in the preceding paragraphs of this subdivision a shall be construed as entitling any pension fund beneficiary therein described to any payment for any month in which the retirement or death of such pension fund beneficiary occurred or occurs.

(10) For calendar years succeeding December thirty-first, nineteen hundred eighty-nine, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, and subject to the provisions of paragraph thirteen of this subdivision a, shall pay to each pension fund beneficiary who retired prior to July first, nineteen hundred eighty-eight, variable supplements payments as follows:

(i) for each calendar year following calendar year nineteen hundred eighty-nine, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| Calendar Year | Supplement |
|---|---|
| 1990 | $ 3,500 |
| 1991 | $ 4,000 |
| 1992 | $ 4,500 |
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |
| 1995 | $ 6,000 |

| | |
|---|---|
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(ii) for the calendar year of the beneficiary's death (for those pension fund beneficiaries who die on or after February first, nineteen hundred ninety), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph (i) of this paragraph ten, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(11) For calendar years succeeding December thirty-first, nineteen hundred eighty-nine, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, and subject to the provisions of paragraph thirteen of this subdivision a, shall pay to each person who, as of June thirtieth, nineteen hundred eighty-eight, was in service as a member of pension fund subchapter two and who retired for service thereafter so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) for the calendar year of retirement (for those beneficiaries who retire on or after January first, nineteen hundred ninety), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph (i) of paragraph ten of this subdivision a, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph (i) of such paragraph ten, which payment shall be made on or about December fifteenth of such year; and

(iii) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph (i) of such paragraph ten, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(iv) If the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(12) The variable supplements fund, subject to the provisions of subparagraphs (i) and (iii) of paragraph one of subdivision b of this section, and subject to the provisions of paragraph thirteen of this subdivision a, shall pay to each person who becomes a member of pension fund, subchapter two on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) (A) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs before January first, two thousand eight, an amount calculated by multiplying one-twelfth

times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(B) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs on or after January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twelve thousand dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) subject to the provisions of subparagraph (ii-a) of this paragraph, for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" shall mean calendar year of anniversary) | SUPPLEMENT |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based component and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, (i) the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(ii-a) for each calendar year which occurs both after the year of retirement and after December thirty-first, two thousand seven (but not including the calendar year of the beneficiary's death), notwithstanding any provision of subparagraph (ii) of this paragraph which otherwise would be applicable, a single annual payment of twelve thousand dollars, which payment (A) shall be in lieu of any other amount which otherwise would be payable under subparagraph (ii) of this paragraph for such calendar year and (B) shall be made on or about December fifteenth of such year; (iii) (A) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and prior to January first, two thousand eight, an amount calculated in accordance with the formula which would apply to the year of death under subparagraph (ii) of this paragraph twelve if such death had not occurred, but prorated on the basis of the number of full calendar months the beneficiary lived during the year of death prior to the month of his or her death;

(B) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and in the calendar year two thousand eight or thereafter, an amount calculated by multiplying one-twelfth of twelve thousand dollars by the number of months the beneficiary lived during the year of death prior to the month of his or her death;

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) of this paragraph shall be made only in respect to calendar months following the month of

retirement and preceding the month of death.

(13) (i) subject to the provisions of subparagraphs (ii), (iii), (iv) and (v) of this paragraph thirteen, and the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, for the period from January first, nineteen hundred ninety-three to December thirty-first, nineteen hundred ninety-three, variable supplements shall be payable monthly (from the wiper variable supplements assets account) for each month of eligibility therefor under the provisions of section 13-391.1 of this subchapter and the wipers (uniformed) benefit plan and payment resolution as in effect immediately prior to January first, nineteen hundred ninety-three:

(A) to persons who, having retired on or before January first, nineteen hundred ninety-three, were or are pension fund beneficiaries who both (1) qualify as such beneficiaries pursuant to paragraph (b) of subdivision five of section 13-382 of this subchapter and (2) are eligible for monthly payments with respect to such period from January first, nineteen hunded ninety-three to December thirty-first, nineteen hundred ninety-three, or a part thereof, under such applicable prior law, benefit plan and resolution; and

(B) to persons who, as of December thirty-first, nineteen hundred ninety-two, were in service as members of the fire department pension fund subchapter two and who retired during the period from January first, nineteen hundred ninety-three to November thirtieth, nineteen hundred ninety-three, so as to become pension fund beneficiaries who both (1) qualify as such beneficiaries pursuant to paragraph (b) of such subdivision five and (2) would be entitled, if such prior law, plan and resolution were in effect for such period, to receive monthly payments thereunder for such period from such January first or a part thereof.

(ii) The number of full calendar months in the calendar year nineteen hundred ninety-three for which each such pension fund beneficiary referred to in subparagraph (i) of this paragraph thirteen is entitled to receive monthly payments under such applicable prior law, plan and resolution in accordance with the provisions of such subparagraph (i) shall be multiplied by one-twelfth of the sum of five thousand dollars.

(iii) The total of the monthly amounts payable to each such pension fund beneficiary for full calendar months in such calendar year under the provisions of such subparagraph (i) shall be subtracted from the applicable product computed pursuant to subparagraph (ii) of this paragraph thirteen.

(iv) Subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, on or about December fifteenth, nineteen hundred ninety-three, the variable supplements fund shall pay to each such eligible beneficiary referred to in subparagraph (i) of this paragraph thirteen, an amount equal to the remainder resulting from the subtraction prescribed by subparagraph (iii) of this paragraph, as applicable to such pension fund beneficiary.

(v) Nothing contained in the preceding subparagraphs of this paragraph thirteen shall be construed as entitling any pension fund beneficiary eligible to receive any payment thereunder to any payment for any month in which the retirement or death of such pension fund beneficiary occured or occurs.

(vi) For calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each pension fund beneficiary who both (A) retired prior to January first, nineteen hundred ninety-four and (B) qualifies as such a beneficiary pursuant to paragraph (b) of subdivision five of section 13-382 of this subchapter, variable supplements payments in accordance with the terms and conditions set forth in subparagraphs (i) and (ii) of paragraph ten of this subdivision a, as applicable to such calendar years.

(vii) For calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, shall pay to each person who, as of June thirtieth, nineteen hundred eighty-eight, was in service as a member of pension fund subchapter two and who retired for service, on or after January first, nineteen hundred ninety-four so as to become a pension fund beneficiary who qualified as such a beneficiary pursuant to paragraph (b) of subdivision five of

section 13-382 of this subchapter, variable supplements payments in accordance with the terms and conditions set forth in subparagrpahs (i), (ii), (iii) and (iv) of paragraph eleven of this subdivision a, as applicable to such calendar years.

(viii) The variable supplements fund, subject to the provisions of subparagraphs (i) and (iii) of paragraph one of subdivision b of this section, shall pay to each person who becomes a member of pension fund, subchapter two on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a pension fund beneficiary who qualified as such a beneficiary pursuant to paragraph (b) of subdivision five of section 13-382 of this subchapter, variable supplements payments in accordance with the terms and conditions set forth in subparagraphs (i), (ii), (iii) and (iv) of paragraph twelve of this subdivision.

(ix) Nothing contained in the preceding subparagraphs of this paragraph shall be construed as providing for payment of variable supplements for any period prior to January first, nineteen hundred ninety-three. Nothing contained in the preceding paragraphs of this subdivision a or in subdivision five of section 13-382 of this subchapter shall be construed as entitling any person who retired or retires as a wiper (uniformed) to payment of variable supplements under this subdivision a for any period prior to January first, nineteen hundred ninety-three.

b. (1) (i) Subject to the provisions of subparagraphs (ii), (iii) and (iv) of this paragraph one, on or after July first, nineteen hundred eighty-eight, where a pension fund beneficiary is entitled to receive variable supplements payments pursuant to subdivision a of this section, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after July first, nineteen hundred eighty-eight (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any pension fund beneficiary referred to in paragraph two or paragraph ten or paragraph eleven of subdivision a of this section, or in any of subparagraphs (i), (vi) and (vii) of paragraph thirteen of such subdivision a, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any pension fund beneficiary referred to in paragraph twelve of subdivision a of this section, or in subparagraph (viii) of paragraph thirteen of such subdivision, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the earlier of (1) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs or (2) January first, two thousand eight.

(iv) In any case where the reduction of variable supplements payments to a pension fund beneficiary has ceased pursuant to subparagraph (ii) or subparagraph (iii) of this paragraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such subparagraph (ii) or subparagraph (iii).

(v) The payment of all variable supplements payable pursuant to subdivision a of this section are hereby made obligations of the city, and the city hereby guarantees that such supplements shall be paid to all eligible pension fund beneficiaries.

(2) The legislature hereby declares that the variable supplements authorized by this subchapter and the granting

and receipt thereof: (i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any pension fund beneficiary or with any member of pension fund subchapter one or pension fund subchapter two; and

(ii) shall not constitute a pension or retirement allowance or benefit under pension fund subchapter one or pension fund subchapter two or otherwise.

(3) Except as otherwise provided in sections 13-335 and 13-335.1 of this chapter and section 13-391.1 of this subchapter, nothing contained in this subchapter shall create or impose any obligation on the part of pension fund subchapter one or pension fund subchapter two or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this article or for any purpose thereof.

c. Pension fund beneficiaries shall be eligible to receive variable supplements pursuant to this subchapter, notwithstanding any other provision of law to the contrary.

d. The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this subchapter, except that they may be invested as authorized by section 13-387 of this chapter.

e. Notwithstanding any inconsistent provision of this subchapter or any benefit plan or payment resolution that was in effect prior to July first, nineteen hundred eighty-eight, any original plan discontinued member (as defined in subdivision sixteen of section 13-313 of this chapter) or improved benefits plan discontinued member (as defined in subdivision sixteen-d of such section) who discontinued service as a firefighter on or after July first, nineteen hundred sixty-nine, but prior to July nineteenth, nineteen hundred eighty-nine shall be deemed to be a pension fund beneficiary for purposes of eligibility to receive supplemental benefits under this section for any period of time for which such discontinued member receives payments of a deferred retirement allowance pursuant to section 13-360 or 13-361 of this chapter, and the date of retirement of such discontinued member, for purposes of applying the requirements of this section which determine the eligibility of a pension fund beneficiary to receive supplemental benefits under this section, shall be deemed to be the first day of the period for which such discontinued member first began receiving payments of a deferred retirement allowance pursuant to section 13-360 or 13-361 of this chapter.

f. For the purposes of paragraphs eleven and twelve of subdivision a of this section, the date of entry into the police pension fund, subchapter two shall be substituted for the date of entry into the fire department pension fund, subchapter two in the event that a pension fund beneficiary has transferred service credit from such police pension fund pursuant to the provisions of section 15-111 of this code.

g. In addition to the payments set forth in paragraphs eleven and twelve of subdivision a of this section, there shall be paid to each pension fund beneficiary, on or about the December fifteenth next succeeding his or her date of retirement, an amount equal to the variable supplements payments, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, that he or she would have received, had he or she retired on the date of his or her earliest eligibility for service retirement, in the period measured from (1) the later of (i) such earliest eligibility date and (ii) January 1, 2002, and (2) his or her date of retirement.

h. Notwithstanding any other provision of law to the contrary, where a pension fund beneficiary has transferred credit from the New York city employees' retirement system to the fire department pension fund, subchapter two for service rendered in the uniformed force of the New York city department of correction which immediately preceded service in the uniformed force of the fire department, such pension fund beneficiary shall, for the purposes of paragraphs eleven and twelve of subdivision a of this section, have the earliest date of such transferred uniformed correction service substituted for his or her date of entry into the fire department pension fund, subchapter two.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 5 [FIREFIGHTERS' VARIABLE SUPPLEMENTS FUND]

§ 13-391.1 Variable supplements for wipers for periods included in the period beginning on July first, nineteen hundred eighty-eight and ending on December thirty-first, nineteen hundred ninety-two.

a. As used in this section, the following terms shall mean and include:

1. "Wiper (uniformed)". A member of pension fund subchapter one or pension fund subchapter two holding the position of wiper (uniformed).

2. "Minimum period". The minimum period of credited service which a member of the fire department pension fund subchapter one or the fire department pension fund subchapter two is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

3. "Wiper pension fund beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund subchapter one or pension fund subchapter two and as a wiper (uniformed).

4. "Board of Trustees". The board of trustees of the firefighters' variable supplements fund established by section 13-384 of the code, as such section would be in the absence of the enactment of the act which added this section 13-391.1. Subdivisions c and d of such section, as it would be in the absence of such enactment, shall govern the

functioning of such board for the purposes of this section.

5. "Wiper variable supplements assets account". (a) Subject to the provisions of subdivision f of this section, a separate account of assets which (i) shall be available as a source of payment of variable supplements to wiper pension fund beneficiaries pursuant to the provisions of this section and subparagraph (i) of paragraph thirteen of subdivision a of section 13-385 of this subchapter, and (ii) shall consist of the assets hereinafter designated in this paragraph as included in such account and (iii) shall be separately maintained by the firefighters' variable supplements fund (within the assets of such fund), in the custody of the comptroller, for the benefit of wiper pension fund beneficiaries.

(b) As of July first, nineteen hundred eighty-eight, there shall be determined by the board of trustees, on the recommendation of the actuary, the portion of the assets of the firefighters variable supplements fund which is attributable to persons who are wipers (uniformed) as of such July first and persons who are wiper pension fund beneficiaries as of such July first.

(c) If the board of trustees is unable to make such determination by the required majority vote, such dispute shall be resolved, on the basis of the recommendation of the actuary, pursuant to the procedure set forth in subdivision d of section 13-384 of this subchapter, as such subdivision would be in the absence of the enactment of the act which added this section 13-391.1.

(d) Upon the making of the determination provided for in subparagraphs (b) and (c) of this paragraph five, the assets attributable to such wipers and wiper pension fund beneficiaries, as so determined, shall be credited by the firefighters' variable supplements fund to the wiper variable supplements assets account.

(e) (i) For each base fiscal year included in the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-two as to which the cumulative earnings factor, as calculated pursuant to section 13-335.2 of this chapter is a positive quantity, the amount of such factor shall be multiplied by a fraction, the numerator of which shall be the total contributions made to pension fund subchapter two with respect to such base fiscal year on behalf of all members of the uniformed force of the fire department who are wipers (uniformed), as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to such pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the fire department as of the last day of such base fiscal year.

(ii) On or before August thirty-first of the current fiscal year with respect to such base fiscal year, pension fund subchapter two shall pay an amount equal to the product of such multiplication into the wipers variable supplements assets account.

b. Subject to the provisions of subdivision f of this section, with respect to any period included in the period beginning on July first, nineteen hundred eighty-eight and ending on December thirty-first, nineteen hundred ninety-two, the entitlement of all wiper pension fund beneficiaries to variable supplements shall be determined pursuant to the provisions of this subchapter five (other than this section), as such provisions would be in the absence of the enactment of chapter five hundred eighty-three of the laws*7 nineteen hundred eighty-nine and as such provisions are modified by this section.

c. For the purpose of determining such entitlement, the provisions of such subchapter (other than this section) shall be interpreted and applied in the manner provided for in the succeeding subdivisions of this section. For such purpose, a wiper pension fund beneficiary shall be entitled to receive variable supplements only to the extent provided for in this section.

d. For each month during the period from July first, nineteen hundred eighty-eight to December thirty-first, nineteen hundred eighty-nine, the firefighters' variable supplements fund shall pay to each wiper pension fund beneficiary the monthly variable supplement for which such beneficiary would be eligible under the provisions of this subchapter and the benefit plan and payment resolution as in effect immediately prior to July first, nineteen hundred

eighty-eight.

e. Subject to the provisions of subdivision f of this section, for any period included in the period beginning on January first, nineteen hundred ninety and ending on December thirty-first, nineteen hundred ninety-two, the granting of variable supplements to wiper pension fund beneficiaries shall be governed by the provisions of sections 13-385 and 13-391 of this subchapter, as such provisions would be in the absence of the enactment of chapter five hundred eighty-three of the laws of nineteen hundred eighty-nine. For such purpose, the assets providing a basis for a grant of variable supplements to wiper pension fund beneficiaries shall be only the assets in the wipers variable supplements assets account. For any period included in the period beginning on January first, nineteen hundred ninety and ending on December thirty-first, nineteen hundred ninety-two, variable supplements may not be paid to a wiper pension fund beneficiary from any assets other than assets of the wiper variable supplements asset account.

f. On January first, nineteen hundred ninety-four, the wiper variable supplements asset account shall terminate and cease to exist and all assets in such account on such date, and all rights to any moneys due and owing to such account on such date, shall be transferred to and become the property of the variable supplements fund.

g. Nothing contained in the preceding subdivisions of this section shall be construed as preventing the application of the provisions of this section for the purposes of, and in the manner and to the extent prescribed by subparagraphs (i), (ii), (iii), (iv) and (v) of paragraph thirteen of subdivision a of section 13-385 of this subchapter.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 6 [FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-392 Definitions.

As used in this subchapter, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

1. "Variable supplements fund". The fire officers' variable supplements fund established by this subchapter.

1-a. "Minimum period". The minimum period of credited service which a member of pension fund, subchapter one or pension fund, subchapter two is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

1-b. "Firefighter". A member of either pension fund referred to in subdivision one-a of this section who, at the time of retirement for service by reason of fulfillment of the minimum period, was a firefighter and was not a fire officer.

2. "Association". The uniformed fire officers' association of the fire department, city of New York.

3. "Fiscal year". Any year commencing with the first day of July and ending with the thirtieth day of June next following.

4. "Board". The board of trustees provided for in section 13-394 of this chapter.

5. "Fire officer". (a) Any member of the uniformed force of the fire department holding the position of lieutenant or any position of higher rank in such force and (b) any pilot, marine engineer (uniformed) or assistant marine engineer (uniformed) who is a member of pension fund subchapter two or pension fund subchapter one and (c) any member of either such pension fund holding a position in the fire marshal occupational group above the rank of fire marshal (uniformed).

6. "Pension fund beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after October first, nineteen hundred sixty-eight, for service (with credit for twenty or more years of service creditable toward the minimum period) as a member of pension fund subchapter one or pension fund subchapter two and as a fire officer.

7. "Variable supplement". Any sum authorized to be paid to a pension fund beneficiary pursuant to the provisions of this subchapter.

8. "Pension fund subchapter two". The New York fire department pension fund subchapter two maintained pursuant to subchapter two of chapter three of this title.

9. "Pension fund subchapter one". The New York fire department pension fund maintained pursuant to subchapter one of chapter three of this title.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 6 [FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-393 Fire officers' variable supplements fund.

a. There is hereby established a fund, to be known as the fire officers' variable supplements fund. Such fund shall consist of such monies as may be paid thereto from pension fund subchapter two, pursuant to the provisions of sections 13-335, 13-335.2 and 13-335.3 of this chapter and all other monies received by such fund from any other source pursuant to law.

b. It is hereby declared by the legislature that the fire officers' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, shall be made in accordance with the provisions of this subchapter, to eligible pension fund beneficiaries as a supplement to benefits received by them under subchapter one or two of this chapter. The legislature hereby reserves to the state of New York and itself the right and power to amend, modify or repeal any or all of the provisions of this subchapter.

**HISTORICAL NOTE**

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 6 [FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-394 Board of trustees.

a. The variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law and to the prior approval of the board of estimate, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

b. Such board shall consist of:

1. The representative of the mayor who is a member of the board of trustees of pension fund subchapter two, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

2. The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized, pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of pension fund, subchapter two, may be authorized by the comptroller, in accordance with the provisions of such subdivision b, to act in the place of the comptroller as a member of the board.

2-a. The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the board, designate one or more members of his or her office to act in his

or her place at meetings of the board, in the event of such commissioner's absence therefrom.

3. Two members of the association designated by it, who shall each be entitled to cast one vote. The members so designated shall be officers of the association who are members of the board of trustees of pension fund subchapter two. Each such designee may at any time, by written authorization filed with the board, authorize any other officer of the association to act in his or her place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the by-laws or constitution of the association provide for the designation of a representative for such purpose.

c. Every act of the board shall be by resolution adopted only by a vote of at least three-fifths of the whole numbers of votes authorized to be cast by all of the members of such board.

d. The actuary appointed pursuant to section 13-121 of the code shall be the technical adviser of the board.

e. (1) As of June thirtieth of the nineteen hundred ninety-two-nineteen hundred ninety-three fiscal year and as of June thirtieth of each succeeding fiscal year, the actuary referred to in subdivision d of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding paragraphs of this subdivision e.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each such June thirtieth, are pension fund beneficiaries and (ii) upon the persons who, being in service as of such June thirtieth as members of pension fund subchapter two, may be actuarially expected to retire thereafter as fire officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of pension fund beneficiaries and number of members of such pension fund in service as of June thirtieth who will retire as fire officers for service with twenty or more years of service creditable toward the minimum period, shall be adopted by the board on the recommendation of the actuary.

(4) For the purposes of such annual valuation of the assets of the variable supplements fund, such assets shall be valued at their fair market value as of each such June thirtieth.

f. The fire commissioner shall assign to the board such number of clerical and other assistants as may be necessary for the performance of its functions.

Title 13 Retirement and Pensions

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 6 [FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-395 Payment of supplemental benefits.

a. (1) The variable supplements fund shall pay variable supplements to pension fund beneficiaries in accordance with the provisions of the succeeding paragraphs of this subdivision a.

(2) For calendar years succeeding December thirty-first, nineteen hundred ninety-two, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, and subject to the provisions of paragraph five of this subdivision a, shall pay to each pension fund beneficiary who retired prior to July first, nineteen hundred eighty-eight, and to each person who, having been in service as a member of pension fund subchapter two on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-three so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) for each calendar year following December thirty-first, nineteen hundred ninety-two, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about January thirty-first next succeeding such calendar year, as follows:

| Calendar Year | Supplement |
|---|---|
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |

| | |
|---|---|
| 1995 | $ 6,000 |
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(ii) for the calendar year of the beneficiary's death (for those pension fund beneficiaries who die on or after February first, nineteen hundred ninety-three), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph (i) of this paragraph two, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(3) For calendar years succeeding December thirty-first, nineteen hundred ninety-two, the variable supplements fund, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, and subject to the provisions of paragraph five of this subdivision a, shall pay to each person who, as of June thirtieth, nineteen hundred eighty-eight, was in service as a member of pension fund subchapter two and who retired for sevice on or after January first, nineteen hundred ninety-three so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph (i) of paragraph two of this subdivision a, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about January thirty-first next succeeding such year;

(ii) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph (i) of such paragraph two, which payment shall be made on or about January thirty-first next succeeding such calendar year;

(iii) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-three), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph (i) of such paragraph two, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) of this paragraph three shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(4) The variable supplements fund, subject to the provisions of subparagraphs (i) and (iii) of paragraph one of subdivision b of this section, shall pay to each person who becomes a member of pension fund subchapter two on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a pension fund beneficiary, variable supplements payments as follows:

(i) (A) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs before January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about January thirty-first next succeeding such year;

(B) subject to the provisions of subparagraph (iv) of this paragraph, for the calendar year of retirement, where such retirement occurs on or after January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twelve thousand dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about January thirty-first next succeeding such year;

(ii) subject to the provisions of subparagraph (ii-a) of this paragraph, for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about January thirty-first next succeeding such calendar year for which payment is due under this subparagraph, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) | SUPPLEMENT |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2,500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3,000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based component and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversry year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(ii-a) for each calendar year which occurs both after the year of retirement and after December thirty-first, two thousand seven (but not including the calendar year of the beneficiary's death), notwithstanding any provision of subparagraph (ii) of this paragraph which otherwise would be applicable, a single annual payment of twelve thousand dollars, which payment (A) shall be in lieu of any other amount which otherwise would be payable under subparagraph (ii) of this paragraph for such calendar year and (B) shall be made on or about January thirty-first next succeeding such calendar year;

(iii) (A) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and prior to January first, two thousand eight, an amount calculated in accordance with the formula which would apply to the year of death under subparagraph (ii) of this paragraph four if such death had not occurred, but prorated on the basis of the number of full calendar months the beneficiary lived during the year of death prior to the month of his or her death;

(B) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and in the calendar year two thousand eight or thereafter, an amount calculated by multiplying one-twelfth of twelve

thousand dollars by the number of months the beneficiary lived during the year of death prior to the month of his or her death; (iv) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs (i) and (iii) of this paragraph four shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(5) (i) In any case where a pension fund beneficiary who is entitled to receive a payment for the nineteen hundred ninety-three calendar year pursuant to paragraph two or paragraph three of this subdivision a has received, prior to the date of enactment of the act which added this paragraph five, a payment for the nineteen hundred ninety-three calendar year pursuant to the provisions of this section and the benefit plan and payment resolution as in effect prior to such date of enactment, such beneficiary shall be entitled to receive such payment provided for by such paragraph two or paragraph three for the calendar year nineteen hundred ninety-three, in addition to such payment received by such beneficiary for such calendar year prior to such date of enactment pursuant to such provisions of such section, benefit plan and resolution.

(ii) In any case where a pension fund beneficiary who is entitled to receive a payment for the nineteen hundred ninety-three calendar year pursuant to paragraph two or paragraph three of this subdivision a became entitled, prior to such date of enactment, to receive a payment for the nineteen hundred ninety-three calendar year pusuant to the provisions of this section and such benefit plan and resolution as in effect prior to such date of enactment, but the variable supplements fund did not, prior to such date of enactment, cause a check for such payment to be issued to such beneficiary, the variable supplements fund (A) shall pay to such beneficiary the amount to which he or she became entitled, prior to such date of enactment, to receive for the nineteen hundred ninety-three calendar year pursuant to the provisions of such section, benefit plan and resolution (which payment shall be made at the time prescribed by such benefit plan and resolution), and (B) in addition, shall pay to such beneficiary, on or about January thirty-first, nineteen hundred ninety-four, the sum to which he or she is entitled under the provisions of such paragraph two or paragraph three of this subdivision for the nineteen hundred ninety-three calendar year.

(iii) In any case where, if the act which added this paragraph five had not been enacted, a pension fund beneficiary who is entitled to receive a payment for the nineteen hundred ninety-three calendar year pursuant to paragraph three of this subdivision a would have become entitled, by reason of retirement on or after such date of enactment, to receive a payment for the nineteen hundred ninety-three calendar year pursuant to the provisions of this section and the benefit plan and payment resolution as in effect prior to such date of enactment, the variable supplements fund (A) shall pay to such beneficiary the amount which he or she would have become entitled to receive for the nineteen hundred ninety-three calendar year pursuant to the provisions of such section, benefit plan and resolution if such act had not been enacted (which payment shall be made at the time prescribed by such benefit plan and resolution) and (B) in addition, shall pay to such beneficiary, on or about January thirty-first, nineteen hundred ninety-four, the sum to which he or she is entitled under the provisions of such paragraph three of this subdivision for the nineteen hundred ninety-three calendar year.

b. (1) (i) Subject to the provisions of subparagraphs (ii), (iii) and (iv) of this paragraph one, on or after January first, nineteen hundred ninety-three, where a pension fund beneficiary is entitled to receive variable supplements payments pursuant to subdivision a of this section, and that beneficiary is also entitled to receive a supplemental retirement allowance or a cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-three (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any pension fund beneficiary referred to in paragraph two or paragraph three of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in

such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any pension fund beneficiary referred to in paragraph four of subdivision a of this section, whose variable supplements payments are being reduced pursuant to subparagraph (i) of this paragraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such subparagraph (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) the earlier of (1) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs or (2) January first, two thousand eight.

(iv) In any case where the reduction of variable supplements payments to a pension fund beneficiary has ceased pursuant to subparagraph (ii) or subparagraph (iii) of this paragraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such subparagraph (ii) or subparagraph (iii).

(v) The payments of all variable supplements payable pursuant to subdivision a of this section are hereby made obligations of the city, and the city hereby guarantees that such supplements shall be paid to all eligible pension fund beneficiaries; provided that nothing contained in the preceding provisions of this subparagraph (v) shall be construed as making such guarantee applicable to any payment which paragraph five of such subdivision directs to be made in an amount determined pursuant to the provisions of this section and the benefit plan and payment resolution as in effect prior to the date of enactment of the act which added this subparagraph (v).

(2) The legislature hereby declares that the variable supplements authorized by this subchapter and the granting and receipt thereof: (i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any pension fund beneficiary or with any member of pension fund subchapter one or pension fund subchapter two; and

(ii) shall not constitute a pension or retirement allowance or benefit under pension fund subchapter one or pension fund subchapter two or otherwise.

(3) Except as otherwise provided in sections 13-335, 13-335.2 and 13-335.3 of this chapter, nothing contained in this subchapter shall create or impose any obligation on the part of pension fund subchapter one or pension fund subchapter two or the funds or monies thereof, or authorize such funds or moneys to be appropriated or used for any payment under this subchapter or for any purpose thereof.

c. Pension fund beneficiaries shall be eligible to receive variable supplements pursuant to this subchapter, notwithstanding any other provision of law to the contrary.

d. The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this subchapter, except that they may be invested as authorized by section 13-397 of this chapter.

e. In addition to the payments set forth in paragraphs three and four of subdivision a of this section, there shall be paid to each pension fund beneficiary, on or about the January thirty-first of the calendar year next succeeding his or her date of retirement, an amount equal to the variable supplements payments, subject to the provisions of subparagraphs (i) and (ii) of paragraph one of subdivision b of this section, that he or she would have received, had he or she retired on the date of his or her earliest eligibility for service retirement, in the period measured from (1) the later of (i) such earliest eligibility date and (ii) January 1, 2002, and (2) his or her date of retirement.

CHAPTER 3 FIRE DEPARTMENT PENSION FUND AND RELATED FUNDS

SUBCHAPTER 6 [FIRE OFFICERS' VARIABLE SUPPLEMENTS FUND]

§ 13-397 Trustees of funds; investments.

a. The members of the board shall be the trustees of the monies received by or belonging to the variable supplements fund pursuant to this subchapter and, subject to the provisions of subdivision b of this section, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law, upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

b. The members of the board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the pension fund, subchapter two.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-501 Definitions.

The following words and phrases as used in this chapter, unless a different meaning is plainly required by the context, shall have the following meanings:

1. "Retirement system" shall mean the arrangement for the payment of retirement allowances, under the provisions of this chapter.

2. "Retirement association" shall mean the teachers' retirement association provided for in section 13-503 of this chapter.

3. "Retirement board" shall mean the teachers' retirement board provided for in section 13-507 of this chapter.

4. "Medical board" shall mean the board of physicians provided for in section 13-519 of this chapter.

5. "Board of education" shall mean the board of education of the city.

6. "Public school" shall mean any class, school, high school, normal school, training school, vocational school, truant school, parental school, and all schools or classes conducted under the order and superintendence of the board of education, and the schools or classes maintained by the department of social services or by the department of correctional services in pursuance of the rules established by the board of education, or by the commissioner of social services or by the commissioner of correction for schools or classes maintained by such commissioners, respectively.

7. (a) "Teacher" shall mean the superintendent of schools, the associate superintendents, the assistant

superintendents, the director and the assistant director of the divisions of reference and research, the director and the assistant directors of the bureau of compulsory education, school census and child welfare, attendance teachers and specially certificated attendance officers who are first employed by the New York city board of education on or after September first, nineteen hundred sixty-eight, attendance teachers and specially certificated attendance officers who were members of the New York city board of education retirement system and who, on or before December thirty-first, nineteen hundred sixty-nine, gave notice to said board of education retirement system of their intention to transfer to the New York city teachers' retirement system, the director of attendance, assistant director of attendance, chief attendance officer, division supervising attendance officers and district supervising attendance officers of the bureau of compulsory education, school census and child welfare, supervisors of school social workers who are first employed by the New York city board of education on or after September first, nineteen hundred sixty-nine or who were members of the New York city board of education retirement system and who on or before December thirty-first, nineteen hundred seventy, gave notice to the said board of education retirement system of their intention to transfer to the New York city teachers' retirement system, the members of the board of examiners, the directors and the assistant directors of special branches, the supervisor and assistant supervisors of lectures, all principals, vice-principals, assistants-to-principals, heads of departments, and all regular and special teachers of the public day schools of the city, and all employees of the board of education appointed to regular positions in the service of the public schools at annual salaries and whose appointments were made or shall be made from eligible lists prepared as the result of examinations held by the board of examiners or from hiring lists established by the chancellor of the board of education, as the case may be, and all employees employed by the board of education in the titles of teacher aide, educational assistant, educational associate, auxiliary trainer, bilingual professional assistant, family worker, family assistant, family associate, parent program assistant, who file an application for membership in the retirement association on a form supplied by the retirement board.

(b) (1) A member employed in a title added by the provisions of the amendment made by chapter nine hundred ninety-seven of the laws of nineteen hundred eighty-three may elect a service retirement benefit pursuant to the provisions of subparagraphs two and three of this paragraph.

(2) A member employed in a title specified in subparagraph one may elect a service retirement without having to satisfy the requirement set forth in paragraph one of subdivision b of section six hundred nine of the retirement and social security law that a minimum of five years of credited service be performed subsequent to joining a retirement system. Provided however, that nothing herein shall be deemed to affect any applicable condition of eligibility for a service retirement, including but not limited to, that such member has: (i) attained age sixty-two as required by section six hundred three of the retirement and social security law; (ii) rendered a minimum of ten years of credited service as required by subdivision a of section six hundred two of such law; and (iii) purchased credit for any creditable service rendered in such title or titles prior to joining the New York city teachers' retirement system by making payment to such system prior to the effective date of retirement an amount equal to three percent of the employee's salary earned during the period such prior service was rendered, with interest at the rate of five percent per annum compounded annually. Further provided, that nothing herein shall be construed to mean that any service shall be credited in a manner inconsistent with the provisions of subdivision a of section six hundred nine of the retirement and social security law, or, if applicable, the provisions of subdivision e of such section.

(3) In order to be effective, elections made pursuant to the provisions of this paragraph shall be in writing on a form supplied by the New York city teachers' retirement system and duly acknowledged and filed with such system on or before December thirty-first, nineteen hundred eighty-five.

8. "Present-teacher" shall mean any teacher employed in the public schools as a teacher on the first day of August, nineteen hundred seventeen, or on leave of absence on such date; and any teacher serving on a temporary license on the first day of August, nineteen hundred seventeen who, without separation from service, became a contributor to the teachers' retirement system; and any teacher-clerk or clerical assistant employed in the public day schools as a teacher-clerk or clerical assistant on the second day of June, nineteen hundred nineteen, and whose service as such teacher-clerk or clerical assistant was continuous from any time prior to the thirtieth day of June, nineteen

hundred seventeen to the second day of June, nineteen hundred nineteen; and any teacher-clerk or clerical assistant employed as such in the public day schools from any time prior to the thirtieth day of June, nineteen hundred seventeen and who, without separation from service, was appointed as a regular teacher on a per annum salary prior to the second day of June, nineteen hundred nineteen and who, prior to the fourth day of May, nineteen hundred thirty-five, was classified upon the records of the retirement board as "present-teacher"; and any teacher-clerk or clerical assistant who was employed as such in the public day schools on the second day of June, nineteen hundred nineteen and who, prior to the fourth day of May, nineteen hundred thirty-five, was classified upon the records of the retirement board as "present-teacher"; and any teacher who was employed in the public schools as a teacher on the first day of August, nineteen hundred seventeen who subsequently resigned and who was reinstated or reappointed within two years from the date of such resignation.

9. "New-entrant" shall mean any teacher appointed to serve in the public schools after the first day of August, nineteen hundred seventeen.

10. "Contributor" shall mean any member of the retirement association.

11. "Transferred-contributor" shall mean a contributor as defined in section 13-523 of this chapter.

12. "Beneficiary" shall mean any person in receipt of a pension, a pension-providing-for-increased-take-home-pay, an annuity, a retirement allowance, or other benefit as provided in this chapter.

13. "city-service" shall mean any service as an employee of the city or of any department, bureau, board or corporation thereof, or of the counties within the city.

14. "Prior-service" shall mean all city-service and all teaching or supervisory service in schools or colleges not maintained by the city computed to and including the sixteenth day of September, nineteen hundred seventeen, in the case of a present-teacher, and, in the case of a new-entrant, to the date of his or her appointment as a teacher, subject to the limitations and restrictions imposed by section 13-505 of this chapter.

15. "Total-service" shall mean all prior-service together with all subsequent service as a teacher or contributor as provided in this chapter.

15-a. "Member-service" shall mean credited city-service rendered while a contributor.

16. "Service retirement" shall mean retirement as defined in section 13-545, 13-547 or 13-549 of this chapter.

17. "Disability retirement" shall mean any of the following:

(a) retirement prior to July first, nineteen hundred seventy for disability, as defined in subdivision seventeen-a of this section;

(b) retirement for ordinary disability, as defined in subdivision seventeen-b of this section;

(c) retirement for accident disability, as defined in subdivision seventeen-c of this section.

17-a. "Retirement prior to July first, nineteen hundred seventy for disability" shall mean retirement of a contributor for disability pursuant to section 13-550 of this chapter in any case where the effective date of such retirement precedes July first, nineteen hundred seventy.

17-b. "Retirement for ordinary disability" shall mean retirement of a contributor for disability pursuant to section 13-550 of this chapter, in any case where such retirement becomes effective on or after July first, nineteen hundred seventy.

17-c. "Retirement for accident disability" shall mean retirement pursuant to section 13-551 of this chapter.

17-d. "Disability pensioner". Any retired person whose retirement constitutes disability retirement.

18. "Average salary" shall mean the average annual salary earnable by a contributor for the five years immediately preceding the date of death or retirement or, at the option of such contributor, it shall mean the average annual salary earnable during any ten consecutive years of his or her total service, said ten years to be selected by the contributor prior to the date of death or retirement; upon the death of a contributor before retirement and prior to the selection of the period of time upon which his or her average annual salary shall be based, for the purpose of determining the amount to be paid as special death and retirement benefits pursuant to section 13-543 of this chapter, "average salary" shall mean the average annual salary earnable by such contributor during the five years immediately preceding his or her death or the average annual salary earnable by him or her during any ten consecutive years of total service, whichever of the two averages is greater in amount.

18-a. (a) For the purposes of paragraphs (b), (c) and (d) of this subdivision, the term "improved salary base contributor" shall mean any contributor:

(i) who dies or retires on or after the date on which this subdivision takes effect; and

(ii) whose last three years of credited service after his or her contribution rate fixation date (as defined in subdivision forty-seven of this section) were rendered in the position held by him or her on the date of death or retirement.

(b) (1) Notwithstanding the provisions of subdivision eighteen of this section or any other provision of law to the contrary, "average salary" shall mean, in the case of any improved salary base contributor, the annual salary earnable by such contributor during the year immediately preceding the date of death or retirement or, at the option of such contributor, it shall mean the average annual salary earnable during any five consecutive years of his or her total service, such five years to be selected by such contributor prior to the date of death or retirement.

(2) In any case where an improved salary base contributor dies prior to the selection of the period of time upon which his or her average salary shall be based, and such death occurs prior to his or her retirement or under such circumstances that a benefit is payable pursuant to paragraph a or b of subdivision two of section 13-545 of this chapter, then for the purpose of determining the amount to be paid as special death and retirement benefits pursuant to section 13-543 of this chapter or for the purpose of determining the amount of the benefit to be paid pursuant to paragraph a or b of subdivision two of section 13-545 of this chapter, as the case may be, "average salary" shall mean the annual salary earnable by such contributor during the year immediately preceding his or her death or the average annual salary earnable by him or her during any five consecutive years of total service, whichever of such earnable amounts is greater.

(c) Notwithstanding any provision of paragraphs (a) and (b) of this subdivision to the contrary, in any case where a contributor would qualify as an improved salary base contributor, except for lack of the three years of service required by subparagraph (ii) of paragraph (a) of this subdivision, and such contributor, after his or her contribution rate fixation date (as defined in subdivision forty-seven of this section), rendered credited service for a period of three or more years during which period of three or more years he or she held no more than one position, such contributor shall be deemed, for the purposes of paragraphs (a), (b) and (d) of this subdivision, to be an improved salary base contributor; provided, however, that wherever the expression "annual salary earnable by such contributor during the year immediately preceding the date of death or retirement," or "annual salary earnable by such contributor during the year immediately preceding his or her death", appear in paragraph (b) of this subdivision, such expressions shall be instead deemed to mean, with respect to a contributor who qualifies as an improved salary base contributor under this paragraph (c), the annual salary earnable by such contributor during the last year of the most recent period of three or more years of credited service of such contributor (after his or her contribution rate fixation date, as defined in subdivision forty-seven of this section), during which period of three or more years he or she held no more than one position.

(d) (1) Subject to the provisions of subparagraph two of this paragraph, the provisions of paragraphs (a), (b) and (c) of this subdivision shall not apply to any contributor:

(i) who heretofore retired or shall hereafter retire or who heretofore became or shall hereafter become a withdrawn contributor or a discontinued member; and

(ii) who, after such retirement or withdrawal or after his or her discontinuance of service as a discontinued member, as the case may be, and after June thirtieth, nineteen hundred sixty-nine, re-entered or shall re-enter service (whether or not with service credit and status prior to withdrawal or discontinuance of service, as the case may be); and

(iii) who would otherwise qualify as an improved salary base contributor at the time of death or retirement occurring after such reentry; unless and until such contributor, after such re-entry, completes a period of not less than four years of member-service (as defined in subdivision fifteen-a of this section).

(2) In any case where any contributor retires as an improved salary base contributor or discontinues service as an improved salary base discontinued member (as defined in subdivision eighteen-b of this section) and thereafter retires without having the status of an improved salary base contributor, the average salary used in computing the retirement allowance of such contributor with respect to such subsequent retirement shall in no event be less than the average salary:

(i) which was used in computing the retirement allowance awarded to him or her with respect to his or her prior retirement as an improved salary base contributor, in the case of such a contributor who retired after a prior retirement; or

(ii) which would have been required to be used in computing the retirement allowance to which he or she would have been entitled as a discontinued member if he or she had not re-entered service, in the case of such a contributor who retires after previously discontinuing service as a discontinued member.

18-b (a) For the purposes of paragraph (b) and (c) of this subdivision, the term "improved salary base discontinued member" shall mean, except as otherwise provided in paragraph (c) of this subdivision, any discontinued member:

(i) who:

(a) became such a member by discontinuing service on or after the date on which this subdivision takes effect and after five years of credited service immediately preceding such termination, as required by section 13-556 of this chapter (relating to vested retirement rights); or

(b) became such a member after a prior discontinuance of service and re-entry into service, by discontinuing service on or after the date on which this subdivision takes effect and after completion of five years of credited service after such re-entry into service and immediately preceding such subsequent termination as required by such section 13-556; and

(ii) whose last three years of credited service prior to his or her most recent discontinuance were rendered in the position held by him or her on the date of such most recent discontinuance.

(b) (1) Notwithstanding the provisions of subdivision eighteen of this section or any other provision of law to the contrary, "average salary" shall mean, in the case of any improved salary base discontinued member, the annual salary earnable by such member during the year immediately preceding the date of his or her discontinuance of service, or, at the option of such member, it shall mean the average annual salary earnable during any five consecutive years of his or her total-service, said five years to be selected by such member prior to the date on which his or her retirement allowance becomes payable under the provisions of section 13-556 of this chapter (relating to vested retirement rights).

(c) Notwithstanding any provision of paragraphs (a) and (b) of this subdivision to the contrary, in any case where a discontinued member would qualify as an improved salary base discontinued member, except for lack of the three years of service required by subparagraph (ii) of paragraph (a) of this subdivision, and such member, after his or her contribution rate fixation date (as defined in subdivision forty-seven of this section) rendered credited service for a period of three or more years during which period of three or more years he or she held no more than one position, such member shall be deemed, for the purposes of paragraphs (a) and (b) of this subdivision to be an improved salary base discontinued member; provided, however, that the expression "annual salary earnable by such member during the year immediately preceding the date of his or her discontinuance of service" set forth in paragraph (b) of this subdivision shall be deemed to mean, with respect to a discontinued member who qualifies as an improved salary base discontinued member under this paragraph (c), the annual salary earnable by such member during the last year of the most recent period of three or more years of credited service of such member during which period of three or more years he or she held no more than one position.

19. (a) "Minimum contribution", except as otherwise provided in paragraphs (b) and (c) of this subdivision, shall mean (1) the amount realized by deducting from the salary of a contributor three per cent of his or her earnable salary; or (2) such per cent thereof, if less than three per cent, as shall be computed to be sufficient, with regular interest, when paid until age sixty-five, to provide for him or her on retirement at that age an annuity which, when added to his or her pension provided for in this title, will provide a retirement allowance of fifty percent of his or her average salary.

(b) The "minimum contribution" of a twenty-year pension plan contributor shall be that realized by deducting from his or her salary the proportion of his or her earnable salary represented by his or her effective contribution rate as a twenty-year pension plan contributor (as such rate is defined in subdivision forty-five of this section).

(c) The "minimum contribution" of an age-fifty-five-increased-benefits pension plan contributor shall be that realized by deducting from his or her salary the proportion of his or her earnable salary represented by his or her effective contribution rate as an age-fifty-five-increased-benefits pension plan contributor (as such rate is defined in subdivision forty-six of this section).

(d) The method of computation and the deductions herein prescribed shall be appropriately modified in the case of a contributor for whom a rate is otherwise fixed pursuant to section 13-546 of this chapter (relating to pensions-providing-for-increased-take-home-pay).

20. "Minimum accumulation" shall mean:

(a) Except as otherwise provided in paragraphs (b) and (c) of this subdivision, the amount created by the accumulation of the minimum contributions, together with the regular interest thereon; and

(b) Subject to the provisions of paragraphs (c) and (d) of this subdivision , such term, in the case of any twenty-year pension plan contributor, shall mean the remainder obtained:

(1) by computing the amount which the accumulated deductions of such contributor would equal, as of the date of his or her completion of twenty years of twenty-year pension plan qualifying service, if during the period from his or her contribution rate fixation date up to and including the date of completion of such twenty years of service, he or she contributed to the retirement system at his or her normal rate of contribution as such contributor; and

(2) by subtracting from such amount computed pursuant to subparagraph one of this paragraph (b), the amount of the reserve-for-increased-take-home-pay to which such contributor is entitled for such period of twenty years of service, as such reserve was as of the date of completion of such period of service.

(c) For the purposes of subparagraph one of paragraph (b) of this subdivision, the accumulated deductions referred to in such subparagraph shall be computed as they would be:

(i) in the absence of any outstanding loan; and

(ii) if they were not increased by any additional contributions, and

(iii) if they were not reduced by reason of any election of the contributor to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage; and

(iv) if, in the case of contributor who is a participant in the variable annuity program, he or she had never been a participant in such program during the period from his or her contribution rate fixation date up to and including the date of completion of twenty years of twentyyear pension plan qualifying service.

(d) (1) In the case of a twenty-year pension plan contributor who, prior to his or her contribution rate fixation date, had completed twenty or more years of twenty-year pension plan qualifying service, the minimum accumulation shall be an amount which, as of the initial date of retirement allowance payability with respect to such contributor, is the actuarial equivalent of an annuity equal to twelve and one-half per centum of his or her annual salary earnable on his or her contribution rate fixation date.

(2) In the case of a twenty-year pension plan contributor who, after having retired as a twenty-year pension plan contributor, re-enters city-service, the minimum accumulation of such contributor while a twenty-year pension plan contributor shall be his or her minimum accumulation at the time of his or her prior retirement as a twenty-year pension plan contributor.

(3) For the purpose of the computation prescribed by subparagraph one of paragraph b of this subdivision, in the case of a twenty-year pension plan contributor whose first twenty years of twenty-year pension plan qualifying service includes transferred service as described in subdivision forty-four of this section (relating to definitions), the accumulated deductions of such contributor attributable to all such transferred service rendered prior to July first, nineteen hundred seventy shall be the amount obtained by adding together:

(i) the amount which the accumulated deductions of such contributor resulting from his or her contributions as a member of the other retirement system would have equalled at the end of such period of transferred service rendered prior to July first, nineteen hundred seventy, (a) in the absence of a loan, (b) if not increased by additional contributions and (c) if not reduced by reason of such contributor's election as a member of such other retirement system to decrease his or her contributions in order to apply the amount of such reduction in payment of his or her contributions for old age and survivors insurance coverage; and

(ii) the reserve-for-increased-take-home-pay, if any, which accrued for such period of transferred service rendered prior to July first, nineteen hundred seventy in favor of such contributor as a member of such other retirement system.

(4) For the purpose of facilitating the computation of minimum accumulations, the retirement board may promulgate rules and regulations providing, with respect to any twenty-year pension plan contributor whose first twenty years of twenty-year pension plan qualifying service include any such service rendered after his or her contribution rate fixation date and prior to July first, nineteen hundred seventy, that for the purpose of computing that part of his or her minimum accumulation attributable to the period of his or her twenty-year pension plan qualifying service commencing on his or her contribution rate fixation date (or on the date of his or her last entry into city-service constituting member-service, if he or she is subject to the provisions of subparagraph three of this paragraph (c)) and ending on June thirtieth, nineteen hundred seventy or on the date on which he or she completes twenty years of twenty-year pension plan qualifying service, whichever is earlier;

(i) his or her earnable salary during such period shall be deemed to increase annually by a constant amount; and

(ii) if such entire period includes one or more constituent periods (hereinafter referred to as sub-periods) for

which he or she did not receive service credit, such part of his or her minimum accumulations shall be the amount obtained:

(a) by computing, in accordance with the method of computation mentioned in item one of this paragraph four, the amount which his or her accumulated deductions for such entire period would equal, as of the last day of such period, if throughout such period, including in such period all such sub-periods, he or she contributed continuously to the retirement system at his or her normal rate of contribution; and

(b) by multiplying such amount computed pursuant to subitem (a) of this item (ii) by a fraction, the numerator of which is the number of years of service for which he or she is credited with respect to such entire period, and the denominator of which is the number of years of service for which he or she would be credited with respect to such entire period if no such sub-periods were included therein.

20-a. "Minimum accumulation factor" shall mean an amount equal to an annuity which would be, as of the date on which the retirement allowance of a twenty-year pension plan contributor begins, the actuarial equivalent of his or her minimum accumulation.

21. "Accumulated deductions" shall mean the total of the amounts deducted from the salary of a contributor and standing to the credit of his or her individual account in the annuity savings fund, together with the regular interest and special interest, if any, thereon.

22. (a) Except as otherwise provided in paragraphs (b), (c), (d), (e) and (g) of this subdivision, "regular interest," in the cases of persons who are members on the thirtieth day of June, nineteen hundred forty-seven, shall mean interest at four per centum per annum, compounded annually, and in the case of persons becoming members thereafter, shall mean interest of three per centum per annum, compounded annually to and including the thirty-first day of December, nineteen hundred sixty-six, and interest at four per centum per annum, compounded annually from and after the first day of January, nineteen hundred sixty-seven, except that in the cases of persons becoming members after the thirtieth day of June, nineteen hundred forty-seven whose service as a teacher, contributor, or transferred-contributor is terminated by death, retirement, resignation, dismissal or otherwise prior to the thirtieth day of June, nineteen hundred sixty-seven, the term "regular interest" shall mean interest at three per centum per annum compounded annually, to and including the date of such termination.

(b) The provisions of paragraph (a) of this subdivision shall not apply to any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city or other public employer into the contingent reserve fund or pension reserve fund number two of the retirement system in nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city or any subsequent fiscal year thereof.

(c) (i) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of contributors) into the contingent reserve fund or pension reserve fund number two of the retirement system in the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred seventy-nine-nineteen hundred eighty fiscal year thereof, "regular interest" shall mean interest at five and one-half per centum per annum, compounded annually.

(ii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in subdivision a of section 13-527 of this chapter and subdivision d of such section with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city (or other obligors

required to pay public employer contributions on account of contributors) into the contingent reserve fund or pension reserve fund number two of the retirement system in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year thereof, "regular interest" shall mean interest at the rate of seven and one-half per centum per annum, compounded annually.

(iii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in subdivision a of section 13-527 of this chapter and subdivision d of such section with respect to the determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of contributors) into the contingent reserve fund or pension reserve fund number two of the retirement system in the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year thereof, "regular interest" shall mean interest at the rate of eight per centum per annum, compounded annually.

(iv) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in subdivision a of section 13-527 of this chapter and subdivision d of such section with respect to the determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of contributors) into the contingent reserve fund or pension reserve fund number two of the retirement system in the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year of the city and the nineteen hundred eighty-nine-nineteen hundred ninety fiscal year thereof, "regular interest" shall mean interest at the rate of eight and one-quarter per centum per annum, compounded annually.

(d) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in subdivision a of section 13-527 of this chapter and subdivision f of such section with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of contributors) into the contingent reserve fund or pension reserve fund number two of the retirement system in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year of the city and in any subsequent fiscal year thereof, "regular interest" shall mean interest at such rate per annum, compounded annually, as shall be prescribed by the legislature in section 13-638.2 of this title.

(e) On or after May first, nineteen hundred eighty-nine and no later than October thirty-first of such year, the retirement board shall submit to the governor, the temporary president and minority leader of the senate, the speaker of the assembly, the majority and minority leaders of the assembly, the state superintendent of insurance, the chairman of the permanent commission on public employee pension and retirement systems, the mayor of the city, and the members of the board of estimate and city council thereof, the written recommendations of the retirement board as to the rate of interest and effective period thereof which should be established by law as "regular interest" for the purpose specified in the paragraph (d) of this subdivision.

(f) (i) Subject to the provisions of paragraph four of subdivision (b) of section 13-527 of this chapter, nothing contained in paragraphs (b), (c), (d) and (e) of this subdivision shall be construed as prescribing, for the purpose of crediting interest to individual accounts in the annuity savings fund or to reserves-for-increased-take-home-pay or for any other purpose besides that specified in such paragraphs, a rate of regular interest other than as prescribed by the applicable provisions of paragraph (a) or paragraph (g) of this subdivision.

(ii) Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring the original unfunded accrued liability contribution, as defined in subdivision c of section 13-527 of this chapter, and the revised unfunded accrued liability contribution, as defined in subdivision d of such section, and the nineteen hundred eighty unfunded accrued liability adjustment, as defined in subdivision e of such section and the nineteen hundred eighty-two unfunded accrued liability adjustment, as defined in such subdivision, to be determined in any manner other than as prescribed by the applicable provisions of such subdivisions. Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring any balance sheet liability or balance sheet liability contribution computed pursuant to the provisions of subdivision f of section 13-527 of this chapter to be determined in any manner other than as prescribed in such subdivision.

(g) (i) Commencing on August first, nineteen hundred eighty-three, and continuing thereafter, "regular interest", in the cases of persons who were in member service on July thirty-first, nineteen hundred eighty-three or who thereafter entered or resumed or enter or resume member service, shall mean, subject to the provisions of subparagraphs (ii) to (ix), inclusive, of this paragraph (g) and subdivision b of section 13-578 of the code, interest at seven per centum per annum, compounded annually.

(ii) (A) (1) Subject to the provisions of sub-items (2) and (3) of this item (A), regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining any actuarial equivalent benefit (other than a variable annuity program benefit) payable to or on account of any seven percent member for actuarial equivalent benefit purposes.

(2) Where an actuarial equivalent benefit is required by retirement board resolution to be determined for any seven percent member for actuarial equivalent benefit purposes through the use of the modified Option 1 pension computation formula (as defined in subdivision fifty-nine of section 13-501 of the code), the actuarial interest assumptions used in making such determination shall be as prescribed in such formula.

(3) Where it is provided by retirement board resolution that a portion of an actuarial equivalent benefit shall be determined for any seven percent member for actuarial equivalent benefit purposes on the basis of gender-neutral mortality tables, and that the remainder of such benefit shall be determined on the basis of mortality tables which are not gender-neutral, regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining the portion of such benefit required by such resolution to be determined on the basis of gender-neutral mortality tables and such rate of regular interest shall not apply to the determination of the remainder of such benefit.

(B) Notwithstanding that the process of determining whether a member is a seven percent member for actuarial benefit purposes may include, for the purpose of ascertaining the highest applicable benefit, alternative hypothetical benefit calculations utilizing a rate of regular interest other than such rate of seven per centum, nothing contained in subparagraph (i) of this paragraph (g) or in item (A) of this subparagraph (ii) shall be construed as requiring that in the determination of any actuarial equivalent benefit (other than a variable annuity program benefit) payable to or on account of any member who is not a seven percent member for actuarial equivalent benefit purposes, any rate of interest be used as the actuarial interest assumption other than regular interest, compounded annually, as prescribed by the applicable provisions of paragraph (a) of this subdivision twenty-two.

(iii) The provisions of item (A) of subparagraph (ii) of this paragraph shall not apply to any person who prior to August first, nineteen hundred eighty-three, retired as a member of the retirement system for service or superannuation or for ordinary or accident disability and was such a retiree immediately prior to such August first, provided, however, that if any such retiree, on or after July thirty-first, nineteen hundred eighty-three, returned or returns to member service, the provisions of such item (A), from and after such date of restoration to member service, shall apply to such restored member, provided that nothing contained in the preceding provisions of this subparagraph shall be construed as applicable to any such restored member who was not or is not a seven percent member for actuarial equivalent benefit

purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(iv) (A) Subject to the provisions of item (B) of this subparagraph (iv), the provisions of item (A) of subparagraph (ii) of this paragraph shall not apply to any Tier I or Tier II member who (1) prior to August first, nineteen hundred eighty-three, discontinued service under such circumstances that such member became a discontinued member and acquired a vested right to receive a retirement allowance pursuant to section 13-556 of the code (and in the case of a Tier II member, article eleven of the retirement and social security law), and (2) was a discontinued member immediately prior to such August first.

(B) If such a discontinued member, on or after July thirty-first, nineteen hundred eighty-three, returned or returns to member service, the provisions of item (A) of subparagraph (ii) of this paragraph shall apply to him or her on and after the date of such resumption of member service, provided that nothing contained in this item (B) shall be construed as making the provisions of item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(v) (A) Subject to the provisions of item (B) of this subparagraph (v), the provisions of item (A) of subparagraph (ii) of this paragraph shall not apply to any Tier III member or Tier IV member who (1) prior to August first, nineteen hundred eighty-three, terminated employment under such circumstances that such member became a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit, and (2) had such status immediately prior to such August first.

(B) If a member who became entitled to a vested benefit, as described in item (A) of this subparagraph (v), returned or returns to member service on or after July thirty-first, nineteen hundred eighty-three, the provisions of item (A) of such subparagraph (ii) shall apply to him or her on and after the date of such resumption of member service, provided that nothing contained in the preceding provisions of this item (B) shall be construed as applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(vi) (A) Subject to the provisions of items (B) and (C) of this subparagraph (vi) and to the provisions of subparagraph (vii) of this paragraph (g), the selection of mode of benefit (as defined in subdivision sixty of this section) which, prior to the termination date of eligibility for option re-selection (as defined in subdivision sixty-four of this section), a person entitled to a recomputation of benefits (as defined in subdivision sixty-two of this section) made or makes in relation to the retirement allowance (or any component thereof) which became or becomes payable to him or her prior to such termination date of eligibility for option re-selection, shall be the selection of mode of benefit applicable to the recomputed retirement allowance (or any corresponding component thereof) to which he or she is entitled under the best-of-three-computations method or the gender-neutral computations method, and, any such person entitled to a recomputation of benefits pursuant to the best-of-three-computations method or the gender-neutral computations method shall not be entitled to make any change in such selection of mode of benefit.

(B) (1) Notwithstanding the provisions of item (A) of this subparagraph (vi), a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method shall be entitled, to the extent and in the manner prescribed in the succeeding sub-items of this item (B), to change the original selection of mode of benefit applicable to the retirement allowance (or component thereof) which became or becomes payable to him or her prior to the termination date of eligibility for option re-selection.

(2) In any case where the original selection of mode of benefit of a person entitled to a recomputation of benefits was a selection of a joint and survivor option (as defined in subdivision sixty-three of this section), no change from such original selection of a joint and survivor option may be made under this item (B) to any other selection of mode of benefit if the designated beneficiary selected with respect to such joint and survivor option by such person entitled to a recomputation is not alive at the time of filing of the form whereby such person entitled to a recomputation seeks to

change, pursuant to this item (B), his or her original selection of such joint and survivor option.

(3) Except for a change of selection of mode of benefit prohibited by sub-item two of this item (B), any original selection of mode of benefit may be changed pursuant to this item (B) to another selection of mode of benefit, provided all of the conditions set forth in sub-items four, six and eight of this item (B) are met.

(4) Subject to the provisions of sub-items seven and eight of this item (B), a person entitled to a recomputation of benefits may, pursuant to this item (B), effect any such permissible change of his or her original selection of mode of benefit by executing, acknowledging and filing with the retirement system, within the applicable period of time prescribed by sub-item six of this item, a new selection of mode of benefit. If the original selection of mode of benefit of the person filing such new selection was a selection of a joint and survivor option, such new selection shall be void and of no effect unless (a) the designated beneficiary named in such orignal*8 selection of a joint and survivor option signs and acknowledges, in the form for such new selection of mode of benefit, a consent to such changed selection of mode of benefit, and (b) such original designated beneficiary is alive on the date of filing of such new selection.

(5) The retirement system shall mail to each person entitled to a recomputation of benefits a letter showing amounts of benefits, as recomputed for such person under the best-of-three-computations method or the gender-neutral computations method, for modes of benefit other than joint and survivor options, together with a statement advising such person that upon request, the amounts of recomputed benefits under joint and survivor options will be provided.

(6) The period of time within which any such person entitled to a recomputation may file a new selection of mode of benefit as provided for in sub-items three and four of this item (B) shall be sixty days after the date of issuance set forth in such letter mailed to such person pursuant to sub-item five of this item; provided, however, that if, pursuant to the request of such person, a later letter setting forth benefits information in relation to new selection of mode of benefit is mailed to such person by the retirement system, such period of time for filing a new selection of mode of benefit shall be thirty days after the date of issuance set forth in such later letter.

(7) Upon the filing of a new selection of mode of benefit pursuant to this item (B) by any such person entitled to a recomputation, such new selection shall be irrevocable and such person shall not be entitled to file any other selection of mode of benefit with respect to such retirement allowance (or any component thereof) which became payable to him or her prior to the termination date of eligibility for option re-selection.

(8) No new selection of mode of benefit filed pursuant to the preceding sub-items of this item (B) shall be valid or effective as a change of mode of benefit or for any other purpose unless the person entitled to a recomputation of benefits who files such new selection is alive on the date (hereinafter referred to as the "validating date") three hundred sixty-five days after the date of filing of such new selection of mode of benefit. If such person filing such new selection of mode of benefit is alive on the validating date with respect to such new selection, such new selection shall become valid and effective on such validating date; provided, however, that from and after the effective date of retirement of such person making such valid and effective new selection of mode of benefit (if he or she retired for service or superannuation or for ordinary or accident disability) or from and after the date on which payability of the original benefits of such person began (if he or she was a discontinued member or Tier III member entitled to a vested benefit or Tier IV member entitled to a vested benefit), such new selection of mode of benefit shall supersede such original selection of mode of benefit and shall apply to and govern the amount of benefits payable to such person or to his or her designated beneficiary or estate.

(C) Nothing contained in item (A) or item (B) of this subparagraph (vi) shall be construed as preventing any change in selection of mode of benefit where such change is authorized by section 13-565 of the code.

(vii) In any case where a retiree or discontinued member or Tier III member entitled to a vested benefit or Tier IV member entitled to a vested benefit referred to in subparagraph (vi) of this paragraph returns to member service on or after July thirty-first, nineteen hundred eighty-three, nothing contained in such subparagraph shall be construed as

preventing such person so restored to member service, upon his or her subsequent retirement, from exercising any right, which any other applicable law grants to him or her under such circumstances, to make a selection of mode of benefit (as defined in subdivision sixty of this section).

(viii) Notwithstanding the provisions of subparagraph (i) of this paragraph (g) prescribing a rate of regular interest of seven per centum per annum, compounded annually, for specified members described in such subparagraph (i), the rate of regular interest which shall be applied to fix the rate of interest on any loan to any such member eligible to borrow shall be four per centum per annum, compounded annually.

(ix) The rate of regular interest applicable to determination of the rate of member contribution of any member whose last membership began prior to the date of enactment (as certified pursuant to section fortyone of the legislative law) of this paragraph shall be the rate of regular interest which was applicable, under the provisions of law in effect prior to such date of enactment, to the determination of the rate of member contribution of such member, and nothing contained in the preceding subparagraphs of this paragraph shall be construed as applicable to the determination of the rate of member contribution of any such member whose last membership so began or as changing or affecting the rate of member contribution of any such member.

23. "Pension" shall mean payments for life derived from appropriations made by the city and from any other sources of revenue of the pension reserve funds as provided in this chapter.

23-a. "Pension-providing-for-increased-take-home-pay" shall mean the annual allowance for life payable in monthly installments derived from contributions made to the contingent reserve fund pursuant to section 13-546 of this chapter.

24. "Annuity" shall mean payments for life derived from contributions made by a contributor as provided in this chapter.

25. "Retirement allowance" shall mean the pension, plus the annuity and the pension-providing-for-increased-take-home-pay, if any.

26. "Pension reserve" shall mean the present value computed on the basis of such mortality tables as shall be adopted by the retirement board, with regular interest, of the future payments to be made on account of any pension granted under the provisions of this chapter.

26-a. "Reserve-for-increased-take-home-pay" shall mean an amount which, at the time of death or retirement, shall be equal to the sum obtained by adding together the amounts specified in the succeeding paragraphs of this subdivision, as follows:

(i) A sum representing two and one-half per centum of the contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to subdivisions b and f of section 13-546 of this chapter, towards pensions-providing-for-increased-take-home-pay, plus regular interest and additional interest, if any, on such sum;

(ii) A sum representing the product obtained by multiplying the percentage selected by the board of estimate pursuant to the provisions of paragraph four of subdivision c of section 13-546 of this chapter, by the salary of the contributor during the period with respect to which the city contributes, pursuant to subdivisions d and f of such section 13-546, towards pensions-providing-for-increased-take-home-pay, plus regular interest and additional interest, if any, on such sum;

(iii) A sum representing five per centum of the contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to paragraph four of subdivision g or paragraph four of subdivision i of such section 13-546 and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus

regular interest and additional interest, if any, on such sum;

(iv) In the case of contributors employed by the board of education, a sum representing three per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to subparagraph a of paragraph one of subdivision j of such section 13-546 and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum;

(v) In the case of contributors employed by the board of education, a sum representing eight per centum of each contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to subparagraph (c) of paragraph one of subdivision j of such section 13-546 and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum;

(vi) In the case of contributors employed by the board of education, a sum representing eight per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to subdivisions k and f of such section 13-546 of this chapter, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum; provided, however, that if the reduction in contributions of such contributors with respect to the months of July and August, nineteen hundred seventy is governed by paragraph one of subdivision m of section 13-546 of this chapter, the reserve provided for in this paragraph (vi) shall not inlcude any portion of the salary of each such contributor paid to him or her with respect to such months;

(vii) In the case of contributors employed by the city university of New York, a sum representing three per centum of the salary of each such contributor paid to him or her during the period with respect to which, if an election by the mayor requires such contributions, the city contributes, pursuant to subparagraph a of paragraph one of subdivision l of such section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum;

(viii) In the case of contributors employed by the city university of New York, a sum representing eight per centum of each contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to subparagraph (c) of paragraph one of subdivision l of such section 13-546 of this chapter and subdivision f of such section, towards pensions providing-for-increased-take-home-pay, plus regular interest on such sum, if the mayor elects a reduction in the contributions of such contributors pursuant to such paragraph (c); provided, however, that if the reduction in contributions of such contributors with respect to the months of July and August, nineteen hundred seventy is governed by paragraph one of subdivision n of section 13-546 of this chapter, the reserve provided for in this paragraph (viii) shall not include any portion of the salary of each such contributor paid to him or her with respect to such months;

(ix) (a) In the case of contributors employed by the board of education, a sum representing five per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to paragraph one of subdivision m of section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum, if a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is enacted into law, or

(b) In the case of contributors employed by the board of education, a sum representing eight per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to paragraph two of subdivision m of section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum, in the event a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is not enacted into law;

(x) (a) In the case of contributors employed by the board of higher education, a sum representing five per centum of each contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to paragraph one of subdivision n of section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum, if a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is enacted into law, or

(b) In the case of contributors employed by the board of higher education, a sum representing eight per centum of each contributor's salary paid to him or her during the period with respect to which the city contributes, pursuant to paragraph two of subdivision n of section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum, in the event a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is not enacted into law;

(xi) In the case of contributors employed by the board of education or board of higher education, a sum representing five per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to paragraph one of subdivision o of section 13-546 of this chapter and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum.

(xii) In the event that the mayor makes the election authorized by paragraph one of subdivision p of section 13-546 of this chapter, then in the case of contributors employed by the board of education or board of higher education, a sum representing five per centum of the salary of each such contributor paid to him or her during the period with respect to which the city contributes, pursuant to paragraph one of such subdivision p and subdivision f of such section, towards pensions-providing-for-increased-take-home-pay, plus regular interest on such sum.

(xiii) In any case where it is prescribed in section 13-535 of this chapter that in the determination of the reserve-for-increased-take-home-pay of any contributor with respect to a specified period heretofore or hereafter occurring, additional interest shall be included with respect to such period, the definition of reserve-for-increased-take-home-pay set forth in this subdivision, to the extent that it does not specifically provide for inclusion of such additional interest, shall be deemed to provide for the inclusion of such additional interest, in the amount prescribed for such period, in such contributor's reserve-for-increased-take-home-pay.

27. "Annuity reserve" shall mean the present value computed on the basis of such mortality tables as shall be adopted by the retirement board, with regular interest, of the future payments to be made on account of any annuity or benefit granted and based on the accumulated deductions of the contributor.

28. "Expense fund" shall mean the fund provided for in section 13-526 of this chapter.

29. "Contingent reserve fund" shall mean the fund provided for in section 13-527 of this chapter.

30. "Pension reserve fund number one" shall mean the fund provided for in section 13-530 of this chapter.

31. "Pension reserve fund number two" shall mean the fund provided for in section 13-530 of this chapter.

32. "Annuity savings fund" shall mean the fund provided for in section 13-521 of this chapter.

33. "Annuity reserve fund" shall mean the fund provided for in section 13-522 of this chapter.

34. "Fiscal year" shall mean the year commencing with the first day of July and ending with the thirtieth day of June next following.

35. "Special interest". A distribution to the annuity savings fund, in addition to regular interest, which distribution (a) for each of the periods as to which the provisions of section 13-535 of this chapter or section 13-638.2 of this title grant special interest, consists of the amount prescribed by such provisions for such period and (b) for each such period is credited in such applicable amount to the accounts in the annuity savings fund of members who are eligible under such provisions for crediting of such amount for such period.

36. "Additional interest". A distribution to the reserve-for-increased-take-home-pay, in addition to regular interest, which distribution (a) for each of the periods as to which the provisions of section 13-535 of this chapter or section 13-638.2 of this title grant additional interest, consists of the amount prescribed by such provisions for such period and (b) for each such period is to be included in such applicable amount in the reserve-for-increased-take-home-pay of each contributor who is eligible under such provisions for inclusion of such amount for such period.

37. "Twenty-year pension plan" shall mean the rights, benefits and privileges granted by the provisions of section 13-547 of this chapter (relating to the twenty-year pension plan).

38. "Twenty-year-pension plan contributor" shall mean a contributor who has elected the benefits of section 13-547 of this chapter (relating to the twenty-year pension plan) pursuant to its terms and to whom the provisions of such section are applicable.

39. "Applicant for retirement with a deferred payability date" shall mean a twenty year pension plan contributor who, pursuant to section 13-547 of this chapter (relating to the twenty-year pension plan), has filed an application for retirement designating an effective date of retirement occurring before his or her initial date of retirement allowance payability (as defined in subdivision forty-three of this section).

40. "Twenty-year pension plan retiree having a deferred payability date" shall mean any twenty-year pension plan contributor who has retired pursuant to section 13-547 of this chapter (relating to the twenty-year pension plan) and whose effective date of retirement precedes the date on which his or her retirement allowance begins.

41. "Age-fifty-five-increased-benefits pension plan" shall mean the rights, benefits and privileges granted by the provisions of section 13-548 of this chapter (relating to the age-fifty-five-increased-benefits pension plan), by paragraph f of subdivision one of section 13-545 (relating to eligibility of age-fifty-five-increased-benefits pension plan contributors for service retirement), and by paragraph e of subdivision one of section 13-554 of this chapter (relating to service retirement pensions payable to age-fifty-five-increased-benefits pension plan contributors).

42. "Age-fifty-five-increased-benefits-pension plan contributor" shall mean a contributor (a) who is entitled to retire for service upon attaining age fifty-five, as provided for in paragraph f of subdivision one of section 13-545 of this chapter and (b) who, upon retirement for service, is entitled to a pension as provided for in paragraph e of subdivision one of section 13-554 of this chapter (relating to service retirement pensions payable to age-fifty-five-increased-benefits pension plan contributors).

43. "Initial date of retirement allowance payability" shall mean the earliest date as of which the retirement allowance of a twenty-year pension plan contributor may be caused by him or her to commence under the provisions of section 13-547 of this chapter (relating to the twenty-year pension plan).

44. "Twenty-year-pension plan qualifying service" shall mean (a) credited city-service and (b) any service credited to a twenty-year pension plan contributor by reason of transfer to the New York city teachers' retirement system pursuant to section five hundred twenty-two of the education law or section forty-three of the retirement and social security law or other applicable law authorizing a transfer of service credit to such retirement system from another publicly supported retirement system.

45. "Effective contribution rate as a twenty-year pension plan contributor" shall mean the normal rate of

contribution fixed for a twenty-year pension plan contributor pursuant to the applicable provisions of section 13-547 of this chapter (relating to the twenty-year pension plan) or section 13-549 of this chapter (relating to deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans); provided, however, that in any case where such a contributor contributes at a rate of fifteen per centum or more but less than such normal rate pursuant to paragraph (b) of subdivision seven of section 13-521 of this chapter (relating to contributions of twenty-year pension plan contributors and age-fifty-five-increased-benefits pension plan contributors), the term herein defined shall mean his or her rate of contribution pursuant to such paragraph (b).

46. "Effective contribution rate as an age-fifty-five-increased-benefits pension plan contributor" shall mean the normal rate of contribution fixed for an age fifty-five-increased-benefits pension plan contributor pursuant to the applicable provisions of section 13-548 of this chapter (relating to the age-fifty-five-increased-benefits pension plan) or section 13-549 of this chapter (relating to deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans); provided, however, that in any case where such a contributor contributes at a rate of fifteen per centum or more but less than such normal rate pursuant to paragraph (b) of subdivision seven of section 13-521 of this chapter (relating to contributions of twenty-year pension plan contributors and age fifty-five-increased-benefits pension plan contributors), the term herein defined shall mean his or her rate of contribution pursuant to such paragraph (b).

47. "Contribution rate fixation date" shall have the following meanings:

(a) Except as otherwise provided in paragraphs (b) and (c) of this subdivision, such term shall mean the date on which a contributor first became a contributor, whether or not he or she subsequently became a withdrawn contributor, or discontinued member and thereafter re-entered city-service.

(b) In any case where a withdrawn contributor heretofore re-entered or hereafter re-enter service as a contributor without being entitled to service credit and status prior to withdrawal as provided for in section 13-506 of this chapter (relating to withdrawn contributors who re-enter service), such term shall mean the date upon which such contributor last re-entered member-service without such entitlement, after being a withdrawn contributor.

(c) In any case where a contributor became a discontinued member pursuant to section 13-556 of this chapter (relating to vested retirement rights) and after becoming such a member, re-entered service as a contributor without being entitled to service credit and status prior to withdrawal as provided for in such section, such term shall mean the date upon which such contributor, after becoming a discontinued member, last re-entered member-service without such entitlement.

(d) In any case where a contributor has or acquires credit for service by reason of transfer of service credit pursuant to section five hundred twenty-two of the education law, section forty-three of the retirement and social security law or any other law authorizing a transfer of service credit to this retirement system from another publicly supported retirement system, such transferred service credit shall be deemed to be member-service for the purposes of this subdivision.

48. "Twenty-five-year-age-fifty-five-one-per-centum contributor" shall mean a contributor who, by reason of elections made pursuant to paragraph e of subdivision one of section 13-545 of this chapter (relating to the age fifty-five, twenty-five year pension plan) and paragraph d of subdivision one of section 13-554 of this chapter (relating to election of a pension of one per centum of average salary for each year of credited service) is entitled upon retirement to receive the benefits provided for by such paragraphs.

49. "Supplementary interests". An annual allowance, in addition to regular interest, of interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter (excluding, however, the expense fund and pension reserve fund number two and the amount in the annuity savings fund and the amount in the contingent reserve fund to the extent that the amount in such latter fund consists of

reserves-for-increased-take-home-pay), which allowance, (a) for each of the periods as to which the provisions of section 13-535 of this chapter or section 13-638.2 of this title grant supplementary interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to such funds (with the exclusions above mentioned in this subdivision) at the time, in the manner and to the extent provided for in the provisions of such section 13-535 or section 13-638.2.

50. "Actuarial equivalent benefit." Any benefit which by law is required to be an actuarial equivalent or by law is required to be determined on the basis of an actuarial equivalent.

51. "Seven percent member for actuarial equivalent benefit purposes." (a) A member who meets all of the following conditions:

(i) subparagraph (i) of paragraph (g) of subdivision twenty-two of this section (relating to the definition of members as to whom regular interest at seven per centum per annum, compounded annually, applies) applies to such member; and

(ii) an actuarial equivalent benefit (other than a variable annuity program benefit) has become payable to or on account of such member; and

(iii) it is provided by a resolution adopted by the retirement board (A) that a mortality table which does not differentiate on the basis of sex shall be used to calculate such actuarial equivalent benefit or a portion of such benefit or (B) that the modified Option 1 pension computation formula (as defined in subdivision fifty-nine of this section) shall be used to calculate such actuarial equivalent benefit.

(b) Except in cases to which the modified Option 1 pension computation formula applies pursuant to a resolution adopted by the retirement board, nothing contained in subparagraph (iii) of paragraph (a) of this subdivision shall be construed as referring to or including any calculation of an actuarial equivalent benefit (or a portion of such benefit) payable to any person where such calculation is required by retirement board resolution to be made through the use of a sex-differentiated mortality table.

52. "Tier I member." A member whose benefits (other than a supplemental retirement allowance) are prescribed by this chapter and who is not subject to the provisions of article eleven, article fourteen or article fifteen of the retirement and social security law.

53. "Tier II member." A member who is subject to the provisions of article eleven of the retirement and social security law.

54. "Tier III member." A member who is subject to the provisions of article fourteen of the retirement and social security law.

55. "Tier IV member." A member who is subject to article fifteen of the retirement and social security law.

56. "Tier III member entitled to a vested benefit." A Tier III member who is entitled to a deferred vested benefit under the provisions of section five hundred sixteen of the retirement and social security law.

57. "Tier IV member entitled to a vested benefit." A Tier IV member who is entitled to a deferred vested benefit under the provisions of section six hundred twelve of the retirement and social security law.

58. "Variable annuity program benefit." Any benefit under the variable annuity program which is payable from the variable annuity reserve fund or the variable pension reserve fund.

59. "Modified Option 1 pension computation formula." (a) The method of computing the pension component of an Option 1 retirement allowance payable to a Tier I member and the amount of the Option 1 benefit payable to the

beneficiary or estate of the member who selected or selects (or is deemed to have selected) Option 1 as to such pension component, which method of computation is as prescribed by the succeeding paragraphs of this subdivision.

(b) The initial reserve for such pension component shall be computed through use of mortality tables which do not differentiate on the basis of sex (hereinafter referred to as "gender-neutral mortality tables") and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually.

(c) Solely for the purpose of use as the minuend from which the payments of such pension component to such member are subtracted in order to determine the amount of the Option 1 benefit payable, upon such member's death, to such member's beneficiary or estate by reason of such Option 1 selection in relation to such pension component, the present value of such member's maximum pension, as it was at the time of such member's retirement, shall be deemed to be the greatest of:

(i) such present value determined on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(ii) such present value determined on the basis of the female mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision fifty-nine; or

(iii) such present value determined on the basis of the male mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment of this subdivision.

(d) The pension component payable to such member shall be computed on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually, so that:

(i) the present value, as it was at the time of such member's retirement, of such component; plus

(ii) the present value, as it was at the time of such member's retirement, of the amount payable to such member's Option 1 beneficiary or estate upon the death of the member as provided for by the applicable provisions of paragraph (e) of this subdivision; shall be equal to the Option 1 initial reserve determined for such pension component with respect to such member pursuant to the provisions of paragraph (b) of this subdivision.

(e) (i) Where such member dies before he or she has received payments on account of such pension component equal to the present value of such member's maximum pension as computed pursuant to paragraph (c) of this subdivision, the Option 1 benefit payable to the beneficiary or estate of such deceased member, by reason of such Option 1 selection in relation to such pension component, shall be the remainder obtained by subtracting from such present value determined pursuant to such paragraph (c) in relation to such pension component, the total of such Option 1 payments on account of such pension component received by or payable to such member for the period prior to his or her death.

(ii) In any case where the Option 1 beneficiary's benefit referred to in subparagraph (i) of this paragraph (e) is payable to such beneficiary in the form of an annuity payable in installments, or in the form of a lesser annuity, with provision that any unexhausted balance of the initial reserve for such lesser annuity shall be paid to a designated beneficiary or to an estate, such annuity or lesser annuity shall be determined to be the greater of the following in relation to the beneficiary entitled to such annuity or lesser annuity:

(A) such annuity or lesser annuity calculated on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(B) such annuity or lesser annuity calculated on the basis of the female mortality tables applicable to such an

annuity or lesser annuity or lesser annuity, as the case may be, and the regular interest applicable to such member, as such tables and interest were in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision; or

(C) such annuity or lesser annuity calculated on the basis of the male mortality tables applicable to such an annuity or lesser annuity, as the case may be, and the regular interest applicable to such member, as such tables and interest were in effect immediately prior to the date of enactment of this subdivision.

(iii) Any unexhausted balance of an initial reserve payable to a designated beneficiary or to an estate after payment of a lesser annuity as described in subparagraph (ii) of this paragraph shall be the balance of such reserve remaining after there is subtracted from such reserve, the total amount of such lesser annuity payments paid or payable for the period prior to the annuitant's death.

(f) In relation to the Option 1 benefits determined pursuant to the method of computation set forth in this subdivision by reason of discontinuance by a discontinued member, the phrase "time of such member's retirement," as set forth in paragraphs (c) and (d) of this subdivision, shall be deemed, for the purposes of this subdivision, to mean the date of commencement of the retirement allowance of such discontinued member.

60. "Selection of mode of benefit." The choice made by a member (as permitted by and pursuant to the requirements of law governing such choice by such member) as to whether the maximum amount of his or her retirement allowance or a component thereof shall be payable or such retirement allowance or a component thereof shall be payable under an option selected by the member. The term "selection of mode of benefit" shall include a case where the maximum retirement allowance or a maximum component thereof becomes payable because of a member's omission, within the time permitted by law, to select the maximum benefit or an option.

61. "Best-of-three-computations method." (a) A method (as prescribed by a resolution of the retirement board) under which a retirement allowance (or portion thereof) payable to a member is required to be determined for such member so that:

(i) if such retirement allowance (or portion thereof) does not include a variable annuity program benefit, such retirement allowance (or portion thereof) is the greatest of:

(A) such retirement allowance (or portion thereof) determined on the basis of gender-neutral mortality tables and regular interest at the rate of seven per centum per annum; or

(B) such retirement allowance (or portion thereof) determined on the basis of female mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution; or

(C) such retirement allowance (or portion thereof) determined on the basis of male mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution; and

(ii) if such retirement allowance (or portion thereof) includes a variable annuity program benefit, then the part of such retirement allowance (or portion thereof) other than any variable annuity program benefit is determined in the manner provided for by subparagraph (i) of this paragraph and such variable annuity program benefit (or portion thereof) is the greatest of:

(A) such variable annuity program benefit (or portion thereof) determined on the basis of gender-neutral mortality tables and a uniform rate of interest of four percent, as such rate of interest is provided for in section 13-578 of the code; or

(ii) such variable annuity program benefit (or portion thereof) determined on the basis of female mortality tables and such uniform rate of interest of four percent; or

(iii) such variable annuity program benefit (or portion thereof) determined on the basis of male mortality tables and such uniform rate of interest of four percent.

(b) Where, under the provisions of any such resolution of the retirement board, the modified Option 1 pension computation formula (as defined in subdivision fifty-nine of this section) applies to any member, the term, "best-of-three-computations method," where used in relation to such member, shall be deemed to include such modified Option 1 pension computation formula, to the extent that such formula governs the determination of the pension component (or portion thereof) of such member's retirement allowance.

61-a. "Gender-neutral computations method." A method (as prescribed by a resolution of the retirement board) under which a retirement allowance (or portion thereof) payable to a member is required to be determined in the following manner:

(a) if such retirement allowance (or portion thereof) does not include a variable annuity program benefit, such retirement allowance (or portion thereof) is determined on the basis of gender-neutral mortality tables and regular interest at the rate of seven per centum per annum, without reference to any other actuarial mortality or interest assumption; or

(b) if such retirement allowance (or portion thereof, includes a variable annuity program benefit, then the part of such retirement allowance (or portion thereof) other than any variable annuity program benefit is determined in the manner provided for by paragraph (a) of this subdivision, and such variable annuity program benefit (or portion thereof) is determined on the basis of gender-neutral mortality tables and a uniform rate of interest of four percent (as such rate of interest is provided for in section 13-578 of the code), without reference to any other actuarial mortality or interest assumption.

62. "Person entitled to a recomputation of benefits." Any person who meets all of the conditions stated below in this sub- division:

(a) such person, during the period beginning on August first, nineteen hundred eighty-three and ending on the date next preceding the termination date of eligibility for option re-selection (as defined in subdivision sixty-four of this section), (i) retired or retires for service or superannuation or for ordinary or accident disability, or (ii) discontinued or discontinues member service so as to become a discontinued member, or (iii) terminated or terminates employment so as to become a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit; and

(b) such person's retirement allowance (or a portion thereof), by reason of such retirement or discontinuance of member service or termination of employment, is required by a resolution adopted by the board to be re-determined pursuant to the best-of-three-computations method (as defined in subdivision sixty-one of this section); and

(c) the date of commencement of such person's benefits occurred or occurs the termination date of eligibility for option re-selection (if such person, at the time of retirement, discontinuance of service or termination of employment, was a Tier I member, Tier II member or Tier III member); or (if such person, at the time of retirement, or termination of employment, was a Tier IV member), his or her effective date of retirement (or date of commencement of benefits, if he or she was a Tier IV member entitled to a vested benefit) occurred or occurs prior to the termination date of eligibility for option re-selection.

63. "Joint and survivor option". (a) Any option under which, at the time when such option is selected, a choice is made which includes both:

(i) a benefit payable for the lifetime of the retired or vested member by whom or in whose behalf such option is selected; and

(ii) a benefit (A) which consists of an amount equal to or constituting a percentage of such retired or vested

member's benefit and (B) which is payable for the lifetime of a designated beneficiary selected at the time when such option is selected.

(b) In any case where an option described in paragraph (a) of this subdivision includes a provision prescribing that if the designated beneficiary predeceases such retired or vested member, a maximum benefit shall become payable to such member, such option shall nevertheless be deemed to be a joint and survivor option.

64. "Termination date of eligibility for option re-selection" shall mean October first, nineteen hundred eighty-seven, provided that if the executive director of the retirement system certifies to the retirement board that as of such October first, or any later termination date which the retirement board may establish pursuant to the provisions of this subdivision sixty-four, it will not be administratively feasible to process benefits (including conversions from fixed to variable benefits and vice versa) under the best-of-three-computations method (as defined in subdivision sixty-one of this section) and/or the gender-neutral computations methods (as defined in subdivision sixty-one-a of this section) for any persons who are entitled, pursuant to law and/or retirement board resolution, to benefits so computed then the retirement board, by resolution, may extend the termination date of eligibility for options re-selection, as applicable to such persons, to a later date, provided further, however, that any such extension or extensions directed by the retirement board upon such certification or certifications shall not result in any such extended termination date later than eighteen months after October first, nineteen hundred eighty-seven. In the event that any such extension is directed by a resolution of the retirement board adopted prior to the date of enactment of this subdivision sixty-four, such extension, upon the enactment of this subdivision, shall be valid and effective as of the date of adoption of such resolution in the same manner and to the same extent as if such enactment had occurred before such date of adoption.

65. "Basic rate of contribution as a Tier I or Tier II member." (a) Subject to the provisions of paragraph (b) of this subdivision, the "basic rate of contribution of a Tier I or Tier II member" in the case of any contributor who is such a member shall mean the percent of the total amount of salary earnable by such contributor in a payroll period, which percent, pursuant to the provisions of section 13-521 of this chapter and other applicable provisions thereof, is required to be deducted as the member contributions of such contributor, exclusive of any increase in such contributions resulting from an election by such contributor pursuant to section 13-525 of this chapter or subdivision two of section 13-554 of this chapter to effect such an increase, or any decrease in such contributions on account of any program for increased take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social security coverage).

(b) In any case where it is provided in this chapter that the deduction from salary on account of member contributions required to be made by a contributor who is a Tier I member or Tier II member shall not be in excess of fifteen per centum unless the contributor so elects, and such contributor makes such election, any per centum of such deduction in excess of fifteen per centum with respect to such contributor shall not be included in such contributor's basic rate of contribution as a Tier I or Tier II member.

66. "Contributing Tier I or Tier II member." With respect to any payroll period as to which the status of a contributor who is a Tier I member or Tier II member as to required member contributions is to be determined, the term "contributing Tier I or Tier II member" shall mean any Tier I member or Tier II member other than any such member who, under the provisions of section 13-524 of this chapter, is not required to contribute during such payroll period. A contributor who, being a Tier I member or Tier II member, is not required to contribute under the provisions of such section 13-524, but who nevertheless continues to make member contributions, shall not be deemed to be a contributing Tier I or Tier II member.

67. "Employer responsible for pick up." The public employer by whom a Tier I member or Tier II member is employed.

68. "Tier I or Tier II member contributions eligible for pick up by the employer." (a) With respect to any payroll

period for a contributing Tier I or Tier II member (as defined in subdivision sixty-six of this section), the term "Tier I or Tier II member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of a pick up program applicable to such member pursuant to section 13-521.1 of this chapter (providing for pick up of required member contributions of certain contributing Tier I or Tier II members) would be required by law to be deducted, on account of such member's basic rate of contribution as a Tier I or Tier II member (as defined in subdivision sixty-five of this section), from the salary of such member for such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and (2) excluding any deductions from such salary (or redeposits, restorations or payments) on account of (i) loans or withdrawal of excess contributions or (ii) any election by any such member, pursuant to any applicable provision of law, to increase his or her member contributions above the level prescribed by his or her basic rate of contribution as a Tier I or Tier II member or (iii) any other cause not attributable to the member's basic rate of contribution as a Tier I or Tier II member after reduction in such rate, if any, as described in subparagraph one of this paragraph. The term "Tier I or Tier II member contributions eligible for pick up by the employer" shall also mean the contributions made by a member pursuant to the terms of an irrevocable payroll deduction agreement for the purchase of credit for prior service or credit for military service, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contribution account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law pursuant to subdivision g of section 13-505 of this chapter or subdivision b-1 of section four hundred forty-six of the retirement and social security law.

(b) If no deductions on account of any contributor's basic rate of contribution as a Tier I or Tier II member are required by law to be made from the salary of such contributor for any payroll period, such contributor shall not have, for such payroll period, any such Tier I or Tier II member contributions eligible for pick up by the employer; provided, however, that member contributions required pursuant to an irrevocable payroll deduction agreement for the purchase of prior sevice credit for such payroll period shall be eligible for pick up by the employer. Except as otherwise provided pursuant to the terms of an irrevocable payroll deduction agreement for the purchase of prior service credit, the amount of Tier I or Tier II, member contributions eligible for pick up by the employer of any Tier I member or Tier II member for any payroll period shall be determined solely on the basis of salary which would have been paid to such member for such payroll period by his or her public employer in the absence of a pick up program applicable to such member pursuant to section 13-521.1 of this chapter. A Tier I member or Tier II member shall not have any Tier I or Tier II member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid salary by his or her public employer.

69. "Starting date for pick up." The first day of the first whole payroll period commencing after the date which is sixty days after the internal revenue service have issued a ruling that member contributions picked up pursuant to section 13-325.1 of this chapter are not includible as gross income for federal income tax purposes until distributed or made available.

Sub 22 par d, e amended chap 911/1985 § 12

**CASE NOTES FROM FORMER SECTION**

¶ 1. Whether teacher who had been on leave of absence at time of enactment of Teachers' Retirement Law in 1917 and who had thereafter resigned at expiration of leave of absence but had been reappointed as a teacher three years later was entitled to be classified under the Retirement Law as a "present teacher" or as a "new entrant", **held** to depend upon whether retirement was merely technical and temporary and not one evidencing intention to withdraw from the school system. Statutory definition of "present teacher" contains an implied phrase that such teacher must continue in her employment or else lose her status.-Matter of Thomas (Teachers Retirement Bd. of N.Y.C.), 164 Misc. 341, 299 N.Y.S. 358 [1937], aff'd to extent appealed from 258 App. Div. 942, 17 N.Y.S. 2d 993 [1940].

¶ 2. Amendment to Greater New York Charter § 1092, subd. 8, providing that no prior service certificate issued to any contributor by Teachers' Retirement Board should thereafter be reviewed or modified after certificate should have been in effect for one year, **held** not to prevent Board on date one month after effective date of amendment from classifying teacher as a "present-teacher" as result of appeal instituted within three months of his reclassification as a "new-entrant" and 14 months prior to effective date of amendment, since the statutory interdiction applied only to a review "thereafter" instituted, and right to "review" would be meaningless unless it included right to "modify". Furthermore, to disallow modification would be inequitable in view of fact that modification was delayed only because of Board's inactivity. Consequently its determination when made must be deemed retroactive to date of the application, as Board had a duty to act upon an application, reconsider the case and modify a certificate in appropriate case.-Wilmerding v. Bonaschi, 166 Misc. 140, 2 N.Y.S. 2d 124 [1938].

¶ 3. Teacher who, without intent to leave City school system permanently, had resigned to become director of the Educational Alliance, withdrawing his contributions from retirement fund pursuant to requirements of Greater New York Charter § 1092, subd. j, and who had been reinstated in school system two years later, **held** entitled to classification of "present-teacher", since under the circumstances his resignation and reinstatement were equivalent to a leave of absence.-Id.

¶ 4. In view of fact that petitioner had been negotiating with the Retirement Board since 1933 in an attempt to adjust amicably the question of her classification as a "Present Teacher", and that the law was still in an unsettled state, petitioner **held** not barred by laches in not having sooner resorted to the courts for settlement of the question.-Matter of King, 170 Misc. 314, 10 N.Y.S. 2d 97 [1938].

¶ 5. Provisions of Laws 1935, ch. 706, providing that no prior service certificate therefore issued should thereafter be reviewed or modified after it had been in effect for one year, had no application in immediate case where no certificate had ever been issued, notwithstanding petitioner must have had knowledge of her classification at some time prior to suit, since the statute was specific that the limitation period began to run from the time the certificate was issued.-Id.

¶ 6. Petitioner who had first been appointed a teacher in 1900, and in 1918 had ostensibly resigned her position by a resignation absolute in form, at the same time withdrawing her contributions in the Retirement Fund, and after an interval in private business had been reappointed in 1919 as a "new entrant", **held** entitled to an alternative order in a proceeding under Civil Practice Act Art. 78, so as to permit her to develop the factual picture more completely. However, decisions conferring status of "Present Teacher", notwithstanding a resignation absolute in form, on theory that the resignation under the particular circumstances was equivalent to a leave of absence in that the parties so intended, would seem of doubtful applicability inasmuch as petitioner's intent to return to the teaching system was never disclosed to the respondents at the time of her resignation.-Id.

¶ 7. Petitioner, who was assigned as "additional teacher" or "teacher clerk" on a per diem basis before February 3, 1919, was not appointed as a "teacher", as that term is defined in Admin. Code § B20-1.0, subd. 7. Accordingly,

petitioner was properly classified as a "new entrant" under subd. 9, when she was appointed as a regular teacher on February 3, 1919.-In re Murtaugh, 184 Misc. 72, 52 N.Y.S. 2d 661 [1945], aff'd without opinion, 269 App. Div. 683, 54 N.Y.S. 2d 377 [1945], aff'd 294 N.Y. 902, 63 N.E. 2d 110 [1945].

¶ 8. Clause of § B20-1.0, subd. 8, providing that a "present-teacher" is any teacher, clerk or clerical assistant who was employed as such on June 2, 1919, and who prior to May 4, 1935, was classified as a present teacher, referred only to those who immediately prior to May 4, 1935, were classified as present teachers, and not to petitioner, who was classified as a "present teacher" from May, 1920 to May, 1932.-Id.

¶ 9. That certain teachers may have been erroneously classified as "present teachers" prior to May 4, 1935 did not entitle petitioner also to be given an erroneous classification so that she too might obtain the benefits of Laws 1935, Chapter 706.-Id.

¶ 10. Plaintiff, as a junior clerical assistant with the Board of Education, was a teacher within the meaning of the Teachers' Retirement System Law (Admin. Code § B20-1.0[7]), and in that capacity she was a contributor to the System.-Thurm v. N.Y. Teachers' Retirement Board, 123 (103) N.Y.L.J. (5-29-50) 1902, Col. 4 T, aff'd 100 N.Y.S. 2d 528 [1950].

¶ 11. Provision of the Constitution (Art. 5, § 7), that membership in a pension or retirement system should be a contractual relationship, the benefits of which should not be impaired, froze into a contract the statutory benefits accorded to plaintiff-teacher in 1940 when the constitutional provision was adopted, and prohibited diminution of such benefits, one of which was a right to a 4 per cent interest rate. The amendment in 1947 of Admin. Code § B20-1.0, par. 22, to provide that interest should be at 4 per cent in case of persons who were members on June 30, 1947, but in the case of persons becoming members thereafter interest should be 3 per cent, was ineffectual to reduce interest rates applicable to plaintiff-teacher, who was a teacher and member of the retirement system in 1940. In any event, plaintiff was a member of the retirement system on June 30, 1947, notwithstanding he was in retirement at that time, and accordingly the interest reduction statute by its express terms exempted him from its application. Argument that plaintiff when he retired was a "beneficiary" and not a "member" of the system, was untenable.-Cashman v. Teachers' Retirement Board, 193 Misc. 57, 84 N.Y.S. 2d 142 [1948], aff'd 275 App. Div. 908, 90 N.Y.S. 2d 273 [1949], aff'd 301 N.Y. 501, 93 N.E. 2d 71 [1950].

¶ 12. Teacher who had accepted during the period from 1945 to 1947 cost of living bonuses pursuant to resolutions which expressly made them conditional on exclusion of such increases from salary for pension purposes, and who had also signed payrolls every month which on their face showed that there was no deduction for pension purposes with regard to the cost of living bonus, **held** not entitled to have such cost of living bonus included as salary in computing her pension rights. An employee may waive any right which he has, including statutory and even constitutional rights, unless such waiver would violate public policy.-Rosen v. N.Y.C. Teachers' Retirement Board, 282 App. Div. 216, 122 N.Y.S. 2d 485 [1953], reversing 202 Misc. 159, 115 N.Y.S. 2d 263 [1952], aff'd without opinion, 306 N.Y. 625, 116 N.E. 2d 239 [1953].

¶ 13. A teacher was a "contributor" rather than a "beneficiary" and could elect to receive an optional retirement allowance at any time before the Retirement Board had taken action on the retirement application. A request for retirement had been made on January 26, a medical examination was held on March 28, and on April 10, the secretary of the Board wrote petitioner that her retirement would be tested for action by the Board at its meeting on April 28 and was scheduled to take place as of April 1. After this letter was written but before the Board had taken action, petitioner filed an election to take an optional modification of her benefits.-Matter of Katz, 291 N.Y. 360, 52 N.E. 2d 902 [1943].

¶ 14. Members of Teachers' Retirement System were not entitled to prior service credit for services performed prior to January 1, 1938 for the Emergency Relief Bureau of the City of New York. Such service was not made prior city service by a legislative enactment recognizing such service for members upon the Employees' Retirement System.-Matter of Dimowitz, 33 Misc. 2d 1067, 228 N.Y.S. 2d 267 [1962].

¶ 15. Under this section providing twenty year pension plan qualifying service, petitioners were not entitled to credit for experience in WPA, CWA, or TERA nor for service in schools outside of New York City.-In re Banner (Teachers' Retirement Board), 172 (26) N.Y.L.J. (8-6-74) 2, Col. 4 T.

**CASE NOTES**

¶ 1. Education Law §3107 governs payment of accumulated sick leave upon separation for members of the Teachers' Retirement System and applies to members holding managerial and nonmanagerial titles equally. Ad Cd §13-503(1) provides for membership to consist of all teachers and defines teacher broadly to include nonpedagogical, managerial employees as well as regular and special teachers of the city's public schools, Ad Cd §13-501(7)(a). Auerbach v. Board of Ed. 86 NY2d 198 [1995].

¶ 2. For purposes of determining teachers' retirement benefits, the Teachers Retirement System ("TRS") must count not only regular annual salary but also "per-session" activities such as summer and evening school, athletic and non-athletic extracurricular activities, and adult education. Weingarten v. Board of Trustees of the New York City Teachers Retirement System, 287 A.D.2d 14, 733 N.Y.S.2d 136 (1st Dept. 2001), leave to appeal granted, 97 NY2d 611, 740 N.Y.S.2d 695 (2002).

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-503 Teachers' retirement association; membership.

The teachers' retirement association is continued. Its membership shall consist of the following:

1. All teachers.

2. All transferred contributors.

3. Notwithstanding any inconsistent provision of sections 13-267 and 13-379 of this chapter, or any other provision of this chapter, or the code, or any other law, a teacher, as defined in this chapter, who files with the board a statement duly executed and acknowledged consenting for the period of his or her active membership in this retirement association to the suspension of all present benefits provided wholly or partly by the city through any other retirement system or pension fund and consenting and agreeing to membership and to the deductions for annuity purposes prescribed in this chapter. Upon the subsequent retirement of such person from this retirement system, he or she shall receive benefits based on city service not included in the service upon which his or her retirement allowance or pension from such other retirement system or pension fund is or would be based, and, upon such subsequent retirement, payment of the benefits provided through such other retirement system or pension fund, which had been suspended, shall be resumed.

**HISTORICAL NOTE**

Section amended chap 658/1992 § 1 retroactive to July 22, 1990 amended chap 666/1990 § 1 eff. July 22, 1990. [See note.]

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B20-3.0 added chap 929/1937 § 1

**NOTE**

Provisions of chap 666/1990 § 3, amended by chap 658/1992 § 3.

§ 3. a. Notwithstanding any other provision of law to the contrary, any service retiree from a public retirement system who

(1) retired under a plan which permitted retirement upon completion of a specified period of service of twenty-five years or less without regard to age;

(2) was at the time of such retirement or thereafter employed in one or more other positions of public service and has been so employed continuously to and including September 1, 1999; [Par (2) amended chap 575/1999 § 1, eff. Sept. 1, 1999].

(3) has been so employed either (i) without suspension or diminution of his retirement allowance pursuant to section 211 or 212 of the retirement and social security law or (ii) with his or her pension having been, in fact, suspended pursuant to section 150 of the civil service law; and

(4) by reason of such position or positions would have otherwise been entitled to become (in the case of subparagraph (i) of paragraph (3) of this subdivision) or has been (in the case of subparagraph (ii) of paragraph (3) of this subdivision) a member of one or more other public retirement systems, shall be entitled to elect to be deemed retroactively to have transferred his or her membership in the system from which he or she retired to such other retirement system in which he or she would otherwise have been entitled to membership on July 22, 1990, pursuant to section 43 of the retirement and social security law as of the date immediately prior to the date of his or her retirement, provided he or she consents to the suspension of his or her retirement allowance, if not already suspended; and provided further that upon making such election, he or she shall be credited with public service continuously performed in the position or positions described in paragraph (2) of this subdivision; retirement from such system to which a retiree has transferred his or her membership, his or her retirement allowance shall be reduced by (i) the actuarial equivalent of the retirement allowance received by such retiree while so employed in such other position or positions prior to his or her election pursuant to this section and (ii) the actuarial equivalent of any member contributions such retiree would have been required to pay while so employed in such other position or positions, had he or she become a member of such other system as of the first date of his or her eligibility for membership but for the operation of section 213 of the retirement and social security law unless such retiree shall pay in such contributions with regular interest pursuant to a schedule established by such system to which such retiree has transferred his or her membership pursuant to regulation.

b. In order to effect such retroactive transfer pursuant to this section, the retiree must give notice to the administrative head of the retirement system from which he is a retiree on or before July 22, 2000; upon receipt of such notice, the retirement allowance of the retiree shall be suspended and the reserve on such retiree's allowance shall thereafter be computed and transferred to such second retirement system; such second retirement system shall be entitled to recover from the employer or employers of such retiree any contributions with interest such employer or employers would have made had the retiree been a member of such second retirement system during such employment or employments but less such actuarial reduction, if any, as such other system may provide by regulation to be appropriate to reflect the actuarial reduction for payment of the retiree's allowance during such employment or employments. [Subd. b amended chap 575/1999 § 1, eff. Sept.; amended chap 646/1993 § 1, eff. Aug. 4, 1993].

c. Notwithstanding any other provision of law, in the event such person elects to exercise the rights granted

pursuant to this section but dies prior to retirement from such second system, the death benefit to be paid shall be the greater in value of (i) the death benefit payable under the rules of such second system or (ii) a survivor benefit, if any, which would have been paid according to the option selection made by such person at the time of such person's prior retirement and in the amount which would have been paid if such person had died immediately prior to the date on which he gave notice of his election under this section. Notwithstanding the foregoing, if such person designated a different beneficiary for death benefit (i) than for death benefit (ii), then only the death benefit provided in subparagraph (i) of this paragraph shall be paid.

d. Notwithstanding the provisions of subdivision b of this section or any other provision of law to the contrary, with respect to transfers pursuant to this section which occur on or after the effective date of this subdivision, no determination or transfer of the reserve on the benefits allowable to the transferring member as the result of employer contributions, including the reserve-for-increased-take-home-pay, shall be required. [Subd. d added chap 647/2004 § 8, eff. Oct. 26, 2004]

**CASE NOTES**

¶ 1. Education Law §3107 governs payment of accumulated sick leave upon separation for members of the Teachers' Retirement System and applies to members holding managerial and nonmanagerial titles equally. CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-504 Teachers' retirement association; membership of lecturers.

The retirement board shall adopt rules and regulations determining how much service during each year shall be required of lecturers to become or to remain members of the retirement system, and how many days or hours of service shall be the equivalent of a year of service. For the purpose of determining average salary of lecturers, annual salary shall be based on the salary earned by a lecturer during the number of days or hours determined by the retirement board to be the equivalent of a year of service.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-505 Credit for service and service certificates.

a. In computing the length of service of a contributor for retirement purposes under the provisions of this chapter, full credit up to the nearest number of years and months shall be given each contributor by the retirement board:

1. For all city-service; and

2. In the case of present-teachers for all teaching or supervisory service in schools and colleges not maintained by the city; and

3. (a) In the case of new-entrants for all teaching or supervisory service in schools and colleges not maintained by the city, and for all service rendered in the employ of the Works Progress Administration or of any other agency of the government of the United States on educational projects in the schools of the city of New York or in conjunction with educational projects of the board of education of the city of New York during the period commencing January first, nineteen hundred thirty-three and ending December thirty-first, nineteen hundred forty-three, provided that in no case shall the total amount of service subject to purchase exceed fifteen years, and furthermore provided that for any such new-entrant who becomes a contributor for the first time after June thirtieth, nineteen hundred thirty-five, except as otherwise provided in this section, credit for service previous to becoming a contributor shall be given only to the extent that reserves sufficient to purchase credit for such previous service are transferred to the teachers' retirement system on behalf of the contributor from another pension system or are paid in a lump sum by the contributor, whether or not such contributor was a member of another pension system.

(b) In all cases except transfers under section five hundred twenty-two of the education law and forty-three of

the retirement and social security law, if the reserve transferred is insufficient to purchase such previous service, the contributor shall be permitted to pay a lump sum equal to the deficiency.

(c) Any special or general law, except section five hundred twenty-two of the education law and forty-three of the retirement and social security law, to the contrary notwithstanding, the amount of money necessary to purchase such prior service or part thereof shall be the amount of money determined by the actuary to be equal to the reserve the city would have been required to contribute to the contingent reserve fund in the same manner as provided in section forty-three of the retirement and social security law, if such service or part thereof were rendered to the city while a member based upon the salary received at the date of purchase.

(d) Credit for such prior service up to a maximum of fifteen years shall be given only if application and payment therefor is made by the contributor within the first four years subsequent to membership in the New York city teachers' retirement system or before December thirty-first, nineteen hundred sixty-nine, whichever is later.

(e) Members of the New York city teachers' retirement system who held membership in such system on January first, nineteen hundred fifty-nine, shall be permitted to purchase credit for prior service under this subdivision provided that they make application and payment therefor on or before December thirty-first, nineteen hundred sixty-nine.

(f) Subject to the provisions of subparagraph (j) of this paragraph three, such members who held membership on December first, nineteen hundred fifty-eight shall have the right to purchase such prior service credit at the rate applicable to them as of December first, nineteen hundred fifty-eight.

(g) Subject to the provisions of subparagraphs (j) and (k) of this paragraph three, such members who entered into membership subsequent to December first, nineteen hundred fifty-eight shall have the right to purchase such prior service credit at the rate applicable to them as of the time of their entry into membership.

(h) Any transfer of a reserve from another pension system or lump sum paid by a contributor under this subdivision shall at no time be refunded.

(i) The contributor shall have the option of transferring his or her contributions from another pension system to the teachers' retirement system which contributions shall be paid into the contributor's annuity account.

(j) (1) Any contributor who:

(a) last entered or shall last enter membership in the retirement system prior to July first, nineteen hundred seventy; and

(b) heretofore and on or after July first, nineteen hundred sixty-nine filed a timely application, in accordance with the applicable requirements of the preceding subparagraphs of this paragraph three, to purchase credit for prior outside service or any part thereof, or hereafter files a timely application in accordance with the applicable requirements of this paragraph three to purchase credit for such service or any part thereof; and

(c) is not a twenty-year pension plan contributor or age fifty-five-increased-benefits pension plan contributor at the time of filing such application, in any case where such application is filed on or after July first, nineteen hundred seventy; shall not be eligible, whether or not he or she has paid the purchase price for prior outside service credit pursuant to such application, to elect to become a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor unless he or she files with his or her application to become such a contributor, a consent that the purchase price of credit for his or her prior outside service shall be recalculated in accordance with the provisions of item four of this subparagraph (j) and that his or her rights with respect to the purchase of credit for such service, or where he or she has previously paid the purchase price of credit for such service or any part thereof, his or her rights as to any such purchased credit, shall be as prescribed in items two to six inclusive of this subparagraph (j).

(2) In the case of any such contributor who has filed a consent pursuant to item one of this subparagraph (j) and who has not previously paid the purchase price of credit for prior outside service or any part thereof, the retirement system shall notify such contributor of the purchase price, as recalculated pursuant to item four of this subparagraph, of credit for the number of purchaseable years of such service designated by him or her in his or her application to purchase.

(3) In the case of any such contributor who has filed a consent pursuant to item one of this subparagraph (j) and who has previously paid the purchase price of credit for prior outside service or any part thereof, the retirement system shall notify such contributor of:

(i) the amount of the excess of:

(1) the recalculated purchase price, under item four of this subparagraph (j), of credit for such prior outside service or part thereof; over

(2) the purchase price previously paid by such contributor for such credit; and

(ii) the amount of prior outside service for which such contributor would be credited, if the credit based on the purchase price previously paid by him or her were reduced to the credit which such purchase price would purchase under the provisions of item four of this subparagraph (j).

(4) The recalculated purchase price of credit for the prior outside service of any such contributor, whether he or she seeks to elect to become a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor, shall be computed:

(i) on the basis of the salary which was used or was required to be used, pursuant to the provisions of the preceding subparagraphs of this paragraph three, to calculate the prior purchase price which he or she paid or was required to pay to purchase credit for prior outside service; and

(ii) on the basis of the larger of the following two amounts:

(1) the amount which the required reserve under subparagraph (c) of this paragraph three would equal, if computed on the basis of his or her retirement for service as an age-fifty-five-increased-benefits pension plan contributor, so as to provide a pension equal to one and two-tenths per centum of his or her average salary for each year of the prior outside service with respect to which such recalculation is made; or

(2) the amount which the required reserve under subparagraph (c) of this paragraph three would equal, if computed on the basis of his or her retirement for service as a twenty-year pension plan contributor, so as to provide a pension equal to one and two-tenths per centum of his or her average salary for each year of the prior outside service with respect to which such recalculation is made.

(5) If any such contributor mentioned in item two of this subparagraph (j) shall, within thirty days after the notification required by such item two, pay to the retirement system the recalculated purchase price of credit, as set forth in such notification, he or she shall be entitled to credit for such period of prior outside service. If he or she shall fail to make any such payment within such period of thirty days, his or her application to purchase prior outside service pursuant to which such notification was made shall be null and void and he or she shall have no further rights under such application.

(6) (i) If any such contributor mentioned in item three of this subparagraph (j) shall, within thirty days after the notification required by such item three, pay to the retirement system the amount of the excess set forth in such notification pursuant to subitem (i) of such item three, he or she shall be credited with the period of prior outside service for which he or she previously paid the purchase price.

(ii) If any such contributor shall, within such period of thirty days, fail to make the payment mentioned in subitem (i) of item three of this subparagraph (j), he or she shall be credited with the reduced period of prior outside service as set forth in such notification pursuant to subitem (ii) of such item three, and shall not be entitled to credit for any other prior outside service.

(k) (1) Subject to the provisions of items two and three of this subparagraph (k), any twenty-year pension plan contributor or age-fifty-five-increased-benefits pension plan contributor shall have the right to purchase credit for prior outside service or any part thereof within the period of time prescribed by, and in accordance with the applicable provisions of subparagraphs (a) to (d), inclusive, and (h) and (i) of this paragraph three, except as otherwise provided by the applicable provisions of items four and five of this subparagraph (k).

(2) The provisions of item one of this subparagraph (k) and the applicable provisions of items four and five of this subparagraph shall not apply to any twenty-year pension plan contributor or age-fifty-five-increased-benefits pension plan contributor who, before becoming such a contributor:

(i) filed an application to purchase credit for prior outside service under the circumstances specified in item one of subparagraph (j) of this paragraph three; and

(ii) paid the purchase price, as then in effect, for such credit.

(3) In any case where any twenty-year pension plan contributor or age-fifty-five-increased-benefits pension plan contributor, before becoming such a contributor:

(i) filed an application to purchase credit for prior outside service under the circumstances specified in item one of subparagraph (j) of this paragraph three; and

(ii) did not, before becoming such a contributor, pay the purchase price, as then in effect, for such credit; and

(iii) does not pay the recalculated purchase price for such credit pursuant to item five of such subparagraph (j); and

(iv) would otherwise be eligible to purchase credit for prior outside service pursuant to the provisions of this subparagraph (k); the provisions of item one of this subparagraph (k) and the applicable provisions of items four and five of this subparagraph shall not apply to such contributor until such application to purchase credit becomes null and void pursuant to the provisions of item five of such subparagraph (j).

(4) If all of the prior outside service rendered at any time by any contributor to whom the provisions of item one of this subparagraph (k) are applicable was rendered prior to July first, nineteen hundred seventy, the purchase price to be paid by such contributor, whether he or she is a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor, shall be the larger of the two amounts computed as prescribed by subitem (ii) of item four of subparagraph (j) of this paragraph three.

(5) If any part of the prior outside service of any contributor to whom the provisions of item one of this subparagraph (k) are applicable was rendered on or after July first, nineteen hundred seventy, the purchase price to be paid by such contributor, whether or not he or she rendered prior outside service prior to such date, and whether or not he or she is a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor, shall be the larger of the following two amounts:

(i) the amount which the required reserve under subparagraph (c) of this paragraph three would equal, if computed on the basis of his or her retirement for service as an age-fifty-five-increased-benefits pension plan contributor so as to provide a pension equal to one and fifty-three one hundredths per centum of his or her average salary for each year of such prior outside service for which he or she seeks to purchase credit; or

(ii) the amount which the required reserve under subparagraph (c) of this paragraph three would equal, if computed on the basis of his or her retirement for service as a twenty-year pension plan contributor, so as to provide a pension equal to one and seven-tenths per centum of his or her average salary for each year of such prior outside service for which he or she seeks to purchase credit.

(1) In any case where any twenty-year pension plan contributor or age fifty-five-increased-benefits pension plan contributor:

(a) dies or retires; and

(b) in order to obtain credit for any prior outside service, had paid therefor:

(i) a recalculated purchase price or any part thereof computed pursuant to subitem (ii) of item four of subparagraph (j) of this paragraph three; or

(ii) a purchase price computed pursuant to item four or item five of subparagraph (k) of this paragraph three; on the basis of a reserve larger than that which would have been computed with respect to such contributor if such reserve had been computed on the basis of the pension plan in effect with respect to such contributor at the time of his or her death or retirement, any excess of the total purchase price paid by him or her for such prior outside service over the amount which such total purchase price would have equalled if such computation had been made on the basis of the pension plan in effect with respect to such contributor at the time of his or her death or retirement shall, together with regular interest on such excess from the date on which he or she paid such excess, be deemed, for the purpose of computing the benefit payable by reason of such death or retirement, to be additional contributions by such contributor.

4. In the case of new-entrants who are members of the retirement system on July first, nineteen hundred sixty-nine and who have been serving as school secretaries, for all secretarial and clerical service rendered in regular employment in the civil service of the state of New York and its political subdivisions, except for service in cities having a population of one million or more, provided that for any such new-entrant who becomes a contributor for the first time after June thirtieth, nineteen hundred thirty-five, except as otherwise provided in this section, credit for service previous to becoming a contributor shall be given only to the extent that reserves sufficient to purchase credit for such previous service are paid in a lump sum by the contributor; provided, however, that no credit shall be purchasable if the contributor has obtained or is eligible to obtain credit for such service by transfer under section five hundred twenty-two of the education law or section forty-three of the retirement and social security law. Any special or general law, except section five hundred twenty-two of the education law and section forty-three of the retirement and social security law, to the contrary notwithstanding, the amount of money necessary to purchase such prior service or part thereof shall be the amount of money determined by the actuary to be equal to the reserve the city would have been required to contribute to the contingent reserve fund in the same manner as provided in section forty-three of the retirement and social security law, if such service or part thereof were rendered to the city while a member based upon the salary received and, except as otherwise provided in paragraph seven of this subdivision a, the rate applicable at the date of purchase. Credit for such prior service up to a maximum of fifteen years, less the amount of credit, if any, acquired pursuant to paragraph three of this subdivision, shall be given only if application and payment therefor is made by the contributor prior to January first, nineteen hundred seventy. Any lump sum paid by a contributor under this subdivision shall at no time be refunded.

5. (a) In the case of new-entrants who are members of the retirement system on July first, nineteen hundred sixty-nine and who have been serving as teachers of library, for all service as librarian rendered in regular employment in libraries within the state of New York supported in whole or in part by public funds, except for libraries maintained in the schools of cities having a population of one million or more, provided that for any such new-entrant who becomes a contributor for the first time after June thirtieth, nineteen hundred thirty-five, except as otherwise provided in this section, credit for service previous to becoming a contributor shall be given only to the extent that reserves sufficient to purchase credit for such previous service are paid in a lump sum by the contributor. Any special or general law, except

section five hundred twenty-two of the education law and forty-three of the retirement and social security law, to the contrary notwithstanding, the amount of money necessary to purchase such prior service or part thereof shall be the amount of money determined by the actuary to be equal to the reserve the city would have been required to contribute to the contingent reserve fund in the same manner as provided in section forty-three of the retirement and social security law, if such service or part thereof were rendered to the city while a member based upon the salary received and, except as otherwise provided in subparagraph (c) of this paragraph five, the rate applicable at the date of purchase. Credit for such prior service up to a maximum of fifteen years, less the amount of credit, if any, acquired pursuant to paragraph three of this subdivision, shall be given only if application and payment therefor is made by the contributor prior to January first, nineteen hundred seventy. Any lump sum paid by a contributor under this subdivision shall at no time be refunded.

(b) For purposes of this paragraph five, "service as librarian" shall mean service by a person trained in library science working in such regular employment as is deemed by the retirement board to be related to the functions of teacher of library in the city of New York, provided that such service was credited for retirement purposes in the New York state teachers' retirement system or in the New York state employees' retirement system but that credit for such service was not obtained nor is the contributor, at the time of application for purchase, eligible to obtain credit for such service by transfer under section five hundred twenty-two of the education law or section forty-three of the retirement and social security law.

6. Service, credit for which shall not exceed three years, in any branch of the armed forces of the United States prior to October first, nineteen hundred twenty, provided, however, that such member shall, for the period of service with the armed forces, contribute to the retirement system an amount he or she would have been required to contribute if such service was rendered to the city while a member, and provided further, that such member, during the period between the termination of such military service and the retirement of such member, shall have been credited with not less than fifteen years of member or restored member service. Duly executed applications for such service credit shall be filed with the retirement system before the first day of September, nineteen hundred fifty-nine.

7. Any contributor who files an application to purchase credit for prior outside service pursuant to paragraph four or paragraph five of this subdivision a and who thereafter seeks to elect to become a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor shall not, whether or not he or she has paid the purchase price for such credit pursuant to such paragraph four or paragraph five, be eligible to become such a contributor unless he or she complies with the requirements of subparagraph (j) of paragraph three of this subdivision a.

8. Notwithstanding any other law to the contrary, a person who has previously transferred or who shall transfer from another retirement system to this system in accordance with section five hundred twenty-two of the education law, section forty-three of the retirement and social security law, or any other applicable law shall receive, in addition to his or her transferred service credit, all service credit to which he or she would have been entitled under paragraph one of subdivision a of this section had he or she not transferred from another retirement system, provided, however, that credit for such service was not included in the service credit transferred by the other retirement system.

9. Notwithstanding any other law to the contrary, a member who has received service credit for seniority and length of service purposes pursuant to subdivision eight of section eighty of the civil service law, shall receive service credit for retirement purposes for the same period provided the member pays into the annuity savings fund of the retirement system the amount of the employee contributions required to have been paid into the retirement system for such service, within one year from the date this paragraph shall have taken effect, and further provided that the member has not previously received credit for retirement purposes for the same period.

b. Under such rules and regulations as such board shall adopt, each teacher shall file with such board a detailed statement of all such service rendered by him or her. As soon as practicable thereafter, such board shall verify such statement as to prior-service and shall issue to each teacher a certificate certifying to the aggregate length of his or her prior-service. Such certificate shall be final and conclusive as to his or her prior-service unless thereafter modified by:

1. Such board upon application by the teacher; or

2. By the board of education upon application by the teacher or by the retirement board, provided such application for modification be made to the board of education within one year after the issuance of a certificate or a modified certificate by the retirement board.

c. A certificate for prior-service issued to a present-teacher shall certify the total length of prior-service allowance for such present-teacher through the sixteenth day of September, nineteen hundred seventeen. The time during which a contributor was absent on leave of absence without pay shall not be counted in computing the prior-service or the total-service of a contributor, unless allowed both by the head of the department in which such contributor was employed at the time such leave of absence was granted and by the retirement board. The time during which a contributor was absent on leave of absence on full pay or part-pay from the city-service shall be counted in computing the prior-service and the total-service of such contributor. For the purpose of computing prior-service the retirement board shall fix and determine by appropriate rules and regulations how much service rendered on the basis of the hour, day or session, or any other than a per annum basis, shall be the equivalent of a year of service. No allowance shall be made for such service as a substitute teacher, night school teacher, vacation school teacher, or for any service rendered in a position to which the contributor was not regularly appointed and served on a per annum salary, unless such service was city-service or teaching or supervisory service under regular appointment rendered in the public day schools other than summer schools of New York state for ten or more consecutive weeks, except such service rendered in the employ of the Works Progress Administration or of any other agency of the government of the United States on educational projects in the schools of the city of New York or in conjunction with educational projects of the board of education of the city of New York during the period commencing January first, nineteen hundred thirty-three and ending December thirty-first, nineteen hundred forty-three, as provided in subdivision (a) of paragraph three of this section. Except as to credits or allowances erroneously granted for attendance as a pupil at a training school for teachers, or clerical or mathematical errors in the computation of prior-service, a prior-service certificate issued to any contributor by the retirement board prior to the fourth day of May, nineteen hundred thirty-five and not modified prior to the fourth day of May, nineteen hundred thirty-six shall not have the service certified therein reduced.

d. Notwithstanding any provision of law to the contrary, in the case of employees of the city university of New York, appointed subsequent to January first, nineteen hundred fifty-six, prior-service for hourly teaching employment by this board shall be granted as follows: a credit of one year of city service for retirement purposes shall be allowed for a minimum of thirty weeks per year with an average service of fifteen hours of teaching per week (four hundred fifty hours per year), provided that no such employee shall receive more than one year of credit for service rendered during one calendar year.

e. Notwithstanding any other provision of law, any contributor who is in the system as of April first, nineteen hundred sixty-three and whose prior-service certificate was issued prior to the fourth day of May, nineteen hundred thirty-five and not modified prior to the fourth day of May, nineteen hundred thirty-six may file an application with the retirement board on or before November first, nineteen hundred sixty-three for modification of said prior-service certificate for the purpose of claiming allowable retirement credit for prior city-service as teacher-in-training in the employ of the board of education of the city of New York. Such certificates shall be subject to review and modification by the retirement board and any such modified certificates are hereby validated and confirmed to the same extent and with the same effect as if issued after the fourth day of May, nineteen hundred thirty-six. The rate of contribution of any contributor whose prior-service certificate is modified pursuant to the provisions of this subdivision shall be increased so that the cost of the additional service credit is prorated over said contributor's anticipated years of service.

f. Notwithstanding any other provision of law to the contrary, in computing the length of service of a contributor for retirement purposes under the provisions of this chapter, full credit up to the nearest number of years and months shall be given each contributor by the retirement board for all service that would have been creditable in one of the public retirement systems of the state, as defined in subdivision twenty-three of section five hundred one of the retirement and social security law, at the time the service was rendered, had the contributor been a member of such

retirement system. Credit for such prior service up to a maximum of fifteen years shall be given only if application and payment therefor is made by the contributor within the first four years subsequent to membership in the New York city teachers' retirement system or before December thirty-first, two thousand two, whichever is later. Contributors shall have the right to purchase such prior service credit at the rate applicable to them as of the time of their entry into membership.

g. Notwithstanding any other provision of law, any member of the New York city teachers' retirement system eligible to purchase credit for prior service with a public employer pursuant to this section or credit for military service pursuant to article twenty of the retirement and social security law, may elect to purchase any or all of such service by executing a periodic payroll deduction agreement. Such agreement shall set forth the amount of prior service or military service being purchased, the estimated total cost of such service credit, and the number of payroll periods in which such periodic payments shall be made. Such agreement shall be irrevocable, shall not be subject to amendment or modification in any manner, and shall expire only upon completion of payroll deductions specified therein. Notwithstanding the foregoing, any member who has entered into such a payroll deduction agreement and who terminates employment prior to completion of the payments required therein shall be credited with any service as to which such member shall have paid the contributions required under the terms of such agreement.

**NOTE**

1. Provisions of chap 691/2004:

§ 7. Nothing contained in this act shall be construed to create any contractual right with respect to members and employees to which it applies. The provisions of this act are intended to afford members and employees the advantages of certain benefits contained in the Internal Revenue Code, and the effectiveness and existence of this act and benefits it confers are completely contingent thereon.

§ 8. This act shall take effect at the beginning of the first payroll period following sixty days after an internal revenue service ruling stating that the employee contributions covered by this act are not includible in the gross income of the employee until distributed or made available to the employee, and shall remain in full force and effect only as long as such treatment of such employee contributions is authorized pursuant to the provisions of the Internal Revenue Code; provided, that the chief executive officer of the New York City teachers' retirement system shall notify the legislative bill drafting commission upon the occurrence of such ruling and upon any change in the provisions of the Internal Revenue Code affecting the provisions of this act in order that the commission may maintain an accurate and

timely effective data base of the official text of the laws of the state of New York in furtherance of effecting the provisions of section 44 of the legislative law and §70-b of the public officers law; the amendments to §13-521.1 of the administrative code of the city of New York made by sections five and six of this act shall not affect the expiration of such section as provided by chapter 681 of the laws of 1992, as amended; and the amendments to sections 609 and 613 of the retirement and social security law made by sections one and two of this act shall not affect the expiration of and shall expire on the same date as article 15 of such law, pursuant to section 615 of the retirement and social security law.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Petitioner who had been assistant curator in the children's Museum of Brooklyn for eighteen years prior to her appointment as teacher in the public school system, was not entitled, upon joining the Teachers' Retirement System, to a credit for eighteen years prior "city service" rendered in the Museum, even though her salary had been paid wholly by the City, since the Museum was privately owned and, except for annual appropriations made by the City towards maintenance, was privately supported by endowments, bequests and contributions. Furthermore, in considering the claims for prior teaching service credits, Greater New York Charter § 1092h should be reasonably construed to refer to service rendered as a teacher in a public or private institution dedicated to teaching under the same or similar standards required of a public or private school in the City.-In re Weisse (Bd. of Education of N.Y.C.), 178 Misc. 118, 32 N.Y.S. 2d 258 [1941].

¶ 2. While a member of the Teachers' Retirement System is entitled to credit for City service as a contributor, no provision is made in the statute for service in a capacity other than the one which qualifies that person for membership except as credit for services prior to membership are specifically provided for. In instant case, plaintiff's services as a substitute teacher, being subsequent to her becoming a contributor, could not be credited as prior services, and since they were rendered in a capacity other than the one which qualified her as a member, they could not be credited as part of the City service as a contributor.-Thurm v. N.Y. Teachers' Retirement Board, 123 (103) N.Y.L.J. (5-29-50) 1903, Col. 4 T, aff'd 100 N.Y.S. 2d 528 [1950].

¶ 3. Petitioner was not entitled to immediate retirement on the basis of prior service credit where she had not joined Retirement System until 32 months after her appointment as a teacher.-In re Schein (Teachers' Retirement Bd.), 132 (119) N.Y.L.J. (12-22-54) 4, Col. 4 F.

¶ 4. Ruling of Teachers' Retirement Board disallowing teacher retirement service credit for period petitioner served as civilian education specialist for the U.S. Army in Europe, **held** not to have been arbitrary, as such service did not constitute military duty within intendment of Military Law § 246, and moreover the Retirement Board is vested with discretion on applications for credit during the time a contributor is on leave of absence without pay.-Meyer v. N.Y. City Teachers' Retirement Board, 122 (47) N.Y.L.J. (9-7-49) 399, Col. 5 M.

¶ 5. Plaintiff became a City school teacher in 1941, at which time the Teachers' Retirement Board allegedly, perfunctorily and without any investigation, denied her claim for prior service credit. In 1953 the Board did verify plaintiff's statement and gave her a letter certifying over 14 years of prior service. The Board, as a condition to issuance of a certificate of credit, insisted upon payment by her at the current cost thereof, while she offered to pay upon the basis of the 1941 schedule, plus interest. She brought this action for declaratory judgment in 1955, within four months after the final determination of the Board refusing her demand. This action is subject to a four-month statute of limitation (see C.P.A. § 1286) governing the alternative procedure under C.P.A. Art. 78. However, in the case of "certiorari" the statute runs from the time of the determination sought to be reviewed; whereas, in the case of "mandamus", it runs from the time of a refusal after demand to perform the duties sought to be compelled. Determination of various issues of fact, as well as questions involving the statute of limitations and laches, will have to await the trial. Consequently, the motion to dismiss the complaint is denied.-Calder v. Teachers' Retirement Board, 4 Misc. 2d 166, 156 N.Y.S. 2d 494 [1956].

¶ 6. Two teachers filed a petition for an order directing the Teachers' Retirement Board of New York City to

recompute a prior-service credit allowance on the basis of the 1950 amendment to Article 4 of the bylaws, instead of applying the tables of 1940 and 1943. The petition was sufficient. The question of laches was a matter of defense.-In re Garvin (Teachers' Retirement Board), 26 Misc. 2d 279, 204 N.Y.S. 2d 293 [1961].

¶ 7. The Teachers' Retirement Board of the City of New York could properly require new members who applied for previous service credit for service outside the State to purchase such credit at the current cost, as determined by attained salary when application was made.-Beck v. The Teachers' Retirement Board of the City of New York, 15 A.D. 2d 223, 222 N.Y.S. 2d 440 [1961].

¶ 8. On March 26, 1952 petitioner received a prior service certificate with respect to the Teachers' Retirement System. Petitioner could not again demand on April 26, 1961 full credit for prior substitute service in view of the four-month statute of limitations provided by C.P.A. § 1286.-In re Lindsell (Teachers' Retirement Bd.), 147 (8) N.Y.L.J. (1-11-62) 14, Col. 6 M.

¶ 9. Members of Teachers' Retirement System were not entitled to prior service credit for services performed prior to January 1, 1938 for the Emergency Relief Bureau of the City of New York. Such service was not made prior city service by a legislative enactment recognizing such service for membership of the Employees' Retirement System.-Matter of Dimowitz, 33 Misc. 2d 1067, 228 N.Y.S. 2d 267 [1962].

¶ 10. A member of the Retirement System was entitled to credit for former service with the Emergency Relief Bureau of the City.-Matter of Dimowitz, 18 App. Div. 2d 395, 239 N.Y.S. 2d 629 [1963].

¶ 11. School teachers who had been suspended without pay for over a three-year period, ending when the Board directed their "reinstatement", were not entitled to retirement service credit for the period of their suspension. Full exoneration was clearly not contemplated by the Board of Education.-Douglas v. Teachers' Retirement Board, 40 Misc. 2d 870, 244 N.Y.S. 2d 173 [1963], aff'd 247 N.Y.S. 2d 994 [1964].

¶ 12. Determination of Retirement Board that petitioner was not entitled to credit certificate for prior non-City service rendered prior to his appointment to City College staff in 1947 was not arbitrary where petitioner had listed prior service on Form 2a but had not made a definite request to purchase the outside service.-Beck v. Teachers' Retirement Board, 153 (38) N.Y.L.J. (2-26-65) 18, Col. 1 T.

¶ 13. Petitioner was not entitled to credit for service rendered as teacher-in-training for one year after February 1933. Requirements of this section were not met where prior service credit certificate was not issued prior to May 4, 1945.-Rosenbaum v. Teachers' Retirement System, 152 (43) N.Y.L.J. (8-28-64) 8, Col. 3 M.

¶ 14. Four month time limitation barred action to compel Retirement Board to grant service credit for work done in the 1930s where action was not commenced until more than four months after denial.-In re Machlis, 152 (64) N.Y.L.J. (9-29-64) 14, Col. 4 M.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-506 Re-entry into service.

Any withdrawn contributor, who does not withdraw his or her contributions from the annuity savings fund, on again entering the membership as the result of reappointment or restoration to service, may be entitled to the service credit and status, including the reserve-for-increased-take-home-pay, to which he or she was entitled immediately prior to his or her withdrawal, except as provided in section 13-556 of this chapter, provided that he or she returns to membership within a period of seven school years following such withdrawal, and further provided, that he or she has not been absent from service for more than seven school years during any ten consecutive school years since he or she became a contributor of the retirement system, and further provided that in computing his or her average salary for retirement purposes only the earnable salary for years of actual service shall be used.

At not time shall this section be so construed as to result in depriving a contributor of credit for substitute teaching service in the New York city public schools or for teaching service on other than an annual basis in the colleges under the city university of New York of the city of New York where such service was performed during the period between the contributor's withdrawal from membership in the teachers' retirement systems and his or her re-entry into membership.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Section amended chap 366/1998 § 1, eff. July 14, 1998

Formerly § B20-5.0 added chap 929/1937 § 1

Amended chap 510/1960 § 6

Amended chap 994/1960 § 1

Amended chap 952/1962 § 1

Amended chap 914/1963 § 1

Amended chap 1019/1965 § 3

**CASE NOTES FROM FORMER SECTION**

¶ 1. Whether 1929 amendment to Greater New York Charter § 1092, subd. j-3, providing that any withdrawing contributor who did not withdraw his contribution might be entitled to have status restored provided he returned to membership within five years following withdrawal, was retroactive, was very doubtful. However, teacher who was on leave of absence at time of enactment of Teachers' Retirement Law and who resigned at expiration of her leave did not qualify under such statute, since such teacher had made no contribution to the Annuity Fund and hence could have left none in the fund upon resigning.-Matter of Thomas (Teachers' Retirement Bd. of N.Y.C.), 164 Misc. 341, 299 N.Y.S. 358 [1937], aff'd to extent appealed from, 258 App. Div. 942, 17 N.Y.S. 2d 993.

¶ 2. Where a teacher, in 1949, had resigned after 20 years of service, she ceased to be a member of the Teachers' Retirement System and her subsequent prospective re-employment and consequent re-entry into the Retirement System was deemed not intended to take effect until September 5, 1952, the first day of the new school term. Hence, the teacher had not reacquired the status of teacher when she died in an automobile accident in August of 1952 and her estate was not entitled to death benefits.-Winkel v. Teachers' Retirement System, 149 N.Y.S. 2d 443 [1956].

¶ 3. The petitioner became a member of the Teachers' Retirement Association in 1949 when he was appointed a regular school clerk. Thereafter, in 1950, he resigned that position and from then until 1954 rendered services as a substitute teacher. Finally, in 1954 he was appointed a regular teacher and resumed membership in the Retirement Association. The petitioner was not entitled to service credit for the services he had rendered as a substitute teacher prior to resuming membership in the association. No credit may be made for services in a capacity other than the one which qualifies the person for membership in the association except as a credit for services prior to membership is specifically provided for.-McNaney v. New York City Teachers' Retirement Board, 135 (72) N.Y.L.J. (4-13-56) 6, Col. 4 F.

¶ 4. Petitioner, who resigned as a teacher in order to enter government service, later returned but was absent at a time when the Board of Education adopted a resolution crediting war service leaves for retirement purposes. He was not entitled to a service credit.-In re Cohen (Teachers' Retirement Board), 5 N.Y. 2d 963, 184 N.Y.S. 2d 838, 157 N.E. 2d 715 [1959].

¶ 5. The Teachers' Retirement Board of the City of New York could properly require new members who applied for previous service credit for service outside the State to purchase such credit at the current cost as determined by attained salary when application was made.-Beck v. The Teachers' Retirement Board of the City of New York, 15 A.D. 2d 223, 222 N.Y.S. 2d 440 [1961].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-507*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-507 Teachers' retirement board; membership; elections.

The retirement board is continued and shall consist of the following:

1. The president of the board of education or an authorized representative designated by him or her, in writing, and filed with the teachers' retirement board.

2. The comptroller.

3. Two members appointed by the mayor, one of whom shall be a member of the board of education; they shall serve until their successors are appointed. Should the board of education member of the retirement board cease to be a member of the board of education, he or she shall thereupon cease to be a member of the retirement board. The mayor may, by a written instrument filed with the retirement board, designate one or more alternates to act in the place of either of such appointed members in the event of the absence of such member; provided that only a member of the board of education may be designated to act in the place of such board of education member of the retirement board.

4. Three members of the retirement association elected from the contributors. The term of each teacher-member shall be three years. The teacher-members now in office shall hold office until the expiration of the terms for which they were respectively elected. Their successors shall be elected by direct vote of the contributors, by secret ballot, as follows:

(a) Nomination. Candidates for office of teacher-member of the retirement board shall be nominated by petition. The nominating petition must be signed by at least one thousand contributors, each sheet of which petition shall contain:

(1) The name and official board-of-education or city university of New York position of the candidate.

(2) The name and official board-of-education or city university of New York position of the contributor who shall be the alternate candidate in the event of a vacancy caused by the death, disability, disqualification or withdrawal of the candidate occurring prior to the day of the election.

(3) The names of three contributors and the number or name of the school or college and borough in which each is employed to act as tellers for the candidate at the final canvass of returns at the hall of the board of education on the Tuesday following the second Thursday of May.

(4) A statement that the signature or signatures of a contributor which appear on more than one petition or more than once on a specific petition shall be void and shall not be counted on any petition.

(5) A certification at the bottom by a contributor together with the number or name and borough of his or her school or college that all the signatures to the number of..... appearing on that particular sheet of the petition are bona fide signatures of contributors known to him or her.

Each petition shall bear the signatures of not less than one thousand approving contributors endorsing the candidate, the number or name and borough of the school, the college or the department in which each contributor so endorsing is employed and the date on which each signed.

Contributors shall sign only one petition and the signature or signatures of a contributor which appear on more than one petition or more than once on a specific petition shall be void and shall not be registered or counted on any petition.

(b) Filing of petitions. All petitions shall be filed with the superintendent of schools or his or her authorized representative not later than five o'clock in the afternoon of the last day on which schools are in session preceding April twenty in each year. The date and time of such filing shall be noted on the face of the petition by the superintendent of schools or his or her authorized representative. Petitions shall be open to public inspection. Each petition shall be accompanied by a written acceptance of the nomination by the candidate named in the petition and by a written statement of the contributor named as alternate candidate, that in the event of the death, disability, disqualification or withdrawal of the candidate prior to the election, he or she will accept the nomination in such a contingency.

In the event of but one candidate being nominated for the office of teacher-member, it shall not be necessary to prepare ballots, official blanks or tally sheets, nor for the members of the retirement association to meet on the second Wednesday of May for the casting of written ballots. The election of the single candidate shall be consummated on the second Wednesday of May by the superintendent of schools casting one ballot in favor of the candidate.

(c) Objections to petitions. If the question of the qualification of any signer of a petition is raised by any contributor by writing to the superintendent of schools, or his or her authorized representative, the executive director of the retirement system or his or her authorized representative, shall certify as to whether or not the signer is a contributor to the teachers' retirement system and entitled to vote in the election of teacher-members of the retirement board.

A written objection to any petition may be filed with the superintendent of schools, or his or her authorized representative, by any contributor not later than the last day on which schools are in session preceding April twenty-seventh in each year. The superintendent of schools or his or her authorized representative shall summarily hear and determine such objections under such rules and regulations as he or she may establish and shall notify in writing both the candidate and the objector of his or her determination of the objection not later than the first Wednesday in May.

(d) Publication of nominations. Not later than the first Wednesday of May in each year, the superintendent of schools or his or her authorized representative shall notify each school, annex, and college in which members of the

retirement association are employed of the names of all nominees. On receipt of such notice, the principal of the school or annex or in his or her absence the acting principal, and the president or acting president of a college shall give to each contributor in the school, annex or college a copy of such notice.

(e) Form of ballots, etc. The superintendent of schools or his or her authorized representative shall cause to be prepared the necessary ballots for the election. These ballots shall contain only the names of the candidates and necessary directions for voting. The superintendent of schools shall determine by lot in the presence of each candidate or his or her duly authorized representative the order of the names of candidates on the ballot.

The superintendent of schools or his or her authorized representative shall cause to be distributed to each school or voting place not later than the Tuesday preceding the day of the election:

(1) A sufficient number of official ballots.

(2) The official blank form for contributors' signatures.

(3) Blank tally sheets in triplicate.

(f) Discussion meetings. Upon petition of ten per centum of the contributors in any public school building, annex or college for a meeting for the discussion of the merits of the various candidates for teacher-member of the retirement board, the principal or person in charge of such public school building, annex or college, shall call such a meeting not more than five school days nor less than two school days, prior to the date of election in each year. After the principal or person in charge of such school building, annex or college or his or her authorized representative has called such meeting to order, the contributors present shall proceed to elect by plurality vote a chairperson and a secretary. The chairperson of such meeting shall be responsible for the conduct of the meeting.

(g) Elections. Procedures for members of the retirement system who are in the employ of the New York city board of education. On the second Wednesday of May, or if the second Wednesday of May falls on a religious or other holiday or if for any reason the schools are closed on that day then on the first school day preceding the second Wednesday of May, in each year, the contributors in each school or annex shall meet in their respective school buildings at three o'clock in the afternoon, or if the administration conditions in any school or annex are such that the meeting ought to be held at some other hours, then at such hour in such school building as shall be designated by the superintendent of schools, after consultation with the principal or person in charge of such school. Such principal or person in charge or his or her authorized representative shall call the meeting to order, and the contributors present at the meeting shall proceed to elect from their number by written ballot, a chairperson and a secretary. The candidate receiving the greatest number of votes in each instance shall be declared elected. The chairperson elected shall then appoint from among the contributors at least one teller for each candidate nominated for the position of teacher-member of the retirement board. Such teller shall be an acknowledged supporter of the particular candidate. In no case shall there be less than three tellers. The contributors shall then proceed as follows, to vote by written and secret ballot for teacher-member of the retirement board. Each contributor shall receive a ballot and sign the contributors' list in the presence of the chairperson and the tellers. The contributor shall then proceed to mark his or her ballot in secret. As his or her name is called each contributor shall then deposit his or her ballot in the official ballot box provided by the principal or person in charge. Contributors designated as special teachers, supervisors and directors shall vote and sign the contributors' signature blank in the school or voting place nearest to the respective main offices. The superintendent of schools or his or her authorized representative shall provide voting places for all other contributors not assigned to schools and he or she shall designate the person or persons who shall be responsible for the proper conduct of the election in each place so provided. If a contributor spoils a ballot he or she shall return it to the chairperson of the meeting. Both the contributor and the chairperson of the meeting shall certify on the face of the ballot that the ballot is void. The voided ballot shall then be deposited in the ballot box and thereupon another ballot shall be issued to the contributor. During the period of this meeting there shall be no electioneering or discussions regarding candidates. The chairperson of the meeting shall be responsible for the proper conduct of the election. Only contributors to the

retirement system may be designated as representatives of the superintendent of schools or principals or heads of schools or department or persons in charge.

Procedure for members of the retirement system who are in the employ of the board of higher education of the city of New York. On the second Wednesday of May, or if the second Wednesday of May falls on a religious or other holiday or if for any reason the schools are closed on that day then on the first school day preceding second Wednesday of May, in each year, the contributors in each college building shall meet in their respective school buildings at nine o'clock in the morning, or if the administration conditions in any college are such that the meeting ought to be held at some other hour, then at such hour in such college building as shall be designated by the superintendent of schools, after consultation with the principal or person in charge of such college. Such principal or person in charge or his or her authorized representative shall call the meeting to order, and the contributors present at the meeting shall proceed to elect from their number by written ballot, a chairperson and a secretary of the balloting. The candidate receiving the greatest number of votes in each instance shall be declared elected. The chairperson elected shall then appoint from among the contributors at least one teller for each candidate nominated for the position of teacher-member of the retirement board. Such teller shall be an acknowledged supporter of the particular candidate. In no case shall there be less than three tellers. The chairperson shall then announce the opening of the balloting, which shall continue until five o'clock in the afternoon of that day and from nine o'clock in the morning until five o'clock in the afternoon of the next succeeding school day. The contributors shall proceed as follows, to vote by written and secret ballot for teacher-member of the retirement board. Each contributor, regardless of whether he or she was present at the election of the chairperson and the secretary, shall receive a ballot and sign the contributors' list in the presence of at least two tellers at any time during the balloting. The contributor shall then and there proceed to mark his or her ballot in secret and shall then deposit his or her ballot in the official ballot box provided by the principal or person in charge. The superintendent of schools or his or her authorized representative shall provide voting places for all other contributors not assigned to colleges and he or she shall designate the person or persons who shall be responsible for the proper conduct of the election in each place so provided.

If a contributor spoils a ballot he or she shall return it to the chairperson of the balloting. Both the contributor and the chairperson of the balloting shall certify on the face of the ballot that the ballot is void. The voided ballot shall be deposited in the ballot box and thereupon another ballot shall be issued to the contributor.

During the period of this balloting there shall be no electioneering or discussions regarding candidates in the voting place.

The chairperson of the balloting shall be responsible for the proper conduct of the election.

Only contributors to the retirement system may be designated as representatives of the superintendent of schools or heads of colleges or department or persons in charge.

(h) Returns. Procedure for members of the retirement system who are in the employ of the New York city board of education. After all the contributors present in the voting place have had an opportunity to vote, the tellers shall publicly open the ballot box, count the ballots, tally and announce the vote for teacher-member of the retirement board. After the votes have been tallied the chairperson and secretary and tellers shall prepare and sign the election returns for teacher-member in triplicate. One copy of the election return shall be posted on the official bulletin board of the building in which the voting took place. One copy of the election return shall be forwarded immediately by mail to the superintendent of schools and one copy to the executive director of the retirement system. Then the chairperson shall place in the ballot box all the ballots cast, the spoiled ballots, the unused ballots and the contributors' signature list, seal the ballot box and deliver it forthwith to the principal or person in charge of the school building or annex. A receipt shall be given to the person making this delivery. The principal or person in charge of such school building or annex shall retain such sealed box for six months following the date of voting, or until a special election is called to fill a vacancy among the teacher-members as hereinafter provided, whichever occurs first.

Procedure for members of the retirement system who are in the employ of the board of higher education of the city of New York. At five o'clock in the afternoon of each day of the balloting, or as soon thereafter as possible, allowing all contributors who are present at such time to cast their ballots, the tellers shall publicly open the ballot box, count the ballots, tally and announce the vote for teacher-member of the retirement board. After the votes have been tallied the chairperson and secretary and tellers shall prepare and sign the election returns for teacher-member for that day in triplicate. There shall be no posting of returns after the first day, but one copy of the election return shall be posted on the offical*11 bulletin board of the building in which the voting took place after the second day's balloting has been completed. One copy of the election return for each day shall be forwarded immediately by mail, at the end of each day of balloting, to the superintendent of schools and one copy shall be forwarded by mail, at the same time, to the executive director of the retirement system. At the end of the first day's balloting the chairperson shall place in an envelope all the ballots cast during that day, and the spoiled ballots, which envelope shall be sealed and identified as the first day's balloting. The sealed envelope shall be kept in the ballot box, together with the first day's tally sheet and the contributors' signature list. At the end of the second day's balloting, the ballots cast that day, the spoiled ballots, the unused ballots and the contributors' signature list shall be placed in the ballot box, the chairperson shall seal the ballot box and deliver it forthwith to the person in charge of the college. A receipt shall be given to the person making this delivery. The person in charge of such college shall retain such sealed ballot box for six months following the date of voting, or until a special election is called to fill a vacancy among the teacher-members as hereinafter provided, whichever occurs first.

(i) Counting the vote for teacher-member. At four o'clock in the afternoon of the Tuesday following the third Thursday of May in each year at the hall of the board of education the final canvass of the returns shall be made. Each candidate for election to the office of teacher-member or his or her duly authorized representative shall be entitled to be present at the final canvass to inspect the election returns and to witness the canvass and summary made of the number of votes cast. The superintendent of schools or his or her duly authorized representative shall preside at the canvass. The executive director of the retirement system or his or her duly authorized representative shall be present with all the election returns received at his or her office from the various schools, colleges and other voting places. No contributor duly authorized by this act shall suffer loss of pay by reason of attendance at this meeting. The tellers designated on the nominating petition, together with the superintendent of schools or his or her authorized representative shall record and tally the vote cast in the respective schools, school annexes and colleges for each candidate for the office of teacher-member of the teachers' retirement board. The chairperson of the meeting shall call for a report of the vote cast in each of the respective schools, school annexes and colleges. If the accuracy of any election return is questioned or if the election return of a voting place is missing, the vote recorded on the copy of the election return filed with the executive director of the retirement system shall be used. The total vote for each candidate as recorded on the election returns from all voting places shall be announced. The candidate receiving the greatest number of votes shall be declared elected and the pension election committee shall so certify and the superintendent of schools or his or her authorized representative shall transmit immediately such certification to the retirement board. The newly elected teacher-member shall take office forthwith.

Election returns, tally sheets, and all other records including ballots and contributors' signature lists shall be kept in the custody of the superintendent of schools for a period of not less than six months after the third Thursday in May or until a vacancy occurs in the office of teacher-member in the retirement board, whichever occurs first.

(j) Vacancies. Procedure for members of the retirement system who are in the employ of the New York city board of education. In the event of a vacancy in the office of teacher-member of the retirement board two months or more before the expiration of his or her term, a special election shall be held to elect a teacher-member to complete the unexpired term. Such special election shall be conducted in the same manner as hereinbefore provided for a regular election, except that petitions shall be filed not later than twenty regular school days after the date on which the vacancy occurred, and the election shall be held on the third Wednesday after the closing date for the filing of petitions. Should this day fall on a holiday, the election shall be held on the first Thursday subsequent thereto on which school is in regular session.

Procedure for members of the retirement system who are in the employ of the city university of New York. In the event of a vacancy in the office of teacher-member of the retirement board two months or more before the expiration of his or her term, a special election shall be held to elect a teacher-member to complete the unexpired term. Such special election shall be conducted in the same manner as hereinbefore provided for a regular election, except that petitions shall be filed not later than twenty regular school days after the date on which the vacancy occurred, and the election shall be held on the third Wednesday after the closing date for the filing of petitions and on the school day immediately succeeding it. Should the third Wednesday after said closing date fall on a holiday, the election shall be held on the first Wednesday subsequent thereto on which school is in regular session and on the next succeeding school day.

In the event that such vacancy among the teacher-members of the retirement board occur in June, July, August or during the time in September when schools are not in session, such vacancy shall be deemed to have occurred on the first day schools are in session and the same procedure and time allowance for the election shall be followed as herein provided for the election of a teacher-member when a vacancy occurs during the school year.

(k) Appeals. The superintendent of schools or his or her authorized representative shall have jurisdiction to hear and summarily determine any question arising in connection with the nomination or election of a teacher-member of the retirement board as set forth in this act except questions concerning the qualifications of any signer of a petition as to whether or not he or she is a contributor, in which instance the executive director of the retirement system or his or her authorized representative shall determine the facts.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-518 Retirement board; other duties.

a. The retirement board shall perform such other functions as are required for the execution of the provisions of this chapter.

b. (1) In addition to the powers conferred upon it by any other provision of law, the board of trustees shall on or before April first of each year, establish a budget sufficient to fulfill the powers, duties and responsibilities set forth in this chapter and any other provision of law which sets forth the benefits of members of the retirement system. Said budget shall also include the respective amounts deposited in the expense fund in accordance with the provisions of subdivision k of section 13-570 of this chapter and subdivision b of section 13-582 of this chapter. The board of trustees shall, if necessary, draw upon the assets of the retirement system to fund the portion of such budget which is not derived from subdivision k of section 13-570 of this chapter and subdivision b of section 13-582 of this chapter provided, that such action shall be subject to the provisions of paragraphs two, three, four and five of this subdivision and subdivisions c and d of this section. The provisions of this section shall not be applicable to the payment of investment expenses pursuant to section 13-705 of the code and nothing contained herein shall be construed as abolishing, limiting, or modifying any power of the board of trustees to provide for the payment of investment expenses pursuant to section 13-705 of the code.

(2) If an expense budget has not been adopted by the commencement of the new fiscal year, the expense budget for the preceding fiscal year shall be deemed to have been extended for the new fiscal year until such time as a new expense budget is adopted.

(3) Any budget in effect pursuant to paragraphs one or two of this subdivision b shall be modifiable during such

succeeding fiscal year.

(4) Notwithstanding any other provision of law, the board of trustees shall have the power either directly or by delegation to the executive director, to obtain by employment or by contract the goods, property and services necessary to fulfill its powers within the appropriation authorized by the board of trustees pursuant to paragraph one of this subdivision.

(5) The provisions of chapter seventeen of the charter shall continue to apply to the retirement system and the retirement system shall constitute an agency for the purposes of such chapter seventeen. The board of trustees shall not obtain any legal services by the retention of employees or by contract unless the corporation counsel shall consent thereto.

(6) All contracts for goods or services entered into by the retirement system shall be procured as prescribed in chapter thirteen of the charter; provided, however, that where the provisions of such chapter thirteen require action by the mayor in regard to a particular procurement (except for mayoral action pursuant to subdivision c of section three hundred thirty-four of the charter) such action shall not be taken by the mayor or such appointee of the mayor but shall be taken by the board of trustees or the executive director pursuant to a resolution adopted by the board of trustees delegating such authority to the executive director.

(7) The provisions of paragraphs four and six of this subdivision shall not apply to any contract or contracts relating to the variable annuity funds and tax-deferred annuity program pursuant to section 13-570 and section 13-582 of this chapter.

c. Employment by the retirement system shall constitute city-service for the purposes of chapter one of this title; provided, however, that nothing contained herein shall be construed as granting membership rights in the New York city employees' retirement system to a contractor of the retirement system or such contractor's employees. Employees of the retirement system shall be deemed employees of the city of New York for the purposes of chapter thirty-five of the charter and title twelve of the code.

d. In the event that the assets of the retirement system are drawn upon pursuant to the provisions of paragraph one of subdivision b of this section all monies so withdrawn shall be made a charge to be paid by each participating employer otherwise required to make contributions to the retirement system no later than the end of the fiscal year next succeeding the time period during which such assets were drawn upon, provided, however, that where such charge is for assets so withdrawn in fiscal year two thousand four-two thousand five or in any fiscal year thereafter, such charge shall be paid by each such participating employer no later than the end of the second fiscal year succeeding the time period during which such assets were drawn upon. The actuary shall calculate and allocate to each such participating employer its share of such charge by multiplying such charge by a fraction, the numerator of which shall consist of the total salaries of the employees of each participating employer as of the June thirtieth succeeding the withdrawal of assets and the denominator of which shall consist of the total salaries of members of the retirement system as of such June thirtieth. All charges to be paid pursuant to this subdivision shall be paid at the regular rate of interest utilized by the actuary in determining employer contributions to the retirement system pursuant to the provisions of paragraph two of subdivision b of section 13-638.2 of the code.

**HISTORICAL NOTE**

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-519 Medical board.

a. There shall be a medical board of three physicians constituted as follows:

1. One physician who shall be appointed by the members of the retirement board who are contributors.

2. One physician who shall be appointed by the members of the retirement board who are not contributors.

3. One physician who shall be appointed by the retirement board. Such physician shall be an expert in women's diseases or in diseases of the nervous system.

b. They shall be appointed to serve for a term of three years but the term of each shall expire on August first in different years. Vacancies shall be filled for the unexpired term. All appointments for a full term or for an unexpired term shall be made by the same group of members of the retirement board which appointed the predecessor.

c. All medical examinations required or authorized by sections 13-550 (relating to retirement of certain contributors for disability) and 13-551 (relating to retirement for accident disability) of the code shall be made by the medical board or by a physician or physicians designated by the medical board under rules and regulations for such designation prescribed by the retirement board, at the place of residence of the contributor or at a place designated by mutual agreement.

**CASE NOTES**

¶ 1. Doctor chosen to examine petitioner and report to the medical board was later appointed to the board itself. It was "improper for an impartial reviewer of an issue of fact to sit in review of his own prior determination of fact".-Lowcher v. NYC Teachers' Retirement System, 54 N.Y.2d 373, 445 N.Y.S.2d 696 (1981).

¶ 2. Doctor chosen to examine petitioner was a member of the Medical Board. § 13-519(c) provides the examination for accident disability retirement "shall be made by the medical board or a physician designated . . .". In this case the doctor was not asked to serve as an impartial observer but acted at all times as a member of the review board.-Fisher v. Condello, 137 A.D. 2d 446, 524 N.Y.S.2d 707 (1st Dept. 1988).

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-521 Contributions of members and their use; annuity savings fund.

The annuity savings fund shall consist of the accumulated deductions from the salaries of contributors made, under such rules and regulations as the retirement board shall prescribe, and in addition, such amounts as shall be contributed thereto for the benefit of members by the city in accordance with subdivision eight of this section, as follows:

1. (a) Except as otherwise provided with respect to contributions of twenty-year pension plan contributors and age-fifty-five-increased-benefits pension plan contributors in subdivision seven of this section, from the salary of each present-teacher there shall be deducted such per cent of his or her earnable salary as he or she shall elect, provided, however, that such contributor shall be limited in his or her choice to one of the following rates:

(1) Three per cent of his or her earnable salary.

(2) Such per cent of his or her earnable salary as shall be computed to be sufficient, with regular interest, when paid until age sixty-five, to provide for him or her on retirement at that age an annuity which, when added to his or her pension, provided for in this chapter, will provide a retirement allowance of fifty per cent of his or her average salary.

(3) A per cent of his or her earnable salary greater than three per cent thereof.

(b) Should any present-teacher, on becoming a contributor, fail to make such an election, he or she shall be deemed to have elected a deduction from his or her salary at the rate of three per cent of his or her earnable salary.

2. (a) Except as otherwise provided with respect to contributions of twenty-year pension plan contributors and

age-fifty-five-increased-benefits pension plan contributors in subdivision seven of this section, from the salary of each new-entrant, there shall be deducted such per cent of his or her earnable salary as shall be computed to be sufficient, with regular interest, to procure for him or her on service retirement an annuity equal to twenty-five per cent of his or her average salary. The rate per cent of such deduction from salary shall be based on the mortality and other tables herein authorized, together with regular interest, and shall be computed to remain constant during his or her prospective teacher-service prior to eligibility for service retirement, except such deduction shall not be in excess of fifteen per centum unless the member so elects. Except as otherwise provided with respect to contributions of twenty-year pension plan contributors and age-fifty-five-increased-benefits pension plan contributors in subdivision seven of this section, no beneficiary restored to duty shall be required to contribute a per cent of his or her earnable salary greater than the per cent thereof which he or she was required to contribute prior to his or her retirement.

(b) Notwithstanding the provisions of paragraph (a) of this subdivision two, the rate per cent of such deduction from the salary of any new-entrant who became a member after June thirtieth, nineteen hundred forty-seven and prior to June thirtieth, nineteen hundred sixty-seven shall be, on and after the first day of the first payroll period beginning after January first, nineteen hundred sixty-eight:

(1) his or her rate as of June twenty-ninth, nineteen hundred sixty-seven, determined pursuant to paragraph (a) of this subdivision, including any increase thereof pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or reduction thereof pursuant to subdivision four of this section, section 13-545 of this chapter, or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, hereinafter referred to as his or her "prior computed rate", less the difference between the rate which was computed for such new-entrant pursuant to paragraph (a) of this subdivision two on the date he or she last became a member, exclusive of any increase thereof pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or reduction thereof pursuant to the election provided for in paragraph (a) of this subdivision or pursuant to subdivision four of this section, section 13-546 of this chapter, or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and the rate which would have been computed for such new-entrant on the date he or she last became a member, pursuant to paragraph (a) of this subdivision, but not limited to the fifteen per centum provided in that paragraph, had he or she been entitled on that date to regular interest at four per centum; or

(2) if such new-entrant made an election pursuant to paragraph d of subdivision one of section 13-545 or paragraph d of subdivision one of section 13-554 of this chapter, but not before any deduction was made from his or her compensation for annuity purposes, his or her "prior computed rate" less the difference between the rate, which would have been computed for such new-entrant on the date he or she last became a member, pursuant to paragraph (a) of subdivision two of this section, but not limited to fifteen per centum, if the later election he or she made had been made on that date, and the rate, which would have been computed for such new-entrant on the date he or she last became a member, pursuant to paragraph (a) of subdivision two of this section, but not limited to fifteen per centum, if the later election he or she made had been made on that date, and if, on that date, he or she had been entitled to regular interest at four per centum; provided that the adjusted rate of contribution computed pursuant to this paragraph b shall be subject to changes pursuant to paragraph (a) of this subdivision, section 13-525 or subdivision two of section 13-554, subdivision four of this section, section 13-546 of this chapter or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law.

(c) For any new-entrant to whom the last paragraph applies, and beginning with the first day of the first payroll period commencing after June thirtieth, nineteen hundred sixty-seven, and ending with the last day of the last payroll period before the first payroll period beginning after January first, nineteen hundred sixty-eight, the amount of contribution which represents the difference between the prior computed rate of such member as of June twenty-ninth, nineteen hundred sixty-seven, and his or her adjusted rate of contribution as computed pursuant to the last paragraph shall be deemed additional contributions made for the purpose of purchasing additional annuity, or upon the member's election, shall be refunded.

3. The head of each department shall deduct on each and every payroll of a contributor for each and every

payroll period, such per cent of the total amount of salary earnable by the contributor in such payroll period as shall be certified to such head of department by the retirement board as proper in accordance with the provisions of this chapter. In determining the amount earnable by a contributor in a payroll period such board shall consider the rate of salary payable to such contributor on the first day of each regular payroll period as continuing throughout such payroll period and it may omit salary deductions for any period less than a full payroll period in cases where the teacher was not a contributor on the first day of the regular payroll period. To facilitate the making of the deductions it may modify the deduction required of any contributor by such amount as shall not exceed one-tenth of one per cent of the salary upon the basis of which the deduction is to be made. Such head of each department shall certify to the comptroller on each and every payroll the amounts to be deducted. Each of such amounts so deducted shall be paid into such annuity savings fund, and shall be credited together with regular interest to an individual account of the contributor from whose salary the deduction was made.

4. (a) Notwithstanding any provisions in this chapter to the contrary, but subject to the provisions of paragraph (b) of this subdivision four, there shall not be deducted for annuity purposes from the compensation or salary of any contributor an amount greater than six per cent of such contributor's earnable compensation or salary if such contributor elects to pay a rate limited to six per cent. Any such contributor so electing shall be limited to a pension on retirement, exclusive of the pension-providing-for-increased-take-home-pay, if any, of not more than two per cent of his or her average salary multiplied by the number of his or her years of service rendered subsequent to the time he or she last became a member of the retirement system not in excess of ten for disability and not in excess of twelve and one-half for service retirement.

(b) The provisions of paragraph (a) of this subdivision shall not apply to a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor.

5. The method of computation and the deductions prescribed in this section shall be appropriately modified in the case of a contributor to the extent that his or her rate is otherwise fixed pursuant to section 13-546 of this chapter.

6. Where a contributor's rate of contribution is reduced because the city contributes towards pensions-providing-for-increased-take-home-pay pursuant to section 13-546 of this chapter, such member may by written notice duly acknowledged and filed with the retirement board within one year after such reduction or within one year after he or she last became a member, whichever is later, elect to waive such reduction. One year or more after the filing thereof, a member may withdraw any such waiver by written notice duly acknowleged and filed with the retirement board. Where a member makes an election to waive such reduction, he or she shall contribute to the retirement system as otherwise provided in this chapter.

7. (a) Notwithstanding any other provision of this section or any other provision of this chapter or any other law to the contrary;

(1) the normal rate of contribution of a twenty-year pension plan contributor shall be as prescribed by the applicable provisions of section 13-547 of this chapter (relating to the twenty-year pension plan) and section 13-549 of this chapter (relating to deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans); and

(2) the normal rate of contribution of an age-fifty-five-increased-benefits pension plan contributor shall be as prescribed by the applicable provisions of section 13-548 of this chapter (relating to the age-fifty-five-increased-benefits pension plan) and such section 13-549.

(b) (1) A twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor whose normal rate of contribution is in excess of fifteen per centum shall not contribute at a rate in excess of fifteen per centum unless he or she so elects.

(2) In any case where any such contributor contributes pursuant to subparagraph one of this paragraph (b) at a

rate of fifteen per centum or more but less than his or her normal rate of contribution, neither the making of contributions at such lesser rate nor any election of such contributor to do so shall be construed as changing his or her normal rate of contribution.

(c) (1) Except as otherwise provided in subparagraph three of this paragraph (c) and in paragraph (d) of this subdivision seven, in any case where:

(i) a normal rate of contribution is established for a twenty-year pension plan contributor on a basis including twenty-year pension plan qualifying service preceding his or her contribution rate fixation date; and

(ii) by reason of any action taken after such rate is established, the amount of twenty-year pension plan qualifying service which precedes his or her contribution rate fixation date and with which he or she is credited pursuant to the applicable provisions of this chapter differs from the amount of such preceding service which was reflected in the establishment of such rate; no change shall be made in such rate, unless such contributor files with the retirement board a request for a recomputed normal rate of contribution.

(2) If such a request is filed, the normal rate of contribution of such contributor shall be recomputed to equal that which would have been originally established for him or her on the basis of the revised amount of such twenty-year pension plan qualifying service preceding his or her contribution rate fixation date and a new normal rate of contribution, as so recomputed, shall be established for such contributor as promptly as is practicable.

(3) If any such contributor does not file a request for recomputation of his or her normal rate of contribution pursuant to subparagraph one of this paragraph (c), his or her normal rate of contribution shall remain unchanged until the date of his or her retirement, at which time such rate shall be recomputed in the manner prescribed by the applicable provisions of subparagraph two of this paragraph (c).

(d) In any case where:

(i) a normal rate of contribution is established for a twenty-year pension plan contributor and such contributor, after such rate is established, acquires credit for service by transfer as described in subdivision forty-four of section 13-501 of this chapter (relating to definitions); his or her normal rate of contribution shall be recomputed to equal that which would have been established for him or her if when such rate was orginally established, the status and additional credited service resulting from such transfer and been reflected in such original fixation and a new normal rate contribution, as so recomputed, shall be established for such contributor as promptly as is practicable.

(e) In any case where a new normal rate of contribution is established for a contributor pursuant to subparagraph two of paragraph (c) of this subdivision seven or paragraph (d) of this subdivision, his or her contributions to the retirement system, on and after the date of establishment of such new rate, shall be in accordance with the applicable provisions of this chapter, on the basis of such new rate.

(f) In the event that a recomputed normal rate of contribution established for a contributor pursuant to paragraph (c) or paragraph (d) of this subdivision seven is lower than the rate originally established for such contributor, he or she shall not be entitled to a refund of any part of the contributions made by him or her on the basis of his or her prior normal rate of contribution, except to the extent that such contributor may be entitled to withdraw excess contributions pursuant to subdivision four of section 13-525 of this chapter.

(g) In any case where a recomputed normal rate of contribution is established for a contributor pursuant to subparagraph two or subparagraph three of paragraph (c) of this subdivision seven or paragraph (d) of this subdivision, the minimum accumulation of such contributor for the entire period of his or her first twenty years of twenty-year pension plan qualifying service shall be the amount computed as prescribed by the applicable provisions of paragraphs (b), (c) and (d) of subdivision twenty of section 13-501 of this chapter, on the basis of such recomputed rate.

8. a. As used in this subdivision eight, the following terms shall mean and include:

(i) "Employee at maximum salary level". An employee of the board of education who has attained the maximum salary step of the salary schedule currently applicable to him or her.

(ii) "Eligible teacher contributor". A contributor who is employed by the board of education as a teacher and who, as of any month with respect to which his or her entitlement to a city contribution under this section is to be determined, is an employee at maximum salary level.

(iii) "Eligible supervisor contributor". A contributor who holds a postion with the board of education of the city, the principle duty of which is supervision of subordinates and who, as of any month as to which his or her entitlement to a city contribution under this section is to be determined, is an employee at maximum salary level.

(iv) "Variable annuity program election". The currently effective election of an eligible teacher contributor or eligible supervisor contributor pursuant to subdivisions a and d of section 13-568 of this chapter.

b. Except as otherwise provided in paragraph f of this subdivision, beginning with the month of October, nineteen hundred seventy, and each month thereafter, the city shall contribute the applicable amount prescribed by subdivision c of this section to the account or accounts of each eligible teacher contributor and each eligible supervisor contributor in the annuity savings fund and/or the variable annuity savings fund, in the same proportion as the contributions of such contributor for such month are credited to such account or accounts pursuant to his or her variable annuity program election, if any.

c. In the case of an eligible teacher contributor, such monthly amount shall be one-twelfth of four hundred dollars. In the case of an eligible supervisor contributor, such monthly amount shall be one-twelfth of five hundred fifty dollars.

d. Such city contributions credited to the account or accounts of any such eligible teacher contributor or eligible supervisor contributor shall for all purposes of this chapter be treated as and deemed to be voluntary additional contributions by such contributor. Any such city contributions credited to the annuity savings account of any such contributor shall, notwithstanding any other provision of law to the contrary, be treated as and deemed to be a part of his or her accumulated deductions.

e. In any case where the status of an eligible teacher contributor or eligible supervisor contributor changes so that his or her salary is no longer prescribed by the maximum salary step of the salary schedule applicable to him or her, he or she shall nevertheless be entitled to be credited with the city contribution under this section for the month in which such change occurs.

f. Notwithstanding any other provision of this subdivision to the contrary, the contributions which the city would otherwise be required to make for each month of the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city pursuant to the provisions of the preceding paragraphs of this subdivision shall not be made by the city. For each month of such fiscal year, there shall be paid from the contingent reserve fund into the account or accounts of each eligible teacher contributor and each eligible supervisor contributor in the annuity savings fund and/or variable annuity savings fund, an amount equal to the amount which would have been required by the preceding paragraphs of this subdivision to be paid by the city into such account or accounts for such month if this paragraph f had not been enacted. The amount or amounts so paid shall be credited in such account or accounts in the same manner and with the same force and effect as if such amount or amounts had been paid into such account or accounts pursuant to the provisions of the preceding paragraphs of this subdivision.

8-a. Annuity benefits for certain Tier III and Tier IV contributors. a. Notwithstanding any other provision of this title or any other law to the contrary, the following terms, as used in this subdivision eight-a, shall have the following meanings, unless a different meaning is plainly required by the context:

(i) "Annuitant". A qualified instructor contributor whose annuity has become payable under the provisions of paragraph j or paragraph k of this subdivision, or a qualified supervisor contributor whose annuity has become payable under the provisions of either such paragraph.

(ii) "Annuity accumulation". The total of the amounts of contributions made by the city on behalf of a qualified instructor contributor or qualified supervisor contributor pursuant to the applicable provisions of paragraphs c, d, e and f of this subdivision and standing to the credit of his or her account in the annuity savings accumulation fund established pursuant to paragraph b of this subdivision, together with interest on such contributions as prescribed by paragraph h of this subdivision.

(iii) "Board of education". The board of education of the city school district of the city.

(iv) "Contributor entitled to an annuity accumulation". A qualifed instructor contributor entitled to be credited with city contributions pursuant to the provisions of paragraph c and/or paragraph e of this subdivision or any qualified supervisor contributor entitled to be credited with city contributions pursuant to the provisions of paragraph d and/or paragraph f of this subdivision.

(v) "Instructional employee". An employee of the board of education who is a "present-teacher" as that term is defined in subdivision eight of section 13-501 of the code, other than any employee whose title was added by chapter nine hundred ninety-seven of the laws of nineteen hundred eighty-three to the provisions previously included in such subdivision eight.

(vi) "Instructional employee at maximum salary level". An instructional employee who has attained the maximum salary step of the salary schedule currently applicable to him or her.

(vii) "Qualified instructor contributor". A contributor who is an instructor and who also, as of any month with respect to which such contributor's entitlement to a city contribution under this subdivision is to be determined, is an instructional employee at maximum salary level.

(viii) "Qualified supervisor contributor". A contributor who is a supervisor and who, as of any month as to which such contributor's entitlement to a city contribution under this subdivision is to be determined, is an instructional employee at maximum salary level.

(ix) "Instructor". An instructional employee, other than any such employee who is a supervisor.

(x) "Supervisor". An instructional employee who holds a position, the principal duties of which consist of supervising employees of lower rank.

b. The retirement board shall promulgate such regulations as may be necessary and appropriate to establish a special fund, to be known as the "annuity savings accumulation fund", in which the retirement system shall maintain, in behalf of each contributor entitled to an annuity accumulation, a separate account to which shall be credited all amounts which the city is required by the applicable provisions of paragraphs c, d, e and f of this subdivision to contribute to such account for the benefit of such member.

c. With respect to each month occuring during the period beginning on July first, nineteen hundred seventy-six and ending on August thirty-first, nineteen hundred eighty-three, during which month a contributor was a qualified instructor contributor and also a Tier III member (as defined in subdivision fifty-four of section 13-501 of the code), the city shall pay into the account of such contributor in the annuity savings accumulation fund, a sum equal to one-twelfth of four hundred dollars.

d. With respect to each month occurring during such period mentioned in paragraph c of this subdivision, during which month a contributor was a qualified supervisor contributor and also a Tier III member, the city shall pay into the

account of such contributor in the annuity savings accumulation fund a sum equal to one-twelfth of five hundred fifty dollars.

e. With respect to each month occurring after August thirty-first, nineteen hundred eighty-three, during which month a contributor was or is a qualified instructor contributor and also a Tier IV member (as defined in subdivision fifty-five of section 13-501 of the code), the city shall pay into the account of such contributor in the annuity savings accumulation fund a sum equal to one-twelfth of four hundred dollars.

f. With respect to each month occurring after such August thirty-first, during which month a contributor was or is a qualified supervisor contributor and also a Tier IV member, the city shall pay into the account of such contributor in the annuity savings accumulation fund a sum equal to one-twelfth of five hundred fifty dollars.

g. In any case where the status of a qualified instructor contributor or qualified supervisor contributor changes so that the salary of such contributor is no longer prescribed by the maximum salary step of the salary schedule applicable to him or her, such contributor, if he or she was or is also a Tier III member or Tier IV member at the time when such change occurred or occurs, shall nevertheless be entitled to be credited with the city contribution under this subdivision for the month in which such change occurred or occurs.

h. Interest shall be credited on all sums paid into the account of each qualified instructor contributor and each qualified supervisor contributor pursuant to the provisions of paragraphs c, d, e and f of this subdivision at the rate of five per centum per annum, compounded annually.

i. In any case where the city, prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision, paid to the retirement system any sums equal in whole or in part to the amounts required by the provisions of paragraph c, d, e or f of this subdivision to be paid for any period by the city into the account of a contributor entitled to an annuity accumulation, such sum so previously paid by the city, together with interest thereon computed at the rate and in the manner prescribed by paragraph h of this subdivision, shall be credited for the same period to the account of such contributor in the annuity savings accumulation fund and such previous payments by the city, to the extent that they are sufficient therefor, shall be deemed to satisfy in full or pro tanto, as the case may be, the obligation of the city for such period to make the payments prescribed by such paragraph c, d, e or f.

j. Any qualified instructor contributor or qualified supervisor contributor:

(i) who is required by the provisions of this subdivision to be credited with an annuity accumulation; and

(ii) who, prior to the date of enactment of this subdivision, retired while he or she was a Tier III member or a Tier IV member, or prior to such date, became a Tier III member entitled to a vested benefit (as defined in subdivision fifty-six of section 13-501 of the code) or a Tier IV member entitled to a vested benefit (as defined in subdivision fifty-seven of section 13-501 of the code); shall be entitled to receive, in addition to any retirement allowance which such contributor is entitled to receive under the provisions of article fourteen or article fifteen of the retirement and social security law, an annuity which is the actuarial equivalent, as of the date on which such retirement allowance begins, of such contributor's annuity accumulation, as such annuity accumulation is required by this subdivision to be on such date. Such annuity shall begin on the date of commencement of such retirement allowance.

k. Any qualified instructor contributor or qualified supervisor contributor:

(i) who is required by the provisions of this subdivision to be credited with an annuity accumulation; and

(ii) who, on or after the date of enactment of this section, retires as a Tier IV member or on or after such date, becomes a Tier IV member entitled to a vested benefit; shall be entitled to receive, in addition to any retirement allowance which such contributor is entitled to receive under the provisions of article fifteen of the retirement and social security law, or if applicable, article fourteen of such law, an annuity which is the actuarial equivalent, as of the date on

which such retirement allowance begins, of such contributor's annuity accumulation, as such annuity accumulation is required by this subdivision to be on that date. Such annuity shall begin on the date of commencement of such retirement allowance.

1. In the case of any annuitant who retired during the period beginning on August first, nineteen hundred eighty-three and ending on the date next preceding the date of enactment of this subdivision, and in the case of any annuitant who, during such period, terminated service under such circumstances that he or she became a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit, the actuarial interest assumption which shall be used in determining the annuity of such annuitant shall be interest at the rate of seven per centum per annum, compounded annually, and the actuarial mortality assumption used in determining such annuity shall be the gender-neutral mortality tables for benefit computation purposes, as adopted by the retirement board, which took effect on August nineteenth, nineteen hundred eighty-five, with applicability prior to such date as provided for by the resolutions of such board adopting such tables.

m. In the case of any annuitant who, on or after the date of enactment of this subdivision, retires or terminates service under such circumstances that he or she becomes a Tier IV member entitled to a vested benefit, the actuarial interest assumption and actuarial mortality assumption used in determining the annuity of such annuitant shall be the applicable benefit computation interest rate and mortality tables for benefit computation purposes in effect for the retirement system on the effective date of such annuitant's retirement or on the date of such annuitant's termination of service so as to become a Tier IV member entitled to a vested benefit, as the case may be.

n. For the purpose of determining optional benefits and the amount of any supplemental retirement allowance, any retirement allowance payable pursuant to article fourteen or article fifteen of the retirement and social security law to an annuitant shall be deemed to consist of the total amount obtained by adding the annuity to which such annuitant is entitled under this subdivision to such retirement allowance payable pursuant to such article fourteen or article fifteen.

o. (i) If, prior to the date of enactment of this subdivision, or on or after such date of enactment, an ordinary death benefit became or becomes payable pursuant to article fourteen or article fifteen of the retirement and social security law by reason of the death of a contributor entitled to an annuity accumulation, the retirement system, in addition to paying such ordinary death benefit, shall pay the annuity accumulation of such contributor to the beneficiary entitled to receive such ordinary death benefit; provided, however, that the annuity accumulation shall be paid to the annuitant's estate, if the estate is entitled to receive such ordinary death benefit under the applicable provisions of such article fourteen or article fifteen.

(ii) In any case where a death referred to in subparagraph (i) of this paragraph occurs on or after the date of enactment of this subdivision, the contributor entitled to such annuity accumulation or the beneficiary entitled to receive such ordinary death benefit may elect, by a duly executed and acknowledged designation filed with the retirement system, that such annuity accumulation shall be paid in the form of an annuity. Such designation shall be filed prior to or within sixty days after the death of the contributor entitled to such annuity accumulation. Such annuity shall be the actuarial equivalent, as of the date of such member's death, of such annuity accumulation. The actuarial assumptions used in determining such annuity shall be the same as would have been required to be used, pursuant to the applicable provisions of paragraph m of this subdivision, to determine an annuity for such contributor, if he or she had retired on the date of his or her death.

p. If, prior to the date of enactment of this subdivision or on or after such date of enactment, the employment of a contributor entitled to an annuity accumulation terminated or terminates without entitlement on the part of the such contributor to an immediate or deferred retirement allowance or if a contributor entitled to an annuity accumulation transferred or transfers to another retirement system, the amount of the annuity accumulation of such contributor shall be paid to him or her, upon application therefor.

q. Notwithstanding any other provision of law to the contrary, a contributor entitled to an annuity accumulation

shall not be permitted to borrow any portion of such annuity accumulation. The variable annuity program of the retirement system shall not apply to any annuity accumulation or the contributions upon which it is based.

r. The provisions of subdivision eight of this section shall be inapplicable to any contributor entitled to an annuity accumulation and to the beneficiary or estate of any such contributor; provided, however, that the provisions of this paragraph shall not be construed as denying benefits under such subdivision eight to any beneficiary of a contributor who qualified for benefits under such subdivision eight, where such beneficiary under such subdivision eight became or becomes a Tier III or Tier IV member and himself or herself qualified or qualifies for benefits under this subdivision.

**NOTE**

Provisions of chap 773/1988

§ 2. Section four hundred thirty of the retirement and social security law shall not apply to any benefit or benefit improvement provided for by this act.

§ 3. This act shall take effect immediately and shall be deemed to have been in effect since July first, nineteen hundred seventy-six.

FISCAL NOTE.-This bill would clarify the entitlement of New York City Board of Education teachers and supervisors who have qualified for compensation at the maximum salary step and who are also Tier IV members of the New York City Teachers' Retirement System and/or former Tier III members of that Retirement System, to a City-financed retirement benefit similar to the benefit to which Tier I and Tier II teachers and supervisors at the maximum salary step are entitled under subdivision 8 of section 13-521 of the administrative code of the city of New York. It is estimated that, because of factors such as employer social security contributions, the employer cost of such payments would be more than the employer pension cost which would be entailed in providing the additional retirement benefits under the bill for these members. Consequently, the enactment of this bill would not create any additional employer cost. This estimate is intended for use only during the 1987 Legislative Session. It is Fiscal Note No. 87-10, dated January 30, 1987, prepared by the Acting Chief Attorney for the New York City Teachers' Retirement System.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-521.1 Pick up of member contributions of Tier I and Tier II members by employer.

a. Notwithstanding any other provision of law to the contrary, on and after the starting date for pick up, the employer responsible for pick up shall pick up and pay into the annuity savings fund (subject to the provisions of paragraph four of subdivision d of this section) the Tier I or Tier II member contributions eligible for pick up by the employer which each Tier I member (as defined in subdivision fifty-two of section 13-501 of this chapter) or Tier II member (as defined in subdivision fifty-three of such section 13-501) would otherwise be required to make on and after such starting date, including (1) any contributions required to be made for the purchase of credit for previous service or military service by its employees pursuant to an irrevocable payroll deduction agreement under subdivision b-1 of section four hundred forty-six of the retirement and social security law on and after the effective date of such subdivision, and (2) any contributions required to be made for the purchase of credit for prior service or military service by its employees pursuant to an irrevocable payroll deduction agreement under subdivision g of section 13-505 of this chapter on and after the effective date of such subdivision.

a-1. Notwithstanding any other provision of law to the contrary, the employer responsible for pick up shall, in the case of a member who is a participant in the age fifty-five retirement program (as defined in paragraph ten of subdivision a of section four hundred forty-five-i of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph three of subdivision d of section four hundred forty-five-i of the retirement and social security law, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three of subdivision d of section four hundred forty-five-i of the retirement and social security law otherwise would require such deductions.

b. An amount equal to the amount of such picked up contributions shall be deducted by the employer responsible for pick up from the salary of such member (as such salary would be in the absence of a pickup program applicable to him or her hereunder) and shall not be paid to such member. Such deduction shall be effected by means of subtraction from such member's current salary (as so defined) or offset against future pay increases, or a combination of such methods.

c. (1) The member contributions and additional member contributions picked up pursuant to this section for any Tier I member or Tier II member shall be paid by the employer responsible for pick up in lieu of an equal amount of the member contributions and additional member contributions otherwise required to be paid by such member under the provisions of this chapter or the retirement and social security law, and shall be deemed to be and treated as employer contributions pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, as amended, for the purposes, under federal law, for which such subsection h so classified such picked up contributions. Subject to the provisions of subdivision b of this section, for all other purposes, including but not limited to:

(i) the obligation of such member to pay New York state and New York city income and/or wages or earnings taxes and the withholding of such taxes; and

(ii) the determination of the amount of such member's Tier I or Tier II member contributions eligible for pick up by the employer or additional member contributions required to be picked up pursuant to subdivision a-one of this section; and

(iii) the determination of the amount of any retirement allowance or other retirement system benefit payable to or on account of such member or any other retirement system right, benefit or privilege of such member;

the amount of the member contributions and additional member contributions picked up pursuant to this section shall be deemed to be a part of the employee salary of such member and such member's gross salary (as it would be in the absence of a pick up program applicable to him or her hereunder) shall not be deemed to be changed by such member's participation in such program.

(2) Nothing contained in paragraph one of this subdivision c shall be construed as superseding the provisions of section four hundred thirty-one of the retirement and social security law or any similar provision of law which limits the salary base for computing retirement benefits payable by a public retirement system.

d. (1) For the purpose of determining the retirement system rights, benefits and privileges of any Tier I member or Tier II member whose Tier I or Tier II member contributions eligible for pick up by the employer are picked up pursuant to this section (including the procurement of loans by any such member), such picked up member contributions, subject to the provisions of subparagraph five of this paragraph, shall be deemed to be and treated (i) as member contributions made by such member pursuant to law and (ii) as a part of such member's accumulated deductions.

(2) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the age fifty-five retirement program (as defined in paragraph ten of subdivision a of section four hundred forty-five-i of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of section four hundred forty-five-i of the retirement and social security law.

(3) Interest on contributions picked up for any Tier I or Tier II member pursuant to this section (other than additional member contributions picked up pursuant to subdivision a-one of this section) shall accrue in favor of the member and be payable to the retirement system at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable to the retirement system on such contributions if they were made by such member in the absence of a pick up program applicable to such member under the provisions of this section.

(4) Where member contributions of any Tier I member or Tier II member are picked up and paid into the annuity savings fund pursuant to this section, such picked up contributions shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(5) For the purposes of determining the retirement system rights, benefits and privileges of any Tier I member or Tier II member who is a participant in a variable annuity program of the retirement system, his or her picked up member contributions shall, to the extent and in the proportions appropriate pursuant to his or her election to participate in such program, be deemed to be and treated as a part of his or her accumulated deductions and/or credits in his or her account in the variable annuity savings fund. A separate record shall be kept showing any such variable annuity savings fund account credits attributable to any such picked up contributions.

(6) Nothing contained in this subdivision shall be construed as granting member contributions or additional member contributions picked up under this section any status, under federal law, other than as employer contributions, pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, for the federal purposes for which such subsection h so classifies such picked up contributions.

e. No contributor whose member contributions or additional member contributions are required to be picked up pursuant to this section shall have any right to elect that such pick up, with accompanying deduction from the compensation of such contributor as prescribed by subdivision b of this section, shall not be effectuated.

**NOTE**

1. Provisions of chap 19/2008:

. . . . . .

§ 14. Nothing contained in sections six, seven, eight, nine, ten, eleven, twelve and thirteen of this act shall be construed to create any contractual right with respect to members to whom such section applies. The provisions of such sections are intended to afford members the advantages of certain benefits contained in the internal revenue code, and the effectiveness and existence of such sections and benefits they confer are completely contingent thereon.

. . . . . .

(c) the provisions of sections six, seven, eight, nine, ten, eleven, twelve and thirteen of this act shall remain in force and effect only so long as, pursuant to federal law, contributions picked up under such sections are not includible as gross income of a member for federal income tax purposes until distributed or made available to the member; (d) the amendments to section 13-521.1 of the administrative code of the city of New York made by sections seven, eight and nine of this act and the amendments made to subdivision 19 of section 2575 of the education law made by sections ten, eleven, twelve and thirteen of this act shall not affect the expiration of such provisions as provided for in chapter 681 of the laws of 1992, as amended; and

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-522 Contributions of members and their use; annuity reserve fund.

Upon the retirement of a contributor, his or her accumulated deductions shall be transferred from the annuity savings fund to a fund to be known as the annuity reserve fund. His or her annuity shall be paid out of such annuity reserve fund. Should such a beneficiary be restored to active service his or her annuity reserve shall thereupon be transferred from the annuity reserve fund to the annuity savings fund.

§ 13-523 Transferred contributor.

Any contributor who resigns his or her position to accept and who, within sixty days thereafter, does accept another position in the city-service shall continue to be a contributor while in such city-service and shall be known as a transferred-contributor provided he or she executes and files with the retirement board a statement in writing that he or she elects to leave with the annuity savings fund his or her accumulated deductions and to continue to contribute to such fund at a rate of salary deduction not less than the rate of deduction theretofore required from his or her salary, and further provided that he or she shall waive and renounce any present or prospective benefit from any other retirement system or association supported wholly or in part by the city. Where an election is made pursuant to the provisions of this section, the salary deductions required by such provisions shall be appropriately modified, if a rate of deduction is otherwise fixed, pursuant to section 13-546 of this chapter, for the transferred-contributor making such election.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-524 Other provisions relative to contributions of members.

a. Subject to the provisions of subdivision b of this section, a contributor shall not be required to continue to contribute to the annuity savings fund after he or she shall have become eligible for service retirement. All contributions made thereafter to such fund shall be voluntary. However, this subdivision a shall not apply to a contributor who elects to contribute at a rate not in excess of fifteen per centum in accordance with the provisions of subdivision two of section 13-521 and paragraph d of subdivision one of section 13-554, as amended; nor shall this subdivision apply to a member who became a contributor to the teachers' retirement system subsequent to April thirtieth, nineteen hundred sixty-three.

b. The provisions of subdivision a of this section shall be inapplicable to a twenty-year pension plan contributor and to an age-fifty-five-increased-benefits pension plan contributor.

c. A twenty-year pension plan contributor shall not be required to contribute to the retirement system after the later of the following dates:

(1) the date on which he or she becomes eligible to retire for service; or

(2) the date on which his or her accumulated deductions equal his or her minimum accumulation.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-525 Change of rate of contribution; withdrawal of excess.

Subject to such terms and conditions and to such rules and regulations as the retirement board may adopt, any contributor from time to time may:

1. Increase or decrease his or her rate of contribution to the annuity savings fund, but in no event shall the contribution of a present-teacher be less than the minimum contribution, nor shall the contribution of a new-entrant, other than a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor, be at a rate less than the per cent rate provided for such new-entrant in section 13-521 (2) of this chapter, (relating to contributions of newentrants) nor, in the case of a twenty-year pension plan contributor, shall his or her effective contribution rate as a twenty-year pension plan contributor (as such rate is defined in subdivision forty-five of section 13-501 of this chapter) be less than that established for such contributor as provided in subdivision seven of such section 13-521, nor in the case of an age-fifty-five-increased-benefits pension plan contributor, shall his or her effective contribution rate as an age-fifty-five-increased-benefits pension plan contributor (as such rate is defined in subdivision forty-six of such section 13-501) be less than that established for such contributor as provided in subdivision seven of such section 13-521; provided that nothing contained in this subdivision shall deprive any contributor of a reduction in contributions to which such contributor may be entitled under the provisions of section 13-546 of this chapter;

2. If a present-teacher who is not a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor, withdraw from his or her individual account in the annuity savings fund the amount in excess of his or her minimum accumulation;

3. If he or she is not a twenty-year pension plan contributor or an age-fifty-five-increased benefits pension plan

contributor, withdraw, after having become eligible for service retirement, such part of his or her accumulated deductions as shall be in excess of the amount necessary to procure for him or her an annuity which, if added to his or her prospective pension and his or her pension-providing-for-increased-take-home-pay, if any, will yield a retirement allowance of fifty per cent of his or her average salary.

4. If he or she is a twenty-year pension plan contributor, withdraw, after becoming eligible for service retirement, such part of his or her accumulated deductions as shall be in excess of his or her minimum accumulation; provided, however, that any such contributor who makes an original or any subsequent withdrawal of any such excess or any part thereof shall not be entitled to make a further withdrawal of any such excess or part thereof during a period of one year after the last such withdrawal except that a contributor may make a withdrawal at the time of retirement regardless of any previous withdrawals.

§ 13-526 Contributions of the city and their use; expense fund.

a. The expense fund shall consist of such amounts as shall be appropriated, if any, by the employer on estimates submitted by the retirement board, to defray the expenses of the administration of this chapter, and such funds as may be secured pursuant to the provisions of subdivision b of section 13-518 of the code, subdivision k of section 13-570 of the code and subdivision b of section 13-582 of the code exclusive of the payment of pensions, of pensions-providing-for-increased-take-home-pay, of annuities, of retirement allowances, and of the other benefits provided for in this chapter.

b. The executive director shall develop procedures to ensure that the amounts expended during a fiscal year by the retirement system do not exceed the amounts paid into the expense fund pursuant to this section. Appropriate reporting will be made to the mayor's office of management and budget so as to provide the city of New York with the ability to conduct an independent analysis. Additionally, expenditures of the retirement system from the expense fund shall be subject to audit by the comptroller, who may recommend procedures designed to improve the accounting and expenditure controls.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-527 Contributions of the city and their use; contingent reserve fund.

a. (1) Subject to the provisions of sections 13-528 and 13-529 of this chapter and subdivision i of this section, the city shall contribute to the contingent reserve fund:

(a) annually an amount computed pursuant to subdivision b of this section, to be known as the "normal contribution"; and

(b) in equal annual installments during the period beginning with fiscal year nineteen hundred seventy-seven-nineteen hundred seventy-eight and ending on the last day of fiscal year nineteen hundred seventy-nine-nineteen hundred eighty, an additional amount computed pursuant to subdivision c of this section, to be known as the "original unfunded accrued liability contribution"; and

(c) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one, and ending on the last day of fiscal year two thousand fourteen-two thousand fifteen, the annual installment, applicable to such fiscal year, of an additional amount computed pursuant to subdivision d of this section, to be known as the "revised unfunded accrued liability contribution"; and

(d) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-one-nineteen hundred eighty-two, and ending on the last day of fiscal year two thousand twenty-two thousand twenty-one, the annual installment, applicable to such fiscal year, of an additional amount computed pursuant to subdivision f of this section, to be known as the "balance sheet liability contribution"; and

(e) in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the amount of one year's interest, at the rate of seven and one-half per centum per annum, on the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty, as determined pursuant to the provisions of subdivision f of this section; and

(f) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the city's obligation, if any, which accrued in such fiscal year, to make contributions on account of increased-take-home-pay; and

(g) in each fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the city's obligation, which accrued in such fiscal year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of contributors qualifying for such benefit, member contributions with respect to certain periods of the military service of such contributors.

(2) (a) Subject to the provisions of subparagraph (d) of this paragraph two, if the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to subdivision e of this section is a credit, the total of the amounts required to be contributed to the contingent reserve fund by the city in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, pursuant to subparagraphs (a), (c), (d), (e), (f) and (g) of paragraph one of this subdivision a and otherwise pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(b) Subject to the provisions of sections 13-528 and 13-529 of this chapter, if the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to such subdivision e is a charge, the city shall contribute in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, in addition to the amounts required to be contributed under the provisions of subparagraph one of this subdivision a, one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(c) Subject to the provisions of subparagraph (d) of this paragraph two, the total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year and ending with the two thousand eleven-two thousand twelve fiscal year pursuant to the applicable provisions of subparagraphs (a), (c), (d), (f) and (g) of paragraph one of this subdivision a and the applicable provisions of subparagraphs (a) and (b) of this paragraph two and otherwise pursuant to law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-two unfunded accrued liability adjustment determined pursuant to paragraph nine of subdivision e of this section.

(c-1) Subject to the provisions of subparagraph (d) of this paragraph two, the total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and ending with the two thousand fourteen-two thousand fifteen fiscal year pursuant to the applicable provisions of subparagraphs (a), (c), (d), (f) and (g) of paragraph one of this subdivision a and the applicable provisions of subparagraphs (a) and (b) of this paragraph two and otherwise pursuant to law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to paragraph ten of subdivision e of this section.

(c-2) Subject to the provisions of subparagraph (d) of this paragraph two, the total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-six-nineteen hundred eighty-seven fiscal year and ending with the two thousand fifteen-two thousand sixteen fiscal year pursuant to the applicable provisions of subparagraphs (a), (c), (d), (f) and (g) of paragraph one of this subdivision a and the applicable provisions of subparagraphs (a) and (b) of this paragraph two and otherwise pursuant to

law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-six unfunded accrued liability adjustment determined pursuant to paragraph eleven of subdivision e of this section.

(d) The installments of the nineteen hundred eighty-two unfunded accrued liability adjustment and the nineteen hundred eighty-five unfunded accrued liability adjustment (determined pursuant to paragraph ten of subdivision e of this section) and the nineteen hundred eighty-six unfunded accrued liability adjustment (determined pursuant to paragraph eleven of such subdivision e), and, if the nineteen hundred eighty unfunded accrued liability adjustment is a credit, the installments of such credit shall be allocated among the city and other obligors required to pay public employer contributions on account of members of the retirement system, such allocation to be made in accordance with the shares of such installments attributable to them pursuant to the provisions of law prescribing their obligations to make or assume responsibility for employer contributions.

(e) For the purpose of effectuating the nineteen hundred eighty-eight unfunded accrued liability adjustment provided for in section 13-638.1 of the code, contributions to the contingent reserve fund on account of charges shall be made by responsible obligors (as defined in paragraph six of subdivision a of such section) or credits shall be allowed to such obligors against contributions otherwise payable by them, as the case may be, to the extent and in the manner provided for in such section. The annual determination of the normal contribution for fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight shall appropriately take account of the nineteen hundred eighty-eight unfunded accrued liability adjustment in the manner provided for in such section 13-638.1 and the provisions of subdivision b of this section shall be deemed to be conformably modified for such purpose.

(3) (i) Any amount required by the provisions of subparagraphs (c), (d), (e), (f) and (g) of paragraph one of this subdivision a and section 13-704 of this title to be contributed to the contingent reserve fund in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year or any subsequent fiscal year shall be payable with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable in such fiscal year.

(ii) Any amount required to be contributed to the contingent reserve fund in any fiscal year of the city preceding the nineteen hundred eighty-nineteen hundred eighty-one fiscal year shall be deemed to have been required to be paid with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund in such fiscal year.

(iii) It is hereby declared that the provisions of subparagraphs (i) and (ii) of this paragraph three, in so far as they relate to provisions of this chapter or other laws requiring payment of employer contributions to the retirement system prior to July thirty-first, nineteen hundred eighty-one, express the intent of such provisions of this chapter or other laws requiring such payment.

b. Normal contribution.

(1) Upon the basis of the latest mortality and other tables herein authorized and regular interest, the actuary shall determine as of June thirtieth, nineteen hundred eighty and as of each succeeding June thirtieth, the amount of the total liability for all benefits provided in this chapter, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all contributors and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund and to the variable annuity savings fund, provided, however, that in determining such total liability as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the actuary shall include (a) the liability on account of future reserve-for-increased-take-home-pay contributions, if any, (b) the liability on account of future city obligations under the provisions of subdivision twenty of

section two hundred forty-three of the military law, to pay in behalf of contributors qualifying for such benefit, member contributions with respect to certain periods of the military service of such contributors, and (c) the liability for benefits attributable to the annuity savings fund and to the variable annuity savings fund, and provided further that in determining such total liability as of June thirtieth, nineteen hundred ninety-nine and as of each succeeding June thirtieth, the actuary shall include any other liability, as determined by the actuary, for benefits attributable to the variable annuity programs, and provided further that in determining such total liability as of June thirtieth, two thousand and as of each succeeding June thirtieth, the actuary shall include the amount, if any, as estimated by the actuary, of the total liability of the retirement system on account of payments which the retirement system may be required to make to any other fund without a corresponding offset in the liabilities of the retirement system.

(1-a) Notwithstanding any other provision of law to the contrary, for the purpose of calculating the amount of the normal contribution due from the city to the contingent reserve fund pursuant to paragraph four of this subdivision in fiscal year two thousand five-two thousand six, and in each fiscal year thereafter, both the total liability of the retirement system, as calculated by the actuary in accordance with paragraph one of this subdivision, and the normal rate of contribution, as calculated by the actuary in accordance with paragraphs two and three of this subdivision, shall be determined as of June thirtieth of the second fiscal year preceding the fiscal year in which the normal contribution is payable, provided, however, that (a) the actuary shall use for such calculations the mortality and other tables that are applicable at the time he or she performs such calculations; (b) the total funds on hand, as determined by the actuary pursuant to item (v) of subparagraph (a) of paragraph two of this subdivision, shall be adjusted by adding to such amount the present value of all employer contributions required to be paid into the contingent reserve fund in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary; and (c) the present value of the prospective future salaries of all members, as computed by the actuary for the purposes of subparagraph (c) of paragraph two of this subdivision, shall be reduced by the present value of the salaries expected to be paid to all members in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary.

(2) The normal rate of contribution shall be the rate per centum obtained:

(a) by adding together:

(i) (1) the amount obtained by adding together the present value of all required future revised unfunded accrued liability contributions and the present value of all required future payments of the nineteen hundred eighty unfunded accrued liability adjustment, determined pursuant to subdivision e of this section, if such adjustment is a charge; or

(2) the remainder obtained by subtracting from the present value of all required future revised unfunded accrued liability contributions, the present value of all future installments of the nineteen hundred eighty unfunded accrued liability adjustment required to be credited, if such nineteen hundred eighty adjustment is a credit; and

(3) minus (whether (1) or (2) of this item (i) is applicable) the sum of the present value of all future installments of the nineteen hundred eighty-two unfunded accrued liability adjustment and the present value of all future installments of the nineteen hundred eighty-five unfunded accrued liability adjustment and (with respect to calculation of the normal contribution for fiscal years succeeding June thirtieth, nineteen hundred eighty-six) the present value of all future installments of the nineteen hundred eighty-six unfunded accrued liability adjustment; and

(ii) the present value of all required future balance sheet liability contributions, plus, in the case of the determination of the normal contribution payable in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the present value, as of June thirtieth, nineteen hundred eighty, of the payment of interest on the balance sheet liability as required by subparagraph (e) of paragraph one of subdivision a of this section; and

(iii) the present value of all required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(iv) in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, the present value of future member contributions of all contributors; and

(v) the total funds on hand, excluding the amount in pension reserve fund number two, but including the amount of any unpaid moneys appropriated pursuant to section 13-533 of this chapter and, in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, including the amount in the annuity savings fund and in the variable annuity savings fund; and

(vi) the present value of all other future installments of accrued liability contributions to the retirement system required by the applicable provisions of section 13-638.2 of this title which are not covered by the preceding items of this subparagraph (a); and

(b) by subtracting from the amount of the total liability determined pursuant to paragraph one of this subdivision b the sum resulting from the addition prescribed by subparagraph (a) of this paragraph two; and

(c) by dividing the remainder resulting from the applicable subtraction prescribed by subparagraph (b) of this paragraph two by one per centum of the present value of the prospective future salaries of all contributors, as computed by the actuary on the basis of the latest mortality and service tables adopted pursuant to section 13-514 of this chapter, and on the basis of regular interest.

(3) The normal rate of contribution determined by the actuary shall not be less than zero, shall be certified by the actuary after each valuation and shall continue in force until the next succeeding valuation and certification.

(4) (a) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand four-two thousand five fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of June thirtieth next preceding such fiscal year, by the aggregate annual salaries of the members on such June thirtieth next preceding such fiscal year in which such amount is due and shall be payable in such fiscal year next following such June thirtieth, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(b) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the two thousand five-two thousand six fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of the second June thirtieth preceding the fiscal year in which the normal contribution is payable, in accordance with the provisions of paragraphs one-a, two and three of this subdivision, by the aggregate amount of the salaries expected to be paid to the members during the fiscal year in which the normal contribution is payable, as determined by the actuary, and such normal contribution shall be payable in the second fiscal year following the June thirtieth as of which the normal rate of contribution is determined, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(c) In the case of the normal contribution payable in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in any subsequent fiscal year, the term "regular interest" as used in this paragraph four shall mean regular interest as defined by the applicable provisions of subparagraph (ii) or subparagraph (iii) of paragraph (c) or paragraph (d) of subdivision twenty-two of section 13-501 of this chapter.

c. Unfunded accrued liability contributions. The original unfunded accrued liability contribution shall be an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year, would be the actuarial equivalent, on the basis of five and one-half percentum interest and the actuarial tables in effect as of July first, nineteen hundred seventy-seven, of the difference between (1) the accrued liability (excluding the liability for benefits attributable to the annuity savings fund and the variable annuity savings fund and to pension reserve fund number two),

on June thirtieth, nineteen hundred seventy-five and (2) the total funds on hand, excluding the amount in the annuity savings fund and variable annuity savings fund and in pension reserve fund number two, but including the amount of any unpaid moneys appropriated pursuant to section 13-533 of this chapter.

d. (1) The revised unfunded accrued liability contribution shall be an amount determined as prescribed in paragraphs two, three, four, five, six and seven of this subdivision d.

(2) To the amount of the difference constituting the unfunded accrued liability as of June thirtieth, nineteen hundred seventy-five heretofore determined pursuant to the provisions of subdivision c of this section as in effect on July first, nineteen hundred seventy-seven, there shall be added interest thereon at the rate of five and one-half per centum per annum for the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty.

(3) (a) There shall be computed, in the manner provided in subparagraph (b) of this paragraph three, the discounted value of each of the installments of the unfunded accrued liability contribution which, in the absence of the enactment of chapter nine hundred fifty-seven of the laws of nineteen hundred eighty-one, were payable or would have been payable in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight, nineteen hundred seventy-eight-nineteen hundred seventy-nine, nineteen hundred seventy-nine-nineteen hundred eighty, nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year.

(b) Such discounted value of each such installment shall be computed as of January first of the city's second fiscal year preceding the fiscal year in which such installment was payable or would have been payable and on the basis of five and one-half per centum interest per annum on the amount of such installment.

(c) There shall be added to such discounted value of each such installment, interest thereon from January first of such second fiscal year preceding the fiscal year in which such installment was or would have been payable to June thirtieth, nineteen hundred eighty at the rate of five and one-half per centum per annum.

(d) The discounted values of all of such installments with respect to such fiscal years, computed as provided for in subparagraphs (a) and (b) of this paragraph three, together with interest on each such installment as provided for in subparagraph (c) of this paragraph, shall be added together.

(4) From the sum computed pursuant to paragraph two of this subdivision d, the sum computed pursuant to paragraph three of this subdivision shall be subtracted.

(5) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-five equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of the remainder computed pursuant to paragraph four of this subdivision.

(6) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-three equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of the installments of the revised unfunded accrued liability contribution computed pursuant to paragraph five of this subdivision, which installments are hypothetically allocated by such paragraph five to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(7) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending June thirtieth, two thousand fifteen, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of the installments of the revised unfunded accrued liability contribution computed pursuant to paragraph six of this subdivision, which installments are hypothetically allocated by such paragraph six to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

e. (1) The nineteen hundred eighty unfunded accrued liability adjustment shall be an amount determined as prescribed in paragraphs two, three, four, five, six and seven of this subdivision e.

(2) (a) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty, the amount of the total liability for all benefits provided in this chapter, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all contributors and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, the liability for benefits attributable to the annuity savings fund and to the variable annuity savings fund and the liability attributable to pension reserve fund number two.

(b) From such total liability computed pursuant to subparagraph (a) of this paragraph two, there shall be subtracted the sum of:

(i) the present value, as of June thirtieth, nineteen hundred eighty, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(ii) the present value, as of such June thirtieth, of all future installments of the balance sheet liability contribution (as defined in subdivision f of this section); and

(iii) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(iv) the present value, as of such June thirtieth, of future member contributions of contributors subject to article fourteen of the retirement and social security law; and

(v) the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund and in the variable annuity savings fund and in pension reserve fund number two, but including the amount of any unpaid moneys appropriated pursuant to section 13-533 of this chapter.

(3) (a) If the amount computed pursuant to paragraph two of this subdivision e is larger than the amount computed pursuant to paragraph four of subdivision d of this section, the latter amount shall be subtracted from the former amount and the remainder resulting from such subtraction shall constitute a charge.

(b) If the amount computed pursuant to paragraph two of this subdivision is smaller than the amount computed pursuant to paragraph four of subdivision d of this section, the former amount shall be subtracted from the latter amount and the remainder resulting from such subtraction shall constitute a credit.

(4) (a) If the remainder computed pursuant to paragraph three of this subdivision e is a charge, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred

eighty-nineteen hundred eighty-one fiscal year, shall be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(b) If the remainder computed pursuant to paragraph three of this subdivision is a credit, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year) in reduction of the amount which the city (and other obligors required to make public employer contributions on account of contributors to the retirement system) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (e), (f) and (g) of paragraph one of subdivision a of this section, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(5) If the nineteen hundred eighty unfunded accrued liability adjustment is a credit, the installments of such credit shall be allocated among the city and such other obligors in accordance with the shares thereof attributable to them pursuant to the provisions of law prescribing their obligations to make or assume responsibility for employer contributions.

(6) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of the city's nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to paragraph four of this subdivision e, which installment is applicable to such fiscal year, shall be applied as a charge or a credit, as the case may be, in relation to such contributions payable in such fiscal year.

(7) (a) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid (if a charge) or credited (if a credit) in twenty-eight equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of the installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to paragraph four of this subdivision e, which installments are hypothetically allocated by such paragraph four to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(b) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand ten, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, when paid (if a charge) or credited (if a credit) in twenty-two equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to subparagraph (a) of this paragraph seven, which installments are hypothetically allocated by such subparagraph (a) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(8) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of such city fiscal years referred to in paragraph seven of this subdivision e, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to such paragraph seven, which installment is applicable to such fiscal year, shall be applied as a charge or credit, as the case may be, in relation to such contributions payable in such fiscal year.

(9) (a) The nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount determined

as prescribed in subparagraphs (b), (c), (d) and (e) of this paragraph nine.

(b) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-one for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(c) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-two for valuation purposes and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(d) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contribution on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to subparagraph (b) of this paragraph nine over the amount computed pursuant to subparagraph (c) of this paragraph.

(e) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twelve, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, when credited in twenty-four equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contribution on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-two unfunded accrued liability adjustment computed pursuant to subparagraph (d) of this paragraph nine, which installments are hypothetically allocated by such subparagraph (d) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(10) (a) The nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount determined as prescribed in subparagraphs (b), (c), (d) and (e) of this paragraph ten.

(b) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-four-nineteen hundred eighty-five fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(c) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(d) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contributions on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to subparagraph (b) of this paragraph ten over the amount computed pursuant to subparagraph (b) of this paragraph ten over the amount computed pursuant to subparagraph (c) of this paragraph.

(e) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount which, when credited in twenty-seven equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contributions on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-five unfunded accrued liability adjustment computed pursuant to subparagraph (d) of this paragraph ten, which installments are hypothetically allocated by such subparagraph (d) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(11) (a) The nineteen hundred eighty-six unfunded accrued liability adjustment shall be an amount determined as prescribed in subparagraphs (b), (c), (d) and (e) of this paragraph eleven.

(b) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-six, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(c) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-six-nineteen hundred eighty-seven fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-six, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(d) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-six and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-six unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-six-nineteen hundred eighty-seven fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contributions on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to subparagraph (b) of this paragraph eleven over the amount computed pursuant to subparagraph (c) of this paragraph.

(e) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand sixteen, the nineteen hundred eighty-six unfunded accrued liability adjustment shall be an amount which, when credited in twenty-eight equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contributions on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to subparagraphs (a), (c), (d), (f) and (g) of paragraph one of subdivision a of this section or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-six unfunded accrued liability adjustment computed pursuant to subparagraph (d) of this paragraph eleven, which installments are hypothetically allocated by such subparagraph (d) to designated fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

f. (1) As used in this section, the following words and phrases, unless a different meaning is plainly required by the context, shall have the following meanings:

(a) (i) "Normal contribution for balance sheet liability purposes". The hypothetical amount which the normal contribution payable in each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty would have equalled if such normal contribution had been required by law to be paid to the contingent reserve fund in the city fiscal year in which the obligation to make such normal contribution accrued and such normal contribution had been required by law to be determined in the manner provided for in items (ii), (iii) and (iv) of this subparagraph (a).

(ii) Upon the basis of the mortality and other tables effective under this chapter as of July first, nineteen hundred seventy-seven and interest at the rate of five and one-half per centum per annum, the actuary shall determine, as of June thirtieth next preceding each such fiscal year for which such normal contribution is being determined (hereinafter referred to as the "subject fiscal year") the amount of the then total liability for all benefits provided in this chapter, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all then contributors and beneficiaries, excluding the then liability on account of future annual contributions, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in subparagraph (d) of this paragraph one) if any, and the then liability for benefits attributable to the annuity savings fund and the variable annuity savings fund.

(iii) The hypothetical normal rate of contribution with respect to the subject fiscal year shall be the rate per centum obtained:

(A) by adding together:

(1) the present value of all then required future unfunded accrued liability contributions for balance sheet liability purposes (as defined in subparagraph (b) of this paragraph one); and

(2) the present value of all then required future annual contributions, for balance sheet liability purposes, on account of amortization of losses on dispositions of securities within the meaning of section 13-704 of this title (as defined in subparagraph (c) of this paragraph one); and

(3) the present value of future member contributions of contributors subject to article fourteen of the retirement and social security law; and

(4) the amount obtained by adding together the total funds on hand (excluding therefrom the then amount in the annuity savings fund and in the variable annuity savings fund and in pension reserve fund number two) and balance sheet liability as of such June thirtieth next preceding the subject fiscal year; and

(B) by subtracting from the amount of the total liability determined pursuant to item (ii) of this subparagraph (a) the sum resulting from the addition prescribed by sub-item (A) of this item (iii); and

(C) by dividing the remainder resulting from the applicable subtraction prescribed by sub-item (B) of this item (iii) by one per centum of the present value of the prospective future salaries of all contributors, as computed on the basis of the mortality and service tables adopted pursuant to section 13-514 of this chapter and in effect on July first, nineteen hundred seventy-seven and on the basis of interest at the rate of five and one-half per centum per annum.

(iv) The amount of the normal contribution for balance sheet liability purposes hypothetically payable in the subject fiscal year shall be the amount obtained (1) by multiplying such hypothetical normal contribution rate computed with respect to the subject fiscal year by the aggregate annual salaries of the members as of June thirtieth of the subject fiscal year and (2) by adding to the product of such multiplication, interest on such product at the rate of five and one-half per centum per annum for a period of six months.

(b) "Unfunded accrued liability contribution for balance sheet liability purposes".

(i) With respect to the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed in the manner prescribed by items (ii) and (iii) of this subparagraph (b).

(ii) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-four, the amount of the total liability for all benefits provided by this chapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by retirement system on account of all contributors and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund and the variable annuity savings fund.

(iii) From such total liability computed pursuant to item (ii) of this subparagraph (b) there shall be subtracted the sum of:

(A) the present value, as of June thirtieth, nineteen hundred seventy-four, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(B) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title (as then in effect), of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(C) the sum obtained by adding together the balance sheet liability as of such June thirtieth (as such liability is determined pursuant to the provisions of paragraph two of this subdivision f) and the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund and the variable annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-533 of this chapter.

(iv) With respect to each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed pursuant to items (v) and (vi) of this subparagraph (b).

(v) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation

purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-five, the amount of the total liability for all benefits provided by this chapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all contributors and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund and the variable annuity savings fund.

(vi) From such total liability computed pursuant to item (v) of this subparagraph (b), there shall be subtracted the sum of:

(A) the present value, as of June thirtieth, nineteen hundred seventy-five, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(B) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title (as then in effect), of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(C) the sum obtained by adding together the balance sheet liability as of such June thirtieth (as such liability is determined pursuant to the provisions of subparagraphs three to nine, inclusive, of this subdivision (f)*13 and the total funds on hand, as of such June thirtieth, excluding the amount in the annuity savings fund and the variable annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-533 of this chapter.

(c) "Annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount of the excess of installments (payable in such year) of losses on prior dispositions of securities within the meaning of section 13-704 of this title over installments (creditable in such year) of gains on such prior dispositions, which annual amount shall be determined in the manner provided in subdivision h of such section 13-704.

(d) "Annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year, to make contributions on account of increased-take-home-pay.

(e) "Annual military law contribution for balance sheet liability purposes". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit member contributions with respect to certain periods of military service of such members.

(f) "Deficiency contribution". The total annual amount which, under the provisions of subdivisions a, c and f of this section, as such provisions were in effect during the period from July first, nineteen hundred seventy-two to June thirtieth, nineteen hundred seventy-seven, the city was required to pay to the contingent reserve fund in each of the city's nineteen hundred seventy-four-nineteen hundred seventy-five, and nineteen hundred seventy-five-nineteen hundred seventy-six and nineteen hundred seventy-six-nineteen hundred seventy-seven fiscal years.

(g) "Contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities". The total annual amount by which the sum of the installments of losses, payable pursuant to section 13-704 of this title (as in effect prior to July first, nineteen hundred eighty) in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty in relation to

dispositions of securities.

(2) The balance sheet liability as of June thirtieth, nineteen hundred seventy-four shall be the sum of five hundred thirty-two million, three hundred eighty-two thousand, one hundred forty-eight dollars ($532,382,148), consisting of the sum of:

(a) The discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of two hundred fifty million, six hundred fifty-four thousand, two hundred forty dollars ($250,654,240), which constituted the amount payable to the contingent reserve fund in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year by the city in fulfillment of its obligations to make contributions to the retirement system payable in such year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of six months extending retroactively from January first, nineteen hundred seventy-five to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of two hundred forty-four million, thirty-three thousand, two hundred eight dollars ($244,033,208); and

(b) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of three hundred twelve million, four hundred sixty-one thousand, nine hundred forty dollars ($312,461,940), which constituted the amount payable to the contingent reserve fund in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year by the city in fulfillment of its obligations to make contributions to the retirement system payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of eighteen months extending from January first, nineteen hundred seventy-six retroactively to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of two hundred eighty-eight million, three hundred forty-eight thousand, nine hundred forty dollars ($288,348,940).

(3) The balance sheet liability, as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four to and including June thirtieth, nineteen hundred eighty, shall be determined as provided for in paragraphs four to ten, inclusive, of this subdivision f.

(4) To the amount of the balance sheet liability as of June thirtieth next preceding the June thirtieth (which last-mentioned June thirtieth is hereinafter referred to as the "subject June thirtieth") as of which the balance sheet liability is being determined as provided for in paragraph three of this subdivision f, there shall be added one year's interest on such amount at the rate of five and one-half per centum per annum.

(5) With respect to the city's fiscal year ending on the subject June thirtieth (hereinafter referred to as the "subject fiscal year"), there shall be added together the contribution components hereinafter specified in this paragraph five, which components, for the purposes of this subdivision f, are hypothetically deemed to have accrued in the subject fiscal year and to have been payable therein, as follows:

(a) the amount of the normal contribution for balance sheet liability purposes (as defined in subparagraph (a) of paragraph one of this subdivision f); and

(b) the amount of the applicable installment of the unfunded accrued liability contribution for balance sheet liability purposes (as defined in subparagraph (b) of paragraph one of this subdivision); and

(c) the amount of the annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title (as defined in subparagraph (c) of paragraph one of this subdivision); and

(d) the amount of the annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in subparagraph (d) of paragraph one of this subdivision); and

(e) the amount of the annual military law contribution for balance sheet liability purposes (as defined in

subparagraph (e) of paragraph one of this subdivision).

(6) To the amount resulting from the addition prescribed by paragraph five of this subdivision, there shall be added interest thereon at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth of such fiscal year.

(7) The amount computed pursuant to paragraph four of this subdivision in relation to the balance sheet liability as of June thirtieth next preceding the subject June thirtieth (together with one year's interest on such balance sheet liability) shall be added to the amount computed pursuant to paragraph six of this subdivision in relation to the subject fiscal year.

(8) From the amount computed pursuant to paragraph seven of this subdivision, there shall be subtracted the sum of:

(a) The total amount of the sums paid to the contingent reserve fund during the subject fiscal year by the city on account of its obligations, which accrued during the city's second fiscal year preceding the subject fiscal year, to provide:

(i) the normal contribution payable in the subject fiscal year under the provisions of subdivisions a and b of this section, as then in effect; and

(ii) the installment of the deficiency contribution (as defined in subparagraph (f) of paragraph one of this subdivision f) or the installment of the original unfunded accrued liability contribution (as defined in subparagraph (b) of paragraph one of subdivision a of this section), as the case may be, payable in the subject fiscal year; and

(iii) the amount of the contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities (as defined in subparagraph (g) of paragraph one of this subdivision f) payable in the subject fiscal year; and

(iv) the amount payable in the subject fiscal year on account of reserves-for-increased-take-home-pay; and

(v) the amount payable in the subject fiscal year in behalf of contributors pursuant to subdivision twenty of section two hundred forty-three of the military law; plus

(b) interest on such total amount referred to in subparagraph (a) of this paragraph eight at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth thereof.

(9) The remainder resulting from the subtraction prescribed by paragraph eight of this subdivision f shall be the balance sheet liability as of June thirtieth of the subject fiscal year.

(10) The balance sheet liability as of June thirtieth, nineteen hundred eighty shall be the amount resulting from the successive computations of the balance sheet liability as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four up to and including June thirtieth, nineteen hundred eighty, as prescribed by paragraphs four to nine, inclusive, of this subdivision f.

(11) (a) The balance sheet liability contribution payable in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year shall be the first annual installment an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-one, on the basis of seven and one-half per centum interest per annum, of an amount equal to the balance sheet liability as of June thirtieth, nineteen hundred eighty.

(b) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July

first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight shall be one annual installment of an amount which, if paid to the contingent reserve fund in thirty-nine equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-two, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (a) of this paragraph (11), which installments are hypothetically allocated by such subparagraph (a) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(c) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twenty-one shall be one annual installment of an amount which, when paid to the contingent reserve fund in thirty-three equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-eight, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (b) of this paragraph (11), which installments are hypothetically allocated by such subparagraph (b) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

g. Whenever the board, upon recommendation by the actuary, shall determine that it is necessary to increase the reserves held in the annuity reserve fund, the pension reserve fund number one or the pension reserve fund number two or upon recommendation by the executive director, shall determine that it is necessary to increase the reserves held in the expense fund, the board may direct that the amount so needed shall be transferred thereto from the contingent reserve fund.

h. Contributions shall be paid into the contingent reserve fund in the manner and to the extent specified by subparagraph (f) of paragraph one of subdivision a of this section, to provide reserves-for-increased-take-home-pay.

i. Contributions to the contingent reserve fund payable in fiscal years of the city beginning on and after July first, nineteen hundred ninety by the city and other obligors required to make such contributions shall be governed by the provisions of this section, as modified and supplemented by section 13-638.2 of this title and subdivision k of section 13-582 thereof, and such other laws as may be applicable.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-528 Contributions by city university of New York.

a. Subject to the provisions of subdivision b of this section, pursuant to the provisions of section sixty-two hundred twenty-seven of the education law, the contributions to the retirement system which, in any fiscal year of the city occurring after June thirtieth, nineteen hundred seventy-nine, are included in the approved programs and services of the city university of New York, as defined in section sixty-two hundred thirty of such law, shall be paid in such fiscal year by such city university.

b. Nothing contained in subdivision a of this section shall be construed as increasing, decreasing, altering or changing the obligations of the city, under sections sixty-two hundred twenty-one, sixty-two hundred thirty and sixty-two hundred thirty-one of such law (as in effect before and after the enactment of chapter nine hundred fifty-seven of the laws of nineteen hundred eighty-one) to appropriate and provide, in the manner, to the extent and for the periods prescribed by such sections, funds required to pay such contributions with respect to such periods. Nothing contained in subdivision a of this section shall be construed as increasing, decreasing, altering or changing the obligations of the state, under such sections of such law, to appropriate and provide the funds required for payment of such contributions in part or in whole and/or for reimbursement of the city in relation thereto, in accordance with the responsibilities of the state with respect to such payment and/or reimbursement, as provided for in such sections.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-530 Contributions of the city and their use; pension reserve fund number one.

a. Upon the retirement of a new-entrant, an amount equal to his or her pension reserve and the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, shall be transferred from the contingent reserve fund into a fund to be known as pension reserve fund number one. His or her pension and, in addition, a pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, shall be paid from such pension reserve fund number one. Should such new-entrant be subsequently restored to active service, his or her pension reserve and such reserve-for-increased-take-home-pay, if any, shall thereupon be transferred from pension reserve fund number one to the contingent reserve fund.

b. Upon the retirement of a present-teacher, the total of his or her accumulated deductions plus the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, shall be calculated, and an amount equal to such total but not exceeding the amount of his or her pension reserve, shall be transferred from the contingent reserve fund into pension reserve fund number one. A pension which shall be the actuarial equivalent of the amount so transferred shall be paid to such retired present-teacher from such pension reserve fund.

c. In addition, upon the retirement of a present-teacher, the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, shall be transferred from the contingent reserve fund into pension reserve fund number one, and if such a reserve is so transferred, a pension which is the actuarial equivalent of such reserve shall be paid to him or her from such pension reserve fund.

d. Should such present-teacher be subsequently restored to active service the pension reserve on the pension referred to in subdivision b hereof and his or her reserve-for-increased-take-home-pay, if any, shall thereupon be

transferred from pension reserve fund number one to the contingent reserve fund.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-531 Contributions of the city and their use; pension reserve fund number two.

Pension reserve fund number two shall consist of the following:

1. The donations, legacies, and gifts which may be made to such system or to the retirement fund of the board of education of the city of New York.

2. The amounts contributed by the city to pay the pensions of the teachers retired on or before the thirty-first day of July, nineteen hundred seventeen, and to pay that part of the pensions and the other benefits of present-teachers who shall be retired or who shall become eligible for retirement after the thirty-first day of July, nineteen hundred seventeen, which are not payable from any other fund provided for by this chapter. Pensions and other benefits, or such part thereof allowable to present-teachers and to present pensioners, provision for the payment of which out of any other fund provided for by this title is not specifically made, shall be paid out of pension reserve fund number two.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-533 Guarantee of funds.

a. Regular interest, charges payable, the creation and maintenance of reserves in the contingent reserve fund and the maintenance of annuity reserves, pension reserves and reserves-for-increased-take-home-pay as provided for in this chapter and the payment of all pensions, pensions-providing-for-increased-take-home-pay, annuities, retirement allowances, refunds, death benefits, and any other benefits granted under the provisions of this chapter, are hereby made obligations of the city. All income, interest, and dividends derived from deposits and investments authorized by this chapter shall be used and disposed of in the manner prescribed by subdivision b of this section. Upon the basis of each actuarial determination and appraisal provided for in this chapter, the retirement board pursuant to section one hundred twelve of the charter shall prepare and submit to the director of management and budget an itemized estimate of the amounts necessary to be appropriated by the city to the various funds to complete the payment of such obligations accruing during the ensuing fiscal year. There shall be included annually in the budget a sum sufficient to provide for such obligations of the city. The comptroller shall pay the sum so provided into the various funds provided for by this chapter, subject to the provisions of subdivision b of this section.

b. (1) Subject to the provisions of paragraphs two, three, four and five of this subdivision and subdivision k of section 13-582 of this title, all income, interest and dividends derived from deposits and investments authorized by this chapter, which income, interest and dividends were heretofore or are hereafter received during any city fiscal year commencing on or after July first, nineteen hundred eighty, shall be used (in accordance with the respective shares of such income, interest and dividends attributable to the city and other obligors required to pay public employer contributions on account of contributors) in such fiscal year for the purposes hereinafter specified in this paragraph two (to the extent that such income, interest and dividends are sufficient for such purposes), in the order of priority herein

stated, as follows:

(A) first, to pay into the funds of the retirement system the amounts of regular interest which are required to be paid into such funds in such fiscal year by reason of being required to be allowed to such funds pursuant to the provisions of section 13-535 of this chapter, and to pay into such funds the amounts of supplementary interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the annuity savings fund the amounts of special interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the contingent reserve fund the amounts of additional interest, if any, required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses the retirement system sustained during such fiscal year by reason of sales or other dispositions of securities, and (ii) for which net losses the retirement system is required to be reimbursed in such fiscal year and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply;

(C) third, if the total amount of such income, interest and dividends received during such fiscal year is in excess of the total amount required to make, in such fiscal year, the payments prescribed by subparagraphs (A) and (B) of this paragraph, the amount of such excess shall be paid into the contingent reserve fund and shall become a part of the assets of such fund.

(2) Notwithstanding the provisions of paragraph one of this subdivision or any other law to the contrary, any such income, interest or dividends which are received by the retirement system may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investments), regardless of when received and prior to use for the purposes stated in such paragraph one.

(3) (A) Notwithstanding any other provision of this section or any other law to the contrary, the term "all income, interest and dividends derived from deposits and investments", as used in paragraph two of this subdivision (as such subdivision was in effect prior to July first, nineteen hundred eighty), shall be construed, in relation to disposition of all income, interest and dividends received by the retirement system in each of the city's nineteen hundred seventy-six-nineteen hundred seventy-seven and nineteen hundred seventy-seven-nineteen hundred seventy-eight obligations fiscal years (as such fiscal years were defined by paragraph one of this subdivision prior to such July first) as meaning the remainder obtained by subtracting from such income, interest and dividends (as they were after deducting therefrom the amount of any expenses charged thereto pursuant to the provisions of section 13-705 of this title) the sum of (i) the amounts of regular, supplementary and special interest required to be allowed and paid into the appropriate funds of the retirement system in such fiscal year pursuant to the applicable provisions of section 13-535 of this chapter and (ii) the amount of any losses in excess of gains (1) which net losses were sustained by the retirement system during such fiscal year and which net losses were sustained by reason of sales or other dispositions of securities, and (2) to which net losses the provisions of section 13-704 of this title do not apply.

(B) For the purpose of the order of priority governing the disposition of such remainder in the payment fiscal year with respect to each such obligations fiscal year (as such disposition was prescribed by the provisions of this subdivision as in effect during each such payment fiscal year) the provisions of subparagraphs (A) and (B) of such paragraph two shall be deemed to have been inapplicable and the order of priority for such disposition shall be first, the use set forth in subpargraph (C) of such paragraph, second, the use set forth in subparagraph (D) of such paragraph, third, the use set forth in subparagraph (E) of such paragraph and fourth, the use set forth in subparagraph (F) of such paragraph, as such subparagraphs were in effect during such payment fiscal year.

(4) (a) All income, interest and dividends which were derived from deposits and investments authorized by this chapter and which were received during each of the city's nineteen hundred seventy-eight-nineteen hundred seventy-nine and nineteen hundred seventy-nine-nineteen hundred eighty fiscal years shall (after deducting therefrom

any amounts chargeable thereto pursuant to the provisions of section 13-705 of this title) be used (*14 in accordance with the respective shares of such income, interest and dividends attributable to the city and other obligators required to pay public employer contributions on account of contributors in each such fiscal year for the purposes hereinafter stated in this subparagraph (A), in the order of priority herein stated, as follows:

(a) first, (i) to pay into the funds of the retirement system the amounts of regular interest which are required to be paid into such funds in such fiscal year wherein such income, interest and dividends were received, which interest is so payable by reason of being required to be allowed to such funds in such fiscal year pursuant to the provisions of section 13-535 of this chapter, and (ii) to pay into such funds the amounts of supplementary interest required to be so paid in such fiscal year under the applicable provisions of such section, and (iii) to pay into the annuity savings fund the amounts of special interest required to be so paid in such fiscal year under the applicable provisions of such sections, and (iv) to pay into the contingent reserve fund the amounts of additional interest required to be paid in such fiscal year under the applicable provisions of such section;

(b) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses were sustained by the retirement system during such fiscal year in which such income, interest and dividends were received and which net losses were sustained by reason of sales or other dispositions of securities, and (ii) for which net losses the retirement system is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispostions of certain securities, does not apply; and

(c) third, to pay into the contigent reserve fund the amount, if any, by which, (i) the total losses which the retirement system sustained during such fiscal year by reason of sales of securities within the meaning of such section 13-704 and which the responsible public employer, as defined in paragraph four of subdivision a of such section 13-704, would otherwise be required to amortize pursuant to such section, exceeds

(ii) the total of all gains which were realized during such fiscal year by reason of sales of securities within the meaning of such section and which would otherwise be required by such section to be credited in favor of the responsible public employer in installments.

(B) If the total amount of such income, interest and dividends received during each such fiscal year referred to in subparagraph (A) of this paragraph four is in excess of the total amount required to make, in the same fiscal year, the payments prescribed by items (a), (b) and (c) of such subparagraph (A), the amount of such excess shall be paid into the contingent reserve fund as of June thirtieth of such fiscal year and shall become a part of the assets of such fund as of such date.

(5) Nothing contained in the preceding paragraphs of this subdivision shall be construed as applicable to income, interest and dividends resulting from deposits or investments made under the variable annuity program of the retirement system.

(c) (1) The comptroller shall make monthly payments, in twelve equal installments, with respect to obligations which the city incurs to pay sums to the retirement system.

(2) In the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in each city fiscal year thereafter, the equal monthly payments shall be in respect of obligations which accrue in such fiscal year and shall be made in such fiscal year on or before the last day of each month.

(3) The retirement board of the retirement system may waive the requirements of the foregoing provisions of this subdivision with respect to time of payment to such system, provided that any such waiver of time of payment in any instance shall not apply to the time of subsequent payments unless there shall be a subsequent waiver.

**CASE NOTES FROM FORMER SECTION**

¶ 1. City school teachers who were employed on July 1, 1940, which was the effective date of Art. V § 7 of the State Constitution, declaring that membership in a pension system or retirement system of the State or civil division thereof shall be a contractual relationship, were entitled to have their annuities computed on the basis of tables in existence on said date, rather than on basis of tables adopted in 1943. An action by such teachers to require the board to use the tables in effect on said date in computing their annuities was not barred because it was filed 15 years after the adoption of the new tables in 1943.-Matter of Ayman, 19 Misc. 2d 355, 193 N.Y.S. 2d 2 [1959], mod. 9 N.Y. 2d 119, 211 N.Y.S. 2d 198, 172 N.E. 2d 571 [1961].

¶ 2. In an action by attorneys for services rendered in a special proceeding brought on behalf of certain members of the Teachers' Retirement System, the attorneys claimed that as a result of their services an additional liability of $39,600,000 was imposed upon the Retirement Board and the City of New York which fund was chargeable with payment of attorneys' fees. **Held:** such amount did not represent a "fund" since the order did not direct payment or the segregation of the fund.-Ayman v. Teachers' Retirement Board of the City of New York, 30 Misc. 2d 828, 215 N.Y.S. 2d 933 [1961].

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-535 Allowance of interest.

a. Such board shall annually allow regular interest on each of the funds provided for in this chapter with the exception of the expense fund and pension reserve fund number two. The amount so allowed shall be due and payable to such funds and shall be annually credited thereto by such board.

b. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-four. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-four, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per- centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-four in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-four in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four, shall be credited as of December thirty-first, nineteen hundred sixty-four to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-five and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-four. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-four and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-five, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-four had they had a balance in their annuity savings funds as

of June thirtieth, nineteen hundred sixty-five, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph c hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

c. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-four which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph b hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph b hereof additional interest, as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-four which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four and who retire or die prior to June thirtieth, nineteen hundred sixty-five, the amount of additional interest for calendar year nineteen hundred sixty-four shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph b hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

d. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-five. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-five, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-five in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-five in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five, shall be credited as of December thirty-first, nineteen hundred sixty-five to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-six and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-five. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-five and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-five had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph e hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

e. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-five which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph d hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph d hereof, additional interest as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-five which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed

regular interest at three per centum per annum for calendar year nineteen hundred sixty-five and who retire or die prior to June thirtieth, nineteen hundred sixty-six, the amount of additional interest for calendar year nineteen hundred sixty-five shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph d hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

f. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-six. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-six, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-six in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-six in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six, shall be credited as of December thirty-first, nineteen hundred sixty-six to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-seven and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-six. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-six and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-six had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph g hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

g. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-six which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph f hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph f hereof, additional interest as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-six which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six and who retire or die prior to June thirtieth, nineteen hundred sixty-seven, the amount of additional interest for calendar year nineteen hundred sixty-six shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph f hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

h. (1) During the period commencing on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty, special interest at the rate of one and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each contributor in the annuity savings fund.

(2) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, special interest at the rate of three and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each contributor in the annuity savings fund.

(3) (a) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three, special interest at the rate of four per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(b) Subject to the provisions of subdivision j of this section, during the period commencing on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(c) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(d) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, special interest at the rate of one and one-quarter per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(4) Such special interest provided for by paragraphs (1), (2) and (3) of this subdivision shall be credited to such individual account of each contributor entitled thereto in the same manner and at the same time as regular interest is required to be credited to such account with respect to the same period of time. Such special interest shall not be considered in determining rates of contributions of contributors. Nothing contained in this subdivision h shall be construed as applicable to any contributor who is subject to the provisions of article fourteen or article fifteen of the retirement and social security law.

i. (1) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each contributor entitled to such a reserve, additional interest at the rate of one and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty.

(2) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each contributor entitled to such a reserve, additional interest at the rate of three and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two.

(3) (a) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each contributor entitled to such a reserve, additional interest at the rate of four per centum per annum, compounded annually, shall be included for each city fiscal year and portion thereof occurring during the period beginning July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three.

(b) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each contributor entitled to such a reserve, additional interest at the rate of one per centum per annum, compounded annually, shall be included for each city fiscal year and portion thereof occurring during the period beginning August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five.

(c) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one per

centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight.

(d) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one and one-quarter centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety.

(4) Additional interest shall not be considered in determining rates of contribution of contributors. Nothing contained in this subdivision i shall be construed as applicable to any contributor who is subject to the provisions of article fourteen or article fifteen of the retirement and social security law.

j. (1) The provisions of paragraph two of subdivision h of this section and the provisions of paragraphs one and two of subdivision i of this section, to the extent that any of such provisions grants special or additional interest, as the case may be, for any period prior to July thirty-first, nineteen hundred eighty-one, shall not apply to any person who was not a contributor on such date of enactment and shall not apply to any person to whom, on July thirty-first, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-556 of this chapter.

(2) (a) The provisions of subparagraph a of paragraph three of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to December sixteenth, nineteen hundred eighty-two, and the provisions of subparagraph (a) of paragraph three of subdivision i of this section, to the extent that such subparagraph grants additional interest for any period prior to such date, shall not apply to any person who was not a contributor on such date and shall not apply to any person to whom, on such date, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-554 of this chapter.

(b) The provisions of subparagraph (d) of paragraph three of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to the date of enactment of this subparagraph (b) (as such date is certified pursuant to section forty-one of the legislative law), and the provisions of subparagraph (d) of paragraph three of subdivision i of this section, to the extent that such subparagraph grants additional interest for any period prior to such date of enactment, shall not apply to any person who was not a member on such date of enactment and shall not apply to any person to whom, on such date of enactment, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-554 of this chapter.

(3) Nothing contained in subdivisions h and i of this section shall be construed as granting special or additional interest, as the case may be, to any person with respect to any period wherein such person was not a contributor entitled to be credited with regular interest for the same period or was not a discontinued member entitled to be credited, as a discontinued member, with regular interest for the same period.

k. (1) As used in this section, the term "funds" shall mean the funds provided for in accordance with the provisions of this chapter, other than the expense fund, pension reserve fund number two and the variable annuity funds.

(2) Subject to the provisions of paragraph five of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred seventy-seven to June thirtieth, nineteen hundred eighty on the mean amount for the preceding year in each of the funds of the retirement system, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest was credited to such funds with respect to such period.

(3) Subject to the provisions of paragraph five of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty to June thirtieth, nineteen hundred eighty-two, on the

mean amount for the preceding year in each of the funds of the retirement system, there shall be annually allowed with respect to such period supplementary interest at the rate of three and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(4) (a) Subject to the provisions of paragraph five of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-two to July thirty-first, nineteen hundred eighty-three on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of four per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(b) Subject to the provisions of paragraph (5) of this subdivision k, in addition to regular interest annually allowed for the period from August first, nineteen hundred eighty-three to June thirtieth, nineteen hundred eighty-five on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(c) Subject to the provisions of paragraph (5) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-five to June thirtieth, nineteen hundred eighty-eight on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(d) Subject to the provisions of paragraph (5) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-eight to June thirtieth, nineteen hundred ninety on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-quarter per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(5) The provisions of paragraphs two, three and four of this subdivision k shall not apply to or affect (i) the allowance of interest on or the crediting of interest to accounts of contributors or discontinued members in the annuity savings fund or (ii) to the allowance of interest on or crediting of interest to reserves-for-increased-take-home-pay of contributors or discontinued members or (iii) to the determination of the amount of any benefit payable to any contributor or beneficiary.

l. On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the retirement board shall submit to the public officers and permanent commission referred to in paragraph (e) of subdivision twenty-two of section 13-501 of this chapter the recommendations of such board:

(1) as to whether legislation should be enacted providing for the crediting of special interest to contributors after June thirtieth, nineteen hundred ninety and if so, the recommended rate thereof and duration of such crediting; and

(2) as to whether legislation should be enacted providing that in the determination of

reserves-for-increased-take-home-pay of contributors entitled to such a reserve, additional interest shall be included for any period after June thirtieth, nineteen hundred ninety, and if so, the recommended rate thereof and the period as to which such interest should be included; and

(3) as to whether legislation should be enacted providing for the crediting of supplementary interest on and after June thirtieth, nineteen hundred ninety to such funds to which subdivision k of this section is applicable and if so, the recommended rate thereof and duration of such crediting.

**CASE NOTES FROM FORMER SECTION**

¶ 1. The provision of the Admin. Code for ex officio membership of the City Comptroller on the Teachers' Retirement Board is not paralleled by any statutory provision for an ex officio chairmanship of the Board, and hence

when term of office of the comptroller, who had been Chairman of the Board, expired, his successor comptroller, who automatically succeeded as a member of the Board, did not automatically succeed the former Comptroller and Chairman.-Briscoe v. Teachers' Retirement Board, 283 App. Div. 1026, 131 N.Y.S. 2d 112 [1954], modifying 205 Misc. 909, 131 N.Y.S. 2d 587 [1954], aff'd 308 N.Y. 704, 124 N.E. 2d 329 [1954].

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-540 Rules regulating loans to members.

Any teacher in city-service, who shall have been a contributor continuously for at least three years, may borrow from the retirement system, subject to such rules and regulations as may be approved by such board, an amount not exceeding seventy-five per cent of the sum of the amount of his or her accumulated deductions and his or her account in the variable annuity savings fund. The amount so borrowed, together with interest at the rate of two per cent higher than the rate of regular interest applicable to the member on any unpaid balance thereof, shall be repaid to the retirement system in equal installments at a rate calculated to repay the loan within a period not in excess of four years by deduction from the compensation of the contributor at the same time the compensation is paid; provided, however, that the entire balance of any loan, together with interest, may be paid by the contributor at any time within the period alloted for the repayment of the loan. The above repayment shall be in addition to the rate of contribution for annuity purposes previously certified to the contributor by the retirement board. Each loan made pursuant to this section shall be insured by the retirement system, without cost to the member, against the death of such member in an amount up to but not exceeding ten thousand dollars, as follows: 1. Until thirty days have elapsed after the making thereof, no part of the loan shall be insured.

2. From the thirtieth through the fifty-ninth day after the making thereof, twenty-five per cent of the present value of the outstanding loan shall be insured.

3. From the sixtieth through the eighty-ninth day after the making thereof, fifty per cent of the present value of the outstanding loan shall be insured.

4. On and after the ninetieth day after the making thereof, all of the present value of the outstanding loan shall be

insured. Upon the death of a member, the amount of insurance so payable shall be credited to his or her accumulated deductions. Notwithstanding anything to the contrary in this chapter, the additional deductions required to repay the loan shall be made, and the interest paid on the loan shall be credited to the proper funds of the retirement system. The actuarial equivalent of any unpaid balance of a loan at the time any benefit may become payable shall be deducted from any benefit otherwise payable, in accordance with rules and regulations adopted by the retirement board for this purpose.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-542 Death benefits; ordinary death benefits.

a. Upon the death of a contributor before retirement there shall be paid to his or her estate or to such person as he or she shall have nominated by written designation duly executed and filed with the retirement board:

1. His or her accumulated deductions; and, in addition thereto,

2. A sum consisting of:

(i) His or her reserve-for-increased-take-home-pay, if any, which shall be paid out of the contingent reserve fund; and (ii) An amount, payable out of the contingent reserve fund in the case of a new entrant and out of pension reserve fund number two in the case of a present-teacher, equal to the salary earnable by him or her during the six months immediately preceding his or her death, provided that at the time of his or her death he or she had obtained the age of sixty-five years or had a total-service of thirty-five years and was eligible for service retirement.

b. Where any contributor, by any designation heretofore or hereafter filed pursuant to subdivision a of this section and in effect at the time of the death of such contributor, nominated or shall nominate any person to receive the amount payable under subparagraph (ii) of paragraph two of subdivision a of this section, the reserve-for-increased-take-home-pay, if any, of such member, payable under subparagraph (i) of such paragraph two shall be paid to the person so nominated.

c. (1) The retirement board may adopt rules and regulations providing that in any case where a contributor or designated beneficiary authorized by the applicable provisions of this chapter to nominate a beneficiary to receive a

lump sum benefit pursuant to section 13-542 or section 13-543 of this chapter represents to the retirement system that a specified person has been designated by such contributor or designated beneficiary as a trustee of an inter vivos or testamentary trust for the purposes of this subdivision c, such person shall be eligible to be nominated to receive, in the capacity of trustee, such lump sum benefit pursuant to the applicable provisions of either of such sections.

(2) Any proceeds received by a trustee under this section shall not be subject to the debts of the member or to transfer or estate taxes to any greater extent than if such proceeds were payable to the beneficiaries named in the trust and not to the estate of the member.

(3) A payment made in good faith under this section (a) to a person so represented to the retirement system to be a trustee of an inter vivos trust, or (b) to a person who is designated as a successor trustee of an inter vivos trust and who provides a copy of his or her appointment or, (c) to a person who is designated as a trustee or successor trustee of a testamentary trust and who provides a copy of the letters of trusteeship, provided such payment is made to such payee in the capacity of trustee, shall be a complete discharge to the retirement system to the extent of the payment. Such discharge shall not be impaired or affected by an adjudication that a trust is invalid or that a person represented to be or designated as a trustee is not entitled to receive the proceeds, if payment is made in good faith under this section before notice to the retirement system of the claim of invalidity or lack of entitlement on which such adjudication is based.

(4) (a) If no person to whom the retirement system is authorized to make payment in the capacity of trustee, as provided for in paragraph three of this subdivision c, claims the proceeds within eighteen months after the death of the member, payment shall be made to the deceased member's estate and such payment shall be a complete discharge to the retirement system to the extent of the payment.

(b) If satisfactory evidence is furnished within such period of eighteen months that there is or will be no trustee to receive the proceeds, payment shall be made to the deceased member's estate.

(5) In the event that after a person represented to have been designated as a trustee of an inter vivos or testamentary trust is nominated pursuant to rules and regulations adopted under paragraph one of this subdivision c, the contributor or designated beneficiary authorized to make a nomination shall, in compliance with the applicable provisions of this chapter, nominate for receipt of the same lump sum benefit:

(a) a beneficiary other than a person so represented to have been designated as a trustee; or

(b) a person represented to have been designated as a trustee under a different inter vivos or testamentary trust; a payment made in good faith under this section to the last such nominee as of the date of death, whether he or she is a beneficiary not represented to have been designated as trustee or a person represented to have been so designated, shall be a complete discharge to the retirement system to the extent of the payment, provided, however, that if payment is made to a person represented to have been designated as a trustee, the retirement system shall be so discharged if payment is made to such person in the capacity of trustee and if there is compliance with the requirements of paragraph three of this subdivision c with respect to submission of copies. In any case where the last such nominee is a person represented to have been designated as a trustee, the provisions of paragraph four of this subdivision c shall apply.

Sub c amended chap 1001/1971 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. Deceased wife's designation of her sister as beneficiary of the Reserve Fund set up under the New York City Teachers' Retirement System in connection with the wife's retirement, did not create a Totten Trust, and was not illusory so as to defeat any of the provisions of the Decedent Estate Law or any rights her husband might have had as a surviving spouse. The Reserve Fund was not an asset of decedent's estate and could not pass under her will.-Moyer v. Dunseith 180 Misc. 1004, 46 N.Y.S. 2d 537 [1943], aff'd 266 App. Div. 1008, 45 N.Y.S. 2d 126 [1943].

¶ 2. On death of teacher of New York City school system, fund representing accumulated salary deductions paid by the Teachers' Retirement System to a designated beneficiary, **held** properly included as a part of decedent's estate for tax purposes, inasmuch as the Retirement System was under obligation to decedent to return to her, or her estate or nominee, the amounts deducted from her salary upon her withdrawal or death prior to retirement. Decedent would have been entitled to the fund upon her withdrawal prior to retirement, and a nominee was entitled to it only upon her death. The accumulated deductions did not possess the essentials of insurance, but the situation resembled more closely an annuity.-Est. of Pauline J. Burtman, 180 Misc. 299, 41 N.Y.S. 2d 778 [1943].

¶ 3. That in 1919 plaintiff's father, a school principal, had designated plaintiff as his beneficiary to receive the accumulated salary deductions accruing in event of his death prior to retirement and also to receive all death benefits allowable at time of his death, **held** not to entitle daughter to receive benefits presently payable to her father under the Teachers' Retirement Fund, where prior to his retirement in 1933 her father had revoked plaintiff's designation and had made a new designation in favor of his wife. His designation was not irrevocable, and furthermore the Retirement Board for the past 22 years has uniformly treated such designations as revocable, and this practice violates no law or public policy.-Torok v. Teachers' Retirement Board, 102 (113) N.Y.L.J. (11-15-39) 1634, Col. 6 T.

¶ 4. Persons designated under a prior designation as beneficiaries of deceased's interest in New York City Teachers' Retirement Fund, had sufficient interest to maintain an action to annul a subsequent designation of another person as beneficiary.-Robillard v. Booth, 115 (92) N.Y.L.J. (4-20-46) 1555, Col. 3 M, rev'd on other grounds, 271 App. Div. 878, 66 N.Y.S. 2d 261 [1946].

¶ 5. Designation of defendant as beneficiary of deceased teacher's accumulated salary deductions and death benefit **held** to have been timely filed with the Retirement Board prior to deceased's death on April 25, where the clerk of the Board and the person who delivered the designation to the clerk testified that it was filed on April 20, the time clock stamping showed the date of its receipt as April 20, and it merely appeared that on the reverse side of the paper was a printed form indicating the filing date of May 1, but this was explained as merely showing the date the instrument was processed through the Board's office and placed in the filing compartment with deceased's records.-Id.

¶ 6. In action to have declared void an instrument purporting to designate defendant as beneficiary of deceased teacher's accumulated salary deduction and death benefit, admission of defendant's testimony as to conversation between her and deceased concerning the designation of defendant as beneficiary of the salary deduction and death benefit **held** reversible error, in view of provisions of Civil Practice Act § 347.-Robillard v. Booth, 271 App. Div. 878, 66 N.Y.S. 2d 261 [1946].

¶ 7. The provisions of the Code that rights of members of Teachers' Retirement System are exempt from tax, levy, sale, attachment, and assignment did not destroy or impair the validity or effectiveness of a divorce decree which provided that pensioner's ex-wife be named as irrevocable beneficiary with respect to his pension fund.-Lapolla v. Retirement Board of the Teachers' Retirement, etc., 140 N.Y.S. 2d 449 [1955].

¶ 8. The defendant was liable for interest on the accumulated salary deductions of the decedent where, although it tendered the amount of decedent's contributions to the executrix, the tender was refused because the defendant would not agree that the receipt of the accumulated contributions would be without prejudice to the executrix's claim for death benefits. Although the claim for death benefits was subsequently denied the executrix was entitled to interest.-Winkel v. Teachers' Retirement System of N.Y.C., 149 N.Y.S. 2d 906 [1956].

¶ 9. When plaintiff who was the former wife of a deceased member of the Teachers' Retirement System entered into a separation agreement with him in which he agreed to name "his wife as beneficiary" she was not entitled to recover the benefits as against his subsequently designated beneficiaries.-Caravaggio v. Retirement Board of the Teachers' Retirement System of the City of N.Y., 36 N.Y. 2d 348, 329 N.E. 2d 165, 368 N.Y.S. 2d 475 [1975].

¶ 10. Where beneficiary caused the death of his mother who was a member of the Teachers' Retirement System fact that he was acquitted of murder by reason of mental disease or defect was not res judicata in proceeding to obtain death benefits because of different parties involved and different burden of proof in criminal and civil cases.-Nasper v. City of N.Y., 173 (81) N.Y.L.J. (4-28-75) 15, Col. 6 M.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-543 Special death and retirement benefits.

a. Upon the death of a contributor, before retirement or within thirty days after the effective date of his or her service retirement, or within thirty days after the filing of his or her application for disability retirement, in lieu of any retirement allowance, or optional benefit, or any death benefit, there shall be paid to his or her estate or to such person as he or she shall have nominated by written designation duly executed and filed with the retirement board:

1. His or her accumulated deductions; and in addition thereto,

2. A sum consisting of:

i. His or her reserve-for-increased-take-home-pay, if any, which shall be paid out of the contingent reserve fund; and

ii. In the case of any contributor whose death heretofore occurred or occurs hereafter and prior to July first, nineteen hundred seventy, an amount, payable out of the contingent reserve fund in the case of a new-entrant and out of pension reserve fund number two in the case of a present-teacher, equal to (a) six per cent of his or her average salary multiplied by the number of his or her years of city-service rendered prior to April tenth, nineteen hundred twenty-nine plus (b) five per cent of his or her average salary multiplied by the number of his or her years of city-service rendered subsequent to such date. In the case of a teacher appointed prior to such date the years of credit under (a) and (b) shall not exceed thirty-five years in total and in the case of a teacher appointed subsequent to such date, the years of credit shall not exceed twenty years in total. In no event shall such amount be less than one-half of his or her average salary, except that in the case of a teacher who has a total city-service of six months or more and less than five years such

amount shall be six times the average monthly salary earnable by him or her during his or her city-service immediately preceding his or her death. If the contributor was a present-teacher, there shall be included a further amount in addition thereto equal to five per cent of his or her average salary multiplied by five sevenths of the number of his or her years of prior-service. The total credit for prior-service so allowed shall not exceed twenty-five years. If in the case of any deceased contributor the total amount payable under this subparagraph (ii) of this paragraph two of this subdivision is greater than the largest maximum annual salary paid to any contributor, such total amount payable shall not be greater than two and three-fourths times the average salary of the deceased contributor, nor less than the largest maximum annual salary paid to any contributor; or

iii. in the case of any contributor whose death occurs on or after July first, nineteen hundred seventy, a sum consisting of:

(a) an amount equal to the salary earnable by him or her while in city-service, during the six months immediately preceding his or her death; or

(b) if the total number of years of city-service credited to him or her is ten or more then an amount equal to the salary earnable by him or her while in city-service during the twelve months immediately preceding his or her death; or

(c) if the total number of years of city-service credited to him or her is twenty or more, then an amount equal to twice the salary earnable by him or her while in city-service during the twelve months immediately preceding his or her death.

3. Where any contributor, by any designation heretofore or hereafter filed pursuant to the preceding provisions of this subdivision and in effect at the time of the death of such contributor, has nominated or shall nominate any person to receive the amount payable under subparagraph (ii) or (iii) of paragraph two of this subdivision a, the reserve-for-increased-take-home-pay, if any, of such contributor payable under subparagraph (i) of such paragraph two shall be paid to the person so nominated.

b. A contributor eligible for retirement pursuant to section 13-545 or 13-557 of this chapter, however, may file with the retirement board an application setting forth that he or she elects to be retired at a time not less than thirty nor more than ninety days after the filing of such application, provided such contributor shall agree in his or her application that such application shall be irrevocable from the date of filing. Such application shall retire such contributor on the date he or she elected to be retired, if then living, and such contributor, on retirement, shall be entitled to receive any annuity, pension, pension-providing-for-increased-take-home-pay to which he or she may be entitled, if any, retirement allowance, or any optional benefit he or she may have selected at the time of the filing of such application or prior thereto pursuant to the provisions of this section.

c. 1. A contributor at any time may file with the retirement board his or her election to have paid to his or her beneficiary, in the event of his or her death, his or her accumulated salary deductions or death benefit, or both, in accordance with one of the following options:

Option A. Upon the death of the contributor the actuarial value of his or her accumulated salary deductions or death benefit, or both, shall be paid in an annuity in monthly installments throughout the life of such beneficiary as he or she shall nominate by written designation duly acknowledged and filed with such board; or

Option B. Upon the death of the contributor the actuarial value of his or her accumulated salary deductions or death benefit, or both, shall be paid in a lesser annuity in monthly installments to such beneficiary as the contributor shall nominate by written designation duly acknowledged and filed with such board with a provision that should such beneficiary die before he or she has received the total actuarial value of the accumulated salary deductions or death benefit, or both, as certified at the time of the death of the contributor, the balance shall be paid to the estate of the contributor or to such other beneficiary or beneficiaries as shall have been nominated by the contributor by written designation duly acknowledged and filed with such board; or

Option C. Upon the death of the contributor, that some other benefit or benefits shall be paid to such beneficiary or beneficiaries as he or she shall have nominated by written designation duly acknowledged and filed with such board, provided such other benefit or benefits shall be certified to by the actuary of such board to be of equivalent actuarial value of the accumulated salary deductions or death benefit, or both, and shall be approved by such board.

2. Where any contributor, by any designation heretofore or hereafter filed pursuant to paragraph one of this subdivision c and in effect at the time of the death of such contributor, nominated or shall nominate any beneficiary or beneficiaries to receive payment of his or her death benefit in accordance with any option mentioned in such paragraph one, the reserve-for-increased-pay, if any, of such contributor shall be paid to such beneficiary or beneficiaries in the same manner and in accordance with the same methods of computation as are prescribed in such paragraph one with respect to payment of such death benefit pursuant to such option.

d. 1. Where a designated beneficiary has been named to receive either the accumulated salary deductions or death benefit, or both, but where no election of an option has been made under the provisions of this section, the designated beneficiary may elect to receive the amount or amounts payable upon the death of the contributor in a lump sum or he or she may elect to have the amount paid under any one of the above options in the same manner as if the contributor had designated the option under which such amount would have been paid.

2. Where any designated beneficiary named as specified in paragraph one of this subdivision d, has heretofore made or shall hereafter make an election pursuant to such paragraph one with respect to receipt of the death benefit, the reserve-for-increased-take-home-pay, if any, of the contributor shall be paid to the same beneficiary or beneficiaries, in the same manner, and in accordance with the same methods of computation as are prescribed by such paragraph one with respect to payment of the death benefit pursuant to such election.

e. The effective date of retirement under section 13-545, 13-547, 13-549 or 13-557 of this chapter, shall be the date specified in the application as the date for retirement, provided that the date so specified is subsequent to the date of filing. In case of disability retirement, the effective date of retirement shall be the date of the medical examination or such other date within thirty days subsequent to the medical examination as shall be mutually agreed upon by the contributor and such board.

f. This section shall not apply to a contributor who prior to the tenth day of October, nineteen hundred twenty-nine shall have filed with such board a statement in writing that he or she elected not to come within the provisions of this section.

**HISTORICAL NOTE**

Subs a, e amended chap 274/1970 § 18

Sub e amended chap 976/1970 § 4

**CASE NOTES FROM FORMER SECTION**

¶ 1. Admin. Code § B20-40.0, providing that upon death of a contributor, before retirement or within 30 days

after filing of his application for retirement, the accumulated deductions and interest should be paid to his estate, applied only where there was a voluntary application but not where the contributor was involuntarily retired because of disability. Furthermore, the 30-day provision did not run from date of the Retirement Board's approval of the contributor's retirement, as on that date the retirement became an accomplished fact. The contributor's application, if any, was to be deemed filed by him, was filed on or prior to the date of his letter to the Board wherein he referred to "my" request to be retired.-Hiney v. Teachers' Retirement Board, 182 Misc. 147, 47 N.Y.S. 2d 648 [1944].

¶ 2. Where teacher who had been retired for disability had elected to retire at the maximum retirement allowance, and following the approval of his retirement but before any payment was received the teacher died, argument of the administratrix of his estate, who sought to recover a sum representing the amount of accumulated deductions and interest made from his salary, that the Retirement Board would be unjustly enriched by the retention of such salary deductions, was without merit, as the teacher had made his election even though it turned out that he was unwise in his election. That the Board made no payments of the retirement allowance was immaterial, as the rights of the parties became fixed upon the Board's approval of the retirement.-Hiney v. Teachers' Retirement Board, 182 Misc. 147, 47 N.Y.S. 2d 648 [1944].

¶ 3. Where propriety of retirement of school teacher by Board rested solely upon difference of opinion among competent physicians, the Court would not substitute its judgment for that of the Board where there was substantial evidence to sustain its findings.-In re Giangrande (Bd. of Education), 111 (6) N.Y.L.J. (1-8-44) 99, Col. 5 F, at 7 T.

¶ 4. The provisions of the Code that rights of members of Teachers' Retirement System are exempt from tax, levy, sale, attachment, and assignment did not destroy or impair the validity or effectiveness of a divorce decree which provided that pensioner's ex-wife be named as irrevocable beneficiary with respect to his pension fund.-Lapolla v. Retirement Board of the Teachers' Retirement, etc., 140 N.Y.S. 2d 449 [1955].

¶ 5. Under § B20-46.0 a contributor may file an election to receive modified retirement benefits at any time up to actual retirement by resolution of the Retirement Board. The provisions of subdivision e of this section did not limit the right of the petitioner to make an election more than thirty days after her medical examination.-Matter of Levy, 298 N.Y. 360, 52 N.E. 2d 902 [1943].

¶ 6. A teacher remained a contributor to the retirement system until such time as her retirement was accomplished by resolution of the Retirement Board and during that period could file an election to take modified benefits. The teacher was not required to file her election within thirty days after the medical examination. Thus, where a request for retirement was made on January 26 and a medical examination was held on March 28, the teacher could file an election to take modified benefits any time before April 28, the date the Retirement Board approved the retirement even though the effective date of the retirement was April 1.-Matter of Katz, 291 N.Y. 360, 52 N.E. 2d 902 [1943].

**CASE NOTES**

¶ 1. Decedent, a member of the teachers' retirement system could not change her option selection from maximum retirement allowance to "Option I" after the effective date of her retirement but before receipt of her first check and before her application was acted on officially by the teachers' retirement board.-Greene v. Teachers' Retirement System of N.Y., 107 Misc. 2d 508 [1980].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-544*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-544 Accidental death benefits.

a. A contributor may at any time, by written designation filed with the retirement board, elect that, upon his or her accidental death while in the performance of his or her duties, in lieu of the benefits provided by section 13-543 hereof, paragraph b of subdivision two of section 13-545 and section four hundred forty-eight of the retirement and social security law, the benefits provided by subdivision b of this section be paid. A contributor electing the benefits provided by subdivision b of this section may at any time, by a written designation filed with the retirement board, revoke such election.

b. Upon the accidental death, occurring on or after the effective date of this section, of a contributor before retirement, provided that evidence shall be submitted to the retirement board proving that the death of such was the natural and proximate result of an accident while in the performance of duty, in the service upon which membership is based, at some definite time and place and that such death was not the result of wilful negligence on his or her part, the accumulated deductions and the reserve-for-increased-take-home-pay, if any, shall be paid to the estate, or to such person as the contributor shall have nominated by written designation filed with the retirement board; and, upon application filed within two years after the death of the member by or on behalf of the dependents of such deceased, the retirement board shall grant a pension of one-half of the final compensation of such contributor:

1. to the spouse, to continue until death or remarriage; or

2. if there be no spouse, or if the spouse dies or remarries before any child of such deceased shall have attained the age of eighteen years, then to the child or children under said age, divided in such manner as the retirement board in its discretion shall determine, to continue as a joint and survivor pension of one-half his or her final compensation until

every such child dies or attains said age; or

3. if there be no spouse or child under the age of eighteen years surviving such deceased, then to the dependent father or mother, as the deceased shall have nominated by written designation filed with the retirement board; or, if there be no such nomination, then to the dependent father or to the dependent mother, as the retirement board in its discretion shall direct, to continue for life.

c. Any pension, payable pursuant to this section on account of any such death, shall be reduced by the amount of the benefits that are finally determined to be payable under the workers' compensation law by reason of such disability or death. Such reduction shall be effectuated as follows:

1. pension installments shall be reduced by the amount of the concurrent workers' compensation benefits.

2. the pension reserve on account of a pension so payable shall be reduced by the amount of the lump sum workers' compensation benefits. In such case the pension thereafter payable shall be the actuarial equivalent of the pension reserve as so reduced. No such reduction shall be made, however, for the amount of medical, surgical, or other attendance or treatment, nurse and hospital service, medicine, crutches or apparatus and of any funeral expense provided under the workers' compensation law in addition to regular compensation benefits, or of any legal fees awarded under the workers' compensation law.

If any benefits under the workers' compensation law become payable as the result of such accidental death, the New York city teachers' retirement system shall be entitled to reimbursement out of the unpaid installment or installments of compensation due under the workers' compensation law provided that claim therefor is filed pursuant to the provisions of such law.

d. Notwithstanding any other provision of law to the contrary, and solely for the purposes of this section, a member shall be deemed to have died as the natural and proximate result of an accident sustained in the performance of duty upon which his or her membership is based, and not as a result of willful negligence on his or her part, provided that such member was in active service upon which his or her membership is based at the time that such member was ordered to active duty, other than for training purposes, pursuant to Title 10 of the United States Code, with the armed forces of the United States, and such member died while on such active duty on or after the effective date of the chapter of the laws of two thousand five which added this subdivision while serving on such active military duty.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-545 Retirement; service and superannuation.

Retirement for service shall be as follows:

1. Any contributor may retire fron service upon written application to such board setting forth at what time subsequent to the execution of such application he or she desires to be retired. Such application shall retire such contributor at the time so specified, provided

a. He or she has reached or passed the age of sixty-five years; or

b. If a present teacher, he or she has a total service of thirty-five years or more; or

c. If a new entrant, he or she has a total service of thirty-five years or more, at least twenty of which shall have been city-service; or

d. He or she has reached or passed the age of fifty-five years and has completed thirty years of total-service and provided, that by his or her written application, duly executed and filed with the teachers' retirement board on the first day of February, nineteen hundred sixty or after such date, before any deductions shall have been made from his or her compensation for annuity purposes, the member shall have given his or her consent on an official application form, to contribute the necessary deduction from his or her compensation computed to procure for him or her on service retirement an annuity which will match the pension for service retirement payable pursuant to section 13-554 of this chapter on the basis of retirement after completion of thirty years of total-service but not before age fifty-five. Nothing contained in this paragraph shall deprive any contributor of any reduced rate of contribution to which he or she may be

entitled under the provisions of section 13-546 of this chapter. At any time subsequent to one year after having given such consent, a member may withdraw such consent on an offical*15 withdrawal form, and thereafter any pension allowance for such member shall be calculated in the same manner as though such consent had not been given; or

e. He or she has reached or passed the age of fifty-five years and has completed twenty-five years of total-service and provided that by his or her written application, duly executed and filed with the teachers' retirement board on the first day of February, nineteen hundred sixty-five, or after such date, before any deductions shall have been made from his or her compensation for annuity purposes, the member shall have given his or her consent on an offical*16 application form, to contribute the necessary deduction from his or her compensation computed to procure for him or her on service retirement an annuity which will match the pension for service retirement payable pursuant to section 13-544 of this chapter on the basis of retirement after completion of twenty-five years of total-service but not before age fifty-five. Nothing contained in this paragraph shall deprive any contributor of any reduced rate of contribution to which he or she may be entitled under the provisions of section 13-546 of this chapter. At any time subsequent to one year after having given such consent, a member may withdraw such consent on an offical* withdrawal form, and thereafter any pension allowance for such member shall be calculated in the same manner as though such consent had not been given; or

f. He or she is an age fifty-five-increased-benefits pension plan contributor and has reached or passed the age of fifty-five years; subject, however, to the provisions of section 13-549 of this chapter (relating to deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans).

2. a. (1) Notwithstanding other provisions of this chapter, any rules or regulations adopted by the teachers' retirement board, or any provisions of law to the contrary, a contributor, eligible for retirement by reason of service and/or superannuation, may file with such board a written application for retirement in the form required for such application, electing an option or options in accordance with section 13-558 of this chapter but requesting that such retirement under said option or options shall become effective on the day immediately preceding his or her death.

(2) The application shall be held by such board until the contributor shall file a later application for retirement, or his or her retirement in pursuance of subdivision three of this section shall become effective, or until his or her death, whichever of such events shall first occur; and in the event of such contributor's death while such application shall continue to be so held by such board, his or her said retirement shall become effective with the same benefits to the beneficiary designated pursuant to section 13-558 of this chapter or to the legal representative of such contributor if no beneficiary was so designated:

(i) as if such contributor, if not subject to the provisions of item (ii) of this subparagraph two, had retired and had become entitled to retirement allowance on the day immediately preceding his or her death; or

(ii) as if such contributor, if he or she was a twenty-year pension plan contributor who died on or before his or her initial date of retirement allowance payability, had retired on the day immediately preceding his or her death and had become entitled, on such day, to a retirement allowance beginning on his or her initial date of retirement allowance payability.

b. In the event that a contributor, who would be eligible for retirement by reason of service and/or superannuation, dies while in service before filing with such board an application for retirement in the form required for such application, or who, having filed an application for retirement in the form required, dies before the expiration of a period of thirty days after the effective date of his or her retirement:

(1) he or she shall nevertheless, if not subject to the provisions of subparagraph two of this paragraph b, be deemed to have been retired and to have become entitled to a retirement allowance effective on the day immediately preceding his or her death; or

(2) if he or she was a twenty-year pension plan contributor whose death under the circumstances set forth above

in this paragraph b occurred before his or her initial date of retirement allowance payability, he or she shall nevertheless be deemed to have been retired on the day immediately preceding his or her death and to have become entitled, on such day, to a retirement allowance beginning on his or her initial date of retirement allowance payability; and if he or she had elected to receive his or her benefits without optional modification or if he or she had not indicated his or her election of benefits without optional modification or his or her election of an option under which he or she desired to be retired, he or she shall be considered as having elected to retire under the option designated as Option 1 of section 13-558 of this chapter.

c. The beneficiary designated pursuant to section 13-558 of this chapter, or the legal representative of such contributor if no beneficiary was so designated, to whom benefits are payable under paragraph a or b of this subdivision two may elect, by a statement in writing filed with the board, to receive the benefits payable under section 13-542 or 13-543 of this chapter, whichever is applicable, in lieu of the benefit payable under paragraphs a or b of this subdivision. Any such beneficiary or legal representative who became entitled to the payment or benefits under paragraph a or b of this subdivision on or after April twenty-fourth, nineteen hundred sixty-one but prior to April twenty-fourth, nineteen hundred sixty-two, shall have the right to make such election on or before October thirtieth, nineteen hundred sixty-two.

d. In any case where:

(1) a twenty-year pension plan contributor retires pursuant to section 13-547 of this chapter (relating to the twenty-year pension plan); and

(2) the effective date of his or her retirement precedes the date on which his or her retirement allowance begins; and

(3) such contributor dies more than thirty days after the effective date of his or her retirement and before the expiration of the period of thirty days after the date on which his or her retirement allowance begins; and

(4) on the date of his or her death, an election of Option I, II, III or IV set forth in section 13-558 of this chapter was not in effect with respect to such retirement; he or she shall be deemed to have elected Option I with respect thereto.

e. Notwithstanding any other provision of this chapter to the contrary, in any case where:

(i) any benefit under Option II, III or IV set forth in section 13-558 of this chapter is payable pursuant to paragraph a or b of this subdivision two by reason of the death of a twenty-year pension plan contributor whose initial date of retirement allowance payability is later than the date on which he or she is deemed to have been retired under such paragraph a or b; or

(ii) a twenty-year pension plan contributor who has elected Option II, III or IV set forth in section 13-558 of this chapter retires for service under such circumstances that his or her initial date of retirement allowance payability is later than the effective date of his or her retirement and such contributor dies more than thirty days after such effective date and before his or her initial date of retirement allowance payability; any benefit to which any beneficiary becomes entitled under such Option by reason of such contributor's death shall begin on such initial date.

f. Notwithstanding any other provision of this chapter to the contrary, in any case where a twenty-year pension plan contributor dies in service while such a contributor, after attaining the age of fifty-five years, and, at the time of his or her death, has not completed twenty years of twenty-year pension plan qualifying service, such contributor shall be deemed to have died as an age-fifty-five-increased-benefits pension plan contributor.

g. (1) Notwithstanding any other provision of this chapter to the contrary, in any case where a contributor dies on or after July first, nineteen hundred seventy and prior to November first, nineteen hundred seventy:

(i) under such circumstances that a benefit is payable under paragraph a of this subdivision two; or

(ii) before filing an application for retirement and under such circumstances that a benefit is payable under paragraph b of this subdivision; and such benefit, if this paragraph g had not been enacted, would be otherwise than as prescribed in this paragraph, then irrespective of the pension plan applicable to him or her at the time of his or her death and in lieu of any benefit which would otherwise be payable under the provisions of such paragraph a or b, there shall be paid the benefit which would have been payable if he or she had died while an age-fifty-five-increased-benefits pension plan contributor; provided, however, that if, had he or she died while a twenty-year pension plan contributor:

(a) he or she would have been eligible to retire as a twenty-year pension plan contributor on the day preceding his or her death; and

(b) the benefit payable would be larger than the benefit which would be paid if he or she had died while an age-fifty-five-increased-benefits pension plan contributor;

the benefit payable pursuant to this subparagraph one of this paragraph shall be the benefit which would be payable if he or she had died while a twenty-year pension plan contributor.

(2) In the event that a contributor to whom the provisions of subparagraph one of this paragraph g are applicable dies on July first, nineteen hundred seventy, then for the purposes of this paragraph g, the provisions of this chapter governing the rights, privileges and benefits of an age-fifty-five-increased-benefits pension plan contributor and a twenty-year pension plan contributor shall be deemed to have been in effect on June thirtieth, nineteen hundred seventy.

3. Each and every contributor who has attained or shall attain the age of seventy years shall in any event and whether or not he or she shall have filed an application for retirement in pursuance of subdivision two of this section be retired for service by such board at the end of the school year in which such age of seventy years is attained. For retirement purposes, the school year shall commence on the first day of September and shall terminate on the thirty-first day of August in the year next following.

4. a. Notwithstanding other provisions of this chapter, any rules or regulations adopted by the teachers' retirement board, or any provisions of the law to the contrary, a contributor who applies for retirement in accordance with section 13-545, section 13-547, section 13-548, section 13-549, section 13-550, section 13-551 or section 13-557 of this chapter may in the same application file a conditional election to receive on retirement his or her benefits, at the time prescribed by the applicable provisions of this title, in a retirement allowance payable throughout life or to receive the actuarial equivalent of his or her annuity, his or her pension, or his or her retirement allowance in a lesser annuity, or a lesser pension, or a lesser retirement allowance, payable throughout life in accordance with Option II, Option III or Option IV set forth in section 13-558 of this chapter, subject to the condition that:

(i) if he or she is a contributor other than a twenty-year pension plan contributor described in subparagraph (ii) of this paragraph a and if he or she dies before the effective date of his or her retirement; or

(ii) if he or she is a twenty-year pension plan contributor who has designated in an application for retirement under section 13-547 of this chapter an effective date of retirement occurring before his or her retirement allowance begins and if he or she dies before the date on which his or her retirement allowance begins; he or she shall instead be deemed to have elected Option I set forth in such section 13-558 and a benefit shall be paid under Option I in lieu of any such benefit conditionally elected by him or her.

b. (i) If any such contributor mentioned in subparagraph (i) of paragraph a of this subdivision four does not die under the circumstances set forth in such subparagraph (i) or if any such contributor mentioned in subparagraph (ii) of such paragraph a does not die under the circumstances set forth in such subparagraph (ii), the conditional election of such contributor of benefits without optional modification or Option II, III or IV, as the case may be, shall, as of the date on which his or her retirement allowance begins, cease to be conditional and shall become final and shall supersede

any prior election filed by such contributor under section 13-558 of this chapter.

c. Any contributor who has filed a conditional election pursuant to this paragraph four may at any time before it becomes a regular election file another conditional election conforming with the provisions of this paragraph. Any such subsequent conditional election last filed shall supersede all prior conditional elections filed by such contributor.

5. Notwithstanding other provisions of this chapter, any rules or regulations adopted by the teachers' retirement system, or any provision of the law to the contrary, any member of the faculty or instructional staff of the college of the city of New York, whether or not then having tenure, who was dismissed from such faculty on or before January first, nineteen hundred thirty-four, who shall be living and shall have attained an age of at least seventy years on the effective date of this code, and whose dismissal from such faculty or instructional staff has been, or after the effective date of this code, shall be, determined by the city university of New York to have been without just cause, in lieu of retirement allowance, if any, to which he or she might otherwise have been entitled had he or she continued to be employed as a member of such faculty or instructional staff, shall be entitled to receive, from the city of New York, upon application therefor, a retirement allowance which shall consist of a pension equal to one per cent of the average salary that he or she would have received had he or she continued in the employ of the city university of New York from the date of his or her actual hiring until he or she attained the age of seventy years, as such projected average salary shall be determined by the teachers' retirement system in the exercise of its discretion, making due allowance for probable professional promotions in academic rank and for salary adjustments and increments, multiplied by the total number of years of service that he or she would have rendered prior to the attainment of the age of seventy years in the continuous employ of the city university of New York, had he or she not been dismissed. In addition, he or she may elect, within six months of the effective date of this, to make all or any part of the contribution which he or she would have been required to make in order to be eligible to participate in the annuity savings fund pursuant to section 13-521 of this chapter, or any predecessor act and, upon making such contribution, he or she shall receive an annuity equal in amount to that which he or she would have received had he or she continued in the employ of the city university of New York until attaining the age of seventy years and had made payments as required by law to the annuity savings fund.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Teacher's written application for retirement was self-executing, and the Retirement Board was without discretion to reject her application.-In re Tucker (N.Y.C. Teachers' Retirement Bd.), 106 (140) N.Y.L.J. (12-17-41) 2012, Col. 6 M.

¶ 2. That the teacher was under suspension did not work a forfeiture of her retirement rights, and consequently she might validly apply for retirement benefits. Also, the subsequent dismissal of the teacher did not relate back and take effect as of date of the suspension to extent of nullifying the application or effectually blocking its operation.-Id.

¶ 3. Whether petitioner's intestate was mentally incompetent when he applied to the Teachers' Retirement Board for retirement could not be litigated collaterally in a mandamus proceeding directed to the Board to require them to pay petitioner a certain sum as a death benefit (C.P.A. § 1296), particularly where the application showed on its face that the duty enjoined upon the Board was fully performed (Admin. Code § B20-41.0). The intestate's application for retirement was self-executory, and moreover, even if the intestate were incompetent, his application would merely be voidable.-In re Martin (Teachers' Retirement Board of N.Y.C.), 109 (17) N.Y.L.J. (1-21-43) 274, Col. 5 T; see, also, 269 App. Div. 115, 54 N.Y.S. 2d 245 [1945].

¶ 4. An application for retirement submitted by a teacher on March 26 which designated March 27 as the effective day of the retirement was self-executing and effected the retirement of the teacher at the time specified without action of the Retirement Board. The fact that serious charges of misconduct had been made against the teacher on March 25 did not affect his right to retire.-Matter of Rogalin, 290 N.Y. 664, 49 N.E. 2d 623 [1943].

¶ 5. Where applicant for retirement died before date set in his application for retirement, motion for mandamus against Board of Education Retirement Board was denied. The day mentioned on the application being definite, nothing contained in collateral communications to Board affected the formal application.-Matter of Higgins (Board of Education Retirement Board), 97 (61) N.Y.L.J. (3-16-37) 1319, Col. 1 M; aff'd without opinion, 299 N.Y.S. 757 [1937].

¶ 6. Where petitioner's purported application for retirement from his position as an attendance officer, and the Retirement System's action thereon were a nullity because at the time petitioner was critically ill and in a state of semi-consciousness, and petitioner, having miraculously recovered from his illness, thereafter refused to accept retirement payments and repeatedly asserted that the "X" mark on the application was not his signature or voluntary act, petitioner would not be deemed to have ratified the effectiveness of his retirement by applying to the superintendent of schools for reinstatement to his former position. The situation was not comparable to business transactions where the parties are dealing at arm's length, but the relationship bordered upon one of confidence, particularly in view of the merited good favor in which petitioner stood in the attendance bureau and with his superiors, and moreover he had applied for reinstatement at the suggestion of his superior. Also, the Retirement System did not change its position by reason of petitioner's silence upon his claim of non-retirement.-Vivien v. Board of Education Retirement System, 63 N.Y.S. (2d) 390 [1946], aff'd 272 App. Div. 1000, 73 N.Y.S. 2d 836 [1947].

¶ 7. Service retirement of plaintiffs' intestate as a teacher in the City's public schools would not be set aside and his estate be permitted to recover a sum representing his death benefit payable on basis of his having died in service on theory that the teacher had been mentally incompetent at time he filed his application for retirement. It appeared from the evidence that the intestate knew what he was doing when he retired on a maximum retirement allowance, that he had given the question of his retirement considerable thought and understood the nature of the transaction, that no one was financially dependent upon him, that he disdained medical assistance, and that he was optimistic as to living a long life.-Martin v. Teachers' Retirement Board, 70 N.Y.S. 2d 593 [1947].

¶ 8. Petitioner who, after many months of proceedings before the Board of Education and the Teachers' Retirement System seeking to compel his retirement for disability, had submitted his resignation, which had been accepted by the Board of Education, **held** not entitled to an order directing the Board to accept the withdrawal of his resignation, as under the rules of the Board a withdrawal of a resignation is a discretionary matter. Even if the Board's practice was to accept a withdrawal of a resignation within a one-year period, petitioner would have no vested right thereto.-Korey v. Board of Education, 88 N.Y.S. 2d 160 [1949].

¶ 9. Under a 1961 amendment to § B20-41.0 a member of the retirement system who would be eligible for retirement by reason of service and/or superannuation is deemed to have retired as of the day of his death, if he dies before retiring. A war veteran may be eligible to retire after 25 years of service provided he pays to the Board a 5 or 10 year deficit in his annuity contributions. A military veteran died after completing 25 years of service. However he had not applied for early retirement and had not made the required payment. **Held:** the 1961 amendment was not applicable. It applies only to retirement for 30 years of service or for superannuation.-Matter of Margolin, 36 Misc. 2d 1025, 234 N.Y.S. 2d 237 [1962].

¶ 10. Request for terminal leave made by custodial engineer employed by the Board for over 30 years was denied on ground no formal written application therefor had ever been made. **Held:** this constituted an abuse of discretion. No provision of law or rule required the request to be in writing or by special form. Custodian had made his request to the chief of school custodians, and asked him to present the application to the personnel board for processing.-Jones v. Rubin, 150 (2) N.Y.L.J. (7-2-63) 8, Col. 6 M.

¶ 11. A 52-year-old employee of the Board of Education died in service, after 27 years of allowable service. He was entitled to a retirement benefit under Military Law § 245 if he had lived. Subdivision 2 of this section was applicable and retirement was deemed to have taken place the day before death and the advance notice requirements of the Military Law were not applicable. The further requirement of the Military Law that certain payments be made to the Retirement Fund was applicable.-Matter of Margolin, 14 N.Y. 2d 56, 197 N.E. 2d 610, 248 N.Y.S. 2d 209 [1964].

¶ 12. Where contributor's death did not occur within 30 days after the effective date of her service retirement, which was the date stated in her application for retirement, beneficiaries were not entitled to special benefits of death gamble statute.-Finn v. Teachers' Retirement Bd. of City of N.Y., 51 Misc. 2d 693, 273 N.Y.S. 2d 723 [1966], aff'd 28 App. Div. 2d 718, 282 N.Y.S. 2d 684 [1967], aff'd 21 N.Y. 2d 817, 235 N.E. 2d 908, 288 N.Y.S. 2d 904 [1968].

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-546 Pensions-for-increased-take-home-pay.

a. 1. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty, may elect that the provisions of subdivisions b, e and f of this section shall be applicable to and for the benefit of all contributors.

2. In the event that the board of estimate adopts such a resolution, the provisions of subdivisions b, e and f of this section shall, on the date on which such subdivision b becomes operative, become applicable to and for the benefit of all contributors.

3. On and after June first, nineteen hundred sixty, the board of estimate may not rescind such election.

b. In the event that the board of estimate, pursuant to the provisions of subdivision a of this section, elects that the provisions of this subdivision and subdivisions e and f of this section shall be applicable to and for the benefit of contributors, then beginning with the payroll period the first day of which is nearest to July first, nineteen hundred sixty, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-one, the contribution of each contributor, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half per centum of the salary of such member. Where a member's rate of contribution, exclusive of any increase thereof pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of such section one hundred thirty-eight-b, and before reduction thereof pursuant to this subdivision, is equal to or less than two and one-half per centum, such rate shall be discontinued.

c. 1. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty-one, may elect that the provisions of subdivisions d, e and f of this section shall be applicable to and for the benefit of all contributors.

2. In the event that the board of estimate adopts such a resolution, the provisions of subdivisions d, e and f of this section shall, on the date on which such subdivision d becomes operative, become applicable to and for the benefit of all contributors.

3. On and after June first, nineteen hundred sixty-one, the board of estimate may not rescind such election.

4. In making an election pursuant to the provisions of paragraphs one and two of this subdivision, the board of estimate shall select the percentage by which the contributions of contributors shall be reduced pursuant to the provisions of subdivision d of this section. Such percentage shall be two and one-half per centum or five per centum, whichever such board, in its discretion, shall designate in the resolution making such election. Such percentage shall not be changed after it has been designated in such resolution.

d. In the event that the board of estimate, pursuant to the provisions of subdivision c of this section, elects that the provisions of this subdivision and of subdivisions e and f of this section shall be applicable to and for the benefit of contributors, then beginning with the payroll period the first day of which is nearest to July first, nineteen hundred sixty-one, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-two, the contribution of each contributor, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by the percentage selected by the board of estimate pursuant to the provisions of paragraph four of subdivision c of this section. Where a member's rate of contribution, exclusive of any increase thereof pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of such section one hundred thirty-eight-b, and before reduction thereof pursuant to this subdivision, is equal to or less than such percentage, such rate shall be discontinued.

e. 1. Any reduction or discontinuance of a member's contribution, as the case may be, made pursuant to the provisions of this section, shall:

(i) Be subject to waiver by the member as provided in subdivision six of section 13-521 of this chapter, and

(ii) Take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old-age survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

2. A contributor to whom or for whose benefit the provisions of subdivison b or d of this section, or both, are applicable under the provisions of subdivisions a and c of this section, or to whom or for whose benefit the provisions of paragraph four of subdivision g, paragraph four of subdivision i, paragraph one of subdivision j, paragraph one of subdivision k, paragraph one of subdivision l, paragraph one of subdivision m, paragraph one of subdivision n, paragraph one of subdivision o or paragraph one of subdivision p of this section are applicable, and who waives any reduction or discontinuance (to which he or she is entitled under the provisions of this section) of his or her contribution, shall be entitled to a pension-providing-for-increased-take-home-pay and death benefit to the same extent as if such waiver had not been made.

f. 1. With respect to each contributor to whom or for whose benefit the provisions of subdivision b or d of this section, or both, are applicable under the provisions of subdivisions a and c of this section, or to whom or for whose benefit the provisions of paragraph four of subdivision g, paragraph four of subdivision i, paragraph one of subdivision j, paragraph one of subdivision k, paragraph one of subdivision l, paragraph one of subdivision m, paragraph one of subdivision n, paragraph one of subdivision o or paragraph one of subdivision p of this section are applicable,

contributions shall be made to the contingent reserve fund by the city with respect to the period of such applicability, at a rate fixed by the actuary which shall be computed to be sufficient to provide the death benefit hereunder and pension-providing-for-increased-take-home-pay which are or may become payable on account of such contributor.

2. Such a benefit and such a pension-providing-for-increased-take-home-pay shall be based on a reserve-for-increased-take-home-pay.

3. (a) Notwithstanding any other provision of this title or any other law to the contrary, all contributions due from the city to the contingent reserve fund with respect to the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two and with respect to each fiscal year thereafter under the provisions of paragraph one of this subdivision f shall be payable with regular interest thereon in the second fiscal year after the fiscal year with respect to which such contributions are due.

(b) In any case where during the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two or any succeeding fiscal year, any amount would have been currently deposited and credited to a variable annuity program participant's individual account in the variable pension accumulation fund, if subparagraph (a) of this paragraph three had not been enacted, an equal amount shall be transferred from the contingent reserve fund and shall be deposited and credited to such account at the same time and in the same manner as if such subparagraph (a) had not been enacted.

g. Provisions relating to fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three. 1. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty-two, may elect that the provisions of paragraph four of this subdivision g and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors.

2. In the event that such board adopts such a resolution, the provisions of such paragraph four and of such subdivisions e and f shall, on the date on which such paragraph becomes operative, become applicable to and for the benefit of all contributors.

3. On and after June first, nineteen hundred sixty-two, such board may not rescind such an election.

4. In the event that such board, pursuant to the provisions of paragraphs one and two of this subdivision g, elects that the provisions of this paragraph four and of such subdivisions e and f shall be applicable to and for the benefit of all contributors, then beginning with the payroll period the first day of which is nearest to July first, nineteen hundred sixty-two and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-three, the contribution of each contributor, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five per centum of the salary of such contributor.

h. Where the rate of contribution of a contributor to whom or for whose benefit the provisions of paragraph four of subdivision g or paragraph four of subdivision i of this section are applicable, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554 of this chapter, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to either of such paragraphs four, is equal to or less than five per centum, such rate shall be dis-continued.

i. Provisions relating to fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four and certain subsequent fiscal years.

1. (a) Fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty, may elect that the provisions of subdivisions b, e and f of this section shall be applicable to and for the benefit of all contributors.

(b) Fiscal year nineteen hundred sixty-four-nineteen hundred sixty-five. The mayor, by executive order adopted prior to June first, nineteen hundred sixty-four, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors.

(c) Fiscal year nineteen hundred sixty-five-nineteen hundred sixty-six. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-five, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors. On and after June nineteenth, nineteen hundred sixty-five, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election made under this subparagraph (c).

(d) Fiscal year nineteen hundred sixty-six-nineteen hundred sixty-seven. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors. On and after June nineteenth, nineteen hundred sixty-six, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election made under this subparagraph (d).

(e) Fiscal year nineteen hundred sixty-seven-nineteen hundred sixty-eight. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors. On and after June seventeenth, nineteen hundred sixty-seven, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election made under this subparagraph (e).

(f) Provisions for fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine relating to city university of New York contributors. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-eight, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the city university of New York. On and after June seventeenth, nineteen hundred sixty-eight, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election made under this subparagraph.

(g) Provisions for fiscal year nineteen hundred sixty-nine-nineteen hundred seventy relating to transferred contributors and contributors other than contributors who are employees of the board of education or the city university of New York. The mayor by executive order adopted prior to June sixteenth, nineteen hundred sixty-nine, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of (1) all contributors who are transferred contributors and (2) all contributors other than contributors who are employees of the board of education of the city or city university of New York. On and after June sixteenth, nineteen hundred sixty-nine, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election made under this subparagraph.

(h) Provisions for fiscal year nineteen hundred seventy-nineteen hundred seventy-one relating to transferred contributors and contributors other than contributors who are employees of the board of education or city university of New York. The mayor by executive order adopted prior to June sixteenth, nineteen hundred seventy may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of (1) all contributors who are transferred contributors and (2) all contributors other than contributors who are employees of the board of education of the city or city university of New York. On and after June sixteenth, nineteen hundred seventy, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election under this subparagraph.

(i) Provisions for fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two relating to transferred contributors and contributors other than contributors who are employees of the board of education or city university of New York. The mayor by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one may elect that the provisions of paragraph four of this

subdivision i and the provisions of subdivisions e and f of this section shall be applicable to and for the benefit of (1) all contributors who are transferred contributors and (2) all contributors other than contributors who are employees of the board of education of the city or city university of New York. On and after such date forty-five days after such adjournment, the mayor may not rescind such an election. The provisions of paragraph three of this subdivision i shall not apply to an election under this subparagraph.

(j) Provisions for fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three relating to transferred contributors and other contributors who are not employees of the board of education or city university of New York. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may elect that the provisions of paragraph four of this subdivision i and the provisions of subdivisions c and f of this section shall be applicable to and for the benefit of (1) all contributors who are transferred contributors and (2) all other contributors who are not employees of the board of education of the city or city university of New York. On and after such date forty-five days after such adjournment or such June seventeenth, whichever is later, the mayor may not rescind such an election. The provisons of paragraph three of this subdivision i shall not apply to an election under this subparagraph.

2. In the event that the mayor adopts such an executive order, the provisions of such paragraph four and of such subdivisions e and f shall, on the applicable date on which such paragraph becomes operative with respect to the corresponding fiscal year specified in paragraph one of this subdivision i, become applicable to and for the benefit of all contributors who are designated in paragraph one of this subdivision i as eligible for the benefit of such order with respect to such fiscal year.

3. On and after June first, of the fiscal year described in an executive order issued pursuant to paragraphs one and two of this subdivision i, the mayor may not rescind such an election.

4. In the event that the mayor, pursuant to the provisions of paragraphs one and two of this subdivision i, elects that the provisions of this paragraph four and of such subdivisions e and f shall be applicable to and for the benefit of all contributors designated in the applicable provisions of such paragraph one as eligible for the benefit of such election, then beginning with the payroll period the first day of which is nearest to July first, of the fiscal year described in an executive order issued pursuant to paragraphs one and two of this subdivision i and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, of such fiscal year, the contribution of each contributor so designated as eligible with respect to such fiscal year, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five per centum of the salary of such contributor.

j. Provisions relating to the period September first, nineteen hundred sixty-seven through September seven, nineteen hundred sixty-nine for board of education contributors. 1.(a) Subject to the provisions of subparagraph (b) of this paragraph one, beginning with the payroll period the first day of which is nearest September first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the contribution of each contributor who is an employee of the board of education of the city of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by three per centum of the salary of such contributor.

(b) The reduction provided for by subparagraph (a) of this paragraph one shall be in addition to any reduction made during the period mentioned in such subparagraph (a) pursuant to subparagraph (e) of paragraph one of subdivision i of this section. The amount of the reduction made pursuant to subparagraph (a) of this paragraph one in the contribution of any such contributor for such portion of the period mentioned in such subparagraph (a) as precedes

the effective date of this subdivision shall be refunded by the retirement board without interest unless such reduction has been waived pursuant to subdivision e of this section. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to subparagraph (a) of this paragraph is equal to or less than three per cent during the period mentioned in such subparagraph (a), such rate shall be dis- continued.

(c) Beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight and ending with the payroll period immediately prior to that the first day of which is nearest to September seventh, nineteen hundred sixty-nine, the contribution of each contributor who is an employee of the board of education of the city of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by eight per centum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this subparagraph (c), is equal to or less than eight per cent, such rate shall be discontinued.

2. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the board of education of the city of New York.

k. Provisions relating to the period September first, nineteen hundred sixty-nine through August thirty-first, nineteen hundred seventy for board of education contributors.

1. Beginning with the payroll period the first day of which is September first, nineteen hundred sixty-nine and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy, the contribution of each contributor who is an employee of the board of education of the city, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by eight per centum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this subdivision k, is equal to or less than eight per cent, such rate shall be discontinued.

2. The provisions of subdivision e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the board of education of the city.

l. Provisions relating to the period September first, nineteen hundred sixty-eight through August thirty-first, nineteen hundred seventy for city university of New York contributors. 1. (a) Subject to the provisions of subparagraph (b) of this paragraph one, the mayor by executive order adopted prior to June sixteenth, nineteen hundred sixty-nine, may elect that, beginning with the payroll period the first day of which is nearest September first, nineteen hundred sixty-eight, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-nine, the contribution of each contributor who is an employee of the city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by three percentum of the salary of such contributor. On and after June sixteenth, nineteen hundred sixty-nine, the mayor may not rescind such an election.

(b) Any reduction made pursuant to subparagraph (a) of this paragraph one shall be in addition to any reduction made during the period mentioned in such subparagraph (a) pursuant to subparagraph (f) of paragraph one of subdivision i of this section. The amount of any reduction made pursuant to subparagraph (a) of this paragraph one in

the contribution of any such contributor for such portion of the period mentioned in such subparagraph (a) as precedes July first, nineteen hundred sixty-nine, shall be refunded by the retirement board without interest unless such reduction has been waived pursuant to subdivision e of this section. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to subparagraph (a) of this paragraph is equal to or less than three percent during the period mentioned in such subparagraph (a), such rate, if such reduction be made pursuant to such subparagraph (a), shall be discontinued.

(c) The mayor by executive order adopted prior to June sixteenth, nineteen hundred sixty-nine may elect that beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-nine and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy, the contribution of each contributor who is an employee of the city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by eight percentum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this subparagraph (c), is equal to or less than eight per cent, such rate, if such reduction be made pursuant to this subparagraph (c), shall be discontinued. On and after June sixteenth, nineteen hundred sixty-nine, the mayor may not rescind such an election.

2. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the city university of New York.

m. Provisions relating to the period September first, nineteen hundred seventy through August thirty-first, nineteen hundred seventy-one for board of education contributors.

1. (a) Beginning with the payroll period the first day of which is July first, nineteen hundred seventy and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy-one, the contribution of each contributor who is an employee of the board of education of the city, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall, if a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is enacted into law, be reduced by five percentum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereto pursuant to this paragraph one, is equal to or less than five per cent, such rate shall be discontinued.

(b) If such bill referred to in subparagraph (a) of this paragraph one is enacted, (i) the reduction in contributions of contributors provided for in subparagraph (a) of this paragraph one with respect to the months of July and August, nineteen hundred seventy shall be in lieu of and shall supersede the reductions in contributions of contributors provided for with respect to such months by paragraph one of subdivision k of this section, and (ii) the reduction in contributions of contributors provided for with respect to such months by paragraph one of such subdivision k shall not be made.

2. In the event that the bill hereinabove entitled is not enacted into law, then beginning with the payroll period the first day of which is September first, nineteen hundred seventy and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy-one, the contribution of each contributor who is an employee of the board of education of the city, exclusive of any increase in such contribution pursuant to section 13-525 or

subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by eight per centum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this paragraph two, is equal to or less than eight per cent, such rate shall be discontinued.

3. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the board of education of the city.

n. Provisions relating to the period September first, nineteen hundred seventy through August thirty-first, nineteen hundred seventy-one for city university of New York contributors.

1. (a) Beginning with the payroll period the first day of which is July first, nineteen hundred seventy and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy-one, the contribution of each contributor who is an employee of the city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 on subdivision two of section 13-554 of section one hundred thirty-eight-b of the retirement and social security law, shall, if a bill entitled "An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for contributors to the New York city teachers' retirement system, including optional retirement plans" is enacted into law, be reduced by five percentum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this paragraph one, is equal to or less than five per cent, such rate, if such reduction be made pursuant to this paragraph one, shall be discontinued.

(b) If the bill referred to in subparagraph (a) of this paragraph one is enacted, (i) the reduction in contributions of contributors provided for in subparagraph (a) of this paragraph one with respect to the months of July and August, nineteen hundred seventy shall be in lieu of and shall supersede the reductions in contributions of contributors provided for with respect to such months by subparagraph (c) of paragraph one of subdivision l of this section, and (ii) the reduction in contributions of contributors provided for with respect to such months by such subparagraph (c) shall not be made.

2. In the event that the bill hereinabove entitled is not enacted into law, then beginning with the payroll period the first day of which is September first, nineteen hundred seventy and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy-one, the contribution of each contributor who is an employee of the city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by eight percentum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to section 13-525 or subdivision two of section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this paragraph two, is equal to or less than eight per cent, such rate, if such reduction be made pursuant to this paragraph two, shall be discontinued.

3. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the city university of New York.

o. Provisions relating to the period September first, nineteen hundred seventy-one through August thirty-first, nineteen hundred seventy-two for board of education and city university of New York contributors. 1. Beginning with the payroll period the first day of which is September first, nineteen hundred seventy-one and ending with the payroll

period the last day of which is August thirty-first, nineteen hundred seventy-two, the contribution of each contributor who is an employee of the board of education or city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five percentum of the salary of such contributor. Where the rate of contribution of such contributor, exclusive of any increase in such rate pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this paragraph one, is equal to or less than five per cent, such rate shall be discontinued.

2. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the board of education or city university of New York.

p. Provisions relating to the period September first, nineteen hundred seventy-two through August thirty-first, nineteen hundred seventy-three for board of education and city university of New York. 1. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may elect that beginning with the payroll period the first day of which is September first, nineteen hundred seventy-two and ending with the payroll period the last day of which is August thirty-first, nineteen hundred seventy-three, the contribution of each contributor who is an employee of the board of education or city university of New York, exclusive of any increase in such contribution pursuant to section 13-525 or subdivision two of section 13-554 of this chapter of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five percentum of the salary of such contributor. If such election is made by the mayor, then in any case where the rate of contribution of any such contributor, exclusive of any increase in such rate pursuant to such section 13-525 or subdivision two of such section 13-554, or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to this paragraph one, is equal to or less than five per cent, such rate shall be discontinued.

2. The provisions of subdivisions e and f of this section shall be applicable to and for the benefit of all contributors who are employees of the board of education or city university of New York.

***** Current through December 2009 ****

*NYC Administrative Code 13-547*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-547 Optional service retirement upon completion of minimum period of service under twenty-year pension plan.

a. (1) (a) Any contributor in member-service may elect, by a written application duly executed and filed with the retirement board on or after the date of enactment of this section and prior to July first, nineteen hundred seventy, to become a twenty-year pension plan contributor commencing on July first, nineteen hundred seventy and to contribute to the retirement system for the right to retire under the twenty-year pension plan; provided, however, that if any contributor filing such an application is not in member-service on July first, nineteen hundred seventy, such application shall be void and of no effect.

(b) Any contributor in member-service on June thirtieth, nineteen hundred seventy, who at the time of filing an application as hereinafter in this subparagraph (b) provided, is in member-service, may elect, by a written application duly executed and filed with the retirement board on or after July first, nineteen hundred seventy and no later than June thirtieth, nineteen hundred seventy-two, to become a twenty-year pension plan contributor commencing on July first, nineteen hundred seventy and to contribute to the retirement system for the right to retire under the twenty-year pension plan.

(c) Any contributor who was in member-service on June thirtieth, nineteen hundred seventy-two, who at the time of filing an application as hereinafter in this subparagraph provided is in member-service, may elect, by a written application duly executed and filed with the retirement board on or after July first, nineteen hundred eighty and no later than June thirtieth, nineteen hundred eighty-one, to become a twenty-year pension plan contributor commencing on July first, nineteen hundred eighty and to contribute to the retirement system for the right to retire under the twenty-year pension plan.

(2) Subject to the provisions of subdivision c of this section, the normal rate of contribution of any such contributor making such election pursuant to paragraph one of this subdivision a, shall, commencing on the date he or she elected to become a twenty-year pension plan contributor, be that which would have been established for such contributor if:

(a) on his or her contribution rate fixation date, the provisions of this section had been in effect, and he or she had been eligible for and had on such date elected the benefits of the twenty-year pension plan; and

(b) his or her rate of contribution had then been fixed on the basis of mortality and other tables authorized in this chapter and interest at four per centum as a per cent of his or her earnable salary which, when deducted from each payment of his or her prospective earnable salary prior to his or her completion of his or her twentieth year of twenty-year pension plan qualifying service and accumulated at interest at four per centum until completion of such twenty years of service, would be computed to provide an annuity, which, as of the initial date of retirement allowance payability with respect to such contributor, would be equal to one-eighth of his or her prospective average salary upon the completion of such period of twenty years of service.

b. (1) Subject to the provisions of paragraph five of this subdivision b, any contributor who was not in member-service on June thirtieth, nineteen hundred seventy, and who, on or after July first, nineteen hundred seventy enters for the first time or first re-enters member-service, may, if he or she is in member-service at the time of filing an application as hereinafter in this paragraph one provided, elect to contribute to the retirement system for the right to retire under the twenty-year pension plan, by duly executing a written application and by filing same with the retirement board within two years after the date on which he or she so enters for the first time or first re-enters member-service. Any contributor making such election shall become a twenty-year pension plan contributor commencing on the date as of which, under the applicable provisions of paragraph two or paragraph three of this subdivision b, he or she is required to begin contributing for such right to retire.

(2) Upon the basis of the mortality and other tables authorized in this chapter and regular interest, the actuary of the retirement board shall determine for each such contributor who:

(a) first enters member-service under the conditions specified in paragraph one of this subdivision b and makes such election pursuant to such paragraph one; or

(b) first re-enters member-service under the conditions specified in such paragraph one and makes such election and at the time of such first re-entry into member-service has a contribution rate fixation date coinciding with the date of such first re-entry; the per cent of his or her earnable salary which, when deducted from each payment of his or her prospective earnable salary, from the date of such first entry or first re-entry into member-service, as the case may be, and prior to his or her completion of twenty years of twenty-year pension plan qualifying service and accumulated at regular interest until completion of such twenty years of service, shall be computed to provide an annuity which, as of the initial date of retirement allowance payability with respect to such contributor, shall be equal to one-eighth of his or her prospective average salary upon the completion of such period of twenty years of service. The normal rate of contribution of such contributor shall be such per cent determined as prescribed in this paragraph two, commencing on the date on which he or she first so enters or first so reenters member-service.

(3) Subject to the provisions of subdivision c of this section, the normal rate of contribution of each such contributor who:

(a) first re-enters member-service under the conditions specified in paragraph one of this subdivision b; and

(b) makes such election pursuant to such paragraph one; and

(c) at the time of such first re-entry into member-service, has a contribution rate fixation date occurring during his or her member-service preceding the date of such first re-entry; shall, beginning on the date on which he or she first

so re-enters member-service, be that which would have been established for such contributor if: (i) on his or her contribution rate fixation date; he or she had been eligible for and had on such date elected the benefits of the twenty-year pension plan; and

(ii) his or her rate of contribution had then been fixed in accordance with the method of computation prescribed in subparagraph (b) of paragraph two of subdivision a of this section.

(4) In any case where the provisions of this section were not in effect on the contribution rate fixation date of a twenty-year pension plan contributor for whom a normal rate of contribution is required to be fixed pursuant to the provisions of paragraph three of this subdivision b, they shall be deemed to have been in effect on such date for the purposes of such paragraph.

(5) (a) In any case where a twenty-year pension plan contributor ceases to be a member of the retirement system while such a contributor and subsequently and next after such cessation of membership re-enters member-service without being entitled to service credit and status prior to withdrawal as provided for in section 13-506 of this chapter (relating to withdrawn contributors who re-enter service), such contributor shall, upon such re-entry into member-service, become a twenty-year pension plan contributor.

(b) Subject to the provisions of subdivision c of this section, the normal rate of contribution and minimum accumulation of any such contributor mentioned in subparagraph (a) of this paragraph five shall be the normal rate of contribution and minimum accumulation which would have been established for him or her if he or she had first become a twenty-year pension plan contributor on the date of such re-entry into member-service.

c. (1) In any case where prior to the date on which a twenty-year pension plan contributor first or last becomes such a contributor, he or she had completed twenty or more years of twenty-year pension plan qualifying service, the normal rate of contribution of such contributor shall be fifteen per centum.

(2) In any case where a twenty-year pension plan contributor, on the date on which he or she first or last becomes such a contributor, has twenty-year pension plan qualifying service which

(a) was rendered prior to such date; and

(b) aggregates less than twenty years; and

(c) consists of a number of whole years of such service plus a fractional part of a year of such service;

the actuary may determine the normal rate of contribution of such contributor on the basis of interpolation.

(3) In any case where a twenty-year pension plan contributor shall, after his or her normal rate of contribution as such a contributor is fixed pursuant to the applicable provisions of this section, acquire credit for twenty-year pension plan qualifying service by transfer as described in subdivision forty-four of section 13-501 of this chapter (relating to definitions), a new normal rate of contribution shall be fixed for such contributor pursuant to the applicable provisions of this section on the basis of his or her twenty-year pension plan qualifying service as recomputed to include such transferred service credit. Such new normal rate of contribution shall be effective with respect to such contributor as of the date on which the original normal rate of contribution of such contributor was effective. Appropriate adjustment shall be made in the contributions of such contributor until his or her contributions as a twenty-year pension plan contributor are as they would be if he or she had been contributing at such new normal rate of contribution from the date on which such original normal rate of contribution was effective.

d. (1) A twenty-year pension plan contributor may at any time cancel his or her election to be such a contributor by duly executing and filing with the retirement board a written cancellation; provided, however, that any twenty-year pension plan contributor who has attained a status requiring that he or she be retired pursuant to subdivision three of

section 13-545 of this chapter (relating to retirement for superannuation), and who, as of the date on which he or she is required to be retired pursuant to such subdivision, is not eligible to retire for service pursuant to this section, shall be deemed to have cancelled such election as of the date next preceding the date on which he or she is required to be retired.

(2) After the filing of a cancellation by a contributor pursuant to paragraph one of this subdivision d:

(a) the provisions of this section, other than this paragraph two and paragraphs three and four of this subdivision d, shall be inapplicable to such contributor; and

(b) he or she shall not be a twenty-year pension plan contributor; and

(c) he or she shall not be eligible to elect again the benefits of this section.

(3) On and after the date of which such provisions of this section become inapplicable to any such contributor under the provisions of paragraph two of this subdivision d:

(i) such contributor shall be an age-fifty-five-increased-benefits pension plan contributor; and

(ii) the normal rate of contribution of such contributor shall be that which would have been established for such contributor if he or she had elected, as of his or her contribution rate fixation date, to become a twenty-five-year-age-fifty-five-one-per-centum contributor; and

(iii) the eligibility and rights of such contributor with respect to benefits under this chapter shall be governed by the applicable provisions thereof in the same manner as if such contributor had not elected to become a twenty-year pension plan contributor.

(4) In any case where a contributor elects to cancel his or her election pursuant to paragraph one of this subdivision d, the provisions of subdivision f of section 13-548 of this chapter (relating to fixation of the normal rate of contribution of age fifty-five-increased-benefits pension plan contributors) shall apply to the fixation of the normal rate of contribution of such contributor.

e. (1) Any twenty-year pension plan contributor may retire from service on written application to such board setting forth at what time subsequent to the execution of such application he or she desires to be retired. Such application shall retire such contributor at the time so specified, provided:

(a) he or she shall have completed, at such time, twenty years of twenty-year pension plan qualifying service; and

(b) he or she would have been able, if he or she remained in cityservice, to complete at least twenty-five years of twenty-year pension plan qualifying service before the date as of which he or she would be required to be retired for superannuation pursuant to subdivision three of section 13-545 of this chapter.

(2) Such contributor shall receive, in lieu of any other retirement allowance, a retirement allowance which shall be computed pursuant to subdivision f and g of this section and which shall begin with respect to such contributor on the latest of the following dates: (a) the date on which he or she attains the age of fifty-five years; or

(b) the date next following the earliest date on which, had he or she remained in city-service, he or she could have completed twenty-five years of twenty-year pension plan qualifying service; or

(c) the effective date of his or her retirement.

f. Subject to the provisions of subdivision g of this section, such retirement allowance to which such contributor

is entitled shall consist of:

(1) an annuity which shall be the actuarial equivalent, as of the date on which such contributor's retirement allowance begins, of his or her accumulated deductions as they were on such date; and

(2) for the first twenty years of his or her twenty-year pension plan qualifying service: (a) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent, as of the date on which his or her retirement allowance begins, of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for such period of twenty years of twenty-year pension plan qualifying service; and

(b) a pension equal to the amount obtained: (i) by adding together the amount of the pension-providing-for-increased-take-home-pay computed pursuant to subparagraph (a) of this paragraph two and his or her minimum accumulation factor, as defined in subdivision twenty-a of section 13-501 of this chapter; and

(ii) by subtracting the sum resulting from the addition prescribed by item (i) of this subparagraph (b) from an amount equal to one-half of his or her average salary; and (3) in addition, for total-service credited in excess of such first twenty years of twenty-year pension plan qualifying service: (a) A pension equal to the product obtained by multiplying the number of such years of excess service by one and two-tenths per centum of his or her average salary, and by adding to such product for any years of such excess service occurring after June thirtieth, nineteen hundred seventy, a further pension equal to the product obtained by multiplying the number of such years of excess service occurring after such date by five tenths of one per centum of his or her average salary; and

(b) A pension-providing-for-increased-take-home-pay which is the actuarial equivalent, as of the date when his or her retirement allowance begins, of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for all periods of twenty-year pension plan qualifying service rendered by him or her, other than such first twenty years of such service.

g. (1) In any case where a twenty-year pension plan contributor who retires pursuant to this section is a participant in the variable annuity program on the date when his or her retirement allowance begins, he or she shall receive, in lieu of the retirement allowance provided for in subdivision f of this section and in lieu of any other retirement allowance, a retirement allowance, which, subject to the provisions of paragraph two of this subdivision g, shall consist of: (a) an annuity which shall be the actuarial equivalent, as of the date on which his or her retirement allowance begins, of his or her accumulated deductions as they are on such date; and

(b) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent, as of the date on which his or her retirement allowance begins, of the reserve-for-increased-take-home-pay, if any, which is credited to his or her account in the contingent reserve fund as of the date on which his or her retirement allowance begins; and

(c) a pension, for the first twenty years of his or her twenty-year pension plan qualifying service, equal to the amount obtained:

(i) by computing an amount equal to a pension-providing-for-increased-take-home-pay which is the actuarial equivalent, as of the date on which his or her retirement allowance begins, of the reserve-for-increased-take-home-pay, if any, to which he or she would have been entitled for his or her first twenty years of twenty year pension plan qualifying service, if he or she had never been a participant in the variable annuity program; and

(ii) by adding together the amount computed pursuant to item (i) of this subparagraph (c) and his or her minimum accumulation factor, as defined in subdivision twenty-a of section 13-501 of this chapter; and

(iii) by subtracting the sum resulting from the addition prescribed by item (ii) of this subparagraph (c) from an amount equal to one-half of his or her average salary; and

(d) in addition, for total-service credited in excess of such first twenty years of twenty-year pension plan qualifying service, a pension computed in the manner prescribed by subparagraph (a) of paragraph three of subdivision f of this section; and

(e) the variable annuity and variable pension to which he or she may be entitled.

(2) The retirement allowance to which such contributor shall be entitled under the provisons of this subdivision g shall be the amount remaining after there is deducted from the total of the components mentioned in subparagraphs (a), (b), (c), (d) and (e) of paragraph one of this subdivision, the actuarial equivalent of the amount of regular interest which, if such contributor had never been a participant in the variable annuity program, would have accrued, during his or her period of service, if any, in excess of his or her first twenty years of twenty-year pension plan qualifying service upon the reserve-for-increased-take-home-pay, if any, credited to him or her with respect to such first twenty years of service.

h. (1) Notwithstanding any other provision of this chapter to the contrary, but subject to paragraph two of this subdivision, in any case where, on or after the date this subdivision becomes a law, a fifty-five-year-increased-benefits pension plan member dies in service while such a member, after completing twenty or more years of career pension plan qualifying service such member shall be deemed to have died as a twenty-year pension plan member, if status as such a twenty-year pension plan member at the time of his or her death would result in a benefit larger than the benefit which would be payable if such member died while a fifty-five-year-increased-benefits pension plan member.

(2) In any case where a member referred to in paragraph one of this subdivision is a Tier II member at the time of his or her death, any change in the plan membership of such member pursuant to such paragraph one shall not change, alter or affect the applicability of article eleven of the retirement and social security law to such member.

i. (1) Subject to the provisions of subdivision d of this section, or after the date this subdivision becomes a law, any fifty-five-year-increased-benefits pension plan member in city-service may elect, by a written application duly executed and filed with the board, to become a twenty-year pension plan member and to contribute to the retirement system, pursuant to the appropriate provisions of this section, for the right to retire under the twenty-year pension plan.

(2) Such member shall become a twenty-year pension plan member upon the filing of such application.

j. (1) In any case where on or after the date this subdivision becomes a law, a twenty-year pension plan member becomes a fifty-five-year-increased-benefits pension plan member by reason of his or her withdrawal pursuant to subdivision d of this section, of his or her election to be a twenty-year pension member, such member shall not thereafter be eligible to elect, pursuant to the applicable provisions of subdivision i of this section, again to become a career pension plan member, except as otherwise provided in paragraph three of this subdivision.

(2) In any case where on or after such effective date, a fifty-five-year-increased-benefits pension plan member becomes a twenty-year pension plan member by reason of such member's election to do so pursuant to the applicable provisions of subdivision i of this section, such member who made such election shall not thereafter be eligible to withdraw, pursuant to paragraph one of this subdivision, such election except as otherwise provided in paragraph three of this subdivision.

(3) Any member referred to in paragraph one or paragraph two of this subdivision shall be eligible to file an election or a withdrawal, as the case may be, provided (i) such member files an application for service retirement no more than thirty days after the filing of such election or withdrawal and retires pursuant to such application or (ii) such member, under circumstances qualifying him or her for a vested rights retirement allowance, discontinues city-service no more than thirty days after the filing of such election or withdrawal.

k. In any case where any member, at the time of making any election or filing any withdrawal authorized by the preceding provisions of this section, is a Tier II member and in any case where a Tier II member becomes subject to the

provisions of paragraph two of subdivision d of this section, the making of such election or the filing of such withdrawal or the status of such member as subject to such paragraph two shall not change, alter or affect the applicability of article eleven of the retirement and social security law to such member and nothing contained in such preceding provisions of such paragraph two shall be construed as changing, altering or affecting the applicability of such article to such member.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-548 Age-fifty-five-increased-benefits pension plan.

a. Any contributor:

(1) who did not prior to filing an application to become an age-fifty-five-increased-benefits pension plan contributor as hereinafter in this subdivision a provided, file an application to become a twenty-year pension plan contributor pursuant to subparagraph (a) of paragraph one of subdivision a of section 13-547 of this chapter (relating to the twenty-year pension plan); and

(2) who is in member-service at the time of filing such application to become an age-fifty-five-increased-benefits pension plan contributor;

may by a written application duly executed and filed with the retirement board on or after the date of enactment of this section and prior to July first, nineteen hundred seventy, elect to become an age-fifty-five-increased-benefits pension plan contributor commencing on July first, nineteen hundred seventy, and to contribute for the right to retire under the age-fifty-five-increased-benefits pension plan; provided, however that if any contributor filing such an application to become an age-fifty-five-increased-benefits pension plan contributor is not in member-service on July first, nineteen hundred seventy, such application shall be void and of no effect.

b. Any contributor in member-service on June thirtieth, nineteen hundred seventy:

(1) who is not, at the time of filing an application as hereinafter in this subdivision b provided, either a twenty-year pension plan contributor or a former twenty-year pension plan contributor who, by reason of cancellation,

is an age-fifty-five-increased-benefits pension plan contributor pursuant to subparagraph (i) of paragraph two of subdivision d of section 13-547 of this chapter (relating to the twenty-year pension plan); and

(2) who is in member-service at the time of filing an application as hereinafter in this subdivision b provided:

may by a written application duly executed and filed with the retirement board on or after July first, nineteen hundred seventy and no later than June thirtieth, nineteen hundred seventy-two, elect to become an age-fifty-five-increased-benefits pension plan contributor and to contribute for the right to retire under the age-fifty-five-increased-benefits pension plan.

c. The normal rate of contribution of each contributor making such an election pursuant to subdivision a or b of this section shall, commencing on July first, nineteen hundred seventy, be that which would have been established and in effect for such contributor on such July first if he or she had elected, as of his or her contribution rate fixation date, to become a twenty-five-year-age-fifty-five-one-per-centum contributor (as defined in subdivision forty-eight of section 13-501 of this chapter).

d. (1) Notwithstanding any other provision of this chapter to the contrary, but subject to the provisions of paragraph three of this subdivision, any contributor who, on or after July first, nineteen hundred seventy:

(a) enters member-service for the first time; or

(b) re-enters member-service as a withdrawn contributor without being entitled to service credit and status prior to withdrawal as provided for in section 13-506 of this chapter (relating to withdrawn contributors who re-enter service); or

(c) re-enters member-service after having become a discontinued member and is not entitled, at the time of such re-entry, to service credit and status prior to withdrawal as provided for in subdivision h of section 13-556 of this chapter (relating to credit for service and status prior to withdrawal upon restoration of a discontinued member to service); shall, upon such entry or re-entry into member-service, as the case may be, become an age-fifty-five-increased-benefits pension plan contributor and shall contribute as hereinafter provided in paragraph two of this subdivision d for the right to retire under the age-fifty-five-increased-benefits pension plan.

(2) The normal rate of contribution of each contributor who becomes an age-fifty-five-increased-benefits pension plan contributor pursuant to paragraph one of this subdivision d shall, commencing on the date of his or her entry or re-entry into member-service (as the case may be), be that which would have been established for such contributor if on such date he or she had been eligible to elect and had elected to become a twenty-five-year-age-fifty-five-one-per-centum contributor (as defined in subdivision forty-eight of section 13-501 of this chapter).

(3) The provisions of paragraphs one and two of this subdivision d shall be inapplicable to any contributor therein mentioned during any period wherein he or she is a twenty-year pension plan contributor by reason of (a) his or her election to become such a contributor pursuant to section 13-547 of this chapter (relating to the twenty-year pension plan) or (b) the provisions of paragraph five of subdivision b of such section 13-547 (relating to re-entry of twenty-year pension plan contributors into member-service).

e. (1) Notwithstanding any other provision of this chapter to the contrary, any contributor:

(a) who, on or after July first, nineteen hundred seventy:

(i) re-enters member-service after being a retired contributor immediately prior to such re-entry; or

(ii) re-enters member-service as a withdrawn contributor entitled to credit for service and status prior to

withdrawal, by reason of qualification for such credit under section 13-506 of this chapter (relating to withdrawn contributors who re-enter service); or

(iii) re-enters member-service after having become a discontinued member and is entitled, at the time of such re-entry, to service credit and status prior to withdrawal as provided for in subdivision h of section 13-556 of this chapter (relating to credit for service and status prior to withdrawal upon restoration of a discontinued member to service); and

(b) who is not a twenty-year pension plan contributor by reason of his or her status at the time of such re-entry into member-service or by reason of an election made, after such re-entry, to become such a contributor pursuant to section 13-547 of this chapter (relating to the twenty-year pension plan); and

(c) who did not previously become a fifty-five-year-increased benefits pension plan contributor under subdivision a, b or d of this section;

may, by a written application duly executed and filed with the retirement board within two years after such re-entry into member-service, elect to become an age-fifty-five-increased-benefits pension plan contributor and to contribute to the retirement system for the right to retire under the age-fifty-five-increased-benefits pension plan.

(2) the normal rate of contribution of any contributor making an election pursuant to paragraph one of this subdivision e, shall, commencing upon the date of his or her re-entry into member-service, be that which would have been established and in effect for such contributor on such date if he or she had been eligible to elect and had elected, as of his or her contribution rate fixation date, to become a twenty-five-year-age-fifty-five-one-per-centum contributor (as defined in subdivision forty-eight of section 13-501 of this chapter).

f. In any case where the provisions of law under which a contributor may elect to become a twenty-five-year-age-fifty-five-one-per-centum contributor were not in effect on the contribution rate fixation date of a fifty-five-year-increased-benefits pension plan contributor for whom a normal rate of contribution is required to be fixed pursuant to subdivision c or e of this section, such rate shall be determined in the same manner as if such provisions of law had been in effect on such date and thereafter.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-549 Deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans.

a. Notwithstanding any other provision of this title to the contrary, any contributor:

(1) Who:

(a) heretofore and on or after July first, nineteen hundred sixty-nine, re-entered member-service (as defined in subdivision fifteen-a of section 13-501 of this chapter) or shall hereafter re-enter member-service, after having been, immediately prior to any such re-entry, a person whose last preceding member-service was terminated by retirement, withdrawal from membership in the retirement system or discontinuance of service so as to become a discontinued member, and at the time of his or her retirement, withdrawal or discontinuance of service so as to become a discontinued member, as the case may be, was not a twenty-year pension plan contributor or an age-fifty-five-increased-benefits pension plan contributor; or

(b) first enters member-service on or after July first, nineteen hundred seventy after having rendered city-service prior to the date of such first entry; and

(2) who:

(a) where eligible to elect to become a twenty-year pension plan contributor under section 13-547 of this chapter (relating to the twenty-year pension plan), elects to become such a contributor; or

(b) where eligible to elect to become an age-fifty-five-increased benefits pension plan contributor under section 13-548 of this chapter (relating to the age-fifty-five-increased-benefits pension plan), elects to become such a contributor; or

(c) becomes an age-fifty-five-increased-benefits pension plan contributor under the provisions of subdivision d of such section 13-548 of this chapter (relating to required membership in the age-fifty-five-increased-benefits pension plan) or subdivision d of section 13-547 of this chapter (relating to cancellation of election to be a twenty-year pension plan contributor);

shall, until such contributor has rendered four years of credited service after such re-entry into member-service or first entry into member-service, as the case may be:

(i) be ineligible, if such contributor is a twenty-year pension plan contributor, to retire for service in accordance with the eligibility requirements for retirement under section 13-547 of this chapter (relating to the twenty-year pension plan); and

(ii) be ineligible to become entitled to the retirement allowance prescribed for retired twenty-year pension plan contributors by subdivisions f and g of section 13-547 of this chapter or to the retirement allowance prescribed for age-fifty-five-increased-benefits pension plan contributors by paragraph e of subdivision one of section 13-554 of this chapter, as the case may be.

b. (1) In the case of any contributor mentioned in subdivision a of this section who discontinued service as a discontinued member, the provisions of such subdivision shall be applicable to such contributor, whether or not he or she heretofore was or hereafter is receiving a deferred retirement allowance under section 13-556 of this chapter (relating to vested retirement rights) at the time of his or her reentry into member-service and whether or not he or she heretofore was or hereafter is entitled, at the time of such re-entry, to credit for service and status prior to withdrawal as provided for in subdivision h of such section.

(2) In the case of any contributor mentioned in subdivision a of this section who re-entered member-service as a withdrawn contributor, the provisions of such subdivision shall be applicable to such contributor, whether or not he or she heretofore was or hereafter is entitled, at the time of such re-entry, to service credit and status prior to withdrawal as provided for in section 13-506 of this chapter (relating to withdrawn contributors who re-enter service).

c. Any twenty-year pension plan contributor or age-fifty-five-increased-benefits pension plan contributor to whom the provisions of subdivisions a and b are applicable, may, before he or she has completed a period of four years of credited service after his or her first entry into member-service or re-entry into member-service, as the case may be, retire from service upon written application to the retirement board setting forth at what time subsequent to the execution of such application he or she desires to be retired. Such application shall retire such contributor at the time so specified, provided he or she has reached or passed the age of fifty-five years.

d. Any twenty-year pension plan contributor or age-fifty-five-increased benefits pension plan contributor who retires pursuant to subdivision c of this section shall receive, in lieu of any other retirement allowance, a retirement allowance which shall consist of:

(1) an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of such retirement; and

(2) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any; and

(3) a pension as provided for by the applicable provisions of subdivision e, f or g of this section.

e. Any such contributor mentioned in subdivision d of this section, if he or she has not reached the age of sixty-five years at the time of such retirement and at such time is credited with at least twenty-five years of total-service, shall receive a pension which shall be equal to the sum obtained by adding together:

(1) the amount obtained by multiplying the number of years of city-service credited to him or her at such time by one per centum of his or her average salary; and

(2) the amount obtained by multiplying the number of years of prior outside service for which he or she is credited at such time:

(a) by one and two-tenths per centum of his or her average salary, if such contributor purchased credit for such service pursuant to subparagraph (j) of paragraph three of subdivision a of section 13-505 of this chapter (relating to purchase of credit for prior outside service by certain contributors who last entered member-service prior to July first, nineteen hundred seventy) or paid a purchase price therefor computed pursuant to item two of subparagraph (1) of such paragraph three; or

(b) by one and fifty-three one hundredths per centum of his or her average salary, if such contributor purchased credit for such service pursuant to subparagraph k of such paragraph three or paid a purchase price therefor computed pursuant to item three of subparagraph (1) of such paragraph three.

f. Any such contributor mentioned in subdivision d of this section, if he or she has not reached the age of sixty-five years at the time of such retirement and at such time is credited with less than twenty-five years of total-service, shall receive a pension which shall be equal to the sum obtained:

(1) by adding together:

(a) the number of his or her years of member-service rendered after his or her last entry into member-service; and

(b) the number of years of city-service, if any, which:

(i) were rendered by him or her prior to such last entry; and

(ii) do not exceed the number of his or her years of member-service rendered after such last entry; and

(iii) are credited to him or her at the time of such retirement; and

(2) by multiplying that part, if any, of the total period of service computed pursuant to paragraph one of this subdivision f, which part was rendered prior to July first, nineteen hundred seventy, by one and two-tenths per centum of his or her average salary; and

(3) by multiplying that part, if any, of the total period of service computed pursuant to such paragraph one, which part was rendered after June thirtieth, nineteen hundred seventy, by one and fifty-three one-hundredths per centum of his or her average salary; and

(4) by multiplying the number of years of prior outside service, if any, for which he or she is credited at the time of such retire- ment:

(a) by one and two-tenths per centum of his or her average salary, if such contributor purchased credit for such service pursuant to subparagraph (j) of paragraph three of subdivision a of section 13-505 of this chapter (relating to purchase of credit for prior outside service by certain contributors who last entered member-service prior to July first, nineteen hundred seventy); or

(b) by one and fifty-three one hundredths per centum of his or her average salary, if such contributor purchased credit for such service pursuant to subparagraph k of such paragraph three or paid a purchase price therefor computed pursuant to item three of subparagraph (1) of such paragraph three; and

(5) by adding together the products obtained pursuant to paragraphs two, three and four of this subdivision.

g. (1) Subject to the provisions of paragraph two of this subdivision, any such contributor mentioned in subdivision d of this section, if he or she has reached the age of sixty-five years at the time of such retirement, shall receive a pension which shall be equal to the sum obtained by computing with respect to such contributor the products specified in paragraphs one and two of subdivision e of this section, and by adding such products together.

(2) If a pension, as computed for such contributor pursuant to the provisions of paragraphs one to five, inclusive, of subdivision f of this section, is greater than such pension computed pursuant to paragraph one of this subdivision g, such contributor shall receive such greater pension.

h. (1) The normal rate of contribution of any twenty-year pension plan contributor or age-fifty-five-increased-benefits pension plan contributor to whom the provisions of subdivisions a and b of this section are applicable shall be as prescribed by the applicable provisions of section 13-547 of this chapter (relating to the twenty-year pension plan) governing the normal rate of contribution of a twenty-year pension plan contributor or the applicable provisions of section 13-548 of this chapter (relating to the age-fifty-five-increased-benefits pension plan) governing the normal rate of contribution of an age-fifty-five-increased-benefits pension plan con- tributor.

(2) Any twenty-year pension plan contributor or age fifty-five-increased-benefits pension plan contributor to whom the provisions of subdivisions a and b of this section are applicable shall, unless he or she retires for service within the applicable period of four years of credited service mentioned in such subdivision a, be entitled to the same rights, benefits and privileges as such a contributor, including rights, benefits and privileges in the event of death, retirement for superannuation pursuant to subdivision three of section 13-545 of this chapter or retirement for disability pursuant to section 13-550 or 13-551 of this chapter, as if such subdivisions a and b were not applicable to him or her.

(3) For the purposes of paragraph two of this subdivision h, the presumed retirement, under paragraphs a and b of subdivision two of section 13-545 of this chapter (relating to cases of presumed retirement in the event of death of a contributor) of a contributor who dies under such circumstances that he or she is deemed under such subdivision to have been retired, shall not be deemed a retirement for service mentioned in such paragraph two.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B20-41.4 added chap 274/1970 § 5

Sub h par 1 amended chap 976/1970 § 3

**CASE NOTES FROM FORMER SECTION**

¶ 1. In absence of any charge of bad faith or any showing of abuse of discretionary power, Court would not interfere with determination of the Teachers' Retirement Board retiring petitioner for mental disability on basis of a report of its Medical Board, even though petitioner could and would produce contrary medical testimony.-In re Panaroni (Bonashe), 104 (133) N.Y.L.J. (12-9-40) 1941, Col. 3 F.

¶ 2. Where teacher had been retired pursuant to Admin. Code § B20-42.0, which provides that upon application of head of the department the Retirement Board shall retire the contributor for disability provided the Medical Board,

after an examination of the contributor, shall certify that the contributor is physically or mentally incapacitated for performance of duties and ought to be retired, findings of Medical Board **held** conclusive upon the Retirement Board and the Court as well, in view of the direction that the board "shall retire" for disability provided the Medical Board so certifies after an examination.-Ruth v. Teachers' Retirement Bd., 100 (136) N.Y.L.J. (12-13-38) 2112, Col. 6 F.

¶ 3. The Medical Board acting on the advice of its own qualified medical staff acted legally in recommending petitioner for retirement on the ground of a mental disability even though petitioner produced contrary medical testimony.-In re Schilke (Teachers' Retirement Board) 133 (4) N.Y.L.J. (3-4-55) 8, Col. 2 F.

¶ 4. Provision of § 19 of Rules and Regulations of the Board of Education Retirement System, that once each year the Retirement Board "may, and upon his application shall, require any disability pensioner who has not attained age sixty to undergo medical examination", **held** to entitle the pensioner to a first examination for reinstatement at any time within the year that he might requet or the Retirement Board direct, although if he were found still disabled he would then have to wait a full year before obtaining another examination. The pensioner was therefore not obliged to wait a year after retirement before making his first application for re-examination.-In re Vivien (Bd. of Education Retirement System), 30 N.Y.S. 2d 73 [1941].

¶ 5. The actual confirmation by the Board of Education Retirement Board of a certification by its physician that an application for retirement should be granted is a condition precedent to effectuation of a member's retirement, and hence member who applied for retirement and was certified therefor but died before the Retirement Board confirmed the physician's report and directed his retirement, was deemed to have died while still engaged in "active service", and was therefore entitled to benefits payable to such a person.-McAllen v. Marshall, 105 (108) N.Y.L.J. (5-9-41) 2092, Col. 3 F, aff'd without opinion, 266 App. Div. 673, 40 N.Y.S. 2d 864 [1943], aff'd 291 N.Y. 795, 53 N.E. 2d 368 [1944].

¶ 6. Where the Teachers' Retirement Board, upon the finding of its Medical Board that a teacher was suffering from impaired hearing and hypertension, had approved her retirement for physical disability, but it appeared that no real physical examination was given the teacher as to either of said alleged defects, the Retirement Board was ordered to revoke the retirement and restore the teacher to her duties.-In re Collery (Teachers' Retirement Board), 43 N.Y.S. 2d 130 [1943], reversed on ground the record merely disclosed a conflict of medical opinion, 267 App. Div. 835, 46 N.Y.S. 2d 88 [1944], aff'd without opinion, 294 N.Y. 705, 61 N.E. 2d 477 [1945].

¶ 7. Since only a "contributor" has the right to file his election "at any time," and since a teacher ceases to be a "contributor" and becomes a "beneficiary" after retirement and receipt of retirement benefits, the right to file an election does not survive after retirement is complete.-Katz v. New York City Teachers' Retirement Board, 291 N.Y. 360, 52 N.E. 2d 902 [1943].

¶ 8. Where the Board of Education had requested the Retirement Board to retire petitioner for disability and pursuant to Admin. Code § B20-42.0 a medical examination of the teacher was made by a physician designated by the Medical Board, and after such examination the Medical Board certified to the Retirement Board that petitioner ought to be retired, and on April 10 the Board sent petitioner a notice that her retirement would be considered on April 28, to take effect as of April 1, petitioner's filing, after receipt of a notice and before April 28, of her election to receive her retirement allowance in accordance with Option 1, **held** timely, since, at the time of the medical examination, a teacher is a "contributor" to the Retirement Fund and may file an election "at any time" before retirement occurs, which is when the Retirement Board acts upon the certificate of the Medical Board.-Id.

¶ 9. Education Law § 2568 has no bearing on the question of retirement of the teacher, which in New York City is controlled by Admin. Code § B20-42.0.-Silverman v. Moss, 107 N.Y.S. 2d 475 [1951].

¶ 10. Admin. Code § B20-42.0 does not afford an employee the right to have her own physician present at the time of her physical examination by the Medical Board of the Teachers' Retirement Board, and moreover at no time did the teacher in the instant case request that she be permitted to have her own physician present.-Id.

¶ 11. Petitioner was entitled to a trial of the allegations of her petition to effect that findings of the Medical Board were without reasonable basis and therefore arbitrary. Although mere existence of difference of opinion as to petitioner's physical fitness was insufficient to warrant a finding by the court that the Retirement Board's determination on advice of its own medical staff was arbitrary, it did not follow that petitioner was not entitled to a trial of the contentions made in her petition.-Schilke v. Teachers' Retirement Board, 127 (54) N.Y.L.J. (3-19-52) 1100, Col. 1 M.

¶ 12. Where statute relative to retirement of teachers for disability did not provide that Retirement Board, on receipt of certificate of incapacity from the Medical Board, should retire contributor for disability but merely made such a certificate a condition precedent to compulsory retirement, the Retirement Board was not obligated to retire contributor in absence of an independent finding of disability. Hence contributor was entitled to alternative order of mandamus to determine question of disability.-Matter of Brand (Teachers' Retirement Board), 163 Misc. 217, 296 N.Y.S. 649 [1937].

¶ 13. The Board of Education could not retire a secretary who held tenure on the basis of a letter from the school principal and medical reports which she was not allowed to see.-Matter of Franck, 33 Misc. 2d 1075, 229 N.Y.S. 2d 193 [1960].

¶ 14. Teacher who upon order of Superintendent of Schools submitted herself for a medical examination before medical staff of Board of Education and was thereafter without a hearing notified to appear before Medical Board of Teachers' Retirement System upon request of Superintendent of Schools that teacher be retired for disability was entitled to an order cancelling the request of the Superintendent to retire teacher as he had no authority to do so. Such request could be made only by Board of Education.-Munter v. Gross, 42 Misc. 2d 690, 248 N.Y.S. 2d 717 [1964].

¶ 15. Petition which would deter respondents from taking steps to retire petitioner for disability was dismissed since where the procedure set forth in this section is followed the court may not interfere with the judgment of officials who decide whether petitioner should be retired. The court found petitioner's argument that the automatic accrual of sick leave gives petitioner a "bank" of unused sick leave and so makes her retirement for disability impossible to be without merit.-Asheroff v. Board of Education, 161 (118) N.Y.L.J. (6-18-69) 19, Col. 4 M, aff'd 33 App. Div. 2d 992, aff'd 29 N.Y. 2d 538 [1971].

¶ 16. Retirement of high school teacher of physical education by Board of Education for service-connected injuries was not arbitrary even though petitioner had requested an independent evaluation by an ad hoc committee of physicians which had never been appointed where he did not thereafter call attention to the fact that his request had been overlooked or ignored and he had twenty-two examinations and twenty-two visits at the board by eleven different staff doctors and by seven panel consultants in the course of ten different examinations.-Rubin v. Bd. of Education, 165 (26) N.Y.L.J. (2-8-71) 18, Col. 2 F.

Administrative Code of the City of New York

*NYC Administrative Code 13-550*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-550 Retirement; for disability.

a. Upon the application of the head of the department in which a contributor is employed, or upon the application of such contributor or of one acting in his or her behalf, such board shall retire such contributor for disability, provided the medical board, after a medical examination of such contributor, shall certify to such board that such contributor is physically or mentally incapacitated for the performance of duty and that such contributor ought to be retired, and, provided, further, that such contributor has had ten or more years of city-service.

b. Notwithstanding any law to the contrary, a member who satisfies the requirements of subdivision a of this section and is otherwise eligible (disregarding any service requirement) to retire for disability pursuant to this section or section five hundred six or six hundred five of the retirement and social security law, as applicable, may elect to receive a benefit equal to the death benefit which would have been paid, had such member died on the member's last day on the payroll in full pay status pursuant to section 13-542, 13-543 or 13-545 of this chapter, section four hundred forty-eight, five hundred eight or six hundred six of the retirement and social security law, as applicable.

c. To be eligible for the benefit provided in subdivision b of this section, a member must have been determined in accordance with subdivision a of this section to have (i) a terminal illness resulting in a life expectancy of no more than twelve months, or (ii) a medical condition of a long continued and indefinite duration requiring extraordinary care or treatment regardless of life expectancy.

d. The benefit provided in subdivision b of this section shall be in lieu of any disability benefit to which the member may otherwise be entitled. A member who is otherwise eligible to retire for disability must elect the benefit provided in subdivision b of this section no later than the thirtieth day following the day on which (i) the system notifies

the member that the member has been retired for disability, or (ii) the member is first eligible to commence receiving a disability retirement benefit, whichever is later. Such election when made shall be irrevocable.

e. Except as provided in this subdivision, a member electing the benefit provided in subdivision b of this section shall for all purposes be deemed to have been retired for disability. Notwithstanding the foregoing, should a member who has elected the benefit provided in subdivision b of this section thereafter be restored to active service and again become a member of the system,

(i) no death benefit shall be payable pursuant to section 13-542 of this chapter, section four hundred forty-eight, five hundred eight or six hundred six of the retirement and social security law, as applicable in the event of the member's subsequent death, and

(ii) unless such member shall have rendered five years of credited service since last becoming a member of the system, any retirement benefit to which such member may thereafter become entitled shall be reduced by the actuarial value of the benefit paid pursuant to subdivision b of this section (less the actuarial value of any applicable post-retirement death benefit which would have been available but for this subdivision).

f. The retirement board is authorized to adopt such rules and regulations as it may deem necessary to implement the provisions of this section.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-551 Retirement for accident disability.

a. Subject to the provisions of subdivision b of this section, medical examination of a contributor in city-service accident disability and investigation of all statements and certifications by such contributor or on his or her behalf in connection therewith shall be made upon the application of the head of the agency in which the contributor is employed, or upon the application of a contributor or a person acting in his or her behalf:

(1) stating that such contributor is physically or mentally incapacitated for the performance of city-service, as a natural and proximate result of such city-service; and

(2) certifying the time, place and conditions of such city-service performed by such contributor resulting in such alleged disability and that such alleged disability was not the result of wilful negligence on the part of such contributor and that such contributor should, therefore, be retired.

b. The provisions of this section shall apply only where such application is based on an accident which occurred on or after July first, nineteen hundred seventy.

c. Any such application shall be filed within two years after the happening of such accident.

d. If such medical examination and investigation shows that any such contributor, by whom or with respect to whom an application is filed under this section, is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service by reason of an accident which occurred on or after July first, nineteen hundred seventy and while a contributor, and that such disability

was not the result of wilful negligence on the part of such contributor and that such contributor should be retired, the medical board shall so certify to the retirement board stating the time, place and conditions of such city-service performed by such contributor resulting in such disability, and the retirement board shall retire such contributor for accident disability forthwith.

e. If such application is denied solely on the ground that such contributor is not, at the time of such examination, physically or mentally incapacitated for the performance of city-service, such application may thereafter be renewed during such contributor's city-service at any time within five years from the happening of the accident but preceding the date on which such member shall have become eligible for service retirement, provided he or she submits himself or herself to such further examinations as the medical board may require.

**CASE NOTES**

¶ 1. Teacher who was eligible for an accidental disability retirement in the Teachers' Retirement System and who was found not to be qualified for an accidental disability retirement because of a failure to his medical proof was excluded from obtaining benefits under the Workers' Compensation Law.-Davis v. N.Y.C. Board of Education, 85 App. Div. 2d 816 [1981].

¶ 2. An applicant for accidental disability retirement must be an active and current employee. A person who has already retired on ordinary disability is not eligible. Grezinsky v. Teachers Retirement Board of the Teachers Retirement System, 642 N.Y.S.2d 888 (App.Div. 1st Dept. 1996).

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-552*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-552 Retirement allowances; restrictions on.

a. If a lump sum which has been paid or which is payable under the provisions of the workers' compensation law equals or exceeds the present value of all amounts otherwise payable out of moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this chapter. If such lump sum be a percentage less than one hundred per cent of the present value of all such amounts, there shall be paid as it becomes due under the provisions of this chapter, in lieu of each amount otherwise payable, an amount equal to the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

b. If an amount which is payable throughout a period under the provisions of the workers' compensation law equals or exceeds the amounts otherwise payable during the same period out of the moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this chapter during such period nor thereafter, until the total amount of such omitted payments, together with the regular interest which they would have accumulated, equals the amount paid under the workers' compensation law, together with the regular interest which it would have accumulated. If an amount which is payable throughout a period under the provisions of the workers' compensation law be a percentage less than one hundred per cent of the amounts otherwise payable during the same period out of moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, there shall be paid during such period as it becomes due under the provisions of this chapter, in lieu of each amount otherwise payable, the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

c. No decision of the workers' compensation board shall be binding on the medical board or on the retirement

board in the determination of eligibility of a claimant for benefits for retirement for accident disability.

d. Notwithstanding any of the foregoing provisions of this section or any other law to the contrary, pending the final determination of a claim for workers' compensation benefits, the retirement board may authorize payment of all or any part of the benefits which are payable under this chapter and to which any of the foregoing provisions of this section apply, and in that event the retirement system shall be entitled to reimbursement out of the unpaid installment or installments of compensation due under the workers' compensation law provided that claim therefor is filed with the workers' compensation board, together with proof of the fact and amount of payment.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-552.1 *18 Medical review in member disability cases.

a. As used in this section, the following terms shall mean and include:

(1) "Panel of medical experts". Those physicians whose names are set forth in a list of medical experts prepared annually by the administrator of health services and filed in his office and with the executive director of the retirement system on or before July first. The experts so designated shall be physicians having qualifications as specialists in such fields of medicine as such administrator deems an essential background (i) for ascertaining, in cases where a medical examination is required in relation to disability retirement under section 13-550, 13-551 or 13-553 of this chapter, whether such member is physically or mentally incapacitated for the performance of city service, and (ii) for rendering of reports or certifications as to diagnosis and issues of causal relationship with respect to such applications. Each of such physicians shall have had, prior to his designation, at least ten years of practice in the field with respect to which he is designated. The names of such physicians shall be separately grouped in such list, according to the fields of medicine in which they are expert, and the names in each group shall be consecutively numbered.

(2) "Party entitled to review". Either of the following:

(i) the member; or

(ii) the appropriate agency head.

b. (1) In any case where an application for retirement of a member for disability has been filed pursuant to section 13-550 or 13-551 of this chapter, or a medical examination has been held in relation to restoration to service

under section 13-553 of this chapter, the executive director of the retirement system, promptly after he receives the report or certification of the medical board with respect to such application or medical examination, shall give notice of such report or certification to such member and to the appropriate agency head. Within fifteen days after such notification, any party entitled to review may file with the executive director a written request that a special medical committee, as provided for in this section, shall review the conclusions and recommendations of the medical board set forth in its report or certification.

(2) (i) Any request for review filed by a member with respect to such application for disability retirement or with respect to restoration to service, shall be void and of no effect unless such request includes a waiver, as hereinafter provided, duly executed and acknowledged by the member or by a person acting in his behalf as hereinafter provided. Such waiver may be executed by a person acting in behalf of such member in any case where, at the time of the execution of such waiver by such person, the circumstances are such that if such application for disability retirement had not been previously filed by or with respect to such member, such person would at such time of execution be authorized under the provisions of section 13-550 or 13-551 of this chapter, as the case may be, to file, as a person acting in behalf of such member, an application for disability retirement of such member.

(ii) Such waiver shall provide that the execution thereof by such member or by a person acting in behalf of such member as hereinabove authorized shall constitute an agreement by such member that his application for disability retirement or for medical review in relation to restoration to service, as the case may be, shall be disposed of upon the recommendations of the special medical committee pursuant to the provisions of this section, that such action shall be final and conclusive, and that he waives any and all rights which he might otherwise have to seek or obtain any other disposition of such application for disability retirement or review of medical findings in relation to restoration to service, by court or administrative proceedings or otherwise. A waiver so executed and filed shall be effective and binding upon such member, in accordance with its terms.

c. Promptly after the filing of a request for review to be made by a special medical committee, the executive director shall transmit a copy of such request and of the report or certification of the medical board to the administrator of health service.

d. The administrator, upon receipt of such report or certification and request, shall promptly designate three of the physicians on the panel of medical experts as a special medical committee for the purpose of reviewing the recommendations and conclusions of the medical board in such case. Such physicians shall be selected by him from the panel group possessing the specialist qualifications deemed essential by him for such review. All selections of physicians pursuant to this subdivision d shall be made in order of numerical standing in the group from which selection is to be made, and on the basis of continuous rotation within the group.

e. (1) Promptly after making the selection prescribed by subdivision d of this section, the administrator of health service shall notify the selected physicians and the executive director thereof.

(2) Such special medical committee shall, within thirty days after such notification to the physicians constituting such committee is completed, perform, with respect to the application for retirement of such member for disability, or with respect to restoration to service, the same functions of medical examination or otherwise as are prescribed by applicable provisions of law for performance by the medical board with respect to retirement or restoration to service, and shall, within such period adopt by majority vote, and file with the executive director, a report or certification, as the case may be, stating the conclusions and recommendations of such committee concerning the matters required to be reported on or certified by the medical board, pursuant to applicable provisions of law.

f. The conclusions and recommendations of the special medical committee shall supersede those of the medical board.

g. (1) Each physician who serves as a member of a special medical committee shall receive a fee for such

service, to be determined by the comptroller of the city.

(2) With respect to each case in which a special medical committee acts upon the request by a member, one-half of the fees of the members of such committee shall be paid by the appropriate agency. The other half of such fees shall be paid by the member.

(3) With respect to each such case in which a special medical committee acts upon the request by an appropriate agency head, the fees of the members of such committee shall be paid by such agency.

h. In any case where a request for review by a special medical committee is filed pursuant to the provisions of this section, the provisions of sections 13-550, 13-551 and 13-553 of this chapter shall be superseded by the provisions of this section to the extent that the provisions of this section are inconsistent therewith.

i. (1) In any case where the provisions of this section require the executive director to give notice to a member, the executive director may give such notice by delivery to such member personally or by mailing same to his last known address, as shown by the records of the retirement system.

(2) In any case where the provisions of this section require the giving of notice or the transmission of papers to any other person, such notice may be given or transmission effected by delivery to such person, by delivery at his office to any of his employees, or by mailing to the office address of such person.

(3) In any case where notice is given by mail pursuant to this subdivision, such notice shall be deemed to be given on the date of mailing.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B20-42.3 added chap 376/1984 § 1

(Repealed, on certain date, chap 376/1984 § 2)

**NOTE**

Expired per chap 376/1984 § 2

§ 2. This act shall take effect on the first day of July next succeeding the date on which it shall have become a law and shall remain in full force and effect to and including the first day of July in the second year next succeeding such effective date and upon such date the provisions of section B20-42.3 of the administrative code of the city of New York, as added by this act, shall be deemed to be repealed.

FISCAL NOTE.-The enactment of this bill into law would result in a financial saving to the City. The required payment of the City's share of the fees to the medical review panel, would be more than offset by savings in litigation costs, since the member waives the right to seek redress from the decision of the panel.

The actuary of the New York City Teachers' Retirement System asserts that there are no fiscal implications in this bill.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-552.2 Medical review in member disability cases.

a. As used in this section, the following terms shall mean and include:

(1) "Panel of medical experts". Those physicians whose names are set forth in a list of medical experts prepared annually by the administrator of health services and filed in his office and with the executive director of the retirement system on or before July first. The experts so designated shall be physicians having qualifications as specialists in such fields of medicine as such administrator deems an essential background (i) for ascertaining, in cases where a medical examination is required in relation to disability retirement under section 13-550, 13-551 or 13-553 of this chapter, whether such member is physically or mentally incapacitated for the performance of city service, and (ii) for rendering of reports or certifications as to diagnosis and issues of casual*19 relationship with respect to such applications. Each of such physicians shall have had, prior to his designation, at least ten years of practice in the field with respect to which he is designated. The names of such physicians shall be separately grouped in such list, according to the fields of medicine in which they are expert, and the names in each group shall be consecutively numbered.

(2) "Party entitled to review". Either of the following:

(i) the member; or

(ii) the appropriate agency head.

b. (1) In any case where an application for retirement of a member for disability has been filed pursuant to section 13-550 or 13-551 of this chapter, or a medical examination has been held in relation to restoration to service

under section 13-553 of this chapter, the executive director of the retirement system, promptly after he receives the report or certification of the medical board with respect to such application or medical examination, shall give notice of such report or certification to such member and to the appropriate agency head. Within thirty days after such notification, any party entitled to review may file with the executive director a written request that a special medical committee, as provided for in this section, shall review the conclusions and recommendations of the medical board set forth in its report or certification.

(2) (i) Any request for review filed by a member with respect to such application for disability retirement or with respect to restoration to service, shall be void and of no effect unless such request includes a waiver, as hereinafter provided, duly executed and acknowledged by the member or by a person acting in his behalf as hereinafter provided. Such waiver may be executed by a person acting in behalf of such member in any case where, at the time of the execution of such waiver by such person, the circumstances are such that if such application for disability retirement had not been previously filed by or with respect to such member, such person would at such time of execution be authorized under the provisions of section 13-550 or 13-551 of this chapter, as the case may be, to file, as a person acting in behalf of such member, an application disability retirement of such member.

(ii) Such waiver shall provide that the execution thereof by such member or by a person acting in behalf of such member as hereinabove authorized shall constitute an agreement by such member that his application for disability retirement or for medical review in relation to restoration to service, as the case may be, shall be disposed of upon the recommendations of the special medical committee pursuant to the provisions of this section, that such action shall be final and conclusive, and that he waives any and all rights which he might otherwise have to seek or obtain any other disposition of such application for disability retirement or review of medical findings in relation to restoration to service, by court or administrative proceedings or otherwise. A waiver so executed and filed shall be effective and binding upon such member, in accordance with its terms.

c. Promptly after the filing of a request for review to be made by a special medical committee, the executive director shall transmit a copy of such request and of the report or certification of the medical board to the administrator of health service.

d. The administrator, upon receipt of such report or certification and request, shall promptly designate three of the physicians on the panel of medical experts as a special medical committee for the purpose of reviewing the recommendations and conclusions of the medical board in such case. Such physicians shall be selected by him from the panel group possessing the specialist qualifications deemed essential by him for such review. All selections of physicians pursuant to this subdivision d shall be made in order of numerical standing in the group from which selection is to be made, and on the basis of continuous rotation within the group.

e. (1) Promptly after making the selection prescribed by subdivision d of this section, the administrator of health service shall notify the selected physicians and the executive director thereof.

(2) Such special medical committee shall, within thirty days after such notification to the physicians constituting such committee is completed, perform, with respect to the application for retirement of such member for disability, or with respect to restoration to service, the same functions of medical examination or otherwise as are prescribed by applicable provisions of law for performance by the medical board with respect to retirement or restoration to service, and shall, within such period adopt by majority vote, and file with the executive director, a report or certification, as the case may be, stating the conclusions and recommendations of such committee concerning the matters required to be reported on or certified by the medical board, pursuant to applicable provisions of law.

f. The conclusions and recommendations of the special medical committee shall supersede those of the medical board.

g. (1) Each physician who serves as a member of a special medical committee shall receive a fee for such

service, to be determined by the comptroller of the city.

(2) With respect to each case in which a special medical committee acts upon the request by a member, one-half of the fees of the members of such committee shall be paid by the appropriate agency. The other half of such fees shall be paid by the member.

(3) With respect to each such case in which a special medical committee acts upon the request by an appropriate agency head, the fees of the members of such committee shall be paid by such agency.

h. In any case where a request for review by a special medical committee is filed pursuant to the provisions of this section, the provisions of sections 13-550, 13-551 and 13-553 of this chapter shall be superseded by the provisions of this section to the extent that the provisions of this section are inconsistent therewith.

i. (1) In any case where the provisions of this section require the executive director to give notice to a member, the executive director may give such notice by delivery to such member personally or by mailing same to his last known address, as shown by the records of the retirement system.

(2) In any case where the provisions of this section require the giving of notice or the transmission of papers to any other person, such notice may be given or transmission effected by delivery to such person, by delivery at his office to any of his employees, or by mailing to the office address of such person.

(3) In any case where notice is given by mail pursuant to this subdivision, such notice shall be deemed to be given on the date of mailing.

**HISTORICAL NOTE**

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-553 Safeguards on disability retirement.

a. Once each year, such board may require any disability pensioner while still under the age of sixty-five years to undergo medical examination by a physician or physicians designated by the medical board. Such examinations shall be made at the place of residence of such beneficiary or other place mutually agreed upon. Should the medical board, as the result of such examination, report and certify to such board that such disability beneficiary is no longer physically or mentally incapacitated for the performance of duty, the head of the department in which such beneficiary was employed at the time of his or her retirement, upon notification by such board of such report of the medical board, shall reappoint such beneficiary to such a position as was held by, and at such a rate or salary as was paid to, such beneficiary at the time of his or her retirement. However, after the expiration of ten years subsequent to the retirement of such beneficiary, his or her restoration to duty, notwithstanding the recommendation of the medical board, shall be optional with such head of the department.

b. Should any disability beneficiary, while under the age of sixtyfive years, refuse to submit to at least one medical examination in any year by a physician or physicians designated by the medical board, his or her pension and pension-providing-for-increased-take-home-pay, if any, shall be discontinued until the withdrawal of such refusal. Should such refusal continue for one year, all his or her rights in and to the pension and pension-providing-for-increased-take-home-pay, if any, constituted by this chapter shall be forfeited.

c. Upon application of any beneficiary under the age of sixty-five years drawing a pension, a pension-providing-for-increased-take-home-pay or a retirement allowance under the provisions of this chapter, approved by such board, such beneficiary may be restored to active service by the head of the department in which such beneficiary was employed at the time of his or her retirement. Upon the restoration of a beneficiary to active service his

or her retirement allowance shall cease.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-554 Retirement allowances.

A contributor, on retirement, shall receive a retirement allowance which shall consist of:

1. A pension calculated as follows:

a. For retirement prior to July first, nineteen hundred seventy for disability, as defined in subdivision seventeen-a of section 13-501 of this chapter, twenty per cent of his or her average salary and an additional one-fifth of one per cent of his or her average salary for each year of city service in excess of ten. In no event shall the total pension for retirement prior to July first, nineteen hundred seventy for disability exceed twenty-five per cent of his or her average salary.

b. For service retirement, or for retirement prior to July first, nineteen hundred seventy for disability after he or she becomes eligible for service retirement, twenty-five per cent of his or her average salary. If a contributor has rendered less than twenty years of city service at the time his or her service retirement becomes effective, his or her pension allowance shall be based on one per cent of his or her average salary for each year of city service.

c. If the contributor retiring is a present-teacher, he or she shall receive, in addition to the pension prescribed in subdivision (a) or (b) a pension computed at the rate of one-one hundred fortieth of his or her average salary for each year of service rendered prior to the sixteenth day of September, nineteen hundred seventeen as certified to such present-teacher in his or her prior-service certificate. In no event shall the total pension exceed fifty per cent of his or her salary.

d. In lieu of any other pension provided for under this subdivision and based on the years of credited service rendered on or after the sixteenth day of September, nineteen hundred seventeen, for all New York city public school contributors and for all college contributors, one per centum of his or her average salary multiplied by the number of such years, provided, that by his or her written application, duly executed and filed with the teachers' retirement board, on or before the first day of December, nineteen hundred sixty-six, or, after such date, before any deduction shall have been made from his or her compensation for annuity purposes, the member shall have given his or her consent on an official application form, to the necessary deductions from his or her compensation for a like annuity, except such deduction shall not be in excess of fifteen per centum unless the member so elects. At any time subsequent to one year after having given such consent a member may withdraw such consent on an official withdrawal form, and thereafter any pension allowance for such member shall be calculated in the same manner as though such consent had not been given. The provisions of this subdivision shall not be construed to impair or take away any rights of any present-teacher for service rendered prior to the sixteenth day of September, nineteen hundred seventeen as certified in his or her prior service certificate, but in no event shall the total pension exceed fifty per cent of his or her salary. In no event shall the provisions of this subdivision be construed so as to result in a smaller pension benefit than was provided prior to the enactment of chapter eight hundred thirty-seven of the laws of nineteen hundred fifty-one. The provisions of this paragraph shall not be construed to apply to members who purchased prior outside service credit in accordance with the provisions of paragraph three of subdivision a of section 13-505 of this chapter unless such a member elects one of the following: (1) to pay the difference between the cost of the prior outside service credit in accordance with the provisions of paragraph a or b of subdivision one of section 13-554 of this chapter and the cost for such prior outside service credit in accordance with the provisions of this paragraph, or (2) such a member cancels his or her election for prior outside service credit and accepts a refund of his or her purchase price for such prior outside service credit and shall have any such prior outside service credit canceled, or (3) elects a recalculation of his or her prior outside service credit as a result of which his or her prior outside credit service shall be reduced in proportion to the credit which his or her purchase price would have bought under the provisions of this paragraph. The provisions of this paragraph shall not deprive any contributor of any right to a reduced contribution to which he or she may be entitled under the provisions of section 13-546 of this chapter.

e. (1) a pension computed pursuant to the provisions of this paragraph e, in lieu of any other pension provided for in paragraphs a, b or d of this subdivision one, in the case of any age-fifty-five-increased-benefits pension plan contributor.

(2) Such pension computed pursuant to this paragraph e shall consist of the following: (a) for the years of his or her credited service rendered prior to July first, nineteen hundred seventy, a pension equal to the product obtained by multiplying the number of such years by one and two-tenths per centum of his or her average salary; and

(b) for the years of his or her credited service rendered after June thirtieth, nineteen hundred seventy, a pension equal to the product obtained by multiplying the number of such years by one and fifty-three one-hundredths per centum of his or her average salary.

f. (1) For retirement for ordinary disability, as defined in subdivision seventeen-b of section 13-501 of this chapter, a pension, subject to the provisions of subparagraph two of this paragraph f, computed as follows:

(a) for the years of his or her credited service rendered to July first, nineteen hundred seventy, a pension equal to the product obtained by multiplying the number of such years by one and two-tenths per centum of his or her average salary; and

(b) for the years of his or her credited service rendered after June thirtieth, nineteen hundred seventy, a pension equal to the product obtained by multiplying the number of such years by one and fifty-three one-hundredths per centum of his or her average salary.

(2) The pension provided for by subparagraph one of this paragraph f shall in no event be less than it would have

been if it had been computed in accordance with the method of computation which would have been applicable if his or her retirement had instead been a retirement prior to July first, nineteen hundred seventy for disability, as defined in subdivision seventeen-a of section 13-501 of this chapter.

g. For retirement for accident disability, as defined in subdivision seventeen-c of section 13-501 of this chapter, a pension of three-fourths of his or her average salary, as defined in subdivision eighteen of such section 13-501. His or her average salary, as so defined, shall be used in computing such pension, whether or not he or she would be entitled to computation of any other benefit under this chapter on the basis of average salary as defined in subdivision eighteen-a or eighteen-b of such section 13-501.

h. (1) Notwithstanding any other provision of this chapter to the contrary, in any case where a contributor is retired pursuant to subdivision three of section 13-545 of this chapter (relating to retirement for superannuation) by reason of attainment of age seventy in the school year nineteen hundred sixty-nine-nineteen seventy, and the pension payable to him or her, if this paragraph h had not been enacted, would be otherwise than as prescribed in this paragraph, such contributor, irrespective of the pension plan applicable to him or her at the time of this retirement, shall be entitled to receive, in lieu of any pension otherwise payable under the provisions of this chapter, the pension which would have been payable to such contributor if he or she had been an age-fifty-five-increased-benefits pension plan contributor at the time of his or her retirement; provided, however, that if such contributor, had he or she been a twenty-year pension plan contributor at the time of his or her retirement:

(1) would have been eligible to retire as a twenty-year pension plan contributor; and

(2) would have been entitled to a retirement allowance beginning on the date of his or her retirement; and

(3) would have been entitled to a pension larger than that to which he or she would have been entitled if he or she had been an age-fifty-five-increased-benefits pension plan contributor at the time of his or her retirement;

the pension payable to such contributor pursuant to this paragraph h shall be the pension which he or she would have received if he or she had retired as a twenty-year pension plan contributor.

1-a. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any.

2. An annuity, in addition to the pensions above provided which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement. A contributor, in order to increase his or her annuity at the time of his or her retirement, may increase his or her rate of contribution by such rate as he or she may choose up to fifty per centum or such greater percentum as the retirement board may allow in accordance with section 13-525 of this chapter in addition to the rate needed to provide his or her part of half pay retirement allowance, excluding from consideration any portion of the retirement allowance which may be provided by a pension-providing-for-increased-take-home-pay. In no case shall such annuity be less for each one hundred dollars of accumulated deductions of a present-teacher at the time of retirement than is shown in the following schedule:

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-555 Supplemental pension fund establishment; payment of supplemental pension allowances from such fund.

There is hereby established a supplemental fund to be known as the supplemental pension fund. Such fund shall consist of such moneys as may be appropriated thereto and all other moneys received for such fund from any other source pursuant to law. The supplemental pension fund shall be under the jurisdiction and control of the comptroller, who shall be the custodian thereof. The fund shall be held separate and apart from other funds and shall be used exclusively for the purpose of making payments of supplemental pension allowances, as hereinafter provided, to retired teachers. The comptroller is authorized and directed to prescribe such rules and regulations as may be required for the effective administration of the provisions of this section in making such pension allowances.

In addition to any pension allowance directed to be paid pursuant to section 13-554 of this chapter and notwithstanding any other provision of this law, the retirement and social security law or any other state or local law, any teacher, except as hereinafter provided, who retired prior to September second, nineteen hundred fifty-six, who had at least ten years credited service at the time of retirement, shall be granted and entitled to receive a supplemental pension allowance, based upon the year of retirement and computed upon the years of service, in accordance with the following schedule:

**[See tabular material in printed version]**

For the purposes of this schedule, the year of retirement shall extend from September second of any one year to September first inclusive of the following year.

The supplemental pension allowance granted under the provisions of this section shall be paid from the

supplemental pension fund established by this section, in so far as practicable, at the times and in the same manner as the regular retirement allowances, authorized and granted, under this chapter, are paid.

Any retired teacher already receiving a supplemental pension under the provisions of the retirement and social security law or any other state or local law shall continue to receive such supplemental pension or shall receive the supplemental allowance provided under this section, whichever shall be greater.

*NYC Administrative Code 13-556*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-556 Vested retirement rights.

a. (1) Except as provided in paragraph three of this subdivision a, any contributor who has been a member of the retirement system and has had five or more years of accredited service, who discontinues service in the schools or colleges of the city other than by death or retirement and who does not withdraw his or her accumulated deductions shall have a vested right to receive a deferred retirement allowance on attaining the age at which he or she would first be eligible for retirement had he or she remained in service but in no case, except as otherwise provided in paragraph two of this subdivision, prior to the date he or she attains the age of sixty years. Such member shall be known as a discontinued member.

(2) A discontinued member who has such vested right when he or she attains the age of fifty-five years and who was an age-fifty-five-increased benefits pension plan contributor when he or she discontinued service shall be entitled to receive a deferred retirement allowance under this section on the date when he or she attains the age of fifty-five years.

(3) The provisions of this section shall be inapplicable to a twenty-year pension plan contributor.

b. The deferred retirement allowance provided by this section shall vest automatically upon such discontinuance of service by such member and shall become payable on the day he or she reaches the age at which he or she would first be eligible for retirement had he or she remained in service but in no case prior to the date he or she attains age sixty, except as otherwise provided in paragraph two of subdivision a of this section.

c. (1) In the case of any discontinued member who was not an age-fifty-five-increased-benefits pension plan contributor when he or she discontinued service, the deferred retirement allowance provided for in this section shall be

determined in accordance with the provisions of section 13-554, except that where the total service for any discontinued member whose retirement allowance is required to be determined pursuant to this paragraph one is less than twenty-five years, the pension shall be based on one per cent of this average salary for each year of accredited service.

(2) In the case of any discontinued member who was an age-fifty-five-increased-benefits pension plan contributor when he or she discontinued service, the deferred retirement allowance provided for in this section, shall, subject to the provisions of subdivision i of this section, be determined in accordance with the provisions of such section 13-554 governing the retirement allowance of an age-fifty-five-increased-benefits pension plan contributor, in the same manner as if he or she had retired for service on the date on which he or she attained the age of fifty-five years. In any case where, for the purpose of computing such retirement allowance, his or her average salary is required to be determined pursuant to subdivision eighteen of section 13-501 of this chapter, any reference in such subdivision to salary earnable during a period preceding the date of retirement shall, for the purposes of this paragraph two, be deemed to mean salary earnable during an equal period preceding the date of his or her discontinuance of service and any reference in such subdivision to selection of a period of service prior to the date of retirement, shall, for the purposes of this paragraph, be deemed to mean selection of such period prior to the date on which such discontinued member attains the age of fifty-five years.

d. Interest on the accumulated deductions and on the reserve-for-increased-take-home-pay of a discontinued member shall be credited after the discontinuance of service at the same rate as prior to the discontinuance.

e. If a member who has withdrawn from the service should die before becoming eligible for a deferred retirement allowance under this section his or her accumulated deductions and his or her reserve-for-increased-take-home-pay shall be paid to his or her beneficiary, and in the absence of a designated beneficiary, to his or her estate.

f. A member, who has withdrawn from the service in accordance with the provisions of this section, may elect any of the options available under the provisions of section 13-558 providing he or she files with the retirement board an application for such option prior to the day he or she becomes eligible for a deferred retirement allowance.

g. A member who has resigned from service may withdraw his or her accumulated contributions at any time subject to the limitations contained in section 13-541 of this chapter. The withdrawal of a member's accumulated contributions shall terminate his or her right to a vested deferred retirement allowance.

h. Subject to the provisions of section 13-549 of this chapter (relating to deferred eligibility of certain retirees, withdrawn contributors and discontinued members for benefits under certain pension plans), a member who has discontinued service but has not withdrawn his or her accumulated contributions and is subsequently restored to service in the city's schools or colleges, shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her withdrawal and shall also be credited with interest on his or her accumulated deductions and on his or her reserve-for-increased-take-home-pay between the time of his or her withdrawal and the time of his or her restoration to service.

i. (1) In any case where:

(a) a contributor:

(i) on or after July first, nineteen hundred sixty-nine, re-entered member-service (as defined in subdivision fifteen-a of section 13-501 of this chapter) or shall hereafter re-enter member-service; or

(ii) on or after July first, nineteen hundred seventy, first enters member-service; and

(b) such contributor, while an age-fifty-five-increased-benefits pension plan contributor and before completing four years of member-service after such re-entry or first entry into member-service, as the case may be, discontinued

service so as to become a discontinued member; and

(c) his or her right to receive a deferred retirement allowance as a discontinued member is not terminated;

the deferred retirement allowance to which he or she is entitled as a discontinued member shall be computed as provided for by paragraph two of subdivision c of this section, except as otherwise provided in paragraph two of this subdivision h.

(2) The pension component of such deferred retirement allowance shall not be as prescribed by paragraph two of such subdivision c, but shall instead be the larger of:

(a) a pension determined pursuant to the method of computation set forth in paragraphs one to five, inclusive, of subdivision f of section 13-549 of this chapter (relating to computation of the pension of certain retirees having deferred eligibility for benefits under certain pension plans); or

(b) the pension to which he or she would have been entitled under the provisions of paragraph one of subdivision c of this section, if he or she had not been an age-fifty-five-increased-benefits pension plan contributor when he or she discontinued service.

(3) The provisions of this subdivision (i) shall apply to any contributor who re-entered or shall re-enter member-service under the circumstances set forth in paragraph one of this subdivision, whether or not such re-entry was or shall be with credit for service and status at the termination of his or her prior membership in the retirement system.

j. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in such system who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the system shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-542 or 13-543 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-557 Special provisions on retirement of teachers for service and allowances thereon.

Subject to such terms and conditions and to such rules and regulations as such board may adopt, any teacher may retire upon written application to such board after he or she has completed thirty years of service upon a retirement allowance consisting of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions; and, in addition thereto,

2. Such pension as shall be certified by the actuary of such board to have an actuarial value equivalent to the reserve which would be in the contingent reserve fund had the city contributed on account of such teacher from the date of his or her entrance into service in such manner as is provided for the city's contributions on behalf of new-entrants in section 13-527 of this chapter, the amount determined by the actuary of such board to be necessary to provide for the death benefit and for the pension reserve required at the time of retirement to pay the pension allowable by the city as provided in this chapter. In determining the amount of the reserve the actuary of such board shall base his or her calculations on the tables then in use as the basis for determining the rates of contribution required of the city on account of new-entrants and, in addition thereto,

3. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any.

Amended chap 510/1960 § 23

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under a 1961 amendment to § B20-41.0 a member of the retirement system who would be eligible for retirement by reason of service and/or superannuation is deemed to have retired on the day of his death, if he dies before retiring. A war veteran may be eligible to retire after 25 years of service provided he pays to the board a 5 or 10 year deficit in his annuity contributions. A military veteran died after completing 25 years of service. However he had not applied for early retirement and had not made the required payment. **Held:** the 1961 amendment was not applicable. It applies only to retirement for 30 years of service or for superannuation.-Matter of Margolin, 36 Misc. 2d 1025, 234 N.Y.S. 2d 237 [1962].

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-558 Retirement; options in which retirement allowances may be taken.

a. A contributor may at any time file with such board his or her election to receive on retirement his or her benefits in a retirement allowance payable throughout life or to receive the actuarial equivalent of his or her annuity, his or her pension, or his or her retirement allowance in a lesser annuity, or a lesser pension, or a lesser retirement allowance, payable throughout life, with the provision that;

Option I. If he or she dies before he or she has received in payments the present value of his or her annuity, his or her pension, or his or her retirement allowance, as it was at the time of his or her retirement, the balance shall be paid to his or her legal representative or to such person as he or she shall nominate by written designation duly acknowledged and filed with such board. The contributor may provide by written designation duly acknowledged and filed with such board, that if such balance shall be in the sum of ten thousand dollars or more, the same shall be paid to the person designated in accordance with one of the following options:

Option Ia. Upon the death of the contributor such balance shall be paid to the person designated in the form of an annuity, in monthly installments, throughout his or her life. The annuity to the beneficiary, if payable, shall be calculated on the basis of regular interest and the mortality table for Option A; or

Option Ib. Upon the death of the contributor such balance shall be paid in a lesser annuity in monthly installments to the person designated with a provision that should such beneficiary die before he or she has received the total actuarial value of such balance, the unused portion shall be paid to the estate of the contributor or to such other person as he or she shall nominate by written designation duly acknowledged and filed with such board. The lesser annuity to the beneficiary, if payable, shall be calculated on the basis of regular interest and the mortality table for

Option B.

In the event that the contributor has made no election of Option Ia or Option Ib, the designated beneficiary may elect to receive the balance payable upon the death of the contributor in a lump sum or he or she may elect to have such balance paid under any one of the above options in the same manner as if the contributor had designated the option under which such balance would have been paid. The beneficiary nominated in such designation may be changed by the contributor at any time either before or after retirement by a new designation or designations filed prior to the death of the contributor.

Option II. Upon his or her death, his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as he or she shall nominate by written designation duly acknowledged and filed with such board.

Option III. Upon his or her death, one-half of his or her annuity, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as he or she shall nominate by written designation duly acknowledged and filed with such board.

Option IV. Some other benefit or benefits shall be paid either to the contributor or to such person or persons as he or she shall nominate, provided such other benefit or benefits together with such lesser annuity, or lesser pension, or lesser retirement allowance shall be certified by the actuary of such board to be of equivalent actuarial value and shall be approved by such board.

b. For purposes of this section, the words "pension" and "retirement allowance" shall be deemed to include the pension-providing-for-increased-take-home-pay.

c. Notwithstanding any other provision of this title to the contrary, a twenty-year pension plan contributor who has made an election, pursuant to subdivision a of this section, prior to the effective date to his or her retirement, may, at any time before his or her retirement allowance as such a contributor begins, change any such election made by or her to any other election authorized by such subdivision, by filing such changed election with the board. Any such changed election may, at any time before such retirement allowance begins, be further changed in the same manner to any other election authorized by such subdivision. Any such changed election last filed shall supersede all elections previously filed.

d. (1) The retirement board may adopt rules and regulations providing that in any case where a contributor or designated beneficiary authorized by the applicable provisions of this chapter to nominate a beneficiary to receive a lump sum benefit under this section represents to the retirement system that a specified person has been designated by such contributor or designated beneficiary as a trustee of an inter vivos or testamentary trust for the purpose of this subdivision d, such person shall (a) be eligible to be nominated to receive, in the capacity of trustee, a lump sum benefit under Option I and (b) be eligible to be nominated to receive, in the capacity of trustee, any benefit under Option IV which the retirement board shall deem appropriate.

(2) Any proceeds received by a trustee under this section shall not be subject to the debts of the member or to transfer or estate taxes to any greater extent than if such proceeds were payable to the beneficiaries named in the trust and not to the estate of the member.

(3) A payment made in good faith under this section (a) to a person so represented to the retirement system to be a trustee of an inter vivos trust, or (b) to a person who is designated as a successor trustee of an inter vivos trust and who provides a copy of his or her appointment, or (c) to a person who is designated as a trustee or successor trustee of a testamentary trust and who provides a copy of the letters of trusteeship, provided such payment is made to such payee in the capacity of trustee, shall be a complete discharge to the retirement system to the extent of the payment. Such discharge shall not be impaired or affected by an adjudication that a trust is invalid or that a person represented to be or designated as a trustee is not entitled to receive the proceeds, if payment is made in good faith under this section before

notice to the retirement system of the claim of invalidity or lack of entitlement on which such adjudication is based.

(4) If no person to whom the retirement system is authorized to make payment in the capacity of trustee, as provided for in paragraph three of this subdivision d, claims the proceeds within eighteen months after the death of the retired member, payment shall be made to the deceased retired member's estate and such payment shall be a complete discharge to the retirement system to the extent of the payment.

(a) If satisfactory evidence is furnished within such period of eighteen months that there is or will be no trustee to receive the proceeds, payment shall be made to the deceased retired member's estate.

(5) In the event that after a person represented to have been designated as a trustee of an inter vivos or testamentary trust is nominated pursuant to rules and regulations adopted under paragraph one of this subdivision d, the contributor or designated beneficiary authorized to make a nomination shall, in compliance with the applicable provisions of this chapter, nominate for receipt of the same lump sum benefit:

(a) a beneficiary other than a person so represented to have been designated as a trustee; or

(b) a person represented to have been designated as a trustee under a different inter vivos or testamentary trust;

a payment made in good faith under this section to the last such nominee as of the date of death, whether he or she is a beneficiary not represented to have been designated as trustee or a person represented to have been so designated, shall be a complete discharge to the retirement system to the extent of the payment, provided, however, that if payment is made to a person represented to have been designated as a trustee, the retirement system shall be so discharged if payment is made to such person in the capacity of trustee and if there is compliance with the requirements of paragraph three of this subdivision d with respect to submission of copies. In any case where the last such nominee is a person represented to have been designated as a trustee, the provisions of paragraph four of this subdivision d shall apply.

e. Notwithstanding section 13-565 and any other provision of this title, an option selection previously filed by a contributor or retired contributor may be changed no later than thirty days following the date of payability of his or her retirement allowance. A retired contributor who has been retired for disability may change an option selection previously filed no later than (1) thirty days following the date on which such contributor's application for disability retirement was approved by the retirement board or (2) thirty days following the date on which the contributor was retired for disability, whichever is later.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Deceased teacher's administrator who claimed that upon deceased's retirement a year and a half before her death she was mentally incompetent to make an election as to benefits and that her retirement under the normal annuity was therefore ineffective, **held** not entitled to mandamus order directing Teachers' Retirement Board to pay administrator sum she would have received had she elected to take a lump sum, since even if election of option were rescinded, one to be chosen was that which was to incompetent's best interests, not one which in event of her death might be most beneficial to her relatives. Furthermore, it was to be considered that deceased had drawn her annuity for a year and a half, and that no showing was made that election was not to her best interests.-Matter of Loeb (Teachers' Retirement Board), 98 (8) N.Y.L.J. (7-10-37) 97, Col. 1 M; aff'd 4 N.Y.S. 2d 180 [1938].

¶ 2. Complaint, in action by personal representative of deceased school teacher to set aside his retirement from the school system two months before his death, on ground that he was mentally incompetent at the time he elected to retire, **held** sufficient, since, if the application for retirement were made at a time when deceased was mentally incompetent, such act might not be regarded as voluntary and the legal representative might disaffirm the transaction.-Martin v. Teachers' Retirement Board, 269 App. Div. 115, 54 N.Y.S. 2d 245 [1945].

¶ 3. Evidence **held** to establish that teacher was mentally incompetent at time of her revocation of her previous selection of option No. 1 of the Retirement System and at time she elected to receive the maximum allowance payable during her life without optional modification. Hence such revocation and new selection were ineffectual. The evidence failed to establish that at time of execution of such document her sanity had temporarily returned so that it could be held that she signed the paper during a lucid period.-Schwartzberg v. Teachers' Retirement Board, 70 N.Y.S. 2d 770 [1947], aff'd on this point, 273 App. Div. 240, 76 N.Y.S. 2d 488 [1948], aff'd without opinion, 298 N.Y. 741, 83 N.E. 2d 146 [1948].

¶ 4. Where teacher in 1930 had elected to receive option No. 1 of the Teachers' Retirement System upon her retirement from service, whereby she would receive a certain monthly payment and any balance on her death would pass to her son and daughters, but in 1943 she was retired for disability and her attempted change of her selection of options so that she would receive the maximum allowance payable during her life without optional modification, was deemed ineffective because of her mental incompetency at the time, the burden rested upon the Retirement Board to establish that the teacher's urgent needs required revocation of option No. 1, and this situation was not shown as the teacher's three children were mature and able to make up the difference between the amounts payable under the two options during life.-Schwartzberg v. Teachers' Retirement Board, 70 N.Y.S. 2d 770 [1947], aff'd on this point, 273 App. Div. 240, 76 N.Y.S. 2d 488 [1948], aff'd without opinion, 298 N.Y. 741, 83 N.E. 2d 146 [1948].

¶ 5. Under this section a contributor to the Teachers' Retirement System may at any time file an election to take an optional modified benefit. Thus, a teacher had a right to choose an optional benefit up to the time of actual retirement by resolution of the Retirement Board. Contention that under § B20-40.0 the teacher had to make her election within thirty days after her medical examination was rejected. That section must be read in conjunction with this section which gives a contributor the right at any time to file an election.-Matter of Levy, 298 N.Y. 360, 52 N.E. 2d 902 [1943].

¶ 6. Contention that the designation of a beneficiary under this section was an attempt to make a will and dispose of the property of a deceased teacher contrary to Decedent's Estate Law was rejected. The husband of the deceased teacher claimed that her act in naming her sister as beneficiary pursuant to this section created a Totten Trust.-Moyer v.

Dunseith, 180 Misc. 1004, 46 N.Y.S. 2d 360 [1943], aff'd 266 App. Div. 1008, 45 N.Y.S. 2d 126 [1943].

¶ 7. Petitioners were not entitled to special benefits provided for under § B20-40.0 but were limited to benefits payable under Option IV of this section which decedent-teacher had selected where she requested that her retirement become effective on January 10th and died on February 11th.-Finn v. Teachers' Retirement Bd. of City of N.Y., 21 N.Y. 2d 817, 235 N.E. 2d 908, 288 N.Y.S. 2d 904 [1968], aff'g 28 App. Div. 2d 718, 282 N.Y.S. 2d 684 [1967].

¶ 8. Where decedent filed a new designation of beneficiary with the retirement board, previously designated beneficiary was not entitled to benefits although decedent had agreed in a separation agreement to make the designation irrevocable and separation agreement was subsequently incorporated in a foreign divorce decree.-Caravaggio v. Retirement Bd. of the Teachers' Retirement System, 36 N.Y. 2d 348, 329 N.E. 2d 165, 30 N.Y.S. 2d 475 [1975].

¶ 9. The right to receive benefits under the Teachers' Retirement System is unassignable and benefits payable on death may not be bargained away in a separation agreement.-Id.

¶ 10. Plaintiff in matrimonial action was entitled to dismissal of counterclaim of former wife who sought specific performance of an alleged contract with her former husband whereby plaintiff agreed to irrevocably designate her the beneficiary of his benefits from the N.Y.C. Retirement Fund and to elect an option at the time of his retirement which would insure that she receive at least one half of his yearly benefits during her lifetime since specific performance of such contracts violates public policy. Defendant, however, can replead a cause of action to recover damages for breach of the alleged contract.-Leavitt v. Leavitt, 54 A.D. 2d 707 [1976].

**CASE NOTES**

¶ 1. The decedent, a New York City school teacher, executed a designation of beneficiary form indicating that his retirement death benefits were to go to a named friend. Years later, he married but never changed the designation form. When he died, his widow sought to recover the death benefits, contending that her husband intended to leave his entire estate to her, proferring her husband's will as evidence of that intent. The court, however, held that even though the friend and the decedent had been estranged for from each other for many years, the court had no power to award death benefits to anyone other than the named beneficiary. Thus, the friend rather than the widow received the benefits. Venet v. Teachers Retirement System of the City of New York, 159 A.D.2d 273, 552 N.Y.S.2d 275 (1st Dept. 1990).

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-559 Termination of options.

Where a contributor has elected an option in accordance with section 13-558 of this chapter and where such option provides that upon the death of the contributor after retirement a guaranteed lump sum payment in a stated dollar amount, or that a guaranteed lump sum payment of a specific number of variable annuity units equal to a stated dollar amount, or that a guaranteed lump sum payment of a specific number of variable annuity units shall be payable to a designated beneficiary, and where such designated beneficiary predeceases the retired contributor, then the retired contributor may file a fully certified request, upon a form provided by such board, that his or her optional election terminate. Upon such request, accompanied by evidence of the death of the designated beneficiary, the previously elected option shall be null and void, and the retirement allowance thereafter payable to such retired contributor shall be such greater amount that the actuary shall compute to be the equivalent of the benefits payable had no such option been filed.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-559.1 Modified Option 1 pension computation formula.

a. The retirement board may by resolution direct that under such circumstances as are designated in such resolution, benefits under Option 1 which consist of or are derived from the pension component of a retirement allowance and which are payable to or on account of Tier I members who:

(1) became members prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this section; and

(2) retired or retire, on or after August first, nineteen hundred eighty-three, for service or superannuation or for ordinary or accident disability, or on or after such August first, discontinued or discontinue service so as to become discontinued members; shall be determined under the modified Option 1 pension computation formula (as defined in subdivision fifty-nine of section 13-501 of the code).

b. If the retirement board makes a direction, pursuant to the provisions of subdivision a of this section, for use of such formula, it may also direct by resolution:

(1) that any member who is subject to the modified Option 1 pension computation formula may elect, at such time and in accordance with such procedures as are prescribed in such resolution, that such formula shall not apply to such member and that the initial reserve determined for the purpose of providing the benefits payable by reason of his or her selection of Option 1 and the pension component of his or her Option 1 retirement allowance shall be determined on the basis of gender-neutral mortality tables and regular interest of seven per centum per annum, compounded annually; and

(2) that the benefit payable upon the death of the member making such election, to his or her beneficiary or estate shall be the difference between such Option 1 initial reserve and the total of the payments of such pension component received by or payable to such member for the period prior to his or her death; and

(3) that if such Option 1 beneficiary's benefit is payable pursuant to Option 1a or Option 1b, the benefits payable to a beneficiary or estate by reason of selection of such Option 1a or Option 1b shall be the greatest of the three benefits computed for such beneficiary or estate in accordance with the methods of computation set forth in the applicable provisions of subparagraph (ii) or subparagraph (iii) of paragraph (e) of subdivision fifty-nine of section 13-501 of the code; and

(4) that where any member subject to the modified Option 1 pension computation formula retired before the effective date of a retirement board resolution adopted pursuant to subdivision a of this section, and where the retirement allowance of a discontinued member who is subject to such formula began before the effective date of such resolution, such retiree or discontinued member, within such period of time after such effective date and in accordance with such procedures as are prescribed in such resolution, may elect the method of Option 1 benefit determination set forth in the preceding paragraphs of this subdivision b.

c. In any case where, pursuant to retirement board resolution, a benefit is required to be determined under the modified Option 1 pension computation formula and the determination of such benefit is also required by a retirement board resolution adopted pursuant to sub-item (3) of item (A) of subparagraph (ii) of paragraph (g) of subdivision twenty-two of section 13-501 of the code to reflect different computations of separate portions of such benefit, the methods of computation under the modified Option 1 pension computation formula shall be appropriately adjusted so as to give effect to the provisions of such resolution adopted pursuant to such sub-item (3).

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-561 Exemption from tax, execution, etc.

1. The right of a person to a pension, a pension-providing-for-increased-take-home-pay, an annuity, or a retirement allowance, to the return of contributions, the pension, pension-providing-for-increased-take-home-pay, annuity, or retirement allowance itself, any optional benefit, any other right accrued or accruing to any person under the provisions of this chapter, and the moneys in the various funds provided for by this chapter, are hereby exempt from any state or municipal tax, and exempt from levy and sale, garnishment, attachment or any other process whatsoever, and shall be unassignable except as in this chapter specifically otherwise provided.

2. Notwithstanding the foregoing provisions of this section, a retired member who, immediately prior to his or her retirement, was a member of an employee organization, certified or recognized pursuant to article fourteen of the civil service law as the representative of all employees in the negotiating unit in which such retired member was then employed, and had duly executed and filed a deduction authorization card, authorizing the payment of membership dues and such retired member's share of the cost for employee organization-sponsored benefit plans to such employee organization, which was in effect at the time of his or her retirement, shall have the right, at any time after his or her retirement, to execute and file a new deduction authorization card authorizing the payment of membership dues and such retired member's share of the cost for employee organization-sponsored benefit plans to an employee organization of which he or she is then a member and which is then so certified or recognized as the representative of all employees in such negotiating unit. Such authorization shall continue in effect until revoked by such retired member or superseded by a new deduction authorization card executed and filed by such retired member in the form and manner prescribed by executive order of the mayor. The board shall determine the cost of administering deductions for employee organization-sponsored benefit plans and the cost incurred by the retirement system and the comptroller in

administering the same shall be paid by the employee organization.

3. Notwithstanding the foregoing provisions of this section, a retired member shall have the right, at any time after his or her retirement, to execute and file a deduction authorization card authorizing the payment of voluntary contributions to the political committee, as defined in subdivision one of section 14-100 of the election law, of such member's employee organization provided such organization is certified or recognized pursuant to article fourteen of the civil service law as the representative of all employees in the negotiating unit in which such retired member was then employed. Such authorization shall continue in effect until revoked in writing by such member. The board shall determine the cost of administering deductions for voluntary contributions to the political committee and the cost incurred by the retirement system and the comptroller in administering such contributions shall be paid from the funds of the political committee.

4. Notwithstanding the foregoing provisions of this section, a retired member who has elected to defer the commencement of the distribution of his or her tax-deferred annuity account pursuant to subdivision g of section 13-582 of this chapter, shall have the right, at or any time on or after his or her retirement, to file with the retirement system a duly executed deduction authorization card directing repayment of a tax-deferred annuity loan from the retired member's retirement allowance payments in accordance with rules and regulations which shall be adopted by the retirement board. Such authorization shall continue in effect until revoked in writing by such retired member.

Amended chap 510/1960 § 26

Par added chap 338/1975 § 1

**NOTE**

1. Provisions of chap 267/2006:

§ 2. This act shall take effect immediately [July 26, 2006], provided, however, that the rights conferred by this act shall not be implemented with respect to eligible retired members until the teachers' retirement board has adopted the rules and regulations necessary for the implementation of this act.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Greater New York Charter § 1092, subd. w, providing that the right of a person to a pension, annuity or retirement allowance under the Teachers' Retirement Fund or "any other right accrued or accruing to any person under the provisions of this act" should be exempt from creditors' claims, **held** to immunize pension paid to administratrix of deceased teacher from claim of creditor, since a corollary or purpose of the statute to stabilize status of persons in the

educational system and to guard member against results of his own improvidence, was the protection of the member's dependents.-Est. of Alfredo Distefano, 167 Misc. 678, 5 N.Y.S. 2d 87 [1938], aff'd without opinion, 255 App. Div. 957, 8 N.Y.S. 2d 669 [1938].

¶ 2. Accumulated deductions standing to petitioner's credit in the annuity savings fund of the Teachers' Retirement System were exempt from claims of creditors.-In re Lewittes (Briscoe), 120 (87) N.Y.L.J. (11-4-48) 1032, Col. 2 F.

¶ 3. In view of provisions of Greater New York Charter § 1092, subd. w, and Admin. Code § B20-48.0, providing that right of a person to a pension under the act should be exempt from execution and unassignable, assignment of death benefit made by the designated beneficiary a short time after death of the teacher-member of the Retirement System but before actual payment of the benefit, **held** void, since design of the act is to protect the beneficiary as well as the member from the results of his own improvidence, although after the death benefit is actually paid over the legal and moral responsibility of the Retirement System ceases.-Hecht v. Whalen, 174 Misc. 146, 18 N.Y.S. 2d 488 [1940].

¶ 4. Provisions of Admin. Code § B20-48.0, exempting from tax the benefits of the Teachers' Retirement Fund, **held** not to prevent the imposition of an estate tax upon that portion of the sum which became payable to a designated beneficiary as represented accumulated salary deductions of a member of the fund, inasmuch as Tax Law § 249kk, providing that no exemptions provided for in any other law of the state should be construed as being applicable under Art. 10c of the Tax Law, repealed by implication the exemption provision of § B20-48.0. Even though the Admin. Code was enacted in 1937 and therefore subsequent to Tax Law § 249kk, which became effective in 1930, the effect was the same as if the exemption provision of the Code had been enacted prior to 1930, as Admin. Code § 982-6.0 prohibits repeal by implication of any existing provision of law, and § 983-1.0 provides that for purpose of determining effect, upon any provision of the Code, of any statute theretofore enacted and not specifically repealed by the Code, such provision should not be considered a new enactment if it re-enacted any prior law, and it appeared that the exemption provision of the Code was substantially the same as § 1092 of the previous Charter.-Matter of Newton, 177 Misc. 877, 32 N.Y.S. 2d 473 [1942], aff'd without opinion, 267 App. Div. 913, 47 N.Y.S. 2d 332 [1944], aff'd 294 N.Y. 687, 60 N.E. 2d 842 [1945].

¶ 5. Provisions of Insurance Law § 200, subd. 7, stating that the property of a retirement system and all rights of an employee in the funds of the system should be exempt from taxation, was inapplicable to benefits payable under the New York City Teachers' Retirement System, since such system was the creation of special legislation and contained its own exemption clause, and such special statute would seem exclusively applicable. Moreover the intent of the Legislature seemed clear to restrict the application of Insurance Law § 200, sub. 7, to retirement systems created and existing under and in pursuance of the Insurance Law.-Id.

¶ 6. It has been held that Tax Law § 249-kk, enacted in 1930, has impliedly repealed the estate tax exemption contained in the Admin. Code.-In re Herman K. Endemann, dec'd 201 Misc. 1077, 106 N.Y.S. 2d 849 [1951].

¶ 7. On death of a teacher of a New York City School System, fund paid by the Teachers' Retirement System to a designated beneficiary, held properly included as part of decedent's estate for tax purposes, inasmuch as the retirement system was under obligation to the decedent to return to her, or to her estate or nominee, the amounts deducted from her salary upon her withdrawal or death prior to retirement. Decedent would have been entitled to the fund upon her withdrawal prior to retirement, and a nominee was entitled to it only upon her death. The accumulated deductions did not possess the essentials of insurance, but the situation resembled more closely an annuity.-Est. of Pauline J. Burtman, 180 Misc. 299, 41 N.Y.S. 2d 778 [1943].

¶ 8. The provisions of the Code, that rights of members of Teachers' Retirement System are exempt from tax, levy, sale, attachment, and assignment did not destroy or impair the validity or effectiveness of a divorce decree which provided that pensioner's ex-wife be named as irrevocable beneficiary with respect to his pension fund.-Lapolla v. Retirement Board of the Teachers' Retirement, etc., 140 N.Y.S. 2d 449 [1955].

¶ 9. The amount paid to the beneficiary of a deceased school teacher representing the deductions from the teacher's salary together with interest, was subject to the New York Estate Tax. Contention that the accumulated deductions constituted life insurance exempt from estate tax by Tax Law § 249-r(9) or in the alternative that they were exempted from estate tax by this section were rejected. Tax Law § 249-k providing, in effect, that no exemption provided by any other law of the State should be applicable to the estate tax, was applicable.-Matter of Newton, 294 N.Y. 687, 60 N.E. 2d 842 [1945].

**CASE NOTES**

¶ 1. A separation agreement expressly distributing pension benefits as marital property pursuant to Domestic Relations Law § 236(B) is enforceable and exempt from application of the statutory anti-assignment provision governing the Teachers' Retirement System pension funds, Ad Code § 13-561. In this case spouse #1 was allowed to receive 100% of the death benefits as agreed to her in the separation agreement, despite a different beneficiary designation by the decedent. Kaplan v Kaplan, 82 NY 2d 300, affg. 185 AD 2d 179; revg. Caravaggio v Retirement Bd. of Teachers Ret. Sys., 36 NY 2d 348 [1994].

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-563 Extension of system to college participants and provisions relative thereto.

Membership in the public school teachers' retirement system, besides including teachers enumerated in definition seven of section 13-501 of this chapter, and members described in section 13-503 of this chapter, is hereby extended to include all officers of administration and instruction of the College of the city of New York, and also others at present employed by such college, who are not members of any other retirement system supported in whole or in part by the city and who hold appointment to service at annual salaries paid out of appropriations made by the city and also all lecturers employed by the city university of New York who serve on a per hour, per diem, per monthly or per semester basis under such appropriate rules and regulations as the retirement board shall adopt, elect to become members of the retirement system provided however that such lecturers are not members of any other retirement system supported in whole or in part by the city. All such members shall hereinafter be referred to as college participants and all the provisions of this chapter shall apply to such participants except as hereinafter provided:

1. All the definitions of section 13-501 of this chapter shall hold in the application of the retirement provisions to college participants. The college of the city of New York with all its divisions including its prepatory high school is deemed to be part of the public school system together with the public schools enumerated in definition six of section 13-501 of this chapter. Such college participants are deemed teachers of the public school system together with those enumerated in definition seven of section 13-501 of this chapter. The present-teachers shall be those in the service of the college on June first, nineteen hundred twenty-three. New-entrants shall be those appointed to service after such date. In applying definition fourteen of section 13-501 of this chapter to college participants, prior-service shall be calculated for present-teachers up to such date.

2. The membership of the retirement board constituted by section 13-507 of this chapter shall not be changed

because of the inclusion of employees of the college of the city of New York in the retirement system. All the duties of such board shall be exercised in reference to college participants.

3. All the funds provided for by this chapter shall be administered for and in behalf of college contributors in like manner as for all other contributors, and the city shall pay each year into the contingent reserve fund ten thousand dollars on account of present-college teachers, which payment shall continue until the present value of such amounts so paid into the contingent reserve fund together with the amounts restored to the contingent reserve fund from pension reserve fund number one on account of present-college teachers restored to active service, shall equal the present value of all amounts which have been transferred from the contingent reserve fund to pension reserve fund number one on account of present-college teachers, plus the present value of all amounts, other than reserves-for-increased-take-home-pay, thereafter to be transferred from the contingent reserve fund to such pension reserve fund number one on account of present-college teachers. Such amounts shall be computed on the basis of such mortality and other tables as shall be adopted by the retirement board, and on regular interest. Deductions shall be made from the salaries of college participants on each and every payroll, in the manner set forth in section 13-521 of this chapter, and the provisions of section 13-533 of this chapter, shall apply to college members as to all other members.

4. In computing the length of service of a college contributor all the provisions of section 13-505 of this chapter shall apply and all service in the college of the city of New York shall be credited for college contributors exactly as analogous service in the schools under the management and control of the board of education is credited to other contributors.

5. All the provisions of sections 13-523, 13-506, 13-541, 13-545, 13-550 and 13-553 of this chapter, shall apply to college contributors except that no college contributor who is dismissed from service shall be paid anything out of the teachers' retirement fund of the board of education of the city of New York as it existed prior to the first day of August, nineteen hundred seventeen and for college contributors service shall be counted as equivalent to city-service wherever such service is designated in such sections as necessary to meet a retirement requirement.

6. Each college pensioner duly retired under the provisions of the college officials and professors' retirement fund prior to May twenty-second, nineteen hundred twenty-three shall receive from pension reserve fund number two, in regular monthly installments, the same annual pension which was assigned to him or her at the time of retirement and the city shall contribute to pension reserve fund number two sums equal to the amounts paid to such pensioners.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-567 Variable annuity funds.

a. There shall be established, in addition to the funds already provided for, five funds to be known collectively as the variable annuity funds and individually as: (i) the variable annuity savings fund, (ii) the variable annuity reserve fund, (iii) the variable pension accumulation fund, (iv) the variable pension reserve fund, and, (v) as a segregated portion of the contingency reserve fund, the variable contingency reserve fund, respectively.

b. The variable annuity funds A and B shall continue, subject to the provisions of subdivision c of this section.

c. Subject to the provisions of subdivsion d of section 13-570 of this chapter, the retirement board may, from time to time, establish, modify or abolish such additional variable annuity fund or funds, including, but not limited to such funds as described in subdivision b of this section, each of which shall include (i) a variable annuity savings fund, (ii) a variable annuity reserve fund, (iii) a variable pension accumulation fund, and (iv) a variable pension reserve fund. Each such variable annuity fund shall be invested in the manner described in the resolution creating or modifying the variable annuity fund and the retirement board shall establish a new start date and initial unit value for each such fund.

d. In establishing and investing or abolishing the variable annuity funds the retirement board shall take no action that would render the retirement system not a qualified plan under Section 401 (a) of the Internal Revenue Code of 1986 or the tax-deferred annuity program in violation of Section 403 (b) of the Internal Revenue Code of 1986.

e. With respect to any member or retired member, a reference to any of the variable annuity funds without further specification shall be taken as a reference to the fund or funds in which such member has an account. A general reference to any one of the variable annuity funds without further specification shall be taken as a reference to the one,

or more, or all such funds, according to the context. A provision invoking an election or other transaction which requires a distinction among the variable annuity funds shall apply when such election or other transaction is effective on or after the new start date. Should the retirement board, by resolution, establish one or more additional variable annuity funds pursuant to subdivision c of this section, each such fund or funds shall be governed by and be subject to the provisions specified in this chapter as applicable to funds A and B, as appropriate.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-568 Elections to participate in the variable annuity program; variable annuity savings fund and variable pension accumulation fund.

a. A contributor, by written notice of his or her intention to participate in the variable annuity program duly filed with the retirement board, may elect to have currently deposited and credited to his or her account in the variable annuity savings fund such portion as the retirement board may permit by duly adopted rules and regulations of the deductions from his or her salary that would otherwise be credited to his or her accumulated deductions. If a contributor makes such an election, an equal percentage of the amount that would otherwise be credited to his or her reserve-for-increased-take-home-pay shall be currently deposited and credited to his or her account in the variable pension accumulation fund. The contributor or beneficiary shall also elect the particular variable annuity funds established by the retirement board pursuant to section 13-567 of this chapter in which such deductions and reserves shall be deposited and credited.

b. Pursuant to section 13-513 of this chapter, the retirement board may establish rules and regulations applicable to similarly situated contributors and/or beneficiaries with respect to the variable annuity funds, including, without limitation, rules and regulations governing:

1. The percentage of deductions from salary that may be contributed to the variable annuity funds, and the distribution therefrom among the various particular variable annuity funds that the retirement board may establish pursuant to section 13-567 of this chapter;

2. Transfers of a contributor's accumulated deductions between the annuity savings fund and the variable annuity savings fund and reserve-for-increased-take-home-pay between the contingent reserve fund and the variable pension

accumulation fund;

3. Transfers of accumulated deductions and reserve-for-increased-take-home-pay among the investment accounts which the

retirement board may establish pursuant to section 13-567 of this chapter;

4. Changes and revocations of elections made pursuant to subdivision a of this section;

5. Deposits to the variable annuity savings fund of monies attributable to a contributor who has transferred from the board of education retirement system;

c. In promulgating and administering rules and regulations pursuant to subdivision b of this section the retirement board shall take no action that would render the retirement system not a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 or the tax-deferred annuity program in violation of Section 403(b) of the Internal Revenue Code of 1986.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-569 Variable contingency reserve fund.

There shall be maintained, within the contingency reserve fund, a segregated portion to be known as the variable contingency reserve fund, the purpose of which shall be to accumulate such assets as may be necessary to effect the net transfers from the contingency reserve fund to the variable annuity reserve fund and the variable pension reserve fund, as required by subdivision a of section 13-577 of this chapter. The actuary shall prepare an annual estimate of the assets necessary to make such future adjustments with respect to all benefits to be provided out of the current assets of the variable annuity funds other than the variable contingency reserve fund. Such estimate shall be based on the mortality experienced among beneficiaries of the annuity reserve fund and pension reserve fund number one, as shown by the most recent actuarial investigation pursuant to section 13-514 of this chapter. When, in accordance with a determination by the actuary, there is sufficient experience in the operation of the variable annuity program, the estimate shall recognize the mortality experienced among participating beneficiaries. The assets of the variable contingency reserve fund shall be maintained at a level as nearly as possible consistent with such estimates.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-570 Administration; investment of funds; units and unit values; expenses.

a. The retirement board may enter into a contract or contracts with one or more agencies to invest and otherwise administer the variable annuity funds. The retirement board shall retain the responsibility for determination of benefits and final authority for making investments. A contract with any one agency shall be for a period not to exceed five years but may be renewed with the same agency. Any such contract shall be filed with the New York state superintendent of insurance within thirty days prior to its effective date and the operations of the contracting agency, insofar as they affect the operation of the variable annuity program, shall be subject to examination by the superintendent of insurance.

b. The retirement board as an alternative to entering into a contract or contracts as provided in subdivision a hereof, may, only to the extent permitted by the insurance law, enter into a variable payment annuity contract or contracts with insurance companies providing for the benefits payable under the variable annuity program.

c. The variable annuity funds shall, for investment purposes, be treated as a single fund but may be invested by more than one agency.

d. 1. Notwithstanding the provisions of any state or city law to the contrary, the assets of each of the variable annuity funds may be invested up to one hundred percent in such domestic or foreign equities and other securities as are permissible for domestic life insurance companies or savings banks, subject only to the following limitations:

(i) No investment shall be made in the stock, shares or securities convertible into stock or shares of any one corporation and its subsidiaries which, at the time such investment is made will cause the aggregate market value of the

stock, shares and securities convertible into stock or shares of such corporation and its subsidiaries owned by the variable annuity funds to exceed five percent of the aggregate market value of the assets of such funds.

(ii) Not more than two percent of the issued and outstanding stock, shares or securities convertible into stock or shares of any class of any one corporation shall be owned by such funds.

The foregoing provisions shall not limit the investment of the assets of variable annuity funds in municipal, county, state, federal or corporate obligations, not convertible into stock or shares, otherwise permitted by law.

2. In addition to any investments permitted by paragraph one of this subdivision, and notwithstanding any provision of any state or city law to the contrary, the assets of each of the variable annuity funds may be invested in investments not qualifying under such paragraph one, provided:

(i) the investments made by a fund pursuant to this paragraph shall not at any time exceed fifteen percent (or such higher percentage as may be authorized by any other state or city law) of the assets of such fund; and

(ii) such investments shall be for the exclusive benefit of the participants and beneficiaries, and the trustee or trustees of the fund shall make such investments with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.

3. In the event of any conflict or inconsistency between the provisions of this subdivision and any provisions of state or city law setting forth the percentage of assets of a fund which may be invested in any one type of investment or any particular investment, including without limitation the provisions of article four-A of the retirement and social security law, the provisions of this subdivision shall govern.

e. Investment income and appreciation and depreciation of the assets shall be allocated to the individual variable annuity funds on a proportionate basis as of the end of each month.

f. Sections 13-535, 13-536 and 13-537 of this chapter shall not apply to the variable annuity funds.

g. Deposits and transfers to the variable annuity savings fund and the variable pension accumulation fund pursuant to section 13-568 of this chapter shall be converted at once into units of equal value. At the end of each month, the number of units in the accounts of each individual in each such fund shall be increased by 0.3274 per cent, the percentage by which a sum of money is increased in one month if invested at an effective rate of interest of four per cent per year. Residual fractions of a unit shall be determined to the nearest hundreth of a unit.

h. The value of a unit for January, nineteen hundred sixty-eight shall be ten dollars. For any month thereafter it shall be determined in accordance with paragraphs one, two and three following:

1. For any month preceding the month in which the method set forth in paragraph two below is applicable, the value of a unit shall be equal to the combined assets of the variable annuity savings fund and the variable pension accumulation fund at the beginning of such month, divided by the total number of units then in the individual accounts in such funds.

2. The retirement board shall establish the first month for which the method set forth in this paragraph applies. For such first month, and for any month thereafter, the value of a unit shall be equal to the value of a unit for the preceding month, multiplied by a factor which is equal to the ratio of (i) the amount resulting from ten thousand dollars invested for one month at a rate equal to (I) the average rate of investment results (including market value changes) in the variable annuity funds during the preceding month, less (II) the rate at which expenses are charged against such funds during such preceding month pursuant to subdivision j of this section, and less (III) the rate at which expenses and transfers for such preceding months are charged or deducted from the variable annuity funds, other than the variable

contingency reserve fund, pursuant to subdivision k of this section, to (ii) ten thousand thirty-two dollars and seventy-four cents, the amount of ten thousand dollars invested for one month at an effective rate of interest of four per cent per year. Such average rate of investment results, net of such expense charges and such transfers, shall be determined in accordance with rules and procedures established by the retirement board.

3. Unit values shall be determined to the nearest tenth of a cent.

i. The retirement board shall: 1. Publish, or provide for the publication of, an annual report of the operations of the variable annuity funds.

2. Furnish, or provide for the furnishing of, to each contributor who has units credited to him in the variable annuity savings fund and the variable pension accumulation fund an annual statement showing, as of the beginning of the current year, the value of a unit in such funds and the number of units credited to him in each fund.

j. Expenses incurred in the operation and administration of the variable annuity funds shall be charged against such funds.

k. The retirement board shall prepare an annual estimate of the additional expenses, if any, it has incurred that are attributable to the variable annuity program. An amount equal to such additional expenses shall be charged to and accounted for on a proportionate basis and transferred from the variable annuity funds other than the variable contingency reserve fund to the expense fund. Such transfer shall be made in twelve equal monthly installments immediately following the month in which such estimate is made, except that the transfer with respect to additional expenses incurred before January first, nineteen hundred sixty-eight, and the transfer with respect to the additional expenses incurred before the new start date in connection with the establishment of the B funds shall be made in from twelve to sixty equal monthly installments, at the discretion of the retirement board.

l. Assets shall be valued at their market value or, in the absence of a readily available market value, then at a fair market value as determined in accordance with accepted practices.

m. The value of a unit in the B funds for the month beginning with the new start date shall be ten dollars, and for any month thereafter it shall be determined in accordance with paragraphs one, two and three of subdivision h of this section.

**NOTE**

1. Provisions of chap 567/2005:

Section 1. Intent and purposes. Chapter 544 of the laws of 1966 established a variable annuity program within the New York city teachers' retirement system. Its purpose was to make available a means by which a teacher may protect the purchasing power of his or her retirement income by investing a part of his or her retirement funds in equities to serve as a hedge against inflation and the reduction in value of the dollar. It accomplished this purpose by permitting, subject to election by the contributor, one-half or all of his or her salary deductions, and thereby a portion of his or her retirement allowance, to vary according to the fluctuations in the value of the investments which the retirement board was directed to make with the funds that became available through such election.

In accordance with the objectives of the variable annuity program, it was intended that up to one hundred percent of the variable annuity fund could be invested in common stocks or other equity-type securities and such other securities permissible for domestic life insurance companies or savings banks, subject to certain percentage limitations as set forth under subdivision d of section 13-570 of the administrative code of the city of New York. Consistent with this intent, the variable annuity fund A has consistently been invested almost entirely in equities and equity-type securities since its establishment and currently remains so invested. The purpose of this act is to clarify the authority of the New York city teachers' retirement board to direct the investments of the variable annuity funds in accordance with their purposes and the investment policies of the teachers' retirement board as implemented since the establishment of the variable annuity program.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-572 Withdrawal of participant in variable annuity program; reentry into service.

a. If a participant in the variable annuity program withdraws from the retirement association with vested rights, his or her accounts in the variable annuity savings fund and variable pension accumulation fund shall be maintained, subject to the provisions of this subdivision. Unless the provisions of section 13-523 of this chapter apply, further deposits and transfers to his or her accounts shall be discontinued.

1. Upon his or her request before his or her retirement, he or she shall be paid from the variable annuity savings fund an amount equal to the value, as of the month following the receipt of such request, of the units credited to him or her in such fund. An amount equal to the value, as of such month, of the units credited to him or her in the variable pension accumulation fund shall be transferred from such fund to the contingency reserve fund, and his or her accounts in the variable annuity savings fund and variable pension accumulation fund and his or her right to a vested deferred retirement allowance shall thereupon be cancelled.

2. If he or she transfers his or her membership pursuant to section forty-three of the retirement and social security law or section five hundred twenty-two of the education law, amounts equal to the value of the units credited to him or her in the variable annuity savings fund and variable pension accumulation fund shall be transferred from such funds to his or her accumulated deductions and to the contingency reserve fund, respectively, and in the latter case shall be credited to his or her reserve-for-increased-take-home-pay. His or her accounts in the variable annuity savings fund and variable pension accumulation fund shall thereupon be cancelled. The value of a unit for the purpose of this provision shall be as of the month following his or her withdrawal or application for transfer, whichever is later.

3. If he or she re-enters service before his or her accounts in the variable annuity savings fund and variable

pension accumulation fund are cancelled, deposits to such accounts shall be resumed in accordance with the election in effect at the time of his or her withdrawal.

b. If a participant in the variable annuity program withdraws from the retirement association without vested rights, other than by dismissal, an amount equal to the value, as of the date of withdrawal, of the units credited to him or her in the variable pension accumulation fund shall be transferred from such fund to the contingency reserve fund and credited to his or her reserve-for-increased-take-home-pay. His or her account in the variable pension accumulation fund shall thereupon be cancelled. His or her account in the variable annuity savings fund shall be maintained, subject to the provisions of this paragraph. Unless the provisions of section 13-523 of this chapter apply, further deposits to his or her account shall be discontinued.

1. Upon his or her request, he or she shall be paid from such fund an amount equal to the value, as of the month following the receipt of such request, of the units credited to him or her in such fund, and his or her account in such fund shall thereupon be cancelled. If no request is made before the expiration of such time limit as the retirement board may by regulation prescribe, an amount equal to the value, as of the month following the expiration of such time limit, shall be transferred from such fund to his or her accumulated deductions and his or her account in such fund shall thereupon be cancelled.

2. If he or she transfers his or her membership pursuant to section forty-three of the retirement and social security law or section five hundred twenty-two of the education law, an amount equal to the value of the units credited to him or her in such fund shall be transferred from such fund to his or her accumulated deductions and his or her account in such fund shall thereupon be cancelled. The value of a unit, for the purpose of this provision, shall be as of the month following his or her withdrawal or application for transfer, whichever is later.

3. If he or she re-enters service before his or her account in the variable annuity savings fund is cancelled, deposits to such account shall be resumed in accordance with the election in effect at the time of his or her withdrawal. A new account shall be established for him or her in the variable pension accumulation fund to receive deposits and transfers pursuant to subdivisions a and b of section 13-568 of this chapter.

c. If a participant in the variable annuity program withdraws from the retirement association by dismissal, he or she shall be paid from the variable annuity savings fund an amount equal to the value, as of the month following his or her withdrawal, of the units credited to him or her in such fund. An amount equal to the value of the units credited to him or her in the variable pension accumulation fund shall be transferred from such fund to the contingency reserve fund, and his or her accounts in the variable annuity savings fund and variable pension accumulation fund shall thereupon be cancelled.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-574 Variable annuity reserve fund; variable annuity.

a. A participant in the variable annuity program to whom a retirement allowance becomes payable shall, as provided in paragraph one of subdivision b of this section or in paragraph one of subdivision c of this section, as the case may be, have the choice of having the portion deriving from the units credited to him or her in the variable annuity savings fund paid in fixed or variable instalments.

b. (1) A participant who is not an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter), shall make such choice prior to the effective date of his or her retirement and if the choice is for:

(i) Fixed instalments, he or she shall be credited in the annuity reserve fund, to be applied toward the payment of an annuity, with an amount equal to the value of such units. An equal amount shall be transferred from the variable annuity savings fund to the annuity reserve fund and his or her account in the variable annuity savings fund shall thereupon be cancelled.

(ii) Variable instalments, he or she shall be credited in the variable annuity reserve fund with the same number of units credited to him or her in the variable annuity savings fund and shall be paid a variable annuity from the variable annuity reserve fund. An amount equal to the value of such units shall be transferred from the variable annuity savings fund to the variable annuity reserve fund and his or her account in the variable annuity savings fund shall thereupon be cancelled.

(2) The value of a unit, for the purpose of this subdivision b, shall be as of the effective date of the contributor's

retirement.

(3) Any such variable annuity provided for in this subdivision b shall be computed in terms of units actuarially equivalent to the units credited to the contributor in the variable annuity reserve fund.

c. (1) A participant who is an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter) may make the choice referred to in subdivision a of this section by an election filed with the retirement board prior to the date next preceding the date on which his or her retirement allowance begins in accordance with rules and regulations established by the retirement board; provided, however, that such participant may, at any time after such election is filed and before his or her retirement allowance begins, change such election by filing a superseding election with the retirement board in accordance with rules and regulations established by the retirement board.

(2) On the effective date of the retirement of a participant who is an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter), he or she shall be credited in the variable annuity reserve fund with a number of units equal to the number of units credited to him or her as of such date in the variable annuity savings fund. An amount equal to the value of such units as of such date shall be transferred from the variable annuity savings fund to the variable annuity reserve fund and his or her account in the variable annuity savings fund shall thereupon be canceled.

(3) Except as otherwise provided by paragraph four of subdivision f of section 13-581 of this chapter, if the choice of such a participant is fixed instalments, an amount equal to the value, as of the date on which is or her retirement allowance begins, of the number of units which would have been credited to him or her as of such date in the variable annuity savings fund if his or her account therein had not been canceled as provided for in paragraph two of this subdivision c, shall be transferred from the variable annuity reserve fund to the annuity reserve fund and such amount shall be applied toward the payment of an annuity.

(4) Except as otherwise provided by paragraph four of subdivision f of section 13-581 of this chapter, if the choice of such a participant is variable instalments, he or she shall be paid a variable annuity computed in terms of units actuarially equivalent, as of the date on which his or her retirement allowance begins, to the number of units which would have been credited to him or her as of such date in the variable annuity savings fund if his or her account therein had not been canceled as provided for in paragraph two of this subdivision c.

d. For the first month established by the retirement board for this purpose and for any subsequent months, any such variable annuity provided for in subdivision b or c of this section shall be paid in dollars according to the value of a unit for the month payment is due, and for any month preceding such first month the variable annuity shall be paid in dollars according to the value of a unit for the month preceding the month payment is due.

e. On the death of a contributor receiving a variable annuity, or, if he or she has elected Option II, III, or a joint and survivor form of IV, on the death of the last survivor of the contributor and the person designated to receive payments on his or her death, the account of the contributor or the joint account of the contributor and his or her designee, as the case may be, in the variable annuity reserve fund shall be cancelled.

f. If a retired contributor receiving a variable annuity is subsequently restored to active service, his or her variable annuity shall cease, his or her account in the variable annuity reserve fund shall be cancelled, an amount equal to the actuarial equivalent of the variable annuity that was payable to him or her shall be transferred from the variable annuity reserve fund to the variable annuity savings fund, and he or she shall be credited in such fund with units having a value, as of the date of re-entry into service, equal to such amount. Deposits and transfers to the variable annuity savings fund shall be resumed in accordance with the election in effect at the time of his or her retirement.

g. If a twenty-year pension plan retiree with a deferred payability date (as defined in subdivision forty of section 13-501 of this chapter) is restored to active service after the effective date of his or her retirement and before his or her

retirement allowance begins:

(1) his or her account in the variable annuity reserve fund shall be cancelled; and

(2) an amount equal to the value, as of the date of his or her restoration to active service, of the number of units in the variable annuity reserve fund shall be transferred from the variable annuity reserve fund to the variable annuity savings fund.

h. Except as provided for in section 13-581 of this chapter, a transfer pursuant to this section between variable annuity funds shall be from an A fund to an A fund or from a B fund to a B fund or within such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-575 Variable pension reserve fund; variable pension.

a. A participant in the variable annuity program to whom a retirement allowance becomes payable shall, as provided in paragraph one of subdivision b of this section or in paragraph one of subdivision c of this section, as the case may be, have the choice of having the portion deriving from the units credited to him or her in the variable pension accumulation fund paid in fixed or variable instalments.

b. (1) A participant who is not an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter), shall make such choice prior to the effective date of his or her retirement and if the choice is for:

(i) Fixed instalments, he or she shall be credited in the pension reserve fund number one, to be applied toward the payment of a pension, with an amount equal to the value of such units. An equal amount shall be transferred from the variable pension accumulation fund to the pension reserve fund number one and his or her account in the variable pension accumulation fund shall thereupon be cancelled.

(ii) Variable instalments, he or she shall be credited in the variable pension reserve fund with the same number of units credited to him or her in the variable pension accumulation fund and shall be paid a variable pension from the variable pension reserve fund. An amount equal to the value of such units shall be transferred from the variable pension accumulation fund to the variable pension reserve fund and his or her account in the variable pension accumulation fund shall thereupon be cancelled.

(2) The value of a unit, for the purpose of this subdivision b, shall be as of the effective date of the contributor's

retirement.

(3) Any such variable pension provided for in this subdivision b shall be computed in terms of units actuarially equivalent to the units credited to the contributor in the variable pension reserve fund.

c. (1) A participant who is an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter) may make the choice referred to in subdivision a of this section by an election filed with the retirement board prior to the date next preceding the date on which his or her retirement allowance begins in accordance with rules and regulations established by the retirement board; provided, however, that such participant may, at any time after such election is filed and before his or her retirement allowance begins, change such election by filing a superseding election with the retirement board in accordance with rules and regulations established by the retirement board.

(2) On the effective date of the retirement of a partcipant who is an applicant for retirement with a deferred payability date (as defined in subdivison thirty-nine of section 13-501 of this chapter), he or she shall be credited in the variable pension reserve fund with a number of units equal to the number of units credited to him or her as of such date in the variable pension accumulation fund. An amount equal to the value of such units as of such date shall be transferred from the variable pension accumulation fund to the variable pension reserve fund and his or her account in the variable pension accumulation fund shall thereupon be canceled.

(3) Except as otherwise provided by paragraph four of subdivision f of section 13-581 of this chapter, if the choice of such a participant is fixed instalments, an amount equal to the value, as of the date on which his or her retirement allowance begins, of the number of units which would have been credited to him or her as of such date in the variable pension accumulation fund if his or her account therein had not been cancelled as provided for in paragraph two of this subdivision c, shall be transferred from the variable pension reserve fund to the pension reserve fund number one and such amount shall be applied toward the payment of a pension.

(4) Except as otherwise provided by paragraph four of subdivision f of section 13-581 of this chapter, if the choice of such a participant is variable instalments, he or she shall be paid a variable pension computed in terms of units actuarially equivalent, as of the date on which his or her retirement allowance begins, to the number of units which would have been credited to him or her as of such date in the variable pension accumulation fund if his or her account therein had not been cancelled as provided for in paragraph two of this subdivision.

d. For the first month established by the retirement board for this purpose and for any subsequent months, any such variable pension provided for in subdivision b or c of this section shall be paid in dollars according to the value of a unit for the month payment is due, and for any month preceding such first month the variable pension shall be paid in dollars according to the value of a unit for the month preceding the month payment is due.

e. On the death of a contributor receiving a variable pension, or, if he or she has elected Option II, III, or a joint and survivor form of IV, on the death of the last survivor of the contributor and the person designated to receive payments upon his or her death, the account of the contributor or the joint account of the contributor and his or her designee, as the case may be, in the variable pension reserve fund shall be cancelled.

f. If a retired contributor receiving a variable pension is subsequently restored to active service, his or her variable pension shall cease, his or her account in the variable pension reserve fund shall be cancelled, an amount equal to the actuarial equivalent of the variable pension that was payable to him or her shall be transferred from the variable pension reserve fund to the variable pension accumulation fund, and he or she shall be credited in such fund with units having a value, as of the date of re-entry into service, equal to such amount. Deposits and transfers to the variable pension accumulation fund shall be resumed in accordance with the election in effect at the time of his or her retirement.

g. If a twenty-year pension plan retiree having a deferred payability date (as defined in subdivision forty of section 13-501 of this chapter) is restored to active service after the effective date of his or her retirement and before his

or her retirement allowance begins: (1) his or her account in the variable pension reserve fund shall be canceled; and

(2) an amount equal to the value, as of the date of his or her restoration to active service, of the number of units in the variable pension reserve fund shall be transferred from the variable pension reserve fund to the variable pension accumulation fund.

h. The provisions of subdivision b of section 13-553 of this chapter applicable to a pension-providing-for-increased-take-home-pay shall apply also to a variable pension.

i. Except as provided for in section 13-581 of this chapter, a transfer pursuant to this section between variable annuity funds shall be from an A fund to an A fund or from a B fund to a B fund or within such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-576 Options; variable designated beneficiary's annuity; variable joint annuity or pension.

a. An option elected pursuant to subdivision c or d of section 13-543 of this chapter with respect to the manner of payment of the accumulated deductions or death benefit shall, in the case of a participant in the variable annuity program, apply also to the units credited to him or her in the variable annuity savings fund or variable pension accumulation fund, respectively. The contributor or beneficiary electing the option shall have the choice of having the designated beneficiary's annuity deriving from such units paid in fixed or variable instalments. If the choice is for:

1. Fixed instalments, the beneficiary shall be credited in the pension reserve fund number one, to be applied toward the payment of a designated beneficiary's annuity, with the amount otherwise payable pursuant to section 13-573 of this chapter. An equal amount shall be transferred from the variable annuity fund holding the contributor's account with respect to which the election is made to the pension reserve fund number one.

2. Variable instalments, the beneficiary shall be credited in the variable pension reserve fund with units equal in value to the amount otherwise payable pursuant to section 13-573 of this chapter and shall be paid a variable designated beneficiary's annuity from such fund. If Option C is elected in a form prescribing the payment of a specified lump sum amount on the death of the beneficiary, the amount provided for by the contributor's account in the variable annuity savings fund shall be limited to the extent that the total amount elected can not be provided for by his or her accumulated deductions. The lump sum amount as herein determined shall be paid from the pension reserve fund number one, and the units credited to the beneficiary in the variable pension reserve fund shall be reduced by the number actuarially computed to be necessary to provide such amount. There shall be transferred from the variable annuity savings fund (i) to the variable pension reserve fund an amount equal to the value of the units with which the beneficiary is credited in such fund and (ii), if Option C is elected, to the pension reserve fund number one an amount

equal to the value of the units deducted from the beneficiary's account as required by such election.

The value of a unit, for the purpose of this subdivision, shall be as of the date of death of the contributor.

b. An option elected pursuant to section 13-558 of this chapter with respect to the manner of payment of an annuity, pension, or retirement allowance shall, in the case of a participant in the variable annuity program, apply also to the payment of a variable annuity, variable pension,or both, respectively. If the option elected is:

1. Option I, the balance payable on the death of the contributor shall be an amount equal to the value, as of the date of death, of the excess, if any, of the units credited to him or her in the variable annuity reserve fund or variable pension reserve fund at the time of his or her retirement over the units paid to him or her. The amount shall be paid from the variable annuity fund holding the account with respect to which the election is made.

2. Option II, III, or a joint and survivor form of IV, the account of the contributor in the variable annuity reserve fund or variable pension reserve fund shall be kept as a joint account of the contributor and his or her designee.

3. Option IV in a form prescribing the payment:

(i) of a specified lump sum amount on the death of the contributor, the amount provided for by his or her account in the variable annuity reserve fund shall be limited to the extent that the total amount elected cannot be provided for by his or her annuity reserve. The units credited to the contributor in the variable annuity reserve fund shall be reduced by the number actuarially computed to be necessary to provide the lump sum amount as herein determined. There shall be transferred from the variable annuity reserve fund to the annuity reserve fund an amount equal to the value, as of the date of the contributor's retirement, of the units deducted from his or her account as required by such election, and the amount shall be paid from the annuity reserve fund; provided, however, that in the case of a twenty-year pension plan retiree having a deferred payability date (as defined in subdivision forty of section 13-501 of this chapter), such transferred amount shall be equal to the value of such deducted units as of the date on which his or her retirement allowance begins.

(ii) of a number of units equal in value, as of the date of the contributor's retirement, to a specified lump sum and payable on the death of the contributor, the amount provided for by his or her account in the annuity reserve fund be limited to the extent that the total amount elected cannot be provided for by his or her variable annuity reserve. The amount credited to the contributor in the annuity reserve fund shall be reduced to the extent actuarially computed to be necessary to provide the number of units as herein determined and such amount shall be transferred from the annuity reserve fund to the variable annuity reserve fund, and the units shall be paid from the variable annuity reserve fund; provided, however, that in the case of a twenty-year pension plan retiree having a deferred payability date as defined in subdivision forty of section 13-501 of this chapter, such transferred amount shall be based upon the value of units at such time as his or her retirement allowance begins.

c. If the total amount payable pursuant to section 13-573 of this chapter or paragraph one or three (ii) of subdivision b of this section is at least five thousand dollars, the designated beneficiary may elect, by written notice duly filed with the retirement board within sixty days after the death of the contributor, to be paid an amount equal to twenty per cent of the total amount due, to have credited to his or her own account in the variable annuity fund from which the amount is payable units equal in value, as of the date of death, to the portion not paid, and to be paid in each of four successive annual instalments an amount equal to the then value of one-fourth of the original number of units credited. If the beneficiary dies before the expiration of the five years, an amount equal to the then value of the units in his or her account shall be paid to his or her beneficiary. Upon the payment of any amount pursuant to this subdivision, the number of units represented in such payment shall be cancelled.

d. If an election is made to have the amount payable pursuant to paragraph one or three (ii) of subdivision b of this section paid as an annuity, the contributor or beneficiary making the election shall have the choice of having the designated beneficiary's annuity deriving from such amount paid in fixed or variable instalments. If the choice is for:

1. Fixed instalments, the beneficiary shall be credited in the pension reserve fund number one, to be applied toward the payment of a designated beneficiary's annuity, with such amount. An equal amount shall be transferred from the variable annuity fund holding the contributor's account with respect to which the election is made to the pension reserve fund number one.

2. Variable instalments, the beneficiary shall be credited in the variable annuity fund from which the amount is payable with units equal in value, as of the date of death of the contributor, to such amount and shall be paid a variable designated beneficiary's annuity from such fund.

e. The variable designated beneficiary's annuity shall be computed in terms of units actuarially equivalent to the units credited to the beneficiary. For the first month established by the retirement board for this purpose and for any subsequent months, any such variable designated beneficiary's annuity shall be paid in dollars according to the value of a unit for the month payment is due, and for any month preceding such first month the variable designated beneficiary's annuity shall be paid in dollars according to the value of a unit in effect during the month preceding the month payment is due.

f. In the case of a variable designated beneficiary's annuity paid in accordance with the terms of Option B, the balance payable upon the death of the designated beneficiary shall be an amount equal to the value, as of the date of death, of the excess, if any, of the units on the basis of which the annuity was computed over the units paid to the beneficiary. The balance, if any, shall be paid from the fund from which the variable designated beneficiary's annuity is payable and the beneficiary's account in such fund shall thereupon be cancelled.

g. A participant who is an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter) may make the choice referred to in paragraph three of subdivision b of this section by an election filed with the retirement board prior to the date next preceding the date on which his or her retirement allowance begins in accordance with rules and regulations established by the retirement board; provided, however, that such participant may at any time after such election is filed and before his or her retirement allowance begins, change such election by filing a superseding election with the retirement board in accordance with rules and regulations established by the retirement board.

h. Except as provided for in section 13-581 of this chapter, a transfer pursuant to this section between variable annuity funds shall be from an A fund to an A fund or from a B fund to a B fund or within such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-577 Adjustment of variable annuity funds for mortality and investment experience, and certain other adjustments.

a. The actuary shall determine as of July first of each year the number of units represented by the actuarial equivalent of the benefits payable from each of the variable annuity reserve fund and the variable pension reserve fund, on the basis set forth in section 13-578 of this chapter. If the value of such number of units exceeds the assets of the respective fund, there shall be transferred to such fund from the contingency reserve fund an amount equal to such excess. If the value of such number of units is exceeded by the assets of the respective fund, there shall be transferred from such fund to the contingency reserve fund an amount equal to such excess.

b. As of July first of each year, the value of the number of units in the individual accounts in the variable annuity savings fund and the variable pension accumulation fund shall be compared with the value of the assets held in each of such funds. If the value of such number of units exceeds the assets of the respective fund, there shall be transferred to such fund from the contingency reserve fund an amount equal to such excess. If the value of such number of units is exceeded by the assets of the respective fund, there shall be transferred from such fund to the contingency reserve fund an amount equal to such excess.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-578 Regular interest and mortality tables for participants in variable annuity program.

a. Subject to the provisions of subdivision b of this section, for the purpose of determining the actuarial equivalent of a benefit payable under the variable annuity program to a contributor or his or her beneficiary, (i) the mortality table applied shall be the table applicable to the determination of the contributor's annuity pursuant to paragraph one of subdivison f of section 13-547 or paragraph one of subdivision d of section 13-549, or subdivision two of section 13-554 or subdivision one of section 13-557, or to the determination of the beneficiary's annuity pursuant to subdivision c of section 13-543, respectively, and (ii) the rate of interest applied, definition twenty-two of section 13-501 of this chapter notwithstanding, shall be the uniform rate of four percent.

b. The retirement board may by resolution direct that where any variable annuity program benefit (as defined in subdivision fifty-eight of section 13-501 of the code) which is an actuarial equivalent benefit (as defined in subdivision fifty of such section) is payable to any member or other beneficiary by reason of:

(1) the retirement of a member for service or superannuation or for ordinary or accident disability, where such retirement occurred on or after August first, nineteen hundred eighty-three or hereafter occurs; or

(2) discontinuance of service or termination of employment of a member, where such discontinuance or termination occurred or occurs on or after such August first under such circumstances that such member became or becomes (i) a discontinued member possessing a vested right to receive a retirement allowance pursuant to section 13-556 of the code (and, in the case of a Tier II member, article eleven of the retirement and social security law) or (ii) a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit; or

(3) the death, on or after such August first, of a member, different computations, based on different mortality tables, shall be used to determine separate portions of such benefit.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-579 Monthly payments.

A variable annuity, variable pension, or variable designated beneficiary's annuity shall be paid in monthly instalments. The instalment of the variable annuity or variable pension due for the month in which the retired contributor dies, or, if he or she has elected Option II, III, or a joint and survivor form of IV, for the month in which the last survivor of the contributor and his designee dies shall be prorated. The instalment of the variable designated beneficiary's annuity due for the month in which the beneficiary dies shall be prorated.

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-580 Miscellaneous provisions.

a. Benefits payable under the variable annuity program shall be in addition to other benefits payable pursuant to this chapter.

b. In the case of a contributor who is a participant in the variable annuity program, an election, pursuant to section 13-523 of this chapter, to leave his or her accumulated deductions with the annuity savings fund and to continue to contribute to such fund shall be deemed to be an election to continue as a participant. If all of his or her accumulated deductions have already been credited to his or her account in the variable annuity savings fund, he or she may, subject to the provisions of such section, elect to continue as a participant.

c. In applying the provisions of paragraphs two, three and four of section 13-525 of this chapter in the case of a participant in the variable annuity program, the value of any units credited to his or her account in the variable annuity savings fund shall, for the purpose of determining his or her entitlement to, and the amount of, a withdrawal, be deemed to be part of his or her accumulated deductions, and the determination of the amount of annuity, pension-providing-for-increased-take-home-pay, and retirement allowance shall be made as if he or she were not a participant.

d. The provisions of section 13-561 of this chapter shall apply in the case of benefits under the variable annuity program.

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-581 Convertible instalments.

a. (1) At the time and in the manner prescribed by subdivision e of this section:

(i) a retired member who retired on or after September first, nineteen hundred sixty-seven, and before August first, nineteen hundred sixty-eight; or

(ii) any other member; or

(iii) the designated beneficiary of a member who dies on or after June twenty-second, nineteen hundred sixty-eight; or

(iv) a retired member who retired on or after September first, nineteen hundred sixty-seven and who continues to hold retired member status on or after July first, nineteen hundred seventy-five; may elect, in accordance with this section, to convert a portion, hereinafter referred to as the "convertible amount", of his or her fixed instalments to a variable basis over a period of months, hereinafter referred to as the "conversion period".

(2) In the event such election is made, each instalment payable with respect to such convertible amount after the beginning of the conversion period shall be referred to as a "convertible instal- ment".

(3) (i) During each month of such conversion period each convertible instalment shall be the sum of a fixed portion and a variable portion.

(ii) The amount of such fixed portion payable in the first month of the conversion period shall be the convertible

amount reduced by the amount to be converted each month, which is determined by dividing the convertible amount by the number of months in the conversion period.

(iii) Subject to the provisions of subparagraphs (iv) and (v) of this paragraph three, the amount of such fixed portion payable in any such month after the first shall be the previous month's amount thereof, reduced by the amount converted each month. The amount, in units, of the variable portion in any such month will be equal to the number of units in the previous month's variable portion, if any, plus the quotient of (A) the amount of the fixed instalments converted each month and (B) the current month's unit value.

(iv) In any case where, pursuant to any provision of law and/or resolution of the retirement board adopted thereunder, the rate of regular interest and/or mortality tables, which were required to be used in the actuarial determination of such fixed benefit being converted, are different from the rate of regular interest and/or mortality tables which would have been required to be used to determine a like variable benefit as of the same date (hereinafter referred to as the "calculation date") as of which such fixed benefit was required to be determined as an actuarial equivalent, the composition of the variable portion of each convertible instalment for each month of the conversion period shall be determined in the manner prescribed in subparagraph (v) of this paragraph.

(v) The amount, in units, of the variable portion for any such conversion month to which subparagraph (iv) of this paragraph applies will be equal to the number of units in the previous month's variable portion, if any, plus a number of units which is the actuarial equivalent, as of the calculation date, of the fixed portion converted each month. Such actuarial equivalent units for each such month shall be determined on the basis of the unit value for such month, in accordance with a scientific formula which recognizes the difference in the rates of regular interest and/or mortality tables referred to in subparagraph (iv) of this paragraph.

(4) After the conversion period, the amount of each convertible instalment, in units, will be equal to the number at the end of the conversion period.

b. (1) At the time and in the manner prescribed by subdivision e of this section:

(i) a contributor; or

(ii) the designated beneficiary of a member who dies after June twenty-second, nineteen hundred sixty-eight; or

(iii) a retired member who retired on or after September first, nineteen hundred sixty-seven and who continues to hold retired member status on or after July first, nineteen hundred seventy-five; may elect, in accordance with this section, to convert a portion, hereinafter referred to as the "convertible amount", of his or her variable instalments to a fixed basis over a period of months, hereinafter referred to as the "conversion period".

(2) In the event of such election, each instalment payable with respect to such convertible amount after the beginning of the conversion period shall be referred to as a "convertible instalment".

(3) (i) During each month of such conversion period each convertible instalment shall be the sum of a variable portion and a fixed portion.

(ii) The amount in units of such variable portion payable in the first month of the conversion period shall be the number of units in the convertible amount reduced by the number of units to be converted each month, which is determined by dividing the number of units in the convertible amount by the number of months in the conversion period. The amount, in units, of such variable portion payable in any such month after the first shall be the previous month's amount thereof, reduced by the number of units converted each month.

(iii) Subject to the provisions of subparagraphs (iv) and (v) of this paragraph three, the amount of the fixed portion in any such month will be equal to the previous month's fixed portion, if any, plus the product of (A) the number

of units converted each month and (B) the current month's unit value.

(iv) in any case where, pursuant to any provision of law and/or any resolution of the retirement board adopted thereunder, the rate of regular interest and/or mortality tables, which were required to be used in the actuarial determination of such variable benefit being converted, are different from the rate of regular interest and/or mortality tables which would have been required to be used to determine a like fixed benefit as of the same date (hereinafter referred to as the "calculation date") as of which such variable benefit was required to be determined as an actuarial equivalent, the composition of the fixed portion of each convertible instalment for each month of the conversion period shall be determined in the manner prescribed in subparagraph (v) of this paragraph.

(v) The amount of the fixed portion for any such conversion month to which subparagraph (iv) of this paragraph applies will be equal to the previous month's fixed portion, if any, plus a fixed amount which is the actuarial equivalent, as of the calculation date, of the number of units converted each month. Such actuarial equivalent fixed amount for each month shall be determined on the basis of the unit value for such month, in accordance with scientific formula which recognizes the difference in the rates of regular interest and/or mortality tables referred to in subparagraph (iv) of this paragraph.

(4) After the conversion period, the dollar amount of each convertible instalment will be equal to the amount at the end of the conversion period.

c. The total dollar amount of the convertible instalment for any month shall be the fixed portion, if any, plus the product of (1) the number of units in the variable portion, if any, and (2) the unit value for the same month.

d. For each conversion made as set forth in subdivision a or b above, the actuarial equivalent value of the instalments converted shall be transferred between the appropriate reserve funds for the variable and fixed instalments.

e. (1) An election of convertible instalments shall not take effect unless written notice thereof is duly filed with the retirement board before the applicable date or within the applicable period set forth below:

(i) In the case of instalments payable to a retired member who retired on or after September first, nineteen hundred sixty-seven and before August first, nineteen hundred sixty-eight: the applicable date shall be September first, nineteen hundred sixty-eight; and

(ii) In the case of instalments payable to any other member electing to convert under subdivision a or b of this section, other than a member described in subparagraph (iii) of this paragraph one: the applicable period shall begin on the date of the filing of the application for retirement and shall end on the date next preceding the date on which the retirement allowance begins; and

(iii) In the case of an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter): the applicable period shall begin on the date of the filing of his or her application for retirement and end on the date next preceding the date on which his or her retirement allowance begins; provided, however, that any such applicant may, at any time after he or she files such notice of election and before his or her retirement allowance begins, change such election pursuant to rules and regulations established by the retirement board; and

(iv) In the case of instalments payable to the designated beneficiary of a member who dies after June twenty-second, nineteen hundred sixty-eight: the applicable date shall be that on which the first such instalment is paid; and

(v) In the case of a retired member who retired on or after September first, nineteen hundred sixty-seven, the applicable date shall be such date as determined by rules and regulations duly adopted by the retirement board.

(2) In each case the applicable conversion period shall commence on the first day of the month coinciding with or otherwise next following (i) the applicable date or (ii) the date next following the end of the applicable period.

f. (1) An election to convert a portion of fixed instalments to a variable basis made by a member or retired member pursuant to paragraph one of subdivision a of this section shall be subject to the applicable terms and conditions set forth in paragraphs two, three, and four of this subdivision f.

(2) If such member is not a participant in the variable annuity program on the date when he or she makes such election, the election shall provide that such portion as the retirement board may by duly adopted rules and regulations permit of both his or her annuity and his or her pension-providing-for-increased-take-home-pay shall be a convertible amount, to be converted to a variable basis. The convertible instalments pursuant to such election shall be paid from the A funds or the B funds, or from such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter.

(3) If such member is a participant in the variable annuity program on the date when he or she makes such election:

(i) the election, subject to the provisions of subparagraph (ii) of this paragraph three, shall provide that such portion as the retirement board may by duly adopted rules and regulations permit of the fixed instalments of both his or her annuity and his or her pension-providing-for-increased-take-home-pay shall be a convertible amount, to be converted to a variable basis; or

(ii) if a transfer of his or her accumulated deductions and of his or her reserve-for-increased-take-home-pay from a fixed basis to a variable basis pursuant to subdivision b of section 13-568 of this chapter is in process on the date when such member makes his or her election, then in lieu of electing the convertible amount specified in subparagraph (i) of this paragraph three, he or she may elect that the part of his or her fixed instalments provided by such portion of his or her accumulated deductions and of his or her reserve-for-increased-take-home-pay whose transfer has not yet been completed be a convertible amount, to be converted to a variable basis.

The convertible instalments pursuant to such election shall be paid from the A funds or the B funds, or from such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter. If he or she chooses funds other than those in which he or she is a participant, the units credited to him or her in such other funds shall be cancelled. Such member shall be credited in the corresponding funds of his or her choice with units equal in value to the value of the cancelled units and an amount equal to the value of such units shall be transferred accordingly.

(4) For the purposes of this subdivision, the election referred to herein shall be deemed to mean, in the case of an applicant for retirement with a deferred payability date (as defined in subdivision thirty-nine of section 13-501 of this chapter), the election to convert accumulated deductions previously transferred to the reserve funds pursuant to sections 13-574 and 13-575 of this chapter. Such elections shall permit transfers between the annuity reserve fund and the variable annuity reserve fund and between the pension reserve fund and the variable pension reserve fund in such a manner as prescribed by rules and regulations to be established by the retirement board. Such elections shall be during such applicable period of time as provided by subparagraph (iii) of paragraph 1 of subdivision e of this section 13-581.

g. A contributor may elect that, if a transfer of funds to a variable basis pursuant to subdivision b of section 13-568 of this chapter is in process on the date of his or her death, (1) the amount of such funds then not yet transferred should be applied to provide fixed instalments for a designated beneficiary pursuant to subdivision c of section 13-543 of this chapter, and (2) such fixed instalments be a convertible amount, to be converted to a variable basis. The convertible instalments pursuant to such election shall be paid from the A funds or the B funds, or from such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter, according to the election pursuant to subdivision b of section 13-568 of this chapter.

In the event of the death of a contributor for whom a transfer of funds to a variable basis pursuant to subdivision b of section 13-568 of this chapter was in process on the date of his or her death, and who made no election under the provisions of this subdivision, but who either elected instalments for a designated beneficiary pursuant to subdivision c of section 13-543 of this chapter, or did not prevent the election by his or her designated beneficiary of instalments pursuant to subdivision d of section 13-543 of this chapter, then such designated beneficiary may elect to receive the amount payable upon the death of the contributor paid in the same manner as if the contributor had made the election under the provisions of this section.

h. If a conversion of fixed instalments to a variable basis pursuant to subdivision f of this section is in process for a retired member on the date he or she dies, and if such member or his or her designated beneficiary has elected that the death benefit provided with respect to the instalments not yet converted be applied to provide fixed instalments for such designated beneficiary pursuant to section 13-558 of this chapter, then such member or designated beneficiary making such election may also elect that such fixed instalments provided for such designated beneficiary be a new convertible amount, to be converted to a variable basis.

i. The length of the conversion period for conversion of fixed instalments to a variable basis shall be determined pursuant to rules and regulations adopted by the retirement board.

j. If a member or a retired member or a designated beneficiary commences to receive variable instalments pursuant to subdivision a of section 13-574, subdivision a of section 13-575, item 2 of subdivision a of section 13-576, item 2 of subdivision d of section 13-576, or this section 13-581 of this chapter, the member or retired member or designated beneficiary to whom the variable instalments are payable may elect, at the time such instalments become payable, or before the applicable date or within the applicable period set forth in subdivision e of this section 13-581 of this chapter that such variable instalments be a convertible amount, to be converted to a fixed basis. The length of the conversion period for conversion of such variable instalments to a fixed basis shall be determined pursuant to rules and regulations adopted by the retirement board.

k. Any option elected pursuant to subdivision c or d of section 13-543 of this chapter or pursuant to section 13-558 of this chapter shall apply to the convertible instalments arising from the convertible amount affected by the option. If Option I or Ib has been elected pursuant to section 13-558 of this chapter, or if Option B has been elected pursuant to section 13-543 of this chapter, the death benefit applicable thereto in any month shall be the same multiple of the instalment payable in such month as would have been applicable if no convertible instalments had been elected.

l. If a member or a retired member or a designated beneficiary commences to receive variable instalments pursuant to subdivision a of section 13-574, subdivision a of section 13-575, paragraph two of subdivision a of section 13-576, paragraph two of subdivision d of section 13-576 of this chapter, or this section, the member or retired member or designated beneficiary to whom the variable instalments are payable may elect, at the time such instalments become payable, or before the applicable date or within the applicable period set forth in subdivision e of this section that such variable instalments be a convertible amount, to be converted to a variable basis, with the variable instalments payable from the funds other than those from which the converted variable instalments were payable. The length of the conversion period for such conversion shall be determined pursuant to rules and regulations adopted by the retirement board.

*NYC Administrative Code 13-582*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-582 Tax-deferred annuity program.

a. Any member for whom a salary reduction agreement is executed pursuant to section three hundred ninety-nine-A or section three thousand one hundred nine-A of the education law shall thereby become a participant in the tax-deferred annuity program. The head of each department shall adjust the salary payments of each participant in accordance with the salary reduction agreement in effect for the participant. Each of such amounts so deducted shall be paid to the retirement system. Such agreement and any change in such agreement shall become effective on the first effective date which follows the filing of such agreement or change by at least thirty days. Effective dates shall be February first, nineteen hundred seventy, and such subsequent dates as may be determined by the retirement board for each calendar year. However, the participant may terminate the agreement as of the first day of any calendar month which commences at least thirty days after appropriate written notice thereof has been filed.

b. A portion of each such payment may be withheld by the retirement board to provide for the additional expenses that are attributable to the tax-deferred annuity program and shall be transferred to the expense fund. The remainder shall be referred to in this section as the participant's tax-deferred annuity net contributions. The portion to be withheld shall be determined in advance in accordance with rules established by the retirement board.

c. A participant in the tax-deferred annuity program, by written notice duly filed with the retirement board, shall elect whether all, none or such portion as the retirement board by duly adopted rules and regulations may permit of such net contributions is to be currently deposited in the variable annuity savings fund and credited to a separate tax-deferred account maintained for him or her in such fund. The balance, if any, of such net contributions shall be currently deposited in the annuity savings fund and credited to a separate tax-deferred account maintained for him or her in such fund. The tax-deferred account established pursuant to this paragraph shall be maintained in the A fund and/or the B

fund or in such additional variable annuity fund or funds which may be established pursuant to subdivision c of section 13-567 of this chapter as elected by the participant.

d. Interest shall be allowed on the participant's tax-deferred account in the annuity savings fund at the same rate and in accordance with the same rules and procedures applicable to any account in the annuity savings fund, as provided in this chapter.

e. Any deposit or transfer to the variable annuity savings fund pursuant to subdivision c above shall be converted at once into units having a total value equal to such deposit or transfer. The number of units in a participant's tax-deferred account in such fund shall be increased each month in the same manner as any account in the variable annuity savings fund would be increased, as set forth in subdivision g of section 13-570, and the value of a unit shall be determined as set forth in subdivision h thereof.

f. Sections 13-501, 13-503, 13-506, 13-511, 13-512, 13-513, 13-514, 13-520, 13-521, 13-522, 13-523, 13-527, 13-533, 13-535, 13-537, 13-541, 13-542, 13-543, 13-545, 13-550, 13-553, 13-554, 13-556, 13-557, 13-558, 13-560, 13-561, 13-562, 13-563, 13-565, 13-567, 13-569, 13-572, 13-573, 13-574, 13-576, 13-577, 13-578, 13-579, 13-580 and 13-581 of this title, and subdivisions f, h and i of section 13-638.2 of this title (to the extent that such subdivisions apply to this retirement system), as such sections and subdivisions apply to the contributions made by a contributor and the benefits provided thereby, shall apply separately and independently to the tax-deferred annuity net contributions and the benefits provided thereby, except as otherwise specified in this section. Sections 13-534, 13-536 and 13-570, as they apply to the contributions made by a contributor and the benefits provided thereby, shall apply to the tax-deferred annuity net contributions and the benefits provided thereby, except as otherwise specified in this section.

g. 1. If the full amount of the participant's accounts in the annuity savings fund and the variable annuity savings fund, other than the tax-deferred accounts, are paid to him or her pursuant to the provisions of section 13-541, subdivision g of section 13-556 or 13-572, then the full amount of the corresponding tax-deferred accounts must also be paid to him or her. Notwithstanding any other provision of this chapter, any rules or regulations adopted by the retirement board, or any provisions of law to the contrary, a participant in the tax-deferred annuity program who retires pursuant to the provisions of section 13-545, 13-547, 13-550, or 13-551, or who meets all the requirements for vested retirement rights pursuant to section 13-556, may elect, at such time and in such manner as determined by the retirement board, to defer the commencement of the distribution of his or her tax-deferred account to the latest date permitted for the deferral of tax-deferred annuities by the provisions of section 403(b) of the Internal Revenue Code. Should such an election be made, the provisions of section 13-522 would not be applicable as of the participant's retirement date, but would become applicable as of such later date. If, upon making such application, the participant elects that his or her tax-deferred account be distributed under option IV, pursuant to section 13-545, 13-547, 13-550, 13-551, or 13-556 and section 13-558, the maximum period over which the funds held in such account may be distributed shall not exceed the maximum period permitted by the provisions of section 403(b) of the Internal Revenue Code.

2. Notwithstanding any other provision of this chapter, any rules or regulations adopted by the retirement board, or any other provisions of law to the contrary, the beneficiary of a deceased participant in the tax-deferred annuity program who had not, prior to his or her death, selected an option governing the manner in which his or her tax-deferred account would be payable to his or her beneficiary, may, subject to paragraphs three, four, and five of this subdivision, elect, at such time and in such manner as determined by the retirement board, to defer the distribution to him or her from the participant's tax-deferred account to the extent permitted by, and in a manner consistent with, the provisions of section 403(b) of the Internal Revenue Code and the regulations promulgated pursuant to such section.

3. Notwithstanding any other provision of this chapter, any rules or regulations adopted by the retirement board, or any other provisions of law to the contrary, a beneficiary's election pursuant to paragraph two of this subdivision shall be in lieu of any options or elections for the distribution to such beneficiary of the deceased participant's tax-deferred account provided in any other provisions of this chapter or of the retirement and social security law.

4. An election pursuant to paragraph two of this subdivision shall be made within six months of the date of death of the participant.

5. If a beneficiary of a deceased participant elects the deferral provided for in paragraph two of this subdivision, the funds held in the tax-deferred account for such beneficiary may be held only in the variable annuity funds provided pursuant to section 13-567.

h. The tax-deferred annuity net contributions shall not be included in determining the amount, if any, that may be withdrawn pursuant to paragraph three of section 13-525.

i. Subject to the following provisions and to such additional terms and conditions and rules and regulations as the retirement board may adopt to accomplish the purpose of the tax-deferred annuity program, a participant may withdraw all or part of his accumulations in the annuity savings fund and variable annuity savings fund arising from tax-deferred annuity net contributions.

1. The amount of any such withdrawal from the variable annuity savings fund shall be based on the value of a unit for the month following the date written request for such withdrawal is filed with the retirement board.

2. If a transfer of the member's tax-deferred accounts has not yet been completed on the date of a partial withdrawal pursuant to this subdivision, then subsequent monthly transfers shall be continued in the same number of dollars or units, as the case may be, until the transfer requested has been completed. In case of a partial withdrawal, the member's tax-deferred account in the annuity savings fund shall be exhausted first before any portion of his or her tax-deferred account in the variable annuity savings fund is so used. Furthermore, if only a portion of the member's tax-deferred account in the annuity savings fund is being transferred, the portion not being transferred shall be exhausted first before the transferable portion is used.

3. The exemption from state and municipal tax provided in section 13-561 for return of contributions shall not apply to withdrawal of tax-deferred annuity net contributions.

j. Nothing contained in this section shall be construed to diminish or impair any benefits to which a member or his legal representatives would be otherwise entitled had such member not participated in the tax-deferred annuity program in accordance with the provisions of this section.

k. 1. As used in this subdivision, the following terms shall have the following meanings, unless a different meaning is plainly required by the context:

(i) "Annuity savings fund". The annuity savings fund under the tax-deferred annuity program.

(ii) "Annuity reserve fund". The annuity reserve fund under the tax-deferred annuity program.

(iii) "Variable annuity reserve fund". The variable annuity reserve fund under the tax-deferred annuity program.

(iv) "Interest allowance". (A) In the case of the annuity savings fund, such term shall mean the amount of interest required by subdivision d of this section to be credited to such fund with respect to any fiscal year.

(B) In the case of the annuity reserve fund, such term shall mean the amount of interest required by section 13-535 of this title (incorporated by reference by subdivision f of this section) and subdivision i of section 13-638.2 thereof to be credited to such fund with respect to any fiscal year.

(v) "Surplus investment income". The amount, if any, by which the total of all income, interest and dividends derived in any fiscal year by reason of deposits and investments of the assets of the annuity savings fund or the assets of the annuity reserve fund exceeds the amount of the interest allowance required to be credited to such fund in such fiscal year.

2. (i) On the basis of the latest mortality and other tables herein authorized and the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this title), the actuary shall determine as of June thirtieth, nineteen hundred ninety-one and each succeeding June thirtieth the liabilities of the annuity reserve fund for benefits.

(ii) If the amount of such liabilities exceeds the assets of such fund, an amount equal to such excess shall be transferred to the annuity reserve fund from the contingent reserve fund of the retirement system.

(iii) If such assets exceed the amount of such liabilities, an amount equal to such excess shall be transferred from the annuity reserve fund to the contingent reserve fund of the retirement system.

3. Any such transfer required to be made on the basis of the actuary's determination of liabilities made as of any such June thirtieth pursuant to paragraph two of this subdivision shall be recognized in the determination of the normal contribution payable to the contingent reserve fund of the retirement system pursuant to section 13-527 of this title with respect to the fiscal year next succeeding such June thirtieth.

4. Any transfer required by subdivision f of this section and subdivision a of section 13-577 of this title to be made to or from the contingent reserve fund of the retirement system pursuant to a determination of the actuary made as of July first, nineteen hundred ninety-one of any subsequent July first shall be recognized in the determination of the normal contribution payable to the contingent reserve fund of the retirement system pursuant to section 13-527 of this title with respect to the fiscal year commencing on such July first.

5. (i) There shall be determined, as of June thirtieth, nineteen hundred ninety-one, the total amount of surplus investment income accumulated and on hand on such June thirtieth. Such amount shall be transferred to the contingent reserve fund of the retirement system.

(ii) There shall be determined as of June thirtieth, nineteen hundred ninety-two, and as of each succeeding June thirtieth, whether surplus investment income was produced in the fiscal year ending on such June thirtieth. Any such surplus on hand as of any such June thirtieth shall be transferred to the contingent reserve fund of the retirement system.

(iii) Except as provided for in subparagraph (iv) of this paragraph any transfer required to be made on the basis of a determination made as of any June thirtieth mentioned in subparagraph (i) or subparagraph (ii) of this paragraph shall be recognized in the determination of the normal contribution payable to the contingent reserve fund of the retirement system pursuant to section 13-527 of this title with respect to the fiscal year next succeeding the June thirtieth as of which the surplus to be transferred was determined.

(iv) Notwithstanding any other provision of law to the contrary, the amount of the normal contribution which would otherwise be payable with respect to the nineteen hundred ninety-six-nineteen hundred ninety-seven fiscal year to the contingent reserve fund of the retirement system pursuant to section 13-527 of this title shall be reduced by a credit equal to the amount of the surplus investment income produced in the fiscal year ending on June thirtieth, nineteen hundred ninety-six.

6. Notwithstanding any other provision of law to the contrary, the amount of the normal contribution which would otherwise be payable, with respect to the nineteen hundred ninety-one-nineteen hundred ninety-two fiscal year, to the contingent reserve fund of the retirement system pursuant to section 13-527 of this title and the provisions of the preceding paragraphs of this subdivision shall be reduced by a credit equal to the amount obtained:

(i) by adding together:

(A) the excess required to be transferred, with respect to such fiscal year, from the annuity reserve fund to the contingent reserve fund under the provisions of subparagraph (iii) of paragraph two of this subdivision; and

(B) the surplus investment income required by subparagraph (i) of paragraph five of this subdivision to be transferred to the contingent reserve fund; and

(ii) by subtracting from such sum computed pursuant to subparagraph (i) of this paragraph the amount required by subdivision f of this section and section 13-577 of this title to be transferred, with respect to such fiscal year, from the contingent reserve fund to the variable annuity reserve fund.

l.*20 1. Notwithstanding any other provision of law to the contrary, in the event that a person becomes entitled to a distribution from the tax-deferred annuity program which constitutes an "eligible rollover distribution" within the meaning of paragraph thirty-one of subsection a of section four hundred one of the internal revenue code (as such section is made applicable to the tax-deferred annuity program by paragraph ten of subsection b of section four hundred three of the internal revenue code), such person may elect, subject to any rules and regulations adopted pursuant to paragraph three of this subdivision, to have such distribution, or a portion thereof, paid directly to an "eligible retirement plan" within the meaning of paragraph thirty-one of subsection a of section four hundred one of the internal revenue code.

2. Nothing contained in this section or in section 13-561 of this chapter shall be construed to prohibit a participant in the tax-deferred annuity program from electing to transfer all or a portion of his or her tax-deferred annuity net contributions to another annuity contract described in subsection b of section four hundred three of the internal revenue code where a nontaxable trustee-to-trustee transfer of tax-deferred annuities is permitted by subsection b of section four hundred three of such code or the applicable rules and regulations or rulings promulgated thereunder.

3. The retirement board is authorized to adopt such rules and regulations as it finds to be necessary in administering the provisions of this section, provided that they are not inconsistent with the applicable provisions of the internal revenue code and the rules and regulations thereunder.

l.* Pursuant to section 13-513 of this chapter, the retirement board may establish rules and regulations applicable to similarly situated contributors and/or all beneficiaries with respect to the tax-deferred annuity program including, without limitation, rules and regulations governing:

1. Changes and revocations of elections made pursuant to subdivisions a and c of this section;

2. Loans from monies accumulated in the tax-deferred annuity program;

3. Monies withheld from participants' payments in the tax-deferred annuity program relating to expenses incurred by the retirement board attributable to the tax-deferred annuity program pursuant to subdivision b of this section;

4. Deposits to the tax-deferred annuity program of monies attributable to a contributor who has transferred from the board of education retirement system;

5. Transfers of monies between the variable annuity savings fund tax-deferred account and the annuity savings fund tax-deferred account;

6. Transfers of accumulated contributions among the tax-deferred investment accounts which the retirement board may establish; 7. Withdrawls of all or part of contributors' accumulations in the annuity savings fund and variable annuity savings funds arising from tax-deferred annuity net contributions.

m. In promulgating and administering rules and regulations pursuant to paragraph 1 of this section, the retirement board shall take no action that would render the tax-deferred annuity program in violation of Section 403(b) of the Internal Revenue Code of 1986.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 4 TEACHERS' RETIREMENT SYSTEM

§ 13-583 Excess benefit plan.

a. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(1) "Retirement benefits" shall mean benefits payable to a beneficiary by the retirement system which are subject to the limitations imposed by section 415(b) of the Internal Revenue Code.

(2) "Beneficiary" shall mean a person who is receiving retirement benefits from the retirement system.

(3) "Excess benefit plan" shall mean the excess benefit plan established by this section for the sole purpose of paying benefits as permitted under section 415(m) of the Internal Revenue Code.

(4) "Eligible participant" shall mean a beneficiary who is entitled to replacement benefits from the excess benefit plan for a plan year in accordance with subdivisions d and e of this section.

(5) "Replacement benefits" shall mean the benefits payable by the excess benefit plan to an eligible participant as determined pursuant to subdivision e of this section.

(6) "Internal Revenue Code" shall mean the Federal Internal Revenue Code of 1986, as amended.

(7) "Plan year" shall mean the limitation year of the retirement system as provided in section six hundred twenty of the retirement and social security law.

b. There is hereby established an excess benefit plan, the sole purpose of which shall be to provide replacement benefits, as permitted by section 415(m) of the Internal Revenue Code, to beneficiaries whose annual retirement benefits have been reduced because such benefits exceed the limitations imposed by section 415(b) of the Internal Revenue Code. The excess benefit plan shall be administered by the retirement board.

c. There is hereby established a fund to be known as the excess benefit fund which shall be maintained for the sole purpose of providing replacement benefits to eligible participants in the excess benefit plan established by this section, as permitted under section 415(m) of the Internal Revenue Code. Such fund shall consist of such employer contributions as shall be made thereto pursuant to subdivision f of this section. Such contributions to the excess benefit fund shall be held separate and apart from the assets held by the other funds of the retirement system, provided, however, that the assets of the excess benefit fund may be invested with the other retirement system assets, but such excess benefit fund assets shall be accounted for separately from the other retirement system assets.

d. All beneficiaries of the retirement system whose retirement benefits for a plan year are being reduced because of section 415(b) of the Internal Revenue Code shall be eligible participants in the excess benefit plan for that plan year. Participation in the excess benefit plan shall be determined for each plan year. No beneficiary of the retirement system shall be an eligible participant in the excess benefit plan for any plan year for which his or her retirement benefits are not reduced because of section 415(b) of the Internal Revenue Code.

e. (1) For each plan year in which a beneficiary is an eligible participant in the excess benefit plan, such eligible participant shall receive replacement benefits from the excess benefit plan equal to the difference between the full amount of the retirement benefits otherwise payable to the eligible participant for that plan year prior to any reduction because of section 415(b) of the Internal Revenue Code, and the retirement benefits payable to the eligible participant for that plan year as reduced because of section 415(b) of the Internal Revenue Code. No replacement benefits for any plan year shall be paid pursuant to this subdivision to any beneficiary who is not receiving retirement benefits from the retirement system for that plan year.

(2) Replacement benefits pursuant to this section shall be paid at the same time and in the same manner as the retirement benefits which are being replaced. At no time shall an eligible participant be permitted directly or indirectly to defer compensation under the excess benefit plan.

f. (1) The required employer contributions to the excess benefit fund for each plan year shall be an amount, as determined by the actuary, which is necessary to pay the total amount of replacement benefits that are payable pursuant to this section to eligible participants for that plan year.

(2) Such required employer contributions shall be paid into the excess benefit fund from an allocation of the employer contribution amounts paid by the city and other public employers pursuant to sections 13-527 and 13-528 of this chapter and other applicable provisions of law. Such allocation of employer contribution amounts shall be paid into the excess benefit fund at such times and in such amounts as determined by the actuary.

(3) The benefit liabilities of the excess benefit plan shall be funded on a plan year to plan year basis, provided, however, any employer contributions to the excess benefit fund, including any investment earnings on such contributions, which are not used to pay replacement benefits for the current plan year shall be used to pay replacement benefits for future plan years.

g. The right of an eligible participant to receive replacement benefits pursuant to this section, and the replacement benefits received pursuant to this section, shall be exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment or any other process whatsoever, and shall be unassignable, except as otherwise specifically provided for benefits payable by the retirement system.

**HISTORICAL NOTE**

Section added chap 623/2004 § 4, eff. Oct. 19, 2004 and deemed to have been in full force and effect on and after July 1, 2000. [See § 13-196 Note 1]

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 1 RELIEF AND PENSION FUND OF THE DEPARTMENT OF STREET CLEANING

§ 13-603 Composition of fund.

The relief and pension fund of the department of street cleaning shall consist of the following:

1. The capital, interest, income, dividends, cash, deposits, securities and credits in such fund on the first day of January, nineteen hundred thirty-eight.

2. A sum of money equal to, but no greater than, three per cent of the weekly or monthly pay, salary or compensation of each member, which sum shall be deducted, weekly or monthly, as the case may be, by the comptroller from the pay, salary or compensation, of each and every member, and such comptroller is hereby authorized, empowered and directed to deduct such sum of money, and to pay the same monthly to the treasurer and trustee of the relief and pension fund of the department of street cleaning.

3. All money, pay, compensation or salary, or any part thereof, forfeited, deducted or withheld from any member on account of fines, suspensions or absence for any cause, loss of time, sickness or other disability, physical or mental, to be paid monthly by the comptroller to the treasurer and trustee of such fund, except in the case of a sweeper, driver, or other employee who may have been sick or absent for any cause, and whose position has been filled by an extra sweeper, driver, or other temporary employee, to whom compensation has been paid.

4. All moneys received for the privilege of scow trimming or assorting of refuse at the various dumps in the city,

or at any other place where refuse may be disposed of.

5. All moneys received from the sale of steam or house ashes, garbage and refuse, collected by the department of sanitation, and any moneys that may be received for the disposal of such steam or house ashes, garbage or refuse.

6. So much of the proceeds of sales of unharnessed trucks, carts, wagons and vehicles of any description, and of all boxes, barrels, bales or other merchandise, or other movable property, found in any public street or place and removed therefrom by the commissioner of sanitation under any provision of law authorizing such commissioner to remove and to sell such incumbrances, as exceeds the necessary expense of the sales of such condemned property or unredeemed incumbrances and which is not, under such provision of the law, paid to the lawful owner or owners of such incumbrances sold, and all moneys collected for the release of merchandise, unharnessed vehicles or movable property so removed.

7. All gifts or bequests which may be made to such fund or the commissioner of sanitation as treasurer and trustee of such fund. Such commissioner is hereby authorized and empowered to take and hold such gifts or bequests for the use of such fund.

8. In case the amount derived from the different sources included in this section shall not be sufficient at any time to enable the trustee of the fund to pay in full the pensions which have been or which may hereafter be granted, it shall be the duty of the commissioner of sanitation each year at the time of making up the departmental estimate, to prepare a full and detailed statement of the assets of such fund and the amount which is required to pay in full all such pensions, and to present the same to the director of the budget, together with a statement of the amount of money required to enable such treasurer and trustee to pay such pensions in full. There shall be included annually in the budget a sum sufficient to provide for such deficiency. The comptroller shall pay over the money so provided to the trustee of the relief and pension fund.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Deceased employee of Department of Sanitation was never the owner of the money that was deducted from his salary pursuant to Greater New York Charter § 549, subd. 1, for purpose of creating pension fund, and hence amounts so deducted could not be recovered by his widow where he was separated from the service prior to death.-Solow v. Carey, 163 Misc. 924, 297 N.Y.S. 530 [1937], aff'd without opinion, 257 App. Div. 929, 12 N.Y.S. 2d 1002 [1938].

¶ 2. Petitioners, who were "extra" employees of the Department of Street Cleaning, **held** entitled to be transferred from the New York City Employees' Retirement System to the Department of Street Cleaning Relief and Pension Fund. Petitioners were in the service of the Department and were members of its Relief and Pension Fund from time of their respective appointments as extra street sweepers or drivers. They could not be deemed to have waived their rights to membership in the old Pension Fund when they joined the Retirement System, in view of fact that both they and the

City were unaware that they had any rights in the old fund. In any event, under Admin. Code § B3-1.0, subd. 3-a, the Retirement Fund was made inapplicable to the petitioners.-Barbarita v. Bd. of Estimate, 83 N.Y.S. 2d 854 [1948], aff'd 276 App. Div. 751, 92 N.Y.S. 2d 608 [1949], aff'd 301 N.Y. 529, 93 N.E. 2d 479 [1950].

¶ 3. Petitioners who prior to December 1, 1929, were members of the New York City Employees' Retirement System and had never been members of the Relief and Pension Fund of the Department of Street Cleaning, **held** not entitled to be transferred from the Retirement System to the Pension Fund of the Department of Street Cleaning pursuant to Local Law No. 13 of 1929. That the duties they performed and the titles they held in the Bureaus of Street Cleaning of the Borough President's offices in Queens and Richmond were the same as those of employees of the old Department of Street Cleaning, was immaterial, where they were never in fact employed by the Department of Street Cleaning.-Welsing v. Board of Estimate, 109 N.Y.S. 2d 417 [1951].

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 1 RELIEF AND PENSION FUND OF THE DEPARTMENT OF STREET CLEANING

§ 13-610 Payment of pensions; disability; death.

a. The commissioner of sanitation shall have power in his or her discretion, as hereinafter provided, to retire and dismiss any member from service in his or her department. The commissioner shall grant relief or a pension to such member so retired and dismissed, and to the spouses and orphans of members who may be entitled to receive such relief or pension, to be paid from such fund, in monthly installments, as follows:

1. To any such member who, at any time, while in the actual performance of duty, and without fault or misconduct on the part of such member, has become permanently disabled, physically or mentally, so as to be unfit to perform the duties required of such member, provided that such unfitness for duty has been certified to by a majority of the medical examiners of such department, the sum of fifty dollars per month.

2. To the spouse of any member who has been killed while in the actual performance of his or her duty, or has died from the effects of any injury received while in the actual performance of such duty, the sum of six hundred dollars per annum; and to the spouse of any member who has died and who has been ten years in the service in such department or in the former department of street cleaning, or both such departments, at the time of his or her death, or who, after having been retired on a pension, as hereinafter provided, if there shall be no child or children of such member under eighteen years of age, the sum of six hundred dollars per annum, in the discretion of such treasurer and trustee. If there be such child or children of such member under the age aforesaid, then such sum may be divided between such spouse, child or children in such proportion and in such manner as such treasurer and trustee may direct. The right of such

spouse to such pension shall cease and terminate at his or her death or remarriage; or if he or she shall have been guilty of conduct which in the opinion of such treasurer and trustee renders payment inexpedient.

3. To any child or children under eighteen years of age of such member so killed or dying, or dying after retirement leaving no spouse, or if a spouse, then after her death or remarriage or loss of pension due to conduct aforesaid, the sum of six hundred dollars per annum to be paid as such treasurer and trustee shall direct until such child or children shall have attained the age of eighteen years or shall have married.

4. To the dependent parent or parents of any such member who has died and dying leaves no spouse surviving him or her or child under the age of eighteen years the sum of six hundred dollars per annum, for their support, divided between them to or either one as such treasurer and trustee may direct, to cease as to the one dying upon his or her death or after the death of one to be continued to the other in such sum as the treasurer and trustee may direct, to cease as to either upon remarriage.

b. Notwithstanding the provisions of this section or any other provision of law, a person who is a spouse, minor child or dependent parent of any member who shall die or retire after the effective date of this subdivision as hereby enacted, and who, as a result of the death of such member or retired member, receives a pension pursuant to paragraph two, three or four of subdivision a of this section, shall receive in addition to such pension, a supplemental pension payment to be known as a supplemental pension, payable annually in monthly installments in an amount which, together with the pension received by such spouse, minor child or dependent parent pursuant to paragraph two, three or four of subdivision a of this section, shall equal but not exceed ninety-eight dollars and thirty-three cents per month, provided, however, that the amount of such supplemental pension shall not exceed forty-eight dollars and thirty-three cents per month. Such supplemental pension payment, however, shall not extend beyond December thirty-first, nineteen hundred sixty-five. If more than one such person shall receive pensions pursuant to paragraph two, three or four of subdivision a of this section on or after the date of death of such member or retired member as a result of being a spouse, minor child or dependent parent of the same deceased member or deceased retired member, they shall collectively be deemed to be one person receiving one pension within the meaning of this subdivision and a supplemental pension granted to such persons collectively under this subdivision shall be divided among such persons in the same proportion as the pensions received by them and shall be subject to termination upon the same terms and conditions as govern the termination of such pensions.

(designated sub a)

Sub b added chap 972/1964 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. In determining whether deceased had rendered the requisite ten years of service in the uniformed force of the Department of Street Cleaning so as to entitle his widow to the pension benefits prescribed for widows by Greater New

York Charter § 552, period spent by deceased as an "extra" sweeper was to be included as a part of the ten-year period, since "extra" sweepers appointed pursuant to § 536 are members of the uniformed force and deceased became a member of the Pension Fund by mandate of the statute when service began as a member of the uniformed force. Comptroller's failure to perform his statutory duty of making deductions from deceased's salary for the Pension Fund during his period as an "extra" sweeper would not defeat the widow's right to a pension.-Verdecanna v. Carey, 285 N.Y. 130, 33 N.E. 2d 58 [1941], rev'g 260 App. Div. 844, 23 N.Y.S. 2d 205, [1940] which had aff'd 170 Misc. 236, 9 N.Y.S. 2d 38 [1939].

¶ 2. Discretionary power of chairman of the Sanitary Commission under old Charter § 552 to retire or dismiss members of Pension Fund of Department of Street Cleaning, is limited to a decision to retire or dismiss, and where the chairman had exercised his discretion and dismissed an employee of the Department, such employee was entitled to a pension or relief if he came within provision of § 552 granting a pension to a member who became disabled "while in the actual performance of duty".-Cosgrove v. Carey, 253 App. Div. 613, 3 N.Y.S. 2d 500 [1938], rev'd 278 N.Y. 350, 16 N.E. 2d 361 [1938] on ground evidence was that petitioner's disabilities bore no relationship to any injuries sustained in line of duty.

¶ 3. Employee of Department of Sanitation who had grown old in the service and was found to be incapacitated as result of the usual degenerative changes of old age, **held** entitled to the retirement pension of $50 per month provided for by old Charter § 552, since reference in § 552 to permanent disability sustained "while in the actual performance of duty" was not limited to "service incurred disability".-Id.

¶ 4. In the exercise of his discretion, the Commissioner of Sanitation as treasurer and trustee of the Relief and Pension Fund of the Department of Street Cleaning had the right to fix the commencement date of a pension awarded a widow of a deceased Street Cleaning Department employee at a time subsequent to the date of death. In the immediate case the starting of the pension on July 1, 1941 instead of May 14, 1939, when the employee died, was not unreasonable, where formal application for a pension was not made until June, 1941, and the widow had received relief from the Board of Child Welfare between November, 1939 and July, 1941, and had also received assistance from the Welfare Honor Relief Fund of the Sanitation Department (Admin. Code §§ G41-1.0 to G41-10.0).-Andreozzi v. Carey, 262 App. Div. 485, 30 N.Y.S. 2d 528 [1941], aff'd without opinion, 287 N.Y. 827, 41 N.E. 2d 99 [1942].

¶ 5. Where petitioner's deceased husband, who was employed in the Street Cleaning Department, had died in 1925 but petitioner had not made application to the Commissioner of Sanitation for a pension pursuant to Admin. Code § 941-7.0 until 1942, and upon such application the Commissioner in his discretion granted the widow a pension of $600 per year beginning on the date of the application, refusal of the Commissioner to grant her further application for an accrued pension from the date of her husband's death to 1942 would not be disturbed by the Court, as the granting of a pension was a matter of discretion for the Commissioner, and he was not shown to have acted arbitrarily.-Siragusa v. Carey, 112 (54) N.Y.L.J. (9-2-44) 411, Col. 3 F, aff'd 269 App. Div. 817 [1945].

¶ 6. If the refusal of the trustee of the Relief Pension Fund of the Department of Street Cleaning to grant petitioner a widow's pension was based on a policy of the Department not to award a pension to the widow of a deceased employee who at the time of his marriage was retired from active service, and on a pension, such refusal would be arbitrary and illegal, as there was nothing in § 552 of the old Greater New York Charter, which controlled, which imposed such condition. If any other impediment existed, respondent failed to disclose it. Merely to assert that he had exercised a "lawful" discretion was a legal conclusion. Nothing in the law conferred upon respondent an uncontrolled discretion.-Calzaretta v. Mulrain, 131 N.Y.S. 2d 76 [1954], adhered to on reargument in 132 N.Y.S. 2d 704 [1954].

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 1 RELIEF AND PENSION FUND OF THE DEPARTMENT OF STREET CLEANING

§ 13-611 Retirement for service.

Any member who has performed duty for a period of ten years or upwards shall be relieved and dismissed from such force upon his or her own application, or by order of the commissioner, upon an examination by the medical examiners of such department, to be made at any time when so applied for or when so ordered, if a majority of such medical examiners certify that such member is permanently disabled, physically or mentally, so as to be unfit for duty. Such member so relieved and dismissed from such force shall be paid from such fund in monthly installments during his or her lifetime a sum not less than one-half of the annual salary or compensation of such member when so retired. A member who has performed duty on such force for a period of twenty-five years or upwards, whether continuous or rendered during different periods, upon the application of such member in writing, setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be relieved and dimissed from such force and service and shall be paid from such fund in monthly installments during his or her lifetime a sum not less than one-half of the annual salary or compensation of such member when so retired, provided that at the time so specified for his or her retirement, his or her term or tenure of office or employment shall not have terminated or been forfeited, and provided further that upon his or her request in writing the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective. No member shall be retired or granted a pension while there are charges of official misconduct pending against him or her. Pensions granted under this section shall be for the life of the pensioner, and shall not be revoked, repealed or diminished.

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 1 RELIEF AND PENSION FUND OF THE DEPARTMENT OF STREET CLEANING

§ 13-614 Termination of membership; transfer to New York city employees' retirement system.

a. Notwithstanding any other provision of law, any officer or employee of the department of sanitation who is a member of or entitled to membership in the relief and pension fund, and who, prior to the eighteenth day of May, nineteen hundred fifty, executed and filed an application for membership in the New York city employees' retirement system and made contributions to such retirement system in the same manner as a member thereof, may, prior to the first day of January, nineteen hundred fifty-two, elect to become a member of the New York city employees' retirement system by complying with the following conditions:

1. He or she shall file with the secretary of such retirement system a duly executed and acknowledged instrument of election renouncing all rights in the relief and pension fund, and

2. If the accumulated deductions of such officer or employee in such retirement system have been withdrawn or refunded, he or she shall pay into such retirement system the amount thereof, together with further interest thereon at an unchanged rate from the time of withdrawal or refund, and

3. If such officer or employee cease making contributions to such retirement system by reason of being entered on the rolls of the relief and pension fund as a member thereof, he or she shall pay into the New York city employees' retirement system the amount of accumulated deductions, computed to the time of payment, which would have been produced during such period of non-contribution by the contributions which would have been payable during such

period if such officer or employee had been then a member of such retirement system.

b. Upon compliance by any such officer or employee with the conditions specified in subdivision a of this section, all rights in the relief and pension fund of such officer or employee shall terminate, and he or she shall become a member of the New York city employees' retirement system. The membership of such officer or employee in such system shall be deemed to have originally begun on the date when it would have begun (as determined by the commencement of the period with respect to which such officer or employee made contributions to such retirement system) if such officer or employee had been eligible for membership in such retirement system at the time of his or her original appointment to the department of street cleaning; provided that any such officer or employee shall be credited as a member of such retirement system with all periods of service which would have been credited to such officer or employee (including service credit purchased) if his or her membership in such retirement system had actually begun on the date when it is deemed to have begun as above provided. For the purpose of this section, the term "service" shall mean service (1) for which such officer or employee was paid and (2) with respect to which equivalent accumulated deductions (i) are on deposit in such retirement system to the credit of such officer or employee at the time of the enactment of this section, or (ii) are paid into such retirement system by such officer or employee pursuant to the provisions of paragraphs two and three of subdivision a of this section.

c. Any sum in the relief and pension fund representing contributions thereto by any such officer or employee making such election, together with interest thereon, if such interest was theretofore paid into such fund by or for the account of any such officer or employee, shall be transferred to the New York city employees' retirement system and shall be credited toward any payments required to be made by him or her under the provisions of paragraphs two and three of subdivision a of this section.

d. No such officer or employee making such election shall acquire any greater rights in such retirement system than he or she would possess if he or she had actually become a member thereof at the time when his or her membership is deemed to have commenced under the provisions of subdivision b of this section.

e. The privilege of electing to become a member of the New York city employees' retirement system conferred by this section shall apply only to living persons who qualify for the exercise of such privilege under this section.

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 2 HUNTER COLLEGE RETIREMENT SYSTEM OF THE CITY OF NEW YORK

§ 13-615 Merger of system with teachers' retirement system and provisions relative thereto.

Notwithstanding anything to the contrary in this code, on the first day of July nineteen hundred thirty-eight, the administration of the funds of the Hunter college retirement system as provided for in this code shall be transferred to the teachers' retirement board of the teachers' retirement system of the city of New York as provided for in chapter four of this title, and all cash and securities, and other assets held by the Hunter college retirement system shall be transferred and merged with the assets held by the teachers' retirement system of the city of New York, the reserves in the annuity savings fund, the annuity reserve fund, the contingent reserve fund, the pension reserve fund number one, and the pension reserve fund number two being credited to the corresponding funds of the same name of the teachers' retirement system. All appropriations made for the Hunter college retirement system shall be transferred to the credit of the teachers' retirement system. The equities in the funds of the Hunter college retirement system, which are held by the members of such system as of the thirtieth day of June, nineteen hundred thirty-eight, shall not in anywise be impaired by such transfer and the funds so transferred shall continue to be held in trust in the teachers' retirement system for the payment of the benefits to such members for which they were set aside. On the first day of July, nineteen hundred thirty-eight, all contributors of the Hunter college retirement system shall become and shall thereafter be contributors of the teachers' retirement system and members of the teachers' retirement association as constituted by section 13-503 of this title. The present-teachers of the Hunter college retirement system shall become and shall thereafter be present-teachers of the teachers' retirement system, and the new-entrants of the Hunter college retirement system shall become and shall thereafter be new-entrants of the teachers' retirement system, with all the rights and privileges of their

respective classifications as provided in chapter four of this title, with the same force and effect as if they had originally been contributors of the teachers' retirement system and members of the teachers' retirement association. All those who now are present-teachers of the Hunter college retirement system, upon becoming contributors of the teachers' retirement system and members of the teachers' retirement association as provided in this section, shall, notwithstanding anything to the contrary in chapter four of this title, continue to have all the rights and privileges to which they were entitled under the provisions of law in existence at the time of the merger. All those who were entitled to prior service credit in the Hunter college retirement system with prior service certificates issued to them before the first day of July, nineteen hundred thirty-eight, shall be entitled to such prior service as was granted in the prior service certificates issued by the Hunter college retirement board, without increase or decrease, and all such certificates are hereby validated and confirmed, to the same extent and with the same effect as if issued pursuant to express authority of law. All beneficiaries of the Hunter college retirement system as of the thirtieth day of June, nineteen hundred thirty-eight, shall continue to receive their retirement allowances thereafter in the same manner, amount, and form, from the corresponding fund or funds of the teachers' retirement system as that from which their benefits were paid from the Hunter college retirement system.

The purpose of this act is to unify and simplify the retirement of members of the educational institutions of New York city, and after the respective reports of the teachers' retirement board and the Hunter college retirement board for the period including the thirtieth day of June, nineteen hundred thirty-eight, which reports shall include a complete statement as to the merger, no special reports shall thereafter be required concerning the membership of the Hunter college retirement system transferred to the teachers' retirement system. After the thirtieth day of June, nineteen hundred thirty-eight, the Hunter college retirement board shall cease to function, and all the duties of such board shall thereafter be performed by the teachers' retirement board.

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 3 HEALTH DEPARTMENT PENSION FUND

§ 13-617 Composition of fund.

a. The health department pension fund shall consist of the following:

1. The capital, interest, income, dividends, cash, deposits, securities and credits in such fund on the day this section, as amended, shall take effect.

2. Except as provided in subdivision c of this section, all moneys collected from fines and penalties for violations of the health code or health laws in the city, including fines for violations of orders issued pursuant to sections 17-104, 17-107, 17-108 and 17-165 of the code and all moneys received from the issuance or granting of permits by the board of health of the department of health and mental hygiene and by the commissioner of health and mental hygiene pursuant to the health code.

3. A sum of money equal to but not greater than one percent of the monthly pay, salary or compensation of each member of such fund, which sum shall be deducted semi-monthly by the comptroller from the pay, salary or compensation of each member, and such comptroller is hereby authorized, empowered and directed to deduct such sum of money, and forthwith to pay the same to the board of trustees of the health department pension fund.

4. If the assets in the sources enumerated in paragraphs one and three of this subdivision shall be insufficient, during an ensuing fiscal year, to pay all pensions, allowances, benefits, grants, awards and payments pursuant to this

subchapter during such fiscal year, it shall be the duty of the board of trustees at the time of submitting its estimate to the director of the budget for such year, to submit a full and detailed statement of the assets of such fund and the amount required, during such year, to pay all such sums in full. There shall be included in the budget for such year a sum sufficient to provide for such deficiency. The comptroller shall pay the money so provided to the board of trustees.

b. All such moneys collected by the department, officers, clerks, judges of the criminal courts and courts shall be paid to the commissioner of finance within thirty days after such payment. Except as provided in subdivision c of this section, such moneys shall be paid over to the board of trustees of the health department pension fund.

c. In the event that the assets in the sources enumerated in paragraphs one and three of subdivision a of this section shall be sufficient, during an ensuing fiscal year, to pay all pensions, allowances, benefits, grants, awards, and payments pursuant to this subchapter during such fiscal year or when the city shall make appropriation for such year pursuant to paragraph four of subdivision a of this section, the moneys collected during such year pursuant to paragraph two of subdivision a and subdivision b of this section shall be paid into the general fund of the city.

d. In the event that the assets in the fund at the end of the fiscal year terminating June thirtieth, nineteen hundred forty-one, shall exceed the amount required to pay all pensions, allowances, benefits, grants, awards and payments pursuant to this subchapter during the next fiscal year, the surplus therein shall be paid into the general fund.

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 3 HEALTH DEPARTMENT PENSION FUND

§ 13-624 Pension for service.

a. Any member who has or shall have performed duty in the department of health, for a period of twenty years or upwards, upon his or her own written application to and filed with the board of trustees, setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, or upon a certificate and report of a board of physicians, appointed by the board of health, certifying that such member is permanently disabled so as to be unfit for further duty in such department, or upon attaining the age of seventy years, shall be retired from active service by resolution of the board of estimate, as of the date specified in said application, or certificate, or upon attaining such seventieth year, and shall be placed upon the health department pension roll, provided that at the time so specified for his or her retirement, his or her term or tenure of office or employment shall not have terminated or have been forfeited, and provided further that upon his or her request in writing the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective. A member in city-service, however, who has or shall have attained the age of seventy years, upon the approval of the commissioner of health, may request the board of estimate to be continued in the public service for a period of two years and such board, where advantageous to the public service, may grant such request for such period, not exceeding two years as such board may determine. At the termination of such additional period of service, such board in like manner may permit such employee to continue in the public service for successive two year periods or any portion thereof. In no case shall public service be continued after a member shall have attained the age of eighty years. Any member placed upon the health department pension roll under the provisions of this section shall be awarded, granted and paid from such

fund by the trustees thereof an annual sum during his or her lifetime equal to one-half of the annual salary received by such member at the time of retirement plus one and one-half per centum of the annual salary received by him or her each year subsequent to the completion of his or her thirtieth year of service, provided that paid-for service before October first, nineteen hundred twenty shall be credited whether in the department of health or in any other city department.

b. Pensions granted under this section shall be for the life of person receiving the same, and shall not be revoked, repealed or diminished.

c. When a member has been awarded and granted a pension pursuant to the provisions of this section and shall die prior to receiving payments from such pension fund equal to the compensation earned by him or her in the city service while a member during the twelve months immediately preceding his or her retirement, there shall be paid by the trustees of the pension fund to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed with the board of trustees during his or her lifetime, a sum of money equal to the difference between the compensation earned by him or her in the city service while a member during the twelve months immediately preceding his or her retirement and the total payments received by him or her from such pension fund.

§ 13-631 Preservation of retirement and civil service rights; members of police and fire departments holding civil defense positions.

a. Notwithstanding any other provision of this code or any other law, in any case where any member of any pension or retirement system maintained under chapter two of this title or subchapter one or two of chapter three of this title, is granted a leave of absence from any position held by such person while such a member, and thereafter and during such leave of absence, is appointed to any position in the office of civil defense of the city, or to any position which has been designated, with the approval of the city civil service commission, as an emergency defense position, such member, in the same manner and to the same extent as if his or her service in such new position were service in the position from which such leave of absence was granted, and were service at the salary of such latter position, shall retain all of his or her rights, privileges and obligations as a member of such retirement system, and shall be entitled to service credit in such system for the period of his or her service in such new position.

b. Any member of the police force of the police department of the city, or of the uniformed force of the fire department of the city, who, while on leave of absence from any position in the competitive class of the civil service in either such department, holds another position in the office of civil defense of the city, or another position which has been designated, with the approval of the city civil service commission, as an emergency defense position, shall, except as to payment of compensation suspended by reason of such leave of absence, retain all of the rights, privileges and status of the position from which such leave of absence was granted, and shall be credited with service in the same manner as if service in such position in the office of civil defense or emergency defense position were service in such

position from which a leave of absence was granted, and were service at the salary of such latter position.

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-632 Transfer of retirement system membership of certain board of education personnel to teachers' retirement system.

a. As used in this section, the following terms shall mean and include:

(1) "Teachers' retirement system." The retirement system maintained under chapter four of this title.

(2) "Eligible position holder." Any member of the board of education retirement system of the city or of the New York city employees' retirement system who holds, under the board of education of the city, a position of such a nature that under subdivision seven of section 13-501 of this title and section 13-503 of this title, a person who receives an appointment to such position, and who does not exercise any rights which he or she may have to become a transferred contributor in another retirement system, would become, by reason of such appointment, a member of the teachers' retirement system.

(3) "First retirement system." The retirement system of which an eligible position holder is a member, immediately prior to the transfer of his or her retirement system membership pursuant to this section.

(4) "Board." (i) In the case of the New York city employees' retirement system, the board of trustees provided for by section 13-103 of this title; and (ii) in the case of the board of education retirement system, the retirement board thereof.

(5) "Transferred member." An eligible position holder who has transferred his or her membership to the teachers' retirement system pursuant to this section.

b. Any person who is an eligible position holder at the time of filing an application as hereinafter in this subdivision b provided, may transfer his or her membership in the board of education retirement system or the New York city employees' retirement system to the teachers' retirement system by filing, no later than December thirty-first, nineteen hundred seventy with the board of the first retirement system, a written application, duly executed and acknowledged, requesting such transfer.

c. Upon the filing of such application, the first retirement system shall transfer to the contingent reserve fund of the teachers' retirement system, in the manner provided for in section forty-three of the retirement and social security law, the reserve on the benefits allowable to such member as a result of employer contributions, including the reserve-for-increased-take-home-pay. In addition, the first retirement system shall thereupon transfer his or her accumulated deductions (as they would be in the absence of a loan, less the unpaid balance of any outstanding loan) to the annuity savings fund of the teachers' retirement system.

d. Any such transferred member shall be deemed to have been a member of the teacher's retirement system during the period of member service which (1) is credited to him or her in the first retirement system and (2) was rendered after the commencement of his or her last membership in the first retirement system.

e. The rate of contribution of any member who has elected such transfer of membership shall, on and after the date of the filing of his or her application therefor, be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such date to the teachers' retirement system if he or she had become a member of such retirement system on the date when he or she last became a member of the first retirement system; provided, however, that if such member, pursuant to the applicable provisions of chapter four of title thirteen of the code, elects a retirement plan prescribing a different rate of contribution, he or she shall contribute in accordance with the requirements of such plan.

f. As of the date of the filing of an application for such transfer of membership, the reserve-for-increased-take-home-pay credited in the teachers' retirement system to the member filing such application shall be equal to the amount of the reserve-for-increased-take-home-pay credited to such member in the first retirement system on the day next preceding the date of the filing of such application.

g. In any case where, at the time when an eligible position holder seeks to file an application for transfer of membership, there remains unpaid any part of the principal or interest with respect to any loan made by such member while a member of the first retirement system, he or she shall not have the right to make such election unless he or she shall execute and acknowledge, and file with the board of the first retirement system, a written agreement providing that from and after the execution of such agreement all of his or her obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be governed by rules and regulations which shall be adopted by the retirement board of the teachers' retirement system for the purpose of prescribing with respect to repayment of any such unpaid amounts to the teachers' retirement system, and the member's status with respect to such loan, terms and conditions which conform so far as may be reasonable and practicable with the provisions of section 13-540 of this title.

h. (1) In any case where a transferred member elects to participate in the variable annuity program of the teachers' retirement system as provided for in subdivision a of section 13-568 of this title, by a written notice duly filed with the retirement board of the teachers' retirement system before the first deduction is made from his or her salary at the rate of contribution prescribed by subdivision e of this section, such election shall take effect as of the date of filing of his or her application for a transfer of membership pursuant to this section.

(2) In the event that any transferred member makes an election as provided for in subdivision b of section 13-568 of this title with respect to a transfer of accumulated deductions and reserve-for-increased-take-home-pay to the appropriate variable annuity funds, such transfer, notwithstanding any other provision of law to the contrary, shall not commence earlier than the first day of the seventh month after the month in which he or she transferred his or her membership to the teachers' retirement system.

§ 13-634 Transfer of members of the police force of the board of water supply to the police department of the city of New York.

The members of the police force of the board of water supply of the city, upon the termination of their service on such force by reason of the completion of the work for which they were appointed by such board shall be severally eligible for transfer to the position of patrolman in the police department of the city upon the written request in each case of the board, accompanied by the consent, also in writing, of the person to be transferred, and the further consent of the police commissioner. The time served by any member of such board of water supply police force who has become a member of such police force of the city, whether by transfer or as a result of competitive examination and appointment, and who is still a member of the police force of the city, shall be included and counted as service in the police department of the city in determining salary and eligibility for advancement, promotion, retirement and pension as provided in this code, provided, however, that no person becoming a member of the police department of the city in the manner herein provided, shall be entitled to participate in the benefits of the police pension fund, unless he shall pay into such fund the total sum that he would have been required to pay in order to participate therein had he been a member of such force from the time he entered the service of such board of water supply, and provided further, that no person not a member of the police force of the board of water supply on the ninth day of May, nineteen hundred nineteen shall be eligible for transfer to the position of patrolman in the police department of the city in accordance with the provisions hereof. These provisions shall not be subject to any restriction relative to transfers contained in the civil service law or in the rules and regulations of the civil service commission of the state, or any subdivision thereof.

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-636 Trustees of the exempt firemen's benevolent fund of the late city of Brooklyn.

a. Upon the settlement of the accounts of the surviving trustees and officers of the corporation known as the exempt firemen's benevolent fund of the late city of Brooklyn and upon the payment of the balance of the funds and assets of such corporation to the fire commissioner and upon the resignation of the trustees and officers of such corporation, the fire commissioner is hereby designated and empowered to act as sole trustee of such corporation. The fire commissioner, is hereby charged and directed to continue to pay relief donations to the surviving members of the exempt firemen's benevolent associations of the late city of Brooklyn and to the surviving spouses of the members of such associations, as they appear upon the records now in the hands of the trustees of the exempt firemen's benevolent fund of the late city of Brooklyn, until the decease of the last of the members of such associations and of the surviving spouses of the members of such associations. The amounts of the respective relief donations so to be paid the aforesaid beneficiaries by the fire commissioner, as such trustee, shall be determined by him or her on the basis of the financial status of the beneficiary and the actuarial sufficiency of the funds of the corporation at the time. In no case, however, shall the annual relief donation to any beneficiary exceed six hundred dollars.

b. The fire commissioner, as such trustee, is hereby empowered and directed to receive all moneys and assets applicable to such benevolent fund and shall deposit all such moneys and assets to the credit of such benevolent fund in banks or trust companies to be selected by such commissioner. Such fire commissioner, as such trustee, is hereby empowered and directed to invest the moneys and convertible assets applicable to or belonging to such benevolent fund in bonds or other securities of the city or state of New York or of the government of the United States.

c. The fire commissioner, as trustee of such benevolent fund, shall give a bond with one or more sureties, in the sum of ten thousand dollars for the faithful performance of his or her duties. Such bond shall be approved by the comptroller and shall be filed in the office of the comptroller.

d. The fire commissioner, as such trustee, shall submit a verified report, on or before the first day of Feburary of each year, to the mayor, in which report shall be set forth the account of his or her proceedings as such trustee during the twelve months from January first to and including December thirty-first immediately preceding, including a statement of all receipts and disbursements on account of such benevolent fund, a list of the names, residences and ages of the beneficiaries of such benevolent fund during such period, and the respective amounts paid to them in the way of relief donations during such period.

e. The clerk of the fire department in charge of the bureau of accounts and pensions shall have charge of and keep the accounts of the fire commissioner as trustee of such exempt firemen's benevolent fund.

f. Upon the decease of the last of the members and of the surviving spouses of members of such associations whose names appear on the records now in the hands of the trustees of the exempt firemen's benevolent fund of the late city of Brooklyn, the fire commissioner, as such trustee, shall prepare a final report of his or her accounts which shall be audited by the comptroller. After such audit a copy of such final report shall be filed with the city clerk and upon the filing thereof and upon the payment into the New York fire department pension fund of the balance of the funds and assets of such benevolent fund then remaining in his or her possession, the fire commissioner shall cease to be the sole trustee of such exempt firemen's benevolent fund of the late city of Brooklyn. Such funds and assets shall thereupon become merged in and a part of such fire department pension fund.

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.1 Nineteen2 hundred eighty-eight unfunded accrued liability adjustment.

a. As used in this section, unless the context clearly indicates otherwise, the following terms shall have the following meanings:

1. "Retirement system." Any of the following: the New York city employees' retirement system; the teachers' retirement system; the police pension fund provided for by subchapter two of chapter two of this title; the fire department pension fund provided for by subchapter two of chapter three of this title; and the board of education retirement system of the city.

2. "Teachers' retirement system." The retirement system of the teachers' retirement association provided for by chapter four of this title.

3. "Contingent reserve fund." The contingent reserve fund of a retirement system.

4. "Governmental entity." The city, the state or a public authority, corporation or body corporate or other agency of government.

5. "Normal contribution." Where used in relation to the following retirement systems, such term shall have the following meanings:

(a) New York city employees' retirement system; the employer contribution determined pursuant to paragraph two of subdivision b of section 13-127 of the code;

(b) New York city teachers' retirement system; the employer contribution determined pursuant to subdivision b of section 13-527 of the code;

(c) New York city police pension fund, subchapter two; the employer contribution determined pursuant to paragraph two of subdivision b of section 13-228 of the code;

(d) New York city fire department pension fund, subchapter two; the employer contribution determined pursuant to paragraph two of subdivision b of section 13-331 of the code; and

(e) Board of education retirement system of the city; the employer contribution determined pursuant to subparagraph four of paragraph two of subdivision sixteen of section twenty-five hundred seventy-five of the education law.

6. "Responsible obligor." Any governmental entity required by any provision of law to pay contributions to a retirement system on behalf of any members thereof, whether or not such entity is the employer of such members.

7. "Valuation rate of interest." Where used herein with respect to a retirement system in relation to any fiscal year of the city, the term "valuation rate of interest" shall mean the rate per centum per annum of interest required by law to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund of such retirement system in such fiscal year.

b. In relation to each responsible obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment shall be an amount determined pursuant to the applicable provisions of subdivisions c through s, inclusive, of this section.

c. Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of each retirement system in the city's nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year and the valuation rate of interest for such retirement system for such fiscal year, there shall be determined, as of June thirtieth, nineteen hundred eighty-eight, the amount of the actuarial accured liability of each retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

d. Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of such retirement system in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and the valuation rate of interest for such retirement system for such fiscal year, there shall be determined, as of June thirtieth, nineteen hundred eighty-eight, the amount of the actuarial accrued liability of each retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

e. In any case where no more than one responsible obligor is required by law to make contributions to the contingent reserve fund of a retirement system on account of its members:

(1) if the amount computed with respect to such retirement system pursuant to subdivision d of this section is greater than the amount computed in relation to such system pursuant to subdivision c of this section, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a charge in an amount which, when paid by such obligor to the contingent reserve fund of such retirement system in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the

amount computed pursuant to such subdivision d over the amount computed pursuant to such subdivision c.

(2) if the amount computed with respect to such retirement system pursuant to subdivision c of this section is greater than the amount computed in relation to such system pursuant to subdivision d of this section, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a credit in an amount which, when credited in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the contributions which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount computed pursuant to such subdivision c over the amount computed pursuant to such subdivision d.

f. In any case where more than one responsible obligor is required by law to make contributions to the contingent reserve fund of a retirement system on account of any of its members:

(1) The actuary shall determine the portion of the liability (other than any liability on account of employees of the senior colleges of the city university) computed for such retirement system pursuant to subdivision c of this section, which portion is attributable to each such obligor on the basis of the members with respect to whom such obligor is required by law to make contributions to such retirement system.

(2) The actuary shall determine the portion of the liability (other than any liability on account of employees of such senior colleges) computed pursuant to subdivision d of this section, which portion is attributable to each such obligor on such basis.

g. If the portion computed pursuant to paragraph two of subdivision f of this section with respect to any such obligor is greater than the portion computed pursuant to paragraph one of such subdivision with respect to such obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a charge in an amount which, when paid by such obligor to the contingent reserve fund of such retirement system in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such paragraph two over the amount of such portion computed pursuant to such paragraph one.

h. If the portion computed pursuant to paragraph one of subdivision f of this section with respect to any such obligor is greater than the portion computed pursuant to paragraph two of such subdivision with respect to such obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a credit in an amount which, when credited in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such paragraph one over the amount of such portion computed pursuant to such paragraph two.

i. (1) If the nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to any responsible obligor in relation to a retirement system pursuant to the preceding subdivisions of this section is a charge, the total of the amounts otherwise required to be contributed by such obligor to the contingent reserve fund of such retirement system in each fiscal year commencing with the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and ending with the nineteen hundred ninety-seven-nineteen hundred ninety-eight fiscal year pursuant to law shall be increased by the amount of one annual installment of such nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to such obligor.

(2) If the nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to any responsible obligor in relation to a retirement system pursuant to the preceding subdivisions of this section is a credit, the total of the amounts otherwise required to be contributed by such obligor to the contingent reserve fund of such retirement system in each city fiscal year commencing with the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and ending with the nineteen hundred ninety-seven-nineteen hundred ninety-eight fiscal year pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor.

j. The actuary shall determine the portion of the liability computed in relation to the New York city employees' retirement system pursuant to subdivision c of this section, which portion is attributable to employees of the senior colleges of the city university of New York.

k. The actuary shall determine the portion of the liability computed in relation to such retirement system pursuant to subdivision d of this section, which portion is attributable to employees of such senior colleges.

l. If the portion computed pursuant to subdivision k of this section is greater than the portion computed pursuant to subdivision j of this section, the New York city employees' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to the senior colleges of the city university of New York shall be a charge in an amount which, when paid by the state and the city to the contingent reserve fund of such retirement system pursuant to section sixty-two hundred thirty-one of the education law in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision k over the amount of such portion computed pursuant to such subdivision j.

m. If the portion computed pursuant to subdivision j of this section is greater than the portion computed pursuant to subdivision k of this section, the New York city employees' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to such senior colleges shall be a credit in an amount which, when credited (pursuant to section sixty-two hundred thirty-one of the education law) in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the state and the city would otherwise be required to pay to the contingent reserve fund of such employees' retirement system pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest of such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision j over the amount of such portion computed pursuant to such subdivision k.

n. The actuary shall determine the portion of the liability computed in relation to the teachers' retirement system pursuant to subdivision c of this section, which portion is attributable to employees of the senior colleges of the city university of New York.

o. The actuary shall determine the portion of the liability computed in relation to the teachers' retirement system pursuant to subdivision d of this section, which portion is attributable to employees of such senior colleges.

p. If the portion computed pursuant to subdivision o of this section is greater than the portion computed pursuant to subdivision n of this section, the New York city teachers' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York shall be a charge in an amount which, when paid by the state and the city to the contingent reserve fund of the teachers' retirement system pursuant to section sixty-two hundred thirty-one of the education law in ten equal installments, commencing with payment of a first installment for the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year of the excess of the amount of

such portion computed pursuant to such subdivision o over the amount of such portion computed pursuant to such subdivision n.

q. If the portion computed pursuant to subdivision n of this section is greater than the portion computed pursuant to subdivision o of this section, the New York city teachers' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of such senior colleges shall be a credit in an amount which, when credited pursuant to section sixty-two hundred thirty-one of the education law in ten equal annual installments (the first of which installments is to be credited for the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the state and the city would otherwise be required to pay to the contingent reserve fund of the teachers' retirement system pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision n over the amount of such portion computed pursuant to such subdivision o.

r. If the New York city employees' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York, as determined pursuant to subdivisions j, k and l of this section, or the New York city teachers' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of such senior colleges, as determined pursuant to subdivisions n, o and p of this section is a charge:

(1) the state, with respect to each fiscal year of the city occurring during the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, and at the time and in the manner prescribed by the applicable provisions of section sixty-two hundred thirty-one of the education law, shall contribute to the affected retirement system an installment amount representing the state's share of such charge for such fiscal year, as prescribed by such provisions; and

(2) the city, with respect to each such fiscal year, and at the time and in the manner prescribed by the applicable provisions of such section of the education law, shall contribute an installment amount representing the city's share of such charge for such fiscal year, as prescribed by such provisions.

s. If the New York city employees' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York, as determined pursuant to subdivisions j, k and m of this section, or the New York city teachers' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of such senior colleges, as determined pursuant to subdivisions n, o and q of this section, is a credit:

(1) then with respect to each fiscal year of the city occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, there shall be credited in favor of the state, in relation to its obligations to contribute to the affected retirement system on account of employees of such senior colleges, and at the time and in the manner prescribed by the applicable provisions of section sixty-two hundred thirty-one of the education law, an installment amount representing the state's share of such credit for such fiscal year, as prescribed by such provisions; and

(2) with respect to each such fiscal year occurring during such period, there shall be credited in favor of the city, in relation to the city's obligations to contribute to the affected retirement system on account of employees of such senior colleges, and at the time and in the manner prescribed by the applicable provisions of such section sixty-two hundred thirty-one, an installment amount representing the city's share of such credit for such fiscal year, as prescribed by such provisions.

t. Any amount required to be contributed to a retirement system by a responsible obligor with respect to any fiscal year under the provisions of this section shall be payable with interest on such amount at the valuation rate of

interest for such retirement system for such fiscal year.

u. In the same manner and to the same extent as the provisions of sections 13-130 (relating to obligations of certain participating employers of the New York city employees' retirement system to contribute to such retirement system), 13-132 (relating to contributions by the state in relation to certain members of such retirement system who are officers and employees in the courts) and 13-529 (relating to similar contributions by the state in relation to certain like court personnel who are members of the teachers' retirement system) apply to such participating employers and the state with respect to their obligations to make contributions to such retirement systems under other employer contribution laws, the provisions of such sections 13-130, 13-132 and 13-529 shall apply to the contributions required to be made to such retirement systems under the provisions of this section.

v. In the determination of the normal contribution payable to any retirement system with respect to each fiscal year of the city occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such retirement system then remaining unpaid or unapplied, as the case may be:

(1) shall be treated as an asset, if such adjustment with respect to such retirement system is a charge; and

(2) shall be subtracted from assets, if such adjustment with respect to such retirement system is a credit.

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.1 Nineteen hundred3 eighty-eight unfunded accrued liability adjustment.

a. As used in this section, unless the context clearly indicates otherwise, the following terms shall have the following meanings:

1. "Retirement system." Any of the following: the New York city employees' retirement system; the teachers' retirement system; the police pension fund provided for by subchapter two of chapter two of this title; the fire department pension fund provided for by subchapter two of chapter three of this title; and the board of education retirement system of the city.

2. "Teachers' retirement system." The retirement system of the teachers' retirement association provided for by chapter four of this title.

3. "Contingent reserve fund." The contingent reserve fund of a retirement system.

4. "Governmental entity." The city, the state or a public authority, corporation or body corporate or other agency of government.

5. "Normal contribution." Where used in relation to the following retirement systems, such terms shall have the following meanings:

(a) New York city employees' retirement system-the employer contribution determined pursuant to paragraph two of subdivision b of section 13-127 of the code;

(b) New York city teachers' retirement system-the employer contribution determined pursuant to subdivision b of section 13-527 of the code;

(c) New York city police pension fund, subchapter two-the employer contribution determined pursuant to paragraph two of subdivision b of section 13-228 of the code;

(d) New York city fire department pension fund, subchapter two-the employer contribution determined pursuant to paragraph two of subdivision b of section 13-331 of the code; and

(e) Board of education retirement system of the city-the employer contribution determined pursuant to subparagraph four of paragraph (c) of subdivision sixteen of section twenty-five hundred seventy-five of the education law.

6. "Responsible obligor." Any governmental entity required by any provision of law to pay contributions to a retirement system on behalf of any members thereof, whether or not such entity is the employer of such members.

7. "Valuation rate of interest." Where used herein with respect to a retirement system in relation to any fiscal year of the city, the term "valuation rate of interest" shall mean the rate per centum per annum of interest required by law to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund of such retirement system in such fiscal year.

b. In relation to each responsible obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment shall be an amount determined pursuant to the applicable provisions of subdivision c to s, inclusive, of this section.

c. Upon the basis of the actuarial tbles and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of each retirement system in the city's nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year and the valuation rate of interest for such retirement system for such fiscal year, there shall be determined, as of June thirtieth, nineteen hundred eighty-eight, the amount of the actuarial accrued liability of each retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

d. Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of such retirmement system in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and the valuation rate of interest for such retirement system for such fiscal year, there shall be determined, as of June thirtieth, nineteen hundred eighty-eight, the amount of the actuarial accrued liability of each retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

e. In any case where no more than one responsible obligor is required by law to make contributions to the contingent reserve fund of a retirement system on account of its members:

(1) if the amount computed with respect to such retirement system pursuant to subdivision d of this section is greater than the amount computed in relation to such system pursuant to subdivision c of this section, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a charge in an amount which, when paid by such obligor to the contingent reserve fund of such retirement system in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the

amount computed pursuant to such subdivision d over the amount computed pursuant to such subdivision c.

(2) if the amount computed with respect to such retirement system pursuant to subdivision c of this section is greater than the amount computed in relation to such system pursuant to subdivision d of this section, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a credit in an amount which, when credited in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the contributions which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount computed pursuant to such subdivision c over the amount computed pursuant to such subdivision d.

f. In any case where more than one responsible obligor is required by law to make contributions to the contingent reserve fund of a retirement system on account of any of its members:

(1) The actuary shall determine the portion of the liability (other than any liability on account of employees of the senior colleges of the city university) computed for such retirement system pursuant to subdivision c of this section, which portion is attributable to each such obligor on the basis of the members with respect to whom such obligor is required by law to make contributions to such retirement system.

(2) The actuary shall determine the portion of the liability (other than any liability on account of employees of such senior colleges) computed pursuant to subdivision d of this section, which portion is attributable to each such obligor on such basis.

g. If the portion computed pursuant to paragraph two of subdivision f of this section with respect to any such obligor is greater than the portion computed pursuant to paragraph one of such subdivision with respect to such obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a charge in an amount which, when paid by such obligor to the contingent reserve fund of such retirement system in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such paragraph two over the amount of such portion computed pursuant to such paragraph one.

h. If the portion computed pursuant to paragraph one of subdivision f of this section with respect to any such obligor is greater than the portion computed pursuant to paragraph two of such subdivision with respect to such obligor, the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor shall be a credit in an amount which, when credited in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such paragraph one over the amount of such portion computed pursuant to such paragraph two.

i. (1) If the nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to any responsible obligor in relation to a retirement system pursuant to the preceding subdivisions of this section is a charge, the total of the amounts otherwise required to be contributed by such obligor to the contingent reserve fund of such retirement system in each fiscal year commencing with the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and ending with the nineteen hundred ninety-seven-nineteen hundred ninety-eight fiscal year pursuant to law shall be increased by the amount of one annual installment of such nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to such obligor.

(2) If the nineteen hundred eighty-eight unfunded accrued liability adjustment determined with respect to any responsible obligor in relation to a retirement system pursuant to the preceding subdivisions of this section is a credit, the total of the amounts otherwise required to be contributed by such obligor to the contingent fund of such retirement system in each city fiscal year commencing with the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year and ending with the nineteen hundred ninety-seven-nineteen hundred ninety-eight fiscal year pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such obligor.

j. The actuary shall determine the portion of the liability computed in relation to the New York city employees' retirement system pursuant to subdivision c of this section, which portion is attributable to employees of the senior colleges of the city university of New York.

k. The actuary shall determine the portion of the liability computed in relation to such retirement system pursuant to subdivision d of this section, which portion is attributable to employees of such senior colleges.

l. If the portion computed pursuant to subdivision k of this section is greater than the portion computed pursuant to subdivision j of this section, the NYCERS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to the senior colleges of the city university of New York shall be a charge in an amount which, when paid by the state and the city to the contingent reserve fund of such retirement system pursuant to section sixty-two hundred thirty-one of the education law in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision k over the amount of such portion computed pursuant to such subdivision i.

m. If the portion computed pursuant to subdivision i of this section is greater than the portion computed pursuant to subdivision k of this section, the NYCERS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to such senior colleges shall be a credit in an amount which, when credited (pursuant to section sixty-two hundred thirty-one of the education law) in ten equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the state and the city would otherwise be required to pay to the contingent reserve fund of such employees' retirement system pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision i over the amount of such portion computed pursuant to such subdivision k.

n. The actuary shall determine the portion of the liability computed in relation to the teachers' retirement system pursuant to subdivision c of this section, which portion is attributable to employees of the senior colleges of the city university of New York.

o. The actuary shall determine the portion of the liability computed in relation to the teachers' rerirement system pursuant to subdivision d of this section, which portion is attributable to employees of such senior colleges.

p. If the portion computed pursuant to subdivision o of this section is greater than the portion computed pursuant to subdivision n of this section, the NYCTRS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York shall be a charge in an amount which, when paid by the state and the city to the contingent reserve fund of the teachers' retirement system pursuant to section sixty-two hundred thirty-one of the education law in ten equal installments, commencing with payment of a first installment for the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to

such subdivision n.

g. If the portion computed pursuant to subdivision n of this section is greater than the portion computed pursuant to subdivision o of this section, the NYCTRS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of such senior colleges shall be a credit in an amount which, when credited pursuant to section sixty-two hundred thirty-one of the education law in ten equal annual installments (the first of which installments is to be credited for the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the state and the city would otherwise be required to pay to the contingent reserve fund of the teachers' retirement system pursuant to law, shall be the actuarial equivalent, on the basis of the valuation rate of interest for such retirement system for such nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, of the excess of the amount of such portion computed pursuant to such subdivision n over the amount of such portion computed pursuant to such subdivision o.

r. If the NYCERS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York, as determined pursuant to subdivisions j, k and l of this section, or the New York city teachers' retirement system nineteen hundred eighty-eight unfunded accrued liability adjustment attribuatable to employees of such senior colleges, as determined pursuant to subdivisions n, o and p of this section is a charge:

(1) the state, with respect to each fiscal year of the city occurring during the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, and at the time and in the manner prescribed by the applicable provisions of section sixty-two hundred thirty-one of the education law, shall contribute to the affected retirement system an installment amount representing the state's share of such charge for such fiscal year, as prescribed by such provisions; and

(2) the city, with respect to each such fiscal year, and at the time and in the manner prescribed by the applicable provisions of such section of the education law, shall contribute an installment amount representing the city's share of such charge for such fiscal year, as prescribed by such provisions.

s. If the NYCERS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of the senior colleges of the city university of New York, as determined pursuant to subdivisions j, k and m of this section, or the NYCTRS nineteen hundred eighty-eight unfunded accrued liability adjustment attributable to employees of such senior colleges, as determined pursuant to subdivisions n, o and q of this subdivision, is a credit:

(1) then with respect to each fiscal year of the city occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, there shall be credited in favor of the state, in relation to its obligations to contribute to the affected retirement system on account of employees of such senior colleges, and at the time and in the manner prescribed by the applicable provisions of section sixty-two hundred thirty-one of the education law, an installment amount representing the state's share of such credit for such fiscal year, as prescribed by such provisions; and

(2) with respect to each such fiscal year occurring during such period, there shall be credited in favor of the city, in relation to the city's obligations to contribute to the affected retirement system on account of employees of such senior colleges, and at the time and in the manner prescribed by the applicable provisions of such section sixty-two hundred thirty-one, an installment amount representing the city's share of such credit for such fiscal year, as prescribed by such provisions.

t. Any amount required to be contributed to a retirement system by a responsible obligor with respect to any fiscal year under the provisions of this section shall be payable with interest on such amount at the valuation rate of interest for such retirement system for such fiscal year.

u. In the same manner and to the same extent as the provisions of sections 13-130 (relating to obligations of

certain participating employers of the New York city employees' retirement system to contribute to such retirement system), 13-132 (relating to contributions by the state in relation to certain members of such retirement system who are officers and employees in the courts) and 13-529 (relating to similar contributions by the state in relation to certain like court personnel who are members of the teachers' retirement system) apply to such participating employers and the state with respect to their obligations to make contributions to such retirement systems under other employer contribution laws, the provision of such sections 13-130, 13-132 and 13-529 shall apply to the contributions required to be made to such retirement systems under the provisions of this section.

v. In the determination of the normal contribution payable to any retirement system with respect to each fiscal year of the city occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the nineteen hundred eighty-eight unfunded accrued liability adjustment with respect to such retirement system then remaining unpaid or unapplied, as the case may be:

(1) shall be treated as an asset, if such adjustment with respect to such retirement system is a charge; and

(2) shall be subtracted from assets, if such adjustment with respect to such retirement system is a credit.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.2 Supplementary provisions regarding employer contributions to retirement systems for fiscal years beginning on or after July first, nineteen hundred eighty-nine, for amortization of consolidated unfunded accrued liabilities and balance sheet liabilities for the nineteen hundred ninety-nineteen hundred ninety-one, nineteen hundred ninety-one-nineteen hundred ninety-two and nineteen hundred ninety-two-nineteen hundred ninety-three fiscal years, and for amortization of such liabilities and certain other unfunded accrued liabilities pursuant to the level percentage of payroll method in certain fiscal years thereafter; rates of interest.

a. As used in this section, unless the context clearly indicates otherwise, the following terms shall have the following meanings:

1. "Retirement system". Any of the following: the New York city employees' retirement system; the teachers' retirement system; the police pension fund provided for by subchapter two of chapter two of this title; the fire department pension fund provided for by subchapter two of chapter three of this title; and the board of education retirement system of the city.

2. "Teachers' retirement system". The retirement system of the teachers' retirement association provided for by chapter four of this title.

3. "NYCERS". The New York city employees' retirement system.

4. "NYCTRS". The teachers' retirement system.

5. "PPF". The police pension fund provided for in subchapter two of chapter two of this title.

6. "FPF". The fire department pension fund provided for by subchapter two of chapter three of this title.

7. "BERS". The board of education retirement system of the city.

8. "Contingent reserve fund". The contingent reserve fund of a retirement system.

9. "Governmental entity". The city, the state or a public authority, corporation or body corporate or other agency of government.

9-a. "Fiscal year". A fiscal year of the city as defined in section two hundred twenty-six of the New York city charter.

9-b. "Senior colleges". The senior colleges of the city university of New York.

9-c. "UAL". Unfunded accrued liability.

9-d. "BSL". Balance sheet liability.

10. "Responsible obligor". Any governmental entity required by any provision of law to pay contributions to a retirement system on behalf of any members thereof, whether or not such entity is the employer of such members.

10-a. "General UAL and BSL responsible obligor". Any responsible obligor (as defined in paragraph ten of this subdivision) other than the state of New York and the city of New York in their capacity as senior college UAL and BSL responsible obligors (as defined in paragraph ten-b of this subdivision).

10-b. "Senior college UAL and BSL responsible obligors". The city and the state of New York, as contributors to NYCERS and NYCTRS pursuant to their respective shares, obligations and rights as provided for in section sixty-two hundred thirty-one of the education law.

11. "Valuation rate of interest". Where used herein with respect to a retirement system in relation to any fiscal year of the city, the term "valuation rate of interest" shall mean the rate per centum per annum of interest required by law to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund of such retirement system in such fiscal year.

12. "Special interest". (i) Such term, where used in relation to any retirement system, other than BERS, shall mean special interest as defined for such retirement system as follows: NYCERS-subdivision twenty-nine of section 13-101 of this title; PPF-subdivision twenty of section 13-214 of this title; FPF-subdivision twenty-four of section 13-313 of this title; and NYCTRS-subdivision thirty-five of section 13-501 of this title.

(ii) Such term, where used in relation to BERS, shall mean a distribution to the annuity savings fund, in addition to regular interest, which distribution (A) for each of the periods as to which the applicable provisions of this section grant special interest, consists of the amount prescribed by such provisions for such period and (B) for each such period, is credited in such applicable amount in the annuity savings fund accounts of members who are eligible under such provisions for crediting of such amount for such period.

13. "Additional interest". (i) Such term, where used in relation to any retirement system, other than BERS, shall mean additional interest as defined for such retirement system as follows: NYCERS-subdivision thirty of section 13-101 of this title; PPF-subdivision twenty-one of section 13-214 of this title; FPF-subdivision twenty-five of section 13-313 of this title; and NYCTRS-subdivision thirty-six of section 13-501 of this title.

(ii) Such term, where used in relation to BERS, shall mean a distribution to the reserve-for-increased-take-home-pay, in addition to regular interest, which distribution (A) for each of the periods as to which the applicable provisions of this section grant additional interest, consists of the amount prescribed by such provisions for such period and (B) for each such period, is included in such applicable amount in the reserve-for-increased-take-home-pay of each member who is eligible under such provisions for inclusion of such amount for such period.

14. "Supplementary interest". (i) Such term, where used in relation to a retirement system, other than BERS, shall mean supplementary interest as defined for such retirement system as follows: NYCERS-subdivision sixty-eight of section 13-101 of this title; PPF-subdivision twenty-four of section 13-214 of this title; FPF-subdivision twenty-six of section 13-313 of this title; and NYCTRS-subdivision forty-nine of section 13-501 of this title.

(ii) Such term, where used in relation to BERS, shall mean an annual allowance, in addition to regular interest, of interest on the mean amount for the preceding year in each of the funds creditable with supplementary interest (as defined in paragraph fifteen of this subdivision) of BERS, which allowance, (A) for each of the periods as to which the applicable provisions of this section grant supplementary interest, consists of the amount prescribed by such provisions for such period and (B) for each such period, is credited in such applicable amount to such funds at the time, in the manner, to the extent and subject to the exclusions prescribed by such provisions.

15. "Fund creditable with supplementary interest". (a) In the case of NYCERS, PPF, FPF and BERS, such term shall mean each constituent fund mentioned in the applicable provisions of sections 13-124, 13-224 and 13-324 of this title and in section eight of the rules and regulations of BERS, other than the annuity savings fund. In the case of NYCTRS, such term shall mean each constituent fund mentioned in section 13-520 of this title, other than the annuity savings fund, pension reserve fund number two and the expense fund.

(b) Nothing contained in this subdivision shall be construed as providing for supplementary interest with respect to any reserve-for-increased-take-home-pay of any member of a retirement system entitled to such a reserve or with respect to any accumulation-for-increased-take-home-pay (as defined in subdivision fifteen of section 13-313 of this title).

16. "Significant change in an actuarial valuation method". (i) Subject to the provisions of subparagraphs (ii) and (iii) of this paragraph, the term "significant change in an actuarial valuation method" shall mean any change in any actuarial premise, device or calculation system (other than the valuation rate of interest and actuarial tables) used by the actuary in valuing the assets and liabilities of a retirement system, which change causes the actuarial accrued liability (computed pursuant to the entry age normal cost method of determining such liability) of such retirement system, as determined for the first fiscal year of the city for which such change is effective, to increase or decrease by more than ten per centum above or below the amount of the actuarial accrued liability, as determined for the fiscal year next preceding such first fiscal year on the basis of the valuation rate of interest, actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to such retirement system in such next preceding fiscal year.

(ii) For the purposes of this paragraph, all changes in actuarial premises, devices or calculation systems (other that the valuation rate of interest and actuarial tables) used in valuing assets and liabilities, which changes take effect simultaneously, shall be aggregated in determining the amount of increase or decrease in the actuarial accrued liability pursuant to subparagraph (i) of this paragraph, regardless of whether any such individual simultaneous change so aggregated is a significant change in an actuarial method within the meaning of such subparagraph (i). In any case where the aggregate of such simultaneous changes causes an increase or decrease by more than ten per centum in the actuarial accrued liability of a retirement system for the first fiscal year of effectiveness of such changes as described in subparagraph (i) of this paragraph, such aggregate shall be deemed to be a significant change in an actuarial valuation method for the purposes of this section.

(iii) The provisions of this subdivision shall not apply to any changes in an actuarial computation made to correct a mathematical or factual error.

17. "Post-June thirtieth, nineteen hundred ninety-nine unfunded accrued liability adjustment". Any unfunded accrued liability adjustment calculated pursuant to subdivision k of this section.

18. "Phase-in period". The period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-five.

19. "Regular installment period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

20. "Retirement system undergoing consolidated UAL funding". Any of the following: NYCTRS, NYCERS or BERS.

21. "Charge". An amount which is required to be paid to a retirement system as an employer contribution.

22. "Credit". An amount which is required to be applied in reduction of employer contributions otherwise payable to a retirement system.

23. "Individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". Any of the following, as applicable to NYCERS, NYCTRS or BERS as of June thirtieth, nineteen hundred ninety (including any portion thereof attributable to the senior colleges): the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five unfunded accrued liability adjustment, the nineteen hundred eighty-six unfunded accrued liability adjustment, the nineteen hundred eighty-eight unfunded accrued liability adjustment, the post-June thirtieth, nineteen hundred eighty-nine unfunded accrued liability adjustment established for BERS pursuant to subdivision k of this section and all installments of amortization of bond sale gains and losses and all installments of funding of supplemental retirement allowances.

24. "Recomputed annual installment of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". (i) With respect to each retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision), an installment amount computed in accordance with the succeeding subparagraphs of this paragraph in relation to each individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-three of this subdivision) for such retirement system.

(ii) For each such retirement system, its actuary shall determine, as of June thirtieth, nineteen hundred ninety and on the basis of eight and one-quarter per centum interest per annum, the present value of all those annual installments of such individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety in relation to such retirement system, which installments, in the absence of the enactment of chapter nine hundred forty-eight of the laws of nineteen hundred ninety and the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth.

(iii) The actuary of such retirement system shall determine an amount which, if paid to its contingent reserve fund, or applied as a credit, as the case may be, commencing with a first payment or credit in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, in a number of equal annual installments equal to the number of such annual installments remaining due and unpaid or uncredited with respect to such retirement system as of June thirtieth, nineteen hundred ninety as described in subparagraph (ii) of this paragraph, would be the actuarial equivalent, as of such June thirtieth, on the basis of nine per centum interest per annum, of the present value determined pursuant to such subparagraph (ii).

(iv) With respect to each individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety for

a retirement system undergoing consolidated UAL funding, the recomputed annual installment of individual UAL amortization in affect*4 as of June thirtieth, nineteen hundred ninety shall be one equal annual installment determined with respect to such individual UAL amortization for such retirement system pursuant to subparagraph (iii) of this paragraph.

25. "Single-year aggregate of recomputed annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety". With respect to any retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision), such aggregate shall be the total amount obtained, in relation to any fiscal year occurring during the phase-in period (as defined in paragraph eighteen of this subdivision) by adding together all recomputed annual installments of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-four of this subdivision), as applicable to such fiscal year for such retirement system. For the purpose of such addition, any such recomputed installments which constitute a credit shall be treated as a negative quantity.

26. "General nineteen hundred ninety BSL contribution". Any of the following: the NYCERS general nineteen hundred ninety BSL contribution determined pursuant to subdivision v of this section, the NYCTRS general nineteen hundred ninety BSL contribution determined pursuant to subdivision x of this section or the BERS general nineteen hundred ninety BSL contribution determined pursuant to subdivision z of this section.

27. "Nineteen hundred ninety UAL credit". (i) An amount determined for each retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision) which shall be determined as hereinafter provided in this paragraph.

(ii) Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of such retirement system in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year and an interest rate of nine per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred ninety, the amount of the unfunded accrued liability of such retirement system, computed pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability.

(iii) There shall be determined with respect to such retirement system, as of June thirtieth, nineteen hundred ninety, on the basis of an interest rate of eight and one-quarter per centum per annum, the amount obtained by adding together (A) the present values of all those annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-three of this subdivision), including any portion thereof attributable to the senior colleges, which installments, in the absence of the enactment of chapter nine hundred forty-eight of the laws of nineteen hundred ninety and the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth, and (B) the present value, as of such June thirtieth, of all installments of balance sheet liability (including any portion thereof attributable to the senior colleges), which installments, in the absence of the enactment of such chapter nine hundred forty-eight and the act which added this paragraph, would have remained due and unpaid with respect to fiscal years succeeding such June thirtieth.

(iv) The nineteen hundred ninety UAL credit with respect to such retirement system shall be the remainder obtained by subtracting from the total amount of present values determined pursuant to subparagraph (iii) of this paragraph, the amount of unfunded accrued liability determined pursuant to subparagraph (ii) of this paragraph.

28. "Annual installment of the nineteen hundred ninety UAL credit". Any of twenty equal annual installments of credit with respect to each retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision), which installments, if applied over a period of twenty fiscal years, commencing with the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred ninety and on the basis of interest at the rate of nine per centum per annum, of the nineteen hundred ninety

UAL credit (as defined in paragraph twenty-seven of this subdivision), as applicable to such retirement system.

29. "NYCERS phase-in installment of general nineteen hundred ninety consolidated UAL contribution". (i) With respect to any fiscal year included in the phase-in period (as defined in paragraph eighteen of this subdivision), such phase-in installment shall consist of an installment amount determined in relation to NYCERS in the manner hereinafter provided for in this paragraph.

(ii) The single-year aggregate of recomputed annual installments of UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-five of this subdivision), as applicable to NYCERS for such fiscal year, and one NYCERS computation installment of nineteen hundred ninety BSL (as defined in paragraph thirty-seven of this subdivision) shall be added together.

(iii) From the amount resulting from such addition, there shall be subtracted the amount obtained by adding together (A) one annual installment of the nineteen hundred ninety UAL credit (as defined in paragraph twenty-eight of this subdivision), as applicable to NYCERS and (B) the amount of one NYCERS comprehensive installment of nineteen hundred ninety BSL contribution (as defined in paragraph thirty-eight of this subdivision) applicable to such fiscal year.

(iv) From the remainder resulting from such subtraction, there shall be subtracted the portion of such remainder which is attributable to the senior colleges.

(v) The remainder resulting from the subtraction prescribed by subparagraph (iv) of this paragraph shall be the NYCERS phase-in installment of general nineteen hundred ninety consolidated UAL contribution for such fiscal year.

30. "NYCERS phase-in installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges". With respect to each fiscal year included in the phase-in period (as defined in paragraph eighteen of this subdivision), such phase-in installment shall consist of an installment amount for such fiscal year which shall equal the portion of the remainder computed for the same fiscal year pursuant to subparagraph (iii) of paragraph twenty-nine of this subdivision, which portion is attributable to the senior colleges.

31. "NYCTRS phase-in installment of general nineteen hundred ninety consolidated UAL contribution". (i) With respect to any fiscal year included in the phase-in period (as defined in paragraph eighteen of this subdivision), such phase-in installment shall consist of an installment amount determined in relation to NYCTRS in the manner hereinafter provided for in this paragraph.

(ii) The single-year aggregate of recomputed annual installments of UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-five of this subdivision), as applicable to NYCTRS for such fiscal year, and one NYCTRS computation installment of nineteen hundred ninety BSL (as defined in paragraph thirty-seven of this subdivision) shall be added together.

(iii) From the amount resulting from such addition, there shall be subtracted the amount obtained by adding together (A) one annual installment of the nineteen hundred ninety UAL credit (as defined in paragraph twenty-eight of this subdivision), as applicable to NYCTRS and (B) the amount of one NYCTRS comprehensive installment of nineteen hundred ninety BSL contribution (as defined in paragraph thirty-eight of this subdivision) applicable to such fiscal year.

(iv) From the remainder resulting from such subtraction, there shall be subtracted the portion of such remainder which is attributable to the senior colleges.

(v) The remainder resulting from the subtraction prescribed by subparagraph (iv) of this paragraph shall be the NYCTRS phase-in installment of general nineteen hundred ninety consolidated UAL contribution for such fiscal year.

32. "NYCTRS phase-in installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges". With respect to each fiscal year included in the phase-in period (as defined in paragraph eighteen of this subdivision), such phase-in installment shall consist of an installment amount for such fiscal year which shall equal the portion of the remainder computed for the same fiscal year pursuant to subparagraph (iv) of paragraph thirty-one of this subdivision, which portion is attributable to the senior colleges.

33. "BERS phase-in installment of general nineteen hundred ninety consolidated UAL contribution". (i) With respect to any fiscal year included in the phase-in period (as defined in paragraph eighteen of this subdivision), such phase-in installment shall consist of an installment amount determined in relation to BERS in the manner hereinafter provided for in this paragraph.

(ii) The single-year aggregate of recomputed annual installments of UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph twenty-five of this subdivision), as applicable to BERS for such fiscal year, and one BERS computation installment of nineteen hundred ninety BSL (as defined in paragraph thirty-seven of this subdivision) shall be added together.

(iii) From the amount resulting from such addition, there shall be subtracted the amount obtained by adding together (A) one annual installment of the nineteen hundred ninety UAL credit (as defined in paragraph twenty-eight of this subdivision), as applicable to BERS and (B) the amount of one BERS comprehensive installment of nineteen hundred ninety BSL contribution (as defined in paragraph thirty-eight of this subdivision) applicable to such fiscal year.

(iv) The reminder*5 resulting from the subtraction prescribed by subparagraph (iii) of this paragraph shall be the BERS phase-in installment of general nineteen hundred ninety consolidated UAL contribution for such fiscal year.

34. "Unfunded accrued liability as of June thirtieth, nineteen hundred ninety". With respect to any retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision), the unfunded accrued liability of such retirement system as determined pursuant to subparagraph (ii) of paragraph twenty-seven of this subdivision.

35. "Nineteen hundred ninety balance sheet liability". With respect to any retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of this subdivision), the total present value, determined as of June thirtieth, nineteen hundred ninety on the basis of an interest rate of nine per centum per annum, of all installments of general nineteen hundred ninety BSL contribution (as defined in paragraph twenty-six of this subdivision) and all installments of nineteen hundred ninety BSL contribution attributable to the senior colleges, if any, payable to such retirement system pursuant to the applicable provisions of subdivisions w and y of this section.

36. "Prior BSL contribution". Any of the following as in effect on June thirtieth, nineteen hundred ninety (including any portion thereof attributable to the senior colleges): (i) the BSL contribution of NYCERS determined pursuant to item (iii) of subparagraph (k) of paragraph four of subdivision b of section 13-127 of this title; (ii) the BSL contribution of NYCTRS determined pursuant to subparagraph (c) of paragraph eleven of subdivision f of section 13-527 of this title; and (iii) the BSL contribution of BERS determined pursuant to subparagraph sixteen-b of paragraph (c) of subdivision sixteen of section twenty-five hundred seventy-five of the education law.

37. "Computation installment of nineteen hundred ninety BSL". (i) Any installment amount determined as hereinafter provided in this paragraph.

(ii) The actuary of NYCERS, NYCTRS and BERS shall determine with respect to each such retirement system, as of June thirtieth, nineteen hundred ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph thirty-six of this subdivision) of such retirement system (including any portion thereof attributable to the senior colleges), which installments, in the absence of the enactment of chapter nine hundred forty-eight of the laws of nineteen hundred ninety and the act which added this subdivision, would have remained due and unpaid to such

retirement system as of such June thirtieth.

(iii) The actuary shall determine an amount which, if paid to the contingent reserve fund of such retirement system in thirty-one equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, on the basis of an interest rate of nine per centum per annum, of such present value.

(iv) Each of the first five of such installments determined pursuant to subparagraph (iii) of this paragraph with respect to such retirement system shall be a computation installment of nineteen hundred ninety BSL.

38. "Comprehensive installment of nineteen hundred ninety BSL contribution". (i) An installment amount determined by the actuary of NYCERS, NYCTRS and BERS with respect to each such retirement system in the manner hereinafter provided in this paragraph.

(ii) The actuary shall determine an amount which, if paid to the contingent reserve fund of such retirement system in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, on the basis of an interest rate of nine per centum per annum, of the present value determined pursuant to subparagraph (ii) of paragraph thirty-seven of this subdivision.

(iii) Each of the first five of such installments determined pursuant to subparagraph (ii) of this paragraph with respect to such retirement system shall be a comprehensive installment of nineteen hundred ninety BSL contribution.

39. "NYCERS regular installment of general nineteen hundred ninety consolidated UAL contribution". Any installment payable pursuant to subdivision o of this section.

40. "NYCERS regular installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges". Any installment payable pursuant to subdivision p of this section.

41. "NYCTRS regular installment of general nineteen hundred ninety consolidated UAL contribution". Any installment payable pursuant to subdivision q of this section.

42. "NYCTRS regular installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges". Any installment payable pursuant to subdivision r of this section.

43. "BERS regular installment of general nineteen hundred ninety consolidated UAL contribution". Any installment payable pursuant to subdivision s of this section.

44. "General nineteen hundred ninety consolidated UAL contribution". Any of the following: the general nineteen hundred ninety consolidated UAL contributions for which phase-in installments are determined pursuant to paragraphs twenty-nine, thirty-one and thirty-three of this subdivision, the NYCERS general nineteen hundred ninety consolidated UAL contribution for which regular installments are determined pursuant to subdivision o of this section, the NYCTRS general nineteen hundred ninety consolidated unfunded accrued liability contribution for which regular installments are determined pursuant to subdivision q of this section or the BERS general nineteen hundred ninety consolidated unfunded accrued liability contribution for which regular installments are determined pursuant to subdivision s of this section.

45. "NYCERS installment of general nineteen hundred ninety BSL contribution". Any installment payable pursuant to subdivision v of this section.

46. "NYCERS installment of nineteen hundred ninety BSL contribution attributable to the senior colleges". Any installment payable pursuant to subdivision w of this section.

47. "NYCTRS installment of general nineteen hundred ninety BSL contribution". Any installment payable

pursuant to subdivision x of this section.

48. "NYCTRS installment of nineteen hundred ninety BSL contribution attributable to the senior colleges". Any installment payable pursuant to subdivision y of this section.

49. "BERS installment of general nineteen hundred ninety BSL contribution". Any installment payable pursuant to subdivision z of this section.

50. "UAL subject to consolidated amortization". The amount of the unfunded accrued liability of each of NYCERS, NYCTRS and BERS (including, in the case of NYCERS and NYCTRS any such liability attributable to the senior colleges), which liability, prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and other consolidated UAL contributions designated in subdivision bb of this section.

51. "BSL subject to consolidated amortization". The amount of the balance sheet liability of each of NYCERS, NYCTRS and BERS (including in the case of NYCERS and NYCTRS, any such liability attributable to the senior colleges), which liability, prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and other BSL contributions designated in subdivision bb of this section.

52. "Balance of unfunded UAL subject to consolidated amortization". An amount, separately determined for each of NYCERS, NYCTRS and BERS by its actuary, equal to the present value (based on an interest rate of nine per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions aa and bb of this section) of the UAL subject to the consolidated amortization of such retirement system.

53. "Balance of unfunded BSL subject to consolidated amortization". An amount, separately determined for each of NYCERS, NYCTRS and BERS by its actuary, equal to the present value (based on an interest rate of nine per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions aa and bb of this section) of the BSL subject to the consolidated amortization of such retirement system.

54. "Revised amortization period". The period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten.

55. "Special provisions for funding and financing senior college UAL and BSL amortization". The provisions of the education law and any other law which apply to (i) the time and manner of payment, (ii) payment financing, pre-financing and reimbursement, (iii) determination of city and state shares of payments, (iv) exclusion of UAL and BSL payment obligations from senior college operating expenses and from senior college "approved programs and services", or (v) any other funding of financing method or responsibility, with respect to contribution installments required to be paid by senior college UAL and BSL responsible obligors of each of NYCERS and NYCTRS for the fiscal years included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-three, as designated in subdivision bb of this section.

56. "NYCERS post-June thirtieth, nineteen hundred ninety UAL established pursuant to retirement incentive and part-time employee legislation". The sum obtained by adding together:

(i) The actuarial present value, as required to be computed by section twenty-six of chapter two hundred ten of the laws of nineteen hundred ninety, of the additional benefits payable to NYCERS beneficiaries pursuant to such chapter;

(ii) The actuarial present value, as required to be computed pursuant to section eleven of chapter one hundred seventy-eight of the laws of nineteen hundred ninety-one, of the additional benefits payable to NYCERS beneficiaries pursuant to such chapter;

(iii) The actuarial present value, as computed pursuant to section eleven of chapter six hundred forty-three of the laws of nineteen hundred ninety-two, of the additional benefits payable to NYCERS beneficiaries pursuant to such chapter; and

(iv) The additional accrued employer cost, as computed pursuant to subdivision gg of this section, of providing the rights, benefits and privileges conferred by chapter seven hundred forty-nine of the laws of nineteen hundred ninety-two upon members of NYCERS.

57. "NYCERS balance of retirement incentive and part-time employee UAL". The amount, determined for NYCERS by its actuary, obtained by adding together the present values (based on an interest rate of nine per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid annual installments, as of such June thirtieth, of the amortizations (as prescribed by the provisions of law referred to in subparagraphs (i), (ii), (iii) and (iv) of paragraph fifty-six of this subdivision) of the NYCERS post-June thirtieth, nineteen hundred ninety UAL established pursuant to retirement incentive and part-time employee legislation.

58. "NYCTRS post-June thirtieth, nineteen hundred ninety UAL established pursuant to retirement incentive legislation". The sum obtained by adding together:

(i) The actuarial present value, as required to be computed by section twenty-six of chapter two hundred ten of the laws of nineteen hundred ninety, of the additional benefits payable to NYCTRS beneficiaries pursuant to such chapter;

(ii) The actuarial present value, as required to be computed pursuant to section eleven of chapter one hundred seventy-eight of the laws of nineteen hundred ninety-one, of the additional benefits payable to NYCTRS beneficiaries pursuant to such chapter; and

(iii) The actuarial present value, as required to be computed pursuant to section ten of chapter four hundred ninety-four of the laws of nineteen hundred ninety-two, as amended by chapter eight hundred thirty-seven of the laws of nineteen hundred ninety-two, of the additional benefits payable to NYCTRS beneficiaries pursuant to such chapters.

59. "NYCTRS balance of retirement incentive UAL". The amount, determined for NYCTRS by its actuary, obtained by adding together the present values (based on an interest rate of nine per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid annual installments, as of such June thirtieth, of the amortizations (as prescribed by the provisions of law referred to in subparagraphs (i), (ii) and (iii) of paragraph fifty-eight of this subdivision) of the NYCTRS post-June thirty*,10 nineteen hundred ninety UAL established pursuant to retirement incentive legislation.

60. "BERS post-June thirtieth, nineteen hundred ninety UAL established pursuant to retirement incentive and part-time employee legislation". The sum obtained by adding together:

(i) the actuarial present value, as required to be computed by section twenty-six of chapter two hundred ten of the laws of nineteen hundred ninety, of the additional benefits payable to BERS beneficiaries pursuant to such chapter; and

(ii) the additional accrued employer cost, as computed pursuant to subdivision gg of this section, of providing the rights, benefits and privileges conferred by chapter seven hundred forty-nine of the laws of nineteen hundred ninety-two upon members of BERS.

61. "BERS balance of retirement incentive and part-time employee UAL". The amount, determined for BERS by its actuary, obtained by adding together the present values (based on an interest rate of nine per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid annual installments, as of such June thirtieth, of the amortizations (as prescribed by the provisions of law referred to in subparagraphs (i) and (ii) of paragraph sixty of this subdivision) of the BERS post-June thirtieth, nineteen hundred ninety UAL established pursuant to retirement

incentive and part-time employee legislation.

62. "Retirement incentive act". Any of the following: chapter two hundred ten of the laws of nineteen hundred ninety, chapter one hundred seventy-eight of the laws of nineteen hundred ninety-one, chapter four hundred ninety-four of the laws of nineteen hundred ninety-two, chapter six hundred forty-three of the laws of nineteen hundred ninety-two and chapter eight hundred thirty-seven of the laws of nineteen hundred ninety-two.

63. "Retirement incentive responsible obligor". Subject to the provisions of paragraph seven of subdivision ii of this section, the term "retirement incentive responsible obligor" shall mean a responsible obligor which, under the provisions of a retirement incentive act, or any other law applicable to contributions required by a retirement incentive act to fund additional retirement incentive benefits thereunder, was required, prior to July first, nineteen hundred ninety-three, to make contributions to fund additional retirement benefits payable to beneficiaries of a retirement system under such retirement incentive act.

64. "Part-time employee responsible obligor". (i) With respect to NYCERS, the term "part-time employee responsible obligor" shall mean any responsible obligor to which paragraph two of subdivision gg of this section applied prior to July first, nineteen hundred ninety-three.

(ii) With respect to BERS, such term shall mean any responsible obligor to which paragraph three of such subdivision applied prior to July first, nineteen hundred ninety-three.

65. "Beneficiary." A person in receipt of a pension, an annuity, a retirement allowance, a death benefit or any other benefit provided by a retirement system.

66. "NYCERS 1995 UAL". The unfunded accrued liability of NYCERS as of June thirtieth, nineteen hundred ninety-five (excluding the NYCERS 1995 balance of BSL, as defined in paragraph sixty-nine of this subdivision), as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight and three-quarters per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to NYCERS for the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year.

67. "NYCTRS 1995 UAL". The unfunded accrued liability of NYCTRS as of June thirtieth, nineteen hundred ninety-five (excluding the NYCTRS 1995 balance of BSL, as defined in paragraph seventy of this subdivision), as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight and three-quarters per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to NYCTRS for the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year.

68. "BERS 1995 UAL". The unfunded accrued liability of BERS as of June thirtieth, nineteen hundred ninety-five (excluding the BERS 1995 balance of BSL, as defined in paragraph seventy-one of this subdivision), as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight and three-quarters per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to BERS for the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year.

69. "NYCERS 1995 balance of BSL". The present value, as determined by the actuary as of June thirtieth, nineteen hundred ninety-five on the basis of an interest rate of eight and three-quarters per centum per annum, of the total of all contribution installments which, in the absence of the enactment of the act which added this paragraph, would be payable to NYCERS for fiscal years beginning on or after July first, nineteen hundred ninety-five pursuant to subparagraphs (ii) and (iv) of paragraph two of subdivision hh of this section and paragraphs four, five, six and seven of such subdivision.

70. "NYCTRS 1995 balance of BSL". The present value, as determined by the actuary as of June thirtieth, nineteen hundred ninety-five on the basis of an interest rate of eight and three-quarters per centum per annum, of the total of all contribution installments which, in the absence of the enactment of the act which added this paragraph, would be payable to NYCTRS for fiscal years beginning on or after July first nineteen hundred ninety-five pursuant to subparagraphs (ii) and (iv) of paragraph two of subdivision hh of this section and paragraphs four, five, six and seven of such subdivision.

71. "BERS 1995 balance of BSL". The present value, as determined by the actuary as of June thirtieth, nineteen hundred ninety-five on the basis of an interest rate of eight and three-quarters per centum per annum, of the total of all contribution installments which, in the absence of the enactment of the act which added this paragraph, would be payable to BERS for fiscal years beginning on or after July first, nineteen hundred ninety-five pursuant to subparagraph (ii) of paragraph three of subdivision hh of this section and paragraphs four, five and seven of such subdivision.

72. "Fifteen-year amortization period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

73. "NYCERS 1999 UAL". The unfunded accrued liability of NYCERS as of June thirtieth, nineteen hundred ninety-nine attributable as of that date to the obligations set forth in item (ii) of subparagraph (a) of paragraph two of subdivision b of section 13-127 of this title, as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to NYCERS for the nineteen hundred ninety-nine-two thousand fiscal year, provided, however, that in the event such calculation of unfunded accrued liability produces a negative amount, the NYCERS 1999 UAL shall be zero.

74. "NYCTRS 1999 UAL". The unfunded accrued liability of NYCTRS as of June thirtieth, nineteen hundred ninety-nine attributable as of that date to the obligations set forth in paragraph (1) of subdivision b of section 13-527 of this title, as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to NYCTRS for the nineteen hundred ninety-nine-two thousand fiscal year, provided, however, that in the event such calculation of unfunded accrued liability produces a negative amount, the NYCTRS 1999 UAL shall be zero.

75. "BERS 1999 UAL". The unfunded accrued liability of BERS as of June thirtieth, nineteen hundred ninty-nine attributable as of that date to the obligations set forth in item (i) of subparagraph four of paragraph (c) of subdivision sixteen of section twenty-five hundred seventy-five of the education law, as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to BERS for the nineteen hundred ninety-nine-two thousand fiscal year, provided, however, that in the event such calculation of unfunded accrued liability produces a negative amount, the NYCBERS 1999 UAL shall be zero.

76. "Eleven-year amortization period". The period beginning on July first, nineteen hundred ninety-nine and ending on June thirtieth, two thousand ten.

b. (1) For the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city and other responsible obligors into the contingent reserve fund of any retirement system (and into pension reserve fund number two in the case of NYCTRS) in any fiscal year of the city mentioned in the succeeding provisions of this subdivision, "regular interest" shall mean interest at the rate per centum per annum, compounded annually, prescribed for such retirement system with respect to such fiscal year by the applicable provisions of this subdivision.

(2) With respect to each retirement system, such rate of interest shall be as hereinafter set forth in this paragraph:

| Retirement System | Rate of interest per centum per annum, compounded annually | First day and last day of fiscal year or series of fiscal years for which rate is effective |
|---|---|---|
| NYCERS | 8% | July 1, 2004 to June 30, 2009 |
| NYCTRS | 8% | July 1, 2004 to June 30, 2009 |
| PPF | 8% | July 1, 2004 to June 30, 2009 |
| FPF | 8% | July 1, 2004 to June 30, 2009 |
| BERS | 8% | July 1, 2004 to June 30, 2009 |

c. Nothing contained in subdivision b of this section shall be construed as prescribing in relation to any retirement system, for the purpose of crediting interest to individual accounts in the annuity savings fund or to reserve-for-increased-take-home-pay or for any other purpose besides that specified in such subdivision, a rate of regular interest other than as prescribed by the application provisions of the definition of regular interest set forth in the retirement act of such retirement system and in any other laws applicable to purposes other than that set forth in subdivision b of this section.

d. For the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city or other responsible obligors into the contingent reserve fund (including pension reserve fund number two in the case of NYCTRS) of any retirement system in any fiscal year of the city succeeding the last fiscal year for which subdivision b of this section prescribes a valuation rate of interest with respect to such retirement system, "regular interest" shall mean interest at such rate per annum, compounded annually, as shall be prescribed with respect to such retirement system in subdivision b of this section by an amendment thereto enacted by the legislature.

e. On or after September first of the last city fiscal year for which a valuation rate of interest is prescribed by sudivision b of this section with respect to a retirement system, and no later than December thirty-first next succeeding such September first, the board of trustees of such retirement system shall submit to the governor, the temporary president and minority leader of the senate, the speaker of the assembly, the majority and minority leaders of the assembly, the state superintendent of insurance, the chairman of the permanent commission on public employee pension and retirement systems, the mayor of the city, and the council of the city (by transmittal to the city clerk), the written recommendations of such board as to the rate of interest and effective period thereof which should be established by law as the valuation rate of interest to be used for such retirement system after such last fiscal year.

f. (1) Subject to the provisions of subdivision h of this section, during the applicable period specified in paragraph two of this subdivision, special interest at the rate prescribed by the applicable provisions of such paragraph two shall be allowed with respect to the individual account of each member in the annuity savings fund of each retirement system with respect to which such interest is allowed.

(2) Such special interest shall be allowed at the rates and for the periods set forth below in this paragraph:

| Retirement System | Rate of interest per centum per annum, compounded annually | First day and last day of fiscal year or series of fiscal years for which rate is effective |
|---|---|---|
| NYCERS | 1 1/4% | July 1, 2004 to June 30, 2009 |
| NYCTRS | 1 1/4% | July 1, 2004 to June 30, 2009 |
| PPF | 1 1/4% | July 1, 2004 to June 30, 2009 |
| FPF | 1 1/4% | July 1, 2004 to June 30, 2009 |
| BERS | 1 1/4% | July 1, 2004 to June 30, 2009 |

(3) Such special interest provided for by paragraphs one and two of this subdivision shall be credited to such individual account of each member entitled thereto in the same manner and at the same time as regular interest is required to be credited to such account with respect to the same period of time. Such special interest shall not be considered in determining rates of contributions of members. Nothing contained in this subdivision f shall be construed as applicable to any member of a retirement system who is subject to the provisions of article fourteen of the retirement and social security law or article fifteen of such law.

g. (1) Subject to the provisions of subdivision h of this section, during the applicable period specified in paragraph two of this subdivision, in the determination the reserve-for-increased-take-home-pay of each member of a retirement system entitled to such a reserve, additional interest at the rate prescribed by the applicable provisions of such paragraph two shall be included.

(2) Such additional interest shall be included at the rates and for the periods set forth below in this paragraph:

| Retirement System | Rate of interest per centum per annum, compounded annually | First day and last day of fiscal year or series of fiscal years for which rate is effective |
|---|---|---|
| NYCERS | 1 1/4% | July 1, 2004 to June 30, 2009 |
| NYCTRS | 1 1/4% | July 1, 2004 to June 30, 2009 |
| PPF | 1 1/4% | July 1, 2004 to June 30, 2009 |
| FPF | 1 1/4% | July 1, 2004 to June 30, 2009 |
| BERS | 1 1/4% | July 1, 2004 to June 30, 2009 |

(3) Additional interest shall not be considered in determining rates of contribution of members. Nothing contained in this subdivision shall be construed as applicable to any member of a retirement system who is subject to the provisions of article fourteen of the retirement and social security law or article fifteen of such law.

h. (1) In any case where:

(A) the provisions of paragraph two of subdivision f or paragraph two of subdivision g of this section are amended so as to prescribe for any retirement system with respect to any fiscal year of the city a rate of special interest or additional interest different from that applicable to such retirement system for the next preceding fiscal year; and

(B) the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of such amendment is later than the first day of the fiscal year in which such changed rate takes effect; and

(C) during the period beginning on such first day and ending on the day next preceding such date of enactment, a member of such retirement system dies or the retirement allowance or vested rights deferred retirement allowance of such member becomes payable; the applicable rate of special interest or additional interest, as the case may be, for such next proceding fiscal year shall apply to the crediting of special interest or additional interest in favor or such member for the portion of such period preceding such death or the commencement of payability of such retirement allowance.

(2) (i) Nothing contained in subdivisions f and g of this section shall be construed as granting special or additional interest, as the case may be, to any person with respect to any period wherein (A) such person was not a member entitled to be credited with regular interest for the same period in the annuity savings fund or with respect to his or her reserve-for-increased-take-home-pay or (B) was not a discontinued member entitled to be credited as a discontinued member with regular interest for the same period.

(ii) Nothing contained in such subdivisions f and g shall be construed (A) as granting special interest with respect to the total accumulated contributions (as defined in subdivision seven of section 13-313 of this title) of an original plan member (as defined in subdivision four-b of such section 13-313) of FPF while he or she is such a member

or (B) as granting additional interest with respect to an accumulation-for-increased-take-home-pay (as defined in subdivision fifteen of such section 13-313) of an original plan member while he or she is such a member.

i. (1) Subject to the provisions of paragraph three of this subdivision, in addition to regular interest annually allowed for the applicable period specified in paragragh two of this subdivision on the mean amount for the preceding year in each fund creditable with supplementary interest (as defined in paragraph fifteen of subdivision a of this section) of each retirement system, there shall be annually allowed with respect to such period supplementary interest at the rate specified in such paragraph two on such mean amount for the preceding year in such fund. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(2) Such supplementary interest shall be allowed at the rates and for the periods set forth below in this paragraph:

| Retirement System | Rate of interest per centum per annum, compounded annually | First day and last day of fiscal year or series of fiscal years for which rate is effective |
|---|---|---|
| NYCERS | 1% | July 1, 1999 to June 30, 2006 |
| NYCTRS | 1% | July 1, 1999 to June 30, 2006 |
| PPF | 1% | July 1, 1999 to June 30, 2006 |
| FPF | 1% | July 1, 1999 to June 30, 2006 |
| BERS | 1% | July 1, 1999 to June 30, 2006 |

(3) The provisions of paragraphs one and two of this subdivision shall not apply to or affect (i) the allowance of interest or the crediting of interest to accounts of members or discontinued members in the annuity savings fund or (ii) the allowance of interest on or the crediting of interest to reserve-for-increased-take-home-pay of members or discontinued members or (iii) the determination of the amount of any benefit payable to any member or beneficiary of a retirement system.

j. On or after September first of the last city fiscal year for which special, additional and supplementary interest are allowed with respect to a retirement system pursuant to the provisions of subdivisions f, g and i of this section, and no later than December thirty-first next succeeding such September first, the board of trustees of such retirement system shall submit to the public officers and body referred to in subdivision e of this section the written recommendations of such board:

(1) as to whether legislation should be enacted providing for the crediting of special interest to members of such retirement system after such last fiscal year and if so, the recommended rate thereof and duration of such crediting; and

(2) as to whether legislation should be enacted providing that in the determination of reserves-for-increased-take-home-pay of members of such retirement system entitled to such a reserve, additional interest shall be included for any period after such last fiscal year, and if so, the recommended rate thereof and the period as to which such interest should be included; and

(3) as to whether legislation should be enacted providing for the crediting of supplementary interest after such last fiscal year to funds creditable with supplementary interest of such retirement system and if so, the recommended rate thereof and duration of such crediting.

k. (1)(i) Subject to the provisions of subparagraphs (iii) and (iv) of this paragraph, in any case where the valuation rate of interest for a retirement system is changed by law for any period beginning on or after July first, two thousand four, or where the board of trustees of a retirement system, for any period beginning on or after July first, nineteen hundred ninety-nine, adopts changed actuarial tables used in valuing the liabilities of such retirement system,

or where a significant change in an actuarial valuation method (as defined in paragraph sixteen of subdivision a of this section) is made for any period beginning on or after July first, nineteen hundred ninety-nine in relation to a retirement system, the actuary thereof shall calculate, as of June thirtieth next preceding the first day of the fiscal year for which such changed rate or changed tables or significant change in an actuarial valuation method first becomes or became effective, an unfunded accrued liability adjustment applicable to each responsible obligor in relation to such retirement system.

(ii) Any such adjustment (or adjustments in the aggregate) shall be designed to amortize in installments over a period and by such method as shall be established by the board of trustees or retirement board of such retirement system on the recommendation of its actuary, and commencing on such first day, the increase or decrease in the actuarial accrued liability of such retirement system or pension fund resulting from any such change or changes. Such period of amortization shall be not less than ten city fiscal years nor more than twenty such years.

(iii) No unfunded accrued liability adjustment shall be established under this subdivision for any retirement system with respect to any change in actuarial tables or significant change in an actuarial valuation method, where such changed tables or changed method apply or applies to such retirement system with respect to determination of any of the NYCERS 1999 UAL, the NYCTRS 1999 UAL, the BERS 1999 UAL, the PPF 1999 UAL (as defined in paragraph thirty-two of subdivision a of section 13-638.3 of the code, as added by chapter six hundred eight of the laws of nineteen hundred ninety-one) or the FPF 1999 UAL (as defined in paragraph thirty-two of subdivision a of section 13-683.3*6 of the code, as added by chapter six hundred ten of the laws of nineteen hundred ninety-one), whether such change is adopted before or after July first, nineteen hundred ninety-nine. Nothing contained in this subdivision shall be construed as requiring the continuation after June thirtieth, nineteen hundred ninety-nine of the amortization of any unfunded accrued liability adjustment established under this subdivision prior to such June thirtieth.

(iv) No unfunded accrued liability adjustment shall be established under this subdivision for any retirement system with respect to any change in the valuation rate of interest, change in actuarial tables or significant change in an actuarial valuation method if (A) such unfunded accrued liabilities, when added to any existing unfunded accrued liability, would result in the total of all unfunded accrued liabilities for that retirement system equaling less than zero, or if (B) the change in unfunded actuarial liability for that retirement system would cause an increase or decrease of less than ten percent in the actuarial accrued liability (computed pursuant to the entry age normal cost method of determining such liability) and the actuary concludes that such an unfunded accrued liability need not be established.

(2) Subject to the provisions of the succeeding paragraphs of this subdivision and subdivision 1 of this section, each such unfunded accrued liability adjustment shall be calculated with respect to the affected responsible obligor, and shall be paid by or credited to such obligor, as the case may be, in accordance with the appropriate methods set forth in subdivisions b to v, inclusive, of section 13-638.1 of this subchapter.

(3) (i) Each such unfunded accrued liability adjustment (other than any such adjustment attributable to employees of the senior colleges of the city university) shall be known by a title consisting of the numerical designation of the calendar year in which the first fiscal year of the applicable amortization period begins, followed by the words "unfunded accrued liability adjustment attributable to," followed by the name of the responsible obligor with respect to which such adjustment was calculated.

(ii) Each such unfunded accrued liability adjustment attributable to employees of such senior colleges which is calculated for NYCERS shall be known by a title consisting of the numerical designation of the calendar year in which the first fiscal year of the applicable amortization period begins, followed by the words "NYCERS unfunded accrued liability adjustment attributable to the senior colleges."

(iii) Each such unfunded accrued liability adjustment attributable to employees of such senior colleges which is calculated for NYCTRS shall be known by a title consisting of the numerical designation of the calendar year in which the first fiscal year of the applicable amortization period begins, followed by the words "NYCTRS unfunded accrued

liability adjustment attributable to the senior colleges."

(4) For the purpose of applying the provisions of subdivisions b to v, inclusive, of section 13-638.1 as prescribed by paragraph two of this subdivision:

(i) the term "valuation rate of interest" appearing in such provisions shall mean the applicable valuation rate of interest, as defined in paragraph eleven of subdivision a of this section; and

(ii) wherever the words "nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year" appear in such subdivisions, there shall be deemed to be substituted therefor the numerical designation of the city fiscal year next preceding the first fiscal year of the amortization period applicable pursuant to paragraph one of this subdivision; and

(iii) wherever the words, "nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year" appear in such subdivisions, there shall be deemed to be substituted therefor the numerical designation of the first city fiscal year of such amortization period; and

(iv) wherever the words "June thirtieth, nineteen hundred eighty-eight" appear in such subdivisions, there shall be deemed to be substituted therefor the numerical designation of the month, day and year of the June thirtieth next preceding the first day of such amortization period; and

(v) wherever the words "nineteen hundred eighty-eight unfunded accrued liability adjustment" appear in such subdivisions, there shall be deemed to be substituted therefor the numerical designation of the calendar year in which such amortization period begins, followed by the words "unfunded accrued liability adjustment"; and

(vi) wherever the words "nineteen hundred ninety-seven-nineteen hundred ninety-eight" appear in such subdivisions, there shall be deemed to be substituted therefor the numerical designation of the last city fiscal year of the applicable amortization period.

l. (1) In any case where the valuation rate of interest for a retirement system is changed by law for any period beginning on or after July first, two thousand four, and as of June thirtieth next preceding the fiscal year for which such change first becomes effective, there remain unpaid or uncredited, as the case may be, with respect to such retirement system, any installments of (i) the NYCERS 1999 UAL, (ii) the NYCTRS 1999 UAL, (iii) the BERS 1999 UAL, (iv) any post-June thirtieth, nineteen hundred ninety-nine unfunded accrued liability adjustment (as defined in paragraph seventeen of subdivision a of this section), (v) any contribution to PPF referred to in subdivision p of section 13-638.3 of this subchapter (as added by chapter six hundred eight of the laws of nineteen hundred ninety-one), (vi) any contribution to FPF referred to in subdivision p of section 13-638.3 of this subchapter (as added by chapter six hundred ten of the laws of nineteen hundred ninety-one) or (vii) any other contribution by a responsible obligor to a retirement system (other than the normal contribution) which may be required by law for the purpose of funding any unfunded liability or funding deficiency of such retirement system, such remaining installments shall be recomputed by the actuary so that the present value of such recomputed installments, calculated as of such June thirtieth on the basis of such changed valuation rate, shall equal the present value of such remaining installments, calculated as of such June thirtieth on the basis of the valuation rate in effect immediately prior to such change.

(2) In each fiscal year succeeding such June thirtieth, one of such recomputed installments shall be paid by or credited to, as the case may be, the responsible obligor or responsible obligors with respect to such retirement system in the same manner as the corresponding prior installments were paid or credited, until all such remaining installments are paid or credited in full; provided, however, that until all such installments are so disposed of, they shall be recomputed and paid or credited in recomputed form pursuant to this subdivision for each subsequent change in such valuation rate.

m. Notwithstanding any other provision of law to the contrary, all NYCERS, NYCTRS and BERS installments of the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five

unfunded accrued liability adjustment, the nineteen hundred eighty-six unfunded accrued liability adjustment and the nineteen hundred eighty-eight unfunded accrued liability adjustment and all installments of the post June thirtieth, nineteen hundred eighty-nine unfunded accrued liability adjustment established with respect to BERS pursuant to subdivision k of this section and all NYCERS, NYCTRS and BERS installments of amortization of bond sale gains and losses and all NYCERS, NYCTRS and BERS installments of funding of supplemental retirement allowances, which installments, in the absence of the enactment of chapter nine hundred forty-eight of the laws of nineteen hundred ninety and the act which first amended this subdivision, would otherwise be due from and payable by any responsible obligor to NYCERS, NYCTRS or BERS (or be creditable to such obligor) with respect to any fiscal year or period beginning on or after July first, nineteen hundred ninety (including all such NYCERS or NYCTRS installments attributable to the senior colleges as defined or referred to in subdivisions seven, eight, eight-a, eight-b, eight-c, eight-d, eight-e and eight-f of section sixty-two hundred two of the education law and subdivision one of section sixty-two hundred thirty-one of such law) are hereby cancelled as of such July first and shall not be due and payable (or creditable) on or after such July first.

n. The actuary of each retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of subdivision a of this section) shall determine the amount of the difference obtained by subtracting (A) the outstanding balance, as of June thirtieth, nineteen hundred ninety-five, of the nineteen hundred ninety balance sheet liability (as defined in paragraph thirty-five of subdivision a of this section) of such retirement system for (B) the outstanding balance, as of such June thirtieth, of the unfunded accrued liability as of June thirtieth, nineteen hundred ninety (as defined in paragraph thirty-four of subdivision a of this section) of such retirement system.

o. (1) From the amount of the difference determined pursuant to subdivision n of this section in relation to NYCERS, there shall be subtracted the portion thereof which is attributable to the senior colleges.

(2) The actuary of NYCERS shall determine an amount which, when paid into the contingent reserve fund of NYCERS in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the remainder computed pursuant to paragraph one of this subdivision.

(3) Such amount determined in relation to such installments shall be payable in regular installments as provided for in subdivision bb of this section.

p. (1) The actuary of NYCERS shall determine an amount which, when paid by the state and the city into the contingent reserve fund of NYCERS pursuant to section sixty-two hundred thirty-one of the education law in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of difference attributable to the senior colleges, as determined pursuant to the provisions of subdivision n of this section in relation to NYCERS.

(2) Such amount determined in relation to such installments shall be payable in regular installments as provided for in subdivision bb of this section.

q. (1) From the amount of the difference determined pursuant to subdivision n of this section in relation to NYCTRS there shall be subtracted the amount thereof which is attributable to the senior colleges.

(2) The actuary shall determine an amount which, when paid into the contingent reserve fund of NYCTRS in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the remainder computed pursuant to paragraph one of this subdivision.

(3) Such amount determined in relation to such installments shall be payable in regular installments as provided for in subdivision bb of this section.

r. (1) The actuary of NYCTRS shall determine an amount which, when paid by the state and the city into the contingent reserve fund of NYCTRS pursuant to section sixty-two hundred thirty-one of the education law in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of difference attributable to the senior colleges, as determined pursuant to the provisions of paragraph one of subdivision q of this section in relation to NYCTRS.

(2) Such amount determined in relation to such installments shall be payable in installments as provided for in subdivision bb of this section.

s. (1) The actuary shall determine an amount which, when paid into the contingent reserve fund of BERS in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of difference computed pursuant to subdivision n of this section in relation to BERS.

(2) Such amount determined in relation to such installments shall be payable in installments as provided for in subdivision bb of this section.

t. Notwithstanding any other provision of law to the contrary, no installments of prior balance sheet liability contribution (as defined in paragraph thirty-six of subdivision a of this section) shall be due from or payable by any responsible obligor to NYCERS, NYCTRS or BERS with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety.

u. The actuary of NYCERS, NYCTRS and BERS shall determine with respect to each such retirement system, as of June thirtieth, nineteen hundred ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph thirty-six of subdivision a of this section) of such retirement system (including any portion thereof attributable to the senior colleges), which installments, in the absence of the enactment of chapter nine hundred forty-eight of the laws of nineteen hundred ninety and the act which added this subdivision, would have remained due and unpaid to such retirement system as of such June thirtieth.

v. (1) From the amount of present value determined pursuant to subdivision u of this section in relation to NYCERS, there shall be subtracted the portion thereof which is attributable to the senior colleges.

(2) The actuary of NYCERS shall determine an amount which, when paid to the contingent reserve fund of such retirement system in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of an interest rate of nine per centum per annum, of the remainder computed pursuant to paragraph one of this subdivision.

(3) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision bb of this section, shall constitute the NYCERS general nineteen hundred ninety BSL contribution.

w. (1) The actuary of NYCERS shall determine an amount which, when paid by the state and the city into the contingent reserve fund of NYCERS pursuant to section sixty-two hundred thirty-one of the education law in twenty equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of present value attributable to the senior colleges, as determined pursuant to the provisions of subdivision v of this section in relation to NYCERS.

(2) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision bb of this section, shall constitute the NYCERS nineteen hundred ninety BSL contribution

attributable to the senior colleges.

x. (1) From the amount of present value determined pursuant to subdivision u of this section in relation to NYCTRS, there shall be subtracted the portion thereof which is attributable to the senior colleges.

(2) The actuary of NYCTRS shall determine an amount which, when paid to the contingent reserve fund of such retirement system in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the remainder computed pursuant to paragraph one of this subdivision.

(3) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision bb of this section, shall constitute the NYCTRS general nineteen hundred ninety BSL contribution.

y. (1) The actuary of NYCTRS shall determine an amount which, when paid by the state and the city into the contingent reserve fund of NYCTRS pursuant to section sixty-two hundred thirty-one of the education law in twenty equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of present value attributable to the senior colleges, as determined pursuant to the provisions of subdivision x of this section in relation to NYCTRS.

(2) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision bb of this section, shall constitute the NYCTRS nineteen hundred ninety BSL contribution attributable to the senior colleges.

z. (1) The actuary of BERS shall determine an amount which, when paid to the contingent reserve fund of such retirement system in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of nine per centum interest per annum, of the amount of present value determined pursuant to subdivision u of this section in relation to BERS.

(2) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision bb of this section, shall constitute the BERS general nineteen hundred ninety BSL contribution.

aa. (1) Subject to the provisions of paragraph three of this subdivision and subject to the provisions of sections 13-130 and 13-132 of this title in the case of NYCERS, and subject to the provisions of section 13-529 thereof in the case of NYCTRS, and subject to the provisions of paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law in the case of BERS, in each fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the general UAL and BSL responsible obligors (as defined in paragraph ten-a of subdivision a of this section) in relation to each retirement system undergoing consolidated UAL funding (as defined in paragraph twenty of subdivision a of this section) shall pay into its contingent reserve fund:

(i) their respective shares of the installment amount allocated to such fiscal year for payment on account of general nineteen hundred ninety consolidated UAL contribution (as defined in paragraph forty-four of subdivision a of this section) of such retirement system; and

(ii) their respective shares of the installment amount allocated to such fiscal year for payment on account of the general nineteen hundred ninety BSL contribution (as defined in paragraph twenty-six of subdivision a of this section) of such retirement system.

(2) With respect to each fiscal year included in the period beginning on July first, nineteen hundred ninety and

ending on June thirtieth, two thousand ten:

(i) the state, at the time and in the manner prescribed by the applicable provisions of section sixty-two hundred thirty-one of the education law, shall contribute to NYCERS or NYCTRS, as the case may be, the state's share of:

(A) the NYCERS phase-in installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges (as defined in paragraph thirty of subdivision a of this section) or the NYCERS regular installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges (as defined in paragraph forty of subdivision a of this section) applicable to such fiscal year, as the case may be; and

(B) the NYCTRS phase-in installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges (as defined in paragraph thirty-two of subdivision a of this section) or the NYCTRS regular installment of nineteen hundred ninety consolidated UAL contribution attributable to the senior colleges (as defined in paragraph forty-two of subdivision a of this section) applicable to such fiscal year, as the case may be; and

(C) the NYCERS installment of nineteen hundred ninety BSL contribution attributable to the senior colleges (as defined in paragraph forty-six of subdivision a of this section) applicable to such fiscal year; and

(D) the NYCTRS installment of nineteen hundred ninety BSL contribution attributable to the senior colleges (as defined in paragraph forty-eight of subdivision a of this section); and

(ii) the city, at the time and in the manner prescribed by the applicable provisions of such section of the education law, shall contribute to each affected retirement system, the city's share, as prescribed by such provisions, of the applicable installment amount or amounts allocated to such fiscal year for payment on account of the UAL contribution and BSL contribution referred to in subparagraph (i) of this paragraph.

(3) Each installment amount payable as provided for in paragraphs one and two of this subdivision shall be in the applicable sum prescribed in the schedule of twenty-year amortization set forth in subdivision bb of this section.

(4) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of subdivisions n through z, inclusive, of this section, and the affected provisions of subdivision bb thereof, and the preceding paragraphs of this subdivision shall be superseded in the manner prescribed by the provisions of subdivision hh of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the revised amortization period.

bb. Subject to the provisions of subdivisions k and l of this section, installments of the contributions to NYCERS, NYCTRS and BERS provided for by subdivisions n to aa, inclusive, of this section shall be paid by general UAL and BSL responsible obligors (as defined in paragraph ten-a of subdivision a of this section) and senior college responsible obligors (as defined in paragraph ten-b of subdivision a of this section) in accordance with the schedule of twenty-year amortization set forth below in this subdivision.

cc. Subject to the provisions of section sixty-two hundred thirty-one of the education law in relation to contributions on account of the senior colleges, the applicable provisions of subdivision c of section 13-133 of this title and subdivision c of section 13-533 thereof and paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law shall govern the time and manner of payment, within each fiscal year, of contributions payable with respect to such fiscal year to NYCERS, NYCTRS or BERS pursuant to the provisions of subdivisions n to bb, inclusive, of this section. Nothing contained in this section shall be construed as amending, modifying or changing such provisions of this title or the provisions of any other law relating to the time of payment, within a fiscal year, of contributions payable to such retirement systems with respect to such fiscal year.

dd. For the purpose of determining the amount of any installment of the contributions payable to NYCERS, NYCTRS or BERS pursuant to the provisions of subdivisions n to bb, inclusive, of this section, the actuary of such retirement system may use methods of calculation other than those set forth in such provisions, so long as such other methods produce in relation to such installment an amount equal to that produced by the methods of calculation set forth in such provisions.

ee. Any amount required to be contributed to NYCERS, NYCTRS or BERS by a responsible obligor with respect to any fiscal year under the provisions of subdivisions n to bb, inclusive, of this section shall be payable with interest on such amount at the valuation rate of interest for such retirement system for such fiscal year.

ff. In the determination of the normal contribution payable to NYCERS, NYCTRS or BERS with respect to each fiscal year of the city occurring during the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such retirement system pursuant to subdivisions n to bb, inclusive, of this section shall be treated as an asset of such retirement system.

gg. (1) On the basis of the valuation rate of interest and the actuarial tables in effect as of June thirtieth, nineteen hundred ninety-three, the actuary of each retirement system shall, as of such June thirtieth, determine:

(i) the additional accrued employer cost of providing the rights, benefits and privileges conferred by the provisions of the act which added this subdivision upon members of NYCERS; and

(ii) the additional accrued employer cost of providing the rights, benefits and privileges conferred by such provisions upon members of BERS.

(2) Subject to the provisions of section 13-130 and 13-131 of the code, the city shall pay to the contingent reserve fund of NYCERS in seventeen equal annual installments, commencing with payment of a first installment in the city's nineteen hundred ninety-three-nineteen hundred ninety-four fiscal year, an amount which, when paid in such installments, is the actuarial equivalent of the amount determined pursuant to subparagraph (i) of paragraph one of this subdivision.

(3) Subject to the provisions of subparagraphs one and two of paragraph (J) of subdivision sixteen of section twenty-five hundred seventy-five of the education law, the board of education of the city shall pay to the contingent reserve fund of BERS in seventeen equal annual installments, commencing with payment of a first installment in the city's nineteen hundred ninety-three-nineteen hundred ninety-four fiscal year, an amount which, when paid in such installments, is the actuarial equivalent of the amount determined pursuant to subparagraph (ii) of paragraph one of this subdivision.

(4) The additional employer cost of providing the rights, benefits and privileges conferred by the provisions of the act which added this subdivision upon members of NYCERS and BERS, other than the additional accrued employer cost of providing such rights, benefits and privileges to be funded in accordance with paragraphs two and three of this subdivision, shall be funded through the normal contributions to NYCERS and BERS, commencing with the normal contributions for the city's nineteen hundred ninety-three-nineteen hundred ninety-four fiscal year.

hh. (1) All NYCERS, NYCTRS and BERS installments of UAL and BSL contribution designated in subdivision bb of this section as payable by any general UAL and BSL responsible obligor or senior college UAL and BSL responsible obligor for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph four of this subdivision, the actuary of NYCERS and NYCTRS shall separately determine for each such retirement system:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the portion of the balance of unfunded UAL subject to consolidated amortization of NYCERS or NYCTRS, as the case may be, which portion is non*11 attributable to the senior colleges, together with interest on such portion;

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the portion of the balance of unfunded BSL subject to consolidated amortization of NYCERS or NYCTRS, as the case may be, which portion is not attributable to the senior colleges, together with interest on such portion;

(iii) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the portion of the balance of unfunded UAL subject to consolidated amortization of NYCERS or NYCTRS, as the case may be, which portion is attributable to the senior colleges, together with interest on such portion; and

(iv) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the portion of the balance of unfunded BSL subject to consolidated amortization of NYCERS or NYCTRS, as the case may be, which portion is attributable to the senior colleges, together with interest on such portion.

(3) Subject to the provisions of paragraph four of this subdivision, the actuary of BERS shall determine for such

retirement system:

(i) a schedule of contribution installments one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the BERS balance of unfunded UAL subject to consolidated amortization, together with interest on such balance; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the BERS balance of unfunded BSL subject to consolidated amortization, together with interest on such balance.

(4) (i) The actuary shall determine each schedule of contribution installments referred to in paragraphs two and three of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of nine per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) other than nine per centum per annum is prescribed by law for NYCERS, NYCTRS or BERS for any fiscal year included in the revised amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to the retirement system to which such changed rate of interest applies, shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(5) (i) Subject to the provisions of subparagraph (ii) of this paragraph, and subject to the provisions of sections 13-130 and 13-132 of this title in the case of NYCERS, and subject to the provisions of section 13-529 thereof in the case of NYCTRS, and subject to the provisions of paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law in the case of BERS, in each fiscal year of the revised amortization period the general UAL and BSL responsible obligors of each of NYCERS, NYCTRS and BERS shall pay into its contingent reserve fund their respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to subparagraphs (i) and (ii) of paragraph two of this subdivision and paragraph three thereof.

(ii) The provisions of law which apply to the time and manner of payment and payment financing of contribution installments required to be paid by general UAL and BSL responsible obligors for the fiscal years included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-three, as designated in subdivision bb of this section, shall be deemed to apply to the time and manner of payment and payment financing of the contribution installments referred to in subparagraph (i) of this paragraph.

(6) (i) Subject to the provisions of subparagraph (ii) of this paragraph, for each fiscal year of the revised amortization period, the senior college UAL and BSL responsible obligors of each of NYCERS and NYCTRS shall contribute to such retirement system their respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to subparagraphs (iii) and (iv) of paragraph two of this subdivision.

(ii) The special provisions for funding and financing senior college UAL and BSL amortization (A) shall be deemed to apply to the contribution installments referred to in subparagraph (i) of this paragraph with respect to all matters to which such special provisions pertain, as described in subparagraphs (i) to (v), inclusive, of paragraph fifty-five of subdivision a of this section, and (B) shall be deemed to include such installments as if such installments were mentioned in the appropriate terms of such provisions.

(7) Any amount required to be contributed to NYCERS, NYCTRS or BERS with respect to any fiscal year under the preceding paragraphs of this subdivision shall be payable with interest on such amount at the valuation rate of

interest (as defined in paragraph eleven of subdivision a of this section) for such retirement system for such fiscal year.

(8) In determination of the normal contribution payable to each of NYCERS, NYCTRS or BERS with respect to each fiscal year occurring during the revised amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such retirement system pursuant to the preceding paragraphs of this subdivision be treated as an asset of such pension fund.

(9) (i) As used in this paragraph, unless the context clearly indicates otherwise, the following terms shall have the following meanings:

(A) "Authority". The New York city housing authority.

(B) "Actuary". The chief actuary of NYCERS.

(C) "Authority BSL". The portion of the balance of unfunded BSL subject to consolidated amortization (as defined in paragraph fifty-three of subdivision a of this section), which portion, as determined by the actuary, is attributable to the authority.

(D) "Amortization of authority BSL". The schedule of payments of principal and interest, to be made in each of the fiscal years of the applicable amortization period as now or hereafter prescribed by law, which is required, as now or hereafter prescribed by law, to pay off and extinguish the authority BSL.

(ii) Notwithstanding any other provision of law to the contrary, the city, acting by the mayor of the city or his delegee for such purpose, and the authority are authorized to enter into an agreement, upon such terms and conditions as the city and the authority deem proper, whereby the city, for such amount and form of consideration (including but not limited to direct payment to or credit in favor of the city) as the city deems proper, assumes in whole or in part as such parties may agree, the obligation which the authority would otherwise have pursuant to law to pay the amortization of authority BSL.

(iii) Immediately following the execution and delivery of such an agreement, which contains due and appropriate attestation that its execution has been duly authorized by the city and the authority, a copy of such agreement, duly certified as a correct copy by the city clerk and the secretary of the authority, shall be filed by the city with the executive director of NYCERS and the city comptroller.

(iv) Immediately after the authority has provided to the city the consideration which such agreement requires the authority to furnish to the city for the assumption by the city of such obligation in relation to payment of amortization of authority BSL, the city shall file with the executive director of NYCERS and the city comptroller, a statement executed by the officer of the city who executed such agreement in its behalf, certifying that such consideration has been received by the city from the authority in compliance with the terms of such agreement.

(v) Upon the completion of such filings as required by subparagraphs (iii) and (iv) of this paragraph, (A) the authority, to the extent provided for in such agreement, shall be released and discharged from the obligation which it would otherwise have pursuant to law with respect to payment of amortization of authority BSL and (B) the city, to the extent provided for in such agreement, shall be obligated to pay such amortization to NYCERS and shall be deemed to be substituted in the place of the authority, to such extent, as the responsible obligor required by law to pay such amortization.

(10) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by the provisions of subdivision jj of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the fifteen-year amortization period.

ii. (1) All installments of contribution prescribed by any retirement incentive act as payable, for any fiscal year of the city beginning on or after July first, nineteen hundred ninety-three, to fund additional benefits under such act payable to beneficiaries of NYCERS, NYCTRS and BERS and all installments of contributions prescribed by subdivision gg of this section as payable, for any fiscal year of the city beginning on or after such July first, to fund the additional accrued employer cost referred to in such subdivision are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of NYCERS, NYCTRS and BERS shall separately determine for each such retirement system a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the NYCERS balance of retirement incentive and part-time employee UAL, the NYCTRS balance of retirement incentive UAL and the BERS balance of retirement incentive and part-time employee UAL, together with interest on such balances.

(3) (i) The actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of nine per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) other than nine per centum per annum is prescribed by law for NYCERS, NYCTRS or BERS for any fiscal year included in the revised amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to the retirement system to which such changed rate of interest applies, shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) (i) Subject to the provisions of subparagraph (ii) of this paragraph, and subject to the provisions of sections 13-130, 13-131 and 13-132 of this title in the case of NYCERS, and subject to the provisions of section 13-528 and 13-529 thereof in the case of NYCTRS, and subject to the provisions of paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law in the case of BERS, in each fiscal year of the revised amortization period the respective retirement incentive responsible obligors and part-time employee responsible obligors of each of NYCERS and BERS, and the retirement incentive responsible obligors, in the case of NYCTRS, shall pay into the contingent reserve fund of such retirement system their respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to paragraph two of this subdivision and paragraph three thereof.

(ii) The provisions of law which apply to the time and manner of payment and payment financing of contribution installments required to be paid, prior to July first, nineteen hundred ninety-three, by such responsible obligors under the applicable retirement incentive acts and subdivision gg of this section shall be deemed to apply to the time and manner of payment and payment financing of the contribution installments referred to in subparagraph (i) of this paragraph.

(5) Any amount required to be contributed to NYCERS, NYCTRS or BERS with respect to any fiscal year under the preceding paragraphs of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) for such retirement system for such fiscal year.

(6) In determining of the normal contribution payable to each of NYCERS, NYCTRS or BERS with respect to each fiscal year occurring during the revised amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such retirement system pursuant to the preceding paragraphs of this subdivision be treated as an asset of such pension fund.

(7) No provision of this subdivision shall be construed as amending, modifying, superseding or repealing:

(i) the amendment to section ten of chapter four hundred ninety-four of the laws of nineteen hundred ninety-two made by chapter eight hundred thirty-seven of the laws of nineteen hundred ninety-two; or

(ii) any contract, agreement, commitment or understanding between the city and any other governmental entity whereby such other entity agreed to pay or assume all or a part of the cost of contributions required by any retirement incentive act to fund additional benefits thereunder.

(8) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of paragraphs one to six, inclusive, of this subdivision shall be superseded in the manner prescribed by the provisions of subdivision jj of this section with respect to contributions on account of UAL payable for each fiscal year included in the fifteen-year amortization period.

jj. (1) All NYCERS, NYCTRS and BERS installments of contribution designated in paragraphs two, three, four, five and six of subdivision hh of this section as payable in any fiscal year succeeding June thirtieth, nineteen hundred ninety-five by any general UAL and BSL responsible obligor or senior college UAL and BSL responsible obligor and all installments of contribution designated in paragraphs two, three and four of subdivision ii of this section as payable by any retirement incentive responsible obligor of NYCERS, NYCTRS or BERS or part-time employee responsible obligor of NYCERS or BERS are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph four of this subdivision, the actuary of NYCERS and NYCTRS shall separately determine for each such retirement system:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the portion of the NYCERS 1995 UAL or NYCTRS 1995 UAL, as the case may be, which portion is not attributable to the senior colleges, together with interest on such portion;

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the portion of the NYCERS 1995 balance of BSL or NYCTRS 1995 balance of BSL, as the case may be, which portion is not attributable to the senior colleges, together with interest on such portion;

(iii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the portion of the NYCERS 1995 UAL or NYCTRS 1995 UAL, as the case may be, which portion is attributable to the senior colleges, together with interest on such portion; and

(iv) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the portion of the NYCERS 1995 balance of BSL or NYCTRS 1995 balance of BSL, as the case may be, which portion is attributable to the senior colleges, together with interest on such portion.

(3) Subject to the provisions of paragraph four of this subdivision, the actuary of BERS shall determine for such retirement system:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the BERS 1995 UAL, together with interest on such UAL; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the BERS 1995 balance of BSL, together with interest on such balance.

(4) (i) The actuary shall determine each schedule of contribution installments referred to in paragraphs two and three of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of eight and three-quarters per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) other than eight and three-quarters per centum per annum is prescribed by law for NYCERS, NYCTRS or BERS for any fiscal year included in the fifteen-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to the retirement system to which such changed rate of interest applies, shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(5) (i) Subject to the provisions of subparagraph (ii) of this paragraph, and subject to the provisions of sections 13-130 and 13-132 of this title in the case of NYCERS, and subject to the provisions of section 13-529 thereof in the case of NYCTRS, and subject to the provisions of paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law in the case of BERS, in each fiscal year of the fifteen-year amortization period, the general UAL and BSL responsible obligors of each of NYCERS, NYCTRS and BERS shall pay into its contingent reserve fund their respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to subparagraphs (i) and (ii) of paragraph two of this subdivision and paragraph three thereof.

(ii) The provisions of law which apply to the time and manner of payment of contribution installments required to be paid by general UAL and BSL responsible obligors for the fiscal years included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-three, as designated in subdivision cc of this section, shall be deemed to apply to the time and manner of payment of the contribution installments referred to in subparagraph (i) of this paragraph.

(6) (i) Subject to the provisions of subparagraph (ii) of this paragraph, in each fiscal year of the fifteen-year amortization period, the senior college UAL and BSL responsible obligors of each of NYCERS and NYCTRS shall contribute to such retirement system their respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to subparagraphs (iii) and (iv) of paragraph two of this subdivision.

(ii) The special provisions for funding and financing senior college UAL and BSL amortization (A) shall be deemed to apply to the contribution installments referred to in subparagraph (i) of this paragraph with respect to all matters to which such special provisions pertain, as described in subparagraphs (i) to (v), inclusive, of paragraph fifty-five of subdivision a of this section, and (B) shall be deemed to include such installments as if such installments were mentioned in the appropriate terms of such provisions.

(7) Any amount required to be contributed to NYCERS, NYCTRS or BERS with respect to any fiscal year under the preceding paragraphs of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) for such retirement system for such fiscal year.

(8) In determination of the normal contribution payable to each of NYCERS, NYCTRS or BERS with respect to each fiscal year occurring during the fifteen-year amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such retirement system pursuant to

the preceding paragraphs of this subdivision shall be treated as an asset of the retirement system.

(9) (i) No provisions of this subdivision shall be construed as amending, modifying, superseding or repealing:

(A) the amendment to section ten of chapter four hundred ninety-four of the laws of nineteen hundred ninety-two made by chapter eight hundred thirty-seven of the laws of nineteen hundred ninety-two; or

(B) any contract, agreement, commitment or understanding between the city and any other governmental entity whereby such other entity agreed to pay or assume all or a part of the cost of contributions required by any retirement incentive act to fund additional benefits thereunder.

(ii) Any contribution required to be made by this subdivision, to the extent that such contribution amortizes any liability of a retirement system for additional benefits under a retirement incentive act, shall be deemed to be a cost of contributions required by such act to fund such additional benefits.

(10) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by the provisions of subdivision kk of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the eleven-year amortization period.

kk. (1) All NYCERS, NYCTRS and BERS installments of contribution designated in paragraphs two, three, four, five and six of subdivision jj of this section as payable in any fiscal year succeeding June thirtieth, nineteen hundred ninety-nine by any general UAL and BSL responsible obligor or senior college UAL and BSL responsible obligor and all other installments of contribution resulting from any unfunded accrued liability established on or before June thirtieth, nineteen hundred ninety-nine which are payable in any fiscal year succeeding such June thirtieth by an such obligor of NYCERS, NYCTRS or BERS are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of NYCERS, NYCTRS and BERS shall separately determine for each such retirement system a schedule of contribution installments, one of which is payable in each fiscal year included in the eleven-year amortization period, which installments will amortize the NYCERS 1999 UAL, NYCTRS 1999 UAL or BERS 1999 UAL, as the case may be, together with interest on such amounts.

(3)(i) The actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of eight per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) other than eight per centum per annum is prescribed by law for NYCERS, NYCTRS or BERS for any fiscal year included in the eleven-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to the retirement system to which such changed rate of interest applies, shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4)(i) Subject to the provisions of subparagraph (ii) of this paragraph, and subject to the provisions of sections 13-130 and 13-132 of this title in the case of NYCERS, and subject to the provisions of section 13-529 thereof in the case of NYCTRS, and subject to the provisions of paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law in the case of BERS, in each fiscal year of the eleven-year amortization period, the responsible obligors of each of NYCERS, NYCTRS and BERS shall pay into its contingent reserve fund their

respective shares of the contribution installments applicable to such retirement system for such fiscal year under the schedules established pursuant to paragraph two of this subdivision.

(ii) The applicable provisions of subdivision c of section 13-133 of this title and subdivision (c) of section 13-533 thereof and paragraph (j) of subdivision sixteen of section twenty-five hundred seventy-five of the education law shall govern the time and manner of payment, within each fiscal year, of contributions payable with respect to such fiscal year to NYCERS, NYCTRS or BERS pursuant to subparagraph (i) of this paragraph. Nothing contained in this subdivision shall be construed as amending, modifying or changing such provisions of this title or the provisions of any other law relating to the time of payment, within a fiscal year, of contributions payable to such retirement systems with respect to such fiscal year.

(5) Any amount required to be contributed to NYCERS, NYCTRS or BERS with respect to any fiscal year under the preceding paragraphs of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of this section) for such retirement system for such fiscal year.

**HISTORICAL NOTE**

Section heading amended chap 633/1994 § 1, eff. July 28, 1994

and deemed to have been in force on and after July 1, 1993

Section added chap 878/1990 §25 retro. to 7/1/1989

Subd. a pars 9-a, 9-b, 9-c, 9-d added chap 607/1991 § 1 retro.

to 7/1/1990

Subd. a pars 10-a, 10-b added chap 607/1991 § 1 retro. to

7/1/1990

Subd. a par 17 amended chap 85/2000 § 7, eff. June 23, 2000 and deemed

in effect on and after July 1, 1999.

Subd. a par 17 amended chap 249/1996 § 19, eff. June 30, 1996 and

deemed in effect on and after July 1, 1995

Subd. a par 17 amended chap 948/1990 § 1 retro. to 7/1/1990

Subd. a pars 18-21 repealed and added chap 607/1991 § 2 retro.

to 7/1/1990

Subd. a pars 18=n21 added chap 948/1990 § 2 retro. to 7/1/1990

Subd. a pars 22-49 added chap 607/1991 § 3 retro. to 7/1/1990

Subd. a pars 50-65 added chap 633/1994 § 2, eff. July 28, 1994

and deemed to have been in force on and after July 1, 1993

Subd. a pars 66-72 added chap 249/1996 § 20, eff. June 30, 1996 and

deemed in effect on and after July 1, 1995

Subd. a pars 73, 74, 75, 76 added chap 85/2000 § 8, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. b amended chap 948/1990 § 3 retro. to 7/1/1990

Subd. b par (2) amended chap 152/2006 § 12, eff. July 7, 2006 and deemed to have been in full force and effect on and after July 1, 2005. [See § 13-103 Note 1]

Subd. b par (2) amended chap 133/2005 § 1, eff. July 1, 2005.

Subd. b par (2) amended chap 133/2004 § 1, eff. July 1, 2004.

Subd. b par (2) amended chap 85/2000 § 9, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. b par (2) amended chap 157/1997 § 1, eff. June 30, 1997 and deemed in effect on and after July 1, 1996.

Subd. b par (2) amended chap 598/1996 § 7, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1995

Subd. b par (2) amended chap 249/1996 § 21, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. b par (2) amended chap 642/1995 § 1, eff. Aug. 8, 1995 and retroactive to July 1, 1995

Subd. b par (2) separately amended chap 610/1991 § 1 retro. to 7/1/1990, chap 608/1991 § 1 retro. to 7/1/1990, chap 607/1991 § 4 retro. to 7/1/1990

Subds. d, e amended chap 948/1990 § 4 retro. to 7/1/1990

Subd. f par (1) amended chap 948/1990 § 5 retro. to 7/1/1990

Subd. f par (2) amended chap 152/2006 § 13, eff. July 7, 2006 and deemed to have been in full force and effect on and after July 1, 2005. [See § 13-103 Note 1]

Subd. f par (2) amended chap 133/2005 § 2, eff. July 1, 2005.

Subd. f par (2) amended chap 133/2004 § 2, eff. July 1, 2004.

Subd. f par (2) amended chap 85/2000 § 10, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. f par (2) amended chap 598/1996 § 8, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1995

Subd. f par (2) amended chap 249/1996 § 22, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. f par (2) amended chap 642/1995 § 2, eff. Aug. 8, 1995 and retroactive to July 1, 1995.

Subd. f par (2) separately amended chap 610/1991 § 2 retro. to 7/1/1990, chap 608/1991 § 2 retro. to 7/1/1990, chap 607/1991 § 5 retro. to 7/1/1990

Subd. f par (2) amended chap 948/1990 § 5 retro. to 7/1/1990

Subd. g par (2) amended chap 152/2006 § 14, eff. July 7, 2006 and deemed to have been in full force and effect on and after July 1, 2005. [See § 13-103 Note 1]

Subd. g par (2) amended chap 133/2005 § 3, eff. July 1, 2005.

Subd. g par (2) amended chap 133/2004 § 3, eff. July 1, 2004.

Subd. g par (2) amended chap 85/2000 § 11, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. g par (2) amended chap 598/1996 § 9, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1995

Subd. g par (2) amended chap 249/1996 § 23, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. g par (2) amended chap 642/1995 § 3, eff. Aug. 8, 1995 and retroactive to July 1, 1995.

Subd. g par (2) separately amended chap 610/1991 § 3 retro. to 7/1/1990, chap 608/1991 § 3 retro. to 7/1/1990, chap

607/1991 § 6 retro. to 7/1/1990

Subd. g par (2) amended chap 948/1990 § 6 retro. to 7/1/1990

Subd. h par (1) amended chap 948/1990 § 7 retro. to 7/1/1990

Subd. i par (2) amended chap 152/2006 § 15, eff. July 7, 2006 and deemed to have been in full force and effect on and after July 1, 2005. [See § 13-103 Note 1]

Subd. i par (2) amended chap 133/2005 § 4, eff. July 1, 2005.

Subd. i par (2) amended chap 133/2004 § 4, eff. July 1, 2004.

Subd. i par (2) amended chap 85/2000 § 12, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. i par (2) amended chap 157/1997 § 2, eff. June 30, 1997 and deemed in effect on and after July 1, 1996.

Subd. i par (2) amended chap 598/1996 § 10, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1995

Subd. i par (2) amended chap 249/1996 § 24, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. i par (2) amended chap 642/1995 § 4, eff. Aug. 8, 1995 and retroactive to July 1, 1995.

Subd. i par (2) separately amended chap 610/1991 § 4 retro. to 7/1/1990, chap 608/1991 § 4 retro. to 7/1/1990, chap 607/1991 § 7 retro. to 7/1/1990

Subd. i par (2) amended chap 948/1990 § 8 retro. to 7/1/1990

Subd. j amended chap 948/1990 § 9 retro. to 7/1/1990

Subd. k amended chap 948/1990 § 10 retro. to 7/1/1990

Subd. k par (1) repealed and added chap 85/2000 § 13, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. k par (1) repealed & added chap 249/1996 § 25, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. k par (1) subpar (i) amended chap 157/1997 § 3, eff. June 30, 1997 and deemed in effect on and after July 1, 1996.

Subd. k par (1) separately amended chap 610/1991 § 5 retro. to 7/1/1990, chap 608/1991 § 5 retro. to 7/1/1990, chap 607/1991 § 8 retro. to 7/1/1990

Subd. k par (1) subpar (ii) amended chap 949/1990 § 1 retro. to 7/1/1990

Subd. k par (1) subpar (iii) amended chap 598/1996 § 11, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1995

Subd. l repealed and added chap 85/2000 § 14, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. l amended chap 598/1996 § 12, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1996

Subd. l repealed & added chap 249/1996 § 26, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. l separately amended chap 610/1991 § 6, retro. to 7/1/1990, chap 608/1991 § 6 retro. to 7/1/1990, chap 607/1991 § 9 retro. to 7/1/1990

Subd. l amended chap 948/1990 § 10 retro. to 7/1/1990

Subd. l par (1) amended chap 157/1997 § 4, eff. June 30, 1997 and deemed in effect on and after July 1, 1996.

Subds. m, n amended chap 607/1991 § 10 retro. to 7/1/1990

Subds. m, n added chap 948/1990 § 11 retro. to 7/1/1990

Subds. o, p, q repealed & added chap 607/1991 § 11 retro. to 7/1/1990

Subds. o, p, q added chap 948/1990 § 11 retro. to 7/1/1990

Subds. r-z added chap 607/1991 § 13 retro. to 7/1/1990

Subd. aa par (4) added chap 633/1994 § 10, eff. July 28, 1994 and

deemed to have been in force on and after July 1, 1993.

Subd. aa added chap 607/1991 § 13 retro. to 7/1/1990

Subd. bb added chap 607/1991 § 13 retro. to 7/1/1990

Subd. cc added chap 607/1991 § 13 retro. to 7/1/1990

Subd. dd added chap 607/1991 § 13 retro. to 7/1/1990

Subd. ee relettered and amended chap 607/1991 § 12 retro. to 7/1/1990 (formerly subd. r added chap 948/1990 § 11)

Subd. ff relettered and amended chap 607/1991 § 12 retro. to 7/1/1990 (formerly subd. s added chap 948/1990 § 11)

Subd. gg added chap 749/1992 § 14 eff. July 31, 1992

Subd. hh added chap 633/1994 § 3, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993.

Subd. hh par (9) added chap 641/1995 § 1, eff. Aug. 8, 1995 and retroactive to June 1, 1995

Subd. hh par (10) added chap 249/1996 § 27, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. ii added chap 633/1994 § 3, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993.

Subd. ii par (8) added chap 249/1996 § 28, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. jj added chap 249/1996 § 29, eff. June 30, 1996 and deemed in effect on and after July 1, 1995

Subd. jj par (10) added chap 85/2000 § 15, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Subd. kk added chap 85/2000 § 16, eff. June 23, 2000 and deemed in effect on and after July 1, 1999.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.3 12 Funding of consolidated unfunded accrued liabilities and remainder of balance sheet liability of the police pension fund, subchapter two; amortization of such liabilities and certain liabilities for transfers to variable supplements funds pursuant to the level percentage of payroll method in certain fiscal years.

a. The following words and phrases, as used in this section, shall have the following meanings, unless a different meaning is plainly required by the context: (1) "PPF". The police pension fund, subchapter two.

(2) "Fiscal year". A fiscal year of the city as defined in section two hundred twenty-six of the New York city charter.

(3) "UAL". Unfunded accrued liability.

(4) "BSL". Balance sheet liability.

(5) "Phase-in period". The period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-five.

(6) "Regular installment period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

(7) "Charge". An amount which is required to be paid to PPF as an employer contribution.

(8) "Credit". An amount which is required to be applied in reduction of employer contributions otherwise payable to PPF.

(9) "Individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". Any of the following, as applicable to PPF as of June thirtieth, nineteen hundred ninety: the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five unfunded accrued liability adjustment, the nineteen hundred eighty-eight unfunded accrued liability adjustment, all in- stallments of amortization of bond sale gains and losses and all installments of funding of supplemental retirement allowances.

(10) "Recomputed annual installment of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". (i) An installment amount computed in accordance with the succeeding subparagraphs of this paragraph in relation to each PPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph nine of this subdivision) for such pension fund.

(ii) The actuary of PPF shall determine, as of June thirtieth, nineteen hundred ninety and on the basis of eight and one-quarter per centum interest per annum, the present value of all those annual installments of such PPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety, which installments, in the absence of the enactment of the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth.

(iii) The actuary of PPF shall determine an amount which, if paid to its contingent reserve fund, or applied as a credit, as the case may be, commencing with a first payment or credit in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, in a number of equal annual installments equal to the number of such annual installments remaining due and unpaid or uncredited with respect to PPF as of June thirtieth, nineteen hundred ninety as described in subparagraph (ii) of this paragraph, would be the actuarial equivalent, as of such June thirtieth, on the basis of eight and one-half per centum interest per annum, of the present value determined pursuant to such subparagraph (ii).

(iv) With respect to each PPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety, the recomputed annual installment of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety shall be one equal annual installment determined with respect to such individual UAL amortization pursuant to subparagraph (iii) of this paragraph.

(11) "Single-year aggregate of recomputed annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety". Such aggregate shall be the total amount obtained, in relation to any fiscal year occurring during the phase-in period (as defined in paragraph five of this subdivision) by adding together all recomputed annual installments of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph ten of this subdivision), as applicable to such fiscal year. For the purpose of such addition, any such recomputed installments which constitute a credit shall be treated as a negative quantity.

(12) "Nineteen hundred ninety BSL contribution". The nineteen hundred ninety BSL contribution determined pursuant to subdivision q of this section.

(13) "Nineteen hundred ninety UAL credit". (i) An amount which shall be determined for PPF as hereinafter provided in this paragraph.

(ii) Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of PPF in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year and an interest rate of eight and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred ninety, the amount of the unfunded accrued liability of PPF, computed pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability.

(iii) There shall be determined with respect to PPF, as of June thirtieth, nineteen hundred ninety, on the basis of an interest rate of eight and one-quarter per centum per annum, the amount obtained by adding together (A) the present values of all those annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph nine of this subdivision), which installments, in the absence of the enactment of the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth, and (B) the present value, as of such June thirtieth, of all installments of balance sheet liability, which installments, in the absence of the enactment of the act which added this paragraph, would have remained due and unpaid with respect to fiscal years succeeding such June thirtieth.

(iv) Such amount of unfunded accrued liability determined pursuant to subparagraph (ii) of this paragraph shall be subtracted from such total amount of present values determined pursuant to subparagraph (iii) thereof. The resulting remainder shall be the nineteen hundred ninety UAL credit applicable to PPF.

(14) "Annual installment of the nineteen hundred ninety UAL credit". Any of twenty equal annual installments of credit with respect to PPF, which installments, if applied over a period of twenty fiscal years, commencing with the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred ninety and on the basis of interest at the rate of eight and one-half per centum per annum, of the nineteen hundred ninety UAL credit (as defined in paragraph thirteen of this subdivision).

(15) "Phase-in installment of nineteen hundred ninety consolidated UAL contribution". (i) With respect to any fiscal year included in the phase-in period (as defined in paragraph five of this subdivision), such phase-in installment shall consist of an installment amount determined in relation to PPF in the manner hereinafter provided for in this subparagraph.

(ii) The single-year aggregate of recomputed annual installments of UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph eleven of this subdivision), as applicable for such fiscal year, and one computation installment of nineteen hundred ninety BSL (as defined in paragraph nineteen of this subdivision) shall be added together.

(iii) From the amount resulting from such addition, there shall be subtracted the amount obtained by adding together (A) one annual installment of the nineteen hundred ninety UAL credit (as defined in paragraph fourteen of this subdivision) and (B) the amount of one installment of nineteen hundred ninety BSL contribution (as defined in paragraph twelve of this subdivision).

(iv) The remainder resulting from the subtraction prescribed by subparagraph (III) of this paragraph shall be the phase-in installment of nineteen hundred ninety consolidated UAL contribution for such fiscal year.

(16) "Unfunded accrued liability as of June thirtieth, nineteen hundred ninety". The unfunded accrued liability of PPF as determined pursuant to subparagraph (ii) of paragraph thirteen of this subdivision.

(17) "Nineteen hundred ninety balance sheet liability". The total present value, determined as of June thirtieth, nineteen hundred ninety on the basis of an interest rate of eight and one-half per centum per annum, of all installments of nineteen hundred ninety BSL contribution (as defined in paragraph twelve of this subdivision) payable to PPF pursuant to the provisions of subdivision q of this section.

(18) "Prior BSL contribution". The BSL contribution of PPF determined pursuant to paragraph four of subdivision b of section 13-228 of this title, as such contribution was in effect on June thirtieth, nineteen hundred ninety.

(19) "Computation installment of nineteen hundred ninety BSL". (i) Any installment amount determined as hereinafter provided in this paragraph.

(ii) The actuary of PPF shall determine with respect to such pension fund, as of June thirtieth, nineteen hundred ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph eighteen of this subdivision) of such pension fund, which installments, in the absence of the enactment of the act which added this subdivision, would have remained due and unpaid to such pension fund as of such June thirtieth.

(iii) The actuary shall determine an amount which, if paid to the contingent reserve fund of such pension fund in thirty-one equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, on the basis of an interest rate of eight and one-half per centum per annum, of such present value.

(iv) Each of the first five of such installments determined pursuant to subparagraph (iii) of this paragraph with respect to such pension fund shall be a computation installment of nineteen hundred ninety BSL.

(20) "Regular installment of nineteen hundred ninety consolidated UAL contribution". Any installment payable pursuant to subdivision d of this section.

(21) "Nineteen hundred ninety consolidated UAL contribution". The nineteen hundred ninety consolidated UAL contribution for which phase-in installments are determined pursuant to paragraph fifteen of this subdivision and for which regular installments are determined pursuant to subdivision d of this section.

(22) "Installment of nineteen hundred ninety BSL contribution". Any installment payable pursuant to subdivision g of this section.

(23) "UAL subject to consolidated amortization". The amount of the unfunded accrued liability of PPF which, prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and regular consolidated UAL contributions designated in subdivision i of this section.

(24) "BSL subject to consolidated amortization". The amount of the balance sheet liability of PPF which, prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and other BSL contributions designated in subdivision i of this section.

(25) "Balance of unfunded UAL subject to consolidated amortization". An amount, determined by the actuary of PPF, which is equal to the present value (based on an interest rate of eight and one-half per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions h and i of this section) of the PPF UAL subject to consolidated amortization.

(26) "Balance of unfunded BSL subject to consolidated amortization". An amount, determined by the actuary of PPF, which is equal to the present value (based on an interest rate of eight and one-half per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions h and i of this section) of the PPF BSL subject to consolidated amortization.

(27) "Revised amortization period". The period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten.

(28) "PPF 1995 UAL". The unfunded accrued liability of PPF as of June thirtieth, nineteen hundred ninety-five for benefits payable by PPF (excluding the PPF 1995 balance of BSL, as defined in paragraph thirty of this subdivision), as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight and one-half per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to PPF for the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year.

(29) "PPF 1995 accrued liability on account of required transfers to variable supplements funds". The actuarial present value as of June thirtieth, nineteen hundred ninety-five, as estimated by the actuary, of the accrued liability of the pension fund on account of payments which the pension fund may be required to make for base fiscal years (as defined by the applicable provisions of paragraph one of subdivision b of section 13-232.1 of this title and paragraph one of subdivision b of section 13-232.3 of this title) beginning on or after July first, nineteen hundred ninety-four to the police officer's variable supplements fund, pursuant to subdivisions d, e and f of such section 13-232.1 and to the police superior officers' variable supplements fund pursuant to subdivisions d, e and f of such section 13-232.3.

(30) "PPF 1995 balance of BSL". The present value, as determined by the actuary as of June thirtieth, nineteen hundred ninety-five on the basis of an interest rate of eight and one-half per centum per annum, of the total of all contribution installments which, in the absence of the enactment of the act which added this paragraph, would be payable to PPF for fiscal years beginning on or after July first, nineteen hundred ninety-five pursuant to subparagraph (ii) of paragraph two of subdivision n of this section and paragraphs three and four of such subdivision.

(31) "Fifteen-year amortization period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

(32) "PPF 1999 UAL". The unfunded accrued liability of PPF as of June thirtieth, nineteen hundred ninety-nine attributable as of that date to the obligations set forth in item (ii) of subparagraph (a) of paragraph two of subdivision b of section 13-228 of this title, as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to PPF for the nineteen hundred ninety-nine-two thousand fiscal year, provided, however, that in the event such calculation of unfunded accrued liability produces a negative amount, the PPF 1999 UAL shall be zero.

(33) "Eleven-year amortization period". The period beginning on July first, nineteen hundred ninety-nine and ending on June thirtieth, two thousand ten.

b. Notwithstanding any other provision of law to the contrary, all PPF installments of the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five unfunded accrued liability adjustment and the nineteen hundred eighty-eight unfunded accrued liability adjustment and all PPF installments of amortization of bond sale gains and losses and all PPF installments of funding of supplemental retirement allowances, which installments, in the absence of the enactment of the act which added this section, would otherwise be due from and payable by the city to PPF (or be creditable to the city) with respect to any fiscal year or period beginning on or after July first, nineteen hundred ninety are hereby cancelled as of such July first and shall not be due and payable (or creditable) on or after such July first.

c. The actuary of PPF shall determine the amount of the difference obtained by subtracting (1) the outstanding balance, as of June thirtieth, nineteen hundred ninety-five, of the nineteen hundred ninety balance sheet liability (as defined in paragraph seventeen of subdivision a of this section) of such pension fund from (2) the outstanding balance, as of such June thirtieth, of the unfunded accrued liability as of June thirtieth, nineteen hundred ninety (as defined in paragraph sixteen of such subdivision) of such pension fund.

d. (1) The actuary of PPF shall determine an amount which, when paid into the contingent reserve fund of PPF in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of eight and one-half per centum interest per annum, of the amount of difference determined pursuant to subdivision c of this section.

(2) Such amount determined in relation to such installments shall be payable in regular installments as provided for in subdivision i of this section.

e. Notwithstanding any other provision of law to the contrary, no installments of prior BSL contribution (as defined in paragraph eighteen of subdivision a of this section) shall be due from or payable by the city to PPF with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety.

f. The actuary of PPF shall determine with respect to such pension fund, as of June thirtieth, nineteen hundred ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph eighteen of subdivision a of this section) of such pension fund, which installments, in the absence of the enactment of the act which added this subdivision, would have remained due and unpaid to such pension fund as of such June thirtieth.

g. (1) The actuary of PPF shall determine an amount which, when paid to the contingent reserve fund of such pension fund in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of an interest rate of eight and one-half per centum per annum, of the present value determined pursuant to subdivision f of this section.

(2) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision i of this section, shall constitute the nineteen hundred ninety BSL contribution.

h. (1) Subject to the provisions of paragraph two of this subdivision, in each fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the city shall pay into the contingent reserve fund of PPF:

(i) the installment amount allocated to such fiscal year for payment on account of nineteen hundred ninety consolidated UAL contribution (as defined in paragraph twenty-one of subdivision a of this section); and

(ii) the installment amount allocated to such fiscal year for payment on account of the nineteen hundred ninety BSL contribution (as defined in paragraph twelve of such subdivision).

(2) Each installment amount payable as provided for in paragraph one of this subdivision shall be in the applicable sum prescribed in the schedule of twenty-year amortization set forth in subdivision i of this section.

(3) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of subdivisions c through g, inclusive, of this section, and the affected portions of subdivision i thereof, and the preceding paragraphs of this subdivision shall be superseded in the manner prescribed by subdivision n of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the revised amortization period.

i. Subject to the provisions of subdivisions k and l of section 13-638.2 of this subchapter, installments of the contributions to PPF provided for by subdivisions b to h, inclusive, of this section shall be paid by the city in accordance with the schedule of twenty-year amortization set forth below in this subdivision.

SCHEDULE FOR TWENTY-YEAR AMORTIZATION

OF PPF 1990 CONSOLIDATED

UAL AND 1990 REMAINDER OF BSL

(numerical references in parentheses are to paragraph

numbers of definitions in subdivision a of this section)

| Col. 1 Fiscal year or years in which annual amortization payments | Col. 2 Amount payable in each fiscal year |
|---|---|

| | | |
|---|---|---|
| | are required to be made | |
| Col. A | Each fiscal year (2) in the phase-in period (5) | The sum obtained by adding together (a) the phase-in installment of nineteen hundred ninety consolidated UAL contribution (15) applicable to such fiscal year and (b) the installment of nineteen hundred ninety BSL contribution (22) applicable to such fiscal year. |
| Col. B | Each fiscal year (2) in the regular installment period (6) | The sum obtained by adding together (a) the regular installment of nineteen hundred ninety consolidated UAL contribution (20) applicable to such fiscal year and (b) the installment of nineteen hundred ninety BSL contribution (22) applicable to such fiscal year. |

j. The provisions of subdivision c of section 13-231 of this title shall govern the time and manner of payment, within each fiscal year, of contributions payable with respect to such fiscal year to PPF pursuant to the provisions of subdivisions b to i, inclusive, of this section. Nothing contained in this section shall be construed as amending, modifying or changing such provisions of this title or the provisions of any other law relating to the time of payment, within a fiscal year of contributions payable to such pension fund with respect to such fiscal year.

k. For the purpose of determining the amount of any installment of the contributions payable to PPF pursuant to the provisions of subdivisions b to i, inclusive, of this section, the actuary of such

pension fund may use methods of calculation other than those set forth in such provisions, so long as such other methods produce in relation to such installment an amount equal to that produced by the methods of calculation set forth in such provisions.

l. Any amount required to be contributed to PPF with respect to any fiscal year under the provisions of subdivisions b to i, inclusive, of this section shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

m. In determination of the normal contribution payable to PPF with respect to each fiscal year occurring during the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to subdivisions b to i, inclusive, of this section shall be treated as an asset of such pension fund.

n. (1) All installments of UAL and BSL contribution designated in subdivision i of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of PPF shall determine for such pension fund:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the PPF balance of unfunded UAL subject to consolidated amortization, together with interest on such balance; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the PPF balance of unfunded BSL subject*14 consolidated amortization, together with interest on such balance.

(3) (i) The actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of eight and one-half per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight and one-half per centum per annum is prescribed by law for PPF for any fiscal year included in the revised amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to PPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to PPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In the determination of the normal contribution payable to PPF with respect to each fiscal year occurring during the revised amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to this subdivision shall be treated as an asset of such pension fund.

(6) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by subdivision o of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the fifteen-year amortization period.

o. (1) (i) All installments of UAL and BSL contribution designated in subdivision n of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten are hereby canceled and shall not be due and payable on or after such July first.

(ii) All installments of contribution prescribed by paragraph six of subdivision b of section 13-228 of this title as payable, for any fiscal year beginning on or after July first, nineteen hundred ninety-five, to fund the benefits referred to in such paragraph are hereby canceled and shall not be due and payable on and after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of PPF shall determine for such pension fund:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the PPF 1995 UAL, together with interest on such UAL; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the PPF 1995 accrued liability on account of required transfers to variable supplements funds, together with interest on such liability; and

(iii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the PPF 1995 balance of BSL, together with interest on such balance.

(3) (i) The actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of eight and one-half per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight and one-half per centum per annum is prescribed

by law for PPF for any fiscal year included in the fifteen-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to PPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to PPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In each fiscal year of the fifteen-year amortization period, the city shall pay into the contingent reserve fund of PPF the contribution installments applicable to such fiscal year under the schedules established pursuant to paragraph two of this subdivision.

(6) In the determination of the normal contribution payable to PPF with respect to each fiscal year occurring during the fifteen-year amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to this subdivision shall be treated as an asset of such pension fund.

(7) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by subdivision p of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the eleven-year amortization period.

p. (1) All installments of UAL and BSL contribution designated in subdivision o of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-nine and ending on June thirtieth, two thousand ten and all other installments of contribution resulting from any unfunded accrued liability established on or before June thirtieth, nineteen hundred ninety-nine which are payable to PPF in any fiscal year succeeding such June thirtieth by the city are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of PPF shall determine for such pension fund a schedule of contribution installments, one of which is payable in each fiscal year included in the eleven-year amortization period, which installments will amortize the PPF 1999 UAL, together with interest on such UAL.

(3)(i) The actuary shall determine the schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining such schedule, the actuary shall employ an interest rate of eight per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight per centum per annum is prescribed by law for PPF for any fiscal year included in the eleven-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to PPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to PPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In each fiscal year of the eleven-year amortization period, the city shall pay into the contingent reserve fund

of PPF the contribution installments applicable to such fiscal year under the schedule established pursuant to paragraph two of this subdivision.

**HISTORICAL NOTE**

Section heading amended chap 598/1996 § 13, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1996

Section heading amended Chap 633/1994 § 4, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993.

Section added chap 608/1991 § 7 retro. to 7/1/1990

Subd. a pars (23)-(27) added Chap 633/1994 § 5, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993

Subd. a pars (28)-(31) added chap 598/1996 § 14, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1996

Subd. a pars (32), (33) added chap 85/2000 § 17, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

Subd. h par (3) added Chap 633/1994 § 11, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993.

Subd. n added Chap 633/1994 § 6, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993.

Subd. n par (6) added chap 598/1996 § 15, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1996

Subd. o added chap 598/1996 § 16, eff. Aug. 8, 1996 and deemed in effect on and after July 1, 1996

Subd. o par (7) added chap 85/2000 § 18, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

Subd. p added chap 85/2000 § 19, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.3 15 Funding of consolidated unfunded accrued liabilities and remainder of balance sheet liability of the fire department pension fund, subchapter two; amortization of such liabilities and certain liabilities for transfers to variable supplements funds pursuant to the level percentage of payroll method in certain fiscal years.

a. The following words and phrases, as used in this section, shall have the following meanings, unless a different meaning is plainly required by the context:

(1) "FPF". The fire department pension fund, subchapter two.

(2) "Fiscal year". A fiscal year of the city as defined in section two hundred twenty-six of the New York city charter.

(3) "UAL". Unfunded accrued liability.

(4) "BSL". Balance sheet liability.

(5) "Phase-in period". The period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-five.

(6) "Regular installment period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

(7) "Charge". An amount which is required to be paid to FPF as an employer contribution.

(8) "Credit". An amount which is required to be applied in reduction of employer contributions otherwise payable to FPF.

(9) "Individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". Any of the following, as applicable to FPF as of June thirtieth, nineteen hundred ninety: the unfunded accrued liability contribution, the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five unfunded accrued liability adjustment, the nineteen hundred eighty-eight unfunded accrued liability adjustment, all installments of amortization of bond sale gains and losses and all installments of funding of supplemental retirement allowances.

(10) "Recomputed annual installment of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety". (i) An installment amount computed in accordance with the succeeding subparagraphs of this paragraph in relation to each FPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph nine of this subdivision) for such pension fund.

(ii) The actuary of FPF shall determine, as of June thirtieth, nineteen hundred ninety and on the basis of eight and one-quarter per centum interest per annum, the present value of all those annual installments of such FPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety, which installments, in the absence of the enactment of the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth.

(iii) The actuary of FPF shall determine an amount which, if paid to its contingent reserve fund, or applied as a credit, as the case may be, commencing with a first payment or credit in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, in a number of equal annual installments equal to the number of such annual installments remaining due and unpaid or uncredited with respect to FPF as of June thirtieth, nineteen hundred ninety as described in subparagraph (ii) of this paragraph, would be the actuarial equivalent, as of such June thirtieth, on the basis of eight and one-half per centum interest per annum, of the present value determined pursuant to such subparagraph (ii).

(iv) With respect to each FPF individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety, the recomputed annual installment of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety shall be one equal annual installment determined with respect to such individual UAL amortization pursuant to subparagraph (iii) of this paragraph.

(11) "Single-year aggregate of recomputed annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety". Such aggregate shall be the total amount obtained, in relation to any fiscal year occurring during the phase-in period (as defined in paragraph five of this subdivision) by adding together all recomputed annual installments of individual UAL amortization in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph ten of this subdivision), as applicable to such fiscal year. For the purpose of such addition, any such recomputed installments which constitute a credit shall be treated as a negative quantity.

(12) "Nineteen hundred ninety BSL contribution". The nineteen hundred ninety BSL contribution determined pursuant to subdivision g of this section.

(13) "Nineteen hundred ninety UAL credit". (i) An amount which shall be determined for FPF as hereinafter provided in this paragraph.

(ii) Upon the basis of the actuarial tables and actuarial methods in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund of FPF in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year and an interest rate of eight and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred ninety, the amount of the unfunded accrued liability of FPF,

computed pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability.

(iii) There shall be determined with respect to FPF, as of June thirtieth, nineeteen hundred ninety, on the basis of an interest rate of eight and one-quarter per centum per annum, the amount obtained by adding together (A) the present values of all those annual installments of individual UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph nine of this subdivision), which installments, in the absence of the enactment of the act which added this paragraph, would have remained, as of such June thirtieth, due and unpaid (if a charge) or uncredited (if a credit) with respect to fiscal years succeeding such June thirtieth, and (B) the present value, as of such June thirtieth, of all installments of balance sheet liability, which installments, in the absence of the enactment of the act which added this paragraph, would have remained due and unpaid with respect to fiscal years succeeding such June thirtieth.

(iv) Such total amount of present values determined pursuant to subparagraph (iii) of this paragraph shall be subtracted from such amount of unfunded accrued liability determined pursuant to subparagraph (ii) thereof. The resulting remainder shall be the nineteen hundred ninety UAL credit applicable to FPF.

(14) "Annual installment of the nineteen hundred ninety UAL credit". Any of twenty equal annual installments of charge with respect to FPF, which installments, if paid, over a period of twenty fiscal years, commencing with the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred ninety and on the basis of interest at the rate of eight and one-half per centum per annum, of the nineteen hundred ninety UAL charge (as defined in paragraph thirteen of this subdivision).

(15) "Phase-in installment of nineteen hundred ninety consolidated UAL contribution". (i) With respect to any fiscal year included in the phase-in period (as defined in paragraph five of this subdivision), such phase-in installment shall consist of an installment amount determined in relation to FPF in the manner hereinafter provided for in this paragraph.

(ii) The single-year aggregate of recomputed annual installments of UAL amortizations in effect as of June thirtieth, nineteen hundred ninety (as defined in paragraph eleven of this subdivision), as applicable for such fiscal year, and one installment of the nineteen hundred ninety UAL charge (as defined in paragraph fourteen of this subdivision) and one computation installment of nineteen hundred ninety BSL (as defined in paragraph nineteen of this subdivision) shall be added together.

(iii) From the amount resulting from such addition, there shall be subtracted the amount of one installment of nineteen hundred ninety BSL contribution (as defined in paragraph twelve of this subdivision).

(iv) The remainder resulting from the subtraction prescribed by subparagraph (iii) of this paragraph shall be the phase-in installment of nineteen hundred ninety consolidated UAL contribution for such fiscal year.

(16) "Unfunded accrued liability as of June thirtieth, nineteen hundred ninety". The unfunded accrued liability of FPF as determined pursuant ot*11 subparagraph (ii) of paragraph thirteen of this subdivision.

(17) "Nineteen hundred ninety balance sheet liability". The total present value, determined as of June thirtieth, nineteen hundred ninety on the basis of an interest rate of eight and one-half per centum per annum, of all installments of nineteen hundred ninety BSL contribution (as defined in paragraph twelve of this subdivision) payable to such pension fund pursuant to the provisions of subdivision g of this section.

(18) "Prior BSL contribution". The BSL contribution of FPF determined pursuant to paragraph four of subdivision b of section 13-331 of this title, as such contribution was in effect on June thirtieth, nineteen hundred ninety.

(19) "Computation installment of nineteen hundred ninety BSL". (i) Any installment amount determined as

hereinafter provided in this paragraph.

(ii) The actuary of FPF shall determine with respect to such pension fund, as of June thirtieth, nineteen**12 ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph eighteen of this subdivision) of such pension fund, which installments, in the absence of the enactment of the act which added this subdivision, would have remained due and unpaid to such pension fund as of such June thirtieth.

(iii) The actuary shall determine an amount which, if paid to the contingent reserve fund of such pension fund in thirty-one equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, would be the actuarial equivalent, on the basis of an interest rate of eight and one-half per centum per annum, of such present value.

(iv) Each of the first five of such installments determined pursuant to subparagraph (iii) of this paragraph with respect to such pension fund shall be a computation installment of nineteen hundred ninety BSL.

(20) "Regular installment of nineteen hundred ninety consolidated UAL contribution". Any installment payable pursuant to subdivision d of this section.

(21) "Nineteen hundred ninety consolidated UAL contribution". The nineteen hundred ninety consolidated UAL contribution for which phase-in installments are determined pursuant to paragraph fifteen of this subdivision and for which regular installments are determined pursuant to subdivision d of this section.

(22) "Installment of nineteen hundred ninety BSL contribution". Any installment payable pursuant to subdivision g of this section.

(23) "UAL subject to consolidated amortization". The amount of the unfunded accrued liability of FPF which prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and regular consolidated UAL contributions designated in subdivision i of this section.

(24) "BSL subject to consolidated amortization". The amount of the balance sheet liability of FPF which, prior to July first, nineteen hundred ninety-three, was required to be amortized by phase-in and other BSL contributions designated in subdivision i of this section.

(25) "Balance of unfunded UAL subject to consolidated amortization". An amount, determined by the actuary of FPF, equal to the present value (based on an interest rate of eight and one-half per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions h and i of this section) of the FPF UAL subject to consolidated amortization.

(26) "Balance of unfunded BSL subject to consolidated amortization". An amount, determined by the actuary of FPF, which is equal to the present value (based on an interest rate of eight and one-half per centum per annum), as of June thirtieth, nineteen hundred ninety-three, of the remaining unpaid installments, as of such June thirtieth, of the amortization (as prescribed by subdivisions h and i of this section) of the FPF BSL subject to consolidated amortization.

(27) "Revised amortization period". The period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten.

(28) "FPF 1995 UAL". The unfunded accrued liability of FPF as of June thirtieth, nineteen hundred ninety-five for benefits payable by FPF (excluding the FPF 1995 balance of BSL, as defined in paragraph thirty of this subdivision), as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight and three-quarters per centum per annum and the actuarial

tables applicable for the purpose of determining the normal contribution to FPF for the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year.

(29) "FPF 1995 accrued liability on account of required transfers to variable supplements funds". The actuarial present value as of June thirtieth, nineteen hundred ninety-five, as estimated by the actuary, of the accrued liability of the pension fund on account of payments which the pension fund may be required to make for base fiscal years (as defined by the applicable provisions of paragraph one of subdivision b of section 13-335.1 of this title and paragraph one of subdivision b of section 13-335.3 of this title) beginning on or after July first, nineteen hundred ninety-four to the firefighters' variable supplements fund, pursuant to subdivisions d, e and f of such section 13-335.1 and to the fire officers' variable supplements fund pursuant to subdivisions d, e and f of such section 13-335.3.

(30) "FPF 1995 balance of BSL". The present value, as determined by the actuary as of June thirtieth, nineteen hundred ninety-five on the basis of an interest rate of eight and three-quarters per centum per annum, of the total of all contribution installments which, in the absence of the enactment of the act which added this paragraph, would be payable to FPF for fiscal years beginning on or after July first, nineteen hundred ninety-five pursuant to subparagraph (ii) of paragraph two of subdivision n of this section and paragraphs three and four of such subdivision.

(31) "Fifteen-year amortization period". The period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten.

(32) "FPF 1999 UAL". The unfunded accrued liability of FPF as of June thirtieth, nineteen hundred ninety-nine attributable as of that date to the obligations set forth in item (ii) of subparagraph (a) of paragraph two of subdivision b of section 13-331 of this title, as determined by the actuary pursuant to the entry age normal cost method of ascertaining such unfunded accrued liability, on the basis of an interest rate of eight per centum per annum and the actuarial tables applicable for the purpose of determining the normal contribution to FPF for the nineteen hundred ninety-nine-two thousand fiscal year, provided, however, that in the event such calculation of unfunded accrued liability produces a negative amount, the FPF 1999 UAL shall be zero.

(33) "Eleven-year amortization period". The period beginning on July first, nineteen hundred ninety-nine and ending on June thirtieth, two thousand ten.

b. Notwithstanding any other provision of law to the contrary, all FPF installments of the unfunded accrued liability contribution, the revised unfunded accrued liability contribution, the nineteen hundred eighty unfunded accrued liability adjustment, the nineteen hundred eighty-two unfunded accrued liability adjustment, the nineteen hundred eighty-five unfunded accrued liability adjustment and the nineteen hundred eighty-eight unfunded accrued liability adjustment and all FPF installments of amortization of bond sale gains and losses and all FPF installments of funding of supplemental retirement allowances, which installments, in the absence of the enactment of the act which added this section, would otherwise be due from and payable by the city to FPF (or be creditable to the city) with respect to any fiscal year or period beginning on or after July first, nineteen hundred ninety are hereby cancelled as of such July first and shall not be due and payable (or creditable) on or after such July first.

c. The actuary of FPF shall determine the amount of the difference obtained by subtracting (1) the outstanding balance, as of June thirtieth, nineteen hundred ninety-five, of the nineteen hundred ninety balance sheet liability (as defined in paragraph seventeen of subdivision a of this section) of such pension fund from (2) the outstanding balance, as of such June thirtieth, of the unfunded accrued liability as of June thirtieth, nineteen hundred ninety (as defined in paragraph sixteen of such subdivision) of such pension fund.

d. (1) The actuary of FPF shall determine an amount which, when paid into the contingent reserve fund of FPF in fifteen equal annual installments, commencing with payment of a first installment in the nineteen hundred ninety-five-nineteen hundred ninety-six fiscal year, shall be the actuarial equivalent, on the basis of eight and one-half per centum interest per annum, of the amount of difference determined pursuant to subdivision c of this section.

(2) Such amount determined in relation to such installments shall be payable in regular installments as provided for in subdivision i of this section.

e. Notwithstanding any other provision of law to the contrary, no installments of prior BSL contribution (as defined in paragraph eighteen of subdivision a of this section) shall be due from or payable by the city to FPF with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety.

f. The actuary of FPF shall determine with respect to such pension fund, as of June thirtieth, nineteen hundred ninety on the basis of eight and one-quarter per centum interest per annum, the present value of the thirty-one equal annual installments of the prior BSL contribution (as defined in paragraph eighteen of subdivision a of this section) of such pension fund, which installments, in the absence of the enactment of the act which added this subdivision, would have remained due and unpaid to such pension fund as of such June thirtieth.

g. (1) The actuary of FPF shall determine an amount which, when paid to the contingent reserve fund of such pension fund in twenty equal annual installments, commencing with a first payment in the nineteen hundred ninety-nineteen hundred ninety-one fiscal year, shall be the actuarial equivalent, on the basis of eight and one-half per centum interest per annum, of the present value determined pursuant to subdivision f of this section.

(2) Such amount determined in relation to such installments, which amount shall be payable in installments as provided for in subdivision i of this section, shall constitute the nineteen hundred ninety BSL contribution.

h. (1) Subject to the provisions of paragraph two of this subdivision, in each fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the city shall pay into the contingent reserve fund of FPF:

(i) the installment amount allocated to such fiscal year for payment on account of nineteen hundred ninety consolidated UAL contribution (as defined in paragraph twenty-one of subdivision a of this section); and

(ii) the installment amount allocated to such fiscal year for payment on account of the nineteen hundred ninety BSL contribution (as defined in paragraph twelve of such subdivision).

(2) Each installment amount payable as provided for in paragraph one of this subdivision shall be in the applicable sum prescribed in the schedule of twenty-year amortization set forth in subdivision i of this section.

(3) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of subdivisions c through g, inclusive, of this section, and the affected portions of subdivision i thereof, and the preceding paragraphs of this subdivision shall be superseded in the manner prescribed by subdivision n of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the revised amortization period.

i. Subject to the provisions of subdivisions k and l of section 13-638.2 of this subchapter, installments of the contributions to FPF provided for by subdivisions b to h, inclusive, of this section shall be paid by the city in accordance with the schedule of twenty-year amortization set forth below in this subdivision.

SCHEDULE FOR TWENTY-YEAR AMORTIZATION

OF FPF 1990 CONSOLIDATED

UAL AND 1990 REMAINDER OF BSL

(numerical references in parentheses are to paragraph

numbers of definitions in subdivision a of this section)

| | Col. 1 Fiscal year or years in which annual amortization payments are required to be made | Col. 2 Amount payable in each fiscal year |
|---|---|---|
| Col. A | Each fiscal year (2) in the phase-in period (5) | The sum obtained by adding together (a) the phase-in installment of nineteen hundred ninety consolidated UAL contribution (15) applicable to such fiscal year and (b) the installment of nineteen hundred ninety BSL contribution (22) applicable to such fiscal year. |
| Col. B | Each fiscal year (2) in the regular installment period (6) | The sum obtained by adding together (a) the regular installment of nineteen hundred ninety consolidated UAL contribution (20) applicable to such fiscal year and (b) the installment of nineteen hundred ninety BSL contribution (22) applicable to such fiscal year. |

j. The provisions of subdivision c of section 13-334 of this title shall govern the time and manner of payment, within each fiscal year, of contributions payable with respect to such fiscal year to FPF pursuant to the provisions of subdivisions b to i, inclusive, of this section. Nothing contained in this section shall be construed as amending, modifying or changing such provisions of this title or the provisions of any other law relating to the time of payment, within a fiscal year, of contributions payable to such pension fund with respect to such fiscal year.

k. For the purpose of determining the amount of any installment of the contributions payable to FPF pursuant to the provisions of subdivisions b to i, inclusive, of this section, the actuary of such pension fund may use methods of calculation other than those set forth in such provisions, so long as such other methods produce in relation to such installment an amount equal to that produced by the methods of calculation set forth in such provisions.

l. Any amount required to be contributed to FPF with respect to any fiscal year under the provisions of subdivisions b to i, inclusive, of this section shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

m. In the determination of the normal contribution payable to FPF with respect to each fiscal year occurring during the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, two thousand ten, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to subdivisions b to i, inclusive, of this section shall be treated as an asset of such pension fund.

n. (1) All installments of UAL and BSL contribution designated in subdivision i of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-three and ending on June thirtieth, two thousand ten are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of FPF shall determine for such pension fund:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the FPF balance of unfunded UAL subject to consolidated amortization, together with interest on such balance; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the revised amortization period, which installments will amortize the FPF balance of unfunded BSL subject consolidated amortization, together with interest on such balance.

(3) (i) the actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding

installment.

(ii) in determining each such schedule, the actuary shall employ an interest rate of eight and one-half per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight and one-half per centum per annum is prescribed by law for FPF for any fiscal year included in the revised amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect to FPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to FPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In the determination of the normal contribution payable to FPF with respect to each fiscal year occurring during the revised amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to this subdivision shall be treated as an asset of such pension fund.

(6) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by subdivision o of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the fifteen-year amortization period.

o. (1) (i) All installments of UAL and BSL contribution designated in subdivision n of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-five and ending on June thirtieth, two thousand ten are hereby canceled and shall not be due and payable on or after such July first.

(ii) All installments of contribution prescribed by paragraph six of subdivision b of section 13-331 of this title as payable, for any fiscal year beginning on or after July first, nineteen hundred ninety-five, to fund the benefits referred to in such paragraph are hereby canceled and shall not be due and payable on and after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of FPF shall determine for such pension fund:

(i) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the FPF 1995 UAL, together with interest on such UAL; and

(ii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the FPF 1995 accrued liability on account of required transfers to variable supplements funds, together with interest on such liability; and

(iii) a schedule of contribution installments, one of which is payable in each fiscal year included in the fifteen-year amortization period, which installments will amortize the FPF 1995 balance of BSL, together with interest on such balance.

(3) (i) The actuary shall determine each schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining each such schedule, the actuary shall employ an interest rate of eight and three-quarters per

centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight and three-quarters per centum per annum is prescribed by law for FPF for any fiscal year included in the fifteen-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to FPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to FPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In each fiscal year of the fifteen-year amortization period, the city shall pay into the contingent reserve fund of FPF the contribution installments applicable to such fiscal year under the schedules established pursuant to paragraph two of this subdivision.

(6) In the determination of the normal contribution payable to FPF with respect to each fiscal year occurring during the fifteen-year amortization period, the present value, as of June thirtieth next preceding such fiscal year, of all future installments of the contributions payable to such pension fund pursuant to this subdivision shall be treated as an asset of such pension fund.

(7) Notwithstanding any provision of the preceding paragraphs of this subdivision or any other law to the contrary, the provisions of such preceding paragraphs shall be superseded in the manner prescribed by subdivision p of this section with respect to contributions on account of UAL and BSL payable for each fiscal year included in the eleven-year amortization period.

p. (1) All installments of UAL and BSL contribution designated in subdivision o of this section as payable by the city for fiscal years occurring during the period beginning on July first, nineteen hundred ninety-nine and ending on June thirtieth, two thousand ten and all other installments of contribution resulting from any unfunded accrued liability established on or before June thirtieth, nineteen hundred ninety-nine which are payable to FPF in any fiscal year succeeding such June thirtieth by the city are hereby canceled and shall not be due and payable on or after such July first.

(2) Subject to the provisions of paragraph three of this subdivision, the actuary of FPF shall determine for such pension fund a schedule of contribution installments, one of which is payable in each fiscal year included in the eleven-year amortization period, which installments will amortize the FPF 1999 UAL, together with interest on such UAL.

(3)(i) The actuary shall determine the schedule of contribution installments referred to in paragraph two of this subdivision so that each installment after the first shall equal one hundred three per centum of the next preceding installment.

(ii) In determining such schedule, the actuary shall employ an interest rate of eight per centum per annum, compounded annually; provided that if a valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) other than eight per centum per annum is prescribed by law for FPF for any fiscal year included in the eleven-year amortization period, the schedule contribution installments which are required to be paid, for such fiscal year in which such changed valuation rate of interest is in effect, to FPF shall be redetermined by the actuary thereof on the basis of a rate of interest equal to such changed rate, compounded annually, so as to reflect such changed rate appropriately in such redetermined installments.

(4) Any amount required to be contributed to FPF with respect to any fiscal year under the provisions of this subdivision shall be payable with interest on such amount at the valuation rate of interest (as defined in paragraph eleven of subdivision a of section 13-638.2 of this subchapter) for such pension fund for such fiscal year.

(5) In each fiscal year of the eleven-year amortization period, the city shall pay into the contingent reserve fund of FPF the contribution installments applicable to such fiscal year under the schedule established pursuant to paragraph two of this subdivision.

**HISTORICAL NOTE**

Section heading amended chap 249/1996 § 30, eff. June 30, 1996 and deemed to have been in effect on and after July 1, 1995

Section heading amended chap 633/1994 § 7, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993

Section added chap 610/1991 § 7 retro. to July 1, 1990

Subd. a pars. (23)-(27) added chap 633/1994 § 8, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993

Subd. a pars (28)-(31) added chap 249/1996 § 31, eff. June 30, 1996 and deemed to have been in effect on and after July 1, 1995

Subd. a pars (32), (33) added chap 85/2000 § 20, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

Subd. h par (3) added chap 633/1994 § 12, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993

Subd. n added chap 633/1994 § 9, eff. July 28, 1994 and deemed to have been in force on and after July 1, 1993

Subd. n par (6) added chap 249/1996 § 32, eff. June 30, 1996 and deemed to have been in effect on and after July 1, 1995

Subd. o added chap 249/1996 § 33, eff. June 30, 1996 and deemed to have been in effect on and after July 1, 1995

Subd. o par (7) added chap 85/2000 § 21, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

Subd. p added chap 85/2000 § 22, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

*NYC Administrative Code 13-638.4*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 5 MISCELLANEOUS PENSION AND RETIREMENT PROVISIONS

SUBCHAPTER 4 MISCELLANEOUS PROVISIONS

§ 13-638.4 Membership rights in NYCERS and BERS for part-time service; credit for service; dual employment provisions; membership rights of school crossing guards.

a. Definitions. The following terms, as used in this section, shall have the following meanings, unless a different meaning is plainly required by the context:

(1) "RSSL". The New York state retirement and social security law.

(2) "City-service". City-service as defined in subdivision three of section 13-101 of the code.

(3) "Education service". Service as a paid official or employee of the board of education of the city of New York or the New York city school construction authority, and allowable as provided in section four of the rules and regulations of the board of education retirement system of the city of New York or, in the case of a tier II, tier III or tier IV member of such system, allowable pursuant to the provisions which respectively govern the service credit of such a member of such retirement system.

(4) "NYCERS". The New York city employees' retirement system.

(5) "BERS". The board of education retirement system of the city of New York.

(6) "Retirement system". NYCERS or BERS.

(7) "Tier I member". A member of NYCERS or BERS whose benefits (other than a supplemental retirement allowance) are prescribed by chapter one of title thirteen of the code or the BERS rules and regulations, respectively, and who is not subject to the provisions of article eleven, article fourteen or article fifteen of the RSSL.

(8) "Tier II member". A member of NYCERS or BERS who is subject to the provisions of article eleven of the RSSL.

(9) "Tier III member". A member of NYCERS or BERS who is subject to the provisions of article fourteen of the RSSL.

(10) "Tier IV member". A member of NYCERS or BERS who is subject to the provisions of article fifteen of the RSSL.

(11) "Full-time city-service". City-service rendered in a title in which a person is regularly scheduled to work at least eighteen hundred twenty-seven hours per year, provided that no service rendered prior to the expiration of the window period (as defined in paragraph twenty-two of this subdivision) in such a title shall be deemed to be full-time city-service for the limited purposes only of subdivisions b and d of this section where NYCERS, prior to May thirty-first, nineteen hundred eighty-eight, would have deemed the person rendering such service to be ineligible for membership in NYCERS because such person was regularly scheduled to work less than a sufficient number of hours per year for NYCERS to consider such service to be full-time city-service, or because such service was being rendered not on a per annum basis, but rather on a per hour basis, a per diem basis or some other basis. The employeer of any member of NYCERS or BERS, at such retirement system's request, shall certify the regularly scheduled hours of employment of any position held by such member.

(12) "Part-time city-service". City-service which is not full-time city-service.

(13) (i) "Full-time education service". Except as provided in subparagraph (ii) of this paragraph, (A) education service rendered in a title in which a person is regularly scheduled to work at least eighteen hundred twenty-seven hours per year; or (B) education service rendered in a title (a) in which duties are regularly scheduled to be performed only during the school year (as defined in paragraph twenty-four of this subdivision), (b) in which a person is regularly scheduled to work at least fourteen hundred seventy hours per school year, and (c) in which such person, as a member of BERS, is entitled to earn credit for such service, pursuant to paragraph two of subdivision c of this section, on the basis of one year of service credit for fourteen hundred seventy hours of such service rendered in a calendar year.

(ii) No such service rendered prior to the expiration of the window period (as defined in paragraph twenty-two of this subdivision), which meets the requirements of subparagraph (i) of this paragraph, shall be deemed to be full-time education service for the limited purposes only of subdivisions b and d of this section where BERS, prior to May thirty-first, nineteen hundred eighty-eight, would have deemed the person rendering such service to be ineligible for membership in BERS because such person was regularly scheduled to work less than a sufficient number of hours per year for BERS to consider such service to be full-time education service, or because such service was being rendered not on a per annum basis, but rather on a per hour basis, a per diem basis or some other basis.

(iii) The employeer of any member of BERS or NYCERS, at such retirement system's request, shall certify the regularly scheduled hours of employment of any position held by such member.

(14) "Part-time education service". Education service which is not full-time education service.

(15) "Part-time service". Part-time city-service or part-time education service.

(16) "Active service". Full-time city-service, full-time education service, part-time city-service or part-time education service.

(17) "Qualified period of continuous active service". A part of a person's active service consisting of a period:

(i) which began prior to May thirty-first, nineteen hundred eighty-eight; and

(ii) during which the person rendered one or more periods of part-time service prior to May thirty-first, nineteen hundred eighty-eight; and

(iii) which ends no later than the end of the window period, as defined in paragraph twenty-two of this subdivision; and

(iv) which was not interrupted by a subsequent disqualifying break in service, as defined in paragraph eighteen of this subdivision; and

(v) which was not interrupted by a subsequent disqualifying period of non-membership full-time service, as defined in paragraph twenty-one of this subdivision.

(18) "Disqualifying break in service". A break in a period of city-service or education service which occurs when the total length of a period of two or more consecutive one-year breaks in service, as defined in paragraph nineteen of this subdivision, exceeds the total length of a period of one or more consecutive one-year periods of active service, as defined in paragraph twenty of this subdivision, which immediately precedes such period of consecutive one-year breaks in service, provided that for the purpose of measuring the length of such immediately preceding period of consecutive one-year periods of active service, such immediately preceding period shall not include any such one-year period of active service which was part of a disqualifying period of non-membership full-time service, as defined in paragraph twenty-one of this subdivision.

(19) "One-year break in service". A calendar year during which a person was not paid on the payroll for a total of at least two hundred fifty hours of city-service, education service or a combination of city-service and education service, provided that where any person was terminated in nineteen hundred seventy-five from employment in the title of school crossing guard with the New York city police department as a result of the dissolution of the school crossing guard program in such year, and who was reappointed to employment in such title with such department on or before June thirtieth, nineteen hundred seventy-nine, such person shall not be charged with a one-year break in service for any calendar year during the period commencing with the calendar year of such termination and ending with the calendar year of such reappointment, and provided further that such person shall not be credited with a one-year period of active service (as defined in paragraph twenty of this subdivision) for any calendar year during such period unless such person actually was paid on the payroll during such calendar year for a total of at least two hundred fifty hours of city-service, education service or a combination of city-service and education service.

(20) "One-year period of active service". A calendar year during which a person was paid on the payroll for a total of at least two hundred fifty hours of city-service, education service or a combination of city-service and education service.

(21) "Disqualifying period of non-membership full-time service". A one-year period commencing on the date a person became eligible to become a member of NYCERS or BERS by reason of being employed in full-time city-service or full-time education service, during which one-year period such person was eligible to become such a member and did not do so, provided that such period of full-time service shall not be a disqualifying period of non-membership full-time service where such period was immediately preceded or followed by a period of part-time service rendered by such person which exceeded the length of such period of full-time service, provided further that for the purpose of measuring the length of such immediately preceding or following period of part-time service, such period shall not include any calendar year which is not a one-year period of active service, as defined in paragraph twenty of this subdivision.

(22) "Window period". A one-year period commencing the day immediately following July thirty-first, nineteen

hundred ninety-two or a six month period commencing the day immediately following the date of enactment of the chapter of the laws of nineteen hundred ninety-six which added this provision.

(23) "Previous part-time service". Part-time service rendered prior to last becoming a member of NYCERS or BERS or, if a person last became a member of NYCERS or BERS prior to May thirty-first, nineteen hundred eighty-eight, part-time service rendered prior to such date.

(24) "School year". The regular academic year of the New York city public schools, which generally begins with the first day of classes in September of one year and ends with the last day of classes in June of the following year, but which also may be deemed to include a brief period of time immediately prior to such academic year and/or a brief period of time immediately subsequent to such academic year where the duties of a particular job title which are performed almost exclusively during such academic year extend to such brief period or periods immediately prior and/or subsequent to such academic year.

b. Retroactive membership in NYCERS or BERS; accelerated purchase of credit for previous part-time service. (1) For purposes of paragraphs three, six, seven, eight, ten and eleven of this subdivision, a person who meets the requirements of this paragraph one shall be a person who was employed in part-time service prior to May thirty-first, nineteen hundred eighty-eight, and who:

(i) was actually paid on the payroll in active service on May thirty-first, nineteen hundred eighty-eight; or

(ii) was separated from active service prior to May thirty-first, nineteen hundred eighty-eight and returned to active service after such date, but within four years after last being separated from active service prior to such date; or

(iii) was paid on the payroll for work performed in the title of college assistant with the city university of New York in all or a portion of the academic year which shall be deemed to have commenced on September first, nineteen hundred eighty-seven, and was separated from employment in such title prior to May thirty-first, nineteen hundred eighty-eight, and did not return to active service.

(2) For purposes of pargraphs three, six, seven, eight, ten and eleven of this subdivision, a period of part-time service which meets the requirements of this paragraph shall be any period of part-time city-service or part-time education service which is part of a qualified period of continuous active service, as defined in paragraph seventeen of subdivision a of this section.

(3) (i) Notwithstanding any other provision of law to the contrary, a member of NYCERS or BERS who meets the requirements of paragraph one of this subdivision, and who has one or more periods of part-time service which meets the requirements of paragraph two of this subdivision, may elect to be deemed to have become a member of such retirement system on a date selected by such member which is part of a period of part-time service which meets such requirements, by filing with such retirement system, during the window period, a written request for such retroactive membership date, provided that the retroactive membership date selected by such member shall be a date which is earlier than his or her last date of commencement of membership in such retirement system.

(ii) The election by a member of NYCERS or BERS of a retroactive date of commencement of membership in such retirement system pursuant to subparagraph (i) of this paragraph shall be irrevocable, and the obligations, rights and privileges of such member from and after such retroactive membership date shall be the same as if such member originally had become a member of the retirement system on such retroactive membership date. Such member, however, shall not receive service credit for any previous part-time service for which he or she did not purchase service credit while a member of such system. The purchase of previous part-time service by such member shall be in compliance with all requirements of the code, the BERS rules and regulations or the RSSL which would be applicable to him or her if he or she originally had become a member of the retirement system on such retroactive membership date, or in compliance with such applicable requirements, as modified by any provision of paragraph six, seven, eight, nine or eleven of this subdivision, where such member is or may become eligible for the benefits of any such paragraph.

(4) Notwithstanding any other provision of law to the contrary, if the designated beneficiary or the estate of a deceased member of NYCERS or BERS, who died while a member of such retirement system on or after May thirty-first, nineteen hundred eighty-eight, but prior to the expiration of the window period, purchases credit for previous part-time service on behalf of such deceased member pursuant to paragraph ten of this subdivision, then such deceased member shall be deemed to have become a member of such retirement system on the commencement date of such part-time service.

(5) Notwithstanding any other provision of law to the contrary, any service retiree of NYCERS or BERS whose retirement became effective on or after May thirty-first, nineteen hundred eighty-eight, but prior to the expiration of the window period, who purchases credit for previous part-time service pursuant to paragraph eight of this subdivision, may elect to be deemed to have become a member of such retirement system on the earliest date of such part-time service for which credit was purchased pursuant to such paragraph eight by filing with such retirement system, during the window period, a written request for such retroactive membership date.

(6) Notwithstanding any provision of section 13-108 of the code which requires a tier I member of NYCERS to pay for the purchase of credit for previous service through deductions from compensation, or any provision of subdivision b of section four hundred forty-six of the RSSL (with respect to a tier II member), subdivision b of section five hundred thirteen of the RSSL (with respect to a tier III member) or subdivision b of section six hundred nine of the RSSL (with respect to a tier IV member) which requires such tier II, tier III or tier IV member to have rendered at least five years of credit service after last joining a public retirement system in order to be eligible to obtain credit for previous service, and notwithstanding any other provision of law to the contrary, a member of NYCERS in city-service, or a member of BERS in education service, who:

(i) meets the requirements of paragraph one of this subdivision; and

(ii) has one or more periods of part-time service which meets the requirements of paragraph two of this subdivision; and

(iii) otherwise is eligible to retire for service during the window period, or otherwise would be eligible to retire for service during the window period if he or she were permitted to purchase during the window period credit for such period or periods of previous part-time service; and

(iv) retires for service so that the effective date of his or her retirement occurs during the window period and at the time of such retirement is at least sixty-two years of age may purchase during the window period credit for such period or periods of previous part-time service by paying during the window period a lump sum amount computed in accordance with the applicable provisions governing the purchase of credit for previous service, or such a lump sum as reduced in accordance with the provisions of paragraph nine of this subdivision.

(7) Notwithstanding any provision of section 13-108 of the code which requires a tier I member of NYCERS to pay for the purchase of credit for previous service through deductions from compensation, or any provision of subdivision b of section four hundred forty-six of the RSSL (with respect to a tier II member), subdivision b of section five hundred thirteen of the RSSL (with respect to a tier III member) or subdivision b of section six hundred nine of the RSSL (with respect to a tier IV member) which requires a tier II, tier III or tier IV member to have rendered at least five years of credited service after last joining a public retirement system in order to be eligible to obtain credit for previous service, and notwithstanding any other provision which requires a member of NYCERS or BERS to be in city-service or education service, respectively, in order to be retired for service, and notwithstanding any other provision of law to the contrary, a member of NYCERS or BERS who: (i) meets the requirements of paragraph one of this subdivision; and

(ii) has one or more periods of part-time service which meets the requirements of paragraph two of this subdivision; and

(iii) separated from active service (other than as a result of dismissal on charges or forfeiture of office) on or after May thirty-first, nineteen hundred eighty-eight; and

(iv) was at least sixty-two years of age at the time he or she separated from active service; and

(v) otherwise would have been eligible to retire for service at the time he or she separated from service if he or she at that time had been permitted to purchase and had purchased credit for such period of periods of previous part-time service may purchase during the window period credit for such period or periods of previous part-time service by paying during the window period a lump sum amount computed in accordance with the applicable provisions governing the purchase of credit for previous service, or such a lump sum as reduced in accordance with the provisions of paragraph nine of this subdivision, and may retire for service, provided that such member shall actually retire for service during the window period (with an effective date of retirement occurring during such period) and shall purchase such service credit during such period, and provided further that such retirement shall be permitted only in accordance with the provisions of this paragraph.

(8) Notwithstanding any other provision of law to the contrary, a service retiree of NYCERS or BERS:

(i) whose retirement became effective on or after May thirty-first, nineteen hundred eighty-eight, but prior to the expiration of the window period; and

(ii) who was at least sixty-two years of age at the time of such retirement for service; and

(iii) who meets the requirements of paragraph one of this subdivision; and

(iv) who has one or more periods of part-time service which meets the requirements of paragraph two of this subdivision may purchase during the window period credit for all or a portion of the previous part-time service which meets such requirements by paying during the window period a lump sum amount computed in accordance with the applicable provisions set forth below in this paragraph, provided that where such retiree purchases credit for less than the entire amount of such part-time service, he or she shall purchase credit for such service in the inverse order of which such service was rendered, with credit for the most recent service being purchased first, and credit for the earliest service being purchased last, and provided further that such a retiree who purchases such credit pursuant to this item shall have his or her service retirement allowance recomputed to reflect the purchase of such credit, but such retiree shall not be entitled to change the mode of payment of such retirement allowance from an option to the maximum retirement allowance, from the maximum retirement allowance to an option or from one option to another option. If such service retiree elects, pursuant to paragraph five of this subdivision, a retroactive date of commencement of membership, the obligations, rights and privileges of such retiree's membership from such new date of commencement of membership up to his or her service retirement, including, but not limited to, the computation of his or her retirement allowance and the obligation to make member contributions, shall be the same as if such person originally had become a member of the retirement system on such retroactive membership date, and the lump sum for the purchase of credit for such previous part-time service shall be computed in accordance with the provisions governing the purchase of pre-membership service credit which would be applicable to him or her if he or she originally had become a member of the retirement system on such retroactive membership date, subject, however, to any applicable reduction of such lump sum in accordance with the provisions of paragraph nine of this subdivision. If such service retiree does not make such an election pursuant to such paragraph five, such lump sum amount, subject to any applicable reduction pursuant to such paragraph nine, shall be computed in accordance with the applicable provisions governing the purchase of pre-membership service credit on the basis of the date of last commencement of membership of such service retiree.

(9) A member of NYCERS or BERS, who purchases credit for previous part-time service for a lump sum amount pursuant to paragraph six, seven or eight of this subdivision, may elect to have that lump sum amount reduced by an amount up to the maximum amount which such member would have been entitled to borrow from the total amount that would have been credited to such member in his or her annuity savings account (in the case of a tier I or tier

II member) or member contributions accumulation fund (in the case of a tier III or tier IV member) if, during the window period, he or she had paid the full amount required to purchase such credit, provided that such person's retirement allowance shall be actuarially reduced (in accordance with the provisions of law governing loans which would be applicable to such person) by the amount by which the full lump sum purchase price was reduced pursuant to this paragraph.

(10) (i) Notwithstanding any other provision of law to the contrary, where a deceased member of NYCERS or BERS, who died while a member of such system on or after May thirty-first, nineteen hundred eighty-eight, but prior to the expiration of the window period, met the requirements of paragraph one of this subdivision and, at the time of his or her death, had one or more periods of previous part-time service which meets the requirements of paragraph two of this subdivision, then his or her designated beneficiary (or estate if there is no designated beneficiary) may, during the window period (or if such member died within one hundred eighty days prior to the expiration of the window period, within one hundred eighty days after the expiration of the window period), file an election purchasing, on behalf of such deceased member, credit for all, but not less than all, of the previous part-time service which meets such requirements. The purchase price of such credit shall be deemed to have been paid by and refunded to the designated beneficiary or estate which files such election.

(ii) Notwithstanding any other provision of law to the contrary, where the designated beneficiary or the estate of a deceased member of NYCERS or BERS purchases credit for one or more periods of previous part-time service on behalf of such deceased member pursuant to subparagraph (i) of this paragraph, and such deceased member did not die in active city-service or active education service for purposes of the applicable ordinary death benefit provision, then such deceased member shall be deemed to have died in active city-service or active education service for purposes of the applicable ordinary death benefit provision, but not for the purposes of any accidental death benefit provision or any presumptive retirement provision or provision for payment of a death benefit equal to a pension reserve.

(iii) Under no circumstances shall the purchase of credit by a beneficiary or estate pursuant to subparagraph (i) of this paragraph result in any benefit or any increase in benefit becoming payable pursuant to a presumptive retirement provision, or provision for payment of a death benefit equal to a pension reserve.

(11) (i) A member of NYCERS in city-service or a member of BERS in education service who:

(A) meets the requirements of paragraph one of this subdivision; and

(B) has one or more periods of part-time service which meets the requirements of paragraph two of this subdivision; and

(C) otherwise is eligible to retire for service or otherwise would be eligible to retire for service if he or she were permitted to purchase credit for such part-time service; and

(D) submits to the appropriate retirement system a written request to purchase credit for a lump sum amount for any such period or periods of previous part-time service, in which request it is alleged that he or she is physically or mentally incapacitated for the performance of duty shall be entitled to a medical examination which shall be performed by the medical board of such retirement system.

(ii) Notwithstanding any other provision of law to the contrary, if such medical examination shows that any such member who meets the requirements of subparagraph (i) of this paragraph eleven is physically or mentally incapacitated for the performance of duty, the medical board shall so report to the executive director of such retirement system, and such member in city-service or education service shall be permitted to purchase credit for such period or periods of previous part-time service by paying a lump sum amount computed in accordance with the applicable provisions governing the purchase of credit for previous service, provided that such member shall both (A) actually retire for service effective not later than sixty days after being notified by the retirement system that he or she is eligible to purchase credit for such service pursuant to this paragraph, and (B) complete payment for such purchase within such

sixty-day period.

(12) Notwithstanding any other provision which requires a person to be in city-service in order to become a member of NYCERS, or in education service in order to become a member of BERS, and notwithstanding any other provision of law to the contrary, a person who:

(i) was paid on the payroll in active part-time service on May thirty-first, nineteen hundred eighty-eight; and

(ii) separated from part-time service (other than as a result of dismissal on charges or forfeiture of office) subsequent to May thirty-first, nineteen hundred eighty-eight and prior to August first, nineteen hundred ninety-two, and has not returned to active service; and

(iii) was otherwise eligible to become a member of NYCERS or BERS based upon such part-time service; and

(iv) did not file an application to become a member of such retirement system prior to such separation from service shall be permitted to become a member of such retirement system by filing an application for membership with such system during the window period, provided that such person shall otherwise be eligible pursuant to paragraph seven of this subdivision to retire for service and shall actually retire for service pursuant to such paragraph seven during the window period with an effective date of retirement during the window period.

c. Credit for service. (1) Notwithstanding any other provision of law to the contrary, and except as provided in paragraph two of this subdivision, and subject to the provisions of subdivision f of this section a member of NYCERS or BERS, who otherwise is entitled to credit for city-service or education service, shall have such credit prorated on the basis of one year of service credit for eighteen hundred twenty-seven hours of such service rendered in a calendar year, provided, however, that no such member shall earn more than one year of service credit during any calendar year, and no such member shall earn, for any fraction of a calendar year, a fraction of a year of service credit, which fraction is greater than such fraction of a calendar year. However, this paragraph shall not apply to teachers, including those who work as regular substitutes and per diem teachers.

(2) Notwithstanding the provisions of paragraph one of this subdivision, or any other provision of law to the contrary, and subject to the provisions of subdivision f of this section, a member of BERS, who otherwise is entitled to credit for education service in a job title in which duties are regularly scheduled to be performed only during the school year, or who otherwise is entitled to credit for service in the title of school crossing guard with the New York city police department, where the duties of such title are regularly scheduled to be performed only during the school year, shall have such credit prorated on the basis of one year of service credit for fourteen hundred seventy hours of such service rendered in a calendar year, provided that no such member shall earn more than one year of service credit during any calendar year, and no such member shall earn for any fraction of a calendar year, a fraction of a year of service credit, which fraction is greater than such fraction of a calendar year. However, this paragraph shall not apply to teachers, including those who work as regular substitutes and per diem teachers.

(3) The board of trustees of NYCERS and the retirement board of BERS shall have the authority to adopt reasonable rules for prorating the credit for part-time city-service or part-time education service rendered in part-time per annum job titles for which it is difficult to determine the number of hours actually worked, including, but not limited to, such titles as New York city tax commissioner, New York city planning commissioner and New York city councilmanic aide. Such rules shall, to the extent possible, grant service credit based on the number of hours actually worked in such titles.

d. Purchase of credit for previous part-time service. (1) Except as provided in paragraphs two and three of this subdivision, and subject to the provisions of paragraphs six through eleven of subdivision b of this section, where those provisions are applicable, the purchase of credit for previous part-time service by a member of NYCERS or BERS shall be governed by all of the applicable provisions which otherwise would govern the purchase of credit for pre-membership service by such member.

(2) (i) Notwithstanding any other provision of law to the contrary, a member of NYCERS may purchase credit for previous part-time education service which was rendered prior to the expiration of the window period (as defined in paragraph twenty-two of subdivision a of this section), except that such member may not purchase credit for any such part-time education service rendered prior to the expiration of the window period which was rendered during a payroll period in which such member also rendered city-wide for which he or she has earned or is eligible to earn service credit.

(ii) Notwithstanding any other provision of law to the contrary, a member of BERS may purchase credit for previous part-time city-service which was rendered prior to the expiration of the window period, except that such member may not purchase credit for any such part-time city-service rendered prior to the expiration of the window period which was rendered during a pay period in which such member also rendered education service for which he or she has earned or is eligible to earn service credit.

(3) Notwithstanding any other provision of law to the contrary, where a tier I or tier II member of NYCERS or BERS has purchased credit for previous part-time service which meets the requirements of paragraph two of subdivision b of this section, or a tier I or tier II service retiree of NYCERS or BERS has purchased such credit pursuant to paragraph eight of subdivision b of this section, or a beneficiary or estate has purchased such credit on behalf of such member pursuant to paragraph ten of subdivision b of this section, such credit, whether or not purchased pursuant to any of the provisions of paragraphs six through eleven of subdivision b of this section, shall be counted toward such member's eligibility for a retirement benefit as well as the amount of the benefit; provided that where service in a specified title or in specified titles is required for eligibility for a benefit, or is required with respect to the method of determining the amount of a benefit, nothing contained in this paragraph shall be construed as directing that part-time service in a title which is different from such specified title or titles shall be creditable toward satisfying such eligibility requirement or such requirement as to the method of determining the amount of a benefit.

(4) No provision of the code or the rules and regulations of BERS which provides for the payment of a pension-providing-for-increased-take-home-pay for a member of NYCERS or BERS, or the funding of such a benefit, or the accumulation of a reserve-for-increased-take-home-pay, shall be applicable to the purchase of credit by such member for previous part-time service.

(5) The provisions of section one hundred thirty-eight-b of the RSSL shall not be applicable to the purchase of credit for previous part-time service by a member of NYCERS or BERS.

(6) Nothing contained in paragraph four or paragraph five of this subdivision shall be construed as adding to, diminishing or changing any rights or obligations pertaining to the purchase of credit for previous service which is not part-time service.

e. Salary base for part-time service. (1) Definitions. The following terms, as used in this subdivision, shall have the following meanings, unless a different meaning is plainly required by the context:

(i) "Full-time position in city-service". A position in city-service in which a person is regularly scheduled to work at least eighteen hundred twenty-seven hours per year.

(ii) "Full-time position in education service". (A) A position in education service in which a person is regularly scheduled to work at least eighteen hundred twenty-seven hours per year; or

(B) a position in education service (a) in which duties are regularly scheduled to be performed only during the school year; (b) in which a person is regularly scheduled to work at least fourteen hundred seventy hours per school year; and (c) in which such person, as a member of BERS, is entitled to earn credit for such service, pursuant to paragraph two of subdivision c of this section, on the basis of one year of service credit for fourteen hundred seventy hours of such service rendered in a calendar year.

(2) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I

member of NYCERS who did not hold a full-time position in city-service at all times during the entire one-year period immediately prior to retirement the term "salary or compensation earnable by him or her for city-service in the year prior to his or her retirement", as used in subparagraph (a) of paragraph three of subdivision e of section 13-162 of the code, subparagraph (a) of paragraph three of subdivision g of such section, subparagraph (a) of paragraph four of such subdivision g, subparagraph (e) of paragraph eight of subdivision a of section 13-172 of the code, subparagraph (a) of paragraph three of subdivision c of section 13-174 of the code or subparagraph (a) of paragraph four of such subdivision c, or the term "annual salary or compensation earnable by him or her for city-service in the year prior to his or her retirement", as used in subparagraph (b) of paragraph seven of subdivision a of section 13-172 of the code, shall be deemed to mean the salary or compensation paid on the payroll to such member for city-service rendered during the period for which such member was credited with his or her final one year of service credit immediately prior to retirement.

(3) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who did not hold a full-time position in city-service at all times during the entire one-year period immediately prior to his or her discontinuance of city-service, the term "annual salary or compensation earnable by him or her for city-service in the year prior to his or her discontinuance of city-service", as used in paragraph two of subdivision c of section 13-173 of the code, shall be deemed to mean the salary or compensation paid on the payroll to such member for city-service rendered during the period for which such member was credited with his or her final one year of service credit immediately prior to his or her discontinuance of city-service.

(4) (i) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who did not hold a full-time position in city-service at all times while a member during the entire six-month period immediately preceding his or her death, the term "an amount equal to the compensation earnable by such member while a member, during the six months immediately preceding his or her death", as used in item (i) of subparagraph (a) of paragraph two of subdivision a of section 13-148 of the code, shall be deemed to mean an amount equal to the compensation paid on the payroll to such member for city-service rendered during the period for which such member, while a member, was credited with his or her final six months of service credit immediately preceding his or her death.

(ii) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who did not hold a full-time position in city-service at all times while a member during the entire twelve-month period immediately preceding his or her death, the term "an amount equal to the compensation earnable by such member in city-service while a member during the twelve months immediately preceding his or her death", as used in item (ii) of subparagraph (a) of paragraph two of subdivision a of section 13-148 of the code, shall be deemed to mean an amount equal to the compensation paid on the payroll to such member for city-service rendered during the period for which such member, while a member, was credited with his or her final twelve months of service credit immediately preceding his or her death.

(iii) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who did not hold a full-time position in city-service at all times during the entire twelve-month period immediately preceding his or her death, the term "an amount equal to twice the compensation earnable by him or her in city-service while a member during the twelve months immediately preceding his or her death", as used in item (iii) of subparagraph (a) of paragraph two of subdivision a of section 13-148 of the code, shall be deemed to mean an amount equal to twice the compensation paid on the payroll to such member for city-service rendered during the period for which such member, while a member, was credited with his or her final twelve months of service credit immediately preceding his or her death.

(5) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who did not hold a full-time position in city-service at all times during his or her entire last five years of city-service, or during any other fiive consecutive years of member or restored member service which such member shall designate pursuant to subdivision nine of section 13-101 of the code, the term "final compensation", as

defined in such subdivision nine, shall be deemed to mean one-fifth of the highest total compensation paid on the payroll to such member for any continuous period of city-service for which the member was credited with five years of service credit.

(6) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of NYCERS who has made a valid election of "three-year-average compensation" pursuant to subdivision fifty-eight of section 13-101 of the code, and who did not hold a full-time position in city-service at all times during the entire three-year period of city-service designated by such member, the term "three-year period of city-service designated by such member, the term "three-year-average compensation", as defined in such subdivision fifty-eight, shall be deemed to mean one-third of the highest total compensation paid on the payroll to such member during any continuous period of city-service for which the member was credited with three years of service credit.

(7) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of BERS who did not hold a full-time position in education service at all times during the entire one-year period immediately prior to retirement, the term "salary or compensation earnable by him for education-service in the year prior to his retirement", as used in subparagraph (a) of paragraph three of subdivision e of section thirty of the BERS rules and regulations, subparagraph (a) of paragraph three of subdivision g of such section, subparagraph (a) of paragraph four of such subdivision g, paragraph (e) of subdivision eight of section twelve of the BERS rules and regulations, subparagraph (i) of paragraph c of subdivision three of section sixteen of the BERS rules and regulations or subparagraph (i) of paragraph d of such subdivision three, or the term "annual salary or compensation earnable by him for education-service in the year prior to his retirement", as used in paragraph (b) of subdivision seven of section twelve of the BERS rules and regulations, shall be deemed to mean the salary or compensation paid on the payroll to such member for education service rendered during the period for which such member was credited with his or her final one year of service credit immediately prior to retirement.

(8) Subject to the provisions of subdivision f of this section, where the provisions are applicable, for a tier I member of BERS who did not hold a full-time position in education service at all times during the entire one-year period immediately prior to his or her discontinuance of city-service, the term "annual salary or compensation earnable by him for education-service in the year prior to his discontinuance of education-service", as used in paragraph two of subdivision c of section thirty-two of the BERS rules and regulations, shall be deemed to mean the salary or compensation paid on the payroll to such member for education service rendered during the period for which such member was credited with his or her final one year of service credit immediately prior to his or her discontinuance of education service.

(9) (i) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of BERS who did not hold a full-time position in education service at all times during the entire six-month period immediately preceding his or her death, the term "an amount equal to the compensation earnable by him during the six months immediately preceding his death", as used in subdivision one of section twenty of the BERS rules and regulations or paragraph (b) of subdivision two of such section, shall be deemed to mean an amount equal to the compensation paid on the payroll to such member for education service rendered during the period for which such member was credited with his or her final six months of service credit immediately preceding his or her death.

(ii) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of BERS who did not hold a full-time position in education service at all times during the entire twelve-month period immediately preceding his or her death, "an amount equal to the compensation earnable by him during the twelve months immediately preceding his death", as used in subdivision one of section twenty of the BERS rules and regulations or paragraph (b) of subdivision two of such section, shall be deemed to mean an amount equal to the compensation paid on the payroll to such member for education service rendered during the period which such member was credited with his or her final twelve months of service credit immediately preceding his or her death.

(iii) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I

member of BERS who did not hold a full-time position in education service at all times during the entire twelve-month period immediately preceding his or her death, the term "an amount equal to twice the compensation earnable by him in education-service while a member during the twelve months immediately preceding his death", as used in subdivision three of section twenty of the BERS rules and regulations, shall be deemed to mean an amount equal to twice the compensation paid on the payroll to such member for education service rendered during the period for which such member, while a member, was credited with his or her final twelve months of service credit immediately preceding his or her death.

(10) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of BERS who did not hold a full-time position in education service at all times during his or her entire last five years of education service, or during any other five consecutive years of education service which such member shall designate pursuant to subdivision thirteen of section two of the BERS rules and regulations, the term "final compensation", as defined in such subdivision thirteen, shall be deemed to mean one-fifth of the highest total personal compensation in any form paid on the payroll to such member for regular day service during any continuous period of education service for which the member was credited with five years of service credit, provided that such amount shall be exclusive of any extra compensation for special services, either during the day or night.

(11) Subject to the provisions of subdivision f of this section, where those provisions are applicable, for a tier I member of BERS who has made a valid election of "three-year-average compensation" pursuant to subdivision thirty-six of section two of the BERS rules and regulations and who did not hold a full-time position in education service at all times during the entire three-year period of education service designated by such member, the term "three-year-average compensation", as defined in such subdivision thirty-six, shall be deemed to mean one-third of the highest total compensation paid on the payroll to such member during any continuous period of education service for which the member was credited with three years of service credit.

(12) (i) Subject to the provisions of subdivision f of this section and the provisions of subdivision d of section four hundred forty-three of the RSSL, where those provisions are applicable, and notwithstanding the provisions of subdivision a of section four hundred forty-three of the RSSL, for a tier II member of NYCERS or BERS, the term "final average salary", as used in article eleven of the RSSL, shall be equal to the greater of:

(A) one-third of the highest total salary earned during any continuous period of employment for which the member was credited with three years of service credit; provided that such salary shall be subject to the provisions of subparagraph (ii) of this paragraph; and provided further that if the salary earned during any year of credited service included in the period used to determine final average salary exceeds the average of the salaries of the previous two years of credited service by more than twenty per centum, the amount in excess of twenty per centum shall be excluded from the computation of final average salary; or

(B) the total amount of salary earned during any six consecutive years from service for which the member received service credit divided by the amount of such service credit earned during that six-year period; provided that such total amount of salary shall be subject to the provisions of subparagraph (ii) of this paragraph.

(ii) The total earned salary used to determine the amount computed pursuant to item (A) or item (B) of subparagraph (i) of this paragraph shall be exclusive of any form of termination pay (which shall include any compensation in anticipation of retirement), any lump sum payment for deferred compensation, sick leave, or accumulated vacation credit, or any other payment for time not worked (other than compensation received while on sick leave or authorized leave of absence).

(13) Subject to the provisions of subdivision f of this section and the provisions of subdivision c of section five hundred twelve of the RSSL, where those provisions are applicable, and notwithstanding the provisions of subdivision a of section five hundred twelve of the RSSL, for a tier III member of NYCERS or BERS, the term "final average salary", as used in article fourteen of the RSSL, shall be equal to the greater of:

(i) one-third of the highest total wages earned during any continuous period of employment for which the member was credited with three years of service credit; provided that if the wages earned during any year of credited service included in the period used to determine final average salary exceeds the average of the wages of the previous two years of credited service by more than ten percent, the amount in excess of ten percent shall be excluded from the computation of final average salary; or

(ii) the total wages earned during any six consecutive years from service for which the member received service credit divided by the amount of such service credit earned during that six-year period.

(14) Subject to the provisions of subdivision f of this section and the provisions of subdivision c of section six hundred eight of the RSSL, where those provisions are applicable, and notwithstanding the provisions of subdivision a of section six hundred eight of the RSSL, for a tier IV member of NYCERS or BERS, the term "final average salary", as used in article fifteen of the RSSL, shall be equal to the greater of:

(i) one-third of the highest total wages earned by such member during any continuous period of employment for which the member was credited with three years of service credit; provided that if the wages earned during any year of credited service included in the period used to determine final average salary exceeds the average of the wages of the previous two years of credited service by more than ten percent, the amount in excess of ten percent shall be excluded from the computation of final average salary; or

(ii) the total wages earned during any six consecutive years from service for which the member received service credit divided by the amount of such service credit earned during that six-year period.

(15) Nothing contained in this subdivision shall be construed as modifying the provisions of paragraph (a) of subdivision thirty-seven of section two of the BERS rules and regulations, or as affecting in any way the manner in which such paragraph is interpreted and applied by BERS to the computation of benefits.

f. Dual employment. (1) Definitions. The following terms as used in this subdivision, shall have the following meanings, unless a different meaning is plainly required by the context:

(i) "Full-time position". As relating to a particular period of time during which a member of NYCERS concurrently held two or more positions in city-service, or a member of BERS concurrently held two or more positions in education service, a position in such service held by such a member for which he or she was paid on the payroll during that period for a sufficient number of hours such that he or she either was eligible to earn or would have been eligible to earn from such position during such period the maximum amount of credit which could be earned for such period pursuant to subparagraph (i) of paragraph three of this subdivision if that position were the only position in such service held by such member during such period.

(ii) "Part-time position". As relating to a particular period of time during which a member of NYCERS concurrently held two or more positions in city-service, or a member of BERS concurrently held two or more positions in education service, a position in such service held by such a member for which he or she was paid on the payroll during that period for less than the minimum number of hours which would have been required for such member to earn from such position during such period the maximum amount of credit which could be earned for such period pursuant to subparagraph (i) of paragraph three of this subdivision if that position were the only position in such service held by such member during such period.

(iii) "Earnings". The compensation, salary or wages of a position in city-service or education service.

(iv) "Salary base". The earnings for a particular period of time from city-service for a member of NYCERS, or from education service for a member of BERS, which are required by law to be applied in calculating the benefit payable by such retirement system to such member or the beneficiary of such member pursuant to the applicable provisions of the code, the RSSL or the BERS rules and regulations.

(v) "Salary base period". That period of time for which all or a portion of the earnings from city-service for a NYCERS member, or all or a portion of the earnings from education service for a BERS member, are required to be applied in calculating the salary base pursuant to the applicable provisions of the code, the RSSL or the BERS rules and regulations.

(vi) "Rate of pay". The amount which a position in city-service or education service is scheduled to pay per hour, per day or per year.

(2) (i) Except as provided in subparagraph (iv) of paragraph eight of this subdivision, the provisions of this subdivision shall apply only to two or more positions in city-service held concurrently by a member of NYCERS or to two or more positions in education service held concurrently by a member of BERS.

(ii) Where a member of NYCERS concurrently holds or held two or more positions in city-service, or a member of BERS concurrently holds or held two or more positions in education service, such member shall make all required member contributions to such retirement system, as calculated pursuant to applicable provisions of law, for all service rendered in such positions concurrently held.

(iii) No member of NYCERS or BERS shall be entitled to any of the benefits of this subdivision for any service for which he or she has not paid all member contributions required by applicable provisions of law.

(3) (i) No member of NYCERS or BERS shall earn more than one year of service credit during any calendar year, and no such member shall earn, for any fraction of a calendar year, a fraction of a year of service credit, which fraction is greater than such fraction of a calendar year.

(ii) For any period in which a member of NYCERS concurrently held two or more positions in city-service, or a member of BERS concurrently held two or more positions in education service, such member may earn service credit from such two or more positions, and such credit shall be aggregated, but in no event shall such member earn a greater total amount of service credit from such positions during such period than he or she would have been eligible to earn pursuant to subparagraph (i) of this paragraph if such member had held only one full-time position during such period.

(4) (i) Except as provided in subparagraph (ii) of this paragraph, for all or any portion of a salary base period during which a member of NYCERS concurrently held two full-time positions in city-service, or a member of BERS concurrently held two full-time positions in education service, the earnings of such a member from only one of such two positions shall be applied in calculating the salary base, and the earnings from the position producing the higher salary base shall be used for this purpose.

(ii) Where a member of NYCERS has held two full-time positions in city-service concurrently for a total of at least nine months in each of ten consecutive years, and has made all required member contributions for such service, or a member of BERS has held two such full-time positions in education service concurrently for a total of at least nine months in each of ten consecutive years, and has made all required member contributions for such service, and such a member concurrently held two such positions during all or a portion of the salary base period, then the earnings from two such positions for that portion of the salary base period during which such positions were held concurrently shall be aggregated and applied in calculating the salary base.

(5) (i) Except as provided in subparagraph (ii) of this paragraph, for all or any portion of a salary base period during which a member of NYCERS concurrently held a full-time position in city-service and one or more part-time positions in city-service, or a member of BERS concurrently held a full-time position in education service and one or more part-time positions in education service, only the earnings from the full-time position shall be applied in calculating the salary base.

(ii) (A) Where a member of NYCERS has held a full-time position in city-service and one or more part-time positions in city-service concurrently for a total of at least nine months in each of ten consecutive years, and has made

all required member contributions for such service, or a member of BERS has held a full-time position in education service and one or more part-time positions in education service concurrently for a total of at least nine months in each of ten consecutive years, and has made all required member contributions for such service, and such a member concurrently held such a full-time position and one or more such part-time positions during all or a portion of the salary base period, then the following earnings from such positions for that portion of the salary base period during which such positions were held concurrently shall be aggregated and applied in calculating the salary base: (a) the earnings from the full-time position during such portion of such salary base period; plus

(b) the earnings from those part-time positions held during such portion of such salary base period, which part-time positions are equal in number to the part-time positions which such member held concurrently with a full-time position for a total of at least nine months in each of ten consecutive years.

(B) For the limited purpose only of determining, pursuant to item (A) of this subparagraph, whether such member has held such a full-time position and one or more such part-time positions concurrently for a total of at least nine months in each of ten consecutive years, a full-time position held by such member at any time during such ten-year period may be deemed to be a part-time position.

(6) (i) Except as provided in subparagraph (ii) of this paragraph, for all or any portion of a salary base period in which a member of NYCERS did not hold a full-time position and concurrently held two or more part-time positions in city-service, or a member of BERS did not hold a full-time position and concurrently held two or more part-time positions in education service, the portions of the earnings from such part-time positions during that portion of the salary base period during which such part-time positions were held concurrently, which earnings portions may be aggregated and applied in calculating the salary base, shall be determined as follows: (A) rank each such part-time position held concurrently during such portion of the salary base period in order according to the rate of pay which is applicable to such member for each such position during such portion of the salary base period, from the highest rate of pay to the lowest rate of pay;

(B) determine for each such part-time position the hypothetical amount of service credit which such member would have been eligible to earn from such position for that portion of the salary base period during which such two or more part-time positions were held concurrently if such member had held no other position concurrently with such position;

(C) determine for such portion of the salary base period the hypothetical amount of service credit which such member would have been eligible to earn from one full-time position held during a period of time equal in length to such portion of the salary base period;

(D) add together all of the hypothetical amounts of service credit determined for each position in accordance with item (B) of this subparagraph;

(E) of the hypothetical service credit sum determined in accordance with item (D) of this subparagraph is less than or equal to the amount of hypothetical full-time service credit determined in accordance with item (C) of this subparagraph, then the earnings from all of such two or more part-time positions from such portion of the salary base period shall be aggregated and applied in calculating the salary base;

(F) if the hypothetical service credit sum determined in accordance with item (D) of this subparagraph is greater than amount of hypothetical full-time service credit determined in accordance with item (C) of this subparagraph, then add together the hypothetical amounts of service credit determined for such positions in accordance with item (B) of this subparagraph in the order determined in accordance with item (A) of this subparagraph which are attributable to the maximum number of such positions which yield the maximum total amount of hypothetical service credit which is less than or equal to the amount of hypothetical full-time service credit determined in accordance with item (C) of this subparagraph;

(G) if the hypothetical service credit sum determined in accordance with item (F) of this subparagraph is equal to the amount of hypothetical full-time service credit determined in accordance with item (C) of this subparagraph, then the total earnings from service rendered during such portion of the salary base period from such maximum number of positions in such item (F) which yielded such maximum amount of hypothetical service credit in such item (F) shall be aggregated and applied in calculating the salary base;

(H) if the hypothetical service credit sum determined in accordance with item (F) of this subparagraph is less than the amount of hypothetical full-time service credit determined in accordance with item (C) of this subparagraph, then determine the amount of hypothetical service credit from the next position on the list which, when added together with the hypothetical service credit sum determined in accordance with item (F) of this subparagraph, shall equal the hypothetical full-time service credit determined in accordance with item (C) of this subparagraph;

(I) set forth the total hypothetical service credit from the next position on the list after such maximum number of positions referred to in item (F) of this subparagraph;

(J) divide the amount of hypothetical service credit determined in accordance with item (H) of this subparagraph by the total hypothetical service credit of such next position determined in accordance with item (I) of this subparagraph;

(K) add together all of the earnings from the service rendered during such portion of the salary base period from such maximum number of positions referred to in item (F) of this subparagraph;

(L) multiply the fraction determined in accordance with item (J) of this subparagraph by the amount of earnings from the service rendered during such portion of the salary base period from such next position on the list, as referred to in item (I) of this subparagraph; and

(M) add together the earnings determined in accordance with item (K) of this subparagraph and item (L) of this subparagraph, and the sum of such earnings shall be applied in calculating the salary base in accordance with the applicable provisions of subdivision e of this section.

(ii) (A) Where a member of NYCERS has held two or more part-time positions in city-service concurrently for a total of at least nine months in each of ten consecutive years, and has made all required member contributions for such service, or a member of BERS has held two or more part-time positions in education service concurrently for a total of at least nine months in each of ten consecutive years, and has made all required member contributions for such service, and such member concurrently held two or more part-time positions during all or any portion of the salary base period, then the earnings from such positions for that portion of the salary base period during which such positions were held concurrently which shall be aggregated and applied in calculating the salary base shall be the earnings from those part-time positions held during such portion of such salary base period, which part-time positions are equal in number to the part-time positions which such member held concurrently for a total of at least nine months in each of ten consecutive years.

(B) For the limited purpose only of determining, pursuant to item (A) of this subparagraph, whether such member has held two or more such part-time positions concurrently for a total of at least nine months in each of ten consecutive years, a full-time position held by such member at any time during such ten-year period may be deemed to be a part-time position.

(7) (i) Notwithstanding any other provision of law to the contrary, for any period of time in which a member of NYCERS held concurrently two or more positions in city-service for which he or whe made member contributions to NYCERS, or for any period of time in which a member of BERS held concurrently two or more positions in education service for which he or she made member contributions to BERS, such member, on or after the effective date of retirement (or the commencement date of payability of a deferred vested retirement allowance), may withdraw that portion of his or her accumulated member contributions (including interest to be credited pursuant to subparagraph (ii)

of this paragraph) which is attributable to the earnings from service rendered during such period in any number of such positions up to the number of positions equal to one less than the total number of such positions concurrently held in such period for which he or she made member contributions, provided that such a withdrawal of member contributions shall be permitted only for service rendered during such period in a position which, prior to any such withdrawal, such member:

(A) is not entitled to service credit for service rendered in such position; and

(B) is not eligible to have earnings from service rendered in such position applied in calculating his or her salary base; and

(C) is not entitled to have earnings from two or more positions which such member held concurrently during the salary base period aggregated and applied in calculating the salary base, pursuant to subparagraph (ii) of paragraph four of this subdivision, subparagraph (ii) of paragraph five of this subdivision or subparagraph (ii) of paragraph six of this subdivision, where such entitlement is based in whole or in part upon service in such position during such period being applied to meet the requirement that two or more positions be held concurrently for a total of at least nine months in each of ten consecutive years.

(ii) Interest shall be credited on accumulated member contributions withdrawn pursuant to subparagraph (i) of this paragraph at the same rate and in the same manner as interest is required to be credited on a refund of member contributions pursuant to the provisions of law applicable to such member.

(iii) No member shall be entitled to service credit or any of the benefits of this subdivision for any service for which member contributions have been withdrawn pursuant to this paragraph.

(8) (i) (A) Any member of the New York city teachers' retirement system who concurrently holds a position as a teacher (as defined in subdivision seven of section 13-501 of the code) and a position in city-service in which he or she has worked an average of at least thirty hours per week for a*13 least five consecutive years may elect to become a member of NYCERS and to transfer his or her membership in the New York city teachers' retirement system to NYCERS by filing simultaneously with NYCERS, during the window period (as defined in paragraph twenty-two of subdivision a of this section), a duly executed and acknowledged application for membership and a duly executed and acknowledged request that his or her membership and service credit in the New York city teachers' retirement system be transferred to NYCERS.

(B) Any election of membership in NYCERS made pursuant to item (A) of this subparagraph shall be irrevocable.

(ii) (A) Upon the filing with NYCERS of a request for a transfer as provided in item (A) of subparagraph (i) of this paragraph, NYCERS shall file such request for a transfer with the New York city teachers' retirement system. Upon the filing of such request for a transfer with the New York city teachers' retirement system, such retirement system shall make a transfer of reserves and accumulated member contributions to NYCERS in the manner required by section forty-three of the RSSL.

(B) Nothing contained in the preceding provisions of this paragraph or of any other law shall be construed (a) as imposing any restriction under the third sentence of subdivision d of such section forty-three on the determination of the salary base for benefit computation purposes with respect to any person whose membership and service credit are transferred to NYCERS pursuant to the applicable preceding provisions of this paragraph, or (b) as making the last sentence of such subdivision d applicable to any such transferee.

(iii) Any member of the New York city teachers' retirement system who did not meet the requirements of subparagraph (i) of this paragraph to transfer his or her membership to NYCERS because he or she, during the window period, did not concurrently hold a position as a teacher (as defined in subdivision seven of section 13-501 of the code)
