*NYC Administrative Code 12-206*

Administrative Code of the City of New York

Title 12 Personnel and Labor

CHAPTER 2 DEPARTMENT OF CITYWIDE ADMINISTRATIVE SERVICES*1

§ 12-206 Eligible List Reporting.

a. Definitions. For the purposes of this section only:

1. "Eligible list" shall mean any list established by the department of citywide administrative services after the administration of either an open-competitive or a promotional examination containing the names of persons eligible to be considered for appointment or promotion by an appointing authority in the city of New York pursuant to article four of the New York state civil service law.

2. "Promotion list" shall mean the agency-specific list established by the department of citywide administrative services after the administration of a promotional examination containing the names of persons eligible to be considered for promotion by an appointing authority in the city of New York pursuant to article four of the New York state civil service law.

b. The commissioner of the department of citywide administrative services shall submit a report on an annual basis beginning in two thousand five to the mayor, comptroller, public advocate and speaker of the council of the city of New York, by the first day of June, for the previous calendar year, regarding eligible lists. Such report shall include, but not be limited to, the following:

1. each eligible list established during the reporting year by the department of citywide administrative services;

2. the dates such eligible lists were established;

3. the number of persons appointed or promoted from each eligible list and the agencies to which such appointments or promotions were made;

4. the number of persons appointed or promoted on a provisional basis during the reporting year and the agencies to which such appointments or promotions were made;

5. the number of persons who, during the reporting year, were considered and not selected three times from promotion lists;

6. the number of persons removed from eligible lists and the number of persons removed from promotion lists and the reason reported to the department of citywide administrative services by the agency for such removal; and

7. the number of persons restored to eligible lists and the number of persons restored to promotion lists after having been removed.

**HISTORICAL NOTE**

Section added L.L. 50/2004 § 2, eff. Nov. 9, 2004. [See Note 1]

**NOTE**

1. Provisions of 50/2004:

Section 1. Legislative findings and intent. Article five, section six of the New York state constitution mandates that appointments and promotions in the civil service be made according to merit and fitness to be ascertained as far as practicable, by examination, which, as far as practicable, shall be competitive. In the city of New York, the department of citywide administrative services is responsible for administering such examinations and creating eligible lists, pursuant to article four of the New York state civil service law, which consist of candidates who passed a civil service examination. In addition, after the administration of a promotional examination, the department of citywide administrative services establishes lists known as promotion lists, which are agency-specific and a type of eligible list. Eligible lists are available to each city agency with open positions in corresponding titles and are usually active for four years, pursuant to section fifty-six of the civil service law.

Appointments or promotions from an eligible list to a position in the competitive class are made by the selection of one of the three persons certified as standing highest on such list, a procedure commonly known as the one-in-three rule, which is carried out pursuant to subdivision one of section sixty-one of the civil service law. When an eligible list contains fewer than three names, a provisional appointment in the competitive class may be made by an agency, pending the establishment of a new eligible list.

The Council finds that a number of candidates for employment by the city who are on an eligible list are considered and not selected by agencies. After a candidate is considered but not selected three times by an agency, that candidate is not certified to that agency again, although such candidate retains the right to request of that agency that his or her name be certified to that agency again. Furthermore, the Council finds that some agencies hire provisional employees who have never taken or passed a civil service examination.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-302 Statement of policy.

It is hereby declared to be the policy of the city to favor and encourage the right of municipal employees to organize and be represented, written collective bargaining agreements on matters within the scope of collective bargaining, the use of impartial and independent tribunals to assist in resolving impasses in contract negotiations, and final, impartial arbitration of grievances between municipal agencies and certified employee organizations.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § 1173-2.0 added LL 53/1967 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. The provisions of the New York City Collective Bargaining Law were no defense to a motion by defendants who were the president and two other members of the executive board of the Uniformed Firefighters Association to dismiss an indictment for reckless endangerment and related crimes arising from their participation in calling a strike of New York City Firemen.-People v. Vizzini, 78 Misc. 2d 1040, 359 N.Y.S. 2d 143 [1974].

**CASE NOTES**

¶ 1. City Board of Collective Bargaining (BCB) is empowered by statute to determine if a dispute is proper subject for grievance and is arbitrable and its decision is entitled to deference. Administrative Code §12-302 expresses policy favoring arbitration of grievances. In this case petitioner contends employee's transfer was proper exercise of its managerial power to deploy personnel, BCB's determination that grievance alleged was within scope of arbitration provision was rational. NYC Dep't of Sanit. v. MacDonald, 215 AD2d 324 [1996].

¶ 2. The Board of Collective Bargaining applies a two-part test to determine whether a particular grievance is arbitrable. Initially, the Board ascertains whether the collective bargaining agreement contains a provision for arbitration of disputes. If so, the Board determines whether the dispute falls within the scope of the arbitration provision. City of New York v. Board of Collective Bargaining, N.Y.L.J., Jan. 30, 2001, page 26, col. 3 (Sup.Ct. New York Co.).

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-303 Definitions.

As used in this chapter, unless the context clearly indicates otherwise, and subject to the limitations of section 12-304:

a. The term "director" shall mean the director of the office created by section eleven hundred seventy of the charter.

b. The term "board of collective bargaining" shall mean the board created by section eleven hundred seventy-one of the charter.

c. The term "board of certification" shall mean the board created by section eleven hundred seventy-two of the charter.

d. The term "municipal agency" shall mean an administration, department, division, bureau, office, board, or commission, or other agency of the city established under the charter or any other law, the head of which has appointive powers, and whose employees are paid in whole or in part from the city treasury, other than the agencies specified in paragraph two of subdivision g of this section.

e. The term "municipal employees" shall mean persons employed by municipal agencies whose salary is paid in whole or in part from the city treasury.

f. The term "mayoral agency" shall mean any municipal agency whose head is appointed by the mayor.

g. The term "public employer" shall mean (1) any municipal agency; (2) the board of education, the New York city health and hospitals corporation, the New York city off-track betting corporation, the New York city board of elections and the public administrator and the district attorney of any county within the city of New York; (3) any public authority other than a state public authority as defined in subdivision eight of section two hundred one of the civil service law, whose activities are conducted in whole or in substantial part within the city; and (4) any public benefit corporation, or any museum, library, zoological garden or similar cultural institution, which is a public employer or government within the meaning of article fourteen of the civil service law, employing personnel whose salary is paid in whole or in part from the city treasury.

h. The term "public employees" shall mean municipal employees and employees of other public employers.

i. The term "municipal employee organization" shall mean any organization or association of municipal employees, a primary purpose of which is to represent them concerning wages, hours, and working conditions.

j. The term "public employee organization" shall mean any municipal employee organization and any other organization or association of public employees, a primary purpose of which is to represent public employees concerning wages, hours, and working conditions.

k. The term "municipal labor committee" shall mean an association known by that name created pursuant to a memorandum dated March thirty-first, nineteen hundred sixty-six, as amended, signed by representatives of the city and certain employee organizations.

l. The term "certified employee organization" shall mean any public employee organization: (1) certified by the board of certification as the exclusive bargaining representative of a bargaining unit determined to be appropriate for such purpose; (2) recognized as such exclusive bargaining representative by a public employer in conformity with the rules set forth in the office of collective bargaining rules of practice and procedure; or (3) recognized by a municipal agency, or certified by the department of labor, as such exclusive bargaining representative prior to the effective date of this chapter, unless such recognition has been or is revoked or such certificate has been or is terminated.

m. The term "matters within the scope of collective bargaining" shall mean matters specified in section 12-307 of this chapter.

n. The term "executive order" shall mean, in the case of a mayoral agency, an executive order, memorandum or directive of the mayor and in the case of any other municipal agency or public employer, a written order, directive or resolution of such agency or employer or the head thereof, which provides for the application of the provisions of this chapter or otherwise implements the provisions of this chapter.

o. The term "grievance" shall mean: (1) A dispute concerning the application or interpretation of the terms of a written collective bargaining agreement or a personnel order of the mayor, or a determination under section two hundred twenty of the labor law affecting terms and conditions of employment; (2) A claimed violation, misinterpretation, or misapplication of the rules or regulations of a municipal agency or other public employer affecting the terms and conditions of employment; (3) A claimed assignment of employees to duties substantially different from those stated in their job classifications; or (4) A claimed improper holding of an open-competitive rather than a promotional examination. Notwithstanding the provisions of this subdivision, the term grievance shall include a dispute defined as a grievance by executive order of the mayor, by a collective bargaining agreement, or as may be otherwise expressly agreed to in writing by a public employee organization and the applicable public employer.

p. The terms "labor member," "city member," and "impartial member" shall refer to those members of the board of collective bargaining described in section eleven hundred seventy-one of the charter.

q. The terms "designated representative" and "designated employee organization" shall mean a certified employee organization, council or group of certified employee organizations designated for the purposes specified in

paragraph two, three or five of subdivision a of section 12-307.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-304 Application of chapter.

This chapter shall be applicable to:

a. All municipal agencies and to the public employees and public employee organizations thereof;

b. any agency or public employer, and the public employees and public employee organizations thereof, which have been made subject to this chapter by state law;

c. any other public employer, and to the public employees and public employee organizations thereof, upon the election by the public employer or the head thereof by executive order of the chief executive officer to make this chapter applicable, subject to approval by the mayor, provided, however, that any such election by the New York city board of education shall not include any teacher as defined in section 13-501 of the administrative code or any employee who works in that capacity or any paraprofessional employees with teaching functions; and

d. any public employer, and the public employees and public employee organizations thereof, to whom the provisions of this chapter are made applicable pursuant to paragraph four of subdivision c of section 12-309 of this chapter.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-305 Rights of public employees and certified employee organizations.

Public employees shall have the right to self-organization, to form, join or assist public employee organizations, to bargain collectively through certified employee organizations of their own choosing and shall have the right to refrain from any or all of such activities. However, neither managerial nor confidential employees shall constitute or be included in any bargaining unit, nor shall they have the right to bargain collectively; provided, however, that public employees shall be presumed eligible for the rights set forth in this section, and no employee shall be deprived of these rights unless, as to such employee, a determination of managerial or confidential status has been rendered by the board of certification; and provided further, that nothing in this chapter shall be construed to: (i) deny to any managerial or confidential employee his or her rights under section fifteen of the civil rights law or any other rights; or (ii) prohibit any appropriate official or officials of a public employer as defined in this chapter to hear and consider grievances and complaints of managerial and confidential employees concerning the terms and conditions of their employment and to make recommendations thereon to the chief executive officer of the public employer for such action as such chief executive officer shall deem appropriate. A certified or designated employee organization shall be recognized as the exclusive bargaining representative of the public employees in the appropriate bargaining unit.

Title 12 Personnel and Labor

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-306 Improper practices; good faith bargaining.

a. Improper public employer practices. It shall be an improper practice for a public employer or its agents:

(1) to interfere with, restrain or coerce public employees in the exercise of their rights granted in section 12-305 of this chapter;

(2) to dominate or interfere with the formation or administration of any public employee organization;

(3) to discriminate against any employee for the purpose of encouraging or discouraging membership in, or participation in the activities of, any public employee organization;

(4) to refuse to bargain collectively in good faith on matters within the scope of collective bargaining with certified or designated representatives of its public employees;

(5) to unilaterally make any change as to any mandatory subject of collective bargaining or as to any term and condition of employment established in the prior contract, during a period of negotiations with a public employee organization as defined in subdivision d of section 12-311 of this chapter.

b. Improper public employee organization practices. It shall be an improper practice for a public employee organization or its agents:

(1) to interfere with, restrain or coerce public employees in the exercise of rights granted in section 12-305 of this chapter, or to cause, or attempt to cause, a public employer to do so;

(2) to refuse to bargain collectively in good faith with a public employer or*1 on matters within the scope of collective bargaining provided the public employee organization is a certified or designated representative of public employees of such employer;

(3) to breach its duty of fair representation to public employees under this chapter.

c. Good faith bargaining. The duty of a public employer and certified or designated employee organization to bargain collectively in good faith shall include the obligation:

(1) to approach the negotiations with a sincere resolve to reach an agreement;

(2) to be represented at the negotiations by duly authorized representatives prepared to discuss and negotiate on all matters within the scope of collective bargaining;

(3) to meet at reasonable times and convenient places as frequently as may be necessary, and to avoid unnecessary delays;

(4) to furnish to the other party, upon request, data normally maintained in the regular course of business, reasonably available and necessary for full and proper discussion, understanding and negotiation of subjects within the scope of collective bargaining;

(5) if an agreement is reached, to execute upon request a written document embodying the agreed terms, and to take such steps as are necessary to implement the agreement.

d. Joinder of parties in duty of fair representation cases. The public employer shall be made a party to any charge filed under paragraph three of subdivision b of this section which alleges that the duly certified employee organization breached its duty of fair representation in the processing of or failure to process a claim that the public employer has breached its agreement with such employee organization.

e. A petition alleging that a public employer or its agents or a public employee organization or its agents has engaged in or is engaging in an improper practice in violation of this section may be filed with the board of collective bargaining within four months of the occurrence of the acts alleged to constitute the improper practice or of the date the petitioner knew or should have known of said occurrence. Such petition may be filed by one or more public employees or any public employee organization acting on their behalf, or by a public employer, together with a request to the board for a final determination of the matter and for an appropriate remedial order.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-307 Scope of collective bargaining; management rights.

a. Subject to the provisions of subdivision b of this section and subdivision c of section 12-304 of this chapter, public employers and certified or designated employee organizations shall have the duty to bargain in good faith on wages (including but not limited to wage rates, pensions, health and welfare benefits, uniform allowances and shift premiums), hours (including but not limited to overtime and time and leave benefits), working conditions and provisions for the deduction from the wages or salaries of employees in the appropriate bargaining unit who are not members of the certified or designated employee organization of an agency shop fee to the extent permitted by law, but in no event exceeding sums equal to the periodic dues uniformly required of its members by such certified or designated employee organization and for the payment of the sums so deducted to the certified or designated employee organization, subject to applicable state law, except that:

(1) with respect to those employees whose wages are determined under section two hundred twenty of the labor law, the duty to bargain in good faith over wages and supplements shall be governed by said section;

(2) matters which must be uniform for all employees subject to the career and salary plan, such as overtime and time and leave rules, shall be negotiated only with a certified employee organization, council or group of certified employee organizations designated by the board of certification as being the certified representative or representatives of bargaining units which include more than fifty percent of all such employees, but nothing contained herein shall be construed to deny to a public employer or certified employee organization the right to bargain for a variation or a particular application of any city-wide policy or any term of any agreement executed pursuant to this paragraph where considerations special and unique to a particular department, class of employees, or collective bargaining unit are involved;

(3) matters which must be uniform for all employees in a particular department shall be negotiated only with a certified employee organization, council or group of certified employees organizations designated by the board of certification as being the certified representative or representatives of bargaining units which include more than fifty percent of all employees in the depart- ment;

(4) all matters, including but not limited to pensions, overtime and time and leave rules which affect employees in the uniformed police, fire, sanitation and correction services, or any other police officer as defined in subdivision thirty-four of section 1.20 of the criminal procedure law who is also defined as a police officer in this code, shall be negotiated with the certified employee organizations representing the employees involved. For purposes of this paragraph only:

(i) employees of the uniformed fire service shall also include persons employed at any level of position or service by the fire department of the city of New York as fire alarm dispatchers and supervisors of fire alarm dispatchers, fire protection inspectors and supervisors of fire protection inspectors, emergency medical technicians and advanced emergency medical technicians, as those terms are defined in section three thousand one of the public health law, and supervisors of emergency medical technicians or advanced emergency medical technicians;

(ii) employees of the uniformed police service shall also include persons employed at any level of position or service by the police department of the city of New York as traffic enforcement agents and supervisors of traffic enforcement agents, and school safety agents and supervisors of school safety agents; and

(iii) employees of the uniformed sanitation service shall also include persons employed at any level of position or service by the sanitation department of the city of New York as sanitation enforcement agents and supervisors of sanitation enforcement agents;

(5) all matters, including but not limited to pensions, overtime and time and leave rules which affect the following employees at any level of position or service in the following agencies shall be negotiated with the certified employee organizations representing the employees involved:

(i) persons employed by the department of homeless services of the city of New York as special officers, senior special officers, supervising special officers and principal special officers;

(ii) persons employed by the department of health and mental hygiene of the city of New York as special officers, senior special officers, supervising special officers and principal special officers;

(iii) persons employed by the department of juvenile justice of the city of New York as special officers, senior special officers, supervising special officers and principal special officers;

(iv) persons employed by the human resources administration of the city of New York as special officers, senior special officers, supervising special officers and principal special officers;

(v) persons employed by the administration for children's services of the city of New York as special officers, senior special officers, supervising special officers and principal special officers;

(vi) persons employed by the taxi and limousine commission of the city of New York as taxi and limousine inspectors, supervising taxi and limousine inspectors, senior taxi and limousine inspectors and associate taxi and limousine inspectors;

(vii) persons employed by the department of transportation of the city of New York as parking control specialists and associate parking control specialists;

(viii) persons employed by the department of parks and recreation of the city of New York as urban park rangers

and associate urban park rangers; and

(ix) persons employed by the department of finance of the city of New York as deputy sheriffs, supervising deputy sheriffs and administrative sheriffs.

(6) matters involving pensions for employees other than those in the uniformed forces referred to in paragraph four hereof, shall be negotiated only with a certified employee organization, council or group of certified employee organizations designated by the board of certification as representing bargaining units which include more than fifty percent of all employees included in the pension system involved.

b. It is the right of the city, or any other public employer, acting through its agencies, to determine the standards of services to be offered by its agencies; determine the standards of selection for employment; direct its employees; take disciplinary action; relieve its employees from duty because of lack of work or for other legitimate reasons; maintain the efficiency of governmental operations; determine the methods, means and personnel by which government operations are to be conducted; determine the content of job classifications; take all necessary actions to carry out its mission in emergencies; and exercise complete control and discretion over its organization and the technology of performing its work. Decisions of the city or any other public employer on those matters are not within the scope of collective bargaining, but, notwithstanding the above, questions concerning the practical impact that decisions on the above matters have on terms and conditions of employment, including, but not limited to, questions of workload, staffing and employee safety, are within the scope of collective bargaining.

c. It shall be the policy of the city of New York that, to the extent not inconsistent with law, the city shall make benefits available to the domestic partners of city employees on the same basis as the city makes benefits available to the spouses of city employees.

Sub a amended LL 51/1980 § 5

**NOTE**

1. Provisions of L.L. 18/2001:

Section 1. Declaration of Legislative Intent and Findings. The Council finds that employees working for the fire department of the city of New York ("FDNY") as fire alarm dispatchers and supervisors of fire alarm dispatchers have certain terms and conditions of employment similar to those of the uniformed services of the city of New York, including police, fire, sanitation and correction services. These terms and conditions of employment raise issues, which are materially different than the issues affecting non-uniformed city employees. Furthermore, the Council recognizes that uniformed forces in the police, fire, sanitation and correction departments have certain unique bargaining rights under the New York City Collective Bargaining Law. The Council intends by this amendment to the administrative code that those individuals employed by the FDNY as fire alarm dispatchers and supervisors of fire alarm dispatchers be accorded the same unique bargaining rights as the uniformed forces of the City.

1. Provisions of L.L. 19/2001:

Section 1. Declaration of Legislative Intent and Findings. The Council finds that employees working for the fire department of the city of New York ("FDNY") as emergency medical technicians ("EMT's"), advanced emergency medical technicians ("paramedics") and the supervisors of EMT's or paramedics have certain terms and conditions of employment similar to those, of the uniformed services of the city of New York, including police, fire, sanitation and correction services. These terms and conditions of employment raise issues, which are materially different than the issues affecting non-uniformed city employees. Furthermore, the Council recognizes that uniformed forces in the police, fire, sanitation and correction departments have certain unique bargaining rights under the New York City Collective Bargaining Law. The Council intends by this amendment to the administrative code that those individuals employed by the FDNY as EMT's, paramedics and supervisors of EMT's or paramedics be accorded the same unique bargaining rights as the uniformed forces of the City.

**2. Provisions of L.L. 56/2005:**

Section 1. Declaration of legislative findings and intent. The Council finds that employees working in various departments and agencies in the City of New York have certain job characteristics similar to those of employees working in the City's uniformed services, such as police, fire, sanitation and correction services. Furthermore, the Council recognizes that certain employees working in the City's uniformed services have unique bargaining rights under the New York City Collective Bargaining Law (New York City Administrative Code § 12-301, et seq.). The Council finds that individuals with job characteristics similar to those employees working in the City's uniformed services should be afforded the same unique bargaining rights as those afforded to individuals working in such services. The Council further finds that such changes are consistent with the New York State Taylor Law, in that they are designed to "promote harmonious and cooperative relationships between government and its employees. . ." New York State Civil Service Law (CVS) § 200. Furthermore, the Council finds that these changes are procedural in nature, affecting the manner in which bargaining is conducted on behalf of the affected employees, and will not provide a particular benefit to such employees, nor prescribe a certain result from collective bargaining. The Council finds that such procedural changes are permitted by and in accordance with the Taylor Law. CVS § 212.

. . . . . .

§ 4. If any section, subsection, sentence, clause, phrase or other portion of this local law is, for any reason, declared unconstitutional or invalid, in whole or in part, by any court of competent jurisdiction, such portion shall be deemed severable, and such unconstitutionality or invalidity shall not affect the validity of the remaining portions of

this law, which remaining portions shall continue in full force and effect.

**CASE NOTES FROM FORMER SECTION**

¶ 1. In a suit by the Sanitationmen's Association for a declaration of their rights under a collective bargaining agreement with the city and for injunctive relief in connection with plans to lay off approximately 3,000 sanitationmen it was held that this section removes from collective bargaining considerations the right of the public employer to retire its employees from duty because "of lack of work or for other legitimate reasons" and the financial crisis in the city constituted such other reason.-DeLury v. City of N.Y., 51 A.D. 2d 288 [1976].

¶ 2. Award of arbitrator which enjoined assignment of civilians to the performance of inspectional and fire prevention duties as violative of collective bargaining agreement could only be overturned if contrary to law or if public policy precluded its enforcement, and where arbitrator ruled that city waived public policy his ruling was binding on city.-City of New York v. Uniformed Firefighters Asso., Local 94, 58 N.Y. 2d 957 [1983], reversing, 87 App. Div. 2d 255 [1982].

**CASE NOTES**

¶ 1. Board of Collective Bargaining held that the police department did not violate § 12-306(a) of the NYC Collective Bargaining Law (Administrative Code Title 12 Chapter 3) by issuing interim order No. 60 establishing a "career program" to promote and assign experienced officers. City has exclusive power to establish promotion qualifications and the police department should not have to bargain over the value of experience. Matter of Phil Caruso v. Arvid Anderson, 138 Misc. 2d 719 [1987].

¶ 2. Certain fundamental management decision-management prerogatives- such as the methods by which an operation will be performed, are excluded from the scope of collective bargaining. Although these decisions are excluded from bargaining, their practical impact on employees may be bargainable. Once the Board of Collective Bargaining determines that the employer is exercising in good faith a management prerogative that does not affect the terms and conditions of employment, the Board's inquiry ends and the employer is entitled to broad deference in implementing its action. Here, however, the Board held that the City's could not implement a policy of denying employment or promotion to persons having outstanding unpaid debts to the City, without bargaining on the issue. The court here upheld the Board's determination. Levitt v. Board of Collective Bargaining, 79 N.Y.2d 120, 580 N.Y.S.2d 917 (1992).

¶ 3. Review by the State Public Employment Review Board of determinations made by the New York City Board of Collective Bargaining extends only to proceedings alleging improper practices and not to proceedings involving the scope of collective bargaining. Uniform Firefighters Association of Greater New York v. New York City OFfice of Collective Bargaining, Board of Collective Bargaining, 163 A.D.2d 251, 558 N.Y.S.2d 72 (1st Dept. 1990).

¶ 4. Uniformed employees, under the New York City Collective Bargaining Law, are permitted to have their own certified employee organization negotiate with the City on employment matters such as pensions, overtime and time and leave rules. This contrasts with non-uniformed employees, where matters such as overtime or time and leave are negotiated on a City-wide basis with the union representing more than 50 percent of the non-uniformed employees in the City workforce. In other words, in the case of non-uniformed employees, the union for any particular unit of non-uniformed employees may not have a seat at the negotiating table on these matters. The City Council enacted Local Law 18, which classifies fire alarm dispatchers and the supervisors of fire alarm dispatchers (collectively FADs) as members of the uniformed fire services for the purpose of collective bargaining. Moreover, the City Council enacted Local Law 19, which makes an identical provision in the case of persons employed by the Fire Department as emergency medical technicians, advanced emergency medical technicians and their supervisors (collectively EMTs). Local Laws 18 and 19 are now contained in Administrative Code § 12-307(a)(4). Local Laws 18 and 19 in effect curtail the Mayor's authority under the Collective Bargaining Law to negotiate and enter into collective bargaining agreements

without the participation of their respective unions. Put another way, Local Laws 18 and 19 exempt EMTs and FADs from the Citywide agreement and confer on them the same authority enjoyed by uniformed personnel to negotiate with the Mayor all terms and conditions of employment. The court held that Local Laws 18 and 19 are valid in that they do not conflict with the Taylor Law. Taylor Law does not authorize the Mayor or any local government not to negotiate with a union representing a group of municipal employees and thereby impose upon them terms and conditions of employment to which they have not agreed. Therefore, the City Council had the authority to enact legislation that gave FADs and EMTs the power to negotiate through their own union. Mayor of City of New York v. Council of City of New York, 825 N.Y.S.2d 201 (App.Div. 1st Dept. 2006), aff'd, 9 N.Y.3d 23, 842 N.Y.S.2d 742 (2007).

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-308 Judicial review and enforcement of a final order of the board of collective bargaining or the board of certification.

a. Any order of the board of collective bargaining or the board of certification shall be (1) reviewable under article seventy-eight of the civil practice law and rules upon petition filed by an aggrieved party within thirty days after service by registered or certified mail of a copy of such order upon such party, and (2) enforceable by the supreme court in a special proceeding, upon petition of the board of collective bargaining, board of certification or any aggrieved party.

b. If a proceeding by the board for enforcement of its order is instituted prior to the expiration of the period within which a party may seek judicial review of such order, the respondent may raise in his or her answer the questions authorized to be raised by section seven thousand eight hundred three of the civil practice law and rules and thereafter the proceedings shall be governed by the provisions of article seventy-eight of the civil practice law and rules that are not inconsistent herewith, except that if an issue specified in question four of section seven thousand eight hundred three of the civil practice law and rules is raised, the proceeding shall be transferred for disposition to the appellate division of the supreme court. Where an issue specified in question four of section seven thousand eight hundred three of the civil practice law and rules is raised, either in a proceeding to enforce or review an order of the board, the appellate division of the supreme court, upon completion of proceedings before it, shall remit a copy of its judgment or order to the court in which the proceeding was commenced, which court shall have the power to compel compliance with such judgment or order.

c. In a proceeding to enforce or review an order of the board, the court shall have power to grant such temporary relief or restraining order as it deems just and proper, and to make and enter a judgment or decree enforcing, modifying and enforcing as so modified, or setting aside in whole or in part the order of the board.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-309 Powers and duties of board of collective bargaining; board of certification; director.

a. Board of collective bargaining. The board of collective bargaining, in addition to such other powers and duties as it has under this chapter and as may be conferred upon it from time to time by law, shall have the power and duty:

(1) on the request of a public employer or public employee organization which is a party to a disagreement concerning the interpretation or application of the provisions of this chapter, to consider such disagreement and report its conclusion to the parties and the public;

(2) on the request of a public employer or certified or designated employee organization to make a final determination as to whether a matter is within the scope of collective bargaining;

(3) on the request of a public employer or a certified or designated employee organization which is party to a grievance, to make a final determination as to whether a dispute is a proper subject for grievance and arbitration procedure established pursuant to section 12-312 of this chapter;

(4) to prevent and remedy improper public employer and public employee organization practices, as such practices are listed in section 12-306 of this chapter. For such purposes, the board of collective bargaining is empowered to establish procedures, make final determinations, and issue appropriate remedial orders;

(5) to recommend any needed changes in the provisions of this chapter or of an executive order;

(6) to hold hearings and compel the attendance of witnesses and the production of documents;

(7) to adopt rules and regulations for the conduct of its business and the carrying out of its powers and duties including rules and regulations governing the procedures to be followed by mediation and impasse panels constituted pursuant to subdivision b or c of section 12-311 of this chapter;

(8) where either party to collective bargaining negotiations has rejected in whole or in part the recommendations of an impasse panel, to review such recommendations as provided in paragraph four of subdivision c of section 12-311 of this chapter.

b. Board of certification. The board of certification, in addition to such other powers and duties as it has under this chapter and as may be conferred upon it from time to time by law, shall have the power and duty:

(1) to make final determinations of the units appropriate for purposes of collective bargaining between public employers and public employee organizations, which units shall be such as shall assure to public employees the fullest freedom of exercising the rights granted hereunder and under executive orders, consistent with the efficient operation of the public service, and sound labor relations, provided that in any case involving a petition for certification where supervisory or professional employees petition to be represented for purposes of collective bargaining separate and apart from non-supervisory or non-professional employees, or where a petition for certification has been filed requesting a unit of supervisory and non-supervisory or a unit of professional and non-professional employees and the public employer objects thereto, the board of certification shall not include such supervisory or professional employees in a bargaining unit which includes non-supervisory or non-professional employees respectively unless a majority of the supervisory or professional employees voting in an election vote in favor thereof;

(2) to determine the majority representative of the public employees in an appropriate collective bargaining unit by conducting secret-ballot elections or by utilizing any other appropriate and suitable method designed to ascertain the free choice of a majority of such employees, to certify the same as the exclusive bargaining representative thereof; to designate representatives; and to determine the length of time during which such certification or designation shall remain in effect and free from challenge or attack;

(3) to decertify as exclusive bargaining representative an employee organization which has been found by secret-ballot election no longer to be the majority representative, or which shall otherwise become ineligible for certification under the provisions of this chapter, and to terminate or vacate designations of representatives;

(4) to determine whether specified public employees are managerial or confidential within the meaning of subdivision seven of section two hundred one of the civil service law and thus are excluded from collective bargaining;

(5) to hold hearings and compel the attendance of witnesses and the production of documents; and

(6) to adopt rules and regulations for the conduct of its business and the carrying out of its powers and duties, including rules relating to the standards for determination of bargaining units.

c. Director. The director in addition to such other powers and duties as he or she has under this chapter and as may be conferred upon such director from time to time by law, shall have the power and duty:

(1) To oversee adherence to the provisions of this chapter and to administer the provisions of section 12-311 of this chapter and the rules and regulations adopted by the board of collective bargaining, subject to the direction of such board;

(2) To administer the provisions of subdivision b of this section and the rules and regulations adopted by the board of certification, subject to the direction of such board;

(3) To maintain communication with public employers and public employee organizations engaged in collective bargaining negotiations, to facilitate such negotiations by furnishing at the request of both parties, such data or

information as may aid them therein, and, if such director determines that either party is remiss in its obligations, to communicate this information as he or she deems appropriate;

(4) On the request of the mayor, to make available the mediation, impasse, and arbitration services of the office of collective bargaining to public employers and public employee organizations not otherwise entitled to make use thereof at a cost to them to be determined by the board; and

(5) To direct the operations of the staff of the office of collective bargaining.

Administrative Code of the City of New York

Title 12 Personnel and Labor

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-310 Meetings; quorum; vote required; public hearings prior to adoption of rules.

a. Meetings of board of collective bargaining. (1) The board of collective bargaining shall hold special meetings upon the call of the director or the request of any two members. Written notice of all regular and special meetings, including agendas and amendments to agendas shall be given to each board member, including alternate members, not more than ten days nor less than one day prior to any such meeting. A quorum shall consist of one city member, one labor member and one impartial member or of any four members.

(2) The board of collective bargaining, or such members thereof as it may designate, shall conduct meetings between representatives of the city responsible for labor relations and representatives of the municipal labor committee at least twice a year, and at such other times as the director determines. These meetings shall not take up grievances or negotiate changes in wages, hours, or working conditions, but shall deal with problems of general application, including those arising out of the administration of the procedures set forth in this chapter. The director shall also from time to time convene similar meetings between representatives of particular employers and certified employee organizations.

b. Meetings of board of certification. The board of certification shall hold regular and special meetings upon the call of the chairperson or of the other two members, but shall meet at least ten times a year. Two members shall constitute a quorum.

c. Vote required. Except as otherwise specifically provided, all actions, determinations, findings, and recommendations of the board of collective bargaining and the board of certification shall be by majority vote of members present and voting. In the absence of a city or labor member, or in the event of a vacancy, an alternate member of the board of collective bargaining may vote in the place and stead of the member for whom he or she is the alternate,

or on account of whom the vacancy exists.

d. Promulgation of rules. Rules and amendments to rules promulgated by the board of collective bargaining or the board of certification shall be in conformity with the requirements of chapter forty-five of the city charter.

*NYC Administrative Code 12-311*

Administrative Code of the City of New York

Title 12 Personnel and Labor

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-311 Bargaining notice; mediation; impasse panels.

a. Bargaining notices. (1) At such time prior to the expiration of a collective bargaining agreement as may be specified therein (or, if no such time is specified, at least ninety but not more than one hundred fifty days prior to expiration of the agreement) a public employer, or a certified or designated employee organization, which desires to negotiate on matters within the scope of bargaining shall send the other party (with a copy to the director) a notice of the desire to negotiate a new collective bargaining agreement on such matters. The parties shall commence negotiations within ten days after receipt of such a bargaining notice, unless such time is extended by agreement of the parties, or by the director or the board of collective bargaining.

(2) At any time after a public employee organization has been newly certified or designated to represent the public employees in a designated bargaining unit, the public employer or the newly certified or designated employee organization, if it desires to negotiate on matters within the scope of collective bargaining, may send the other party (with a copy to the director) a bargaining notice for the terms of a collective bargaining agreement on such matters. The parties shall commence negotiations within ten days after receipt of such a bargaining notice, unless such time is extended by agreement of the parties, or by the director or the board of collective bargaining.

(3) Nothing herein shall authorize or require collective bargaining between parties to a collective bargaining agreement during the term thereof, except that such parties may engage in collective bargaining during such term on a matter within the scope of collective bargaining where (a) the matter was not specifically covered by the agreement or raised as an issue during the negotiations out of which such agreements arose and (b) there shall have arisen a significant change in circumstances with respect to such matter, which could not reasonably have been anticipated by both parties at the time of the execution of such agreement.

b. Mediation panels. (1) The office of collective bargaining shall maintain a register of mediators who have been approved for listing thereon by the board of collective bargaining.

(2) If the director, upon the request of a party or upon his or her own initiative determines that collective bargaining negotiations between a public employer and a certified or designated employee organization would be aided by mediation, he or she shall appoint a mediation panel from such register to assist the parties in arriving at an agreement. A mediation panel shall not be appointed less than thirty days after the commencement of negotiations, unless requested by both parties. It shall be the duty of the parties to cooperate with the mediation panel to arrive at an agreement.

(3) The mediation panel shall perform its duties under the general direction and guidance of the director, to whom it shall report.

c. Impasse panels. (1) The office of collective bargaining shall maintain a register of impasse panel members who have been approved for listing thereon by a majority of the entire board of collective bargaining, including at least one city member and one labor member.

(2) If the board of collective bargaining, upon recommendation of the director, determines that collective bargaining negotiations (with or without mediation) between a public employer and a certified or designated employee organization have been exhausted, and that the conditions are appropriate for the creation of an impasse panel, it shall promptly instruct the director to appoint such a panel. The director may also appoint an impasse panel upon request of both parties. In appointing a panel, the director shall submit to the parties a single list of seven persons from the register of impasse panel members, and each party shall inform the director of its preferences. To the extent the preferences disclose agreement, the person or persons agreed upon shall be appointed to the impasse panel; to the extent the preferences are not in agreement, the director shall proceed to designate the members of such panel from the register. Each party may at its own expense designate a consultant to an impasse panel, who shall be available to the panel for assistance.

(3) (a) An impasse panel shall have power to mediate, hold hearings, compel the attendance of witnesses and the production of documents, review data, and take whatever action it considers necessary to resolve the impasse. If an impasse panel is unable to resolve an impasse within a reasonable period of time, as determined by the director, it shall, within such period of time as the director prescribes, render a written report containing findings of fact, conclusions, and recommendations for terms of settlement.

(b) An impasse panel appointed pursuant to paragraph two of this subdivision c shall consider wherever relevant the following standards in making its recommendations for terms of settlement:

(i) comparison of the wages, hours, fringe benefits, conditions and characteristics of employment of the public employees involved in the impasse proceeding with the wages, hours, fringe benefits, conditions and characteristics of employment of other employees performing similar work and other employees generally in public or private employment in New York city or comparable communities;

(ii) the overall compensation paid to the employees involved in the impasse proceeding, including direct wage compensation, overtime and premium pay, vacations, holidays and other excused time, insurance, pensions, medical and hospitalization benefits, food and apparel furnished, and all other benefits received;

(iii) changes in the average consumer prices for goods and services, commonly known as the cost of living;

(iv) the interest and welfare of the public;

(v) such other factors as are normally and customarily considered in the determination of wages, hours, fringe benefits, and other working conditions in collective bargaining or in impasse panel proceedings.

(c) The report of an impasse panel shall be confined to matters within the scope of collective bargaining. Unless the mayor agrees otherwise, an impasse panel shall make no report concerning the basic salary and increment structure and pay plan rules of the city's career and salary plan. If an impasse panel makes a recommendation on a matter which requires implementation by a body, agency or official which is not a party to the negotiations: (i) it shall address such recommendation solely to such other body, agency or official; (ii) it shall not recommend or direct that the municipal agency or other public employer which is party to the negotiations shall support such recommendation; and (iii) it may recommend whether a collective bargaining agreement should be concluded prior to such implementation. Any alternative recommendations proposed by an impasse panel in the event such implementation does not occur shall not exceed the total cost of the original recommendations.

(d) The report of an impasse panel shall be submitted to the parties to the negotiations, to any other body, agency or official whose action is required to implement the panel's recommendations, and to the director. The director shall, with the advice and guidance of the board of collective bargaining, determine the time at which such report shall be released to the public, which shall not be later than seven days after its submission or, upon agreement of the parties and approval of the director, not later than thirty days after its submission, provided that if the parties conclude a collective bargaining agreement prior to the date on which the report is to be released, the report shall not be released except upon consent of the parties.

(e) Acceptance or rejection. Within ten days after submission of the panel's report and recommendations, or such additional time not exceeding thirty days as the director may permit, each party shall notify the other party and the director, in writing, of its acceptance or rejection of the panel's recommendations. Failure to so notify shall be deemed acceptance of the recommendations. The director may release the acceptance or rejections to the public at such time as the director, in his or her discretion, may deem advisable. Upon acceptance by all parties or ten days after the latest rejection by any party, unless an appeal is earlier filed with the board pursuant to subparagraph (a) of paragraph four of this subdivision, the recommendation shall become final and binding and shall constitute an award within the meaning of article seventy-five of the civil practice law and rules, provided, however, that any provisions of such award the implementation of which requires the enactment of a law shall not become binding until the appropriate legislative body enacts such law.

(4) Review of impasse panel recommendations:

(a) A party who rejects in whole or in part the recommendation of an impasse panel as provided in subparagraph (e) of paragraph three of this subdivision may appeal to the board of collective bargaining for review of the recommendations of the impasse panel by filing a notice of appeal with said board within ten days of such rejection. The notice of appeal shall also be served upon the other parties within said time. Upon failure to appeal within the time provided herein, the recommendations shall be final and binding upon the party failing to so appeal, as provided in subparagraph (e) of paragraph three of this subdivision, except that the board, upon its own initiative, may review recommendations which have been rejected. Panel recommendations which, pursuant to the provisions of this subparagraph, become final and binding on both parties shall constitute an award within the meaning of article seventy-five of the civil practice law and rules, provided, however, that any provision of such award the implementation of which requires the enactment of a law shall not become binding until the appropriate legislative body enacts such law.

(b) The notice of appeal shall specify the grounds upon which the appeal is taken, the alleged errors of the panel, and the modifications requested. The board shall afford the parties a reasonable opportunity to argue orally before it or to submit briefs, or may permit both argument and briefs. Review of the recommendations shall be based upon the record and evidence made and produced before the impasse panel and the standards set forth in subparagraph (b) of paragraph three of this subdivision and shall include consideration of issues, if any, of conformity of the recommendations with any law or regulation properly governing the conduct of collective bargaining between the city of New York and its employees, provided, however, that when an appeal is taken to the board on any of the grounds of prejudice set forth in subparagraph (i), (ii) or (iii) of paragraph one of subdivision (b) of section seventy-five hundred

eleven of the civil practice law and rules, review shall also be based upon the record made in any hearing which the board may direct on such issues, provided, however, that the board orders such hearing within thirty days of the filing of the notice of appeal.

(c) Upon such review, the board may affirm or modify the panel recommendations in whole or in part. A modification of the recommendations shall be by the vote of a majority of the board. The board may also set aside the recommendations of an impasse panel in whole or in part if it finds that the rights of a party have been prejudiced on any of the grounds set forth in subparagraph (i), (ii) or (iii) of paragraph one of subdivision b of section seventy-five hundred eleven of the civil practice law and rules. An order setting aside a recommendation of such grounds shall be based on a written decision and shall be made upon a vote of a majority of the board. A member of the board who has acted as a member of an impasse panel shall not be disqualified from subsequently participating in a decision or determination of the board in the same dispute.

(d) The recommendations of the impasse panel shall be deemed to have been adopted by the board if the board fails to issue a final determination within thirty days of filing of the notice of appeal, or within forty days of a notification of rejection to the director of the board where the board, upon its own initiative, reviews the panel's recommendations, provided, however, that when a hearing is ordered pursuant to subparagraph (b) of this paragraph four relating to allegations of prejudice, the impasse panel's recommendations shall be deemed to have been adopted by the board only if the board fails to issue a determination thereon within thirty days after the close of such hearing, and provided further, that the director may extend the thirty day or forty day periods mentioned in this subparagraph for an additional period not to exceed thirty days.

(e) Notwithstanding the provisions of this paragraph four, and except for purposes of judicial review, any provision of a determination of the board of collective bargaining the implementation of which requires the enactment of a law shall not become binding until the appropriate legislative body enacts such law.

(f) A final determination of the board pursuant either to subparagraph (c) or (d) of this paragraph four shall be binding upon the parties. Such a final determination shall constitute an award within the meaning of article seventy-five of the civil practice law and rules.

d. Preservation of status quo. During the period of negotiations between a public employer and a public employee organization concerning a collective bargaining agreement, and, if an impasse panel is appointed during the period commencing on the date on which such panel is appointed and ending sixty days thereafter or thirty days after the panel submits its report, whichever is sooner, provided, however, that upon motion of the panel, and for good cause shown, the board of collective bargaining may allow a maximum of two sixty-day extensions of time for the completion of impasse panel proceedings, provided further, that additional extensions of time for the completion of impasse panel proceedings may be granted by the panel upon the joint request of the parties, and during the pendency of any appeal to the board of collective bargaining pursuant to subdivision c of this section, the public employee organization party to the negotiations, and the public employees it represents, shall not induce or engage in any strikes, slowdowns, work stoppages, or mass absenteeism, nor shall such public employee organization induce any mass resignations, and the public employer shall refrain from unilateral changes in wages, hours, or working conditions. This subdivision shall not be construed to limit the rights of public employers other than their right to make such unilateral changes, or the rights and duties of public employees and employee organizations under state law. For the purpose of this subdivision the term "period of negotiations" shall mean the period commencing on the date on which a bargaining notice is filed and ending on the date on which a collective bargaining agreement is concluded or an impasse panel is appointed.

e. Number of members on panels; vote required. (1) Mediation and impasse panels shall consist of such odd number of persons (one or more) as may be agreed upon by the parties to the negotiations, or, in the absence of such agreement, as shall be deemed appropriate by the director. (2) All actions, determinations, findings and recommendations of an impasse panel shall be by majority vote.

f. Anything in this chapter notwithstanding, public employers and certified or designated employee organizations hereby are empowered to enter into written agreements setting forth procedures to be invoked in the event of an impasse in collective bargaining negotiations, and such agreements may include the undertaking by each party to submit unresolved issues to impartial arbitration, provided that (1) if the agreement between the parties fails to provide procedures which result in a final determination of all issues, then all unresolved issues between the parties shall be subject to the provisions of subdivision c of this section or so much thereof as may be applicable under the circumstances, and

(2) questions, issues or disputes as to arbitrability or the scope of collective bargaining shall be determined by the board of collective bargaining only.

¶ 1. Recommendations of impasse panel cannot be reviewed by Board of Collective Bargaining and dissenting members of the employees' association have no standing to seek review by the Board. Levy v. Anderson, 65 Misc. 2d 763, 318 N.Y.S. 2d 86 [1971].

¶ 2. Section 23 of Chapter 201 of Laws of 1978 which amended the State Financial Emergency Act for the City of New York which imposed a new limitation on the bargaining and arbitration provisions of this section based upon the city's ability to pay wage increases and other benefits without having to increase taxes is not unconstitutional since it does not preclude city from increasing the level of taxation within the constitutional limit.-DeMilia v. State of N.Y., 96 Misc. 2d 77, 412 N.Y.S. 2d 953 [1978].

Title 12 Personnel and Labor

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-312 Grievance procedure and impartial arbitration.

a. The board of collective bargaining shall maintain a register of arbitrators who have been approved for listing thereon by a majority of the entire board of collective bargaining including at least one city member and one labor member. The board of collective bargaining shall establish procedures for impartial arbitration which may be incorporated into executive orders and collective bargaining agreements between public employers and public employee organizations.

b. Executive orders, and collective bargaining agreements between public employers and public employee organizations, may contain provisions for grievance procedures, in steps terminating with impartial arbitration of unresolved grievances. Such provisions may provide that the arbitrator's award shall be final and binding and enforceable in any appropriate tribunal in accordance with the applicable law governing arbitration, except that awards as to grievances concerning assignment of employees to duties substantially different from those stated in their job classifications, or the use of open-competitive rather than promotional examinations, shall be final and binding and enforceable only to the extent permitted by law.

c. Arbitrators appointed under arbitration provisions relating to municipal agencies shall be persons on the register of the board of collective bargaining. The costs of such arbitration shall be determined and allocated pursuant to section eleven hundred seventy-four of the charter. The board of collective bargaining, in its discretion, may publish arbitration awards.

d. As a condition to the right of a municipal employee organization to invoke impartial arbitration under such provisions, the grievant or grievants and such organization shall be required to file with the director a written waiver of

the right, if any, of said grievant or grievants and said organization to submit the underlying dispute to any other administrative or judicial tribunal except for the purpose of enforcing the arbitrator's award.

e. Public employees and public employee organizations shall not induce or engage in any strikes, slowdowns, work stoppages, or mass absenteeism nor shall public employee organizations induce any mass resignations during the term of a collective bargaining agreement. A provision to that effect shall be inserted in all written collective bargaining agreements between public employers and public employee organizations. This subdivision shall not be construed to limit the rights of public employers or the duties of public employees and employee organizations under state law.

f. It is hereby declared to be the policy of the city that written collective bargaining agreements with certified or designated employee organizations should contain provisions for grievance procedures and impartial binding arbitration, which may be invoked by a public employer or by a certified or designated employee organization.

g. An employee may present his or her own grievance either personally or through an appropriate representative, provided that:

(1) a grievance relating to a matter referred to in paragraph two, three or five of subdivision a of section 12-307 of this chapter may be presented and processed only by the employee or by the appropriate designated representative or its designee, but only the appropriate designated representative or its designee shall have the right to invoke and utilize the arbitration procedure provided by executive order or in the collective agreement to which the designated representative is a party; and provided further that

(2) any other grievance of an employee in a unit for which an employee organization is the certified collective bargaining representative may be presented and processed only by, the employee or by the certified employee organization, but only the certified employee organization shall have the right to invoke and utilize the arbitration procedure provided by executive order or in the collective agreement to which the certified representative is a party.

Sub g added LL 1/1972 § 19

**CASE NOTES FROM FORMER SECTION**

¶ 1. Complaint of a number of sergeants and lieutenants in the city police department who brought action for back pay and prospective salary relief on ground that as persons designated commanders and supervisors of detective squads the law requires that they receive appropriate compensation would not be dismissed on theory that they were relegated to the grievance procedures set forth in the collective bargaining agreements between the city and the Lieutenants and Sergeants Benevolent Association and they could bring an action at law.-Campbell v. Lindsay, 171 (122) N.Y.L.J. (6-26-74) 14, Col. 1 T.

¶ 2. Petition in article 78 proceeding by officers of association which was the exclusive bargaining representative

of the members of the detective division of the police department seeking to prohibit the police commissioner from making mass transfers of members of the detective division to the patrol force was dismissed, and petitioners directed to follow the grievance and arbitration procedure provided for in the collective bargaining agreement, for although the terms of the agreement had technically expired it continued in force during the period of negotiations for new agreement.-In re Crowley (Cawley), 170 (120) N.Y.L.J. (12-26-73) 2, Col. 4 F.

¶ 3. Where petitioners had used first four steps of grievance procedure but failed to proceed to arbitration their article 78 proceeding for order requiring respondents to accept leave forms pertaining to their absence from work for religious reasons was properly dismissed.-In re Brecker (Collins), 171 (39) N.Y.L.J. (2-27-74) 17, Col. 6 M.

¶ 4. CHAPTER 3 COLLECTIVE BARGAINING

§ 12-313 Membership and rules of municipal labor committee.

Membership in the municipal labor committee shall be open to any certified employee organization as defined in this chapter and which is otherwise eligible for membership under the rules of such committee. The board of collective bargaining may, upon the request of any certified employee organization, abrogate any rule of such committee relating to voting or eligibility for membership which it determines to be arbitrary or discriminatory, provided that prior to any such abrogation such committee shall be given an opportunity on at least ten days' notice to be heard thereon.

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-314 Special provisions relating to initial certification.

a. Any employee organization which (1) discriminates with regard to the terms and conditions of membership because of race, color, creed, religion, disability, gender, sexual orientation, age, or national origin, or (2) is engaged in or advocates the violent overthrow of the government of the United States or of any state or any political subdivision thereof shall be ineligible for certification as an exclusive bargaining representative. For purposes of this section, the finding of a court or an administrative tribunal of competent jurisdiction that an employee organization has engaged in discrimination upon one of the above bases in a particular case shall not be dispositive of the question of that employee organization's eligibility for certification unless it is also found that the employee organization has engaged in a pattern or practice of such discrimination generally.

b. No organization seeking or claiming to represent members of the police force of the police department shall be certified if such organization (i) admits to membership, or is affiliated directly or indirectly with an organization which admits to membership, employees other than members of the police force of the police department, or (ii) advocates the right to strike.

c. Certificates or designations issued by the department of labor prior to the effective date of this chapter and in effect on such date shall remain in effect until terminated by the board of certification pursuant to its rules. Nothing contained in this subdivision shall limit the power of the board of certification to determine bargaining units differing from those determined by the department of labor.

*NYC Administrative Code 12-316*

Administrative Code of the City of New York

Title 12 Personnel and Labor

CHAPTER 3 COLLECTIVE BARGAINING

§ 12-316 Emergency suspension of salary and wages.

a. It is hereby found and declared that a fiscal emergency exists for the city of New York by reason of the following: As a result of the severe economic and social dislocations of recent years, there has been a great increase in the need and demand for public services at a time when financing such services has become increasingly difficult. Due to a general decline in investor acceptance of local government securities and almost unprecedented high interest rates, the city of New York, despite the financial soundness of its obligations, recently has faced increased difficulty in selling a sufficient amount of its securities to enable it to refund its outstanding obligations or to meet its cash requirements. For the immediate future, this increased difficulty has caused concern that it may be unable to provide, without interruption, many services essential to its inhabitants while also meeting obligations to the holders of its outstanding securities as they come due. It is in the public interest and it is the policy of the city of New York to provide, without interruption, services essential to its inhabitants while meeting its obligations to the holders of its outstanding securities. The state of New York, in an attempt to assist the city of New York and other municipalities faced by a similar or analogous problem has enacted chapter one hundred sixty-eight and one hundred sixty-nine of the laws of nineteen hundred seventy-five, which among other provisions create a municipal assistance corporation for the city of New York, empowering it to issue bonds and notes and to use the proceeds from their sale primarily to provide the city of New York with amounts to pay the short-term obligations of the city as they mature. Despite statutory provisions which, in effect, secure the bonds and notes issued by the municipal assistance corporation for the city of New York with all the proceeds of the state stock transfer tax and of the state municipal assistance sales and compensating use taxes to the extent needed for that purpose, despite the agreement of the city of New York to make and observe such changes in its record keeping, accounting, budgeting and financial management practices as the municipal assistance corporation for the city of New York requires pursuant to such legislation and despite numerous economy measures taken by the city of

New York, including a substantial reduction in the number of its employees, the municipal assistance corporation for the city of New York has been experiencing difficulty in selling the bonds it has issued and has expressed grave concern with regard to its ability to sell bonds which it plans to issue in the near future. The city of New York, as a result, is faced by a fiscal emergency which could seriously impair its ability to carry on orderly and uninterrupted operations and functions of government. Imposing certain additional nuisance taxes which the state in the past had given it power to impose is not a feasible solution since to do so may further impair the city's credit standing because the burden of present taxes has contributed to flight from the city of middleclass taxpaying residents and of a number of business firms. In view of this situation, it is necessary for the city to exercise its sovereign police power to suspend salary increases in the manner provided in subdivision b of this section.

b. The mayor shall have the power to direct by executive order that all or any part of increases in salary or wages of public employees which have taken effect since June thirtieth, nineteen hundred seventy-five or which will take effect after that date pursuant to collective bargaining agreements or other analogous contracts requiring such salary increases as of July first, nineteen hundred seventy-five or as of any date thereafter shall be suspended. All or any part of increased payments for holiday and vacation differentials, shift differentials, salary adjustments according to plan and step-ups or increments which have taken effect since June thirtieth, nineteen hundred seventy-five or which will take effect after that date pursuant to collective bargaining agreements or other analogous contracts requiring such increased payment, as of July first, nineteen hundred seventy-five or as of any date thereafter may, in the same manner, be suspended. For the purposes of computing the pension base of retirement allowances, the suspended salary or wage increases and the suspended other payment shall not be considered as part of compensation or final compensation or of annual salary earned or earnable. The suspensions provided herein shall be effective for the first pay period ending on or subsequent to September first, nineteen hundred seventy-five and shall continue until one year thereafter.

c. This section shall not be applicable to public employees covered by a collective bargaining agreement or a public employee not covered by a collective bargaining agreement where the collective bargaining representative or such unrepresented employee, by an instrument in writing, has agreed to a deferment of salary or wage increase which has been certified by the mayor as being an acceptable and appropriate contribution toward alleviating the city's fiscal crisis. The mayor may, if he or she finds that the fiscal crisis has been alleviated or for any other appropriate reason, direct by executive order that the suspensions of salary or wage increases or suspension of other increased payments shall, in whole or in part, be terminated.

d. Notwithstanding the provisions of section 12-304 of this chapter, this section shall be applicable to all public employees, including public employees of any public employer as defined in this chapter.

*NYC Administrative Code 13-101*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-101 Definitions.

The following words and phrases as used in this chapter, unless a different meaning is plainly required by the context, shall have the following meanings:

1. "Retirement system" shall mean the "New York City Employees' Retirement System" provided for in section 13-102 of this chapter.

2. "Medical board" shall mean the board of physicians provided for in section 13-123 of this chapter.

3. a. "City-service" shall mean service, whether appointive or elective, as an officer or employee of the city or state of New York, of any agency thereof and of any court, so far as such service is paid for by the city, or service, by any person, in any county office, paid for in whole or in part by the city, except service on or after the first day of October, nineteen hundred twenty, on account of which any person is, or may be, entitled to share in the police pension fund, or in the fire department relief fund, or in the teachers' retirement system, or in the Hunter College retirement system, or in the board of education retirement system, or in the department of street cleaning relief and pension fund (but including service as provided for in section 13-614 of this title).

b. Service as a paid employee of the triborough bridge authority, the Henry Hudson parkway authority, the Marine parkway authority, the New York city tunnel authority, the New York city parkway authority, the New York city housing authority, the triborough bridge and tunnel authority, the New York city transit authority, the New York city housing development corporation, the New York city health and hospitals corporation, the New York city off-track betting corporation, the New York city school construction authority, the New York city municipal water finance

authority, the New York city water board, the transit construction fund, the New York city transitional finance authority, the New York city sports authority and the New York city rehabilitation mortgage insurance corporation shall constitute city-service as herein defined.

4. "Prior-service" shall mean the service of a member rendered before the first day of October, nineteen hundred twenty, certified on a prior-service certificate and allowable as provided in sections 13-107, 13-108, 13-113 and 13-114 of this chapter.

5. "Total-service" shall mean all service of a member allowable as provided in section 13-107 of this chapter.

6. "Member" shall mean any person included in the membership of the retirement system as provided in section 13-104 of this chapter.

7. "Group" shall mean any group provided for under the provisions of section 13-106 of this chapter.

8. "Beneficiary" shall mean any person in receipt of a pension, an annuity, a retirement allowance, a death benefit or any other benefit provided by this chapter.

9. Except as otherwise provided in paragraph five of subdivision e of section 13-638.4 of this title, "final compensation" shall mean the average annual compensation earnable by a member for city-service during his or her last five years of city-service, or during any other five consecutive years of member or restored member service which such member shall designate, except that regular per annum employees may designate any two periods totalling five calendar years.

10. "Service-fraction" shall mean the part of final compensation derived as provided by section 13-172 of this chapter, allowable as a service pension for each year of service as a member; provided, however, that in the case of a fifty-five-year-increased-service-fraction member, such term shall mean each applicable part of the salary or compensation earnable by such member for city-service in the year prior to his or her retirement for service or the applicable part of such member's three-year average compensation, as the case may be, which part is derived as provided for in paragraph seven of subdivision a of such section 13-172 of this chapter and is allowable as a component of a service pension for each year of allowable service of such member as provided for in such paragraph seven.

11. "Accumulated deductions" shall mean the sum of all the amounts, if any, deducted from the compensation of a member or contributed by him or her, standing to the credit of his or her individual account in the annuity savings fund together with regular interest and special interest, if any, thereon.

12. (a) Except as otherwise provided in paragraphs (b), (c), (d), (e) and (g) of this subdivision, "regular interest," in the cases of persons who are members on the thirtieth day of June, nineteen hundred forty-seven, shall mean interest at four per centum per annum, compounded annually, and in the cases of persons becoming members thereafter, shall mean, interest at three per centum per annum, compounded annually to and including the thirtieth day of June, nineteen hundred sixty-five, and interest at four per centum per annum, compounded annually, from and after the first day of July, nineteen hundred sixty-five, except that (i) as to the annuity savings fund and reserve-for-increased-take-home-pay of persons becoming members after June thirtieth, nineteen hundred forty-seven, the term "regular interest", for the period from July first, nineteen hundred sixty-five through December thirty-first, nineteen hundred sixty-six, shall mean three per centum per annum compounded annually, (ii) in the cases of persons becoming members after June thirtieth, nineteen hundred forty-seven, whose city-service has been or shall be terminated by death, retirement, resignation, dismissal, or otherwise on or before June thirtieth, nineteen hundred sixty-seven, the term "regular interest" shall mean interest at three per centum per annum, compounded annually, to and including the date of such termination, and (iii) in the cases of persons becoming members after June thirtieth, nineteen hundred forty-seven, who are transit police members, as defined in subdivision thirty-two of this section, housing police members, as defined in subdivision thirty-six of this section, correction members, as defined in subdivision forty of this section, or who are such members of the uniformed force of the department of sanitation, as defined in subdivision a of

section 13-154 of this chapter as have elected to comply with the provisions of section 13-154 of this chapter, the term "regular interest" shall mean interest at three per centum per annum, compounded annually, to and including December thirty-first, nineteen hundred sixty-seven, and four per centum per annum, compounded annually, from and after January first, nineteen hundred sixty-eight.

(b) The provisions of paragraph (a) of this subdivision shall not apply to any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city or other public employer into the contingent reserve fund of the retirement system in the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city or any subsequent fiscal year thereof.

(c) (i) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this title and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the retirement system in the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred seventy-nine-nineteen hundred eighty fiscal year thereof, "regular interest" shall mean interest at five and one-half per centum per annum, compounded annually.

(ii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs one and four of subdivision b of section 13-127 of this chapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the retirement system in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year thereof, "regular interest" shall mean interest at the rate of seven and one-half per centum per annum, compounded annually.

(iii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs one and four of subdivision b of section 13-127 of this chapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the retirement system in the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year thereof, "regular interest" shall mean interest at the rate of eight per centum per annum, compounded annually.

(iv) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs one and four of subdivision b of section 13-127 of this chapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the retirement system in the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year of the city and the nineteen hundred eighty-nine-nineteen hundred ninety fiscal year thereof, "regular interest" shall mean interest at the rate of eight and one-quarter per centum per annum, compounded annually.

(d) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs one and four of subdivision b of section 13-127 of this chapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability

contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city (for other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the retirement system in the city's nineteen hundred ninety-nineteen hundred ninety-one fiscal year and in any subsequent fiscal year thereof, "regular interest" shall mean interest at such rate per annum, compounded annually, as shall be prescribed by the legislature in section 13-638.2 of this title.

(e) On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year the board shall submit to the governor, the temporary president and minority leader of the senate, the speaker of the assembly, the majority and minority leaders of the assembly, the state superintendent of insurance, the chairman of the permanent commission on public employee pension and retirement systems, the mayor of the city and the members of the board of estimate and city council thereof, the written recommendations of the board as to the rate of interest and effective period thereof which should be established by law as "regular interest" for the purpose specified in paragraph (d) of this subdivision.

(f) (i) Subject to the provisions of subparagraph (c) of paragraph two of subdivision b of section 13-127 of this chapter, nothing contained in paragraphs (b), (c), (d) and (e) of this subdivision shall be construed as prescribing, for the purpose of crediting interest to individual accounts in the annuity savings fund or to reserves-for-increased-take-home-pay or for any other purpose besides that specified in such paragraphs, a rate of regular interest other than as prescribed by the applicable provisions of paragraph (a) or paragraph (g) of this subdivision.

(ii) Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring the original unfunded accrued liability contribution, as defined in subparagraph (a) of paragraph three of subdivision (b) of section 13-127 of this chapter, and the revised unfunded accrued liability contribution, as defined in subparagraph (b) of such paragraph three, and the nineteen hundred eighty unfunded accrued liability adjustment, as defined in subparagraph (c) of such paragraph three, nineteen hundred eighty-two unfunded accrued liability adjustment, as defined in subparagraph (d) of such paragraph three to be determined in any manner other than as prescribed by applicable provisions of such subparagraphs. Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring any balance sheet liability or balance sheet liability contribution computed pursuant to the provisions of paragraph four of subdivision b of such section 13-127 of this chapter to be determined in any manner other than as prescribed in such paragraph four.

(g) (i) Commencing on August first, nineteen hundred eighty-three, and continuing thereafter, "regular interest," in the cases of persons who were members on July thirty-first, nineteen hundred eighty-three or who thereafter became or become members, shall mean, subject to the provisions of subparagraphs (ii) to (xi), inclusive, of this paragraph (g), interest at seven per centum per annum, compounded annually.

(ii) (A) (1) Subject to the provisions of sub-items (2) and (3) of this item (A), regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining any actuarial equivalent benefit payable to or on account of any seven percent member for actuarial equivalent benefit purposes.

(2) Where an actuarial equivalent benefit is required by board resolution to be determined for any seven percent member for actuarial equivalent benefit purposes through the use of the modified Option 1 pension computation formula (as defined in subdivision seventy-seven of this section), the actuarial interest assumptions used in making such determination shall be as prescribed in such formula.

(3) Where it is provided by board resolution that a portion of an actuarial equivalent benefit shall be determined for any such seven percent member on the basis of gender-neutral mortality tables, and that the remainder of such

benefit shall be determined on the basis of mortality tables which are not gender-neutral, regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining the portion of such benefit required by such resolution to be determined on the basis of genderneutral mortality tables and such rate of regular interest shall not apply to the determination of the remainder of such benefit.

(B) Notwithstanding that the process of determining whether a member is a seven percent member for actuarial equivalent benefit purposes may include, for the purpose of ascertaining the highest applicable benefit, alternative hypothetical benefit calculations utilizing a rate of regular interest other than such rate of seven per centum, nothing contained in subparagraph (i) of this paragraph (g) or in item (A) of this subparagraph (ii) shall be construed as requiring that in the determination of any actuarial equivalent benefit payable to or on account of any member who is not a seven percent member for actuarial equivalent benefit purposes, any rate of interest be used as the actuarial interest assumption other than regular interest, compounded annually, as prescribed by the applicable provisions of paragraph (a) of this subdivision.

(iii) The provisions of item (A) of subparagraph (ii) of this paragraph (g) shall not apply to any person who, prior to August first, nineteen hundred eighty-three, retired as a member of the retirement system for service or superannuation or for ordinary or accident disability or pursuant to section 13-150 of the code and was such a retiree immediately prior to such August first; provided, however, that if any such retiree returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three, was or is restored to membership in the retirement system as required or permitted by law, the provisions of such item (A), from and after such date of restoration to membership, shall apply to such restored member with respect to determination of any actuarial equivalent benefit which is both (A) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (B) a benefit which is not a continuation, without change, of a benefit which had previously became payable to him or her by reason of his or her prior retirement; provided further that nothing contained in the preceding provisions of this subparagraph (iii) shall be construed as applicable to any such restored member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of such subsequent retirement or subsequent discontinuance of service.

(iv) (A) Subject to the provisions of items (B) and (C) of this subparagraph (iv), the provisions of item (A) of subparagraph (ii) of this paragraph (g) shall not apply to any Tier I or Tier II member who, (1) prior to August first, nineteen hundred eighty-three, discontinued service under such circumstances that such member became a discontinued member and acquired a vested right to receive a retirement allowance pursuant to the applicable provisions of section 13-173 or paragraph two of subdivision i of sections 13-155 and 13-156 or paragraph two of subdivision j of section 13-157 and section 13-256 of the code (and, in the case of a Tier II member, article eleven of the retirement and social security law), and (2) was such a discontinued member immediately prior to such August first.

(B) If such a discontinued member returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and before payability of his or her retirement allowance as such member began or begins, again became or becomes an active member pursuant to the applicable provisions of such section 13-173 of the code, or the applicable provisions of paragraph two of subdivision i of sections 13-155 and 13-156 or paragraph two of subdivision j of section 13-157 and section 13-256 of the code, the provisions of item (A) of such subparagraph (ii) shall apply to him or her on and after the date of such resumption of active membership, provided that nothing contained in the preceding provisions of this item (B) shall be construed as making the provisions of item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(C) If such a discontinued member returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and on or after the date on which payability of his or her retirement allowance as such member began or begins, again became or becomes an active member pursuant to the applicable provisions of such sections 13-173 and 13-178 of the code or the applicable provisions of subdivision i of sections 13-155 and 13-156 and section 13-256 of the code, the provisions of item (A) of such subparagraph (ii), on and after the date of such resumption of

active membership, shall apply to him or her with respect to determination of any actuarial equivalent benefit which is both (1) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (2) a benefit which is not a continuation, without change, of a benefit which had previously became*2 payable to him or her by reason of his or her prior discontinuance of service; provided that nothing contained in the preceding provisions of this item (C) shall be construed as applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of such subsequent retirement or subsequent discontinuance of service.

(v) (A) Subject to the provisions of items (B) and (C) of this subparagraph (v), the provisions of item (A) of such subparagraph (ii) shall not apply to any Tier III member or Tier IV member who, (1) prior to August first, nineteen hundred eighty-three, terminated employment under such circumstances that such member became a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit, as the case may be, and had such status immediately prior to such August first.

(B) If a member who became entitled to a vested benefit as described in item (A) of this subparagraph (v) returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and before payability of his or her vested benefit began or begins, resumed or resumes status as an active member, the provisions of item (A) of such subparagraph (ii) shall apply to him or her on and after the date of such resumption of membership, provided that nothing contained in the preceding provisions of this item (B) shall be construed as applicable to any such member who was not or is not a seven percent member for actuarial benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(C) If a member who became entitled to a vested benefit as described in item (A) of this subparagraph (v) returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three and on or after the date on which payability of his or her vested benefit began or begins, resumed or resumes status as an active member, the provisions of item (A) of such subparagraph (ii), on and after the date of such resumption of active membership, shall apply to him or her with respect to determination of any actuarial equivalent benefit which is both (1) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (2) a benefit which is not a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior discontinuance of service; provided that nothing contained in the preceding provisions of this item (C) shall be construed as applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of such subsequent retirement or subsequent discontinuance of service.

(vi) (A) Subject to the provisions of item (B) of this subparagraph (vi) and to the provisions of subparagraph (ix) of this paragraph (g), the selection of mode of benefit (as defined in subdivision seventy-eight of this section) made prior to the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of this paragraph (g) by a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method (as defined in subdivision eighty of this section) in relation to the retirement allowance (or any component thereof) which became payable to him or her prior to such date of enactment shall be the selection of mode of benefit applicable to the recomputed retirement allowance (or any corresponding component thereof) to which he or she is entitled under the best-of-three-computations method (as defined in subdivision seventy-nine of this section), and any such person entitled to a recomputation of benefits pursuant to the best-of-three-computations method shall not be entitled to make any change in such selection of mode of benefit.

(B) (1) Notwithstanding the provisions of item (A) of this subparagraph (vi), a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method shall be entitled, to the extent and in the manner prescribed in the succeeding sub-items of this item (B), to change the original selection of mode of benefit applicable to the retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of this paragraph (g).

(2) In any case where the original selection of mode of benefit of a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method was a selection of a joint and survivor option (as defined in subdivision eighty-one of this section), no change from such original selection of a joint and survivor option may be made under this item (B) to any other selection of mode of benefit if the designated beneficiary selected with respect to such joint and survivor option by such person entitled to a recomputation is not alive at the time of filing of the form whereby such person entitled to a recomputation seeks to change, pursuant to this item (B), his or her original selection of such joint and survivor option.

(3) Except for a change of selection of mode of benefit prohibited by sub-item two of this item (B), any original selection of mode of benefit may be changed pursuant to this item (B) to another selection of mode of benefit, provided all of the conditions set forth in sub-items four, six and eight of this item (B) are met.

(4) Subject to the provisions of sub-items seven and eight of this item (B), a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method may, pursuant to this item (B), effect any such permissible change of his or her original selection of mode of benefit by executing, acknowledging and filing with the retirement system, within the applicable period of time prescribed by sub-item six of this item, a new selection of mode of benefit. If the original selection of mode of benefit of the person filing such new selection was a selection of a joint and survivor option, such new selection shall be void and of no effect unless (a) the designated beneficiary named in such original selection of a joint and survivor option signs and acknowledges, in the form for such new selection of mode of benefit, a consent to such changed selection of mode of benefit, and (b) such original designated beneficiary is alive on the date of filing of such new selection.

(5) The retirement system shall mail to each person entitled to a recomputation of benefits pursuant to the best-of-three-computations method a letter (having the usual content provided by the retirement system with respect to furnishing option figures to retirees) showing amounts of benefits, as recomputed for such person under the best-of-three-computations method.

(6) The period of time within which any such person entitled to a recomputation may file a new selection of mode of benefit as provided for in sub-items three and four of this item (B) shall be sixty days after the date of issuance set forth in such statement mailed to such person pursuant to sub-item five of this item; provided, however, that if, pursuant to the request of such person, a later letter setting forth benefits information in relation to new selection of a mode of benefit is mailed to such person by the retirement system, such period of time for filing a new selection of mode of benefit shall be thirty days after the date of issuance set forth in such later letter.

(7) Upon the filing of a new selection of mode of benefit pursuant to this item (B) by any such person entitled to a recomputation, such new selection shall be irrevocable and such person shall not be entitled to file any other selection of mode of benefit with respect to such retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of this paragraph (g).

(8) No new selection of mode of benefit filed pursuant to the preceding sub-items of this item (B) shall be valid or effective as a change of mode of benefit or for any other purpose unless the person entitled to a recomputation of benefits pursuant to the best-of-three-computations method who files such new selection is alive on the date (hereinafter referred to as the "validating date") three hundred sixty-five days after the date of filing of such new selection of mode of benefit. If such person filing such new selection of mode of benefit is alive on the validating date with respect to such new selection, such new selection shall become valid and effective on such validating date; provided, however, that from and after the effective date of retirement of such person making such valid and effective new selection of mode of benefit (if he or she retired for service or superannuation or for ordinary or accident disability or pursuant to section 13-150 of the code) or from and after the date on which payability of the original benefits of such person began (if he or she was a discontinued member or discontinued sanitation member or Tier III member entitled to a vested benefit or Tier IV member entitled to a vested benefit), such new selection of mode of benefit shall supersede such original selection of mode of benefit and shall apply to and govern the amount of benefits payable to such person or to his or her

designated beneficiary or estate.

(vii) Subject to the provisions of subparagraph (ix) of this paragraph (g), in any case where a member who retired before August first, nineteen hundred eighty-three for service or for superannuation or for ordinary or accident disability or pursuant to section 13-150 of the code returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, re-entered or re-enters membership in the retirement system, nothing contained in paragraphs (i) to (v), inclusive, of this paragraph (g) shall be construed as authorizing or permitting him or her to change any selection of mode of benefit (as defined in subdivision seventy-eight of this section) made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of city-service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior retirement.

(viii) Subject to the provisions of subparagraph (ix) of this paragraph (g), in any case where a discontinued member referred to in item (A) of subparagraph (iv) of this paragraph or a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit who became entitled to such vested benefit under the circumstances set forth in item (A) of subparagraph (v) of this paragraph returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three, again became or becomes an active member pursuant to applicable provisions of law, nothing contained in subparagraphs (i) to (v), inclusive, of this paragraph (g) shall be construed (A) as authorizing or permitting him or her to change any selection of mode of benefit (as defined in subdivision seventy-eight of this section) made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of city-service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior discontinuance of city-service.

(ix) (A) Nothing contained in subparagraphs (vi), (vii) and (viii) of this paragraph (g) shall be construed as preventing:

(1) any person subject to such subparagraph (vi) who, on or after July thirty-first, nineteen hundred eighty-three, re-entered or re- enters city-service and again became or becomes an active member; or

(2) any re-entered member referred to in such subparagraph (vii) or subparagraph (viii); upon his or her subsequent retirement, from exercising any right which any other applicable law grants to him or her under such circumstances to make a selection of mode of benefit (as defined in subdivision seventy-eight of this section).

(B) Nothing contained in subparagraphs (vi), (vii) and (viii) of this paragraph (g) shall be construed as preventing a change to the maximum benefit where such change is authorized pursuant to section 12-125 of the code.

(x) Notwithstanding the provisions of subparagraph (i) of this paragraph (g) prescribing a rate of regular interest of seven per centum per annum, compounded annually, for specified members described in such subparagraph (i), the rate of regular interest which shall be applied to fix the rate of interest on any loan to any such member eligible to borrow shall be four per centum per annum, compounded annually.

(xi) The rate of regular interest applicable to determination of the rate of member contribution of any member whose last membership began prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this paragraph (g) shall be the rate of regular interest which was applicable, under the provisions of law in effect prior to such date of enactment, to the determination of the rate of member contribution of such member, and nothing contained in the preceding subparagraphs of this paragraph (g) shall be construed as applicable to the determination of the rate of member contribution of any such member whose last membership so began or as changing or affecting the rate of member contribution of any such member.

13. "Pension" shall mean payments for life derived from appropriations made by the city as provided in this chapter.

14. "Annuity" shall mean payments for life derived from contributions made by a member as provided in this chapter.

15. "Retirement allowance" shall mean the pension plus the annuity, if any, and the pension-providing-for-increased-take-home-pay, if any.

16. "Pension reserve" shall mean the present value of all payments to be made on account of any pension, or benefit in lieu of any pension, granted under the provisions of this chapter, computed upon the basis of such mortality tables as shall be adopted by the board of estimate with regular interest.

17. "Annuity reserve" shall mean the present value of all payments to be made on account of any annuity, or benefit in lieu of any annuity, granted under the provisions of this chapter, computed upon the basis of such mortality tables as shall be adopted by the board of estimate with regular interest.

18. "Fiscal year" shall mean any year commencing with the first day of July and ending with the thirtieth day of June next following.

19. "Pension-providing-for-increased-take-home-pay." The annual allowance for life payable in monthly installments derived from contributions made to the contingent reserve fund, or to the pension fund, as the case may be, pursuant to section 13-152 of this chapter.

20. "Reserve-for-increased-take-home-pay." An amount which, at the time of death or retirement, shall be equal to the sum obtained by adding together:

(i) A sum representing two and one-half per centum of the member's compensation paid to him or her during the period with respect to which the contributing agency contributes, pursuant to subdivision c and subdivisions h and i of section 13-152 of this chapter, toward a pension-providing-for-increased-take-home-pay with respect to such member, plus regular interest on such sum, and

(ii) a sum representing the product obtained by multiplying the applicable reduced-rate-of-contribution factor by the member's compensation during the period while the contributing agency contributes, pursuant to subdivision f and subdivisions h and i of section 13-152 of this chapter, toward a pension-providing-for-increased-take-home-pay with respect to such member, plus regular interest on such sum, and

(iii) a sum consisting of the product or the total of all products obtained by multiplying the compensation of such member by the applicable reduced-rate-of-contribution factor or factors, as prescribed by subparagraph (iv) of paragraph fourteen of subdivision j of section 13-152 of this chapter or by a provision analogous to subparagraph (iv) of paragraph fourteen of subdivision j of section 13-152 of this chapter made applicable to such member pursuant to subdivision m of section 13-152 of this chapter, plus regular interest on such sum.

21. "Other-than-authority-or-public-benefit-corporation member." A member of the retirement system who is not any of the following: (a) an officer or employee of the triborough bridge and tunnel authority, the New York city housing authority, the New York city transit authority, the New York city health and hospitals corporation, the New York city off-track betting corporation or the New York city housing development corporation, or (b) a correction member (as defined in subdivision forty of this section).

22. "Authority member." A member of the retirement system who is an officer or employee of the triborough bridge and tunnel authority, the New York city housing authority or the New York city transit authority.

23. "Member originally entitled to a reduced rate for the first year." A member of the retirement system to whom and for whose benefit the provisions of paragraph one of subdivision c and the provisions of subdivisions g, h and i of section 13-152 of this chapter are applicable as a result of the adoption of a resolution or resolutions as authorized by

the provisions of paragraphs one, two and four of subdivision a of such section and paragraphs one, two and four of subdivision b of such section, and to whom and for whose benefit such paragraph one of subdivision c and subdivisions g, h and i of such section become applicable on the date on which the provisions of such paragraph one of subdivision c of such section become operative.

24. "Member subsequently entitled to a reduced rate for the first year." A member of the retirement system to whom and for whose benefit the provisions of paragraph two of subdivision c and the provisions of subdivisions g, h and i of section 13-152 of this chapter are applicable as a result of the adoption of a resolution or resolutions as authorized by the provisions of paragraph four of subdivision a and paragraph four of subdivision b of such section, and to whom and for whose benefit such paragraph two of subdivision c and subdivisions g, h and i of such section become applicable after the date on which the provisions of paragraph one of subdivision c of such section become operative.

25. "Member originally entitled to a reduced rate for the second year." A member of the retirement system to whom and for whose benefit the provisions of paragraph one of subdivision f and the provisions of subdivisions g, h and i of section 13-152 of this chapter are applicable as a result of the adoption of a resolution or resolutions as authorized by the provisions of paragraphs one, two and four of subdivision d of such section and paragraphs one, two and four of subdivision e of such section and to whom and for whose benefit such paragraph one of subdivision f and subdivisions g, h and i of such section become applicable on the date on which the provisions of such paragraph one of subdivision f of such section become operative.

26. "Member subsequently entitled to a reduced rate for the second year." A member of the retirement system to whom and for whose benefit the provisions of paragraph two of subdivision f and the provisions of subdivisions g, h and i of section 13-152 of this chapter are applicable as a result of the adoption of a resolution or resolutions as authorized by the provisions of paragraph four of subdivision d and paragraph four of subdivision e of such section, and to whom and for whose benefit such paragraph two and subdivisions g, h and i of such section become applicable after the date on which the provisions of paragraph one of subdivision f of such section become operative.

27. "Reduced-rate-of-contribution factor." (a) Where used in any of the provisions of section 13-152 of this chapter other than subdivision j thereof, and other than a provision analogous to subdivision j therefor set forth in an executive order or resolution pursuant to the provisions of subdivision m of section 13-152 of this chapter, such term shall mean the percentage designated pursuant to the provisions of paragraph five of subdivision d or paragraph five of subdivision e of section 13-152 of this chapter, as the multiplier to be used in computing the reduction in members' contributions to be made pursuant to the provisions of subdivision f of such section.

(b) Where used in subdivision j of section 13-152 of this chapter, or in a provision analogous to subdivision j of section 13-152 of this chapter set forth in an executive order or resolution adopted pursuant to subdivision m of section 13-152 of this chapter, such term shall mean the applicable percentage designated pursuant to the provisions of paragraph six, twelve or thirteen of such subdivision j or pursuant to provisions analogous to such paragraph six, twelve or thirteen of such subdivision j set forth in an executive order or resolution adopted pursuant to subdivision m of section 13-152 of this chapter as the multiplier to be used in computing the reduction in any member's contribution pursuant to the provisions of paragraph fourteen of such subdivision j or pursuant to provisions analogous to the provisions of paragraph fourteen of such subdivision j set forth in an executive order or resolution adopted pursuant to the provisions of subdivision l of section 13-152 of this chapter.

28. "Contributing agency". The obligor or employing authority or public benefit corporation, as the case may be, required by the provisions of subdivisions h and i of section 13-152 of this chapter to make contributions to the contingent reserve fund or pension fund, as the case may be, for the benefit of any member mentioned in paragraph one of subdivision h of such section.

29. "Special interest". A distribution to the annuity savings fund, in addition to regular interest, which distribution, (a) for each of the periods as to which the provisions of section 13-135 of this chapter or section 13-638.2

of this title grant special interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to the accounts in the annuity savings fund of members who are eligible under such provisions for crediting of such amount for such period.

30. "Additional interest". A distribution to the reserve-for-increased-take-home-pay, in addition to regular interest, which distribution, (a) for each of the periods as to which the provisions of section 13-135 of this chapter or section 13-638.2 of this title grant additional interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is included in such applicable amount in the reserve-for-increased-take-home-pay of each member who is eligible under such provisions for inclusion of such amount for such period.

31. "Uniformed transit police force" shall mean the uniformed transit police force maintained by the New York city transit authority and by its predecessor, the board of transportation.

32. "Transit police member" shall mean a member of the retirement system who is a member of the uniformed transit police force and who has elected optional retirement pursuant to section 13-157 of this chapter.

33. "Prior transit police member" shall mean a transit police member who was in the uniformed transit police force immediately prior to July first, nineteen hundred sixty-four.

34. "New transit police member" shall mean a transit police member who is appointed a member of the uniformed transit police force on or after July first, nineteen hundred sixty-four.

35. "Housing police service" shall mean any or all of the positions in the New York city housing authority which are included in the housing police service of the classification of the city civil service commission.

36. "Housing police member" shall mean a member of the retirement system who holds a position in the housing police service and who has elected optional retirement pursuant to section 13-156 of this chapter.

37. "Prior housing police member" shall mean a housing police member who held a position in the housing police service immediately prior to July first, nineteen hundred sixty-five.

38. "New housing police member" shall mean a housing police member who is appointed to a position in the housing police service on or after July first, nineteen hundred sixty-five.

39. "Uniformed correction force" shall comprise those members included within the correction service of the classification of the city civil service commission.

40. "Correction member" shall mean a member of the retirement system who is a member of the uniform correction force and who has elected optional retirement pursuant to section 13-155 of this chapter.

41. "Prior correction member" shall mean a correction member who was in the uniformed correction force immediately prior to July first, nineteen hundred sixty-five.

42. "New correction member" shall mean a correction member who is appointed a member of the uniformed correction force on or after July first, nineteen hundred sixty-five.

43. "Board of certification" shall mean the board of certification established by section eleven hundred seventy-two of the charter.

44. "Board of collective bargaining" shall mean the board of collective bargaining established by section eleven hundred seventy-one of the charter.

45. "Career pension plan" shall mean the rights, benefits and privileges granted by the provisions of section

13-162 of this chapter, relating to the career pension plan, to a career pension plan member.

46. "Career pension plan member" shall mean a member who has elected or is deemed to have elected the benefits of section 13-162 of this chapter, relating to the career pension plan, pursuant to its terms and to whom the provisions of such section are applicable.

47. "Career pension plan position" shall mean any position whether held heretofore or hereafter, the holding of which constituted or constitutes city-service, except:

(a) any transit operating position with the transit authority; and

(b) any position included in:

(1) the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter; or

(2) the uniformed transit police force; or

(3) the housing police service; or

(4) the uniformed correction force.

48. "Career pension plan qualifying service". Any allowable service rendered:

(a) in a career pension plan position at any time heretofore or hereafter; or

(b) in any position in city-service prior to July first, nineteen hundred sixty-eight, by a member who held a career pension plan position on such July first; or

(c) on or after July first, nineteen hundred sixty-eight, by a member in any position mentioned in paragraphs (a) and (b) of subdivision forty-seven of this section; provided that such member, at the time of termination of service in such position to enter upon service in a career pension plan position, was a transit twenty-year plan member or was a transit police member, correction member, housing police member or member of the uniformed force of the department of sanitation (as defined in subdivision a of section 13-160 of this chapter) whose minimum period for service retirement at such time of termination was twenty years.

49. (a) "Certified employee organization acting as list representative" shall mean the public employee organization, if any recognized or certified as hereinafter provided in this subdivision as authorized to act with respect to all members of the retirement system who are in city-service in career pension plan positions, as their exclusive bargaining representative solely for the purpose of making objections with regard to the list of physically taxing positions pursuant to subdivision l of section 13-162 of this chapter, relating to the career pension plan.

(b) Any public employee organization recognized or certified by the department of labor of the city, immediately prior to September first, nineteen hundred sixty-seven, as the exclusive bargaining representative, with respect to pensions, of all members of the retirement system in city-service in career pension plan positions, shall be the public employee organization recognized as authorized to act pursuant to paragraph (a) of this subdivision, unless such recognition has been or is revoked by the board of certification on the grounds specified in paragraph (c) of this subdivision.

(c) The board of certification shall have power:

(1) to terminate the recognition of any public employee organization recognized as provided in paragraph (b) of this subdivision; or

(2) to decertify as exclusive bargaining representative for the purpose specified in paragraph (a) of this subdivision, any public employee organization certified pursuant to paragraph (d) of this subdivision; in any case where such board finds by secret-ballot election that such organization is no longer the majority representative of such members of the retirement system in career pension plan positions or that such organization discriminates with regard to the terms or conditions of membership because of race, color, creed or national origin.

(d) In the event that the recognition of a public employee organization recognized pursuant to paragraph (b) of this subdivision is terminated pursuant to paragraph (c) of this subdivision, or if there is no public employee organization so recognized, the board of certification shall have power:

(1) to determine with respect to all members of the retirement system who are in city-service in career pension plan positions, their exclusive bargaining representative solely for the purpose of making objections pursuant to subdivision 1 of section 13-162 of this chapter, by conducting secret-ballot elections or by utilizing any other appropriate and suitable method designed to ascertain the free choice of a majority of such members; and

(2) to certify such organization as the exclusive bargaining representative of such members, solely for such purpose; and

(3) to determine the length of time during which such certification shall remain in effect and free from challenge or attack.

(e) The board of certification, for the purpose of effectuating its powers under this subdivision, shall have power to hold hearings, to compel the attendance and testimony of witnesses and the production of documents and to adopt rules and regulations.

50. "Discontinued member" shall mean a fifty-five-year-increased-service-fraction member who has discontinued city-service and has a vested right to a deferred retirement allowance under the provisions of section 13-173 of this chapter.

*3 50-a. "Discontinued sanitation member." A sanitation member (as defined in subdivision sixty-four of this section) who has discontinued city-service as such a member and has a vested right to a deferred retirement allowance under section 13-173.1 of the code.

51. "Fifty-five-year-increased-service-fraction member" shall mean a member of the retirement system (a) whose minimum age for service retirement is fifty-five years and (b) whose service-fractions are as set forth in paragraph seven of subdivision a of section 13-172 of this chapter and (c) who, upon retirement for service, is entitled to a pension as provided for in such paragraph.

52. "Fifty-five-year-one-per-centum member" shall mean a member of the retirement system (a) whose minimum age for service retirement is fifty-five years and (b) whose service-fraction is set forth in paragraph six of subdivision a of section 13-172 of this chapter and (c) who, upon retirement for service, is entitled to a pension as provided for in such paragraph.

53. "Initial date of retirement allowance payability", except as otherwise provided in this chapter with respect to a transit twenty-year plan member, shall mean the earliest date as of which a member's retirement allowance may be caused by such member to commence under the provisions of section 13-162 of this chapter, relating to the career pension plan.

54. "List administrator" shall mean an officer or employee of the city designated by the mayor by executive order, pursuant to paragraph one of subdivision l of section 13-162 of this chapter, to perform the functions prescribed by such subdivision with respect to promulgation and maintenance of the official list of physically taxing positions.

55. "Official list of physically taxing positions" shall mean the list of positions promulgated and maintained by the list administrator pursuant to subdivision 1 of section 13-162 of this chapter, relating to the career pension plan.

56. "Physically taxing position" shall mean any position the title of which is included in the official list of physically taxing positions promulgated and maintained pursuant to subdivision l of section 13-162 of this chapter, relating to the career pension plan.

57. "Public employee organization" shall mean any organization or association of public employees, a primary purpose of which is to represent public employees concerning wages, hours and working conditions.

58. (a) Except as otherwise provided in paragraph six of subdivision e of section 13-638.4 of this title, "three-year-average compensation" shall mean the average annual compensation earnable by a career pension plan member or by a fifty-five-year-increased-service-fraction member or by a discontinued member for city-service during any three years of the city-service of such member designated in a written application duly executed and filed with the board by such member (1) prior to the effective date of his or her retirement in the case of a career pension plan member or a fifty-five-year-increased-service-fraction member, or (2) at the time when he or she files an application for payment of his or her retirement allowance pursuant to subdivision b of section 13-173 of this chapter, in the case of a discontinued member.

(b) Subject to the provisions of paragraph (1) of subdivision four of section 13-151 of this chapter, the filing of such application pursuant to this subdivision shall constitute an election by any such member entitled to a pension under subparagraph (b) of paragraph three of subdivision e of section 13-162 of this chapter, relating to the career pension plan, or under subparagraph (b) of paragraph three of subdivision g of section 13-162 of this chapter or under subparagraph (b) of paragraph four of such subdivision g of such section, or under paragraph seven of subdivision a of section 13-172 of this chapter or under section 13-173 of this chapter, or under subdivision c of section 13-174 of this chapter, as the case may be, that such pension shall be computed on the basis of such average annual compensation pursuant to the applicable terms of such provisions.

59. "Transit authority" shall mean the New York city transit authority.

59-a. "Transit authority member" shall mean any member of the New York city employees retirement system employed by the New York city transit authority, excluding members of the New York city transit authority uniformed police force.

60. "Transit operating position" shall mean any position in the rapid transit railroad service, as classified by the city civil service commission, and any of the positions bearing the following titles: General Superintendent, General Superintendent (Surface), Assistant General Superintendent (Buses and Shops), Assistant General Superintendent (Cars and Shops), Assistant General Superintendent (Maintenance of Way), Assistant General Superintendent (Power), Assistant General Superintendent (Rapid Transit Operations), Assistant General Superintendent (Surface Transportation), Superintendent (Buses and Shops), Superintendent (Cars and Shops), Superintendent (Maintenance of Way), Superintendent (Power), Superintendent (Signals), Superintendent (Stations), Superintendent (Surface Transportation), Superintendent (Track and Structures), Superintendent (Transportation), Senior Superintendent (Stations), Special Inspector, Director of Special Inspections.

61. "Transit twenty-year plan member" shall mean a member who has elected the benefits of section 13-161 of this chapter, relating to an optional plan of retirement for certain employees of the transit authority, pursuant to the terms of such section and to whom the provisions of such section are applicable.

62. "Uniformed force of the department of sanitation". The body of positions in the department of sanitation of the city bearing the titles of sanitation worker, assistant foreman, foreman, district superintendent, senior superintendent, supervising superintendent, principal superintendent, city superintendent, director of operations and general superintendent.

63. "Board" shall mean the board of trustees provided for in section 13-103 of this chapter.

64. "Sanitation member". A member who holds a position in the uniformed force of the department of sanitation.

65. "Sanitation worker". A person holding the position of sanitation worker in the sanitation service of the classification of the commissioner of citywide administrative services.

66. "Member subject to certain police pension fund, subchapter two, provisions." A transit police member, as defined in subdivision thirty-two of this section, or a correction member, as defined in subdivision forty of this section or a housing police member, as defined in subdivision thirty-six of this section who, pursuant to the provisions of paragraph two of subdivision j of section 13-157 of this chapter in the case of a transit police member, or the provisions of paragraph two of subdivision i of section 13-155 of this chapter in the case of a correction member, or the provisions of paragraph two of subdivision i of section 13-156 of this chapter in the case of a housing police member, is entitled and subject to the same rights, benefits, privileges and obligations as a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, with respect to the matters provided for in the sections of such subchapter two specified in paragraph two of subdivision j or i of such sections, as the case may be.

67. "Authorized representative". The husband or wife of an incompetent member or incompetent beneficiary, or if there be no husband or wife of such an incompetent, the committee of his or her estate.

68. "Supplementary interest". An annual allowance, in addition to regular interest, of interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter (excluding, however, the annuity savings fund and the amount of reserve-for-increased-take-home-pay in the contingent reserve fund), which allowance, (a) for each of the periods as to which the provisions of section 13-135 of this chapter or section 13-638.2 of this title grant supplementary interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to such funds at the time, in the manner, to the extent and subject to the exclusions prescribed by the provisions of such section.

*4 69. "Actuarial equivalent benefit." Any benefit which by law is required to be an actuarial equivalent or by law is required to be determined on the basis of an actuarial equivalent.

*70. "Seven percent member for actuarial equivalent benefit purposes." (a) A member who meets all of the conditions stated below in this paragraph (a):

(i) subparagraph (i) of paragraph (g) of subdivision twelve of this section (relating to the definition of members as to whom regular interest at seven per centum per annum, compounded annually, applies) applies to such member; and

(ii) an actuarial equivalent benefit has become payable to or on account of such member; and

(iii) it is provided by a resolution adopted by the board (A) that a mortality table which does not differentiate on the basis of sex shall be used to calculate such actuarial equivalent benefit or a portion of such benefit, or (B) that the modified Option 1 pension computation formula (as defined in subdivision seventy-seven of this section) shall be used to calculate such actuarial equivalent benefit.

(b) Except in cases to which the modified Option 1 pension computation formula applies pursuant to a resolution adopted by the board, nothing contained in subparagraph (iii) of paragraph (a) of this subdivision shall be construed as referring to or including any calculation of an actuarial equivalent benefit (or portion of such benefit) payable to any person where such calculation is required by board resolution to be made through the use of a sex-differentiated mortality table.

*71. "Tier I member." A member whose benefits (other than a supplemental retirement allowance) are prescribed by this chapter and who is not subject to the provisions of article eleven, article fourteen or article fifteen of the retirement and social security law.

*72. "Tier II member." A member who is subject to the provisions of article eleven of the retirement and social security law.

*73. "Tier III member." A member who is subject to the provisions of article fourteen of the retirement and social security law.

*74. "Tier IV member." A member who is subject to the provisions of article fifteen of the retirement and social security law.

*75. "Tier III member entitled to a vested benefit." A Tier III member who is entitled to a deferred vested benefit under the provisions of section five hundred sixteen of the retirement and social security law.

*76. "Tier IV member entitled to a vested benefit." A Tier IV member who is entitled to a deferred vested benefit under the provisions of section six hundred twelve of the retirement and social security law.

*5 77. "Modified Option 1 pension computation formula." (a) The method of computing the Option 1 pension component of a retirement allowance payable to a Tier I member, and the amount of the Option 1 benefit payable to the beneficiary or estate of such member who selected or selects (or is deemed to have selected) Option 1 as to such pension component, which method of computation is as prescribed by the succeeding paragraphs of this subdivision.

(b) The initial reserve for such pension component shall be computed through use of mortality tables which do not differentiate on the basis of sex (hereinafter referred to as "gender-neutral mortality tables") and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually.

(c) Solely for the purpose of use as the minuend from which the payments of such pension component to such member are subtracted in order to determine the amount of the Option 1 benefit payable, upon such member's death, to such member's beneficiary or estate by reason of such Option 1 selection in relation to such pension component, the present value of such member's maximum pension, as it was at the time of such member's retirement, shall be deemed to be the greatest of:

(i) such present value determined on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(ii) such present value determined on the basis of the female mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision; or

(iii) such present value determined on the basis of the male mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment of this subdivision.

(d) The pension component payable to such member shall be computed on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually, so that:

(i) the present value, as it was at the time of such member's retirement, of such component; plus

(ii) the present value, as it was at the time of such member's retirement, of the amount payable to such member's Option 1 beneficiary or estate upon the death of the member as provided for by the applicable provisions of paragraph (e) of this subdivision;

shall be equal to the Option 1 initial reserve determined for such pension component with respect to such member pursuant to the provisions of paragraph (b) of this subdivision.

(e) (i) Where such member dies before he or she has received payments on account of such pension component equal to the present value of such member's maximum pension as computed pur- suant to paragraph (c) of this subdivision, the Option 1 benefit payable to the beneficiary or estate of such deceased member, by reason of such Option 1 selection in relation to such pension component, shall be the remainder obtained by subtracting from such present value determined pursuant to such paragraph (c) in relation to such pension component, the total of such Option 1 payments on account of such pension component received by or payable to such member for the period prior to his or her death.

(ii) In any case where any Option 1 beneficiary's benefit referred to in subparagraph (i) of this paragraph (e) is payable to such beneficiary in the form of an annuity payable in installments, such annuity shall be computed to be the greatest of the following three annuities calculated for such beneficiary:

(A) such annuity calculated on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(B) such annuity calculated on the basis of the female mortality tables applicable to such annuities and the regular interest applicable to such member in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision; or

(C) such annuity calculated on the basis of the male mortality tables applicable to such annuities and the regular interest applicable to such member in effect immediately prior to the date of enactment of this subdivision.

(f) In relation to the Option 1 benefits determined pursuant to the method of computation set forth in this subdivision by reason of discontinuance of city-service by a discontinued member or discontinued sanitation member, the phrase "time of such member's retirement", as set forth in paragraphs (c) and (d) of this subdivision, shall be deemed, for the purposes of this subdivision, to mean the date of commencement of the retirement allowance of such discontinued member or discontinued sanitation member.

*10 78. "Selection of mode of benefit." The choice made by a member (as permitted by and pursuant to the requirements of law governing such choice by such member) as to whether the maximum amount of his or her retirement allowance or a component thereof shall be payable or such retirement allowance or a component thereof shall be payable under an option selected by the member. The term "selection of mode of benefit" shall include a case where the maximum retirement allowance or a maximum component thereof becomes payable because of a member's omission, within the time permitted by law, to select the maximum benefit or an option.

*6 79. "Best-of-three-computations method." (a) A method (as prescribed by a resolution of the board) under which a retirement allowance (or portion thereof) payable to a member is required to be determined for such member so as to be the greatest of:

(i) such retirement allowance (or portion thereof) determined on the basis of gender-neutral mortality tables and regular interest at the rate of seven per centum per annum; or

(ii) such retirement allowance (or portion thereof) determined on the basis of female mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution; or

(iii) such retirement allowance (or portion thereof) determined on the basis of male mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution.

(b) Where, under the provisions of any such resolution of the board, the modified Option 1 pension computation

formula (as defined in subdivision seventy-seven of this section) applies to any member, the term, "best-of-three-computations method," where used in relation to such member, shall be deemed to include such modified Option 1 pension computation formula, to the extent that such formula governs the determination of the pension component (or portion thereof) of such member's retirement allowance.

*80. "Person entitled to a recomputation of benefits pursuant to the best-of-three-computations method". Any person who meets all of the conditions stated below in this subdivision:

(a) such person, during the period beginning on August first, nineteen hundred eighty-three and ending on the date next preceding the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of this subdivision, (i) retired for service or superannuation or for ordinary or accident disability or pursuant to section 13-150 of the code, or (ii) discontinued city-service so as to become a discontinued member or a discontinued sanitation member, or (iii) terminated employment so as to become a Tier III member entitled to a vested benefit or a Tier IV member entitled to a vested benefit; and

(b) such person's retirement allowance (or portion thereof), by reason of such retirement or discontinuance of city-service or termination of employment, is required by a resolution adopted by the board to be redetermined pursuant to the best-of-three-computations method (as defined in subdivision seventy-nine of this section); and

(c) a first payment (if such person, at the time of retirement, discontinuance of city-service or termination of employment, was a Tier I member, Tier II member or Tier III member) on account of his or her retirement allowance (as such retirement allowance was determined prior to the date of enactment of this subdivision) was made prior to such date of enactment; or (if such person, at the time of retirement, or termination of employment, was a Tier IV member), his or her effective date of retirement occurred prior to the date of enactment of this subdivision.

*7 81. "Joint and survivor option." (a) Any option under which, at the time when such option is selected, a choice is made which includes both:

(i) a benefit payable for the lifetime of the retired or vested member by whom or in whose behalf such option is selected; and

(ii) a benefit (A) which consists of an amount equal to or constituting a percentage of such retired or vested member's benefit and (B) which is payable for the lifetime of a designated beneficiary selected at the time when such option is selected.

(b) In any case where an option described in paragraph (a) of this subdivision includes a provision prescribing that if the designated beneficiary predeceases such retired or vested member, a maximum benefit shall become payable to such member, such option shall nevertheless be deemed to be a joint and survivor option.

82. "Transit police officer's variable supplements fund". The transit police officer's variable supplements fund established by section 13-191 of this chapter.

83. "Transit police superior officers' variable supplements fund". The transit police superior officers' variable supplements fund established by section 13-192 of this chapter.

84. "Transit police superior officer". Any member of the uniformed transit police force who (a) holds the position of sergeant or any position of higher rank in such force, or (b) is a detective.

82. "Housing police officer's variable supplements fund". The housing police officer's variable supplements fund established by section 13-191 of this chapter.

83. "Housing police superior officers' variable supplements fund". The housing police superior officers' variable

supplements fund established by section 13-192 of this chapter.

84. "Housing police superior officer". Any member of the uniformed housing police force who (a) holds the position of sergeant or any position of higher rank in such force, or (b) is a detective.

85. "Uniformed force member." A member of the retirement system who:

(a) is a member of the uniformed transit police force (as defined in subdivision thirty-one of this section); or

(b) is a member of the uniformed correction force (as defined in subdivision thirty-nine of this section); or

(c) holds a position in the housing police service (as defined in subdivision thirty-five of this section); or

(d) is a member of the uniformed force of the department of sanitation (as defined in subdivision sixty-two of this section).

86. "Normal rate of contribution as a uniformed force member." (a) In the case of a uniformed force member (as defined in subdivision eighty-five of this section) (1) who is a member of the uniformed transit police force or (2) who is a member of the uniformed correction force and is not a Tier III member (as defined in subdivision seventy-three of this section) or (3) who holds a position in the housing police service, the term "normal rate of contribution as a uniformed force member" shall mean the proportion of such member's earnable compensation required to be deducted from his or her compensation by the applicable provisions of sections 13-155, 13-156 and 13-157 of this chapter and section 13-225 of the code, as his or her member contributions, exclusive of any increase in such contributions resulting from an election by such member pursuant to law to effect such an increase, or any decrease in such contributions on account of any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social security coverage).

(b) In the case of a uniformed force member who is a member of the uniformed force of the department of sanitation and is not a Tier IV member (as defined in subdivision seventy-six of this section), the term "normal rate of contribution as a uniformed force member" shall mean the proportion of such member's earnable compensation required to be deducted from his or her compensation by the applicable provisions of sections 13-125, 13-154, 13-159 and 13-160 of this chapter as his or her member contributions, exclusive of any increase in such contributions pursuant to subdivision d, e, or f of section 13-125 of this chapter, or any decrease in such contributions on account of any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social security coverage).

(c) In the case of any uniformed force member who is both a member of the uniformed correction force and a Tier III member, the term "normal rate of contribution as a uniformed force member" shall mean the percentage of the annual wages of such member required to be deducted from such member's wages by subdivision a of section five hundred seventeen of the retirement and social security law, as his or her member contributions.

(d) In the case of any uniformed force member who is both a member of the uniformed force of the department of sanitation and a Tier IV member, the term "normal rate of contribution as a uniformed force member" shall mean the percentage of the annual wages of such member required to be deducted from such member's wages by subdivision a of section six hundred thirteen of the retirement and social security law, as his or her member contributions.

87. "Contributing uniformed force member". With respect to any payroll period as to which the status of a uniformed force member as to required member contributions is to be determined, the term "contributing uniformed force member" shall mean any uniformed force member other than:

(a) a uniformed force member who, not being a Tier III member (as defined in subdivision seventy-three of this section) or a Tier IV member (as defined in subdivision seventy-six of this section), is not required to contribute during such payroll period because of his or her currently effective election to discontinue member contributions (i) pursuant to subdivision b of section 13-225 of the code and paragraph two of subdivision i of section 13-155 of this chapter or paragraph two of subdivision i of section 13-156 of this chapter or paragraph two of subdivision j of section 13-157 of this chapter or (ii) pursuant to subdivision c of section 13-125 of this chapter; and

(b) a uniformed force member who is not required to contribute during such payroll period because he or she is a Tier III member who, having contributed for thirty years, has discontinued member contributions pursuant to subdivision a of section five hundred seventeen of the retirement and social security law.

88. "Uniformed force employer." (a) Where used in relation to a uniformed force member (as defined in subdivision eighty-five of this section) who is a member of the uniformed correction force (as defined in subdivision thirty-nine of this section) or a member of the uniformed force of the department of sanitation (as defined in subdivision sixty-two of this section), the term "uniformed force employer" shall mean the city.

(b) Where used in relation to a uniformed force member who is a member of the uniformed transit police force (as defined in subdivision thirty-one of this section), the term "uniformed force employer" shall mean the New York city transit authority.

(c) Where used in relation to a uniformed force member who holds a position in the housing police service (as defined in subdivision thirty-five of this section), the term "uniformed force employer" shall mean the New York city housing authority.

89. "Uniformed force member contributions eligible for pick up by the employer." (a) With respect to any payroll period for a contributing uniformed force member (as defined in subdivision eighty-seven of this section) the term "uniformed force member contributions eligible for pick up by the employer" shall have the meanings set forth in the applicable provisions of the succeeding paragraphs of this subdivision eighty-nine.

(b) In the case of any contributing uniformed force member, other than any such member who is a Tier III member (as defined in subdivision seventy-three of this section) or a Tier IV member (as defined in subdivision seventy-six of this section), the term "uniformed force member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of a pick up program applicable to such member pursuant to section 13-125.1 of this chapter (providing for pick up of required member contributions of certain contributing uniformed force members) would be required by law to be deducted, on account of such member's normal rate of contribution as a uniformed force member (as defined in subdivision eighty-six of this section), from the compensation of such member for such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and (2) excluding any deductions from such compensation (or redeposits, restorations or payments) on account of (i) loans or withdrawal of excess contributions or (ii) any election by any such member, pursuant to any applicable provision of law, to increase his or her member contributions above the level prescribed by his or her normal rate of contribution as a uniformed force member or (iii) any other cause not attributable to the member's normal rate of contribution as a uniformed force member after reduction in such rate, if any, as described in subparagraph one of this paragraph (b).

(c) In the case of any contributing uniformed force member who is both (1) a member of the uniformed correction force (as defined in subdivision thirty-nine of this section) and (2) a Tier III member (as defined in subdivision seventy-three of this section), the term "uniformed force member contributions eligible for pick up by the employer" shall mean the amount which, in the absence of a pick up program applicable to such member pursuant to section 13-125.1 of this chapter, would be required to be deducted from the wages of such member for such payroll period pursuant to subdivision a of section five hundred seventeen of the retirement and social security law as his or her

required member contributions for such payroll period.

(d) In the case of any contributing uniformed force member who is both (1) a member of the uniformed force of the department of sanitation (as defined in subdivision sixty-two of this section) and (2) a Tier IV member (as defined in subdivision seventy-six of this section), the term "uniformed force member contributions eligible for pick up by the employer" shall mean the amount which, in the absence of a pick up program applicable to such member pursuant to section 13-125.1 of this chapter, would be required to be deducted from the wages of such member for such payroll period pursuant to subdivision a of section six hundred thirteen of the retirement and social security law as his or her required member contributions for such payroll period.

(e) If no deductions on account of any uniformed force member's normal rate of contribution as a uniformed force member are required by law to be made from the compensation of such member for any payroll period, such member shall not have, for such payroll period, any uniformed force member contributions eligible for pick up by the employer. The amount of uniformed force member contributions eligible for pick up by the employer of any uniformed force member for any payroll period shall be determined solely on the basis of compensation paid to such member for such payroll period by his or her public employer. A uniformed force member shall not have any uniformed force member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid compensation by his or her public employer.

90. "Starting date for pick up." (a) With respect to uniformed force members, such term shall mean the first day of the first whole payroll period commencing after the date which is three months after the internal revenue service shall have issued a ruling that member contributions picked up pursuant to section 13-125.1 of this chapter are not includible as gross income for federal income tax purposes until distributed or made available.

(b) With respect to Tier I and Tier II non-uniformed-force members, such term shall mean the first day of the first whole payroll period commencing after the date which is sixty days after the internal revenue service shall have issued a ruling that member contributions picked up pursuant to section 13-125.2 of this chapter are not includible as gross income for federal income tax purposes until distributed or made available.

91. "Tier I or Tier II non-uniformed-force member." Any member of the retirement system who both (a) is a Tier I member or a Tier II member and (b) is not a uniformed force member (as defined in subdivision eighty-five of this section).

92. "Basic rate of contribution as a Tier I or Tier II non-uniformed-force member." (a) Subject to the provisions of paragraph (b) of this subdivision, the term "basic rate of contribution as a Tier I or Tier II non-uniformed-force member" shall mean the proportion of the earnable compensation of each Tier I or Tier II non-uniformed-force member required by the applicable provisions of section 13-125 of this chapter and any other applicable provisions thereof to be deducted from the compensation of such member as his or her required member contributions, exclusive of any increase in such contributions resulting from any election by such member pursuant to law to effect such an increase or any decrease in such contributions on account of any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social security coverage).

(b) In any case where a Tier I or Tier II non-uniformed-force member who is a fifty-five-year-increased-service-fraction member (as defined in subdivision fifty-one of this section) has elected or elects pursuant to subdivision i of section 13-125 of this chapter to contribute to the retirement system at a rate one per centum less than such member's normal rate of contribution, such member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member, during any period wherein such election is in effect, shall be one per centum less than such member's normal rate of contribution as a fifty-five-year-increased-service-fraction member. In any case where any such member elects pursuant to such subdivision i to discontinue such reduction, such election to discontinue shall not be deemed, for the purposes of subdivision ninety-five of this section, to be an election to increase member

contributions above the level prescribed by the member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member and upon such discontinuance, such member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member shall be such member's normal rate of contribution as a fifty-five-year-increased-service-fraction member.

93. "Contributing Tier I or Tier II non-uniformed-force member." With respect to any payroll peeriod as to which the status of a Tier I or Tier II non-uniformed-force member as to required member contributions is to be determined, the term "contributing Tier I or Tier II non-uniformed-force member" shall mean any Tier I or Tier II non-uniformed-force member other than:

(a) a Tier I or Tier II non-uniformed-force member who is not required to contribute during such payroll period because of his or her then currently effective election, pursuant to subdivision c of section 13-125 of this chapter or subdivision c-1 or subdivision c-2 of such section, not to contribute; and

(b) a Tier I or Tier II non-uniformed-force member who is not required to contribute during such payroll period because such member has been relieved of making member contributions pursuant to the provisions of subdivision 1 of section 13-161 of this chapter.

94. "Employer responsible for pick up." The public employer by whom a Tier I or Tier II non-uniformed-force member is employed.

95. "Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer." (a) With respect to any payroll period for a contributing Tier I or Tier II non-uniformed-force member (as defined in subdivision ninety-three of this section), the term "Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of a pick up program applicable to such member pursuant to section 13-125.2 of this chapter (providing for pick up of required member contributions of certain contributing Tier I or Tier II non-uniformed-force members) would be required by law to be deducted, on account of such member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member (as defined in subdivision ninety-two of this section), from the compensation of such member for such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and (2) excluding any deductions from such compensation (or redeposits, restorations or payments) on account of (i) loans or withdrawal of excess contributions or (ii) any election by any such member, pursuant to any applicable provision of law, to increase his or her member contributions above the level prescribed by his or her basic rate of contributions as a non-uniformed-force member or (iii) any election by any such member who is a transit twenty-year plan member to purchase additional annuity pursuant to paragraph ten of subdivision 1 of section 13-161 of this chapter or (iv) any other cause not attributable to the member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member after reduction in such rate, if any, as described in subparagraph one of this paragraph. The term "Tier I or Tier II member contributions eligible for pick up by the employer" shall also mean the contributions made by a member pursuant to the terms of an irrevocable payroll deduction agreement for the purchase of credit for prior service or military service pursuant to subdivision one-a of section 13-108 of this title or subdivision b-1 of section four hundred forty-six of the retirement and social security law, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contribution account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law.

(b) In any case where during any payroll peeriod for a Tier I or Tier II non-uniformed-force meember, there is in effect an election by such member pursuant to subdivision 1 of section 13-125 of this chapter to contribute at a rate one per centum less than such member's normal rate of contribution, then for the purposes of this subdivision and of section 13-125.2 of this chapter, such reduced rate of contribution, notwithstanding any provision of law to the contrary, shall, with respect to such payroll period, be deemed to be and treated as such member's basic rate of contribution as a Tier I or Tier II non-uniformed-force member.

(c) If no deductions on account of the basic rate of contribution as a Tier I or Tier II non-uniformed-force member are required by law to be made from the compensation of such member for any payroll period, such member shall not have, for such payroll period, any such Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer; provided, however, that member contributions required pursuant to an irrevocable payroll deduction agreement for the purchase of prior service credit or military service credit for such payroll period shall be eligible for pick up by the employer. Except as otherwise provided pursuant to the terms of an irrevocable payroll deduction agreement for the purchase of prior service credit or military service credit, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contribution account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law, the terms of an irrevocable payroll deduction agreement for the purchase of prior service credit or military service credit, the amount of Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer of any Tier I or Tier II non-uniformed-force member for any payroll period shall be determined solely on the basis of the compensation which would have been paid to such member for such payroll period by his or her public employer in the absence of a pick up program applicable to such member pursuant to section 13-125.2 of this chapter. A Tier I or Tier II non-uniformed-force member shall not have any Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid compensation by his or her public employer.

96. "Correction officers variable supplements fund." The correction officers' variable supplements fund established by section 13-194 of this chapter.

**NOTE**

1. Provisions of chap 627/2007:

§ 21. Nothing contained in this act shall be construed to create any contractual right with respect to members and employees to which it applies. The provisions of this act are intended to afford members and employees the advantages of certain benefits contained in the Internal Revenue Code, and the effectiveness and existence of this act and the benefits it confers are completely contingent thereon.

§ 22. This act shall take effect at the beginning of the first payroll period following sixty days after at least one of the retirement systems covered by this act shall receive an Internal Revenue Service ruling stating that the employee contributions covered by this act are not includible in the gross income of the employee until distributed or made available to the employee and shall remain in full force and effect only as long as such treatment of such employee contributions is authorized pursuant to the provisions of the Internal Revenue Code; provided that the chief executive officer of one such public retirement system covered by this act shall notify the legislative bill drafting commission upon the occurrence of such ruling and upon any change in the provisions of the Internal Revenue Code affecting the

provisions of this act in order that the commission may maintain an accurate and timely effective database of the official text of the laws of the state of New York in furtherance of effecting the provisions of section 44 of the legislative law and section 70-b of the public officers law; provided, further that the amendments made to subdivision f of section 517 of the retirement and social security law by section five of this act and subdivision d of section 613 of the retirement and social security law by section seven of this act shall not affect the expiration of such subdivisions as provided in chapter 782 of the laws of 1988, as amended; provided further, however, that the amendments to sections 513, 517, 609 and 613 of the retirement and social security law made by sections four, five, six and seven of this act shall expire on the same date as such sections expire pursuant to section 615 of such law; and the amendments to subdivision 19 of section 2575 of the education law made by sections nine and ten of this act and the amendments to paragraphs (a) and (c) of subdivision 95 of section 13-101 of the administrative code of the city of New York made by section eleven of this act and the amendments to subdivision a of section 13-125.2 of the administrative code of the city of New York made by section thirteen of this act and the amendments to subdivision 68 of section 13-501 of the administrative code of the city of New York made by section fourteen of this act shall not affect the expiration of such subdivisions as provided by chapter 681 of the laws of 1992, as amended; and the amendments to subdivision b-1 of section 446 and subdivision b-1 of section 609 of the retirement and social security law made by sections three and six of this act and the amendments to subdivision g of section 13-505 of the administrative code of the city of New York made by section fifteen of this act and the amendments to subdivision a of section 13-521.1 of the administrative code of the city of New York made by section sixteen of this act shall not affect the expiration of such subdivisions, as provided by chapter 691 of the laws of 2004, as amended; and the amendments made to subdivision a of section 13-521.1 of the administrative code of the city of New York shall take effect on the same date as chapter 691 of the laws of 2004, as amended; and the amendments to section 13-327.1 of the administrative code of the city of New York made by sections seventeen and eighteen of this act and the amendments to section 13-225.1 of the administrative code of the city of New York made by sections nineteen and twenty of this act shall not affect the expiration of such sections as provided by chapter 114 of the laws of 1989. Nothing herein shall require a retirement system to permit such elections without first receiving a ruling from the Internal Revenue Service addressed to that system.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Cardinal purpose of a pension system is to encourage continuity of service and thereby to promote public efficiency, and consequently the retirement statute should be liberally construed to encourage such purpose.-Rosenberg v. Bd. of Estimate, 170 Misc. 800, 10 N.Y.S. 2d 124 [1938], rev'd on other grounds, 257 App. Div. 839, 12 N.Y.S. 2d 215 [1939], aff'd 281 N.Y. 835, 24 N.E. 2d 493 [1939].

¶ 2. Fact that City received reimbursement from the state to extent of 40 per cent of salaries paid by the City to social investigator whose qualifications conformed to those fixed by State Board of Social Welfare and whose employment was adjudged necessary by the State Department, did not have effect of making the investigator's City-paid salary, for purposes of the pension provisions of Admin. Code § B3-1.0, subd. 3a, only 60 per cent of the amount actually paid to him by the City in the first instance, since City did not act as agent for the state in paying investigator's remaining 40 per cent, nor did the city employee thereby cease to be a City-paid employee to extent that the city received reimbursement from the state.-Solomon v. La Guardia, 103 (21) N.Y.L.J. (1-25-40) 393, Col. 1 M.

¶ 3. The service performed by interveners as motor vehicle inspectors with the Transit Commission, engaged in duties concerned with transportation wholly within the City of New York, constituted state and not city service and hence might be added to state service for purpose of computing senority rights. Determinative of this were the factors that the interveners were appointed by the Transit Commission, with approval of a state officer, the head of the Department of Public Service, and subject to applicable constitutional and statutory provisions could be discharged by like authority. That they were always regarded by the state Civil Service Commission as being in the state service, or that they were members of the City Retirement System, was not determinative.-Bacon v. Conway, 294 N.Y. 245, 62 N.E. 2d 55 [1945].

¶ 4. Subdivision 12 of this section regarding interest applies to members of the Retirement System and not to

beneficiaries hence since decedent and his heirs were not "members" of the Retirement System at the date of his death they were not entitled to interest of 4% provided to members of the fund but rather to interest of 3% as provided by Gen. Municipal Law § 3-a.-Turnock v. City of N.Y., 179 (119) N.Y.L.J. (6-21-78) 15, Col. 4 B.

**CASE NOTES**

¶ 1. Former sec. B3-1.0[3][a], renumbered subsection [3][a] of this section, which contains a definition of "city service", has lways been interpreted by the New York City Employees' Reirement System (NYCERS) as being equivalent to full-time service. This could have been, but never was, modified by the City. Thus petitioner doctors cannot now claim that the subsection means other then full-time service. Doctors Council v. NYC Retirement System, 127 AD2d 380, [1987].

¶ 2. A hearing officer at the New York City Parking Violations Bureau is not deemed a City employee and is therefore not eligible for membership in the New York City Employees Retirement System. Moreover, the City was not estopped from denying membership even though it accepted his contributions for a period of time; estoppel cannot be invoked against a governmental agency to prevent it from discharging its statutory duties, except in unusual situations. Thus, the hearing officer's only remedy is a refund of previously paid pension contributions. Scheurer v. New York City Employees Retirement System, 636 N.Y.S.2d 291 (App.Div. 1st Dept. 1996).

¶ 3. An employee will not receive retirement system credit for time prior to his or her appointment to City service. Eastman v. City Dept. of Administrative Services, 266 A.D.2d 53, 698 N.Y.S.2d 456 (1st Dept. 1999).

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-103*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-103 Board of trustees of retirement system.

a. (1) The retirement system shall be administered by a board of trustees which shall, subject to the provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such system and to carry out the provisions of law in relation thereto. The provisions of sections one thousand forty-two, one thousand forty-three, one thousand forty-four and one thousand forty-five of the charter shall not be construed to apply to the adoption of such rules and regulations.

(2) An executive director of the retirement system shall be appointed by the board. The executive director shall perform such duties as may be conferred upon him or her by the board or by law and shall have the powers of the head of a department in respect to the retirement system and the officers and employees thereof.

b. Such board of trustees shall consist of:

1. A representative of the mayor who shall be appointed by the mayor and who shall be entitled to cast one vote. The mayor, by a written authorization filed with the board, may designate one or more members of his or her office to act in the place of such representative, in the event of his or her absence. Such representative or designee acting in his or her place shall be chairperson of the board.

2. The public advocate, who shall be entitled to cast one vote. The public advocate may, by written authorization filed with the board, designate one or more officers or employees appointed by him or her to act in his or her place as a member of such board, in the event of the absence of such public advocate.

3. The comptroller of the city, who shall be entitled to cast one vote.

4. The president of each borough. Each such president shall be entitled to cast a one-fifth vote. Each such president may, by written authorization filed with the board, designate his or her deputy borough president, or executive assistant to the borough president, or counsel to the borough president to act in his or her place as a member of such board.

5. (a) Three employee representatives, who shall each be entitled to cast one vote. The chief executive officer of each of the three employee organizations designated as herein provided shall be one of such representatives.

(b) On or before July first of the year in which this subparagraph shall take effect, the director of labor relations of the city (or other officer performing the same or similar functions under another title) shall, by instrument in writing filed in his or her office and with the board, designate the three employee organizations which represent, for the purposes of collective bargaining on pension matters, the largest number of employees who are members of the retirement system. Such designation shall be reviewed annually by such director or other officer, and if such review discloses a change in the standing of the employee organizations concerned, such designation shall thereupon be revised by him or her to specify the three such organizations having the leading representational status as hereinabove prescribed.

(c) Any such employee representative may, by written authorization filed with the board, designate one or more persons to act in the place of such member on such board in the event of the absence of such member, provided, however, that the by-laws or constitution of the organization of which he or she is chief executive officer authorize such designation.

(d) Each act of such board shall be by a resolution adopted by at least three and three-fifths votes. The concurrence of one employee representative and one non-employee representative member or members entitled to one vote shall be necessary for an act of such board. A quorum of such board shall consist of members entitled to cast at least three and three-fifths votes.

c. (1) In addition to the powers conferred upon it by any other provision of law, the board of trustees shall, on or before April first of each year, establish a budget, subject to the provisions of paragraphs two, three, four and five of this subdivision and subdivisions d, e, f and g of this section, sufficient to fulfill the powers, duties and responsibilities set forth in this chapter and any other provision of law which sets forth the benefits of members of the retirement system and may draw upon the assets of the retirement system to fund such budget. The provisions of this section shall not be applicable to the payment of investment expenses pursuant to section 13-705 of the code and nothing contained herein shall be construed as amending, modifying or affecting any power of the board of trustees to provide for the payment of investment expenses pursuant to section 13-705 of the code.

(2) If a budget has not been adopted by the commencement of the new fiscal year, the budget for the preceding fiscal year shall be deemed to have been extended for the new fiscal year until such time as a new budget is adopted.

(3) Any budget in effect pursuant to paragraphs one or two of this subdivision c shall be modifiable during such succeeding fiscal year.

(4) Notwithstanding any other provision of law, the board of trustees shall have the power either directly or by delegation to the executive director, to obtain by employment or by contract the goods, property and services necessary to fulfill its powers, duties and responsibilities within the appropriation authorized by the board of trustees pursuant to paragraph one of this subdivision.

(5) The provisions of chapter seventeen of the charter shall continue to apply to the retirement system and the retirement system shall constitute an agency for the purposes of such chapter seventeen. The board of trustees shall not obtain any legal services by the retention of employees or by contract unless the corporation counsel shall consent

thereto.

(6) All contracts for goods or services entered into by the retirement system shall be procured as prescribed in chapter thirteen of the charter; provided, however, that where the provisions of such chapter thirteen require action by the mayor in regard to a particular procurement (except for mayoral action pursuant to subdivision c of section three hundred thirty-four of the charter) such action shall not be taken by the mayor or such appointee of the mayor but shall be taken by the board of trustees or the executive director pursuant to a resolution adopted by the board of trustees delegating such authority to the executive director.

d. Notwithstanding any other provisions of this section, any resolution of the board of trustees which establishes a budget or modifies a budget pursuant to the provisions of paragraphs one or three of subdivision c of this section shall require the concurrence of the representative of the mayor or the comptroller. No assets of the retirement system shall be drawn upon pursuant to the provisions of paragraph one of subdivision c unless authorized by a budget or budget modification established by a resolution of the board of trustees.

e. Employment by the retirement system shall constitute city-service for the purposes of this chapter; provided, however, that nothing continued herein shall be construed as granting membership rights in the retirement system to a contractor of the retirement system or such contractor's employees. Employees of the retirement system shall be deemed to be employees of the city of New York for the purposes of chapter thirty-five of the charter and title twelve of the code.

f. Whenever the assets of the retirement system are drawn upon pursuant to the provisions of paragraph one of subdivision c of this section, all monies so withdrawn shall be made a charge to be paid by each participating employer otherwise required to make contributions to the retirement system no later than the end of the fiscal year next succeeding the time period during which such assets were drawn upon, provided, however, that where such charge is for assets so withdrawn in fiscal year two thousand four-two thousand five or in any fiscal year thereafter, such charge shall be paid by each such participating employer no later than the end of the second fiscal year succeeding the time period during which such assets were drawn upon. The actuary shall calculate and allocate to each such participating employer its share of such charge by multiplying such charge by a fraction, the numerator of which shall consist of the total salaries of the employees of each participating employer as of the June thirtieth succeeding the withdrawal of assets and the denominator of which shall consist of the total salaries of members of the retirement system as of such June thirtieth. All charges to be paid pursuant to this subdivision shall be paid at the regular rate of interest utilized by the actuary in determining employer contributions to the retirement system pursuant to the provisions of paragraph two of subdivision b of section 13-638.2 of the code.

g. All expenditures of the retirement system shall be subject to audit by the comptroller, who may make recommendations, including but not limited to, procedures designed to improve accounting and expenditure control. All expenditures of the retirement system shall be reported to the mayor's office of management and budget and the budgetary office of all participating employers.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-104 Membership; composition and eligibility.

Except as otherwise provided in section 13-179 of this chapter, the membership of the retirement system shall consist of:

1. All persons in city-service, as defined in this title, in positions in the competitive or labor class of the civil service, who en- tered or reentered such service after the first day of October, nineteen hundred twenty, whose compensation is at a rate not less than eight hundred forty dollars per annum, and who completed or shall complete six months of city-service after such entrance or re-entrance.

2. All persons in city-service, as defined in this chapter, who file with the board a statement duly executed and acknowledged waiving and renouncing all present and prospective benefits provided wholly or partly by the city through any other retirement system or pension fund and consenting and agreeing to membership and to the deductions for annuity purposes prescribed in this chapter.

3. Notwithstanding any inconsistent provision of section 13-184 of this chapter, or any other provision of this chapter, or the code, or any other law, all persons in city-service, as defined in this chapter, who file with the board a statement duly executed and acknowledged consenting for the period of their active membership in this retirement system to the suspension of all present benefits provided wholly or partly by the city through any other retirement system or pension fund and consenting and agreeing to membership and to the deductions for annuity purposes prescribed in this chapter. Upon the subsequent retirement of such person from this retirement system, they shall receive benefits based on city-service not included in the service upon which their retirement or pension from such other retirement system or pension fund is or would be based, and, upon such subsequent retirement, payment of the benefits

provided through such other retirement system or pension fund, which had been suspended, shall be resumed.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B3-3.0 added chap 929/1937 § 1

Sub 1 amended chap 426/1941 § 1

Sub 3 added chap 837/1964 § 1

Subs 2, 3 amended chap 866/1969 § 5

**CASE NOTES FROM FORMER SECTION**

¶ 1. The City Retirement System was created to provide a retirement system for officers and employees whose compensation in whole or in part is payable out of the City treasury, and is not for officers and employees of the City exclusively.-Bacon v. Conway, 294 N.Y. 245, 62 N.E. 2d 55 [1945].

¶ 2. The petitioners were employed in 1929 as extra drivers or sweepers but at that time they were not regarded as eligible for membership in the Department of Street Cleaning Relief and Pension Fund and no deductions were made from their salaries for that fund. On December 1, 1929, the Department of Street Cleaning was reorganized but the Street Cleaning Relief and Pension Fund was continued for those persons who were members at that time. After 1929 petitioners were appointed as regular drivers or sweepers and were required to join the N.Y.C. Employees' Retirement System and to waive all rights of membership in any other City pension plan. The Court held that the petitioners had been members of the Relief and Pension Fund from the time of their employment as extra drivers and sweepers and that inasmuch as they were not aware of their rights they could not waive them.-Matter of Barbarita, 301 N.Y. 529, 93 N.E. 2d 79 [1950].

¶ 3. Although an employee of the New York City Housing Authority filed a membership application for the New York City Employees Retirement System with his supervisor's secretary in the Housing Authority on the date of his permanent employment in July 1967, he did not become a member until his membership application was filed at the offices of the Retirement Board.-Grabher v. N.Y.C. Employees Retirement System, 162 (86) N.Y.L.J. (10-31-69) 17, Col. 4 F.

¶ 4. Where petitioners were employed by both the Department of Parks and the Board of Education and each joined the New York City Employees' Retirement System and later also joined the Teachers' Retirement System they were required to withdraw from the retirement system last joined.-Zimet v. Teachers' Retirement Board, 41 A.D. 2d 919, 343 N.Y.S. 2d 617 [1973], affirmed, 34 N.Y. 2d 870, 316 N.E. 2d 713, 359 N.Y.S. 2d 276 [1974].

**CASE NOTES**

¶ 1. Appellant was dismissed from employment as Dept. of Social Services caseworker but continued employment as teacher in evening sessions for Board of Education on per diem basis. NYC Admin. Code § 13-104(1), § 13-101(3)(a) excludes from city-service any employee not "per annum". This is supported by rule 11(h) of Board of Estimate rules for administering NYCERS. Matter of Kaufman v. Dept. of Social Services, 131 AD2d 576, 516 N.Y.S.2d 291 (2nd Dept. 1987).

¶ 2. Part-time doctors employed by the city or the NYC Health and Hospitals corporation are eligible to be members of the retirement system. They meet the requirements for "city service" in § 13-101(3)(a)(b). NYCERS

trustees cannot create retirement eligibility or disentitle persons the Legislature has entitled. Doctors Council v. NYC Employees Retirement System, 71 NY2d, 669 [1988].

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-106 Membership classification.

a. It shall be the duty of the head of each agency to submit to such board a statement showing the name, title, compensation, duties, date of birth and length of city-service of each member and such other information as such board may require. If such member be principally engaged upon duties differing from those specified by the appropriate civil service commission, state or municipal, for the title held by such member, such head of agency shall certify the reasons therefor and the probable duration of duties by such member differing from those specified by such civil service commission for the title held by such member. Such board shall then classify the member in one of the following groups:

1. Group one: Laborers and unskilled workers engaged upon duties requiring principally physical exertion;

2. Group two: Mechanics and skilled workers engaged upon duties requiring principally physical exertion;

3. Group three: Clerical, administrative, professional and technical workers engaged upon duties requiring principally mental exertion, including heads of departments;

4. Group four: In any other group of not less than twenty-five hundred members which, on the basis of mortality or service experience, may be recommended by the actuary and established by such board.

b. Such board shall certify to such member the group in which he or she has been placed and the date of his or her admission to membership therein. When the duties of a member so require, such board may classify him or her in another group and transfer such member thereto and shall thereupon certify to him or her the group to which he or she

has been transferred and the date of his or her transfer thereto.

c. Each member shall be subject, until retirement, to all the provisions of this chapter and to all the rules and regulations adopted by such board applying to his or her group.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-107 Credit for service and service certificates.

a. Subject to the following and to all other provisions of this chapter, including such rules and regulations as such board shall adopt in pursuance thereof, such board shall determine and may modify allowances for service and shall issue service certificates.

b. Such board shall fix and determine how much service rendered in any year shall be the equivalent of a year of service and of parts thereof in accordance with the provisions of subdivision c of section 13-638.4 of this title, but shall credit not more than one year for all service in any calendar year.

c. Time during which a member was absent on leave without pay shall not be allowed in computing prior-service nor in computing service as a member except as to time subsequent to approval of such allowance for retirement purposes granted by the head of the agency in which the member is employed and approved by such board. Time during which a member was on a preferred civil service list, or on world war military duty duly excused therefor in accordance with law, shall not be construed to form part of the period within which membership must begin or after which credit may not be allowed for prior-service. Time during which a member is on sabbatical leave shall be allowed in computing service as a member and the member shall make contribution to his or her annuity savings fund based on his or her scheduled salary during such leave.

d. Each person, upon becoming a member, shall file with such board a detailed statement of all his or her city-service. If he or she became a member on the first day of October, nineteen hundred twenty, or if he or she became or becomes a member during his or her first three years of city-service thereafter and within eight years after rendering city service prior to the first day of October, nineteen hundred twenty, such member shall itemize separately on such

statement all service prior to such date for which he or she claims a prior-service certificate should be issued, but no service shall be counted for which a pension or retirement benefit has been awarded payable wholly or partly at the expense of the state or city of New York.

e. A prior-service certificate shall be issued by the board to each such member, and to no others, and shall certify all such service which he or she rendered before the first day of October, nineteen hundred twenty, as follows:

1. City-service; and

2. Service, other than city-service, whether appointive or elective, as a paid official, clerk or employee of the state of New York and of any municipality, county or part thereof and of any court thereof; and service in the civil service of the United States government, provided, however, that such member contribute to the retirement system an amount he or she would have been required to have contributed if such United States service was rendered to the city while a member; and

3. Service while teaching in any university, college, academy or common school; and

4. Service for any public utility the ownership and operation of which has been taken over by the city; and

5. Service as a city marshal; and

6. Service in any branch of the armed forces of the United States, provided, however, that such member contribute to the retirement system an amount he or she would have been required to contribute had such service been rendered to the city while a member, and provided further, that during the period between the termination of such military service and the retirement of such member, he or she shall have been credited with not less than fifteen years of member or restored member service. Duly executed applications for such service credit shall be filed with the retirement system before the first day of July, nineteen hundred fifty-seven.

f. Total service shall include all city-service of a member since he or she last became a member of the group of which he or she is a member, and in addition, if his or her service certificate is in full force and effect as herein provided, all the service certified on such certificate, and no other service.

g. Upon transfer of a member from one group to another, his or her total-service and the liability of the city therefor on the basis of membership in the first group shall be computed by the actuary, together with the amount of prior-service and total-service allowance which would impose a similar liability on the city on the basis of membership in the group to which he or she is transferred. Such board shall thereupon issue to such transferred member a total-service certificate showing the date of his or her transfer and the prior-service and total-service allowance with which he or she will be credited in the group to which he or she is transferred, which latter allowance shall be equal to the corresponding allowance computed by the actuary.

h. A total-service certificate issued to a transferred member shall supersede any service certificate theretofore issued to him or her. Such board, upon application by a member within one year, or upon its own initiative within one year from the date of issuance of a certificate or modified certificate to such member, may modify such certificate.

i. Service certified on a prior-service certificate, a total-service certificate or a modified certificate shall be the basis for a pension or benefit as provided by this chapter only if membership continues until retirement on a pension or until the granting of such other benefit and only so far as service other than city-service certified therein is succeeded before the minimum retirement age of his or her group by an equal amount of city-service, except that this subdivision shall not apply to any member who has served in the Congress of the United States prior to October first, nineteen hundred twenty. Such certificate shall become void if membership is discontinued except by retirement on a pension, and not renewable except as to service which would be allowed to a person who had not previously been a member.

j. None of the foregoing shall be construed to disallow credit for prior service which at the time of service retirement, shall have been succeeded by an equal amount of paid for city service while a member of such retirement system.

k. Notwithstanding the provisions of subdivision c of this section, any correction member who is absent without pay for child care leave of absence pursuant to regulations of the New York city department of correction shall be eligible for credit for such period of child care leave provided such member files a claim for such service credit with the retirement system by December thirty-first, two thousand four or within ninety days following termination of the child care leave, whichever is later, and contributes to the retirement system an amount which such member would have contributed during the period of such child care leave, together with interest thereon. Service credit provided pursuant to this subdivision shall not exceed one year of credit for each period of authorized child care leave. In the event there is a conflict between the provisions of this subdivision and the provisions of any other law or code to the contrary, the provisions of this subdivision shall govern.

*NYC Administrative Code 13-108*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-108 Allowance of service preceding renewal membership.

1. Any member in city-service who shall file with the retirement system a duly executed application for service credit and consent to deductions herein described, and from whose compensation deductions shall be made at double his or her normal rate per centum of contribution and paid to his or her credit in the annuity savings fund, shall be credited, in addition to any other service creditable to such member, with a period of city-service previous to the beginning of his or her present membership equal to the period throughout which such double deductions shall be made but not in excess of city-service rendered by him or her between his or her first day of eligibility to membership in the retirement system and the day he or she last became a member. A member may, at any time, by single payment of the sum of the remaining payments purchase the remaining unpurchased service credit. Credit for service acquired under this section shall be used only in determining the amount of any benefit. Eligibility for benefit shall in each case be based upon credited member-service rendered after membership last began and shall be exclusive of service credit purchased under this section. The provisions of this section shall not apply to service for which the privilege of membership in a retirement system with transfer to this retirement system under section forty-three of the retirement and social security law is or has been available to the member except that it shall apply to service as a member of the legislature of the state of New York while representing a senate or assembly district situated within the city of New York claimed under this section before the first day of January, nineteen hundred fifty-nine and excepting that a member who was a veteran of world war I who had New York state service within the ten years succeeding nineteen hundred twenty-five, succeeded by a greater amount of allowable city-service, may be credited with such state service upon such filing and consent before the first day of July, nineteen hundred forty-nine and on the completion of contribution as required herein for the crediting of a like amount of pre-member city-service.

1-a. Notwithstanding any other provision of law, any member of the New York city employees' retirement system eligible to purchase credit for prior service with a public employer pursuant to this section or to purchase credit for military service pursuant to article twenty of the retirement and social security law, may elect to purchase any or all of such service by executing a periodic payroll deduction agreement where and to the extent such elections are permitted by the retirement system by rule or regulation. Such agreement shall set forth the amount of prior service or military service being purchased, the estimated total cost of such service credit, and the number of payroll periods in which such periodic payments shall be made. Such agreement shall be irrevocable, shall not be subject to amendment or modification in any manner, and shall expire only upon completion of payroll deductions specified therein. Notwithstanding the foregoing, any member who has entered into such a payroll deduction agreement and who terminates employment prior to completion of the payments required therein shall be credited with any service as to which such member shall have paid the contributions required under the terms of such agreement.

2. Any right to service and benefit heretofore validated shall be unaffected by the amendments effectuated by this section.

3. (a) Notwithstanding any provision of subdivision one of this section or any other provision of law to the contrary, in any case where an application for service credit and consent to deductions is filed pursuant to subdivision one of this section by a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) and at the time of the filing of such application and consent, such member is relieved pursuant to subdivision l of section 13-161 of this chapter from making contributions, the purchase of service credit by such member under such application shall be governed, while he or she remains a transit twenty-year plan member, by the provisions of subdivision one of this section, except that in relation to such purchase by such member, such provisions shall be read and construed as they would be if the word "double" were omitted therefrom.

(b) In any case where a purchase of service credit pursuant to subdivision one of this section is begun by a member who is not then relieved, pursuant to such subdivision l, from making contributions, and while such purchase is in process, such member becomes so relieved, the rights and obligations of such member with respect to completion of such purchase, shall, on and after the date as of which he or she is first so relieved, be governed by the provisions of paragraph (a) of this subdivision.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-111 Purchase of credit for past youth board program service in the bureau of community education of the board of education.

a. For the purposes of this section, the term "prior youth board program service" shall mean service by a member, prior to the commencement of his or her membership in the retirement system, rendered on a per annum salary basis in the bureau of community education-youth board recreation program of the board of education of the city in the position of group worker, supervisor of group workers, registrar assistant, teacher of recreation, center director, or supervisor of recreation and community activities (youth board).

b. Any member in city-service who:

(1) rendered prior youth board program service during the period of six months prior to August twelfth, nineteen hundred sixty-nine; and

(2) is employed on a per annum salary basis during the period wherein double contributions are required to be made pursuant to this section for the purpose of purchasing credit for service; may purchase credit in the manner prescribed in subdivision c of this section for prior youth board program service.

c. Any member in city-service who is eligible, under the provisions of subdivision b of this section, to purchase service credit pursuant to this section and who, within six months after May twelfth, nineteen hundred seventy, files with the board a duly executed application for purchase of credit for prior youth board program service and a consent to the deductions herein prescribed, and from whose compensation deductions shall be made at double his or her normal rate per centum of contribution and paid to his or her credit in the annuity savings fund, shall be credited, in addition to

any other service creditable to him or her, with a period of prior youth board program service previous to the beginning of his or her present membership equal to the period throughout which such double deductions shall be made. After such double contributions for all of the first two years claimed or, if the total time purchasable exceeds eight years, after double contributions for one-quarter of such time, unpurchased credit for prior youth board program service then remaining may be purchased, and thereupon shall be credited, by single payment of the sum of the remaining payments.

d. Credit for prior youth board program service purchased pursuant to this section shall be used in determining eligibility for benefit and the amount of benefit.

§ 13-113 Credit after being member of other retirement system.

a. Notwithstanding the provisions of sections 13-107 and 13-108 of this chapter, any person who from the thirtieth day of June, nineteen hundred twenty-eight, was or shall have been continuously in service paid for by the city which was not a basis for membership in this retirement system but which was a basis for participation in one or more retirement systems or pension funds supported wholly or partly by the city and who, within one year after discontinuing such service, became or becomes a member of this retirement system, shall be credited:

1. With all city-service rendered by such member before the first day of October, nineteen hundred twenty, and

2. With all service on or after such date and prior to the beginning of membership paid for by the city, which was the basis for participation by such member in one or more retirement systems or pension funds supported wholly or partly by the city but which was not a basis for participation in this retirement system, provided, that the crediting of any service on or after such date shall be only upon payment to the annuity savings fund in approximately equal installments within one year after membership begins, or at the beginning of membership in a lump sum, as he or she shall elect, of an amount equal to the amount that would have been in the annuity savings fund to his or her credit had such member been a contributing member during the period covered by such payment; provided, further, that such contributions shall be reduced by the amount of any and all contributions by him or her to such other retirement system or pension fund for the period covered by such payment which have not been and cannot be lawfully refunded to such member by such retirement system or pension fund.

b. (1) Notwithstanding any provision of sections 13-107 and 13-108 of this chapter or any provision or law to the contrary, any person who (a) began service as an employee of the city prior to July first, nineteen hundred

thirty-eight and since such entry into service has served continuously as an employee of the city and/or the New York city transit authority and (b) is still in the employ of such authority, and (c) by reason of such service was eligible to receive benefits from the police pension fund, subchapter one, maintained by the city, and (d) because of eligibility for and receipt of such benefits was unable to become a member of this retirement system until the enactment of section 13-105 of this chapter, and (e) pursuant to such section , is now a member of this retirement system, his benefits under such police pension fund having been suspended pursuant to such section, may elect to obtain credit in this retirement system for all such service rendered from the time when his or her membership in such police pension fund began and prior to his or her attaining membership in this retirement system, by complying with the requirements set forth in paragraphs two and four of this subdivision.

(2) To obtain such service credit such member shall:

(a) Not later than December thirty-first, nineteen hundred sixty-eight (i) refund to such police pension fund the amount of all benefits received by him or her from such fund, together with interest thereon at the rate of four per centum per annum; and (ii) file with such police pension fund a request in writing that his or her contributions to such pension fund, including interest thereon at the rate of four per centum per annum be transferred by such pension fund to his or her credit in the annuity savings fund of this retirement system; and

(b) Pay into the annuity savings fund of this retirement system in the manner provided in paragraph four of this subdivision, an amount equal to the difference between:

(i) the amount obtained:

(1) by computing the sum which would have been accumulated in such annuity savings fund to his or her credit as of June thirtieth, nineteen hundred sixty-eight, if he or she had joined this retirement system on the date on which he or she became a member of such police pension fund and had then elected to contribute to this retirement system on the basis of a minimum retirement age of fifty-five years and a service-fraction of one one-hundredth, and had so contributed without election to cease contributing; and

(2) by subtracting from such amount computed pursuant to sub-item one of this item, the portion, if any, of such amount, which portion would constitute excess contributions subject to his withdrawal under any provision of this chapter which governs the right to withdraw excess contributions and which is or becomes applicable to such member at any time during the period herein allowed him or her for making such payment; and

(ii) the sum of (1) the amount of his or her contributions, plus interest thereon, transferred from such police pension fund to this retirement system pursuant to subparagraph (b) of paragraph three of this subdivision, and (2) the amount of the accumulated deductions to his or her credit in this retirement system as of June thirtieth, nineteen hundred sixty-eight.

(3) (a) Upon tender by such member to such police pension fund of the amount required to be refunded to such pension fund under the provisions of item (i) of subparagraph (a) of paragraph two of this subdivision, such pension fund shall accept such amount.

(b) Upon refund of benefits to such police pension fund and upon the filing of such request for transfer of such member's contributions to such pension fund, with interest at the rate of four per centum per annum thereon, pursuant to subparagraph (a) of paragraph two of this subdivision, such pension fund shall transfer such contributions and interest to this retirement system, which shall deposit such sum to such member's credit in the annuity savings fund.

(c) Upon request of such member, he or she shall be permitted to pay into the annuity savings fund of this retirement system, to his or her credit, the sums required to be so paid under the provisions of subparagraph (b) of paragraph two of this subdivision and paragraph four of this subdivision.

(4) Such member may effect the payment required in subparagraph (b) of paragraph two of this subdivision:

(a) in installments pursuant to an application duly executed by such member and filed with the retirement system, consenting that deductions be made from his or her compensation at double his or her normal rate per centum of contributions and paid to his or her credit into the annuity savings fund, until such payment is thereby completed; provided that such member may at any time during the period of such double deductions pay in a lump sum the total of the remaining sums to be so paid through deductions.

(b) by making such payment in a lump sum not later than December thirty-first, nineteen hundred sixty-eight.

(5) Upon completion of compliance by such member with the requirements of item (i) of subparagraph (a) of paragraph two of this subdivision, and upon transfer of such member's contributions, with interest thereon, from such police pension fund to this retirement system pursuant to subparagraph (b) of paragraph three of this subdivision, such police pension fund shall be discharged of all further obligations to such member.

(6) (a) Upon completion of compliance by such member with the requirements of paragraphs two and four of this subdivision, the period of service set forth in paragraph one of this subdivision, for which such member has thereby elected to obtain credit under this section, shall be credited as allowable city-service of such member, in addition to any other service creditable to him or her.

(b) Credit for such service obtained pursuant to this subdivision, including credit for service obtained pursuant to paragraph seven of this subdivision, shall be used in determining eligibility for benefits as well as amount of benefits.

(7) Notwithstanding any provision of the preceding paragraphs of this subdivision to the contrary, if such member shall pay a part of but not the entire sum required to be paid under subparagraph (b) of paragraph two of this subdivision and paragraph four of this subdivision, such member shall be credited, in addition to any other service creditable to him or her, with a portion of the total period of the allowable city-service to which he or she would be entitled under this subdivision upon full payment of such sum, which portion bears the same ratio to such total period as the total sum so paid by such member bears to the entire sum required to be paid under subparagraph (b) of paragraph two and paragraph four of this subdivision.

§ 13-123 Medical board.

a. (1) There shall be a medical board of three physicians. One of such physicians shall be appointed by the board and shall hold office at the pleasure of such board, one shall be appointed by the commissioner of health and shall hold office at the pleasure of such commissioner, and the third shall be appointed by the commissioner of citywide administrative services and shall hold office at the pleasure of such commissioner.

(2) The board, the commissioner of health and the commissioner of citywide administrative services shall each have power to appoint one or more but not exceeding four alternate physicians, who shall hold office at the pleasure of such appointing board or official. Whenever the board of trustees of the retirement system shall so direct, the functions, powers and duties of the medical board, in addition to being performed and exercised by the three physicians appointed pursuant to paragraph one of this subdivision, shall be performed and exercised by one or more groups of three physicians as hereinafter prescribed. Each such group of three physicians shall function separately as the medical board and each such group may consist partly of a physician or physicians appointed pursuant to paragraph one of this subdivision and partly of one or more alternate physicians or may consist entirely of alternate physicians; provided, however, that one of the physicians or alternate physicians in each such group shall be appointed by the board, one by the commissioner of health and one by the commissioner of citywide administrative services.

b. The medical board shall arrange for and shall pass upon all medical examinations required under the provisions of this title, shall investigate all essential statements and certifications by or on behalf of a member in connection with an application for disability retirement, and shall report to the board its conclusions and recommendations thereon.

(Legislative findings, essential functions of board, capacity, chap 272/1977 § 1)

**CASE NOTES FROM FORMER SECTION**

¶ 1. A member of the Employees Retirement System was not obliged to await a confirmation by the Board of Estimate of the determination of the Medical Board denying her application for accidental disability retirement before suing for an order annulling the Medical Board's determination and declaring her entitled to accident disability retirement.-Rosenberg v. Board of Estimate, 170 Misc. 800, 10 N.Y.S. 2d 124 [1938]; reversed on other grounds, 257 App. Div. 839, 12 N.Y.S. 2d 215 [1939], affirmed 281 N.Y. 835, 24 N.E. 2d 493 [1939].

¶ 2. The statutory provisions governing accidental disability retirements are radically different from the provisions controlling an application for accidental death benefits, and decisions of the Admin. Code § B3-40.0 relative to disability retirement applications may not be regarded as prescribing the effect to be given to a certification made by the Medical Board as to a death benefit claim.-Daley v. Board of Estimate, 267 App. Div. 592, 49 N.Y.S. 2d 139 [1944].

¶ 3. Under § 71 of the Charter, providing that the Board of Estimate shall from time to time establish rules and regulations for the administration and transaction of the business of the retirement system, it may be that the Board had sufficient authority to promulgate Rule 8, requiring the Medical Board to pass upon all medical examinations needed in the operation of the Retirement System, including the review and report upon the medical aspects of all claims at death as a result of an accident sustained by a member, with the reservation that the Board should have the power to determine whether the accident was sustained in the performance of duty and whether death was the result of wilful negligence.-Daley v. Board of Estimate, 267 App. Div. 592, 49 N.Y.S. 2d 139 [1944].

¶ 4. Where the conclusion of the Medical Board that a member of the Employees' Retirement System was not disabled as a result of an accidental injury received in the City's Service, was amply supported by competent evidence adduced before that Board, the determination of the Board of Estimate based upon the Medical Board's report could not be disturbed by the Court. There was no proof of fraud, bad faith, accident or mistake and in such case the Board of Estimate was bound by the determination of its own Medical Board. A mere difference in medical opinion of physicians produced by petitioner and physicians of the Medical Board did not justify a conclusion that the decision made by the Board of Estimate acting on the advice of its own Medical Board was arbitrary or unreasonable.-Nilsson v. La Guardia, 259 App. Div. 145, 18 N.Y.S. 2d 502 [1940].

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-125 Contributions of members and their use; annuity savings fund.

a. 1. (a) Subject to the provisions of subparagraph (b) of this paragraph, the annuity savings fund shall be the fund in which shall be accumulated deductions from the compensation of members to provide for their annuities and their withdrawal allowances.

(b) Nothing contained in subparagraph (a) of this paragraph shall be construed to require the making or accumulation of deductions from compensation with respect to any period in relation to which it is provided or directed, by or pursuant to subdivision l of section 13-161 of this chapter, that deductions from compensation need not be made.

(c) Except as otherwise provided in paragraphs two and two-a of this subdivision a or in any other applicable portion of this chapter prescribing a different normal rate of contribution, upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each member the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until his or her attainment of the minimum age of service retirement from his or her group, shall be computed to provide, at that time, an annuity equal to the pension then allowable for service as a member after the first day of October, nineteen hundred twenty.

2. (a) Upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each member who is appointed a member of the uniformed force of the department of sanitation (as defined in subdivision a of section 13-154 of this chapter) on or after July third, nineteen hundred sixty-five, the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until the attainment of the

minimum period of service retirement applicable to him or her, shall be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her for service as a member of such force.

(b) (1) Except as otherwise provided in item two of this subparagraph, the rate of contribution required to be paid on and after July third, nineteen hundred sixty-five by any member who is a member of such force and was a member of such force prior to such date shall be fifty per cent of the rate of contribution required to be paid by such member on July second, nineteen hundred sixty-five, exclusive of any increase in rate of contribution pursuant to subdivision d, e, f or g of this section or pursuant to section 13-108 of this chapter, and exclusive of any reduction of contribution pursuant to section 13-152 of this chapter or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law.

(2) Notwithstanding the provisions of item one of this subparagraph, no member mentioned in such item one shall be required to pay, on and after July third, nineteen hundred sixty-five, a rate of contribution fixed pursuant to such item one which, together with any increase in such rate of contribution pursuant to subdivision d, e, f or g of this section, is in excess of seven and one-half per cent of his or her compensation, unless such member so elects. Where any such member is required to pay additional contributions pursuant to section 13-108 of this chapter, nothing contained in this item shall affect the obligation of any such member to pay such additional contributions pursuant to such section, notwithstanding that such member's rate of contribution may thereby exceed seven and one-half per cent of his or her compensation.

(c) During any period wherein the provisions of section 13-159 of this chapter are applicable to a sanitation worker in the department of sanitation who has elected the benefits of such section, the provisions of subparagraphs (a) and (b) of this paragraph shall be inapplicable to such sanitation worker. The normal rate of contribution of any such sanitation worker who has made such election shall be as prescribed by the applicable terms of section 13-159 of this chapter, during any period wherein the provisions of such section are applicable to such member.

(d) During any period wherein the provisions of section 13-160 of this chapter are applicable to a member of the uniformed force of the department of sanitation who has elected the benefits of such section, the provisions of subparagraphs (a) and (b) of this paragraph shall be inapplicable to such member. The normal rate of contribution of any such member who has made such election shall be as prescribed by the applicable terms of section 13-160 of this chapter, during any period wherein the provisions of such section are applicable to such member.

(e) (i) Subject to the provisions of subdivision c of section 13-165 of this chapter, the normal rate of contribution of each fifty-five-year-increased-service-fraction member who, immediately prior to becoming such a member, was a member of the retirement system, shall be that which would have been fixed for such member pursuant to paragraph one of this subdivision on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, if such member, at the time his or her last membership in the retirement system began, were instead a fifty-five-year-one-percentum member.

(ii) The normal rate of contribution of each fifty-five-year-increased-service-fraction member who becomes such a member at the commencement of his or her last membership in the retirement system, shall be that which would be fixed for such member pursuant to paragraph one of this subdivision on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, if such member, at such commencement of his or her membership, were instead a fifty-five-year-one-percentum member.

(f) Subject to the provisions of paragraph two of subdivision a of section 13-162 of this chapter, relating to the career pension plan, during any period wherein a member is a career pension plan member under the provisions of such section, the normal rate of contribution of such member shall be as prescribed by the applicable terms of such section.

2-a. The normal rate of contribution of a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) shall be as prescribed by the applicable terms of section 13-161 of this chapter, during

any period wherein the provisions of such section are applicable to such member, subject, however to the applicable provisions of subdivision l of such section relating to relief from member contributions.

3. The proportion of compensation fixed pursuant to this subdivision a shall be computed to remain constant.

4. (a) The rate of contribution required to be paid on and after the first day of the first payroll period following January first, nineteen hundred sixty-eight, by any member who became a member after June thirtieth, nineteen hundred forty-seven and prior to June thirtieth, nineteen hundred sixty-seven, shall be:

(1) such member's rate as of June twenty-ninth, nineteen hundred sixty-seven computed pursuant to paragraph one or two of subdivision a of this section, including any increase thereof pursuant to subdivision d, e, f, or g of this section or pursuant to section 13-108 of this chapter, and including any decrease thereof pursuant to section 13-152 of this chapter or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, hereinafter referred to as his or her "computed prior rate", less the difference between the rate which was computed for such member on the date he or she last became a member, pursuant to paragraph one or subparagraph (a) of paragraph two of this subdivision, exclusive of any increase thereof pursuant to subdivision d, e, f, or g of this section or section 13-108 of this chapter, and exclusive of any decrease thereof pursuant to subparagraph (b) of paragraph two of this subdivision or section 13-152 of this chapter, or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and the rate which would have been computed for such member on the date he or she last became a member, pursuant to paragraph one or subparagraph (a) of paragraph two of this subdivision had he or she been entitled on that date to regular interest at four per cent; or

(2) if such member made an election pursuant to section 13-164 or paragraph six of subdivision a of section 13-172 of this chapter subsequent to the certification of his or her rate of contribution, his or her "computed prior rate", less the difference between the rate which would have been computed for such member on the date he or she last became a member pursuant to paragraph one of subdivision a of this section if the later election he or she made had been made on that date, and the rate which would have been computed for such member on the date he or she last became a member pursuant to paragraph one of subdivision a of this section if the later election he or she made had been made on that date, and if, on that date, he or she had been entitled to regular interest at four per cent; provided that the adjusted rate of contribution computed pursuant to this paragraph shall be subject to change as authorized by item two of subparagraph (b) of paragraph two of this subdivision, subdivision d, e, f, or g of this section, section 13-108 or 13-152 of this chapter, or subdivision one of section one hundred thirty-eight-b of the retirement and social security law.

(b) For any member to whom subparagraph (a) of this paragraph applies, and beginning with the first day of the first payroll period commencing after June thirtieth, nineteen hundred sixty-seven and ending with the last day of the last payroll period before the first day of the first payroll period following January first, nineteen hundred sixty-eight, the amount of contributions paid by such member which represents the difference between the "computed prior rate" of such member and his or her adjusted rate of contributions computed pursuant to subparagraph (a) of this paragraph shall be refunded upon the member's election, or, otherwise, shall be deemed additional contributions made for the purpose of purchasing additional annuity, but such additional contributions shall not enter into the computation for allowance on ordinary disability retirement as described in section 13-174 of this chapter.

b. The proportion so computed for a member one year younger than the minimum retirement age for service retirement from his or her group shall be applied to any member who has attained a greater age before entrance into the retirement system.

c. 1. Such board shall certify to the head of each agency who shall deduct from the compensation of each member on each and every payroll of such member for each and every payroll period, the proportion of his or her earnable compensation so computed.

2. Such board shall not certify nor shall the head of any agency make any deduction for annuity purposes from

the compensation of a member who elects not to contribute if his or her age and total-service are such as would entitle a new-entrant in his or her group to retire for service on a pension not less than one-fourth of his or her final compensation; provided, however, that such board shall not certify nor shall the head of the agency make any deductions for annuity purposes from the compensation of any member:

(a) who is a member of the uniformed force of the department of sanitation (as defined in subdivision a of section 13-154 of this chapter and who elects not to contribute, if he or she has completed twenty-five years of service as a member of such force, with a service fraction of one one-hundredth during such period of service; or

(b) who is a sanitation worker in such force and elects not to contribute, if he or she elected the benefits of section 13-159 of this chapter and has completed twenty years of allowable service as a sanitation worker in such department and the provisions of such section are applicable to him or her at the time of such election to cease contributing, except, however, that such right to cease contributing under this subparagraph shall continue only so long as the provisions of section 13-159 of this chapter continue to be applicable to such member.

(c) who is a member in such force and elects not to contribute, if he or she elected the benefits of section 13-160 of this chapter and has completed twenty years of allowable service as a member of such force and the provisions of such section are applicable to him or her at the time of such election to cease contributing, except, however, that such right to cease contributing under this subparagraph shall continue only so long as the provisions of section 13-160 of this chapter continue to be applicable to such member.

3. In determining the amount earnable by a member in a payroll period, such board may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and it may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period. To facilitate the making of deductions, it may modify the deduction required of any member by such an amount as shall not exceed one-tenth of one per cent of the compensation upon the basis of which such deduction is to be made.

4. The deductions provided herein shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt in full for his or her salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except such member's claim to the benefits to which he or she may be entitled under the provisions of this chapter. Such head of each agency shall certify to the comptroller on each and every payroll the amounts to be deducted. Each of such amounts shall be deducted and when deducted shall be paid into the annuity savings fund, and shall be credited, together with regular interest, to an individual account of the member from whose compensation such deduction was made.

5. The method of computation and deductions prescribed by this subdivision and by subdivisions a and b of this section shall be appropriately modified in the case of a member for whom a rate is otherwise fixed pursuant to section 13-152 of this chapter.

c-1. (1) Such board shall not certify nor shall the head of any agency make any deduction for annuity purposes from the compensation of a member who is a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) and elects not to contribute, if such member is eligible to retire under section 13-161 of this chapter, except, however, that such right to cease contributing under this subdivision shall continue only so long as the provisions of section 13-161 of this chapter continue to be applicable to such member.

(2) Nothing contained in paragraph one of this subdivision shall be construed to affect or impair any right conferred by or pursuant to subdivision l of section 13-161 of this chapter upon any transit twenty-year plan member to be relieved of making member contributions.

c-2. Such board shall not certify nor shall the head of the agency make any deductions for annuity purposes from the compensation of any member:

(1) who is a fifty-five-year-increased-service-fraction member and elects not to contribute, if such member, were he or she a fifty-five-year-one-per-centum member of the same age and having a like amount of total-service, would be entitled to elect not to contribute; or

(2) who is a career pension plan member and elects not to contribute, if he or she is eligible to retire under section 13-162 of this chapter, relating to the career pension plan, by reason of having completed twenty-five years of allowable service in one or more career pension plan positions, except, however, that such right to cease contributing under this paragraph two shall continue only so long as such member continues to be a career pension plan member.

d. (1) Subject to the provisions of paragraph four of this subdivision d, in addition to the computed deductions, any member may elect to contribute at a rate fifty per centum in excess of that heretofore provided, for the purpose of purchasing additional annuity. In computing the amount of such additional rate, any modification of the normal rate pursuant to section 13-152 of this chapter shall be disregarded.

(2) Such additional contributions shall be credited to the annuity fund with regular interest. Such additional contributions shall not enter into the computation for allowance on ordinary disability retirement as described in section 13-174 of this chapter.

(3) A member may elect to discontinue his or her additional contributions at any time.

(4) The provisions of paragraph one of this subdivision shall be inapplicable to any transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) during any period wherein, under any right conferred by or pursuant to subdivision l of section 13-161 of this chapter, such member is not required to make contributions. In the event that a member, while making additional contributions pursuant to paragraph one of this subdivision d, acquires such right under subdivision l of such section to be relieved of making contributions, such additional contributions shall cease as of the date next preceding the date on which such right becomes effective.

e. (1) In addition to the deductions from compensation hereinbefore provided, any member may redeposit in the annuity savings fund by a single payment an amount equal to the total amount which he or she withdrew previously therefrom as provided in this chapter, or any member may deposit therein by a single payment, or in equal installments over a period to be designated by such member, but not exceeding five years, immediately prior to his or her retirement, an amount computed to be sufficient to purchase an additional annuity, which, together with such member's prospective retirement allowance, will provide for him or her a total retirement allowance of one-half of his or her final compensation at the minimum age of retirement for his or her group. Such additional amounts so deposited shall become a part of his or her accumulated deductions.

(2) The accumulated deductions of a member withdrawn as provided in this title shall be paid out of the annuity savings fund.

(3) Upon retirement of a member, his or her accumulated deductions, if any, shall be transferred from such fund to the annuity reserve fund.

f. In addition to any other deductions a member may elect to contribute to the annuity savings fund an amount not exceeding the cost of providing two service fractions of final compensation at minimum retirement age for each year of service as a civil employee of the United States government rendered on or after the first day of October, nineteen hundred twenty.

g. In addition to any other deductions a member may elect to contribute to the annuity savings fund a lump sum equivalent to the additional amount which would be in such fund if deductions had been made on the basis of such

member's total earnable compensation, including cost-of-living bonus, for the period during which he or she received such bonus, in so far as such period is within the period of final compensation. The pension part of the retirement allowance of a member making such payment shall be computed on a like basis.

h. Where a member's rate of contribution is reduced because the contributing agency contributes towards pensions-providing-for-increased-take-home-pay pursuant to section 13-152 of this chapter, such member may by written notice duly acknowledged and filed with the retirement system within one year after such reduction or within one year after he or she last became a member, whichever is later, elect to waive such reduction. One year or more after the filing thereof, a member may withdraw any such waiver by written notice duly acknowledged and filed with the retirement system. Where a member makes an election to waive such reduction, he or she shall contribute to the retirement system as otherwise provided in this chapter.

i. Notwithstanding any other provision of this chapter to the contrary, any fifty-five-year-increased-service-fraction member may elect at any time, by a written application duly executed and filed with the board, to contribute to the retirement system at a rate one per centum less than such member's normal rate of contribution. Such election by such a member and the making of contributions at such reduced rate shall not change his or her normal rate of contribution. At any time after the filing of such an application, such member may, by written application duly executed and filed with the board, elect to discontinue such reduction. Such member may thereafter at any time, by a like application so filed, elect such reduction or discontinue same.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-125.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-125.1 Pick up of uniformed force member contributions by uniformed force employer.

a. Notwithstanding any other provision of the law to the contrary, on and after the starting date for pick up, the uniformed force employer:

(1) shall pick up and pay into the annuity savings fund the uniformed force member contributions eligible for pick up by the employer which the uniformed force members who are Tier I members (as defined in subdivision seventy-one of section 13-101 of this chapter) or Tier II members (as defined in subdivision seventy-two of such section 13-101) would otherwise be required to make on and after such starting date; and

(2) shall pick up and pay into the special fund maintained by the retirement system pursuant to subdivision a of section five hundred seventeen of the retirement and social security law, the uniformed force member contributions eligible for pick up by the employer which the uniformed force members who are Tier III members (as defined in subdivision seventy-three of such section 13-101) would otherwise be required to make on and after such starting date; and

(3) shall pick up and pay into the special fund maintained by the retirement system pursuant to subdivision a of section six hundred thirteen of the retirement and social security law, the uniformed force member contributions eligible for pick up by the employer which the uniformed force members who are Tier IV members (as defined in subdivision seventy-six of such section 13-101) would otherwise be required to make on and after such starting date.

a-1. Notwithstanding any other provision of law to the contrary, the uniformed force employer:

(1) shall, in the case of a correction member (as defined in subdivision forty of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program (as defined in paragraph six of subdivision a of section four hundred forty-five-a of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision d of such section four hundred forty-five-a (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph two of such subdivision d), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deductions; and

(2) shall, in the case of a member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in the twenty-year retirement program (as defined in paragraph five of subdivision a of section five hundred four-a of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision e of such section five hundred four-a (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph two of such subdivision e), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deductions; and

(3) shall, in the case of a sanitation member (as defined in subdivision sixty-four of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program (as defined in paragraph six of subdivision a of section four hundred forty-five-b of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision d of such section four hundred forty-five-b, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deductions; and

(4) shall, in the case of a sanitation member (as defined in subdivision sixty-four of section 13-101 of this chapter) who is a participant in the twenty-year retirement program (as defined in paragraph five of subdivision a of section six hundred four-a of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision e of such section six hundred four-a, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deductions; and

(5) shall, in the case of a correction member (as defined in subdivision forty of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program for captains and above (as defined in paragraph six of subdivision a of section four hundred forty-five-c of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph three of subdivision d of such section four hundred forty-five-c (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph three), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three would otherwise require such deductions; and

(6) shall, in the case of a member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in the twenty-year retirement program for captains and above (as defined in paragraph five of subdivision a of section five hundred four-b of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph three of subdivision e of such section five hundred four-b (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph three), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three would otherwise require such deductions; and

(7) shall, in the case of a transit authority member (as defined in subdivision fifty-nine-a of section 13-101 of this chapter) who is a participant in the twenty-five-year and age fifty-five retirement program (as defined in paragraph five of subdivision a of section six hundred four-b of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision e of such section six hundred four-b and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deduction; and

(8) shall, in the case of a member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in the twenty-year retirement program (as defined in paragraph three of subdivision a of section five hundred four-d of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph three of subdivision e of such section five hundred four-d (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph three), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three would otherwise require such deductions.

b. An amount equal to the amount of such picked up contributions shall be deducted by the uniformed force employer from the compensation of such member (as such compensation would be in the absence of a pick up program applicable to him or her hereunder) and shall not be paid to such member. Such deduction shall be effected by means of subtraction from such member's current compensation (as so defined), or offset against future pay increases, or a combination of such methods.

c. (1) The member contributions and additional member contributions picked up pursuant to this section for any uniformed force member shall be paid by the uniformed force employer in lieu of an equal amount of the member contributions and additional member contributions otherwise required to be paid by such member under the provisions of this chapter or the retirement and social security law and shall be deemed to be and treated as employer contributions pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, as amended, for the purposes, under federal law, for which such subsection h so classifies such picked up contributions. Subject to the provisions of subdivision b of this section, for all other purposes, including but not limited to:

(i) the obligation of such member to pay New York state and New York city income and/or wages or earnings taxes and the withholding of such taxes; and

(ii) the determination of the amount of such member's uniformed force member contributions eligible for pick up by the employer or additional member contributions required to be picked up pursuant to subdivision a-one of this section; and

(iii) the determination of the amount of any retirement allowance or other pension fund benefit payable to or on account of such member or any other pension fund right, benefit or privilege of such member; the amount of the member contributions and additional member contributions picked up pursuant to this section shall be deemed to be a part of the employee compensation of such member and such member's gross compensation (as it would be in the absence of a pick up program applicable to him or her hereunder) shall not be deemed to be changed by such member's participation in such program.

(2) Nothing contained in paragraph one of this subdivision c shall be construed as superseding the provisions of section four hundred thirty-one of the retirement and social security law or any similar provision of law which limits the salary base for computing retirement benefits payable by a public retirement system.

d. (1) For the purpose of determining the retirement system rights, benefits and privileges of any uniformed force member whose uniformed force member contributions eligible for pick up by the employer are picked up pursuant

to this section (including the procurement of loans by any such member who is a Tier I member or Tier II member), such picked up member contributions shall be deemed to be and treated (i) as member contributions made by such member pursuant to law and (ii) as a part of such member's accumulated deductions, if he or she is a Tier I member or a Tier II member and (iii) as a part of such member's accumulated contributions under section five hundred seventeen of the retirement and social security law, if such member is a Tier III member and (iv) as a part of such member's contributions under section six hundred thirteen of such law, if such member is a Tier IV member.

(2) For the purpose of determining the retirement system rights, benefits and privileges of any correction member (as defined in subdivision forty of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program (as defined in paragraph six of subdivision a of section four hundred forty-five-a of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph one of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and two of subdivision d of such section four hundred forty-five-a.

(3) For the purpose of determining the retirement system rights, benefits and privileges of any member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in the twenty-year retirement program (as defined in paragraph five of subdivision a of section five hundred four-a of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph two of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and two of subdivision e of such section five hundred four-a.

(4) For the purpose of determining the retirement system rights, benefits and privileges of any sanitation member (as defined in subdivision sixty-four of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program (as defined in paragraph six of subdivision a of section four hundred forty-five-b of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph three of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and two of subdivision d of such section four hundred forty-five-b.

(5) For the purpose of determining the retirement system rights, benefits and privileges of any sanitation member (as defined in subdivision sixty-four of section 13-101 of this chapter) who is a participant in the twenty-year retirement program (as defined in paragraph five of subdivision a of section six hundred four-a of the retirement and social security law) the additional member contributions of such participant picked up pursuant to paragraph four of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and two of subdivision e of such section six hundred four-a.

(6) For the purpose of determining the retirement system rights, benefits and privileges of any correction member (as defined in subdivision forty of section 13-101 of this chapter) who is a participant in the twenty-year improved benefit retirement program for captains and above (as defined in paragraph six of subdivision a of section four hundred forty-five-c of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph five of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and three of subdivision d of section four hundred forty-five-c of the retirement and social security law.

(7) For the purpose of determining the retirement system rights, benefits and privileges of any member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in the twenty-year retirement program for captains and above (as defined in paragraph five of subdivision a of section five hundred four-b of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph six of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and three of subdivision e of section five hundred

four-b of the retiremnent and social security law.

(8) For the purpose of determining the retirement system rights, benefits and privileges of any transit authority member (as defined in subdivision fifty-nine-a of section 13-101 of this chapter) who is a participant in the twenty-five-year and age fifty-five retirement program (as defined in paragraph five of subdivision a of section six hundred four-b of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph seven of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and two of subdivision e of such section six hundred four-b.

(9) Interest on contributions picked up for any uniformed force member pursuant to this section (other than additional member contributions picked up pursuant to subdivision a-one of this section) shall accrue in favor of the member and be payable by his or her public employer at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable by the public employer on such contributions if they were made by such member in the absence of a pick up program applicable to such member under the provisions of this section.

(9-a) For the purpose of determining the retirement system rights, benefits and privileges of any member of the uniformed correction force (as defined in subdivision thirty-nine of section 13-101 of this chapter) who is a participant in a twenty-year retirement program (as defined in paragraph three of subdivision a of section five hundred four-d of the retirement and social security law), the additional member contributions of such participant picked up pursuant to paragraph eight of subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under paragraphs one and three of subdivision e of section five hundred four-d of the retirement and social security law.

(10) Where member contributions of any uniformed force member who is a Tier I member or Tier II member are picked up and paid into the annuity savings fund pursuant to this section, such picked up contributions shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(11) Where member contributions of any uniformed force member who is a Tier III member are picked up and paid, pursuant to this section, into the special fund maintained by the retirement system pursuant to subdivision a of section five hundred seventeen of the retirement and social security law, and where member contributions of any uniformed force member who is a Tier IV member are picked up and paid, pursuant to this section, into the special fund maintained by the retirement system pursuant to subdivision a of section six hundred thirteen of such law, such picked up contributions shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(12) Nothing contained in this subdivision d shall be construed as granting member contributions or additional member contributions picked up under this section any status, under federal law, other than as employer contributions, pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, for the federal purposes for which such subsection h so classifies such picked up contributions.

e. No member whose member contributions or additional member contributions are required to be picked up pursuant to this section shall have any right to elect that such pick up, with accompanying deduction from the compensation of such member as prescribed by subdivision b of this section, shall not be effectuated.

f. In any case where it is provided by contract, agreement, law, or regulation (1) that a uniformed force employer shall be reimbursed in whole or in part by another government or another public entity for costs incurred by such employer in maintaining a uniformed force consisting of uniformed force members or (2) that any such cost shall be paid in whole or in part by any such other government or public entity, nothing contained in this section shall be

construed as abrogating, diminishing or impairing any right of such uniformed force employer, pursuant to such contract, agreement, law or regulation, to be reimbursed in whole or in part for such costs or to require that such costs be paid in whole or in part by such other government or public entity.

**NOTE**

1. Provisions of chap 622/2004:

§ 15. Nothing contained in sections thirteen and fourteen of this act shall be construed to create any contractual right with respect to the members to whom such sections apply. The provisions of such sections are intended to afford members the advantages of certain benefits contained in the federal internal revenue code, and the effectiveness and existence of such sections and the benefits they confer are completely contingent thereon.

§ 16. This act shall take effect immediately, provided, however, that:

. . . . . .

(b) the provisions of sections thirteen and fourteen of this act shall remain in full force and effect only so long as, pursuant to federal law, contributions picked up under such sections are not includible as gross income of a member for federal income tax purposes until distributed or made available to the member.

**FOOTNOTES**

8

[Footnote 8]: * Amendment remains in force and effect only so long as, pursuant to federal law, contributions picked up under such sections are not includible as gross income of a member for federal income tax purposes until distributed or made available to the member.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-125.2 Pick up of Tier I or Tier II non-uniformed-force member contributions by employer.

a. Notwithstanding any other provision of the law to the contrary, on and after the starting date for pick up, the employer responsible for pick up shall pick up and pay into the annuity savings fund the Tier I or Tier II non-uniformed-force member contributions eligible for pick up by the employer which each Tier I or Tier II non-uniformed-force member would otherwise be required to make on and after such starting date, including (1) any contributions required to be made for the purchase of credit for previous service or credit for military service by its employees pursuant to an irrevocable payroll deduction agreement under subdivision b-1 of section four hundred forty-six of the retirement and social security law on or after the effective date of subdivision one-a of section 13-108 of this chapter, and (2) any contributions required to be made for the purchase of credit for prior service or credit for military service by the employee pursuant to an irrevocable payroll deduction agreement under subdivision one-a of section 13-108 of this chapter on or after the effective date of such subdivision, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contribution account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law.

a-1. Notwithstanding any other provision of law to the contrary, the employer responsible for pick up shall, in the case of a member who is a participant in the age fifty-five improved benefit retirement program (as defined in paragraph ten of subdivision a of section four hundred forty-five-d of the retirement and social security law), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph three of subdivision d of such section four hundred forty-five-d, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph three otherwise would require such deductions.

a-2. Notwithstanding any other provision of law to the contrary, the Triborough bridge and tunnel authority shall, in the case of a bridge and tunnel member (as defined in paragraph two of subdivision a of section four hundred forty-five-d of the retirement and social security law) who is a participant in the twenty-year/age fifty improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to paragraph two of subdivision d of such section four hundred forty-five-d (not including any additional member contributions due for any period prior to the first full payroll period referred to in such paragraph two of such subdivision e), and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such paragraph two would otherwise require such deductions.

a-3.* Notwithstanding12 any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a dispatcher member (as defined in paragraph one of subdivision a of section 13-157.2 of this chapter) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph two of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision e of such section 13-157.2, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision e would otherwise require such deductions.

a-3.* Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of an EMT member (as defined in paragraph one of subdivision a of section 13-157.2 of this chapter) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph two of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision e of such section 13-157.2, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision e would otherwise require such deductions.

a-4.** Notwithstanding13 any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a dispatcher member (as defined in paragraph two of subdivision a of section four hundred forty-five-e of the retirement and social security law) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four hundred forty-five-e, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

a-4.** Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of an EMT member (as defined in paragraph two of subdivision a of section four hundred forty-five-e of the retirement and social security law) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four hundred forty-five-e, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

a-5.*** Notwithstanding14 any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a deputy Sheriff Member (as defined in paragraph two of subdivision a of section four hundred forty-five-f of the retirement and social security law) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section 445-f, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would

otherwise require such deductions.

a-5.*** Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a special officer (including persons employed by the city of New York in the title urban park ranger or associate urban park ranger), parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector member who is a participant in the twenty-five year improved benefit retirement program pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision e of section 13-157.3 of this chapter, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision e would otherwise require such deductions.

a-6. Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a special officer (including persons employed by the city of New York in the title urban park ranger or associate urban park ranger), parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector member who is a participant in the twenty-five year improved benefit retirement program pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of section four hundred forty-five-f of the retirement and social security law, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

a-7. Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of an automotive member (as defined in paragraph two of subdivision a of section four hundred forty-five-g of the retirement and social security law) who is a participant in the twenty-five year/age fifty improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four hundred forty-five-g, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

a-8. Notwithstanding any other provision of law to the contrary, on or after the starting date for pick up, the employer responsible for pick up shall, in the case of a police communications member (as defined in paragraph two of subdivision a of section four hundred forty-five-h of the retirement and social security law) who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of such subdivision a), pick up and pay to the retirement system all additional member contributions which otherwise would be required to be deducted from such member's compensation pursuant to subdivision d of such section four hundred forty-five-h, and shall effect such pick up on each and every payroll of such participant for each and every payroll period with respect to which such subdivision d would otherwise require such deductions.

b. An amount equal to the amount of such picked up contributions shall be deducted by the employer responsible for pick up from the compensation of such member (as such compensation would be in the absence of a pick up program applicable to him or her hereunder) and shall not be paid to such member. Such deduction shall be effected by means of subtraction from such member's current compensation (as so defined), or offset against future pay increases, or a combination of such methods.

c. (1) The member contributions and additional member contributions picked up pursuant to this section for any Tier I or Tier II non-uniformed-force member shall be paid by the employer responsible for pick up in lieu of an equal amount of the member contributions and additional member contributions otherwise required to be paid by such member under the provisions of this chapter or the retirement and social security law, and shall be deemed to be and treated as employer contributions pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, as amended, for the purposes, under federal law, for which such subsection h so classifies such picked up

contributions. Subject to the provisions of subdivision b of this section, for all other purposes, including but not limited to:

(i) the obligation of such member to pay New York state and New York city income and/or wages or earnings taxes and the withholding of such taxes; and

(ii) the determination of the amount of such member's Tier I or Tier II nonuniformed-force member contributions eligible for pick up by the employer or additional member contributions required to be picked up pursuant to subdivision a-one, subdivision a-two, subdivision a-three, subdivision a-four, subdivision a-five, subdivision a-six, subdivision a-seven or subdivision a-eight of this section; and

(iii) the determination of the amount of any retirement allowance or other retirement system benefit payable to or on account of such member or any other retirement system right, benefit or privilege of such member;

the amount of the member contributions and additional member contributions picked up pursuant to this section shall be deemed to be a part of the employee compensation of such member and such member's gross compensation (as it would be in the absence of a pick up program applicable to him or her hereunder) shall not be deemed to be changed by such member's participation in such program.

(2) Nothing contained in paragraph one of this subdivision c shall be construed as superseding the provisions of section four hundred thirty-one of the retirement and social security law or any similar provision of law which limits the salary base for computing retirement benefits payable by a public retirement system.

d. (1) For the purpose of determining the retirement system rights, benefits and privileges of any Tier I or Tier II non-uniformed-force member whose contributions eligible for pick up by the employer are picked up pursuant to this section (including the procurement of loans by any such member), such picked up member contributions shall be deemed to be and treated (i) as member contributions made by such member pursuant to law and (ii) as a part of such member's accumulated deductions.

(2) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the age fifty-five improved benefit retirement program (as defined in paragraph ten of subdivision a of section four hundred forty-five-d of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-one of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-d.

(2-a) For the the purpose of determining the retirement system rights, benefits, and privileges of any bridge and tunnel member (as defined in paragraph two of subdivision a of section four hundred forty-five-d of the retirement and social security law) who is a participant in the twenty-year/age fifty improved benefit retirement program (as defined in paragraph three of such subdivision a), the additional member contributions of such participant picked up pursuant to subdivision a-two of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-d.

(2-b) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year retirement program (as defined in paragraph two of subdivision a of section 13-157.2 of this chapter), the additional member contributions of such participant picked up pursuant to subdivision a-three of this section shall be deemed to be and treated as a part of such member's additional contributions under subdivision e of such section 13-157.2

(2-c) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-e of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-four of this section shall be deemed to be and treated as a part of

such member's additional member contributions under subdivision d of such section four hundred forty-five-e.

(2-d)* For the15 purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-f of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-five of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-f.

(2-d)* For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year retirement program, as defined in paragraph six of subdivision a of section 13-157.3 of this chapter, the additional member contributions of such participant picked up pursuant to subdivision a-three of this section shall be deemed to be and treated as a part of such member's additional contributions under subdivision e of such section 13-157.3.

(2-e) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program as defined in paragraph seven of subdivision a of section four hundred forty-five-f of the retirement and social security law, the additional member contributions of such participant picked up pursuant to subdivision a-four of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-f.

(2-f) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year/age fifty improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-g of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-seven of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-g.

(2-g) For the purpose of determining the retirement system rights, benefits and privileges of any member who is a participant in the twenty-five year improved benefit retirement program (as defined in paragraph three of subdivision a of section four hundred forty-five-h of the retirement and social security law), the additional member contributions of such participant picked up pursuant to subdivision a-eight of this section shall be deemed to be and treated as a part of such member's additional member contributions under subdivision d of such section four hundred forty-five-h.

(3) Interest on contributions picked up for any Tier I or Tier II non-uniformed-force member pursuant to this section (other than additional member contributions picked up pursuant to subdivision a-one, subdivision a-two, subdivision a-three, subdivision a-four, subdivision a-five, subdivision a-six, subdivision a-seven or subdivision a-eight of this section) shall accrue in favor of the member and be payable to the retirement system at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable to the retirement system on such contributions if they were made by such member in the absence of a pick up program applicable to such member under the provisions of this section.

(4) Member contributions of any Tier I or Tier II non-uniformed-force member which are picked up and paid into the annuity savings fund pursuant to this section shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(5) Nothing contained in this subdivision d shall be construed as granting member contributions or additional member contributions picked up under this section any status, under federal law, other than as employer contributions, pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, for the federal purposes for which such subsection h so classifies such picked up contributions.

e. No member whose member contributions or additional member contributions are required to be picked up pursuant to this section shall have any right to elect that such pick up, with accompanying deduction from the compensation of such member as prescribed by subdivision b of this section, shall not be effectuated.

**HISTORICAL NOTE**

Section added ch. 681/1992 § 3 eff. July 31, 1992

Subd. a amended chap 627/2007 § 13, approved Aug. 28, 2007 eff. upon compliance with chap 627/2007 § 22. [See § 13-101 Note 1]

Subd. a-1 added chap 96/1995 § 10, eff. June 28, 1995*11

Subd. a-2 added chap 466/1996 § 1, eff. Aug. 8, 1996 and deemed in effect on and after Aug. 2, 1995*

Subd. a-3 (laid out first) added chap 576/2000 § 7, eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-3 (laid out second) added chap 577/2000 § 7, eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-4 (laid out first) added chap 576/2000 § 7, eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-4 (laid out second) added chap 576/2000 § 7, eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-5 (laid out first) added chap 559/2001 § 7, eff. Dec. 12, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-5 (laid out second) amended chap 640/2003 § 9, eff. Oct. 7, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. a-5 (laid out second) added chap 582/2001 § 7, eff. Dec. 19, 2001

and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-6 amended chap 640/2003 § 10, eff. Oct. 7, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. a-6 added chap 582/2001 § 7, eff. Dec. 19, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-7 added chap 414/2002 § 6, eff. Aug. 13, 2002 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. a-8 added chap 682/2003 § 7, eff. Oct. 21, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. c par (1) amended chap 96/1995 § 11, eff. June 28, 1995*

Subd. c par (1) subpar (ii) amended chap 682/2003 § 8, eff. Oct. 21, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. c par (1) subpar (ii) amended chap 414/2002 § 7, eff. Aug. 13, 2002 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. c par (1) subpar (ii) separately amended chaps 559/2001 § 8, eff. Dec. 12, 2001 and 582/2001 § 8, eff. Dec. 19, 2001 and both amendments shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. c par (1) subpar (ii) separately amended chaps 576/2000 § 8 and 577/2000 § 8, both eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. c par 1 subpar (ii) amended chap 466/1996 § 2, eff. Aug. 8, 1996 and deemed in effect on and after Aug. 2, 1995*

Subd. d amended chap 96/1995 § 12, eff. June 28, 1995*

Subd. d par (2-a) added chap 466/1996 § 3, eff. Aug. 8, 1996 and deemed in effect on and after Aug. 2, 1995*

Subd. d pars (2-b), (2-c) separately added chaps 576/2000 § 9 and 577/2000 § 9, both eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (2-d) (laid out first) added chap 559/2001 § 9, eff. Dec. 12, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. (d) par (2-d) (laid out second) added chap 582/2001 § 9, eff. Dec. 19, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (2-e) added chap 582/2001 § 9, eff. Dec. 19, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (2-f) added chap 414/2002 § 8, eff. Aug. 13, 2002 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (2-g) added chap 682/2003 § 9, eff. Oct. 21, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (3) amended chap 682/2003 § 10, eff. Oct. 21, 2003 and shall not affect the expiration of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (3) amended chap 414/2002 § 9, eff. Aug. 13, 2002 and shall not affect the expirations of such provisions as provided for in chap

681/1992, as amended.

Subd. d par (3) separately amended chap 559/2001 § 10, eff. Dec. 12, 2001 and chap 582/2001 § 10, eff. Dec. 19, 2001 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (3) separately amended chaps 576/2000 § 10 and 577/2000 § 10, both eff. Dec. 8, 2000 and shall not affect the expirations of such provisions as provided for in chap 681/1992, as amended.

Subd. d par (3) amended chap 466/1996 § 4, eff. Aug. 8, 1996 and deemed in effect on and after Aug. 2, 1995*

Subd. e amended chap 96/1995 § 12, eff. June 28, 1995*

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B3-16.0 added chap 929/1937 § 1

**CASE NOTES**

¶ 1. Where the Board of Trustees meets to determine an application for accidental disability retirement, and there is a tie vote, the employee will obtain ordinary disability rather than accidental disability. However, this is not deemed a determination as to the cause of the disability. Thus, that determination does not have a collateral estoppel effect against the employee in a personal injury suit in which the cause of the disability is in issue. Kenny v. New York City Transit Authority, 275 A.D.2d 639, 713 N.Y.S.2d 173 (1st Dept. 2000).

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-127 Contributions of the city and their use; contingent reserve fund.

a. The contingent reserve fund shall be the fund in which shall be accumulated the reserve necessary to pay all pensions and the reserve-for-increased-take-home-pay, and all death benefits allowable by the city on account of the city-service of members to whom prior-service is not allowable as provided in this chapter.

b. (1) (a) Subject to the provisions of subparagraph (d) of this paragraph and paragraph five of this subdivision, the city shall contribute to the contingent reserve fund:

(i) annually an amount to be known as the normal contribution; and

(ii) in each city fiscal year during the period beginning with fiscal year nineteen hundred seventy-seven-nineteen hundred seventy-eight and ending on the last day of fiscal year nineteen hundred seventy-nine-nineteen hundred eighty, one annual installment of an additional amount which shall be known as the original unfunded accrued liability contribution, and which shall be determined as provided for in subparagraph (a) of paragraph three of this subdivision; and

(iii) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year two thousand fourteen-two thousand fifteen, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the revised unfunded accrued liability contribution and which shall be determined as provided for in subparagraph (b) of paragraph three of this subdivision; and

(iv) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-one-nineteen hundred eighty-two and ending on the last day of fiscal year two thousand twenty-two thousand twenty-one, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the balance sheet liability contribution and which shall be determined as provided for in paragraph four of this subdivision; and

(v) in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the amount of one year's interest, at the rate of seven and one-half per centum per annum, on the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty, as determined pursuant to the provisions of paragraph four of this subdivision; and

(vi) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the city's obligation, if any, which accrued in such fiscal year, to make contributions on account of increased-take-home-pay; and

(vii) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the city's obligation, which accrued in such fiscal year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members.

(b) (i) Subject to the provisions of item (iv) of this subparagraph, if the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to subparagraph (c) of paragraph three of this subdivision b is a credit, the total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph and otherwise pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(ii) Subject to the provisions of subparagraph (d) of this paragraph, if the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to subparagraph (c) of paragraph three of this subdivision is a charge, the city shall contribute in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, in addition to the amounts required to be contributed under the provisions of subparagraph (a) of this paragraph, one annual installment of such nineteen hundred eighty unfunded accrued liability adjustment.

(iii) Subject to the provisions of item (iv) of this subparagraph, the total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year and ending with the two thousand eleven-two thousand twelve fiscal year pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of this paragraph and the applicable provisions of items (i) and (ii) of this subparagraph and otherwise pursuant to law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-two unfunded accrued liability adjustment determined pursuant to item (vi) of subparagraph (c) of paragraph three of this subdivision.

(iii-a) If the nineteen hundred eighty-five unfunded accrued liability adjustment determined with respect to any obligor pursuant to the applicable provisions of sub-items (A) to (G), inclusive, of item (vii) of subparagraph (c) of paragraph three of this subdivision b is a charge, the total of the amounts required to be contributed by such obligor to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and ending with the two thousand fourteen-two thousand fifteen fiscal year pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of this paragraph one and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant to law shall be increased by the amount of one annual installment of such nineteen hundred eighty-five unfunded accrued liability adjustment determined with respect to such obligor.

(iii-b) If the nineteen hundred eighty-five unfunded accrued liability adjustment determined with respect to any obligor pursuant to the applicable provisions of such sub-items (A) to (G), inclusive, is a credit, the total of the amounts required to be contributed by such obligor to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and ending with the two thousand fourteen-two thousand fifteen fiscal year pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of this paragraph one and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant to law shall be reduced by the amount of one annual installment of such nineteen hundred eighty-five unfunded accrued liability adjustment with respect to such obligor.

(iv) The installments of the nineteen hundred eighty-two unfunded accrued liability adjustment, and, if the nineteen hundred eighty unfunded accrued liability adjustment is a credit, the installments of such nineteen hundred eighty adjustment credit, shall be allocated among the city and other obligors required to pay public employer contributions on account of members, such allocation to be made in accordance with the shares of such installments attributable to them pursuant to the provisions of law prescribing their obligations to make or assume responsibility for employer con- tributions.

(v) For the purpose of effectuating the nineteen hundred eighty-eight unfunded accrued liability adjustment provided for in section 13-638.1 of the code, contributions to the contingent reserve fund on account of charges shall be made by responsible obligors (as defined in paragraph six of subdivision a of such section) or credits shall be allowed to such obligors against contributions otherwise payable by them, as the case may be, to the extent and in the manner provided for in such section. The annual determination of the normal contribution for fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight shall appropriately take account of the nineteen hundred eighty-eight unfunded accrued liability adjustment as provided for in such section 13-638.1 and the provisions of subparagraph (b) of paragraph two of this subdivision b shall be deemed to be conformably modified for such purpose.

(c) (i) Any amount required by the provisions of items (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph and subparagraph (b) of this paragraph and section 13-704 of this title to be contributed to the contingent reserve fund in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year or any subsequent fiscal year shall be payable with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund in such fiscal year.

(ii) Any amount required to be contributed to the contingent reserve fund in any fiscal year of the city preceding the nineteen hundred eighty-nineteen hundred eighty-one fiscal year shall be deemed to have been required to be paid with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund in such fiscal year.

(iii) It is hereby declared that the provisions of items (i) and (ii) of this subparagraph, insofar as they relate to provisions of this chapter or other laws requiring payment of employer contributions to the retirement system prior to the date of enactment of the act which added this subparagraph, express the intent of such provisions of this title or other laws requiring such payment.

(d) The requirements of subparagraph (a) of this paragraph with respect to contributions to the contingent reserve fund and the requirements, if any, of subparagraph (b) of this paragraph with respect to contributions to such fund, and the requirements of subparagraph (c) of this paragraph with respect to payment of interest on contributions to such fund shall be subject to the provisions of sections 13-130, 13-131 and 13-132 of this chapter.

(2) Normal contribution. (a)(i) Upon the basis of the latest mortality and other tables herein authorized and regular interest, the actuary shall determine as of June thirtieth, nineteen hundred eighty and as of each succeeding June

thirtieth, the amount of the total liability for all benefits provided in this title, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund, provided, however, that in determining such total liability as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the actuary shall include (A) the liability on account of future increased-take-home-pay contributions, if any, (B) the liability on account of future public employer obligations under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members and (C) the liability for benefits attributable to the annuity savings fund.

(ii) For the purposes of subparagraphs (b) and (c) of this paragraph, the actuary shall determine, as of June thirtieth, two thousand and as of each succeeding June thirtieth, the total liability of the retirement system which shall be an amount equal to the sum of (A) the total liability for all benefits as determined pursuant to item (i) of this subparagraph, (B) the amount, as estimated by the actuary, of the total liability of the retirement system on account of all payments which the retirement system may be required to make for base fiscal years beginning on or after July first, nineteen hundred ninety-nine to the correction officers' variable supplements fund and the correction captains' and above variable supplements fund, and (C) the amount, if any, as estimated by the actuary, of the total liability of the retirement system on account of payments which the retirement system may be required to make to any other fund without a corresponding offset in the liabilities of the retirement system.

(a-1) Notwithstanding any other provision of law to the contrary, for the purpose of calculating the amount of the normal contribution due from the city to the contingent reserve fund pursuant to subparagraph (c) of this paragraph in fiscal year two thousand five-two thousand six, and in each fiscal year thereafter, both the total liability of the retirement system, as calculated by the actuary in accordance with subparagraph (a) of this paragraph, and the normal rate of contributions, as calculated by the actuary in accordance with subparagraph (b) of this paragraph, shall be determined as of June thirtieth of the second fiscal year preceding the fiscal year in which the normal contribution is payable, provided, however, that (i) the actuary shall use for such calculations the mortality and other tables that are applicable at the time he or she performs such calculations; (ii) the total funds on hand, as determined by the actuary pursuant to sub-item (E) of item (i) of subparagraph (b) of this paragraph, shall be adjusted by adding to such amount the present value of all employer contributions required to be paid into the contingent reserve fund in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary; and (iii) the present value of the prospective future salaries of all members, as computed by the actuary for the purposes of item (ii) of subparagraph (b) of this paragraph, shall be reduced by the present value of the salaries expected to be paid to all members in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary.

(b) The normal rate of contribution shall be the rate per centum obtained:

(i) by deducting from the amount of such total liability the sum of:

(A) (1) the amount obtained by adding together the present value of all required future revised unfunded accrued liability contributions and the present value of all required future payments of the nineteen hundred eighty unfunded accrued liability adjustment, determined pursuant to subparagraph (c) of paragraph three of this subdivision, if such adjustment is a charge; or

(2) the remainder obtained by subtracting from the present value of all required future revised unfunded accrued liability contributions, the present value of all future installments of the nineteen hundred eighty unfunded accrued liability adjustment required to be credited, if such nineteen hundred eighty adjustment is a credit;

(3) minus (whether (1) or (2) of this sub-item (A) is applicable) the present value of all future installments of the nineteen hundred eighty-two unfunded accrued liability adjustment; and

(A-1) the present value of all future installments of the aggregate nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to sub-item (K) of item (vii) of subparagraph (c) of paragraph three of this subdivision b; and

(B) the present value of all required future balance sheet liability, contributions, plus, in the case of the determination of the normal contributions payable in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the present value, as of June thirtieth, nineteen hundred eighty, of the payment of interest on the balance sheet liability as required by item (v) of subparagraph (a) of paragraph one of this subdivision; and

(C) the present value of all required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(D) in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, the present value of future member contributions of all members; and

(E) the total funds on hand, including the amount of any unpaid moneys appropriated pursuant to section 13-133 of this chapter and, in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, including the amount in the annuity savings fund; and

(F) the present value of all other future installments of accrued liability contributions to the retirement system required by the applicable provisions of section 13-638.2 of this title which are not covered by the preceding subitems of this item (i); and

(ii) by dividing the remainder by one per centum of the present value of the prospective future salaries of all members, as computed by the actuary on the basis of the latest mortality and service tables adopted pursuant to section 13-121 of this subchapter, and on the basis of regular interest. The normal rate of contribution determined by the actuary shall not be less than zero, shall be certified by the actuary after each such valuation and shall continue in force until the next succeeding valuation and certification.

(c) (i) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand four-two thousand five fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of June thirtieth next preceding such fiscal year, by the aggregate annual salaries of the members on such next preceding June thirtieth, and shall be payable in such fiscal year next following such June thirtieth, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(ii) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the two thousand five-two thousand six fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of the second June thirtieth preceding the fiscal year in which the normal contribution is payable, in accordance with the provisions of subparagraphs (a-1) and (b) of this paragraph, by the aggregate amount of the salaries expected to be paid to the members during the fiscal year in which the normal contribution is payable, as determined by the actuary, and such normal contribution shall be payable in the second fiscal year following the June thirtieth as of which the normal rate of contribution is determined, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(iii) In the case of the normal contribution payable in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in any subsequent fiscal year, the term "regular interest", as used in this subparagraph, shall mean regular interest as defined by the applicable provisions of subparagraph (ii) or subparagraph (iii) of paragraph (c) or paragraph (d) of subdivision twelve of section 13-101 of this chapter.

(3) Unfunded accrued liability contributions. (a) The original unfunded accrued liability contribution shall be an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year, would be the actuarial equivalent, on the basis of five and one-half per centum interest and the actuarial tables in effect as of July first, nineteen hundred seventy-seven, of the difference between the accrued liability excluding the liability for benefits attributable to the annuity savings fund on June thirtieth, nineteen hundred seventy-five and the total funds on hand, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-133 of this chapter. The original unfunded accrued liability contributions shall include the payments required by section 13-130 of this chapter.

(b) (i) The revised unfunded accrued liability contribution shall be an amount determined as prescribed in items (ii), (iii), (iv), (v), (vi) and (vii) of this subparagraph (b).

(ii) To the amount of the difference constituting the unfunded accrued liability as of June thirtieth, nineteen hundred seventy-five heretofore determined pursuant to the provisions of this paragraph as in effect on July first, nineteen hundred seventy-seven, there shall be added interest thereon at the rate of five and one-half per centum per annum for the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty.

(iii) (A) There shall be computed, in the manner provided in sub-item (B) of this item, the discounted value of each of the installments of the unfunded accrued liability contribution which, in the absence of the enactment of chapter nine hundred fifty-seven of the laws of nineteen hundred eighty-one, were payable or would have been payable in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight, nineteen hundred seventy-eight-nineteen hundred seventy-nine, nineteen hundred seventy-nine-nineteen hundred eighty, nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years.

(B) Such discounted value of each such installment shall be computed as of January first of the city's second fiscal year preceding the fiscal year in which such installment was payable or would have been payable and on the basis of five and one-half per centum interest per annum on the amount of such installment.

(C) There shall be computed with respect to such discounted value of each such installment, interest thereon from January first of such second fiscal year preceding the fiscal year in which such installment was or would have been payable to June thirtieth, nineteen hundred eighty at the rate of five and one-half per centum per annum.

(D) The discounted values of all of such installments with respect to such fiscal years, computed as provided for in sub-items (A) and (B) of this item, together with interest on each installment as provided for in sub-item (C) of this item, shall be added together.

(iv) From the sum computed pursuant to item (ii) of this subparagraph, the sum computed pursuant to item (iii) of this subparagraph shall be subtracted.

(v) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-five equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of the remainder computed pursuant to item (iv) of this subparagraph.

(vi) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-three equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis

of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of the installments of the unfunded accrued liability contribution computed pursuant to item (v) of this subparagraph, which installments are hypothetically allocated by such item (v) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(vii) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of the installments of the unfunded accrued liability contribution computed pursuant to item (vi) of this subparagraph, which installments are hypothetically allocated by such item (vi) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(c) (i) The nineteen hundred eighty unfunded accrued liability adustment shall be an amount determined as prescribed in items (ii), (iii), (iv) and (v) of this subparagraph.

(ii) (A) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty, the amount of the total liability for all benefits provided in this chapter, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund.

(B) From such total liability computed pursuant to sub-item (A) of this item , there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred eighty, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all future installments of the balance sheet liability contribution (as defined in paragraph four of this subdivision b); and

(3) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(4) the present value, as of such June thirtieth, of future member contributions of members subject to article fourteen of the retirement and social security law; and

(5) the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-133 of this chapter.

(iii) (A) If the amount computed pursuant to sub-item (B) of item (ii) of this subparagraph is larger than the amount computed pursuant to item (iv) of subparagraph (b) of this paragraph, the latter amount shall be subtracted from the former amount and the remainder resulting from such subtraction shall constitute a charge.

(B) If the amount computed pursuant to sub-item (B) of item (ii) of this subparagraph is smaller than the amount computed pursuant to item (iv) of subparagraph (b) of this paragraph, the former amount shall be subtracted from the latter amount and the remainder resulting from such subtraction shall constitute a credit.

(iv) (A) If the remainder computed pursuant to item (iii) of this subparagraph is a charge, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(B) If the remainder computed pursuant to item (iii) of this subparagraph is a credit, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contributions on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph one of this subdivision or otherwise pursuant to law, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(v) (A) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of the city's nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph, which installment is applicable to such fiscal year, shall be applied as a charge or a credit, as the case may be, in relation to such contributions payable in such fiscal year.

(B) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid (if a charge) or credited (if a credit) in twenty-eight equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph, which installments are hypothetically allocated by such item (iv) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(C) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand ten, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, when paid (if a charge) or credited (if a credit) in twenty-two equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (B) of this item (v), which installments are hypothetically allocated by such sub-item (B) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(D) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of such city fiscal years referred to in sub-item (B) of sub-item (C) of this item, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (B) or sub-item (C) of this item, which installment is applicable to such fiscal year, shall be applied as a charge or credit, as the case may be, in relation to such contributions payable in such fiscal year.

(vi) (A) The nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount determined as prescribed in sub-items (B), (C), (D) and (E) of this item.

(B) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-one for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(C) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-two for valuation purposes and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(D) With respect to determination of the amount of contributions payable to the contingent reserve fund in such city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contribution on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to sub-item (B) of this item (vi) over the amount computed pursuant to sub-item (C) of this item (vi).

(E) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twelve, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, when credited in twenty-four equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city (and other obligors required to pay public employer contribution on account of members) would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-two unfunded accrued liability adjustment computed pursuant to sub-item (D) of this item (vi), which installments are hypothetically allocated by such sub-item (D) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(vii) (A) With respect to any obligor required by law to make contributions to the contingent reserve fund, the nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount determined for such obligor as prescribed by the applicable provisions of the succeeding sub-items of this item (vii).

(B) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-four-nineteen hundred eighty-five fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(C) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the retirement system, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(D) The actuary shall determine the portion of the liability (other than liability on account of the senior colleges

of the city university) computed pursuant to sub-item (B) of this item (vii), which portion is attributable to each obligor required by law to make contributions to the contingent reserve fund of the retirement system.

(E) The actuary shall determine the portion of the liability (other than liability on account of such senior colleges) computed pursuant to sub-item (C) of this item (vii), which portion is attributable to each such obligor.

(F) If the portion computed pursuant to sub-item (E) of this item (vii) with respect to any such obligor is greater than the portion computed pursuant to sub-item (D) of this item (vii) with respect to such obligor, the nineteen hundred eighty-five unfunded accrued liability adjustment with respect to such obligor for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, shall be the annual installment applicable to such fiscal year of a charge in an amount which, if paid by such obligor to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount of such portion computed pursuant to sub-item (E) of this item (vii) over the amount of such portion, computed pursuant to sub-item (D) of this item (vii).

(F-1) If the portion computed pursuant to sub-item (E) of this item (vii) with respect to any such obligor is greater than the portion computed pursuant to sub-item (D) of this item (vii) with respect to such obligor, the nineteen hundred eighty-five unfunded accrued liability adjustment with respect to such obligor for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, shall be the annual installment applicable to such fiscal year of a charge in an amount which, when paid by such obligor to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of the installments of unfunded accrued liability adjustment computed pursuant to sub-item (F) of this item (vii), which installments are hypothetically allocated by such sub-item (F) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(G) If the portion computed pursuant to sub-item (D) of this item (vii) with respect to any such obligor is greater than the portion computed pursuant to sub-item (E) of this item (vii) with respect to such obligor, the nineteen hundred eighty-five unfunded accrued liability adjustment with respect to such obligor for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, shall be the annual installment applicable to such fiscal year of a credit in an amount which, if credited in thirty equal annual installments, (the first of which installments is to be credited in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year) in reduction of the amounts which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph one of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount of such portion computed pursuant to sub-item (D) of this item (vii) over the amount of such portion computed pursuant to sub-item (E) of this item (vii).

(G-1) If the portion computed pursuant to sub-item (D) of this item (vii) with respect to any such obligor is greater than the portion computed pursuant to sub-item (E) of this item (vii) with respect to such obligor, the nineteen hundred eighty-five unfunded accrued liability adjustment with respect to such obligor for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, shall be a credit in an amount which, when credited in twenty-seven equal annual installments, (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which such obligor would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph one of this subdivision b or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest

per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability adjustment computed pursuant to sub-item (G) of this item (vii), which installments are hypothetically allocated by such sub-item (G) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(H) The actuary shall determine the portion of the liability computed pursuant to sub-item (B) of this item (vii), which portion is attributable to the senior colleges of the city university of New York.

(I) The actuary shall determine the portion of the liability computed pursuant to sub-item (C) of this item (vii), which portion is attributable to such senior colleges.

(J) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-five unfunded accrued liability adjustment attributable to the senior colleges of such university shall be the annual installment applicable to such fiscal year of an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year) in reduction of the amounts which the city and/or the state of New York would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph one of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount of such portion computed pursuant to sub-item (H) of this item (vii) over the amount of such portion computed pursuant to sub-item (I) of this item (vii).

(J-1) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the nineteen hundred eighty-five unfunded accrued liability adjustment attributable to the senior colleges of such university shall be the annual installment applicable to such fiscal year of an amount which, when credited in twenty-seven equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city and/or the state of New York would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph one of this subdivision b or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability adjustment computed pursuant to sub-item (J) of this item (vii), which installments are hypothetically allocated by such sub-item (J) to designated city fiscal year succeeding June thirtieth, nineteen hundred eighty-eight.

(K) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, the aggregate nineteen hundred eighty-five unfunded accrued liability adjustment shall be the annual installment applicable to such fiscal year of an amount, which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to sub-item (C) of this item (vii) over the amount computed pursuant to sub-item (B) of this item (vii).

(K-1) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending June thirtieth, two thousand fifteen, the aggregate nineteen hundred eighty-five unfunded accrued liability adjustment shall be the annual installment applicable to such fiscal year of an amount, which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability adjustment computed pursuant to sub-item (K) of this item (vii), which installments are hypothetically

allocated by such sub-item (K) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(4) (a) As used in this section, the following words and phrases, unless a different meaning is plainly required by the context, shall have the following meanings:

(i) (A) "Normal contribution for balance sheet liability purposes". The hypothetical amount which the normal contribution payable in each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty would have equalled if such normal contribution had been required by law to be paid to the contingent reserve fund in the city fiscal year in which the obligation to make such normal contribution accrued and such normal contribution had been required by law to be determined in the manner provided for in sub-items (B), (C) and (D) of this item (i).

(B) Upon the basis of the mortality and other tables effective under this chapter as of July first, nineteen hundred seventy-seven and interest at the rate of five and one-half per centum per annum, the actuary shall determine, as of June thirtieth next preceding each such fiscal year for which such normal contribution is being determined (hereinafter referred to as the "subject fiscal year") the amount of the then total liability for all benefits provided in this chapter, in articles eleven and fourteen of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all then members and beneficiaries, excluding the then liability on account of future annual contributions, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in item (iv) of this subparagraph (a), if any, and the then liability for benefits attributable to the annuity savings fund.

(C) The hypothetical normal rate of contribution with respect to the subject fiscal year shall be the rate per centum obtained:

(i) by deducting from the amount of such total liability the sum of:

(A) the present value of all then required future unfunded accrued liability contributions for balance sheet liability purposes (as defined in item (ii) of this subparagraph (a)); and

(B) the present value of all then required future annual contributions, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title (as defined in item (iii) of this subparagraph (a)); and

(C) the present value of future member contributions of members subject to article fourteen of the retirement and social security law; and

(D) the amount obtained by adding together the total funds on hand (excluding therefrom the amount in the annuity savings fund) and the balance sheet liability as of such June thirtieth next preceding the subject fiscal year; and

(ii) by dividing the remainder by one per centum of the then present value of the prospective future salaries of all members, as computed on the basis of the mortality and service tables adopted pursuant to section 13-121 of this chapter and in effect on July first, nineteen hundred seventy-seven, and on the basis of interest at the rate of five and one-half per centum per annum.

(D) The amount of the normal contribution for balance sheet liability purposes hypothetically payable in the subject fiscal year shall be the amount obtained (1) by multiplying such hypothetical normal contribution rate computed with respect to the subject fiscal year by the aggregate annual salaries of the members as of June thirtieth of the subject fiscal year and (2) by adding to the product of such multiplication, interest on such product at the rate of five and one-half per centum per annum for a period of six months.

(ii) "Unfunded accrued liability contribution for balance sheet liability purposes". (A) With respect to the city's

nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed in the manner prescribed by sub-items (B) and (C) of this item (ii).

(B) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-four, the amount of the total liability for all benefits provided by this title, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund.

(C) From such total liability computed pursuant to sub-item (B) of this item (ii) there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred seventy-four, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title (as then in effect), of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(3) the sum obtained by adding together the balance sheet liability as of such June thirtieth, (as such liability is determined pursuant to the provisions of subparagraph (b) of this paragraph four) and the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-133 of this chapter.

(D) With respect to each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed pursuant to sub-items (E) and (F) of this item (ii).

(E) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-five, the amount of the total liability for all benefits provided by this chapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund.

(F) From such total liability computed pursuant to sub-item (E) of this item (ii), there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred seventy-five, of all future normal costs of the retirement system, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title, (as then in effect) of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(3) the sum obtained by adding together the balance sheet liability as of such June thirtieth (as such liability is determined pursuant to the provisions of subparagraphs (c) to (i), inclusive, of this paragraph four) and the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-133 of this chapter.

(iii) "Annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title." A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount of the excess of installments (hypothetically payable in such year) of losses on prior dispositions of securities within the meaning of section 13-704 of this title (relating to graduated crediting of gains and amortization of losses on dispositions of certain securities) over installments (hypothetically creditable in such year) of gains on such prior dispositions, which annual amount shall be determined in the manner provided in subdivision h of section 13-704 of this title.

(iv) "Annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay." A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year, make contributions on account of increased-take-home-pay.

(v) "Annual military law contribution for balance sheet liability purposes." A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligations, which accrued in such year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit member contributions with respect to certain periods of military service of such members.

(vi) "Deficiency contribution". The total annual amount which, under the provisions of paragraphs one and three of this subdivision and subdivision e of this section (as added by chapter eight hundred twenty-one of the laws of nineteen hundred sixty-eight and amended by chapter eight hundred seventeen of the laws of nineteen hundred sixty-nine), as such provisions were in effect during the period from July first, nineteen hundred seventy-two to June thirtieth, nineteen hundred seventy-seven, the city and other public employers required to contribute as provided for in section 13-130 of this chapter were required to pay to the contingent reserve fund in each of the city's nineteen hundred seventy-four-nineteen hundred seventy-five, nineteen hundred seventy-five-nineteen hundred seventy-six and nineteen hundred seventy-six-nineteen hundred seventy-seven fiscal years.

(vii) "Contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities". The total annual amount by which the sum of the installments of losses, payable pursuant to section 13-704 of this title (as in effect prior to July first, nineteen hundred eighty) in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty in relation to dispositions of securities within the meaning of such section, exceeded the sum of the installments of gains creditable in the same fiscal year in relation to the same dispositions of securities.

(b) The balance sheet liability as of June thirtieth, nineteen hundred seventy-four shall be the sum of six hundred seventy-two million, one hundred eighty-seven thousand, nine hundred seventeen dollars ($672,187,917), consisting of the sum of:

(i) The discounted value, as of June thirtieth, nineteen hundred seventy-four of the sum of two hundred seventy-seven million, six hundred eighty-five thousand, nine hundred forty-two dollars ($277,685,942), which constituted the amount payable to the contingent reserve fund in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year by the city (and other public employers required to contribute as provided for in section

13-130 of this chapter) in fulfillment of their obligations to make contributions to the retirement system payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of six months extending retroactively from January first, nineteen hundred seventy-five to June thirtieth, nineteen hundred seventy-four and such discounted value being the sum of two hundred seventy million, three hundred fifty thousand, eight hundred sixty-eight dollars ($270,350,868); and

(ii) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of four hundred thirty-five million, four hundred forty thousand, four hundred twenty-two dollars ($435,440,422), which constituted the amount payable into the contingent reserve fund in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year by the city (and other public employers required to contribute as provided for in section 13-130 of this chapter) in fulfillment of their obligations to make contributions to the retirement system payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of eighteen months extending from January first, nineteen hundred seventy-six retroactively to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of four hundred one million, eight hundred thirty-seven thousand, forty-nine dollars ($401,837,049).

(c) The balance sheet liability, as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four to and including June thirtieth, nineteen hundred eighty, shall be determined as provided for in subparagraphs (d) to (j), inclusive, of this paragraph four.

(d) To the amount of the balance sheet liability as of June thirtieth next preceding the June thirtieth (which last-mentioned June thirtieth is hereinafter referred to as the "subject June thirtieth") as of which the balance sheet liability is being determined as provided for in subparagraph (c) of this paragraph four, there shall be added one year's interest on such amount at the rate of five and one-half per centum per annum.

(e) With respect to the city's fiscal year ending on the subject June thirtieth (hereinafter referred to as the "subject fiscal year") there shall be added together the contribution components hereinafter specified in this subparagraph (e), which components, for the purposes of this paragraph four, are hypothetically deemed to have accrued in the subject fiscal year and to have been payable therein, as follows:

(i) the amount of the normal contribution for balance sheet liability purposes (as defined in item (i) of subparagraph (a) of this paragraph four); and

(ii) the amount of the applicable installment of the unfunded accrued liability contribution for balance sheet liability purposes (as defined in item (ii) of subparagraph (a) of this paragraph); and

(iii) the amount of the annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title (as defined in item (iii) of subparagraph (a) of this paragraph); and

(iv) the amount of the annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in item (iv) of subparagraph (a) of this paragraph); and

(v) the amount of the annual military law contribution for balance sheet liability purposes (as defined in item (v) of subparagraph (a) of this paragraph).

(f) To the amount resulting from the addition prescribed by subparagraph (e) of this paragraph four, there shall be added interest thereon at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth of such fiscal year.

(g) The amount computed pursuant to subparagraph (d) of this paragraph four in relation to the balance sheet liability as of June thirtieth next preceding the subject June thirtieth (together with one year's interest on such balance

sheet liability) shall be added to the amount computed pursuant to subparagraph (f) of this paragraph in relation to the subject fiscal year.

(h) From the amount computed pursuant to subparagraph (g) of this paragraph, there shall be subtracted the sum of:

(i) the total amount of the sums paid to the contingent reserve fund during the subject fiscal year by the city (and other obligors required to make public employer contributions to such fund) on account of their obligations which accrued during the city's second fiscal year preceding the subject fiscal year, to provide:

(A) the normal contribution payable in the subject fiscal year under the provisions of paragraphs one and two of this subdivision b as then in effect, and

(B) the installment of the deficiency contribution (as defined in item (vi) of subparagraph (a) of this paragraph four) or the installment of the original unfunded accrued liability contribution (as defined in subparagraph (a) of paragraph three of this subdivision b), as the case may be, payable in the subject fiscal year; and

(C) the amount of the contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities (as defined in item (vii) of subparagraph (a) of this paragraph four) payable in the subject fiscal year; and

(D) the amount payable in the subject fiscal year on account of reserves-for-increased-take-home-pay; and

(E) the amount payable in the subject fiscal year in behalf of members pursuant to subdivision twenty of section two hundred forty-three of the military law; plus

(ii) interest on such total amount referred to in item (i) of this subparagraph (h) at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth thereof.

(i) The remainder resulting from the subtraction prescribed by subparagraph (h) of this paragraph four shall be the balance sheet liability as of June thirtieth of the subject fiscal year.

(j) The balance sheet liability as of June thirtieth, nineteen hundred eighty shall be the amount resulting from the successive computations of the balance sheet liability as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four up to and including June thirtieth, nineteen hundred eighty, as prescribed by subparagraphs (c) to (i), inclusive, of this paragraph four.

(k) (i) The balance sheet liability contribution payable in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year shall be the first annual installment of an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-one, on the basis of seven and one-half per centum interest per annum, of an amount equal to the balance sheet liability as of June thirtieth, nineteen hundred eighty.

(ii) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight shall be one annual installment of an amount which, if paid to the contingent reserve fund in thirty-nine equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-two, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to item (i) of this subparagraph (k), which installments are hypothetically allocated by such item (i) to

designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(iii) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twenty-one shall be one annual installment of an amount which, when paid to the contingent reserve fund in thirty-three equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-eight, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to item (ii) of this subparagraph (k), which installments are hypothetically allocated by such item (ii) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(5) Contributions to the contingent reserve fund payable in fiscal years of the city beginning on or after July first, nineteen hundred ninety by the city and other obligors required to make such contributions shall be governed by the provisions of this section, as modified and supplemented by section 13-638.2 of this title, and such other laws as may be applicable.

c. Whenever the board, upon recommendation by the actuary, shall determine that it is necessary to increase the reserves held in the annuity reserve fund, the pension reserve fund or the pension fund, the board may direct that the amount so needed shall be transferred thereto from the contingent reserve fund.

d. (1) The city shall pay to the contingent reserve fund the accrued additional employer cost of providing the rights, benefits and privileges conferred by section 13-159 of this chapter upon members of the uniformed force of the department of sanitation who elect such rights, benefits and privileges pursuant to subdivision b of such section.

(2) Such additional cost shall consist of the amount obtained (a) by computing, as of July second, nineteen hundred sixty-seven, the total of all sums which would have been due, up to and including such date, to the contingent reserve fund with respect to all such members who elect the benefits of such section, if such election by each such member had been authorized by law as provided in subdivision b of such section on the date of his or her appointment as a member of the uniformed force of the department of sanitation, and such election had been made and was in effect on the date on which such member began contributing to the retirement system as a member of such force, and (b) by subtracting from such total mentioned in subparagraph a of this paragraph two, the aggregate of all amounts actually paid in and due to the contingent reserve fund, up to and including July second, nineteen hundred sixty-seven, with respect to all such members making such election.

(3) The sums required to be paid by the city to the contingent reserve fund under the provisions of paragraphs one and two of this subdivision shall be computed by the actuary and shall be paid to such fund by the city in equal annual installments over a period of thirty-five years, beginning with the fiscal year of the city commencing on July first, nineteen hundred sixty-nine.

e. Upon the retirement of such a member, or upon his or her death in the performance of duty, an amount equal to the pension reserve for the pension payable by the city on account of his or her city-service as a member, together with the reserve-for-increased-take-home-pay, shall be transferred from such fund to the pension reserve fund. Contributions shall be paid into the contingent reserve fund, in the manner and to the extent specified by section 13-152 of this chapter, to provide reserves-for-increased-take-home-pay.

f. (1) The city shall pay to the contingent reserve fund the accrued additional employer cost of providing the rights, benefits and privileges conferred by section 13-159 of this chapter upon sanitation workers who elect such rights, benefits and privileges pursuant to subdivision b of such section.

(2) Such additional cost shall consist of the amount obtained (a) by computing, as of July second, nineteen hundred sixty-seven, the total of all sums which would have been due, up to and including such date, to the contingent

reserve fund with respect to all such members who elect the benefits of such section, if such election by each such member had been authorized by law as provided in subdivision b of such section on the date of his or her appointment as a sanitation worker, and such election had been made and was in effect on the date on which such member began contributing to the retirement system as a sanitation worker, and (b) by subtracting from such total mentioned in subparagraph a of this paragraph two, the aggregate of all amounts actually paid in and due to the contingent reserve fund, up to and including July second, nineteen hundred sixty-seven, with respect to all such members making such election.

(3) The sums required to be paid by the city to the contingent reserve fund under the provisions of paragraphs one and two of this subdivision shall be computed by the actuary and shall be paid to such fund by the city in equal annual installments over a period of thirty-five years, beginning with the fiscal year of the city commencing on July first, nineteen hundred sixty-nine.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-128 Contributions of the city and their use; pension reserve fund.

The pension reserve fund shall be the fund from which shall be paid all pensions, and all pensions-providing-for-increased-take-home-pay, and all benefits in lieu of pensions, and all benefits in lieu of pensions-providing-for-increased-take-home-pay, if any, allowable by the city on account of the city-service of members to whom prior-service is not allowable as provided in this chapter. Should any pension or pension-providing-for-increased-take-home-pay payable from such pension reserve fund be cancelled, the pension reserve or reserve-for-increased-take-home-pay thereon shall thereupon be transferred from the pension reserve fund to the contingent reserve fund. Should any pension or pension-providing-for-increased-take-home-pay payable from such fund be reduced, the amount of the annual reduction in such pension or pension-providing-for-increased-take-home-pay shall be paid annually into the contingent reserve fund during the period of such reduction.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-129 Contributions of the city and their use; pension fund.

a. The pension fund shall be the fund in which shall be accumulated the reserves necessary to pay, and from which shall be paid, all pensions and all pensions-providing-for-increased-take-home-pay and all other benefits allowable by the city on account of all service of members to whom prior-service is allowable as provided in this chapter.

b. Upon the basis of the mortality and other tables herein authorized, and regular interest, the actuary shall compute the amount of the single contribution which, if paid into the pension fund at the time of entrance into the retirement system of each such member, would be sufficient to cover the total liability assumed by the pension fund on his account for the payment of future benefits, other than a pension-providing-for-increased-take-home-pay.

c. Until the amount accumulated in the pension fund becomes not less than the present value of all amounts thereafter payable through the pension fund on account of members who have not been retired, other than amounts payable for pensions-providing-for-increased-take-home-pay, the aggregate amount annually due to the pension fund shall be six per cent of the sum of all such single contributions, but not less than the amount payable from the pension fund in the ensuing fiscal year, exclusive of the amount so payable for pensions-providing-for-increased-take-home-pay.

d. Contributions shall be paid into the pension fund, in the manner and to the extent specified by section 13-152 of this chapter, to provide reserves-for-increased-take-home-pay.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-131 Contributions by city university of New York.

a. Subject to the provisions of subdivision b of this section, pursuant to the provisions of section sixty-two hundred twenty-seven of the education law, the contributions to the retirement system which, in any fiscal year of the city occurring after June thirtieth, nineteen hundred seventy-nine, are included in the approved programs and services of the city university of New York, as defined in section sixty-two hundred thirty of such law, shall be paid in such fiscal year by such city university.

b. Nothing contained in subdivision a of this section shall be construed as increasing, decreasing, altering or changing the obligations of the city, under sections sixty-two hundred twenty-one, sixty-two hundred thirty and sixty-two hundred thirty-one of such law (as in effect before and after July first, nineteen hundred eighty-one) to appropriate and provide, in the manner, to the extent and for the periods prescribed by such sections, funds required to pay such contributions with respect to such periods. Nothing contained in subdivision a of this section shall be construed as increasing, decreasing, altering or changing the obligations of the state, under such sections of such law, to appropriate and provide the funds required for payment of such contributions in part or in whole and/or for reimbursement of the city in relation thereto, in accordance with the responsibilities of the state with respect to such payment and/or reimbursement, as provided for in such sections.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-133 Guarantee of funds.

a. Regular interest, charges payable, the creation and maintenance of reserves in the contingent reserve fund and the pension fund and the maintenance of annuity reserves, pension reserves and reserves-for-increased-take-home-pay as provided for in this chapter and the payment of all pensions, pensions-providing-for-increased-take-home-pay, annuities, retirement allowances, refunds, death benefits and any other benefits granted under the provisions of this chapter, are hereby made obligations of the city. All income, interest and dividends derived from deposits and investments authorized by this chapter shall be used and disposed of in the manner prescribed by subdivision b of this section. Upon the basis of each actuarial determination and appraisal provided for in this chapter, the board shall prepare and submit to the director of management and budget an itemized estimate of the amounts necessary to be appropriated by the city to the various funds to provide for payment in full during the ensuing fiscal year of all such obligations of the city accruing during the ensuing fiscal year. There shall be included annually in the budget a sum sufficient to provide for such obligations of the city. The comptroller shall pay the sums so provided into the various funds provided for by this chapter, subject to the provisions of subdivision b of this section. Nothing contained in this section shall be construed as preventing the payments, if any, required to be made pursuant to sections 13-193 (relating to the transit police variable supplements funds), 13-193 (relating to the housing police variable supplements funds), 13-193.2, 13-193.3, 13-193.4, 13-193.5, 13-193.7, 13-193.6, 13-195 and 13-195.1 of this chapter.

b. (1) Subject to the provisions of paragraphs two, three and four of this subdivision, all income, interest and dividends derived from deposits and investments authorized by this chapter, which income, interest and dividends were heretofore or are hereafter received during any city fiscal year commencing on or after July first, nineteen hundred eighty, shall be used (in accordance with the respective shares of such income, interest and dividends attributable to the

city and other obligors required to pay public employer contribution on account of members) in such fiscal year for the purposes hereinafter specified in this paragraph (to the extent that such income, interest and dividends are sufficient for such purposes), in the order of priority herein stated, as follows:

(A) first, to pay into the funds of the retirement system the amounts of regular interest which are required to be paid into such funds in such fiscal year by reason of being required to be allowed to such funds pursuant to the provisions of section 13-135 of this chapter, and to pay into such funds the amounts of supplementary interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the annuity savings fund the amounts of special interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the contingent reserve fund the amounts of additional interest, if any, required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses the retirement system sustained during such fiscal year by reason of sales or other dispositions of securities, and (ii) for which net losses the retirement system is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply;

(C) third, if the total amount of such income, interest and dividends received during such fiscal year is in excess of the total amount required to make, in such fiscal year, the payments prescribed by subparagraphs (A) and (B) of this paragraph, the amount of such excess shall be paid into the contingent reserve fund and shall become a part of the assets of such fund.

(2) Notwithstanding the provisions of paragraph one of this subdivision or any other law to the contrary, any such income, interest or dividends which are received by the retirement system may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investments), regardless of when received and prior to use for the purposes stated in such paragraph one.

(3) (A) Notwithstanding any other provision of this section or any other law to the contrary, the term "all income, interest and dividends derived from deposits and investments", as used in paragraph two of this subdivision (as such subdivision was in effect prior to July first, nineteen hundred eighty), shall be construed, in relation to disposition of all income, interest and dividends received by the retirement system in each of the city's nineteen hundred seventy-six-nineteen hundred seventy-seven and nineteen hundred seventy-seven-nineteen hundred seventy-eight obligations fiscal years (as such fiscal years were defined by paragraph one of this subdivision prior to such July first), as meaning the remainder obtained by subtracting from such income, interest and dividends (as they were after deducting therefrom the amount of any expenses charged thereto pursuant to the provisions of section 13-705 of this title) the sum of (i) the amounts of regular, supplementary and special interest required to be allowed and paid into the appropriate funds of the retirement system in such fiscal year pursuant to the applicable provisions of section 13-135 of this chapter and (ii) the amount of any losses in excess of gains (1) which net losses were sustained by the retirement system during such fiscal year and which net losses were sustained by reason of sales or other dispositions of securities, and (2) to which net losses the provisions of section 13-704 of this title do not apply.

(B) for the purposes of the order of priority governing the disposition of such remainder in the payment fiscal year with respect to each such obligations fiscal year (as such disposition was prescribed by the provisions of this subdivision as in effect during each such payment fiscal year) the provisions of subparagraphs (A) and (B) of such paragraph two shall be deemed to have been inapplicable and the order of priority for such disposition shall be first, the use set forth in subparagraph (C) of such paragraph, second, the use set forth in subparagraph (D) of such paragraph, third, the use set forth in subparagraph (E) of such paragraph and fourth, the use set forth in subparagraph (F) of such paragraph, as such subparagraphs were in effect during such payment fiscal year.

(4) (a) All income, interest and dividends which are derived from deposits and investments authorized by this

chapter and which were received during each of the city's nineteen hundred seventy-eight-nineteen hundred seventy-nine and nineteen hundred seventy-nine-nineteen hundred eighty fiscal years shall (after deducting therefrom any amounts chargeable thereto pursuant to the provisions of section 13-705 of this title) be used (in accordance with the respective shares of such income, interest and dividends attributable to the city and other obligors required to pay public employer contributions on account of members) in each such fiscal year for the purposes hereinafter stated in this subparagraph (a), in the order of priority herein stated, as follows:

(A) first, (i) to pay into the funds of the retirement system the amounts of regular interest which are required to be paid into such funds in such fiscal year wherein such income, interest and dividends were received, which interest is so payable by reason of being required to be allowed to such funds in such fiscal year pursuant to the provisions of section 13-135 of this chapter, (ii) to pay into such funds the amounts of supplementary interest required to be so paid in such fiscal year under the applicable provisions of such section, and (iii) to pay into the annuity savings fund the amounts of special interest required to be so paid in such fiscal year under the applicable provisions of such section, and (iv) to pay into the contingent reserve fund the amounts of additional interest required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses were sustained by the retirement system during such fiscal year in which such income, interest and dividends were received and which net losses were sustained by reason of sales or other dispositions of securities, and (ii) for which net losses the retirement system is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply; and

(C) third, to pay into the contingent reserve fund the amount, if any, by which,

(i) the total of all losses which the retirement system sustained during such fiscal year by reason of sales of securities within the meaning of section 13-704 of this title and which the responsible public employer, as defined in paragraph four of subdivision a of section 13-704 of this title, would otherwise be required to amortize pursuant to such section, exceeds

(ii) the total of all gains which were realized during such fiscal year by reason of sales of securities within the meaning of such section and which would otherwise be required by such section to be credited in favor of the responsible public employer in installments.

(b) If the total amount of such income, interest and dividends received during each such fiscal year referred to in subparagraph a of this paragraph four is in excess of the total amount required to make, in the same fiscal year, the payments prescribed by items (A), (B) and (C) of such subparagraph (a), the amount of such excess shall be paid into the contingent reserve fund as of June thirtieth of such fiscal year and shall become a part of the assets of such fund as of such date.

c. (1) (A) The comptroller shall make monthly payments, in twelve equal installments, with respect to obligations which the city incurs to pay sums to the retirement system.

(B) The New York city health and hospitals corporation shall make monthly payments, in twelve equal installments, with respect to obligations which it incurs to pay sums to the retirement system.

(C) The New York city school construction authority shall make monthly payments, in twelve equal installments, with respect to obligations which it incurs to pay sums to the retirement system.

(D) The New York city municipal water finance authority shall make monthly payments, in twelve equal installments, with respect to obligations, if any, which it incurs to pay sums to the retirement system.

(E) The New York city water board shall make monthly payments, in twelve equal installments, with respect to obligations, if any, which it incurs to pay sums to the retirement system.

(F) The New York city transitional finance authority shall make monthly payments, in twelve equal installments, with respect to obligations which it incurs to pay sums to the retirement system.

(2) In the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in each city fiscal year thereafter, the equal monthly payments shall be in respect of obligations which accrue in such fiscal year and shall be made in such fiscal year on or before the last day of each month.

(3) In the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in each city fiscal year thereafter, the New York city off-track betting corporation, the triborough bridge and tunnel authority and the New York city housing authority shall make their respective annual contributions to the retirement system in respect of obligations which accrue in such fiscal year by paying such contributions on or before January first of such fiscal year.

(4) The board of trustees of the retirement system may waive the requirements of the foregoing provisions of this subdivision with respect to time of payment to such system, provided that any such waiver of time of payment in any instance shall not apply to the time of subsequent payments unless there shall be a subsequent waiver.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-135 Allowance of interest.

a. Such board shall annually allow regular interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter. The amount so allowed shall be due and payable to such funds, and shall be annually credited thereto by such board.

b. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-four. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-four, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-four in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-four in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four, shall be credited as of December thirty-first, nineteen hundred sixty-four to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-five and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-four. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-four and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-five, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-four had they had a balance in their annuity savings funds as

of June thirtieth, nineteen hundred sixty-five, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph c hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

c. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount, for calendar year nineteen hundred sixty-four which would be the reserve-for-increased-take-home-pay of all members to whom special interest credited or paid pursuant to paragraph b hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph b hereof additional interest, as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-four which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four and who retire or die prior to June thirtieth, nineteen hundred sixty-five, the amount of additional interest for calendar year nineteen hundred sixty-four shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph b hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

d. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-five. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-five, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-five in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-five in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five, shall be credited as of December thirty-first, nineteen hundred sixty-five to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-six and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-five. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-five and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-five had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph e hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

e. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-five which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph d hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph d hereof, additional interest as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-five which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed

regular interest at three per centum per annum for calendar year nineteen hundred sixty-five and who retire or die prior to June thirtieth, nineteen hundred sixty-six, the amount of additional interest for calendar year nineteen hundred sixty-five shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph d hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

f. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-six. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-six, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-six in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-six in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six, shall be credited as of December thirty-first, nineteen hundred sixty-six to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-seven and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-six. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-six and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-six had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, provided that the sum of said special interest and any additional interest to be paid pursuant to paragraph g hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

g. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-six which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph f hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph f hereof, additional interest as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-six which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six and who retire or die prior to June thirtieth, nineteen hundred sixty-seven, the amount of additional interest for calendar year nineteen hundred sixty-six shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph f hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

h. (1) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty, special interest at the rate of one and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(2) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, special interest at the rate of three and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(3) (a) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three, special interest at the rate of four per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(b) Subject to the provisions of subdivision j of this section, during the period commencing on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(c) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(d) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, special interest at the rate of one and one-quarter per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(4) Such special interest provided for by paragraphs one, two and three of this subdivision shall be credited to such individual account of each member entitled thereto in the same manner and at the same time as regular interest is required to be credited to such account with respect to the same period of time. Such special interest shall not be considered in determining rates of contributions of members. Nothing contained in this subdivision h shall be construed as applicable to any member who is subject to the provisions of article fourteen or article fifteen of the retirement and social security law.

i. (1) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty.

(2) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of three and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two.

(3) (a) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of four per centum per annum compounded annually shall be included for each city fiscal year and portion thereof occurring during the period beginning on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three.

(b) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one per centum per annum compounded annually shall be included for each city fiscal year and portion thereof occurring during the period beginning on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five.

(c) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one per centum per annum compounded annually shall be included for each city fiscal year occurring during the period

beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight.

(d) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one and one-quarter per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety.

(4) Additional interest shall not be considered in determining rates of contribution of members. Nothing contained in this subdivision i shall be construed as applicable to any member who is subject to the provisions of article fourteen or article fifteen of the retirement and social security law.

j. (1) The provisions of:

(a) paragraph one of subdivision h of this section, to the extent that they grant special interest with respect to transit twenty-year plan members (as defined in subdivision sixty-one of section 13-101 of this chapter) for the period beginning on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty; and

(b) paragraph two of such subdivision h, to the extent that such paragraph grants special interest for any period prior to July thirty-first, nineteen hundred eighty-one; and

(c) paragraphs one and two of subdivision i of this section, to the extent that such paragraphs grant additional interest for any period prior to such July thirty-first; shall not apply to any person who was not a member on such July thirty-first and shall not apply to any person to whom, on such July thirty-first, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-173 of this chapter.

(2) (a) The provisions of subparagraph (a) of paragraph three of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to December sixteenth, nineteen hundred eighty-two, and the provisions of subparagraph (a) of paragraph three of subdivision i of this section, to the extent that either such subparagraph grants additional interest for any period prior to such date, shall not apply to any person who was not a member on such date and shall not apply to any person to whom, on such date, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-173 of this chapter.

(b) The provisions of subparagraph (d) of paragraph three of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to the date of enactment of this subparagraph (b) (as such date is certified pursuant to section forty-one of the legislative law), and the provisions of subparagraph (d) of paragraph three of subdivision i of this section, to the extent that such subparagraph grants additional interest for any period prior to such date of enactment, shall not apply to any person who was not a member on such date of enactment and shall not apply to any person to whom, on such date of enactment, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-173 of this chapter.

(3) Nothing contained in subdivisions h and i of this section shall be construed as granting special or additional interest, as the case may be, to any person with respect to any period wherein such person was not a member entitled to be credited with regular interest for the same period or was not a discontinued member entitled to be credited as a discontinued member, with regular interest for the same period.

k. (1) Subject to the provisions of paragraph four of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred seventy-seven to June thirtieth, nineteen hundred eighty on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest was credited to such funds with respect to such period.

(2) Subject to the provisions of paragraph four of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty to June thirtieth, nineteen hundred eighty-two on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of three and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(3) (a) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-two to July thirty-first, nineteen hundred eighty-three on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of four per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(b) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from August first, nineteen hundred eighty-three to June thirtieth, nineteen hundred eighty-five on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(c) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-five to June thirtieth, nineteen hundred eighty-eight on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(d) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-eight to June thirtieth, nineteen hundred ninety on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-quarter per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(4) The provisions of paragraphs one, two and three of this subdivision k shall not apply to or affect (a) the allowance of interest on or the crediting of interest to accounts of members or discontinued members in the annuity savings fund or (b) the allowance of interest on or the crediting of interest to reserves-for-increased-take-home-pay of members or discontinued members or (c) the determination of the amount of any benefit payable to any member or beneficiary.

l. On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the board shall submit to the public officers and permanent commission referred to in paragraph (e) of subdivision twelve of section 13-101 of this chapter the recommendations of such board:

(1) as to whether legislation should be enacted providing for the crediting of special interest to members after

June thirtieth, nineteen hundred ninety and if so, the recommended rate thereof and duration of such crediting; and

(2) as to whether legislation should be enacted providing that in the determination of reserves-for-increased-take-home-pay of members entitled to such a reserve, additional interest shall be included for any period after June thirtieth, nineteen hundred ninety, and if so, the recommended rate thereof and the period as to which such interest should be included; and

(3) as to whether legislation should be enacted providing for the crediting of supplementary interest after June thirtieth, nineteen hundred ninety to such funds to which subdivision k of this section is applicable and if so, the recommended rate thereof and duration of such crediting.

m. The allowance of special interest, additional interest and supplementary interest, if any, with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety shall be governed by the applicable provisions of section 13-638.2 of this title.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-140 Rules regulating loans to members.

a. Any member in city service who shall have been a member continuously at least three years, may borrow from the contingent reserve fund, subject to such rules and regulations as may be approved by such board, an amount not exceeding seventy-five per centum of the amount in his or her account in the annuity savings fund. The rate of interest payable on any loan made under this section shall be two per centum higher than the rate of regular interest creditable to the account of the member. The amount so borrowed, together with interest on any unpaid balance thereof shall be repaid to the retirement system in equal installments by deduction from the compensation of the member at the time the compensation is paid, but such installments shall be at least five per centum of the member's earnable compensation. All payments of principal and interest made by such member shall be credited to the contingent reserve fund.

b. Each loan made pursuant to this section shall be insured by the retirement system, without cost to the member, against the death of such member in an amount up to but not exceeding ten thousand dollars, as follows:

1. Until thirty days have elapsed after the making thereof, no part of the loan shall be insured.

2. From the thirtieth through the fifty-ninth day after the making thereof, twenty-five per centum of the present value of the outstanding loan shall be insured.

3. From the sixtieth through the eighty-ninth day after the making thereof, fifty per centum of the present value of the outstanding loan shall be insured.

4. On and after the ninetieth day after the making thereof, all of the present value of the outstanding loan shall be

insured.

Upon the death of a member, the amount of insurance so payable shall be used to reduce the outstanding loan.

c. Notwithstanding anything to the contrary in this chapter, the additional deductions required to repay the loan shall be made, and the interest paid on the loan shall be credited to the proper funds of the retirement system. The actuarial equivalent of any unpaid balance of a loan at the time any benefit may become payable shall be deducted from the benefit otherwise payable. A retiree whose benefit has been so reduced may repay the outstanding balance of the loan at any time. Benefits payable after repayment of the loan shall not be subject to the actuarial reduction required by this subdivision.

d. In lieu of a loan, a member whose rate of contribution is cancelled may, (i) if he or she is not a participant in the variable annuity program, withdraw from his or her account in the annuity savings fund, and may redeposit to such account at such time as he or she may elect, any sum in excess of the amount due in such account at the end of the calendar year in which such member became entitled to cancel his or her rate, and (ii) if he or she is a participant in the variable program, withdraw from his or her accounts in the annuity savings fund and the variable annuity savings fund, and may redeposit to the former account at such time as he or she may elect, any sum in excess of the amount that, if he or she were not a participant, would have been due in the former account at the end of the calendar year in which he or she became entitled to cancel his or her rate.

e. Effective January first, nineteen hundred seventy-one, all outstanding loans repayable to the annuity savings fund shall be assumed by the contingent reserve fund. An amount equal to the present value of such outstanding loans, calculated at regular interest, shall be transferred from the contingent reserve fund to the annuity savings fund, and all repayments shall thereafter be made to the contingent reserve fund.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-141 Termination of membership; discontinuance of service.

Should a member discontinue city-service except by death or retirement, such member shall be paid such part of the amount of the accumulated deductions, if any, standing to the credit of his or her individual account in the annuity savings fund as he or she shall demand. Such board, however, in its discretion, may withhold for not more than one year after a member last rendered city-service all or part of his or her accumulated deductions, if after a previous discontinuance of service he or she withdrew from the annuity savings fund all or part of the amount of his or her accumulated deductions and failed to redeposit such withdrawn amount in such fund.

**CASE NOTES FROM FORMER SECTION**

¶ 1. City employee who had been dismissed on charges, **held** entitled to recover from the Employees' Retirement System the pension deductions made periodically by the City from his salary, and such right of recovery could not be defeated on alleged ground that plaintiff was entitled to no compensation from the City because of fraud and dishonesty,

since the action was not one to recover wages, City had not counterclaimed for wages paid, and trustees of the System were holding a fund for plaintiff in capacity of trustee and not employer.-Belt v. N.Y.C. Employees' Retirement System, 103 (64) N.Y.L.J. (3-18-40) 1230, Col. 4 T; aff'd, 261 App. Div. 951, 27 N.Y.S. 2d 422 [1941].

¶ 2. A City employee who had been dismissed from service after filing an application for retirement but before the date set in the application for actual retirement was not entitled to pension benefits. Contention that the deductions made from petitioner's salary and the expected benefits of the Retirement Plan constituted a part of his compensation during his tenure in office and that denial of retirement deprived him of compensation which he has already earned was rejected. Under this section petitioner was entitled only to a repayment of the cumulative deductions standing to his credit.-Matter of Eberle, 285 N.Y. 247, 33 N.Y.S. 2d 692 [1941].

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-143 Termination of membership; transfer to police pension fund.

a. (1) Any member of the New York city employees' retirement system may transfer his or her credit therein to the police pension fund provided for in subchapter two of chapter two of this title upon attaining membership in said police pension fund. Any person heretofore a member of the New York city employees' retirement system whose membership therein was terminated by his or her attaining membership in said police pension fund and who has not withdrawn his or her contributions to the New York city employees' retirement system may similarly transfer his or her credit to the said police pension fund.

(2) Subject to the provisions of paragraph four of this subdivision, upon the request of such member or person for the transfer of credit within one year after attaining membership in said police pension fund or by April fifth, nineteen hundred forty-eight the actuary of the New York city employees' retirement system shall determine the reserve on the benefits allowable to such member or person as the result of employer contributions, including the reserve-for-increased-take-home-pay, as though such member had not discontinued membership, in the same manner as provided in section forty-three of the retirement and social security law. Subject to the provisions of paragraph four of this subdivision, such reserve shall thereupon be transferred from the contingent reserve fund of the New York city employees' retirement system to the contingent reserve fund of the said police pension fund and the accumulated deductions of such member or person shall thereupon be transferred from the annuity savings fund of the New York city employees' retirement system to the annuity savings fund of the said police pension fund within one year from the date of such request.

(3) Subject to the provisions of subdivision b of this section, no member of the said police pension fund shall be eligible for retirement for service until he or she has served in the police force for a minimum period of twenty or

twenty-five years, or until he or she has reached the age of fifty-five, according to the minimum period or age of retirement elected by such member prior to the certification of his or her rate of contribution.

(4) Notwithstanding the provisions of paragraph two of this subdivision, with respect to transfers pursuant to this section which occur on or after the effective date of this paragraph, the actuary of the New York city employees' retirement system shall not be required to determine the reserve on the benefits allowable to the transferring member as the result of employer contributions, including the reserve-for-increased-take-home-pay, and the transfer of such reserve, including the reserve-for-increased-take-home-pay, from the New York city employees' retirement system to said police pension fund shall not be required. The New York city employees' retirement system, within one year from the date of the request for the transfer of credit, shall comply with all requirements for completing the transfer imposed on it by the provisions of this section. Nothing set forth in this paragraph shall be deemed to modify the requirement set forth in paragraph two of this subdivision that the New York city employees' retirement system transfer to said police pension fund the accumulated deductions of such member.

b. (1) Subject to the provisions of paragraph two of this subdivision any period of allowable service rendered as an "EMT member", as defined in paragraph one of subdivision a of section 13-157.2 of this chapter, as added by chapter five hundred seventy-seven of the laws of two thousand, which immediately precedes service in the police force, and any period of allowable service rendered (i) as a peace officer, as defined in section 2.10 of the criminal procedure law, (ii) in the title of sheriff, deputy sheriff, marshal or district attorney investigator, or (iii) in any position specified in appendix A of operations order 2-25 of the police department of the city of New York dated December eleventh, two thousand two, which immediately precedes service in the police force, and any period of allowable service in the uniformed transit police force, uniformed correction force, housing police service and the uniformed force of the department of sanitation immediately preceding service in the police force, credit for which period of immediately preceding allowable service was or is transferred pursuant to subdivision a of this section, shall be deemed to be service in the police force for purposes of eligibility for benefits and to determine the amount of benefits under the police pension fund.

(2) In any case where, by reason of credit for such immediately preceding service, the date of completion of such member's minimum period for service retirement under the police pension fund became or becomes earlier than such date would be if such credit for such immediately preceding service had not been so acquired, there shall be effected with respect to such member:

(a) such increase in such member's normal rate of contribution, effective as of the date on which such member last became a member of the police pension fund, as may be necessary to reflect such earlier date of eligibility for service retirement; and

(b) the charging of such member who acquired or acquires such credit for such immediately preceding service with a contribution rate deficiency:

(i) which shall accrue from the date on which such member last became a member of the police pension fund; and

(ii) which shall be in such amount as shall be the product of the increase provided in subparagraph (a) of this paragraph two and the member's compensation during the period of time provided in item (i) of this subparagraph (b); and

(iii) which, unless paid by such member in such manner as shall be prescribed by rules and regulations adopted by the board of trustees of such pension fund, shall require an appropriate adjustment of any benefit which may become payable to or on account of such member.

(3) Nothing contained in paragraph two of this subdivision b shall cause a member who acquires or acquired credit for a period of allowable service in any such uniformed force or service by reason of the provisions of paragraph

one of this subdivision to be denied:

(a) the right or entitlement, if any, to terminate or reduce contributions to such police pension fund or to a refund of or credit for contributions paid during the period when the member would have been entitled to terminate or reduce such contributions if he or she had such service credit on the date when he or she last became a member of such police pension fund; or

(b) any other right, benefit or entitlement of a similarly situated member of such police pension fund with equal total service credit consisting only of service in the uniformed force of the police department, provided that the foregoing provisions of this paragraph three shall not be construed in a manner inconsistent with the provisions of paragraph two of this subdivision b.

Amended chap 509/1960 § 10

Amended chap 941/1981 § 1

**NOTE**

1. Provisions of chap 647/2004:

§ 9. This act shall take effect immediately and shall apply to any covered membership transfer initiated on or after the effective date of this act, and any covered membership transfer initiated prior to the effective date of this act, but for which no transfer of reserves on the benefits allowable to the transferring member as the result of employer contributions, including the reserve-for-increased-take-home-pay, has been made prior to such effective date; provided, however, that no provision of this act shall effect the transfer of reserves required with respect to transfers between any two of the New York state and local police and fire retirement system, the New York city police department subchapter two pension fund and the New York city fire department subchapter two pension fund and with respect to transfers from the New York state and local police and fire retirement system to the metropolitan transportation authority police pension fund.

**CASE NOTES**

¶ 1. There is no impairment of pension rights in the merger of the Housing Authority Police Department with the NYC Police Department because both have the same benefits, Ad Cd §13-156, and since the transfer is pursuant to Ad Cd §13-143 the "three-year rule" which affects the benefits received is inapplicable and the housing police officers will receive full pension credit immediately upon transfer. Nickels v. NYC Hous. Auth., 208 AD2d 203 [1995].

¶ 2. The plan to merge the NYC Housing Authority Police Department with the NYC Police Department as provided for in a vote of the Housing Authority is not constitutional in the absense of legislation insuring that

petitioners' salary and pension benefits are not jeopardized by the proposed merger. Employees transferred are protected by statute from losing their pension credit, Ad Cd §13-143, the salary rate is not protected from impairment. Pension legislation is required. Nickels v. NYC Hous. Auth., 163 Misc. 2d 611 [1994].

¶ 3. A New York City police officer who desires to transfer his service credit from the New York City Employees' Retirement System to the police pension fund must do so within one year following his appointment as a police officer. A transfer request made eight years after appointment was therefore deemed untimely. Moreover, the City was not estopped from enforcing the one year limit even though the City allegedly failed to advise petitioner properly as to the one year rule and its effect. Owens v. McGuire, 121 A.D.2d 292, 503 N.Y.S.2d 387 (1st Dept. 1986).

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-144 Termination of membership; transfer to fire department pension fund subchapter two.

a. (1) Any member of the New York city employees' retirement system may transfer his or her credit therein to the fire department pension fund provided for in subchapter two of chapter three of this title upon attaining membership in said fire department pension fund. Any person heretofore a member of the New York city employees' retirement system whose membership therein was terminated by such member attaining membership in said fire department pension fund and who has not withdrawn his or her contributions to the New York city employees' retirement system may similarly transfer his or her credit to the said fire department pension fund.

(2) Subject to the provisions of paragraph four of this subdivision, upon the request of such member or person for the transfer of credit within one year after attaining membership in said fire department pension fund or within one year after April fourteenth, nineteen hundred sixty the actuary of the New York city employees' retirement system shall determine the reserve on the benefits allowable to such member or person as the result of employer contributions, including the reserve-for-increased-take-home-pay, as though he or she had not discontinued membership, in the same manner as provided in section forty-three of the retirement and social security law. Subject to the provisions of paragraph four of this subdivision, such reserve shall thereupon be transferred from the contingent reserve fund of the New York city employees' retirement system and the accumulated deductions of such member or person shall thereupon be transferred from the annuity savings fund of the New York city employees' retirement system to the appropriate funds of the said fire department pension fund within one year from the date of such request.

(3) Subject to the provisions of subdivision b of this section, no member of the said fire department pension fund shall be eligible for retirement for service until such member has served in the fire department for a minimum period of twenty or twenty-five years, according to the minimum period for retirement elected by such member prior to the

certification of his or her rate of contribution.

(4) Notwithstanding the provisions of paragraph two of this subdivision, with respect to transfers pursuant to this section which occur on or after the effective date of this paragraph, the actuary of the New York city employees' retirement system shall not be required to determine the reserve on the benefits allowable to the transferring member as the result of employer contributions, including the reserve-for-increased-take-home-pay, and the transfer of such reserve, including the reserve-for-increased-take-home-pay, from the New York city employees' retirement system to said fire department pension fund shall not be required. The New York city employees' retirement system, within one year from the date of the request for the transfer of credit, shall comply with all requirements for completing the transfer imposed on it by the provisions of this section. Nothing set forth in this paragraph shall be deemed to modify the requirement set forth in paragraph two of this subdivision that the New York city employees' retirement system transfer to said fire department pension fund the accumulated deductions of such member.

b. (1) Subject to the provisions of paragraph two of this subdivision, any period of allowable service rendered as an "EMT member," as defined in paragraph one of subdivision a of section 13-157.2 of this chapter, as added by chapter five hundred seventy-seven of the laws of two thousand, which immediately precedes service in the uniformed force of the fire department, and any period of allowable service rendered (i) as a peace officer, as defined in section 2.10 of the criminal procedure law, (ii) in the title of sheriff, deputy sheriff, marshal or district attorney investigator, or (iii) in any position specified in appendix A of the agreement dated October twenty-seventh, two thousand five, among the city of New York, the uniformed firefighters association and the uniformed fire officers association, which immediately precedes service in the uniformed force of the fire department, and any period of allowable service in the uniformed transit police force, uniformed correction force, housing police service and the uniformed force of the department of sanitation immediately preceding service in the uniformed force of the fire department, credit for which period of immediately preceding allowable service was or is transferred pursuant to subdivision a of this section, shall be deemed to be service in the uniformed force of the fire department for purposes of eligibility for benefits and to determine the amount of benefits under the fire department pension fund.

(2) In any case where, by reason of credit for such immediately preceding service, the date of completion of such member's minimum period for service retirement under the fire department pension fund became or becomes earlier than such date would be if such credit for such immediately preceding service had not been so acquired, there shall be effected with respect to such member:

(a) such increase in such member's normal rate of contribution, effective as of the date on which such member became a member of the fire department pension fund, as may be necessary to reflect such earlier date of eligibility for service retirement; and

(b) the charging of such member who acquired or acquires such credit for such immediately preceding service with a contribution rate deficiency:

(i) which shall accrue from the date on which such member last became a member of the fire department pension fund; and

(ii) which shall be in such amount as shall be the product of the increase provided in subparagraph (a) of this paragraph two and the member's compensation during the period of time provided in item (i) of this subparagraph (b); and

(iii) which, unless paid by such member in such manner as shall be prescribed by rules and regulations adopted by the board of trustees of such pension fund, shall require an appropriate adjustment of any benefit which may become payable to or on account of such member.

(3) Nothing contained in paragraph two of this subdivision b shall cause a member who acquires or acquired credit for a period of allowable service in any such uniformed force or service by reason of the provisions of paragraph

one of this subdivision to be denied:

(a) the right or entitlement, if any, to terminate or reduce contributions to such fire department pension fund or to a refund of or credit for contributions paid during a period when the member would have been entitled to terminate or reduce such contributions if such member had such service credit on the date when he or she last became a member of such fire department pension fund; or

(b) any other right, benefit or entitlement of a similarly situated member of such fire department pension fund with equal total service credit consisting only of service in the uniformed force of the fire department, provided that the foregoing provisions of this paragraph three shall not be construed in a manner inconsistent with the provisions of paragraph two of this subdivision b.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-145 Transfer of retirement system membership of certain marine personnel.

a. Any member of the retirement system who serves in the fire department of the city as a pilot, marine engineer (uniformed), assistant marine engineer (uniformed) or wiper (uniformed) may transfer his or her membership in the retirement system to the pension fund maintained pursuant to subchapter two of chapter three of this title by filing with the board, prior to January first, nineteen hundred seventy-one, a written application, duly executed and acknowledged, requesting such transfer.

b. Upon the filing of such application, the retirement system shall transfer to the retirement allowance accumulation fund of such fire department pension fund subchapter two, in the manner provided for in section forty-three of the retirement and social security law, the reserve on the benefits allowable to such member as a result of employer contributions, including the reserve-for-increased-take-home-pay. In addition, the retirement system shall thereupon transfer the accumulated deductions of such member (as they would be in the absence of a loan, less the unpaid balance of any outstanding loan) to such retirement allowance accumulation fund, after deducting from such accumulated deductions, as so computed, all regular interest which, if such member had not elected to transfer his or her membership, would constitute a part of the accumulated deductions of such member, as they would be in the absence of a loan. The amount of interest so deducted shall be paid into the contingent reserve fund of the retirement system and shall become the property of such system.

c. Any such transferred member:

(1) shall be deemed to have been a member of the fire department pension fund subchapter two during the period wherein he or she rendered credited service, after last becoming a member of the retirement system, in one or

more of the positions in the fire department mentioned in subdivision a of this section; and

(2) shall, for purposes of benefit, but not for purposes of eligibility for benefit, be credited in the fire department pension fund subchapter two with all service which (i) prior to such transfer was rendered by such member in any position other than the positions mentioned in subdivision a of this section and (ii) was credited to such member in the retirement system after his or her last entry into membership in such system.

d. The rate of contribution of any member who elects such transfer of membership shall, on and after the date of the filing of his or her application therefor, be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such date to the fire department pension fund subchapter two if:

(1) such member had been appointed a firefighter on the earliest date on which, after last becoming a member of the retirement system, he or she began service in one of the positions in the fire department mentioned in subdivision a of this section; and

(2) such member had then elected to become a member of the fire department pension fund subchapter two; and

(3) such member had then elected, as his or her minimum period of service for retirement, the minimum period elected by him or her pursuant to section 13-350 of chapter three of this title upon the transfer of his or her membership pursuant to this section.

e. (1) Notwithstanding the provisions of subdivision b of this section relating to a transfer of reserve-for-increased-take-home-pay, any such transferred member shall not be entitled, on the date on which such member's application for a transfer is filed, to a reserve-for-increased-take-home-pay which is greater than the amount which such reserve would have equalled if he or she had been a member of the fire department pension fund subchapter two during the entire period of fire department service mentioned in paragraph one of subdivision c of this section.

(2) Any amount by which the reserve-for-increased-take-home-pay transferred with respect to any such transferred member pursuant to subdivision b of this section exceeds the maximum amount of reserve-for-increased-take-home-pay prescribed with respect to such member by paragraph one of this subdivision e shall become the property of the fire department pension fund subchapter two.

f. With respect to each member who elects such transfer of membership, a comparison shall be made between:

(1) the total amount of the member contributions actually made by such member as required contributions, from the date mentioned in paragraph one of subdivision d of this section up to the date of commencement of deductions from his or her compensation at the required rate of contribution prescribed by such subdivision d; and

(2) the total amount of the required member contributions which he or she would have made with respect to the period mentioned in paragraph one of this subdivision f, if he or she had contributed during such period at the required rate prescribed by such subdivision d.

g. (1) If the total amount computed pursuant to paragraph one of subdivision f of this section is less than the total amount computed pursuant to paragraph two of such subdivision f, such member shall contribute the amount of such deficiency, with regular interest thereon, to the appropriate fund of the fire department pension fund subchapter two by deductions from his or her compensation at a rate elected by such member, which shall not be less than five per cent of his or her compensation. The actuarial equivalent of any balance of such deficiency which remains unpaid at the time any benefit under such pension fund may become payable to or with respect to such member shall be deducted from the benefit otherwise payable.

(2) If the total amount computed pursuant to paragraph one of subdivision f of this section is more than the total

amount computed pursuant to paragraph two of such subdivision f, the amount of such excess shall be refunded to such member by the fire department pension fund subchapter two, without interest.

h. In any case where, at the time when any such member seeks to file such an application for transfer of membership, any part of the principal or interest with respect to any loan made by such member pursuant to section 13-140 of this chapter remains unpaid, he or she shall not have the right to make such election unless he or she shall execute and acknowledge, and file with the board, a written agreement providing that from and after the execution of such agreement all of his or her obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be governed by section 13-342 of this title and that the terms and conditions of such loan may be changed or modified by the board of trustees of the fire department pension fund subchapter two with respect to any principal thereof and interest thereon remaining unpaid, so as to conform with the provisions of section 13-342 of this title.

i. Any member who elects such transfer of membership may, prior to certification of his or her rate of contribution prescribed by subdivision d of this section, make the election of a minimum period of service for retirement provided for by section 13-350 of this title.

j. Any member who elects such transfer of membership shall be subject to mandatory retirement upon attainment of age sixty-five under subdivision a of section 15-121 of the code in the same manner as any other member of the uniformed force who is not a medical officer.

*NYC Administrative Code 13-145.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-145.1 Transfer of retirement system membership of certain fire marshals.

a. Any member of the retirement system who serves in the fire department of the city as a fire marshal (uniformed), supervising fire marshal (uniformed), deputy chief fire marshal (uniformed) or chief fire marshal (uniformed) may transfer his membership in the retirement system to the pension fund maintained pursuant to subchapter two of chapter three of this title by filing with the board, prior to January first, nineteen hundred eighty-seven, a written application, duly executed and acknowledged, requesting such transfer.

b. Upon the filing of such application, the retirement system shall transfer to the retirement allowance accumulation fund of such fire department pension fund, subchapter two, in the manner provided for in section forty-three of the retirement and social security law, the reserve on the benefits allowable to such member as a result of employer contributions, including the reserve-for-increased-take-home-pay. In addition, the retirement system shall thereupon transfer the accumulated deductions of such member (as they would be in the absence of a loan, less the unpaid balance of any outstanding loan) to such retirement allowance accumulation fund, after deducting from such accumulated deductions, as so computed, all regular interest which, if such member had not elected to transfer his membership would constitute a part of the accumulated deductions of such member, as they would be in the absence of a loan. The amount of interest so deducted shall be paid into the contingent reserve fund of the retirement system and shall become the property of such system.

c. Any such transferred member:

(1) shall be deemed to have been a member of the fire department pension fund, subchapter two, during the period wherein he rendered credited service, after last becoming a member of the retirement system in one or more of

the positions in the fire department mentioned in subdivision a of this section; and

(2) shall, for purposes of benefit, but not for purposes of eligibility for benefit, be credited in the fire department pension fund, subchapter two, with all service which (i) prior to such transfer was rendered by him in any position other than the positions mentioned in subdivision a of this section, and (ii) was credited to him in the retirement system after his last entry into membership in such system.

d. The rate of contribution of any member who elects such transfer of membership shall, on and after the date of the filing of his application therefor, be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions providing-for-increased-take-home-pay) at which he would have been contributing on such date to the fire department pension fund, subchapter two, if:

(1) he had been appointed a fireman on the earliest date on which, after last becoming a member of the retirement system, he began service in one of the positions in the fire department mentioned in subdivision a of this section; and

(2) he had then elected to become a member of the fire department pension fund, subchapter two; and

(3) he had then elected, as his minimum period of service for retirement, the minimum period elected by him pursuant to section 13-350 of this title upon the transfer of his membership pursuant to this section.

e. (1) Notwithstanding the provisions of subdivision b of this section relating to a transfer of reserve-for-increased-take-home-pay, any such transferred member shall not be entitled, on the date on which his application for a transfer is filed, to a reserve-for-increased-take-home-pay which is greater than the amount which such reserve would have equalled if he had been a member of the fire department pension fund, subchapter two, during the entire period of fire department service mentioned in paragraph one of subdivision c of this section.

(2) Any amount by which the reserve-for-increased-take-home-pay transferred with respect to any such transferred member pursuant to subdivision b of this section exceeds the maximum amount of reserve-for-increased-take-home-pay prescribed with respect to such member by paragraph one of this subdivision e shall become the property of the fire department pension fund, subchapter two.

f. With respect to each member who elects such transfer of membership, a comparison shall be made between:

(1) the total amount of the member contributions actually made by him as required contributions, from the date mentioned in paragraph one of subdivision d of this section up to the date of commencement of deductions from his compensation at the required rate of contribution prescribed by such subdivision d; and

(2) the total amount of the required member contributions which he would have made with respect to the period mentioned in paragraph one of this subdivision, if he had contributed during such period at the required rate prescribed by such subdivision d.

g. (1) If the total amount computed pursuant to paragraph one of subdivision f of this section is less than the total amount computed pursuant to paragraph two of such subdivision f, such member shall contribute the amount of such deficiency, with regular interest thereon, to the appropriate fund of the fire department pension fund, subchapter two, by deductions from his compensation at a rate elected by him, which shall not be less than five percent of his compensation. The actuarial equivalent of any balance of such deficiency which remains unpaid at the time any benefit under such pension fund may become payable to or with respect to such member shall be deducted from the benefit otherwise payable.

(2) If the total amount computed pursuant to paragraph one of subdivision f of this section is more than the total amount computed pursuant to paragraph two of such subdivision f, the amount of such excess shall be refunded to him

by the fire department pension fund, subchapter two, without interest.

h. In any case where, at the time when any such member seeks to file such an application for transfer of membership, any part of the principal or interest with respect to any loan made by such member pursuant to section 13-140 of this chapter remains unpaid, he shall not have the right to make such election unless he shall execute and acknowledge, and file with the board, a written agreement providing that from and after the execution of such agreement all of his obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be covered by section 13-342 of this title and that the terms and conditions of such loan may be changed or modified by the board of trustees of the fire department pension fund, subchapter two, with respect to any principal thereof and interest thereon remaining unpaid, so as to conform with the provisions of such section 13-342 of this title.

i. Any member who elects such transfer of membership may, prior to certification of his rate of contribution prescribed by subdivision d of this section, make the election of a minimum period of service for retirement provided for by section 13-350 of this title.

j. Any member who elects such transfer of membership shall be subject to mandatory retirement upon attainment of age sixty-five under subdivision a of section 15-121 of the code in the same manner as any other member of the uniformed force who is not a medical officer.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-146 Termination of membership; miscellaneous.

Membership in the retirement system shall cease upon the occurrence of any one of the following conditions:

1. When the time out of city-service, other than time on a preferred civil service list or other than time in the armed forces of the United States in world war II of any member who has resigned or has been separated from the service through no fault of his or her own, and who has total service of less than twenty-five years, shall aggregate more than five years in any period not exceeding ten consecutive years since he or she last became a member.

2. When the time out of city-service of any member, other than time on a preferred civil service list or other than time in the armed forces of the United States in world war II, who has resigned or has been separated from the service through no fault of his or her own before reaching the age of retirement, and who has total service of twenty-five years, or more, shall aggregate more than ten years.

3. When any member shall have withdrawn more than fifty per centum of his or her accumulated deductions.

4. When any member shall have withdrawn the cash benefit provided by section 13-150 of this chapter.

5. When any member shall die.

6. When any member shall be retired on a pension.

7. The provisions of subdivisions one and two of this section with respect to time spent in the armed forces of the United States in world war II shall not apply to county employees.

**HISTORICAL NOTE**

**DERIVATION**

Formerly § B3-31.0 added chap 929/1937 § 1

Subs 1, 2 amended chap 550/1938 § 1

Sub 3 amended chap 495/1940 § 1

Amended LL 2/1947 § 1

Sub 3 amended chap 441/1957 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where the decedent made a written designation of his oldest child to receive retirement benefits upon his death and the child's mother was led by the oldest child to believe that she would pay the decedent's debts and divide the pension money between her sisters and brothers and as a result refrained from changing the beneficiary, the other children were entitled to a judgment impressing a constructive trust upon the benefits.-McKenna v. Marsich, 135 (59) N.Y.L.J. (3-27-56) 6, Col. 1 M.

¶ 2. Because petitioner's membership in the N.Y.C. Employees' Retirement System had terminated on 12/31/70 by operation of law on the fifth anniversary of the expiration of his term of office as a member of the city council, he lacked the eligibility requirement of 5 years of minimum service from July 1, 1973 to his retirement in December, 1978 even though petitioner rejoined the retirement system eight years after he left city service when he became president of the city council.-O'Dwyer v. N.Y.C. Employees' Retirement System, 69 A.D. 2d 799 [1979].

¶ 3. Membership of petitioner in nondisability retirement in N.Y.C. Employees' Retirement System was not terminated when he withdrew his accumulated deductions from the retirement system at the insistence of the system.-O'Dwyer v. N.Y.C. Employees' Retirement System, 69 A.D. 2d 779 [1979].

¶ 4. Court overruled decision of N.Y.C. Employees' Retirement System and ordered that it grant a veteran's pension to former employee despite his criminal conviction. Former employee met standards for securing his veteran's pension under § B3-36.0(2) and that trustees of pension fund acted arbitrarily in denying his application.-Matter of Jesselli (City Employees' Retirement System), 190(8) N.Y.L.J. (7-13-83) 12, Col. 6 T.

¶ 5. Pensioner died shortly after receiving first pension check. "Payment" had been made by pension system pursuant to his choice of pension plans and no change could now be made.-Jackson v. Herkommer, 190(117) N.Y.L.J. (12-20-83) 6, Col. 2 M.

¶ 6. Petitioner was dismissed by Department of Social Services and N.Y.C. Employees' Retirement System subsequently terminated his membership pursuant to subd. 1. However, during 5 year period following his dismissal he re-entered city service and therefore is not subject to automatic termination from retirement system pursuant to subd. 1.-Kaufman v. Dept. of Soc. Services, 99 A.D. 2d 778 [1984].

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-147 Right of certain employees to continue to maintain deposit of accumulated deductions.

A person whose position in the New York city transit authority was abolished due to the sale of city owned transit power plants may, at any time prior to the termination of his or her membership, by notice filed with the executive director of the retirement system, elect to continue to maintain his or her accumulated deductions on deposit with the retirement system. Regular interest shall be credited on the accumulated deductions so continued on deposit. Upon filing of such election, membership in the retirement system shall cease.

Such person may at any time prior to the payment of an annuity, as hereinafter provided, withdraw the accumulated deductions standing to the credit of his or her individual account.

Notwithstanding the provisions of section 13-146 of this chapter, such a person shall receive an annuity of equivalent actuarial value to his or her accumulated deductions based on the appropriate mortality tables to be approved by the board of estimate upon written application to the board setting forth at what time, not less than thirty nor more than ninety days subsequent to the execution and filing thereof, he or she desires to receive such annuity, provided such person, at the time specified, shall have attained his or her minimum service retirement age.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-148 Death benefits; ordinary death benefits.

a. Upon the death of a member or of a former member, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed with such board during the lifetime of the member:

1. Such member's accumulated deductions, if any; and, in addition thereto;

2. (a) If he or she is a member who is in city-service or is on a civil service preferred eligible list by reason of city-service, unless a pension by payable by the city under the provisions of section 13-149 of this chapter, a sum which, subject to the provisions of paragraph four of subdivision e of section 13-638.4 of this title, shall consist of:

(i) an amount equal to the compensation earnable by such member while a member, during the six months immediately preceding his or her death; or

(ii) if the total number of years in which allowable service was rendered exceeds ten, including service which was allowable during former membership, then an amount equal to the compensation earnable by such member in city-service while a member during the twelve months immediately preceding his or her death; or

(iii) if such member, at the time of his or her death, held a career pension plan position, and if the total number of years in which allowable service was rendered includes twenty or more years of career pension plan qualifying service, including career pension plan qualifying service which was allowable during former membership, then an amount equal to twice the compensation earnable by him or her in city-service while a member during the twelve

months immediately preceding his or her death; and

(iv) in addition to the amount payable under item (i), (ii) or (iii) of this subparagraph (a), the reserve-for-increased-take-home-pay, if any.

(b) If the sum of such pension payments made and payable under section 13-149 of this chapter plus the reserve-for-increased-take-home-pay, if any, payable as a lump sum under such section, is a lesser sum, then there shall be paid hereunder the difference between the total of such lesser pension sum and reserve, if any, and the greater amount herein provided as ordinary death benefit.

(c) Where any member, by any designation heretofore or hereafter filed pursuant to the foregoing provisions of this subdivision a and in effect at the time of the death of such member, nominated or shall nominate any person to receive the amount payable under item (i), (ii) or (iii) of subparagraph (a) of this paragraph two, the reserve-for-increased-take-home-pay, if any, of such member payable under item (iv) of such subparagraph (a) shall be paid to the person so nominated.

(d) Payment of the expense of burial not exceeding three hundred dollars to a relative or friend who shall assume responsibility therefor in the absence or failure of the designated beneficiary may be authorized by the comptroller on certificate of the executive director and actuary of the retirement system; such payment by a like amount shall reduce the amount payable to such designated beneficiary or estate.

b. Until the first payment has been made on account of a retirement benefit without optional selection of a member, such member shall be construed by such board to have been in city-service and the benefits provided in this section shall be paid in lieu of the retirement allowance.

c. 1. The member, or on the death of the member, the person nominated by him or her to receive either his or her accumulated deductions, if any, his or her death benefit, or both, may provide by written designation duly executed and filed with such board that the actuarial equivalent of the benefit otherwise payable in a lump sum shall be paid to the person designated in the form of an annuity payable in installments not more often than once a month, the amount of such annuity to be determined at the time of the member's death on the basis of the age of the beneficiary at that time.

2. Where any such designation mentioned in paragraph one of this subdivision c was heretofore or is hereafter filed by a member with respect to a benefit otherwise payable pursuant to the provisions of item (i), (ii) or (iii) of subparagraph (a) of paragraph two of subdivision a of this section, and such designation was or is in effect at the time of the death of such member, or where any such designation was heretofore or is hereafter filed by any person so nominated to receive such benefit, the actuarial equivalent of the reserve-for-increased-take-home-pay, if any, of such member shall be paid to the person named in such designation as beneficiary with respect to such benefit under such item (i), (ii) or (iii), in the form of an annuity and in the manner and in accordance with the method of computation prescribed by paragraph one of this subdivision c.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Oral promise of decedent that in event his wife should predecease him he would at time of her death designate plaintiff, who had rendered services to him, as sole beneficiary of any money which on his death might remain to his credit as a member of the New York City Employees Retirement System, **held** void under Personal Property Law § 31, subd. 1, as performance was not to be completed before the end of a lifetime. The amendments of § 31 in 1933 evinced the public policy to outlaw such type of oral claims, and the pension funds of City employees should sedulously be protected accordingly.-Bayreuther v. Reinisch, 264 App. Div. 138, 34 N.Y.S. 2d 674 [1942], aff'd without opinion 290 N.Y. 553, 47 N.E. 2d 959 [1943].

¶ 2. Where deceased member of N.Y.C. Employees' Retirement System in 1937 designated his two children as beneficiaries of the fund in case of his death, in a subsequent separation action brought by his wife the Court denied sequestration of the fund but ordered that decedent be restrained from encumbering or disposing of his interest in the fund and restrained any payment to him out of the fund, but in 1944 he filed with the Pension System a change of designation of beneficiaries, the City's motion to interplead the substituted beneficiaries in an action thereafter brought by his children against the City to recover the fund, was denied on ground that the City in accepting the change of beneficiaries filed with it in 1944 had impliedly ruled that the order in the separation action did not affect an attempt to change beneficiary, and accordingly it could not now say that it was doubtful as to the rightful claimant.-Flanagan v. O'Dwyer, 197 Misc. 5, 86 N.Y.S. 2d 559 [1948], aff'd 275 App. Div. 767, 88 N.Y.S. 903 [1949].

¶ 3. Person who at time of his death had been in the City's employ for ten years and one month but had been a member of the Retirement System for only $9\frac{1}{2}$ years, having failed to avail himself of the privilege accorded by § 1703a of the old Charter to have his retirement period date back to his original entry into the service by making additional payments into the retirement fund, **held** not to have been in the City service for over ten years, and hence under Admin. Code § B3-32.0 he was entitled to a death benefit of six months' compensation rather than a full year's compensation.-Clarke v. Bd. of Estimate of City of N.Y., 105 (122) N.Y.L.J. (5-26-41) 2360, Col. 5 F.

¶ 4. Under Admin. Code § B3-32.0 a credit for the employee's service is limited to city-service "while a member" of the Retirement System, and hence period of deceased member's employment prior to becoming a member of the Retirement System could not be considered in determining whether member had more than ten years of allowable service. Furthermore, the deceased member had never applied for credit for the period of employment prior to joining the retirement system, and salary deductions had never been made for such period.-McKenna v. N.Y. City Employees' Retirement System, 120 (78) N.Y.L.J. (10-21-48) 870, Col. 1 F. Adhered to on reargument, 120 (101) N.Y.L.J.

(11-26-48) 1292, Col. 6 T.

¶ 5. Order denying wife's motion to sequester certain funds allegedly held to husband's credit in the N.Y.C. Employees' Retirement System but nevertheless restraining any disposition or encumbrance by the husband of his interest in the pension fund and any payment to him out of such fund until further order of the Court, **held** not to have impaired validity of husband's subsequent designation of the plaintiffs as beneficiaries of the cash death benefit and the accumulated salary deductions. Such a restraint was clearly not contemplated by the Court nor the parties, and moreover since at the time no pension had as yet accrued to the employee he had no property which was then subject to sequestration. The moneys payable to the beneficiaries in the instant case never belonged to the deceased employee in his lifetime and in fact did not come into existence until his death.-Flanagan v. O'Dwyer, 197 Misc. 5, 94 N.Y.S. 2d 162 [1950].

¶ 6. A widow who successfully proved her claim for ordinary benefits on account of the death of her husband was entitled to interest thereon from the time she demanded payment, at a rate not to exceed 3 per cent.-Cosgrove v. New York City Employees' Retirement System, 137 (107) N.Y.L.J. (6-4-57) 7, Col. 5 F.

¶ 7. An employee can change the beneficiary of his interest in the retirement system at any time before his death. A claim by wife of a deceased employee that her 1937 designation as beneficiary of her husband's interest was irrevocable by the husband was rejected.-Fleming v. N.Y.C. Employees' Retirement System, 148 (117) N.Y.L.J. (12-19-62) 9, Col. 7 M.

¶ 8. An article 78 proceeding by the executors of the estate of a deceased City employee to require the Board of Estimate to accept a designation of beneficiary form executed by the employee before his death was dismissed. The Board was not enjoined by law to honor such designation form after the employee's death. Mandamus is available only where other remedies fail. It cannot be used to enforce rights based upon contract.-Mudzinski v. Bd. of Estimate of City of N.Y., 37 Misc. 2d 1044, 235 N.Y.S. 2d 563 [1962].

¶ 9. City employee's designation of his wife as beneficiary of his retirement benefits was an unqualified directive to make payment to her, and was not affected by alleged oral statement of "intention" to name children as beneficiaries.-Cullom v. Bilicki, 150 (37) N.Y.L.J. (8-21-63) 8, Col. 5 M.

¶ 10. Where deceased member of New York City Employees' Retirement System had designated his mother beneficiary of death and pension benefits prior to his marriage in 1948 and the mother executed an assignment transferring title of all benefits to the widow the Retirement System was required to honor the assignment despite § B3-50.0 which makes such monies unassignable since that provision was only intended to protect a member's future security and to prevent the fund from being diminished during the member's life.-Gagliardi v. N.Y.C. Employees' Retirement System, 174 (76) N.Y.L.J. (10-17-75) 5, Col. 3 M.

¶ 11. Where city employee who died on November 3, 1971 and who retired on March 16, 1971 elected to receive maximum retirement allowance the executors and beneficiaries of his estate were not entitled to the benefits of Option 1 of the New York City Retirement System Plan which would give them the unused portion of the value of his pension fund annuity account as of the time of his retirement on the ground that under this section if "any retired member dies on or after the effective date of his retirement and prior to the first payment on account of his retirement allowance and had not elected Option 1, 2, 3 or 4 with respect to such retirement, he shall be deemed to have elected Option 1 with respect thereto" and that the six monthly checks the deceased received from March through November did not constitute a "first payment" because they were made by the Comptroller without any formal action by the Board of Trustees as to his particular case.-In re Will of Whalen, 51 A.D. 2d 296, 381 N.Y.S. 2d 79 [1976], aff'd 41 N.Y. 2d 854 [1977].

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-149 Death benefits; accidental death benefits.

a. Except as otherwise provided in subdivision b of this section, upon the accidental death of a member before retirement, provided that evidence shall be submitted to such board proving that the death of such member was the natural and proximate result of an accident sustained while a member and while in the performance of duty at some definite time and place and that such death was not the result of wilful negligence on his or her part, such member's accumulated deductions, if any, shall be paid to his or her estate, or to such persons as he or she has nominated or shall nominate by written designation, duly acknowledged and filed with such board. Upon application by or on behalf of the dependents of such deceased member, such board shall grant a lump sum payment of the reserve-for-increased-take-home-pay and a pension of one-half of the final compensation of such employee:

1. To his or her surviving spouse, to continue until the death or remarriage of surviving spouse; or

2. If there be no surviving spouse, or if the surviving spouse dies or remarries before any child of such deceased member shall have attained the age of eighteen years, then to his or her child or children under such age, divided in such manner as such board in its discretion shall determine, to continue as a joint and survivor pension of one-half of his or her final compensation until every such child dies or attains such age; or

3. If there be no surviving spouse or child under the age of eighteen years surviving such deceased member, then to his or her dependent father or mother, as the deceased member shall have nominated by written designation duly acknowledged and filed with such board; or, if there be no such nomination, then to his or her dependent father or to his or her dependent mother, as such board in its discretion shall direct, to continue for life; or

4. If there be no surviving person who is eligible to receive such benefits in accordance with paragraph one, two or three of this subdivision, then to the person that such deceased member shall have nominated by written designation duly executed and filed with such board during the lifetime of the member for the purposes of section 13-148 of this chapter.

b. (1) (a) For the purposes of this subdivision b, the term "maximum basic annual salary of sanitation workers" shall mean the highest, basic annual rate of compensation payable to any class of sanitation workers under a schedule or schedules or plan for the compensation of sanitation workers in effect pursuant to law as of the date with respect to which benefits are to be determined pursuant to this subdivision b.

(b) Such term shall exclude any form of salary, compensation, pay, premium or differential for work as a sanitation worker compensable at other than the rate mentioned in subparagraph (a) of this paragraph one.

(c) The exclusions prescribed by subparagraph (b) of this paragraph one shall include, but shall not be limited to, any salary, compensation, pay, premium or differential for overtime or Saturday, Sunday, holiday, snow removal, chart or night work.

(2) Notwithstanding the provisions of subdivision a of this section, upon the accidental death before retirement of a member who is a sanitation member provided that evidence shall be submitted to such board proving that the death of such member was the natural and proximate result of an accident sustained while a member and while in the performance of duty at some definite time and place and that such death was not the result of wilful negligence on his or her part, his or her accumulated deductions shall be paid to his or her estate, or to such persons as he or she has nominated or shall nominate by written designation, duly acknowledged and filed with such board. Upon application by or on behalf of the dependents of such deceased member, such board shall grant a lump sum payment of the reserve-for-increased-take-home-pay and a pension of one-half of such member's annual salary or compensation on the date of his or her death; provided that in no case shall such pension be in an amount which is less than one-half of the maximum basic annual salary of sanitation workers payable as of such date of death to sanitation workers employed by the department of sanitation:

(1) To his or her surviving spouse, to continue until the death of the surviving spouse; or

(2) If there be no surviving spouse, or if the surviving spouse dies before any child of such deceased member shall have attained the age of eighteen years, then to his or her child or children uner such age, divided in such manner as such board in its discretion shall determine, to continue as a joint and survivor pension in the amount hereinabove specified until every such child dies or attains such age; or

(3) If there be no surviving spouse or child under the age of eighteen years surviving such deceased member, then to his or her dependent father or mother, as the deceased member shall have nominated by written designation duly acknowledged and filed with such board; or, if there be no such nomination, then to his or her dependent father or to his or her dependent mother, as such board in its discretion shall direct, to continue for life.

c. Notwithstanding any other provision of law to the contrary, and solely for the purposes of this section, a member shall be deemed to have died as the natural and proximate result of an accident sustained in the performance of duty upon which his or her membership is based, and not as a result of willful negligence on his or her part, provided that such member was in active service upon which his or her membership is based at the time that such member was ordered to active duty, other than for training purposes, pursuant to Title 10 of the United States Code, with the armed forces of the United States, and such member died while on such active duty on or after the effective date of the chapter of the laws of two thousand five which added this subdivision while serving on such active military duty.

**DERIVATION**

Formerly § B3-33.0 added chap 929/1937 § 1

Amended chap 509/1960 § 13

Amended chap 331/1969 § 6

Sub a amended chap 870/1970 § 11

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where decedent, in consideration of wife releasing him of his liability for her support during period of their separation and consenting to accept specified weekly payments in the future and agreeing not to institute any action for separation and alimony, had orally promised to designate her as beneficiary of his death benefit in New York City Employees' Retirement System, but had made no effort to carry out his agreement and at time of his death his sister was still the named beneficiary, widow had right to compel specific performance of such contract upon theory that equity will disregard the formal steps and treat the promisee as the beneficiary, considering that done which ought to be done. However, if the widow had brought an action at law against the Employees' Retirement System to compel it to pay her the benefit, fact that another was named as beneficiary pursuant to the statutes would probably constitute a good defense, but here the action was not against the Retirement System, and such System had paid into court the amount involved.-Scanlon v. N.Y. City Employees' Retirement System, 99 (150) N.Y.L.J. (6-29-38) 3134, Col. 4 M.

¶ 2. Plaintiff, to whom deceased member of Employees' Retirement System had made an oral assignment **held** entitled to recover the death benefits and accumulated deductions as against the designated beneficiary, where statements of deceased, which clearly evidenced intent to make a present transfer, were made in the presence of the designated beneficiary, who not only acquiesced in the change but released all claims to the fund in question, and moreover there had been no policy or other document capable of delivery.-Quinn v. Annese, 104 (88) N.Y.L.J. (10-14-40) 1074, Col. 1 F.

¶ 3. Plaintiff, alleging that she had foregone bringing an action to recover moneys lent decedent on his false representations that he had designated her as beneficiary of moneys payable upon his death as a member of the New York City Employees' Retirement System, **held** not entitled to have a lien impressed upon the fund which had become payable upon his death, since plaintiff failed to allege the execution of an enforceable promise by decedent to irrevocably designate plaintiff as a beneficiary.-Brinkley v. Carroll, 105 (119) N.Y.L.J. (5-22-41) 2305, Col. 7 F.

¶ 4. Alleged oral promise of plaintiff's former husband to designate her as the beneficiary of fund payable upon his death by the New York City Employees' Retirement System did not clothe her with any rights to the fund which she might assert against the designated beneficiary, where there was no claim of fraud by the named beneficiary or that deceased intended the fund to be paid to anyone other than the designated beneficiary. The mention of plaintiff's daughter in the application for membership in the Retirement System was of no significance as it was merely made in

response to a request that the applicant list the names of his children.-Brill v. Brill, 112 (70) N.Y.L.J. (9-22-44) 588, Col. 6 F.

¶ 4.1. Decedent named his wife, Margaret Sullivan, as his beneficiary in his application with the New York City Retirement System in 1944. They were divorced that same year. Decedent married the plaintiff in 1954 without making any change of beneficiary. **Held,** proceeds payable on death belonged to Margaret Sullivan, the original beneficiary.-Matter of Sullivan v. City of New York, 143 (95) N.Y.L.J. (5-17-60) 12, Col. 6 M.

¶ 5. Illegitimate child of member of Retirement System who was injured in the performance of his duties and died from such injuries, **held** entitled to accidental death benefit under Greater New York Charter § 1718 (now Admin. Code § B3-33.0).-Ciarlo v. N.Y.C. Employees' Retirement System, 270 App. Div. 594, 61 N.Y.S. 2d 751 [1946], aff'd without opinion, 296 N.Y. 962, 73 N.E. 2d 269 [1947].

¶ 6. New York City Employees' Retirement System **held** entitled to deposit in court certain funds which were the subject of the action, and to a discontinuance of the action against the Retirement System, in view of the complete neutrality of the Retirement System with regard to disposition of the funds in question, and in view of the serious controversy between the two brothers of the deceased.-Walpole v. Walpole, 121 (89) N.Y.L.J. (5-6-49) 1637, Col. 7 T.

¶ 7. Where decedent and her husband died on the same day and under such circumstances that it was impossible to determine who died first, petitioner could not claim or succeed to any interest in her husband's membership certificate in the New York City Employees' Retirement System wherein testatrix, as his wife, was the named beneficiary. Such certificate was an asset of the deceased husband's estate, and the proceeds thereof were payable to his legal representative.-In re McGovern, 106 (106) N.Y.L.J. (11-5-41) 1376, Col. 7 F.

¶ 8. The statutory provisions governing accidental disability retirements are radically different from the provisions controlling an application for accidental death benefits, and decisions under Admin. Code § B3-40.0 relative to disability retirement applications may not be regarded as prescribing the effect to be given to a certification made by the Medical Board as to a death benefit claim.-Daley v. Board of Estimate, 267 App. Div. 592, 49 N.Y.S. 2d 139 [1944].

¶ 9. The Board of Estimate was not required to accede to petitioner's request that it disclose to her the contents of its files, but if the Board intended to rely upon the unsworn testimony of the deceased's fellow employees to contradict petitioner's claim that she and the deceased reported the alleged accident soon after its occurrence, petitioner should be permitted to object to the consideration of such testimony or to contradict the allegations contained therein.-Id.

¶ 10. Section B3-33.0 makes the payment of a pension mandatory where evidence has been submitted to the Board of Estimate proving that the death of a member was the natural and proximate result of an accident sustained while a member in the performance of duty at some definite time and place and not as a result of willful negligence. The claimant has the burden of submitting proof of such facts, and the Board of Estimate has the responsibility for determining, after a hearing, whether those facts have been established.-Daley v. Board of Estimate, 267 App. Div. 592, 49 N.Y.S. 2d 139 [1944].

¶ 11. Resolution of Board of Estimate denying petitioner's claim to an accidental death benefit for death of her husband as result of a coronary thrombosis, could not be sustained on the theory, as a matter of law, that thrombosis could not have been caused accidentally.-Id.

¶ 12. Trustees of New York City Employees' Retirement System properly deducted from pension awarded deceased employee's widow under Admin. Code § B3-33.0 the amount awarded to her by the State Industrial Board pursuant to the Workmen's Compensation Law.-Matter of Daley, 274 App. Div. 938, 83 N.Y.S. 2d 776 [1948], aff'd 298 N.Y. 890, 84 N.E. 2d 805 [1949].

¶ 13. City Register who was struck by automobile less than four minutes after he had left a conference with proprietor of camera shop and his staff concerning a project, financed by City funds, to develop a microfilm process for

recording and indexing more economically instruments of conveyance and other manuscripts filed in the Register's office, **held** to have met his fatal accident while "in the performance of duty" within meaning of Admin. Code § B3-33.0 entitling his widow to an accidental death pension.-Ralph v. Board of Estimate, 306 N.Y. 447, 119 N.E. 2d 37 [1954], reversing 280 App. Div. 942, 116 N.Y.S. 2d 29 [1952].

¶ 14. Where widow's claim to an accidental death benefit based on husband's death from coronary thrombosis, allegedly caused by an accident in the course of his employment, presented a properly contested issue and there was a background of an award in the widow's favor by the State Industrial Board predicated upon a finding of accidental death and a report by a heart specialist, the only fair and efficacious way for the Board of Estimate to ascertain the truth would seem to be by means of a hearing wherein witnesses could be confronted and orally examined and cross-examined. Accordingly, a determination of the Board of Estimate awarding only an ordinary death benefit would be annulled where at no time during investigation by the medical board and the Bureau of Retirement and Pensions was the widow afforded an opportunity to confront or cross-examine witnesses and to produce her own witnesses or testify in her own behalf. Daley v. Board of Estimate, 186 Misc. 905, 62 N.Y.S. 2d 433 [1946].

¶ 15. A claim for accidental death benefits was remitted to the Board of Estimate where the Board failed to exercise an independent judgment on the merits of the claim. The medical board had recommended denial of the claim and the Board of Estimate approved that recommendation. However, the records showed that the Board of Estimate underestimated its own power and duty and overestimated the power of the court upon review and thus failed to make a thorough and painstaking assessment of the evidence presented.-Matter of Kilgus, 308 N.Y. 620, 127 N.E. 2d 705 [1955].

¶ 16. Widow of former transit police officer who died from a line-of-duty accidental injury was entitled to resumption of pension payments from the N.Y.C. Employees' Retirement System after annulment of her remarriage.-Matter of Skagen v. N.Y.C. Employees' Retirement System, 108 Misc. 2d 408 [1981].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-150*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-150 Retirement; separation from service without fault or delinquency.

a. A member who is removed or otherwise involuntarily separated from city-service for any cause other than fault or delinquency on his or her part after having completed twenty years of allowable service, including not less than one-half year during the year immediately preceding such discontinuance, or who is so removed from a position in the competitive or labor class of the classified civil service after any period of service, shall receive in lieu of the benefit provided in section 13-141 of this chapter, as he or she may elect:

1. The amount of his or her accumulated deductions, if any; or, in lieu thereof,

2. An annuity of equivalent actuarial value to his or her accumulated deductions, if any, and, in addition, a pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, and, in addition, a pension beginning immediately, having a value equal to the present value of the pension, at the beginning of his or her minimum age of service retirement that would be payable to him or her at such age for the period of service creditable to him or her at the time of such removal or separation. If such member has attained age fifty and has completed twenty years of allowable service, including not less than one-half year during the year immediately preceding such discontinuance, he or she shall be paid in addition a pension equal to fifty per cent of the difference between such pension and the pension to which he or she would be eligible had he attained the minimum age of service retirement.

b. His or her membership in the retirement system shall thereupon cease, subject, however, to the provisions of section 13-178 of this chapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. a amended chap 408/1993 § 2 eff. July 21, 1993.

**DERIVATION**

Formerly § B3-35.0 added chap 929/1937 § 1

Amended chap 509/1960 § 14

Amended chap 870/1970 § 12

**NOTE**

Provisions of ch. 408/1993

§ 3. Any employee of the city of New York who, on or after January 1, 1991, was (i) suspended, or (ii) demoted from a position which was abolished or from a title in which the number of positions was reduced, and (iii) retired on or after such date, shall be placed on the preferred list on which such person or persons would have been placed had such person or persons not retired, in accordance with the provisions of section eighty-one of the civil service law.

§ 4. This act shall take effect immediately.

FISCAL NOTE.-This proposed legislation would permit employees of the City of New York to maintain their positions on preferred lists following lay-off while collecting retirement benefits to which they are otherwise entitled.

There are no fiscal implications to the State. Based on the experience of the City of New York in the last round of lay-offs, this legislation is expected to be virtually cost-neutral to the City.

The source of this estimate is Jonathan Schwartz of Jardine Consultants Inc.

**NOTE**

Provisions of Chap 678/1995, eff. Aug. 9, 1995.

AN ACT in relation to the reduction to retirement benefits received by long-term New York city employees who retired upon separation from service without fault or delinquency.

**The People of the State of New York, represented in Senate and Assembly, do enact as follows:**

Section 1. Notwithstanding any other provision of law, a member of the New York city employees' retirement system who retired in 1991 pursuant to section 13-150 of the administrative code of the city of New York, and who, at the time of retirement, was serving in a title certified to be represented in collective bargaining by the public employee organization with the largest number of employees who are members of the retirement system or its affiliated local public employee organizations, shall have his or her retirement allowance recomputed as follows:

(a) If his retirement allowance was determined pursuant to the provisions of subdivision a of section 13-150 of the administrative code of the city of New York, it shall be recomputed pursuant to the provisions of subdivisions e, f and g of section 13-162 of such code, as though he had satisfied the eligibility requirements set forth in para graph 2 of subdivision d of such section 13-162.

(b) If his retirement allowance was determined pursuant to the provisions of paragraph 7 of subdivision a of

section 13-172 of such code, it shall be recomputed pursuant to the provisions of subdivisions e, f and g of section 13-162 of such code, as though he had satisfied the eligibility requirements set forth in paragraph 2 of subdivision d of such section 13-162.

(c) The recomputations set forth above shall be performed as of the date of the member's retirement.

§ 2. The recomputed retirement allowance shall be payable as of July 1, 1995.

§ 3. This act shall take effect immediately.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Petitioner who, as result of competitive examination held in 1917 had been appointed to position of microanalyst in Department of Health, and by permission of the health authorities had ever since his appointment performed duties of his position in private laboratories in his home or elsewhere, **held** not entitled to pension benefits under City of New York Admin. Code § B3-35.0 on theory that act of Commissioner of Health in notifying him on April 1, 1937, that he would have to carry on his work in laboratory of Health Department or else give up his position, constituted an involuntary separation from the City's service for a cause other than fault or delinquency on his part. Permission given petitioner to do his work in private laboratory was a mere indulgence revocable at any time.-Matter of Ballard (Rice), 167 Misc. 826, 4 N.Y.S. 2d 806 [1938], aff'd without opinion, 254 App. Div. 733, 6 N.Y.S. 2d 92 [1938], aff'd 280 N.Y. 593, 20 N.E. 2d 29 [1939].

¶ 2. Termination of employment of petitioner, who had occupied position of microanalyst in City Department of Health for more than 20 years, because of his failure to become a resident of City of New York prior to January 1, 1938, pursuant to mandate of Local Law No. 40 of 1937 requiring New York City employees thereafter to reside within the City, **held** not construable as a termination of petitioner's employment without fault or delinquency on his part, and hence did not entitle him to pension benefits under New York City Administrative Code § B3-35.0.-Id.

¶ 3. A city employee who, having attained the minimum age of retirement, had filed application for retirement while he was under suspension pending a hearing of departmental charges against him, and who had been dismissed from service before the date set in the application for actual retirement, was not entitled to pension benefits. This section expressly excludes from benefits a person who has been removed from his position for fault or delinquency.-Eberle v. La Guardia, 285 N.Y. 247, 33 N.E. 2d 692 [1941].

*NYC Administrative Code 13-151*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-151 Retirement; minimum ages for service retirement.

Retirement of a member for service shall be made by the board as follows:

1. Any member in city-service may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, provided that such member at the time so specified for his or her retirement shall have attained the minimum age of retirement provided for the group of which he or she shall be a member at such time.

(a) The minimum ages for service retirement from the groups provided for by section 13-106 of this chapter, shall be as follows: _____

| Group number | Group name | Minimum service retirement age for group |
|---|---|---|
| One | Laborers and unskilled workers engaged upon duties requiring principally physical exertion. | 58 years |
| Two | Mechanics and skilled workers engaged upon duties requiring principally physical exertion. | 59 years |
| Three | Clerical, administrative, professional and technical workers engaged upon duties requiring principally mental exertion, including heads of departments. | 60 years |

(b) The minimum age for service retirement from any additional group provided for by the board under the provisions of section 13-106 of this chapter, shall be as determined by such board, provided, however, that such board

shall be limited in its selection to an age which shall be within one year of the age determined by the actuary to be the nearest age at which a member, entering the retirement system at the age of twenty-five years and paying the average rate of contribution (without including in the computation the possibility of a reduction of contribution pursuant to section 13-152 of this chapter) applicable to entrants in other service groups at that age, will produce an annuity of one-quarter of such member's final compensation, computed on the basis of regular interest and of the mortality, service and other tables adopted by the board as applicable to the group for which the retirement age is to be determined.

2. Notwithstanding any other provisions of this section or the provisions of any other section of the code to the contrary, a member who is an honorably discharged member of any branch of the armed forces of the United States, having served as such during the time of war and who has attained the age of fifty years, may retire upon his or her own request upon written application to the board setting forth at what time not less than thirty days subsequent to the execution and filing thereof he or she desires to be retired, provided that such member at the time so specified for his or her retirement shall have completed at least twenty-five years of allowable service. Upon retirement such member shall receive an annuity of equivalent actuarial value to his or her accumulated deductions, and, in addition, a pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, and, in addition, a pension beginning immediately, having a value equal to the present value of the pension at the beginning of his previous minimum age of service retirement that would be payable to him or her at such age for the period of service creditable to him or her at the time of such retirement, provided, however, that the said member on making application for retirement shall pay into the retirement fund a sum of money which calculated on an actuarial basis, together with his or her prior contributions and other accumulations in said fund then to his or her credit, shall be sufficient to entitle the said member to the same annuity, pension-providing-for-increased-take-home-pay, if any, and pension that he would have received had he or she remained in the service of the city until he or she had attained the age at which he or she otherwise would have become eligible for retirement.

3. Notwithstanding any other provisions of this section or the provisions of any other section of the code to the contrary, a member who is separated or discharged under honorable conditions from any branch of the armed forces of the United States, having served as such during the time of war and who has attained the age of fifty years, may retire upon his or her own request upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, provided that such member at the time so specified for his retirement shall have completed at least twenty-five years of allowable service. Upon reaching his or her previously selected minimum retirement age such member shall receive an annuity of equivalent actuarial value, at that time, to his or her accumulated deductions, and, in addition, a pension based upon his or her credited years of allowable service, plus the pension-for-increased-take-home-pay, if any. Should such member die before reaching his or her retirement age, then any beneficiary under a selected option will be eligible for benefits under such option at the date upon which the member would have reached his or her selected retirement age.

4. (a) Notwithstanding any other provisions of this section or the provisions of any other section of the code, or any other provisions of law to the contrary, a member may at any time file with such board a written application for retirement in the form required for such application, electing an option or options in accordance with section 13-177 of this chapter, but requesting that such retirement under such option or options shall become effective on the day immediately preceding his or her death. Such application shall be known as an application for presumed retirement. At any time while any such application of a member is being held by the board pursuant to paragraph (b) of this subdivision four, such member may, by filing a written designation in such form as shall be prescribed by the board, elect a different option and/or nominate a new option beneficiary in place of any such beneficiary previously selected with respect to such application.

(b) Such application shall be held by the board until:

(1) such member shall file an application for actual retirement; or

(2) he or she ceases to be a member of the retirement system; or

(3) he or she dies; whichever of such events shall first occur.

(c) In the event of such member's death after he or she has attained eligibility for retirement by reason of service (other than under section 13-150 of this chapter) and while such application for presumed retirement shall continue to be so held by such board, such member's said retirement shall become effective with the same benefits to the beneficiary designated pursuant to section 13-177 of this chapter or to the legal representatives of such member, if no beneficiary was so designated or if the beneficiary last designated predeceased such member, as if such member (if other than a career pension plan member or transit twenty-year plan member) had retired and had become entitled to a retirement allowance on the day immediately preceding the date of his or her death or, in the case of a career pension plan member who so dies or a transit twenty-year plan member who so dies and to whom the provisions of this paragraph have been made applicable pursuant to paragraph (h) of this subdivision four, as if he or she had retired on the day immediately preceding the date of his or her death.

(d) (1) In the event that a member, who would be eligible for retirement by reason of service (other than under section 13-150 of this chapter), dies while in service before filing with such board an application for presumed retirement in the form required for such application, or who, having filed an application for actual retirement in the form required, dies while in service and prior to the effective date of his or her retirement, such member, if other than a career pension plan member or transit twenty-year plan member, shall nevertheless be deemed to have been retired and to have become entitled to a retirement allowance effective on the day immediately preceding the date of his or her death or, if such member dies while a career pension plan member or while a transit twenty-year plan member to whom the provisions of this subparagraph one of this paragraph (d) have been made applicable pursuant to paragraph (h) of this subdivision four, such member shall be deemed to have been retired on the day immediately preceding the date of his death.

(2) If any member presumed to be retired pursuant to subparagraph one of this paragraph (d) had not indicated his or her election of an option under which he or she desired to be retired, he shall be considered as having elected to retire under the option designated as Option 1 of section 13-177 of this chapter.

(3) Except as otherwise prescribed by any other provision of this chapter with respect to any transit twenty-year plan member to whom the provisions of subparagraph one of this paragraph (d) have been made applicable pursuant to paragraph (h) of this subdivision four, if any retired member dies on or after the effective date of his or her retirement and prior to the first payment on account of his or her retirement allowance, and had not elected Option 1, 2, 3 or 4 with respect to such retirement, he or she shall be deemed to have elected Option 1 with respect thereto.

(e) (1) Notwithstanding any provision of paragraph (c) or (d) of this subdivision four to the contrary, in any case where:

(i) any member dies on or after July first, nineteen hundred sixty-eight under such circumstances that a benefit is payable under paragraph (c) of this subdivision and such member had elected Option 1 without designating a beneficiary or with designation of a beneficiary who predeceased such member; and

(ii) any member or retired member dies on or after July first, nineteen hundred sixty-eight under such circumstances that a benefit is payable under paragraph (d) of this subdivision, and such member did not elect an option or, having elected Option 1, did not designate a beneficiary with respect to such option or designated a beneficiary who predeceased such member;

the benefit payable under this subdivision with respect to such death shall be paid as prescribed in subparagraph two of this paragraph (e).

(2) (i) The portion of such benefit based upon such member's annuity, if any, shall be paid to the beneficiary, if any, designated by such member to receive such member's accumulated deductions under section 13-148 of this chapter.

(ii) The portion of such benefit based upon such member's pension shall be paid to the beneficiary, if any, designated by such member to receive his or her death benefit under such section.

(iii) If such member did not designate a beneficiary to receive any benefit payable under such section, the benefit under this subdivision shall be paid to his or her estate.

(f) Except as otherwise provided in paragraph (g) of this subdivision four, the beneficiary designated pursuant to section 13-177 of this chapter, or the legal representatives of such member if no beneficiary was so designated or if the beneficiary last designated predeceased such member, or the beneficiary specified in paragraph (e) of this subdivision four in any case where such paragraph (e) is applicable, to whom benefits are payable under this subdivision, may elect, by a statement in writing executed and filed with the board, to receive the benefits payable under section 13-148 of this chapter in lieu of the benefit payable hereunder.

(g) (1) In the event of the accidental death of any member who dies prior to retirement under such circumstances that benefits would otherwise be payable or might otherwise be required to be paid under section 13-149 of this chapter, the provisions of this subdivision four shall be inapplicable with respect to such death and no benefits shall be payable under this subdivision by reason thereof, except as otherwise provided in subparagraph two of this paragraph (g).

(2) If such accidental death likewise occurs under the circumstances specified in paragraph (c) of this subdivision or in subparagraph one of paragraph (d) of this subdivision:

(a) The accumulated deductions, if any, of such member, notwithstanding any provision of such section 13-149 of this chapter to the contrary, shall be paid to the beneficiary or legal representatives, as the case may be, who would be entitled to receive benefits under this subdivision four if the death of such member were not an accidental death subject to the provisions of such section; and

(b) the beneficiary or legal representatives entitled to receive such accumulated deductions, if any, pursuant to item (a) of this subparagraph two and all persons who are entitled to apply for and receive benefits under such section 13-149 of this chapter as dependents, may elect, by a statement in writing executed and filed by them with the board within six months after such accidental death, that benefits shall be paid under this subdivision four, in lieu of any and all benefits otherwise payable under such section; provided, however, that such right of election shall cease and come to an end in the event that such beneficiary or legal representatives or any such dependent shall execute and file with the board a statement in writing declaring that such signatory does not wish to exercise such right of election.

(h) Notwithstanding any other provisions of this subdivision four, this subdivision shall be inapplicable to all members who are officers or employees of the New York city transit authority, provided, however, that such authority shall have full power and authority to make the provisions of this subdivision applicable to employees covered by agreements hereafter made by the authority with employee representatives duly recognized by the authority and, if so provided in any such agreement, the authority shall adopt a resolution making the provisions of this subdivision applicable to the employees covered by such agreement as of the date specified in such agreement; and, in the event that the authority enters into any such agreement, it may from time to time by resolution make applicable the provisions of this subdivision to such of the officers and employees of the authority not covered by such agreements as it shall designate in any such resolution, and upon the adoption of any such resolution, the provisions of this subdivision shall apply to the officers and employees so designated therein, such applicability to commence on the date of effectiveness specified in such resolution, which date shall not be earlier than the earliest effective date specified for applicability of this subdivision in any such agreement.

(i) Except as otherwise prescribed by any other provision of this chapter with respect to any transit twenty-year plan member to whom the provisions of paragraph (c) of this subdivision four and subparagraph one of paragraph (d) of this subdivision have been made applicable pursuant to paragraph (h) of this subdivision, any member who has elected

Option 2, 3 or 4 pursuant to section 13-177 of this chapter may elect, within the period of time allowed by such section for election of an option, that in the event that he dies on or after the effective date of his retirement and before the first payment on account of his retirement allowance, a benefit under Option 1 shall be paid in lieu of any benefit under Option 2, 3 or 4, as the case may be.

(j) (1) Notwithstanding any other provision of this chapter to the contrary, in any case where any benefit is payable under Option 2, 3 or 4 pursuant to paragraph (c) or (d) of this subdivision four by reason of the death of a career pension plan member or the death of a retired member who was, at the time of his or her retirement, a career pension plan member, and such death occurs before the initial date of retirement allowance payability with respect to such member or retired member, such benefit shall begin on such initial date.

(2) Notwithstanding any other provision of this chapter to the contrary, in any case where any benefit is payable under Option 2, 3 or 4 pursuant to paragraph (c) of this subdivision four or subparagraph one of paragraph (d) of this subdivision by reason of the death of a transit twenty-year plan member to whom the provisions of such paragraph (c) or subparagraph one have been made applicable pursuant to paragraph (h) of this subdivision, and such death occurs before the initial date of retirement allowance payability with respect to such member, as defined by the applicable provisions of this chapter, such benefit shall begin on such initial date.

(k) Notwithstanding any other provision of this chapter to the contrary, in any case where a career pension plan member dies in service while such a member, after attaining the age of fifty-five years, and, at the time of his or her death, has not completed twenty years of career pension plan qualifying service, such member shall be deemed to have died as a fifty-five-year-increased-service-fraction member.

(k-1) (1) Notwithstanding any other provision of this chapter to the contrary, but subject to subparagraph two of this paragraph, in any case where, on or after the date this paragraph becomes a law, a fifty-five-year-increased-service-fraction member dies in service while such a member, after completing twenty or more years of career pension plan qualifying service, such member shall be deemed to have died as a career pension plan member, if status as such a career pension plan member at the time of his or her death would result in a benefit larger than the benefit which would be payable if such member died while a fifty-five-year-increased-service-fraction member.

(2) In any case where a member referred to in subparagraph one of this paragraph is a Tier II member at the time*1 his or her death, any change in the plan membership of such member pursuant to such subparagraph one shall not change, alter or affect the applicability of article eleven of the retirement and social security law to such member.

(l) Notwithstanding any other provision of this chapter to the contrary, in any case where a benefit is payable under any provision of this subdivision four, by reason of the death, on or after the date of enactment of this paragraph, of a career pension plan member or fifty-five-year-increased-service-fraction member, and such benefit or any part thereof would otherwise be required, by reason of an election filed by such member pursuant to subdivision fifty-eight of section 13-101 of this chapter, to be computed on the basis of the three-year-average compensation of such member, such benefit shall nevertheless be computed as if such election had not been made, if such benefit, computed as it would be in the absence of such election, would be greater than it would be if computed on the basis of the three-year-average compensation of such member.

**HISTORICAL NOTE**

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under the Admin. Code the members of the Retirement System are entitled to certain rights in the nature of contractual or quasi-contractual rights, and where the statutory conditions for retirement have been met those rights become vested and payment of the pension cannot be withheld in the absence of fault or delinquency at the mere whim of any administrative officer or body.-Eberle v. La Guardia, 285 N.Y. 247, 33 N.E. 2d 692 [1941].

¶ 2. City employee who, having attained the minimum age of retirement, had filed application for retirement while he was under suspension pending hearing of Departmental charges against him, and who had suffered dismissal from the service before the date set in the application for actual retirement, **held** not entitled to pension benefits, since he was not a member of the City service at the time of filing his application for retirement. Such interpretation of Admin. Code § B3-36.0 was bolstered by a consideration of § B3-35.0, which expressly excludes from benefits thereunder a person who has been removed from his position for fault or delinquency.-Id.

¶ 3. Rule 58 of the Rules of the Board of Estimate, providing that the right of an applicant to retirement should not be forfeited by separation from the service subsequent to filing of an application for retirement, would seem to refer to acts which might lead to removal occurring subsequent to the filing of the application, but if its language were inconsistent with § B3-36.0 it could not stand, since a rule must give way to an act of the Legislature.-Id.

¶ 4. Petitioner who, on September 3, 1942, resigned from his position as First Deputy City Clerk following a report by the Commissioner of Investigation questioning his fitness for public office, **held** not to have been validly reappointed to City service on November 5, 1942, when he was purportedly provisionally appointed a clerk in the Department of Hospitals. The appointment was ineffective because the Municipal Civil Service Commission did not approve the appointment until December 14, whereas Civil Service Law, § 1 (1), does not permit a retroactive certification. The appointment was not one of urgency, but was for the sole purpose of qualifying petitioner for retirement. The alleged custom of the Commission to certify to an appointment as of the date of entry into the service could not be recognized in view of the provisions of the statute. Hence petitioner's application of November 9, 1942 for pensioned service retirement was ineffectual because he was not an employee in "City service" on that date.-Matter of Hines v. La Guardia, 293 N.Y. 207, 56 N.E. 2d 553 [1944].

¶ 5. A decree setting aside application for retirement executed by now deceased employee on ground he was mentally incapable of understanding the nature of his acts at the time, was reversed on ground the proof was insufficient as matter of law to establish that he did not understand that he was retiring and that he had elected to receive the

maximum allowance payable during his life, or that by reason of such incompetency he refrained from choosing one of the optional plans, which he would have selected if competent.-Beisman v. N.Y.C. Employees' Retirement System, 275 App. Div. 836, 88 N.Y.S. 2d 411 [1949], rev'g 81 N.Y.S. 2d 373 [1948], aff'd 300 N.Y. 580, 89 N.E. 2d 876 [1949].

¶ 6. Although petitioner might not demand reinstatement to his position as private secretary as he was not protected from removal by Civil Service Law § 22, nevertheless his resignation to take effect later and his practically simultaneous application for retirement were steps taken by his appointing officer, and since he acted in reliance on that agreement his employment by the City did not terminate until the effective date of his retirement under resolution of the Board of Estimate, and therefore he was lawfully retired and entitled to a pension.-Schwartz v. Bd. of Estimate 129 (17) N.Y.L.J. (1-26-53) 276, Col. 1 T.

¶ 7. A Supreme Court Justice who resigned after a jury had found him guilty of conspiracy to obstruct justice but before sentence was passed and who had over 11 years of service prior to resignation was entitled to receive his retirement pension as a matter of constitutional right. Besides, under this section, there is no requirement that an applicant be in City service in order to qualify for a pension.-Keogh v. Wagner, 148 (122) N.Y.L.J. (12-27-62) 12, Col. 1 M, aff'd, 20 App. Div. 2d 380, 247 N.Y.S. 2d 269 [1969], aff'd 15 N.Y. 2d 569, 203 N.E. 2d 298, 254 N.Y.S. 2d 833 [1964].

¶ 8. Petitioner's application for retirement from his position in the Department of Parks was properly denied where the application was not filed by June 30, 1962, as required by chapter 943 of the Laws of 1962. The retirement system was not estopped by the action on petitioner's supervisor in holding himself out as having the authority to file the application.-Magnatta v. Keleher, 236 N.Y.S. 2d 846 [1962].

¶ 9. Widows of sanitation department employees who had completed 19 years and 250 days but less than 20 calendar years of service at the time of their deaths and had elected to retire after 20 years of "allowable service" were not entitled to pension benefits as this section requires 20 years of "allowable" service.-In re Augello v. Lindsay, 40 A.D. 2d 815, 338 N.Y.S. 2d 215 [1972], aff'd 32 N.Y. 2d 621, 295 N.E. 2d 385, 342 N.Y.S. 2d 657 [1973].

¶ 10. Death gamble provision does not apply to terminal leave.-Lombardi v. City of N.Y., 46 A.D. 2d 750, 361 N.Y.S. 2d 1 [1974], aff'd 38 N.Y. 2d 727 [1975].

¶ 11. Sister of deceased retired employee of Department of Sanitation who had applied for maximum benefits and who received a total of 8 retirement checks computed for maximum allowance before he died was not entitled to death benefits on theory that her brother was not given notice of his choice of options where application forms were "replete with notices of the effect of accepting maximum benefits or option for other plans."-McGee v. New York City Employees' Retirement System, 49 A.D. 2d 842, 273 N.Y.S. 2d 600 [1975], aff'd 40 N.Y. 2d 859 [1976].

¶ 12. Petitioner's application for retirement as an honorably discharged veteran of the armed services should not have been denied even though prior to the scheduled retirement date he had been dismissed from the N.Y.C. Transit Authority for misconduct since this provision requires an applicant for retirement to be a member of the retirement system and not a member "in city-service" at the time of retirement.-Rapp v. N.Y.C. Employees' Retirement System, 42 N.Y. 2d 1 [1977].

¶ 13. Where petitioner's husband had applied for retirement nearly two years before retirement system mailed check and he died after check was mailed but before it reached him he died before "first payment" was made and hence petitioner was entitled to a death benefit in a lump sum under option 1a.-Guzman v. N.Y.C. Employees' Retirement System, 56 A.D. 2d 825 [1977], aff'd 45 N.Y. 2d 186 [1978].

¶ 14. This section was not applicable to a member of the New York City Police Department since such a person is not a member of the New York City Employees' Retirement System.-Gunning v. Codd, 65 A.D. 2d 415, 411 N.Y.S. 2d 280 [1978].

¶ 15. Petitioner, who is veteran of Korean War and was discharged with a general discharge "under honorable conditions", is entitled to military veterans' retirement benefits as "an honorably discharged member" of the Armed Forces who served "during the time of war". Failure of petitioner to file for such veterans' retirement benefits prior to his dismissal from service with N.Y.C. for misconduct has no effect on eligibility.-Jacob Jesselli v. N.Y.C. Employees' Retirement System, 119 Misc. 2d 1064 [1983], 107 A.D. 2d 227 [1985].

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-152 Pensions for increased-take-home-pay.

a. 1. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty, may elect that the provisions of paragraph one of subdivision c and subdivisions g, h and i of this section shall be applicable to and for the benefit of all other-than-authority members except those to whom such provisions are made inapplicable by or pursuant to the provisions of paragraph two of this subdivision.

2. In the event that the board of estimate adopts such a resolution in accordance with the provisions of paragraph one of this subdivision, the provisions of paragraph one of subdivision c and subdivisions g, h and i of this section shall, on the date on which such paragraph one of subdivision c becomes operative, become applicable to and for the benefit of all other-than-authority members except:

(i) all such members included within the correction service of the classification of the city civil service commission; and

(ii) any other such members whom the board of estimate, in its discretion, designates for exclusion from the applicability of such provisions in such resolution or in any other resolution to that effect adopted by such board prior to June first, nineteen hundred sixty.

3. On and after June first, nineteen hundred sixty, the board of estimate may not exclude from the applicability of subdivisions c, g, h and i of this section, any other-than-authority member as to whom an election of applicability is in effect on such date or thereafter under the provisions of paragraph one, two or four of this subdivision.

4. The board of estimate, by adopting a resolution or resolutions prior to the date on which the provisions of subdivision c of this section cease to be operative, may elect that the provisions of subdivisions c, g, h and i of this section shall be applicable to and for the benefit of any other-than-authority members excluded pursuant to the provisions of subparagraph (ii) of paragraph two of this subdivision. In the event of the adoption of any such resolution before the provisions of paragraph one of subdivision c of this section become operative, the provisions of such paragraph one and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date on which such paragraph one becomes operative. In the event of the adoption of any such resolution after the provisions of such paragraph one become operative, the provisions of paragraph two of subdivision c of this section and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date of the commencement of the payroll period beginning next after the date of the adoption of such resolution.

b. 1. The triborough bridge and tunnel authority, the New York city housing authority, and the New York city transit authority, may, with the approval of the board of estimate, each separately elect prior to June first, nineteen hundred sixty, that the provisions of paragraph one of subdivision c and subdivisions g, h and i of this section shall apply to and for the benefit of all members who are officers or employees of the authority making such election, other than any such members to whom such provisions are made inapplicable pursuant to the provisions of paragraph two of this subdivision. Such election shall be made by adoption of a resolution to that effect by the authority, prior to such date, with the approval of the board of estimate granted prior to such date.

2. In the event that any such authority adopts such a resolution with the approval of the board of estimate pursuant to the provisions of paragraph one of this subdivision, the provisions of paragraph one of subdivision c and subdivisions g, h and i of this section shall, on the date on which such paragraph one of subdivision c becomes operative, become applicable to and for the benefit of all members who are officers or employees of such authority, except any such members whom such authority, in its discretion and with the approval of the board of estimate, designates for exclusion from the applicability of such provisions in such resolution or in any other resolution to that effect adopted by such authority and approved by the board of estimate prior to June first, nineteen hundred sixty.

3. On and after June first, nineteen hundred sixty, no such authority making such an election nor the board of estimate may exclude from the applicability of the provisions of subdivisions c, g, h and i of this section, any member who is an officer or employee of such authority and as to whom an election of applicability is in effect on that date under the provisions of paragraphs one and two of this subdivision.

4. Any such authority making such an election pursuant to the provisions of paragraphs one and two of this subdivision, may by adopting a resolution or resolutions and obtaining the approval thereof by the board of estimate prior to the date on which the provisions of subdivision c of this section cease to be operative, elect that the provisions of subdivisions c, g, h and i of this section shall be applicable to and for the benefit of any members who are officers or employees of such authority and who were excluded pursuant to the provisions of paragraph two of this subdivision. In the event that approval of any such resolution is granted by the board of estimate before the provisions of paragraph one of subdivision c of this section become operative, the provisions of such paragraph one and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date on which such paragraph one becomes operative. In the event that the approval of any such resolution is granted by the board of estimate after the provisions of such paragraph one become operative, the provisions of paragraph two of subdivision c of this section and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date of the commencement of the payroll period beginning next after the date of the adoption of such resolution.

c. 1. Beginning with the payroll period the first day of which is nearest to July first, nineteen hundred sixty and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-one, the contribution of each member originally entitled to a reduced rate for the first year, exclusive of any increase in such contribution pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall

be reduced by two and one-half per centum of the compensation of such member.

2. Beginning with the payroll period the first day of which occurs next after the date on which the board of estimate adopts a resolution pursuant to paragraph four of subdivision a of this section or grants its approval of a resolution pursuant to paragraph four of subdivision b of this section, as the case may be, with respect to any member subsequently entitled to a reduced rate for the first year, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-one, the contribution of such member, exclusive of any increase in such contribution pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half per centum of the compensation of such member.

3. Where a member's rate of contribution, exclusive of any increase thereof pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to the provisions of paragraph one or two of this subdivision, is equal to or less than two and one-half per centum, such rate shall be discontinued.

d. 1. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty-one, may elect that the provisions of paragraph one of subdivision f and subdivisions g, h and i of this section shall be applicable to all other-than-authority members except those to whom such provisions are made inapplicable by or pursuant to the provisions of paragraph two of this subdivision.

2. In the event that the board of estimate adopts such a resolution in accordance with the provisions of paragraph one of this subdivision, the provisions of paragraph one of subdivision f and subdivisions g, h and i of this section shall, on the date on which such paragraph one of subdivision f becomes operative, become applicable to and for the benefit of all other-than-authority members except any such members whom the board of estimate, in its discretion, designates for exclusion from the applicability of such provisions in such resolution or in any other resolution to that effect adopted by such board prior to June first, nineteen hundred sixty-one.

3. On and after June first, nineteen hundred sixty-one, the board of estimate may not exclude from the applicability of subdivisions f, g, h and i of this section, any other-than-authority member as to whom an election of applicability is in effect on such date or thereafter under the provisions of paragraph one, two or four of this subdivision.

4. The board of estimate, by adopting a resolution or resolutions prior to the date on which the provisions of subdivision f of this section cease to be operative, may elect that the provisions of subdivisions f, g, h and i of this section shall be applicable to and for the benefit of any other-than-authority members excluded pursuant to the provisions of paragraph two of this subdivision. In the event of the adoption of any such resolution before the provisions of paragraph one of subdivision f of this section become operative, the provisions of such paragraph one and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date on which such paragraph one becomes operative. In the event of the adoption of any such resolution after the provisions of such paragraph one become operative, the provisions of paragraph two of subdivision f of this section and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date of the commencement of the payroll period beginning next after the date of the adoption of such resolution.

5. In making an election pursuant to the provisions of paragraphs one and two of this subdivision, the board of estimate shall designate a reduced-rate-of-contribution factor to be used in computing the reduction in the contributions of other-than-authority members who are entitled to such reduction under the provisions of this subdivision and subdivision f of this section. Such factor shall be two and one-half per centum or five per centum, whichever such board, in its discretion, shall designate in the resolution making such election. Such factor shall not be changed after it has been designated in such resolution.

e. 1. The triborough bridge and tunnel authority, the New York city housing authority, and the New York city transit authority, may, with the approval of the board of estimate, each separately elect prior to June first, nineteen hundred sixty-one, that the provisions of paragraph one of subdivision f and subdivisions g, h and i of this section shall apply to all members who are officers or employees of the authority making such election, other than any such members to whom such provisions are made inapplicable pursuant to the provisions of paragraph two of this subdivision. Such election shall be made by adoption of a resolution to that effect by the authority, prior to such date, with the approval of the board of estimate granted prior to such date.

2. In the event that any such authority adopts such a resolution with the approval of the board of estimate pursuant to the provisions of paragraph one of this subdivision, the provisions of paragraph one of subdivision f and subdivisions g, h and i of this section shall, on the date on which such paragraph one of subdivision f becomes operative, become applicable to and for the benefit of all members who are officers or employees of such authority, except any such members whom such authority, in its discretion and with the approval of the board of estimate, designates for exclusion from the applicability of such provisions in such resolution or in any other resolution to that effect adopted by such authority and approved by the board of estimate prior to June first, nineteen hundred sixty-one.

3. On and after June first, nineteen hundred sixty-one, neither any such authority making such an election nor the board of estimate may exclude from the applicability of the provisions of subdivisions f, g, h and i of this section, any member who is an officer or employee of such authority and as to whom an election of applicability is in effect on that date under the provisions of paragraphs one and two of this subdivision.

4. Any such authority making such an election pursuant to the provisions of paragraphs one and two of this subdivision, may by adopting a resolution or resolutions and obtaining the approval thereof by the board of estimate prior to the date on which the provisions of subdivision f of this section cease to be operative, elect that the provisions of subdivisions f, g, h and i of this section shall be applicable to and for the benefit of any members who are officers or employees of such authority and who were excluded pursuant to the provisions of paragraph two of this subdivision. In the event that approval of any such resolution is granted by the board of estimate before the provisions of paragraph one of subdivision f of this section become operative, the provisions of such paragraph one and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date on which such paragraph one becomes operative. In the event that the approval of any such resolution is granted by the board of estimate after the provisions of such paragraph one become operative, the provisions of paragraph two of subdivision f of this section and of subdivisions g, h and i of this section shall become applicable to and for the benefit of such members on the date of the commencement of the payroll period beginning next after the date of the adoption of such resolution.

5. In making an election pursuant to the provisions of paragraphs one and two of this subdivision, any such authority shall, with the approval of the board of estimate, designate a reduced-rate-of-contribution factor to be used in computing the reduction in the contributions of members who are officers or employees of such authority and who are entitled to such reduction under the provisions of this subdivision and subdivision f of this section. Such factor shall be two and one-half per centum or five per centum, whichever such authority, in its discretion, shall designate with the approval of the board of estimate in the resolution making such election. Such factor shall not be changed after it has been designated in such resolution.

f. 1. Beginning with the payroll period the first day of which is nearest to July first, nineteen hundred sixty-one, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-two, the contribution of each member originally entitled to a reduced rate for the second year, exclusive of any increase in such contribution pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by an amount obtained by multiplying the compensation of such member by the reduced-rate-of-contribution factor applicable to such member under the provisions of paragraph five of subdivisions d and e of this section.

2. Beginning with the payroll period the first day of which occurs next after the date on which the board of estimate adopts a resolution pursuant to paragraph four of subdivision d of this section or grants its approval of a resolution pursuant to paragraph four of subdivision b of this section, as the case may be, with respect to each member subsequently entitled to a reduced rate for the second year, and ending with the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-two, the contribution of such member, exclusive of any increase in such contribution pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by an amount obtained by multiplying the compensation of such member by the reduced-rate-of-contribution factor applicable to such member under the provisions of paragraph five of subdivisions d and e of this section.

3. Where a member's rate of contribution, exclusive of any increase thereof pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof pursuant to the provisions of paragraph one or two of this subdivision, is equal to or less than the reduced-rate-of-contribution factor applicable to such member, such rate shall be discontinued.

g. 1. Any reduction or discontinuance of a member's contribution, as the case may be, made pursuant to the provisions of this section, shall:

(i) Be subject to waiver by the member as provided in subdivision h of section 13-125 of this chapter, and

(ii) take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease such member's annuity contribution for the purpose of paying his or her contributions for old-age, survivors and disability insurance coverage or the tax imposed upon him pursuant to the federal insurance contributions act.

2. A member to whom or for whose benefit the provisions of subdivision c or f of this section, or both, are applicable under the provisions of subdivisions a, b, d and e of this section, or to whom or for whose benefit the provisions of paragraph fourteen of subdivision j of this section are applicable, or to whom or for whose benefit provisions analogous to the provisions of paragraph fourteen of subdivision j of this section are made applicable pursuant to subdivision m of this section, and who waives any reduction or discontinuance of his or her contribution under such subdivision c, f, j or m, shall be entitled to a pension-providing-for-increased-take-home-pay and death benefits to the same extent as if such waiver had not been made.

h. 1. With respect to each member to whom or for whose benefit the provisions of subdivision c or f of this section, or both, are applicable under the provisions of subdivisions a, b, d and e of this section, or to whom or for whose benefit the provisions of paragraph fourteen of subdivision j of this section are applicable, or to whom or for whose benefit provisions analogous to the provisions of paragraph fourteen of subdivision j of this section are made applicable pursuant to subdivision m of this section, contributions shall be made with respect to each period of such applicability to the contingent reserve fund by the contributing agency, as required by subdivision i of this section and by section 13-127 of this chapter, or shall be made to the pension fund by the contributing agency as required by subdivision i of this section and section 13-129 of this chapter, as the case may be, at a rate fixed by the actuary which shall be computed to be sufficient to provide the death benefit hereunder and the pension-providing-for-increased-take-home-pay which are or may become payable on account of such member.

2. Such a benefit and such a pension-providing-for-increased-take-home-pay shall be based on a reserved-for-increased-take-home-pay.

i. The contributions required to be made to the contingent reserve fund or pension fund respectively under the provisions of subdivision h of this section for the benefit of members mentioned in paragraph one of such subdivision:

(1) shall be paid into such funds with respect to such members who are other-than-authority-or-public-benefit-corporation members or correction members, by the obligor required by law to contribute to the contingent reserve fund or pension fund respectively for their pensions, and (2) shall be paid into such funds by the employing authority or public benefit corporation with respect to such members who are officers or employees of triborough bridge and tunnel authority, the New York city housing authority, the New York city transit authority, the New York city health and hospitals corporation, the New York city off-track betting corporation and the New York city housing development corporation.

j. Provisions relating to fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three.

1. Election of applicability as to other-than-authority members. The board of estimate, by resolution adopted prior to June first, nineteen hundred sixty-two, may elect that the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of all other-than-authority members, except those to whom such provisions are made inapplicable by or pursuant to the provisions of paragraph two of this subdivision j.

2. Effect of election as to other-than-authority members. If such board adopts a resolution pursuant to the provisions of paragraph one of this subdivision j, the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of all other-than-authority members except those whom such board, in its discretion, designates in such resolution or in any other resolution adopted prior to June first, nineteen hundred sixty-two:

(i) as absolutely excluded from the applicability of such provisions; and

(ii) as conditionally excluded from the applicability of such provisions unless and until certain events specified in such resolution shall be determined by such board to have occurred; provided that such conditional exclusion shall be subject to the provisions of paragraphs three and four of this subdivision j.

3. Determination of applicability as to other-than-authority members conditionally excluded. If any other-than-authority members are conditionally excluded by such board by any resolution adopted pursuant to the provisions of paragraphs one and two of this subdivision j, and such board shall determine by resolution adopted at any time subsequently that the conditions prerequisite to applicability specified in such resolution of conditional exclusion have been satisfied as to any such members designated in such subsequent resolution, the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of such members so designated.

4. Election of applicability as to previously excluded other-than-authority members. The board of estimate, by adopting a resolution or resolutions at any time prior to the first day of the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred sixty-three, may elect that the governing provisions of such paragraph fourteen and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of any other-than-authority members excluded absolutely or conditionally pursuant to the provisions of paragraph two of this subdivision. In the event of the adoption of any such resolution, the governing provisions of such paragraph fourteen and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of such members.

5. Prohibition against later exclusion of other-than-authority members. (i) Where an election has been made at any time pursuant to any of the provisions of paragraphs one, two and four of this subdivision j, that the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of any other-than-authority members, such board may not, after the making of such election, exclude any such member from the applicability of such provisions of such paragraph fourteen and the provisions of such subdivisions g, h and i, unless such exclusion is effected by resolution adopted prior to June first, nineteen hundred sixty-two.

(ii) Where any members have been conditionally excluded from the applicability of the governing provisions of such paragraph fourteen and the provisions of such subdivisions g, h and i, pursuant to the provisions of paragraphs one and two of this subdivision j, such board may not thereafter absolutely exclude any such member from the applicability of such provisions of such paragraph fourteen and such subdivisions g, h and i, unless such absolute exclusion is effected by resolution adopted prior to June first, nineteen hundred sixty-two.

6. Designation of reduced-rate-of-contribution factor or factors as to other-than-authority members. In any resolution making an election of applicability pursuant to any of the provisions of paragraphs one, two and four of this subdivision, such board shall designate the reduced-rate-of-contribution factor or factors to be used in computing the reduction in the contributions of other-than-authority members who are entitled to such reduction by reason of such election. With respect to any such member or any group of such members, such factor shall be two and one-half per centum or five per centum, whichever such board, in its discretion, shall designate as applicable to such member or group of members, provided that any such factor designated with respect to any such member or group of members shall be the same throughout the period of such applicability as to such member or group of members, as such period is set forth in the governing provisions of subparagraphs (ii) and (iii) of paragraph fourteen of this subdivision j. Such factor or factors shall not be changed after the designation of same in any such resolution.

7. Election of applicability as to authority members. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority, may, with the approval of the board of estimate, each separately elect prior to June first, nineteen hundred sixty-two that the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall apply to and for the benefit of all members who are officers or employees of the authority making such election, other than any such members to whom such provisions are made inapplicable by or pursuant to the provisions of paragraph eight of this subdivision. Such election shall be made by adoption of a resolution to that effect by the authority, prior to such date, with the approval of such board granted prior to such date.

8. Effect of election as to authority members. In the event that any such authority adopts such a resolution with the approval of such board pursuant to the provisions of paragraph seven of this subdivision j, the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h, and i of this section shall be applicable to and for the benefit of all members who are officers or employees of such authority, except any such members whom such authority, in its discretion and with the approval of the board of estimate, designates in such resolution or in any other resolution to that effect adopted by such authority and approved by such board prior to June first, nineteen hundred sixty-two:

(i) as absolutely excluded from the applicability of such provisions; or

(ii) as conditionally excluded from the applicability of such provisions unless and until certain events specified in such resolution shall be determined by such authority, with the approval of such board, to have occurred; provided that such conditional exclusion shall be subject to the provisions of paragraphs nine and ten of this subdivision j.

9. Determination of applicability as to authority members conditionally excluded. If any members are conditionally excluded by any such authority, with the approval of such board, by any resolution adopted pursuant to the provisions of paragraphs seven and eight of this subdivision j, and such authority, with the approval of such board, shall determine by any resolution adopted at any time subsequently that the conditions prerequisite to applicability specified in such resolution of conditional exclusion have been satisfied as to any such members designated in such subsequent resolution, the governing provisions of such paragraph fourteen and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of such members so designated.

10. Election of applicability as to previously excluded authority members. Any such authority making such an election pursuant to the provisions of paragraphs seven and eight of this subdivision, may, by adopting a resolution or resolutions and obtaining the approval thereof by such board prior to the first day of the payroll period, the first day of

which is nearest to June thirtieth, nineteen hundred sixty-three, elect that the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of any members who are officers or employees of such authority and who were excluded absolutely or conditionally pursuant to the provisions of paragraphs seven and eight of this subdivision j. In the event that approval of any such resolution is granted by such board, the governing provisions of such paragraph fourteen and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of such members.

11. Prohibition against later exclusion of authority members. (i) Where an election has been made at any time by any such authority, with the approval of such board, pursuant to any of the provisions of paragraphs seven, eight and ten of this subdivision j, that the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this section shall be applicable to and for the benefit of any officers or employees of any such authority, neither such authority nor such board may, after the making of such election, exclude any such officer or employee from the applicability of such provisions of such paragraph fourteen and the provisions of such subdivisions g, h and i, unless such exclusion is effected by a resolution adopted by such authority and approved by such board prior to June first, nineteen hundred sixty-two.

(ii) Where any officers or employees of any such authority have been conditionally excluded from the applicability of the governing provisions of such paragraph fourteen and the provisions of such subdivisions g, h and i, pursuant to the provisions of paragraphs seven and eight of this subdivision j, neither such board nor such authority may thereafter absolutely exclude any such member from the applicability of such provisions of such paragraph fourteen and of such subdivisions g, h and i, unless such absolute exclusion is effected by a resolution adopted by such authority and approved by such board prior to June first, nineteen hundred sixty-two.

12. Designation of reduced-rate-of-contribution factor or factors as to authority members. In any resolution making an election of applicability pursuant to any of the provisions of paragraphs seven, eight and ten of this subdivision j, any such authority shall, with the approval of such board, designate the reduced-rate-of-contribution factor or factors to be used in computing the reduction in contributions of members who are officers or employees of such authority and who are entitled to such reduction by reason of such election. With respect to any such officer or employee or any group of such officers or employees, such factor shall be two and one-half per centum or five per centum, whichever such authority, in its discretion, shall with the approval of such board, designate as applicable to such officer or employee or group of such officers or employees, provided that any such factor designated with respect to any such officer or employee or any group of such officers or employees shall be the same throughout the period of applicability as to such officer or employee or group of officers or employees, as such period is set forth in the governing provisions of subparagraphs (ii) and (iii) of paragraph fourteen of this subdivision j. Such factor or factors shall not be changed after the designation of same in any such resolution.

13. Optional period of retroactive applicability. (i) In any case where an election of applicability is made with respect to any-other-than-authority member or authority member or any group of any such members pursuant to any of the preceding paragraphs of this subdivision j, the board of estimate, or the authority, with the approval of such board, as the case may be, may, in its or their discretion, in the resolution effecting such election, further elect that the contributions of such member or group of members shall be reduced, in the amount or amounts specified in the governing provisions of subparagraph (iv) of paragraph fourteen of this subdivision j, during a period (hereinafter in this subdivision j referred to as "period of retroactive applicability") prior to the first day of the full period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three (as such full period is defined in subparagraph (ii) of such paragraph fourteen) or prior to the first day of the applicable partial period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three (as such partial period is defined in subparagraph (iii) of such paragraph fourteen), as the case may be. Such period of retroactive applicability shall extend over such period as such board, or such authority with the approval of such board, may in its or their discretion designate, provided that no such period of retroactive applicability with respect to any such member or group of members shall extend to a date earlier than the first day of the payroll period, with respect to such member or group of members, the first day of which is nearest to July first, nineteen hundred sixty.

(ii) Whenever an election of retroactive applicability is made pursuant to the provisions of subparagraph (i) of this paragraph thirteen, such board, or such authority with the approval of such board, shall designate, in the resolution effecting such election, the reduced-rate-of-contribution factor or factors to be used in computing the reduction in the contributions of each member or group of members benefited by such election. With respect to any such member or group of members, such factor shall be two and one-half per centum or five per centum for all or any part of such period of retroactive applicability, whichever such board, or such authority with the approval of such board, as the case may be, may designate, in its or their discretion, as applicable to such member or group of members for the whole or any part of such period. Such factor or factors shall not be changed after the designation of same in such resolution.

(iii) Where an election of retroactive applicability with respect to any member or group of members has been made pursuant to the preceding provisions of this paragraph thirteen, the governing provisions of paragraph fourteen of this subdivision j and the provisions of subdivisions g, h and i of this subdivision j shall be applicable to and for the benefit of such member or group of members.

14. Prescribed reduction in contributions. (i) Base for computing reduction. The contributions of members to whom the provisions of this paragraph fourteen are applicable by reason of an election or determination of applicability made pursuant to any of the provisions of the preceding paragraphs of this subdivision j (excluding from consideration any increase in such contributions pursuant to any of the provisions of subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law) shall be reduced for the period or periods and to the extent hereinafter provided in this paragraph fourteen.

(ii) Full period of applicability for the nineteen hundred sixty-two-nineteen hundred sixty-three fiscal year. Subject to the provisions of paragraph thirteen of this subdivision j, such reduction shall be made, in the applicable amount or amounts specified in subparagraph (iv) of this paragraph fourteen, during the period (hereinafter in this subdivision j referred to as the "full period of applicability for the nineteen hundred sixty-two-nineteen hundred sixty-three fiscal year") from and including the payroll period, the first day of which is nearest to July first, nineteen hundred sixty-two, to and including the payroll period immediately prior to that the first day of which is nearest to June thirtieth, nineteen hundred sixty-three, with respect to each other-than-authority member and each authority member:

(a) as to whom an election of applicability is made, prior to the first day of the full period of applicability for the nineteen hundred sixty-two-nineteen hundred sixty-three fiscal year, pursuant to any of the provisions of paragraphs one, two, four, seven, eight and ten of this subdivision j; or

(b) who was conditionally excluded from benefits under this subdivision j pursuant to any of the provisions of paragraphs one, two, seven and eight of this subdivision j and as to whom it has been determined, pursuant to the provisions of paragraph three or nine of this subdivision j, that the conditions precedent to the applicability of this paragraph fourteen were satisfied prior to the first day of the full period of applicability for the nineteen hundred sixty-two-nineteen hundred sixty-three fiscal year.

(iii) Partial period of applicability for the nineteen hundred sixty-two-nineteen hundred sixty-three fiscal year. (a) Such reduction shall be made during the period specified in item (b) of this subparagraph (iii), in the applicable amount or amounts specified in subparagraph (iv) of this paragraph fourteen, with respect to each other-than-authority member and each authority member:

(1) as to whom an election of applicability is made, pursuant to the provisions of paragraph four or ten of this subdivision j, on or after the first day of the full period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three; or

(2) who was conditionally excluded from benefits under this subdivision j pursuant to any of the provisions of paragraphs one, two, seven and eight of this subdivision j and as to whom it has been determined, pursuant to the

provisions of paragraph three or nine of this subdivision j, that the conditions precedent to the applicability of this paragraph fourteen were satisfied on or after the first day of the full period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three.

(b) With respect to each member mentioned in item (a) of this subparagraph (iii), the reduction prescribed in such item (a) shall be made, subject to the provisions of paragraph thirteen of this subdivision j, during a period (hereinafter in this subdivision j referred to as a "partial period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three") from and including the payroll period next succeeding the date of the adoption of the resolution of the board of estimate effecting the election of applicability with respect to such member, or next succeeding the date determined to be that on which the conditions precedent to applicability with respect to such member were satisfied, as the case may be, to and including the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-three.

(iv) Amount of reduction. The amount of the reduction in the contributions of each other-than-authority member or authority member pursuant to the provisions of this paragraph fourteen shall be as follows:

(a) In the case of each member entitled to a reduction during the full period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three, as specified in subparagraph (ii) of this paragraph fourteen, or to a reduction during a partial period of applicability for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three, as specified in subparagraph (iii) of this paragraph fourteen, such amount with respect to such full period or partial period, as the case may be, shall be the product obtained by multiplying the compensation of such member during such full period or partial period, as the case may be, by the reduced-rate-of-contribution factor applicable to such member under the provisions of paragraph six or twelve of this subdivision j.

(b) In the case of each member entitled to a reduction during a period of retroactive applicability pursuant to an election made under the provisions of paragraph thirteen of this subdivision j: (1) such amount, with respect to such period, shall be the product obtained by multiplying the compensation of such member during such period by the reduced-rate-of-contribution factor applicable to such member for such period under the provisions of such paragraph thirteen; or (2) if different reduced-rate-of-contribution factors have been designated pursuant to such provisions for different portions of such period, such amount shall be the sum obtained by multiplying the compensation of such member during each such portion by the reduced-rate-of-contribution factor applicable thereto and by adding together the products resulting from such multi- plication.

k. Where a member's rate of contribution with respect to any period of applicability of benefits or portion of such period under subdivision j or m of this section, exclusive of any increase in such rate pursuant to subdivisions d, e, f and g of section 13-125 of this chapter or any reduction thereof pursuant to the provisions of subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and before reduction thereof as prescribed by paragraph fourteen of such subdivision j, or by a provision analogous to the provisions of paragraph fourteen of subdivision j made applicable to such member pursuant to subdivision m of this section, is equal to or less than the reduced-rate-of-contribution-factor applicable to such period or portion thereof with respect to such member, such rate shall be discontinued as to such period or portion thereof.

m. Provisions relating to fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four and certain subsequent fiscal years.

1. (a) Fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four. The mayor, by executive order, adopted prior to June first, nineteen hundred sixty-three, may provide for a pensions-providing-for-increased-take-home-pay plan for all other-than-authority-members for the fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those

granted to the board of estimate by subdivision j of this section.

(b) Fiscal year nineteen hundred sixty-four-nineteen hundred sixty-five. The mayor, by executive order, adopted prior to June first, nineteen hundred sixty-four, may provide for a pensions-providing-for-increased-take-home-pay plan for all other-than-authority-members for the fiscal year nineteen hundred sixty-four-nineteen hundred sixty-five analogous to that authorized for such members for the fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four by chapter five hundred eighteen of the laws of nineteen hundred sixty-three. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section.

(c) Fiscal year nineteen hundred sixty-five-nineteen hundred sixty-six. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-five, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than- authority members for the fiscal year nineteen hundred sixty-five-nineteen hundred sixty-six analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be so provided for members of the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter, shall designate a reduced-rate-of-contribution factor of two and one-half per centum. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of this subparagraph (c), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June nineteenth.

(d) Fiscal year nineteen hundred sixty-six-nineteen hundred sixty-seven. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority members for the fiscal year nineteen hundred sixty-six-nineteen hundred sixty-seven analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be so provided for members of the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter, shall designate a reduced-rate-of-contribution factor of two and one-half per centum. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of this subparagraph (d), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June nineteenth.

(e) Fiscal year nineteen hundred sixty-seven-nineteen hundred sixty-eight. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority members for the fiscal year nineteen hundred sixty-seven-nineteen hundred sixty-eight analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be so provided for members of the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter, shall designate a reduced-rate-of-contribution factor of two and one-half per centum. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of this subparagraph (e), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June seventeenth.

(f) Additional provisions relating to the period June first, nineteen hundred sixty-eight through June thirtieth, nineteen hundred sixty-eight for sanitation workers.

The mayor, by executive order adopted prior to June first, nineteen hundred sixty-eight, may amend the pensions-providing-for-increased-take-home-pay plan authorized by subparagraph (e) of this subdivision m to provide

that such plan shall designate a reduced rate of contribution factor of five percentum for the period June first, nineteen hundred sixty-eight through June thirtieth, nineteen hundred sixty-eight for members of the uniformed force of the department of sanitation in the title of sanitation worker.

(g) Fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-eight may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority members for the fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however that

(1) any such plan which may so be provided for such members other than members of the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter, shall designate a reduced-rate-of-contribution factor of four percentum. If a bill entitled "An Act to amend the administrative code of the city of New York and the military law, in relation to providing additional right, privileges and benefits for members of the New York city employees' retirement system and establishing an optional career pension plan for certain of such members" is enacted into law, an election by a member to become a career pension plan member or a fifty-five-year-increased-service fraction member shall constitute a waiver, with respect to any period as to which this Item (1) or any subsequently enacted law authorizes a reduction of member contributions under a plan for pension-providing-for-increased-take-home-pay, of any and all claims for such member arising out of any consent determination made under section two hundred twenty of the labor law to any reduction of member contributions greater than that authorized as to such member by this Item (1) or such law, as the case may be, with respect to the period of reduction therein prescribed, and provided further, however, that

(2) Any such plan which may be provided for members of the uniformed force of the department of sanitation as defined in subdivision a of section 13-154 of this chapter, except members in the title of sanitation worker, shall designate a reduced-rate-of-contribution factor of two and one-half per centum, and provided further, however, that

(3) any such plan which may be provided for members of the uniformed force of the department of sanitation in the title of sanitation worker shall designate a reduced-rate-of-contribution factor of five per centum. In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j, of this section. For the purpose of carrying out the provisions of this subparagraph (g), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June seventeenth.

(h) Fiscal year nineteen hundred sixty-nine-nineteen hundred seventy. The mayor, by executive order adopted prior to June sixteenth, nineteen hundred sixty-nine, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority members for the fiscal year nineteen hundred sixty-nine-nineteen hundred seventy analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however that

(1) any such plan which may be provided for such members other than members of the uniformed force of the department of sanitation, as defined in subdivision a of section 13-154 of this chapter, shall designate a reduced-rate-of-contribution factor of four percentum. An election by a member to become a career pension plan member or a fifty-five-year-increased-service-fraction member shall constitute a waiver, with respect to any period as to which this item (1) or any subsequently enacted law authorizes a reduction of member contributions under a plan for pension-providing-for-increased-take-home-pay, of any and all claims by such member arising out of any consent determination made under section two hundred twenty of the labor law to any reduction of member contributions greater than that authorized as to such member by this Item (1) or such law, as the case may be, with respect to the period of reduction therein prescribed, and provided further, however, that

(2) Any such plan which may be provided for members of the uniformed force of the department of sanitation as

defined in subdivision a of section 13-154 of this chapter, except members in the title of sanitation worker, shall designate a reduced-rate-of-contribution factor of two and one-half per centum, and provided further, however, that

(3) any such plan which may be provided for members of the uniformed force of the department of sanitation in the title of sanitation worker shall designate a reduced-rate-of-contribution factor of five percentum.

(4) In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of this subparagraph (h), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(i) Fiscal year nineteen hundred seventy-nineteen hundred seventy-one. The mayor, by executive order adopted prior to June sixteenth, nineteen hundred seventy, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority members for the fiscal year nineteen hundred seventy-nineteen hundred seventy-one analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that:

(1) any such plan which may be provided for such members other than sanitation members (as defined in subdivision sixty-four of section 13-101 of this chapter) shall designate a reduced-rate-of-contribution factor of four percentum. An election by a member to become a career pension plan member or a fifty-five-year-increased-service-fraction member shall constitute a waiver, with respect to any period as to which this item one or any subsequently enacted law authorizes a reduction of member contributions under a plan for pensions-providing-for-increased-take-home-pay, of any and all claims by such member, arising out of any consent determination made under section two hundred twenty of the labor law, to any reduction of member contributions greater than that authorized as to such member by this item one or such law, as the case may be, with respect to the period of reduction therein prescribed, and provided further, however, that

(2) subject to the provisions of item three of this subparagraph i, any such plan which may be provided for sanitation members, except members in the title of sanitation worker, shall designate a reduced-rate-of-contribution factor of two and one-half per centum from and including the payroll period, the first day of which is nearest to October first, nineteen hundred sixty-eight to and including the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy, and provided further, however, that

(3) any reduction made pursuant to item two of this subparagraph i shall be in addition to any reduction made during the period mentioned in such item two pursuant to item two of subparagraph h of paragraph one of this subdivision m and item two of subparagraph g of such paragraph one. The amount of any reduction made pursuant to item two of this subparagraph i in the contribution of any such member for such portion of the period mentioned in such item two as precedes the payroll period, the first day of which is nearest to July first, nineteen hundred seventy shall be refunded without interest unless such reduction has been waived pursuant to subdivision g of this section, and provided further, however, that

(4) any such plan which may be provided for the fiscal year nineteen hundred seventy-nineteen hundred seventy-one for sanitation members shall designate a reduced-rate-of-contribution factor of five percentum.

(5) In putting into effect and carrying out such plan, the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of this subparagraph (i), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(j) Fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two. (1) Subject to the provisions of the succeeding items of this subparagraph (j), the mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, may provide for a

pensions-providing-for-increased-take-home-pay plan for other-than-authority-or-public-benefit-corporation members for the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two.

(2) In the event that a bill entitled "An act to amend the administrative code of the city of New York and chapter eight hundred seventeen of the laws of nineteen hundred sixty-nine, entitled, `An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for members of the New York city employees' retirement system who are career pension plan members or fifty-five-year-increased-service-fraction members, and for certain beneficiaries of such system', in relation to establishing a new career pension plan for certain members of the New York city employees' retirement system" is enacted into law, any such plan which may be provided pursuant to item one of this subparagraph (j):

(a) shall apply to sanitation members (as defined in subdivision sixty-four of section 13-101 of this chapter) who have elected the benefits of section 13-160 of this chapter or who, pursuant to section 13-154 of this chapter, are members of a retirement plan permitting retirement upon completion of twenty-five years of allowable service in the uniformed force of the department of sanitation (as defined in subdivision a of section 13-154 of this chapter); and

(b) shall not apply to any other-than-authority-or-public-benefit corporation members other than the sanitation members mentioned in subitem (a) of this item two.

(3) Any such plan which may be provided pursuant to items one and two of this subparagraph (j) for the sanitation members designated in such item two shall prescribe as to such members a reduced-rate-of-contribution factor of five per centum.

(4) In the event that the bill referred to in item two of this subparagraph (j) is not enacted into law:

(a) any plan which may be provided pursuant to item one of this subparagraph (j) for other-than-authority-or-public-benefit-corporation members who are not sanitation members shall designate a reduced-rate-of-contribution factor of four per centum; and

(b) any such plan which may be provided for sanitation members shall designate as to such members a reduced-rate-of-contribution factor of five per centum.

(5) In putting into effect and carrying out any plan pursuant to the applicable provisions of the preceding items of this subparagraph (j), the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of the preceding items of this subparagraph (j), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one.

(6) Nothing contained in the preceding items of this subparagraph (j) shall be construed as impairing or affecting any rights with respect to a pensions-providing-for-increased-take-home-pay plan which may be acquired by a correction member (as defined in subdivision forty of section 13-101 of this chapter) pursuant to paragraph two of subdivision i of section 13-155 of this chapter and paragraph seven of subdivision a of section 13-226 of this title.

(k) Fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three. (1) Subject to the provisions of the succeeding items of this subparagraph (k), the mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may provide for a pensions-providing-for-increased-take-home-pay plan for other-than-authority-or-public-benefit-corporation members (as defined in subdivision twenty-one of section 13-101 of this chapter) for the fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three analogous to that authorized for other-than-authority members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three

by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two.

(2) Any such plan which may be provided pursuant to item one of this subparagraph (k) for sanitation members (as defined in subdivision sixty-four of section 13-101 of this chapter) shall prescribe a reduced-rate-of-contribution factor of five per centum with respect to sanitation members.

(3) In the event that a bill entitled "An act to amend the administrative code of the city of New York and chapter eight hundred seventeen of the laws of nineteen hundred sixty-nine, entitled `An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for members of the New York city employees' retirement system who are career pension plan members or fifty-five-year-increased-service-fraction members, and for certain beneficiaries of such system', in relation to establishing a new career pension plan for certain members of the New York city employees' retirement system" is enacted into law, no plan shall be provided pursuant to item one of this subparagraph (k) with respect to any other-than-authority-or-public-benefit-corporation members who are not sanitation members.

(4) In the event that such bill referred to in item three of this subparagraph (k) is not enacted into law, any such plan which may be provided pursuant to item one of this subparagraph (k) for other-than-authority-or-public-benefit-corporation members who are not sanitation members shall prescribe a reduced-rate-of-contribution factor of four per centum with respect to such other-than-authority-or-public-benefit-corporation members who are not sanitation members.

(5) In putting into effect and carrying out any plan pursuant to the applicable provisions of the preceding items of this subparagraph (k), the mayor shall have powers analogous to those granted to the board of estimate by subdivision j of this section. For the purpose of carrying out the provisions of the preceding items of this subparagraph (k), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later.

(6) Pursuant to paragraph two of subdivision i of section 13-155 of this chapter, correction members (as defined in subdivision forty of section 13-101 of this chapter), shall be subject to the provisions of paragraph eight of subdivison a of section 13-226 of this title.

2. (a) Fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June first, nineteen hundred sixty-three, for a pensions-providing-for-increased-take-home-pay plan for all members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two. In putting into effect and carrying out such plan, each such authority and the mayor, shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate.

(b) Fiscal year nineteen hundred sixty-four-nineteen hundred sixty-five. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June first, nineteen hundred sixty-four, for a pensions-providing-for-increased-take-home-pay plan for all members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-four-nineteen hundred sixty-five analogous to that authorized for such members for the fiscal year nineteen hundred sixty-three-nineteen hundred sixty-four by chapter five hundred eighteen of the laws of nineteen hundred sixty-three. In putting into effect and carrying out such plan, each such authority and the mayor, shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate.

(c) Fiscal year nineteen hundred sixty-five-nineteen hundred sixty-six. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority may each separately provide, by reasolution*9 adopted by the authority and approved by the mayor prior to June nineteenth, nineteen hundred sixty-five, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-five-nineteen hundred sixty-six, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this subparagraph (c), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June nineteenth.

(d) Fiscal year nineteen hundred sixty-six-nineteen hundred sixty-seven. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June nineteenth, nineteen hundred sixty-six, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-six-nineteen hundred sixty-seven, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this subparagraph (d), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June nineteenth.

(e) Fiscal year nineteen hundred sixty-seven-nineteen hundred sixty-eight. The triborough bridge and tunnel authority, the New York city housing authority and the New York city transit authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June seventeenth, nineteen hundred sixty-seven, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-seven-nineteen hundred sixty-eight, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this subparagraph (e), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June seventeenth.

(f) Fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine. (1) The triborough bridge and tunnel authority and the New York city housing authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June seventeenth, nineteen hundred sixty-eight, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan shall designate a reduced-rate-of-contribution factor of four percentum. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this item (1) wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June seventeenth.

(2) Except for members who are officers and employees of the New York city transit authority and who, if a bill entitled "An act to amend the administrative code of the city of New York, in relation to service retirement, vested retirement allowances and certain other benefits under the New York city employees' retirement system, with respect to

certain officers and employees of the New York City Transit Authority" is enacted into law, elect pursuant thereto a plan of retirement upon completion of twenty years of service with a retirement allowance payable at or after age fifty, the New York city transit authority may provide by resolution adopted by the authority and approved by the mayor prior to June seventeenth, nineteen hundred sixty-eight, for a pensions-providing-for-increased-take-home-pay for members who are officers and employees of the authority for the fiscal year nineteen hundred sixty-eight-nineteen hundred sixty-nine, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be provided for members who are eligible for the benefits of the career pension plan if a bill entitled "An act to amend the administrative code of the city of New York and the military law, in relation to providing additional rights, privileges and benefits for members of the New York city employees' retirement system and establishing an optional career pension plan for certain of such members" is enacted into law, regardless of whether such members elect the benefits of such plan, shall designate a reduced-rate-of-contribution factor of four per centum. In putting into effect and carrying out such plan, the authority and the mayor shall have powers analogous to those granted by subdivision j of this section to the authority and the board of estimate. For the purpose of carrying out the provisions of this item two, whenever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June seventeenth.

(g) Fiscal year nineteen hundred sixty-nine-nineteen hundred seventy. (1) The triborough bridge and tunnel authority and the New York city housing authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June sixteenth, nineteen hundred sixty-nine, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred sixty-nine-nineteen hundred seventy analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan shall designate a reduced-rate-of-contribution factor of four percentum. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to these granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this item (1), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(2) (a) Except as otherwise provided in sub-item (b) of this item two, the New York city transit authority may provide by resolution adopted by the authority and approved by the mayor prior to June sixteenth, nineteen hundred sixty-nine, for a pensions-providing-for-increased-take-home-pay plan for members who are officers and employees of the authority for the fiscal year nineteen hundred sixty-nine-nineteen hundred seventy, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be provided for members who are career pension plan members or who are eligible to elect to become career pension plan members, regardless of whether such members make such election, shall designate a reduced-rate-of-contribution factor of four percentum.

(b) No plan for pensions-providing-for-increased-take-home-pay shall be provided under sub-item (a) of this item two with respect to any officer or employee of such authority whose minimum period for service retirement, pursuant to an election made under section 13-161 of this chapter, is twenty years.

(c) In putting into effect and carrying out such plan authorized by sub-item (a) of this item two, the authority and the mayor shall have powers analogous to those granted by subdivision j of this section to the authority and the board of estimate. For the purpose of carrying out the provisions of this item two, whenever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(h) Fiscal year nineteen hundred seventy-nineteen hundred seventy-one. (1) The triborough bridge and tunnel authority and the New York city housing authority may each separately provide, by resolution adopted by the authority and approved by the mayor prior to June sixteenth, nineteen hundred seventy, for a

pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority providing such plan, for the fiscal year nineteen hundred seventy-nineteen hundred seventy-one, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan shall designate a reduced-rate-of-contribution factor of four percentum. In putting into effect and carrying out such plan, each such authority and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of this item one, wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(2) (a) Except as otherwise provided in sub-item (b) of this item two, the New York city transit authority may provide by resolution adopted by the authority and approved by the mayor prior to June sixteenth, nineteen hundred seventy, for a pensions-providing-for-increased-take-home-pay plan for members who are officers and employees of the authority, for the fiscal year nineteen hundred seventy-nineteen hundred seventy-one, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, provided, however, that any such plan which may be provided for members who are career pension plan members or who are eligible to elect to become career pension plan members, regardless of whether such members make such election, shall designate a reduced-rate-of-contribution factor of four percentum.

(b) No plan for pensions-providing-for-increased-take-home-pay shall be provided under sub-item (a) of this item two with respect to any officer or employee of such authority whose minimum period for service retirement, pursuant to an election made under section 13-161 of this chapter, is twenty years.

(c) In putting into effect and carrying out such plan authorized by sub-item (a) of this item two, the authority and the mayor shall have powers analogous to those granted by subdivision j of this section to the authority and the board of estimate. For the purpose of carrying out the provisions of this item two, whenever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean June sixteenth.

(i) Fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two. (1) In the event that a bill entitled "An act to amend the administrative code of the city of New York and chapter eight hundred seventeen of the laws of nineteen hundred sixty-nine, entitled, `An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for members of the New York city employees' retirement system who are career pension plan members or fifty-five-year-increased-service-fraction members, and for certain beneficiaries of such system', in relation to establishing a new career pension plan for certain members of the New York city employees' retirement system" is enacted into law, no plan for pensions-providing-for-increased-take-home-pay shall be provided for the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two or any subsequent fiscal year for members who are officers or employees of the triborough bridge and tunnel authority, the New York city housing authority, the New York city health and hospitals corporation or the New York city off-track betting corporation.

(2) Subject to the provisions of items three and four of this subparagraph (i), in the event that the bill mentioned in item one of this subparagraph (i) is not enacted into law, the triborough bridge and tunnel authority, the New York city housing authority, the New York city health and hospitals corporation and the New York city off-track betting corporation may each separately provide, by resolution adopted by the authority or corporation and approved by the mayor prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, for a pensions-providing-for-increased-take-home pay plan for members who are officers or employees of the authority or corporation providing such plan, for the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two, analogous to that authorized by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three with respect to members who were officers or employees of such authorities.

(3) Any such plan which may be provided pursuant to item two of this subparagraph (i) shall designate a reduced-rate-of-contribution factor of four per centum.

(4) In putting into effect and carrying out such plan, each such authority or corporation and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purpose of carrying out the provisions of items two and three of this subparagraph (i), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one.

(5) In the event that the bill mentioned in item one of this subparagraph (i) is enacted into law, no plan for pensions-providing-for-increased-take-home-pay shall be provided for members who are officers or employees of the New York city transit authority for the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two.

(6) Subject to the provisions of items seven, eight and nine of this subparagraph (i), in the event that the bill mentioned in item one of this subparagraph (i) is not enacted into law, the New York city transit authority may provide by resolution adopted by the authority and approved by the mayor prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, for a pensions-providing-for-increased-take-home-pay plan for members who are officers and employees of the authority, for the fiscal year nineteen hundred seventy-one-nineteen hundred seventy-two, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two.

(7) Any such plan which may be provided pursuant to item six of the subparagraph (i) for members who are career pension plan members or who are eligible to elect to become career pension plan members, regardless of whether such members make such election, shall designate a reduced-rate-of-contribution factor of four per centum.

(8) No plan shall be provided under item six of this subparagraph (i) with respect to any officer or employee of such transit authority whose minimum period for service retirement, pursuant to an election made under section 13-161 of this chapter, is twenty years.

(9) In putting into effect and carrying out any such plan authorized by items six and seven of this subparagraph (i), the authority and the mayor shall have powers analogous to those granted by subdivision j of this section to the authority and the board of estimate. For the purpose of carrying out the provisions of such items six and seven, whenever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one.

(10) Nothing contained in any of the preceding items of this subparagraph (i) shall be construed as impairing or affecting any rights with respect to a pensions-providing-for-increased-take-home-pay plan which may be acquired by a housing police member (as defined in subdivision thirty-six of section 13-101 of this chapter) or by a transit police member (as defined in subdivision thirty-two of section 13-101 of this chapter) pursuant to the applicable provisions of paragraph two of subdivision i of section 13-156 of this chapter, paragraph two of subdivision j of section 13-157 of this chapter and paragraph seven of subdivision a of section 13-226 of this title.

(j) Fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three. (1) Subject to the provisions of item ten of this subparagraph (j), in the event that a bill entitled "An act to amend the administrative code of the city of New York and chapter eight hundred seventeen of the laws of nineteen hundred sixty-nine, entitled, `An act to amend the administrative code of the city of New York, in relation to providing additional rights, privileges and benefits for members of the New York city employees' retirement system who are career pension plan members or fifty-five-year-increased-service-fraction members, and for certain beneficiaries of such system', in relation to establishing a new career pension plan for certain members of the New York city employees' retirement system", is enacted into law, no plan for pensions-providing-for-increased-take-home-pay shall be provided for the fiscal year

nineteen hundred seventy-two-nineteen hundred seventy-three or any subsequent fiscal year for members who are officers or employees of the triborough bridge and tunnel authority, the New York city housing authority, the New York city health and hospitals corporation, the New York city off-track betting corporation or the New York city housing development corporation.

(2) Subject to the provisions of items three, four and ten of this subparagraph (j), in the event that the bill mentioned in item one of this subparagraph (j) is not enacted into law, the triborough bridge and tunnel authority, the New York city housing authority, the New York city health and hospitals corporation, the New York city off-track betting corporation and the New York city housing development corporation may each separately provide, by resolution adopted by the authority or corporation and approved by the mayor prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, for a pensions-providing-for-increased-take-home-pay plan for members who are officers or employees of the authority or corporation providing such plan, for the fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three analogous to that authorized by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three with respect to members who were officers or employees of such authorities.

(3) Any such plan which may be provided pursuant to item two of this subparagraph (j) shall designate a reduced-rate-of-contribution factor of four per centum.

(4) In putting into effect and carrying out such plan, each such authority or corporation and the mayor shall have powers analogous to those granted by subdivision j of this section to each such authority and the board of estimate. For the purposes of carrying out the provisions of items two and three of this subparagraph (j), wherever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later.

(5) In the event that the bill mentioned in item one of this subparagraph (j) is enacted into law, no plan for pensions-providing-for-increased-take-home-pay shall be provided for the fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three for members who are officers or employees of the New York city transit authority; provided, however, that with respect to members who are officers or employees of the transit authority and who hold transit operating positions (as defined in subdivision sixty of section 13-101 of this chapter and who are not entitled to the benefits of the twenty-year pension plan provided for by section 13-161 of this chapter by reason of not having elected the benefits of section 13-161 of this chapter, the transit authority may provide by resolution adopted by the authority and approved by the mayor prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, for a pensions-providing-for-increased-take-home-pay plan for the fiscal year nineteen hundred seventy-two-nineteen hundred seventy-three, analogous to that authorized for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two, with respect to members who were officers or employees of the transit authority.

(6) Subject to the provisions of items seven, eight, nine and ten of this subparagraph (j), in the event that the bill mentioned in item one of this subparagraph (j) is not enacted into law, the New York city transit authority may provide by resolution adopted by the authority and approved by the mayor prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, for a pensions-providing-for-increased-take-home-pay plan for members who are officers and employees of the authority, for the fiscal year nineteeen hundred seventy-two-nineteen hundred seventy-three, analogous to that authorized for such members for the fiscal year nineteen hundred sixty-two-nineteen hundred sixty-three by chapter seven hundred eighty-seven of the laws of nineteen hundred sixty-two.

(7) Any such plan which may be provided pursuant to item six of this subparagraph (j) for members who hold

career pension plan positions (as defined in subdivision forty-seven of section 13-101 of this chapter) shall designate a reduced-rate-of-contribution factor of four per centum.

(8) No plan shall be provided under item six of this subparagraph (j) with respect to any officer or employee of such transit authority whose minimum period for service retirement, pursuant to an election made under section 13-161 of this chapter, is twenty years.

(9) In putting into effect and carrying out any such plan authorized by items six and seven of this subparagraph (j), the authority and the mayor shall have powers analogous to those granted by subdivision j of this section to the authority and the board of estimate. For the purpose of carrying out the provisions of such items six and seven, whenever the words "June first" appear in such subdivision j, such words shall be deemed to be and to mean the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later.

(10) Nothing contained in any of the preceding items of this subparagraph (j) shall be construed as impairing or affecting any rights with respect to a pensions-providing-for-increased-take-home-pay plan which may be acquired by a housing police member (as defined in subdivision thirty-six of section 13-101 of this chapter) or by a transit police member (as defined in subdivision thirty-two of section 13-101 of this chapter) pursuant to the applicable provisions of paragraph two of subdivision i of section 13-156 of this chapter, paragraph two of subdivision j of section 13-157 of this chapter and paragraph eight of subdivision a of section 13-226 of this title.

n. In any case where a plan for pensions-providing-for-increased-take-home-pay provided pursuant to the provisions of subparagraph (j) of paragraph one of subdivision m of this section or subparagraph (i) of paragraph two of such subdivision m or any subsequently enacted law prescribes a reduction of member contributions with respect to a member for a prescribed period and in any case where any such provision prohibits the adoption of a pensions-providing-for-increased-take-home-pay plan with respect to a member for a prescribed period, an election by such member to become a career pension plan member or a fifty-five-year-increased-service-fraction member, where such election is authorized by the applicable provisions of this chapter, shall constitute a waiver of any and all claims by such member, arising out of any consent determination made under section two hundred twenty of the labor law, to any increased-take-home-pay plan rights different from or greater than the rights, if any, prescribed with respect to such member for such period by or pursuant to the provisions of such subparagraph (j) or (i) or such subsequently enacted law.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under this standard, a police officer who allegedly hurt his back while leaning over to place a ticket on a car windshield was held not to be entitled to accidental disability retirement. Matter of Lichtenstein v. Board of Trustees, 57 N.Y.2d 1010, 457 N.Y.S.2d 472 (1982).The same result was reached where the alleged injury occurred to an officer who was removing barriers at a concert in a city park. Del Grosso v. Board of Trustees, 113 Misc.2d 440, 448 N.Y.S.2d 933 (Sup. Ct. New York Co. 1982).

**CASE NOTES**

¶ 1. The decision to deny accidental disability benefits was rationally based where there was evidence to support the respondent's finding that the there was no causal relationship between the line of duty incident and petitioner's present complaints. The court noted that petitioner continued to work for 10 years after the incident and did not seek medical attention for the claimed condition until several years after the incident. Mooney v. Bratton, 234 A.D.2d 27, 650 N.Y.S.2d 556. (App. Div. 1st Dept. 1996).

¶ 2. A line-of-duty injury claim must be based upon a sudden fortuitous mischance, unexpected, out of the ordinary and injurious in impact. An injury that occurs in the absence of an unexpected event but rather as a result of activity undertaken in the performance of ordinary employment duties, considered in light of the particular employment in question, is not an an "accidental injury" within the meaning of the statute. Thus, accidental disability benefits will be denied for injuries sustained while performing routine duties but not resulting from unexpected events. Where an officer suffered from depression but could not tie the depression to a distinct accident, he was not entitled to accidental disability retirement. Hipple v. Ward, 146 A.D.2d 201, 539 N.Y.S.2d 917 (1st Dept. 1989)

¶ 3. On the other hand, an "accidental injury" was found to have occurred where a police officer lost his balance and fell to the floor twisting his knee and where an officer while entering his patrol car slipped on a wet pavement damaging an elbow (Matter of McCambridge v. McGuire, 62 N.Y.2d 563, 479 N.Y.S.2d 171 [1984]), and where an officer sustained a knee injury while falling in an overcrowded gym during a boxing lesson at the police academy (Matter of Carr v. Ward, 119 A.D.2d 163, 506 N.Y.S.2d 338 [1st Dept. 1986]).

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-153*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-153 Credit for service.

a. Subject to the provisions of subdivision c of this section, notwithstanding any inconsistent provision of law, any member of the uniformed transit police force, uniformed correction force, housing police service and uniformed force of the department of sanitation (any of which forces or service is hereinafter referred to as a "NYCERS uniformed force") who immediately prior to his or her appointment or employment as such, has served or shall have served as a member of any other NYCERS uniformed force:

(i) shall have the time served by him or her in any of such positions counted as service in his or her present service in any of such positions in determining his or her compensation and promotion in any of such positions; and

(ii) upon his or her application therefor, shall have any of such time which constitutes allowable service counted as service in his or her present service in any of such positions in determining his or her retirement and pension in any of such positions.

b. (1) Subject to the provisions of subdivision c of this section, notwithstanding any provision of law to the contrary, in any case where, pursuant to section forty-three of the retirement and social security law, any member of a NYCERS uniformed force shall have transferred or shall transfer to the retirement system, credit for service in the uniformed police force of the police department of the city or credit for service in the uniformed force of the fire department of the city, and such service in either such uniformed police force or uniformed force of the fire department immediately preceded or immediately precedes the service of such member in such NYCERS uniformed force, such member shall have the time so served by him or her in such police department or fire department counted as service in his or her present service in any such NYCERS uniformed force for purposes of eligibility for benefits and to determine

the amount of benefits as a member of the retirement system.

(2) Subject to the provisions of subdivision c of this section, in any case where:

(i) a member of a NYCERS uniformed force was credited by the police pension fund, subchapter two or the department pension fund, subchapter two with allowable service as a member of either such pension fund; and

(ii) such allowable service immediately preceded the commencement of the service of such member in such NYCERS uniformed force; and

(iii) such member is ineligible to transfer credit for such allowable service in such police department or fire department to the retirement system pursuant to section forty-three of the retirement and social security law; such member shall have such credited service as a member of either such pension fund counted as service in his present position in any such NYCERS uniformed force for purposes of eligibililty for benefits and to determine the amount of benefits as a member of the retirement system, provided such member prior to July first, nineteen hundred eighty-two files with the retirement system, an application to obtain such service credit and prior to such July first pays into the annuity savings fund of the retirement system a sum equal to the amount of the employee contributions required to have been paid to such police pension fund or fire department pension fund, as the case may be, for such period of credited service.

c. In any case where, by reason of credit for previous allowable service acquired pursuant to subdivision a or subdivision b of this section, the date of completion of a member's minimum period for service retirement became or becomes earlier than such date would have been or would be if such credit for such previous allowable service had not been so acquired, there shall be effected with respect to such member:

(i) such increase in such member's normal rate of contribution, effective as of the date of the commencement of the member's allowable service in the NYCERS uniformed force with respect to which such previous allowable service is to be credited, as may be necessary to reflect such earlier date of eligibility for service retirement; and

(ii) the charging of such member who acquired or acquires such service credit with a contribution rate deficiency:

(A) which shall accrue from the date on which such member commenced allowable service in the NYCERS uniformed force with respect to which such previous allowable service is credited; and

(B) which shall be paid prior to the effective date of retirement and if partially paid prior to such date, shall result in pro rata credit for such previous allowable service.

d. In no event shall any person be allowed credit for previous allowable service rendered in any of the hereinabove mentioned positions so as to cause such previous allowable service to be credited and transferred as service in any of the above named positions more than once.

**HISTORICAL NOTE**

Amended chap 941/1981 § 2

**CASE NOTES**

¶ 1. The Board of Trustees, in deciding to award ordinary disability rather than accidental disability, can rely upon the Medical Board's recommendation that there is no causal relation between the claimed disability and a service related injury, even though the Medical Board did not examine the pension member. Although factors such as the member's failure to return to full duty following a service related injury and the absence of a prior medical history of the disabling condition may be relevant on the issue of causation, none of these factors is dispositive, and a denial of accidental disability benefits may be upheld despite their existence. Thus, so long as the determination is based on credible evidence, i.e. where there is a rational explanation for the findings of the Board of Trustees based on review of records, x-rays, etc., by the Medical Board, the determination will be upheld. Meyer v. Board of Trustees, Article 1-B Pension Fund, 90 N.Y.2d 139, 659 N.Y.S.2d 215.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-154 Optional retirement after twenty-five years of allowable service rendered in the uniformed force of the department of sanitation; retirement allowances for service in such force.

a. For the purposes of this section the uniformed force of the department of sanitation shall be deemed to consist of sanitation worker, assistant foreman, foreman, district superintendent, senior superintendent, supervising superintendent, principal superintendent, city superintendent, director of operations and general superintendent.

b. Any member of the uniformed force of the department of sanitation who (1) is appointed to such uniformed force after the first day of July nineteen hundred sixty-three, and (2) elects to contribute for the right to retire after twenty-five years of allowable service, and (3) selects a service-fraction of one one-hundredth of his or her final compensation, and (4) shall have at least twenty-five years of allowable service in said uniformed force, may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired.

c. 1. Any member of the uniformed force of the department of sanitation who is in such uniformed force on the first day of July, nineteen hundred sixty-three, and who has or shall have at least twenty-five years of allowable service in said uniformed force, may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, such member desires to be retired.

2. A service fraction heretofore selected by a member of the said uniformed force shall not affect his or her right to retire after twenty-five years of allowable service as provided in this subdivision c.

d. 1. Except as otherwise provided in section 13-160 of this chapter, upon retirement for service, a member of

such force (including any such member not subject to subdivision b or c of this section) shall receive, in lieu of any other retirement allowance for service provided for by this title, a retirement allowance which shall consist of:

(a) an annuity which shall be the actuarial equivalent of such member's accumulated deductions at the time of his or her retirement; and

(b) a pension which shall be equal to one service fraction of such member's final compensation, multiplied by the number of years of his or her allowable service; and

(c) a further pension of one-half of one service fraction of such member's final compensation multiplied by the number of his or her years of allowable service in such force, rendered after July second, nineteen hundred sixty-five; and

(d) a pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which such member may be entitled; if any.

2. The service fraction used in computing the pension of a member of such force pursuant to subparagraphs (b) and (c) of paragraph one of this subdivision d shall be as hereinafter in this paragraph two prescribed, provided such service fraction is in effect with respect to such member at the time of the filing of his or her application for service retirement:

(a) In the case of any such member who elected a service fraction of one one-hundredth of his or her final compensation pursuant to and at the time permitted by subdivision b, e or f of this section or paragraph six of subdivision a of section 13-172 of this chapter, or to whom a service fraction of one one-hundredth of his or her final compensation was assigned pursuant to subdivision g of this section, such service fraction shall be one one-hundredth;

(b) In the case of any such member who, on or before June thirtieth, nineteen hundred thirty, by his or her written election duly acknowledged and filed with the board, consented to the necessary deductions from his or her compensation for an increase of pension to a pension based upon a service fraction of one one-hundred-twentieth, or who, on or after July first, nineteen hundred thirty, elected age fifty-five as his or her minimum retirement age, pursuant to and at the time permitted by section 13-164 of this chapter, such service fraction shall be one one-hundred-twentieth; and

(c) In the case of any other such member, such service fraction shall be that applicable to his group pursuant to the provisions of subdivision b of section 13-172 of this chapter.

e. (1) Notwithstanding any other provision of this section or any other provision of this chapter, any member of the uniformed force of the department of sanitation who was appointed to such uniformed force after the first day of July, nineteen hundred sixty-three and prior to April twenty-fourth, nineteen hundred sixty-four, who has not elected to contribute for the right to retire after twenty-five years of allowable service pursuant to the provisions of subdivision b of this section, may, by a written application duly executed and acknowledged and filed with the board, prior to the first day of October, nineteen hundred sixty-four, elect to contribute for the right to retire after twenty-five years of such service and select a service fraction of one one-hundredth of his or her final compensation.

(2) Any such member who makes such election and selection pursuant to the provisions of paragraph one of this subdivision e shall be entitled to retire for service pursuant to the provisions of subdivision b of this section.

f. Notwithstanding any other provision of this section or any other provision of this chapter, any member of the uniformed force of the department of sanitation who was in such force on the first day of July, nineteen hundred sixty-three, may, by a written application executed and acknowledged and filed with the board, prior to the first day of October, nineteen hundred sixty-four, elect to contribute to the retirement system on the basis of a service fraction of one one-hundredth of his or her final compensation.

g. Notwithstanding any other provision of this section or any other provision of this chapter, any person who is appointed a member of the uniformed force of the department of sanitation on or after April twenty-fourth, nineteen hundred sixty-four, shall contribute to the retirement system on the basis of a service fraction of one one-hundredth of his final compensation. Any such member, upon completion of at least twenty-five years of allowable service in such uniformed force, may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, and upon his or her retirement such member shall receive a retirement allowance consisting of the components and computed in the manner specified in subdivision d of this section.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-155 Optional retirement after twenty or twenty-five years of allowable service rendered in the uniformed correction force.

a. A new correction member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the uniformed correction force, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty years of allowable service rendered in such correction force, by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment as a member of the uniformed correction force he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty years as a member of such police pension fund. Upon the retirement of such a new correction member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay, which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which such member may then be entitled, if any; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed correction force on and after July first, nineteen hundred sixty-five, credited to him or her, which aggregates not more than twenty years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one, acquired other than in the uniformed correction force, and (2) the number of years of service in the uniformed correction force credited to him or her in excess of twenty.

b. A new correction member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the uniformed correction force, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty-five years of allowable service rendered in such correction force, by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment as a member of the uniformed correction force he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such police pension fund. Upon the retirement of such a new correction member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed correction force on and after July first, nineteen hundred sixty-five, credited to him or her, which aggregates not more than twenty-five years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, plus

(c) seventy-five per cent of one-sixtieth of his final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, and (2) the number of years of service in the uniformed correction force credited to him or her in excess of twenty-five.

c. A prior correction member may elect, on or before September thirtieth, nineteen hundred sixty-five, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-five at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he was appointed a member of the uniformed correction force, and (4) where such member

was appointed to the uniformed correction force prior to March twenty-ninth, nineteen hundred forty, such police pension fund maintained pursuant to such subchapter two had been in existence on the date of such appointment. Upon the retirement of such a prior correction member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while a member of the uniformed correction force, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-five, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) fifty-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed twenty years of service in the uniformed correction force, prior to October first, nineteen hundred fifty-one, credited to him or her, plus

(b) seventy-five per cent of one-fortieth of his final compensation multiplied by not to exceed the number of years of service in the uniformed correction force on and after October first, nineteen hundred fifty-one, credited to him or her, which, together with the years of service in such force credited to him or her prior to such date, aggregates twenty years of service, plus

(c) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, plus

(d) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one, acquired other than in the uniformed correction force, and (2) the number of years of service in the uniformed correction force credited to him or her in excess of twenty.

d. A prior correction member may elect, on or before September thirtieth, nineteen hundred sixty-five, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-five at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he or she was appointed a member of the uniformed correction force, and (4) where such member was appointed to the uniformed correction force prior to March twenty-ninth, nineteen hundred forty, such police pension fund maintained pursuant to such subchapter two had been in existence on the date of such appointment. Upon the retirement of such a member for service he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while a member of the uniformed correction force, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-five, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) fifty-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed twenty-five years of service in the uniformed correction force prior to October first, nineteen hundred fifty-one, credited to him or her, plus

(b) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed correction force on and after October first, nineteen hundred fifty-one, credited to him or her, which, together with the years of service in such force credited to him or her prior to such date, aggregates twenty-five years of service, plus

(c) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, plus

(d) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one acquired other than in the uniformed correction force, and (2) the number of years of service in the uniformed correction force credited to him or her in excess of twenty-five.

e. Any correction member who has elected pursuant to this section, optional retirement after twenty or twenty-five years of allowable service and who shall have attained the minimum period of service retirement elected by him or her, upon his or her own written application to and filed with the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be retired as of the date specified in said application, provided that at the time so specified for his or her retirement, his or her term or tenure of office or employment shall not have terminated or have been forfeited, and provided further that upon his or her request in writing, the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective.

f. Notwithstanding any other provision of this section, the provisions of section two hundred seven-d of the general municipal law shall apply to any correction member in the same manner and to the same extent as if the definition of "policeman" in such section included a paid officer or member of the uniformed correction force; provided, however, that any such member shall not be entitled to any rights or benefits under such section two hundred seven-d in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title, who had elected a minimum period of service as a prerequisite for eligibility for retirement for service and who had served in the city police force beyond such minimum period of service, were to retire for any cause whatsoever on the same date as that on which such correction member retires for any cause whatsoever, the provisions of such section two hundred seven-d would not be applicable, operative or effective for determining the rights or benefits of such member of the city police force.

g. (1) Notwithstanding the provisions of subdivisions a, b, c and d of this section, a correction member shall,

upon retirement for service, and in lieu of any lesser amount prescribed by the applicable provisions of such subdivisions or otherwise, receive a retirement allowance on account of his or her minimum period of service rendered as a member of the uniformed correction force, which shall, subject to the provisions of this subdivision g, be equal to one-half of his or her annual compensation earnable upon the date of his or her retirement; provided, however, that any such member shall not be entitled to a retirement allowance, determined under and pursuant to the foregoing provisions of this paragraph one, on account of his or her minimum period of such service, in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title, who had elected completion of a minimum period of service as a prerequisite for eligibility for retirement for service, were to retire for service on the same date as such correction member, the provisions of subdivision one of section two hundred seven-e of the general municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, would not be applicable, operative or effective for determining the rights to a retirement allowance of such member of the city police force for such minimum period of service and would not provide for such member of such police force, the retirement allowance specified in such subdivision one for such minimum period of service, in lieu of any lesser benefit otherwise prescribed.

(2) The addition and computation of a further pension, in order to provide such retirement allowance under paragraph one of subdivision g for a correction member, shall be subject to the terms and conditions of subdivision two of section two hundred seven-e of the general municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, in the same manner and to the same extent as if the term "uniformed force of the police department of such city", mentioned in such subdivision, included the uniformed correction force.

(3) Where additional retirement benefits are payable to correction members under the provisions of this section, other than the provisions of this subdivision and subdivision f thereof, or are required to be paid under the provisions of section two hundred seven-d of the general municipal law, as made applicable by the provisions of such subdivision f, such additional benefits shall be paid, for service in addition to and in excess of the minimum service requirements, in addition to the minimum retirement benefits required to be paid by this subdivision g.

h. Notwithstanding the provisions of section 13-166 of this chapter or any other section of the code to the contrary, no correction member electing optional retirement pursuant to this section, who is on the date of such election sixty-three or more years of age or who on or after such date attains the age of sixty-three years, shall continue serving as a member of the uniformed correction force but shall be retired, provided, however, that any such member who is not eligible for retirement at the age of sixty-three may continue to serve as a member of such force only until such time as he or she becomes eligible for retirement for service.

i. (1) The provisions of this section shall apply to correction members as herein provided, notwithstanding the provisions of sections 13-125 and 13-172 of this chapter or any other provision of the code or law to the contrary.

(2) Except as otherwise provided in this section, on and after July first, nineteen hundred sixty-five, each correction member shall have and shall be entitled and subject to the same rights, benefits, privileges and obligations as a member of the police force of the city who is a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, with respect to the matters provided for in sections 13-219, 13-225, 13-226, 13-239, 13-242, 13-243, 13-244, 13-251, 13-252, 13-254, 13-256, 13-257, 13-258, 13-261, 13-261.3 and 13-262 of such subchapter two; provided, however, that:

(a) each correction member shall have and shall be entitled and subject to such rights, benefits, privileges and obligations as to such matters only in so far as such rights, benefits, privileges and obligations accrue on and after July first, nineteen hundred sixty-five, and nothing contained in this paragraph two shall confer upon or create in relation to any correction member any such right, benefit, privilege or obligation with respect to any period of time or event occurring before July first, nineteen hundred sixty-five; and

(b) such rights, benefits, privileges and obligations conferred upon or created in relation to each correction

member by this paragraph two with respect to such matters provided for in such sections of such subchapter two, shall be in lieu of any and all rights, benefits, privileges and obligations which, if such member were not a correction member, (1) would accrue to him or her under this chapter, on and after July first, nineteen hundred sixty-five, with respect to such matters, or (2) he or she would have and would be entitled and subject to under this chapter, with respect to such matters, for any period of time on and after such date, or by reason of any event occurring on or after such date; and

(c) any and all rights, benefits, privileges and obligations of a correction member under this chapter, in so far as they accrued prior to July first, nineteen hundred sixty-five, or arose from or were based upon any event occurring prior to such date, shall be governed by and determined in accordance with the provisions of this chapter which would be applicable to such member if he or she were not a correction member; and

(d) for the purpose of determining the rights, benefits, privileges and obligations of a correction member under this paragraph two, nothing contained in subparagraphs (a) and (c) of this paragraph two shall be construed as depriving any such member (1) of credit, as otherwise granted or authorized by the provisions of this chapter, for city-service rendered prior to July first, nineteen hundred sixty-five, or (2) of credit for contributions made by such member prior to such date, or (3) of rights, accruing prior to such date, with respect to any plan for pensions-providing-for-increased-take-home-pay, provided that such rights as to such plan shall be reduced to the extent and in the manner provided in paragraph two of subdivisions c and d of this section and in paragraphs six and eleven of this subdivision i.

(3) The rights, benefits, privileges and obligations conferred upon or created in relation to correction members by paragraph two of this subdivision i shall be determined by the retirement system in accordance with the actuarial tables adopted from time to time for the police pension fund maintained pursuant to subchapter two of chapter two of this title and such tables shall be employed by the retirement system, in making any such determination, in the same manner as they are employed under such subchapter two in determining the corresponding rights, benefits, privileges and obligations of members of such police pension fund.

(4) The rights, benefits, privileges and obligations conferred upon or created in relation to correction members by paragraph two of this subdivision i shall be administered by the retirement system pursuant to its rules and regulations and nothing contained in this section or in any other law shall be construed as conferring upon the board of trustees of the police pension fund maintained pursuant to subchapter two of chapter two of this title, or the medical board or any other agency of such pension fund, any jurisdiction, power or duties to administer such rights, benefits, privileges or obligations or to adopt rules or regulations relating thereto.

(5) Notwithstanding any other provision of this section, where any part of the principal and interest with respect to any loan made to a member pursuant to section 13-140 of this chapter remains unpaid at the time when such member seeks to elect to become a correction member pursuant to the applicable provisions of subdivisions a, b, c and d of this section, such member shall not have the right to make such election unless he or she shall execute and acknowledge, and file with the board, a written agreement providing that from and after the execution of such agreement, all of his or her obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be governed by section 13-239 of this title, and that the terms and conditions of such loan may be changed or modified by the board, with respect to any principal thereof and interest thereon remaining unpaid, so as to conform with the provisions of section 13-239 of this title. For the purpose of this paragraph and of paragraph two of this subdivision i, wherever the term "pension fund" appears in section 13-239 of this title, it shall be deemed to mean the retirement system.

(6) In any case where an ordinary death benefit or accidental death benefit is payable pursuant to the provisions of paragraph two of this subdivision i and the applicable provisions of section 13-243 or section 13-244 of this title, as the case may be, by reason of the death of a prior correction member, any reserve-for-increased-take-home-pay payable or allocable to any beneficiary under such provisions shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section and the amount of the deduction from such reserve, as

prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter.

(7) In any case where an accidental death benefit is payable, pursuant to the provisions of paragraph two of this subdivision i and section 13-244 of this title, by reason of the death of a correction member, the provisions of section 13-244 of this title prescribing that the pension payable thereunder shall in no case be less than one-half of the full salary payable to a first-grade patrol officer on the date of death of such employee, shall not apply to the determination of the amount of the death benefit payable by reason of the death of such correction member, and the amount of such death benefit, including any pension payable, shall be determined as if such provisions were not included in such section 13-244 of this title.

(8) The provisions of section 13-150 of this chapter shall not apply to any correction member.

(9) For the purposes of paragraph two of this subdivision i, wherever the following terms appear in any section of subchapter two of chapter two of this title mentioned in such paragraph two, they shall be deemed to have the following meanings:

(a) "commissioner": head of the agency in which the correction member is employed;

(b) "medical board": the medical board of the retirement system;

(c) "city-service": city-service as defined in subdivision three of section 13-101 of this chapter.

(d) "board": the board of trustees of the retirement system.

(e) "police service": allowable service in the uniformed correction force as a member of such force, excluding any service credit acquired by transfer under any provision of law.

(f) "discontinued member": a correction member who has discontinued service in the uniformed correction force and has a vested right to a retirement allowance under the provisions of section 13-256 of this title.

(10) For the purposes of paragraph two of this subdivision i, the provisions of section 13-252 of this title shall not be applicable to a correction member for whom application for retirement for accident disability is made, in any case where the city-service claimed to have resulted in the alleged disability of such member was performed prior to July first, nineteen hundred sixty-five.

(11) In any case where a retirement allowance for accident disability is payable, pursuant to the provisions of paragraph two of this subdivision i and section 13-258 of this title, with respect to a prior correction member, any reserve-for-increased-take-home-pay constituting the basis of a pension payable pursuant to subdivision two of such section 13-258 of this title, shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section, and the amount of the deduction from such reserve, as prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter. The pension payable with respect to such member pursuant to such subdivision two of such section 13-258 of this title shall be the actuarial equivalent of the portion of such reserve remaining after such deduction.

(12) For the purposes of paragraph two of this subdivision i, the provisions of section 13-262 of this title shall be deemed to refer to a beneficiary receiving or entitled to receive a retirement allowance under subdivision a, b, c or d of this section, who re-enters city-service.

(13) The applicability of section 13-225 of this title to each prior correction member, pursuant to the provisions

of paragraph two of this subdivision i, shall be subject to the provisions of the opening paragraph of subdivision c or d of this section, as the case may be, with respect to rate of contribution.

(14) (a) For the purpose of computing an annuity and a pension, pursuant to paragraphs one and two of subdivision c of section 13-256 of this title, for a discontinued member, service credit acquired by such member pursuant to section forty-three of the retirement and social security law and accumulated contributions transferred pursuant to such section shall be excluded.

(b) For city-service credited to a discontinued member, other than allowable service in the uniformed correction force as a member of such force, such member shall receive, in lieu of any other pension under section 13-256 of this title for such other service:

(i) a pension which shall be equal to fifty-five per cent of one-sixtieth of his or her final compensation multiplied by the number of years of such other city-service rendered prior to October first, nineteen hundred fifty-one; and

(ii) a pension which shall be equal to seventy-five per cent of one-sixtieth of his final compensation multiplied by the number of years of such other city-service rendered on and after October first, nineteen hundred fifty-one.

j. For the purposes of this section, the words, "final compensation", shall mean the average annual compensation earnable by a member for city-service during the last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

k. In the event that a correction member, without having previously retired as such member, shall cease to be a member of the uniformed correction force and shall enter upon any other form of city-service, the provisions of subdivision g of section 13-107 of this chapter shall be inapplicable to such member, and in the event that any benefit shall become payable under this chapter to such member or to any beneficiary of such member, while such member is performing any such other form of city-service, his or her service in the uniformed correction force shall be credited and treated in the same manner as such other form of city-service.

l. Nothing contained in this section shall affect or decrease the amount of the contributions due from any correction member for any period prior to July first, nineteen hundred sixty-five or give rise to any right on the part of any such member to a refund of any contributions made by him or her for any period prior to such date or to any benefit in lieu of such refund.

m. The provisions of section 13-108 of this chapter shall be inapplicable to any correction member so long as he or she shall be such a member.

n. (1) The election by any correction member of optional retirement after twenty or twenty-five years of allowable service pursuant to the applicable provisions of subdivisions a, b, c and d of this section shall constitute a consent and agreement by each member that in the event that any provision of this section confers, or is adjudged by any court of competent jurisdiction to confer upon such member any right, benefit or privilege which is greater than the corresponding right, benefit or privilege which such member would possess if he or she were, under the same circumstances, a member of the police force of the city and a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, the legislature shall have the right and power to enact any law or laws or amendments thereto which diminish such right, benefit or privilege of such correction member so that the same becomes equal to such corresponding right, benefit or privilege which he or she would possess if he or she were a member of such police pension fund.

(2) In enacting this section, the legislature, in pursuance of the consent and agreement provided for by paragraph one of this subdivision n, does hereby reserve to the state of New York and to itself, the right and power to enact any law or laws or amendments thereto referred to in such paragraph one.

(3) For the purposes of this subdivision n, if any correction member was appointed a member of the uniformed correction force prior to March twenty-ninth, nineteen hundred forty, such police pension fund maintained pursuant to such subchapter two shall be deemed to have been in existence on the date of such appointment.

(4) Every written election of optional retirement executed and filed pursuant to the applicable provisions of subdivisions a, b, c and d of this section shall contain a copy of this subdivision n; provided, however, that the omission of such copy from any such written election shall not invalidate the consent granted and agreement made by such election, as herein prescribed.

o. (1) Any member who is a member of the uniformed correction force on the effective date of this subdivision o and at the time of filing an application as hereinafter in this subdivision provided, may, by a written application duly executed and acknowledged and filed with the board prior to January first, nineteen hundred seventy-one, elect to contribute to the retirement system for the right to be a correction member, under the terms and conditions set forth in this section and to retire after twenty or twenty-five years, as he or she may designate, of allowable service rendered in the uniformed correction force, at a retirement allowance computed pursuant to the applicable provisions of this section.

(2) The rate of contribution of any member making such election, shall, on and after July first, nineteen hundred sixty-five, or on the date of the commencement of his service both as a member of the uniformed correction force and as a member of the retirement system, whichever is later, be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which, on such later date applicable to him or her, he or she would have been contributing to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (a) he or she were on that date a member of such police pension fund and (b) he or she had elected, as his or her minimum period of service for retirement, the minimum period designated by him or her pursuant to this subdivision o, and (c) he or she had been appointed to the police force of the city on the date on which he or she was appointed to the uniformed correction force.

(3) (a) The reserve-for-increased-take-home-pay of any member who elects to become a correction member pursuant to the provisions of this subdivision o, shall, upon his or her death or retirement while a correction member, be reduced by deducting therefrom:

(i) all sums in such reserve, including regular interest thereon, credited to him or her with respect to any period prior to January fifth, nineteen hundred sixty-three, during which period he or she was a member of the uniformed correction force; and

(ii) all sums in such reserve, including regular interest thereon, credited to him or her with respect to the period from January fifth, nineteen hundred sixty-three to January twelfth, nineteen hundred sixty-seven, both dates inclusive, which sums are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent.

(b) Any sums deducted as provided for in subparagraph (a) of this paragraph three shall be withdrawn from the credit of such member and shall become the property of the retirement system.

(4) In the case of any member who elects to become a correction member pursuant to the provisions of this subdivision o, a comparison shall be made between:

(a) the total amount of the member contributions actually made by him or her as required contributions, from the date as of which he or she is required to begin contributing as a correction member under the provisions of paragraph two of this subdivision o up to the date of commencement of deductions from his or her compensation at the required rate of contribution prescribed by such paragraph two; and

(b) the total amount of the required member contributions which he or she would have made with respect to the period mentioned in subparagraph (a) of this paragraph four, if he or she had contributed during such period at the

required rate prescribed by such paragraph two.

(5) (a) If the total amount computed pursuant to subparagraph (a) of paragraph four of this subdivision o is less than the total amount computed pursuant to subparagraph (b) of such paragraph four, such member shall contribute the amount of such deficiency, with regular interest thereon, to the appropriate fund of the retirement system by deductions from his or her compensation at a rate elected by him or her, which shall not be less than five per cent of his or her compensation. The actuarial equivalent of any balance of such deficiency which remains unpaid at the time any benefit may become payable to or with respect to such member shall be deducted from the benefit otherwise payable.

(b) If the total amount computed pursuant to subparagraph (a) of paragraph four of this subdivision o is more than the total amount computed pursuant to subparagraph (b) of such paragraph four, the amount of such excess shall be refunded to him or her without interest.

(6) Any member who elects to become a correction member pursuant to the provisions of this subdivision o shall in no event have or obtain any right, benefit or privilege which is greater than he or she would have had or obtained if he or she had elected to become a correction member at the time when he or she was originally eligible to make such election.

p. (1) For the purposes of this subdivision p, the following terms shall mean and include:

(a) "Member of another uniformed force pension plan". A transit police member, a housing police member or a sanitation member who has elected and is entitled to the benefits of section 13-160 of this chapter.

(b) "Service as a member of another uniformed force pension plan." Credited service rendered:

(i) in the uniformed transit police force while a transit police member; or

(ii) in the housing police service while a housing police member; or

(iii) in the uniformed force of the department of sanitation, while a member entitled to the benefits of section 13-160 of this chapter.

(2) In any case where:

(a) the minimum period of service for retirement of a correction member is twenty years, and such member, after last becoming a member of the retirement system and prior to becoming a correction member, was a member of another uniformed force pension plan on the basis of election of twenty years as his or her minimum period of service for retirement; or

(b) the minimum period of service for retirement of a correction member is twenty-five years, and such member, after last becoming a member of the retirement system and prior to becoming a correction member, was a member of another uniformed force pension plan on the basis of election of twenty or twenty-five years as his or her minimum period of service for retirement; such prior service as a member of another uniformed force pension plan rendered after he or she last became a member of the retirement system shall be credited to him or her for all purposes, including eligibility for benefit, as if it had been rendered in the uniformed correction force while a correction member.

q. (1) Notwithstanding any other provision of this code to the contrary, any correction member who was a member in city-service on the effective date of this subdivision and who shall thereafter purchase service credit pursuant to paragraph two of this subdivision for any period of continuous city-service in a position in the uniformed correction force, which period: (a) next precedes the date on which such member last became a member; and

(b) begins not earlier than the date six months prior to the date on which he last became a member; shall be credited with such service for the purpose of determining the amount of his retirement allowance and in computing the

minimum period of service retirement elected by him. Service credit used pursuant to this subdivision to satisfy such requirements shall in no event exceed six months.

(2) A correction member who elects to purchase service credit under the provisions of paragraph one of this subdivision shall pay into the annuity savings fund of the retirement system the amount of the employee contributions required to have been paid into the retirement system for such service, within one year after this subdivision shall take effect.

*NYC Administrative Code 13-156*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-156 Optional retirement after twenty or twenty-five years of allowable service rendered in the housing police service.

a. A new housing police member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the housing police service, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty years of allowable service rendered in the housing police service by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment to the housing police service he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty years as a member of such police pension fund. Upon the retirement of such a new housing police member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay, which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed the number of years of service in the housing police service on and after July first, nineteen hundred sixty-four, credited to him or her, which aggregates not more than twenty years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the housing police service, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one, acquired other than in the housing police service, and (2) the number of years of service in the housing police service credited to him or her in excess of twenty.

b. A new housing police member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the housing police service, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty-five years of allowable service rendered in the housing police service, by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which such member would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment to the housing police service he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such police pension fund. Upon the retirement of such a new housing police member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed the number of years of service in the housing police service on and after July first, nineteen hundred sixty-four, credited to him or her, which aggregates not more than twenty-five years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the housing police service, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one acquired other than in the housing police service, and (2) the number of years of service in the housing police service credited to him or her in excess of twenty-five.

c. A prior housing police member may elect, on or before September thirtieth, nineteen hundred sixty-five, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-five at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he or she was appointed to the housing police service. Upon the retirement of such a prior

housing police member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while serving in the housing police service, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-five, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed twenty years of service in the housing police service credited to him or her, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the housing police service, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one, acquired other than in the housing police service, and (2) the number of years of service in the housing police service credited to him or her in excess of twenty.

d. A prior housing police member may elect, on or before September thirtieth, nineteen hundred sixty-five, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-five at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he or she was appointed to the housing police service. Upon the retirement of such a member for service he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while serving in the housing police service, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-five, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed twenty-five years of service in the housing police service credited to him or her, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the housing police service, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one acquired other than in the housing police service, and (2) the number of years of service in the housing police service credited to him or her in excess of twenty-five.

e. Any housing police member who has elected pursuant to this section, optional retirement after twenty or twenty-five years of allowable service and who shall have attained the minimum period of service retirement elected by him or her, upon his or her own written application to and filed with the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be retired as of the date specified in said application, provided that at the time so specified for his or her retirement, his or her term or tenure of office or employment shall not have terminated or have been forfeited, and provided further that upon his or her request in writing, the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective.

f. Notwithstanding any other provision of this section, the provisions of section two hundred seven-d of the general municipal law shall apply to any housing police member in the same manner and to the same extent as if the definition of "policeman" in such section included a paid officer or member of the housing police service; provided, however, that any such member shall not be entitled to any rights or benefits under such section two hundred seven-d in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title, who had elected a minimum period of service as a prerequisite for eligibility for retirement for service and who had served in the city police force beyond such minimum period of service, were to retire for any cause whatsoever on the same date as that on which such housing police member retires for any cause whatsoever, the provisions of such section two hundred seven-d would not be applicable, operative or effective for determining the rights or benefits of such member of the city police force.

g. (1) Notwithstanding the provisions of subdivisions a, b, c and d of this section, a housing police member shall, upon retirement for service, and in lieu of any lesser amount prescribed by the applicable provisions of such subdivisions or otherwise, receive a retirement allowance on account of his or her minimum period of service rendered in the housing police service, which shall, subject to the provisions of this subdivision g, be equal to one-half of his or her annual compensation earnable upon the date of his or her retirement; provided, however, that any such member shall not be entitled to a retirement allowance, determined under and pursuant to the foregoing provisions of this paragraph one, on account of his or her minimum period of such service, in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title, who had elected completion of a minimum period of service as a prerequisite for eligibility for retirement for service, were to retire for service on the same date as such housing police member, the provisions of subdivision one of section two hundred seven-e of the general municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, would not be applicable, operative or effective for determining the rights to a retirement allowance of such member of the city police force for such minimum period of service and would not provide for such member of such police force, the retirement allowance specified in such subdivision one for such minimum period of service, in lieu of any lesser benefit otherwise prescribed.

(2) Subject to the provisions of section 13-130 of this chapter, the addition and computation of a further pension, in order to provide the retirement allowance mentioned in paragraph one of this subdivision g for housing police members, shall be subject to the terms and conditions of subdivision two of section two hundred seven-e of the general

municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, in the same manner and to the same extent as if the term "uniformed force of the police department of such city", mentioned in such subdivision, included the housing police service.

(3) Where additional retirement benefits are payable to housing police members under the provisions of this section, other than the provisions of this subdivision and subdivision f thereof, or are required to be paid under the provisions of section two hundred seven-d of the general municipal law, as made applicable by the provisions of such subdivision f, such additional benefits shall be paid, for service in addition to and in excess of the minimum service requirements, in addition to the minimum retirement benefits required to be paid by this subdivision g.

h. (1) Subject to the provisions of paragraph three of this subdivision, when a housing police captain who is a housing police member shall have acted under regular detail in any capacity above the rank of housing police captain and shall have received additional compensation therefor, during a period or periods aggregating two years, such housing police officer, upon retirement pursuant to the provisions of subdivision e of this section, shall be entitled to a retirement allowance equal to that to which he would be entitled under the provisions of subdivision c of section 14-114 of this code, if:

(a) he had been a captain of the police force of the city who retired after having acted under regular detail in a capacity above the rank of captain in such city police force for a period or periods aggregating two years, and

(b) the highest salary received by him during such assumed period or periods of service in a capacity above the rank of captain in such city police force were identical with the highest salary actually received by such housing police officer during the period or periods of his service as a housing police officer in a capacity above the rank of housing police captain, and

(c) he had served in such city police force for a total period of time identical with his total period of service in the uniformed housing police service, and

(d) he had made during such assumed period of service in the city police force, the same election or elections as to waiver and withdrawal of waiver of a reduction in contributions by reason of any plan for pensions-providing-for-increased-take-home-pay, as he made during such period of service in the uniformed housing police service.

(2) Subject to the provisions of paragraph three of this subdivision, when a housing police captain who is a housing police member shall have served in the rank of housing police captain for a period of ten years, he shall have the same right to a retirement allowance as if he had been detailed to act as inspector and had served as such and had received additional compensation therefor during a period or periods of time aggregating two years. A housing police captain who is a housing police member and who shall have served as such less than ten years and more than five years, shall have the same right to a retirement allowance as if he had been detailed to act as a deputy inspector and had served as such and had received additional compensation therefor during a period or periods of time aggregating two years. For the purpose of determining the retirement allowance to which any housing police captain is entitled under the provisions of this paragraph, the salary of an inspector or deputy inspector of the police force of the city, at the time of such retirement of such housing police captain, shall be deemed to be identical with the salary of an inspector or deputy inspector, as the case may be, in the housing police service, at the same time. In the event that the detail of housing police captain acting as inspector, or deputy inspector, does not exist in the housing police service or the uniformed housing police service, then, for the purposes of this paragraph two, it shall be deemed that such detail does exist with the same salary as is applicable to such rank in the New York city police force at the time of such retirement of any such housing police captain.

(3) In any case where a housing police officer entitled to a retirement allowance under paragraph one or two of this subdivision, is a prior housing police member, and by reason of any such waiver or waivers by such housing police

officer, he is entitled to receive a pension-providing-for-increased-take-home-pay, in addition to the portions of his retirement allowance otherwise payable under the foregoing provisions of this subdivision, such pension-providing-for-increased-take-home-pay shall be reduced in the manner prescribed by paragraph two of subdivision c or d of this section, as the case may be, and the pension-providing-for-increased-take-home-pay paid to such housing police officer shall be such pension as so reduced, and the sums deducted from the reserve-for-increased-take-home-pay, as prescribed by such paragraph two, shall, at the time of retirement of such housing police officer, be withdrawn from his credit, shall become the property of the retirement system and should be paid into the contingent reserve fund provided for in section 13-127 of this code.

i. Notwithstanding the provisions of section 13-166 of this chapter or any other section of the code to the contrary, no housing police member electing optional retirement pursuant to this section, who is on the date of such election sixty-three or more years of age or who on or after such date attains the age of sixty-three years, shall continue serving in the housing police service but shall be retired, provided, however, that any such member who is not eligible for retirement at the age of sixty-three may continue to serve in such service only until such time as he or she becomes eligible for retirement for service.

j. (1) The provisions of this section shall apply to housing police members as herein provided, notwithstanding the provisions of sections 13-125 and 13-172 of this chapter or any other provision of the code or law to the contrary.

(2) Except as otherwise provided in this section and section 13-130 of this chapter, on and after July first, nineteen hundred sixty-five, each housing police member shall have and shall be entitled and subject to the same rights, benefits, privileges and obligations as a member of the police force of the city who is a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, with respect to the matters provided for in sections 13-219, 13-225, 13-226, 13-239, 13-242, 13-243, 13-244, 13-251, 13-252, 13-254, 13-256, 13-257, 13-258, 13-261, 13-261.2, 13-261.3 and 13-262 of such subchapter two; provided, however, that:

(a) each housing police member shall have and shall be entitled and subject to such rights, benefits, privileges and obligations as to such matters only in so far as such rights, benefits, privileges and obligations accrue on and after July first, nineteen hundred sixty-five, and nothing contained in this paragraph two shall confer upon or create in relation to any housing police member any such right, benefit, privilege or obligation with respect to any period of time or event occurring before July first, nineteen hundred sixty-five; and

(b) such rights, benefits, privileges and obligations conferred upon or created in relation to each housing police member by this paragraph two with respect to such matters provided for in such sections of such subchapter two, shall be in lieu of any and all rights, benefits, privileges and obligations which, if such member were not a housing police member, (1) would accrue to him or her under this chapter, on and after July first, nineteen hundred sixty-five, with respect to such matters, or (2) he or she would have and would be entitled and subject to under this chapter, with respect to such matters, for any period of time on and after such date, or by reason of any event occurring on or after such date; and

(c) any and all rights, benefits, privileges and obligations of a housing police member under this chapter, in so far as they accrued prior to July first, nineteen hundred sixty-five, or arose from or were based upon any event occurring prior to such date, shall be governed by and determined in accordance with the provisions of this title which would be applicable to such member if he or she were not a housing police member; and

(d) for the purpose of determining the rights, benefits, privileges and obligations of a housing police member under this paragraph two, nothing contained in subparagraphs (a) and (c) of this paragraph two shall be construed as depriving any such member (1) of credit, as otherwise granted or authorized by the provisions of this chapter, for city-service rendered prior to July first, nineteen hundred sixty-five, or (2) of credit for contributions made by such member prior to such date, or (3) of rights, accruing prior to such date, with respect to any plan for pensions-providing-for-increased-take-home-pay, provided that such rights as to such plan shall be reduced to the extent

and in the manner provided in paragraph two of subdivisions c and d of this section and in paragraphs six and eleven of this subdivision i.

(3) The rights, benefits, privileges and obligations conferred upon or created in relation to housing police members by paragraph two of this subdivision i shall be determined by the retirement system in accordance with the actuarial tables adopted from time to time for the police pension fund maintained pursuant to subchapter two of chapter two of this title and such tables shall be employed by the retirement system, in making any such determination, in the same manner as they are employed under such subchapter two in determining the corresponding rights, benefits, privileges and obligations of members of such police pension fund.

(4) The rights, benefits, privileges and obligations conferred upon or created in relation to housing police members by paragraph two of this subdivision i shall be administered by the retirement system pursuant to its rules and regulations and nothing contained in this section or in any other law shall be construed as conferring upon the board of trustees of the police pension fund maintained pursuant to subchapter two of chapter two of this title, or the medical board or any other agency of such pension fund, any jurisdiction, power or duties to administer such rights, benefits, privileges or obligations or to adopt rules or regulations relating thereto.

(5) Notwithstanding any other provision of this section, where any part of the principal and interest with respect to any loan made to a member pursuant to section 13-140 of this chapter remains unpaid at the time when such member seeks to elect to become a housing police member pursuant to the applicable provisions of subdivisions a, b, c and d of this section, such member shall not have the right to make such election unless he or she shall execute and acknowledge, and file with the board, a written agreement providing that from and after the execution of such agreement, all of his or her obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be governed by section 13-239 of this title, and that the terms and conditions of such loan may be changed or modified by the board, with respect to any principal thereof and interest thereon remaining unpaid, so as to conform with the provisions of section 13-239 of this title. For the purposes of this paragraph and of paragraph two of this subdivision i, wherever the term "pension fund" appears in such section, it shall be deemed to mean the retirement system.

(6) In any case where an ordinary death benefit or accidental death benefit is payable pursuant to the provisions of paragraph two of this subdivision i and the applicable provisions of section 13-243 or section 13-244 of this title, as the case may be, by reason of the death of a prior housing police member, any reserve-for-increased-take-home-pay payable or allocable to any beneficiary under such provisions shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section and the amount of the deduction from such reserve, as prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter.

(7) In any case where an accidental death benefit is payable, pursuant to the provisions of paragraph two of this subdivision i and section 13-244 of this title, by reason of the death of a housing police member, the provisions of section 13-244 of this title prescribing that the pension payable thereunder shall in no case be less than one-half of the full salary payable to a first-grade police officer on the date of death of such employee, shall not apply to the determination of the amount of the death benefit payable by reason of the death of such housing police member, and the amount of such death benefit, including any pension payable, shall be determined as if such provisions were not included in such section.

(8) The provisions of section 13-150 of this chapter shall not apply to any housing police member.

(9) For the purposes of paragraph two of this subdivision i, wherever the following terms appear in any section of subchapter two of chapter two of this title mentioned in such paragraph two, they shall be deemed to have the following meanings:

(a) "commissioner": the New York city housing authority;

(b) "medical board": the medical board of the retirement system;

(c) "city-service": city-service as defined in subdivision three of section 13-101 of this chapter;

(d) "board": the board of trustees of the retirement system;

(e) "police service": allowable service in the housing police service as a member of such service, excluding any service credit acquired by transfer under any provision of law;

(f) "discontinued member": a housing police member who has discontinued service in the housing police service and has a vested right to a retirement allowance under the provisions of section 13-256 of this title.

(10) For the purposes of paragraph two of this subdivision i, the provisions of section 13-252 of this title shall not be applicable to a housing police member for whom application for retirement for accident disability is made, in any case where the city-service claimed to have resulted in the alleged disability of such member was performed prior to July first, nineteen hundred sixty-five.

(11) In any case where a retirement allowance for accident disability is payable, pursuant to the provisions of paragraph two of this subdivision i and section 13-258 of this title, with respect to a prior housing police member, any reserve-for-increased-take-home-pay constituting the basis of a pension payable pursuant to subdivision two of section 13-258 of this title, shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section, and the amount of the deduction from such reserve, as prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter. The pension payable with respect to such member pursuant to such subdivision two of section 13-258 of this title shall be the actuarial equivalent of the portion of such reserve remaining after such deduction.

(12) For the purposes of paragraph two of this subdivision i, the provisions of section 13-262 of this title shall be deemed to refer to a beneficiary receiving or entitled to receive a retirement allowance under subdivision a, b, c or d of this section, who re-enters city-service.

(13) The applicability of section 13-225 of this title to each prior housing police member, pursuant to the provisions of paragraph two of this subdivision i, shall be subject to the provisions of the opening paragraph of subdivision c or d of this section, as the case may be, with respect to rate of contribution.

(14) (a) For the purpose of computing an annuity and a pension, pursuant to paragraphs one and two of subdivision c of section 13-256 of this title, for a discontinued member, service credit acquired by such member pursuant to section forty-three of the retirement and social security law and accumulated contributions transferred pursuant to such section shall be excluded.

(b) For city-service credited to a discontinued member, other than allowable service in the housing police service as a member of such service, such member shall receive, in lieu of any other pension under section 13-256 of this title for such other service:

(i) a pension which shall be equal to fifty-five per cent of one-sixtieth of his or her final compensation multiplied by the number of years of such other city-service rendered prior to October first, nineteen hundred fifty-one; and

(ii) a pension which shall be equal to seventy-five per cent of one-sixtieth of his or her final compensation multiplied by the number of years of such other city-service rendered on and after October first, nineteen hundred fifty-one.

k. For the purposes of this section, the words, "final compensation", shall mean the average annual compensation earnable by a member for city-service during the last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

l. In the event that a housing police member, without having previously retired as such member, shall cease to be employed in the housing police service and shall enter upon any other form of city service, the provisions of subdivision g of section 13-107 of this chapter shall be inapplicable to such member, and in the event that any benefit shall become payable under this chapter to such member or to any beneficiary of such member, while such member is performing any such other form of city-service, his or her service in the housing police service shall be credited and treated in the same manner as such other form of city-service.

m. Nothing contained in this section shall affect or decrease the amount of the contributions due from any housing police member for any period prior to July first, nineteen hundred sixty-five or give rise to any right on the part of any such member to a refund of any contributions made by such member for any period prior to such date or to any benefit in lieu of such refund.

n. The provisions of section 13-108 of this chapter shall be inapplicable to any housing police member so long as he or she shall be such a member.

o. (1) The election by any housing police member of optional retirement after twenty or twenty-five years of allowable service pursuant to the applicable provisions of subdivisions a, b, c and d of this section shall constitute a consent and agreement by each member that in the event that any provision of this section confers, or is adjudged by any court of competent jurisdiction to confer upon such member any right, benefit or privilege which is greater than the corresponding right, benefit or privilege which such member would possess if he or she were, under the same circumstances, a member of the police force of the city and a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, the legislature shall have the right and power to enact any law or laws or amendments thereto which diminish such right, benefit or privilege of such housing police member so that the same becomes equal to such corresponding right, benefit or privilege which such member would possess if he or she were a member of such police pension fund.

(2) In enacting this section, the legislature, in pursuance of the consent and agreement provided for by paragraph one of this subdivision n, does hereby reserve to the state of New York and to itself, the right and power to enact any law or laws or amendments thereto referred to in such paragraph one.

(3) Every written election of optional retirement executed and filed pursuant to the applicable provisions of subdivisions a, b,c and d of this section shall contain a copy of this subdivision n; provided, however, that the omission of such copy from any such written election shall not invalidate the consent granted and agreement made by such election, as herein prescribed.

p. (1) Any member who holds a position in the housing police service on the effective date of this subdivision o and at the time of filing an application as hereinafter in this subdivision provided, may, by a written application duly executed and acknowledged and filed with the board prior to January first, nineteen hundred seventy-one, elect to contribute to the retirement system for the right to be a housing police member under the terms and conditions set forth in this section and to retire after twenty or twenty-five years, as such member may designate, of allowable service rendered in the housing police service, at a retirement allowance computed pursuant to the applicable provisions of this section.

(2) The rate of contribution of any member making such election, shall, on and after July first, nineteen hundred sixty-five, or on the date of the commencement of his or her service both in a position in the housing police service and as a member of the retirement system, whichever is later, be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for

pensions-providing-for-increased-take-home-pay) at which, on such later date applicable to him or her, he or she would have been contributing to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (a) he or she were on that date a member of such police pension fund and (b) he or she had elected, as his or her minimum period of service for retirement, the minimum period designated by him or her pursuant to this subdivision o, and (c) he or she had been appointed to the police force of the city on the date on which he or she was appointed to a position in the housing police service.

(3) (a) The reserve-for-increased-take-home-pay of any member who elects to become a housing police member pursuant to the provisions of this subdivision o, shall, upon his or her death or retirement while a housing police member, be reduced by deducting therefrom:

(i) all sums in such reserve, including regular interest thereon, credited to him or her with respect to any period prior to January fifth, nineteen hundred sixty-three, during which period he or she held a position in the housing police service; and

(ii) all sums in such reserve, including regular interest thereon, credited to him or her with respect to the period from January fifth, nineteen hundred sixty-three to January twelfth, nineteen hundred sixty-seven, both dates inclusive, which sums are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent.

(b) Any sums deducted as provided for in subparagraph (a) of this paragraph three shall be withdrawn from the credit of such member and shall become the property of the retirement system.

(4) In the case of any member who elects to become a housing police member pursuant to the provisions of this subdivision o, a comparison shall be made between:

(a) the total amount of the member contributions actually made by him or her as required contributions, from the date as of which he or she is required to begin contributing as a housing police member under the provisions of paragraph two of this subdivision o up to the date of commencement of deductions from his or her compensation at the required rate of contribution prescribed by such paragraph two; and

(b) the total amount of the required member contributions which such member would have made with respect to the period mentioned in subparagraph (a) of this paragraph four, if he or she had contributed during such period at the required rate prescribed by such paragraph two.

(5) (a) If the total amount computed pursuant to subparagraph (a) of paragraph four of this subdivision o is less than the total amount computed pursuant to subparagraph (b) of such paragraph four, such member shall contribute the amount of such deficiency, with regular interest thereon, to the appropriate fund of the retirement system by deductions from his or her compensation at a rate elected by him or her, which shall not be less than five per cent of his or her compensation. The actuarial equivalent of any balance of such deficiency which remains unpaid at the time any benefit may become payable to or with respect to such member shall be deducted from the benefit otherwise payable.

(b) If the total amount computed pursuant to subparagraph (a) of paragraph four of this subdivision o is more than the total amount computed pursuant to subparagraph (b) of such paragraph four, the amount of such excess shall be refunded to such member without interest.

(6) Any member who elects to become a housing police member pursuant to the provisions of this subdivision o shall in no event have or obtain any right, benefit or privilege which is greater than he or she would have had or obtained if he or she had elected to become a housing police member at the time when he or she was originally eligible to make such election.

q. (1) Notwithstanding any other provision of this section or chapter to the contrary, any housing police member who was a member in city-service on the effective date of this subdivision and who shall hereafter purchase service

credit pursuant to paragraph two of this subdivision for any period of continuous city-service in a position in the uniformed housing police service, which period:

(a) next precedes the date on which such member last became a member; and

(b) begins not earlier than the date six months prior to the date on which he or she last became a member; shall be credited with such service for the purpose of determining the amount of his or her retirement allowance and in computing the minimum period of service retirement elected by him or her. Service credit used pursuant to this subdivision to satisfy such requirements shall in no event exceed six months.

(2) A housing police member who elects to purchase service credit under the provisions of paragraph one of this subdivision shall pay into the annuity savings fund of the retirement system the amount of the employee contributions required to have been paid into the retirement system for such service, within one year after this subdivision shall take effect.

(3) Notwithstanding the provisions of paragraph two of this subdivision, any housing police member who desires to purchase service credit under the provisions of paragraph one of this subdivision and who, for reasons not ascribable to his or her negligence, did not or was unable to avail himself or herself of the opportunity to purchase service credit at an earlier date, shall be allowed to elect to purchase service credit under the provisions of paragraph one of this subdivision if he or she shall pay into the annuity savings of the retirement system the amount of the employee contributions required to have been paid into the retirement system for such service by July first, nineteen hundred ninety-three.

r. Notwithstanding the provisions of any general, special, local law charter, administrative code or rule or regulation to the contrary, the payment of any pension to a housing police member shall not be revoked, repealed or diminished by reason of the pensioner holding or receiving any compensation as the result of his or her election to a public office under the state of New York, or of any city, county or other political subdivision or agency or board of the state of New York.

Sub p added chap 861/1980 § 1

**CASE NOTES**

¶ 1. There is no impairment of pension rights in the merger of the Housing Authority Police Department with the NYC Police Department because both have the same benefits, Ad Cd §13-156, and since the transfer is pursuant to Ad Cd §13-143 the "three-year rule" which affects the benefits received is inapplicable and the housing police officers will receive full pension credit immediately upon transfer. Nickels v. NYC Hous. Auth., 208 AD2d 203 [1995].

¶ 2. Neither section 13-156(j)(2) nor 13-157(j)(2) requires parity of variable supplemental benefits between City police retirees and Housing and Transit Police retirees. Gagliardo v. Dinkins, 636 N.Y.S.2d 314 (App.Div. 1st Dept. 1996).

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157 Optional retirement after twenty or twenty-five years of allowable service rendered in the uniformed transit police force.

a. A new transit police member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the uniformed transit police force, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty years of allowable service rendered in such transit police force, by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment as a member of the uniformed transit police force he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty years as a member of such police pension fund. Upon the retirement of such a new transit police member for service, such member shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay, which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. a pension which shall be equal to:

(a) seventy-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed transit police force on and after July first, nineteen hundred sixty-four, credited to him or her, which aggregates not more than twenty years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one, acquired other than in the uniformed transit police force, and (2) the number of years of service in the uniformed transit police force credited to him or her in excess of twenty.

b. A new transit police member may elect, prior to the certification of his or her rate of contribution, if not previously a member of the retirement system, and within thirty days after his or her appointment to the uniformed transit police force, if such person is a member of the retirement system at the time of such appointment, to contribute on the basis of a minimum retirement period of twenty-five years of allowable service rendered in such transit police force, by a written election duly executed and acknowledged, and filed with the board. The rate of contribution of a member so electing shall be equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would contribute to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) on the date of his or her appointment as a member of the uniformed transit police force he or she had been appointed a member of the police force of the city, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such police pension fund. Upon the retirement of such a new transit police member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. a pension which shall be equal to: (a) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed transit police force on and after July first, nineteen hundred sixty-four, credited to him or her, which aggregates not more than twenty-five years of service, plus

(b) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, plus

(c) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service after October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, and (2) the number of years of service in the uniformed transit police force credited to him or her in excess of twenty-five.

c. A prior transit police member may elect, on or before September thirtieth, nineteen hundred sixty-four, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-four at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he or she was appointed a member of the uniformed transit police force, and (4) where such member was appointed to the uniformed transit police force prior to March twenty-ninth, nineteen hundred forty, such

police pension fund maintained pursuant to such subchapter two had been in existence on the date of such appointment. Upon the retirement of such a prior transit police member for service, he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while a member of the uniformed transit police force, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-four, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) fifty-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed twenty years of service in the uniformed transit police force, prior to October first, nineteen hundred fifty-one, credited to him or her, plus

(b) seventy-five per cent of one-fortieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed transit police force on and after October first, nineteen hundred fifty-one, credited to him or her, which, together with the years of service in such force credited to him or her prior to such date, aggregates twenty years of service, plus

(c) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, plus

(d) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one, acquired other than in the uniformed transit police force, and (2) the number of years of service in the uniformed transit police force credited to him or her in excess of twenty.

d. A prior transit police member may elect, on or before September thirtieth, nineteen hundred sixty-four, by a written election duly executed and acknowledged, and filed with the board, to contribute on and after July first, nineteen hundred sixty-four at a rate of contribution equal to that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) at which he or she would have been contributing on such July first to the police pension fund maintained pursuant to subchapter two of chapter two of this title if (1) he or she were on that date a member of the police force of the city and of such police pension fund, and (2) he or she had elected a minimum retirement period of twenty-five years as a member of such fund, and (3) he or she had been appointed to the city police force on the date on which he or she was appointed a member of the uniformed transit police force, and (4) where such member was appointed to the uniformed transit police force prior to March twenty-ninth, nineteen hundred forty, such police pension fund maintained pursuant to such subchapter two had been in existence on the date of such appointment. Upon the retirement of such a member for service he or she shall receive a retirement allowance consisting of:

1. an annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of that portion of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, remaining after deducting from such reserve (a) all sums therein, including regular interest thereon, credited to him or her while a member of the uniformed transit police force, prior to January fifth, nineteen hundred sixty-three, plus (b) all sums therein, including regular interest thereon, credited to him or her for the period between January fifth, nineteen hundred sixty-three and June thirtieth, nineteen hundred sixty-four, both dates inclusive, which are derived from that part of a reduced-rate-of-contribution factor in excess of two and one-half per cent, provided that such sums mentioned in subparagraphs (a) and (b) of this paragraph two, shall, at the time of his or her retirement, be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter; and

3. a pension which shall be equal to:

(a) fifty-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed twenty-five years of service in the uniformed transit police force prior to October first, nineteen hundred fifty-one, credited to him or her, plus

(b) seventy-five per cent of one-fiftieth of his or her final compensation multiplied by not to exceed the number of years of service in the uniformed transit police force on and after October first, nineteen hundred fifty-one, credited to him or her, which, together with the years of service in such force credited to him or her prior to such date, aggregates twenty-five years of service, plus

(c) fifty-five per cent of one-sixtieth of his or her final compensation for the number of years of city-service prior to October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, plus

(d) seventy-five per cent of one-sixtieth of his or her final compensation multiplied by: (1) the number of years of city-service on and after October first, nineteen hundred fifty-one acquired other than in the uniformed transit police force, and (2) the number of years of service in the uniformed transit police force credited to him or her in excess of twenty-five.

e. Any transit police member who has elected pursuant to this section, optional retirement after twenty or twenty-five years of allowable service and who shall have attained the minimum period of service retirement elected by him or her, upon his or her own written application to and filed with the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be retired as of the date specified in said application, provided that at the time so specified for his or her retirement, his or her term or tenure of office or employment shall not have terminated or have been forfeited, and provided further that upon his or her request in writing, the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective.

f. Notwithstanding any other provision of this section, the provisions of section two hundred seven-d of the general municipal law shall apply to any transit police member in the same manner and to the same extent as if the definition of "policeman" in such section included a paid officer or member of the uniformed transit police force; provided, however, that any such member shall not be entitled to any rights or benefits under such section two hundred seven-d in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title; who had elected a minimum period of service as a prerequisite for eligibility for retirement for service and who had served in the city police force beyond such minimum period of service, were to retire for any cause whatsoever on the same date as that on which such transit police member retires for any cause whatsoever, the provisions of such section two hundred seven-d would not be applicable, operative or effective for determining the rights or benefits of such member of the city police force.

g. (1) Notwithstanding the provisions of subdivisions a, b, c and d of this section, a transit police member shall,

upon retirement for service, and in lieu of any lesser amount prescribed by the applicable provisions of such subdivisions or otherwise, receive a retirement allowance on account of his or her minimum period of service rendered as a member of the uniformed transit police force, which shall, subject to the provisions of this subdivision g, be equal to one-half of his or her annual compensation earnable upon the date of his or her retirement; provided, however, that any such member shall not be entitled to a retirement allowance, determined under and pursuant to the foregoing provisions of this paragraph one, on account of his or her minimum period of such service, in the event that, if a member of the police force of the city and of the police pension fund maintained pursuant to subchapter two of chapter two of this title, who had elected completion of a minimum period of service as a prerequisite for eligibility for retirement for service, were to retire for service on the same date as such transit police member, the provisions of subdivision one of section two hundred seven-e of the general municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, would not be applicable, operative or effective for determining the rights to a retirement allowance of such member of the city police force for such minimum period of service and would not provide for such member of such police force, the retirement allowance specified in such subdivision one for such minimum period of service, in lieu of any lesser benefit otherwise prescribed.

(2) Subject to the provisions of section 13-130 of this chapter, the addition and computation of a further pension, in order to provide such retirement allowance under paragraph one of this subdivision g for a transit police member, shall be subject to the terms and conditions of subdivision two of section two hundred seven-e of the general municipal law, as added by chapter two hundred fifty-eight of the laws of nineteen hundred sixty-three, in the same manner and to the same extent as if the term "uniformed force of the police department of such city", mentioned in such subdivision, included the uniformed transit police force.

(3) Where additional retirement benefits are payable to transit police members under the provisions of this section, other than the provisions of this subdivision and subdivision f thereof, or are required to be paid under the provisions of section two hundred seven-d of the general municipal law, as made applicable by the provisions of such subdivision f, such additional benefits shall be paid, for service in addition to and in excess of the minimum service requirements, in addition to the minimum retirement benefits required to be paid by this subdivision g.

h. (1) Subject to the provisions of paragraph three of this subdivision h, when a transit captain who is a transit police member shall have acted under regular detail in any capacity above the rank of transit captain and shall have received additional compensation therefor, during a period or periods aggregating two years, such transit officer, upon retirement pursuant to the provisions of subdivision e of this section, shall be entitled to a retirement allowance equal to that to which he or she would be entitled under the provisions of subdivision c of section 14-114 of the code, if:

(a) he or she had been a captain of the police force of the city who retired after having acted under regular detail in a capacity above the rank of captain in such city police force for a period or periods aggregating two years, and

(b) the highest salary received by him or her during such assumed period or periods of service in a capacity above the rank of captain in such city police force were identical with the highest salary actually received by such transit officer during the period or periods of his or her service as a transit officer in a capacity above the rank of transit captain, and

(c) he or she had served in such city police force for a total period of time identical with his or her total period of service in the uniformed transit police force, and

(d) he or she had made during such assumed period of service in the city police force, the same election or elections as to waiver and withdrawal of waiver of a reduction in contributions by reason of any plan for pensions-providing-for-increased-take-home-pay, as he or she made during such period of service in the uniformed transit police force.

(2) Subject to the provisions of paragraph three of this subdivision h, when a transit captain who is a transit

police member shall have served in the rank of transit captain for a period of ten years, he or she shall have the same right to a retirement allowance as if he or she had been detailed to act as inspector and had served as such and had received additional compensation therefor during a period or periods of time aggregating two years. A transit captain who is a transit police member and who shall have served as such less than ten years and more than five years, shall have the same right to a retirement allowance as if he or she had been detailed to act as a deputy inspector and had served as such and had received additional compensation therefor during a period or periods of time aggregating two years. For the purpose of determining the retirement allowance to which any transit captain is entitled under the provisions of this paragraph two, the salary of an inspector or deputy inspector of the police force of the city, at the time of such retirement of such transit captain, shall be deemed to be identical with the salary of an inspector or deputy inspector, as the case may be, in the transit police force, at the same time. In the event that the detail of transit captain acting as inspector or deputy inspector does not exist in the transit police department or the uniformed transit police force, then, for the purposes of this paragraph two, it shall be deemed that such detail does exist with the same salary as is applicable to such rank in the New York city police force at the time of such retirement of any such transit captain.

(3) In any case where a transit officer entitled to a retirement allowance under paragraph one or two of this subdivision h, is a prior transit police member, and by reason of any such waiver or waivers by such transit officer, he or she is entitled to receive a pension-providing-for-increased-take-home-pay, in addition to the portions of his or her retirement allowance otherwise payable under the foregoing provisions of this subdivision h, such pension-providing-for-increased-take-home-pay shall be reduced in the manner prescribed by paragraph two of subdivision c or d of this section, as the case may be, and the pension-providing-for-increased-take-home-pay paid to such transit officer shall be such pension as so reduced, and the sums deducted from the reserve-for-increased-take-home-pay, as prescribed by such paragraph two, shall, at the time of retirement of such transit officer, be withdrawn from his or her credit, shall become the property of the retirement system and should be paid into the contingent reserve fund provided for in section 13-127 of this chapter.

(4) In lieu of any other retirement benefits granted to him or her upon retirement from the uniformed transit police force, any transit police member who shall have served as a chief of the transit police department on or after January first, nineteen hundred sixty-nine, shall, at his or her election, be entitled upon retirement to a retirement allowance which shall consist of an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement from the uniformed transit police force and a pension which, when added to such annuity, shall be equal to two-thirds of his or her salary as chief of the transit police department. For the purpose of computing the annuity portion of such retirement allowance, his or her accumulated deductions shall be the required amount of such deductions at the time of his or her retirement from the uniformed transit police force, without any increase resulting from excess contributions and without any decrease resulting from withdrawals, loans, optional modification, payment of his or her contributions for old age and survivor's insurance coverage, or from any other transaction authorized by law.

i. Notwithstanding the provisions of section 13-166 of this chapter or any other section of the code to the contrary, no transit police member electing optional retirement pursuant to this section, who is on the date of such election sixty-three or more years of age or who on or after such date attains the age of sixty-three years, shall continue serving as a member of the uniformed transit police force but shall be retired, provided, however, that any such member who is not eligible for retirement at the age of sixty-three may continue to serve as a member of such force only until such time as he or she becomes eligible for retirement for service, provided further that, at the discretion of the chief personnel officer within the transit authority and upon the recommendation of the chief of the transit police force, the deputy chief of the transit police force may continue to serve in such position beyond such age.

j. (1) The provisions of this section shall apply to transit police members as herein provided, notwithstanding the provisions of sections 13-125 and 13-172 of this chapter or any other provision of the code or law to the contrary.

(2) Except as otherwise provided in this section and section 13-130 of this chapter, on and after July first, nineteen hundred sixty-four, each transit police member shall have and shall be entitled and subject to the same rights,

benefits, privileges and obligations as a member of the police force of the city who is a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, with respect to the matters provided for in sections 13-219, 13-225, 13-226, 13-239, 13-242, 13-243, 13-244, 13-251, 13-252, 13-254, 13-256, 13-257, 13-258, 13-261, 13-261.2, 13-261.3 and 13-262 of such subchapter two; provided, however, that:

(a) each transit police member shall have and shall be entitled and subject to such rights, benefits, privileges and obligations as to such matters only in so far as such rights, benefits, privileges and obligations accrue on and after July first, nineteen hundred sixty-four, and nothing contained in this paragraph two shall confer upon or create in relation to any transit police member any such right, benefit, privilege or obligation with respect to any period of time or event occurring before July first, nineteen hundred sixty-four; and

(b) such rights, benefits, privileges and obligations conferred upon or created in relation to each transit police member by this paragraph two with respect to such matters provided for in such sections of such subchapter two, shall be in lieu of any and all rights, benefits, privileges and obligations which, if such member were not a transit police member, (1) would accrue to him or her under this title, on and after July first, nineteen hundred sixty-four, with respect to such matters, or (2) he or she would have and would be entitled and subject to under this chapter, with respect to such matters, for any period of time on and after such date, or by reason of any event occurring on or after such date; and

(c) any and all rights, benefits, privileges and obligations of a transit police member under this chapter, in so far as they accrued prior to July first, nineteen hundred sixty-four, or arose from or were based upon any event occurring prior to such date, shall be governed by and determined in accordance with the provisions of this chapter which would be applicable to such member if he or she were not a transit police member; and

(d) for the purpose of determining the rights, benefits, privileges and obligations of a transit police member under this paragraph two, nothing contained in subparagraphs (a) and (c) of this paragraph two shall be construed as depriving any such member (1) of credit, as otherwise granted or authorized by the provisions of this chapter, for city-service rendered prior to July first, nineteen hundred sixty-four, or (2) of credit for contributions made by such member prior to such date, or (3) of rights, accruing prior to such date, with respect to any plan for pensions-providing-for-increased-take-home-pay, provided that such rights as to such plan shall be reduced to the extent and in the manner provided in paragraph two of subdivisions c and d of this section, and in subdivision h of this section and in paragraphs six and eleven of this subdivision j.

(3) The rights, benefits, privileges and obligations conferred upon or created in relation to transit police members by paragraph two of this subdivision j shall be determined by the retirement system in accordance with the actuarial tables adopted from time to time for the police pension fund maintained pursuant to subchapter two of chapter two of this title and such tables shall be employed by the retirement system, in making any such determination, in the same manner as they are employed under such subchapter two in determining the corresponding rights, benefits, privileges and obligations of members of such police pension fund.

(4) The rights, benefits, privileges and obligations conferred upon or created in relation to transit police members by paragraph two of this subdivision j shall be administered by the retirement system pursuant to its rules and regulations and nothing contained in this section or in any other law shall be construed as conferring upon the board of trustees of the police pension fund maintained pursuant to subchapter two of chapter two of this title, or the medical board or any other agency of such pension fund, any jurisdiction, power or duties to administer such rights, benefits, privileges or obligations or to adopt rules or regulations relating thereto.

(5) Notwithstanding any other provision of this section, where any part of the principal and interest with respect to any loan made to a member pursuant to section 13-140 of this chapter remains unpaid at the time when such member seeks to elect to become a transit police member pursuant to the applicable provisions of subdivisions a, b, c and d of this section, such member shall not have the right to make such election unless he or she shall execute and acknowledge, and file with the board, a written agreement providing that from and after the execution of such

agreement, all of his or her obligations and rights with respect to the principal and interest remaining unpaid on such loan shall be governed by section 13-239 of this title, and that the terms and conditions of such loan may be changed or modified by the board, with respect to any principal thereof and interest thereon remaining unpaid, so as to conform with the provisions of section 13-239 of this title. For the purposes of this paragraph and of paragraph two of this subdivision j, wherever the term "pension fund" appears in such section 13-239 of this title, it shall be deemed to mean the retirement system.

(6) In any case where an ordinary death benefit or accidental death benefit is payable pursuant to the provisions of paragraph two of this subdivision j and the applicable provisions of section 13-243 or section 13-244 of this title, as the case may be, by reason of the death of a prior transit police member, any reserve-for-increased-take-home-pay payable or allocable to any beneficiary under such provisions shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section and the amount of the deduction from such reserve, as prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter.

(7) In any case where an accidental death benefit is payable, pursuant to the provisions of paragraph two of this subdivision j and section 13-244 of this title, by reason of the death of a transit police member, the provisions of section 13-244 of this title prescribing that the pension payable thereunder shall in no case be less than one-half of the full salary payable to a first-grade patrolman on the date of death of such employee, shall not apply to the determination of the amount of the death benefit payable by reason of the death of such transit police member, and the amount of such death benefit, including any pension payable, shall be determined as if such provisions were not included in such section.

(8) The provisions of section 13-150 of this chapter shall not apply to any transit police member.

(9) For the purposes of paragraph two of this subdivision j, wherever the following terms appear in any section of subchapter two of chapter two of this title mentioned in such paragraph two, they shall be deemed to have the following meanings:

(a) "commissioner": the New York city transit authority.

(b) "medical board": the medical board of the retirement system.

(c) "city-service": city-service as defined in subdivision three of section 13-101 of this chapter.

(d) "board": the board of trustees of the retirement system.

(e) "police service": allowable service in the uniformed transit police force as a member of such force, excluding any service credit acquired by transfer under any provision of law.

(f) "discontinued member": a transit police member who has discontinued service in the uniformed transit police force and has a vested right to a retirement allowance under the provisions of section 13-256 of this title.

(10) For the purposes of paragraph two of this subdivision j, the provisions of section 13-252 of this title shall not be applicable to a transit police member for whom application for retirement for accident disability is made, in any case where the city-service claimed to have resulted in the alleged disability of such member was performed prior to July first, nineteen hundred sixty-four.

(11) In any case where a retirement allowance for accident disability is payable, pursuant to the provisions of paragraph two of this subdivision j and section 13-258 of this title, with respect to a prior transit police member, any reserve-for-increased-take-home-pay constituting the basis of a pension payable pursuant to subdivision two of section

13-258 of this title, shall first be reduced in the manner prescribed by paragraph two of subdivision c or d, as the case may be, of this section, and the amount of the deduction from such reserve, as prescribed by subparagraphs (a) and (b) of such paragraph two, shall be withdrawn from the credit of such member, shall become the property of the retirement system, and shall be paid into the contingent reserve fund provided for in section 13-127 of this chapter. The pension payable with respect to such member pursuant to such subdivision two of such section 13-258 of this title shall be the actuarial equivalent of the portion of such reserve remaining after such deduction.

(12) For the purposes of paragraph two of this subdivision j,

(a) the provisions of section 13-262 of this title shall be deemed to refer to a beneficiary receiving or entitled to receive a retirement allowance under subdivision a, b, c or d of this section, who re-enters city-service; and

(b) wherever the following terms appear in section 13-262 of this title, they shall be deemed to have the following meaning:

(i) police commissioner: the chief of the transit police force;

(ii) deputy police commissioner: the deputy chief of the transit police force.

(13) The applicability of section 13-225 of this title to each prior transit police member, pursuant to the provisions of paragraph two of this subdivision j, shall be subject to the provisions of the opening paragraph of subdivision c or d of this section, as the case may be, with respect to rate of contribution.

(14) (a) For the purpose of computing an annuity and a pension, pursuant to paragraphs one and two of subdivision c of section 13-256 of this title, for a discontinued member, service credit acquired by such member pursuant to section forty-three of the retirement and social security law and accumulated deductions transferred pursuant to such section shall be excluded.

(b) For city-service credited to a discontinued member, other than allowable service in the uniformed transit police force as a member of such force, such member shall receive, in lieu of any other pension under section 13-256 of this title for such other service:

(i) a pension which shall be equal to fifty-five per cent of one-sixtieth of his or her final compensation multiplied by the number of years of such other city-service rendered prior to October first, nineteen hundred fifty-one; and

(ii) a pension which shall be equal to seventy-five per cent of one-sixtieth of his or her final compensation multiplied by the number of years of such other city-service rendered on and after October first, nineteen hundred fifty-one.

k. For the purposes of this section, the words, "final compensation", shall mean the average annual compensation earnable by a member for city-service during the last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

l. In the event that a transit police member, without having previously retired as such member, shall cease to be a member of the uniformed transit police force and shall enter upon any other form of city-service, the provisions of subdivision g of section 13-107 of this chapter shall be inapplicable to such member, and in the event that any benefit shall become payable under this chapter to such member or to any beneficiary of such member, while such member is performing any such other form of city-service, his or her service in the uniformed transit police force shall be credited and treated in the same manner as such other form of city-service.

m. Nothing contained in this section shall affect or decrease the amount of the contributions due from any transit police member for any period prior to July first, nineteen hundred sixty-four or give rise to any right on the part of any

such member to a refund of any contributions made by him or her for any period prior to such date or to any benefit in lieu of such refund.

n. The provisions of section 13-108 of this chapter shall be inapplicable to any transit police member so long as he or she shall be such a member.

o. (1) The election by any transit police member of optional retirement after twenty or twenty-five years of allowable service pursuant to the applicable provisions of subdivisions a, b, c and d of this section shall constitute a consent and agreement by each member that in the event that any provision of this section confers, or is adjudged by any court of competent jurisdiction to confer upon such member any right, benefit or privilege which is greater than the corresponding right, benefit or privilege which such member would possess if he or she were, under the same circumstances, a member of the police force of the city and a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, the legislature shall have the right and power to enact any law or laws or amendments thereto which diminish such right, benefit or privilege of such transit police member so that the same becomes equal to such corresponding right, benefit or privilege which he or she would possess if he or she were a member of such police pension fund.

(2) In enacting this section, the legislature, in pursuance of the consent and agreement provided for by paragraph one of this subdivision o, does hereby reserve to the state of New York and to itself, the right and power to enact any law or laws or amendments thereto referred to in such paragraph one.

(3) For the purposes of this subdivision o, if any transit police member was appointed a member of the uniformed transit police force prior to March twenty-ninth, nineteen hundred forty, such police pension fund maintained pursuant to such subchapter two shall be deemed to have been in existence on the date of such appointment.

(4) Every written election of optional retirement executed and filed pursuant to the applicable provisions of subdivisions a, b, c and d of this section shall contain a copy of this subdivision o; provided, however, that the omission of such copy from any such written election shall not invalidate the consent granted and agreement made by such election, as herein prescribed.

q. (1) Notwithstanding any other provision of this section or chapter to the contrary, any transit police member who was a member in city-service on July first, nineteen hundred seventy-two and who shall hereafter purchase service credit pursuant to paragraph two of this subdivision q for any period of continuous city-service in a position in the uniformed transit police force, which period:

(a) next precedes the date on which such member last became a member; and

(b) begins not earlier than the date six months prior to the date on which he or she last became a member; shall be credited with such service for the purpose of determining the amount of his or her retirement allowance and in computing the minimum period of service retirement elected by such member. Service credit used pursuant to this subdivision q to satisfy such requirements shall in no event exceed six months.

(2) A transit police member who elects to purchase service credit under the provisions of paragraph one of this subdivision q shall pay into the annuity savings fund of the retirement system the amount of the employee contributions required to have been paid into the retirement system for such service, within one year after this act shall take effect.

r. The transit authority, which previously elected to make the benefits of this section available for a limited period, may make the benefits of such section available to those members of the uniformed transit police force who, for reasons not ascribable to their own negligence, failed to make timely application to be covered under such section. The transit authority may so elect by filing with the administrative head of the New York city employees' retirement system on or before December thirty-first, nineteen hundred eighty, written notice of such election together with certification that the transit police officers concerned are not barred from participating under this section as a result of their own

negligence.

s. Upon election, any member of the uniformed transit police pension plan who was a member of the New York city employees' retirement system while employed as a New York city transit police force trainee shall receive qualifying service credit in said uniformed transit police pension plan for prior creditable service earned while employed as a uniformed transit police force trainee, by paying into the annuity savings fund additional member contributions plus interest which would have been paid or credited had such member been a uniformed transit police officer plan member from his or her last date of appointment as a transit police force trainee or date of membership, whichever is later, provided such payment is made within one year after this subdivision shall take effect.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-157.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157.1 Twenty-five year retirement program for investigator members.

a. Definitions. The following words and phrases as used in this section shall have the following meanings unless a different meaning is plainly required by the context.

1. "Investigator member" shall mean a member who is a police officer as defined in paragraph (g) of subdivision thirty-four of section 1.20 of the criminal procedure law.

2. "Twenty-five year retirement program" shall mean all the terms and conditions of this section.

3. "Starting date of the twenty-five year retirement program" shall mean the date of enactment of this section, as such date is certified pursuant to section forty-one of the legislative law.

4. "Participant in the twenty-five year retirement program" shall mean any investigator member who, under the applicable provisions of subdivision b of this section, is entitled to the rights, benefits and privileges and is subject to the obligations of the twenty-five year retirement program, as applicable to him or her.

5. "Discontinued member" shall mean a participant in the twenty-five year retirement program who, while he or she was an investigator member, discontinued service as such a member and has a right to a deferred vested benefit under the provisions of subdivision d of this section.

b. Participation in twenty-five year retirement program. 1. Subject to the provisions of paragraph five of this subdivision, any person who is an investigator member on the starting date of the twenty-five year retirement program

may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after the provisions of this paragraph take effect, a duly executed application for such participation with the retirement program of which such person is a member, provided he or she is such an investigator member on the date such application is filed.

2. Subject to the provisions of paragraph five of this subdivision, any person who becomes an investigator member after the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within the later of (i) one hundred eighty days after becoming such an investigator member or (ii) one hundred eighty days after the provisions of this paragraph take effect, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such an investigator member on the date such application is filed.

3. Any election to be a participant in the twenty-five year retirement program shall be irrevocable.

4. Where any participant in the twenty-five year retirement program shall cease to be employed as an investigator member, he or she shall cease to be such a participant and, during any period in which such person is not so employed, he or she shall not be a participant in the twenty-five year retirement program and shall not be eligible for the benefits of subdivision c of this section.

5. Where any participant in the twenty-five year retirement program terminates service as an investigator member and returns to such service as an investigator member at a later date, he or she shall again become such a participant on that date.

c. Service retirement benefits. 1. A participant in the twenty-five year retirement program:

(i) who has completed twenty-five or more years of credited service; and

(ii) who files with the retirement system an application for service retirement setting forth at what time he or she desires to be retired; and

(iii) who shall be a participant in the twenty-five year retirement program at the time so specified for his or her retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. Notwithstanding any other provision of law to the contrary, the early service retirement benefit for participants in the twenty-five year retirement program who retire pursuant to paragraph one of this subdivision shall be a retirement allowance consisting of:

(i) an amount, on account of the required minimum period of service, equal to fifty-five percent of the salary earned in the year prior to his or her retirement; plus

(ii) an amount for each additional year of credited service, or fraction thereof, beyond such required minimum period of service equal to one and seven-tenths percent of the final average salary for such credited service during the period from the completion of twenty-five years of credited service to the date of retirement.

d. Vesting. 1. A participant in the twenty-five year retirement program who:

(i) discontinues service as an investigator member, other than by death or retirement; and

(ii) prior to such discontinuance, completed fifteen but less than twenty-five years of credited service; and

(iii) does not withdraw in whole or in part his or her accumulated member contributions pursuant to section 13-141 of this chapter, shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. (i) Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

(ii) Such vested benefit shall become payable on the earliest date on which such discontinued member could have retired for service if such discontinuance had not occurred.

3. Such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and two-tenths percent of such discontinued member's final average salary, multiplied by the number of years of credited service.

e. Member contributions. All investigator members of the twenty-five year retirement program shall be required to contribute to the retirement system in the manner specified by section 13-225 of this code with respect to members covered by subdivision b of section 13-247 of this code. Such required contributions shall pertain to all years of service rendered subsequent to June thirtieth, nineteen hundred ninety-seven.

*NYC Administrative Code 13-157.2*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157.2 Twenty-five12 year retirement program for dispatcher members.

a. Definitions. The following words and phrases as used in this section shall have the following meanings unless a different meaning is plainly required by the context.

1. "Dispatcher member" shall mean a member of the retirement system who is employed by the city of New York as a fire alarm dispatcher, a supervising fire alarm dispatcher, level one, a supervising fire alarm dispatcher, level two, director of dispatch operations, or deputy director of dispatch operations.

2. "Twenty-five year retirement program" shall mean all the terms and conditions of this section.

3. "Starting date of the twenty-five year retirement program" shall mean the date of enactment of this section.

4. "Participant in the twenty-five year retirement program" shall mean any dispatcher member who, under the applicable provisions of subdivision b of this section, is entitled to the rights, benefits and privileges and is subject to the obligations of the twenty-five year retirement program, as applicable to him or her.

5. "Discontinued member" shall mean a participant in the twenty-five year retirement program who, while he or she was a dispatcher member, discontinued service as such a member and has a right to a deferred vested benefit under the provisions of subdivision d of this section.

6. "Allowable service as a dispatcher member" shall mean (i) service as a dispatcher member and all service in the following civil service titles: chief fire alarm dispatcher, administrative fire alarm dispatcher, bus operator (transit),

train dispatcher (transit), firefighter, police officer, correction officer, fire marshal, probation officer, police communications technician, supervising police communications technician, principal police communications technician, police administrative aide, senior police administrative aide, emergency medical technician, advanced emergency medical technician, emergency medical service specialist level I, emergency medical specialist level II, fire prevention inspector, fire protection inspector, senior fire prevention inspector, principal fire prevention inspector, associate fire protection inspector, county detective, detective (NYPD), detective investigator, senior detective investigator, deputy sheriff, senior deputy sheriff, inspector of fire alarm boxes, radio operator, radio repair technician, supervisor of radio repair operations, taxi and limousine inspector, senior taxi and limousine inspector, triborough bridge and tunnel officer; and (ii) a member of the retirement system who is employed by the city of New York in a title whose duties require the supervision of employees whose civil service title is included in subparagraph (i) of this paragraph.

b. Participation in the twenty-five year retirement program. 1. Subject to the provisions of paragraphs five and six of this subdivision, any person who is a dispatcher member on the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after the starting date of the twenty-five year retirement program, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such a dispatcher member on the date such application is filed.

2. Subject to the provisions of paragraphs five and six of this subdivision, any person who becomes a dispatcher member after the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after becoming such a dispatcher member, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such a dispatcher member on the date such application is filed.

3. Any election to be a participant in the twenty-five year retirement program shall be irrevocable.

4. Where any participant in the twenty-five year retirement program shall cease to be employed as a dispatcher member, he or she shall cease to be such a participant and, during any period in which such person is not so employed, he or she shall not be a participant in the twenty-five year retirement program and shall not be eligible for the benefits of subdivision c of this section.

5. Where any participant in the twenty-five year retirement program terminates service as a dispatcher member and returns to such service as a dispatcher member at a later date, he or she shall again become such a participant on that date.

6. Notwithstanding any other provision of law to the contrary, any person who is eligible to become a participant in the twenty-five year retirement program pursuant to paragraph one or two of this subdivision for the full one hundred eighty day period provided for in such applicable paragraph and who fails to timely file a duly executed application for such participation with the retirement system, shall not thereafter be eligible to become a participant in such program.

c. Service retirement benefits. 1. A participant in the twenty-five year retirement program:

(i) who has completed twenty-five or more years of allowable service as a dispatcher member; and

(ii) who files with the retirement system an application for service retirement setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired; and

(iii) who shall be a participant in the twenty-five year retirement program at the time so specified for his or her retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. Notwithstanding any other provision of law to the contrary, the early service retirement benefit for a participant in the twenty-five year retirement program who retires pursuant to paragraph one of this subdivision shall be

a retirement allowance consisting of:

(i) an amount, on account of the required minimum period of service, equal to the sum of (a) an annuity which shall be the actuarial equivalent of the accumulated deductions from his or her pay during such period, (b) a pension for increased-take-home-pay which shall be the actuarial equivalent of the reserve for increased-take-home-pay to which he or she may be entitled for such period, and (c) a pension which, when added to such annuity and such pension for increased-take-home-pay, produces a retirement allowance equal to fifty-five percent of the salary earned or earnable in the year prior to his or her retirement; plus

(ii) an amount for each additional year of allowable service as a dispatcher member, or fraction thereof, beyond such required minimum period of service equal to one and seven-tenths percent of the salary earned or earnable in the year prior to his or her retirement for such allowable service during the period from the completion of twenty-five years of allowable service as a dispatcher member to the date of retirement.

d. Vesting. 1. A participant in the twenty-five year retirement program who:

(i) discontinues service as a dispatcher member, other than by death or retirement; and

(ii) prior to such discontinuance, completed five but less than twenty-five years of allowable city service; and

(iii) does not withdraw in whole or in part his or her accumulated member contributions pursuant to section 13-141 of this chapter, shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. (i) Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

(ii) Such vested benefit shall become payable on the earliest date on which such discontinued member could have retired for service if such discontinuance had not occurred.

3. Such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and two-tenths percent of such discontinued member's salary earned or earnable in the year prior to his or her discontinuance, multiplied by the number of years of allowable service as a dispatcher member.

e. Member contributions. All dispatcher members of the twenty-five year retirement program shall be required to make member contributions and additional member contributions in accordance with and subject to the same rights, privileges, obligations and procedures as govern the member contributions and additional member contributions required by subdivision d of section four hundred forty-five-e of the retirement and social security law.

For the purpose of applying, under this subdivision, such subdivision d to a dispatcher member of the twenty-five year retirement program who is subject to the provisions of this section, and is not subject to the provisions of article eleven of the retirement and social security law, the term "credited service", as used in such subdivision, shall be deemed to mean allowable service as a dispatcher member.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157.2 Twenty-five13 year retirement program for EMT members.

a. Definitions. The following words and phrases as used in this section shall have the following meanings unless a different meaning is plainly required by the context.

1. "EMT member" shall mean a member of the retirement system who is employed by the city of New York or by the New York city health and hospitals corporation in a title whose duties are those of an emergency medical technician or advanced emergency medical technician (as those terms are defined in section three thousand one of the public health law), or in a title whose duties require the supervision of employees whose duties are those of an emergency medical technician or advanced emergency medical technician (as those terms are defined in section three thousand one of the public health law).

2. "Twenty-five year retirement program" shall mean all the terms and conditions of this section.

3. "Starting date of the twenty-five year retirement program" shall mean the date of enactment of this section.

4. "Participant in the twenty-five year retirement program" shall mean any EMT member who, under the applicable provisions of subdivision b of this section, is entitled to the rights, benefits and privileges and is subject to the obligations of the twenty-five year retirement program, as applicable to him or her.

5. "Discontinued member" shall mean a participant in the twenty-five year retirement program who, while he or she was an EMT member, discontinued service as such a member and has a right to a deferred vested benefit under the provisions of subdivision d of this section.

6. "Allowable service as an EMT member" shall mean (i) all service as an EMT member; and (ii) all service while employed by the city of New York or by the New York city health and hospitals corporation in the title motor vehicle operator.

b. Participation in the twenty-five year retirement program. 1. Subject to the provisions of paragraphs five and six of this subdivision, any person who is an EMT member on the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after the starting date of the twenty-five year retirement program, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such an EMT member on the date such application is filed.

2. Subject to the provisions of paragraphs five and six of this subdivision, any person who becomes an EMT member after the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after becoming such an EMT member, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such an EMT member on the date such application is filed.

3. Any election to be a participant in the twenty-five year retirement program shall be irrevocable.

4. Where any participant in the twenty-five year retirement program shall cease to be employed as an EMT member, he or she shall cease to be such a participant and, during any period in which such person is not so employed, he or she shall not be a participant in the twenty-five year retirement program and shall not be eligible for the benefits of subdivision c of this section.

5. Where any participant in the twenty-five year retirement program terminates service as an EMT member and returns to such service as an EMT member at a later date, he or she shall again become such a participant on that date.

6. Notwithstanding any other provision of law to the contrary, any person who is eligible to become a participant in the twenty-five year retirement program pursuant to paragraph one or two of this subdivision for the full one hundred eighty day period provided for in such applicable paragraph and who fails to timely file a duly executed application for such participation with the retirement system, shall not thereafter be eligible to become a participant in such program.

c. Service retirement benefits. 1. A participant in the twenty-five year retirement program:

(i) who has completed twenty-five or more years of allowable service as an EMT member; and

(ii) who files with the retirement system an application for service retirement setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired; and

(iii) who shall be a participant in the twenty-five year retirement program at the time so specified for his or her retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. Notwithstanding any other provision of law to the contrary, the early service retirement benefit for a participant in the twenty-five year retirement program who retires pursuant to paragraph one of this subdivision shall be a retirement allowance consisting of:

(i) an amount, on account of the required minimum period of service, equal to the sum of (a) an annuity which shall be the actuarial equivalent of the accumulated deductions from his or her pay during such period, (b) a pension for increased-take-home-pay which shall be the actuarial equivalent of the reserve for increased-take-home-pay to which he or she may be entitled for such period, and (c) a pension which, when added to such annuity and such pension for increased-take-home-pay, produces a retirement allowance equal to fifty-five percent of the salary earned or earnable in the year prior to his or her retirement; plus

(ii) an amount for each additional year of allowable service as an EMT member, or fraction thereof, beyond such required minimum period of service equal to one and seven-tenths percent of the salary earned or earnable in the year prior to his or her retirement for such allowable service during the period from the completion of twenty-five years of allowable service as an EMT member to the date of retirement.

d. Vesting. 1. A participant in the twenty-five year retirement program who:

(i) discontinues service as an EMT member, other than by death or retirement; and

(ii) prior to such discontinuance, completed five but less than twenty-five years of allowable city service; and

(iii) does not withdraw in whole or in part his or her accumulated member contributions pursuant to section 13-141 of this chapter, shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. (i) Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

(ii) Such vested benefit shall become payable on the earliest date on which such discontinued member could have retired for service if such discontinuance had not occurred.

3. Such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and two-tenths percent of such discontinued member's salary earned or earnable in the year prior to his or her discontinuance, multiplied by the number of years of allowable service as an EMT member.

e. Member contributions. All EMT members of the twenty-five year retirement program shall be required to make member contributions and additional member contributions in accordance with the subject to the same rights, privileges, obligations and procedures as govern the member contributions and additional member contributions required by subdivision d of section four hundred forty-five-e of the retirement and social security law.

For the purpose of applying, under this subdivision, subdivision d of section four hundred forty-five-e of the retirement and social security law to an EMT member of the twenty-five year retirement program who is subject to the provisions of this section, and is not subject to the provisions of article eleven of the retirement and social security law, the term "credited service", as used in such subdivision, shall be deemed to mean allowable service as an EMT member.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157.3 Twenty-five year retirement program for special officer, parking control specialist, school safety agent, campus peace officer, and New York city taxi and limousine inspector members.

a. Definitions. The following words and phrases as used in this section shall have the following meanings unless a different meaning is plainly required by the context.

1. "Special officers" shall mean all peace officers who are special officers of any rank employed by a mayoral agency of the city of New York or the New York city health and hospitals corporation or the New York city housing authority or the board of education of the city of New York and shall include all persons who are employed by the city of New York in the title urban park ranger or associate urban park ranger.

2. "Parking control specialist" shall mean a peace officer employed by the New York city department of transportation as a parking control specialist.

3. "School safety agent" shall mean a peace officer employed as a school safety agent of any rank employed by the New York city police department or the board of education of the city of New York.

4. "Campus peace officer" shall mean a peace officer employed as a campus peace officer of any rank employed by the city university of New York.

5. "Taxi and limousine inspector" shall mean a peace officer of any rank employed by the New York city taxi and limousine commission.

6. "Twenty-five year retirement program" shall mean all the terms and conditions of this section.

7. "Starting date of the twenty-five year retirement program" shall mean the effective date of this section; provided that, for persons who are employed by the city of New York in the title urban park ranger and associate urban park ranger, "starting date of the twenty-five retirement program" shall mean the effective date of the amendment to paragraph one of this subdivision made in section one of the chapter of the laws of two thousand three which amended this paragraph.

8. "Participant in the twenty-five year retirement program" shall mean any special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector who, under the applicable provisions of subdivision b of this section, is entitled to the rights, benefits and privileges and is subject to the obligations of the twenty-five year retirement program, as applicable to him or her.

9. "Discontinued member" shall mean a participant in the twenty-five year retirement program who, while he or she was employed as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector discontinued service as such a member and has a right to a deferred vested benefit under the provisions of subdivision d of this section.

10. "Allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector member" shall mean all service while employed by the city of New York or by the New York city health and hospitals corporation, the New York city board of education, the city university of New York or the New York city taxi and limousine commission in a title whose duties are those of a peace officer under the criminal procedure law.

11. "Retirement system" shall mean the New York city employees' retirement system or the New York city board of education retirement system.

b. Participation in the twenty-five year retirement program. 1. Subject to the provisions of paragraphs four and five of this subdivision, a person who is a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector on the starting date of the twenty-five year retirement program may elect to become a participant in the twenty-five year retirement program by filing, within one hundred eighty days after the starting date of the twenty-five year retirement program, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector on the date such application is filed.

2. Any election to be a participant in the twenty-five year retirement program shall be irrevocable.

3. Where any participant in the twenty-five year retirement program shall cease to be employed as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector he or she shall cease to be such a participant and, during any period in which such person is not so employed, he or she shall not be a participant in the twenty-five year retirement program and shall not be eligible for the benefits of subdivision c of this section.

4. Where any participant in the twenty-five year retirement program terminates service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector and returns to such service as a special officer, parking control specialist, school safety agent, campus peace officer, or taxi and limousine inspector at a later date, he or she shall again become such a participant on that date.

5. Notwithstanding any other provision of law to the contrary, any person who is eligible to become a participant in the twenty-five year retirement program pursuant to paragraph one or two of this subdivision for the full one hundred eighty day period provided for in such applicable paragraph and who fails to timely file a duly executed application for such participation with the retirement system, shall not thereafter be eligible to become a participant in such program.

c. Service retirement benefits. 1. A participant in the twenty-five year retirement program:

(i) who has completed twenty-five or more years of allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector; and

(ii) who files with the retirement system an application for service retirement setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired; and

(iii) who shall be a participant in the twenty-five year retirement program at the time so specified for his or her retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. Notwithstanding any other provision of law to the contrary, the early service retirement benefit for a participant in the twenty-five year retirement program who retires pursuant to paragraph one of this subdivision shall be a retirement allowance consisting of:

(i) an amount, on account of the required minimum period of service, equal to the sum of (a) an annuity which shall be the actuarial equivalent of the accumulated deductions from his or her pay during such period, (b) a pension for increased-take-home-pay which shall be the actuarial equivalent of the reserve for increased-take-home-pay to which he or she may be entitled for such period, and (c) a pension which, when added to such annuity and such pension for increased-take-home-pay, produces a retirement allowance equal to fifty-five percent of the salary earned or earnable in the year prior to his or her retirement; plus

(ii) an amount for each additional year of allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector, or fraction thereof, beyond such required minimum period of service equal to one and seven-tenths percent of the final average salary for such allowable service during the period from the completion of twenty-five years of allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector to the date of retirement.

d. Vesting. 1. A participant in the twenty-five year retirement program who:

(i) discontinues service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector, other than by death or retirement; and

(ii) prior to such discontinuance, completed five but less than twenty-five years of allowable city service; and

(iii) does not withdraw in whole or in part his or her accumulated member contributions pursuant to section 13-141 of this chapter, shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. (i) Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

(ii) Such vested benefit shall become payable on the earliest date on which such discontinued member could have retired for service if such discontinuance had not occurred.

3. Such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and two-tenths percent of such discontinued member's salary earned or earnable in the year prior to his or her discontinuance, multiplied by the number of years of allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector.

e. Member contributions. All special officer, parking control specialist, school safety agent, campus peace officer, or taxi and limousine inspector members, of the twenty-five year retirement program shall be required to make member contributions and additional member contributions in accordance with and subject to the same rights, privileges, obligations and procedures as govern the member contributions and additional member contributions

required by subdivision d of section four hundred forty-five-f of the retirement and social security law.

For the purpose of applying, under this subdivision, such subdivision d to a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector member of the twenty-five year retirement program who is subject to the provisions of this section, and is not subject to the provisions of article eleven of the retirement and social security law, the term "credited service", as used in such subdivision, shall be deemed to mean allowable service as a special officer, parking control specialist, school safety agent, campus peace officer or taxi and limousine inspector.

*NYC Administrative Code 13-157.4*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-157.4 Twenty year retirement program for investigator members.

a. Definitions. The following words and phrases as used in this section shall have the following meanings unless a different meaning is plainly required by the context.

1. "Investigator member" shall mean a member who is a police officer as defined in paragraph (g) of subdivision thirty-four of section 1.20 of the criminal procedure law.

2. "Twenty year retirement program" shall mean all the terms and conditions of this section.

3. "Starting date of the twenty year retirement program" shall mean the effective date of this section, as such date is certified pursuant to section forty-one of the legislative law.

4. "Participant in the twenty year retirement program" shall mean any investigator member who, under the applicable provisions of subdivision b of this section, is entitled to the rights, benefits and privileges and is subject to the obligations of the twenty year retirement program, as applicable to him or her.

5. "Discontinued member" shall mean a participant in the twenty year retirement program who, while he or she was an investigator member, discontinued service as such a member and has a right to a deferred vested benefit under the provisions of subdivision d of this section.

b. Participation in twenty year retirement program. 1. Subject to the provisions of paragraph five of this subdivision, any person who is an investigator member on the starting date of the twenty year retirement program may

elect to become a participant in the twenty year retirement program by filing, within one hundred eighty days after the starting date of the twenty year retirement program, a duly executed application for such participation with the retirement program of which such person is a member, provided he or she is such an investigator member on the date such application is filed.

2. Subject to the provisions of paragraph five of this subdivision, any person who becomes an investigator member after the starting date of the twenty year retirement program may elect to become a participant in the twenty year retirement program by filing, within one hundred eighty days after becoming such an investigator member, a duly executed application for such participation with the retirement system of which such person is a member, provided he or she is such an investigator member on the date such application is filed.

3. Any election to be a participant in the twenty year retirement program shall be irrevocable.

4. Where any participant in the twenty year retirement program shall cease to be employed as an investigator member, he or she shall cease to be such a participant and, during any period in which such person is not so employed, he or she shall not be a participant in the twenty year retirement program and shall not be eligible for the benefits of subdivision c of this section.

5. Where any participant in the twenty year retirement program terminates service as an investigator member and returns to such service as an investigator member at a later date, he or she shall again become such a participant on that date.

c. Service retirement benefits. 1. A participant in the twenty year retirement program:

(i) who has completed twenty or more years of service as a police officer as defined in paragraph (g) of subdivision thirty-four of section 1.20 of the criminal procedure law; and

(ii) who files with the reitrement system an application for service retirement setting forth at what time he or she desires to be retired; and

(iii) who shall be a participant in the twenty year retirement program at the time so specified for his or her retirement; shall be retired pursuant to the provisions of this section affording early service retirement.

2. Notwithstanding any other provision of law to the contrary, the early service retirement benefit for participants in the twenty year retirement program who retire pursuant to paragraph one of this subdivision shall be a retirement allowance consisting of:

(i) an amount, on account of the required minimum period of service, equal to fifty percent of the salary earned in the year prior to his or her retirement; plus

(ii) an amount for each additional year of credited service as an investigator member, or fraction thereof, beyond such required minimum period of service equal to one-sixtieth of the average annual earnings from his or her date of eligibility for retirement to the actual date of retirement; plus

(iii) an amount for each year, or fraction thereof, of service credit not included in subparagraph (i) or (ii) of this paragraph equal to fifty-five percent of one-sixtieth of his or her final compensation if such service credit was for service rendered prior to October first, nineteen hundred fifty-one, or seventy-five percent of one-sixtieth of his or her final compensation if such service was rendered subsequent to October first, nineteen hundred fifty-one.

d. Vesting. 1. A participant in the twenty year retirement program who: (i) discontinues service as an investigator member, other than by death or retirement; and

(ii) prior to such discontinuance, completed five but less than twenty years of service as a police officer, as

defined in paragraph (g) of subdivision thirty-four of section 1.20 of the criminal procedure law; and

(iii) does not withdraw in whole or in part his or her accumulated member contributions pursuant to section 13-141 of this chapter, shall be entitled to receive a deferred vested benefit as provided in this subdivision.

2. Upon such discontinuance under the conditions and in compliance with the provisions of paragraph one of this subdivision, such deferred vested benefit shall vest automatically.

3. Such deferred vested benefit shall be a retirement allowance consisting of an amount equal to two and five-tenths percent of such discontinued member's final average salary, multiplied by the number of years of service as a police officer, as defined in paragraph (g) of subdivision thirty-four of section 1.20 of the criminal procedure law.

e. Member contributions. All investigator members of the twenty year retirement program shall be required to contribute to the retirement system in the manner specified by section 13-225 of this title with respect to members covered by subdivision a of section 13-247 of this title. Such required contributions shall pertain to all years of service rendered subsequent to June thirtieth, two thousand four.

f. An investigator member who is a member of the twenty year retirement program shall have and shall be entitled to the same rights, benefits, privileges and obligations as a member of the police force of the city who is a member of the police pension fund maintained pursuant to subchapter two of chapter two of this title, with respect to the matters provided for in sections 13-246 and 13-256 of such subchapter two.

g. An investigator member who is a member of the twenty year retirement program shall not be entitled to any additional retirement credit pursuant to subdivision a of section nine hundred eleven of the retirement and social security law.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-158 Optional retirement after twenty-five years of allowable service by certain sanitation department officers and employees; retirement allowance upon service retirement.

a. Any member of the retirement system who:

(1) heretofore entered or shall hereafter enter city-service as a member of the uniformed force of the department of sanitation, as such force is defined in subdivision a of section 13-154 of this chapter; and

(2) has heretofore completed or shall hereafter complete not less than twenty years of service as a member of such uniformed force; and

(3) has heretofore completed or shall hereafter complete not less than twenty-five years of allowable city-service, including the service mentioned in paragraph two of this subdivision a; and

(4) is serving in the department of sanitation as commissioner thereof or as the secretary to such department or as the confidential investigator thereof, at the time of the filing of an application for service retirement as hereinafter in this subdivision authorized; and

(5) at the time of such filing, is required to make contributions to the retirement system at a rate calculated on the basis of a service-fraction of not less than one one-hundredth of his or her final compensation; may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, and upon retirement for service he or she shall receive, on account of the first twenty-five years of his or her city-service, in lieu of any smaller retirement allowance for such period of service

otherwise provided for by this chapter, a minimum retirement allowance which shall be equal to one-half of his or her annual salary or compensation when so retired.

b. There shall be added by the city, whenever required, a further pension of such amount which, together with the member's annuity based on accumulated deductions from his or her pay during his or her first twenty-five years of city-service (including regular interest to the date of completion of such period of city service), shall be sufficient to provide him or her with a minimum retirement allowance, on account of the first twenty-five years of his or her allowable city-service, equal to one-half of his or her annual salary or compensation when so retired. For the purpose only of determining the amount of the additional pension contributions by the city that may be required, the member's annuity shall be computed, as it would be, (a) if it were not reduced by the actuarial equivalent of any outstanding loan, (b) if it were not increased by the actuarial equivalent of any additional contributions, (c) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, (d) as it would be without any optional modification.

c. For city-service by such a member of the retirement system in addition to and in excess of twenty-five years, there shall be added to the retirement allowance to which he or she is entitled under subdivisions a and b of this section:

(1) an annuity which shall be computed in the following man- ner:

(a) There shall be added together: (1) the total amount of the accumulated deductions of such member, whenever made, as the same are on the date of his or her retirement, including all voluntary, additional contributions, whenever made; and (2) the amount of any loan to such member outstanding as of the date of his or her retirement.

(b) There shall be added together: (1) the amount of the accumulated deductions of such member, as of the date on which he or she completed twenty-five years of allowable city-service, exclusive of the value, as of such date, of all of his or her voluntary, additional contributions made up to and including such date; and (2) the amount of any loan to such member outstanding on such date.

(c) The annuity to which such member shall be entitled under this paragraph one shall be the actuarial equivalent of the remainder obtained by subtracting the sum computed pursuant to subparagraph (b) of this paragraph from the sum computed pursuant to subparagraph (a) of this paragraph.

(2) a pension which shall be equal to one service-fraction of his*10 such member's final compensation multiplied by the number of his or her years of allowable city-service from the day after he or she completed twenty-five years of allowable city-service to the date of his or her retirement; and

(3) a pension which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for the period from the day after he or she completed twenty-five years of allowable city-service to the date of his or her retirement.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-159 Optional retirement by sanitation workers after twenty years of allowable service in such capacity in the department of sanitation; retirement allowance upon service retirement.

a. For the purposes of this section, the term "sanitation worker" shall mean a person holding the position of sanitation worker in the sanitation service of the classification of the city civil service commission.

b. (1) (a) Any member who is in service as a sanitation worker in the department of sanitation on the second day of July, nineteen hundred sixty-seven, may, by a written application duly executed and acknowledged and filed with the board prior to the first day of January, nineteen hundred sixty-eight, elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a sanitation worker in such department.

(b) Any member who is in service as a sanitation worker in the department of sanitation on the effective date of this subparagraph (b) and at the time of filing an application as hereinafter in this subparagraph (b) provided, may by a written application duly executed and acknowledged and filed with the board prior to the first day of January, nineteen hundred seventy, elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a sanitation worker in such department.

(2) (a) The rate of contribution of any such member making such election pursuant to subparagraph (a) or subparagraph (b) of paragraph one of this subdivision b, and whose rate of contribution is not required to be determined pursuant to paragraph three of subdivision c of this section, by reason of an election made in compliance with the provisions of paragraph one of such subdivision c, shall be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) which would have been established for such member if:

(i) at the time of his or her appointment as a sanitation worker in such department, there had been available to him or her an optional plan for service retirement upon completion of twenty years of allowable service as a sanitation worker in the department of sanitation, at a retirement allowance, for the first twenty years of such service, consisting of a pension and an annuity of twenty-five seventy-fifths of such pension, which together would equal one-half of the member's annual salary or compensation at the time of retirement; and

(ii) such member had then elected the benefits of such plan; and

(iii) such member's rate of contribution had then been fixed as a proportion of his or her compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until completion of his or her minimum period for service retirement, would be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her for such minimum period of service as a sanitation worker.

(b) The rate of contribution prescribed by subparagraph (a) of this paragraph two with respect to any such member shall begin on July third, nineteen hundred sixty-seven or on the date of the commencement of his or her service both as a sanitation worker in such department and as a member of the retirement system, whichever is later.

c. (1) Subject to the privilege of electing the benefits of this section conferred by subparagraph (b) of paragraph one of subdivision a of this section, any person who is appointed a sanitation worker in the department of sanitation on or after the third day of July, nineteen hundred sixty-seven, may elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a sanitation worker in such department, by executing and acknowledging a written election to such effect and by filing such election with the board:

(a) prior to certification of his or her rate of contribution, if such person is not a member of the retirement system at the time of such appointment; and

(b) within thirty days after such appointment, if such person is a member of the retirement system at the time of such appointment.

(2) Notwithstanding the provisions of paragraph one of this subdivision c, any person who (a) is appointed a sanitation worker in the department of sanitation after July second, nineteen hundred sixty-seven and (b) had prior membership in the retirement system as a sanitation worker occurring after July second, nineteen hundred sixty-seven and prior to such appointment, and (c) did not elect the benefits of this section during such prior membership mentioned in subparagraph (b) of this paragraph two, or, after having made such election, withdrew same, shall not, except as otherwise provided in subparagraph (b) of paragraph one of subdivision b of this section, be eligible to elect the benefits of this section, whether or not he or she is a member of the retirement system at the time of such appointment.

(3) Upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each such person making such election pursuant to this subdivision c, the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until completion of his or her period for service retirement, shall be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her, pursuant to paragraph three of subdivision f of this section, for such minimum period of service as a sanitation worker.

d. (1) At any time subsequent to one year after the filing of such an election by any sanitation worker pursuant to subdivision b or c of this section, he or she may withdraw such election by making, acknowledging and filing with the board a written withdrawal. Thereafter the provisions of this section shall be inapplicable to such member and he or she shall not be eligible to elect again the benefits of this section; provided, however, that a sanitation worker who has previously withdrawn such an election shall not thereby be prevented from electing the benefits of this section in compliance with the provisions of subparagraph (b) of paragraph one of subdivision b of this section.

(2) In any case where any sanitation worker in the department of sanitation has elected the benefits of this section and shall thereafter cease to be a sanitation worker in such department, the provisions of this section, notwithstanding any other provision of this chapter, shall be inapplicable to such member during any period wherein he or she does not hold such position.

(3) (a) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph one or two of this subdivision d, to any member who is a member of the uniformed force of the department of sanitation (as defined in subdivision a of section 13-154 of this chapter), the rate of contribution of such member shall be as prescribed by the applicable provisions of subparagraph (a) and (b) of paragraph two of subdivision a of section 13-125 of this chapter and the eligibility and rights of such member with respect to service retirement and other benefits under this chapter shall be governed by the applicable provisions of this chapter in the same manner as if such member had not elected the benefits of this section.

(b) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph one or two of this subdivision to a member who is not a member of such uniformed force, such member shall contribute to the retirement system and his or her eligibility and rights with respect to retirement for service shall be governed by the provisions of this chapter applicable to a member who has elected to contribute to such system on the basis of selection of a service fraction of one one-hundredth of his or her final compensation and attainment of eligibility for service retirement upon reaching the age of fifty-five years.

e. Any member who (1) is a sanitation worker in such department at the time of filing application for service retirement under this section, and (2) has elected the benefits of this section pursuant to subdivision b or c of this section and has not withdrawn such election, and (3) shall have at least twenty years of allowable service as a sanitation worker in such department, may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired. Upon such retirement, such member shall receive, in lieu of any other retirement allowance for service provided for by this chapter, a retirement allowance as provided for in subdivisions f, g and h of this section.

f. On account of the first twenty years of such member's allowable service as a sanitation worker in such department, he or she shall receive a retirement allowance consisting of:

(1) An annuity which shall be, subject to the provisions of paragraph g of this section, the actuarial equivalent of the accumulated deductions from his or her pay during such period of twenty years of service as a sanitation worker (including regular interest to the date of completion of such period of service); and

(2) A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for such period of twenty years of service as a sanitation worker (including regular interest to the date of completion of such period of service); and

(3) A pension, which, when added to such annuity and such pension-providing-for-increased-take-home-pay, produces a retirement allowance equal to one-half of his or her annual salary or compensation when so retired.

g. For the purpose only of determining the amount of the pension payable pursuant to paragraph three of subdivision f of this section, the annuity referred to in paragraph one of such subdivision, if any, shall be computed, as it would be, (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, and (4) as it would be without any optional modification.

h. For allowable service rendered by such a member in addition to and in excess of such first twenty years of allowable service as a sanitation worker, there shall be added to the retirement allowance to which such member is entitled under subdivision f of this section:

(1) an annuity which shall be computed in the following man- ner:

(a) there shall be added together: (i) the total amount of the accumulated deductions of such member, whenever made, as the same are on the date of his or her retirement, including all voluntary, additional contributions, whenever made; and (ii) the amount of any loan to such member outstanding as of the date of his or her retirement;

(b) there shall be determined the amount of the accumulated deductions credited to such member with respect to the first twenty years of his or her allowable service as a sanitation worker in such department, (i) exclusive of the value, as of the date of the completion of such twenty years of service, of all of his or her voluntary, additional contributions made with respect to such period, and (ii) exclusive of the value of any accumulated deductions, including voluntary, additional contributions, credited with respect to any period of allowable service, other than as a sanitation worker, rendered by such member prior to such date, and (iii) treating such accumulated deductions with respect to such first twenty years of service, as they would be if not reduced by any loan made by such member;

(c) the annuity to which such member shall be entitled under this paragraph one shall be the actuarial equivalent of the remainder obtained by subtracting the sum computed pursuant to subparagraph (b) of this paragraph from the sum computed pursuant to subparagraph (a) of this paragraph; and

(2) a pension which shall be equal to one service-fraction of his or her final compensation multiplied by the number of his or her years of allowable service, other than such twenty years of allowable service as a sanitation worker; and

(3) a further pension of one-half of one service-fraction of his or her final compensation multiplied by the number of his or her years of allowable service as a sanitation worker in such department, rendered both (i) after the completion of such period of twenty years of service in such capacity and (ii) after July second, nineteen hundred sixty-five; and

(4) a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for all periods of his or her allowable service other than such period of twenty years of allowable service as a sanitation worker.

i. Notwithstanding any other provision of this chapter, the service-fraction of any sanitation worker who elects the benefits of this section shall, for the purpose of determining his or her retirement allowance under this section, be one one-hundredth of his or her final compensation.

j. In any case where, with respect to any period wherein the provisions of this section are applicable to a sanitation worker in the department of sanitation by reason of his or her election of the benefits hereof, deductions are required to be made from his or her compensation pursuant to the provisions of section 13-108 of this chapter by reason of an application for service credit filed by him or her under such section, such deductions with respect to such period shall be made on the basis of his or her normal rate of contribution under the provisions of this section.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-160 Optional retirement by members of the uniformed force of the department of sanitation after twenty years of allowable service in such force; retirement allowance upon service retirement.

a. For the purposes of this section, the uniformed force of the department of sanitation shall be deemed to consist of sanitation worker, assistant foreman, foreman, district superintendent, senior superintendent, supervising superintendent, principal superintendent, city superintendent, director of operations and general superintendent.

b. (1) (a) Any member who is a member of the uniformed force of the department of sanitation on the second day of July, nineteen hundred sixty-seven, may, by a written application duly executed and acknowledged and filed with the board prior to the first day of January, nineteen hundred sixty-eight, elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a member of such force.

(b) Any member who is a member of the uniformed force of the department of sanitation on the effective date of this subparagraph (b) and at the time of filing an application as hereinafter in this subparagraph (b) provided, may, by a written application duly executed and acknowledged and filed with the board prior to the first day of January, nineteen hundred seventy, elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a member of such force.

(2) (a) The rate of contribution of any such member making such election pursuant to subparagraph (a) or (b) of paragraph one of this subdivision b, and whose rate of contribution is not required to be determined pursuant to paragraph three of subdivision c of this section, by reason of an election made in compliance with the provisions of paragraph one of such subdivision c, shall be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) which

would have been established for such member if:

(i) at the time of his or her appointment as a member of such force, there had been available to him or her an optional plan for service retirement upon completion of twenty years of allowable service as a member of the uniformed force of the department of sanitation, at a retirement allowance, for the first twenty years of such service, consisting of a pension and an annuity of twenty-five seventy-fifths of such pension, which together would equal one-half of the member's annual salary or compensation at the time of retirement; and

(ii) such member had then elected the benefits of such plan; and

(iii) such member's rate of contribution had then been fixed as a proportion of his or her compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until completion of his or her minimum period for service retirement, would be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her for such minimum period of service as a member of the uniformed force of the department of sanitation.

(b) The rate of contribution prescribed by subparagraph (a) of this paragraph two with respect to any such member shall begin on July third, nineteen hundred sixty-seven or on the date of the commencement of his or her service both as a member of such uniformed force and as a member of the retirement system, whichever is later.

c. (1) Subject to the privilege of electing the benefits of this section conferred by subparagraph (b) of paragraph one of subdivision a of this section, any person who is appointed a member of the uniformed force of the department of sanitation on or after the third day of July, nineteen hundred sixty-seven, may elect to contribute to the retirement system for the right to retire after twenty years of allowable service as a member of such force, by executing and acknowledging a written election to such effect and by filing such election with the board:

(a) prior to certification of his or her rate of contribution, if such person is not a member of the retirement system at the time of such appointment; and

(b) within thirty days after such appointment, if such person is a member of the retirement system at the time of such appointment.

(2) Notwithstanding the provisions of paragraph one of this subdivision c, any person who (a) is appointed a member of the uniformed force of the department of sanitation after July second, nineteen hundred sixty-seven and (b) had prior membership in the retirement system as a member of such force occurring after July second, nineteen hundred sixty-seven and prior to such appointment and (c) did not elect the benefits of this section during such prior membership mentioned in subparagraph (b) of this paragraph two, or, after having made such election, withdrew same, shall not, except as otherwise provided in subparagraph (b) of paragraph one of subdivision b of this section, be eligible to elect the benefits of this section, whether or not he or she is a member of the retirement system at the time of such appointment.

(3) Upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each such person making such election pursuant to this subdivision c, the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for service retirement and accumulated at regular interest until completion of his or her period for service retirement, shall be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him such member, pursuant to paragraph three of subdivision f of this section, for such minimum period of service as a member of the uniformed force of the department of sanitation.

d. (1) At any time subsequent to one year after the filing of such an election by any member of the uniformed force of the department of sanitation pursuant to subdivision b or c of this section, such member may withdraw such

election by making, acknowledging and filing with the board a written withdrawal. Thereafter the provisions of this section shall be inapplicable to such member and he or she shall not be eligible to elect again the benefits of this section; provided, however, that a member of such force who has previously withdrawn such an election shall not thereby be prevented from electing the benefits of this section in compliance with the provisions of subparagraph (b) of paragraph one of subdivision b of this section.

(2) (a) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph one of this subdivision d, to any member who is a member of the uniformed force of the department of sanitation, the rate of contribution of such member shall be as prescribed by the applicable provisions of subparagraph (a) and (b) of paragraph two of subdivision a of section 13-125 of this chapter and the eligibility and rights of such member with respect to service retirement and other benefits under this chapter shall be governed by the applicable provisions of this chapter in the same manner as if such member had not elected the benefits of this section.

(b) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph one of this subdivision to a member who is not a member of such uniformed force, such member shall contribute to the retirement system and his or her eligibility and rights with respect to retirement for service shall be governed by the provisions of this chapter applicable to a member who has elected to contribute to such system on the basis of selection of a service fraction of one one-hundredth of his or her final compensation and attainment of eligibility for service retirement upon reaching the age of fifty-five years.

e. Any member who (1) is a member of the uniformed force of the department of sanitation at the time of filing application for service retirement under this section, and (2) has elected the benefits of this section pursuant to subdivision b or c of this section and has not withdrawn such election, and (3) shall have at least twenty years of allowable service as a member of such force, may retire upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired. Upon such retirement, such member shall receive, in lieu of any other retirement allowance for service provided for by this chapter, a retirement allowance as provided for in subdivisions f, g and h of this section.

f. On account of the first twenty years of such member's allowable service as a member of the uniformed force of the department of sanitation, he or she shall receive a retirement allowance consisting of:

(1) An annuity which shall be, subject to the provisions of paragraph g of this section, the actuarial equivalent of the accumulated deductions from his or her pay during such period of twenty years of service as a member of such force (including regular interest to the date of completion of such period of service); and

(2) A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for such period of twenty years of service as a member of such force (including regular interest to the date of completion of such period of service); and

(3) A pension, which, when added to such annuity and such pension-providing-for-increased-take-home-pay, produces a retirement allowance equal to one-half of his or her annual salary or compensation when so retired.

g. For the purpose only of determining the amount of the pension payable pursuant to paragraph three of subdivision f of this section, the annuity referred to in paragraph one of such subdivision, if any, shall be computed, as it would be, (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, and (4) as it would be without any optional modification.

h. For allowable service rendered by such a member in addition to and in excess of such first twenty years of allowable service as a member of the uniformed force of the department of sanitation, there shall be added to the retirement allowance to which he or she is entitled under subdivision f of this section:

(1) an annuity which shall be computed in the following man- ner:

(a) there shall be added together: (i) the total amount of the accumulated deductions of such member, whenever made, as the same are on the date of his or her retirement, including all voluntary, additional contributions, whenever made; and (ii) the amount of any loan to such member outstanding as of the date of his or her retirement;

(b) there shall be determined the amount of the accumulated deductions credited to such member with respect to the first twenty years of his or her allowable service as a member of such force, (i) exclusive of the value, as of the date of the completion of such twenty years of service, of all his or her voluntary, additional contributions made with respect to such period, and (ii) exclusive of the value of any accumulated deductions, including voluntary, additional contributions, credited with respect to any period of allowable service, other than as a member of the uniformed force of the department of sanitation, rendered by such member prior to such date, and (iii) treating such accumulated deductions with respect to such first twenty years of service, as they would be if not reduced by any loan made by such member;

(c) the annuity to which such member shall be entitled under this paragraph one shall be the actuarial equivalent of the remainder obtained by subtracting the sum computed pursuant to subparagraph (b) of this paragraph from the sum computed pursuant to subparagraph (a) of this paragraph; and

(2) a pension which shall be equal to one service-fraction of his such member's final compensation multiplied by the number of his or her years of allowable service, other than such twenty years of allowable service as a member of the uniformed force of the department of sanitation; and

(3) a further pension of one-half of one service-fraction of his or her final compensation multiplied by the number of his or her years of allowable service as a member of such force, rendered both (i) after the completion of such period of twenty years of service in such force and (ii) after July second, nineteen hundred sixty-five; and

(4) a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for all periods of his or her allowable service other than such period of twenty years of allowable service as a member of the uniformed force of the department of sanitation.

i. Notwithstanding any other provision of this chapter, the service-fraction of any member of the uniformed force of the department of sanitation who elects the benefits of this section shall, for the purpose of determining his or her retirement allowance under this section, to be one one-hundredth of his or her final compensation.

j. In any case where, with respect to any period wherein the provisions of this section are applicable to a member of the uniformed force of the department of sanitation by reason of his or her election of the benefits hereof, deductions are required to be made from his or her compensation pursuant to the provisions of section 13-108 of this chapter by reason of an application for service credit by such member under such section, such deductions with respect to such period shall be made on the basis of his or her normal rate of contribution under the provisions of this section.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-161 Optional service retirement for certain officers and employees of the New York city transit authority after twenty years of designated service, with retirement allowance payable at or after age fifty.

a. For the purposes of this section, the following terms shall mean and include:

1. "Transit hourly-paid employee." A person holding a position in group one of the rapid transit railroad service, as classified by the city civil service commission.

2. "Transit annually-paid employee." A person who is employed by the transit authority in a position or classification of positions to which the provisions of this section have been made applicable by a resolution adopted by such authority pursuant to paragraph one of subdivision k of this section, and who is not a transit hourly-paid employee.

3. "Transit annually-paid operating employee." A transit annually-paid employee who holds a position in group two of the rapid transit railroad service, as classified by the city civil service commission.

4. "Transit annually-paid non-operating employee with prior transit service." A transit annually-paid employee who holds a position which is not in the rapid transit railroad service, as classified by such commission, and who held any such position on the date of effectiveness of a resolution of the transit authority making the provisions of this section applicable to such position.

5. "Subsequently appointed transit annually-paid non-operating employee." A transit annually-paid employee who holds a position which is not in the rapid transit railroad service and who was appointed to any such position for the first time after the date of effectiveness of a resolution of the transit authority making the provisions of this section

applicable to such position.

6. "Initial date of retirement allowance payability." The earliest date as of which payment of a member's retirement allowance may be caused by such member to commence under the provisions of this section.

7. "Transit authority." The New York city transit authority.

8. "Transit service." (a) In the case of any member who is a transit hourly-paid employee or transit annually-paid operating employee or subsequently appointed transit annually-paid non-operating employee, such term shall mean allowable service with the transit authority in any one or more of such capacities.

(b) In the case of any member who is a transit annually-paid non-operating employee with prior transit service, such term shall mean allowable city-service, but shall not include city-service rendered on or after July first, nineteen hundred sixty-eight, in other than a position with the transit authority.

b. (1) Any member who is in service as a transit hourly-paid employee with the transit authority on the first day of July, nineteen hundred sixty-eight, may elect, by a written application duly executed and acknowledged and filed with the board of estimate prior to the first day of January, nineteen hundred sixty-nine, to contribute to the retirement system for the right to retire as provided in this section after twenty years of transit service, with retirement allowance payable at or after age fifty. Such election shall be subject to the provisions of subdivision l of this section.

(2) Subject to the provisions of subdivision l of this section, the rate of contribution, on and after July first, nineteen hundred sixty-eight, of any such member making such election shall be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) which would have been established for such member if (a) at the time of his or her appointment as a transit hourly-paid employee with such authority, there had been available to him or her an optional plan providing for service retirement upon his or her completion of twenty years of transit service and payment, not earlier than attainment of age fifty, of a retirement allowance for the first twenty years of such service, consisting of a pension and an annuity which together would equal one-half of the member's salary or compensation earnable by him or her in the year prior to his or her retirement, and (b) such member had, at the time of such appointment, elected the benefits of such plan and (c) his or her rate of contribution had then been fixed as a proportion of his or her compensation which, when deducted from each payment of his or her prospective earnable compensation prior to the completion of his or her twentieth year of transit service and accumulated at regular interest until completion of such twenty years of transit service, would be computed to provide an annuity, which, as of the initial date of retirement allowance payability with respect to such member, would be equal to twenty-five seventy-fifths of the pension allowable to him or her for such minimum period of service under the provisions of this section.

(3) Any member who was in service as a transit hourly paid employee with the transit authority on the first day of July, nineteen hundred sixty-eight, and any person who was appointed a transit hourly paid employee with the transit authority on or after the first day of July, nineteen hundred sixty-eight, who did not elect the benefits of subdivision b of this section within the time therein provided for such election, may elect, by a written election duly executed and acknowledged and filed with the board prior to the last day of December, nineteen hundred sixty-nine, to contribute to the retirement system for the right to retire after twenty years of allowable service as a transit hourly paid employee with the transit authority. All contributions and benefits payable by or on account of such member shall be computed on the basis of such right to retire after twenty years of allowable service as a transit hourly paid employee with the transit authority, as if he or she had made such election within the time prescribed by subdivision b of this section.

c. (1) (a) Any person who is appointed a transit hourly-paid employee with the transit authority after the first day of July, nineteen hundred sixty-eight, may, in the manner hereinafter provided in this paragraph one, elect the right to retire as provided in this section after completion of twenty years of transit service, with retirement allowance payable at or after age fifty.

(b) Such person may make such election by executing and acknowledging a written election to such effect and by filing such election with the board:

(i) prior to certification of his or her rate of contribution, if such person is not a member of the retirement system at the time of such appointment; and

(ii) Within thirty days after such appointment, if such person is a member of the retirement system at the time of such appointment.

(c) In the case of any such election made by a member on or after July first, nineteen hundred sixty-eight and prior to July first, nineteen hundred seventy, such election shall constitute an election to contribute while a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) to the retirement system for such right at the rate of contribution prescribed by paragraph three of this subdivision c; provided, however that if such member is relieved, pursuant to the provisions of subdivision l of this section, of the making of contributions, such member shall be required to contribute at such rate until the effective date of such relief.

(2) Notwithstanding the provisions of paragraph one of this subdivision c, any person who (a) is appointed a transit hourly-paid employee with the transit authority after July first, nineteen hundred sixty-eight and (b) had prior membership in the retirement system as a transit hourly-paid employee or transit annually-paid employee occurring after July first, nineteen hundred sixty-eight and prior to such appointment, and (c) did not elect the benefits of this section during such prior membership mentioned in sub-paragraph (b) of this paragraph two, or, after having made such election, withdrew same, shall not be eligible to elect the benefits of this section, whether or not he or she is a member of the retirement system at the time of such appointment.

(3) Subject to the provisions of subdivision l of this section, upon the basis of the tables herein authorized and regular interest, the actuary of such board shall determine for each such person making such election pursuant to this subdivision c, the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her completion of his or her twentieth year of transit service and accumulated at regular interest until completion of such twenty years of transit service, shall be computed to provide an annuity which, as of the initial date of retirement allowance payability with respect to such member, shall be equal to twenty-five seventy-fifths of the pension then allowable to him or her for such minimum period of service under the provisions of this section.

d. (1) At any time subsequent to one year after the filing of an election of the benefits of this section by any transit hourly-paid employee or transit annually-paid employee pursuant to this section, he or she may withdraw such election by making, acknowledging and filing with the board a written withdrawal. Thereafter the provisions of this section shall be inapplicable to such member and he or she shall not be eligible to elect again the benefits of this section.

(2) In any case where any member who is a transit hourly-paid employee or transit annually-paid employee with the transit authority has elected the benefits of this section and shall thereafter, and before he or she acquires a vested right to a retirement allowance under this section, change his or her status so that he or she is neither a transit hourly-paid employee nor a transit annually-paid employee with such authority, the provisions of this section, notwithstanding any other provision of this title, shall be inapplicable to such member during any such period wherein he or she does not hold either such position.

(3) (a) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph one of this subdivision d, to any member who is a transit hourly-paid employee or transit annually-paid employee:

(i) if the service of such member with the transit authority as such employee began prior to July first, nineteen hundred sixty-eight, his or her minimum retirement age, service-fraction and normal rate of contribution shall be as they were immediately prior to his or her election of the benefits of this section;

(ii) if the service of such member with the transit authority as such employee began after June thirtieth, nineteen hundred sixty-eight, the minimum retirement age of such member shall be fifty-five years, his or her pension shall be as prescribed by paragraph six of subdivision a of section 13-172 of this chapter for the years of his or her allowable service therein mentioned and his or her normal rate of contribution shall be that which would have been fixed for such member if at the time when his or her last membership in the retirement system began, he or she had elected to contribute to the retirement system as provided for in such paragraph six.

(b) (i) During any period wherein the provisions of this section are inapplicable, under the provisions of paragraph two of this subdivision d, to a member, then unless such member shall become eligible for and acquire by election or otherwise pursuant to the provisions of this title, rights or status other than as hereinafter set forth in this subparagraph (b), the rights and status of such member with respect to minimum retirement age, service-fraction, rate of contribution and privilege of electing any optional plan of retirement shall, except as otherwise provided in item (ii) of this subparagraph (b), be as they would be if the last membership of such member in the retirement system began on such date on which the provisions of this section became inapplicable to such member and such member was not on such date in service with the transit authority.

(ii) During the period of three years after such date on which the provisions of this section became inapplicable to such member, then unless he or she acquires other rights and status pursuant to other applicable provisions of this chapter:

(1) his or her eligibility for service retirement and his or her retirement allowance, if the service of such member with the transit authority began prior to July first, nineteen hundred sixty-eight, shall be determined in the same manner as if he or she had not elected the benefits of this section; and

(2) his or her eligibility for service retirement and his or her retirement allowance, if the service of such member with the transit authority began after June thirtieth, nineteen hundred sixty-eight, shall be determined on the basis of a minimum retirement age of fifty-five and a pension computed pursuant to paragraph six of subdivision a of section 13-172 of this chapter for the years of allowable service of such member mentioned in such subdivision.

(c) During any period wherein the provisions of this section are inapplicable to any member under the provisions of paragraph one or two of this subdivision d, the eligibility and rights of such member with respect to benefits under this chapter shall be governed, subject to the provisions of subparagraphs (a) and (b) of this paragraph three, by the applicable provisions of this chapter in the same manner as if such member had not elected the benefits of this section.

e. (1) Any member who (a) has elected optional retirement pursuant to this section and (b) has not withdrawn such election and (c) has completed twenty years of transit service, and (d) is a transit hourly-paid employee or transit annually-paid employee at the completion of such period of service, shall have, effective with the date on which he or she has completed such twenty years of transit service, a vested right to a retirement allowance, and to retire for service, subject to the provisions hereinafter set forth in this subdivision e and the applicable provisions of this section.

(2) Subject to the provisions of paragraph four of this subdivision e, any such member who meets the conditions specified in paragraph one of this subdivision e, and who is in city-service as a transit hourly-paid employee or as a transit annually-paid employee and who has not withdrawn his or her accumulated deductions, except as permitted by subdivision c of section 13-140 of this chapter, and except as such deductions or any portion thereof may be paid pursuant to subparagraph (d) of paragraph six of this subdivision e, may retire upon his or her own request, regardless of age, upon written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, and, upon the effective date of his or her retirement, or his or her attainment of age fifty, whichever is the later, such member shall be paid a retirement allowance calculated pursuant to the provisions of subdivisions f, g and h of this section.

(3) If any such member dies on or after the effective date of his or her retirement and before the first payment on

account of his or her retirement allowance is made, then such member, whether or not he or she has selected any option, shall be deemed to have selected option one, and any beneficiary under such option one shall be eligible for benefits under such option as of the date of such death but not earlier than the date upon which such member would have reached the age of fifty years.

(4) Notwithstanding any other provisions of this section, or the provisions of any other section of the code to the contrary, in any case where any member who has a vested right to a retirement allowance under the provisions of this section is dismissed for cause by the transit authority, such dismissal shall in no wise impair or defeat such vested right to a retirement allowance, or his or her right to retire from the retirement system as provided in this section, except only as provided in paragraphs five and six of this subdivision. Where any member who has such a vested right is so dismissed for cause, and such vested right, under the provisions of this paragraph four, is not thereby defeated, such member shall be deemed to have been retired for service as of the date of such dismissal. In any case where any member who has such a vested right is, on any basis other than cause, removed or otherwise involuntarily separated from city-service as a transit hourly-paid employee or transit annually-paid employee, such member shall be deemed to have been retired for service as of the date on which such removal or separation becomes effective.

(5) (a) In the event that any such member who has a vested right to a retirement allowance shall, prior to the effective date of his or her retirement, be dismissed from the service of the transit authority because of drunkenness on duty or because of theft of transit authority property, then upon such dismissal his or her rights as a member shall cease and terminate and the retirement system shall be discharged of all further obligations to such member, except that he or she shall have a right to a return of his or her accumulated deductions, if any.

(b) For the purpose of this paragraph five, "theft of transit authority property" shall be construed to include:

(i) any case where a member wilfully takes or retains, for his or her own use or benefit:

(1) moneys or property belonging to or under the jurisdiction of the transit authority; or

(2) moneys or property belonging to any passenger, provided such taking or retention occurs while such passenger is upon or using any of the transit facilities under the jurisdiction of the transit authority; and

(ii) any acceptance from the transit authority of wages or sick pay for time actually worked for any employer other than such authority.

(6) (a) In the event that any such member who has a vested right to a retirement allowance, shall, prior to the effective date of his or her retirement, be arrested or indicted on a criminal charge which is a felony under the laws of the state of New York, or of the United States, his or her vested right to a retirement allowance shall be temporarily divested and he or she shall be temporarily divested of the right to retire under this section, subject to the provisions of subparagraph (b) of this paragraph six.

(b) If, during the twelve-month period subsequent to such arrest or indictment, whichever occurs first, such member is convicted of a felony in the prosecution instituted by such arrest or indictment, then upon such conviction, his or her vested right to a retirement allowance shall be permanently divested and forfeited and his or her membership in the retirement system shall cease and terminate, and the retirement system shall be discharged of all further obligations to such member, except that he or she shall have a right to a return of his or her accumulated deductions, if any, less any payments made to such member pursuant to subparagraph (d) of this paragraph six.

(c) If such member is not so convicted, then upon the expiration of such twelve-month period or upon his or her earlier acquittal of the felony or felonies charged in such prosecution, his or her vested right to a retirement allowance and to retire under this section shall be reinstated and if such member had filed an application for retirement under paragraph two of this subdivision e, the effective date of his or her retirement and the initial date of retirement allowance payability with respect to such member shall be the same as if such temporary divestment had not occurred.

(d) Any such member who has attained the age of fifty years and who has filed an application for retirement under paragraph two of this subdivision e and whose right to retire has been temporarily divested pursuant to subparagraph (a) of this paragraph six, shall, if he or she is then credited with accumulated deductions, have the right, upon his or her written election filed with the board, to receive each month from the retirement system, after the date on which his or her retirement would otherwise become effective and during such period of temporary divestment, an amount to be designated by him or her, not in excess of the amount of the monthly benefit which would have been payable to such member if his or her right to retire had not been temporarily divested, provided that the total of such payments to him or her shall not exceed the amount of his or her accumulated deductions after reduction of same by the amount of any outstanding loan. In the event that the right of such member to retire is reinstated pursuant to the provisions of subparagraph c of this paragraph six, such payments shall be deemed to be and treated as payments on account of his or her retirement allowance.

(e) In any case where any such member files an application for retirement and his or her right to retire is temporarily divested under the provisions of subparagraph (a) of this paragraph six, the employment of such member by the transit authority or the holding of office by such member with the authority, as the case may be, shall for all purposes cease and terminate on the date on which his or her retirement would otherwise become effective, whether or not such member be convicted in the prosecution causing such temporary divestment.

f. A member who has retired under this section shall receive, on account of the first twenty years of his or her transit service and in lieu of any other retirement allowance for such twenty years of service, a retirement allowance consisting of:

(1) An annuity which shall be, subject to the provisions of subdivision g of this section, the actuarial equivalent, as of the date on which such member's retirement allowance becomes payable, of the accumulated deductions from his or her pay, if any, during such period of twenty years of transit service (including regular interest to and including the completion of such period of twenty years of service); and

(2) A pension-providing-for-increased-take-home-pay which is the actuarial equivalent, as of the date on which such member's retirement allowance becomes payable, of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for such period of twenty years of transit service (including regular interest to and including the completion of such period of twenty years of service); and

(3) A pension, which, when added to such annuity, if any, and such pension-providing-for-increased-take-home-pay, if any, produces a retirement allowance equal to one-half of his or her salary or compensation earnable by such member for transit service in the year prior to his or her retirement.

g. For the purpose only of determining the amount of the pension payable pursuant to paragraph three of subdivision f of this section, the annuity referred to in paragraph one of such subdivision, if any, shall be computed, as it would be, (1) if it were not reduced by the actuarial equivalent of any outstanding loan, (2) if it were not increased by the actuarial equivalent of any additional contributions, (3) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, and (4) as it would be without any optional modification.

h. For allowable service rendered by such member in addition to and in excess of such first twenty years of transit service, such member shall receive, in addition to the retirement allowance to which he or she is entitled under subdivision f of this section and in lieu of any other retirement allowance for such additional and excess allowable service:

(1) an annuity, if any, which shall be computed in the following manner:

(a) there shall be added together: (i) the total amount of the accumulated deductions of such member, if any, whenever made, as the same are on the date on which such member's retirement allowance becomes payable, including

all voluntary, additional contributions, whenever made; and (ii) the amount of any loan to such member outstanding as of such date;

(b) there shall be determined the amount of the accumulated deductions, if any, credited to such member with respect to the first twenty years of his or her transit service, as such deductions were at the completion of such first twenty years of service (i) exclusive of the value, as of the date of completion of such period of service, of all of his or her voluntary, additional contributions made with respect to such period of twenty years, and (ii) exclusive of the value, as of such date of completion, of any accumulated deductions, including voluntary, additional contributions, credited with respect to any period of allowable service (other than transit service) rendered by such member prior to completion of such period of twenty years of service, and (iii) treating such accumulated deductions with respect to such first twenty years of transit service as they would be if not reduced by any loan made by such member:

(c) the annuity to which such member shall be entitled under this paragraph one, if any, shall be the actuarial equivalent, as of the date on which such member's retirement allowance becomes payable, of the remainder obtained by subtracting the sum computed pursuant to subparagraph (b) of this paragraph one from the sum computed pursuant to subparagraph (a) of this paragraph; and

(2) a pension which shall be equal to one service-fraction of his or her final compensation multiplied by the number of his or her years of allowable service, other than such twenty years of transit service; and

(3) a further pension of one-half of one service-fraction of his or her final compensation multiplied by the number of his or her years of transit service rendered both (i) after the completion of such period of twenty years of transit service and (ii) on or after July first, nineteen hundred sixty-eight; and

(4) a pension-providing-for-increased-take-home-pay which shall be the actuarial equivalent, as of the date on which such member's retirement allowance becomes payable, of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for all periods of his or her allowable service other than such period of twenty years of transit service.

i. Notwithstanding any other provision of this chapter, the service-fraction of any transit hourly-paid employee or transit annually-paid employee who elects the benefits of this section shall, for the purpose of determining his or her retirement allowance under this section, be one one-hundredth of his or her final compensation.

j. In any case where, with respect to any period wherein the provisions of this section are applicable to a transit hourly-paid employee or transit annually-paid employee by reason of his or her election of the benefits hereof, deductions are required to be made from his or her compensation pursuant to the provisions of subdivision one of section 13-108 of this chapter by reason of an application for service credit filed by him or her under such section, such deductions with respect to such period shall, subject to the provisions of subdivision three of such section, be made on the basis of his or her normal rate of contribution under the provisions of this section.

k. (1) The transit authority shall have power and authority to make the provisions of this section applicable to officers and employees holding such positions or employed in such classifications of positions (other than positions of transit hourly-paid employees) as it shall designate by one or more resolutions adopted by it on or before July first, nineteen hundred sixty-nine. Such applicability shall commence on the date of effectiveness specified in any such resolution, which date shall not be earlier than July first, nineteen hundred sixty-eight, nor later than July first, nineteen hundred sixty-nine.

(2) Any member who becomes a transit annually-paid employee by virtue of such a resolution and who is in service in a position as such employee with the transit authority on the date of effectiveness specified in such resolution, may, by a written application duly executed and acknowledged and filed with the board of estimate within six months from such date of effectiveness, elect to contribute to the retirement system for the right to retire after completion of twenty years of transit service, with retirement allowance payable at or after age fifty.

(3) Subject to the provisions of subdivision l of this section, the rate of contribution, on and after such date of effectiveness, of any such member making such election shall be that (before any reduction in rate of contribution to which such member, after such election, may be entitled by reason of any plan for pensions-providing-for-increased-take-home-pay) which would have been established for such member if (a) at the time of his or her appointment as a transit annually-paid employee which such authority, if such member is a transit annually-paid operating employee or subsequently appointed transit annually-paid nonoperating employee, or, at the time of his or her last entry into cityservice, if such member is a transit annually-paid non-operating employee with prior transit service, there had been available to him or her an optional plan for service retirement upon his or her completion of twenty years of transit service, and payment, not earlier than attainment of age fifty, of a retirement allowance for the first twenty years of such service, consisting of a pension and an annuity, which together would equal one-half of the member's salary or compensation earnable by him or her for transit service in the year prior to his or her retirement, and (b) such member had elected the benefits of such plan at the time of such appointment or last entry into city-service, as the case may be, and (c) his or her rate of contribution had been fixed, at such time of appointment or last entry into city-service, as the case may be, as a proportion of his or her compensation which, when deducted from each payment of his or her prospective earnable compensation prior to the completion of his or her twentieth year of transit service and accumulated at regular interest until completion of such twenty years of transit service, would be computed to provide an annuity which, as of the initial date of retirement allowance payability with respect to such member, would be equal to twenty-five seventy-fifths of the pension allowable to him or her for such minimum period of service under the provisions of this section.

(4) (a) Any person who is appointed after the date of effectiveness of any such resolution, to a position with the transit authority to which the provisions of this section are made applicable by such resolution, may, in the manner hereinafter provided in this paragraph four, elect the right to retire as provided in this section upon completion of twenty years of transit service, with retirement allowance payable at or after age fifty.

(b) Such person may make such election by executing and acknowledging a written election to such effect and by filing such election with the board:

(i) prior to certification of his or her rate of contribution, if such person is not a member of the retirement system at the time of such appointment; and

(ii) within thirty days after such appointment, if such person is a member of the retirement system at the time of such appointment.

(c) In the case of any such election made by a member after such date of effectiveness and prior to July first, nineteen hundred seventy, such election shall constitute an election to contribute while a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) for such right to the retirement system at the rate of contribution prescribed by paragraph six of this subdivision k; provided, however, that if such member is relieved, pursuant to the provisions of subdivision l of this section, of the making of contributions, such member shall be required to contribute at such rate until the effective date of such relief.

(5) Notwithstanding the provisions of paragraph four of this subdivision k, any person who is appointed a transit annually-paid employee with the transit authority after July first, nineteen hundred sixty-eight and who, prior to such appointment as a transit annually-paid employee, had prior membership in the retirement system as a transit annually-paid employee or transit hourly-paid employee and did not elect the benefits of this section during such prior membership, or, after having made such election, withdrew same, shall not be eligible to elect the benefits of this section, whether or not he or she is a member of the retirement system at the time of such appointment.

(6) Subject to the provisions of subdivision l of this section, upon the basis of the tables herein authorized and regular interest, the actuary of such board shall determine for each transit annually-paid employee making such election pursuant to paragraph four of this subdivision k, the proportion of compensation which, when deducted from each

payment of his or her prospective earnable compensation prior to his or her completion of his or her twentieth year of transit service and accumulated at regular interest until completion of such twenty years of transit service, shall be computed to provide an annuity which as of the initial date of retirement allowance payability with respect to such member, shall be equal to twenty-five seventy-fifths of the pension then allowable to him or her for such minimum period of service under the provisions of this section.

l. (1) A transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) who is in service with the transit authority on June thirtieth, nineteen hundred seventy as a transit hourly-paid employee may elect, by a written application duly executed and acknowledged and filed with the board prior to January first, nineteen hundred seventy-one, to be relieved, pursuant to the provisions of paragraph two of this subdivision l, of making further contributions and to qualify for retirement under the provisions of this section without making further contributions.

(2) Any such member who makes such an election shall not, commencing with his or her payroll period, the first day of which is next after July first, nineteen hundred seventy and thereafter while he or she remains a transit twenty-year plan member, be required to make further contributions to the retirement system as provided in paragraphs one and two of subdivision b of this section or paragraphs one and three of subdivision c of this section, whichever are applicable to him or her, and commencing with such payroll period and thereafter while he or she remains a transit twenty-year plan member, the making of further deductions from his or her compensation as provided for in such applicable paragraphs shall not be required.

(3) Any person who is appointed a transit hourly-paid employee on or after July first, nineteen hundred seventy and who elects to become a transit twenty-year plan member shall not, while he or she remains a transit twenty-year plan member, be required to make contributions to the retirement system as provided for in paragraph three of subdivision c of this section and while he or she remains a transit twenty-year plan member, no deductions from his or her compensation shall be made as provided for in such paragraph three.

(4) (a) The transit authority shall have full power and authority, by resolution or resolutions adopted on or before July first, nineteen hundred seventy-one, to designate as eligible for the election described in subparagraph (b) of this paragraph four, one or more categories, as it may determine, of transit twenty-year plan members, who, as of the effective date of any such resolution applicable to their category (which date shall not be earlier than July first, nineteen hundred seventy or later than July first, nineteen hundred seventy-one) are in the service of the transit authority as transit annually-paid operating employees, transit annually-paid non-operating employees with prior transit service or subsequently appointed transit annually-paid non-operating employees.

(b) Any such resolution may provide that such eligible members therein designated, may, by a written application duly executed and acknowledged and filed with the board no later than six months after such effective date, elect to be relieved, pursuant to the provisions of paragraph five of this subdivision l, of making further contributions and to qualify for retirement under the provisions of this section without making further contributions.

(5) Any such member who makes such election pursuant to paragraph four of this subdivision l shall not, on or after the effective date of such resolution applicable to him or her and thereafter while he or she remains a transit twenty-year plan member, be required to make further contributions to the retirement system as provided in paragraphs two and three of subdivision k of this section or paragraphs four and six of such subdivision, whichever of such paragraphs are applicable to him or her, and commencing on such effective date and thereafter while he or she remains a transit twenty-year plan member, the making of further deductions, as provided for in such applicable paragraphs, from his or her compensation shall not be required.

(6) (a) The transit authority shall have full power and authority, by resolution or resolutions adopted on or before July first, nineteen hundred seventy-one, to designate as non-contributory members as provided for in subparagraph (b) of this paragraph six, one or more categories, as it may determine, of persons who, after the effective

date of any such resolution applicable to their category (which date shall not be earlier than July first, nineteen hundred seventy or later than July first, nineteen hundred seventy-one) are appointed transit annually-paid operating employees, transit annually-paid non-operating employees with prior transit service or subsequently appointed transit annually-paid non-operating employees and who become transit twenty-year plan members.

(b) Any such member designated as a non-contributory member pursuant to subparagraph (a) of this paragraph six shall not, while he or she remains a transit twenty-year plan member be required to make contributions to the retirement system as provided for in paragraph six of subdivision k of this section and while he or she remains a transit twenty-year plan member, no deductions from his or her compensation shall be made as provided for in such paragraph six.

(7) In any case where any deductions from the compensation of a twenty-year pension plan member are made as contributions under the applicable provisions of subdivision b, c or k of this section with respect to any period in relation to which, under the foregoing provisions of this subdivision l, he or she is relieved of making contributions, such deductions shall be refunded to such member, without interest.

(8) Nothing contained in the foregoing paragraphs of this subdivision l shall be construed to require that a normal rate of contribution heretofore assigned to a transit twenty-year plan member pursuant to the provisions of paragraphs one and two of subdivision b of this section or paragraphs one and three of subdivision c of this section or paragraphs two and three of subdivision k of this section or paragraphs four and six of such subdivision k, whichever of such paragraphs are applicable to such member, shall not be retained by him or her for the purposes of this chapter, subject to the provisions of this section, or to require that a normal rate of contribution shall not be hereafter assigned to and retained by a transit twenty-year plan member, pursuant to the applicable provisions of such paragraphs of such subdivisions b, c and k, for the purposes of this chapter, subject to the provisions of this section.

(9) (a) In any case where any transit twenty-year plan member is relieved, pursuant to the foregoing provisions of this subdivision l, of making contributions, all required contributions heretofore or hereafter made by such member during any period wherein he or she was not or is not so relieved shall nevertheless remain required contributions (whether or not made by him or her while a transit twenty-year plan member) for all of the purposes of this chapter, including, but not limited to the purposes of subdivisions f, g and h of this section, and nothing contained in the foregoing paragraphs of this subdivision l or any other provision of law shall be construed as changing their status as required contributions to any other status.

(b) No contributions of a transit twenty-year pension plan member who is so relieved shall be deemed excess contributions under subdivision c of section 13-140 of this chapter unless such contributions, if such member were not so relieved, would be excess contributions.

(10) (a) Any transit twenty-year plan member:

(1) who is relieved of making contributions by the provisions of paragraphs one and two of this subdivision l, or

(ii) who is relieved of making contributions by the provisions of paragraphs four and five of this subdivision l;

may, for the purpose of purchasing additional annuity, elect to continue to contribute to the retirement system at the rate of two and one half per centum, five per centum, seven and one half per centum, or ten per centum of earnable compensation.

(b) Any contributions made by a transit twenty-year plan member pursuant to subparagraph (a) of this paragraph ten shall be deemed to be voluntary, additional contributions for all of the purposes of this title, including but not limited to the purposes of subdivisions f, g and h of this section.

(c) Such voluntary, additional contributions shall not enter into the computation for allowance on ordinary

disability retirement as described in section 13-174 of this chapter.

m. In any case where a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) who had membership in the retirement system immediately prior to becoming a transit twenty-year plan member dies while a transit twenty-year plan member but before completing twenty years of transit service, such member, if he or she would have been eligible, on the day next preceding the day of his or her death, to retire for service had he or she remained a member under the retirement plan applicable to him or her immediately before he or she became a transit twenty-year plan member, shall be deemed to have died while a member of such immediately preceding retirement plan.

n. (1) Notwithstanding any other provision of this section to the contrary, any person who is a transit hourly-paid employee on June thirtieth, nineteen hundred seventy and who is not on that date a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) may elect, by a written application duly executed and acknowledged and filed with the board on or after July first, nineteen hundred seventy and prior to January first, nineteen hundred seventy-one, the right to retire under the provisions of this section after twenty years of transit service, with retirement allowance payable at or after age fifty.

(2) Subject to the provisions of subdivision l of this section, the rate of contribution, on and after July first, nineteen hundred sixty-eight, of any such member making such election who was a transit hourly-paid employee on June thirtieth, nineteen hundred sixty-eight and whose last membership in the retirement system began on or before such June thirtieth, shall be that determined in accordance with the method of computation prescribed by paragraph two of subdivision b of this section.

(3) Such election by a member described in paragraph two of this subdivision n shall constitute an election to contribute on and after July first, nineteen hundred sixty-eight to the retirement system, for benefits as a transit twenty-year pension plan member, at the rate of contribution prescribed by paragraph two of subdivision b of this section; provided that if such member is relieved, pursuant to the provisions of subdivision l of this section, of making contributions, he or she shall not be required to make contributions on or after the effective date of such relief.

(4) Subject to the provisions of subdivision l of this section, in the case of any such member making such election who was appointed a transit hourly-paid employee with the transit authority on or after July first, nineteen hundred sixty-eight, his or her rate of contribution, on and after the date of such appointment, shall be that determined in accordance with the method of computation prescribed by paragraph three of subdivision c of this section.

(5) Such election by a member described in paragraph four of this subdivision n shall constitute an election to contribute to the retirement system, on and after the date of his or her appointment as a transit hourly-paid employee, for benefits as a transit twenty-year pension plan member, at the rate of contribution prescribed by paragraph three of subdivision c of this section; provided that if such member is relieved, pursuant to the provisions of subdivision l of this section, of making contributions, he or she shall not be required to make contributions on or after the effective date of such relief.

(6) In any case where any member makes such election pursuant to paragraph one of this subdivision n, any required contributions made by such member in excess of those required by the applicable provisions of paragraph three or five of this subdivision shall, to the extent of such excess, be refunded to such member, without interest.

(7) In any case where any member makes such election pursuant to paragraph one of this subdivision n and the required contributions made by such member during the period specified in the applicable provisions of paragraph three or five of this subdivision are smaller than those required by such provisions, such member, notwithstanding any provision of subdivision l of this section or any other provision of law to the contrary, shall, on and after the date on which he or she makes such election, continue to make contributions at his or her rate of contribution as a twenty-year pension plan member until such deficiency is satisfied.

(8) (a) Notwithstanding any other provision of this chapter to the contrary, the reserve-for-increased-take-home-pay, if any, credited to any member who makes such election pursuant to paragraph one of this subdivision n shall be reduced by the applicable amount prescribed by subparagraph (b) or (c) of this paragraph eight.

(b) In the case of any such member who was a transit hourly-paid employee on July first, nineteen hundred sixty-eight, such reserve shall be reduced by the amount of all sums (together with regular interest thereon) which, if such election had not been made, would be required to be added to such reserve as due from the city with respect to any period or portion thereof occurring on or after July first, nineteen hundred sixty-eight.

(c) In the case of any such member who was appointed a transit hourly-paid employee after July first, nineteen hundred sixty-eight, such reserve shall be reduced by the amount of all sums (together with regular interest thereon) which, if such election had not been made, would be required to be added to such reserve as due from the city with respect to any period or portion thereof occurring on or after the date on which such member was appointed a transit hourly-paid employee.

(d) The amount of such reduction prescribed by subparagraph (b) or (c) of this paragraph eight shall become the property of the retirement system.

(9) Notwithstanding any other provision of this section to the contrary, any person who is appointed a transit hourly-paid employee on or after July first, nineteen hundred seventy, may elect the right to retire as provided in this section after completion of twenty years of transit service, with retirement allowance payable at or after age fifty, by executing and acknowledging a written election to such effect and by filing such election with the board:

(a) prior to:

(i) the date of certification of his or her rate of contribution; or

(ii) January first, nineteen hundred seventy-one;

whichever is later, if such person is not a member of the retirement system at the time of such appointment; or

(b) prior to:

(i) the thirty-first day after such appointment; or

(ii) January first, nineteen hundred seventy-one;

whichever is later, if such person is a member of the retirement system at the time of such appointment.

(10) If a member who makes such election pursuant to paragraph nine of this subdivision n, made required contributions to the retirement system with respect to the whole or any part of the period between such appointment and such election, by reason of status as a member of the retirement system prior to the filing of such election, the amount of such required contributions shall be refunded to such member, without interest.

(11) If a member who makes such election pursuant to paragraph nine of this subdivision n was credited with any sum representing an initiation of or addition to reserve-for-increased-take-home-pay which, if such election had not been made, would be due from the city with respect to such period or portion thereof mentioned in paragraph ten of this subdivision, such sum, with regular interest thereon, shall be deducted from such reserve and shall become the property of the retirement system.

Subs l, m, n added chap 870/1970 § 33

**CASE NOTES**

¶ 1. Where plaintiff in 1970 filed with the retirement system a pension selection form for Plan B and five years later wrote the retirement system that he had discovered that he had mistakenly checked Plan B when he had intended to check Plan A and was advised by the retirement system that he could change to Plan A, after which plaintiff filed his selection of Plan A with retirement system and was later advised by the retirement system that he had been inadvertently advised that he would be permitted to change from Plan B to Plan A, plaintiff's selection of Plan B would not be reformed since the retirement system retained the power to correct its previous erroneous action purporting to grant his request.-Weinberg v. N.Y.C. Employees' Retirement System, 71 A.D. 2d 672, 418 N.Y.S. 2d 950 [1979], aff'd, 50 N.Y. 2d 970 [1980].

¶ 2 Subdivision j, paragraph (2) of this section was held constitutional and it did not unconstitutionally deprive former Assistant District Attorney who waived his rights under an optional superior plan by withdrawing therefrom of his vested pension rights by creating an additional optional pension plan.-Nussbaum v. N.Y.C. Employees' Retirement System, 53 N.Y. 2d 1018 [1981], modifying, 74 A.D. 2d 782.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-162 Optional service retirement upon completion of minimum period of service under career pension plan.

a. (1) (a) Any member in city-service who, at the time of filing an application as hereinafter in this subparagraph (a) provided, holds a career pension plan position, may elect, by a written application duly executed and filed with the board of estimate on or after the date of enactment of this section and prior to July first, nineteen hundred sixty-eight, to become a career pension plan member commencing on July first, nineteen hundred sixty-eight and to contribute to the retirement system for the right to retire under the career pension plan; provided, however, that if any member filing such an application is not in city-service in a career pension plan position on July first, nineteen hundred sixty-eight, such application shall be void and of no effect.

(b) Any member in city-service on June thirtieth, nineteen hundred seventy, who on that date held a career pension plan position, and at the time of filing an application as hereinafter in this subparagraph (b) provided, holds a career pension plan position, may elect, by a written application duly executed and filed with the board on or after September first, nineteen hundred seventy-nine, and prior to January thirty-first, nineteen hundred eighty, to become a career pension plan member commencing on July first, nineteen hundred sixty-eight, and to contribute to the retirement system for the right to retire under the career pension plan.

(2) The normal rate of contribution of any such member making such election pursuant to paragraph one of this subdivision a, shall, commencing on June twenty-ninth, nineteen hundred sixty-eight, or, in the case of any such member making an election during the period September first, nineteen hundred seventy-nine and January thirty-first, nineteen hundred eighty, be that which would have been established for such member if:

(a) on the date (after he or she last became a member) on which his or her career pension plan qualifying service

first began, the provisions of this section had been in effect, and he or she had been eligible for and had on such date elected the benefits of the career pension plan; and

(b) his or her rate of contribution had then been fixed, on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, and regular interest, as a proportion of his or her compensation which, when deducted from each payment of his or her prospective earnable compensation prior to the completion of his or her twenty-fifth year of career pension plan qualifying service and accumulated at regular interest until completion of such twenty-five years of service, would be computed to provide an annuity, which, as of the initial date of retirement allowance payability with respect to such member, would be equal to one-half of the pension allowable to him or her for such period of service under the provisions of this section.

(3) For the purpose only of fixing a rate of contribution pursuant to paragraph two of this subdivision a, any such member:

(a) if he or she held a physically taxing position on the date mentioned in subparagraph (a) of paragraph two of this subdivision, shall be deemed to have continued or to continue in a physically taxing position until the completion of twenty-five years of career pension plan qualifying service on the part of such member; and

(b) if he or she did not hold a physically taxing position on the date mentioned in subparagraph (a) of paragraph two of this subdivision, shall be deemed not to have held or not to hold any physically taxing position until the completion of twenty-five years of career pension plan qualifying service.

b. (1) Any member who did not hold a career pension plan position during the period beginning on the date of enactment of this section and ending on June thirtieth, nineteen hundred sixty-eight, and who, after last becoming a member and on or after July first, nineteen hundred sixty-eight, begins for the first time or resumes city-service in a career pension plan position, may, if he or she is in city-service in a career pension plan position at the time of filing an application as hereinafter in this paragraph one provided, elect to contribute to the retirement system for the right to retire under the career pension plan, by duly executing a written application and by filing same with the board within two years after the date on which he or she so begins for the first time, or first so resumes, as the case may be, city-service in a career pension plan position. Any member making such election shall become a career pension plan member commencing on the date as of which, under the applicable provisions of paragraph two or paragraph three of this subdivision b, he or she is required to begin contributing for such right to retire.

(2) Upon the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, and regular interest, the actuary of such board shall determine for each such member who makes such election pursuant to paragraph one of this subdivision b, and who, after last becoming a member of the retirement system and prior to the date of enactment of this section, had no career pension plan qualifying service, the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation, from the time when he or she begins city-service in a career pension plan position and prior to his or her completion of twenty-five years of career pension plan qualifying service, and accumulated at regular interest until completion of such twenty-five years of service, shall be computed to provide an annuity which, as of the initial date of retirement allowance payability with respect to such member, shall be equal to one-half of the pension then allowable to him or her for such period of service under the provisions of this section. The normal rate of contribution of such member shall be as prescribed in this paragraph two, commencing on the date on which he or she begins such service as a member in a career pension plan position.

(3) The normal rate of contribution of each such member who makes such election pursuant to paragraph one of this subdivision b and who, after last becoming a member of the retirement system and prior to the date of enactment of this section, had career pension plan qualifying service, shall, beginning on the date on which he or she first resumes city-service as a member in a career pension plan position, be that which would have been established for such member if (a) on the date (after he or she last became a member) on which his or her career pension plan qualifying service first

began, the provisions of this section had been in effect and he or she had been eligible for and had on such date elected the benefits of the career pension plan, and (b) his or her rate of contribution had then been fixed in accordance with the method of computation provided for in subparagraph (b) of paragraph two of subdivision a of this section.

(4) For the purpose only of fixing a rate of contribution pursuant to paragraph two or paragraph three of this subdivision b:

(a) any such member mentioned in such paragraph two or paragraph three who, on the date of the commencement of his or her career pension plan qualifying service, holds or held, as the case may be, a physically taxing position, shall be deemed to continue or to have continued in a physically taxing position during the first twenty-five years of career pension plan qualifying service on the part of such member; and

(b) any such member mentioned in such paragraph two or paragraph three who, on the date of the commencement of his or her career pension plan qualifying service, does not hold or did not hold, as the case may be, a physically taxing position, shall be deemed not to hold or not to have held a physically taxing position during the first twenty-five years of career pension plan qualifying service on the part of such member.

b-1. (1) Subject to the provisions of paragraph five of subdivision c of this section and subdivision c-1 thereof, on or after the date this subdivision becomes a law, any fifty-five-year-increased-service-fraction member in city-service may elect, by a written application duly executed and filed with the board, to become a career pension plan member and to contribute to the retirement system, pursuant to the appropriate provisions of this section, for the right to retire under the career pension plan.

(2) Such member shall become a career pension plan member upon the filing of such application.

c. (1) Subject to the provisions of paragraph ten of subdivision m of this section and paragraph five of this subdivision, a career pension plan member, at any time subsequent to one year after the filing of his or her election of the benefits of this section pursuant to subdivision a of this section or subdivision b or subdivision b-1 thereof, may withdraw such election by duly executing and filing with the board a written withdrawal.

(2) After the filing of such a withdrawal (a) the provisions of this section, other than this paragraph two and paragraphs four and five of this subdivision c and subdivisions b-1 and c-1 of this section, shall be inapplicable to such member and (b) he or she shall not be a career pension plan member and (c) he or she shall not be eligible to elect again the benefits of this section, except as otherwise provided in subdivisions b-1 and c-1 of this section.

(3) (a) In any case where a member who has elected the benefits of this section, shall before completing twenty-five years of career pension plan qualifying service, cease to hold a career pension plan position:

(i) the provisions of this section, other than this paragraph three and paragraph four of this subdivision, shall be inapplicable to such member during any period wherein he or she does not hold such a position; and

(ii) such member shall not be a career pension plan member during such period; and

(iii) if such member shall end any such period by again performing city-service in any career pension plan position, such provisions of this section shall again be applicable to such member while he or she holds such position.

(b) A member who has elected the benefits of this section and who has completed twenty-five years of career pension plan qualifying service shall, after completion of such period of service and while performing city-service as a member of the retirement system in any position, whether or not a career pension plan position, continue to be entitled to the benefits of this section and shall continue to be a career pension plan member, unless such member shall become eligible for and elect, pursuant to the provisions of this chapter, the benefits of any other optional plan for retirement.

(4) (a) Subject to the provisions of subdivisions b-1 and c-1 of this section and except as otherwise provided in subparagraph (b) of this paragraph four, on and after the date on which such provisions of this section become inapplicable to any such member under the provisions of paragraph two of this subdivision c and during any period wherein such provisions of this section are inapplicable, under the provisions of paragraph three of this subdivision c, to any such member:

(i) the minimum retirement age of such member shall be fifty-five years; and

(ii) the pension to which such member shall be entitled upon his or her retirement for service, shall be as prescribed in paragraph seven of subdivision a of section 13-172 of this chapter, with respect to the years of allowable service of such member mentioned in such paragraph; and

(iii) the normal rate of contribution of such member shall be as prescribed by item (i) of subparagraph (d) of paragraph two of subdivision a of section 13-125 of this chapter.

(iv) Subject to the foregoing provisions of this subparagraph (a), the eligibility and rights of such member with respect to benefits under this chapter shall be governed by the applicable provisions thereof in the same manner as if such member had not elected to become a career pension plan member.

(b) The provisions of subparagraph (a) of this paragraph four:

(i) shall not be construed as preventing any such member mentioned in such subparagraph, who, by reason of a position held by him or her, would otherwise become eligible, under any of the provisions of this chapter, to elect any optional plan for retirement providing rights, benefits or status other than as specified in such subparagraph, from electing, pursuant to such provisions, the rights, benefits or status provided by such plan; and

(ii) shall not apply to any such member mentioned in such subparagraph (a) during any period wherein any of the provisions of section 13-154, 13-158, 13-159, 13-160 or 13-165 of this chapter prescribe with respect to such member, rights, benefits or status other than as specified in such subparagraph.

(5) (a) In any case where, on or after the date this paragraph becomes a law, a career pension plan member becomes a fifty-five-year-increased-service-fraction member by reason of his or her withdrawal, pursuant to paragraph one of this subdivision, of his or her election to be a career pension plan member, such member shall not thereafter be eligible to elect, pursuant to the applicable provisions of subdivision b-1 of this section, again to become a career pension plan member, except as otherwise provided in subparagraph (c) of this paragraph.

(b) In any case where, on or after such effective date, a fifty-five-year-increased-service-fraction member becomes a career pension plan member by reason of such member's election to do so pursuant to the applicable provisions of subdivision b-1 of this section, such member who made such election shall not thereafter be eligible to withdraw, pursuant to paragraph one of this subdivision, such election, except as otherwise provided in subparagraph (c) of this paragraph.

(c) Any member referred to in subparagraph (a) or subparagraph (b) of this paragraph shall be eligible to file an election or a withdrawal, as the case may be, provided (i) such member files an application for service retirement no more than thirty days after the filing of such election or withdrawal and retires pursuant to such application or (ii) such member, under circumstances qualifying him or her for a vested rights retirement allowance, discontinues city-service no more than thirty days after the filing of such election or withdrawal.

c-1. In any case where any member, at the time of making any election or filing any withdrawal authorized by the preceding provisions of this section, is a Tier II member, and in any case where a Tier II member becomes subject to the provisions of paragraph three of subdivision c of this section, the making of such election or the filing of such withdrawal or the status of such member as subject to such paragraph three shall not change, alter or affect the

applicability of article eleven of the retirement and social security law to such member and nothing contained in such preceding provisions or such paragraph three shall be construed as changing, altering or affecting the applicability of such article to such member.

d. (1) Subject to the provisions of subdivision h of this section, any career pension plan member in city-service may retire on written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, provided that such member, at the time so specified for his or her retirement, shall have completed twenty-five years of career pension plan qualifying service.

(2) A retirement allowance calculated pursuant to subdivisions e, f and g of this section shall begin with respect to such mem- ber:

(a) on the effective date of his or her retirement or upon his or her attainment of age fifty-five, whichever is later, if he or she is a career pension plan member who has not completed twenty-five or more years of allowable service in one or more physically taxing positions; and

(b) on the effective date of his or her retirement or upon his or her attainment of age fifty, whichever is later, if he or she is a career pension plan member who has completed twenty-five or more years of allowable service in one or more physically taxing positions.

e. A career pension plan member who has retired pursuant to subdivision d of this section shall receive, on account of the first twenty-five years of his or her career pension plan qualifying service and in lieu of any other retirement allowance for such twenty-five years of service, a retirement allowance consisting of:

(1) An annuity which shall be, subject to the provisions of subdivision f of this section, the actuarial equivalent, as of the date on which the retirement allowance of such member begins, of the accumulated deductions from his or her pay during such period of twenty-five years of career pension plan qualifying service; and

(2) A pension-providing-for-increased-take-home-pay which, subject to the provisions of subdivision f of this section, is the actuarial equivalent, as of the date on which the retirement allowance of such member begins, of the reserve-for-increased-take-home-pay, if any, to which he or she may be entitled for such period of twenty-five years of career pension plan qualifying service; and

(3) (a) Subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, a pension, which, when added to such annuity and such pension-providing-for-increased-take-home-pay, produces a retirement allowance equal to the product of two and two-tenths per centum of such member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement, multiplied by twenty-five, unless such pension shall be required to be determined pursuant to subparagraph (b) of this paragraph three.

(b) If such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, such pension shall instead be an amount which, when added to such annuity and such pension-providing-for-increased-take-home-pay, produces a retirement allowance equal to the product of two and two-tenths per centum of the three-year-average compensation of such member, multiplied by twenty-five.

f. (1) For the purpose only of determining the amount of the pension payable pursuant to paragraph three of subdivision e of this section, the annuity referred to in paragraph one of such subdivision, if any, shall be computed, as it would be (a) if it were not reduced by the actuarial equivalent of any outstanding loan, (b) if it were not increased by the actuarial equivalent of any additional contributions, (c) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage, and (d) as it would be without any optional modification.

(2) If such period of twenty-five years of career pension plan qualifying service is not continuous and is interrupted by any period or periods of city-service other than career pension plan qualifying service, then for the purpose only of determining the amount of such member's accumulated deductions pursuant to paragraph one of subdivision e of this section, and for the purpose only of determining the amount of the member's reserve-for-increased-take-home-pay pursuant to paragraph two of such subdivision e:

(a) there shall be excluded from the computation of the amount of such accumulated deductions, any accumulated deductions of such member with respect to each such period or periods of city-service other than career pension plan qualifying service; and

(b) there shall be excluded from the computation of the amount of such reserve-for-increased-take-home-pay, the contributions of the city to the contingent reserve fund on account of reserve-for-increased-take-home-pay with respect to each such period or periods of city-service other than career pension plan qualifying service, and regular interest on such contributions.

(3) (a) Notwithstanding any other provision of this section to the contrary, in any case where the normal rate of contribution of a career pension plan member has been fixed on the basis of service in a physically taxing position pursuant to paragraph two of subdivision a of this section and subparagraph (a) of paragraph three of such subdivision a, or the normal rate of contribution of such a member has been fixed on the basis of service in a physically taxing position pursuant to the applicable provisions of paragraph two or three of subdivision b of this section and subparagraph (a) of paragraph four of such subdivision b, as the case may be, and such member retires for service on or after the date on which he or she attains the age of fifty-five years and after completing twenty-five or more years of career pension plan qualifying service, the provisions of subparagraph (b) of this paragraph three shall apply to the computation of the retirement allowance of such member, if such member qualifies for such applicability under the provisions of such subparagraph (b).

(b) If the amount of the accumulated deductions of such member, as required to be determined for the purpose of computing an annuity pursuant to paragraph one of subdivision e of this section and paragraphs one and two of this subdivision f, exceeds the amount which such accumulated deductions would have equalled if the normal rate of contribution of such member had instead been fixed on a basis excluding service in any physically taxing position, pursuant to the provisions of subparagraph (b) of paragraph three of such subdivision a or subparagraph (b) of paragraph four of such subdivision b, as the case may be, the amount of such excess shall be treated as additional contributions of such member.

g. For allowable service, whether or not such service is career pension plan qualifying service, rendered by such member in addition to and in excess of such first twenty-five years of career pension plan qualifying service, he or she shall receive, in addition to the retirement allowance to which he or she is entitled under subdivision e of this section and in lieu of any other retirement allowance for such additional and excess allowable service:

(1) an annuity which shall be the actuarial equivalent, as of the date on which the retirement allowance of such member begins, of the difference between:

(a) his or her total accumulated deductions as of the date on which his or her retirement allowance begins or, where a loan is outstanding on such date, his or her total accumulated deductions as of such date, as they would be in the absence of a loan; and

(b) such member's accumulated deductions as required to be determined for the purpose of computing an annuity pursuant to paragraph one of subdivision e of this section and subdivision f of this section; and

(2) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay, if any, to which such member may be entitled for all periods of allowable service other than such first twenty-five years of career pension plan qualifying service; and

(3) (a) subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, a pension, for the years of such member's allowable service rendered prior to July first, nineteen hundred sixty-eight, other than such first twenty-five years of career pension plan qualifying service, which pension shall be equal to the product obtained by multiplying the number of such years of allowable service (other than such first twenty-five years of career pension plan qualifying service) by one and two-tenths per centum of such member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement, unless such pension is required to be determined pursuant to subparagraph (b) of this paragraph three;

(b) if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, such pension shall instead be equal to the product obtained by multiplying the number of such years of allowable service (other than such first twenty-five years of career pension plan qualifying service) by one and two-tenths per centum of such member's three-year-average compensation; and

(4) (a) subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, a pension, for the years of such member's allowable service rendered after June thirtieth, nineteen hundred sixty-eight, other than such first twenty-five years of career pension plan qualifying service, which pension shall be equal to the product obtained by multiplying the number of such years of allowable service rendered after June thirtieth, nineteen hundred sixty-eight (other than such first twenty-five years of career pension plan qualifying service) by one and seven-tenths per centum of such member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement, unless such pension is required to be determined pursuant to subparagraph (b) of this paragraph four;

(b) if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, such pension shall instead be equal to the product obtained by multiplying the number of such years of allowable service rendered after June thirtieth, nineteen hundred sixty-eight (other than such first twenty-five years of career pension plan qualifying service) by one and seven-tenths per centum of the three-year average compensation of such member.

h. (1) Notwithstanding any other provision of this section to the contrary, any career pension plan member in city-service may retire on written application to the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, provided that such member:

(a) at the time so specified for his or her retirement, shall have completed at least twenty but less than twenty-five years of career pension plan qualifying service; and

(b) would, if he or she remained in city-service, have been able to complete at least twenty-five years of career pension plan qualifying service (i) before attaining the age of sixty-five years, if such member did not, at the time of his or her retirement, hold a position the title of which was then included in the list of positions with deferred mandatory retirement age, or (ii) before attaining the age of seventy years, if such member, at the time of his or her retirement, held a position the title of which was then included in such list.

(2) If such member is a career pension plan member who has not completed at least twenty years of allowable service in one or more physically taxing positions, a retirement allowance calculated pursuant to paragraph five of this subdivision h shall begin with respect to such member on the later of the following dates:

(a) the date next following the earliest date on which, had he or she remained in city-service, he or she could have completed twenty-five years of career pension plan qualifying service;

(b) the date on which he or she attains the age of fifty-five years.

(3) If such member is a career pension plan member who has completed at least twenty years of allowable service in one or more physically taxing positions, then subject to the provisions of paragraph four of this subdivision h,

a retirement allowance calculated pursuant to paragraph five of this subdivision h shall begin with respect to such member on the later of the following dates:

(a) the date next following the earliest date on which, had he or she remained in city-service, he or she could have completed twenty-five years of allowable service in one or more of physically taxing positions;

(b) the date on which he or she attains the age of fifty years.

(4) In any case where the date determined pursuant to subparagraph (a) of paragraph three of this subdivision h is later than the date on which the retirement allowance of such member would begin under paragraph two of this subdivision, the retirement allowance of such member under this subdivision shall begin on such last-mentioned date.

(5) A career pension plan member who has retired pursuant to paragraph one of this subdivision h shall receive, in lieu of any other retirement allowance, a retirement allowance which shall be computed in the manner prescribed by the provisions of subdivisions e and g of this section and paragraphs one and two of subdivision f of this section, except that:

(a) any reference in such subdivisions e and g and paragraphs one and two of subdivision f to a career pension plan member who has retired pursuant to subdivision d of this section shall be deemed to denote, instead, a career pension plan member who has retired pursuant to this subdivision h; and

(b) wherever the word "twenty-five" appears in such subdivisions e and g and paragraphs one and two of such subdivision f, or reference is made therein to a period of twenty-five years of career pension plan qualifying service, there shall be deemed to be substituted therefore, the number of years of career pension plan qualifying service rendered by the member retiring pursuant to this subdivision h, for whom a retirement allowance is to be computed pursuant to this paragraph five.

i. In any case where, with respect to any period wherein any member is a career pension plan member, deductions are required to be made from his or her compensation pursuant to the provisions of section 13-108 of this chapter by reason of an application for service credit filed by him or her under such section, such deductions with respect to such period shall be made on the basis of his or her normal rate of contribution under the provisions of this section.

j. Notwithstanding any other provision of this chapter to the contrary, any career pension plan member who was a member in city-service on December thirty-first, nineteen hundred sixty-seven and who has heretofore purchased or shall hereafter purchase service credit pursuant to section 13-108 of this chapter for any period of continuous career pension plan qualifying service, which period:

(1) next precedes the date on which such member last became a member; and

(2) begins not earlier than the date six months prior to the date on which he or she last became a member; shall, in addition to being credited with such service as provided for by such section 13-108 of this chapter, be credited with such service for the purpose of satisfying the requirements of this section with respect to eligibility for retirement hereunder. Service credit used pursuant to this subdivision j to satisfy such requirements shall in no event exceed six months.

k. (1) Notwithstanding any other provision of this chapter to the contrary, any career pension plan member who:

(a) was a member in city-service on December thirty-first, nineteen hundred sixty-seven; and

(b) has continuous city-service as a member since he or she last became a member; and

(c) has heretofore purchased or shall hereafter purchase service credit, pursuant to section 13-108 of this chapter,

for a continuous period of career pension plan qualifying service, next preceding the date on which he or she last became a member; and

(d) has attained a status requiring that he or she be retired for superannuation pursuant to subdivision three of section 13-166 of this chapter; and

(e) at that time, shall not have completed twenty-five years of career pension plan qualifying service, unless such purchased service credit be used toward satisfaction of the requirements of this section with respect to eligibility to retire pursuant to subdivision d of this section; shall, in addition to being credited with such purchased service as provided for by such section 13-108 of this chapter, be credited with such purchased service, subject to the provisions of paragraph two of this subdivision k, for the purpose of determining eligibility to retire for service under subdivision d of this section.

(2) Where any part of such purchased service credit is in excess of the part required to be added to the career pension qualifying service rendered by such member since last becoming a member, in order to produce twenty-five years of career pension plan qualifying service in compliance with the eligibility requirements of subdivision d of this section, such excess part shall not be used for the purpose of satisfying such eligibility requirements. In any such case, for the purpose of determining the date of commencement of such period of twenty-five years of career pension plan qualifying service, the excess part shall be deemed to be the earlier part of the period of service for which credit was so purchased.

(3) Notwithstanding any other provision of this chapter to the contrary, any career pension plan member or fifty-five-year-increased-service-fraction member who:

(a) meets the requirements and conditions set forth in subparagraphs (a), (b) and (c) of paragraph one of this subdivision k; and

(b) is at any time in such a state of health as to meet the requirements for ordinary disability retirement under section 13-167 of this chapter, other than the requirements thereof with respect to city-service or membership in the retirement system, and would at such time be unable to satisfy such requirements with respect to service or membership unless service credit purchased by such member as provided in subparagraph (c) of paragraph one of this subdivision k were used to satisfy such requirements;

shall, in addition to being credited with such purchased service as provided for by section 13-108 of this chapter, be credited with such purchased service as allowable member service for the purpose of determining eligibility for retirement for ordinary disability under section 13-167 of this chapter.

l. (1) The mayor, within five days after the enactment of this section, shall by executive order designate an officer or employee of the city to perform the functions prescribed by this subdivision 1 with respect to promulgation and maintenance of the official list of physically taxing positions.

(2) Not later than fifteen days after the enactment of this section, the list administrator shall prepare and file in his or her office a proposed list of titles of positions which:

(a) by reason of their duties, as established pursuant to law, require heavy duty and extraordinary physical effort; and

(b) are career pension plan positions.

(3) Within five days after the filing of such list, the list administrator shall cause notice of the filing of such list, together with a copy thereof, to be mailed by certified mail to the certified employee organization acting as list representative, if any.

(4) If such organization shall, within ten days after the mailing of such notice and copy of such proposed list, file with the list administrator an objection in writing asserting that the title of any position was erroneously omitted from or included in such proposed list, the list administrator shall, within five days after the filing of such an objection, file in his or her office and mail by certified mail to such organization, an answer to such objection, accepting or rejecting same. The list administrator shall promptly transmit to the board of collective bargaining, each such objection not so accepted, together with his or her answer rejecting same. Such board, within twenty days after receipt of any such objection and answer, shall determine such dispute and direct the list administrator, in accordance with its decision, to include the title of such position in or omit same from the official list of physically taxing positions.

(5) (a) Promptly after determination of all such disputes by the board of collective bargaining, pursuant to paragraph four of this subdivision one, or promptly after expiration of the period for the filing of such objections, whichever is later, the list administrator shall promulgate, file in his or her office and cause to be published in the City Record, a list conforming to the requirements of subparagraph (b) of this paragraph five, which shall be known as the "official list of physically taxing positions."

(b) Such list shall consist of:

(i) the titles of all positions included in the proposed list filed pursuant to paragraph two of this subdivision a, with respect to which no objections were filed pursuant to paragraph four of this subdivision; and

(ii) the titles of all positions which were claimed in objections to be proper additions to such list and which were accepted by the list administrator as such proper additions, in an answer filed by him or her pursuant to such paragraph four; and

(iii) the titles of all positions required to be added to such list by reason of determinations of disputes by the board of collective bargaining pursuant to such paragraph four.

(c) Such official list shall take effect and shall be deemed to be in effect as of June twenty-ninth, nineteen hundred sixty-eight, whether or not it is promulgated on or prior to such date.

(6) (a) If the list administrator, after the promulgation of such official list pursuant to paragraph five of this subdivision one, finds that the title of any position, other than the positions mentioned in item (iii) of subparagraph (b) of such paragraph five, was erroneously excluded from or included in such list or finds that such list is otherwise erroneous, he or she may correct such error by action taken in accordance with the succeeding provisions of this paragraph six.

(b) At any time after the promulgation of such official list and not later than June thirtieth, nineteen hundred sixty-nine, the list administrator may file in his or her office a notice of intention to correct such official list. Such notice shall specify the nature of such error and the nature of the corrective action proposed to be taken by him.

(c) The list administrator, within five days after the filing of such notice in his or her office, shall cause a copy thereof to be mailed by certified mail to the certified employee organization acting as list representative, if any.

(d) Within five days after the mailing of such notice, such organization may file with the list administrator an objection in writing to such proposed action. The list administrator shall, within five days after the filing of such an objection, file in his or her office and mail by certified mail to such organization an answer to such objection, accepting or rejecting same. The list administrator shall promptly transmit to the board of collective bargaining each such objection not so accepted, together with his or her answer rejecting such objection. Such board, within twenty days after receipt of any such objection and answer, shall determine such dispute.

(e) After the determination of all such disputes by the board of collective bargaining with respect to such notice of intention to correct, or after expiration of the period for the filing of objections thereto, whichever is later, the list

administrator shall issue an order amending or changing such official list in conformity with the proposed corrective action set forth in the notice of intention to correct; provided, however, that no such action shall be inconsistent with any answer of the list administrator accepting any such objection; and provided further, that where any such proposed action was reviewed by the board of collective bargaining pursuant to subparagraph (d) of this paragraph six, the list administrator may issue such an order only if permitted by the determination of such board and any such order issued by him or her shall be consistent with the determination of such board.

(f) The inclusion or exclusion of the title of any position from such official list pursuant to any such order, and any other amendment, change or correction in such list pursuant to any such order, shall take effect as of June twenty-ninth, nineteen hundred sixty-eight, with the same force and effect as if such list, as originally promulgated as of such date, had reflected such inclusion, exclusion, amendment, change or correction.

(7) (a) In any case where, after promulgation of such official list pursuant to paragraph five of this subdivision l, any position is created, modified or re-titled, or the duties of any position are changed, and such position, as so created, modified, re-titled or changed, is a career pension plan position, the list administrator, promptly after the creation, modification, re-titling or change of duties of such position, shall file in his or her office a notice of intention to determine the status of such position under the career pension plan. Such notice shall state whether the list administrator proposes to determine that the title of such position shall or shall not be included in such official list. The list administrator, within five days after the filing of such notice in his or her office, shall cause a copy thereof to be mailed by certified mail to the certified employee organization acting as list representative, if any. Within five days after the mailing of such notice, such organization may file an objection to such proposed action.

(b) The list administrator shall answer any such objection and the board of collective bargaining shall determine any dispute with respect to such objection in accordance with the provisions of subparagraph d of paragraph six of this subdivision l.

(c) Promptly after the determination of all such disputes by the board of collective bargaining, or promptly after the expiration of the period for the filing of such objections, whichever is later, the list administrator shall issue an order, consistent with any answer accepting an objection and any determination of the board of collective bargaining resolving any such dispute, determining whether such position shall be included or excluded from such official list. If the title of such position is to be included therein pursuant to the provisions of this paragraph seven, such list shall be appropriately amended by such order so as to set forth such title, and such amendment shall be deemed to take effect as of the date on which such position was created, modified or re-titled, or the duties thereof were changed, as the case may be.

(d) Notwithstanding any provision of this paragraph seven to the contrary, in any case where a position held by a career pension plan member is modified or re-titled, or the duties thereof are changed, and the title of such position immediately prior to such action in relation thereto, was included in the list of physically taxing positions, the title of such position, so long as it is held by such career pension plan member who held same on the date on which it was modified or retitled, or the duties thereof were changed, shall be deemed, solely for the purpose of determining the rights, privileges and benefits of such member under this section, to continue to be included in the list of physically taxing positions, irrespective of any order of the list administrator, issued pursuant to this paragraph seven, removing the title of such position from such list. If such career pension plan member shall cease to hold such position, it shall thereupon have such status with respect to such list as is provided for in the order issued by the list administrator pursuant to this paragraph.

(8) (a) Promptly after issuing any order under the provisions of this subdivision l, the list administrator shall file a copy thereof with the executive director of the retirement system and shall cause such order to be published in the City Record.

(b) Whenever mailing by certified mail is required by the provisions of this subdivision one, mailing so effected

shall be sufficient if the matter required to be so mailed is enclosed in an envelope addressed to the last known address of the certified employee organization acting as list representative at its last known address as shown by (i) the records of the department of labor of the city, in the case of any such organization recognized pursuant to paragraph (b) of subdivision fortynine of section 13-101 of this chapter, and (ii) the records of the board of certification, in the case of any such organization certified pursuant to paragraph (d) of such subdivision forty-nine.

(9) All determinations of the board of collective bargaining under this subdivision l shall be final and conclusive and shall not be subject to question or review in any court or place whatever.

m. (1) The following terms, as used in this subdivision, shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Fractional plan member". Any Tier I member holding a career pension plan position who is not a career pension plan member or a fifty-five-year-increased-service-fraction member.

(b) "Career pension plan contribution rate starting date". The later of (i) June twenty-ninth, nineteen hundred sixty-eight; or (ii) the date (after the member last became a member) on which such member's career pension plan qualifying service first began.

(c) "Former fractional plan member". Any person who was a fractional plan member immediately prior to October first, nineteen hundred ninety-three, and who is deemed to have elected to become a career pension plan member pursuant to the provisions of paragraph two of this subdivision.

(d) "ITHP program". Any program referred to in subdivision b of section four hundred eighty of the retirement and social security law under which the employer assumes all or a part of the member contributions which otherwise would be made by its employees who are members of the retirement system.

(e) "ITHP reduction starting date". The first day of the first payroll period which begins after October first, nineteen hundred ninety-three.

(2) Subject to the provisions of paragraph three of this subdivision, any fractional plan member in city-service on October first, nineteen hundred ninety-three, who holds a career pension plan position on such date, shall, on such date, be deemed to have elected to become a career pension plan member commencing on his or her career pension plan contribution rate starting date, and to contribute to the retirement system for the right to retire under the career pension plan.

(3) Any person who is deemed to have elected to become a career pension plan member pursuant to the provisions of paragraph two of this subdivision may elect to withdraw from the career pension plan and void such deemed election by filing, on or before September thirtieth, nineteen hundred ninety-four, a duly executed written withdrawal with the executive director of the retirement system.

(4) Upon the filing by such person of such a withdrawal pursuant to the provisions of paragraph three of this subdivision, (i) the provisions of this section, other than this paragraph four, shall be inapplicable to such person retroactively to October first, nineteen hundred ninety-three; (ii) such person shall not be a career pension plan member; (iii) he or she shall again become a fractional plan member retroactive to such date, and his or her rights, benefits, privileges and obligations as a member shall be governed by the provisions which governed such rights, benefits, privileges and obligations immediately prior to such date as if he or she never had become a career pension plan member pursuant to the provisions of paragraph two of this subdivision; and (iv) he or she shall not be eligible at any time in the future to again become a career pension plan member or to become a fifty-five-year-increased-service-fraction member.

(5) The normal rate of contribution of any career pension plan member who is a former fractional plan member

shall be fixed in accordance with the provisions of paragraphs two and three of subdivision a of this section and, for such purposes, the opening paragraph of paragraph two of such subdivision a shall be deemed to require the calculation of such contribution rate for any such member. For such purposes, the term career pension plan contribution rate starting date (as defined in subparagraph (b) of paragraph one of this subdivision) shall be substituted for June twenty-ninth, nineteen hundred sixty-eight in the opening paragraph of paragraph two of subdivision a of this section.

(6) Notwithstanding the provisions of subdivision b of section four hundred eighty of the retirement and social security law or any other provision of law to the contrary, on and after the ITHP reduction starting date, the rate per centum of member contributions of any former fractional plan member assumed by the employer under any ITHP program, shall, for any payroll period in which such member is a career pension plan member or a fifty-five-year-increased-service-fraction member be the rate obtained by subtracting one per centum from the rate per centum which otherwise would be assumed by such employer under such program if the chapter of the laws of nineteen hundred ninety-three which added this paragraph had not been enacted.

(7) Notwithstanding any other provision of law to the contrary, on and after the ITHP reduction starting date, the member contributions required to be made by any former fractional plan member, for any payroll period in which such member is a career pension plan member or a fifty-five-year-increased-service-fraction member, may not be reduced pursuant to section one hundred thirty-eight-b of the retirement and social security law.

(8) Notwithstanding any other provision of law to the contrary, on and after October first, nineteen hundred ninety-three, a former fractional plan member who is a career pension plan member or a fifty-five-year-increased-service-fraction member may not elect to eliminate or reduce his or her contributions to the retirement system pursuant to the provisions of subdivision c-2 of section 13-125 of this chapter, and any such election made by such person prior to such date shall be deemed to be invalid on and after such date.

(9) Notwithstanding any other provision of law to the contrary, on and after October first, nineteen hundred ninety-three, a former fractional plan member who is a career pension plan member or a fifty-five-year-increased-service-fraction member may not withdraw from his or her account in the annuity savings fund any excess amount pursuant to subdivision d of section 13-140 of this chapter.

(10) Notwithstanding the provisions of paragraph one of subdivision c of this section which permits a career pension plan member to withdraw his or her election of the benefits of this section at any time subsequent to one year after the filing of such election, or any other provision of law to the contrary, any career pension plan member who is deemed to have elected to become a career pension plan member pursuant to the provision of paragraph two of this subdivision may, at any time on or after October first, nineteen hundred ninety-three, withdraw such deemed election of the benefits of this section and become a fifty-five-year-increased-service-fraction member pursuant to, in accordance with and subject to the applicable provisions of subdivision c of this section.

Sub a par 2 open par amended chap 612/1979 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. Pay raises were to be included in New York City Employees' Retirement System in the "earnable compensation" upon which pension of city employee was to be determined even though a number of his payroll checks did not reflect increase due him and even though checks were not protested since it is the money earnable prior to retirement that forms the basis for determination of the pension. Brooks v. City of N.Y., 68 Misc. 2d 866, 328 N.Y.S. 2d 356 [1972].

¶ 2. Where plaintiff in 1970 filed with the retirement system a pension selection form for Plan B and five years later wrote the retirement system that he had discovered that he had mistakenly checked Plan B when he had intended to

check Plan A and was advised by the retirement system that he could change to Plan A, after which plaintiff filed his selection of Plan A with retirement system and was later advised by the retirement system that he had been inadvertently advised that he would be permitted to change from Plan B to Plan A, plaintiff's selection of Plan B would not be reformed since the retirement system retained the power to correct its previous erroneous action purporting to grant his request.-Weinberg v. N.Y.C. Employees' Retirement System, 71 A.D. 2d 672, 418 N.Y.S. 2d 950 [1979], aff'd 50 N.Y. 2d 970 [1980].

¶ 3. Subdivision j, paragraph (2) of this section was held constitutional and it did not unconstitutionally deprive former Assistant District Attorney who waived his rights under an optional superior plan by withdrawing therefrom of his vested pension rights by creating an additional optional pension plan.-Nussbaum v. N.Y.C. Employees' Retirement System, 53 N.Y. 2d 1018 [1981], modifying, 74 A.D. 2d 782.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-163*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-163 Medical review in transit police member disability cases.

a. As used in this section, the following terms shall mean and include:

(1) "Bargaining representative". The public employee organization which is authorized to represent a transit police member for purposes of collective bargaining with the New York city transit authority.

(2) "Panel of medical experts". Those physicians whose names are set forth in a list of medical experts prepared annually by the commissioner of health and filed in his or her office and with the executive director of the retirement system on or before July first. The experts so designated shall be physicians having qualifications as specialists in such fields of medicine as such commissioner deems an essential background (i) for ascertaining, in cases where an application for disability retirement is filed by or with respect to a transit police member, whether such member is physically or mentally incapacitated for the performance of city-service, and (ii) for rendering of reports or certifications as to diagnosis and issues of causal relationship with respect to such applications. Each of such physicians shall have had, prior to his or her designation, at least ten years of practice in the field with respect to which he or she is designated. The names of such physicians shall be separately grouped on such list, according to the fields of medicine in which they are expert, and the names in each group shall be consecutively numbered.

(3) "Party entitled to review". Either of the following:

(i) the bargaining representative of such member; or

(ii) the New York city transit authority.

b. (1) In any case where an application for retirement of a transit police member for disability has been filed pursuant to section 13-157 of this chapter, the secretary of the retirement system, promptly after the retirement board acts on the report or certification of the medical board with respect to such application, shall give notice of such action by the board constituting such head to such member and to the New York city transit authority. Within fifteen days after such notification, any party entitled to review may file with the secretary a written request that a special medical committee, as provided for in this section, shall review the conclusions and recommendations of the medical board set forth in its report or certification.

(2) (i) Any request for review filed by a bargaining representative with respect to such application for disability retirement shall be void and of no effect unless such request includes a waiver, as hereinafter provided, duly executed and acknowledged by the transit police member or by a person acting in his or her behalf as hereinafter provided. Such waiver may be executed by a person acting in behalf of such member in any case where, at the time of the execution of such waiver by such person, the circumstances are such that if such application for disability retirement had not been previously filed by or with respect to such member, such person would at such time of execution be authorized under the provisions of section 13-157 of this chapter to file, as a person acting in behalf of such member, an application for disability retirement of such member.

(ii) Such waiver shall provide that the execution thereof by such member or by a person acting in his or her behalf as hereinabove authorized shall constitute an agreement by such member that his or her application for disability retirement under section 13-157 of this chapter shall be disposed of by action of the board constituting the head of the retirement system pursuant to the provisions of this section, that such action shall be final and conclusive, and that he or she waives any and all rights which he or she might otherwise have to seek or obtain any other disposition of such application for disability retirement by court or administrative proceedings or otherwise. A waiver so executed and filed shall be effective and binding upon such member, in accordance with its terms.

c. Promptly after the filing of a request for review to be made by a special medical committee, the secretary shall transmit a copy of such request and of the report or certification of the medical board to the commissioner of health.

d. The commissioner, upon receipt of such report or certification and request, shall promptly designate three of the physicians on the panel of medical experts as a special medical committee for the purpose of reviewing the recommendations and conclusions of the medical board in such case. Such physicians shall be selected by him or her from the panel group possessing the specialist qualifications deemed essential by him or her for such review. All selections of physicians pursuant to this subdivision d shall be made in order of numerical standing in the group from which selection is to be made, and on the basis of continuous rotation within the group.

e. (1) Promptly after making the selection prescribed by subdivision d of this section, the commissioner of health shall notify the selected physicians and the executive director thereof.

(2) Such special medical committee shall, within thirty days after such notification to the physicians constituting such committee is completed, perform, with respect to the application for retirement of such member for disability, the same functions of medical examination or otherwise as are prescribed by applicable provisions of law for performance by the medical board with respect to such application, and shall within such period adopt by majority vote and file with the executive director a report or certification, as the case may be, stating the conclusions and recommendations of such committee concerning the matters required to be reported on or certified by the medical board, pursuant to such applicable provisions of law, with respect to such application.

f. The conclusions and recommendations of the special medical committee shall supersede those of the medical board.

g. (1) Each physician who serves as a member of a special medical committee shall receive a fee for such service, to be determined by the comptroller of the city.

(2) With respect to each case in which a special medical committee acts, one-half of the fees of the members of such committee shall be paid by the city. The other half of such fees shall be paid by the bargaining representative of the transit police member concerned in such case.

h. (1) Within forty-five days after the filing of the report or certification of the special medical committee, the board constituting the head of the retirement system shall act on such report or certification as hereinafter provided in this subdivision h.

(2) If the application is for ordinary disability retirement of the member pursuant to section 13-157 of this chapter, and if the medical examination by the special medical committee shows that such member is physically or mentally incapacitated for the performance of duty as a uniformed police officer patrolling the transit system and ought to be retired, such committee shall so report and such board constituting such head shall retire such member for ordinary disability as of the date on which such board constituting such head acted on the report of the medical board with respect to such application, or as of the date ninety days after the filing of such application for such retirement, whichever is earlier.

(3) If the application is for accident disability retirement of the member pursuant to section 13-157 of this chapter and if the medical examination and investigation of the special medical committee shows that such member is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the special medical committee shall so certify to such board constituting such head stating the time, place and conditions of such city-service performed by such member resulting in such disability, and such board constituting such head shall retire such member for accident disability as of the date on which such board acted on the report of the medical board with respect to such application.

i. In any case where a request for review by a special medical committee is filed pursuant to the provisions of this section, the provisions of section 13-157 of this chapter shall be superseded by the provisions of this section to the extent that the provisions of this section are inconsistent therewith.

j. (1) In any case where the provisions of this section require the executive director to give notice to a transit police member, the secretary may give such notice by delivery to such member personally or by mailing same to his or her last known address, as shown by the records of the transit police department of the New York city transit authority.

(2) In any case where the provisions of this section require the giving of notice or the transmission of papers to any other person, such notice may be given or transmission effected by delivery to such person, by delivery at his or her office to any of his or her employees, or by mailing to the office address of such person.

(3) In any case where notice is given by mail pursuant to this subdivision j, such notice shall be deemed to be given on the date of mailing.

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-164 Retirement; selection of age fifty-five.

Notwithstanding the provisions of section 13-151 of this chapter, any person becoming a member who was not previously a member or who during his last previous membership in the retirement system contributed on the basis of a minimum retirement age of fifty-five, may elect, prior to the certification of his or her rate of contribution; and any member may elect, prior to the first day of October, nineteen hundred forty-nine, to contribute on the basis of a minimum retirement age of fifty-five by a written election duly executed and acknowledged and filed with the board. The minimum age of retirement for such member so electing shall be fifty-five years, and all contributions and benefits payable by or on account of such member shall be computed on the basis of such minimum retirement age. The method of computation and deductions prescribed by this section shall be appropriately modified in the case of a member for whom a rate is otherwise fixed pursuant to section 13-152 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-165 Election and assignment of retirement plans with respect to certain members.

a. Notwithstanding any other provision of this chapter to the contrary, any member in city-service who:

(1) did not, prior to filing an application to become a fifty-five-year-increased-service-fraction member as hereinafter in this subdivision a provided, file an application to become a career pension plan member pursuant to subparagraph (a) of paragraph one of subdivision a of section 13-162 of this chapter, relating to the career pension plan; and

(2) at the time of filing an application as hereinafter in this subdivision a provided, holds a career pension plan position; may elect, by a written application duly executed and filed with the board of estimate on or after the date of enactment of this section and prior to July first, nineteen hundred sixty-eight, that commencing on July first, nineteen hundred sixty-eight, his or her minimum age for service retirement shall be fifty-five years and his or her pension, upon his or her retirement for service, shall be determined pursuant to paragraph seven of subdivision a of section 13-172 of this chapter for the service mentioned in such paragraph; provided, however, that if any member filing such an application to become a fifty-five-year-increased-service-fraction member is not in city-service in a career pension plan position on July first, nineteen hundred sixty-eight, such application shall be void and of no effect.

b. Notwithstanding any other provision of this chapter to the contrary, any member in city-service on June thirtieth, nineteen hundred sixty-eight, who:

(1) on such date held a career pension plan position; and

(2) is not, at the time of filing an application as hereinafter in this subdivision b provided, either a career pension plan member or a former career pension plan member who, by withdrawal, ceased to be a career pension plan member; and

(3) at the time of filing an application as hereinafter in this subdivision b provided, holds a career pension plan position; may by a written application duly executed and filed with the board on or after July first, nineteen hundred sixty-eight, and prior to July first nineteen hundred seventy, elect that his or her minimum age for service retirement shall be fifty-five years and that his or her pension, upon his or her retirement for service, shall be determined pursuant to paragraph seven of subdivision a of section 13-172 of this chapter for the service mentioned in such paragraph.

c. The normal rate of contribution of each member making such an election pursuant to subdivision a or subdivision b of this section shall, commencing on June twenty-ninth, nineteen hundred sixty-eight, be that prescribed by the applicable provisions of subparagraph (d) of paragraph two of subdivision a of section 13-125 of this chapter.

d. (1) Notwithstanding any other provision of this chapter to the contrary, but subject to the provisions of paragraph two of this subdivision d, any member who last becomes a member after June thirtieth, nineteen hundred sixty-eight, shall, during any period wherein he or she holds a career pension plan position:

(a) have a minimum service retirement age of fifty-five years; and

(b) be entitled, upon retirement for service, to a pension determined pursuant to paragraph seven of subdivision a of section 13-172 of this chapter, with respect to the years of allowable service of such member mentioned in such paragraph seven.

(2) The provisions of paragraph one of this subdivision d shall be inapplicable to any member who last becomes a member after June thirtieth, nineteen hundred sixty-eight, during any period wherein he or she is a career pension plan member pursuant to section 13-162 of this chapter, relating to the career pension plan.

e. (1) Notwithstanding any other provision of this chapter to the contrary, but subject to the provisions of paragraph three of this subdivision e, any member (other than a career pension plan member who has completed twenty-five years of career pension plan qualifying service), regardless of when he or she last became a member, who:

(a) after June thirtieth, nineteen hundred sixty-eight, first begins city-service in any position mentioned in paragraph (a) of subdivision forty-seven of section 13-101 of this chapter, or in subparagraphs two, three and four of paragraph (b) of such subdivision; or

(b) after such date, resumes city-service in any position mentioned in such paragraph (a) or subparagraphs two, three and four; shall, during any period wherein he or she holds any such position mentioned in such paragraph or subparagraphs and wherein he or she is not a transit twenty-year plan member, a transit police member, a correction member or a housing police member, have a minimum service retirement age of fifty-five years and shall be entitled, upon retirement for service during such period, to a pension determined pursuant to paragraph six of subdivision a of section 13-172 of this chapter with respect to the years of allowable service of such member mentioned in such paragraph.

(2) (a) The normal rate of contribution of any fifty-five-year-one-per-centum member who became such a member pursuant to paragraph one of this subdivision e after last becoming a member, and who had a rate of contribution other than as prescribed in this subparagraph (a) immediately before so becoming a fifty-five-year-one-per-centum member, shall be that which would have been established for such member, on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, and regular interest, if he or she had become a fifty-five-year-one-per-centum member on the date of the commencement of his or her last membership in the retirement system.

(b) Any member who last becomes a member at the time when he or she becomes a fifty-five-year-one-per-centum member pursuant to paragraph one of this subdivision e, shall contribute to the retirement system, on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter, and regular interest, for the right to retire for service as a fifty-five-year-one-per-centum member.

(3) Nothing contained in paragraph one of this subdivision e shall be construed as withholding the status of a fifty-five-year-increased-service-fraction member where such status is granted by any provision of this chapter prescribing rights upon cessation of status as a transit twenty-year plan member.

(4) (a) Notwithstanding any other provision of this title to the contrary, any transit-hourly-paid employee, as defined in section 13-161 of this chapter, subject to the provisions of subparagraph (c) of this paragraph, who last became a member prior to July first, nineteen hundred seventy-six, shall, during any period wherein he holds such position and wherein he is not a transit twenty-year plan member, be a fifty-five year increased-service-fraction member and have a minimum service retirement age of fifty-five years and shall be entitled, upon retirement for service during such period, to a pension determined pursuant to paragraph seven of subdivision a of section 13-172 of this chapter with respect to the years of allowable service of such member mentioned in such paragraph.

(b) The normal rate of contribution of any fifty-five year increased-service-fraction member who became such a member pursuant to this paragraph, shall be that which would have been established for such member on the basis of the tables herein authorized with respect to group three mentioned in subdivision b of section 13-172 of this chapter and regular interest, if he had become a fifty-five year one per centum member on the date of the commencement of his last membership in the retirement system.

(c) The provisions of this paragraph shall not apply to any member mentioned in subparagraph (a) of this paragraph, unless such member shall file an application to become a fifty-five year increased-service-fraction member on or before December thirty-first, nineteen hundred eighty-eight.

(d) The provisions of this paragraph shall also be applicable to any member mentioned in subparagraph (a) of this paragraph who retired after August of nineteen hundred eighty-five, who would have been eligible to become a fifty-five year increased-service-fraction member, if he shall file an application to become such a member on or before December thirty-first, nineteen hundred eighty-eight.

f. Status as a fifty-five-year-increased-service-fraction member acquired under this section shall be subject to change at the election of the member as provided for by the applicable provisions of section 13-162 of this chapter.

*NYC Administrative Code 13-166*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-166 Retirement; for superannuation.

Retirement of a member for service shall be made by the board as follows:

1. Each member in city-service who has attained the age of seventy and each member in city-service who attains the age of seventy shall be retired forthwith or on the first day of the calendar month next succeeding that in which such member shall have attained the age of seventy years. A member in city-service, however, who has or shall have attained the age of seventy years, upon the approval of the appropriate head of an agency, may request the board to be continued in the public service for a period of two years and such board, where advantageous to the public service, may grant such request for such period, not exceeding two years, as such board may determine. At the termination of such additional period of service, such board in like manner may permit such employee to continue in the public service for successive two year periods or any portion thereof. In no case shall public service be continued after a member shall have attained the age of eighty years. The provisions of this subdivision one shall not apply to any member whose status with respect to retirement for superannuation is governed by subdivisions two and three of this section.

2. Not later than July first, nineteen hundred sixty-eight, the city civil service commission shall promulgate and file in its office, a list of titles of positions with respect to which, in the judgment of the commission, it will be advantageous to the public service to permit incumbents to remain in city-service until age seventy. The commission shall amend or revise such list from time to time, as may be necessary, so that such list shall continuously reflect the titles of positions which, in the judgment of the commission, are of the nature above in this subdivision two described. Such list shall be known as the "list of positions with deferred mandatory retirement age". Promptly after promulgation of such list, and promptly after adoption of any amendments or revisions thereof, the commission shall transmit a copy of such list, amendments or revisions to the executive director of the retirement system and shall cause same to be

published in the City Record for a period of five days.

3. (a) Except as otherwise provided in paragraphs (d) and (e) of this subdivision three:

(1) each career pension plan member in city-service who (i) becomes such a member pursuant to subdivision a of section 13-162 of this chapter, relating to the career pension plan, and (ii) on or after January first, nineteen hundred sixty-nine, attains the age of sixty-five years, and (iii) is a career pension plan member at the time of attaining such age; and

(2) each fifty-five-year-increased-service-fraction member in city-service who (i) becomes such a member pursuant to subdivision a or subdivision b of section 13-165 of this chapter and (ii) on or after January first, nineteen hundred sixty-nine, attains the age of sixty-five years and (iii) is a fifty-five-year-increased-service-fraction member at the time of attaining such age; and

(3) each member in city-service (i) whose last membership in the retirement system begins on or after July first, nineteen hundred sixty-eight and (ii) who attains the age of sixty-five years and (iii) who at the time of attaining such age, holds a career pension plan position; shall be retired on the first day of the calendar month next succeeding that in which such member shall have attained the age of sixty-five years.

(b) Except as otherwise provided in paragraphs (d) and (e) of this subdivision three, each career pension plan member in city-service who (i) becomes such a member pursuant to subdivision a of such section 13-162 of this chapter and (ii) attains the age of sixty-five years prior to January first, nineteen hundred sixty-nine, and (iii) holds a career pension plan position on the date next preceding the later of the following dates:

(1) January first, nineteen hundred sixty-nine;

(2) the first day of the month next succeeding that in which he or she elects to become a career pension plan member pursuant to subdivision a of section 13-162 of this chapter; shall be retired as of the later of such dates.

(c) Except as otherwise provided in paragraphs (d) and (e) of this subdivision three, each fifty-five-year-increased-service-fraction member in city-service who (i) becomes such a member pursuant to subdivision a or b of section 13-165 of this chapter and (ii) attains the age of sixty-five years prior to January first, nineteen hundred sixty-nine, and (iii) holds a career pension plan position on the date next preceding the later of the following dates:

(1) January first, nineteen hundred sixty-nine;

(2) the first day of the month next succeeding that in which he or she elects to become a fifty-five-year-increased-service-fraction member pursuant to such subdivision a or b;

shall be retired as of the later of such dates.

(d) (1) Subject to the provisions of paragraph (e) of this subdivision three:

(a) any member mentioned in paragraph (a) of this subdivision three who, at the time of reaching the age of sixty-five years, is in city-service in a position on the list of positions with a deferred mandatory retirement age promulgated pursuant to subdivision two of this section; and

(b) any member mentioned in paragraph (b) or (c) of this subdivision three, who on the date next preceding the applicable date on which he or she would otherwise be required to be retired under the provisions of such paragraph (b) or (c), is in city-service in a position on the list of positions with a deferred mandatory retirement age;

shall not, so long as he or she continues to serve in any such position on such list, be retired for superannuation

until he or she attains the age of seventy years.

(2) If any such member mentioned in subparagraph one of this paragraph (d), shall, before attaining the age of seventy years, cease to hold any such position on such list, he or she shall, except as otherwise provided in paragraph (e) of this subdivision three, be retired on the first day of the calendar month next succeeding that in which he or she shall have ceased to hold any such position. Subject to the provisions of paragraph (e) of this subdivision three, if such member shall be continuously in city-service in any such position until he or she attains the age of seventy years, he or she shall, upon attaining the age of seventy years, be retired on the first day of the calendar month next succeeding that in which he or she shall have attained the age of seventy years.

(e) Any member whose retirement has become mandatory under the provisions of paragraph (a), (b) or (c) of this subdivision three, or whose retirement has become mandatory by reason of cessation of city-service in a position on the list of positions with a deferred mandatory retirement age, as provided in paragraph (d) of this subdivision, may, upon approval of the appropriate head of an agency, request of the board that he or she be continued in city-service for a period not exceeding one year. The board, where advantageous to the public service, may grant such request for a period not exceeding one year. At the termination of such additional period of service, such board may in like manner permit such member to continue in the public service for successive periods each not exceeding one year, provided that extensions granted under this paragraph (e) shall in no event aggregate more than five years.

(f) Nothing contained in this subdivision three shall apply to a justice or judge of any court or a surrogate or an official referee or any elected public officer.

4. Notwithstanding the foregoing provisions of this section, any such member whose total service credit does not exceed ten years, in lieu of other benefits provided by this chapter, shall receive upon his or her own application therefor, the refund of his or her accumulated deductions.

5. Notwithstanding any provisions of this section to the contrary, any person who was employed by the city, an authority or a public benefit corporation and who was previously denied membership in the New York city employees, retirement system based solely on the mandatory retirement provisions in effect at the time of commencing employment and who has met all the salary and service credit requirements for a service retirement benefit provided by the applicable provisions of this code shall be entitled to file for a service retirement benefit, notwithstanding the mandatory provisions in effect prior to the effective date of this subdivision, and shall be entitled to receive such retirement benefit commencing the day after his or her public employment ceased.

**CASE NOTES FROM FORMER SECTION**

¶ 1. In proceeding by petitioner, who held position of Chief Clerk for County Court of Kings County, for an order

requiring the City Comptroller to audit a supplemental payroll and pay him his salary for the period from July 21 through July 31 1939, defense setting forth that petitioner had attained the age of 70 years on August 7, 1939, that his application for a continuance in service for an additional two-year period was denied and on June 15, 1938, a resolution was adopted retiring him as of September 1, 1939, that petitioner then resigned as Chief Clerk on July 15, and on July 17 filed an application with the Retirement System for his accumulated salary deductions, that on July 19 the Retirement System paid him $8,317.17 subject to approval of the Board of Estimate, that the approval had not yet been given, that the County Clerk then purported to appoint petitioner to the same position on July 21, 1939, and that the resignation and withdrawal of accumulated deductions and purported reappointment was a subterfuge and in violation of Administrative Code § B3-38.0, and that on information and belief petitioner would avail himself of the benefits of § B3-9.0 with reference to re-entry into membership in the Retirement System after withdrawal of contributions and thus perpetrate a fraud upon the city, **was held** sufficient as a matter of law by Special Term, and both the App. Div. and the Court of Appeals affirmed without opinion.-Tuomey v. McGoldrick, 258 App. Div. 873, 16 N.Y.S. 2d 1018 [1939], aff'd 282 N.Y. 762, 27 N.E. 2d 46 [1940].

¶ 2. Application for injunction restraining former Surrogate from hearing disciplinary charges against members of the Police Department on ground his appointment as Third Deputy Police Commissioner for purpose of hearing the charges was invalid as Admin. Code § B3-38.0 required the consent of the Board of Estimate to validate appointment to City service of a person over 70 years of age, was denied, where the Corporation Counsel, while not conceding that approval of the Board of Estimate was required, had nevertheless obtained the approval of the Board prior to final argument on the application.-Evans v. Monaghan, 115 N.Y.S. 2d 511 [1952].

¶ 3. A former Surrogate of New York County, retired in 1948, could properly be appointed as a 3rd Deputy Police Commissioner in 1952 at which time he was 73 years of age for the purpose of presiding at a police departmental trial.-In re Delehanty (Sullivan), 202 Misc. 33, 115 N.Y.S. 2d 602 [1952], aff'd 280 App. Div. 542, 115 N.Y.S. 2d 614 [1952], aff'd 304 N.Y. 725, 108 N.E. 2d 46 [1953].

¶ 4. Where a contract between the city and petitioner union provided that the mandatory retirement age for members of the Career Pension Plan shall be 65 and that for members in civil service titles which are certified by the city civil service commission as shortage area shall be 70, petition of union seeking judgment directing the Director of the Office of Labor Relations to certify those city service titles which are in shortage areas was denied as certifications are not frozen and under this section any list promulgated is not final. Baker v. Lindsay, 160 (63) N.Y.L.J. (9-27-68) 16, Col. 5 T.

¶ 5. The determination of Civil Service Commission in 1968 that there were then no titles of position for which it would be advantageous to the public service to permit the incumbents to remain in public service until age 70 was not arbitrary even though no hearing had been held and no inquiry made by it as to each title of position when its decision was based primarily upon consultation with the various department heads. Dollard v. Civil Service Commission, 29 N.Y. 2d 542, 272, N.E. 2d 580, 324 N.Y.S. 2d 89 [1971].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-167*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-167 Retirement; for ordinary disability.

a. Medical examination of a member in city service for ordinary disability shall be made upon the application of the head of the agency in which such member is employed, or upon the application of such member or of a person acting in his or her behalf, stating that such member is physically or mentally incapacitated for the performance of duty and ought to be retired, provided:

(1) that such member has had ten or more years of city-service and was a member or otherwise in city-service in each of the ten years next preceding his or her retirement; or

(2) that such member (a) is a sanitation member at the time of his or her retirement, and (b) has had five or more years of allowable service as a sanitation member and (c) was a member or otherwise in city-service in each of the five years next preceding his or her retirement.

b. If such medical examination shows that any such member referred to in subdivision a of this section is physically or mentally incapacitated for the performance of duty and ought to be retired, the medical board shall so report and the board shall retire such member for ordinary disability not less than thirty nor more than ninety days after the execution and filing of application therefor with the retirement system.

c. Death of applicant before effective date of retirement. Upon the death of an applicant, other than an applicant whose city service was as a police officer or firefighter, who has had ten or more years of city service and was a member or otherwise in city service in each of the ten years next preceding the date of his application for ordinary disability retirement, and the medical board reports that at the time of the filing of the application such member was

physically or mentally incapacitated for the performance of duty and ought to be retired, and that such member's subsequent death in the interval between the filing of the application and the action of the board thereon was directly related to such physical or mental incapacity, the board shall retire such member effective not later than one day before the date of the applicant's death.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. c added chap 765/1989 § 1

**DERIVATION**

Formerly § B3-39.0 added chap 929/1937 § 1

Amended chap 331/1969 § 2

Amended chap 866/1969 § 14

**CASE NOTES FROM FORMER SECTION**

¶ 1. Board of Estimate could act on application for retirement within 30 days of the filing thereof and provide for the retirement to become effective after the 30 day period.-Zeiser v. N.Y. City Employees' Retirement System, 131 (114) N.Y.L.J. (6-15-54) 7, Col. 6 F.

¶ 2. An employee who was in City service for more than 10 years prior to his application for retirement but who was not a member of the retirement system for 10 years next preceding the retirement, was not entitled to be retired for ordinary disability.-Manieri v. Wagner, 33 Misc. 2d 163, 224 N.Y.S. 2d 152 [1961], aff'd 239 N.Y.S. 2d 1022 [1963].

¶ 3. Under this section, a City employee is eligible for ordinary disability retirement only if he has had 10 years of City service and has been a member of the retirement system for 10 years. An employee who was a City employee for more than 10 years but had not joined the retirement system until 1958 was not entitled to ordinary disability retirement.-Matter of Manieri, 33 Misc. 2d 163, 224 N.Y.S. 2d 152 [1961], aff'd 239 N.Y.S. 2d 1022 [1963].

**CASE NOTES**

¶ 1. Section 13-167(a) provides for ordinary disability retirement after 10 years of service with the City. This pension is payable without regard to when or how the employee became disabled. Since one must have accumulated 10 years of service with the City to qualify for an ordinary disability pension, payments thereunder are not solely compensation for injuries but are in part an award for length of service. Thus, although compensation for personal injuries constitutes separate property not subject to equitable distribution in divorce cases, the pension payments in question here are subject to equitable distribution. Dolan v. Dolan, 167 A.D.2d 654, 562 N.Y.S.2d 875 (3rd Dept. 1990), aff'd 78 N.Y.2d 463, 577 N.Y.S.2d 195 (1991).

¶ 2. The Medical Board of the New York City Employees Retirement System (NYCERS) determines whether a member is disabled. The Board of Trustees of NYCERS is bound by the Medical Board's determination that an applicant is or is not disabled. Thus, the Medical Board's determination is conclusive if it is supported by some credible evidence and is not irrational. Even if the medical conclusions of the member's treating physicians differ from those of the Medical Board, the resolution of those conflicts is the sole province of the Medical Board. Drew v. New York City Employees' Retirement System, 758 N.Y.S.2d 500 (App.Div. 2d Dept. 2003).

*NYC Administrative Code 13-168*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-168 Retirement; for accident disability.

a. Medical examination of a member in city-service for accident disability and investigation of all statements and certifications by him or her or on his behalf in connection therewith shall be made upon the application of the head of the agency in which the member is employed, or upon the application of a member or of a person acting in his or her behalf, stating that such member is physically or mentally incapacitated for the performance of city-service, as a natural and proximate result of such city-service, and certifying the time, place and conditions of such city-service performed by such member resulting in such alleged disability and that such alleged disability was not the result of wilful negligence on the part of such member and that such member should, therefore, be retired. Such application shall be filed within two years from the happening of such accident, except, however, that such requirement as to time of filing shall not apply to any such application which (1) is filed by or with respect to a member who is a member of the uniformed force of the department of sanitation (as such force is defined in subdivision a of section 13-154 of this chapter) and is based on an accident occurring wholly on or after July first, nineteen hundred sixty-three, or (2) if filed by a vested member incapacitated as a result of a qualifying World trade Center condition as defined in section two of the retirement and social security law. If such medical examination and investigation shows that any member, by whom or with respect to whom an application is filed under this section, is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the medical board shall so certify to the board stating the time, place and conditions of such city-service performed by such member resulting in such disability. The board shall review such certification with respect to any issues other than the existence or non-existence of physical or mental incapacitation and shall determine the member's eligibility with respect to any such issues. Upon such certification by the medical board of the member's

physical or mental incapacitation and a determination by the board finding the member otherwise eligible, such member shall be retired for accident disability effective the date the application is filed or the date immediately following the last date the member was on the payroll, whichever is later.

b. 1. If such application is denied solely on the ground that such member is not, at the time of such examination, physically or mentally incapacitated for the performance of city-service, such application may thereafter be renewed during such member's city-service at any time within five years from the happening of the accident but preceding the date on which such member shall have reached his or her minimum service retirement age, provided he or she submits himself or herself to such further examinations as the medical board may require.

2. Such further application or applications shall be considered on the same basis as the original application.

3. The medical board may at any time within five years of the happening of the accident, upon findings that such member is eligible for and should be retired for accident disability in accordance with the provisions of this section, certify to the board said fact. The board shall review such certification with respect to any issues other than the existence or non-existence of physical or mental incapacitation and shall determine the member's eligibility with respect to any such issues. Upon such certification by the medical board of the member's physical or mental incapacitation and a determination by the board finding the member otherwise eligible, such member shall be retired for accident disability forthwith.

4. The provisions of paragraphs one, two and three of this subdivision b shall not apply in the case of (1) any member who is a member of the uniformed force of the department of sanitation and who files an application under subdivision a of this section based on an accident occurring wholly on or after July first, nineteen hundred sixty-three, or (2) any vested member incapacitated as a result of a qualifying World Trade Center condition as defined in section two of the retirement and social security law.

5. (a) (1) Notwithstanding any provisions of this code or of any general, special or local law, charter or rule or regulation to the contrary, if any condition or impairment of health is caused by a qualifying World Trade Center condition as defined in section two of the retirement and social security law, it shall be presumptive evidence that it was incurred in the performance and discharge of duty and the natural and proximate result of an accident not caused by such member's own willful negligence, unless the contrary be proved by competent evidence.

(2) The NYCERS board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.

(b) (1) Notwithstanding the provisions of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a member who participated in World Trade Center rescue, recovery or cleanup operations as defined in section two of the retirement and social security law, and subsequently retired on a service retirement, an ordinary disability retirement, an accidental disability retirement, or a performance of duty disability retirement and subsequent to such retirement is determined by the board of trustees to have a qualifying World Trade Center condition as defined by section two of the retirement and social security law, upon such determination by the NYCERS board of trustees, it shall be presumed that such disability was incurred in the performance and discharge of duty as the natural and proximate result of an accident not caused by such member's own willful negligence, and that the member would have been physically or mentally incapacitated for the performance and discharge of duty of the position from which he or she retired had the condition been known and fully developed at the time of the member's retirement, unless the contrary is proven by competent evidence.

(2) The NYCERS board of trustees shall consider a reclassification of the member's retirement as an accidental disability retirement effective as of the date of such reclassification.

(3) Such member's retirement option shall not be changed as a result of such reclassification.

(4) The member's former employer at the time of the member's retirement shall have an opportunity to be heard on the member's application for reclassification by the NYCERS board of trustees according to procedures developed by the retirement system.

(c) The NYCERS board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.

c. Notwithstanding any other provision of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a retiree who: (1) has met the criteria of subdivision b of this section and retired on a service or disability retirement, or would have met the criteria if not already retired on an accidental disability; and (2) has not been retired for more than twenty-five years; and (3) dies from a qualifying World Trade Center condition as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such retiree shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such retiree's eligible beneficiary, as set forth in section 13-149 of this chapter, shall be entitled to an accidental death benefit as provided by section 13-149 of this chapter, however, for the purposes of determining the salary base upon which the accidental death benefit is calculated, the retiree shall be deemed to have died on the date of his or her retirement. Upon the retiree's death, the eligible beneficiary shall make a written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in section 13-149 of this chapter requesting conversion of such retiree's service or disability retirement benefit to an accidental death benefit. At the time of such conversion, the eligible beneficiary shall relinquish all rights to the prospective benefits payable under the service or disability retirement benefit, including any post-retirement death benefits, since the retiree's death. If the eligible beneficiary is not the only beneficiary receiving or entitled to receive a benefit under the service or disability retirement benefit (including, but not limited to, post-retirement death benefits or benefits paid or payable pursuant to the retiree's option selection), the accidental death benefit payments to the eligible beneficiary will be reduced by any amounts paid or payable to any other beneficiary.

d. Notwithstanding any other provision of this code or of any general, special or local law, charter, or rule or regulation to the contrary, if a member who: (1) has met the criteria of subdivision b of this section; and (2) dies in active service from a qualifying World Trade Center condition as defined in section two of the retirement and social security law, as determined by the applicable head of the retirement system or applicable medical board, then unless the contrary be proven by competent evidence, such member shall be deemed to have died as a natural and proximate result of an accident sustained in the performance of duty and not as a result of willful negligence on his or her part. Such member's eligible beneficiary, as set forth in section 13-149 of this chapter, shall be entitled to an accidental death benefit provided he or she makes written application to the head of the retirement system within the time for filing an application for an accidental death benefit as set forth in section 13-149 of this chapter.

**HISTORICAL NOTE**

Section amended chap 489/2008 § 17, eff. Aug. 5, 2008 and deemed to

have been in full force and effect Sept. 11, 2001.

**DERIVATION**

Formerly § Section amended ch. 785/1986 § 4

Section added chap 907/1985 § 1

Subd. a amended ch. 271/1989 § 1

Subd. b par 5 amended chap 93/2005 § 13, eff. June 14, 2005 and deemed to have been in full force and effect on and after Sept. 11, 2001 per chap 93/2005 § 14 and chap 104/2005 § A14 of § 1.

Subd. b par 5 added chap 104/2005 § 13, eff. June 14, 2005 and deemed to have been in full force and effect on and after Sept. 11, 2001.

Subd. b par 5 subpar (a) clause (4) amended chap 214/2007 § 1, eff. July 3, 2007.

Subd. b par 5 subpar (a) clause (5) amended chap 495/2007 § 27, eff. Aug. 1, 2007 and deemed to have been in full force and effect on and after June 14, 2007.

Subd. b par 5 subpar (b) clause (2) item (A) amended chap 495/2007 § 28, eff. Aug. 1, 2007 and deemed to have been in full force and effect on and after June 14, 2007.

Subd. b par 5 subpar (b) clause (2) item (A) amended chap 444/2006 § 13, eff. Aug. 14, 2006.

Subd. c amended chap 5/2007 § 21, eff. Mar. 13, 2007 and deemed to have been in full force and effect on and after Sept.11, 2001.

Subd. c added chap 445/2006 § 14, eff. Aug. 14, 2006 and deemed to have been in full force and effect on and after Sept. 11, 2001.

Subd. d added chap 5/2007 § 21, eff. Mar. 13, 2007 and deemed to have been in full force and effect on and after Sept.11, 2001.

Amended chap 785/1986 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. Member of Employees' Retirement System was not obliged to await a confirmation by the Board of Estimate of the determination of the Medical Board denying her application for accident disability retirement before suing for an order annulling the Medical Board's determination, and declaring her entitled to accident disability retirement.-Rosenberg v. Bd. of Estimate, 170 Misc. 800, 10 N.Y.S. 124 [1938]; rev'd 257 App. Div. 839, 12 N.Y.S. 2d 215 [1939] on ground the Medical Board was not shown to have abused its discretion and therefore no issue was presented for the jury; aff'd without opinion 281 N.Y. 835, 24 N.E. 2d 493 [1939].

¶ 2. Plaintiff applied for accidental disability retirement as the result of an alleged heart attack induced by his work. Upon recommendation of the Medical Board, the Board of Estimate rejected the application. Petitioner made successive applications for reconsideration and offered new evidence, which was considered; but in each case the application was rejected. Within four months after the last rejection, but over 17 months after the first determination, petitioner commenced an Article 78 proceeding to review the last determination of the Board of Estimate. His petition was held timely over the contention that he was really seeking to review the original determination.-Matter of Feller v. Wagner, 7 A.D. 2d 126, 180 N.Y.S. 2d 748 [1958].

¶ 3. Application for retirement must be made within two years from the date of the accident, and this is not affected by the provision allowing the Medical Board to certify eligibility for retirement at any time within five years. The City was in no way estopped by the fact that its compensation doctor advised plaintiff that her health had improved, which may have induced her to neglect filing her application.-Neary v. Wagner, 155 N.Y.S. 2d 259 [1956].

¶ 4. Under Admin. Code § B3-40.0, an application for accident disability must be filed within two years after the accident, and court was without power to extend time for filing of claim by petitioner whose application indicated that the accident occurred over seven years ago.-Bross v. N.Y. City Employees' Retirement System, 120 (29) N.Y.L.J. (8-11-48) 232, Col. 6 F.

¶ 5. Petitioner, who was injured on April 1, 1942, and first applied on April 5, 1945, for retirement on basis of an injury which was neither a recurrence nor reoccurrence of the original injury, **held** entitled to a trial, pursuant to C.P.A. § 1295, in connection with his application for an order requiring respondents to retire him for accident disability. Even though the application was not filed within two years of the injury as allegedly required by Admin. Code § B3-40.0, the incapacity obviously may not come to pass until over two years have elapsed since the accident and this was apparently contemplated by a provision in the statute for examination by the Medical Board within five years after the accident. Furthermore, petitioner allegedly had been assured by respondent's doctors that he would not be incapacitated and if he was thus lulled into delaying his action beyond the statutory period respondent should not be permitted to interpose the bar of the statute.-In re Schaffer (O'Dwyer), 117 (15) N.Y.L.J. (1-18-47) 242, Col. 6 M.

¶ 6. Where conclusion of Medical Board that member of Employees' Retirement System was not disabled as result of an accidental injury received in the City's service was amply supported by competent evidence adduced before that Board, the determination of the Board of Estimate based upon the Medical Board's report might not be disturbed by the court. A mere difference in medical opinion among physicians produced by the member on the one hand, and physicians of the Medical Board on the other, as to the nature and cause of the member's disability, did not justify a conclusion that the decision made by the Board of Estimate acting on advice of its own Medical Board was arbitrary or unreasonable.-Nilsson v. La Guardia, 259 App. Div. 145, 18 N.Y.S. 2d 502 [1940].

¶ 7. The statutory provisions governing accidental disability retirements are radically different from the provisions controlling an application for accidental death benefits and decisions under Admin. Code § B3-40.0 relative to disability retirement applications may not be regarded as prescribing the effect to be given to a certification made by the Medical Board as to a death benefit claim.-Daley v. Board of Estimate, 267 App. Div. 592, 49 N.Y.S. 2d 139 [1944].

¶ 7.1. Because Board of Estimate is bound by determination of its own medical board its adoption of that board's opinion in regard to petitioner's application for accident disability retirement was not arbitrary or illegal.-Albano v. Wagner, 155 (43) N.Y.L.J. (3-3-66) 16, Col. 1 F.

¶ 8. Where the papers disclosed that the Medical Board of the N.Y.C. Employees' Retirement System disregarded the finding of the hospital where petitioner had been confined and treated, and that their determination denying petitioner's application for accidental disability retirement was not predicated upon all the available records, petitioner **held** entitled to an opportunity to establish that there was ample evidence to sustain the conclusion that he was disabled as result of the accident or that there was insufficient basis for the adverse findings of the Medical Board. The conclusion of the hospital and the attending doctors should not have been brushed aside by the Medical Board merely because petitioner failed to make a prompt complaint.-Epstein v. Board of Estimate, 128 (109) N.Y.L.J. (12-8-52) 1411, Col. 2 F.

¶ 9. A denial of accident retirement disability was affirmed where there was no proof of a heart ailment causally related to petitioner's employment, notwithstanding the contrary evidence of petitioner's doctors.-In re Milchman, 31 Misc. 2d 483, 221 N.Y.S. 2d 591 [1961].

¶ 10. A disability retirement retroactive to a date prior to his discharge could not be granted to petitioner who was dismissed from his job by the Transit Authority because of absence from duty. Such a retirement can only be granted to an employee in the City's service at the time the request is made. Reinstatement can only be effected by a direct attack on the dismissal in an Article 78 proceeding but such action would have to be taken within four months of the dismissal.-Matter of Smith (New York City Employees' Retirement System), 145 (11) N.Y.L.J. (1-7-61) 12, Col. 4 M.

¶ 11. Petitioner was not precluded from claiming accident disability retirement although she had previously applied for and been awarded ordinary retirement disability.-In re Milchman, 31 Misc. 2d 483, 221 N.Y.S. 2d 591 [1961].

¶ 12. A policewoman who had entered the city's service in 1918 and had joined the retirement system in 1934, having at that time applied for and received "prior service" credit for the period from 1918 to 1934 and having paid into the annuity fund a sum equivalent to the amount she would have been required to pay had she been a member since 1918 was vested with all rights of membership, including the right to apply for accidental disability retirement even though her injury was received in 1924.-Rosenberg v. Board of Estimate, 170 Misc. 800, 10 N.Y.S. 2d 124 [1938], rev'd on other grounds, 257 App. Div. 839, 12 N.Y.S. 2d 215 [1939], aff'd 281 N.Y. 835, 24 N.E. 2d 493 [1939].

¶ 13. Trustee of New York City Employees' Retirement System **held** to have properly started employee's accident disability retirement payments at a date 30 days after filing of application for retirement, rather than at date of the accident (Greater New York Charter §§ 1710, 1712). Greater New York Charter § 1714, providing that retirement allowance should be paid as soon as the medical board should have found that total disability resulted from an accident, was inapplicable, since in present case the board had not approved the retirement.-Matter of Wargo (La Guardia), 100 (1) N.Y.L.J. (7-1-38) 5, Col. 7 F.

¶ 14. Plaintiff, a civil service employee of the City of New York attached to the Department of Sanitation, who had applied for and received workmen's compensation for a long period of time, **held** not entitled, upon the City finally dismissing him on ground he was permanently physically incapacitated, to then insist that during such period he was able to work and had tendered his services, and was therefore entitled to receive the difference between the compensation payments and his regular salary. Plaintiff, if he believed he could perform his duties, should not have accepted compensation but should have taken the unequivocal position that he wished to work and would have no workmen's compensation benefits.-Gress v. City of N.Y., 100 (101) N.Y.L.J. (10-29-38) 1374, Col. 2 F.

¶ 15. Denial of service-connected accident disability resulting from alleged personal injuries sustained by falling down stairs of subway station while employed as a transit patrolman was not arbitrary where medical board found that accident did not contribute to recurrence of petitioner's chronic ulcerative colitis. Lambardio v. N.Y.C. Employees' Retirement System, 167 (71) N.Y.L.J. (4-12-72) 17, Col. 3 M.

¶ 16. Fact that petitioner seeking retirement on ground of accidental disability submitted conflicting medical

evidence did not suffice for judicial interference in respondent's determination where record contained medical evidence and opinion to support the administrative determination attacked. Banigan v. N.Y.C. Employees' Retirement System, 166 (39) N.Y.L.J. (8-25-71) 2, Col. 5 T.

¶ 17. City was not liable in damages for terminal leave and accrued vacation allowance to former city sanitation worker who was involuntarily retired for accident disability and who because he was notified of his retirement just before its effective date was unable to use the time owed him for vacation and terminal leave since this would violate the constitutional requirement against gifts of public funds and the collective bargaining agreement did not provide for payment of a substitute in the form of cash.-Coates v. City of N.Y., 49 A.D. 2d 565, 370 N.Y.S. 2d 628 [1975].

¶ 18. Petitioner who worked for Sanitation Department for 7 years was entitled to an opportunity through oral testimony to attempt to establish that his cancerous lung condition resulted from continuous exposure to fumes from the incineration of garbage and waste materials at the facility where he worked.-Gibbs v. N.Y.C. Employees' Retirement System, 176 (96) N.Y.L.J. (11-18-76) 10, Col. 47.

¶ 19. Application to retire on accident disability benefits was properly denied where petitioner, a caseworker for the department of social services, was assaulted on the job by a public assistance client where application had not been filed within two years after the accident as required by statute and petitioner could not rely on general equity principles to cure the defect.-Matter of Randall (N.Y.C. Employees' Retirement System), 178 (13) N.Y.L.J. (7-20-77) 11, Col. 2 T.

¶ 20. To qualify for accident disability under this section it is not necessary that an accident in fact has occurred, but the disability may result from continuous use of toxic chemicals.-Matter of Rinaldi (Board of Trustees of the New York City Employees' Retirement System), 180 (89) N.Y.L.J. (11-8-78) 10, Col. 4 M.

¶ 21. Application of new narrower definition of accident rather than definition in effect on January 11, 1979 and September 18, 1979, the respective dates of accident and petitioner's application for accident disability retirement was arbitrary, capricious and contrary to law since retroactive revision of the definition of accident might have impaired petitioner's constitutionally vested interest.-Matter of Menna v. N.Y.C. Employees' Retirement System, 110 Misc. 2d 1065 [1981].

¶ 22. Where nervous breakdown of petitioner, a uniformed transit police officer, was the natural and proximate result of an emotional trauma caused by uncertainty regarding the compensability of a job-related hearing loss, and denial of petitioner's claim, court would not dismiss his petition since petitioner could be entitled to compensation under the concept of "compensation neurosis".-Goode v. N.Y.C. Transit Police Dept., 115 Misc. 2d 541 [1982].

¶ 23. Petitioner who hurt his back while lifting a heavy can of garbage was not entitled to accident disability retirement because his injury was not caused by an "accident" which requires the intervention of an "external, unexpected and unusual fortuitous event".-Shannon v. Bd. of Trustees of N.Y.C. Employees' Retirement System, 92 App. Div. 2d 528 [1983].

¶ 24. An accident which precipitates the development of a latent condition or aggravates a preexisting condition is a cause of disability within the meaning of this section.-Matter of Tobin v. Steisel, 64 N.Y. 2d 254 [1985].

**CASE NOTES**

¶ 1. Petitioner, a Rikers Island correction officer, who was injured in the process of leaving the premises on a Correction Department bus which transported employees to and from Rikers Island control building, was not entitled to accident disability retirement pension pursuant to Ad Code § 13-168 because his injuries had not occured in the actual performance of city service. Further, petitioner's eligibility for worker's compensation benefits was not dispositive of his eligibility for accident retirement benefits because section 13-176(c) of the Ad Code specifically provides that a decision of the Workers' Compensation Board is not binding on the Medical Board of the NY City Employees'

Retirement System in determining the eligibility of a claimant for accident disability benefits. Towes v. NYC Employees' Retirement System, 160 AD2d 578, 554 N.Y.S.2d 222 (1st Dept. 1988).

¶ 2. A claimant under this section has the burden of establishing proximate cause between the accident and the specific injuries. The city is entitled to rely on its medical board's findings in a matter of pure medical judgment. Carney v. New York City Employees Retirement System, 162 A.D.2d 382, 557 N.Y.S.2d 38 (1st Dept. 1990).

¶ 3. The cleaning of the hopper of a truck was part of a sanitation worker's routine duties. Thus, an injury sustained during the course of this work was not deemed a "sudden and unpexpected event," and the worker was not entitled to accidental disability retirement. Matter of Kehoe v. City of New York, 186 A.D.2d 376, 588 N.Y.S.2d 172 (1st Dept. 1992).

¶ 4. A police officer who slipped and fell on an icy surface in front of his precinct house was held to have suffered an injury on the way to work and thus was not entitled to accidental disability retirement based on an incurred sustained during City service. Alessio v. New York City Employees' Retirement System, 67 N.Y.2d 978, 502 N.Y.S.2d 992 (1986).

¶ 5. A former emergency medical technician (EMT), who allegedly contracted HIV in the course of his duties, applied for accidental disability retirement. He relied upon General Municipal Law §207-o, which creates a presumption that a former EMT who contracts HIV will be presumed to have contracted such disease as a natural and proximate result of an accidental injury, unless the contrary is proved by competent evidence. The court held that once an applicant for accidental disability retirement submitted evidence that the presumption was applicable, the Medical Board either had to accept the presumption or engage in fact finding to disprove the presumption. The Medical Board could not arbitrarily conclude that the applicant did not contract HIV in the course of his duties. Collins v. New York City Employees Retirement System, 1 Misc.3d 677, 767 N.Y.S.2d 767 (Sup.Ct. Kings Co. 2003).

¶ 6. In one case, a 48-year-old carpenter, who was involved in the World Trade Center rescue efforts as a result of Sept. 11, 2001, worked in 12 hour shifts for over six weeks, digging through debris, building support structures, and doing other heavy duty construction work. He developed respiratory problems, including burning eyes, congestion and other symptoms that led him to see a physician experienced in treating illnesses associated with Ground Zero. The doctor stated that the carpenter should stop working around dust and fumes, which led to his breathing problems. The petitioner said that he has to avoid dusty or smoky settings if he is to breathe normally. If not, he must use an inhaler in order to breathe. In addition, petitioner had eleven on-the-job accidents, which affected his back, fingers and other parts of his body. He brought a claim for disability retirement. The Medical Board conducted its own examination of petitioner, which included palpating his extremities and having him perform such tasks as lifting his leg and opposing and flexing his thumb. However, the Medical Board spent only 15 minutes on the examination, and took no tests relating to petitioner's respiratory problems. It then came out with a finding that petitioner was not disabled, and the Commissioner adopted that finding. However, the court granted an Article 78 petition, and directed the Medical Board to reconsider the case. The court found that the examination was so cursory and limited in its breadth that it could not predict whether petitioner was able to continue his job as a carpenter, in which he was required to crawl under roadways and bridges, work over his head, climb dangerous heights, and operate heavy tools. Moreover, the Medical Board report, upon which the Bureau of Transportation relied in denying the application, did not set forth the reasons for concluding that petitioner was not disabled from working as a carpenter. An agency's failure to set forth an adequate statement of the factual basis for the determination forecloses the possibility of judicial review and deprives petitioner of his statutory right to such review. Application of Demetrius Samadjopoulos v. NYC Employees Retirement System et al. 2008 NY Slip Op. 50828U, 19 Misc. 3d 1123A, 2008 NY Mis. Lexis 2358 (Sup. Ct. NY County 2008).

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-169*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-169 Medical review in member disability cases.

a. As used in this section, the following terms shall mean and include:

(1) "Bargaining representative". The public employee organization which is authorized to represent a member for purposes of collective bargaining with the city.

(2) "Panel of medical experts". Those physicians whose names are set forth in a list of medical experts prepared annually by the commissioner of health and filed in his or her office and with the executive director of the retirement system on or before July first. The experts so designated shall be physicians having qualifications as specialists in such fields of medicine as such commissioner deems an essential background (i) for ascertaining, in cases where an application for disability retirement is filed by or with respect to a member, whether such member is physically or mentally incapacitated for the performance of city-service, and (ii) for rendering of reports or certifications as to diagnosis and issues of causal relationship with respect to such applications. Each of such physicians shall have had, prior to his or her designation, at least ten years of practice in the field with respect to which he or she is designated. The names of such physicians shall be separately grouped in such list, according to the fields of medicine in which they are expert, and the names in each group shall be consecutively numbered.

(3) "Party entitled to review". Either of the following:

(i) the bargaining representative of such member; or

(ii) the appropriate agency head.

b. (1) In any case where an application for retirement of a member for disability has been filed pursuant to section 13-167 or 13-168 of this chapter, the executive director of the retirement system, promptly after the board constituting the head of the retirement system acts on the report or certification of the medical board with respect to such application, shall give notice of such action by the board constituting such head to such member and to the appropriate agency head. Within fifteen days after such notification, any party entitled to review may file with the executive director a written request that a special medical committee, as provided for in this section, shall review the conclusions and recommendations of the medical board set forth in its report or certification and the determination of the board of trustees made pursuant to section 13-168 of this chapter.

(2) (i) Any request for review filed by a bargaining representative with respect to such application for disability retirement shall be void and of no effect unless such request includes a waiver, as hereinafter provided, duly executed and acknowledged by the member or by a person acting in his or her behalf as hereinafter provided. Such waiver may be executed by a person acting in behalf of such member in any case where, at the time of the execution of such waiver by such person, the circumstances are such that if such application for disability retirement had not been previously filed by or with respect to such member, such person would at such time of execution be authorized under the provisions of section 13-167 or 13-168 of this chapter, as the case may be, to file, as a person acting in behalf of such member, an application for disability retirement of such member.

(ii) Such waiver shall provide that the execution thereof by such member or by a person acting in his or her behalf as hereinabove authorized shall constitute an agreement by such member that his or her application for disability retirement under section 13-167 or 13-168 of this chapter, as the case may be, shall be disposed of by action of the board constituting the head of the retirement system pursuant to the provisions of this section, that such action shall be final and conclusive, and that he or she waives any and all rights which he or she might otherwise have to seek or obtain any other disposition of such application for disability retirement by court or administrative proceedings or otherwise. A waiver so executed and filed shall be effective and binding upon such member, in accordance with its terms.

c. Promptly after the filing of a request for review to be made by a special medical committee, the executive director shall transmit a copy of such request and of the report or certification of the medical board to the commissioner of health.

d. The commissioner, upon receipt of such report or certification and request, shall promptly designate three of the physicians on the panel of medical experts as a special medical committee for the purpose of reviewing the recommendations and conclusions of the medical board in such case. Such physicians shall be selected by him or her from the panel group possessing the specialist qualifications deemed essential by him or her for such review. All selections of physicians pursuant to this subdivision d shall be made in order of numerical standing in the group from which selection is to be made, and on the basis of continuous rotation within the group.

e. (1) Promptly after making the selection prescribed by subdivision d of this section, the commissioner of health shall notify the selected physicians and the executive director thereof.

(2) Such special medical committee shall, within thirty days after such notification to the physicians constituting such committee is completed, perform, with respect to the application for retirement of such member for disability, the same functions of medical examination or otherwise as are prescribed by applicable provisions of law for performance by the medical board with respect to such application, and shall within such period adopt by majority vote and file with the executive director a report or certification, as the case may be, stating the conclusions and recommendations of such committee concerning the matters required to be reported on or certified by the medical board, pursuant to such applicable provisions of law, with respect to such application.

f. The conclusions and recommendations of the special medical committee shall supersede those of the medical board.

g. (1) Each physician who serves as a member of a special medical committee shall receive a fee for such service, to be determined by the comptroller of the city.

(2) With respect to each case in which a special medical committee acts, one-half of the fees of the members of such committee shall be paid by the city. The other half of such fees shall be paid by the bargaining representative of the member concerned in such case.

h. (1) Within forty-five days after the filing of the report or certification of the special medical committee, the board constituting the head of the retirement system shall act on such report or certification as hereinafter provided in this subdivision h.

(2) If the application is for retirement of the member pursuant to section 13-167 of this chapter, and if the medical examination by the special medical committee shows that such member is physically or mentally incapacitated for the performance of duty and ought to be retired, such committee shall so report and such board constituting such head shall retire such member for ordinary disability as of the date on which such board constituting such head acted on the report of the medical board with respect to such application, or as of the date ninety days after the filing of such application for such retirement, whichever is earlier.

(3) If the application is for retirement of the member pursuant to section 13-168 of this chapter and if the medical examination and investigation of the special medical committee shows that such member is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the special medical committee shall so certify to such board constituting such head stating the time, place and conditions of such city-service performed by such member resulting in such disability, and such board constituting such head shall retire such member for accident dis- ability as of the date on which such board acted on the report of the medical board with respect to such application.

i. In any case where a request for review by a special medical committee is filed pursuant to the provisions of this section, the provisions of sections 13-167 and 13-168 of this chapter shall be superseded by the provisions of this section to the extent that the provisions of this section are inconsistent therewith.

j. (1) In any case where the provisions of this section require the executive director to give notice to a member, the executive director may give such notice by delivery to such member personally or by mailing same to his or her last known address, as shown by the records of the department of sanitation.

(2) In any case where the provisions of this section require the giving of notice or the transmission of papers to any other person, such notice may be given or transmission effected by delivery to such person, by delivery at his or her office to any of his or her employees, or by mailing to the office address of such person.

(3) In any case where notice is given by mail pursuant to this subdivision j, such notice shall be deemed to be given on the date of mailing.

k. Notwithstanding any other provision of law to the contrary, the board of trustees may adopt rules and regulations to provide that the executive director, rather than the commissioner of health, shall establish the list of the panel of medical experts, designate physicians as special medical committees and administer the medical review process. Any rules and regulations so adopted shall be substantially similar to the provisions set forth in this section.

**CASE NOTES**

¶ 1. Upon the Board of Trustee's denial of petitioner's application for accidental disability retirement, petitioner had the choice of accpeting that determination, commencing an Article 78 proceeding or requesting a review of the conclusions and recommendations of the Medical Board by a special medical committee, as provided in § 13-169(b)(1). this latter choice is, in effect, a form of binding arbitration, which is void and of no effect unless it includes a waiver of the right to any further administrative or judicial review. Thus, where the waiver was freely and knowingly made, petitioner was now precluded from obtaining judicial review of the determination. McEwan v. New York City Employees Retirement System, 159 A.D.2d 238 (1st Dept. 1990).

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-170 Medical review in housing police member disability cases.

a. As used in this section, the following terms shall mean and include:

(1) "Bargaining representative". The public employee organization which is authorized to represent a housing police member for purposes of collective bargaining with the New York city housing authority.

(2) "Panel of medical experts". Those physicians whose names are set forth in a list of medical experts prepared annually by the commissioner of health and filed in his or her office and with the executive director of the retirement system on or before July first. The experts so designated shall be physicians having qualifications as specialists in such fields of medicine as such commissioner deems an essential background (i) for ascertaining, in cases where an application for disability retirement is filed by or with respect to a housing police member, whether such member is physically or mentally incapacitated for the performance of city-service, and (ii) for rendering of reports or certifications as to diagnosis and issues of causal relationship with respect to such applications. Each of such physicians shall have had, prior to his or her designation, at least ten years of practice in the field with respect to which he or she is designated. The names of such physicians shall be separately grouped in such list, according to the fields of medicine in which they are expert, and the names in each group shall be consecutively numbered.

(3) "Party entitled to review". Either of the following:

(i) the bargaining representative of such member; or

(ii) the chief of the housing police department of the New York city housing authority.

b. (1) In any case where an application for retirement of a housing police member for disability has been filed pursuant to section 13-167 or 13-168 of this chapter, the secretary of the retirement system, promptly after the retirement board acts on the report or certification of the medical board with respect to such application, shall give notice of such action by the board constituting such head to such member and to the chief of the housing police department. Within fifteen days after such notification, any party entitled to review may file with the secretary a written request that a special medical committee, as provided for in this section, shall review the conclusions and recommendations of the medical board set forth in its report or certification and the determination of the board of trustees made pursuant to section 13-168 of this chapter.

(2) (i) Any request for review filed by a bargaining representative with respect to such application for disability retirement shall be void and of no effect unless such request includes a waiver, as hereinafter provided, duly executed and acknowledged by the housing police member or by a person acting in his or her behalf as hereinafter provided. Such waiver may be executed by a person acting in behalf of such member in any case where, at the time of the execution of such waiver by such person, the circumstances are such that if such application for disability retirement had not been previously filed by or with respect to such member, such person would at such time of execution be authorized under the provisions of section 13-167 or 13-168 of this chapter to file, as a person acting in behalf of such member, an application for disability retirement of such member.

(ii) Such waiver shall provide that the execution thereof by such member or by a person acting in his or her behalf as hereinabove authorized shall constitute an agreement by such member that his or her application for disability retirement under section 13-167 or 13-168 of this chapter shall be disposed of by action of the board constituting the head of the retirement system pursuant to the provisions of this section, that such action shall be final and conclusive, and that he or she waives any and all rights which he or she might otherwise have to seek or obtain any other disposition of such application for disability retirement by court or administrative proceedings or otherwise. A waiver so executed and filed shall be effective and binding upon such member, in accordance with its terms.

c. Promptly after the filing of a request for review to be made by a special medical committee, the secretary shall transmit a copy of such request and of the report or certification of the medical board to the commissioner of health.

d. The commissioner, upon receipt of such report or certification and request, shall promptly designate three of the physicians on the panel of medical experts as a special medical committee for the purpose of reviewing the recommendations and conclusions of the medical board in such case. Such physicians shall be selected by him or her from the panel group possessing the specialist qualifications deemed essential by him or her for such review. All selections of physicians pursuant to this subdivision d shall be made in order of numerical standing in the group from which selection is to be made, and on the basis of continuous rotation within the group.

e. (1) Promptly after making the selection prescribed by subdivision d of this section, the commissioner of health shall notify the selected physicians and the secretary thereof.

(2) Such special medical committee shall, within thirty days after such notification to the physicians constituting such committee is completed, perform, with respect to the application for retirement of such member for disability, the same functions of medical examination or otherwise as are prescribed by applicable provisions of law for performance by the medical board with respect to such application, and shall within such period adopt by majority vote and file with the secretary a report or certification, as the case may be, stating the conclusions and recommendations of such committee concerning the matters required to be reported on or certified by the medical board, pursuant to such applicable provisions of law, with respect to such application.

f. The conclusions and recommendations of the special medical committee shall supersede those of the medical board.

g. (1) Each physician who serves as a member of a special medical committee shall receive a fee for such

service, to be determined by the comptroller of the city.

(2) With respect to each case in which a special medical committee acts, one-half of the fees of the members of such committee shall be paid by the New York city housing authority. The other half of such fees shall be paid by the bargaining representative of the housing police member concerned in such case.

h. (1) Within forty-five days after the filing of the report or certification of the special medical committee, the board constituting the head of the retirement system shall act on such report or certification as hereinafter provided in subdivision h hereof.

(2) If the application is for ordinary disability retirement of the member pursuant to section 13-167 of this chapter, and if the medical examination by the special medical committee shows that such member is physically or mentally incapacitated for the performance of duty and ought to be retired, such committee shall so report and such board constituting such head shall retire such member for ordinary disability as of the date on which such board constituting such head acted on the report of the medical board with respect to such application, or as of the date ninety days after the filing of such application for such retirement, whichever is earlier.

(3) If the application is for accident disability retirement of the member pursuant to section 13-168 of this chapter and if the medical examination and investigation of the special medical committee shows that such member is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the special medical committee shall so certify to such board constituting such head stating the time, place and conditions of such city-service performed by such member resulting in such disability, and such board constituting such head shall retire such member for accident disability as of the date on which such board acted on the report of the medical board with respect to such application.

i. In any case where a request for review by a special medical committee is filed pursuant to the provisions of this section, the provisions of section 13-167 or 13-168 of this chapter shall be superseded by the provisions of this section to the extent that the provisions of this section are inconsistent therewith.

j. (1) In any case where the provisions of this section require the secretary to give notice to a housing police member, the secretary may give such notice by delivery to such member personally or by mailing same to his or her last known address, as shown by the records of the housing police department of the New York city housing authority.

(2) In any case where the provisions of this section require the giving of notice or the transmission of papers to any other person, such notice may be given or transmission effected by delivery to such person, by delivery at his or her office to any of his or her employees, or by mailing to the office address of such person.

(3) In any case where notice is given by mail pursuant to this subdivision j, such notice shall be deemed to be given on the date of mailing.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-171 Safeguards on disability retirement.

a. Once each year the board may, and upon his or her application shall, require any disability pensioner, under the minimum age for service retirement for the group from which he or she was retired to undergo medical examination. Such examination shall be made at the place of residence of such beneficiary or other place mutually agreed upon. Upon the completion of such examination the medical board shall report and certify to the board whether such beneficiary is or is not totally or partially incapacitated physically or mentally and whether he or she is or is not engaged in or able to engage in a gainful occupation. If the board concur in a report by the medical board that such beneficiary is able to engage in a gainful occupation, it shall certify the name of such beneficiary to the appropriate civil service commission, state or city, and such commission shall place his or her name as a preferred eligible on such appropriate lists of candidates as are prepared for appointment to positions for which he or she is stated to be qualified.

Should such beneficiary be engaged in a gainful occupation, or should he or she be offered city-service as a result of the placing of his or her name on a civil service list, such board shall reduce the amount of his or her disability pension and his or her pension-for-increased-take-home-pay, if any, to an amount which, when added to that then earned by him or her, or earnable by him or her in city-service so offered him or her, shall not exceed the current maximum salary for the title next higher than that held by him or her when he or she was retired. Should the earning capacity of such beneficiary be further altered, such board may further alter his or her pension and his or her pension-for-increased-take-home-pay, if any, to an amount which shall not exceed the rate of pension and pension-for-increased-take-home-pay, if any, upon which he or she was originally retired but which, subject to such limitation, shall equal, when added to that earnable by him or her, the current maximum salary for the title next higher than that held by him or her when he or she was retired.

The provisions of this section shall be executed, any provision of the charter or the code to the contrary notwithstanding.

b. Should any disability pensioner, under the minimum age for service retirement for the group from which he or she was retired, refuse to submit to one medical examination in any year by a physician or physicians designated by the medical board, his or her pension and his or her pension-for-increased-take-home-pay, if any, may be discontinued until his or her withdrawal of such refusal. Should such refusal continue for one year, all his or her rights in and to such pension and pension-for-increased-take-home-pay, if any, may be revoked by such board.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. a amended chap 438/1986 § 1

**DERIVATION**

Formerly § B3-41.0 added chap 929/1937 § 1

Amended chap 509/1960 § 18

Sub a amended chap 100/1963 § 38

Sub a amended chap 866/1969 § 15

Sub a amended chap 274/1977 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. A determination by the Medical Board and the Board of Estimate made on the eve of his attainment of the minimum service retirement age, that petitioner, who had been retired for accident disability, was no longer totally physically disabled, did not entitle the Employees' Retirement System to reduce his pension upon his refusal to report for work, where petitioner had not actually been assigned to work prior to his 55th birthday and his payments had not been suspended until after such date (Admin. Code § B3-41.0).-Roche v. N.Y. City Employees' Retirement System, 173 Misc. 708, 18 N.Y.S. 2d 736 [1939].

¶ 2. Admin. Code § B3-41.0 is clearly for the protection of the Retirement System in cases where a pensioner retired for ordinary disability has a limited earning capacity. It does not undertake to specify the salary at which an employee shall be reinstated, but serves the purpose of crediting the Retirement System with the employee's earning capacity, whatever it may be. It provides not for the payment of salary but for the reduction of pension payments.-Stewart v. O'Dwyer, 271 App. Div. 485, 66 N.Y.S. 2d 551 [1946].

¶ 3. Admin. Code § B3-41.0 would appear not to contemplate cases where the employee has fully recovered from his disability, is restored to his original or a similar position, and is performing the same work that he performed before retirement. However, the section might cover a case where an employee has been restored to his original title but is prevented by budgetary limitation from receiving his former pay.-Stewart v. O'Dwyer, 271 App. Div. 485, 66 N.Y.S. 2d 551 [1946].

¶ 4. Full force may be given to both Civil Service Law § 31b and Admin. Code § B3-41.0 if the latter is confined to cases where an employee retired for disability may not be able to do his former work or is unable to find a vacancy in his former position. Where he is reinstated from a preferred list to his former or a similar position he should receive the protection afforded by § 31b. Accordingly, employees restored to their original status would be restored to membership in the Employees' Retirement System and would, if within the specified grades, receive the benefit of annual increments

provided by § B40-6.0.-Stewart v. O'Dwyer, 271 App. Div. 485, 66 N.Y.S. 2d 551 [1946].

¶ 5. Petitioner who retired in May, 1948, indefinitely for ordinary disability, and two months later attained the age of 65, which was her selected minimum retirement age, but now felt that she had recovered and was able to engage in gainful occupation, **held** entitled to secure a physical examination with a view to reinstatement in the Civil Service. Admin. Code § B3-41.0 did not preclude right of petitioner to reexamination after attaining the age selected by her for retirement. Such statute is exclusively for the benefit of the Retirement System and deals only with the period up to selected age of retirement.-Lorber v. O'Dwyer, 198 Misc. 310, 101 N.Y.S. 2d 686 [1950], aff'd 277 App. Div. 1035, 100 N.Y.S. 2d 1017 [1950], aff'd 302 N.Y. 829, 100 N.E. 2d 35 [1951].

¶ 6. Employee retired on account of disability applied for reinstatement to the equivalent of former position. Medical board found he was suffering from 50% impairment of right ear and recommended denial of application. In the absence of fraud, accident or mistake the court could not substitute its judgment for that of the medical board. Greco v. Comm. of Sanitation, 20 App. Div. 2d 405, 247 N.Y.S. 2d 546 [1964].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-172*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-172 Retirement allowances; for service.

a. Upon retirement for service a member shall receive a retirement allowance which shall consist of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions, if any, at the time of his or her retirement; and

2. A pension, in addition to his or her annuity, if any, which shall be equal to one service-fraction of his or her final compensation, as enumerated he or she rein for his or her group, multiplied by the number of years of city-service since he or she last became a member credited to him or her; and

2-a. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. An additional pension which shall be equal to two such service-fractions of his or her final compensation multiplied by the number of years of his or her prior service; and

4. An additional pension, equal to the difference between each such service-fraction and one one-hundred-twentieth, provided that

(a) On or before the thirtieth day of June, nineteen hundred thirty, by his or her written election duly acknowledged and filed with the board, the member consented to the necessary deductions from his or her compensation therefor; or

(b) On or after July first, nineteen hundred thirty, he or she elected age fifty-five pursuant to section 13-164 of this chapter; and

5. An additional pension which shall be the actuarial equivalent of any and all contributions by him or her to any other retirement system or pension fund

(a) Which have not been and cannot be lawfully refunded to him or her, and

(b) Which are offset by reduction of the amount payable to such other retirement system or pension fund directly or indirectly by the city, provided such member shall have paid deductions from his or her compensation for so much of such period on or after the first day of October, nineteen hundred twenty, as he or she may receive credit for in this retirement system.

(c) The amount of pension liability of the city on account of such additional pension shall be appropriated by the city in the budget for the second year succeeding the determination of such liability and paid into the appropriate fund of the retirement system.

6. A pension, in lieu of any other pension provided for the years allowable service rendered on or after the first day of October, nineteen hundred twenty, of one per centum of his or her final compensation multiplied by the number of such years, provided that, if the member shall have duly executed and filed his or her written application, with the board, on or before the thirty-first day of August, nineteen hundred sixty-two, or, after such date, before any deduction shall have been made from his or her compensation for annuity purposes, the member shall have consented to the necessary deductions from his or her compensation for a like annuity, and for the right to retire at age fifty-five. The method of computation and deductions prescribed by this paragraph shall be appropriately modified in the case of a member for whom a rate is otherwise fixed pursuant to section 13-152 of this chapter.

7. (a) A pension computed pursuant to the provisions of this paragraph seven, in lieu of any other pension provided for the years of allowable service rendered on or after the first day of October, nineteen hundred twenty, in the case of any member whose minimum service retirement age, under the applicable provisions of this chapter, is fifty-five years and who is entitled, under the applicable provisions of this chapter, to payment of a pension pursuant to this paragraph seven upon his or her retirement for service.

(b) Such pension computed pursuant to this paragraph seven shall, subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, consist of the following:

(i) for the years of such member's allowable service rendered on or after the first day of October, nineteen hundred twenty and prior to July first, nineteen hundred sixty-eight, a pension equal to the product obtained by multiplying the number of such years by one and two-tenths per centum of such member's annual salary or compensation earnable by him or her for city-service in the year prior to his or her retirement; provided, however, that if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, then such pension for such years shall instead be equal to the product obtained by multiplying the number of such years by one and two-tenths per centum of such member's three-year-average compensation; and

(ii) for the years of such member's allowable service rendered after June thirtieth, nineteen hundred sixty-eight, a pension equal to the product obtained by multiplying the number of such years by one and fifty-three one-hundredths per centum of such member's annual salary or compensation earnable by him or her for city-service in the year prior to his or her retirement; provided, however, that if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, then such pension for such years shall instead be equal to the product obtained by multiplying the number of such years by one and fifty-three one-hundredths per centum of such member's three-year-average compensation.

8. (a) As used in this paragraph eight, the following terms shall mean and include:

(1) "Career pension plan beneficiary." A beneficiary entitled to recomputation of his or her retirement allowance pursuant to item one of subparagraph (b) of this paragraph eight.

(2) "Fifty-five-year-increased-service-fraction beneficiary". A beneficiary entitled to recomputation of his or her retirement allowance pursuant to item two of subparagraph (b) of this paragraph eight.

(b) Notwithstanding any other provision of law to the contrary, the benefits payable by reason of the retirement of a member for service shall be recomputed pursuant to the provisions of this paragraph eight and payment of such recomputed benefits shall be made in the manner and to the extent prescribed in this paragraph, in lieu of the benefits which would otherwise be payable by reason of such retirement, in the following cases:

(1) With respect to any beneficiary:

(i) whose retirement for service became effective during the period beginning on January first, nineteen hundred sixty-eight and ending on June thirtieth, nineteen hundred sixty-eight; and

(ii) who, immediately prior to the effective date of his or her retirement, held a career pension plan position; and

(iii) who, at the time of his or her retirement, had attained the age of fifty-five years and had completed twenty-five years of allowable service in one or more career pension plan positions; and

(iv) who, on July first, nineteen hundred sixty-eight, is a retired former member entitled to receive a retirement allowance from the retirement system; and

(2) With respect to any beneficiary:

(i) whose retirement for service became effective during the period beginning on January first, nineteen hundred sixty-eight and ending on June thirtieth, nineteen hundred sixty-eight; and

(ii) who, immediately prior to the effective date of his or her retirement, held a career pension plan position; and

(iii) who, at the time of his or her retirement, had attained the age of fifty-five years, but had completed less than twenty-five years of allowable service in one or more career pension plan positions; and

(iv) who, on July first, nineteen hundred sixty-eight, is a retired former member entitled to receive a retirement allowance from the retirement system.

(c) There shall be computed, with respect to the retirement of each career pension plan beneficiary, the retirement allowance to which such beneficiary would be entitled under the provisions of section 13-162 of this chapter, relating to the career pension plan, if (1) such section had been in effect prior to the effective date of his or her retirement, and (2) he or she had elected the benefits thereof prior to such effective date, and (3) he or she had retired as a career pension plan member on such effective date.

(d) There shall be computed, with respect to the retirement of each fifty-five-year-increased-service-fraction beneficiary, the retirement allowance to which such beneficiary would be entitled under the foregoing provisions of this section, if (1) the provisions of paragraph seven of subdivision a of this section had been in effect prior to the effective date of his or her retirement, and (2) such beneficiary had been entitled to computation of a pension pursuant to such paragraph seven for the years of his or her allowable service mentioned in such paragraph.

(e) Subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, the retirement allowances provided for by paragraphs (c) and (d) of this paragraph eight shall be computed on the basis of the retired

member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement.

(f) (1) If, with respect to the retirement of any career pension plan beneficiary or fifty-five-year-increased-service-fraction beneficiary, the period during which selection of an option was authorized under section 13-177 of this chapter expired on a date prior to July first, nineteen hundred sixty-eight, under the applicable provisions of law in effect prior to such July first, no re-election of or change of an option with respect to such retirement shall be made after such date of expiration.

(2) If such period for selection of an option did not expire prior to July first, nineteen hundred sixty-eight, under the applicable provisions of law in effect prior to such July first, then the period for the selection of an option with respect to such retirement shall expire on the date on which the first payment on account of any benefit is made in relation to such retirement, whether such payment is made under the applicable provisions of law in effect prior to July first, nineteen hundred sixty-eight or under the provisions of this paragraph eight.

(g) (1) The retirement allowance to which any career pension plan beneficiary or fifty-five-year-increased-service-fraction beneficiary became entitled as of the effective date of his or her retirement, under the applicable provisions of law then in effect, shall be paid to such beneficiary for the period from such effective date up to and including June thirtieth, nineteen hundred sixty-eight.

(2) For any period beginning on or after July first, nineteen hundred sixty-eight, there shall be paid to each such career pension plan beneficiary, in lieu of such retirement allowance to which he or she became entitled as of the effective date of his or her retirement, the retirement allowance computed pursuant to subparagraph (c) of this paragraph eight, and for any period beginning on or after July first, nineteen hundred sixty-eight, there shall be paid to each such fifty-five-year-increased-service-fraction beneficiary, in lieu of the retirement allowance to which he or she became entitled as of the effective date of his or her retirement, the retirement allowance computed pursuant to subparagraph (d) of this paragraph.

(h) (1) Except as otherwise provided in item two of this subparagraph (h), if, by reason of the death of a career pension plan beneficiary or fifty-five-year-increased-service-fraction beneficiary occurring on or after July first, nineteen hundred sixty-eight, any benefits become payable, such benefits shall be computed and paid so as to equal the benefits which would be payable upon such death if the retirement of such beneficiary had occurred under the conditions and assumptions set forth in items one, two and three of subparagraph (c) of this paragraph eight or items one and two of subparagraph (d) of this paragraph, as the case may be, as applicable to the recomputation of the retirement allowance of such beneficiary.

(2) If benefits payable pursuant to item one of this subparagraph (h) include payment of the unexhausted portion of the present value of any such beneficiary's annuity, pension or retirement allowance, as the case may be, such portion shall consist of the amount obtained by subtracting from the present value of such annuity, pension or retirement allowance, as the case may be, calculated as of the effective date of retirement pursuant to the provisions of item one of this subparagraph, the sum obtained by adding together:

(i) a sum equal to the total of all installments on account of such annuity, pension or retirement allowance, as the case may be, which would have been due and payable to such beneficiary, prior to his or her death, with respect to the period prior to July first, nineteen hundred sixty-eight, if such installments had been computed at the applicable rate prescribed by item two of subparagraph (g) of this paragraph eight; and

(ii) a sum equal to the total of all installments on account of such annuity, pension or retirement allowance, as the case may be, which became due and payable to such beneficiary, prior to his or her death, with respect to the period commencing on July first, nineteen hundred sixty-eight, under the provisions of item two of such subparagraph (g).

(i) Nothing contained in this paragraph eight shall be construed as applying to any benefit payable pursuant to subdivision four of section 13-151 of this chapter by reason of the death of any member occurring prior to July first,

nineteen hundred sixty-eight.

(j) For the purposes of this paragraph eight, a member who retired for service prior to January first, nineteen hundred sixty-eight shall be deemed to have retired on such January first, if (1) such member's retirement became effective on the Sunday next preceding such January first, or (2) if every day intervening between the effective date of such member's retirement and such January first was a Saturday or Sunday.

9. (a) As used in this paragraph nine, the following terms shall mean and include:

(1) "College assistant beneficiary." Any beneficiary:

(i) whose retirement for service became effective on or after July first, nineteen hundred sixty-eight and prior to July first, nineteen hundred sixty-nine; and

(ii) who, immediately prior to the effective date of his or her retirement was employed by the city university of New York or in any institution of higher learning under its jurisdiction, including any community college, as a college office assistant A, college secretarial assistant A, college office assistant B, college secretarial assistant B or college administrative assistant; and

(iii) who, at the time of his or her retirement, had attained the age of fifty-five years; and

(iv) who, on July first, nineteen hundred sixty-nine, is a retired former member entitled to receive a retirement allowance from the retirement system.

(2) "Extended coverage career pension plan beneficiary." Any beneficiary who:

(i) retired for service on or after July first, nineteen hundred sixty-eight and prior to July first, nineteen hundred sixty-nine, as a fifty-five-year-increased-service-fraction member; and

(ii) at the time of his or her retirement, was credited with twenty-five or more years of career pension plan qualifying service, but with less than twenty-five years of allowable service in one or more career pension plan positions; and

(iii) on July first, nineteen hundred sixty-nine, is a retired former member entitled to receive a retirement allowance from the retirement system.

(b) (1) Subject to the provisions of subparagraph (e) of this paragraph nine, there shall be computed, with respect to the retirement of each extended coverage career pension plan beneficiary, the benefits which would have been payable by reason of such retirement if (i) the amendments to sections 13-101 and 13-162 of this chapter made by the act which enacts this paragraph nine had been in effect on the effective date of such retirement, and (ii) such member had elected the benefits of section 13-162 of this chapter prior to his or her retirement and (iii) he or she had retired as a career pension plan member on the effective date of his or her retirement.

(2) If such benefits computed pursuant to item one of this subparagraph (b) are greater than the benefits otherwise payable by reason of such retirement, then notwithstanding any provision of law to the contrary, the beneficiary or beneficiaries entitled to receive benefits by reason of such retirement shall be paid such greater benefits with respect to all periods on and after the effective date of such retirement, in lieu of the benefits which would otherwise be payable by reason of such retirement.

(c) (1) Subject to the provisions of subparagraph (e) of this paragraph nine, there shall be computed, with respect to the retirement of each college assistant beneficiary who, at the time of his or her retirement, was credited with twenty-five or more years of career pension plan qualifying service, the benefits which would have been payable with respect to such retirement if (i) the amendments to sections 13-101 and 13-162 of this chapter made by the act which

enacts this paragraph nine had been in effect on the effective date of such retirement, and (ii) such member had elected the benefits of such section 13-162 of this chapter prior to his or her retirement and (iii) he or she had retired as a career pension plan member on the effective date of his or her retirement.

(2) Notwithstanding any provision of law to the contrary, the beneficiary or beneficiaries entitled to receive benefits by reason of such retirement shall be paid, with respect to all periods on and after the effective date of such retirement, the benefits computed pursuant to item one of this subparagraph (c), and shall receive such recomputed benefits in lieu of the benefits which would otherwise be payable by reason of such retirement.

(d) (1) There shall be computed, with respect to the retirement of each college assistant beneficiary, who, at the time of his or her retirement, was credited with less than twenty-five years of career pension plan qualifying service, the benefits which would have been payable with respect to such retirement if (i) the amendments to sections 13-101 and 13-165 of this chapter made by the act which enacts this paragraph nine had been in effect on the effective date of such retirement, and (ii) such member had elected the benefits provided for by subdivision a of section 13-165 of this chapter prior to his or her retirement and

(iii) he or she had retired as a fifty-five-year-increased-service-fraction member on the effective date of his or her retirement.

(2) Notwithstanding any provision of law to the contrary, the beneficiary or beneficiaries entitled to receive benefits by reason of such retirement shall be paid, with respect to all periods on and after the effective date of such retirement, the benefits computed pursuant to item one of this subparagraph (d), and shall receive such recomputed benefits in lieu of the benefits which would otherwise be payable by reason of such retirement.

(e) In the computation of benefits with respect to an extended coverage career pension plan beneficiary pursuant to item one of subparagraph (b) of this paragraph nine, or with respect to a college assistant beneficiary pursuant to item one of subparagraph (c) of this paragraph, the twenty-five years of career pension plan qualifying service of such member next preceding the effective date of his or her retirement shall be deemed to be the first twenty-five years of career pension plan qualifying service of such beneficiary and all rights to benefits conferred by such subparagraphs (b) and (c) shall be subject to and governed by the provisions of this subparagraph nine.

(f) Nothing contained in this paragraph nine shall be construed as applying to any benefit payable pursuant to subdivision four of section 13-151 of this chapter by reason of the death of any member occurring prior to July first, nineteen hundred sixty-nine.

b. The service-fractions of final compensation shall be as follows:

**[See tabular material in printed version]**

For any other group established under the provisions of section 13-106 of this chapter, a service-fraction shall be determined by using a numerator of one and a denominator of four times the difference between the number twenty-five and the number which corresponds to the age determined for such group as the minimum age for service retirement.

**NOTE**

Provisions of Chap 678/1995, eff. Aug. 9, 1995.

AN ACT in relation to the reduction to retirement benefits received by long-term New York city employees who retired upon separation from service without fault or delinquency.

**The People of the State of New York, represented in Senate and Assembly, do enact as follows:**

Section 1. Notwithstanding any other provision of law, a member of the New York city employees' retirement system who retired in 1991 pursuant to section 13-150 of the administrative code of the city of New York, and who, at the time of retirement, was serving in a title certified to be represented in collective bargaining by the public employee organization with the largest number of employees who are members of the retirement system or its affiliated local public employee organizations, shall have his or her retirement allowance recomputed as follows:

(a) If his retirement allowance was determined pursuant to the provisions of subdivision a of section 13-150 of the administrative code of the city of New York, it shall be recomputed pursuant to the provisions of subdivisions e, f and g of section 13-162 of such code, as though he had satisfied the eligibility requirements set forth in para graph 2 of subdivision d of such section 13-162.

(b) If his retirement allowance was determined pursuant to the provisions of paragraph 7 of subdivision a of section 13-172 of such code, it shall be recomputed pursuant to the provisions of subdivisions e, f and g of section 13-162 of such code, as though he had satisfied the eligibility requirements set forth in paragraph 2 of subdivision d of such section 13-162.

(c) The recomputations set forth above shall be performed as of the date of the member's retirement.

§ 2. The recomputed retirement allowance shall be payable as of July 1, 1995.

§ 3. This act shall take effect immediately.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where decedent designated defendant, his then wife, as his beneficiary at the time of his employment and thereafter never revoked such designation, even though he was divorced and remarried, the payment of the death benefit to the named beneficiary was proper.-Cruze v. Keleher, 146 (82) N.Y.L.J. (10-27-61) 17, Col. 2 M.

¶ 2. An oral agreement whereby a deceased employee agreed to make plaintiff the irrevocable beneficiary of his interest in the Retirement System was unenforceable under the statute of frauds.-Fennell v. Employees' Retirement System, 147 (121) N.Y.L.J. (6-22-62) 9, Col. 4 M.

¶ 3. Lump sum payment made to a retired city employee of the Housing Authority on the basis of unused annual leave and overtime and for retirement terminal leave can not be included in determining retirement benefits since they accrued on retirement and were not earned in the year prior thereto.-Hessel v. N.Y.C. Employees' Retirement System, 33 N.Y. 2d 381, 308 N.E. 2d 688, 353 N.Y.S. 2d 169 [1974].

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-173*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-173 Vested retirement rights.

a. Any member who:

(1) discontinues city-service on or after July first, nineteen hundred sixty-eight, other than by death, retirement or dismissal; and

(2) is a fifty-five-year-increased-service-fraction member at the time of such discontinuance; and

(3) prior to such discontinuance, completed five years of allowable service; and

(4) does not withdraw his or her accumulated deductions in whole or in part;

shall have a vested right to receive a deferred retirement allowance as provided in this section.

b. (1) Such deferred retirement allowance shall vest automatically upon such discontinuance.

(2) Such retirement allowance shall become payable on the date on which such discontinued member shall attain the age of fifty-five years, provided he or she files with the board, within the period of ninety days ending on such date, a duly executed application for such payment.

(3) If a discontinued member shall, at any time after he or she attains the age of fifty-five years, file with the board a duly executed application for payment of such retirement allowance, it shall become payable upon the filing of such application.

c. (1) Except as otherwise provided in paragraphs two and three of this subdivision c, such deferred retirement allowance shall be determined in accordance with the provisions of section 13-172 of this chapter governing the retirement allowance of a fifty-five-year-increased-service-fraction member, in the same manner as if such discontinued member had retired for service on the date on which he or she attained the age of fifty-five years, or on the date on which he or she filed an application for payment of his or her retirement allowance pursuant to subdivision b of this section, whichever is later.

(2) Subject to the provisions of paragraph three of subdivision e of section 13-638.4 of this title, the pension of such member under paragraph seven of subdivision a of section 13-172 of this chapter shall be computed on the basis of his or her annual salary or compensation earnable by him or her for city-service in the year prior to his or her discontinuance of city-service, except as otherwise provided in paragraph three of this subdivision c.

(3) Such pension shall be computed on the basis of his or her three-year-average compensation, if he or she shall so elect pursuant to subdivision fifty-eight of section 13-101 of this chapter.

d. Regular interest on the accumulated deductions of a discontinued member and on his or her reserve-for-increased-take-home-pay shall be credited after discontinuance of city-service at the rate which would be applicable if he or she had not discontinued service.

e. If a discontinued member dies before attaining the age of fifty-five years, his or her accumulated deductions shall be paid (1) to the beneficiary designated by him or her pursuant to section 13-148 of this chapter to receive his or her accumulated deductions in the event that such deductions become payable under such section, or (2) if such member has made no such designation, to his or her estate.

f. A discontinued member may elect any option under section 13-177 of this chapter at any time prior to the first payment on account of his or her retirement allowance under this section.

g. Withdrawal of accumulated deductions, in whole or in part, after discontinuance of city-service, shall terminate the right to a deferred retirement allowance under this section.

h. (1) If a discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently re-enter city-service before attaining the age of fifty-five years, he or she shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her discontinuance of city-service and shall be credited with regular interest on his or her accumulated deductions and his or her reserve-for-increased-take-home-pay from the time of such discontinuance to the time of his or her re-entry into service, at the rate which would have been applicable if he or she had not discontinued service.

(2) If a discontinued member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently and on or after the date on which he or she attains the age of fifty-five years, re-enter city-service, his or her rights, privileges and benefits shall be as provided for in section 13-178 of this chapter.

i. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in the retirement system who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the retirement system shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-148 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-173.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-173.1 Vested retirement rights; sanitation members.

a. Any member, other than a member who is subject to article fifteen of the retirement and social security law, who:

(1) on or after July first, nineteen hundred eighty-four, discontinues sanitation service other than by death, retirement or dismissal; and

(2) is a sanitation member at the time of such discontinuance; and

(3) prior to such discontinuance, completed five or more years of allowable sanitation service; and

(4) at least thirty days prior to the date of such discontinuance, files with the board a duly executed application for a deferred retirement allowance hereunder, which filing shall be made not earlier than December eighteenth, nineteen hundred eighty-four; and

(5) does not withdraw his or her accumulated deductions in whole or in part;

shall have a vested right to receive a deferred retirement allowance as provided in this section.

b. (1) Such deferred retirement allowance shall vest automatically upon such discontinuance.

(2) Such retirement allowance shall become payable on the earliest date on which such discontinued sanitation member could have retired for service as a sanitation member if discontinuance had not occurred.

c. (1) Such deferred retirement allowance for a discontinued sanitation member shall consist of:

(a) an annuity which is the actuarial equivalent of an amount equal to the member's accumulated deductions for the period of his or her sanitation service, plus any accumulated contributions transferred to his or her credit pursuant to section forty-three of the retirement and social security law, as the total of such accumulated deductions and contributions is on the earliest date on which such member could have retired for service as a sanitation member; and

(b) a pension, which together with his or her annuity shall be equal to:

(i) in the case of any discontinued sanitation member whose minimum period for service retirement as a sanitation member is twenty years, two and one-half percent of his or her annual earnable compensation on the date of his or her discontinuance of service, multiplied by a number equal to the number of years of allowable sanitation service not in excess of twenty years credited to him or her on the date of such discontinuance, plus the amount produced by multiplying one per centum of his or her final compensation (as defined in subdivision nine of section 13-101 of this chapter) by the number of his or her years of allowable service, other than the first twenty years of allowable sanitation service, plus the amount produced by multiplying one-half of one per centum of his or her final compensation (as defined in such subdivision nine) by the number of his or her years of allowable sanitation service rendered both (A) after completion of twenty years of allowable sanitation service and (B) after July second, nineteen hundred sixty-five; or

(ii) in the case of a discontinued sanitation member whose minimum period for service retirement as a sanitation member is twenty-five years, one service fraction (as defined by paragraph two of subdivision d of section 13-154 of this chapter) of his or her final compensation (as defined in subdivision nine of section 13-101 of this chapter) multiplied by the number of years of his or her allowable service, plus the amount produced by multiplying one-half of one service fraction of his or her final compensation (as defined in such subdivision nine) by the number of his or her years of allowable sanitation service rendered after July second, nineteen hundred sixty-five.

(2) For the purpose only of determining the pension portion of such retirement allowance pursuant to subparagraphs (a) and (b) of paragraph one of this subdivision, the annuity referred to in such subparagraph (a) shall be computed as it would be (i) if it were not reduced by the actuarial equivalent of any outstanding loan, (ii) if it were not increased by the actuarial equivalent of any additional contributions, (iii) if it were not reduced by reason of the member's election to decrease his or her annuity contributions in order to apply the amount of such reduction in payment of his or her contributions for old-age and survivors insurance coverage and (iv) as it would be without any optional modification.

d. Regular interest on the accumulated deductions of a discontinued sanitation member and on his or her reserve-for-increased-take-home-pay shall be credited after discontinuance of sanitation service at the rate which would be applicable if he or she had not discontinued service.

e. If a discontinued sanitation member dies before the earliest date on which such discontinued sanitation member could have retired for service as a sanitation member if discontinuance had not occurred, his or her accumulated deductions shall be paid (1) to the beneficiary designated by him or her pursuant to section 13-148 of this chapter to receive his or her accumulated deductions in the event that such deductions become payable under such section, or (2) if such member has made no such designation, to his or her estate.

f. A discontinued sanitation member may elect any option under section 13-177 of this chapter at any time prior to the first payment of his or her retirement allowance under this section.

g. Withdrawal of accumulated deductions, in whole or in part, after discontinuance of city-service, shall terminate the right to a deferred retirement allowance under this section.

h. If a discontinued sanitation member who has not withdrawn his or her accumulated deductions in whole or in

part shall subsequently re-enter city-service before the earliest date on which such discontinued sanitation member could have retired for service as a sanitation member if discontinuance had not occurred:

(i) he or she shall be credited with regular interest on his or her accumulated deductions and his or her reserve-for-increased-take-home-pay from the time of such discontinuance to the time of his or her re-entry into service, at the rate which would have been applicable if he or she had not discontinued sanitation service; and

(ii) if such re-entry into city-service is in a position in the uniformed force of the department of sanitation, he or she shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her discontinuance of sanitation service; and

(iii) if such re-entry into city-service is in a position which is not in the uniformed force of the department of sanitation, he or she shall be entitled to the service credit and status to which he or she was entitled immediately prior to his or her discontinuance of sanitation service, subject to and not inconsistent with the provisions of law governing the new retirement plan of which he or she becomes a member upon such re-entry into city-service.

i. (1) If a discontinued sanitation member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently and on or after the earliest date on which such discontinued sanitation member could have retired for service as a sanitation member if discontinuance had not occurred, re-enter service in the uniformed force of the department of sanitation, the payment of his or her pension only shall be suspended and forfeited during the period of such service, except as herein otherwise provided.

(2) Such member may again become a member of the retirement system if, within ninety days after his or her return to such service, he or she files a duly executed and acknowledged application for such membership.

(3) If such beneficiary shall again become a member of the retirement system, the payment of his or her annuity shall also be suspended and forfeited and his or her annuity reserve shall be transferred to his or her credit in the annuity savings fund and he or she shall become such member as a new entrant, subject to the rights of such beneficiary under subdivision b of section six hundred fourteen of the retirement and social security law; provided, however, that he or she shall contribute to the retirement system at the rate (before modification, if any, to which such member may be entitled under any program for increased-take-home-pay) at which he or she would have been contributing if he or she had not discontinued sanitation service. Upon his or her subsequent retirement as a sanitation member, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership and he or she shall receive therefor a retirement allowance, payable in such form as he or she shall select under section 13-177 of this chapter, consisting of:

(i) an annuity which is the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

(ii) a pension equal to the amount produced by multiplying one per centum of his or her final compensation (as defined in subdivision nine of section 13-101 of this chapter) by the number of his or her years of allowable service credited to him or her from such date of re-entry; and

(iii) a pension equal to the amount produced by multiplying one-half of one per centum of his or her final compensation (as defined in such subdivision nine) by the number of his or her years of allowable sanitation service rendered by him or her from such date of re-entry; and

(iv) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may be entitled, if any, for the period of his or her allowable sanitation service rendered by him or her from such date of re-entry.

(4) In addition, upon his or her subsequent retirement, he or she shall receive the pension which he or she was

receiving or entitled to receive immediately prior to his or her last restoration.

(5) In lieu of suspension, during restoration to city-service as a sanitation member, of any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension, any such beneficiary may pay to the fund or funds from which his or her ordinary pension was payable, the amount by which his or her ordinary pension exceeded the optional pension heretofore granted to him or her, in which event such optional benefit shall continue and be payable in the event of his or her death as though no payment was suspended.

j. If a discontinued sanitation member who has not withdrawn his or her accumulated deductions in whole or in part shall subsequently and on or after the earliest date on which such discontinued sanitation member could have retired for service as a sanitation member if discontinuance had not occurred, re-enter city-service in a position other than a position in the uniformed force of the department of sanitation, the rights, privileges and benefits of such re-entered beneficiary shall be as provided for in section 13-178 of this chapter, provided, however, that if such a re-entered beneficiary, upon re-entering city-service, becomes a member of the uniformed transit police force and a transit police member or becomes a member of the housing police service and a housing police member, or becomes a member of the uniformed correction force and a correction member, his or her rights, privileges and benefits shall be as prescribed by applicable provisions of law in a case where a discontinued member of the same force re-enters city-service in the same force after his or her retirement allowance as a discontinued member has become payable and again becomes a member of a retirement plan provided by sections 13-155, 13-156 and 13-157 of this chapter for such force.

k. As used in this section, the following terms shall have the following meanings:

(1) "Sanitation service." Service in the uniformed force of the department of sanitation, as such force is defined in subdivision sixtytwo of section 13-101 of this chapter and such term shall not include service credit acquired by transfer or otherwise under any provision of law; provided, however, that such term shall include service credited to a sanitation member for retirement and pension purposes pursuant to section 13-153 of this chapter.

(2) "Discontinued sanitation member." A sanitation member who has discontinued sanitation service and has a vested right to a deferred retirement allowance under this section.

l. Notwithstanding any other provision of law, a discontinued member with ten or more years of credited service in the retirement system who dies before a retirement benefit becomes payable and who is otherwise not entitled to a death benefit from the retirement system shall be deemed to have died on the last day that he or she was in service upon which his or her membership was based for purposes of eligibility for the payment of a death benefit pursuant to the provisions of section 13-148 of this title. The death benefit payable in such case shall be one-half of that which would have been payable had such member died on the last day that service was rendered.

m. Nothing contained in this section shall be construed as making article eleven of the retirement and social security law inapplicable to the entitlement and rights, under this section, of any member or beneficiary who is subject to the provisions of such article eleven.

**DERIVATION**

Formerly § B3-42.2 added chap 1003/1984 § 1

**CASE NOTES**

¶ 1. Two NY City sanitation workers were effectively discharged, for the purpose of determining the vesting of a deferred retirement allowance under the Admin. Code § 13-173.1 on the date when the government serves a copy of the Administrative decision in the manner required to commence the time running for an Administrative appeal. Barbaro v. NYC Employees' Retirement System, 147 Misc. 2d 226.

¶ 2. There is no legislative requirement for notice affecting the effective date of discharge for purposes of determining whether a pension has vested under Admin. Code § 13-173.1 Waldeck v. NYC Ret Sys, 81 NY2d 804 [1992]; Waldeck v. NYC ret sys, 181 AD2d 412 Affirmed; Barbaro v. NYC ret sys, 181 AD2d 437 Affirmed.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-174*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-174 Retirement allowances; for ordinary disability.

a. Upon retirement for ordinary disability, a member shall receive a retirement allowance which shall consist of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions, if any, at the time of his or her retirement; and

2. A pension which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any, and

3. A pension, which, together with his or her annuity, if any, and the pension-providing-for-increased-take-home-pay, if any, shall be equal to

a. the retirement allowance that would be payable to him or her after a like amount of total-service and final compensation had he or she attained his or her minimum age for service retirement if such retirement allowance exceeds one-quarter of his or her final compensation; otherwise,

b. one-quarter of his or her final compensation.

b. (1) Notwithstanding the provisions of subdivision a of this section, a member who is a sanitation man when retired for ordinary disability, shall, except as otherwise provided in subdivision c of this section, receive, in lieu of any other retirement allowance for such disability, a retirement allowance which shall consist of:

a. An annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or

her retirement; and

b. A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

c. A pension which, together with his or her annuity and the pension-providing-for-increased-take-home-pay, if any, shall be, subject to the provisions of paragraph two of this subdivision b, equal to two per cent of his or her final compensation multiplied by the number of years of allowable service credited to him or her at the time of such retirement.

(2) The pension provided for by subparagraph c of paragraph one of this subdivision b shall in no event be less than an amount which, together with the annuity and pension-providing-for-increased-take-home-pay, if any, of such member, shall equal one-fourth of his or her final compensation.

c. Notwithstanding any other provisions of this chapter to the contrary, upon retirement for ordinary disability, a career pension plan member or a fifty-five-year-increased-service-fraction member shall receive a retirement allowance which shall consist of:

(1) an annuity which shall be the actuarial equivalent of his or her accumulated deductions; and

(2) a pension-providing-for-increased-take-home-pay which is the actuarial equivalent of his or her reserve-for-increased-take-home-pay; and

(3) (a) subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, a pension which shall be equal to the product obtained by multiplying the number of years of such member's allowable service rendered prior to July first, nineteen hundred sixty-eight, by one and two-tenths per centum of such member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement, unless such pension is required to be determined pursuant to subparagraph (b) of this paragraph three;

(b) if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of his or her three-year-average compensation, such pension shall instead be equal to the product obtained by multiplying the number of such years of allowable service by one and two-tenths per centum of such member's three-year-average compensation; and

(4) (a) subject to the provisions of paragraph two of subdivision e of section 13-638.4 of this title, a pension which shall be equal to the product obtained by multiplying the number of years of such member's allowable service rendered after June thirtieth, nineteen hundred sixty-eight by one and fifty-three one-hundredths per centum of such member's salary or compensation earnable by him or her for city-service in the year prior to his or her retirement, unless such pension is required to be determined pursuant to subparagraph (b) of this paragraph four;

(b) if such member shall elect, pursuant to subdivision fifty-eight of section 13-101 of this chapter, that such pension be computed on the basis of this three-year-average compensation, such pension shall instead be equal to the product obtained by multiplying the number of such years of allowable service by one and fifty-three one-hundredths per centum of such member's three-year-average compensation.

c. Notwithstanding the provisions of subdivisions a and b of this section, a member who, when retired for ordinary disability, is a sanitation member and has completed at least five years of allowable service as a sanitation member, shall receive, in lieu of any lesser retirement allowance for such disability, a retirement allowance which shall consist of:

(1) An annuity which is the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

(2) A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

(3) A pension which, together with his or her annuity and pension-providing-for-increased-take-home-pay, if any, shall equal a retirement allowance consisting of:

(a) one-third of his or her annual salary or compensation when so retired, in any case where the years of allowable service credited to him or her as a sanitation member are less than ten; or

(b) one-half of his or her annual salary or compensation when so retired, in any case where the years of allowable service credited to him or her as a sanitation member equal or exceed ten.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-175 Retirement allowances; for accident disability.

a. Upon retirement for accident disability, a member shall receive a retirement allowance which shall consist of:

1. An annuity, which shall be the actuarial equivalent of his or her accumulated deductions, if any, at the time of his or her retirement; and

2. A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. A pension of three-quarters of his or her final compensation, in addition to the annuity, if any, and pension, if any, provided for by paragraphs one and two of this subdivision a.

b. Notwithstanding the provisions of subdivision a of this section, a sanitation member, when retired for accident disability, shall receive, in lieu of the retirement allowance provided for by subdivision a of this section, a retirement allowance consisting of:

1. An annuity which shall be the actuarial equivalent of his or her accumulated deductions at the time of his or her retirement; and

2. A pension-providing-for-increased-take-home-pay which is the actuarial equivalent of the reserve-for-increased-take-home-pay to which he or she may then be entitled, if any; and

3. A pension equal to three-fourths of his or her annual salary or compensation when so retired; and

4. If such member is eligible to retire for service when so retired, then in addition to the annuity, pension-providing-for-increased-take-home-pay and pension provided for in paragraphs one, two and three of this subdivision b:

(a) A pension equal to one per cent of his or her average annual compensation or salary from the date of eligibility for service retirement to the date of his or her retirement for accident disability, multiplied by the number of years of city-service credited to him or her in excess of the number of such years credited as of the date of his or her eligibility for service retirement; and

(b) For city-service rendered by him or her as a sanitation member both after eligibility for service retirement and on and after July first, nineteen hundred sixty-seven, which is credited to him or her, a pension equal to one-half per cent of his or her average annual compensation or salary from the date of eligibility for service retirement to the date of his or her retirement for accident disability, multiplied by the number of such years of city-service rendered as a sanitation member both after eligibility for service retirement and after July first, nineteen hundred sixty-seven.

*NYC Administrative Code 13-176*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-176 Retirement allowances; restrictions on.

a. If a lump sum which has been paid or which is payable under the provisions of the workers' compensation law equals or exceeds the present value of all amounts otherwise payable out of moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this chapter. If such lump sum be a percentage less than one hundred per cent of the present value of all such amounts, there shall be paid as it becomes due under the provisions of this chapter, in lieu of each amount otherwise payable, an amount equal to the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

b. If an amount which is payable throughout a period under the provisions of the workers' compensation law equals or exceeds the amounts otherwise payable during the same period out of the moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, no payment shall be made to such person under the provisions of this chapter during such period nor thereafter, until the total amount of such omitted payments, together with the regular interest which they would have accumulated, equals the amount paid under the workers' compensation law, together with the regular interest which it would have accumulated. If an amount which is payable throughout a period under the provisions of the workers' compensation law be a percentage less than one hundred per cent of the amounts otherwise payable during the same period out of moneys provided or to be provided by the city under the provisions of this chapter on account of the same disability of the same person, there shall be paid during such period as it becomes due under the provisions of this chapter, in lieu of each amount otherwise payable, the percentage thereof which is the difference between such lesser per cent and one hundred per cent.

c. No decision of the workers' compensation board shall be binding on the medical board or on the board of

estimate in the determination of eligibility of a claimant for an accident disability or an accidental death benefit.

d. Notwithstanding any of the foregoing provisions of this section or any other law to the contrary, pending the final determination of a claim for workers' compensation benefits, the board may authorize payment of all or any part of the benefits which are payable under this title and to which any of the foregoing provisions of this section apply, and in that event the retirement system shall be entitled to reimbursement out of the unpaid installment or installments of compensation due under the workers' compensation law provided that claim therefor is filed with the workers' compensation board, together with proof of the fact and amount of payment.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B3-45.0 added chap 929/1937 § 1

Sub d added chap 1007/1972 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. Whether petitioner's disability was a natural and proximate result of an accident incurred in the line of his duty was for the medical board to determine, and its determination could not be disturbed merely because a court might arrive at a different conclusion (Admin. Code § B3-45.0c).-In re Kelly (Board of Estimate of N.Y.C.), 108 (131) N.Y.L.J. (12-7-42) 1782, Col. 4 F.

¶ 2. In granting widow's application for pension benefits in an accidental death case involving a city employee, trustees of the N.Y.C. Employees' Retirement System, **held** properly to have deducted therefrom as an offset the amounts paid and to be paid by the City as a self-insurer pursuant to an award of the Workmen's Compensation Board made by reason of such accidental death, and in such deduction to have included the amounts payable on account of an infant daughter and deceased dependent father as well as to the widow.-Ferraiolo v. O'Dwyer, 302 N.Y. 371, 98 N.E. 2d 563 [1951].

¶ 3. The widow of a deceased City employee entitled to receive an accidental death pension was entitled to receive only one-half of the final compensation of her deceased husband less any amounts payable on any award made under the Workmen's Compensation Law. Widow's contention that compensation benefits were not deductible from the accidental death pension was rejected.-Matter of Daley, 298 N.Y. 890, 84 N.E. 2d 805 [1949].

¶ 4. This section does not require an injured employee to invoke or exhaust his workmen's compensation remedy; especially where the employee had tried without success on three separate occasions to get compensation for the injury.-Matter of Lewis (Board of Estimate), 142 (123) N.Y.L.J. (12-28-59) 6, Col. 3 F.

¶ 5. Petitioner was not entitled to a lump sum payment in lieu of terminal leave where petitioner failed to keep adequate time records until the last year of his service as required by the applicable regulations.-Matter of Goldberg (Dudley) 176 (27) N.Y.L.J. (8-9-76) 8, Col. 5 T.

¶ 6. The New York City Employees' Retirement System is not bound by a determination of the Workers' Compensation Board that found the surgery of petitioner to have been caused by a specific accident.-Belton v. Herkommer, 84 App. Div. 2d 713 [1981].

**CASE NOTES**

¶ 1. No decision of Workers' Compensation Board binding in determination of eligibility for accident disability.

See § 13-168, case note ¶ 1.

*NYC Administrative Code 13-177*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-177 Retirement; options in which retirement allowances may be taken.

Until the first payment on account of any benefit is made, the beneficiary, or, if such beneficiary is an incompetent, then the husband or wife of such beneficiary or, if there be no husband or wife, a committee of the estate, may elect to receive such benefit in a retirement allowance payable throughout life, or the beneficiary or the husband or wife or committee so electing may then elect to receive the actuarial equivalent at that time of his or her annuity, if any, his or her pension, or his or her retirement allowance in a lesser annuity, if any, or a lesser pension or a lesser retirement allowance, payable throughout life with the provision that:

Option 1. a. If he or she die before he or she has received in payments the present value of his or her annuity, if any, his or her pension, or his or her retirement allowance, as it was at the time of his or her retirement, the balance shall be paid, in the form of a lump sum or the actuarial equivalent in the form of an annuity, to his or her legal representatives or to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board.

b. A retired member, or upon the death of a retired member, the person nominated by him or her as his or her beneficiary, may provide by written designation duly executed and filed with such board that the actuarial equivalent of a benefit otherwise payable in a lump sum shall be paid to the person designated in the form of an annuity payable in installments not more than once a month.

Option 2. Upon his or her death, his or her annuity, if any, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the

time of his or her retirement.

Option 3. Upon his or her death, one-half of his or her annuity, if any, his or her pension, or his or her retirement allowance, shall be continued throughout the life of and paid to such person as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate by written designation duly acknowledged and filed with the board at the time of his or her retirement.

Option 4. Upon his or her death, some other benefit or benefits shall be paid to such other person or persons as the beneficiary, or the husband or wife or committee so electing, has nominated or shall nominate, provided such other benefit or benefits, together with such lesser annuity, if any, or lesser pension, or lesser retirement allowance, shall be certified by the actuary of the board to be of equivalent actuarial value to his or her annuity, if any, his or her pension or his or her retirement allowance, and shall be approved by such board.

For purposes of this section, the words "pension" and "retirement allowance" shall be deemed to include the pension-providing-for-increased-take-home-pay, if any.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B3-46.0 added chap 929/1937 § 1

Amended chap 509/1960 § 23

Option 1 amended chap 945/1962 § 1

Amended chap 870/1970 § 18

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under provisions of Greater New York Charter § 1700 et seq., whereby under a certain option the nominee of a member of the City Employees' Retirement System was entitled to receive, upon death of the beneficiary before retirement, the total amount, with interest, which had been deducted from the beneficiary's salary for retirement purposes, together with an amount equal to a year's salary, the amount consisting of the beneficiary's salary deductions plus interest, received by beneficiary's widow as his nominee upon his death prior to retirement, **held** not to be insurance, but to be the result of a transfer made to take effect at or after decedent's death, and hence such amounts were subject to the federal estate tax as part of the gross estate of the deceased beneficiary. However, the amount equivalent to a year's salary was properly treated as insurance.-Kernochan v. United States, 29 F. Supp. 860 [1939].

¶ 2. Upon his retirement from employment by the City of New York in 1947, the decedent pursuant to the statute which is now § B3-46.0 made an irrevocable election of "Option 3". Under this option decedent received a lesser annuity during his life than under other options he could have selected but under that option his wife, if she survived him would also receive an annuity for her life. The decedent predeceased his widow. **Held:** the value of the widow's annuity was a transfer intended to take effect at death and was subject to the estate tax. The taxation of this annuity was not prohibited by Article XVI, section 5 of the State Constitution. The value of the annuity was correctly determined by the use of actuarial tables based upon the fact of survivorship and the age of the widow.-Matter of Endemann, 307 N.Y. 100, 120 N.E. 2d 514 [1954], modifying 282 App. Div. 768, 122 N.Y.S. 2d [1953].

¶ 3. Retired City employee who selected optional method of payment of her pension whereby she received less annually during her life and upon her death the unexpended balance was payable to a designated beneficiary, effected a transfer at death, so as to require the unexpended balance to be included in her estate.-In re Boyd's Estate, 139 N.Y.S.

2d 443 [1954].

¶ 4. A City employee who elects to retire at a time when he is entitled to retirement benefits is not compelled to make any election as to the disposition of the fund on hand; if he does not do so the rules determine the amount due him and it will be payable to his estate and disbursed to next of kin and creditors.-Callahan v. Mooney, 190 Misc. 736, 72 N.Y.S. 2d 924 [1947].

¶ 5. That the application under "option 1" was mailed by the petitioner did not preclude the obtaining by her of the benefits of the option if the application was received by the board during the lifetime of the applicant, since the requirement of the statute is merely that the written application, duly acknowledged, be filed with the board (distinguishing-247 App. Div. 111; 255 N.Y. 364; 249 N.Y. 414).-Farmer v. N.Y. Employees' Retirement System, 100 (115) N.Y.L.J. (11-17-38) 1670, Col. 6 F.

¶ 6. Where plaintiff member of City Employees' Retirement System, upon his attainment of the constitutional age limit of 70 years, had retired and filed a selection of Option Four benefits but 26 days prior to receipt of his first payment thereunder and four days prior to resolution of Board of Estimate granting plaintiff his selection of Option Four he had written to the secretary of the Retirement System asking that action on his application for retirement be deferred as his wife was seriously ill and if she failed to recover he wished to change his selection of option, such request of the plaintiff should not have been ignored, and upon the subsequent death of his wife plaintiff would be permitted to have the sum payable annually to his wife if she survived him added to the sum payable as a death benefit. As the allowance of benefits under Option Four was discretionary with the Board of Estimate the plaintiff's selection was not irrevocable before the Board had acted upon it.-Hetherington v. La Guardia, 186 Misc. 316, 59 N.Y.S. 2d 218 [1945], reversed, 272 App. Div. 919, 70 N.Y.S. 2d 845 [1947] on ground that fact that plaintiff was not aware of his wife's condition at time of making the selection for her was no basis for setting aside option selected, and that there was no unjust enrichment on part of defendants. Plaintiff's letter was deemed a request for deferment of action by the Board of Estimate, and not a cancellation of the option selected nor a request for a change in the option which was selected.

¶ 7. Plaintiff's acceptance without protest of the benefits payable as provided in the resolution of the Board of Estimate did not constitute an accord and satisfaction and a waiver of all rights to a change of option, where the amount of his reserve entitled him to maximum annual retirement allowance in a sum about $5000 per year in excess of that which he received.-Id.

¶ 8. Failure of plaintiff to institute the action for a period of two years did not constitute laches in the absence of any injury, change of position or other disadvantage resulting from the delay.-Id.

¶ 9. Where decedent-employee had filed on September 15, 1952 an application for retirement effective December 1, 1952, on September 15 and on October 23, 1952 he filed a selection of benefits under Option 4, on November 20, 1952 the Board of Estimate retired him as of December 1, 1952, subject to the fixation of the amount of his retirement allowance, on January 27, 1953 decedent died without having received any retirement payments and seven months after his death the Board of Estimate fixed his retirement allowance and under Option 4 awarded the lump sum of $500 to his sister, such resolution fixing the retirement allowance was annulled, as the selection made by decedent was merely in the nature of a continuing offer subject to withdrawal at any time prior to acceptance, and death operated to revoke such offer. Hence, in view of the absence of an effective optional selection and a first payment on account of the retirement benefit, defendants were required to process petitioner's claim under subd. b of § B3-32.0.-Wank v. Board of Estimate, 131 (55) N.Y.L.J. (3-23-54) 7, Col. 1. T.

¶ 10. Plaintiff who as a member of the New York City Employees' Retirement System applied for retirement to take effect April 22, 1952 and on March 19, 1952 had selected the benefits under Option 2 of Admin. Code § B3-46.0, with the retirement being approved on May 31, 1952, **held** entitled on May 31, 1952, prior to receipt of any payment in connection with the retirement allowance, to revoke his selection under Option 2 and in lieu thereof elect Option 1.-Kruger v. New York City Employees' Retirement System, 130 (77) N.Y.L.J. (10-19-53) 793, Col. 6 M.

¶ 11. An employee, having selected Option 2 and retired, could still change her selection to Option 1 prior to the date of the first payment.-In re Jaslow (New York City Employees' Retirement System), 9 Misc. 2d 754, 167 N.Y.S. 2d 721 [1957], aff'd 6 A.D. 2d 1010, 178 N.Y.S. 2d 612 [1958], aff'd 7 N.Y. 2d 858, 196 N.Y.S. 2d 993, 164 N.E. 2d 865 [1959].

¶ 12. Where an employee's widow, his named beneficiary, died before receiving any payments, her administrator had no right to change the option selected.-McManus v. New York City Employees' Retirement System, 135 (18) N.Y.L.J. (1-26-56) 7, Col. 3 F.

¶ 13. Where decedent elected "Option 1" upon retirement, under which he would receive monthly payments for life and any balance in his retirement account would go to his designees, three uncashed checks received by him prior to death did not constitute payment. The balance in his account was not part of his estate but belonged to his designees, but the three uncashed checks were part of his testamentary estate.-Connolly v. Connolly, 9 N.Y. 2d 272, 213 N.Y.S. 2d 438, 173 N.E. 2d 874 [1961].

¶ 14. Widow and administratrix of deceased employee of the Department of Sanitation who had been retired for ordinary disability prior to his minimum retirement age after request therefor by the Commissioner of Sanitation and a finding that he was physically disabled from performing his duties, **held** not to have established that decedent was insane at time of his retirement and selection of his option, or that delusions induced his acceptance of the benefits of retirement in preference to a withdrawal of his accumulations. The proof was insufficient to establish any connection between defendant's alleged incompetency the year before his acceptance of the benefits under the Code, and he appeared not to have believed death was imminent.-Di Roberto v. N.Y. City Retirement System, 128 (45) N.Y.L.J. (9-3-52) 363, Col. 7 F.

¶ 15. Evidence **held** insufficient to establish that the deceased's sister had exerted any undue influence or fraud upon decedent in inducing him to name her, as equal beneficiary with his wife, of his pension under the City Employees' Retirement System.-Cassidy v. Cassidy, 129 (59) N.Y.L.J. (3-27-53) 1030, Col. 7 F.

¶ 16. Widow of retired City employee, charging that his designation of defendant as his beneficiary under a retirement system option was procured by defendant's fraud and coercion might sue to declare the designation invalid, as in the absence of a valid designation the retirement benefits became assets of the husband's estate, collectible by the administrator and disbursable by him to the next of kin, subject to payment of debts, and his widow would be entitled to share in the estate and moreover would be presumptively entitled to all of the money as she was allegedly the assignee of the rights of the other next of kin who would benefit. The remedy was not limited to an action by the administrator of the husband's estate.-Callahan v. Mooney, 190 Misc. 736, 72 N.Y.S. 2d 924 [1947].

¶ 17. Where deceased, upon his retirement as justice of the Municipal Court, had elected pursuant to Greater New York Charter § 1720 to receive an annual retirement allowance consisting of an annuity and an annual pension but upon day of his retirement he had been appointed an Official Referee and had continued to act in such capacity until his death, with no part of his retirement allowance being paid him in the meantime, deceased, under § 1560 of the Greater New York Charter prohibiting pensioners from holding office, **held** to have forfeited, during his term in office as Official Referee, that portion of his retirement allowance falling within classification of a pension. However, deceased's estate was entitled to recover from the trustees of the Retirement System the value of the annuity, including payments the right to which accrued more than six years prior to commencement of the present proceeding, since the Retirement System occupied a relationship to the retired member akin to that of a depositary, and Statute of Limitations did not commence to run until demand was made for payment.-In re Furgueson (La Guardia), 171 Misc. 270, 11 N.Y.S. 2d 598 [1939], aff'd to extent appealed from 257 App. Div. 1048, 13 N.Y.S. 2d 647 [1939], aff'd 281 N.Y. 678, 23 N.E. 2d 14 [1939].

¶ 18. Where decedent died without filing an application for presumed retirement and failed to designate a beneficiary of "death gamble benefits" pursuant to this section, benefits consisting of accumulated deductions plus

accumulated contributions made by City were payable to legal representative and not named beneficiary of ordinary death benefits. Iaquinta v. Iaquinta, 51 Misc. 2d 492, 273 N.Y.S. 2d 358 [1966], aff'd 279 N.Y.S. 2d 150 [1967].

¶ 19. A "first payment on account" precluding an election to take under Option 1 was made where a check had been mailed on August 25, 1969 on account of the retirement allowance to the retiree who had left the country on August 12th and died on September 2nd even though the check was never cashed and not actually received by the retiree.-O'Connor v. N.Y. City Employees' Retirement System, 42 A.D. 2d 70, 345 N.Y.S. 2d 33 [1973].

¶ 20. Where petitioner's husband had applied for retirement nearly two years before retirement system mailed check and he died after check was mailed but before it reached him he died before "first payment" was made and hence was entitled to a death benefit in a lump sum under option 1a.-Guzman v. N.Y.C. Employees' Retirement System, 56 A.D. 2d 823 [1977], aff'd 45 N.Y. 2d 186 [1978].

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-177.1 Modified Option 1 pension computation formula.

a. The board may by resolution direct that under such circumstances as are designated in such resolution, benefits under Option 1 which consist of or are derived from the pension component of a retirement allowance and which are payable to or on account of Tier I members who:

(1) became members prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this section; and

(2) retired or retire, on or after August first, nineteen hundred eighty-three, for service or superannuation or for ordinary or accident disability or pursuant to section 13-150 of the code, or on or after such August first, discontinued or discontinue service so as to become discontinued members or discontinued sanitation members; shall be determined under the modified Option 1 pension computation formula (as defined in subdivision seventy-seven of section 13-101 of the code).

b. If the board makes a direction, pursuant to the provisions of subdivision a of this section, for use of such formula, it may also direct by resolution:

(1) that any member who is subject to the modified Option 1 pension computation formula may elect, at such time and in accordance with such procedures as are prescribed in such resolution, that such formula shall not apply to such member and that the initial reserve determined for the purpose of providing the benefits payable by reason of his or her selection of Option 1 and the pension component of his or her Option 1 retirement allowance shall be determined on the basis of gender-neutral mortality tables and regular interest of seven per centum per annum, compounded annually;

and

(2) that the benefit payable, upon the death of the member making such election, to his or her beneficiary or estate shall be the difference between such Option 1 initial reserve and the total of the payments of such pension component received by or payable to such member for the period prior to his or her death; and

(3) that if such Option 1 beneficiary's benefit is payable to such beneficiary in the form of an annuity payable in installments, such annuity shall be determined to be the greatest of three annuities computed for such beneficiary in accordance with the methods of computation set forth in subparagraph (ii) of paragraph (e) of subdivision seventy-seven of section 13-101 of the code; and

(4) that where any member subject to the modified Option 1 pension computation formula retired before the effective date of a board resolution adopted pursuant to subdivision a of this section, and where first payment on account of the retirement allowance of a discontinued member or discontinued sanitation member who is subject to such formula was made before the effective date of such resolution, such retiree or discontinued member or discontinued sanitation member, within such period of time after such effective date and in accordance with such procedures as are prescribed in such resolution, may elect the method of Option 1 benefit determination set forth in the preceding paragraphs of this subdivision b.

c. In any case where, pursuant to board resolution, a benefit is required to be determined under the modified Option 1 pension computation formula and the determination of such benefit is also required by a board resolution adopted pursuant to sub-item (3) of item (A) of subparagraph (ii) of paragraph (g) of subdivision twelve of section 13-101 of the code to reflect different computations of separate portions of such benefit, the methods of computation under the modified Option 1 pension computation formula shall be appropriately adjusted so as to give effect to the provisions of such resolution adopted pursuant to such sub-item (3).

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-178 Benefits upon re-entry into membership; after retirement.

a. (1) Should a beneficiary receiving or entitled to receive a retirement allowance under the provisions of section 13-150 of this chapter, or under sections 13-166, 13-151, 13-154, 13-159, 13-160, 13-161, 13-162, 13-164 and 13-178 of this chapter, or a beneficiary whose retirement allowance under section 13-173 of this chapter has become payable pursuant to subdivision b of such section, re-enter city-service, the payment of his or her pension, his or her additional or further pension and his or her pension-providing-for-increased-take-home-pay, if any, only shall be suspended and forfeited during the period of such city-service except as herein otherwise provided. If he or she is under his or her minimum service retirement age, he or she shall again become a member of the retirement system.

(2) If:

(a) he or she has attained his or her minimum service retirement age but has not attained the age of seventy years and his or her mandatory retirement age, if he or she became a member, would be prescribed by subdivision one of section 13-166 of this chapter; or

(b) his or her re-entry into service occurred on or after July first, nineteen hundred sixty-eight and he or she has attained his or her minimum service retirement age but has not attained the mandatory retirement age of sixty-five or seventy years, as the case may be, which would be applicable to him or her under subdivision three of such section 13-166 of this chapter if he or she became a member; or

(c) if he or she be, or become, an official referee after attaining the age of seventy years; he may file a duly executed and acknowledged application therefor within ninety days after his or her return to service or in the case of an

official referee, at any time after his or her return to service, and thereupon again become a member of such system.

(3) (a) Upon the re-entry into membership of any beneficiary, the payment of his or her annuity, if any, shall also be suspended and forfeited and the annuity reserve, if any, of such member shall be transferred to his or her credit in the annuity savings fund. Any such beneficiary shall contribute to such fund as if he or she were a new entrant; provided however, that if, upon such re-entry, he or she became a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) who, pursuant to subdivision 1 of section 13-161 of this chapter is relieved of making contributions, he or she shall be a new-entrant but shall be relieved of making contributions so long as he or she is entitled to be so relieved pursuant to such subdivision l. Any discontinued member who has attained the age of fifty-five years and who re-enters into membership at a time when his or her retirement allowance under section 13-173 of this chapter has not become payable, shall also contribute to such fund as if he or she were a new entrant.

(b) Upon the subsequent retirement of any such member who was such a beneficiary or discontinued member, he or she shall be credited with all his or her service as a member subsequent to his or her last restoration to membership, and shall receive a retirement allowance therefor as if he or she were a new entrant, payable in such form as he or she shall select under section 13-177 of this chapter.

(4) In addition, upon the subsequent retirement of any such beneficiary mentioned in paragraph three of this subdivision a, he or she shall receive the pension, the additional or further pension and the pension-providing-for-increased-take-home-pay, if any, which he or she was receiving or entitled to receive immediately prior to his or her last restoration.

(5) If any such discontinued member mentioned in paragraph three of this subdivision a, whose retirement allowance under section 13-173 of this chapter was not payable at the time of his or her re-entry into membership, shall, after such re-entry, file an application for payment of such retirement allowance pursuant to such section 13-173 of this chapter, he or she shall, upon his or her subsequent retirement, be entitled to receive such retirement allowance, in addition to any retirement allowance to which he or she may be entitled under the provisions of paragraph three of this subdivision a.

(6) (i) Subject to the provisions of subparagraph (ii) of this paragraph six, where any beneficiary mentioned in paragraph one of this subdivision a shall have earned at least three years of member service credit after restoration to active service, the total service credit to which he or she was entitled at the time of his or her earlier retirement may, at his or her election, again be credited to him or her and upon his or her subsequent retirement he or she shall be credited in addition with all member service earned by him or her subsequent to his or her last restoration to membership.

(ii) Such total-service credit to which he or she was entitled at the time of his or her earlier retirement shall be credited as provided in subparagraph one of this paragraph six only in the event that he or she returns to the retirement system with regular interest the actuarial equivalent of the amount of the retirement allowance he or she received; provided, however, that in the event that such amount is not so repaid, the actuarial equivalent thereof shall be deducted from his or her subsequent retirement allowance.

b. Under this section or section eleven hundred seventeen of the charter, during restoration to city-service or service under the state of New York or any municipal corporation or political subdivision of the state, any benefits payable in the event of his or her death by reason of any optional selection in respect to his or her pension and his or her pension-for-increased-take-home-pay, if any, shall be suspended unless the beneficiary shall pay to the fund or funds from which his or her ordinary pension and his or her pension-for-increased-take-home-pay, if any, were payable, the amount by which his or her ordinary pension and his or her pension-for-increased-take-home-pay, if any, exceeded the optional pension and his or her pension-for-increased-take-home-pay, if any, theretofore granted to him or her. In the event of his or her death during any period covered by such contribution, such optional benefit shall be payable. The provisions of this subdivision b shall not apply to any such beneficiary to whom the provisions of subdivision four of

section 13-151 of this chapter are applicable.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where petitioner, upon his retirement in 1928 as a Municipal Court Justice, had availed himself of Option 2 under Greater New York Charter § 1720, and thereby became entitled to annual annuity and pension payments which, on his death, would be paid to his daughter, as named beneficiary, during her life, but on day of his retirement he had become an official referee, resulting in suspension of the pension part of his retirement allowance by virtue of § 1560 of such Charter, contention that the subsequent re-entry of the Justice into the Retirement System resulted in the relinquishment of his entire retirement allowance, including his own annuity payments and the benefits for his daughter, was overruled.-Matter of Marks, 286 N.Y. 625, 36 N.E. 2d 460 [1941].

¶ 2. It would be unconstitutional to apply the amendment to this section which lowered the maximum age at which a person could again become a member of the Retirement System upon reemployment by the city from 70 to 65 to petitioner who became a member of the N.Y.C. Employees' Retirement System in 1941 when this section provided that a member who had retired could again become a member of the Retirement System if he were reemployed by the city

before he was 70 and petitioner retired in 1955 but reentered city service in 1968 at the age of 67, 15 days after the amendment lowering the age of re-entry.-Donner v. N.Y.C. Employees' Retirement System, 33 N.Y. 2d 413, 308 N.E. 2d 896, 353 N.Y.S. 2d 428 [1974].

¶ 3. Where plaintiff who had instituted an article 78 proceeding in April 1976 directing defendants to allow him to retire as of January 1, 1976 after 25 years employment in a "physically taxing" position with the N.Y.C. Housing Authority which petition was granted in September 1976 and the judgment resettled so that his pension was based on his 1975 earnings, and plaintiff had continued to work during the period of litigation he could not recover pension benefits for January 1, 1976 to January 6, 1977 the period in which he was still employed even though he did not actually re-enter service since his continued employment must be viewed as if he had in fact retired on January 1, 1976 and then re-entered city service.-Viola v. N.Y.C. Housing Authority, 179 (121) N.Y.L.J. (6-23-78) 6, Col. 5 T.

¶ 4. A retired employee who re-enters city service and subsequently retires with an additional pension is not unconditionally entitled upon retirement to additional benefits enacted between his two periods of service and hence where employee had re-retired after only 4 years of employment he was not entitled to additional add-on benefits enacted between his two periods of services, the right to merge the two periods of service and to receive a pension based upon the combined periods of service being subject to the 5 year employment requirement.-Carroll v. N.Y.C. Employees' Retirement System, 101 Misc. 2d 938 [1979].

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-179 Benefits upon re-entry into membership; after disability.

a. (1) A disability beneficiary who has been or shall be reinstated to active service, as provided in section 13-171 of this chapter, at a compensation not less than the final compensation on the basis of which he or she was retired, shall from the date of such restoration again become a member of the retirement system.

(2) His or her retirement allowance shall thereupon be suspended, and, subject to the provisions of paragraph three of this subdivision a, he or she shall contribute to such system thereafter in the same manner and at the same rate as he or she paid prior to his or her disability retirement, subject to the provisions of section 13-152 of this chapter.

(3) In any case where any such beneficiary reinstated under the circumstances specified in paragraph one of this subdivision a, is reinstated as a transit twenty-year plan member (as defined in subdivision sixty-one of section 13-101 of this chapter) and he or she is relieved, pursuant to subdivision l of section 13-161 of this chapter, of making contributions, such member shall not be required to make contributions so long as he or she is entitled, under such subdivision l, to be relieved of making contributions.

b. A disability beneficiary who has been or shall be reinstated to active service as provided in section 13-171 of this chapter at a compensation less than the final compensation on the basis of which he or she was retired, or who has been otherwise re-employed in city-service at such a lesser compensation, may at his or her election again become a member of the retirement system, provided he or she waives the right to receive any disability retirement allowance during the entire period of such resumed membership.

c. When any disability beneficiary has again become a member of the retirement system pursuant to the

provisions of subdivision a or b of this section, any prior-service and member-service on the basis of which his or her service was computed at the time of his or her retirement shall be restored to full force and effect, and, in addition, upon his or her subsequent retirement, he or she shall be credited with all of his or her service as a member subsequent to his or her last restoration to membership.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-181 Exemption from tax, execution, etc.

The right of a person to a pension, a pension-providing-for-increased-take-home-pay, an annuity, or a retirement allowance, to the return of contributions, the pension, pension-providing-for-increased-take-home-pay, annuity, or retirement allowance itself, any optional benefit, any other right accrued or accruing to any person under the provisions of this chapter and the moneys in the various funds provided for by this chapter, are hereby exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment, or any other process whatsoever, and shall be unassignable except as in this chapter specifically provided.

Notwithstanding the foregoing provisions of this section, a retired member shall have the right, at any time after the retired member's retirement, to execute and file a dues deduction authorization card or an authorization in writing with the New York city employees' retirement system authorizing the deduction from the retired member's retirement allowance of membership dues or premiums for employee organization sponsored group insurance plans and the payment thereof to a retiree organization of which the retired member certifies he or she is then a member and which the retired member certifies is then affiliated with either an employee organization certified or recognized as the collective bargaining representative of all employees in the negotiating unit of which the retired member was a part prior to his retirement or an employee organization with which such employee organization is then affiliated. The comptroller shall thereafter deduct from the retirement allowance of such retired member the amount of membership dues required to be paid by such retired member or premiums for employee organization sponsored group insurance plans and shall transmit the sum so deducted to said retiree organization. Such authorization shall continue in effect until revoked in writing by such retired member. The board shall determine the cost of administering deductions for premiums for employee organization sponsored group insurance plans and the cost incurred by the retirement system and the

comptroller in administering the same shall be paid by the employee organization.

**HISTORICAL NOTE**

§ 13-184 Limitation on other statutes; application of chapter.

No other provision of law which provides wholly or partly at the expense of the city for pensions or retirement benefits for employees in the city-service, shall apply to such employees who become members or beneficiaries of the retirement system provided for by this chapter, their widows or their other dependents. This chapter shall not apply to any person who is, or may be, entitled to share in the police pension fund, or in the fire department relief fund, or in the teachers' retirement system, or in the Hunter College retirement system, or in the department of street cleaning relief and pension fund (except as provided in section 13-614 of this title), or in the board of education retirement system, by reason of service of such person as an employee under provisions of law applicable to such funds. Notwithstanding the foregoing provisions of this section, nothing therein contained shall prevent a member of this retirement system whose membership is authorized by subdivision three of section 13-104 of this chapter, upon his or her retirement from this retirement system, or his or her widow, dependents, or beneficiaries, upon his or her death, from receiving benefits from this retirement system, as well as benefits to which they may be entitled from any other retirement system or pension fund maintained by the city.

Title 13 Retirement and Pensions

CHAPTER 1 (IN PART) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-187 Retirement of members who are justices of the supreme court, judges of the surrogate's courts, judges of the civil court of the city of New York, judges of the criminal court of the city of New York, judges of the family court within the city of New York or officers or employees of any such court and who die while in service after becoming eligible for retirement.

Notwithstanding other provisions of this code, any rules or regulations adopted by the board, or any provisions of law to the contrary, a member, who is a justice of the supreme court, a judge of the surrogate's court, a judge of the civil court of the city of New York, a judge of the criminal court of the city of New York, a judge of the family court within the city of New York, or an officer or employee of any such court who is eligible for retirement by reason of service and/or superannuation, may execute and file with such board a written application for retirement in the form required for such application, electing an option or options in accordance with section 13-177 of this chapter but requesting that such retirement under said option or options shall become effective on the date immediately preceding his or her death. The application shall be held by such board until the member shall file a later application for retirement, or his or her retirement in pursuance of section 13-166 of this chapter shall become effective, or until his or her death, whichever of such events shall first occur; and in the event of such member's death while such application shall continue to be so held by such board, his or her said retirement shall become effective with the same benefits to the designated beneficiary as if such member had retired and had become entitled to retirement allowance on the day immediately preceding his or her death.

In the event that a member, who would be eligible for retirement by reason of service and/or superannuation, dies while in service before filing with such board an application for retirement in the form required for such application, or who, having filed an application for retirement in the form required, dies on or after the effective date of his or her

retirement but before becoming entitled to retirement allowance, he or she shall nevertheless be deemed to have been retired and to have become entitled to a retirement allowance effective on the day immediately preceding his or her death; and if he or she had not indicated his or her election of an option under which he or she desired to be retired, he or she shall be considered as having elected to retire under the option designated as option one of section 13-177 of this chapter.

If the beneficiary nominated should predecease the member prior to his or her retirement, the member may name a new beneficiary. If the member fails to nominate a new beneficiary or if the member has failed to file a form selecting an option under which he or she desires to be retired as provided by section 13-177 of this chapter, he or she shall be considered as having elected to retire under option one as set forth in section 13-177 of this chapter and the benefits payable hereunder shall be paid to the beneficiary nominated by the member under the provisions of section 13-148 of this chapter. Alternately, the beneficiary hereunder may elect to receive the ordinary death benefit provided by section 13-148 of this chapter.

The provisions of this section and the privileges accorded hereunder shall apply only in those cases where death occurs on or after July first, nineteen hundred sixty-three except that as to judges of the civil court of the city of New York, judges of the criminal court of the city of New York, judges of the family court within the city of New York and officers and employees of such courts they shall apply only in those cases where death occurs on or after July first, nineteen hundred sixty-four.

§ 13-188 Transferred contributors.

a. Any contributor who resigns his or her position to accept and who, within sixty days thereafter, does accept another position in the city-service shall continue to be a contributor while in such city-service and shall be known as a transferred-contributor provided he or she executes and files with the retirement board a statement in writing that he or she elects to leave with the annuity savings fund his or her accumulated deductions and to continue to contribute to such fund at a rate of salary deduction not less than the rate of deduction theretofore required from his or her salary, and further provided that he or she shall waive and renounce any present or prospective benefit from any other retirement system or association supported wholly or in part by the city. Where an election is made pursuant to the provisions of this section, the salary deductions required by such provisions shall be appropriately modified, if a rate of deduction is otherwise fixed, pursuant to section 13-152 of this chapter for the transferred-contributor making such election.

b. Notwithstanding the provisions of subdivision a of this section, any transferred-contributor who had been eligible to transfer to the New York city board of education retirement system on or after January first, nineteen hundred ninety shall be eligible to transfer to such system provided that he or she applies to transfer within ninety days of the effective date of this subdivision. Should such a transfer be effected, the member shall be deemed to have been a member of the New York city board of education retirement system since the commencement of his or her employment by the New York city board of education.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-191 Transit12 police officer's variable supplements fund.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Association". The New York city transit police patrolmen's benevolent association.

(b) "Variable supplements board". The board of trustees provided for in subdivision three of this section.

(c) "Beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after July first, nineteen hundred eighty-seven for service (with credit for twenty or more years of service toward the minimum period) as a transit police officer; provided, that no person who held a rank or position as a transit police superior officer, as defined in subdivision eighty-four of section 13-101 of this title who, on or after May first, nineteen hundred ninety-two, subsequently became a transit police officer shall be considered a beneficiary unless such person (1) subsequently performed at least three years of service as a transit police officer or (2) returned to service, from the position of sergeant, as a transit police officer during the eighteen month probationary period, or such other probationary period as may be applicable or (3) returned to service as a transit police officer during the three year period specified in paragraph (e) of subdivision one of section seventy-five of the civil service law, or (4) returned to service as a transit police officer as the result of a hearing conducted pursuant to applicable law.

(d) "Variable supplement". Any sum authorized to be paid to a beneficiary pursuant to the provisions of this section.

(e) "Minimum period". The minimum period of credited service which a transit police member is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

(f) "Transit police officer". (1) As used in the opening clause of paragraph (c) of this subdivision, such term shall mean a transit police member who, at the time of retirement for service by reason of fulfillment of the minimum period of service, was not a transit police superior officer, as defined in subdivision eighty-four of section 13-101 of this title.

(2) Where used elsewhere in this section, such term shall mean a transit police member who, at the time as of which his or her status is to be determined, is not a transit police superior officer, as so defined.

(g) "Guarantee obligor". (1) With respect to any TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of this subdivision) or part of such a calendar year, for which calendar year or part thereof payment of variable supplements is an obligation of and guaranteed by the city pursuant to the applicable provisions of paragraphs (f), (g) and (h) of subdivision three of this section, the term "guarantee obligor" shall mean the city.

(2) With respect to any TPOVSF calendar year covered by a payment guarantee or part of such a calendar year, for which calendar year or part thereof payment of variable supplements is an obligation of and guaranteed by a governmental entity pursuant to the applicable provisions of paragraphs (f), (g) and (h) of subdivision three of this section, the term "guarantee obligor" shall mean such governmental entity.

(h) "TPOVSF calendar year not covered by a payment guarantee". Any calendar year beginning on or after January first, nineteen hundred ninety-two, which year precedes the first calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (g) of this subdivision), of payment of variable supplements takes effect pursuant to the provisions of paragraph (f) or paragraph (g) of subdivision three of this section.

(i) "TPOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (g) of this subdivision), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of this section, and any succeeding calendar year.

2. (a) There is hereby established a fund, to be known as the transit police officer's variable supplements fund. Such fund shall consist of such monies as may be paid thereto from the retirement system pursuant to the provisions of sections 13-193 and 13-193.2 of this chapter and all other monies received by such fund from any other source pursuant to law.

(b) It is hereby declared by the legislature that the transit police officer's variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, may be made in accordance with the provisions of this section, to eligible beneficiaries as a supplement to benefits received by them pursuant to this title. The legislature hereby reserves to the state and itself the right and power to amend, modify or repeal any or all of the provisions of this section.

3. (a) The transit police officer's variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

(b) Such variable supplements board shall consist of:

(1) The representative of the mayor who is a member of the board of trustees of the retirement system, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

(2) The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of the retirement system, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the variable supplements board.

(2-a) The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in his or her place at meetings of such board, in the event of such commissioner's absence therefrom.

(3) Two members of the association designated by it, who shall each be entitled to cast one vote. The members so designated shall be officers of the association. Each such designee may at any time, by written authorization filed with the variable supplements board, authorize any other officer of the association to act in his or her place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the by-laws or constitution of the association provide for the designation of a representative for such purpose.

(c) Every act of the variable supplements board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

(d) The actuary appointed by the board of the retirement system shall be the technical advisor of the variable supplements board.

(d-1) The retirement system shall assign to the variable supplements board such number of clerical and other assistants as may be necessary for the performance of its functions.

(e) (1) As of October thirty-first, nineteen hundred ninety-two and as of October thirty-first of each succeeding TPOVSF calendar year not covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section), the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (j) of this subdivision, and make an estimate of the total amount of variable supplements which would be payable, pursuant to subdivision four of this section and subparagraph two of this paragraph, to beneficiaries on or about December fifteenth of such calendar year for which such valuation and estimate are made, if such actuary determines that the value of such assets, as of October thirty-first of such calendar year, is equal to or greater than such total amount of variable supplements.

(2) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is equal to or greater than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year, then the variable supplements which, upon a favorable determination of the actuary under this paragraph (e), are declared by subdivision four of this section to be payable to beneficiaries for such calendar year or a part thereof shall be paid by the variable supplements fund, in the applicable amounts prescribed by such subdivision four, to beneficiaries on or about December fifteenth of such calendar year.

(3) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is less than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year pursuant to a favorable determination of the actuary, then no beneficiary shall be entitled to receive any variable supplement for such calendar year or any part thereof and no variable supplement shall be paid to any beneficiary for such calendar year or any part thereof.

(4) In any case where, pursuant to the provisions of subparagraphs one and three of this paragraph, no variable supplements are payable for a calendar year or part thereof to any beneficiary, no variable supplements for such calendar year or part thereof shall at any time thereafter be payable and no beneficiary shall at any time thereafter be

entitled to receive a variable supplement for such calendar year or part thereof.

(f) (1) As of October thirty-first, nineteen hundred ninety-two and as of October thirty-first of each succeeding calendar year up to and including the earlier of (i) the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of subdivision one of this section) or (ii) the calendar year two thousand six, the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (j) of this subdivision, and shall estimate the present value, as of such October thirty-first, of all variable supplements which the variable supplements fund, under the provisions of subdivision four of this section, would be obligated to pay to beneficiaries with respect to the calendar year in which such October thirty-first occurs and all succeeding calendar years up to and including the calendar year two thousand six, if it were assumed that such variable supplements were payable with respect to all such calendar years occurring during the period beginning with the calendar year in which such October thirty-first occurs and extending to and including the calendar year two thousand six.

(2) If the value of such assets as of any such October thirty-first is equal to or greater than the sum obtained by adding together such estimated present value of variable supplements as of such October thirty-first and a sum equal to fifteen per centum of the assets of the variable supplements fund as of such October thirty-first:

(i) variable supplements, as provided for in subdivision four of this section, shall be paid to beneficiaries for the calendar year in which such October thirty-first occurs and for each subsequent calendar year; and

(ii) paragraph (e) of this subdivision shall be inapplicable with respect to entitlement of beneficiaries to variable supplements for the calendar years referred to in item (i) of this subparagraph; and

(iii) subject to the provisions of paragraph (h) of this subdivision, payment of all variable supplements payable for the calendar years referred to in item (i) of this subparagraph is hereby made an obligation of the guarantee obligor (as defined in paragraph (g) of subdivision one of this section) and the guarantee obligor hereby guarantees that such supplements shall be paid to all beneficiaries for such calendar years.

(g) If a guarantee of payment of variable supplements, pursuant to paragraph (f) of this subdivision, does not take effect prior to the calendar year two thousand seven, variable supplements, as provided for in subdivision four of this section, shall be paid pursuant to such subdivision four for the calendar year two thousand seven and each subsequent calendar year. Subject to the provisions of paragraph (h) of this subdivision, such payment is hereby made an obligation of the guarantee obligor (as defined in paragraph (g) of subdivision one of this section) and the guarantee obligor hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(h) (1) Subject to the provisions of subparagraph three of this paragraph, if, as of January first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of subdivision one of this section), the city is legally obligated to pay (including payment by way of reimbursement) the salaries of the members of the uniformed transit police force, the city shall be the guarantee obligor referred to in the applicable provisions of paragraph (f) or paragraph (g) of this subdivision with respect to such first calendar year and all succeeding calendar years.

(2) If, as of January first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of subdivision one of this section), the city is not legally obligated to pay (or reimburse for) the salaries of the members of the uniformed transit police force, the governmental entity which is legally obligated to pay such salaries as of such January first shall be the guarantee obligor referred to in the applicable provisions of paragraph (f) or paragraph (g) of this subdivision with respect to such first calendar year and all succeeding calendar years.

(3) If, after becoming a guarantee obligor pursuant to subparagraph one of this paragraph, the city ceases to be legally obligated to pay (or reimburse for) the salaries of the members of the uniformed transit police force:

(i) any obligation and guarantee of the city, under the provisions of paragraph (f) or paragraph (g) of this subdivision, with respect to variable supplements payable for calendar years preceding the calendar year in which the city ceased to be so obligated to pay (or reimburse for) such salaries, shall continue in effect; and

(ii) any such obligation and guarantee of the city with respect to such variable supplements payable for the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased shall be prorated as provided for in subparagraph four of this paragraph; and

(iii) the city shall have no obligation and shall make no guarantee with respect to payment of any such variable supplements payable for calendar years succeeding the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased; and

(iv) there is hereby imposed on the governmental entity which, on the date on which the city ceases to be legally obligated to pay (or reimburse for) such salaries, becomes legally obligated to pay such salaries, a prorated obligation and guarantee, as provided for in subparagraph four of this paragraph, with respect to payment of such variable supplements payable for the calendar year in which such obligations of the city to pay (or reimburse for) such salaries ceased; and

(v) payment of such variable supplements payable for calendar years succeeding the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased is hereby made the obligation of the governmental entity referred to in item (iv) of this subparagraph and such governmental entity hereby guarantees that such variable supplements shall be paid to all beneficiaries for such succeeding calendar years.

(4) Prorating of the obligation and guarantee of the city and such governmental entity, as provided for in items (ii) and (iv) of subparagraph three of this paragraph, for the calendar year referred to in such items, shall be in the ratio that the number of days of such calendar year during which the obligation and guarantee of each such obligor is in effect bears to the whole number of days in such calendar year.

(i) (1) Subject to the provisions of paragraph (j) of this subdivision, as of June thirtieth next succeeding the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of subdivision one of this section) and as of each succeeding June thirtieth, the actuary referred to in paragraph (d) of this subdivision shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding subparagraphs of this paragraph. For the purposes of paragraph (i) of subdivision three of section 13-193.2 of this chapter, such valuation as of any such June thirtieth shall be the valuation for the TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of such section 13-193.2) in which such June thirtieth occurs.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each such June thirtieth, are beneficiaries and (ii) upon the persons who, being transit police officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as transit police officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of beneficiaries and number of transit police officers in service as of June thirtieth who will retire for service with twenty or more years of service creditable toward the minimum period, shall be adopted by the variable supplements board on the recommendation of the actuary.

(j) For the purposes of the valuation of the assets of the variable supplements fund pursuant to paragraphs (e), (f) and (i) of this subdivision, such assets shall be valued at their fair market value as of the applicable date with respect to which such assets are required to be valued under the applicable provisions of such paragraphs.

(k) Whenever variable supplements are payable to beneficiaries of the transit police officer's variable supplements fund pursuant to the provisions of this section, such payment, except as provided in paragraphs (f), (g) and (h) of this subdivision, shall not be an obligation of the city or the New York city transit authority or any other governmental entity described in such paragraph (h) and neither the city, nor the transit authority nor any such other governmental entity, except as provided for in such paragraphs (f), (g) and (h), shall guarantee such payment.

4. (a) The variable supplements fund shall pay variable supplements to beneficiaries in accordance with the succeeding paragraphs of this subdivision.

(b) No variable supplements shall be payable to any beneficiary for any calendar year or part thereof preceding January first, nineteen hundred ninety-two.

(c) For calendar years succeeding December thirty-first, nineteen hundred ninety-one, the variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section, and provided any applicable conditions precedent to payability as prescribed by such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each beneficiary, who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the uniformed transit police force and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-two, variable supplements payments as follows:

(1) for each calendar year following calendar year nineteen hundred ninety-one, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| Calendar Year | Supplement |
|---|---|
| 1992 | $ 4,500 |
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |
| 1995 | $ 6,000 |
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(2) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-two), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph one of this paragraph (c), by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(d) For calendar years succeeding December thirty-first, nineteen ninety-one, the variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of

paragraph (f) of this subdivision, shall pay to each person who, on June thirtieth, nineteen hundred eighty-eight, was actually employed as a member of the uniformed transit police force and as a member of the retirement system and who retired from service on or after January first, nineteen hundred ninety-two so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph one of such paragraph (c), which payment shall be made on or about December fifteenth of such year;

(3) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-two), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph one of such paragraph (c), by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(e) The variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who became or becomes actually employed as a member of the uniformed transit police force and a member of the retirement system on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) SUPPLEMENT

First anniversary year The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3000 multiplied by the number of months remaining in such calendar year

Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year The sum of a lower-based component and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher that the base sum required to be used in computing the lower-based component

for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year

Twentieth anniversary year and each succeeding anniversary year $12,000

(3) for the calendar year of the beneficiary's death, an amount calculated in accordance with the formula for that year set forth in subparagraph two of this paragraph (e) but prorated on the basis of the number of full calendar months the beneficiary lived during that year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(f) (1) (i) Subject to the provisions of items (ii), (iii) and (iv) of this subparagraph one, on or after January first, nineteen hundred ninety-two, where a beneficiary is entitled to receive variable supplements payments pursuant to paragraph (c), paragraph (d) or paragraph (e) of this subdivision, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-two (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any beneficiary referred to in paragraph (c) or paragraph (d) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any beneficiary referred to in paragraph (e) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs.

(iv) In any case where the reduction of variable supplements payments to a beneficiary has ceased pursuant to item (ii) or item (iii) of this subparagraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such item (ii) or item (iii).

(2) The legislature hereby declares that the variable supplements authorized by this section and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any beneficiary or with any transit police member; and

(ii) shall not constitute a pension or retirement allowance or benefit under the retirement system or otherwise.

(3) Except as otherwise provided in subdivision eleven of this section and in sections 13-193, 13-193.1 and 13-193.2 of this chapter, nothing contained in this section shall create or impose any obligation on the part of the

retirement system, or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this section or for any purpose thereof.

(g) Beneficiaries shall be eligible to receive variable supplements pursuant to this section, notwithstanding any other provision of law to the contrary.

(h) The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this section, except that they may be invested as authorized by subdivision six of this section.

5. The transit police officer's variable supplements fund shall have the powers and privileges of a corporation and by its name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held.

6. (a) The members of the variable supplements board shall be the trustees of the monies received by or belonging to the transit police officer's variable supplements fund pursuant to this section and, subject to the provisions of paragraph (b) of this subdivision, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

(b) The members of the variable supplements board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the retirement system.

7. The variable supplements board shall publish annually in the City Record a report for the preceding year showing the assets of the transit police officer's variable supplements fund and a statement as to the accumulated cash and securities of such fund as certified by the comptroller, and shall set forth in such report such other facts, recommendations and data as the board may deem pertinent.

8. The comptroller shall be custodian of the monies and assets of the transit police officer's variable supplements fund. All such monies and assets included in such fund or which shall hereafter accrue to such fund shall be in his or her custody for the purposes of this section subject to the direction, control and approval of such board as to disposition, investment, management and report. All payments from such fund shall be made by the comptroller upon a voucher signed by the secretary of the variable supplements board.

9. Except as provided in this section, the trustees and employees assigned to the variable supplements board are prohibited from having any interest, directly or indirectly, in the gains or profits of any investment of the transit police officer's variable supplements fund or as such, directly or indirectly, from receiving any pay or emolument for their services. The trustees and such employees, directly or indirectly, for themselves or as agents or partners of others, shall not borrow any of its funds or deposits or in any manner use the same except to make such current and necessary payments as are authorized by such board.

10. The superintendent of insurance may examine the affairs of the transit police officer's variable supplements fund with the same powers and jurisdiction as are applicable in the case of an examination of a life insurance company by the superintendent under article three of the insurance law. The transit police officer's variable supplements fund shall be subject to assessment for expenses pursuant to the provisions of section three hundred thirteen of the insurance law, but shall not be subject to assessment for expenses under any of the provisions of section three hundred thirty-two of the insurance law.

11. In the event that, for any calendar year covered by a payment guarantee, the assets of the variable

supplements fund are not sufficient to pay benefits under this section for such year, an amount sufficient to pay such benefits shall be appropriated from the contingent reserve fund of the retirement system and transferred to the transit police officer's variable supplements fund.

Subd. 11 added chap 255/2000 § 20, eff. Aug. 16, 2000 and deemed in force and effect on and after Dec. 29, 1999.

**NOTE**

Provisions of chap 577/1992 § 18

§ 18. (a) The legislature hereby finds that the provisions of this act remedy certain inequities which operate to the disadvantage of the city of New York and remedy certain other inequities which operate to the disadvantage of the persons eligible to receive variable supplements from the transit police officer's variable supplements fund provided for by section 13-191 of the administrative code of the city of New York. The provisions of subdivision (b) of this section constitute a part of the remedies for such inequities.

(b) On or before December first of the calendar year in which a guarantee of payment of variable supplements first takes effect pursuant to the applicable provisions of paragraph (f) or paragraph (g) of subdivision three of section 13-191 of such code, as added by section nine of this act, an amount equal to fifteen per centum of the assets of such variable supplements fund as of October thirty-first of such calendar year shall be transferred to and become the

property of the city of New York.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-191 Housing13 police officer's variable supplements fund.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Association". The New York city housing police patrolmen's benevolent association.

(b) "Variable supplements board". The board of trustees provided for in subdivision three of this section.

(c) "Beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after July first, nineteen hundred eighty-seven for service (with credit for twenty or more years of service toward the minimum period) as a housing police officer; provided, that no person who held a rank or position as a housing police superior officer, as defined in subdivision eighty-four of section 13-101 of this chapter who, on or after May first, nineteen hundred ninety-two, subsequently became a housing police officer shall be considered a beneficiary unless such person (1) subsequently performed at least three years of service as a housing police officer or (2) returned to service, from the position of sergeant, as a housing police officer during the eighteen month probationary period, or such other probationary period as may be applicable or (3) returned to service as a housing police officer during the three year period specified in paragraph (e) of subdivision one of section seventy-five of the civil service law, or (4) returned to service as a housing police officer as the result of a hearing conducted pursuant to applicable law.

(d) "Variable supplement". Any sum authorized to be paid to a beneficiary pursuant to the provisions of this section.

(e) "Minimum period". The minimum period of credited service which a housing police member is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

(f) "Housing police officer". (1) As used in the opening clause of paragraph (c) of this subdivision, such term shall mean a housing police member who, at the time of retirement for service by reason of fulfillment of the minimum period of service, was not a housing police superior officer, as defined in subdivision eighty-four of section 13-101 of this chapter.

(2) Where used elsewhere in this section, such term shall mean a housing police member who, at the time as of which his or her status is to be determined, is not a housing police superior officer, as so defined.

(g) "HPOVSF calendar year not covered by a payment guarantee". Any calendar year included in the period beginning on January first, nineteen hundred ninety-two and ending on December thirty-first, nineteen hundred ninety-three.

(h) "HPOVSF calendar year covered by a payment guarantee". The calendar year nineteen hundred ninety-four and any succeeding calendar year.

(i) "December fifteenth payment date". If variable supplements are payable pursuant to paragraph (e) of subdivision three of this section and subdivision four thereof with respect to the calendar year nineteen hundred ninety-two, such date shall be December fifteenth, nineteen hundred ninety-three. If variable supplements are payable pursuant to the provisions of paragraph (e) or paragraph (f) of such subdivision three and such subdivision four with respect to any calendar year subsequent to the calendar year nineteen hundred ninety-two, such date shall be December fifteenth of such calendar year with respect to which such variable supplements are payable.

2. (a) There is hereby established a fund, to be known as the housing police officer's variable supplements fund. Such fund shall consist of such monies as may be paid thereto from the retirement system pursuant to the provisions of sections 13-193 and 13-193.4 of this chapter and all other monies received by such fund from any other source pursuant to law.

(b) It is hereby declared by the legislature that the housing police officer's variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, may be made in accordance with the provisions of this section, to eligible beneficiaries as a supplement to benefits received by them pursuant to this title. The legislature hereby reserves to the state and itself the right and power to amend, modify or repeal any or all of the provisions of this section.

3. (a) The housing police officer's variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

(b) Such variable supplements board shall consist of:

(1) The representative of the mayor who is a member of the board of trustees of the retirement system, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his office and with the variable supplements board, designate one or more members of his office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

(2) The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of the retirement system, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the variable supplements board.

(2-a) The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in his or her place at meetings of such board, in the event of such commissioner's absence therefrom.

(3) Two members of the association designated by it, who shall each be entitled to cast one vote. The members so designated shall be officers of the association. Each such designee may at any time, by written authorization filed with the variable supplements board, authorize any other officer of the association to act in his place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the by-laws or constitution of the association provide for the designation of a representative for such purpose.

(c) Every act of the variable supplements board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

(d) The actuary appointed by the board of the retirement system shall be the technical advisor of the variable supplements board.

(d-1) The retirement system shall assign to the variable supplements board such number of clerical and other assistants as may be necessary for the performance of its functions.

(e) (1) (1) As of October thirty-first, nineteen hundred ninety-two and as of October thirty-first nineteen hundred ninety-three, the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (h) of this subdivision, and make an estimate of the total amount of variable supplements which would be payable, pursuant to subdivision four of this section and subparagraph two of this paragraph, to beneficiaries for such calendar year for which such valuation and estimate are made, if such actuary determines that the value of such assets, as of October thirty-first of such calendar year, is equal to or greater than such total amount of variable supplements.

(2) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is equal to or greater than such estimated total amount of variable supplements which would be payable for such calendar year, then the variable supplements which, supon a favorable determination of the actuary under this paragraph, are declared by subdivision four of this section to be payable to beneficiaries for such calendar year or a part thereof shall be paid by the variable supplements fund, in the applicable amounts prescribed by such subdivision four, to beneficiaries on or about the applicable December fifteenth payment date (as defined in paragraph (i) of subdivision one of this section).

(3) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is less than such estimated total amount of variable supplements which would be payable for such calendar year pursuant to a favorable determination of the actuary, then no beneficiary shall be entitled to receive any variable supplement for such calendar year or any part thereof and no variable supplement shall be paid to any beneficiary for such calendar year or any part thereof.

(4) In any case where, pursuant to the provisions of subparagraphs one and three of this paragraph, no variable supplements are payable for a calendar year or part thereof to any beneficiary, no variable supplements for such calendar year or part thereof shall at any time thereafter be payable and no beneficiary shall at any time thereafter be entitled to receive a variable supplement for such calendar year or part thereof.

(f) (1) Variable supplements, as provided for in subdivision four of this section, shall be paid to beneficiaries for the calendar year nineteen hundred ninety-four and for each subsequent calendar year.

(2) Paragraph (e) of this subdivision shall be inapplicable with respect to entitlement of beneficiaries to variable supplements for the calendar years referred to in subparagraph one of this paragraph.

(3) Payment of all variable supplements payable for the calendar years referred to in subparagraph one of this paragraph is hereby made an obligation of the city and the city hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(g) (1) Subject to the provisions of paragraph (h) of this subdivision, as of June thirtieth next succeeding the first HPOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section) and as of each succeeding June thirtieth, the actuary referred to in paragraph (d) of this subdivision shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding subparagraphs of this paragraph. For the purposes of paragraph (i) of subdivision three of section 13-193.4 of this chapter, such valuation as of any such June thirtieth shall be the valuation for the HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of such section 13-193.4) in which such June thirtieth occurs.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each such June thirtieth, are beneficiaries and (ii) upon the persons who, being housing police officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as housing police officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of beneficiaries and number of housing police officers in service as of June thirtieth who will retire as housing police officers for service with twenty or more years of service creditable toward the minimum period, shall be adopted by the variable supplements board on the recommendation of the actuary.

(h) For the purposes of the valuation of the assets of the variable supplements fund pursuant to paragraphs (e) and (g) of this subdivision, such assets shall be valued at their fair market value as of the applicable date with respect to which such assets are required to be valued under the applicable provisions of such paragraphs.

(i) Whenever variable supplements are payable to beneficiaries of the housing police officer's variable supplements fund pursuant to the provisions of this section, such payment, except as provided in paragraph (f) of this subdivision, shall not be an obligation of the city and the city, except as provided for in such paragraph (f), shall not guarantee such payment.

4. (a) The variable supplements fund shall pay varible supplements to beneficiaries in accordance with the succeeding paragraphs of this subdivision.

(b) No variable supplements shall be payable to any beneficiary for any calendar year or part thereof preceding January first, nineteen hundred ninety-two.

(c) For calendar years succeeding December thirty-first, nineteen hundred ninety-one, the variable supplements fund, subject to the provisions of paragraphs (e) and (f) of subdivision three of this section, and provided any applicable conditions precedent to payability as prescribed by the provisions of such paragraph (e) are satisfied as to any calendar year to which the provisions of such paragraph (e) apply, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each beneficiary, who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the housing police service and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-two, variable supplements payments as follows:

(1) for each calendar year following calendar year nineteen hun- dred ninety-one, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about the applicable December fifteenth payment date (as defined in paragraph (i) of subdivision one of this section), as follows:

| Calendar Year | Supplement |
|---|---|
| 1992 | $ 4,500 |
| 1993 | $ 5,000 |
| 1994 | $ 5,500 |
| 1995 | $ 6,000 |
| 1996 | $ 6,500 |
| 1997 | $ 7,000 |
| 1998 | $ 7,500 |
| 1999 | $ 8,000 |
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 and each calendar year thereafter | $12,000 |

(2) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-two), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph one of this paragraph, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(d) For calendar years succeeding December thirty-first, nineteen hundred ninety-one, the variable supplements fund, subject to the provisions of paragraphs (e) and (f) of subdivision three of this section and provided any applicable conditions precedent to payability under the provisions of such paragraph (e) are satisfied as to any calendar year to which the provisions of such paragraph (e) apply, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who, on June thirtieth, nineteen hundred eighty-eight, was actually employed as a member of the housing police service and as a member of the retirement system and who retired for service on or after January first, nineteen hundred ninety-two so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about the applicable December fifteenth payment date (as defined in paragraph (i) of subdivision one of this section);

(2) for each calendar year following the year of retirement, but not including the calendar year of the

beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subpara- graph one of paragraph (c) of this subdivision, which payment shall be made on or about the applicable December fifteenth payment date (as defined in paragraph (i) of subdivision one of this sec- tion);

(3) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-two), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(e) The variable supplements fund, subject to the provisions of paragraphs (e) and (f) of subdivision three of this section and provided any applicable conditions precedent to payability under the provisions of such paragraph (e) are satisfied as to any calendar year to which the provisions of such paragraph (e) apply, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who became or becomes actually employed as a member of the housing police service and a member of the retirement system on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a beneficiary, variable supplements payments as follows:

(1) (i) subject to the provisions of subparagraph four of this paragraph, for the calendar year of retirement, where such retirement occurs before January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(ii) subject to the provisions of subparagraph four of this paragraph, for the calendar year of retirement, where such retirement occurs on or after January first, two thousand eight, an amount calculated by multiplying one-twelfth times the sum of twelve thousand dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) subject to the provisions of subparagraph two-a of this paragraph, for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) SUPPLEMENT

First anniversary year The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2,500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3,000 multiplied by the number of months remaining in such calendar year

Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year The sum of a lower-based com- ponent and a higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary

year

Twentieth anniversary year and each succeeding anniversary year $12,000

(2-a) for each calendar year which occurs both after the year of retirement and after December thirty-first, two thousand seven (but not including the calendar year of the beneficiary's death), notwithstanding any provision of subparagraph two of this paragraph which would otherwise be applicable, a single annual payment of twelve thousand dollars, which payment (i) shall be in lieu of any other amount which would otherwise be payable under subparagraph two of this paragraph for such calendar year and (ii) shall be made on or about December fifteenth of such year; (3) (i) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and prior to January first, two thousand eight, an amount calculated in accordance with the formula which would apply to the year of death under subparagraph two of this paragraph if such death had not occurred, but prorated on the basis of the number of full calendar months the beneficiary lived during the year of death prior to the month of his or her death; and

(ii) for the calendar year of the beneficiary's death, where such death occurs both after the year of retirement and in the calendar year two thousand eight or thereafter, an amount calculated by multiplying one-twelfth of twelve thousand dollars by the number of months the beneficiary lived during the year of death prior to the month of his or her death.

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(f) (1) (i) Subject to the provisions of items (ii), (iii) and (iv) of this subparagraph, on or after January first, nineteen hundred ninety-two, where a beneficiary is entitled to receive variable supplements payments pursuant to paragraph (c), (d) or (e) of this subdivision, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-three (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any beneficiary referred to in paragraph (c) or (d) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any beneficiary referred to in paragraph (e) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the earlier of (1) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs or (2) January first, two thousand eight.

(iv) In any case where the reduction of variable supplements payments to a beneficiary has ceased pursuant to item (ii) or (iii) of this subparagraph, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such item (ii) or (iii).

(2) The legislature hereby declares that the variable supplements authorized by this section and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any beneficiary or with any housing police member; and

(ii) shall not constitute a pension or retirement allowance or benefit under the retirement system or otherwise.

(3) Except as otherwise provided in subdivision eleven of this section and in sections 13-193, 13-193.1 and 13-193.4 of this chapter, nothing contained in this section shall create or impose any obligation on the part of the retirement system, or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this section or for any purpose thereof.

(g) Beneficiaries shall be eligible to receive variable supplements pursuant to this section, notwithstanding any other provision of law to the contrary.

(h) The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this section, except that they may be invested as authorized by subdivision six of this section.

5. The housing police officer's variable supplements fund shall have the powers and privileges of a corporation and by its name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held.

6. (a) The members of the variable supplements board shall be the trustees of the monies received by or belonging to the housing police officer's variable supplements fund pursuant to this section and, subject to the provisions of paragraph (b) of this subdivision, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

(b) The members of the variable supplements board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the retirement system.

7. The variable supplements board shall publish annually in the City Record a report for the preceding year showing the assets of the housing police officer's variable supplements fund and a statement as to the accumulated cash and securities of such fund as certified by the comptroller, and shall set forth in such report such other facts, recommendations and data as the board may deem pertinent.

8. The comptroller shall be custodian of the monies and assets of the housing police officer's variable supplements fund. All such monies and assets included in such fund or which shall hereafter accrue to such fund shall be in his custody for the purposes of this section subject to the direction, control and approval of such board as to disposition, investment, management and report. All payments from such fund shall be made by the comptroller upon a voucher signed by the secretary of the variable supplements board.

9. Except as provided in this section, the trustees and employees assigned to the variable supplements board are prohibited from having any interest, directly or indirectly, in the gains or profits of any investment of the housing police officer's variable supplements

fund or as such, directly or indirectly, from receiving any pay or emolument for their services. The trustees and such employees, directly or indirectly, for themselves or as agents or partners of others, shall not borrow any of its funds or deposits or in any manner use the same except to make such current and necessary payments as are authorized by such board.

10. The superintendent of insurance may examine the affairs of the housing police officer's variable supplements fund with the same powers and jurisdiction as are applicable in the case of an examination of a life insurance company by the superintendent under article three of the insurance law. The housing police officer's variable supplements fund shall be subject to assessment for expenses pursuant to the provisions of section three hundred thirteen of the insurance law, but shall not be subject to assessment for expenses under any of the provisions of section three hundred thirty-two of the insurance law.

11. In the event that, for any calendar year covered by a payment guarantee, the assets of the variable supplements fund are not sufficient to pay benefits under this section for such year, an amount sufficient to pay such benefits shall be appropriated from the contingent reserve fund of the retirement system and transferred to the housing police officer's variable supplements fund.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-192 Transit police14 superior officers' variable supplements fund.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Variable supplements board". The board of trustees provided for in subdivision three of this section.

(b) "Beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after July first, nineteen hundred eighty-seven, for service (with credit for twenty or more years of service toward the minimum period) as a transit police member and as a transit police superior officer; provided, however, that where a person who held or holds a rank or position as a transit police superior officer, subsequently and on or after May first, nineteen hundred ninety-two became or becomes a transit police officer, and while a transit police officer, retired or retires for service under such circumstances that he or she would have qualified as a beneficiary under the provisions of paragraph (c) of subdivision one of section 13-191 of this title (other than the proviso thereof), but did not or does not qualify as a beneficiary under such paragraph (c) because he or she was or is disqualified by the terms of such proviso, such retiree shall nevertheless be deemed to be a beneficiary under the provisions of this section.

(c) "Variable supplement". Any sum authorized to be paid to a beneficiary pursuant to the provisions of this section.

(d) "Minimum period". The minimum period of credited service which a transit police member is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

(e) "Transit police officer". A transit police member who, at the time as of which his or her status is to be determined, is not a transit police superior officer, as defined in subdivision eighty-four of section 13-101 of this title.

(f) "Guarantee obligor". (1) With respect to any TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of this subdivision) or part of such a calendar year, for which calendar year or part thereof payment of variable supplements is an obligation of and guaranteed by the city pursuant to the applicable provisions of paragraphs (f), (g) and (h) of subdivision three of this section, the term "guarantee obligor" shall mean the city.

(2) With respect to any TPSOVSF calendar year covered by a payment guarantee or part of such a calendar year, for which calendar year or part thereof payment of variable supplements is an obligation of and guaranteed by a governmental entity pursuant to the applicable provisions of paragraphs (f), (g) and (h) of subdivision three of this section, the term "guarantee obligor" shall mean such governmental entity.

(g) "TPSOVSF calendar year not covered by a payment guarantee". Any calendar year beginning on or after January first, nineteen hundred ninety-three which year precedes the first calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (f) of this subdivision), of payment of variable supplements takes effect pursuant to the provisions of paragraph (f) or paragraph (g) of subdivision three of this section.

(h) "TPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (f) of this subdivision), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of this section, and any succeeding calendar year.

2. (a) There is hereby established a fund, to be known as the transit police superior officers' variable supplements fund. Such fund shall consist of such monies as may be paid thereto by the retirement system, pursuant to the provisions of sections 13-193, 13-193.3 and 13-193.6 of this chapter and all other monies received by such fund from any other source pursuant to law.

(b) It is hereby declared by the legislature that the transit police superior officers' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, may be made in accordance with the provisions of this section, to eligible beneficiaries as a supplement to benefits received by them pursuant to this title. The legislature hereby reserves to the state and itself the right and power to amend, modify or repeal any or all of the provisions of this section.

3. (a) The transit police superior officers' variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

(b) Such variable supplements board shall consist of:

(1) The representative of the mayor who is a member of the board of trustees of the retirement system, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

(2) The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized, pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of the retirement system, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the variable supplements board.

(2-a) The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members

of his or her office to act in his or her place at meetings of such board, in the event of such commissioner's absence therefrom.

(3) Two representatives of the transit police superior officers, designated by the recognized employee organizations representing such superior officers. Each such representative shall be entitled to cast one vote. Each such representative may at any time, by written authorization filed with the variable supplements board, authorize any other officer of such organizations to act in his or her place as a member of the board in the event of such designee's absence from any meeting thereof.

(c) Every act of the variable supplements board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

(d) The actuary appointed by the board of the retirement system shall be the technical advisor of the variable supplements board.

(d-1) The retirement system shall assign to the variable supplements board such number of clerical and other assistants as may be necessary for the performance of its functions.

(e) (1) As of October thirty-first, nineteen hundred ninety-four and as of October thirty-first of each succeeding TPSOVSF calendar year not covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section), the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (j) of this subdivision, and make an estimate of the total amount of variable supplements which would be payable, pursuant to subdivision four of this section and sub-paragraph two of this paragraph, to beneficiaries on or about December fifteenth of such calendar year for which such valuation and estimate are made, if such actuary determines that the value of such assets, as of October thirty-first of such calendar year, is equal to or greater than such total amount of variable supplements.

(2) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is equal to or greater than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year, then the variable supplements which, upon a favorable determination of the actuary under this paragraph, are declared by subdivision four of this section to be payable to beneficiaries for such calendar year or a part thereof shall be paid by the variable supplements fund, in the applicable amounts prescribed by such subdivision four, to beneficiaries on or about December fifteenth of such calendar year.

(3) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is less than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year pursuant to a favorable determination of the actuary, then no beneficiary shall be entitled to receive any variable supplement for such calendar year or any part thereof and no variable supplement shall be paid to any beneficiary for such calendar year or any part thereof.

(4) In any case where, pursuant to the provisions of subparagraphs one and three of this paragraph, no variable supplements are payable for a calendar year or part thereof to any beneficiary, no variable supplements for such calendar year or part thereof shall at any time thereafter be payable and no beneficiary shall at any time thereafter be entitled to receive a variable supplement for such calendar year or part thereof.

(f) (1) As of October thirty-first, nineteen hundred ninety-four and as of October thirty-first of each succeeding calendar year up to and including the earlier of (i) the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section) or (ii) the calendar year two thousand six, the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (j) of this subdivision, and shall estimate the present value, as of such October thirty-first, of all

variable supplements which the variable supplements fund, under the provisions of subdivision four of this section, would be obligated to pay to beneficiaries with respect to the calendar year in which such October thirty-first occurs and all succeeding calendar years up to and including the calendar year two thousand six, if it were assumed that such variable supplements were payable with respect to all such calendar years occurring during the period beginning with the calendar year in which such October thirty-first occurs and extending to and including the calendar year two thousand six.

(2) If the value of such assets as of any October thirty-first is equal to or greater than the sum obtained by adding together such estimated present value of variable supplements as of such October thirty-first and a sum equal to fifteen per centum of the assets of the variable supplements fund as of such October thirty-first:

(i) variable supplements, as provided for in subdivision four of this section, shall be paid to beneficiaries for the calendar year in which such October thirty-first occurs and for each subsequent calendar year; and

(ii) paragraph (e) of this subdivision shall be inapplicable with respect to entitlement of beneficiaries to variable supplements for the calendar years referred to in item (i) of this subparagraph; and

(iii) subject to the provisions of paragraph (h) of this subdivision, payment of all variable supplements payable for the calendar years referred to in item (i) of this subparagraph is hereby made an obligation of the guarantee obligor (as defined in paragraph (f) of subdivision one of this section) and the guarantee obligor hereby guarantees that such supplements shall be paid to all beneficiaries for such calendar years.

(g) If a guarantee of payment of variable supplements, pursuant to paragraph (f) of this subdivision, does not take effect prior to the calendar year two thousand one, variable supplements, as provided for in subdivision four of this section, shall be paid pursuant to such subdivision four for the calendar year two thousand one and each subsequent calendar year. Subject to the provisions of paragraph (h) of this subdivision, such payment is hereby made an obligation of the guarantee obligor (as defined in paragraph (f) of subdivision one of this section) and the guarantee obligor hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(h) (1) Subject to the provisions of subparagraph three of this paragraph, if, as of January first of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section), the city is legally obligated to pay (including payment by way of reimbursement) the salaries of the members of the uniformed transit police force, the city shall be the guarantee obligor referred to in the applicable provisions of paragraph (f) or paragraph (g) of this subdivision with respect to such first calendar year and all succeeding calendar years.

(2) If, as of January first of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section), the city is not legally obligated to pay (or reimburse for) the salaries of the members of the uniformed transit police force, the governmental entity which is legally obligated to pay such salaries as of such January first shall be the guarantee obligor referred to in the applicable provisions of paragraph (f) or paragraph (g) of this subdivision with respect to such first calendar year and all succeeding calendar years.

(3) If, after becoming a guarantee obligor pursuant to subparagraph one of this paragraph, the city ceases to be legally obligated to pay (or reimburse for) the salaries of the members of the uniformed transit police force: (i) any obligation and guarantee of the city, under the provisions of paragraph (f) or paragraph (g) of this subdivision, with respect to variable supplements payable for calendar years preceding the calendar year in which the city ceased to be so obligated to pay (or reimburse for) such salaries, shall continue in effect; and

(ii) any such obligation and guarantee of the city with respect to such variable supplements payable for the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased shall be prorated as provided for in subparagraph four of this paragraph; and

(iii) the city shall have no obligation and shall make no guarantee with respect to payment of any such variable supplements payable for calendar years succeeding the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased; and

(iv) there is hereby imposed on the governmental entity which, on the date on which the city ceases to be legally obligated to pay (or reimburse for) such salaries, becomes legally obligated to pay such salaries, a prorated obligation and guarantee, as provided for in subparagraph four of this paragraph, with respect to payment of such variable supplements payable for the calendar year in which such obligations of the city to pay (or reimburse for) such salaries ceased; and

(v) payment of such variable supplements payable for calendar years succeeding the calendar year in which such obligation of the city to pay (or reimburse for) such salaries ceased is hereby made the obligation of the governmental entity referred to in item (iv) of this subparagraph and such governmental entity hereby guarantees that such variable supplements shall be paid to all beneficiaries for such succeeding calendar years.

(4) Prorating of the obligation and guarantee of the city and such governmental entity, as provided for in items (ii) and (iv) of subparagraph three of this paragraph, for the calendar year referred to in such items, shall be in the ratio that the number of days of such calendar year during which the obligation and guarantee of each such obligor is in effect bears to the whole number of days in such calendar year.

(i) (1) Subject to the provisions of paragraph (j) of this subdivision, as of June thirtieth next succeeding the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section) and as of each succeeding June thirtieth, the actuary referred to in paragraph (d) of subdivision one of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding subparagraphs of this paragraph. For the purposes of paragraph (i) of subdivision three of section 13-193.6 of this chapter, such valuation as of any such June thirtieth shall be the valuation for the TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of such section 13-193.6) in which such June thirtieth occurs.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each June thirtieth, are beneficiaries and (ii) upon the persons who, being transit police officers and transit police superior officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as transit police superior officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of beneficiaries and number of transit police officers and transit police superior officers in service as of June thirtieth who will retire for service as transit police superior officers with twenty or more years of service creditable toward the minimum period, shall be adopted by the variable supplements board on the recommendation of the actuary.

(j) For the purposes of the valuation of the assets of the variable supplements fund pursuant to paragraphs (e), (f) and (i) of this subdivision, such assets shall be valued at their fair market value as of the applicable date with respect to which such assets are required to be valued under the applicable provisions of such paragraphs.

(k) whenever variable supplements are payable to beneficiaries of the transit police superior officer's variable supplements fund pursuant to the provisions of this section, such payment, except as provided in paragraphs (f), (g) and (h) of this subdivision, shall not be an obligation of the city or the New York city transit authority or any other governmental entity described in such paragraph (h) and neither the city, nor the transit authority nor any such other governmental entity, except as provided for in such paragraphs (f), (g) and (h), shall guarantee such payment.

4. (a) The variable supplements fund shall pay variable supplements to beneficiaries in accordance with the

succeeding paragraphs of this subdivision.

(b) No variable supplements shall be payable to any beneficiary for any calendar year or part thereof preceding January first, nineteen hundred ninety-three.

(b-1) (1) Subject to the provisions of subparagraph two of this paragraph and paragraph (f) of this subdivision, the variable supplements fund shall pay, for the calendar year nineteen hundred ninety-three, to each beneficiary who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the uniformed transit police force and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-three, a variable supplement of five thousand dollars.

(2) Where any beneficiary referred to in subparagraph one of this paragraph died in such nineteen hundred ninety-three calendar year on or after February first thereof, the amount of variable supplement payable for that calendar year with respect to such deceased beneficiary shall be the product obtained by multiplying one-twelfth of five thousand dollars by the number of full calendar months such beneficiary lived in that calendar year prior to the month of his or her death.

(3) Payment of variable supplements as provided for in subparagraphs one and two of this paragraph shall be made within thirty days after the enactment of the act which added this paragraph.

(4) No variable supplements shall be payable by the variable supplements fund to any person for the nineteen hundred ninety-three calendar year other than the payments provided for by the preceding provisions of this subdivision.

(c) For calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section, and provided any applicable conditions precedent to payability as prescribed by such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each beneficiary, who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the uniformed transit police force and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-four, variable supplements payments as follows:

(1) for each calendar year following calendar year nineteen hundred ninety-three, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year as follows:

**[See tabular material in printed version]**

(2) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-four), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph one of this paragraph, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(d) For calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who, on June thirtieth, nineteen hundred eighty-eight, was actually employed as a member of the uniformed transit police force and as a member of the retirement system and who retired for service on or after January first, nineteen hundred ninety-four so as to become a beneficiary, variable supplements payments as follows: (1) for the calendar year of retirement, an amount calculated by multiplying

one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph one of paragraph (c) of this subdivision, which payment shall be made on or about December fifteenth of such year;

(3) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-four), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(e) The variable supplements fund, subject to the provisions of paragraphs (e), (f), (g) and (h) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who became or becomes actually employed as a member of the uniformed transit police force and a member of the retirement system on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year.

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) | SUPPLEMENT |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based com- ponent and a higher-based component computed pursuant to the formula, above for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |

| | |
|---|---|
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(3) for the calendar year of the beneficiary's death, an amount calculated in accordance with the formula for that year set forth in subparagraph two of this paragraph but prorated on the basis of the number of full calendar months the beneficiary lived during that year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(f) (1) (i) Subject to the provisions of items (ii), (iii) and (iv) of this subparagraph, on or after January first, nineteen hundred ninety-three, where a beneficiary is entitled to receive variable supplements payments pursuant to paragraph (b-1), paragraph (c), paragraph (d) or paragraph (e) of this subdivision, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-four (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any beneficiary referred to in paragraph (b-1) or paragraph (c) or paragraph (d) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any beneficiary referred to in paragraph (e) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs.

(iv) In any case where the reduction of variable supplements payments to a beneficiary has ceased pursuant to item (ii) or item (iii) of this subparagraph, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such item (ii) or item (iii).

(2) The legislature hereby declares that the variable supplements authorized by this section and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any beneficiary or with any transit police member; and

(ii) shall not constitute a pension or retirement allowance or benefit under the retirement system or otherwise.

(3) Except as otherwise provided in subdivision eleven of this section and in sections 13-193, 13-193.3 and 13-193.6 of this chapter, nothing contained in this section shall create or impose any obligation on the part of the retirement system, or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this section or for any purpose thereof.

(g) Beneficiaries shall be eligible to receive variable supplements pursuant to this section, notwithstanding any other provision of law to the contrary.

5. The transit police superior officers' variable supplements fund shall have the powers and privileges of a corporation and by its name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held.

6. (a) (a) The members of the variable supplements board shall be the trustees of the monies received by or belonging to the transit police superior officers' variable supplements fund pursuant to this section and, subject to the provisions of paragraph (b) of this subdivision, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

(b) The members of the variable supplements board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the retirement system.

7. The variable supplements board shall publish annually in the City Record a report for the preceding year showing the assets of the transit police superior officers' variable supplements fund and a statement as to the accumulated cash and securities of such fund as certified by the comptroller, and shall set forth in such report such other facts, recommendations and data as the board may deem pertinent.

8. The comptroller shall be custodian of the monies and assets of the transit police superior officers' variable supplements fund. All such monies and assets included in such fund or which shall hereafter accrue to such fund shall be in his or her custody for the purposes of this section subject to the direction, control and approval of such board as to disposition, investment, management and report. All payments from such fund shall be made by the comptroller upon a voucher signed by the secretary of the variable supplements board.

9. Except as provided in this section, the trustees and employees assigned to the variable supplements board are prohibited from having any interest, directly or indirectly, in the gains or profits of any investment of the transit police superior officers' variable supplements fund or as such, directly or indirectly, from receiving any pay or emolument for their services. The trustees and such employees, directly or indirectly, for themselves or as agents or partners of others, shall not borrow any of its funds or deposits or in any manner use the same except to make such current and necessary payments as are authorized by such board.

10. The superintendent of insurance may examine the affairs of the transit police superior officers' variable supplements fund with the same powers and jurisdiction as are applicable in the case of an examination of a life insurance company by the superintendent under article three of the insurance law. The transit police superior officers' variable supplements fund shall be subject to assessment for expenses pursuant to the provisions of section three hundred thirteen of the insurance law, but shall not be subject to assessment for expenses under any of the provisions of section three hundred thirty-two of the insurance law.

11. In the event that, for any calendar year covered by a payment guarantee, the assets of the variable supplements fund are not sufficient to pay benefits under this section for such year, an amount sufficient to pay such benefits shall be appropriated from the contingent reserve fund of the retirement system and transferred to the transit police superior officers' variable supplements fund.

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-192*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-192 Housing police15 superior officers' variable supplements fund.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Variable supplements board". The board of trustees provided for in subdivision three of this section.

(b) "Beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after July first, nineteen hundred eighty-seven, for service (with credit for twenty or more years of service toward the minimum period) as a housing police member and as a housing police superior officer, provided, however, that where a person who held or holds a rank of position as a housing police superior officer, subsequently and on or after May first, nineteen hundred ninety-two became or becomes a housing police officer, and while a housing police officer, retired or retires for service under such circumstances that he or she would have qualified as a beneficiary under the provisions of paragraph (c) of subdivision one of section 13-191 of this title (other than the proviso thereof), but did not or does not qualify as a beneficiary under such paragraph (c) because he or she was or is disqualified by the terms of such proviso, such retiree shall nevertheless be deemed to be a beneficiary under the provisions of this section.

(c) "Variable supplement". Any sum authorized to be paid to a beneficiary pursuant to the provisions of this section.

(d) "Minimum period". The minimum period of credited service which a housing police member is required by law to perform in order to be eligible to retire for service with immediate payability of retirement allowance.

(e) "Housing police officer". A housing police member who, at the time as of which his or her status is to be determined, is not a housing police superior officer, as defined in subdivision eighty-four of section 13-101 of this chapter.

(f) "HPSOVSF calendar year not covered by a payment guarantee". Any calendar year beginning on or after January first, nineteen hundred ninety-three, which year precedes the first calendar year in which a guarantee of payment of variable supplements takes effect pursuant to the provisions of paragraph (f) or paragraph (g) of subdivision three of this section.

(g) "HPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of this section, and any succeeding calendar year.

2. (a) There is hereby established a fund, to be known as the housing police superior officers' variable supplements fund. Such fund shall consist of such monies as may be paid thereto by the retirement system, pursuant to the provisions of sections 13-193, 13-193.5 and 13-193.7 of this chapter and all other monies received by such fund from any other source pursuant to law.

(b) It is hereby declared by the legislature that the housing police superior officers' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, may be made in accordance with the provisions of this section, to eligible beneficiaries as a supplement to benefits received by them pursuant to this title. The legislature hereby reserves to the state and itself the right and power to amend, modify or repeal any or all of the provisions of this section.

3. (a) The housing police superior officers' variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

(b) Such variable supplements board shall consist of:

(1) The representative of the mayor who is a member of the board of trustees of the retirement system, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his office and with the variable supplements board, designate one or more members of his office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

(2) The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized, pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of the retirement system, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the variable supplements board.

(2-a) The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in his or her place at meetings of such board, in the event of such commissioner's absence therefrom.

(3) Two representatives of the housing police superior officers, designated by the recognized employee organizations representing such superior officers. Each such representative shall be entitled to cast one vote. Each such representative may at any time, by written authorization filed with the variable supplements board, authorize any other officer of such organizations to act in his place as a member of the board in the event of such designee's absence from any meeting thereof.

(c) Every act of the variable supplements board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

(d) The actuary appointed by the board of the retirement system shall be the technical advisor of the variable supplements board.

(d-1) The retirement system shall assign to the variable supplements board such number of clerical and other assistants as may be necessary for the performance of its functions.

(e) (1) As of October thirty-first, nineteen hundred ninety-four and as of October thirty-first of each succeeding HPSOVSF calendar year not covered by a payment guarantee (as defined in paragraph (f) of subdivision one of this section), the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (i) of this subdivision, and make an estimate of the total amount of variable supplements which would be payable, pursuant to subdivision four of this section and subparagraph two of this paragraph, to beneficiaries on or about December fifteenth of such calendar year for which such valuation and estimate are made, if such actuary determines that the value of such assets, as of October thirty-first of such calendar year, is equal to or greater than such total amount of variable supplements.

(2) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is equal to or greater than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year, then the variable supplements which, upon a favorable determination of the actuary under this paragraph (e), are declared by subdivision four of this section to be payable to beneficiaries for such calendar year or a part thereof shall be paid by the variable supplements fund, in the applicable amounts prescribed by such subdivision four, to beneficiaries on or about December fifteenth of such calendar year.

(3) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is less than such estimated total amount of variable supplements which would be payable on or about December fifteenth of such calendar year pursuant to a favorable determination of the actuary, then no beneficiary shall be entitled to receive any variable supplement for such calendar year or any part thereof and no variable supplement shall be paid to any beneficiary for such calendar year or any part thereof.

(4) In any case where, pursuant to the provisions of subparagraphs one and three of this paragraph, no variable supplements are payable for a calendar year or part thereof to any beneficiary, no variable supplements for such calendar year or part thereof shall at any time thereafter be payable and no beneficiary shall at any time thereafter be entitled to receive a variable supplement for such calendar year or part thereof.

(f) (1) As of October thirty-first, nineteen hundred ninety-four and as of October thirty-first of each succeeding calendar year up to and including the earlier of (i) the first HPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section) or (ii) the calendar year two thousand six, the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (i) of this subdivision, and shall estimate the present value, as of such October thirty-first, of all variable supplements which the variable supplements fund, under the provisions of subdivision four of this section, would be obligated to pay to beneficiaries with respect to the calendar year in which such October thirty-first occurs and all succeeding calendar years up to and including the calendar year two thousand six, if it were assumed that such variable supplements were payable with respect to all such calendar years occurring during the period beginning with the calendar year in which such October thirty-first occurs and extending to and including the calendar year two thousand six.

(2) If the value of such assets as of any October thirty-first is equal to or greater than the sum obtained by adding

together such estimated present value of variable supplements as of such October thirty-first and a sum equal to fifteen per centum of the assets of the variable supplements fund as of such October thirty-first:

(i) variable supplements, as provided for in subdivision four of this section, shall be paid to beneficiaries for the calendar year in which such October thirty-first occurs and for each subsequent calendar year; and

(ii) paragraph (e) of this subdivision shall be inapplicable with respect to entitlement of beneficiaries to variable supplements for the calendar years referred to in item (i) of this subparagraph; and

(iii) payment of all variable supplements payable for the calendar years referred to in item (i) of this subparagraph is hereby made an obligation of the city and the city hereby guarantees that such supplements shall be paid to all beneficiaries for such calendar years.

(g) If a guarantee of payment of variable supplements, pursuant to paragraph (f) of this subdivision, does not take effect prior to the calendar year two thousand one, variable supplements, as provided for in subdivision four of this section, shall be paid pursuant to such subdivision four for the calendar year two thousand one and each subsequent calendar year. Such payment is hereby made an obligation of the city and the city hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(h) (1) Subject to the provisions of paragraph (i) of this subdivision, as of June thirtieth next succeeding the first HPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section) and as of each succeeding June thirtieth, the actuary referred to in paragraph (d) of subdivision three of this section shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding subparagraphs of this paragraph. For the purposes of paragraph (i) of subdivision three of section 13-193.7 of this chapter, such valuation as of any such June thirtieth shall be the valuation for the HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of such section 13-193.7) in which such June thirtieth occurs.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each June thirtieth, are beneficiaries and (ii) upon the persons who, being housing police officers and housing police superior officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as housing police superior officers for service with twenty or more years of service creditable toward the minimum period.

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of beneficiaries and number of housing police officers and housing police superior officers in service as of June thirtieth who will retire for service as housing police superior officers with twenty or more years of service creditable toward the minimum period, shall be adopted by the variable supplements board on the recommendation of the actuary.

(i) For the purposes of the valuation of the assets of the variable supplements fund pursuant to paragraphs (e), (f) and (h) of this subdivision, such assets shall be valued at their fair market value as of the applicable date with respect to which such assets are required to be valued under the applicable provisions of such paragraphs.

(j) Whenever variable supplements are payable to beneficiaries of the housing police superior officers' variable supplements fund pursuant to the provisions of this section, such payment, except as provided in paragraphs (f) and (g) of this subdivision, shall not be an obligation of the city and the city, except as provided for in such paragraphs (f) and (g), shall not guarantee such payment.

4. (a) The variable supplements fund shall pay variable supplements to beneficiaries in accordance with the succeeding paragraphs of this subdivision.

(b) No variable supplements shall be payable to any beneficiary for any calendar year or part thereof preceding January first, nineteen hundred ninety-three.

(b-1) (1) Subject to the provisions of subparagraph two of this paragraph and paragraph (f) of this subdivision, the variable supplements fund shall pay, for the calendar year nineteen hundred ninety-three, to each beneficiary who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the uniformed housing police force and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-three, a variable supplement of five thousand dollars.

(2) Where any beneficiary referred to in subparagraph one of this paragraph died in such nineteen hundred ninety-three calendar year on or after February first thereof, the amount of variable supplement payable for that calendar year with respect to such deceased beneficiary shall be the product obtained by multiplying one-twelfth of five thousand dollars by the number of full calendar months such beneficiary lived in that calendar year prior to the month of his or her death.

(3) Payment of variable supplements as provided for in subparagraphs one and two of this paragraph shall be made within thirty days after the date of enactment of the act which added this paragraph (b-1).

(4) No variable supplements shall be payable by the variable supplements fund to any person for the nineteen hundred ninety-three calendar year other than the payments provided for by the preceding provisions of this paragraph.

(c) For calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of paragraphs (e), (f) and (g) of subdivision three of this section, and provided any applicable conditions precedent to payability as prescribed by such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each beneficiary, who retired on or after July first, nineteen hundred eighty-seven and prior to July first, nineteen hundred eighty-eight, or who, having been in service as a member of the housing police service and as a member of the retirement system on June thirtieth, nineteen hundred eighty-eight, retired for service prior to January first, nineteen hundred ninety-four, variable supplements payments as follows:

(1) for each calendar year following calendar year nineteen hundred ninety-three, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

**[See tabular material in printed version]**

(2) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-four), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph one of this paragraph (c), by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(d) for calendar years succeeding December thirty-first, nineteen hundred ninety-three, the variable supplements fund, subject to the provisions of paragraphs (e), (f) and (g) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who, on June thirtieth, nineteen hundred eighty-eight, was actually employed as a member of the housing police service and as a member of the retirement system and who retired for service on or after January first, nineteen hundred ninety-four so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of calendar months elapsing from and including the month next following the month of

retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph one of such paragraph (c), which payment shall be made on or about December fifteenth of such year;

(3) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, nineteen hundred ninety-four), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph one of such paragraph (c), by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(e) The variable supplements fund, subject to the provisions of paragraphs (e), (f) and (g) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (f) of this subdivision, shall pay to each person who became or becomes actually employed as a member of the housing police service and a member of the retirement system on or after July first, nineteen hundred eighty-eight, and who retires for service so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the sum of twenty-five hundred dollars by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR OF ANNIVERSARY OF RETIREMENT (references hereinafter to "anniversary year" mean calendar year of anniversary) | SUPPLEMENT |
|---|---|
| First anniversary year | The sum of (1) a lower-based component equal to one-twelfth of the base sum of $2,500 multiplied by the number of whole calendar months from and including the first month of such calendar year to and including the month in which the anniversary of the date of retirement occurs, and (2) a higher-based component equal to one-twelfth of the base sum of $3,000 multiplied by the number of months remaining in such calendar year |
| Second anniversary year and each succeeding anniversary year to and including the nineteenth anniversary year | The sum of a lower-based com- ponent and higher-based component computed pursuant to the formula, above, for the first anniversary year, except that for each such anniversary year succeeding the first, the lower-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the lower-based component for the next preceding anniversary year and the higher-based component shall be computed on a base sum $500 higher than the base sum required to be used in computing the higher-based component for such next preceding anniversary year |
| Twentieth anniversary year and each succeeding anniversary year | $12,000 |

(3) for the calendar year of the beneficiary's death, an amount calculated in accordance with the formula for that year set forth in subparagraph two of this paragraph (e) but prorated on the basis of the number of full calendar months the beneficiary lived during that year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three above shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(f) (1) (i) Subject to the provisions of items (ii), (iii) and (iv) of this subparagraph, on or after January first, nineteen hundred ninety-three, where a beneficiary is entitled to receive variable supplements payments pursuant to paragraph (b-1), paragraph (c), paragraph (d) or paragraph (e) of this subdivision, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after January first, nineteen hundred ninety-four (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any beneficiary referred to in paragraph (b-1) or paragraph (c) or paragraph (d) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) For any beneficiary referred to in paragraph (e) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph one because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month following the month in which such beneficiary attains age sixty-two; or (B) the first day of the month next following the month in which the nineteenth anniversary of the retirement of such beneficiary occurs.

(iv) In any case where the reduction of variable supplements payments to a beneficiary has ceased pursuant to item (ii) or item (iii) of this subparagraph one, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such item (ii) or item (iii).

(2) The legislature hereby declares that the variable supplements authorized by this section and the granting and receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any beneficiary or with any housing police member; and

(ii) shall not constitute a pension or retirement allowance or benefit under the retirement system or otherwise.

(3) Except as otherwise provided in subdivision eleven of this section and in sections 13-193, 13-193.5 and 13-193.7 of this chapter, nothing contained in this section shall create or impose any obligation on the part of the retirement system, or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this section or for any purpose thereof.

(g) Beneficiaries shall be eligible to receive variable supplements pursuant to this section, notwithstanding any other provision of law to the contrary.

5. The housing police superior officers' variable supplements fund shall have the powers and privileges of a corporation and by its name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held.

6. (a) The members of the variable supplements board shall be the trustees of the monies received by or belonging to the housing police superior officers' variable supplements fund pursuant to this section and, subject to the provisions of paragraph (b) of this subdivision, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

(b) The members of the variable supplements board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the retirement system.

7. The variable supplements board shall publish annually in the City Record a report for the preceding year showing the assets of the housing police superior officers' variable supplements fund and a statement as to the accumulated cash and securities of such fund as certified by the comptroller, and shall set forth in such report such other facts, recommendations and data as the board may deem pertinent.

8. The comptroller shall be custodian of the monies and assets of the housing police superior officers' variable supplements fund. All such monies and assets included in such fund or which shall hereafter accrue to such fund shall be in his custody for the purposes of this section subject to the direction, control and approval of such board as to disposition, investment, management and report. All payments from such fund shall be made by the comptroller upon a voucher signed by the secretary of the variable supplements board.

9. Except as provided in this section, the trustees and employees assigned to the variable supplements board are prohibited from having any interest, directly or indirectly, in the gains or profits of any investment of the housing police superior officers' variable supplements fund or as such, directly or indirectly, from receiving any pay or emolument for their services. The trustees and such employees, directly or indirectly, for themselves or as agents or partners of others, shall not borrow any of its funds or deposits or in any manner use the same except to make such current and necessary payments as are authorized by such board.

10. The superintendent of insurance may examine the affairs of the housing police superior officers' variable supplements fund with the same powers and jurisdiction as are applicable in the case of an examination of a life insurance company by the superintendent under article three of the insurance law. The housing police superior officers' variable supplements fund shall be subject to assessment for expenses pursuant to the provisions of section three hundred thirteen of the insurance law, but shall not be subject to assessment for expenses under any of the provisions of section three hundred thirty-two of the insurance law.

11. In the event that, for any calendar year covered by a payment guarantee, the assets of the variable supplements fund are not sufficient to pay benefits under this section for such year, an amount sufficient to pay such benefits shall be appropriated from the contingent reserve fund of the retirement system and transferred to the housing police superior officers' variable supplements fund.

**HISTORICAL NOTE**

Section added chap 846/1987 § 3

Subd. 1 pars (b), (c) amended chap 719/1994 § 10, eff. Aug. 2, 1994 and

retroactive to Jan 1, 1993.

Subd. 1 pars (d)-(g) added chap 719/1994 § 11, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993.

Subd. 2 amended chap 719/1994 § 12, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993.

Subd. 2 par (a) amended chap 375/1993 § 19 retro. to Jan. 1, 1992

Subd. 3 par (a) amended chap 719/1994 § 13, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993.

Subd. 3 par (b) subpar (2-a) added chap 719/1994 § 14, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993.

Subd. 3 par (c) amended chap 719/1994 § 15, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993.

Subd. 3 par (d) relettered chap 719/1994 § 17, eff. Aug. 2, 1994 and retroactive to Jan 1, 1993. [formerly par (e)]

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193 Payments16 to transit police variable supplements funds.

1. As used in this section, the following terms shall mean and include:

(a) "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred eighty-seven and ending on or before June thirtieth of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of this subdivision), with respect to which fiscal year a determination is required to be made as to whether the retirement system is required to make a payment, pursuant to the provisions of this section, to the transit police officer's variable supplements fund and the transit police superior officers' variable supplements fund.

(b) "Current fiscal year". The fiscal year of the city next succeeding the base fiscal year.

(c) "Transferable earnings". Subject to the provisions of section 13-193.1 of this chapter, the total amount obtained in a base fiscal year with respect to the New York city employees' retirement system by following the procedure described in paragraph twelve of subdivision a of section 13-232 of this title.

(d) "Amount of assets of the retirement system". With respect to any base fiscal year, the aggregate amount of all assets of the retirement system on June thirtieth of such fiscal year.

(e) "Amount of transit police assets". The amount obtained by multiplying the total assets of the retirement system as of June thirtieth of such base fiscal year; by (i) the total salaries of transit police members of the retirement system as of such June thirtieth and dividing the product by (ii) the total salaries of members of the retirement system as of such June thirtieth.

(f) "Allocation to the transit police variable supplements funds". With respect to any base fiscal year, the amount obtained: (i) by multiplying the transferable earnings, if any, with respect to such base fiscal year by the amount of transit police assets with respect to such base fiscal year; and

(ii) by dividing the amount computed pursuant to subparagraph (i) of this paragraph by the amount of assets of the retirement system with respect to such base fiscal year.

(g) "TPOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (g) of subdivision one of section 13-191 of this chapter (relating to the transit police officer's variable supplements fund)), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of section 13-191 of this chapter, and any succeeding calendar year.

(h) "TPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city beginning on or after July first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of this subdivision).

(i) "TPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (f) of subdivision one of section 13-192 of this chapter (relating to the transit police superior officers' variable supplements fund)**,20 of payment of variable supplements first take effect pursuant to paragraph (f) or paragraph (g) of subdivision three of section 13-192 of this chapter, and any succeeding calendar year.

(j) "TPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city beginning on or after July first of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of this subdivision).

2. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board of the retirement system shall:

(a) determine, in the manner provided in paragraph (f) of subdivision one of this section, whether there is an allocation to the transit police variable supplements funds with respect to such base fiscal year; and

(b) the total contributions made to the retirement system, with respect to such base fiscal year, on behalf of all transit police members who are police officers as of the last day of such base fiscal year; and

(c) the total contributions made to the retirement system, with respect to such base fiscal year, on behalf of all transit police members who are transit police superior officers, as of such last day.

3. (a) If there be an allocation to the transit police variable supplements funds with respect to the base fiscal year, determined as hereinabove provided, such allocation shall be divided into a transit police officer's variable supplements fund share and a transit police superior officers' variable supplements fund share in the ratio that the total contributions made to the retirement system with respect to such base fiscal year on behalf of transit police members who are transit police officers bears to the total contributions made to the retirement system with respect to such base fiscal year on behalf of transit police members who are transit police superior officers, as computed for such base fiscal year pursuant to the provisions of paragraphs (b) and (c) of subdivision two of this section.

(b) On or before August thirty-first of the current fiscal year, the retirement system shall pay from the contingent reserve fund to the transit police officer's variable supplements fund and the transit police superior officers' variable supplements fund their respective shares of such allocation to the transit police variable supplements funds, as such shares are computed pursuant to paragraph (a) of this subdivision.

4. The determination as to whether there are transferable earnings with respect to each base fiscal year (as

defined in paragraph (a) of subdivision one of this section), and if there are such transferable earnings, the amount thereof, shall be made as follows:

(a) for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, such determination shall be made pursuant to the preceding subdivisions of this section;

(b) for the nineteen hundred eighty-eight-nineteen hundred eighty-nine and nineteen hundred eighty-nine-nineteen hundred ninety base fiscal years, such determination shall be made pursuant to the preceding subdivisions of this section, as modified by the provisions of subdivisions one through five, inclusive, of section 13-193.1 of this chapter, as such subdivisions one through five were in effect during such base fiscal years;

(c) for the nineteen hundred ninety-nineteen hundred ninety-one base fiscal year and each succeeding base fiscal year to and including the last base fiscal year (as defined in paragraph (a) of subdivision one of this section), such determination shall be made pursuant to the preceding subdivisions of this section and subdivision six of section 13-193.1 of this chapter; and

(d) for the purpose of applying subdivision six of such section 13-193.1 pursuant to the provisions of paragraph (c) of this subdivision, such subdivision six shall be deemed to refer only to the base fiscal years mentioned in such paragraph (c).

5. The preceding subdivisions of this section shall be inapplicable to determination of any and all rights of the transit police officer's variable supplements fund and of the transit police superior officers' variable supplements fund to any payments from the retirement system derived from or based on investment earnings of the retirement system in any fiscal year of the city commencing on or after July first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section).

6. The determination as to whether the retirement system is required to pay any monies to the transit police officer's variable supplements fund with respect to all TPOVSF basis fiscal years related to a payment guarantee (as defined in paragraph (h) of subdivision one of this section), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.2 of this chapter.

7. (a) The determination as to whether the retirement system is required to pay any monies to the transit police superior officers' variable supplements fund with respect to the fiscal years of the city occurring during the period beginning on July first of the first TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (h) of subdivision one of this section) and ending on June thirtieth next preceding the first TPSOVSF basis fiscal year related to a payment guarantee (as defined in such paragraph (j), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.3 of this chapter.

(b) The determination as to whether the retirement system is required to pay any monies to the transit police superior officers' variable supplements fund with respect to all TPSOVSF basis fiscal years related to a payment guarantee (as defined in such paragraph (j)), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.6 of this chapter.

**HISTORICAL NOTE**

Section added chap 844/1987 § 5

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193 Payments17 to housing police variable supplements funds.

1. As used in this section, the following terms shall mean and include:

(a) "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred eighty-seven and ending on or before June thirtieth, nineteen hundred ninety-four.

(b) "Current fiscal year". The fiscal year of the city next succeeding the base fiscal year.

(c) "Transferable earnings". Subject to the provisions of section 13-193.1 of this chapter, the total amount obtained in a base fiscal year with respect to the New York city employees' retirement system by following the procedure described in paragraph twelve of subdivision a of section 13-232 of this title.

(d) "Amount of assets of the retirement system". With respect to any base fiscal year, the aggregate amount of all assets of the retirement system on June thirtieth of such fiscal year.

(e) "Amount of housing police assets". The amount obtained by multiplying the total assets of the retirement system as of June thirtieth of such base year; by (i) the total salaries of housing police members of the retirement system as of such June thirtieth and dividing the product by (ii) the total salaries of members of the retirement system as of such June thirtieth.

(f) "Allocation to the housing police variable supplements funds". With respect to any base fiscal year, the amount obtained: (i) by multiplying the transferable earnings, if any, with respect to such base fiscal year by the

amount of housing police assets with respect to such base fiscal year; and

(ii) by dividing the amount computed pursuant to subparagraph (i) of this paragraph by the amount of assets of the retirement system with respect to such base fiscal year.

(g) "HPOVSF calendar year covered by a payment guarantee". The calendar year nineteen hundred ninety-four and any succeeding calendar year.

(h) "HPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city beginning on or after July first of the first HPOVSF calendar year covered by a payment guarantee (as defined in paragraph (g) of this subdivision).

(i) "HPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee by the city of payment of variable supplements first take effect pursuant to paragraph (f) or paragraph (g) of subdivision three of section 13-192 of this chapter, and any succeeding calendar year.

(j) "HPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city beginning on or after July first of the first HPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of this subdivision).

2. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board of the retirement system shall:

(a) determine, in the manner provided in paragraph (f) of subdivision one of this section, whether there is an allocation to the housing police variable supplements funds with respect to such base fiscal year; and

(b) the total contributions made to the retirement system, with respect to such base fiscal year, on behalf of all housing police members who are police officers as of the last day of such base fiscal year; and

(c) the total contributions made to the retirement system, with respect to such base fiscal year, on behalf of all housing police members who are housing police superior officers, as of such last day.

3. (a) If there be an allocation to the housing police variable supplements funds with respect to the base fiscal year, determined as hereinabove provided, such allocation shall be divided into a housing police officer's variable supplements fund share and a housing police superior officers' variable supplements fund share in the ratio that the total contributions made to the retirement system with respect to such base fiscal year on behalf of housing police members who are housing police officers bears to the total contributions made to the retirement system with respect to such base fiscal year on behalf of housing police members who are housing police superior officers, as computed for such base fiscal year pursuant to the provisions of paragraphs (b) and (c) of subdivision two of this section.

(b) On or before August thirty-first of the current fiscal year, the retirement system shall pay from the contingent reserve fund to the housing police officer's variable supplements fund and the housing police superior officers' variable supplements fund their respective shares of such allocation to the housing police variable supplements funds, as such shares are computed pursuant to paragraph (a) of this subdivision.

4. The determination as to whether there are transferable earnings with respect to each base fiscal year (as defined in paragraph (a) of subdivision one of this section), and if there are such transferable earnings, the amount thereof, shall be made as follows:

(a) for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, such determination shall be made pursuant to the preceding subdivisions of this section;

(b) for the nineteen hundred eighty-eight-nineteen hundred eighty-nine and nineteen hundred

eighty-nine-nineteen hundred ninety base fiscal years, such determination shall be made pursuant to the preceding subdivisions of this section, as modified by the provisions of subdivisions one through five, inclusive, of section 13-193.1 of this chapter, as such subdivisions one through five were in effect during such base fiscal years;

(c) for the nineteen hundred ninety-nineteen hundred ninety-one base fiscal year and each succeeding base fiscal year to and including the last base fiscal year (as defined in paragraph (a) of subdivision one of this section), such determination shall be made pursuant to the preceding subdivisions of this section and subdivision six of section 13-193.1 of this chapter; and

(d) for the purpose of applying subdivision six of section 13-193.1 of this chapter pursuant to the provisions of paragraph (c) of this subdivision, such subdivision six shall be deemed to refer only to the base fiscal years mentioned in such paragraph (c).

5. The preceding subdivisions of this section shall be inapplicable to determination of any and all rights of the housing police officer's variable supplements fund and of the housing police superior officer's variable supplements fund to any payments from the retirement system derived from or based on investment earnings of the retirement system in any fiscal year of the city commencing on or after July first, nineteen hundred ninety-four.

6. The determination as to whether the retirement system is required to pay any monies to the housing police officer's variable supplements fund with respect to all HPOVSF basis fiscal years related to a payment guarantee (as defined in paragraph (h) of subdivision one of this section), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.4 of this chapter.

7. (a) The determination as to whether the retirement system is required to pay any monies to the housing police superior officers' variable supplements fund with respect to all HPSOVSF basis fiscal years related to a payment guarantee (as defined in paragraph (j) of subdivision one of this section), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.7 of this chapter.

(b) The determination as to whether the retirement system is required to pay any monies to the housing police superior officers' variable supplements fund with respect to any fiscal year of the city which is a*21 not a HPSOVSF basis fiscal year related to a payment guarantee (as defined in such paragraph (j)), but is a HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (h) of subdivision one of this section), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-193.5 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.1 Procedural modifications as to determination of payments to transit police and housing police variable supplements funds.

1. As used in this section, the following terms shall mean and include:

(a) "Transit police section 13-193." Section 13-193 of this chapter, as added by chapter eight hundred forty-four of the laws of nineteen hundred eighty-seven.

(b) "Housing police section 13-193." Section 13-193 of this chapter, as added by chapter eight hundred forty-six of the laws of nineteen hundred eighty-seven.

(c) "Base fiscal year." Where used in this section in relation to the transit police officer's variable supplements fund or the transit police superior officers' variable supplements fund, such term shall mean a fiscal year of the city included within the definition of the term "base fiscal year" in paragraph (a) of subdivision one of the transit police section 13-193. Where used in this section in relation to the housing police officer's variable supplements fund or the housing police superior officers' variable supplements fund, such term shall mean a fiscal year of the city included within the definition of the term "base fiscal year" in paragraph (a) of subdivision one of housing police section 13-193.

(d) "Board." The board of trustees of the New York city employees' retirement system.

2. For the purpose of determining the entitlement, with respect to any base fiscal year including*18 in the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, of the transit police officer's variable supplements fund, the transit police superior officers' variable supplements fund, the

housing police officer's variable supplements fund or the housing police superior officers' variable supplements fund to receive payment of any sum from the retirement system pursuant to the transit police section 13-193 or the housing police section 13-193, the procedure described in paragraph twelve of subdivision a of section 13-232 of this title shall be modified as provided for in the succeeding subdivisions of this section.

3. For such purpose only, paragraph five of subdivision a of such section 13-232 shall be deemed to read as follows:

5. (a) "Equity experience factor." An amount (expressed as a positive or negative quantity) which shall be computed pursuant to the succeeding subparagraphs of this paragraph five. (b) There shall be computed an amount equal to (i) the income earned by the retirement system during the base fiscal year from its investments in equities, plus (ii) the capital gains, realized or unrealized, occurring during such fiscal year by reason of such investments, less (iii) the capital losses, realized or unrealized, occurring during such fiscal year by reason of such investments. (c) In the event that any equity is sold during the base fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or capital loss and the amount thereof. (d) There shall be computed the sum which would be the equity experience factor for such base fiscal year if such factor were determined pursuant to paragraph five of subdivision a of section 13-232 of this title. (e) There shall be computed the amount which would have been the sum computed pursuant to subparagraph (d) of this paragraph (i) in the absence of the enactment of chapter five hundred eighty-one of the laws of nineteen hundred eighty-nine. (f) The amount required to be computed pursuant to the provisions of subparagraph (e) of this paragraph shall be computed pursuant to a scientific method recommended to the board by the actuary and approved by the board; provided that if the board is unable to approve, by the required vote, any such formula recommended by the actuary, such amount shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated by the board. If the board is unable to designate an arbitrator by the required vote, such amount shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator appointed by the supreme court, on the application of any member of the board. (g) The equity experience factor for such base fiscal year shall be the amount computed pursuant to the provisions of subparagraph (e) of this paragraph.

4. For such purpose only, subparagraph (a) of paragraph seven of subdivision a of section 13-232 of this title shall be deemed to read as follows:

(a) Subject to the provisions of subparagraph (e) of this paragraph seven, the aggregate of the hypothetical interest yields computed pursuant to subparagraphs (b), (c) and (d) of this paragraph.

5. For such purpose only, paragraph seven of subdivision a of section 13-232 of this title shall be deemed to include a subparagraph (e) reading as follows:

(e) (i) The hypothetical fixed income securities earnings for any base fiscal year included in the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety shall be determined pursuant to the provisions of this subparagraph (e). (ii) There shall be computed the amount which the hypothetical fixed income securities earnings for such base fiscal year would be, if determined pursuant to the provisions of subparagraphs (a), (b), (c) and (d) of this paragraph seven. (iii) The amount computed pursuant to item (ii) of this subparagraph shall be multiplied by a fraction; the numerator of which is the equity experience factor for such base fiscal year prescribed by subparagraph (g) of paragraph five of subdivision a of section 13-232 of this title, as such paragraph is deemed to read under the provisions of subdivision three of this section 13-193.1 and the denominator of which is the amount computed pursuant to subparagraph (d) of such paragraph five, as such paragraph is so deemed to read. (iv) The hypothetical fixed income securities earnings for such base fiscal year shall be the product of the multiplication prescribed by item (iii) of this subparagraph.

6. For the purpose of determining the entitlement, with respect to any base fiscal year beginning on or after July

first, nineteen hundred ninety, of any variable supplements fund referred to in subdivision two of this section to receive payment of any sum from the retirement system pursuant to transit police section 13-193 or housing police section 13-193 of this title, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title) and the cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of such subdivision) shall be calculated in the same manner as if this section 13-193.1 and the amendment made by section twenty-eight of chapter eight hundred seventy-eight of the laws of nineteen hundred ninety had never been enacted.

**HISTORICAL NOTE**

Section added chap 581/1989 § 89

Subd. 1 par (c) separately amended chap 719/1994 § 24, and chap

720/1994 § 19 both eff. Aug 2, 1994 and retroactive to Jan. 1, 1993.

Subd. 2 amended chap 607/1991 § 14, retro. to July 1, 1990

Subd. 3 par 5 subpar (e) amended chap 607/1991 § 15, retro. to July 1, 1990

Subd. 3 par 5 subpar (e) amended chap 878/1990 § 28 eff. July 25, 1990 applying on and after July 1, 1989

Subd. 5 par (e) subpar (i) amended chap 607/1991 § 16 retro to July 1,

1990

Subd. 6 added chap 607/1991 § 17, retro. to July 1, 1990

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.2 Payments to transit police officer's variable supplements fund for TPOVSF basis fiscal years related to a payment guarantee.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, for the purposes of this section, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of transit police section 13-193 shall apply to this section 13-193.2 with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(i) the term "TPOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" used in such paragraphs (d), (e) and (f);

(ii) the term "transferable earnings", as used in such paragraph (f), shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (g) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions set forth in paragraphs five, six, seven and eight of subdivision a of section 13-232 of this title shall apply to this section 13-193.2 with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(a) the term "TPOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" set forth in such paragraphs;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" or "fund" set forth in subparagraph (a) of such paragraph five and in such paragraphs seven and eight;

(c) the board referred to in subparagraph b of such paragraph eight shall be deemed to mean the board of trustees of the retirement system and the term "tie vote" shall be deemed to refer to a circumstance where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter; and

(d) the term "transferable earnings" set forth in subparagraph (b) of such paragraph eight shall be deemed to mean any TPOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) which is a positive quantity.

3. For the purposes of this section the following terms shall mean and include:

(a) "Transit police officers section 13-191". Section 13-191 of this chapter, which relates to the transit police officer's variable supplements fund.

(b) "Transit police section 13-193". Section 13-193 of this chapter, which relates to the transit police variable supplements funds.

(c) "TPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city commencing on or after July first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(d) "Prior TPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city which begins on or after the July first referred to in paragraph (c) of this subdivision and which also precedes a TPOVSF basis fiscal year related to a payment guarantee.

(e) "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) differs from the hypothetical fixed income securities earnings with respect to such TPOVSF basis fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(f) "Cumulative earnings factor as of June thirtieth in the first TPOVSF calendar year covered by a payment guarantee". (i) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(ii) (A) Subject to the provisions of item (B) of this subparagraph, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title), as made applicable by paragraph (c) of subdivision one of transit police section 13-193 to the base fiscal years defined in paragraph (a) of such subdivision one, shall be computed pursuant to such section 13-193 for the base fiscal year (as so defined by such paragraph (a)) next preceding July first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(B) In the computation of the cumulative earnings differential for such next preceding base fiscal year as provided for in item (A) of this subparagraph, computations for such next preceding base fiscal year and each preceding

base fiscal year shall be made in compliance with the applicable provisions of subdivision four of transit police section 13-193.

(iii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 and transit police section 13-193 with respect to such base fiscal year next preceding July first of the first TPOVSF calendar year covered by a payment guarantee.

(iv) The amount of transferable earnings (as defined in paragraph (c) of subdivision one of transit police section 13-193), if any, for such base fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section 13-193, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph (iii) of this paragraph.

(v) The sum resulting from the addition prescribed by subparagraph (iv) of this paragraph (f) shall be subtracted from the amount computed pursuant to subparagraph (ii) of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth in the first TPOVSF calendar year covered by a payment guarantee.

(g) "Cumulative earnings factor". (i) The cumulative earnings factor for any TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) shall be determined as follows: (A) If the cumulative earnings factor for the immediately preceding TPOVSF basis fiscal year related to a payment guarantee was a positive quantity, the cumulative earnings factor for the TPOVSF basis fiscal year related to a payment guarantee shall be equal to the earnings differential for such TPOVSF basis fiscal year related to a payment guarantee.

(B) If the cumulative earnings factor for the immediately preceding TPOVSF basis fiscal year related to a payment guarantee was a negative quantity, the cumulative earnings factor for the TPOVSF basis fiscal year related to a payment guarantee shall be equal to the sum of:

(1) the earnings differential for the TPOVSF basis fiscal year related to a payment guarantee; and

(2) the cumulative earnings factor for the immediately preceding TPOVSF basis fiscal year related to a payment guarantee, increased with interest at a rate equal to the assumed rate of interest (as defined in paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section by subdivision two of this section) fixed with respect to such TPOVSF basis fiscal year related to a payment guarantee for which a cumulative earnings factor is being determined pursuant to this paragraph (g).

(ii) In applying the provisions of this paragraph (g) for the first TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the term defined in paragraph (f) of this subdivision three as "cumulative earnings factor as of June thirtieth in the first TPOVSF calendar year covered by a payment guarantee" shall be substituted for the term "cumulative earnings factor for the immediately preceding TPOVSF basis fiscal year related to a payment guarantee."

(h) "TPOVSF cumulative earnings factor". With respect to any TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the amount obtained by multiplying the allocation to the transit police variable supplements funds (as defined in paragraph (f) of subdivision one of transit police section 13-193 of this chapter, as made applicable to this section 13-193.2 by subdivision one thereof), for such TPOVSF basis fiscal year related to a payment guarantee by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such TPOVSF basis fiscal year related to a payment guarantee on behalf of all transit police members who are transit police officers (as defined in subparagraph two of paragraph (f) of subdivision one of transit police officers section 13-191), as of the last day of such TPOVSF basis fiscal year and the denominator of which shall be the total contributions made to the retirement system with respect to such TPOVSF basis fiscal year related to a payment guarantee on behalf of all transit police members who are members of the uniformed transit police

force as of the last day of such TPOVSF basis fiscal year.

(i) "TPOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the transit police officer's variable supplements fund by the actuary pursuant to paragraph (i) of subdivision three of transit police officers section 13-191 shows that for any TPOVSF basis fiscal year related to a payment guarantee, such liabilities exceed such assets, the term "TPOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such TPOVSF basis fiscal year.

(j) "TPOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (g) of subdivision one of transit police officers section 13-191 of this title), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of such section, and any succeeding calendar year.

(k) "Current TPOVSF fiscal year related to a payment guarantee". The fiscal year of the city next succeeding a TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision).

4. As soon as practicable after the close of each TPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section), but not later than December thirty-first of the current TPOVSF fiscal year related to a payment guarantee (as defined in paragraph (k) of subdivision three of this section), the board of trustees of the retirement system shall compute the TPOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) with respect to such TPOVSF basis fiscal year.

5. If the TPOVSF cumulative earnings factor for such TPOVSF basis fiscal year is a positive quantity, the retirement system, on or before December thirty-first of the current TPOVSF fiscal year related to a payment guarantee, shall pay from its contingent reserve fund to the transit police officer's variable supplements fund, as the payment due for such TPOVSF basis fiscal year under this section, an amount determined pursuant to the provisions of subdivision six of this section.

6. The amount payable for such TPOVSF basis fiscal year as provided for in subdivision five of this section shall be the lesser of (a) the TPOVSF cumulative earnings factor for such TPOVSF basis fiscal year referred to in such subdivision five or (b) the TPOVSF unfunded accrued liability (as defined in paragraph (i) of subdivision three of this section) for such TPOVSF basis fiscal year.

7. No amount shall be due from or payable by the retirement system to such variable supplements fund under this section for any TPOVSF basis fiscal year related to a payment guarantee which shall exceed the TPOVSF unfunded accrued liability for such TPOVSF basis fiscal year, regardless of the amount and character of the TPOVSF cumulative earnings factor for such TPOVSF basis fiscal year.

8. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.3 Payments to transit police superior officers' variable supplements fund for TPSOVSF transition fiscal years.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, for the purposes of this section, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of transit police section 13-193 shall apply to this section 13-193.3 with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any TPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section):

(i) the term "base fiscal year" used in such paragraphs (d), (e) and (f) shall be deemed to refer to a TPSOVSF transition fiscal year;

(ii) the term "transferable earnings", as used in such paragraph (f), shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (i) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions of terms set forth in paragraphs four, six, eight, nine and ten of subdivision a of section 13-232 of this title shall apply to this section 13-193.3 with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any TPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section):

(a) the term "TPSOVSF transition fiscal year" shall be deemed to be substituted for the term "base fiscal year"

set forth in such paragraphs;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" set forth in such paragraph eight and the term "tie vote" shall be deemed to refer to a circumstannce where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter; and

(c) the board referred to in subparagraph (b) of such paragraph eight shall be deemed to mean the board of trustees of the retirement system; and

(d) the term "transferable earnings" set forth in subparagraph (b) of such paragraph eight shall be deemed to mean any TPSOVSF cumulative earnings factor (as defined in paragraph (j) of subdivision three of this section) which is a positive quantity.

3. For the purposes of this section, the following terms shall mean and include:

(a) "Transit police superior officers section 13-192". Section 13-192 of this chapter, which relates to the transit police superior officers' variable supplements fund.

(b) "Transit police section 13-193". Section 13-193 of this chapter, which relates to the transit police variable supplements funds.

(c) "TPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (f) of subdivision one of transit police superior officers section 13-192 of this title), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of such section, and any succeeding calendar year.

(d) "TPSOVSF transition fiscal year". Any fiscal year of the city which occurs during the period commencing on July first of the first TPOVSF calendar year covered by a payment guarantee (as defined in paragraph (i) of subdivision one of section 13-191 of this chapter) and ending on June thirtieth of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of section 13-192 of this chapter).

(e) "Prior TPSOVSF transition fiscal year". Any fiscal year of the city which begins on or after the July first referred to in paragraph (d) of this subdivision and which also precedes a TPSOVSF transition fiscal year.

(f) "Cumulative earnings factor as of June thirtieth next preceding the first TPSOVSF transition fiscal year". (1) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(2) (A) Subject to the provisions of item (B) of this subparagraph, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title), as made applicable by paragraph (c) of subdivision one of transit police section 13-193 to the base fiscal years defined in paragraph (a) of such subdivision one, shall be computed pursuant to such section 13-193 for the base fiscal year (as so defined by such paragraph (a)) next preceding July first of the first TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision).

(B) In the computation of the cumulative earnings differential for such next preceding base fiscal year as provided for in item (A) of this subparagraph, computations for such next preceding base fiscal year and each preceding base fiscal year shall be made in compliance with the applicable provisions of subdivision four of transit police section 13-193.

(3) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph

thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 and transit police section 13-193 with respect to such base fiscal year next preceding July first of the first TPSOVSF transition fiscal year.

(4) The amount of transferable earnings (as defined in paragraph (c) of subdivision one of transit police section 13-193), if any, for such base fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section 13-193, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph three of this paragraph.

(5) The sum resulting from the addition prescribed by subparagraph four of this paragraph (f) shall be subtracted from the amount computed pursuant to subparagraph two of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth next preceding the first TPSOVSF transition fiscal year.

(g) "Equity experience factor". (1) An amount (expressed as a positive or negative quantity) which shall be determined for each TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision) in accordance with the method of computation set forth in the succeeding subparagraphs of this paragraph (g).

(2) The amount of income earned by the retirement system during the TPSOVSF transition fiscal year from its investment in equities shall be computed.

(3) To each such amount of income for each such TPSOVSF transition fiscal year there shall be added the capital gains, realized and unrealized, occurring during such TPSOVSF transition fiscal year by reason of such investments.

(4) From the sums resulting from the addition prescribed by subparagraph three of this paragraph there shall be subtracted the capital losses, realized or unrealized, occurring during such TPSOVSF transition fiscal year by reason of such investment.

(5) In the event that any equity is sold during any such TPSOVSF transition fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or a capital loss and the amount thereof.

(6) The remainder resulting from the subtraction prescribed by subparagraph four of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapter five hundred seventy-seven of the laws of nineteen hundred ninety-two.

(7) Any adjustment required to be made pursuant to the provisions of subparagraph six of this paragraph shall be computed pursuant to a scientific method recommended to the board of trustees of the retirement system by the actuary and approved by such board; provided that if such board is unable to approve, by the required vote, any such formula recommended by the actuary, such adjustment shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated pursuant to the procedure set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section 13-193.3 by subdivision two thereof. For the purposes of this paragraph, the term "transferable earnings" set forth in such subparagraph (b) shall be deemed to mean a TPSOVSF transition cumulative earnings factor (as defined in paragraph (j) of this subdivision) which is a positive quantity.

(8) The equity experience factor for such TPSOVSF transition fiscal year shall be the amount remaining after the adjustment prescribed by subparagraphs six and seven of this paragraph has been made.

(h) "Hypothetical fixed income securities earnings". (1) The aggregate of the hypothetical interest yields computed pursuant to subparagraphs two, three and four of this paragraph (h).

(2) The board of trustees of the retirement system shall compute with respect to each investment made or

maintained by the retirement system in an equity during the TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision), the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this paragraph (h), if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by the retirement system for a period (in the TPSOVSF transition fiscal year) co-extensive with the period during which such equity was held by the retirement system in the TPSOVSF transition fiscal year.

(3) For the purposes of this section, the amount of any such investment in an equity during the TPSOVSF transition fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the TPSOVSF transition fiscal year, in the case of any such equity acquired by the retirement system prior to the commencement of such fiscal year and held by the retirement system on the first day of such fiscal year; and

(ii) the total amount paid by the retirement system to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by the retirement system during the TPSOVSF transition fiscal year.

(4) For the purposes of this section, the amount of interest which would have been earned by the retirement system on such hypothetical fixed income securities during the TPSOVSF transition fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph three of this paragraph (h), by the assumed rate of interest for the TPSOVSF transition fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the retirement system for a part of the TPSOVSF transition fiscal year; and

(iii) by multiplying the amount of interest computed for the full TPSOVSF transition fiscal year pursuant to items (i) and (ii) of this subparagraph by a fraction, the numerator of which is the amount designated as the equity experience factor with respect to such TPSOVSF transition fiscal year by subparagraph eight of paragraph (g) of this subdivision three and the denominator of which is the remainder produced by the subtraction prescribed by subparagraph four of such paragraph (g) with respect to such TPSOVSF transition fiscal year; and

(iv) by adding together the products of all such multiplications performed pursuant to item (iii) of this subparagraph in relation to all such equities held by the retirement system during such fiscal year.

(i) "Cumulative earnings factor". (1) The cumulative earnings factor for any TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision) shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding TPSOVSF transition fiscal year was a positive quantity, the cumulative earnings factor for the TPSOVSF transition fiscal year shall be equal to the earnings differential for the TPSOVSF transition fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding TPSOVSF transition fiscal year was a negative quantity, the cumulative earnings factor for the TPSOVSF transition fiscal year shall be equal to the sum of:

(A) the earnings differential for the TPSOVSF transition fiscal year; and

(B) the cumulative earnings factor for the immediately preceding TPSOVSF transition fiscal year.

(2) In applying the provisions of this paragraph (i) for the first TPSOVSF transition fiscal year, the term defined in paragraph (f) of this subdivision as "cumulative earnings factor as of June thirtieth next preceding the first TPSOVSF

transition fiscal year" shall be substituted for the term "cumulative earnings factor for the immediately preceding TPSOVSF transition fiscal year."

(j) "TPSOVSF transition cumulative earnings factor". With respect to any TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision), the amount obtained by multiplying the allocation to the transit police variable supplements funds (as defined in paragraph (f) of subdivision one of transit police section 13-193 of this chapter, as made applicable to this section 13-193.3 by subdivision one thereof), for such TPSOVSF transition fiscal year by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such TPSOVSF transition fiscal year on behalf of all transit police members who are transit police superior officers (as defined in subdivision eighty-four of section 13-101 of this title) as of the last day of such TPSOVSF transition fiscal year, and the denominator of which shall be the total contributions made to the retirement system with respect to such TPSOVSF transition fiscal year on behalf of all transit police members who are members of the uniformed transit police force as of the last day of such TPSOVSF transition fiscal year.

(k) "Current TPSOVSF transition fiscal year". The fiscal year of the city next succeeding a TPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision).

4. As soon as practicable after the close of each TPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section), but not later than August thirty-first of the current TPSOVSF transition fiscal year (as defined in paragraph (k) of subdivision three of this section), the board shall compute the TPSOVSF transition cumulative earnings factor (as defined in paragraph (j) of subdivision three of this section) with respect to such TPSOVSF transition fiscal year.

5. If the TPSOVSF transition cumulative earnings factor for the TPSOVSF transition fiscal year is a positive quantity, the retirement system, on or before August thirty-first of the current TPSOVSF transition fiscal year, shall pay from its contingent reserve fund to the transit police superior officers' variable supplements fund a sum equal to the amount of such factor.

6. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.4 Payments to housing police officer's variable supplements fund for HPOVSF basis fiscal years related to a payment guarantee.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of housing police section 13-193 shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(i) the term "HPOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" used in paragraphs (d), (e) and (f) of subdivision one of housing police section 13-193 of this chapter;

(ii) the term "transferable earnings", as used in paragraph (f) of subdivision one of housing police section 13-193 of this chapter, shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (g) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions set forth in paragraphs five, six, seven and eight of subdivision a of section 13-232 of this title shall apply to this section 13-193.4 with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any HPOVSF basis fiscal year related to a payment guarantee (as defined in

paragraph (c) of subdivision three of this section):

(a) the term "HPOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" set forth in paragraphs five, six, seven and eight of subdivision a of section 13-232 of this title;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" or "fund" set forth in subparagraph (a) of paragraph five and in paragraphs seven and eight of subdivision a of section 13-232 of this chapter;

(c) the board referred to in subparagraph b of paragraph eight of subdivision a of section 13-232 of this chapter shall be deemed to mean the board of trustees of the retirement system and the term "tie vote" shall be deemed to refer to a circumstance where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter; and

(d) the term "transferable earnings" set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this chapter shall be deemed to mean any HPOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) which is a positive quantity.

3. For the purposes of this section the following terms shall mean and include:

(a) "Housing police officers section 13-191". Section 13-191 of this chapter, which relates to the housing police officer's variable supplements fund.

(b) "Housing police section 13-193". Section 13-193 of this chapter, which relates to the housing police variable supplements funds.

(c) "HPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city commencing on or after July first of the first HPOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(d) "Prior HPOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city which begins on or after the July first referred to in paragraph (c) of this subdivision and which also precedes a HPOVSF basis fiscal year related to a payment guarantee.

(e) "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) differs from the hypothetical fixed income securities earnings with respect to such HPOVSF basis fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(f) "Cumulative earnings factor as of June thirtieth in the first HPOVSF calendar year covered by a payment guarantee". (i) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(ii) (A) Subject to the provisions of item (B) of this subparagraph, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title), as made applicable by paragraph (c) of subdivision one of housing police section 13-193 to the base fiscal years defined in paragraph (a) of such subdivision one, shall be computed pursuant to such section 13-193 for the base fiscal year (as so defined by such paragraph (a)) next preceding July first of the first calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(B) In the computation of the cumulative earnings differential for such next preceding base fiscal year as provided for in item (A) of this subparagraph, computations for such next preceding base fiscal year and each preceding base fiscal year shall be made in compliance with the applicable provisions of subdivision four of housing police section 13-193.

(iii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of section 13-232 of this title) shall be computed pursuant to such section 13-232 and housing police section 13-193 with respect to such base fiscal year next preceding July first of the first HPOVSF calendar year covered by a payment guarantee.

(iv) The amount of transferable earnings (as defined in paragraph (c) of subdivision one of housing police section 13-193), if any, for such base fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section 13-193, shall be added to the cumulative distributions of transferrable earnings computed pursuant to subparagraph (iii) of this paragraph.

(v) The sum resulting from the addition prescribed by subparagraph (iv) of this paragraph shall be subtracted from the amount computed pursuant to subparagraph (ii) of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth in the first HPOVSF calendar year covered by a payment guarantee.

(g) "Cumulative earnings factor". (i) The cumulative earnings factor for any HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) shall be determined as follows:

(A) If the cumulative earnings factor for the immediately preceding HPOVSF basis fiscal year related to a payment guarantee was a positive quantity, the cumulative earnings factor for the HPOVSF basis fiscal year related to a payment guarantee shall be equal to the earnings differential for such HPOVSF basis fiscal year related to a payment guarantee.

(B) If the cumulative earnings factor for the immediately preceding HPOVSF basis fiscal year related to a payment guarantee was a negative quantity, the cumulative earnings factor for the HPOVSF basis fiscal year related to a payment guarantee shall be equal to the sum of:

(1) the earnings differential for the HPOVSF basis fiscal year related to a payment guarantee; and

(2) the cumulative earnings factor for the immediately preceding HPOVSF basis fiscal year related to payment guarantee, increased with interest at a rate equal to the assumed rate of interest (as defined in paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section by subdivision two of this section) fixed with respect to such HPOVSF basis fiscal year related to a payment guarantee for which a cumulative earnings factor is being determined pursuant to this paragraph.

(ii) In applying the provisions of this paragraph for the first HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the term defined in paragraph (f) of this subdivision as "cumulative earnings factor as of June thirtieth in the first HPOVSF calendar year covered by a payment guarantee" shall be substituted for the term "cumulative earnings factor for the immediately preceding HPOVSF basis fiscal year related to a payment guarantee".

(h) "HPOVSF cumulative earnings factor". With respect to any HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the amount obtained by multiplying the allocation to the housing police variable supplements funds (as defined in paragraph (f) of subdivision one of housing police section 13-193, as made applicable to this section by subdivision one of this section), for such HPOVSF basis fiscal year related to a payment guarantee by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such HPOVSF basis fiscal year related to a payment guarantee on behalf of all housing police

members who are housing police officers (as defined in subparagraph two of paragraph (f) of subdivision one of housing police officers section 13-191), as of the last day of such HPOVSF basis fiscal year and the denominator of which shall be the total contributions made to the retirement system with respect to such HPOVSF basis fiscal year related to a payment guarantee on behalf of all housing police members who are members of the housing police service as of the last day of such HPOVSF basis fiscal year.

(i) "HPOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the housing police officer's variable supplements fund by the actuary pursuant to paragraph (g) of subdivision three of housing police officers section 13-191 shows that for any HPOVSF basis fiscal year related to a payment guarantee, such liabilities exceed such assets, the term "HPOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such HPOVSF basis fiscal year.

(j) "HPOVSF calendar year covered by a payment guarantee". The calendar year nineteen hundred ninety-four and any succeeding calendar year.

(k) "Current HPOVSF fiscal year related to a payment guarantee". The fiscal year of the city next succeeding a HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision).

4. As soon as practicable after the close of each HPOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section), but not later than December thirty-first of the current HPOVSF fiscal year related to a payment guarantee (as defined in paragraph (k) of subdivision three of this section), the board of trustees of the retirement system shall compute the HPOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) with respect to such HPOVSF basis fiscal year.

5. If the HPOVSF cumulative earnings factor for such HPOVSF basis fiscal year is a positive quantity, the retirement system, on or before December thirty-first of the current HPOVSF fiscal year related to a payment guarantee, shall pay from its contingent reserve fund to the housing police officer's variable supplements fund, as the payment due for such HPOVSF basis fiscal year under this section, an amount determined pursuant to the provisions of subdivision six of this section.

6. The amount payable for such HPOVSF basis fiscal year as provided for in subdivision five of this section shall be the lesser of (a) the HPOVSF cumulative earnings factor for such HPOVSF basis fiscal year referred to in such subdivision five or (b) the HPOVSF unfunded accrued liability (as defined in paragraph (i) of subdivision three of this section) for such HPOVSF basis fiscal year.

7. No amount shall be due from or payable by the retirement system to such variable supplements fund under this section for any HPOVSF basis fiscal year related to a payment guarantee which shall exceed the HPOVSF unfunded accrued liability for such HPOVSF basis fiscal year, regardless of the amount and character of the HPOVSF cumulative earnings factor for such HPOVSF basis fiscal year.

8. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

*NYC Administrative Code 13-193.5*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.5 Payments to housing police superior officers' variable supplements fund for HPSOVSF transition fiscal years.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, the definition of terms set forth in paragraphs (d), (e) and (f) of subdivision one of housing police section 13-193 shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any HPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section):

(i) the term "base fiscal year" used in paragraphs (d), (e) and (f) of subdivision one of housing police section 13-193 shall be deemed to refer to a HPSOVSF transition fiscal year;

(ii) the term "transferable earnings", as used in paragraph (f) of subdivision one of housing police section 13-193, shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (i) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions of terms set forth in paragraphs four, six, eight, nine and ten of subdivision a of section 13-232 of this title shall apply to this section 13-193.5 with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any HPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section):

(a) the term "HPSOVSF transition fiscal year" shall be deemed to be substituted for the term "base fiscal year" set forth in paragraphs four, eight, nine and ten of subdivision a of section 13-232 of this title;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" set forth in paragraph eight of subdivision a of section 13-232 of this chapter and the term "tie vote" shall be deemed to refer to a circumstance where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter;

(c) the board referred to in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this chapter shall be deemed to mean the board of trustees of the retirement system; and

(d) the term "transferable earnings" set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this chapter shall be deemed to mean any HPSOVSF cumulative earnings factor (as defined in paragraph (j) of subdivision three of this section) which is a position quantity.

3. For the purposes of this section, the following terms shall mean and include:

(a) "HPOVSF basis fiscal year related to a payment guarantee". Any fiscal year which is a HPOVSF basis fiscal year related to a payment guarantee, as defined in paragraph (c) of subdivision three of section 13-193.4 of this chapter.

(b) "Housing police section 13-193". Section 13-193 of this chapter, which relates to the housing police variable supplements funds.

(c) "HPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year which is a HPSOVSF basis fiscal year related to a payment guarantee, as defined in paragraph (c) of subdivision three of section 13-193.7 of this chapter.

(d) "HPSOVSF transition fiscal year". Any fiscal year of the city which is a HPOVSF*22 basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision) but is not a HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision).

(e) "Prior HPSOVSF transition fiscal year". Any fiscal year of the city which is a HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision) and which also precedes a HPSOVSF transition fiscal year for which a computation is being made pursuant to this section to determine whether a payment is due from the retirement system to the housing police superior officers' variable supplements fund.

(f) "Cumulative earnings factor as of June thirtieth next preceding the first HPSOVSF transition fiscal year". (1) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(2) (A) Subject to the provisions of item (B) of this subparagraph, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this chapter), as made applicable by paragraph (c) of subdivision one of housing police section 13-193 to the base fiscal years defined in paragraph (a) of such subdivision one, shall be computed pursuant to such section 13-193 for the base fiscal year (as so defined by such paragraph (a)) next preceding July first of the first HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision).

(B) In the computation of the cumulative earnings differential for such next preceding base fiscal year as provided for in item (A) of this subparagraph, computations for such next preceding base fiscal year and each preceding base fiscal year shall be made in compliance with the applicable provisions of subdivision four of housing police section 13-193 of this chapter.

(3) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of section 13-232 of this title) shall be computed pursuant to such section and housing police section 13-193 with respect to such base fiscal year next preceding July first of the first HPSOVSF transition fiscal year.

(4) The amount of transferable earnings (as defined in paragraph (c) of subdivision one of housing police section 13-193), if any, for such base fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph three of this paragraph.

(5) The sum resulting from the addition prescribed by subparagraph four of this paragraph shall be subtracted from the amount computed pursuant to subparagraph two of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth next preceding the first HPSOVSF transition fiscal year.

(g) "Equity experience factor". (1) An amount (expressed as a positive or negative quantity) which shall be determined for each HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision) in accordance with the method of computation set forth in the succeeding subparagraphs of this paragraph.

(2) The amount of income earned by the retirement system during the HPSOVSF transition fiscal year from its investment in equities shall be computed.

(3) To each such amount of income for each such HPSOVSF transition fiscal year there shall be added the capital gains, realized and unrealized, occurring during such HPSOVSF transition fiscal year by reason of such investments.

(4) From the sums resulting from the addition prescribed by subparagraph three of this paragraph there shall be subtracted the capital losses, realized or unrealized, occurring during such HPSOVSF transition fiscal year by reason of such investment.

(5) In the event that any equity is sold during any such HPSOVSF transition fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or a capital loss and the amount thereof.

(6) The remainder resulting from the subtraction prescribed by subparagraph four of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapter three hundred seventy-five of the laws of nineteen hundred ninety-three.

(7) Any adjustment required to be made pursuant to the provisions of subparagraph six of this paragraph shall be computed pursuant to a scientific method recommended to the board of trustees of the retirement system by the actuary and approved by such board; provided that if such board is unable to approve, by the required vote, any such formula recommended by the actuary, such adjustment shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated pursuant to the procedure set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section by subdivision two of this section. For the purposes of this paragraph, the term "transferable earnings" set forth in such subparagraph (b) shall be deemed to mean a HPSOVSF transition cumulative earnings factor (as defined in paragraph (j) of this subdivision) which is a positive quantity.

(8) The equity experience factor for such HPSOVSF transition fiscal year shall be the amount remaining after the adjustment prescribed by subparagraphs six and seven of this paragraph has been made.

(h) "Hypothetical fixed income securities earnings". (1) The aggregate of the hypothetical interest yields computed pursuant to subparagraphs two, three and four of this paragraph.

(2) The board of trustees of the retirement systems shall compute with respect to each investment made or maintained by the retirement system in an equity during the HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision), the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this paragraph, if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by the retirement system for a period (in the HPSOVSF transition fiscal year) co-extensive with the period during which such equity was held by the retirement system in the HPSOVSF transition fiscal year.

(3) For the purposes of this section, the amount or any such investment in an equity during the HPSOVSF transition fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the HPSOVSF transition fiscal year, in the case of any such equity acquired by the retirement system prior to the commencement of such fiscal year and held by the retirement system on the first day of such fiscal year; and

(ii) the total amount paid by the retirement system to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by the retirement system during the HPSOVSF transition fiscal year.

(4) For the purposes of this section, the amount of interest which would have been earned by the retirement system on such hypothetical fixed income securities during the HPSOVSF transition fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph three of this paragraph, by the assumed rate of interest for the HPSOVSF transition fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the retirement system for a part of the HPSOVSF transition fiscal year; and

(iii) by multiplying the amount of interest computed for the full HPSOVSF transition fiscal year pursuant to items (i) and (ii) of this subparagraph by a fraction, the numerator of which is the amount designated as the equity experience factor with respect to such HPSOVSF transition fiscal year by subparagraph eight of paragraph (g) of this subdivision and the denominator of which is the remainder produced by the subtraction prescribed by subparagraph four of such paragraph with respect to such HPSOVSF transition fiscal year; and

(iv) by adding together the products of all such multiplications performed pursuant to item (iii) of this subparagraph in relation to all such equities held by the retirement system during such fiscal year.

(i) "Cumulative earnings factor." (1) The cumulative earnings factor for any HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision) shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding HPSOVSF transition fiscal year was a positive quantity, the cumulative earnings factor for the HPSOVSF transition fiscal year shall be equal to the earnings differential for the HPSOVSF transition fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding HPSOVSF transition fiscal year was a negative quantity, the cumulative earnings factor for the HPSOVSF transition fiscal year shall be equal to the sum of:

(A) the earnings differential for the HPSOVSF transition fiscal year; and

(B) the cumulative earnings factor for the immediately preceding HPSOVSF transition fiscal year.

(2) In applying the provisions of this paragraph (i) for the first HPSOVSF transition fiscal year, the term defined

in paragraph (f) of this subdivision as "cumulative earnings factor as of June thirtieth next preceding the first HPSOVSF transition fiscal year" shall be substituted for the term "cumulative earnings factor for the immediately preceding HPSOVSF transition fiscal year".

(j) "HPSOVSF transition cumulative earnings factor". With respect to any HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision), the amount obtained by multiplying the allocation to the housing police variable supplements funds (as defined in paragraph (f) of subdivision one of housing police section 13-193), as made applicable to this section by subdivision one of this section, for such HPSOVSF transition fiscal year by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such HPSOVSF transition fiscal year on behalf of all housing police members who are housing police superior officers (as defined in subdivision eighty-four of section 13-101 of this title) as of the last day of such HPSOVSF transition fiscal year, and the denominator of which shall be the total contributions made to the retirement system with respect to such HPSOVSF transition fiscal year on behalf of all housing police members who are members of the housing police service as of the last day of such HPSOVSF transition fiscal year.

(k) "Current HPSOVSF transition fiscal year". The fiscal year of the city next succeeding a HPSOVSF transition fiscal year (as defined in paragraph (d) of this subdivision).

4. As soon as practicable after the close of each HPSOVSF transition fiscal year (as defined in paragraph (d) of subdivision three of this section), but not later than August thirty-first of the current HPSOVSF transition fiscal year related to a payment guarantee (as defined in paragraph (k) of subdivision three of this section), the board shall compute the HPSOVSF transition cumulative earnings factor (as defined in paragraph (j) of subdivision three of this section) with respect to such HPSOVSF transition fiscal year.

5. If the HPSOVSF transition cumulative earnings factor for the HPSOVSF transition fiscal year is a positive quantity, the retirement system, on or before August thirty-first of the current HPSOVSF transition fiscal year, shall pay from its contingent reserve fund to the housing police superior officers' variable supplements fund a sum equal to the amount of such factor.

6. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.6 Payments to transit police superior officers' variable supplements fund for TPSOVSF basis fiscal years related to a payment guarantee.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, for the purpose of this section, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of transit police section 13-193 shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(i) the term TPSOVSF basis fiscal year related to a payment guarantee shall be deemed to be substituted for the term "base fiscal year" used in such paragraphs (d), (e) and (f);

(ii) the term "transferable earnings", as used in such paragraph (f), shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (g) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions set forth in paragraphs five, six, seven and eight of subdivision a of section 13-232 of this title shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(a) the term "TPSOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" set forth in such paragraphs;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" or "fund" set forth in subparagraph (a) of such paragraph five and in such paragraphs seven and eight;

(c) the board referred to in subparagraph (b) of such paragraph eight shall be deemed to mean the board of trustees of the retirement system and the term "tie vote" shall be deemed to refer to a circumstance where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter; and

(d) the term "transferable earnings" set forth in subparagraph (b) of such paragraph eight shall be deemed to mean any TPSOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) which is a positive quantity.

3. For the purposes of this section the following terms shall mean and include:

(a) "Transit police superior officers section 13-192". Section 13-192 of this chapter, which relates to the transit police superior officers' variable supplements fund.

(b) "Transit police section 13-193". Section 13-193 of this chapter, which relates to the transit police variable supplements funds.

(c) "TPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city commencing on or after July first of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(d) "Prior TPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city which begins on or after the July first referred to in paragraph (c) of this subdivision and which also precedes a TPSOVSF basis fiscal year related to a payment guarantee.

(e) "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) differs from the hypothetical fixed income securities earnings with respect to such TPSOVSF basis fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(f) "Cumulative earnings factor as of June thirtieth in the first TPSOVSF calendar year covered by a payment guarantee". (i) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(ii) Subject to the provisions of subparagraph (vi) of this paragraph, pursuant to the procedure set forth in paragraphs (c)*23 (d), (e) and (f) of transit police section 13-193, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title) shall be computed for the fiscal year of the city next preceding July first of the first TPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(iii) Subject to the provisions of subparagraph (vi) of this paragraph, the cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 and paragraphs (c), (d), (e) and (f) of transit police section 13-193 with

respect to such fiscal year next preceding July first of the first TPSOVSF calendar year covered by a payment guarantee.

(iv) Subject to the provisions of subparagraph (vi) of this paragraph, the amount of transferable earnings (as defined in paragraph (c) of subdivision one of transit police section 13-193), if any, for such fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section 13-193, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph (iii) of this paragraph.

(v) The sum resulting from the addition prescribed by subparagraph (iv) of this paragraph shall be subtracted from the amount computed pursuant to subparagraph (ii) of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth in the first TPSOVSF calendar year covered by a payment guarantee.

(vi) For the purposes of the computations prescribed by the preceding subparagraphs of this paragraph:

(A) the term "base fiscal year" set forth in the provisions of such sections 13-193 and 13-232 mentioned in such subparagraphs shall be deemed to refer, as appropriate, to such fiscal year next preceding such July first and to any fiscal year of the city which both precedes such next preceding fiscal year and occurs after June thirtieth, nineteen hundred eighty-seven; and

(B) such computations shall be made in the same manner as if the provisions of section 13-193.1 of this chapter (other than subdivision six of such section) and the amendment made by section twenty-eight of chapter eight hundred seventy-eight of the laws of nineteen hundred ninety had never been enacted.

(g) "Cumulative earnings factor". (i) The cumulative earnings factor for any TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) shall be determined as follows:

(A) If the cumulative earnings factor for the immediately preceding TPSOVSF basis fiscal year related to a payment guarantee was a positive quantity, the cumulative earnings factor for the TPSOVSF basis fiscal year related to a payment guarantee shall be equal to the earnings differential for such basis TPSOVSF fiscal year related to a payment guarantee.

(B) If the cumulative earnings factor for the immediately preceding TPSOVSF basis fiscal year related to a payment guarantee was a negative quantity, the cumulative earnings factor for the TPSOVSF basis fiscal year related to a payment guarantee shall be equal to the sum of:

(1) the earnings differential for the TPSOVSF basis fiscal year related to a payment guarantee; and

(2) the cumulative earnings factor for the immediately preceding TPSOVSF basis fiscal year related to a payment guarantee, increased with interest at a rate equal to the assumed rate of interest (as defined in paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section by subdivision two of this section) fixed with respect to such TPSOVSF basis fiscal year related to a payment guarantee for which a cumulative earnings factor is being determined pursuant to this paragraph.

(ii) In applying the provisions of this paragraph for the first TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the term defined in paragraph (f) of this subdivision as "cumulative earnings factor as of June thirtieth in the first TPSOVSF calendar year covered by a payment guarantee" shall be substituted for the term "cumulative earnings factor for the immediately preceding TPSOVSF basis fiscal year related to a payment guarantee".

(h) "TPSOVSF cumulative earnings factor". With respect to any TPSOVSF basis fiscal year related to a payment

guarantee (as defined in paragraph (c) of this subdivision), the amount obtained by multiplying the allocation to the transit police variable supplements funds (as defined in paragraph (f) of subdivision one of transit police section 13-193 of this chapter, as made applicable to this section by subdivision one thereof), for such TPSOVSF basis fiscal year related to a payment guarantee by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such TPSOVSF basis fiscal year related to a payment guarantee on behalf of all transit police members who are transit police superior officers (as defined in subdivision eighty-four of section 13-101 of this chapter), as of the last day of such TPSOVSF basis fiscal year and the denominator of which shall be the total contributions made to the retirement system with respect to such TPSOVSF basis fiscal year related to a payment guarantee on behalf of all transit police members who are members of the uniformed transit police force as of the last day of such TPSOVSF basis fiscal year.

(i) "TPSOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the transit police superior officers' variable supplements fund by the actuary pursuant to paragraph (i) of subdivision three of transit police superior officers section 13-192 shows that for any TPSOVSF basis fiscal year related to a payment guarantee, such liabilities exceed such assets, the term "TPSOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such TPSOVSF basis fiscal year.

(j) "TPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee, by a guarantee obligor (as defined in paragraph (f) of subdivision one of transit police superior officers section 13-192 of this title), of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of such section, and any succeeding calendar year.

(k) Current TPSOVSF fiscal year related to a payment guarantee". The fiscal year of the city next succeeding a TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision).

4. As soon as practicable after the close of each TPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section), but not later than December thirty-first of the current TPSOVSF fiscal year related to a payment guarantee (as defined in paragraph (k) of subdivision three of this section), the board of trustees of the retirement system shall compute the TPSOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) with respect to such TPSOVSF basis fiscal year.

5. If the TPSOVSF cumulative earnings factor of such TPSOVSF basis fiscal year is a positive quantity, the retirement system, on or before December thirty-first of the current TPSOVSF fiscal year related to a payment guarantee, shall pay from its contingent reserve fund to the transit police superior officers' variable supplements fund, as the payment due for such TPSOVSF basis fiscal year under this section, an amount determined pursuant to the provisions of subdivision six of this section.

6. The amount payable for such TPSOVSF basis fiscal year as provided for in subdivision five of this section shall be the lesser of (a) the TPSOVSF cumulative earnings factor for such TPSOVSF basis fiscal year referred to in such subdivision five or (b) the TPSOVSF unfunded accrued liability (as defined in paragraph (i) of subdivision three of this section) for such TPSOVSF basis fiscal year.

7. No amount shall be due from or payable by the retirement system to such variable supplements fund under this section for any TPSOVSF basis fiscal year related to a payment guarantee which shall exceed the TPSOVSF unfunded accrued liability for such TPSOVSF basis fiscal year, regardless of the amount and character of the TPSOVSF cumulative earnings factor for such TPSOVSF basis fiscal year.

8. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

**HISTORICAL NOTE**

Section added chap 720/1994 § 29, eff. Aug 2, 1994 and retroactive to Jan. 1, 1993.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-193.7 Payments to housing police superior officers' variable supplements fund for HPSOVSF basis fiscal years related to a payment guarantee.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, for the purpose of this section, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of housing police section 13-193 shall apply to this section 13-193.7 with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(i) the term HPSOVSF basis fiscal year related to a payment guarantee shall be deemed to be substituted for the term "base fiscal year" used in such paragraphs (d), (e) and (f);

(ii) the term "transferable earnings", as used in such paragraph (f), shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (g) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purpose of this section, the definitions set forth in paragraphs five, six, seven and eight of subdivision a of section 13-232 of this title shall apply to this section 13-193.7 with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(a) the term "HPSOVSF basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term "base fiscal year" set forth in such paragraphs;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" or "fund" set forth in subparagraph (a) of such paragraph five and in such paragraphs seven and eight;

(c) the board referred to in subparagraph (b) of such paragraph eight shall be deemed to mean the board of trustees of the retirement system and the term "tie vote" shall be deemed to refer to a circumstance where a resolution is not adopted because of the provisions of subparagraph (d) of paragraph five of subdivision b of section 13-103 of this chapter; and

(d) the term "transferable earnings" set forth in subparagraph (b) of such paragraph eight shall be deemed to mean any HPSOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) which is a positive quantity.

3. For the purposes of this section the following terms shall mean and include:

(a) "Housing police superior officers section 13-192". Section 13-192 of this chapter, which relates to the housing police superior officers' variable supplements fund.

(b) "Housing police section 13-193". Section 13-193 of this chapter, which relates to the housing police variable supplements funds.

(c) "HPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city commencing on or after July first of the first HPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(d) "Prior HPSOVSF basis fiscal year related to a payment guarantee". Any fiscal year of the city which begins on or after the July first referred to in paragraph (c) of this subdivision and which also precedes a HPSOVSF basis fiscal year related to a payment guarantee.

(e) "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) differs from the hypothetical fixed income securities earnings with respect to such HPSOVSF basis fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(f) "Cumulative earnings factor as of June thirtieth in the first HPSOVSF calendar year covered by a payment guarantee". (i) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(ii) Subject to the provisions of subparagraph (vi) of this paragraph, pursuant to the procedure set forth in paragraphs (c), (d), (e) and (f) of housing police section 13-193, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title) shall be computed for the fiscal year of the city next preceding July first of the first HPSOVSF calendar year covered by a payment guarantee (as defined in paragraph (j) of this subdivision).

(iii) Subject to the provisions of subparagraph (vi) of this paragraph, the cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 and paragraphs (c), (d), (e) and (f) of housing police section 13-193 with

respect to such fiscal year next preceding July first of the first HPSOVSF calendar year covered by a payment guarantee.

(iv) Subject to the provisions of subparagraph (vi) of this paragraph, the amount of transferable earnings (as defined in paragraph (c) of subdivision one of housing police section 13-193), if any, for such fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision four of such section 13-193, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph (iii) of this paragraph.

(v) The sum resulting from the addition prescribed by subparagraph (iv) of this paragraph (f) shall be subtracted from the amount computed pursuant to subparagraph (ii) of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth in the first HPSOVSF calendar year covered by a payment guarantee.

(vi) For the purposes of the computations prescribed by the preceding subparagraphs of this paragraph:

(A) the term "base fiscal year" set forth in the provisions of such sections 13-193 and 13-232 mentioned in such subparagraphs shall be deemed to refer, as appropriate, to such fiscal year next preceding such July first and to any fiscal year of the city which both precedes such next preceding fiscal year and occurs after June thirtieth, nineteen hundred eighty-seven; and

(B) such computations shall be made in the same manner as if the provisions of section 13-193.1 of this chapter (other than subdivision six of such section) and the amendment made by section twenty-eight of chapter eight hundred seventy-eight of the laws of nineteen hundred ninety had never been enacted.

(g) "Cumulative earnings factor". (i) The cumulative earnings factor for any HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision) shall be determined as follows:

(A) If the cumulative earnings factor for the immediately preceding HPSOVSF basis fiscal year related to a payment guarantee was a positive quantity, the cumulative earnings factor for the HPSOVSF basis fiscal year related to a payment guarantee shall be equal to the earnings differential for such basis HPSOVSF fiscal year related to a payment guarantee.

(B) If the cumulative earnings factor for the immediately preceding HPSOVSF basis fiscal year related to a payment guarantee was a negative quantity, the cumulative earnings factor for the HPSOVSF basis fiscal year related to a payment guarantee shall be equal to the sum of:

(1) the earnings differential for the HPSOVSF basis fiscal year related to a payment guarantee; and

(2) the cumulative earnings factor for the immediately preceding HPSOVSF basis fiscal year related to a payment guarantee, increased with interest at a rate equal to the assumed rate of interest (as defined in paragraph eight of subdivision a of section 13-232 of this title, as made applicable to this section by subdivision two of this section) fixed with respect to such HPSOVSF basis fiscal year related to a payment guarantee for which a cumulative earnings factor is being determined pursuant to this paragraph (g).

(ii) In applying the provisions of this paragraph (g) for the first HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision), the term defined in paragraph (f) of this subdivision three as "cumulative earnings factor as of June thirtieth in the first HPSOVSF calendar year covered by a payment guarantee" shall be substituted for the term "cumulative earnings factor for the immediately preceding HPSOVSF basis fiscal year related to a payment guarantee".

(h) "HPSOVSF cumulative earnings factor". With respect to any HPSOVSF basis fiscal year related to a

payment guarantee (as defined in paragraph (c) of this subdivision), the amount obtained by multiplying the allocation to the housing police variable supplements funds (as defined in paragraph (f) of subdivision one of housing police section 13-193 of this chapter, as made applicable to this section 13-193.7 by subdivision one thereof), for such HPSOVSF basis fiscal year related to a payment guarantee by a fraction, the numerator of which shall be the total contributions made to the retirement system with respect to such HPSOVSF basis fiscal year related to a payment guarantee on behalf of all housing police members who are housing police superior officers (as defined in subdivision eighty-four of section 13-101 of this chapter), as of the last day of such HPSOVSF basis fiscal year and the denominator of which shall be the total contributions made to the retirement system with respect to such HPSOVSF basis fiscal year related to a payment guarantee on behalf of all housing police members who are members of the housing police service as of the last day of such HPSOVSF basis fiscal year.

(i) "HPSOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the housing police superior officers' variable supplements fund by the actuary pursuant to paragraph (h) of subdivision three of housing police superior officers section 13-192 shows that for any HPSOVSF basis fiscal year related to a payment guarantee, such liabilities exceed such assets, the term "HPSOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such HPSOVSF basis fiscal year.

(j) "HPSOVSF calendar year covered by a payment guarantee". The calendar year in which a guarantee of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of housing police superior officers section 13-192, and any succeeding calendar year.

(k) "Current HPSOVSF fiscal year related to payment guarantee". The fiscal year of the city next succeeding a HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of this subdivision).

4. As soon as practicable after the close of each HPSOVSF basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section), but not later than December thirty-first of the current HPSOVSF fiscal year related to a payment guarantee (as defined in paragraph (k) of subdivision three of this section,*24 the board of trustees of the retirement system shall compute the HPSOVSF cumulative earnings factor (as defined in paragraph (h) of subdivision three of this section) with respect to such HPSOVSF basis fiscal year.

5. If the HPSOVSF cumulative earnings factor of such HPSOVSF basis fiscal year is a positive quantity, the retirement system, on or before December thirty-first of the current HPSOVSF fiscal year related to a payment guarantee, shall pay from its contingent reserve fund to the housing police superior officers' variable supplements fund, as the payment due for such HPSOVSF basis fiscal year under this section, an amount determined pursuant to the provisions of subdivision six of this section.

6. The amount payable for such HPSOVSF basis fiscal year as provided for in subdivision five of this section shall be the lesser of (a) the HPSOVSF cumulative earnings factor for such HPSOVSF basis fiscal year referred to in such subdivision five or (b) the HPSOVSF unfunded accrued liability (as defined in paragraph (i) of subdivision three of this section) for such HPSOVSF basis fiscal year.

7. No amount shall be due from or payable by the retirement system to such variable supplements fund under this section for any HPSOVSF basis fiscal year related to a payment guarantee which shall exceed the HPSOVSF unfunded accrued liability for such HPSOVSF basis fiscal year, regardless of the amount and character of the HPSOVSF cumulative earnings factor for such HPSOVSF basis fiscal year.

8. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-194 Correction officers' variable supplements fund.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Association". The New York city correction officers' benevolent association.

(b) "Variable supplements board". The board of trustees provided for in subdivision three of this section.

(c) "Beneficiary". Any person who receives a retirement allowance by reason of having retired, on or after July first, nineteen hundred ninety-nine for service as a correction officer with immediate payability of a retirement allowance, and with credit for (1) twenty or more years of service, if such correction officer retires as a participant in and pursuant to the provisions of a twenty-year uniformed correction plan (as defined in paragraph (e) of this subdivision), or (2) twenty-five or more years of service, if such correction officer retires as a participant in and pursuant to the provisions of a retirement plan other than a twenty-year uniformed correction plan, provided, however, that nothing contained in this paragraph shall be construed as modifying any eligibility requirement for service retirement in any service retirement plan.

(d) "Variable supplement". Any sum authorized to be paid to a beneficiary pursuant to the provisions of this section.

(e) "Twenty-year uniformed correction plan". A service retirement plan in which any correction officer who has twenty or more years of service is eligible to retire for service at any age with immediate payability of a retirement

allowance.

(f) "Correction officer". A member of the uniformed force of the New York city department of correction who is a member of the retirement system (as defined in subdivision one of section 13-101 of this chapter).

(g) "Calendar year not covered by a payment guarantee". Any calendar year beginning on or after January first, two thousand, which year precedes the first calendar year in which a guarantee of payment of variable supplements takes effect pursuant to the provisions of paragraph (f) or paragraph (g) of subdivision three of this section.

(h) "Calendar year covered by a payment guarantee". The calendar year in which a guarantee of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of this section, and any succeeding calendar year.

2. (a) There is hereby established a fund, to be known as the correction officers' variable supplements fund. Such fund shall consist of such monies as may be paid thereto from the retirement system pursuant to the provisions of sections 13-195 and 13-195.1 of this chapter and all other monies received by such fund from any other source pursuant to law.

(b) It is hereby declared by the legislature that the correction officers' variable supplements fund shall not be, and shall not be construed to constitute, a pension or retirement system or fund, and that it shall function as a means whereby payments, not constituting a pension or retirement allowance, may be made in accordance with the provisions of this section, to eligible beneficiaries as a supplement to benefits received by them pursuant to this title. The legislature hereby reserves to the state and itself the right and power to amend, modify or repeal any or all of the provisions of this section.

3. (a) The correction officers' variable supplements fund shall be administered by a board of trustees which shall, subject to applicable provisions of law, from time to time establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof.

(b) Such variable supplements board shall consist of:

(1) The representative of the mayor who is a member of the board of trustees of the retirement system, who shall be entitled to cast one vote. The mayor may, by instrument in writing filed in his office and with the variable supplements board, designate one or more members of his office to act in the place of such representative at meetings of the board, in the event of such representative's absence therefrom.

(2) The comptroller of the city, who shall be entitled to cast one vote. Any deputy comptroller authorized pursuant to subdivision b of section ninety-four of the New York city charter, to act in the place of the comptroller as a member of the board of trustees of the retirement system, may be authorized by the comptroller, in accordance with the provisions of such subdivision, to act in the place of the comptroller as a member of the variable supplements board.

(2-a) The commissioner of finance, who shall be entitled to cast one vote. Such commissioner may, by instrument in writing filed in his or her office and with the variable supplements board, designate one or more members of his or her office to act in his or her place at meetings of such board, in the event of such commissioner's absence therefrom.

(3) One member of the association designated by it, who shall be entitled to cast one and one-half votes. The member so designated shall be an officer of the association. Such designee may at any time, by written authoriztion filed with the variable supplements board, authorize any other officer of the association to act in his place as a member of the board in the event of such designee's absence from any meeting thereof; provided that the bylaws or constitution of the association provide for the designation of a representative for such purpose.

(4) One representative of the correction captains, designated by the recognized employee organization representing such correction captains for collective bargaining purposes. Such representative shall be entitled to cast one-half vote. Such representative may at any time, by written authorization filed with the variable supplements board, authorize any other officer of such organization to act in his place as a member of the board in the event of such designee's absence from any meeting thereof.

(c) Every act of the variable supplements board shall be by resolution which shall be adopted only by a vote of at least three-fifths of the whole number of votes authorized to be cast by all of the members of such board.

(d) Repealed.

(d) The actuary appointed by the board of the retirement system shall be the technical advisor of the variable supplements board.

(d-1) The retirement system shall assign to the variable supplements board such number of clerical and other assistants as may be necessary for the performance of its functions.

(e)(1) As of October thirty-first, two thousand and as of October thirty-first of each succeeding calendar year not covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section), the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (i) of this subdivision, and make an estimate of the total amount of variable supplements which would be payable, pursuant to subdivision four of this section and subparagraph two of this paragraph, to beneficiaries for such calendar year for which such valuation and estimate are made, if such actuary determines that the value of such assets, as of October thirty-first of such calendar year, is equal to or greater than such total amount of variable supplements.

(2) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is equal to or greater than such estimated total amount of variable supplements which would be payable for such calendar year, then the variable supplements which, upon a favorable determination of the actuary under this paragraph, are declared by subdivision four of this section to be payable to beneficiaries for such calendar year or a part thereof shall be paid by the variable supplements fund, in the applicable amounts prescribed by such subdivision four, to beneficiaries on or about December fifteenth of such calendar year.

(3) If such actuary determines that the value of such assets, as of October thirty-first of any such calendar year for which a valuation and estimate are required by subparagraph one of this paragraph, is less than such estimated total amount of variable supplements which would be payable for such calendar year pursuant to a favorable determination of the actuary, then no beneficiary shall be entitled to receive any variable supplement for such calendar year or any part thereof and no variable supplement shall be paid to any beneficiary for such calendar year or any part thereof.

(4) In any case where, pursuant to the provisions of subparagraphs one and three of this paragraph, no variable supplements are payable for a calendar year or part thereof to any beneficiary, no variable supplements for such calendar year or part thereof shall at any time thereafter be payable and no beneficiary shall at any time thereafter be entitled to receive a variable supplement for such calendar year or part thereof.

(f)(1) As of October thirty-first, two thousand and as of October thirty-first of each succeeding calendar year up to and including the earlier of (i) the first calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section) or (ii) the calendar year two thousand eighteen, the actuary referred to in paragraph (d) of this subdivision shall value the assets of the variable supplements fund, subject to the provisions of paragraph (i) of this subdivision, and shall estimate the present value, as of such October thirty-first, of all variable supplements which the variable supplements fund, under the provisions of subdivision four of this section, would be obligated to pay to beneficiaries with the respect to the calendar year in which such October thirty-first occurs and all succeeding calendar years up to and including the calendar year two thousand eighteen, if it were assumed that such variable supplements

were payable with respect to all such calendar years occurring during the period beginning with the calendar year in which such October thirty-first occurs and extending to and including the calendar year two thousand eighteen.

(2) If the value of such assets as of any such October thirty-first is equal to or greater than such estimated present value of variable supplements as of such October thirty-first:

(i) variable supplements, as provided for in subdivision four of this section, shall be paid to beneficiaries for the calendar year in which such October thirty-first occurs and for each subsequent calendar year; and

(ii) paragraph (e) of this subdivision shall be inapplicable with respect to entitlement of beneficiaries to variable supplements for the calendar years referred to in item (i) of this subparagraph; and

(iii) payment of all variable supplements payable for the calendar years referred to in item (i) of this subparagraph is hereby made an obligation of the city and the city hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(g) If a guarantee of payment of variable supplements, pursuant to paragraph (f) of this subdivision does not take effect prior to the calendar year two thousand nineteen, variable supplements, as provided for in subdivision four of this section, shall be paid pursuant to such subdivision four for the calendar year two thousand nineteen and each subsequent calendar year. Such payment is hereby made an obligation of the city and the city hereby guarantees that such variable supplements shall be paid to all beneficiaries for such calendar years.

(h)(1) Subject to the provisions of paragraph (i) of this subdivision, as of June thirtieth next succeeding the first calendar year covered by a payment guarantee (as defined in paragraph (h) of subdivision one of this section) and as of each succeeding June thirtieth, the actuary referred to in paragraph (d) of this subdivision shall make a valuation of the assets and liabilities of the variable supplements fund in accordance with the requirements of the succeeding subparagraphs of this paragraph. For the purposes of paragraph (g) of subdivision three of section 13-195.1 of this chapter, such valuation as of any such June thirtieth shall be the valuation for the basis fiscal year related to a payment guarantee (as defined in paragraph (a) of subdivision three of such section 13-195.1) in which such June thirtieth occurs.

(2) The actuary shall base such annual valuation of liabilities only (i) upon the persons who, as of each such June thirtieth, are beneficiaries and (ii) upon the persons who, being correction officers in service as of such June thirtieth, may be actuarially expected to retire thereafter as correction officers for service with the number of years of service required to become beneficiaries (as defined in paragraph (c) of subdivision one of this section).

(3) The liabilities determined in such valuation shall be equal to the actuarial present value of accumulated plan benefits. The actuarial assumptions used by the actuary in making such annual valuation of liabilities, including assumptions as to interest rate, mortality of beneficiaries and number of correction officers in service as of June thirtieth who will retire as correction officers for service with the number of years of service required to become beneficiaries (as defined in paragraph (c) of subdivision one of this section), shall be adopted by the variable supplements board on the recommendation of the actuary.

(i) For the purposes of the valuation of the assets of the variable supplements fund pursuant to paragraphs (e), (f) and (h) of this subdivision, such assets shall be valued at their fair market value as of the applicable date with respect to which such assets are required to be valued under the applicable provisions of such paragraphs.

(j) Whenever variable supplements are payable to beneficiaries of the correction officers' variable supplements fund pursuant to the provisions of this section, such payment, except as provided in paragraphs (f) and (g) of this subdivision, shall not be an obligation of the city and the city, except as provided for in such paragraphs (f) and (g), shall not guarantee such payment.

4. (a) The variable supplements fund shall pay variable supplements to beneficiaries in accordance with the

succeeding paragraphs of this subdivision.

(b) No variable supplements shall be payable to any beneficiary for any calendar year or part thereof preceding January first, two thousand.

(c) For calendar years succeeding December thirty-first, nineteen hundred ninety-nine, the variable supplements fund, subject to the provisions of paragraphs (e), (f) and (g) of subdivision three of this section, and provided any applicable conditions precedent to payability as prescribed by such provisions are satisfied, and subject to the provisions of paragraph (e) of this subdivision, shall pay to each beneficiary, who retired on or after July first, nineteen hundred ninety-nine and prior to January first, two thousand, variable supplements payments as follows:

(1) for each calendar year following calendar year nineteen hundred ninety-nine, but not including the calendar year of beneficiary's death, a single annual payment to be paid on or about December fifteenth of such year, as follows:

| CALENDAR YEAR | SUPPLEMENT |
|---|---|
| 2000 | $ 8,500 |
| 2001 | $ 9,000 |
| 2002 | $ 9,500 |
| 2003 | $10,000 |
| 2004 | $10,500 |
| 2005 | $11,000 |
| 2006 | $11,500 |
| 2007 | $12,000 |
| 2008 | $12,000 |
| 2009 | $12,000 |
| 2010 | $12,000 |
| 2011 | $12,000 |
| 2012 | $12,000 |
| 2013 | $12,000 |
| 2014 | $12,000 |
| 2015 | $12,000 |
| 2016 | $12,000 |
| 2017 | $12,000 |
| 2018 | $12,000 |
| 2019 and each calendar year thereafter | $12,000 |

(2) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, two thousand), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided in the chart set forth in subparagraph one of this paragraph, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death.

(d) For calendar years succeeding December thirty-first, nineteen hundred ninety-nine, the variable supplements fund, subject to the provisions of paragraphs (e), (f) and (g) of subdivision three of this section and provided any applicable conditions precedent to payability under such provisions are satisfied, and subject to the provisions of paragraph (e) of this subdivision, shall pay to each person who retired for service on or after January first, two thousand so as to become a beneficiary, variable supplements payments as follows:

(1) for the calendar year of retirement, an amount calculated by multiplying one-twelfth times the supplement applicable to the year of retirement, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of calendar months elapsing from and including the month next following the month of retirement to the end of such calendar year of retirement, such payment to be made on or about December fifteenth of such year;

(2) for each calendar year following the year of retirement, but not including the calendar year of the beneficiary's death, a single annual payment equal to the supplement provided for with respect to each such calendar year as set forth in the chart in subparagraph one of paragraph (c) of this subdivision, which payment shall be made on or about December fifteenth of such year;

(3) for the calendar year of the beneficiary's death (for those beneficiaries who die on or after February first, two thousand), an amount calculated by multiplying one-twelfth times the supplement applicable to the year of death, as provided for in the chart set forth in subparagraph one of paragraph (c) of this subdivision, by the number of full calendar months the beneficiary lived during that calendar year prior to the month of his or her death; and

(4) if the retirement and death of a beneficiary occur in the same calendar year, aggregate payments under subparagraphs one and three of this paragraph shall be made only in respect to calendar months following the month of retirement and preceding the month of death.

(e) (1) (i) Subject to the provisions of items (ii) and (iii) of this subparagraph, on or after January first, two thousand, where a beneficiary is entitled to receive variable supplements payments pursuant to paragraph (c) or (d) of this subdivision, and that beneficiary is also entitled to receive a supplemental retirement allowance or cost-of-living adjustment pursuant to any other provision of law enacted on or after the effective date of the chapter which amended this subdivision (hereinafter referred to as "other supplemental retirement allowance"), the amount of such variable supplement payable for a calendar year or a part of such calendar year to such beneficiary shall be reduced by the amount of such other supplemental retirement allowance that is payable to such beneficiary to the extent that such other supplemental retirement allowance is attributable to the same calendar year or part of such calendar year.

(ii) For any beneficiary referred to in paragraph (c) or (d) of this subdivision, whose variable supplements payments are being reduced pursuant to item (i) of this subparagraph because such other supplemental retirement allowance is also payable to that beneficiary, the reduction provided for in such item (i) shall cease as to such beneficiary on the later of (A) the first day of the month next following the month in which such beneficiary attains age sixty-two; or (B) January first, two thousand seven.

(iii) In any case where the reduction of variable supplements payments to a beneficiary has ceased pursuant to item (ii) of this subparagraph, that beneficiary, for the purpose of determining his or her eligibility for and the amount of any other supplemental retirement allowance, shall be deemed to have retired on the date of the cessation of such reduction specified in the applicable provisions of such item (ii).

(2) The legislature hereby declares that the variable supplements authorized by this section and the granting and

receipt thereof:

(i) shall not create or constitute membership in a pension or retirement system and shall not create or constitute a contract with any beneficiary or with any correction officer; and

(ii) shall not constitute a pension or retirement allowance or benefit under the retirement system or otherwise.

(3) Except as otherwise provided in sections 13-195 and 13-195.1 of this chapter, nothing contained in this section shall create or impose any obligation on the part of the retirement system, or the funds or monies thereof, or authorize such funds or monies to be appropriated or used for any payment under this section or for any purpose thereof.

(f) Beneficiaries shall be eligible to receive variable supplements pursuant to this section, notwithstanding any other provision of law to the contrary.

(g) The monies or assets of the variable supplements fund shall not be used for any purpose, other than payment of variable supplements pursuant to the provisions of this section, except that they may be invested as authorized by subdivision six of this section.

5. The correction officers' variable supplements fund shall have the powers and privileges of a corporation and by its name all of its business shall be transacted, all of its funds invested, all warrants for money drawn and payments made, and all of its cash and securities and other property held.

6. (a) The members of the variable supplements board shall be the trustees of the monies received by or belonging to the correction officers' variable supplements fund pursuant to this section and, subject to the provisions of paragraph (b) of this subdivision, shall have full power to invest same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of such monies shall have been invested as well as of the proceeds of such investments and of any monies belonging to such fund.

(b) The members of the variable supplements board shall have the same investment powers and power to delegate such powers as are vested by the code and the retirement and social security law in the members of the board of trustees of the retirement system.

7. The variable supplements board shall publish annually in the City Record a report for the preceding year showing the assets of the correction officers' variable supplements fund and a statement as to the accumulated cash and securities of such fund as certified by the comptroller, and shall set forth in such report such other facts, recommendations and data as the board may deem pertinent.

8. The comptroller shall be custodian of the monies and assets of the correction officers' variable supplements fund. All such monies and assets included in such fund or which shall hereafter accrue to such fund shall be in his custody for the purposes of this section subject to the direction, control and approval of such board as to disposition, investment, management and report. All payments from such fund shall be made by the comptroller upon a voucher signed by the secretary of the variable supplements board.

9. Except as provided in this section, the trustees and employees assigned to the variable supplements board are prohibited from having any interest, directly or indirectly, in the gains or profits of any investment of the correction officers' variable supplements fund or as such, directly or indirectly, from receiving any pay or emolument for their services. The trustees and such employees, directly or indirectly, for themselves or as agents or partners of others, shall not borrow any of its funds or deposits or in any manner use the same except to make such current and necessary payments as are authorized by such board.

10. The superintendent of insurance may examine the affairs of the correction officers' variable supplements fund with the same powers and jurisdiction as are applicable in the case of an examination of a life insurance company by the superintendent under article three of the insurance law. The correction officers' variable supplements fund shall be subject to assessment for expenses pursuant to the provisions of section three hundred thirteen of the insurance law, but shall not be subject to assessment for expenses under any of the provisions of section three hundred thirty-two of the insurance law.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-195 Payments to correction officers' variable supplements fund.

1. As used in this section, the following terms shall mean and include:

(a) "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred ninety-nine and ending on or before June thirtieth of the first calendar year covered by a payment guarantee (as defined in paragraph (g) of this subdivision), with respect to which fiscal year a determination is required to be made as to whether the retirement system is required to make a payment, pursuant to the provisions of this section, to the correction officers' variable supplements fund.

(b) "Current fiscal year". The fiscal year of the city next succeeding the base fiscal year.

(c) "Transferable earnings". (i) The total amount obtained in a base fiscal year with respect to the New York city employees' retirement system by following the procedure described in paragraph twelve of subdivision a of section 13-232 of this title, as such procedure is modified in subparagraph (ii) of this paragraph.

(ii) In determining the transferable earnings for a base fiscal year pursuant to subparagraph (i) of this paragraph, the term "assumed rate of interest", as used in item (i) of subparagraph (d) of paragraph seven of subdivision a of section 13-232 of this title shall be deemed to mean the rate of interest equal to one hundred fifteen percent of the average of monthly, ten-year United States treasury note yields as published in the Federal Reserve Statistical Bulletin H.15 or any successor publication. In the event that ten-year United States treasury note yields are no longer so published, then a comparable bond yield will be used.

(d) "Amount of assets of the retirement system". With respect to any base fiscal year, the aggregate amount of all assets of the retirement system on June thirtieth of such fiscal year.

(e) "Correction officers assets". The amount obtained by multiplying the total assets of the retirement system as of June thirtieth of such base fiscal year by (i) the total salaries of correction officer members of the retirement system as of such June thirtieth and dividing the product by (ii) the total salaries of members of the retirement system as of such June thirtieth.

(f) "Allocation to the correction officers' variable supplements fund". With respect to any base fiscal year, the amount obtained:

(i) by multiplying the transferable earnings, if any, with respect to such base fiscal year by the amount of correction officer assets with respect to such base fiscal year; and

(ii) by dividing the amount computed pursuant to subparagraph (i) of this paragraph by the amount of assets of the retirement system with respect to such base fiscal year.

(g) "Calendar year covered by a payment guarantee". The calendar year in which a guarantee by the city of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of section 13-194 of this chapter, and any succeeding calendar year.

(h) "Basis fiscal year related to a payment guarantee". Any fiscal year of the city beginning on or after July first of the first calendar year covered by a payment guarantee (as defined in paragraph (g) of this subdivision).

2. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board of the retirement system shall:

(a) determine, in the manner provided in paragraph (f) of subdivision one of this section, whether there is an allocation to the correction officers' variable supplements fund with respect to such base fiscal year; and

(b) if there be such an allocation to the correction officers' variable supplements fund with respect to the base fiscal year, determined as hereinabove provided, the retirement system shall pay such allocation from the contingent reserve fund to the correction officers' variable supplements fund.

3. For the nineteen hundred ninety-nine-two thousand base fiscal year (as defined in paragraph (a) of subdivision one of this section) and each succeeding base fiscal year to and including the base fiscal year ending on June thirtieth of the first calendar year covered by a payment guarantee (as defined in paragraph (g) of subdivision one of this section), the determination as to whether there are transferable earnings with respect to each base fiscal year, and if there are such transferable earnings, the amount thereof, shall be made pursuant to the preceding subdivisions of this section.

4. The preceding subdivisions of this section shall be inapplicable to the determination of any and all rights of the correction officers' variable supplements fund to any payments from the retirement system derived from or based on investment earnings of the retirement system in any fiscal year of the city commencing on or after July first of the first calendar year covered by a payment guarantee (as defined in paragraph (g) of subdivision one this section).

5. The determination as to whether the retirement system is required to pay any monies to the corrections officers' variable supplements fund with respect to all basis fiscal years related to a payment guarantee (as defined in paragraph (h) of subdivision one of this section), and if any such monies are so payable, the amount thereof, shall be made pursuant to section 13-195.1 of this chapter.

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-195.1 Payments to correction officers' variable supplements fund for basis fiscal years related to a payment guarantee.

1. (a) Subject to the provisions of paragraph (b) of this subdivision, for the purposes of this section, the definitions of terms set forth in paragraphs (d), (e) and (f) of subdivision one of section 13-195 of this chapter shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section.

(b) For the purpose of any determination, calculation or allocation under this section with respect to any basis fiscal year related to a payment guarantee (as defined in paragraph (a) of subdivision three of this section): (i) the term "base fiscal year" used in paragraphs (d), (e) and (f) of subdivision one of section 13-195 of this chapter shall be deemed to refer to a basis fiscal year related to a payment guarantee; and

(ii) the term "transferable earnings", as used in paragraph (f) of subdivision one of section 13-195 of this chapter, shall be deemed to refer to a cumulative earnings factor (as defined in paragraph (e) of subdivision three of this section), whether such factor is a positive or a negative quantity.

2. For the purposes of this section, the definitions set forth in paragraphs five, six and seven of subdivision a of section 13-232 of this title shall apply to this section with the same force and effect as if such definitions were specifically set forth in this section; provided, however, that for the purpose of any determination, calculation or allocation under this section with respect to any basis fiscal year related to a payment guarantee (as defined in paragraph (c) of subdivision three of this section):

(a) the term "basis fiscal year related to a payment guarantee" shall be deemed to be substituted for the term

"base fiscal year" set forth in paragraphs five, six and seven of subdivision a of section 13-232 of this title;

(b) the words "retirement system" shall be deemed to be substituted for the words "pension fund" or "fund" set forth in subparagraph (a) of paragraph five of subdivision a of section 13-232 of this title and in paragraph seven of such subdivision a; and

(c) the term "assumed rate of interest" set forth in item (i) of subparagraph (d) of paragraph seven of subdivision a of section 13-232 of this title shall be deemed to have the meaning set forth in paragraph (j) of subdivision three of this section.

3. For the purposes of this section the following terms shall mean and include:

(a) "Basis fiscal year related to a payment guarantee". Any fiscal year of the city commencing on or after July first of the first calendar year covered by a payment guarantee (as defined in paragraph (h) of this subdivision).

(b) "Prior basis fiscal year related to a payment guarantee". Any fiscal year of the city which begins on or after the July first referred to in paragraph (a) of this subdivision and which also precedes a basis fiscal year related to a payment guarantee.

(c) "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision) differs from the hypothetical fixed income securities earnings with respect to such basis fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(d) "Cumulative earnings factor as of June thirtieth in the first calendar year covered by a payment guarantee". (i) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in the succeeding subparagraphs of this paragraph.

(ii)(A) Subject to the provisions of item (B) of this subparagraph, the cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this title), as made applicable by paragraph (c) of subdivision one of section 13-195 of this chapter to the base fiscal years defined in paragraph (a) of such subdivision one, shall be computed pursuant to such section 13-195 for the base fiscal year (as so defined by such paragraph (a)) next preceding July first of the first calendar year covered by a payment guarantee (as defined in paragraph (h) of this subdivision).

(B) In the computation of the cumulative earnings differential for such next preceding base fiscal year as provided for in item (A) of this subparagraph, computations for such next preceding base fiscal year and each preceding base fiscal year shall be made in compliance with the applicable provisions of subdivision three of section 13-195 of this chapter.

(iii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of section 13-232 of this chapter) shall be computed pursuant to such section 13-232 and section 13-195 of this chapter with respect to such base fiscal year next preceding July first of the first calendar year covered by a payment guarantee.

(iv) The amount of transferable earnings (as defined in paragraph (c) of subdivision one of section 13-195 of this chapter), if any, for such fiscal year next preceding such July first, determined in accordance with the applicable provisions of subdivision three of such section 13-195, shall be added to the cumulative distributions of transferable earnings computed pursuant to subparagraph (iii) of this paragraph.

(v) The sum resulting from the addition prescribed by subparagraph (iv) of this paragraph shall be subtracted from the amount computed pursuant to subparagraph (ii) of this paragraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth in the first calendar year covered by a payment guarantee.

(e) "Cumulative earnings factor". (i) The cumulative earnings factor for any basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision) shall be determined as follows:

(A) If the cumulative earnings factor for the immediately preceding basis fiscal year related to a payment guarantee was a positive quantity, the cumulative earnings factor for the basis fiscal year related to a payment guarantee shall be equal to the earnings differential for such basis fiscal year related to a payment guarantee.

(B) If the cumulative earnings factor for the immediately preceding basis fiscal year related to a payment guarantee was a negative quantity, the cumulative earnings factor for the basis fiscal year related to a payment guarantee shall be equal to the sum of:

(1) the earnings differential for the basis fiscal year related to a payment guarantee; and

(2) the cumulative earnings factor for the immediately preceding basis fiscal year related to a payment guarantee, increased with interest at a rate equal to the assumed rate of interest (as defined in paragraph (j) of this subdivision) with respect to such basis fiscal year related to a payment guarantee for which a cumulative earnings factor is being determined pursuant to this paragraph.

(ii) In applying the provisions of this paragraph for the first basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision), the term defined in paragraph (d) of this subdivision as "cumulative earnings factor as of June thirtieth in the first calendar year covered by a payment guarantee" shall be substituted for the term "cumulative earnings factor for the immediately preceding basis fiscal year related to a payment guarantee".

(f) "COVSF cumulative earnings factor". With respect to any basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision), the amount equal to the allocation to the correction officers' variable supplements fund (as determined pursuant to the provisions of paragraph (f) of subdivision one of section 13-195 of this chapter, as made applicable to this section by subdivision one of this section), for such basis fiscal year related to a payment guarantee.

(g) "COVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the correction officers' variable supplements fund by the actuary pursuant to paragraph (h) of subdivision three of section 13-194 of this chapter shows that for any basis fiscal year related to a payment guarantee, such liabilities exceed such assets, the term "COVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such basis fiscal year.

(h) "Calendar year covered by a payment guarantee". The calendar year in which a guarantee by the city of payment of variable supplements first takes effect pursuant to paragraph (f) or paragraph (g) of subdivision three of section 13-194 of this chapter and any succeeding calendar year.

(i) "Current fiscal year related to a payment guarantee". The fiscal year of the city next succeeding a basis fiscal year related to a payment guarantee (as defined in paragraph (a) of this subdivision).

(j) "Assumed rate of interest". The rate of interest equal to one hundred fifteen percent of the average of monthly, ten-year United States treasury note yields as published in the Federal Reserve Statistical Bulletin H.15 or any successor publication. In the event that ten-year United States treasury note yields are no longer so published, then a comparable bond yield will be used.

4. As soon as practicable after the close of each basis fiscal year related to a payment guarantee (as defined in

paragraph (a) of subdivision three of this section), but not later than December thirty-first of the current fiscal year related to a payment guarantee (as defined in paragraph (i) of subdivision three of this section), the board of trustees of the retirement system shall compute the COVSF cumulative earnings factor (as defined in paragraph (f) of subdivision three of this section) with respect to such basis fiscal year.

5. If the COVSF cumulative earnings factor for such basis fiscal year is a positive quantity, the retirement system, on or before December thirty-first of the current fiscal year related to a payment guarantee, shall pay from its contingent reserve fund to the correction officers' variable supplements fund, as the payment due for such basis fiscal year under this section, an amount determined pursuant to the provisions of subdivision six of this section.

6. The amount payable for such basis fiscal year as provided for in subdivision five of this section shall be the lesser of (a) the COVSF cumulative earnings factor for such basis fiscal year referred to in such subdivision five or (b) the COVSF unfunded accrued liability (as defined in paragraph (g) of subdivision three of this section) for such basis fiscal year.

7. No amount shall be due from or payable by the retirement system to such variable supplements fund under this section for any basis fiscal year related to a payment guarantee which shall exceed the COVSF unfunded accrued liability for such basis fiscal year, regardless of the amount and character of the COVSF cumulative earnings factor for such basis fiscal year.

8. The comptroller shall furnish to the board of trustees of the retirement system such information and data as it may request for the purpose of carrying out the provisions of this section.

**HISTORICAL NOTE**

Section added chap 255/2000 § 18, eff. Aug. 16, 2000 and deemed in

force and effect on and after Dec. 29, 1999.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 1 (CONTINUED) NEW YORK CITY EMPLOYEES' RETIREMENT SYSTEM

§ 13-196 Excess benefit plan.

1. As used in this section, the following words and phrases shall have the following meanings, unless a different meaning is plainly required by the context:

(a) "Retirement benefits" shall mean benefits payable to a beneficiary by the retirement system or a variable supplements fund established pursuant to this chapter which are subject to the limitations imposed by section 415(b) of the Internal Revenue Code.

(b) "Beneficiary" shall mean a person who is receiving retirement benefits from the retirement system.

(c) "Excess benefit plan" shall mean the excess benefit plan established by this section for the sole purpose of paying benefits as permitted under section 415(m) of the Internal Revenue Code.

(d) "Eligible participant" shall mean a beneficiary who is entitled to replacement benefits from the excess benefit plan for a plan year in accordance with subdivisions four and five of this section.

(e) "Replacement benefits" shall mean the benefits payable by the excess benefit plan to an eligible participant as determined pursuant to subdivision five of this section.

(f) "Internal Revenue Code" shall mean the Federal Internal Revenue Code of 1986, as amended.

(g) "Plan year" shall mean the limitation year of the retirement system as provided in section six hundred twenty of the retirement and social security law.

2. There is hereby established an excess benefit plan, the sole purpose of which shall be to provide replacement benefits, as permitted by section 415(m) of the Internal Revenue Code, to beneficiaries whose annual retirement benefits have been reduced because such benefits exceed the limitations imposed by section 415(b) of the Internal Revenue Code. The excess benefit plan shall be administered by the board of trustees of the retirement system.

3. There is hereby established a fund to be known as the excess benefit fund which shall be maintained for the sole purpose of providing replacement benefits to eligible participants in the excess benefit plan established by this section, as permitted under section 415(m) of the Internal Revenue Code. Such fund shall consist of such employer contributions as shall be made thereto pursuant to subdivision six of this section. Such contributions to the excess benefit fund shall be held separate and apart from the assets held by the other funds of the retirement system, provided, however, that the assets of the excess benefit fund may be invested with the other retirement system assets, but such excess benefit fund assets shall be accounted for separately from the other retirement system assets.

4. All beneficiaries of the retirement system whose retirement benefits for a plan year are being reduced because of section 415(b) of the Internal Revenue Code shall be eligible participants in the excess benefit plan for that plan year. Participation in the excess benefit plan shall be determined for each plan year. No beneficiary of the retirement system shall be an eligible participant in the excess benefit plan for any plan year for which his or her retirement benefits are not reduced because of section 415(b) of the Internal Revenue Code.

5. (a) For each plan year in which a beneficiary is an eligible participant in the excess benefit plan, such eligible participant shall receive replacement benefits from the excess benefit plan equal to the difference between the full amount of the retirement benefits otherwise payable to the eligible participant for that plan year prior to any reduction because of section 415(b) of the Internal Revenue Code, and the retirement benefits payable to the eligible participant for that plan year as reduced because of section 415(b) of the Internal Revenue Code. No replacement benefits for any plan year shall be paid pursuant to this subdivision to any beneficiary who is not receiving retirement benefits from the retirement system for that plan year.

(b) Replacement benefits pursuant to this section shall be paid at the same time and in the same manner as the retirement benefits which are being replaced. At no time shall an eligible participant be permitted directly or indirectly to defer compensation under the excess benefit plan.

6. (a) The required employer contributions to the excess benefit fund for each plan year shall be an amount, as determined by the actuary, which is necessary to pay the total amount of replacement benefits that are payable pursuant to this section to eligible participants for that plan year.

(b) Such required employer contributions shall be paid into the excess benefit fund from an allocation of the employer contribution amounts paid by the city and other public employers pursuant to sections 13-127, 13-130 and 13-131 of this chapter and other applicable provisions of law. Such allocation of employer contribution amounts shall be paid into the excess benefit fund at such times and in such amounts as determined by the actuary.

(c) The benefit liabilities of the excess benefit plan shall be funded on a plan year to plan year basis, provided, however, that any employer contributions to the excess benefit fund, including any investment earnings on such contributions, which are not used to pay replacement benefits for the current plan year shall be used to pay replacement benefits for future plan years.

7. The right of an eligible participant to receive replacement benefits pursuant to this section, and the replacement benefits received pursuant to this section, shall be exempt from any state or municipal tax, and shall not be subject to execution, garnishment, attachment or any other process whatsoever, and shall be unassignable, except as otherwise specifically provided for benefits payable by the retirement system.

8. Nothing contained in this section shall be construed to mean or imply that variable supplements payments from a variable supplements fund established pursuant to this chapter constitute pension or retirement allowance

payments, or that any such variable supplements fund constitutes a pension or retirement system or fund.

9. Nothing contained in this section shall be construed as affecting in any way the eligibility of any person for variable supplements pursuant to applicable provisions of this chapter.

**HISTORICAL NOTE**

Section added chap 623/2004 § 1, eff. Oct. 19, 2004 and shall be deemed

to have been in full force and effect on and after July 1, 2000. [See

Note 1]

**NOTE**

1. Provisions of Chap 623/2004:

§ 6. Nothing contained in this act shall be construed to create any contractual right on the part of any member of a retirement system or pension fund to any benefit provided by this act. The provisions of this act are intended to provide retirees and other retirement system and pension fund beneficiaries with certain benefits which are authorized by the Internal Revenue Code, and the effectiveness of this act and the benefits it confers are completely contingent upon the authorization of such benefits by the Internal Revenue Code.

§ 7. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after July 1, 2000, provided, however, that this act shall remain in effect only as long as the benefits provided therein are authorized by the Internal Revenue Code; provided that the state comptroller of the city of New York shall notify the legislative bill drafting commission upon the occurrence of the enactment of the legislation provided for in this act in order that the commission may maintain an accurate and timely effective date base of the official text of the laws of the state of New York in furtherance of effecting the provisions of section 44 of the legislative law and section 70-b of the public officers law.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-201 Definitions.

As used in this subchapter the following terms shall mean and include:

1. "Member." (a) A person who was a member of the police force in the department at the time when this section shall take effect.

(b) In any case where a member, while serving as a member of the police force, is appointed police commissioner or a deputy police commissioner, he or she shall, while serving as police commissioner or deputy police commissioner, continue to be a member of the pension fund. For the purposes of this subchapter, a member whose membership is continued pursuant to this paragraph (b) or whose membership is restored pursuant to paragraph one of subdivision f of section 13-206 of this subchapter, shall during the period of such continuance or restoration of membership, as the case may be, be deemed to be a member of the police force and the police department and his or her service as police commissioner or deputy police commissioner during such period shall be deemed to be service in such force and department.

2. "Board of trustees". The board of trustees provided for in section 13-202 of this subchapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B18-1.0 added LL 2/1940 § 1

Sub 1 amended chap 1009/1972 § 1

**CASE NOTES FROM FORMER SECTION**

¶ 1. Pension rights of widow of policeman were to be determined under the pension statute in force at time of his death and the widow's application for a pension, particularly since the amended statute, effective subsequent to the widow's application for a pension, expressly defined the term "member" as one who was a member of the police force at time the statute took effect.-Dolan v. Valentine, 177 Misc. 216, 29 N.Y.S. 2d 793 [1941].

¶ 2. There is no provision in this article for the return, to a policeman or his representatives, of the deductions made from the salaries of policemen for pension purposes. Thus, the widow of a deceased policeman could not recover the pension deductions taken from his salary. The policeman never had any title or right to possession of the money deducted from his salary and consequently, they formed no part of his estate.-Genther v. Valentine, 172 Misc. 38, 14 N.Y.S. 2d 935 [1939].

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-202 Board of trustees.

a. The police pension fund shall be administered by a board of trustees which shall, subject to the provisions of law and to the prior approval of the board of estimate, from time to time, establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof. Such board shall consist of:

1. The police commissioner who shall be chairperson of the board and who shall be entitled to cast one and one-half votes.

2. The comptroller of the city who shall be entitled to cast one and one-half votes.

3. A representative of the mayor who shall be appointed by the mayor and who shall be entitled to cast one and one-half votes.

4. The commissioner of finance of the city who shall be entitled to cast one and one-half votes.

5. The president of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

6. The first vice-president of the patrolmen's benevolent association of the city of New York who shall be

entitled to cast one vote.

7. The second vice-president of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

8. The chairperson of the board of trustees of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

9. The president of the captains' endowment association of the police department of the city of New York who shall be entitled to cast one-half vote.

10. The president of the lieutenants' benevolent association, police department, city of New York who shall be entitled to cast one-half vote.

11. The president of the sergeants' benevolent association of the city of New York who shall be entitled to cast one-half vote.

12. The president of the detectives' endowment association of the city of New York who shall be entitled to cast one-half vote.

b. Every act of the board of trustees shall be by resolution which shall be adopted only by a vote of at least seven-twelfths of the whole number of votes authorized to be cast by all of the members of such board.

c. The board of trustees shall receive all moneys applicable to such fund and deposit the same to the credit of such fund, in banks or trust companies to be selected by it, and continue to receive and deposit the funds applicable to the same, as received, to the credit of such fund, or to invest the same in obligations issued by the city of New York, obligations issued by the state of New York or obligations issued by the United States of America, as such board of trustees may deem most advantageous for the object of such fund, and such board of trustees shall have the power to make all necessary contracts, and to take all necessary remedies in the premises.

d. The police commissioner shall assign to the board of trustees a sufficient number of clerical and other assistants to permit the board efficiently to exercise its powers and to perform its duties.

e. On or before the first day of September of each year the board of trustees shall make a detailed verified report to the mayor.

f. Any member of the board, referred to in paragraphs five through twelve, respectively, of subdivision a of this section, shall be a member of the uniformed force and may authorize in writing at any time any other officer of the respective associations to represent him or her on such board in the event of his absence or disability, provided, however, that the by-laws or constitution of such respective associations provide for the designation of a representative in such event.

g. Notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the duties and responsibilities of the board of trustees of administering the provisions of this subchapter shall be transferred in accordance with the provisions of subdivision f of section 13-213.1 of this subchapter to the board of trustees of the police pension fund provided for in subchapter two of this chapter.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-203 Composition of pension fund.

The police pension fund shall consist of the following:

1. The capital, interest, income, dividends, cash, deposits, securities and credits in such fund on the first day of January, nineteen hundred forty.

2. All forfeitures imposed by the police department, from time to time, upon or against any member or members.

3. All rewards, fees, gifts, testimonials and emoluments that may be presented, paid or given to any member on account of police services, except such as have been or shall be allowed by the police commissioner to be retained by such members.

4. All moneys received from the property clerk pursuant to sections 14-140 and 10-106 of the code, and all moneys realized, derived or received from the sale of any condemned, unfit or unserviceable property belonging to or in the possession or under the control of the police department.

5. All moneys, pay, compensation or salary, or any part thereof, forfeited, deducted or withheld from any member or members on account of absence for any cause, lost time, sickness or other disability, physical or mental, to be paid semi-monthly by the comptroller to such fund.

6. All moneys received or derived from the granting or issuing of licenses to have and possess pistols or revolvers in dwellings or places of business, or to have and carry concealed a pistol or revolver in such city pursuant to subsection a of section 10-131 of the code.

7. All moneys received or derived from the granting or issuing of permits or the granting of permission to conduct masked or fancy dress balls in the city. Such balls shall be conducted only upon condition that a license fee therefor of not less than five dollars nor more than one hundred dollars shall first be paid to such department for the benefit of such fund.

8. a. A sum of money equal to but not greater than:

(1) Five per cent. of the semi-monthly pay, salary or compensation of each member of the force who shall elect to contribute on the basis of retirement after twenty-five years of service in such force, or

(2) Six per cent. of the semi-monthly pay, salary or compensation of each member of the force who shall elect to contribute on the basis of retirement after twenty years of service in such force which sum shall be deducted semi-monthly by the comptroller from the pay, salary, or compensation of each member and forthwith paid to the board of trustees of such fund. Every member shall be deemed to consent and agree to such deductions and shall receipt in full for his or her pay, salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such member during the period covered by such payment, except his or her claim to the benefits to which he or she may be entitled under the provisions of this subchapter.

b. Each member shall signify in writing to the board of trustees within thirty days after this section shall take effect, his or her election to contribute on the basis of retirement either after twenty years of service or after twenty-five years of service.

c. In the case of a member receiving extra pay, salary or compensation for additional duties assigned to him or her, the comptroller shall make such semi-monthly deductions on the basis of such extra pay, salary or compensation unless such member shall signify in writing to the board of trustees his or her election to have his or her benefits and obligations computed on the basis of the pay, salary or compensation received by him or her prior to the time when he or she first received such extra compensation. Members who heretofore or are now receiving such extra pay, salary or compensation shall so signify within thirty days after this section shall take effect. Members who hereafter receive such extra pay, salary or compensation shall so signify within thirty days after the first receipt thereof. If any member has or shall have received extra pay, salary or compensation for an aggregate of five years or more or for the period of time fixed by section 14-114 of this code, the comptroller shall continue to make such semi-monthly deductions on the basis of such extra pay, salary or compensation, notwithstanding that such member does not continue to receive it, unless such member shall signify to the board of trustees in writing his or her election to have his or her benefits and obligations computed on the basis of the pay, salary or compensation actually received by him or her. Additional deductions made pursuant to this subdivision shall entitle such member to a pension on the basis of such extra pay, salary or compensation. The provisions of this subdivision shall not diminish or impair the benefits provided in subdivision c of section 14-114 of this code.

9. If the amount derived from the above-mentioned sources included in this section shall be insufficient to pay the pensions, allowances, benefits and returns of salary deductions which have been or which may hereafter be granted, it shall be the duty of the police commissioner each year at the time of submitting the departmental estimate to the director of the budget, to submit a full and detailed statement of the assets of such fund and the amount required to pay all such sums in full. There shall annually be included in the budget a sum sufficient to provide for such deficiency. The comptroller shall pay the money so provided to the board of trustees.

10. Such board of trustees is authorized, empowered and entitled to take and hold any and all gifts or bequests

which may be made to such fund or to any police pension fund existing prior to the first day of January, eighteen hundred ninety-eight in any of the territory now constituting the city of New York.

11. Notwithstanding any other provision of law to the contrary, on and after July first, nineteen hundred ninety-five, the composition of this pension fund shall be as modified by the provisions of section 13-213.1 of this subchapter.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. 11 added chap 503/1995 § 2, eff. Aug. 2, 1995

**DERIVATION**

Formerly § B18-3.0 added LL 2/1940 § 1

Sub 4 repealed and added LL 47/1943 § 3

Sub 10 amended LL 204/1964 § 3

**CASE NOTES FROM FORMER SECTION**

¶ 1. Under Admin. Code § B18-3.0, subd. 9c, a patrolman who received a salary of $4,150 but for more than five years prior to 1946 had been assigned as a first grade detective at an extra pay of $1,000 a year and had contributed to the pension fund upon a total compensation of $5,150, and who in 1946 became a sergeant at a salary of $4,650 but had continued to contribute to the pension fund upon the basis of $5,150, was not entitled to have his contributions increased as if his pay was $5,650 or $1,000 greater than a sergeant's pay and $500 greater than the pay of a lieutenant of permanent rank.-Jeffereys v. Comptroller, 278 App. Div. 496, 105 N.Y.S. 2d 723 [1951], aff'd 303 N.Y. 792, 103 N.E. 2d 898 [1952].

¶ 2. A regulation requiring the fingerprinting of cabaret employees and requiring such employees to obtain identification cards is constitutional and valid. The right of the Commissioner to require identification cards implies authority to charge fees for such services.-Simone v. Kennedy, 26 Misc. 2d 748, 212 N.Y.S. 2d 838 [1961].

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-204 Reduction of contributions by members.

The mayor, by executive order adopted prior to the first day of June, nineteen hundred sixty-three, may direct that beginning with the first full payroll period following January first, nineteen hundred sixty-three and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-four, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation. Such executive order may also provide for a method or procedure for the refunding or crediting to a member by the pension fund of the amount of the reduction in his or her deductions for any period prior to the adoption of such executive order. The benefits provided pursuant to this section shall apply only to members of the pension fund who are in active service in the police force on or after the date of adoption of such executive order.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-205 Reduction of contributions by members.

a. The mayor, by executive order adopted prior to the first day of June, nineteen hundred sixty-four, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-four and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-five, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation.

b. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-five, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-five and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-six, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation.

c. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-six and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-seven, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation.

d. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may direct that beginning with the payroll period, the first day of which is nearest to July first, nineteen hundred sixty-seven and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation.

e. (1) Subject to the provisions of paragraph two of this subdivision, beginning with the first full payroll period following January first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by two and one-half per cent of such pay, salary or compensation.

(2) The reduction provided for by paragraph one of this subdivision shall be in addition to any reduction made during the period mentioned in such paragraph one pursuant to subdivision c or d of this section. The amount of the reduction made pursuant to paragraph one of this subdivision in the deductions of any such member for such portion of the period mentioned in such paragraph one as precedes the effective date of this subdivision shall be refunded without interest.

(3) Beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by five per cent of such pay, salary or compensation.

f. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by five per cent of such pay, salary or compensation.

g. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-three, the deductions from the semi-monthly pay, salary or compensation of each member made pursuant to the provisions of this subchapter shall be reduced by five per cent of such pay, salary or compensation.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-206 Payment of pensions; disability; retirement for service.

a. The board of trustees shall retire any member who, upon an examination, as provided in subdivision d of this section, may be found to be disqualified, physically or mentally, for the performance of his or her duties. Such member so retired shall receive from such pension fund an annual pension as provided in this section. In every case such board shall determine the circumstances thereof, and such pension so allowed is to be in lieu of any salary received by such member at the time of his or her being so retired. The department shall not be liable for the payment of any claim or demand for services thereafter rendered, and the amount of such pension shall be determined upon the following conditions:

1. In case of total permanent disability at any time caused in or induced by the actual performance of the duties of his or her position, the amount of annual pension to be allowed shall be not less than three-fourths of the annual salary of such member at the date of his or her retirement.

1-a. In any case where a member is allowed, pursuant to paragraph one of this subdivision a, a pension equal to but not exceeding three-fourths of the annual salary of such member at the date of his or her retirement, such member shall receive, in addition, the amount of the deductions, without interest, made from his or her pay, salary or compensation pursuant to subdivision nine of section 13-203 of this subchapter, such amount to be paid either in a lump sum or in the form of an annuity which is the actuarial equivalent of such amount of deductions, as the member may elect. Such annuity, if so elected, shall be computed on the basis of the mortality tables adopted pursuant to section

13-221 of this chapter, as in effect on the date of retirement of such member, and on the basis of regular interest.

2. In case of partial permanent disability at any time caused in or induced by the actual performance of the duties of his or her position, which disqualifies him or her only from performing active duty in the police force, the member so disabled shall be relieved by the commissioner from active service and assigned to the performance of such light duties as a police surgeon of such department may certify him or her to be qualified to perform, or he or she shall be retired on his or her own application at not less than three-fourths of his or her salary at the date of his or her retirement from the service, on an examination, as provided by subdivision d of this section, showing that his or her disability is permanent.

2-a. In any case where a member is allowed, pursuant to paragraph two of this subdivision a, a pension equal to but not exceeding threefourths of his or her salary at the date of his or her retirement from the service, such member shall receive, in addition, the amount of the deductions, without interest, made from his or her pay, salary or compensation pursuant to subdivision nine of section 13-203 of this subchapter, such amount to be paid either in a lump sum or in the form of an annuity which is the actuarial equivalent of such amount of deductions, as the member may elect. Such annuity, if so elected, shall be computed on the basis of the mortality tables adopted pursuant to section 13-221 of this chapter, as in effect on the date of retirement of such member, and on the basis of regular interest.

3. In case of total permanent disability not caused in or induced by the actual performance of the duties of his or her position, which shall occur after the expiration of ten years' service in such department, but before he or she has performed service in the force for a period greater than the minimum period for service retirement elected by him or her, the amount of annual pension to be allowed shall be one-half of the annual salary of such member at the date of his or her retirement from the service.

4. In case of partial permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur after ten years' service in such department, the member so disabled may be relieved by the commissioner from active service, but shall remain a member of the police force, subject to the rules governing such force, and be assigned to the performance of such light duties as a police surgeon of such department may certify him or her to be qualified to perform, or, if such member be retired after the expiration of ten years' service, but before he or she has performed service in the force for a period greater than the minimum period for service retirement elected by him or her, the annual pension to be paid to such member shall be one-half of the annual salary of such member at the date of his or her retirement from the service.

5. In case of total permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur before the expiration of ten years' service in such department, the amount of annual pension to be allowed shall be one-third of the annual salary of such member at the date of his or her retirement from the service.

6. In case of partial permanent disability not caused in or induced by the actual performance of the duties of his or her position, which may occur before ten years' service in such department, the member so disabled shall be relieved by the commissioner from active service, but shall remain a member of the police force, subject to the rules governing such force, and be assigned to the performance of such light duties as a police surgeon of such department may certify him or her to be qualified to perform, or, if such member be retired before the expiration of ten years' service, the annual pension to be paid to such member shall be one-third of the annual salary of such member at the date of his or her retirement from the service.

b. Any member of such department, who has or shall have performed duty therein for a period of twenty years or upwards, upon a medical examination, as provided in subdivision d of this section, showing that such member is permanently disabled, physically or mentally, so as to be unfit for duty, shall be retired from such force and service, and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund:

1. an annual pension during his or her lifetime, of a sum not less than one-half his or her full salary at the date of

his or her retirement from the service; and

2. if such member is awarded and granted, pursuant to paragraph one of this subdivision b, an annual pension equal to but not exceeding one-half of his or her full salary at the date of his or her retirement from the service, and if such member, at the time of such retirement, has performed service in the force for a number of years greater than the minimum period for service retirement elected by him or her, an annual pension, in addition to the pension provided for by paragraph one of this subdivision b, which shall be equal to:

(i) one-fortieth of his or her full salary or compensation on the date of his or her retirement from the service, multiplied by the number of years of service in the force performed by him or her after completion of such minimum period of service elected by him or her, if such member elected a minimum period of twenty years; or

(ii) one-fiftieth of his or her full salary or compensation on the date of his or her retirement from the service, multiplied by the number of years of service in the force performed by him or her after completion of such minimum period of service elected by him or her, if such member elected a minimum period of twenty-five years.

c. Any member who:

1. Shall have elected to contribute on the basis of retirement after twenty years of service and who has or shall have performed service in the force for at least twenty years, or

2. Shall have elected to contribute on the basis of retirement after twenty-five years of service and who has or shall have performed service in the force for at least twenty-five years, upon his or her own application in writing to and filed with the board setting forth at what time, not less than thirty days subsequent to the execution and filing thereof, he or she desires to be retired, shall be retired as of the date specified in said application from such force and service, and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund, an annual pension during his or her lifetime, not less than one-half of his or her full salary at the date of his or her retirement from service, and provided further that at the time so specified for his or her retirement his or her term or tenure of office or employment shall not have terminated or have been forfeited, provided further that upon his or her request in writing the member shall be granted a leave of absence from the date of filing said application until the date the retirement becomes effective.

d. All medical examinations required by or made pursuant to the provisions of this subchapter shall be conducted by a medical board appointed by the commissioner, provided, however, that any member, within thirty days after receipt of the decision of such medical board, in writing may request that the decision of such board be reviewed by a special medical board which shall consist of one doctor of the medical board and a doctor selected and compensated by such member. The decision of such special board shall supersede the decision of the medical board. In the event that the two doctors of the special board shall disagree, a recognized specialist on the condition, disease or injury for which such member has been examined or for which disability is claimed shall be selected by such doctors to be a third member of the special board. The decision of a majority of the three members of such special board shall supersede the decision of the medical board. The specialist selected by the two doctors of the special board shall be compensated by the city. Such compensation shall be fixed by the comptroller and shall be subject to his or her audit.

e. The board of trustees shall have the power to grant, award or pay a pension on account of physical or mental disability or disease, only upon a certificate of a medical board or a special medical board after examination as provided in subdivision d of this section. Such certificate shall set forth the cause, nature and extent of the disability, disease or injury of such member.

f. (1) In any case where a person who retired for service as a member of the pension fund is subsequently appointed police commissioner or a deputy police commissioner, his or her pension shall cease. During his or her service as police commissioner or deputy police commissioner he or she shall again be a member of the pension fund and shall contribute thereto at the rate of contribution applicable to him or her at the time of his or her prior retirement.

(2) Subject to the provisions of paragraphs three and four of this subdivision f, upon his or her subsequent retirement as police commissioner or deputy police commissioner, as the case may be, he or she shall receive the pension, if any, which he or she was receiving or entitled to receive immediately prior to his or her appointment as police commissioner or deputy police commissioner, and in addition, a further pension of one-sixtieth of his or her average annual salary earned during his or her credited service after restoration to membership pursuant to paragraph one of this subdivision f, multiplied by the number of years of his or her credited service during such restoration.

(3) Subject to the provisions of paragraph four of this subdivision f, where any such retiree who is appointed police commissioner or deputy police commissioner shall have earned at least three years of member credit for service during the period of his or her restoration to membership pursuant to paragraph one of this subdivision f, the total service credit to which he or she was entitled at the time of his or her earlier retirement may, at his or her election, again be credited to him or her and upon his or her subsequent retirement as police commissioner or deputy police commissioner, as the case may be, he or she shall be credited in addition with all service during such period of restoration to membership.

(4) Such total service credit to which he or she was entitled at the time of his or her earlier retirement shall be credited as provided in paragraph three of this subdivision f only in the event that he or she returns to the pension fund with regular interest the actuarial equivalent of the amount of the amount of the pension he or she received; provided, however, that in the event that such amount is not so repaid, the actuarial equivalent thereof shall be deducted from his or her subsequent pension.

g. The granting of a pension on severance from service for fault or delinquency shall not be a matter of right, but such a pension may be granted in consideration of special circumstances by the board of trustees and a vote of at least two-thirds of the whole number of votes authorized to be cast by all the members of such board.

h. The terms "total permanent disability" and "partial permanent disability" as used in this section may be defined in the rules and regulations of the board of trustees.

i. Except as otherwise provided, the pensions granted under this section shall be for the life of the pensioner, and shall not be revoked, repealed or diminished.

j. Notwithstanding any other provision of this code, and in lieu of any lesser amount otherwise provided, any member of the department who has or shall have performed duty therein for a period of at least thirty-five years may elect to be retired and placed on the roll of the pension fund, and awarded and granted, to be paid from such fund, an annual pension during his or her lifetime, of a sum equal to his or her full salary at the date of his or her retirement from service.

Sub f amended chap 1009/1972 § 2

(Special provisions chap 1009/1972 §§ 7, 8)

**CASE NOTES FROM FORMER SECTION**

¶ 1. Police officer never possessed title to or right to possession of the monies compulsorily deducted from his salary and turned over to the Police Pension Fund pursuant to Admin. Code §§ B18-1.0 to B18-13.0, and consequently such monies formed no part of his estate on his death from natural causes while still a member of the Department, and his widow and administratrix might not recover the pension deductions in an action at law.-Genthner v. Valentine, 172 Misc. 38, 14 N.Y.S. 2d 935 [1939].

¶ 2. Petitioner, who was 44 years old and had served as a policeman two months over 20 years, and under Admin. Code § B18-4.0 was entitled to be retired for service under a pension of not less than one-half his salary, **held** not entitled to an order of mandamus directing the Police Pension Fund trustees to approve his application for retirement, inasmuch as the granting or withholding of mandamus is controlled by equitable principles, and following the Pearl Harbor attack there had been a great many applications for retirement by members of the police force, the police force was now confronted by a scarcity of able-bodied experienced policemen who were not subject to military service, and the City had worked out a plan whereby applications for service retirement would be approved at the same rate as prevailed before Pearl Harbor, with priority being given to disabled applicants and thereafter to applicants who had served 25 years or more and who were at least 55 years of age.-In re Wolf (Valentine), 178 Misc. 308, 34 N.Y.S. 2d 92 [1942].

¶ 3. Admin. Code § B18-4.0 subdivision c, providing that a qualified member of the Police Department "upon his own application in writing shall be retired" and placed on a pension, **held** self-executing, and hence the retirement of petitioner members of the department was effectuated by the mere filing of their applications, without action by the trustees.-Pierne v. Valentine, 291 N.Y. 333, 52 N.E. 2d 890 [1943].

¶ 4. Application of member of uniformed force of the Police Department to compel respondents to retire him on a pension, was denied as unauthorized under the wartime program whereby retirements were limited to 39 men a month. Such plan did not deny petitioner's right to retire, but simply deferred it until his application was reached in regular order.-In re Wood (Valentine), 109 (96) N.Y.L.J. (4-26-43) 1613, Col. 6 F.

¶ 5. Member of New York City Police Department who had served over 20 years, **held** not entitled to an order compelling his retirement pursuant to Admin. Code § B18-4.0, since the seeming absoluteness of the right of retirement is subject to implications necessarily arising from the nature and purpose of the police force, and the present shortage of manpower due to war conditions warranted a refusal of retirement. The right of policemen to be retired from active duty is subject to the qualification that it may not be exercised at such a time or in such manner as to leave the City without adequate police protection.-In re Chiurazzo (Valentine), 181 Misc. 830, 44 N.Y.S. 2d 237 [1943].

¶ 6. Member of Police Pension Fund was entitled to maintain action to compel specific performance of contractual obligation of the trustees of the Fund to retire him upon his application, as the trustees had no discretion in the matter. A proceeding under C.P.A., Article 78, was not an adequate remedy, as the member's absolute right to retirement might be denied him in such a proceeding pursuant to the inherent discretion of the Court to grant or withhold relief on mandamus.-Underhill v. Valentine, 267 App. Div. 778, 46 N.Y.S. 2d 93 [1943].

¶ 7. Admin. Code § B18-4.0, providing that any member who had performed duty on the police force for 20 years and who had served as a Police Commissioner or Deputy Police Commissioner should be granted the pension allowed

to a Chief Inspector, was to be construed with subdivision (c) of that section, which would apply to a chief inspector and provides that any member of the police force eligible for retirement should be paid an annual pension of not less than one-half his full salary at the date of his retirement. Accordingly, a Chief Inspector, whose current salary is $9,000, was entitled, as a matter of law, to not less than $4,500, and it was immaterial that the trustees in the exercise of their discretion had been allowing a Chief Inspector a pension of $6,000.-Kent v. Valentine, 184 Misc. 94, 52 N.Y.S. 2d 867 [1944], aff'd 269 App. Div. 832, 56 N.Y.S. 2d 414 [1945].

¶ 8. Furthermore, it was not an abuse of discretion for the trustees to grant petitioner a pension of $4,500 per year even though Chief Inspectors since 1928 had been retired on annual pensions of $6,000, inasmuch as petitioner had been serving as a Sixth Deputy Police Commissioner at a salary of $6,000 per year for only two months when he applied for retirement, and in the history of the department no Commissioner or Deputy Commissioner had ever been retired on a pension equal to his full salary.-Id.

¶ 9. Admin. Code § B18-4.0, subd. f, which permits any member of the police force who shall have performed duty on the force for 20 years and who subsequently shall serve as Police Commissioner or Deputy Police Commissioner, to be retired and placed upon the pension roll and granted the pension allowed to a Chief Inspector of such department, **held** constitutional as providing for a pension in its true sense, and not merely to authorize a gift of public moneys. Proof of use of the statute for purposes not intended, did not justify the court in annulling the law.-Bergerman v. Murphy, 278 App. Div. 388, 105 N.Y.S. 2d 642 [1951], reversing 199 Misc. 1008, 102 N.Y.S. 2d 622 [1950], aff'd 303 N.Y. 762, 103 N.E. 2d 545 [1952].

¶ 10. However, in the instant case two persons who had been members of the police force for more than 20 years were permitted to resign their positions as first grade detectives and were then appointed as Deputy Police Commissioners, and after service for 24 days in one case and for 44 days in the other they were permitted to retire at an annual pension of $6,000, which was $825 more than their salary as first grade detectives and $3,412.50 more than the pension allowance of a first grade detective, during their appointments as Deputy Commissioners they had not in fact performed the duties of such office and were merely nominal Commissioners, and the clear inference was that the sole purpose in giving them the title of Deputy Commissioner was to afford them an opportunity after a brief period to resign and seek a higher rate of pension. Accordingly the appointments were deemed made in bad faith and to be illegal, and the award of the higher pensions likewise were illegal.-Bergerman v. Murphy, 278 App. Div. 388, 105 N.Y.S. 2d 642 [1951], aff'g, on this point, 199 Misc. 1008, 102 N.Y.S. 2d 622 [1950], aff'd 303 N.Y. 762, 103 N.E. 2d 545 [1952].

¶ 11. The statutory requirement that retirement pursuant to Admin. Code § B18-4.0, subd. c, part 1, on basis of 20 years of service, be on the member's "own application in writing", was not complied with where an application made by the employee in his own writing was tentative and later withdrawn, a letter written by the attorney for the committee of the employee was made on behalf of the mother and family and not on behalf of the committee acting for the employee, and a proceeding which had been brought by the committee under C.P.A. Art. 78 was not sustained. Furthermore, assuming that the employee was incompetent, a personal right of election could have been made for him by the Supreme Court on the application of his committee, and the committee herself could not exercise the election.-Delia v. Wallander, 101 N.Y.S. 2d 279 [1950].

¶ 12. There appears to be no provision in the Admin. Code applicable to petitioner authorizing the trustees of the fund to consider or act upon the present application made after the petitioner ceased, by reason of his retirement, to be a member of the police force. Petitioner, who was a member of the force prior to March 29, 1940, had already been retired and was receiving pension payments.-Mitchell v. Murphy, 125 (97) N.Y.L.J. (5-18-51) 1846, Col. 6 T.

¶ 13. Application of patrolman for retirement on basis of 20 years service was self-executing and effectuated his retirement without any action on part of the Board of Trustees of the Pension Fund, and hence, being no longer a member of the police force, he was not entitled to a medical examination pursuant to Admin. Code § B18-4.0 to determine whether an injury allegedly received by him in performance of his duty would warrant his retirement on a disability pension. Although plaintiff's complaint was based upon theory that he applied for a pension of one-half of his

full salary due to a mutual mistake of fact that he would fully recover from an injury incurred in the performance of his duty, his affidavit failed to present triable issues of fact.-Mitchell v. Murphy, 128 (7) N.Y.L.J. (7-10-52) 63, Col. 3 T, aff'd 283 App. Div. 803, 128 N.Y.S. 2d 456 [1953].

¶ 14. New York City Local Law No. 44 of 1951, which amended Admin. Code § B18-4.0 so as to require a retiring member of the Police Department to give 30 days' notice of his impending retirement, and also to require him to file his application with the Board of Trustees of the Police Pension Fund, which could deny him his pension if his term of office was forfeited prior to the retirement date, **held** not unconstitutional as in violation of Article 5, § 7 of the State Constitution, providing that membership in any pension or retirement system of the state or civil division thereof should be a contractual relationship, the benefit of which should not be impaired.-Gorman v. City of New York, 280 App. Div. 39, 110 N.Y.S. 2d 711 [1952], aff'd without opinion 304 N.Y. 865, 109 N.E. 2d 881 [1953], remittitur amended, 304 N.Y. 973 [1953] to recite that Local Law 44 of 1951 did not violate Art. 1, § 10 of the Federal Constitution or the Fifth or Fourteenth Amendments thereto, dismissed, 345 U.S. 962 [1953].

¶ 15. Contention that Local Law No. 44 also violated Constitution Article 9, § 12 and City Home Rule Law § 21, prohibiting any city from repealing or superseding any law enacted by the Legislature or relating to any pension or retirement, since Admin. Code § B18-4.0, subd. c, which Local Law No. 44 would amend, was itself a local law originally and was thereafter "legalized and validated" by state law, and accordingly was a law "enacted by the legislature relating to any pension or retirement system," **held** untenable.-Id.

¶ 16. Local Law No. 45 of 1951, which amended Admin. Code § B18-40.0 so as to require that a member in service would have to attain the minimum age or period of service requirement elected by him before he could file his application to retire, **held** unconstitutional, since it would delay a member's benefits for 30 days. Prior to amendment a member while still in the service could give his notice 30 days prior to completion of his elected period of service and retire on the very day he reached his minimum service requirement.-Sherrin v. City of N.Y., 126 (69) N.Y.L.J. (10-8-51) 772, Col. 3 T.

¶ 17. Application for order of prohibition against Police Commissioner of City of New York continuing the conduct of disciplinary proceedings against petitioner, on ground that while the charges were pending against him petitioner had filed an application for retirement effective immediately and therefore was no longer a member of the Police Department, was denied, as the right to automatic retirement did not give a member immunity from a departmental disciplinary proceeding commenced while he was a member. No act of retirement could deny the public the protection of Civil Service Law § 14, subd. 4, which provides that a person removed from the civil service may be disqualified by the Civil Service Commission from holding further office under the civil service, and moreover the prohibition of disciplinry proceedings would enable petitioner to make a claim for salary withheld during suspension.-Flood v. Monaghan, 201 Misc. 560, 108 N.Y.S. 2d 414 [1951].

¶ 18. Where petitioner members or the police force challenged the Police Commissioner's jurisdiction to try them on charges, inasmuch as they had theretofore filed applications for retirement, petitioners properly proceeded by seeking an order of prohibition. Certiorari was not an adequate remedy. At least there was room for the exercise of discretion, and the Court of Appeals would not interfere with the determination of the lower courts that prohibition was proper.-Pierne v. Valentine, 291 N.Y. 333, 52 N.E. 2d 890 [1943], reversing in part and affirming in part, 266 App. Div. 70, 42 N.Y.S. 2d 404 [1943], which reversed 179 Misc. 114, 37 N.Y.S. 2d 519.

¶ 19. Admin. Code § B18-4.0 subdivision a, providing that "the board of trustees shall retire any member who, upon an examination, * * * may be found to be disqualified, * * * for the performance of his duties," **held** not self-executing, and the board was not required to retire petitioner policeman upon a certificate of the Medical Board that he was physically incapacitated to perform full police duties. The Board was not obliged to act until it had investigated the charges filed against the member after he applied for retirement.-In re Wood (Valentine), 109 (96) N.Y.L.J. (4-26-43) 1613, Col. 6 F.

¶ 20. A request for a leave of absence made in connection with an application for retirement was self-executing and the Commissioner had no discretion to deny the request. After filing the application, the petitioner was not subject to general administrative regulations which related only to active performance of duty and could not be dismissed from the police force and thereby deprived of his pension benefits on charges that during his terminal leave of absence he breached administrative regulations.-Matter of Gordon, 309 N.Y. 336, 130 N.E. 2d 882 [1955].

¶ 21. An Article 78 proceeding was not appropriate to establish the rights of the parties where petitioner and another, claimed the widow's pension.-Happell v. Adams, 133 (81) N.Y.L.J. (4-26-55) 7, Col. 3 M.

¶ 22. Plaintiff-members of the N.Y.C. Police Department who were eligible by virtue of service to receive pensions and had received notice of retirement from the Department pursuant to Local Law No. 71 and had brought an action for a declaratory judgment based on the premise that the Local Law was unconstitutional as interfering with their pension rights as guaranteed by the constitution and other statutes, **held** not entitled to an injunction restraining their retirement, since if injunctive relief were granted civil service lists from which appointments would be made to replace certain of the retired plaintiffs would expire and entail hardship on prospective appointees, assignments would be confused, and, if unsuccessful, plaintiffs would nevertheless remain in office until after the trial and until a new list could be promulgated. However, plaintiffs might receive an early trial.-Humbeutel v. City of N.Y., 127 (4) N.Y.L.J. (1-7-52) 65, Col. 3 T.

¶ 23. Petitioner, whose claim that his permanent disability was caused by injuries received by him in performance of his duties and without fault on his part was supported by competent medical proof, **held** entitled to a court review of action of Police Commisioner in refusing to grant him a minimum pension allowance of 75 per cent of his salary. Petitioner was not seeking to review the discretion of the Commissioner, since if he proved his allegations the Commissioner was bound to award at least the pension sought.-Gough v. Valentine, 100 (120) N.Y.L.J. (11-23-38) 1771, Col. 3 M.

¶ 24. Previous orders of the Court holding that petitioner was not seeking to review the discretion of the Police Commissioner in ruling that petitioner was not permanently disabled while in performance of his duties and that if petitioner proved his allegations the Commissioner would be bound to award him the compensation and directing that the issues of fact be resolved by a jury trial, **held** binding on the Court on subsequent application to dismiss the proceedings despite the verdict of the jury, notwithstanding the prior orders were intermediate in character, since a court of coordinate jurisdiction should not disregard an earlier decision on the same question in the same case.-In re Gough (Valentine), 102 (82) N.Y.L.J. (10-6-39) 1001, Col. 3 F.

¶ 25. Evidence that while acting in performance of police duties and as result of being thrown from a horse, petitioner had fractured his spine and was otherwise injured, especially about the head and face, and that one week after being released from the hospital he suffered an attack of amnesia which competent medical authorities attributed to the original accidental injury, **held** to present a triable issue as to whether his disability as a result of amnesia had been suffered in the line of duty so that the pension award made him was insufficient.-In re Agnew (Valentine), 101 (98) N.Y.L.J. (4-28-39) 1955, Col. 1 M.

¶ 26. Police officer who on dismissal from his duties at 11:45 p.m. had proceeded from the station house in Brooklyn to a restaurant on Delancey Street in Manhattan for supper and had then proceeded to a nearby station house in Manhattan to change to his civilian clothes before going home, and at 1:20 a.m. while ascending a stairway in the station house fell and sustained his injuries, **held** not to have been injured while in actual performance of duties within meaning of the pension regulations.-Smith v. Valentine, 102 (112) N.Y.L.J. (11-14-39) 1612, Col. 5 T.

¶ 27. Retirement and consequent pension do not flow automatically from disability, or a finding of disability by the competent trier of the facts, but the trustees of the Police Pension Fund must first vote for retirement.-Delia v. Valentine, 185 Misc. 202, 56 N.Y.S. 2d 505 [1945].

¶ 28. Determination of trustees of Police Pension Fund awarding retired policeman a pension of one-half of his salary for non-service-incurred disability, would not be disturbed, where, although there might be room for a legitimate difference of opinion as to the origin of the disability, the findings of the Medical and Special Medical Boards and the determination of the trustees based on such findings had reasonable medical support.-In re Cohen (Valentine), 58 N.Y.S. 2d 415 [1945], aff'd 271 App. Div. 952, 67 N.Y.S. 2d 708 [1947].

¶ 29. That trustees of the Police Pension Fund chose to accept the opinion of their own medical experts that death of petitioner's husband was not the result of disease as the immediate effect of injuries received during performance of duties as police officer, rather than to accept statement of the husband's family physician, did not warrant conclusion that their determination was arbitrary.-In re Orsi (Valentine), 118 (17) N.Y.L.J. (7-24-47) 141, Col. 4 F.

¶ 30. Denials of applications for a pension could not be reviewed in a plenary action instituted ten years later.-Woods v. Wallander, 121 (86) N.Y.L.J. (5-3-49) 1580, Col. 5 M.

¶ 31. Where the issue involved in retiring a pensioner is based solely on a conflict of medical testimony concerning the origin of a physical disorder, it is the function of the Department head and not the court to resolve the question.-Thomasson v. Valentine, 263 App. Div. 334, 32 N.Y.S. 2d 996 [1942].

¶ 32. Where there was no dispute as to existence of the psycho-neurotic condition for which the petitioner, a patrolman in the City Police Department, was retired at half pay, but petitioner merely asserted that the disorder was due to a prior physical injury which was service-incurred and entitled him to a pension of three-fourths of his salary, and the Medical Board found no connection between the injury and the present condition and there was merely divergent medical opinion evidence presented, the court should not upset the determination of the Medical Board and of the Commissioner based thereon merely because a jury had differed with the Department's psychiatrist as to which expert's opinion was correct.-Id.

¶ 33. Although the Board of Trustees of the Police Pension Fund must accept the decision of the Special Medical Board as to the nature and extent of the disability of a member, they need not accept the decision of such Board as to whether the disability was incurred in performance of duty nor the Board's opinion as to the causal connection between an injury so incurred and the disability for which a member is to be retired, as it is the duty of the Trustees to "determine the circumstances" of the disability, and in this respect they perform the functions of a jury and the opinion of the Medical Board is merely advisory. Hence in the immediate case the determination of the Board of Trustees rejecting the decision of the Special Medical Board that petitioner's disability had been incurred in performance of her duties would not be disturbed where the trustees were not shown to have acted arbitrarily and there was evidence to support their findings.-In re Hickie (Valentine), 177 Misc. 743, 31 N.Y.S. 2d 688 [1941], aff'd without opinion, 262 App. Div. 832, 29 N.Y.S. 2d 504 [1942].

¶ 34. Policeman, retired for disability, was not entitled to notice of the findings of the Special Medical Board, as he was not entitled to a review of the findings of such board or to a hearing before the board of trustees, and was therefore in no way prejudiced by the failure to receive formal notice. Furthermore, he had made no request for a copy of such Board's findings, and his own doctor was his representative on the board and he could readily have ascertained from him the conclusions reached by the Board.-In re Cohen (Valentine), 58 N.Y.S. 2d 415 [1945], aff'd 271 App. Div. 952, 67 N.Y.S. 2d 708 [1947].

¶ 35. Contention of policeman that his retirement for disability was invalid because he received no notice of the action taken by the board of trustees, was rejected, as the determination of the board to retire him was duly published in the special orders of the Police Department and transmitted to each precinct in the City of New York. Such special orders represent the medium for notification to members of the Police Department of all official action taken in the department.-Id.

¶ 36. That petitioner had been suspended from the Police Force following his arrest on a charge of second degree

murder and thereafter charges had been served upon him by the Department and following his commitment to a state hospital for the insane he had been dropped from the rolls of the Department, did not deprive him of his right to a trial of the charges against him, although he was not entitled to appointment of a medical board for his examination and the taking of steps for determination of his pension rights while the charges against him were undisposed of.-Delia v. Valentine, 185 Misc. 202, 56 N.Y.S. 2d 505 [1945]. See also, 276 App. Div. 924, 94 N.Y.S. 2d 385 [1950].

¶ 37. Administratrix of deceased incompetent policeman was not entitled to recover from the Pension Fund pursuant to Admin. Code § B18-4.0, subd. b, or subd. a, part 3, where plaintiff had been appointed the patrolman's committee four years prior to his death, during this time it was within her power to seek the relief, pointed out in the court's decision, of having a trial of charges pending against the patrolman to lift his suspension from the Police Department, and this would have paved the way for a proper consideration of the asserted disability of the patrolman by a medical board, which is a prerequisite to action by the trustees.-Delia v. Wallander, 101 N.Y.S. 2d 279 [1950].

¶ 38. A member of the Police Department under charges can not compel action by the trustees of the Police Pension Fund until the charges are disposed of.-Delia v. Valentine, 185 Misc. 202, 56 N.Y.S. 2d 505 [1945]. See also, 276 App. Div. 924, 94 N.Y.S. 2d 385 [1950].

¶ 39. Finding of the Special Medical Board that petitioner was physically disqualified for police duty because of an old injury to his left hand, **held** conclusive upon the Board of Trustees of the Police Pension Fund with respect to the physical disability, and where there was no evidence that the disability did not result from anything but the line of duty wound which he received in 1914, the determination of the trustees denying petitioner's application for disability pension, was annulled.-O'Hara v. Monaghan, 131 (2) N.Y.L.J. (1-5-54) 8, Col. 5 T.

¶ 40. It is well settled that although the finding of disability by the Medical Board is conclusive upon the trustees of the Police Pension Fund, the determination whether the disability was service incurred is for the trustees to make and any finding thereon by the Medical Board is only advisory. In instant case, finding of trustees that any disability from which petitioner might be suffering was not the result of the shotgun wound and the stab wounds incurred in the line of duty, would not be disturbed.-Whalen v. Monaghan, 127 (37) N.Y.L.J. (2-25-52) 741, Col. 3 F.

¶ 41. The Board of Trustees of the police pension fund were arbitrary and unreasonable in denying a three-fourths of pay pension to petitioner on the ground that his disability was not caused by the actual performance of the duties of his position where the medical board appointed by the Commissioner had determined that the petitioner had a "line-of-duty permanent disability".-Matter of O'Hara, 309 N.Y. 931, 132 N.E. 2d 310 [1955], aff'g 286 App. Div. 828, 143 N.Y.S. 2d 630 [1955].

¶ 42. Where petitioner, formerly Chief of Detectives of the Police Department, was found by the Department's Medical Board physically incapacitated to perform full police duty and such board recommended that he be retired because of such disability, and petitioner was thereupon retired by the Pension Board as of October 16, 1950 but the board at a meeting on November 22, 1950 rejected a resolution which would grant him a pension of three-fourths of his salary for service-connected disability, and also rejected a proposal to grant him a pension of half of his salary, a proceeding under C.P.A. Article 78 for an order directing the board to allow him a pension of not less than three-fourths of his salary, was dismissed, as the board had not yet taken any definitive action and the court would not hasten them in the discharge of their duty of fixing the pension.-Whalen v. Murphy, 125 (59) N.Y.L.J. (3-27-51) 1087, Col. 2 M.

¶ 43. Where certificate of the Medical Board which had been forwarded to the patrolman merely stated that the Board found him physically incapacitated to perform full police duty by reason of cerebral thrombosis, weakness and partial paralysis of left arm and leg and that the Board had recommended his retirement for such disability, but no mention was made of the cause of the disability as required by Admin. Code § B18-4.0, subd. e, and that the Board had found disability was not service-incurred, the patrolman was thereby deprived of an important right of appeal to a Special Medical Board, and he had not been properly retired from the Department.-Cohen v. Valentine, 263 App. Div. 559, 33 N.Y.S. 2d 436 [1942].

¶ 44. Petitioner (policeman) was seriously injured in line of duty on August 20, 1947 and returned to active duty October 15, 1947. Ten years later in 1957 he collapsed while on duty suffering from a herniated disc of the lower lumbar spine. There was agreement that petitioner was to be retired but there was disagreement as to whether the disability was caused by the 1947 accident. The medical board's opinion was based solely on the fact that petitioner failed to prove caused relationship to the 1947 accident and the petitioner was entitled to a trial to determine whether the disability resulted from the 1947 accident.-Matter of Foster (Kennedy), 143 (124) N.Y.L.J. (6-28-60) 6, Col. 7 T.

¶ 45. The Pension Fund trustees could reject an application for disability retirement, even where the Special Medical Board found the disability to be service-connected. The Board is advisory only. The evidence was insufficient to show that the action of the trustees was arbitrary.-Toppiti v. Kennedy, 141 (72) N.Y.L.J. (4-15-59) 12, Col. 8 M.

¶ 46. Petitioner's application for retirement was properly denied on the basis of the Police Medical Board's finding as to the extent and nature of the disability since the trustees were legally bound to accept such medical determinations. There was ample evidence to support the Medical Board's decision. Furthermore, petitioner could be required to perform clerical duty in the Police Department as such work would come within the meaning of "performance of city-service" under Admin. Code § B18-43.0.-Matter of Reich (M. Golebuck), 26 Misc. 2d 813, 207 N.Y.S. 2d 853 [1960].

¶ 47. A determination that the petitioner should not be allowed disability retirement because his disability was not incurred in the performance of duty was proper where the determination was based upon medical evidence upon which there was no disagreement.-Matter of Algergren, 139 (27) N.Y.L.J. (2-7-58) 6, Col. 2 F.

¶ 48. While the trustees of the Police Pension Fund are free to determine whether a disability is service-connected, they may not disregard the findings of the Medical Board with respect to the nature and the extent of the disability. Even if they disagree with the board, its conclusion is binding upon them. The order denying the relief sought is reversed.-Matter of Whalen v. Monaghan, 285 A.D. 884, 137 N.Y.S. 2d 899 [1955], aff'd without opinion 309 N.Y. 929, 132 N.E. 2d 309 [1955].

¶ 49. A policeman and a fireman retired for service-connected total permanent disability may not be allowed "extra service pension credits".-Lowe v. Police Pension Fund, 9 N.Y. 2d 800, 215 N.Y.S. 2d 511, 175 N.E. 2d 168 [1961].

¶ 50. Policeman incurred a service-connected injury in 1932 and was then given light duty. He filed for retirement in 1955 on basis of 20 years' service which application was self-effectuating. His present action to reform the application for retirement on ground that the parties intended it to be for service-connected disability was dismissed. There was no mutual mistake of fact as the application was made only by the plaintiff. Plaintiff knew immediately in 1955 that he did not receive disability retirement pay and he should have taken some action then.-Johnstone v. Kennedy, 143 (125) N.Y.L.J. (6-29-60) 7, Col. 8 T.

¶ 51. Plaintiffs, former members of the police force and members of the Police Pension fund who retired before completing 35 years of service were not entitled to reinstatement to complete the 35 years of service since § 434a-21.0 mandates retirement at 63 and this section does not violate plaintiffs' contractual pension rights or the due process or equal protection clauses of the Constitution.-Beaudouin v. Board of Trustees of Police Pension Fund, 78 Misc. 2d 258, 356 N.Y.S. 2d 736 [1974].

¶ 52. Medical Board serves Bd. of Trustees in an advisory capacity, but it is the Bd. of Trustees that actually adjudicates accidental disab claims. Kenny v. NYCTA, 9-25-00, page 23, col. 4, ad1.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-207 [Minimum disability pension.]

a. Notwithstanding the provisions of section 13-206 of this subchapter, in any case where a pension was or is awarded under the provisions of such section, by reason of the retirement of a member for disability caused or induced by the actual performance of the duties of his or her position, such member shall be entitled to a pension of not less than three-fourths the annual salary or compensation payable to a first grade patrolman as of July first, nineteen hundred and sixty-five.

In the case of any member receiving a pension less than three-fourths the annual salary or compensation of a first grade patrolman as of July first, nineteen hundred and sixty-five his or her pension shall be increased by such amount which when added to the lesser pension shall equal three-fourths the annual salary or compensation of a first grade patrolman as of July first, nineteen hundred and sixty-five.

b. Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination as to the pension which would otherwise be payable under section 13-206 of this subchapter.

c. The pension payable under this section shall be in lieu of any pension which would otherwise be payable to the member under section 13-206 of this subchapter.

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-208 Extra service pension credit.

Except as provided in subdivisions a and b of section 13-206 of this subchapter:

1. A member who shall have elected to contribute on the basis of retirement after twenty years of service, upon completing such period of service, may continue in the service. In such event and upon retirement for service, there shall be added to his or her annual service pension one-sixtieth of the salary received at the date of retirement for each completed additional year of service, during which years such deductions shall have been made. Any such member upon completing twenty-five years of service, shall have such deductions made at the rate of five per cent, in which event and upon retirement for service, such additional amounts also shall be added to his or her annual service pension for the years during which deductions shall have been made at the rate of five per cent.

2. A member who shall have elected to contribute on the basis of retirement after twenty-five years of service, upon completing such period of service, may continue in the service. In such event there shall be added to his or her annual service pension upon retirement for service one-sixtieth of the salary received at the date of retirement for each completed additional year of service, during which years such deductions shall have been made at the rate of five per cent.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-209 Payment of pensions; death.

a. The board of trustees of the pension fund shall pay a pension out of such fund to the spouse, child or children or dependent parent or parents of any deceased member of the police force in such department, if the death of such member occur during his or her service in such police force, or after he or she was retired from service in such force. The amount of any such pension to be paid by the board of trustees to each of the several representatives of such member, in case there shall be more than one, from time to time, may be determined by such board according to the circumstances of each case. The annual pension to the representative or representatives of such member, however, shall be six hundred dollars, and no part of such sum shall be paid to any such spouse who shall remarry, after such remarriage, or to any child after it shall have reached the age of eighteen years.

In lieu of the aforementioned pension, when a member of the force dies while in active service, his or her beneficiary shall be paid the accumulated deductions of such deceased member if written application therefor be made to the board of trustees by such beneficiary.

b. In case any member in the police force of such department is killed while actually engaged in the performance of duty, or if death ensues, or results from a disease, as the immediate effect of injuries received, the board of trustees of such fund, upon evidence submitted to it, shall have power to decide whether death so occurred and upon such decision shall award to the spouse of such member an annual sum as a pension, to be paid out of such fund in an amount not to exceed, except as herein provided, one-half of the salary of such member at the date of his or her decease. If such

member, dying, leaves no spouse surviving him or her, but leaves a child or children, under the age of eighteen years, or dependent parent or parents, such board shall award to the legal guardian of such child or children, or dependent parent or parents, for its or their support and maintenance, an annual sum as a pension out of such fund, in an amount not to exceed one-half of the salary of such member at the date of his or her decease. The amount of such pension to any spouse shall cease upon his or her death. Such annual pension shall cease upon the death or marriage of such child, or upon its reaching the age of eighteen years. If such payment to the spouse of any such member shall cease by reason of his or her death, such board shall make payments to the child or children, or dependent parent or parents of such member, if any, as though he or she had died without leaving a spouse surviving him or her.

c. The board of trustees, subject to the separate approval of the mayor, may presume a member or former member of the pension fund to be dead, if such member has disappeared and has been absent for three years or more, unless there be affirmative evidence that he or she was alive within that time. In the case of a former member who has disappeared, has been absent for three years or more and who was last known to be alive while a member of the police force in the department, the board of trustees, subject to the separate approval of the mayor, may presume that death occurred while such former member was a member of such police force, unless there be affirmative evidence that he or she was alive after his or her separation from service in the police force. If in its judgment the evidence warrants such determination, the board of trustees, subject to the separate approval of the mayor, may make an additional and separate finding that such presumed death occurred while such member or former member was actually engaged in the performance of duty. In the event that the board of trustees, upon approval of the mayor, shall take action pursuant to a presumption of death with respect to the disappearance of a former member of the police force, the police commissioner shall have power to revoke any disciplinary action, with respect to the absence of such former member of the police force, which was taken by him or her after the date when such former member is presumed to have died. Notwithstanding any other provision of law, the board of trustees and the police commissioner shall have power to revoke or rescind any action taken by them, respectively, pursuant to this subdivision, with or without cause at any time prior to five years from the date of the disappearance of a member or former member and thereafter they may take action and exercise such power in the event that they respectively shall determine, on the basis of affirmative evidence submitted to them, that any member or former member was alive after the date he or she was presumed to be dead. Upon the expiration of a period of five years from the date of the disappearance of a member or former member, continuation of the payment of a pension pursuant to this section based upon the presumed death of such member or former member shall be conditioned upon a determination by a court of competent jurisdiction, in an action or special proceeding brought by a beneficiary receiving all or part of such pension or any other member of the family of such member or former member pursuant to the provisions of section 21.7 of the estates, powers and trusts law, that such member or former member is presumed to be dead. Such determination shall be deemed conclusive for the purposes of this section, unless such member or former member thereafter shall be found to be alive.

d. (1) Notwithstanding the provisions of subdivision b of this section, in any case where a pension was or is awarded under the provisions of such subdivision, or any predecessor provision by reason of the death of any such member, occurring before July first, nineteen hundred and sixty-five, such pension, subject to the provisions of paragraphs two and three of this subdivision d, shall consist:

(a) For each full calendar year, on and after January first, nineteen hundred and sixty-five, of a sum as a pension to be paid out of such fund and in an amount not to exceed, except as herein provided, one-half of the annual salary or compensation payable, on July first, nineteen hundred and sixty-five, to a member of the uniformed force of rank, seniority, and other salary-determining status, equal to that of the deceased member on the date of his or her decease but in no case less than one-half of the salary payable to a first grade patrolman on July first, nineteen hundred and sixty-five, and

(b) For any portion of a calendar year, on and after January first, nineteen hundred and sixty-five, the appropriate pro rata portion of the amount which would be payable, under the provisions of subparagraph (a) of this paragraph one, for the full calendar year which includes such portion of a year, if a pension were payable under this subdivision d for such full calendar year.

(2) Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination, as to the pension which would otherwise be payable, on and after January first, nineteen hundred and sixty-five, pursuant to subdivision b of this section or any applicable predecessor provision, by reason of the death of such member.

(3) The pension payable pursuant to the provisions of paragraphs one and two of this subdivision d shall be in lieu of any pension which would otherwise be payable on or after January first, nineteen hundred and sixty-five pursuant to the provisions of such subdivision b, or predecessor provision, and, except as otherwise provided in paragraph one of subdivision e of section 13-686 of this title, shall be in lieu of any supplemental retirement allowance which would otherwise be payable, on and after such date, under the provisions of subchapter six of chapter five of this title or any other law.

Sub c added LL 15/1943 § 1

Sub a amended chap 1076/1960 § 1

Sub d added LL 67/1965 § 1

Sub d par 3 amended chap 994/1973 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where the widow of a retired in § B18-6.0 represents a contractual right and is not in the nature of a gratuity. It is mandatory upon the trustees of the Police Pension Fund to grant an annual pension of $600 upon death of a member if he leaves him surviving any of the representatives therein mentioned.-In re Horan (Wallender), 186 Misc. 40, 58 N.Y.S. 2d 471 [1945].

¶ 2. Petitioner's acquittal, on her defense of temporary insanity, of a charge of first degree murder in the shooting of her husband, a police officer, was not an adjudication binding on the trustees of the Police Pension Fund, so far as her right to a widow's pension was involved.-Id.

¶ 3. Under § B18-6.0, the annual pension of $600 must be paid if the deceased police officer leave him surviving any of the representatives specified in such section, but how the pension shall be distributed among those representatives rests in the discretion of the trustees of the Pension Fund. Accordingly, the trustees had the power to determine that it would award the entire $600 to the two children, under the age of 18, to the exclusion of the widow who had shot her husband, although she had been acquitted, on her defense of temporary insanity, of a charge of first degree murder. When the children became 18 years of age, and if the widow had not remarried and there were no dependent parents, the trustees would be bound to pay her the $600 pension unless her act in shooting the husband deprived her of any right thereto, and the trustees could at that time inquire into that matter.-In re Horan (Wallender), 186 Misc. 40, 58 N.Y.S. 2d 471 [1945].

¶ 4. A policeman, who, while transferring from one post to another, fell from the running board of private automobile and died of injuries was in the actual performance of his duties and even though he had violated a Department rule that patrolmen were not permitted to ride in private automobiles, his widow was entitled to a pension of one half of his annual salary.-Matter of Dolan (McGahen), 297 N.Y. 913, 79 N.E. 2d 743 [1948], aff'g 272 App. Div. 814, 71 N.Y.S. 2d 903 [1947].

¶ 5. Once the Board of Trustees of the Police Pension Fund, as successors of the Police Commissioner, exercised its discretion to grant a pension to the two children of a deceased policeman, the Board had no discretion as to the date to which the payments should be made retroactive. The pension was required to date from the mother's remarriage on September 13, 1942.-Lambrecht v. Monaghan, 280 App. Div. 618, 116 N.Y.S. 2d 604 [1952], aff'd 305 N.Y. 874, 114 N.E. 2d 216 [1953].

¶ 6. Where, although a purported decree of divorce was obtained by the decedent in Florida in 1939 and decedent allegedly remarried in such state three days later, not once had this been asserted against petitioner so as to deprive her of monthly pension fund payments over a period of fourteen years in accordance with a separation agreement authorizing such payments by the trustees of the Police Pension Fund, and no proof was presently submitted showing that such a divorce decree was actually obtained, and if it was, that it had any binding effect on petitioner, petitioner was deemed to be the lawful widow of deceased, for purposes of obtaining a pension.-Moeller v. Adams, 131 (50) N.Y.L.J. (3-16-54) 7, Col. 2 F.

¶ 7. Plaintiff, who was married to policeman prior to his securing a purported Mexican divorce decree, was entitled to widow's pension, though the policeman had remarried after the decree, since decree was invalid.-Johannsen v. Kennedy, 22 Misc. 2d 191, 198 N.Y.S. 2d 648 [1960].

¶ 8. Today, pensions are not discretionary. The practice in regard to widows employed is to grant the petition but suspend payment during the period of employment. A widow, who was employed as a school teacher when she applied for a pension in 1938, was properly denied a pension, since at that time the granting of pensions was discretionary with the Commissioner, but she was entitled to a pension in 1959 following her retirement, and refusal of same was arbitrary. The four-month period of limitations did not bar review, since the only petition involved was the denial of the petition in 1959. Matter of Wallace, 23 Misc. 2d 148, 199 N.Y.S. 2d 526 [1960].

¶ 9. Where trustees of the Police Pension Fund denied an application for a pension for the surviving family of a policeman who purportedly died in the line of duty on the basis of the Medical Board's recommendations and did not permit petitioner to appear or offer any evidence on her behalf or to examine the records of the Medical Board, the action of trustee annulled. The petitioner was entitled to participate and offer evidence on her behalf.-Matter of Clifford (Trustee etc.), 144 (55) N.Y.L.J. (5-23-60) 13, Col. 3 M.

**CASE NOTES**

¶ 1. Where a California divorce was deemed valid in New York under the "full faith and credit" clause of the constitution, the wife was not entitled to a widow's pension under § 13-209. Kulaka v. Fire Department Article 1 Pension Fund, 145 A.D.2d 538, 535 N.Y.S.2d 750 (2nd Dept. 1988).

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-210 Return of deductions on discontinuance of membership or on death.

a. Should a member discontinue service in the force, except by death or retirement, he or she shall be paid the amount of the five per cent. or six per cent. deductions without interest made from his or her pay, salary or compensation pursuant to subdivision nine of section 13-203 of this subchapter.

b. In the event that a member shall die before retirement and a pension is not paid by the board of trustees pursuant to section 13-209 of this subchapter, the amount of the five per cent. or six per cent. deductions without interest made from the pay, salary or compensation of such member pursuant to subdivision nine of section 13-203 of this subchapter shall be paid by such board to the beneficiary or beneficiaries, as such member shall have nominated by written designation duly acknowledged and filed with such board. Such designation shall be made within thirty days after this section shall take effect, and may be changed, from time to time, by such member upon filing with the board a new designation duly acknowledged.

**CASE NOTES FROM FORMER SECTION**

¶ 1. A policeman in 1938 entered into a separation agreement with his first wife, pursuant to which, he agreed not to change beneficiary in any of his insurance policies or "benefits on his life". In 1940, he nominated his first wife as the person to receive a return of deductions in accordance with § B18-7.0. In 1944 he retired to Florida, divorced his first wife and remarried. **Held:** the right to the widow's allowance was not an insurance policy or benefit. Such a right depends upon the statute and not upon the terms of a separation agreement. Also the right to receive deductions had no bearing upon the question, since upon retirement no one had any right to deductions.-Kreidler v. Kreidler, 1 Misc. 2d 85, 146 S 2d 160 [1955].

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 1 [POLICE DEPARTMENT, SUBCHAPTER ONE PENSION FUND]

§ 13-213.1 Transfer of assets, liabilities and administration of pension fund, subchapter one to pension fund, subchapter two: payment of certain benefits by pension fund, subchapter two.

a. The following terms, as used in this section, shall have the following meanings unless a different meaning is plainly required by the context:

1. "Pension fund, subchapter one". The police pension fund provided for in this subchapter.

2. "Pension fund, subchapter two". The police pension fund provided for in subchapter two of this chapter.

3. "Police subchapter one beneficiary". Any person who is entitled under the laws in effect immediately prior to July first, nineteen hundred ninety-five to receive benefits from pension fund, subchapter one.

b. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, all assets held by pension fund, subchapter one shall be transferred to pension fund, subchapter two and shall be credited to the contingent reserve fund of pension fund, subchapter two.

c. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on and ofter July first, nineteen hundred ninety-five, all moneys which otherwise would be paid to pension

fund, subchapter one pursuant to the provisions of section 13-203 of this subchapter or any other provision of law, or from any other source whatsoever, shall instead by*2 paid to the general fund of the city established pursuant to section one hundred nine of the New York city charter.

d. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, all liabilities of pension fund, subchapter one as of such date, including, but not limited to, liability for the payment of all benefits required under laws in effect immediately prior to such date to be paid on and after such date by pension fund, subchapter one to police subchapter one beneficiaries, shall be transferred to and assumed by pension fund, subchapter two, and such benefits payable to police subchapter one beneficiaries on and after such date shall be paid to such beneficiaries by pension fund, subchapter two.

e. Subject to the provisions of subdivision g of this section, and notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the liability of the city supplemental pension fund established under section 13-650 of this title for the payment of all supplemental benefits required under laws in effect immediately prior to such date to be paid on and after such date by such supplemental pension fund to police subchapter one beneficiaries shall be transferred to and assumed by pension fund, subchapter two, and such supplemental benefits payable to such police subchapter one benificiaries*3 on and after such date shall be paid to such beneficiaries by pension fund, subchapter two.

f. Notwithstanding any other provision of law to the contrary, on July first, nineteen hundred ninety-five, the duties and responsibilities of administering the provisions of this subchapter conferred upon the board of trustees of pension fund, subchapter one by the provisions of this subchapter in effect immediately prior to such date shall be transferred to and assumed by the board of trustees of pension fund, subchapter two.

g. Notwithstanding any other provision of law to the contrary, for all funding or accounting purposes, including but not limited to, the funding or accounting purposes associated with the implementation of the provisions of this section, the provisions of subparagraph (d) of paragraph two of subdivision b of section 13-228 of this chapter or the provisions of paragraph six of subdivision b of such section 13-228 of this chapter or the provisions of paragraph six of subdivision b of such section 13-228, the transfer of certain assets or liabilities to pension fund, subchapter two as required by subdivision b, d or e of this section to be made on July first, nineteen hundred ninety-five shall be deemed to have been made on July first, nineteen hundred ninety-four, and the payment of certain moneys to the general fund of the city as required by subdivision c of this section to be made on and after July first, nineteen hundred ninety-five shall be deemed to have been made on and after July first, nineteen hundred ninety-four.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-214 Definitions.

The following words and phrases as used in this subchapter unless a different meaning is plainly required by the context, shall have the following meanings:

1. "Pension fund" shall mean the police pension fund provided for in this subchapter.

2. "Medical board" shall mean the board of physicians provided for in section 13-223 of this subchapter.

3. "City service" shall mean service in the police force in the department and shall include service credit acquired by transfer pursuant to section forty-three of the retirement and social security law or by transfer, from another pension or retirement system, of funds actuarially determined in a manner similar to that provided by such section of the retirement and social security law. In any case where a member, after becoming eligible to retire for service, is appointed police commissioner or deputy police commissioner, and in any case where a person who retired for service as a member of the pension fund is thereafter appointed police commissioner or deputy police commissioner, his or her service as police commissioner or deputy police commissioner shall constitute city service.

4. "Member" shall mean any person included in the membership of the pension fund as provided in section 13-215 of this subchapter.

5. "Beneficiary" shall mean any person in receipt of a pension, an annuity, a retirement allowance, a dependent benefit, a death benefit or any other benefit provided by this subchapter.

6. "Final compensation" shall mean the average annual compensation earnable by a member for city-service during his or her last five years of city-service, or during any other five consecutive years of city-service since he or she last became a member which such member shall designate.

7. "Accumulated deductions" shall mean the sum of all the amounts, deducted from the compensation of a member or contributed by him or her, standing to the credit of his or her individual account in the annuity savings fund together with regular interest and special interest, if any, thereon.

8. (a) Except as otherwise provided in paragraphs (b), (c), (d), (e) and (g) of this subdivision, "regular interest", in the cases of persons who are members on the thirtieth day of June, nineteen hundred forty-seven, shall mean interest at four per centum per annum, compounded annually, and in the cases of persons becoming members thereafter, shall mean interest at three per centum per annum, compounded annually to and including the thirtieth day of June, nineteen hundred sixty-five, and interest at four per centum per annum, compounded annually, from and after the first day of July, nineteen hundred sixty-five, except that (i) as to the annuity savings fund and reserve-for-increased-take-home-pay of persons becoming members after June thirtieth, nineteen hundred forty-seven, the term "regular interest", for the period from July first, nineteen hundred sixty-five through December thirty-first, nineteen hundred sixty-seven, shall mean three per centum per annum compounded annually, and (ii) in the cases of persons becoming members after June thirtieth, nineteen hundred forty-seven, whose city-service has been or shall be terminated by death, retirement, resignation, dismissal, or otherwise on or before June thirtieth, nineteen hundred sixty-seven, the term "regular interest" shall mean interest at three per centum per annum, compounded annually, to and including the date of such termination.

(b) The provisions of paragraph (a) of this subdivision shall not apply to any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city or other public employer into the contingent reserve fund of the pension fund in the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city or any subsequent fiscal year thereof.

(c) (i) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid, by the city or other public employer into the contingent reserve fund of the pension fund in the nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred seventy-nine-nineteen hundred eighty fiscal year thereof, "regular interest" shall mean interest at five and one-half per centum per annum, compounded annually.

(ii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs (1) and (4) of subdivision b of section 13-228 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this chapter and which is used to determine the amount of any contribution required to be paid by the city or other public employer into the contingent reserve fund of the pension fund in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year thereof, "regular interest" shall mean interest at the rate of seven and one-half per centum per annum, compounded annually.

(iii) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs (1)and (4) of subdivision b of section 13-228 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this

subchapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the pension fund in the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year of the city and in each succeeding fiscal year thereof to and including the nineteen hundred eighty-seven-nineteen hundred eighty-eight fiscal year thereof, "regular interest" shall mean interest at the rate of eight per centum per annum, compounded annually.

(iv) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs (1) and (4) of subdivision b of section 13-228 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this subchapter and which is used to determine the amount of any contribution required to be paid by the city (or other obligors required to pay public employer contributions on account of members) into the contingent reserve fund of the pension fund in the nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year of the city and the nineteen hundred eighty-nine-nineteen hundred ninety fiscal year thereof, "regular interest" shall mean interest at the rate of eight and one-quarter per centum per annum, compounded annually.

(d) Subject to the provisions of subparagraph (ii) of paragraph (f) of this subdivision, and except as otherwise provided in paragraphs (1) and (4) of subdivision b of section 13-228 of this subchapter with respect to determination of the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty and balance sheet liability contributions, for the purpose of any actuarial valuation, determination or appraisal which is made pursuant to this subchapter and which is used to determine the amount of any contribution required to be paid by the city or other public employer into the contingent reserve fund of the pension fund in the city's nineteen hundred ninety-nineteen hundred ninety-one fiscal year and in any subsequent fiscal year thereof, "regular interest" shall mean interest at such rate per annum, compounded annually, as shall be prescribed by the legislature in section 13-638.2 of this title.

(e) On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the board shall submit to the governor, the temporary president and minority leader of the senate, the speaker of the assembly, the majority and minority leaders of the assembly, the state superintendent of insurance, the chairperson of the permanent commission on public employee pension and retirement systems, the mayor of the city and the members of the board of estimate and city council thereof, the written recommendations of the board as to the rate of interest and effective period thereof which should be established by law as "regular interest" for the purpose specified in paragraph (d) of this subdivision.

(f) (i) Subject to the provisions of subparagraph (c) of paragraph two of subdivision b of section 13-228 of this subchapter, nothing contained in paragraphs (b), (c), (d) and (e) of this subdivision shall be construed as prescribing for the purpose of crediting interest to individual accounts in the annuity savings fund or to reserves-for-increased-take-home-pay or for any other purpose besides that specified in such paragraphs, a rate of regular interest other than as prescribed in paragraph (a) or paragraph (g) of this subdivision.

(ii) Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring the original unfunded accrued liability contribution, as defined in subparagraph (a) of paragraph (3) of subdivision b of section 13-228 of this subchapter, and the revised unfunded accrued liability contribution, as defined in subparagraph (b) of such paragraph (3), and the nineteen hundred eighty unfunded accrued liability adjustment, as defined in subparagraph (c) of such paragraph (3), and the nineteen hundred eighty-two unfunded accrued liability adjustment, as defined in subparagraph (d) of such paragraph (3) to be determined in any manner other than as prescribed in such subparagraphs. Subject to the provisions of section 13-638.2 of this title, nothing contained in paragraphs (c) and (d) of this subdivision shall be construed as requiring any balance sheet liability or balance sheet liability contribution computed pursuant to the provisions of paragraph (4) of subdivision b of such section 13-228 of this subchapter to be determined in any manner other than as prescribed in such paragraph (4).

(g) (i) Commencing on August first, nineteen hundred eighty-three, and continuing thereafter, "regular interest",

in the cases of persons who were members on July thirty-first, nineteen hundred eighty-three or who thereafter became or become members, shall mean, subject to the provisions of subparagraph (ii) to (x), inclusive, of this paragraph (g), interest at seven per centum per annum, compounded annually.

(ii) (A) (1) Subject to the provisions of sub-items (2) and (3) of this item (A), regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining any actuarial equivalent benefit payable to or on account of any seven percent member for actuarial equivalent benefit purposes.

(2) Where an actuarial equivalent benefit is required by board resolution to be determined for any seven percent member for actuarial equivalent benefit purposes through the use of the modified Option 1 pension computation formula (as defined in subdivision twenty-eight of this section), the actuarial interest assumptions used in making such determination shall be as prescribed in such formula.

(3) Where it is provided by board resolution that a portion of an actuarial equivalent benefit shall be determined for any such seven percent member on the basis of gender-neutral mortality tables, and that the remainder of such benefit shall be determined on the basis of mortality tables which are not gender-neutral, regular interest at the rate of seven per centum per annum, compounded annually, shall be used as the actuarial interest assumption for determining the portion of such benefit required by such resolution to be determined on the basis of gender-neutral mortality tables and such rate of regular interest shall not apply to the determination of the remainder of such benefit.

(B) Notwithstanding that the process of determining whether a member is a seven percent member for actuarial equivalent benefit purposes may include, for the purpose of ascertaining the highest applicable benefit, alternative hypothetical benefit calculations utilizing a rate of regular interest other than such rate of seven per centum, nothing contained in subparagraph (i) of this paragraph (g) or in item (A) of this subparagraph (ii) shall be construed as requiring that in the determination of any actuarial equivalent benefit payable to or on account of any member who is not a seven percent member for actuarial equivalent benefit purposes, any rate of interest be used as the actuarial interest assumption other than regular interest, compounded annually, as prescribed by the applicable provisions of paragraph (a) of this subdivision.

(iii) The provisions of item (A) of subparagraph (ii) of this paragraph (g) shall not apply to any person who, prior to August first, nineteen hundred eighty-three, retired as a member of the pension fund for service or superannuation or for ordinary or accident disability and was such a retiree immediately prior to such August first, provided however, that if any such retiree returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, was or is restored to membership in the pension fund as required or permitted by law, the provisions of such item (A), from and after the date of such restoration to membership, shall apply to such restored member with respect to determination of any actuarial equivalent benefit which is both (A) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (B) a benefit which is not a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior retirement; provided further that nothing contained in the preceding provisions of this subparagraph shall be construed as making the provisions of item (A) of such subparagraph (ii) applicable to any such restored member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time for such subsequent retirement or subsequent discontinuance of service.

(iv) (A) Subject to the provisions of items (B) and (C) of this subparagraph (iv), the provisions of item (A) of subparagraph (ii) of this paragraph (g) shall not apply to any member who, (1) prior to August first, nineteen hundred eighty-three, discontinued service under such circumstances that such member became a discontinued member, and (2) was such a discontinued member immediately prior to such August first.

(B) If such a discontinued member returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and before payability of his or her retirement allowance as such member began or begins, again

becomes an active member pursuant to the applicable provisions of section 13-256 of this subchapter, the provisions of item (A) of such subparagraph (ii) shall apply to him or her on and after the date of such resumption of active membership; provided that nothing contained in the preceding provisions of this item (B) shall be construed as making the provisions of item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at the time of subsequent retirement or subsequent discontinuance of service so as to qualify for benefits.

(C) If a discontinued member referred to in item (A) of this subparagraph (iv) returned or returns to city-service and on or after July thirty-first, nineteen hundred eighty-three and on or after the date on which payability of his or her retirement allowance as such member began or begins, again became or becomes an active member pursuant to the applicable provisions of section 13-256 of the code, the provisions of item (A) of such subparagraph (ii), on and after the date of such resumption of active membership, shall apply to him or her with respect to determination of any actuarial equivalent benefit which is both (1) a benefit to which he or she became or becomes entitled upon his or her subsequent retirement or subsequent discontinuance of service so as to qualify for benefits, and (2) a benefit which is not a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior discontinuance of service; provided that nothing contained in the preceding provisions of this item (C) shall be construed as making item (A) of such subparagraph (ii) applicable to any such member who was not or is not a seven percent member for actuarial equivalent benefit purposes at such time of subsequent retirement or subsequent discontinuance of service.

(v) (A) Subject to the provisions of item (B) of this subparagraph (v) and to the provisions of subparagraph (viii) of this paragraph (g), the selection of mode of benefit (as defined in subdivision twenty-nine of this section) made prior to the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of this paragraph (g) by a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method (as defined in subdivision thirty-one of this section) in relation to the retirement allowance (or any component thereof) which became payable to him or her prior to such date of enactment shall be the selection of mode of benefit applicable to the recomputed retirement allowance (or any corresponding component thereof) to which he or she is entitled under the best-of-three-computations method (as defined in subdivision thirty of this section), and any such person entitled to a recomputation of benefits pursuant to the best-of-three-computations method shall not be entitled to make any change in such selection of mode of benefit.

(B) (1) Notwithstanding the provisions of item (A) of this subparagraph (v), a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method shall be entitled, to the extent and in the manner prescribed in the succeeding sub-items of this item (B), to change the original selection of mode of benefit applicable to the retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of this paragraph (g).

(2) In any case where the original selection of mode of benefit of a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method was a selection of a joint and survivor option (as defined in subdivision thirty-two of this section), no change from such original selection of a joint and survivor option may be made under this item (B) to any other selection of mode of benefit if the designated beneficiary selected with respect to such joint and survivor option by such person entitled to a recomputation is not alive at the time of filing of the form whereby such person entitled to a recomputation seeks to change, pursuant to this item (B), his or her original selection of such joint and survivor option.

(3) Except for a change of selection of mode of benefit prohibited by sub-item two of this item (B), any original selection of mode of benefit may be changed pursuant to this item (B) to another selection of mode of benefit, provided all of the conditions set forth in sub-items four, six and eight of this item (B) are met.

(4) Subject to the provisions of sub-items seven and eight of this item (B), a person entitled to a recomputation of benefits pursuant to the best-of-three-computations method may, pursuant to this item (B), effect any such

permissible change of his or her original selection of mode of benefit by executing, acknowledging and filing with the pension fund, within the applicable period of time prescribed by sub-item six of this item, a new selection of mode of benefit. If the original selection of mode of benefit of the person filing such new selection was a selection of a joint and survivor option, such new selection shall be void and of no effect unless (a) the designated beneficiary named in such original selection of a joint and survivor option signs and acknowledges, in the form for such new selection of mode of benefit, a consent to such changed selection of mode of benefit, and (b) such original designated beneficiary is alive on the date of filing of such new selection.

(5) The pension fund shall mail to each person entitled to a recomputation of benefits pursuant to the best-of-three-computations method a letter showing amounts of benefits, as recomputed for such person under the best-of-three-computations method, for modes of benefit other than joint and survivor options, together with a statement advising such person that upon request the amounts of recomputed benefits under joint and survivor options will be provided.

(6) The period of time within which any such person entitled to a recomputation may file a new selection of mode of benefit as provided for in sub-items three and four of this item (B) shall be sixty days after the date of issuance set forth in such letter mailed to such person pursuant to sub-item five of this item; provided, however, that if, pursuant to the request of such person, a later letter setting forth benefits information in relation to new selection of a mode of benefit is mailed to such person by the pension fund, such period of time for filing a new selection of mode of benefit shall be thirty days after the date of issuance set forth in such later letter.

(7) Upon the filing of a new selection of mode of benefit pursuant to this item (B) by any such person entitled to a recomputation, such new selection shall be irrevocable and such person shall not be entitled to file any other selection of mode of benefit with respect to such retirement allowance (or any component thereof) which became payable to him or her prior to the date of enactment of this paragraph (g).

(8) No new selection of mode of benefit filed pursuant to the preceding sub-items of this item (B) shall be valid or effective as a change of mode of benefit or for any other purpose unless the person entitled to a recomputation of benefits pursuant to the best-of-three-computations method who files such new selection is alive on the date (hereinafter referred to as the "validating date") three hundred sixty-five days after the date of filing of such new selection of mode of benefit. If such person filing such new selection of mode of benefit is alive on the validating date with respect to such new selection, such new selection shall become valid and effective on such validating date; provided, however, that from and after the effective date of retirement of such person making such valid and effective new selection of mode of benefit (if he or she retired for service or superannuation or for ordinary or accident disability) or from and after the date on which payability of the original benefits of such person began (if he or she was a discontinued member), such new selection of mode of benefit shall supersede such original selection of mode of benefit and shall apply to and govern the amount of benefits payable to such person or to his or her designated beneficiary or estate.

(vi) Subject to the provisions of subparagraph (viii) of this paragraph (g), in any case where a member who retired before August first, nineteen hundred eighty-three for service or superannuation or for ordinary or accident disability returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, re-entered or re-enters membership in the pension fund, nothing contained in subparagraphs (i) to (iv), inclusive of this paragraph (g) shall be construed as authorizing or permitting him or her to change any selection of mode of benefit (as defined in subdivision twenty-nine of this section) made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior retirement.

(vii) Subject to the provisions of subparagraph (viii) of this paragraph (g), in any case where a discontinued member referred to in item (A) of subparagraph (iv) of this paragraph returned or returns to city-service and, on or after July thirty-first, nineteen hundred eighty-three, again became or becomes an active member pursuant to applicable

provisions of law, nothing contained in subparagraphs (i) to (iv), inclusive, of this paragraph (g) shall be construed as authorizing or permitting him or her to change any selection of mode of benefit made by him or her with respect to any benefit which, upon his or her subsequent retirement or discontinuance of service so as to qualify for benefits, is payable to him or her as a continuation, without change, of a benefit which had previously become payable to him or her by reason of his or her prior discontinuance of service.

(viii) Nothing contained in subparagraphs (v), (vi) and (vii) of this paragraph (g) shall be construed as preventing:

(A) any person subject to such subparagraph (v) who, on or after July thirty-first, nineteen hundred eighty-three, re-entered or re-enters city-service and again became or becomes an active member; or

(B) any re-entered member referred to in such subparagraph (vi) or subparagraph (vii); upon his or her subsequent retirement, from exercising any right, which any other applicable law grants to him or her under such circumstances, to make a selection of mode of benefit (as defined in subdivision twenty-nine of this section).

(ix) Notwithstanding the provisions of subparagraph (i) of this paragraph (g) prescribing a rate of regular interest of seven per centum per annum, compounded annually, for specified members described in such subparagraph (i), the rate of regular interest which shall be applied to fix the rate of interest on any loan to any such member eligible to borrow shall be four per centum per annum, compounded annually.

(x) The rate of regular interest applicable to determination of the rate of member contribution of any member whose last membership began prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this paragraph (g) shall be the rate of regular interest which was applicable, under the provisions of law in effect prior to such date of enactment, to the determination of the rate of member contribution of such member, and nothing contained in the preceding subparagraphs of this paragraph (g) shall be construed as applicable to the determination of the rate of member contribution of any such member whose last membership so began or as changing or affecting the rate of member contribution of any such member.

9. "Pension" shall mean payments for life derived from appropriations made by the city as provided in this subchapter.

10. "Annuity" shall mean payments for life derived from contributions made by a member as provided in this subchapter.

11. "Dependent benefit" shall mean payments derived from contributions made by a member as provided in section 13-253 of this subchapter.

12. "Retirement allowance" shall mean the pension plus the annuity and the pension-providing-for-increased-take-home-pay, if any.

13. "Pension reserve" shall mean the present value of all payments to be made on account of any pension, or benefit in lieu of any pension, granted under the provisions of this subchapter, computed upon the basis of such mortality tables as shall be adopted by the board with regular interest.

14. "Annuity reserve" shall mean the present value of all payments to be made on account of any annuity, or benefit in lieu of any annuity, granted under the provisions of this subchapter, computed upon the basis of such mortality tables as shall be adopted by the board with regular interest.

15. "Fiscal year" shall mean any year commencing with the first day of July and ending with the thirtieth day of June next following.

16. "Total service" shall mean all service of a member allowable as provided in subdivision three of this section and section 13-218 of this subchapter.

17. "Board" shall mean the board of trustees provided for in section 13-216 of this subchapter.

18. Pension-providing-for-increased-take-home-pay. The annual allowance for life payable in monthly installments derived from contributions made by the city to the contingent reserve fund pursuant to section 13-226 of this subchapter.

19. Reserve-for-increased-take-home-pay. The amount of the reserve provided by the city which shall be a sum consisting of the total of all products obtained by multiplying the compensation of the member, during each period of reduction of member contributions under section 13-226 of this subchapter, by the percentage of reduction of his contributions applicable under such section with respect to such period, plus regular interest, and additional interest, if any, thereon.

20. "Special interest". A distribution to the annuity savings fund, in addition to regular interest, which distribution (a) for each of the periods as to which the provisions of section 13-234 of this subchapter or section 13-638.2 of this title grant special interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is credited in such applicable amount to the accounts in the annuity savings fund of members who are eligible under such provisions for crediting of such amount for such period.

21. "Additional interest". A distribution to the reserve-for-increased-take-home-pay in addition to regular interest, which distribution (a) for each of the periods as to which the provisions of section 13-234 of this subchapter or section 13-638.2 of this title grant additional interest, consists of the amount prescribed by such provisions for such period and (b) for each such period, is to be included in such applicable amount in the reserve-for-increased-take-home-pay of each member who is eligible under such provisions for inclusion of such amount for such period.

22. "Discontinued member." A member who has discontinued police service and who has a vested right to a deferred retirement allowance under section 13-256 of this subchapter.

23. "Police service." Service in the uniformed force of the police department, as a member of such force, including service for which credit is granted by section 14-112 of the code, but excluding any service credit acquired by transfer or otherwise under any provision of law.

24. "Supplementary interest". An annual allowance, in addition to regular interest, of interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter (excluding, however, the annuity savings fund and the amount of reserve-for-increased-take-home-pay in the contingent reserve fund), which allowance, (a) for each of the periods as to which the provisions of section 13-234 of this subchapter or section 13-638.2 of this title grant supplementary interest, consists of the amount prescribed by such provisions for each period and (b) for each such period, is credited in such applicable amount to such funds at the time, in the manner, to the extent and subject to the exclusions prescribed by the provisions of such section.

25. "Actuarial equivalent benefit". Any benefit which by law is required to be an actuarial equivalent or by law is required to be determined on the basis of an actuarial equivalent.

26. "Seven percent member for actuarial equivalent benefit purposes". (a) A member who meets all of the following conditions:

(i) subparagraph (i) of paragraph (g) of subdivision eight of this section (relating to the definition of members as to whom regular interest at seven per centum per annum, compounded annually, applies) applies to such member; and

(ii) an actuarial equivalent benefit has become payable to or on account of such member; and

(iii) it is provided by a resolution adopted by the board (A) that a mortality table which does not differentiate on the basis of sex shall be used to calculate such actuarial equivalent benefit or a portion of such benefit, or (B) that the modified Option 1 pension computation formula (as defined in subdivision twenty-eight of this section) shall be used to calculate such actuarial equivalent benefit.

(b) Except in cases to which the modified Option 1 pension computation formula applies pursuant to a resolution adopted by the board, nothing contained in subparagraph (iii) of paragraph (a) of this subdivision twenty-six shall be construed as referring to or including any calculation of an actuarial equivalent benefit (or portion of such benefit) payable to any person where such calculation is required by board resolution to be made throught the use of a sex-differentiated mortality table.

27. "Tier I member". A member whose benefits (other than a supplemental retirement allowance) are prescribed by this subchapter and who is not subject to the provisions of article eleven, article fourteen or article fifteen of the retirement and social security law.

28. "Modified Option 1 pension computation formula". (a) The method of computing the Option 1 pension component of a retirement allowance payable to a Tier I member and the amount of the Option 1 benefit payable to the beneficiary or estate of such member who selected or selects Option 1 as to such pension component, which method of computation is as prescribed by the succeeding paragraphs of this subdivision twenty-eight.

(b) The initial reserve for such pension component shall be computed through use of mortality tables which do not differentiate on the basis of sex (hereinafter referred to as "gender-neutral mortality tables") and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually.

(c) Solely for the purpose of use as the minuend from which the payments of such pension component to such member are subtracted in order to determine the amount of the Option 1 benefit payable, upon such member's death, to such member's beneficiary or estate by reason of such Option 1 selection in relation to such pension component, the present value of such member's maximum pension, as it was at the time of such member's retirement, shall be deemed to be the greatest of:

(i) such present value determined on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; or

(ii) such present value determined on the basis of the female mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment (as certified pursuant to section forty-one of the legislative law) of this subdivision twenty-eight; or

(iii) such present value determined on the basis of the male mortality tables and the regular interest applicable to such member in effect immediately prior to the date of enactment of this sub- division.

(d) The pension component payable to such member shall be computed on the basis of gender-neutral mortality tables and an interest assumption consisting of regular interest of seven per centum per annum, compounded annually; so that:

(i) the present value, as it was at the time of such member's retirement, of such component; plus

(ii) the present value, as it was at the time of such member's retirement, of the amount payable to such member's Option 1 beneficiary or estate upon the death of the member as provided for by the applicable provisions of paragraph (e) of this subdivision; shall be equal to the Option 1 initial reserve determined for such pension component with respect to such member pursuant to the provisions of paragraph (b) of this subdivision.

(e) Where such member dies before he or she has received payments on account of such pension component equal to the present value of such member's maximum pension as computed pursuant to paragraph (c) of this subdivision, the Option 1 benefit payable to the beneficiary or estate of such deceased member by reason of such Option 1 selection in relation to such pension component, shall be the remainder obtained by subtracting from such present value determined pursuant to such paragraph (c) in relation to such pension component, the total of such Option 1 payments on account of such pension component received by or payable to such member for the period prior to his or her death.

(f) In relation to the Option 1 benefits determined pursuant to the method of computation set forth in this subdivision twenty-eight by reason of discontinuance of city-service by a discontinued member, the phrase "time of such member's retirement", as set forth in paragraphs (c) and (d) of this subdivision, shall be deemed, for the purpose of this subdivision, to mean the date of commencement of the retirement allowance of such discontinued member.

29. "Selection of mode of benefit". The choice made by a member (as permitted by and pursuant to the requirements of law governing such choice by such member) as to whether the maximum amount of his or her retirement allowance or a component thereof shall be payable or such retirement allowance or a component thereof shall be payable under an option selected by the member. The term "selection of mode of benefit" shall include a case where the maximum retirement allowance or a maximum component thereof becomes payable because of a member's omission, within the time permitted by law, to select the maximum benefit or an option.

30. "Best-of-three-computations method". (a) A method (as prescribed by a resolution of the board) under which a retirement allowance (or portion thereof) payable to a member is required to be determined for such member so as to be the greatest of:

(i) such retirement allowance (or portion thereof) determined on the basis of gender-neutral mortality tables and regular interest at the rate of seven per centum per annum; or

(ii) such retirement allowance (or portion thereof) determined on the basis of female mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution; or

(iii) such retirement allowance (or portion thereof) determined on the basis of male mortality tables and the regular interest applicable to such member as of a time prescribed in such resolution.

(b) Where, under the provisions of any such resolution of the board, the modified Option 1 pension computation formula (as defined in subdivision twenty-eight of this section) applies to any member, the term "best-of-three-computations method", where used in relation to such member, shall be deemed to include such modified Option 1 pension computation formula, to the extent that such formula governs the determination of the pension component (or portion thereof) of such member's retirement allowance.

31. "Person entitled to a recomputation of benefits pursuant to the best-of-three-computations method". Any person who meets all of the conditions stated below in this subdivision thirty-one:

(a) such person, during the period beginning on August first, nineteen hundred eighty-three and ending on the date next preceding the date of enactment (as such date is certified pursuant to section forty-one of the legislative law) of this subdivision thirty-one, (i) retired for service or superannuation or for ordinary or accident disability or (ii) discontinued service so as to become a discontinued member; and

(b) such person's retirement allowance (or a portion thereof), by reason of such retirement or discontinuance of service is required by a resolution adopted by the board to be redetermined pursuant to the best-of-three-computations method (as defined in subdivision thirty of this section); and

(c) a first payment on account of his or her retirement allowance (as such retirement allowance was determined

prior to the date of enactment of this subdivision) was made prior to such date of enactment.

32. "Joint and survivor option". (a) Any option under which, at the time when such option is selected, a choice is made which includes both:

(i) a benefit payable for the lifetime of the retired or vested member by whom or in whose behalf such option is selected; and

(ii) a benefit (A) which consists of an amount equal to or constituting a percentage of such retired or vested member's benefit and (B) which is payable for the lifetime of a designated beneficiary selected at the time when such option is selected.

(b) In any case where an option described in paragraph (a) of this subdivision thirty-two includes a provision prescribing that if the designated beneficiary predeceases such retired or vested member, a maximum benefit shall become payable to such member, such option shall nevertheless be deemed to be a joint and survivor option.

33. "Normal rate of contribution." The proportion of the earnable compensation of a member which is required to be deducted from the compensation of such member by the applicable provisions of section 13-225 of this subchapter as his or her member contributions, exclusive of any increase in such contributions pursuant to subdivision c of subdivision d of such section 13-225 or any decrease thereof on account of any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law (relating to election to decrease member contributions by contributions due on account of social security coverage).

34. "Member contributions eligible for pick up by the employer." (a) with respect to any payroll period for a member (other than a member who is not required to contribute during such payroll period because of his or her currently effective election to discontinue member contributions pursuant to subdivision b of section 13-225 of this subchapter), the term "member contributions eligible for pick up by the employer" shall mean the amount of member contributions which, in the absence of an employer pick up program applicable to such member pursuant to section 13-225.1 of this subchapter (providing for pick up of required member contributions), would be required by law to be deducted, on account of such member's normal rate of contribution, from the compensation of such member for such payroll period, after (1) giving effect to any reduction in such contributions required under any program for increased-take-home-pay or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law and (2) excluding any deductions from such compensation (or redeposits, restorations or payments) on account of (i) loans or withdrawals of excess contributions or (ii) any election by such member to increase his or her contributions pursuant to subdivision c or subdivision d of section 13-225 of this subchapter or (iii) any other cause not attributable to the member's normal rate of contribution after reduction, if any, in such rate as described in subpararaph one of this paragraph (a).

(b) If no deductions on account of a member's normal rate of contribution are required by law to be made from the compensation of any member for any payroll period, such member shall not have, for such payroll period, any member contributions eligible for pick up by the employer. The amount of any member's member contributions eligible for pick up by the employer for any payroll period shall be determined solely on the basis of compensation paid to such member for such payroll period by his or her public employer. A member shall not have any member contributions eligible for pick up by the employer with respect to any payroll period for which he or she is not paid compensation by his or her public employer.

35. "Starting date for pick up." The first day of the first whole payroll period commencing after the date which is three months after the internal revenue service shall have issued a ruling that member contributions picked up pursuant to section 13-225.1 of this subchapter are not includible as gross income for federal income tax purposes until distributed or made available.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. 8 par (c) subpar (iii) amended chap 581/1989 § 34 subpar (iv) added chap 581/1989 § 35

Subd. 8 par (d) amended chap 878/1990 § 7 eff. July 25, 1990 applying on and after July 1, 1989

Subd. 8 par (f) subpar (ii) amended chap 878/1990 § 8 eff. July 25, 1990 applying on and after July 1, 1989

Subds. 20, 21, 24 amended chap 878/1990 § 9 eff. July 25, 1990 applying on and after July 1, 1989

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-215 Membership; composition and eligibility.

a. The membership of the pension fund shall consist of:

(1) all persons in city-service, as defined in this subchapter, in positions in the competitive class of the civil service, who shall serve probationary periods, or who shall receive permanent appointments in the police force after the time when this section shall take effect; and

(2) all persons in city-service, as defined in this subchapter, who hold a position of surgeon of police classified in the non-competitive class of the civil service.

b. Notwithstanding any other provision of this subchapter or any other law to the contrary, in any case where a member who is eligible to retire for service is appointed police commissioner or a deputy police commissioner, he or she shall, while serving as police commissioner or deputy police commissioner, continue to be a member of the pension fund. For the purposes of this subchapter, a member serving as police commissioner or deputy police commissioner whose membership is continued pursuant to this subdivision b or whose membership is restored pursuant to subdivision a of section 13-262 of this subchapter shall, during the period of such continuance or restoration of membership, be deemed to be a member of the police force in the department and his or her service as police commissioner or deputy police commissioner during such period shall be deemed to be service in such force.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-216 Board of trustees.

a. The police pension fund shall be administered by a board of trustees which shall, subject to the provisions of law from time to time, establish rules and regulations for the administration and transaction of the business of such fund and for the control and disposition thereof. The provisions of sections one thousand forty-two, one thousand forty-three, one thousand forty-four and one thousand forty-five of the New York city charter shall not be construed to apply to the adoption of such rules and regulations. Such board shall consist of:

1. The police commissioner who shall be chairperson of the board and who shall be entitled to cast one and one-half votes.

2. The comptroller of the city who shall be entitled to cast one and one-half votes.

3. A representative of the mayor who shall be appointed by the mayor and who shall be entitled to cast one and one-half votes.

4. The director of finance of the city who shall be entitled to cast one and one-half votes.

5. The president of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

6. The first vice-president of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

7. The second vice-president of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

8. The chairperson of the board of trustees of the patrolmen's benevolent association of the city of New York who shall be entitled to cast one vote.

9. The president of the captains' endowment association of the police department of the city of New York who shall be entitled to cast one-half vote.

10. The president of the lieutenants' benevolent association, police department, city of New York who shall be entitled to cast one-half vote.

11. The president of the sergeants' benevolent association of the city of New York who shall be entitled to cast one-half vote.

12. The president of the detectives' endowment association of the city of New York who shall be entitled to cast one-half vote.

13. (i) Where, during any six month period during a fiscal year, as defined in subdivision three of section 13-268 of the code, the equity portion of the assets of the pension fund is less than forty-five percent, subparagraph (ii) of this paragraph shall be effective during the succeeding fiscal year.

(ii) Two investment representatives, one of whom shall be appointed by the mayor and one of whom shall be appointed by the comptroller upon the occurrence of the condition specified in subparagraph (i) of this paragraph. Each such representative shall be entitled to cast one vote only in relation to determinations of the board:

(A) as to whether the assets of the pension fund shall be invested in equities or fixed income securities and the proportion of the assets of the pension fund to be invested in equities and fixed income securities; and

(B) as to the identity, nature, character and amounts of the equities (within the proportion as determined under item (A) of this subparagraph) to be acquired, held, sold, disposed of or otherwise dealt with by the pension fund; and

(C) as to any steps necessary to effectuate any of the functions set forth in items (A) and (B) of this subparagraph; and

(D) as to delegation by the board, pursuant to law, of the functions described in items (A), (B) and (C) of this subparagraph.

§2. Subdivision b of section 13-216 of the administrative code of the city of New York, as amended by chapter 247 of the laws of 1988, is amended to read as follows:

b. Subject to the provisions of subdivision b-1 and subdivision f of this section, every act of the board of trustees shall be by resolution which shall be adopted only by a vote of at least seven-twelfths of the whole number of votes authorized to be cast by all of the members of such board.

b-1. Every act of the board of trustees in relation to the investment matters referred to in paragraph thirteen of subdivision a of this section shall be by resolution which shall be adopted only by a vote of at least eighty-fourteenths of the whole number of votes authorized to be cast by all of the members of the board empowered to vote on such investment matters.

c. The police commissioner shall appoint an executive director of the police pension fund, provided, however, that if such designee of the police commissioner is not a member of the uniformed force of the police department, the board of trustees shall approve such appointment. The executive director of the police pension fund shall perform such duties as may be conferred upon him or her by the chairperson of the board, by resolution passed by the board, or by law.

d. Any member of the board, referred to in paragraphs five through twelve, respectively, of subdivision a of this section, shall be members of the uniformed force and may authorize in writing at any time any other officer of the respective associations to represent him or her on such board in the event of his or her absence or disability, provided, however, that the by-laws or constitution of such respective associations provide for the designation of a representative in such event.

e. 1. In addition to the powers conferred upon it by any other provision of law, the board of trustees shall, on or before April first of each year, establish a budget, sufficient to fulfill the powers, duties and responsibilities set forth in this chapter and any other provision of law which sets forth the benefits of members of the pension fund and may draw upon the assets of the pension fund to fund such budget, subject to the provisions of paragraphs two, three, four, five and six of this subdivision and subdivisions f, g, h and i of this section. The provisions of this section shall not be applicable to the payment of investment expenses pursuant to section 13-705 of this title and nothing contained herein shall be construed as abolishing, limiting, or modifying any power of the board of trustees to provide for the payment of investment expenses pursuant to section 13-705 of this title.

2. If a budget has not been adopted by the commencement of the new fiscal year, the budget for the preceding fiscal year shall be deemed to have been extended for the new fiscal year until such time as a new budget is adopted.

3. Any budget in effect pursuant to paragraph one or two of this subdivision may be modified during such succeeding fiscal year.

4. Notwithstanding any other provision of law, the board of trustees shall have the power either directly or by delegation to the executive director, to obtain by employment or by contract the goods, property and services necessary to fulfill its powers, duties and responsibilities within the appropriation authorized by the board of trustees pursuant to paragraph one of this subdivision.

5. (i) The pension fund shall be considered an entity separate from the city of New York police department. The board of trustees of the pension fund shall work closely with the city of New York police department.

(ii) The provisions of chapter seventeen of the New York city charter shall continue to apply to the police pension fund and such fund shall constitute an agency for the purposes of such chapter. The board of trustees shall not obtain any legal services by the retention of employees or by contract unless the corporation counsel shall consent thereto.

6. All contracts for goods or services entered into by the police pension fund shall be procured as prescribed in chapter thirteen of the New York city charter; provided, however, that where the provisions of such chapter thirteen require action by the mayor in regard to a particular procurement (except for mayoral action pursuant to subdivision c of section three hundred thirty-four of the New York city charter) such action shall not be taken by the mayor or such appointee of the mayor but shall be taken by the board of trustees or the executive director pursuant to a resolution adopted by the board of trustees delegating such authority to the executive director.

f. Notwithstanding any other provisions of this section, any resolution of the board of trustees which establishes a budget or modifies a budget pursuant to the provisions of paragraph one or three of subdivision e of this section shall require the concurrence of the comptroller and the representative of the mayor. This provision shall only apply to this subdivision and nothing contained herein shall be construed to apply to any other vote of the board. No assets of the police pension fund shall be drawn upon pursuant to the provisions of paragraph one of subdivision e of this section

unless authorized by a budget or budget modification established by such resolution of the board of trustees.

g. Employment by the police pension fund shall constitute city-service for the purposes of this subchapter for those employees that are members of the fund pursuant to section 13-215 of this subchapter; for all other employees, employment by the pension fund shall constitute city service for the purposes of chapter one of title thirteen of this code; provided, however, that nothing contained herein shall be construed as granting membership rights in the pension fund or any retirement system to a contractor of such fund or such contractor's employees. Employees of the pension fund shall be deemed to be employees of the city of New York for the purposes of chapter thirty-five of the New York city charter and title twelve of this code.

h. Whenever the assets of the pension fund are drawn upon pursuant to the provisions of paragraph one of subdivision e of this section all monies so withdrawn shall be made a charge to be paid by the employer otherwise required to make contributions to the police pension fund no later than the end of the fiscal year next succeeding the time period during which such assets were drawn upon, provided, however, that where such charge is for assets so withdrawn in fiscal year two thousand four-two thousand five or in any fiscal year thereafter, such charge shall be paid by such employer no later than the end of the second fiscal year succeeding the time period during which such assets are drawn upon. The actuary shall calculate such charge to be paid by the employer. All charges to be paid pursuant to this subdivision shall be paid at the regular rate of interest utilized by the actuary in determining employer contributions to the pension fund pursuant to the provisions of paragraph two of subdivision b of section 13-638.2 of this title.

i. The funds withdrawn from the pension fund shall not be utilized for any purpose other than the budget established by the board of trustees. All expenditures of the pension fund shall be subject to audit by the comptroller, who may make recommendations, including but not limited to, procedures designed to improve accounting and expenditure control. All expenditures of the pension fund shall be reported to the mayor's office of management and budget and the budgetary office of the city of New York police department.

Sub d added LL 95/1951 § 2

Sub a par 4 amended chap 100/1963 § 402

**NOTE**

Provisions of chap 292/2001:

§ 5. Except as specified herein, nothing contained in this act shall affect or impair the rights or privileges of officers or employees of the police pension fund in relation to the personnel, appointment, ranks, grades, length of service, promotion, removal, pension and retirement rights, civil rights, or any other rights or privileges of officers or employees of the city generally or officers or employees of such fund.

§ 6. In the event that any provision of this act shall be adjudged to be invalid or unconstitutional on its face or in its application to any person or circumstances by a court of competent jurisdiction, after all rights to appeal have been exhausted, such judgment shall not affect, impair or invalidate the remainder of this act, but shall be confined in its operation to the provision of such section directly involved in the controversy in which judgment shall have been rendered.

§ 7. This act shall take effect immediately; provided, however, that the provisions of this act authorizing the adoption of a budget and the use of the assets of the police pension fund to pay expenses may be utilized during the fiscal year commencing on July 1, 2001 and provided further, that in such event, such budget shall be deemed to have been established on April 1, 2001.

**CASE NOTES FROM FORMER SECTION**

¶ 1. A policeman injured in 1963 applied for disability retirement on April 29, 1964. On June 9 the medical board certified his disability to the Board of Trustees of the Police Pension Fund. Before the Board could act the Police Commissioner suspended the policeman because of his refusal to answer questions before a grand jury. **Held:** Petitioner could not be dismissed without giving him an opportunity to explain his refusal to answer questions before grand jury. It

is required that he be given notice and hearing as to this matter.-Matter of Conlon, 24 App. Div. 2d 737, 263 N.Y.S. 2d 360 [1965], reversing, 44 Misc. 2d 504, 254, N.Y.S. 2d 68 [1964].

**CASE NOTES**

¶ 1. Board of Trustees is composed of 12 members, 8 union officials with weighted votes totaling 6, and 4 city officials whose weighted votes total 6. Accident disability pension vote which is a tie results in an ordinary disability retirement. City v. Schoeck, 294 NY 559.

¶ 2. The court found that individual members of the New York City Police Dept. Pension Funds have no authority to retain private legal council when taking issue with the votes of others. The authority of the Board and its individual members is determined by the statuatory structure establishing that fund, Ad Code § 13-216[a][b]. Retention of private counsel by individual trustees is ultra vires under their statutorily defined role on the Board and, therefore, not compensable by the fund. Caruso v. NYC Police Fund, 136 AD2d 266 affirmed 72 NY2d 568 [1988].

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-218 Credit for service.

a. Subject to the following and to all other provisions of this subchapter, including such rules and regulations as such board shall adopt in pursuance thereof, such board shall determine and may modify allowances for service.

b. Such board shall fix and determine how much service rendered in any year shall be the equivalent of a year of service and of parts thereof, but shall credit one year for two hundred fifty or more days of service and not more than one year for all service in any calendar year.

c. Time during which a member was absent on leave without pay shall not be allowed in computing service as a member except as to time subsequent to approval of such allowance for retirement purposes granted by the commissioner and approved by such board. Time during which a member was on a preferred civil service list shall not be construed to form part of the period within which membership must begin.

d. (1) Any person who was a member of the New York city employees' retirement system, and whose membership therein was terminated by his or her attaining membership in the police pension fund, subchapter two, and who had withdrawn his or her contributions to the New York city employees' retirement system, shall receive credit in the said police pension fund for prior creditable city service by paying into the annuity savings fund of the said police pension fund the amount of the employee contributions required to have been paid into the New York city employees' retirement system for such prior creditable city service, prior to July first, nineteen hundred eighty-two, and, subject to

the provisions of paragraph two of this subdivision, and shall have the period of such prior creditable city service counted as service as a police officer for the purpose only of determining the amount of his or her pension or retirement allowance. Subject to the provisions of paragraph two and paragraph three of this subdivision, no member of the said police pension fund shall be eligible for retirement for service until he or she has served in the police force for a minimum period of twenty or twenty-five years, or until he or she has reached the age of fifty-five, according to the minimum period or age of retirement elected by such member prior to the certification of his or her rate of contribution.

(2) (a) Subject to the provisions of subparagraph (b) of this paragraph, and period of allowable service rendered as an "EMT member", as defined in paragraph one of subdivision a of section 13-157.2 of this title, as added by chapter five hundred seventy-seven of the laws of two thousand, which immediately precedes service in the police force, and any period of allowable service rendered (i) as a peace officer, as defined in section 2.10 of the criminal procedure law, (ii) in the title of sheriff, deputy sheriff, marshal or district attorney investigator, or (iii) in any position specified in appendix A of operations order 2-25 of the police department of the city of New York dated December eleventh, two thousand two which immediately precedes service in the police force, and any period of allowable service in the uniformed transit police force, uniformed correction force, housing police service and the uniformed force of the department of sanitation immediately preceding service in the police force, credit for which immediately preceding allowable service was or is obtained pursuant to paragraph one of this subdivision, shall be deemed to be service in the police force for purposes of eligibility for benefits and to determine the amount of benefits under the police pension fund.

(b) In any case where, by reason of credit for such immediately preceding service, the date of completion of such member's minimum period for service retirement under the police pension fund became or becomes earlier than such date would have been or would be if such credit for immediately preceding service had not been so acquired, there shall be effected with respect to such member:

(i) such increase in such member's normal rate of contribution, effective as of the date on which such member last became a member of the police pension fund, as may be necessary to reflect such earlier date of eligibility for service retirement; and

(ii) the charging of such member who acquired or acquires such credit for such immediately preceding service with a contribution rate deficiency:

(A) which shall accrue from the date on which such member last became a member of the police pension fund; and

(B) which shall be in such amount as shall be the product of the increase provided in item (i) of this subparagraph (b) and the member's compensation during the period of time provided in sub-item (A) of this item (ii); and

(C) which, unless paid by such member in such manner as shall be prescribed by rules and regulations adopted by the board of trustees of such pension fund, shall require an appropriate adjustment of any benefit which may become payable to or on account of such member.

(3) Nothing contained in subparagraph (b) of paragraph two of this subdivision d shall cause a member who acquires or acquired service credit by reason of the provisions of subparagraph (a) of such paragraph two to be denied:

(a) the right or entitlement, if any, to terminate or reduce contributions to such pension fund or to a refund of or credit for contributions paid during a period when the member would have been entitled to terminate or reduce such contributions if he or she had such service credit on the date when he or she last became a member of the pension fund; or

(b) any other right, benefit or entitlement of a similarly situated member of such pension fund with equal total

service credit consisting only of service in the uniformed force of the police department, provided that the foregoing provisions of this paragraph three shall not be construed in a manner inconsistent with the provisions of subparagraph (b) of paragraph two of this subdivision d.

e. Any person who was a member of the board of education retirement system and whose membership therein was terminated by such member attaining membership in the police pension fund, subchapter two, shall receive credit in the said police pension fund for prior creditable city service by paying into the annuity savings fund of the said police pension fund the amount of the employee contributions required to have been paid into the board of education retirement system for such prior creditable city service, within one year after July sixteenth, nineteen hundred sixty-five shall take effect, or within one year after becoming a member of the police pension fund, subchapter two, whichever is later, and shall have the period of such prior creditable city service counted as service as a police officer for the purpose only of determining the amount of such member's pension or retirement allowance, provided however, that no member of the said police pension fund shall be eligible for retirement for service until he or she has served in the police force for a minimum period of twenty or twenty-five years, or until he or she has reached the age of fifty-five, according to the minimum period or age of retirement elected by such member prior to the certification of his or her rate of contribution.

f. (1) Upon election, any member of the police pension fund, subchapter two of this chapter, who was a member of the New York city employees' retirement system while employed as a New York city police department trainee shall receive credit in the said police pension fund, subchapter two of this chapter, for prior creditable service in the New York city employees' retirement system earned while employed as a New York city police department police trainee by paying into the annuity savings fund of said police pension fund additional member contributions plus interest which would have been paid or credited had such member been a member of the police pension fund, subchapter two of this chapter, from his or her last date of appointment as a New York city police department trainee or date of membership in the New York city employees' retirement system, whichever is later, provided such payment is made within one year after this subdivision shall take effect, and the period of such prior service credit shall be deemed to be service in the police force for purposes of eligibility for benefits and to determine the amounts of benefits under the police pension fund.

(2) A member of the police pension fund, subchapter two of this chapter, who acquires service credit by reason of the provisions of paragraph one of this subdivision shall be entitled to any other right, benefit or entitlement of a similarly situated member of such pension fund with equal total service credit consisting only of service in the uniformed force of the police department.

g. (1) (a) Upon election, the following persons (each of whom has been granted a retroactive appointment eligibility date as a New York city police department trainee, pursuant to Acha v. Beame, 570 F.2d 57) shall receive credit in the police pension fund, subchapter two of this chapter, for the period of such retroactive eligibility by paying into the annuity savings fund of said police pension fund additional member contributions plus interest which would have been paid or credited had such member been a member of the police pension fund from the retroactive appointment eligibility date as a New York city police department trainee, provided such payment is made within one year after this subdivision takes effect:

(b) The period of such retroactivity shall be deemed to be service in the police force for purposes of eligibility for benefits and to determine the amounts of benefits under the police pension fund.

(2) A member of the police pension fund, subchapter two of this chapter, who acquires service credit by reason of the provisions of paragraph one of this subdivision shall be entitled to any other right, benefit or entitlement of a similarly situated member of such pension fund with equal total service credit consisting only of service in the uniformed force of the police department.

h.* (1) Any4 member of the pension fund who, prior to June thirtieth, nineteen hundred ninety-two, would have been entitled to transfer membership in another public retirement system to the pension fund pursuant to any provision of law, but who failed to make a timely election to do so, may elect to transfer such membership to the pension fund by filing a written request for such transfer with the first retirement system within one year after the effective date of this subdivision.

(2) All transfers of membership to the pension fund pursuant to this subdivision shall be in accordance with the procedures set forth in the transfer provisions that would have been applicable if the member had made a timely election to transfer. Where a transfer is made pursuant to this subdivision, and such applicable transfer provisions would have required a transfer of pension reserves, the first retirement system shall transfer to the pension fund all pension reserves that would have been transferred to the pension fund if the member had made a timely election to transfer.

(3) Service credit transferred to the pension fund pursuant to this subdivision shall be credit in the same manner and for the same purposes as it would have been credited if the member had made a timely election to transfer, and the member shall pay to the pension fund all member contributions, plus interest, which would have been paid or credited if such service credit had been transferred to the pension fund on the date of such member's entry into the pension fund.

h.* Notwithstanding5 the provisions of subdivision c of this section, any member who is absent without pay for child care leve of absence pursuant to regulations of the New York city police department shall be eligible for credit for such period of child care leave provided such member files a claim for such service credit with the pension fund by December thirty-first, two thousand one or within ninety days following termination of the child care leave, whichever is later, and contributes to the pension fund an amount which such member would have contributed during the period of such child care leave, together with interest thereon. Service credit provided pursuant to this subdivision shall not exceed one year of credit for each period of authorized child care leave. In the event there is a conflict between the provisions of this subdivision and the provisions of any other law or code to the contrary, the provisions of this subdivision shall govern.

**CASE NOTES**

¶ 1. A member of the pension fund brought an action to reinstate pension benefits an annul an administrative order of recoupment of benefits previously paid. The court held that petitioner did not obtain jurisdiction over the Police Pension Board by serving the petition on the City or its subdivisions, such as the Police Department and Department of

Personnel. Here, the failure to serve the proper entity, the Police Pension Fund, Article II, was not curable by substitution or amendment. Thus, the petition had to be dismissed. Freda v. Board of Education of the City of New York, 638 N.Y.S.2d 83 (App.Div. 1st Dept. 1996).

§ 13-221 Pension fund; adoption of tables and certification of rates.

The actuary appointed by the board of estimate shall be the technical adviser of the board on all matters regarding the operation of the funds provided for by this subchapter and shall perform such other duties as are required of him or her. He or she shall keep in convenient form such data as shall be necessary for the actuarial valuation of such funds. Every five years, he or she shall make an actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries as defined by this subchapter and he or she shall make a valuation, as of June thirtieth of each year, of the assets and liabilities of the various funds provided for by this subchapter at such times as he or she shall determine. Upon the basis of such investigation such board shall:

1. Adopt for the pension fund such mortality, service and other tables as shall be deemed necessary; and

2. Certify the rates of deduction from compensation computed to be necessary to pay the annuities authorized under the provisions of this subchapter.

§ 13-223 Medical board.

a. (1) There shall be a medical board of three physicians. One of such physicians shall be appointed by the board and shall hold office at the pleasure of such board, one shall be appointed by the commissioner of health and shall hold office at the pleasure of such commissioner, and the third shall be appointed by the commissioner of citywide administrative services and shall hold office at the pleasure of such commissioner.

(2) The board, the commissioner of health and the commissioner of citywide administrative services shall each have power to appoint one or more but not exceeding four alternate physicians, who shall hold office at the pleasure of such appointing board or official. Whenever the board of trustees of the retirement system shall so direct, the functions, powers and duties of the medical board, in addition to being performed and exercised by the three physicians appointed pursuant to paragraph one of this subdivision, shall be performed and exercised by one or more groups of three physicians as hereinafter prescribed. Each such group of three physicians shall function separately as the medical board and each such group may consist partly of a physician or physicians appointed pursuant to such paragraph one and partly of one or more alternate physicians or may consist entirely of alternate physicians; provided, however, that one of the physicians or alternate physicians in each such group shall be appointed by the board, one by the commissioner of health and one by the commissioner of citywide administrative services.

b. The medical board shall arrange for and shall pass upon all medical examinations required under the provisions of this subchapter, shall investigate all essential statements and certifications by or on behalf of a member in

connection with an application for disability retirement, and shall report to the board its conclusions and recommendations thereon.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-225 Contributions of members and their use; annuity savings fund.

a. (1) The annuity savings fund shall be the fund in which there shall be accumulated deductions from the compensation of members to provide for their annuities and their withdrawal allowances. Upon the basis of the tables herein authorized, and regular interest, the actuary of such board shall determine for each member the proportion of compensation which, when deducted from each payment of his or her prospective earnable compensation prior to his or her eligibility for retirement and accumulated at regular interest until the attainment of the minimum age or period of service retirement elected by him or her, shall be computed to provide, at that time, an annuity equal to twenty-five seventy-fifths of the pension then allowable to him or her for service as a member. Such proportion of compensation shall be computed to remain constant. Notwithstanding the foregoing, the rate of contribution required to be made on and after October first, nineteen hundred fifty-one, by any member whose rate was computed pursuant to this subdivision, as enacted by local law two of nineteen hundred forty, shall be twenty-five forty-fifths of such prior rate.

(2) Notwithstanding the foregoing provisions of paragraph (one) of this subdivision a, the rate of contribution required to be made on and after the first day of the first payroll period beginning after January first, nineteen hundred sixty-eight by any member who became a member after June thirtieth, nineteen hundred forty-seven and prior to June thirtieth, nineteen hundred sixty-seven shall be his or her rate as of June twenty-ninth, nineteen hundred sixty-seven, as computed pursuant to paragraph (one) of this subdivision a, including any increase thereof pursuant to subdivisions c and d of this section or any decrease thereof pursuant to section 13-226 of this subchapter or subdivision one of section one hundred thirty-eight-b of the retirement and social security law, hereinafter referred to as his or her "computed prior

rate", less the difference between the rate which was computed for such member on the date he or she last became a member pursuant to paragraph (one) of the subdivision a, exclusive of any increase thereof pursuant to subdivisions c and d of this section or any decrease thereof pursuant to paragraph (one) of this subdivision or section 13-226 of this subchapter or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, and the rate which would have been computed for such member on the date he or she last became a member, pursuant to paragraph (one) of this subdivision, had he or she been entitled on that date to regular interest at four per cent; provided that the adjusted rate of contribution computed pursuant to this paragraph shall be subject to change pursuant to subdivisions c and d of this section, section 13-226 of this subchapter or pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law.

(3) for any member to whom the last paragraph applies, and beginning with the first day of the first payroll period commencing after June thirtieth, nineteen hundred sixty-seven and ending with the last day of the last payroll period before the first payroll period beginning after January first, nineteen hundred sixty-eight, the amount of contribution paid by him or her which represents the difference between the "computed prior rate" of such member and his or her adjusted rate of contribution as computed pursuant to paragraph (two) of this subdivision a shall be refunded upon the member's election, or, otherwise, shall be deemed additional contributions for the purpose of purchasing additional annuity, but such additional contributions shall not enter into the computation for allowance on ordinary disability retirement as described in section 13-251 of this subchapter.

b. Such board shall certify to the commissioner who shall deduct from the compensation of each member on each and every pay roll of such member for each and every pay roll period, the proportion of his or her earnable compensation so computed. Such board shall not certify nor shall the commissioner make any deduction for annuity purposes from the compensation of a member who elects not to contribute if his or her age and total service are such as would entitle a new entrant to retire for service on a pension not less than seventy-five per cent of one-half of his or her final compensation. In determining the amount earnable by a member in a payroll period, such board may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and such board may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period. To facilitate the making of deductions, such board may modify the deduction required of any member by such an amount as shall not exceed one-tenth of one per cent of the compensation upon the basis of which such deduction is to be made. The deductions provided herein shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt in full for his or her salary or compensation, and payment less such deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment, except his or her claim to the benefits to which he or she may be entitled under the provisions of this subchapter. The commissioner shall certify to the comptroller on each and every payroll the amounts to be deducted. Each of such amounts shall be deducted and when deducted shall be paid into the annuity savings fund, and shall be credited, together with regular interest, to an individual account of the member from whose compensation such deduction was made. The method of computation and deductions prescribed by this subdivision and subdivision a of this section shall be appropriately modified in the case of a member for whom a rate is otherwise fixed pursuant to section 13-226 of this subchapter.

c. In addition to the computed deductions, any member may elect to contribute at a rate fifty per centum in excess of that heretofore provided, for the purpose of purchasing additional annuity. In computing the amount of such additional rate any modification of the normal rate pursuant to section 13-226 of this subchapter shall be disregarded. These additional contributions shall be credited to the annuity savings fund with regular interest. Such additional contributions shall not enter into the computation for allowance on ordinary disability retirement as described in section 13-251 of this subchapter. A member may elect to discontinue his or her additional contributions at any time.

d. In addition to the deductions from compensation hereinbefore provided, any member may redeposit in the annuity savings fund by a single payment an amount equal to the total amount which he or she withdrew previously

therefrom as provided in this subchapter, or any member may deposit therein by a single payment, or in equal installments over a period to be designated by such member, but not exceeding five years, immediately prior to his or her retirement, an amount computed to be sufficient to purchase an additional annuity, which, together with his or her prospective retirement allowance, will provide for him or her a total retirement allowance of one-half of his or her final compensation at the minimum age or period of retirement elected by him or her. Such additional amounts so deposited shall become a part of his or her accumulated deductions. The accumulated deductions of a member withdrawn as provided in this subchapter shall be paid out of the annuity savings fund. Upon retirement of a member, his or her accumulated deductions shall be transferred from such fund to the annuity reserve fund.

e. In the case of a member receiving extra pay, salary or compensation for additional duties assigned to him or her, the comptroller shall make such semi-monthly deductions on the basis of such extra pay, salary or compensation unless such member shall signify in writing to the board, within thirty days after the first receipt thereof, his or her election to have his or her benefits and obligations computed on the basis of the pay, salary or compensation received by him or her prior to the time when he or she first received such extra compensation. If any member receives extra pay, salary or compensation for an aggregate or five years or more or for the period of time fixed by section 14-114 of this code, the comptroller shall continue to make such semi-monthly deductions on the basis of such extra pay, salary or compensation, notwithstanding that such member does not continue to receive it, unless such member shall signify to the board in writing his or her election to have his or her benefits and obligations computed on the basis of the pay, salary or compensation actually received by him. Additional deductions so made shall entitle such member to a retirement allowance on the basis of such extra pay, salary or compensation. The provisions of this subdivision shall not diminish or impair the benefits provided in subdivision c of section 14-114 of this code.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-225.1 Employer pick up of member contributions.

a. Notwithstanding any other provision of law to the contrary, on and after the starting date for pick up, the city shall pick up and pay into the annuity savings fund, the member contributions eligible for pick up by the employer which each member would otherwise be required to make on and after such starting date.

b. An amount equal to the amount of such picked up contributions shall be deducted by the city from the compensation of such member (as such compensation would be in the absence of a pick up program applicable to him or her hereunder) and shall not be paid to such member. Such deduction shall be effected by means of subtraction from such member's current compensation (as so defined), or offset against future pay increases, or a combination of such methods.

c. (1) The member contributions picked up pursuant to this section for any member shall be paid by the city in lieu of an equal amount of the member contributions otherwise required to be paid by such member under the provisions of this subchapter, including any member contributions required to be made for the purchase of credit for previous service or credit for military service pursuant to subdivision f of this section, provided, however, that contributions picked up for the purchase of credit for military service shall be deposited in the employer contributions account in accordance with the provisions of subdivision four of section one thousand of the retirement and social security law and shall be deemed to be and treated as employer contributions pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, as amended, for the purposes, under federal law, for which

such subsection h so classifies such picked up contributions. Subject to the provisions of subdivision b of this section, for all other purposes, including, but not limited to:

(i) the obligation of such member to pay New York state and New York city income and/or wages or earnings taxes and the withholding of such taxes; and

(ii) the determination of the amount of such member's member contributions eligible for pick up by the employer; and

(iii) the determination of the amount of any retirement allowance or other pension fund benefit payable to or on account of such member or any other pension fund right, benefit or privilege of such member; the amount of the member contributions picked up pursuant to this section shall be deemed to be a part of the employee compensation of such member, and such member's gross compensation (as it would be in the absence of a pick up program applicable to him or her hereunder) shall not be deemed to be changed by such member's particiaption*1 in such program.

(2) Nothing contained in paragraph one of this subdivision c shall be construed as superseding the provisions of section four hundred thirty-one of the retirement and social security law or any similar provision of law which limits the salary base for computing retirement benefits payable by a public retirement system.

d. (1) For the purpose of determining the pension fund rights, benefits and privileges (including the procurement of loans) of any member whose member contributions eligible for pick up by the employer are picked up pursuant to this section, such picked up member contributions shall be deemed to be and treated as member contributions made by such member pursuant to law and as included in such member's accumulated deductions. Interest on such picked up contributions shall accrue in favor of the member and be payable by the city at the same rate, for the same time periods, in the same manner and under the same circumstances as interest would be required to accrue in favor of the member and be payable by the city on such picked up contributions if they were made by the member in the absence of an employer pick up program applicable to such member under the provisions of this section.

(2) The picked up member contributions of any member paid into the annuity savings fund by the city pursuant to this section shall be credited to a separate account within the individual account of such member in such fund, so that a separate record of the amount of such picked up contributions is maintained.

(3) Nothing contained in this subdivision d shall be construed as granting member contributions picked up under this section any status, under federal law, other than as employer contributions, pursuant to subsection h of section four hundred fourteen of the United States internal revenue code, for the federal purposes for which such subsection h so classifies such picked up contributions.

e. No member whose member contributions are required to be picked up pursuant to this section shall have any right to elect that such pick up of contributions, with accompanying deduction from the compensation of such member as prescribed by subdivision b of this section, shall not be effectuated.

f. Employer pick-up of contributions in respect of previous service or military service. Notwithstanding any other provision of law, any member eligible to purchase credit for previous service with a public employer pursuant to this chapter or to purchase credit for military service pursuant to article twenty of the retirement and social security law, may elect to purchase any or all of such service by executing a periodic payroll deduction agreement where and to the extent such elections are permitted by the retirement system by rule or regulation. Such agreement shall set forth the amount of previous service or military service being purchased, the estimated total cost of such service credit, and the number of payroll periods in which such periodic payments shall be made. Such agreement shall be irrevocable, shall not be subject to amendment or modification in any manner, and shall expire only upon completion of payroll deductions required therein. Notwithstanding the foregoing, any member who has entered into such a payroll deduction agreement and who terminates employment prior to the completion of the payments required therein shall be credited with any service as to which such member shall have paid the contributions required under the terms of such agreement.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-226 Pensions-for-increased-take-home-pay.

a. 1. The mayor, by executive order, adopted prior to the first day of June, nineteen hundred sixty-three, may direct that beginning with the first full payroll period following January first, nineteen hundred sixty-three, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-four, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half percent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors, and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act. Such executive order may also provide for a method or procedure for the refunding or crediting to a member by the pension fund of the amount of the reduction in his or her deductions for any period prior to the adoption of such executive order.

2. The mayor, by executive order, adopted prior to the first day of June, nineteen hundred sixty-four, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-four, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-five,

the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half percent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors, and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

3. The mayor, by executive order, adopted prior to June nineteenth, nineteen hundred sixty-five, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-five, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-six, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half percent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

4. The mayor, by executive order adopted prior to June nineteenth, nineteen hundred sixty-six, may direct that beginning with the first full payroll period following July first, nineteen hundred sixty-six, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-seven, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half percent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

5. The mayor, by executive order adopted prior to June seventeenth, nineteen hundred sixty-seven, may direct that beginning with the payroll period, the first day of which is nearest to July first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half per cent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

6. a. (1) Subject to the provisions of item two of this subparagraph a, beginning with the first full payroll period following January first, nineteen hundred sixty-seven, and ending with the payroll period immediately prior to that, the first day of which is nearest June thirtieth, nineteen hundred sixty-eight, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivisions c and d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by two and one-half per cent of the

compensation of such member.

(2) The reduction provided for by item one of this subparagraph a shall be in addition to any reduction made during the period mentioned in such item one pursuant to paragraphs four or five of this subdivision. The amount of the reduction made pursuant to item one of this subparagraph in the deductions of any such member for such portion of the period mentioned in such item one as precedes the effective date of this paragraph shall be refunded without interest.

(3) Beginning with the payroll period the first day of which is nearest to June thirtieth, nineteen hundred sixty-eight, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivision c or d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five percent of the compensation of such member.

b. The reductions referred to in paragraph a of this subdivision six shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contribution for old age, survivor and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

7. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-one, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-one, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivision c or d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five per cent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

8. The mayor, by executive order adopted prior to the date forty-five days after the adjournment of the regular session of the legislature in nineteen hundred seventy-two or June seventeenth of such year, whichever is later, may direct that beginning with the payroll period, the first day of which is nearest to June thirtieth, nineteen hundred seventy-two, and ending with the payroll period immediately prior to that, the first day of which is nearest to June thirtieth, nineteen hundred seventy-three, the contribution of each member made pursuant to subdivision b or e of section 13-225 of this subchapter, exclusive of any increase thereof pursuant to subdivision c or d of section 13-225 of this subchapter, or of any reduction thereof pursuant to subdivision one of section one hundred thirty-eight-b of the retirement and social security law, shall be reduced by five per cent of the compensation of such member. Such a reduction shall be subject to waiver by the member as provided in subdivision d of this section and shall take precedence over the member's privilege under subdivision one of section one hundred thirty-eight-b of the retirement and social security law, to decrease his or her annuity contribution for the purpose of paying his or her contributions for old age, survivors and disability insurance coverage or the tax imposed upon him or her pursuant to the federal insurance contribution act.

b. For such period of time as the reduction pursuant to the provisions of subdivision a of this section shall be in effect, contributions shall be made to the contingent reserve fund by the city at a rate fixed by the actuary, which shall be computed to be sufficient to provide the death benefit hereunder, and the pension-providing-for-increased-take-home-pay which are or may become payable on account of such member.

c. Such a benefit and such a pension-providing-for-increased-take-home-pay shall be based on a reserve-for-increased-take-home-pay, which shall be a sum consisting of the total of all products obtained by multiplying the compensation of the member, during each period of reduction of member contributions under this section, by the percentage of reduction of his or her contributions applicable under this section with respect to such period, plus regular interest on such sum, and additional interest, if any, thereon.

d. Where a member's rate of contribution is reduced because the city contributes towards the pension-providing-for-increased-take-home-pay pursuant to this section, such member may by written notice duly acknowledged and filed with the pension fund within one year after such reduction or within one year after he or she last became a member, whichever is later, elect to waive such reduction. One year or more after the filing thereof, a member may withdraw any such waiver by written notice duly acknowledged and filed with the retirement system. Where a member makes an election to waive such reduction he or she shall contribute to the pension fund as otherwise provided in this subchapter.

e. A member who waives a reduction of contribution pursuant to this section or who elects or has elected to discontinue his or her contributions pursuant to subdivision b of section 13-225 of this subchapter shall be entitled to a pension-providing-for-increased-take-home-pay and death benefits to the same extent as if such waiver or election had not been made.

f. The benefits provided pursuant to paragraph one of subdivision a of this section apply only to members of the pension fund who are in active service in the police force on or after the date of adoption of the executive order by the mayor pursuant to such paragraph one.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-227 Contributions of members and their use; annuity reserve fund and dependent benefit reserve funds.

a. The annuity reserve fund shall be the fund from which shall be paid all annuities and all benefits in lieu of annuities, payable as provided in this subchapter.

b. The dependent benefit reserve fund shall be the fund from which shall be paid all dependent benefits payable as provided in section 13-253 of this subchapter.

c. The dependent benefit contingent reserve fund shall be the fund in which shall be accumulated the contributions of members to create the reserve necessary to pay all benefits provided in section 13-253 of this subchapter.

d. Upon the basis of the mortality and other tables herein authorized, and regular interest, the actuary shall compute the amount of contribution, expressed as a proportion of the compensation paid to each such member, which, if paid, semi-monthly during the entire prospective city-service of the member, would be sufficient to provide for the reserve required at the time of his or her death to cover the dependent benefits which might be payable pursuant to the provisions of section 13-253 of this subchapter. Such proportion of compensation shall be computed to remain constant during his or her prospective city-service. Upon the death of such a member, an amount equal to the reserve for such dependent benefits shall be transferred from such fund to the dependent benefit reserve fund.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-228 Contributions of the city and their use; contingent reserve fund.

a. The contingent reserve fund shall be the fund in which shall be accumulated the reserve necessary to pay all pensions and the reserve-for-increased-take-home-pay, and all death benefits allowable by the city on account of the city-service of members as provided in this subchapter.

b. (1) (a) Subject to the provisions of paragraph five of this subdivision, the city shall contribute to the contingent reserve fund;

(i) annually an amount to be known as the normal contribution; and

(ii) in equal annual installments during the period beginning with fiscal year nineteen hundred seventy-seven-nineteen hundred seventy-eight and ending on the last day of fiscal year nineteen hundred seventy-nine-nineteen hundred eighty, an additional amount which shall be known as the original unfunded accrued liability contribution, and which shall be determined as provided for in subparagraph a of paragraph (3) of this subdivision b; and

(iii) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year two thousand fourteen-two thousand fifteen, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the revised unfunded

accrued liability contribution and which shall be determined as provided for in subparagraph (b) of paragraph (3) of this subdivision; and

(iv) in each city fiscal year during the period beginning with fiscal year nineteen hundred eighty-one-nineteen hundred eighty-two and ending on the last day of fiscal year two thousand twenty-two thousand twenty-one, the annual installment, applicable to such fiscal year, of an additional amount which shall be known as the balance sheet liability contribution and which shall be determined as provided for in paragraph (4) of this subdivision; and

(v) in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the amount of one year's interest, at the rate of seven and one-half per centum per annum, on the amount of the balance sheet liability as of June thirtieth, nineteen hundred eighty, as determined pursuant to the provisions of paragraph four of this subdivision; and

(vi) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the public employer obligation, if any, which accrued in such fiscal year, to make contributions on account of increased-take-home-pay; and

(vii) in each city fiscal year, beginning with fiscal year nineteen hundred eighty-nineteen hundred eighty-one and ending on the last day of fiscal year nineteen hundred ninety-four-nineteen hundred ninety-five, the amount required to fulfill the public employer obligation, which accrued in such fiscal year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members.

(b) (i) If the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to subparagraph (c) of paragraph (3) of this subdivision b is a credit, the total of the amounts required to be contributed by the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph one shall be reduced by the amount of one annual installment of such unfunded accrued liability adjustment.

(ii) If the nineteen hundred eighty unfunded accrued liability adjustment determined pursuant to such subparagraph (c) is a charge, the city shall contribute in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand nine-two thousand ten fiscal year, in addition to the amounts required to be contributed under the provisions of subparagraph (a) of this paragraph, one annual installment of such unfunded accrued liability adjustment.

(iii) The total of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year and ending with the two thousand eleven-two thousand twelve fiscal year pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph one and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant to law shall be reduced by the amount of one annual installment of the nineteen hundred eighty-two unfunded accrued liability adjustment determined pursuant to subparagraph (d) of paragraph three of this subdivision b.

(iv)* The total2 of the amounts required to be contributed to the contingent reserve fund in each city fiscal year commencing with the nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and ending with the two thousand fourteen-two thousand fifteen fiscal year pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph one and the applicable provisions of items (i) and (ii) of this subparagraph (b) and otherwise pursuant to law shall be increased by the amount of one annual installment of the nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to subparagraph (e) of paragraph three of this subdivision b.

(iv)* For the purpose of effectuating the nineteen hundred eighty-eight unfunded accrued liability adjustment provided for in section 13-638.1 of the code, contributions to the contingent reserve fund shall be made by the

responsible obligor (as defined in paragraph six of subdivision a of such section) or credits shall be allowed to such obligor against contributions otherwise payable by such obligor, as the case may be, to the extent and in the manner provided for in such section. The annual determination of the normal contribution for fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-eight shall appropriately take account of the nineteen hundred eighty-eight unfunded accrued liability adjustment and the provisions of subparagraph (b) of paragraph two of this subdivision b shall be deemed to be comformably modified for such purpose.

(c) (i) Any amount required by the provisions of items (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of this paragraph and items (ii) and (iv) of subparagraph (b) of this paragraph and section 13-704 of this title to be contributed to the contingent reserve fund in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year or any subsequent fiscal year shall be payable with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund in such fiscal year.

(ii) Any amount required to be contributed to the contingent reserve fund in any fiscal year of the city preceding the nineteen hundred eighty-nineteen hundred eighty-one fiscal year shall be deemed to have been required to be paid with interest on such amount at a rate per centum per annum equal to the rate per centum per annum required to be used for the purpose of any actuarial valuation, determination or appraisal made to determine the amount of the normal contribution payable to the contingent reserve fund in such fiscal year.

(iii) It is hereby declared that the provisions of items (i) and (ii) of this subparagraph (c), insofar as they relate to provisions of this subchapter or other laws requiring payment of employer contributions to the pension fund prior to the date of enactment of the act which added this subparagraph (c), express the intent of such provisions of this subchapter or other laws requiring such payment.

(2) Normal contribution.-(a) (i) Upon the basis of the latest mortality and other tables herein authorized and regular interest, the actuary shall determine, as of June thirtieth, nineteen hundred eighty and as of each succeeding June thirtieth, the amount of the total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law, article fourteen of such law (if and when applicable) and in any other law prescribing benefits payable by the pension fund on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund, provided, however, that in determining such total liability for all benefits as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the actuary shall include (A) the liability on account of future increased-take-home-pay contributions, if any, (B) the liability on account of future public employer obligations under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of the military service of such members and (C) the liability for benefits attributable to the annuity savings fund.

(ii) For the purposes of subparagraphs (b) and (c) of this paragraph two, the actuary shall determine, as of June thirtieth, nineteen hundred ninety-five and as of each succeeding June thirtieth, the total liability of the pension fund which shall be an amount equal to the sum of (A) the total liability for all benefits as determined pursuant to item (i) of this subparagraph and (B) the amount, as estimated by the actuary, of the total liability of the pension fund on account of all payments which the pension fund may be required to make for base fiscal years (as defined by the applicable provisions of paragraph one of subdivision b of section 13-232.1 of this subchapter and paragraph one of subdivision b of section 13-232.3 of this subchapter) beginning on or after July first, nineteen hundred ninety-four to the police officer's variable supplements fund, pursuant to subdivisions d, e and f of such section 13-232.1 and to the police superior officer's variable supplements fund pursuant to subdivisions d, e and f of such section 13-232.3.

(a-1) Notwithstanding any other provision of law to the contrary, for the purpose of calculating the amount of the normal contribution due from the city to the contingent reserve fund pursuant to subparagraph (c) of this paragraph

in fiscal year two thousand five-two thousand six, and in each fiscal year thereafter, both the total liability of the pension fund, as calculated by the actuary in accordance with subparagraph (a) of this paragraph, and the normal rate of contribution, as calculated by the actuary in accordance with subparagraph (b) of this paragraph, shall be determined as of June thirtieth of the second fiscal year preceding the fiscal year in which the normal contribution is payable, provided, however, that (i) the actuary shall use for such calculations the mortality and other tables that are applicable at the time he or she performs such calculations; (ii) the total funds on hand, as determined by the actuary pursuant to sub-item (F) of item (i) of subparagraph (b) of this paragraph, shall be adjusted by adding to such amount the present value of all employer contributions required to be paid into the contingent reserve fund in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary; and (iii) the present value of the prospective future salaries of all members, as computed by the actuary for the purposes of item (ii) of subparagraph (b) of this paragraph, shall be reduced by the present value of the salaries expected to be paid to all members in the fiscal year next preceding the fiscal year in which the normal contribution is payable, as determined by the actuary.

(b) The normal rate of contribution shall be the rate per centum obtained;

(i) by deducting from the amount of such total liability the sum of;

(A) (1) the amount obtained by adding together the present value of all required future revised unfunded accrued liability contributions and the present value of all required future payments of the nineteen hundred eighty unfunded accrued liability adjustment, determined pursuant to subparagraph (c) of paragraph three of this subdivision b, if such adjustment is a charge; or

(2) the remainder obtained by subtracting from the present value of all required future revised unfunded accrued liability contributions, the present value of all future installments of the nineteen hundred eighty unfunded accrued liability adjustment required to be credited, if such nineteen hundred eighty adjustment is a credit;

(3) minus (whether (1) or (2) of this sub-item (A) is applicable) the present value of all future installments of the nineteen hundred eighty-two unfunded accrued liability adjustment; and

(A-1) the present value of all future installments of the nineteen hundred eighty-five unfunded accrued liability adjustment determined pursuant to subparagraph (e) of paragraph three of this subdivision b; and

(B) the present value of all required future balance sheet liability contributions, plus, in the case of the determination of the normal contribution payable in fiscal year nineteen hundred eighty-nineteen hundred eighty-one, the present value, as of June thirtieth, nineteen hundred eighty, of the payment of interest on the balance sheet liability as required by item (v) of subparagraph (a) of paragraph one of this subdivision b; and

(C) the present value of all future member contributions on account of dependent benefits; and

(D) the present value of all required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(E) in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, the present value of future member contributions of all members; and

(F) the total funds on hand, including the amount of any unpaid moneys appropriated pursuant to section 13-231 of this subchapter and, in the case of the determination of the normal contribution payable in each fiscal year commencing with fiscal year nineteen hundred ninety-five-nineteen hundred ninety-six, including the amount in the annuity savings fund; and

(G) the present value of all other future installments of accrued liability contributions to the pension fund

required by the applicable provisions of section 13-638.3 of this title which are not covered by the preceding sub-items of this item (i); and

(ii) by dividing the remainder by one per centum of the present value of the prospective future salaries of all members, as computed by the actuary on the basis of the latest mortality and service tables adopted pursuant to section 13-221 of this subchapter, and on the basis of regular interest. The normal rate of contribution determined by the actuary shall not be less than zero, shall be certified by the actuary after each such valuation and shall continue in force until the next succeeding valuation and certification.

(c) (i) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and ending with the two thousand four-two thousand five fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of June thirtieth next preceding such fiscal year, by the aggregate annual salaries of the members on such next preceding June thirtieth, and shall be payable in such fiscal year next following such June thirtieth, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(ii) The amount of the normal contribution due from the city to the contingent reserve fund in each city fiscal year, commencing with the two thousand five-two thousand six fiscal year, shall be the amount obtained by multiplying the normal rate of contribution, as determined by the actuary as of the second June thirtieth preceding the fiscal year in which the normal contribution is payable, in accordance with the provisions of subparagraphs (a-1) and (b) of this paragraph, by the aggregate amount of the salaries expected to be paid to the members during the fiscal year in which the normal contribution is payable, as determined by the actuary, and such normal contribution shall be payable in the second fiscal year following the June thirtieth as of which the normal rate of contribution is determined, together with such regular interest thereon which may be due, if any, as calculated by the actuary.

(iii) In the case of the normal contribution payable in the nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in any subsequent fiscal year, the term "regular interest", as used in this subparagraph (c), shall mean regular interest as defined by the applicable provisions of subparagraph (ii) or subparagraph (iii) of paragraph (c) or paragraph (d) of subdivision eight of section 13-214 of this subchapter.

(d) (i) For the purposes of this subparagraph (d), the terms "pension fund, subchapter one" and "police subchapter one beneficiary" shall have the meanings set forth in paragraphs one and three, respectively, of subdivision a of section 13-213.1 of this chapter.

(ii) The amount of the normal contribution due from the city to the contingent reserve fund in the city's nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year shall be equal to the amount of the normal contribution for such fiscal year, as calculated in accordance with the provisions of subparagraph (c) of this paragraph, minus the sum (calculated by the actuary to reflect regular interest in accordance with the provisions of subparagraph (c) of this paragraph) of the following:

(A) the amount of the assets deemed to have been transferred on July first, nineteen hundred ninety-four from pension fund, subchapter one to this pension fund and credited to the contingent reserve fund in accordance with the provisions of subdivisions b and c of section 13-213.1 of this chapter, as if such transfer actually had been made on such July first; and

(B) the amount of the benefits payable during the nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year by pension fund, subchapter one to police subchapter one beneficiaries; and

(C) the amount of supplemental benefits payable during the nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year, including the increase in certain of such benefits provided by paragraph four of subdivision a of section 13-687 of this title, as added by the chapter of the laws of nineteen hundred ninety-five which added this subparagraph, by the city supplemental pension fund established under section 13-650 of this title to police subchapter

one beneficiaries.

(3) Unfunded accrued liability contributions.-(a) The original unfunded accrued liability contribution shall be an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight fiscal year would be the actuarial equivalent, on the basis of five and one-half percentum interest and the actuarial tables in effect as of July first, nineteen hundred seventy-seven, of the difference between the accrued liability excluding the liability for benefits attributable to the annuity savings fund on June thirtieth, nineteen hundred seventy-five and the total funds on hand, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-231 of this subchapter.

(b) (i) The revised unfunded accrued liability contribution shall be an amount determined as prescribed in items (ii), (iii), (iv), (v), (vi) and (vii) of this subparagraph (b).

(ii) To the amount of the difference constituting the unfunded accrued liability as of June thirtieth, nineteen hundred seventy-five heretofore determined pursuant to the provisions of this paragraph three as in effect on July first, nineteen hundred seventy-seven, there shall be added interest thereon at the rate of five and one-half per centum per annum for the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty.

(iii) (A) There shall be computed, in the manner provided for in subitem (B) of this item (iii), the discounted value of each of the installments of the unfunded accrued liability contribution which, in the absence of the enactment of chapter nine hundred fifty-seven of the laws of nineteen hundred eighty-one, where payable or would have been payable in the city's nineteen hundred seventy-seven-nineteen hundred seventy-eight, nineteen hundred seventy-eight-nineteen hundred seventy-nine, nineteen hundred seventy-nine-nineteen hundred eighty, nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years.

(B) Such discounted value of each such installment shall be computed as of January first of the city's second fiscal year preceding the fiscal year in which such installment was payable or would have been payable and on the basis of five and one-half per centum interest per annum on the amount of such installment.

(C) There shall be computed with respect to such discounted value of each such installment, interest thereon from January first of such second fiscal year preceding the fiscal year in which such installment was or would have been payable to June thirtieth, nineteen hundred eighty at the rate of five and one-half per centum per annum.

(D) The discounted values of all of such installments with respect to such fiscal years, computed as provided for in sub-items (A) and (B) of this item (iii), together with interest on each such installment as provided for in sub-item (C) of this item, shall be added together.

(iv) From the sum computed pursuant to item (ii) of this subparagraph (b), the sum computed pursuant to item (iii) of this subparagraph shall be subtracted.

(v) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-five equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of the remainder computed pursuant to item (iv) of this subparagraph.

(vi) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, if paid to the contingent reserve fund in thirty-three equal annual installments, commencing with payment of a first installment in the city's

nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the unfunded accrued liability contribution computed pursuant to item (v) of this subparagraph (b), which installments are hypothetically allocated by such item (v) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(vii) With respect to each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, the revised unfunded accrued liability contribution shall be the annual installment, applicable to such fiscal year, of an amount which, when paid to the contingent reserve fund in twenty-seven equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability contribution computed pursuant to item (vi) of this subparagraph (b), which installments are hypothetically allocated by such item (vi) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(c) (i) The nineteen hundred eighty unfunded accrued liability adjustment shall be an amount determined as prescribed in items (ii), (iii), (iv) and (v) of this subparagraph (c).

(ii) (A) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty, for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty, the amount of the total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law, in article fourteen of the retirement and social security law (if applicable) and in any other law prescribing benefits payable by the pension fund on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions, if any, and the liability for benefits attributable to the annuity savings fund.

(B) From such total liability computed pursuant to sub-item (A) of this item (ii), there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred eighty, of all future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all future installments of the balance sheet liability contribution (as defined in paragraph four of this subdivision b); and

(3) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title, of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(4) the present value, as of such June thirtieth, of future member contributions of members, if any, subject to article fourteen of the retirement and social security law; and

(5) the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-231 of this subchapter.

(iii) (A) If the amount computed pursuant to sub-item (B) of item (ii) of this subparagraph (c) is larger than the amount computed pursuant to item (iv) of subparagraph (b) of this paragraph (3), the latter amount shall be subtracted from the former amount and the remainder resulting from such subtraction shall constitute a charge.

(B) If the amount computed pursuant to sub-item (B) of item (ii) of this subparagraph (c) is smaller than the amount computed pursuant to item (iv) of subparagraph (b) of this paragraph, the former amount shall be subtracted

from the latter amount and the remainder resulting from such subtraction shall constitute a credit.

(iv) (A) If the remainder computed pursuant to item (iii) of this subparagraph is a charge, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(B) If the remainder computed pursuant to item (iii) of this subparagraph is a credit, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year) in reduction of the amount which the city would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (v), (vi) and (vii) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of seven and one-half per centum interest per annum, of such remainder.

(v) (A) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of the city's nineteen hundred eighty-nineteen hundred eighty-one and nineteen hundred eighty-one-nineteen hundred eighty-two fiscal years, the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (c), which installment is applicable to such fiscal year, shall be applied as a charge or a credit, as the case may be, in relation to such contributions payable in such fiscal year.

(B) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, if paid (if a charge) or credited (if a credit) in twenty-eight equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (c), which installments are hypothetically allocated by such item (iv) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(C) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand ten, the nineteen hundred eighty unfunded accrued liability adjustment shall be an amount which, when paid (if a charge) or credited (if a credit) in twenty-two equal annual installments, commencing with a payment or credit, as the case may be, in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (b)*4 of this item (v), which installments are hypothetically allocated by such sub-item (b) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(D) With respect to determination of the amount of contributions payable to the contingent reserve fund in each of such city fiscal years referred to in sub-item (B) or sub-item (C) of this item (v), the annual installment of the nineteen hundred eighty unfunded accrued liability adjustment computed pursuant to sub-item (B) or sub-item (C) of this item (v), which installment is applicable to such fiscal year, shall be applied as a charge or credit, as the case may be, in relation to such contributions payable in such fiscal year.

(d) (i) The nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount determined as

prescribed in items (ii), (iii), (iv) and (v) of this subparagraph (d).

(ii) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-one for valuation purposes and interest at the rate of seven and one-half per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iii) Upon the basis of the actuarial tables in effect as of June thirtieth, nineteen hundred eighty-two for valuation purposes and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-two, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iv) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, if credited in thirty equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year) in reduction of the amounts which the city would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to item (ii) of this subparagraph (d) over the amount computed pursuant to item (iii) of this subparagraph.

(v) With respect to determination of the amount of contributions payable to the contingent reserve fund in each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twelve, the nineteen hundred eighty-two unfunded accrued liability adjustment shall be an amount which, when credited in twenty-four equal annual installments (the first of which installments is to be credited in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year) in reduction of the amounts which the city would otherwise be required to pay to the contingent reserve fund pursuant to items (i), (iii), (iv), (vi) and (vii) of subparagraph (a) of paragraph (1) of this subdivision b or otherwise pursuant to law, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the nineteen hundred eighty-two unfunded accrued liability adjustment computed pursuant to item (iv) of this subparagraph (d), which installments are hypothetically allocated by such item to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(e) (i) The nineteen hundred eighty-five unfunded accrued liability adjustment shall be an amount determined as prescribed in items (ii), (iii) and (iv) of this subparagraph (e).

(ii) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-four-nineteen hundred eighty-five fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iii) Upon the basis of the actuarial tables in effect for valuation purposes with respect to determination of the normal contribution payable to the contingent reserve fund in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year and interest at the rate of eight per centum per annum, there shall be determined, as of June thirtieth, nineteen hundred eighty-five, the amount of the actuarial accrued liability of the pension fund, computed pursuant to the entry age normal cost method of ascertaining such actuarial accrued liability.

(iv) (A) The nineteen hundred eighty-five unfunded accrued liability adjustment, for each city fiscal year

occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, shall be an amount which if paid to the contingent reserve fund in thirty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-five-nineteen hundred eighty-six fiscal year, would be the actuarial equivalent, on the basis of eight per centum interest per annum, of the excess of the amount computed pursuant to item (iii) of this subparagraph (e) over the amount computed pursuant to item (ii) of this subparagraph.

(B) The nineteen hundred eighty-five unfunded accrued liability adjustment for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand fifteen, shall be an amount which, when paid to the contingent reserve fund in equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of the June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the unfunded accrued liability adjustment computed pursuant to sub-item (A) of this item (iv), which installments are hypothetically allocated by such sub-item (A) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(4) (a) As used in this section, the following words and phrases, unless a different meaning is plainly required by the context, shall have the following meanings:

(i) (A) "Normal contribution for balance sheet liability purposes". The hypothetical amount which the normal contribution payable in each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty would have equalled if such normal contribution had been required by law to be paid to the contingent reserve fund in the city fiscal year in which the obligation to make such normal contribution had been required by law to be determined in the manner provided for in subitems (B), (C) and (D) of this item (i).

(B) Upon the basis of the mortality and other tables effective under this subchapter as of July first, nineteen hundred seventy-seven and interest at the rate of five and one-half per centum per annum, the actuary shall determine, as of June thirtieth next preceding each such fiscal year for which such normal contribution is being determined (hereinafter referred to as the "subject fiscal year") the amount of the then total liability for all benefits provided in this subchapter, in article eleven of the retirement and social security law, in any other law prescribing benefits payable by the pension fund in article fourteen of such law (if applicable) and in any other law prescribing benefits payable by the pension fund on account of all then members and beneficiaries, excluding the then liability on account of future annual contributions, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in item (iv) of this subparagraph (a)*3 , if any, and the then liability for benefits attributable to the annuity savings fund.

(C) The hypothetical normal rate of contribution with respect to the subject fiscal year shall be the rate per centum obtained:

(1) by deducting from the amount of such total liability the sum of:

(A) the present value of all then required future unfunded accrued liability contributions for balance sheet liability purposes (as defined in item (ii) of this subparagraph (a)); and

(B) the present value of all then required future annual contributions, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title (as defined in item (iii) of this subparagraph (a)); and

(C) the present value of future member contributions of members, if any, subject to article fourteen of the retirement and social security law; and

(D) the amount obtained by adding together the total funds on hand (excluding therefrom the amount in the annuity savings fund) and the balance sheet liability as of such June thirtieth next preceding the subject fiscal year; and

(2) by dividing the remainder by one per centum of the then present value of the prospective future salaries of all members, as computed on the basis of the mortality and service tables adopted pursuant to section 13-221 of this subchapter and in effect on July first, nineteen hundred seventy-seven, and on the basis of interest at the rate of five and one-half per centum per annum.

(D) The amount of the normal contribution for balance sheet liability purposes hypothetically payable in the subject fiscal year shall be the amount obtained (1) by multiplying such hypothetical normal contribution rate computed with respect to the subject fiscal year by the aggregate annual salaries of the members as of June thirtieth of the subject fiscal year and (2) by adding to the product of such multiplication, interest on such product at the rate of five and one-half per centum per annum for a period of six months.

(ii) "Unfunded accrued liability contribution for balance sheet liability purposes". (A) With respect to the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed in the manner prescribed by sub-items (B) and (C) of this item (ii).

(B) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth, nineteen hundred seventy-four, the amount of the total liability for all benefits provided by this subchapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the pension fund on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund.

(C) From such total liability computed pursuant to sub-item (B) of this item (ii) there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred seventy-four, of all future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal cost; and

(2) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title (as then in effect), of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(3) the sum obtained by adding together the balance sheet liability as of such June thirtieth (as such liability is determined pursuant to the provisions of subparagraph (b) of this paragraph four) and the total funds on hand as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-231 of this subchapter.

(D) With respect to each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-five to June thirtieth, nineteen hundred eighty, such term shall mean a hypothetical amount which, if paid to the contingent reserve fund in forty equal annual installments, beginning with payment of a first installment in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year, would be the actuarial equivalent, on the basis of interest at the rate of five and one-half per centum per annum, of the remainder computed pursuant to sub-items (E) and (F) of this item (ii).

(E) Upon the basis of the actuarial tables in effect as of July first, nineteen hundred seventy-seven for valuation purposes and interest at the rate of five and one-half per centum per annum, there shall be computed, as of June thirtieth,

nineteen hundred seventy-five, the amount of the total liability for all benefits provided by this chapter, in article eleven of the retirement and social security law and in any other law prescribing benefits payable by the retirement system on account of all members and beneficiaries, excluding the liability on account of future increased-take-home-pay contributions and the liability for benefits attributable to the annuity savings fund.

(F) From such total liability computed pursuant to sub-item (E) of this item (ii), there shall be subtracted the sum of:

(1) the present value, as of June thirtieth, nineteen hundred seventy-five, of all future normal costs of the pension fund, computed pursuant to the entry age normal cost method of determining such normal costs; and

(2) the present value, as of such June thirtieth, of all then required future payments, pursuant to section 13-704 of this title (as then in effect), of installments of losses in excess of installments of gains on dispositions of securities within the meaning of such section; and

(3) the sum obtained by adding together the balance sheet liability as of such June thirtieth (as such liability is determined pursuant to the provisions of subparagraphs (c) to (i) inclusive, of this paragraph four) and the total funds on hand, as of such June thirtieth, excluding the amount in the annuity savings fund, but including the amount of any unpaid moneys appropriated pursuant to section 13-231 of this subchapter.

(iii) "Annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount of the excess of installments (payable in such year) of losses on prior dispositions of securities within the meaning of section 13-704 of this title over the installments (creditable in such year) of gains on such prior dispositions, which annual amount shall be determined in the manner provided in subdivision h of such section 13-704 of this title.

(iv) "Annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year, to make contributions on account of increased-take-home-pay.

(v) "Annual military law contribution for balance sheet liability purposes". A hypothetical annual payment to the contingent reserve fund in each of the city's fiscal years occurring during the period beginning on July first, nineteen hundred seventy-four and ending on June thirtieth, nineteen hundred eighty, of the amount required to fulfill the public employer obligation, which accrued in such year under the provisions of subdivision twenty of section two hundred forty-three of the military law, to pay in behalf of members qualifying for such benefit, member contributions with respect to certain periods of military service of such members.

(vi) "Deficiency contribution". The annual amount which, under the provisions of paragraph one of this subdivision b and paragraph three thereof, as such provisions were in effect during the period from July first, nineteen hundred seventy-two to June thirtieth, nineteen hundred seventy-seven, the city was required to pay to the contingent reserve fund in each of the city's nineteen hundred seventy-four-nineteen hundred seventy-five, nineteen hundred seventy-five-nineteen hundred seventy-six and nineteen hundred seventy-six-nineteen hundred seventy-seven fiscal years.

(vii) "Contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities". The total annual amount by which the sum of the installments of losses, payable pursuant to section 13-704 of this title (as in effect prior to July first, nineteen hundred eighty) in each of the city's fiscal years occurring during the period from July first, nineteen hundred seventy-four to June thirtieth, nineteen hundred eighty in

relation to dispositions of securities within the meaning of such section, exceeds the sum of the installments of gains creditable in the same fiscal year in relation to the same dispositions of securities.

(b) The balance sheet liability as of June thirtieth, nineteen hundred seventy-four shall be the sum of two hundred fifty-two million, three hundred fifty-two thousand, six hundred ninety-nine dollars ($252,352,699), consisting of the sum of:

(i) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of ninety-five million, seven hundred thousand dollars ($95,700,000), which constituted the amount payable into the contingent reserve fund in the city's nineteen hundred seventy-four-nineteen hundred seventy-five fiscal year by the city in fulfillment of its obligations to make contributions to the pension fund payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of six months extending retroactively from January first, nineteen hundred seventy-five to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of ninety-three million, one hundred seventy-two thousand, eighty-five dollars ($93,172,085); and

(ii) the discounted value, as of June thirtieth, nineteen hundred seventy-four, of the sum of one hundred seventy-two million, four hundred ninety-one thousand, nine hundred ninety-four dollars ($172,491,994), which constituted the amount payable to the contingent reserve fund in the city's nineteen hundred seventy-five-nineteen hundred seventy-six fiscal year by the city in fulfillment of its obligations to make contributions to the pension fund payable in such fiscal year, such discounting being calculated on the basis of interest at the rate of five and one-half per centum per annum and a discount period of eighteen months extending retroactively from January first, nineteen hundred seventy-six to June thirtieth, nineteen hundred seventy-four, and such discounted value being the sum of one hundred fifty-nine million, one hundred eighty thousand, six hundred fourteen dollars ($159,180,614).

(c) The balance sheet liability, as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four to and including June thirtieth, nineteen hundred eighty, shall be determined as provided for in subparagraphs (d) to (j), inclusive, of this paragraph four.

(d) To the amount of the balance sheet liability as of June thirtieth next preceding the June thirtieth (which last-mentioned June thirtieth is hereinafter referred to as the "subject June thirtieth") as of which the balance sheet liability is being determined as provided for in subparagraph (c) of this paragraph four, there shall be added one year's interest on such amount at the rate of five and one-half per centum per annum.

(e) With respect to the city's fiscal year ending on the subject June thirtieth (hereinafter referred to as the "subject fiscal year") there shall be added together the contribution components hereinafter specified in this subparagraph (e), which components, for the purposes of this paragraph four, are hypothetically deemed to have accrued in the subject fiscal year and to have been payable therein, as follows:

(i) the amount of the normal contribution for balance sheet liability purposes (as defined in item (i) of subparagraph (a) of this paragraph four); and

(ii) the amount of the applicable installment of the unfunded accrued liability contribution for balance sheet liability purposes (as defined in item (ii) of subparagraph (a) of this paragraph); and

(iii) the amount of the annual contribution, for balance sheet liability purposes, on account of amortization of losses on dispositions of certain securities within the meaning of section 13-704 of this title (as defined in item (iii) of subparagraph (a) of this paragraph); and

(iv) the amount of the annual contribution, for balance sheet liability purposes, on account of reserves-for-increased-take-home-pay (as defined in item (iv) of subparagraph (a) of this paragraph); and

(v) the amount of the annual military law contribution for balance sheet liability purposes (as defined in item (v) of subparagraph (a) of this paragraph).

(f) To the amount resulting from the addition prescribed by subparagraph (e) of this paragraph four, there shall be added interest thereon at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth of such fiscal year.

(g) The amount computed pursuant to subparagraph (d) of this paragraph four in relation to the balance sheet liability as of June thirtieth next preceding the subject June thirtieth (together with one year's interest on such balance sheet liability as provided for in such subparagraph) shall be added to the amount computed pursuant to subparagraph (f) of this paragraph in relation to the subject fiscal year.

(h) From the amount computed pursuant to subparagraph (g) of this paragraph, there shall be subtracted the sum of:

(i) the total amount of the sums paid to the contingent reserve fund during the subject fiscal year by the city on account of its obligations, which accrued during the city's second fiscal year preceding the subject fiscal year, to provide:

(A) the normal contribution payable in the subject fiscal year under the provisions of paragraphs one and two of this subdivision b as then in effect; and

(B) the installment of the deficiency contribution (as defined in item (vi) of subparagraph (a) of this paragraph four) or the installment of the original unfunded accrued liability contribution, (as defined in subparagraph (a) of paragraph three of this subdivision b), as the case may be, payable in the subject fiscal year; and

(C) the amount of the contribution on account of amortization, pursuant to section 13-704 of this title, of losses on dispositions of certain securities (as defined in item (vii) of subparagraph (a) of this paragraph four) payable in the subject fiscal year; and

(D) the amount payable in the subject fiscal year on account of reserves-for-increased-take-home-pay; and

(E) the amount payable in the subject fiscal year in behalf of members pursuant to subdivision twenty of section two hundred forty-three of the military law; plus

(ii) interest on such total amount referred to in item (i) of this subparagraph (h) at the rate of five and one-half per centum per annum from January first of the subject fiscal year to June thirtieth thereof.

(i) The remainder resulting from the subtraction prescribed by subparagraph (h) of this paragraph four shall be the balance sheet liability as of June thirtieth of the subject fiscal year.

(j) The balance sheet liability as of June thirtieth, nineteen hundred eighty shall be the amount resulting from the successive computations of the balance sheet liability as of each June thirtieth succeeding June thirtieth, nineteen hundred seventy-four up to and including June thirtieth, nineteen hundred eighty, as prescribed by subparagraphs (c) to (i), inclusive, of this paragraph four.

(k) The balance sheet liability contribution payable in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year shall be the first annual installment of an amount which, if paid to the contingent reserve fund in forty equal annual installments, commencing with payment of a first installment in the city's nineteen hundred eighty-one-nineteen hundred eighty-two fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-one, on the basis of seven and one-half per centum interest per annum, of an amount equal to the balance sheet liability as of June thirtieth, nineteen hundred eighty.

(1) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-two and ending on June thirtieth, nineteen hundred eighty-eight shall be one annual installment of an amount which, if paid to the contingent reserve fund in thirty-nine equal installments, commencing with a first payment in the city's nineteen hundred eighty-two-nineteen hundred eighty-three fiscal year, would be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-two, on the basis of eight per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-two on the basis of seven and one-half per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (k) of this paragraph (4), which installments are hypothetically allocated by such subparagraph (k) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-two.

(m) The balance sheet liability contribution payable in each city fiscal year during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, two thousand twenty-one shall be one annual installment of an amount which, when paid to the contingent reserve fund in thirty-three equal annual installments, commencing with a first payment in the city's nineteen hundred eighty-eight-nineteen hundred eighty-nine fiscal year, shall be the actuarial equivalent, as of June thirtieth, nineteen hundred eighty-eight, on the basis of eight and one-quarter per centum interest per annum, of the present value, as of June thirtieth, nineteen hundred eighty-eight on the basis of eight per centum interest per annum, of those installments of the balance sheet liability contribution computed pursuant to subparagraph (1) of this paragraph (4), which installments are hypothetically allocated by such subparagraph (1) to designated city fiscal years succeeding June thirtieth, nineteen hundred eighty-eight.

(5) Contributions to the contingent reserve fund payable by the city in fiscal years of the city beginning on or after July first, nineteen hundred ninety shall be governed by the provisions of this section, as modified and supplemented by sections 13-638.2 and 13-638.3 of this title, and such other laws as may be applicable.

(6) (a) On the basis of interest at the rate of eight and one-half per centum per annum and the actuarial tables in effect as of July first, nineteen hundred ninety-four, the actuary shall determine the present value as of such July first, of the future liability of the pension fund for paying all benefits and supplemental benefits on and after such date to police subchapter one beneficiaries (as defined in paragraph three of subdivision a of section 13-213.1 of this chapter), which liability is deemed to have been transferred to and assumed by the fund pursuant to subdivisions d, e and g of section 13-213.1 of this chapter as if such transfers actually had been made on such July first.

(b) The city shall pay to the contingent reserve fund in ten equal annual installments, commencing with payment of a first installment in the city's nineteen hundred ninety-four-nineteen hundred ninety-five fiscal year, an amount which, when paid in such installments, is the actuarial equivalent of the amount determined pursuant to subparagraph (a) of this paragraph.

c. Whenever the board, upon recommendation by the actuary, shall determine that it is necessary to increase the reserves held in the annuity reserve fund, the pension reserve fund or the dependent benefit reserve fund, the board may direct that the amount so needed shall be transferred thereto from the contingent reserve fund.

d. The cash benefits payable under the provisions of this subchapter to, or upon the death of, a member in active service shall be paid from such contingent reserve fund.

e. Upon the retirement of such a member, or upon his or her death in the performance of duty, an amount equal to the pension reserve for the pension payable by the city on account of his or her city-service as a member, together with reserve-for-increased-take-home-pay, shall be transferred from such fund to the pension reserve fund. Contributions shall be paid into the contingent reserve fund, in the manner and to the extent specified by section 13-226 of this subchapter, to provide reserves-for-increased-take-home-pay.

f. Repealed.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

Subd. b par (1) subpar (a) opening clause amended chap 878/1990 § 10 eff. July 25, 1990 applying on and after July 1, 1989

Subd. b par (1) subpar (a) items (vi), (vii) amended chap 598/1996 § 1, eff. Aug. 8, 1996 and deemed effective July 1, 1995

Subd. b par (1) subpar (b) item (iii) separately amended chap 579/1989 § 14 and chap 580/1989 § 7

Subd. b par (1) subpar (b) item (iv) added chap 579/1989 § 15. (laid out first)

Subd. b par (1) subpar (b) item (iv) separately added chap 580/1989 § 8 and chap 581/1989 § 79. (laid out second)

Subd. b par (1) subpar (b) item (vii) added chap 581/1989 § 37

Subd. b par (1) subpar (c) item (i) amended chap 579/1989§ 16

Subd. b par (2) subpar (a) amended chap 598/1996 § 2, eff. Aug. 8, 1996 and deemed effective July 1, 1995

Subd. b par (2) subpar (a-1) added chap 152/2006 § 5, eff. July 7, 2006 and deemed to have been in full force and effect on and after July 1, 2005. [See § 13-103 Note 1]

Subd. b par (2) subpar (b) amended chap 579/1989 § 17

Subd. b par (2) subpar (b) item (i) sub-items (E), (F) amended chap 598/1996 § 3, eff. Aug. 8, 1996 and deemed effective July 1, 1995

Subd. b par (2) subpar (b) item (i) sub-item (G) added chap 598/1996 § 4, eff. Aug. 8, 1996 and deemed effective July 1, 1995

Subd. b par (2) subpar (b) item (ii) amended chap 85/2000 § 3, eff. June 23, 2000 and deemed to have been in effect on and after July 1, 1999.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-231 Guarantee of funds.

a. Regular interest, charges payable, the creation and maintenance of reserves in the contingent reserve fund and the pension reserve fund and the maintenance of annuity reserves, pension reserves, dependent benefit reserves and reserves-for-increased-take-home-pay as provided for in this subchapter and the payment of all pensions, pensions-providing-for-increased-take-home-pay, annuities, retirement allowances, refunds, death benefits, dependent benefits and any other benefits granted under the provisions of this subchapter, are hereby made obligations of the city. Except as otherwise provided in sections 13-232, 13-232.1, 13-232.2 and 13-232.3 of this subchapter, all income, interest and dividends derived from deposits and investments authorized by this subchapter shall be used and disposed of in the manner prescribed by subdivision b of this section. Upon the basis of each actuarial determination and appraisal provided for in this subchapter, the commissioner shall prepare pursuant to section one hundred twelve of the charter and submit to the director of management and budget an itemized estimate of the amounts necessary to be appropriated by the city to the various funds to provide for payment in full during the ensuing fiscal year of all such obligations of the city accruing during the ensuing fiscal year. There shall be included annually in the budget a sum sufficient to provide for such obligations of the city. The comptroller shall pay the sums so provided into the various funds provided for by this subchapter, subject to the provisions of subdivision b of this section.

b. (1) Subject to the provisions of paragraphs two, three and four of this subdivision, all income, interest and dividends derived from deposits and investments authorized by this subchapter, which income, interest and dividends were heretofore or are hereafter received during any city fiscal year commencing on or after July first, nineteen hundred

eighty, shall (after payment therefrom of the sum, if any, required to be paid pursuant to sections 13-232, 13-232.1, 13-232.2 and 13-232.3 of this subchapter) be used in such fiscal year for the purposes hereinafter specified in this paragraph (to the extent that such income, interest and dividends are sufficient for such purposes), in the order of priority herein stated, as follows:

(A) first, to pay into the funds of the pension fund the amounts of regular interest which are required to be paid into such funds in such fiscal year by reason of being required to be allowed to such funds pursuant to the provisions of section 13-234 of this subchapter, and to pay into such funds the amount of supplementary interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the annuity savings fund the amounts of special interest, if any, required to be so paid in such fiscal year under the applicable provisions of such section, and to pay into the contingent reserve fund the amounts of additional interest, if any, required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses the pension fund sustained during such fiscal year by reason of sales or other dispositions of securities, and (ii) for which net losses the pension fund is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply;

(C) third, if the total amount of such income, interest and dividends received during such fiscal year is in excess of the total amount required to make, in such fiscal year, the payments prescribed by subparagraphs (A) and (B) of this paragraph, the amount of such excess shall be paid into the contingent reserve fund and shall become a part of the assets of such fund.

(2) Notwithstanding the provisions of paragraph one of this subdivision or any other law to the contrary, any such income, interest or dividends which are received by the pension fund may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investments), regardless of when received and prior to use for the purposes stated in such paragraph one.

(3) (A) Notwithstanding any other provision of this section or any other law to the contrary, the term "all income, interest and dividends derived from deposits and investments", as used in paragraph two of this subdivision (as such subdivision was in effect prior to July first, nineteen hundred eighty), shall be construed, in relation to disposition of all income, interest and dividends received by the pension fund in each of the city's nineteen hundred seventy-six-nineteen hundred seventy-seven and nineteen hundred seventy-seven-nineteen hundred seventy-eight obligations fiscal years (as such fiscal years were defined by paragraph one of this subdivision prior to such July first) as meaning the remainder obtained:

(i) by subtracting from such income, interest and dividends the amount of any expenses charged thereto pursuant to the provisions of section 13-705 of this title; and

(ii) by subtracting from such amount computed pursuant to item (i) of this subparagraph (A) the amount, if any, required to be paid therefrom pursuant to section 13-232 of this subchapter; and

(iii) by subtracting from the amount computed pursuant to item (ii) of this subparagraph (A) the sum of:

(1) the amounts of regular, supplementary and special interest required to be allowed and paid into the appropriate funds of the retirement system in such fiscal year pursuant to the applicable provisions of section 13-234 of this subchapter; and

(2) the amount of any losses in excess of gains (a) which net losses were sustained by the pension fund during such fiscal year and which net losses were sustained by reason of sales or other dispositions of securities, and (b) to which net losses the provisions of section 13-704 of this title do not apply.

(B) for the purposes of the order of priority governing the disposition, in the payment fiscal year with respect to each such obligations fiscal year, of such remainder computed pursuant to subparagraph (A) of this paragraph three (as such disposition was prescribed by the provisions of this subdivision as in effect during each such payment fiscal year) the provisions of subparagraphs (A) and (B) of such paragraph two shall be deemed to have been inapplicable and the order of priority for such disposition shall be first, the use set forth in subparagraph (C) of such paragraph, second, the use set forth in subparagraph (D) of such paragraph, third, the use set forth in subparagraph (E) of such paragraph and fourth, the use set forth in subparagraph (F) of such paragraph, as such subparagraphs were in effect during such payment fiscal year.

(4) (a) Subject to the provisions of paragraph five of this subdivision b, all income, interest and dividends which were derived from deposits and investments authorized by this title and which were received during each of the city's nineteen hundred seventy-eight-nineteen hundred seventy-nine and nineteen hundred seventy-nine-nineteen hundred eighty fiscal years shall be used (after payment therefrom of the sum, if any, required to be paid pursuant to section 13-232 of this subchapter*5 in each such fiscal year for the purposes hereinafter stated in this subparagraph (a), in the order of priority herein stated, as follows:

(A) first, (i) to pay into the funds of the pension fund the amounts of regular interest which are required to be paid into such funds in such fiscal year wherein such income, interest and dividends were received, which interest is so payable by reason of being required to be allowed to such funds in such fiscal year pursuant to the provisions of section 13-234 of this subchapter, and (ii) to pay into such funds the amounts of supplementary interest required to be so paid in such fiscal year under the applicable provisions of such section, and (iii) to pay into the annuity savings fund the amounts of special interest required to be so paid in such fiscal year under the applicable provisions of such section, and (iv) to pay into the contingent reserve fund the amounts of additional interest required to be paid in such fiscal year under the applicable provisions of such section;

(B) second, to pay into the contingent reserve fund the amount of any losses in excess of gains (i) which net losses were sustained by the pension fund during such fiscal year in which such income, interest and dividends were received and which net losses were sustained by reason of sales or other dispositions of securities, and (ii) for which net losses the pension fund is required to be reimbursed in such fiscal year, and (iii) to which net losses section 13-704 of this title, relating to graduated crediting of gains and amortization of losses on dispositions of certain securities, does not apply; and

(C) third, to pay into the contingent reserve fund the amount, if any, by which,

(i) the total of all losses which the pension fund sustained during such fiscal year by reason of sales of securities within the meaning of such section 13-704 of this title and which the responsible public employer, as defined in paragraph four of subdivision a of such section 13-704 of this title, would otherwise be required to amortize pursuant to such section, exceeds

(ii) the total of all gains which were realized during such fiscal year by reason of sales of securities within the meaning of such section and which would otherwise be required by such section to be credited in favor of the responsible public employer in installments.

(b) if the total amount of such income, interest and dividends received during each such fiscal year referred to in subparagraph (a) of this paragraph four is in excess of the total amount required to make, in the same fiscal year, the payments prescribed by items (A), (B) and (C) of such subparagraph (a), the amount of such excess shall be paid into the contingent reserve fund as of June thirtieth of such fiscal year and shall become a part of the assets of such fund as of such date.

(5) Notwithstanding the provisions of paragraph four of this subdivision or any other law to the contrary, any such income, interest or dividends which were received by the pension fund in either such fiscal year referred to in such

paragraph four may be used for the purpose specified in section 13-705 of this title (relating to expenses incurred in the acquisition, management and protection of investment) prior to use for the purposes stated in such paragraph four.

c. (1) The comptroller shall make monthly payments, in twelve equal installments, with respect to obligations which the city incurs to pay sums to the pension fund.

(2) In the city's nineteen hundred eighty-nineteen hundred eighty-one fiscal year and in each city fiscal year thereafter, the equal monthly payments shall be in respect of obligations which accrue in such fiscal year and shall be made in such fiscal year on or before the last day of each month.

(3) The board of trustees of the pension fund may waive the requirements of the foregoing provisions of this subdivision with respect to time of payment to such fund, provided that any such waiver of time of payment in any instance shall not apply to the time of subsequent payments unless there shall be a subsequent waiver.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-232 Payments to variable supplements funds.

a. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred sixty-nine, with respect to which fiscal year a computation of earnings differential, based on equity investments made or held by the pension fund during such fiscal year, is being made pursuant to this section.

2. "Current fiscal year". The fiscal year of the city next succeeding the base fiscal year.

3. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred sixty-nine and which precedes the base fiscal year.

4. "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the interest comparison factor with respect to the base fiscal year. If such equity experience factor is greater than such interest comparison factor, the difference between the two shall be expressed as a positive quantity. If such interest comparison factor is greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

5. (a) "Equity experience factor". An amount (expressed as a positive or negative quantity) equal to (i) the income earned by the pension fund during the base fiscal year from its investments in equities, plus (ii) the capital gains, realized or unrealized, occurring during such fiscal year by reason of such investments, less (iii) the capital losses, realized or unrealized, occurring during such fiscal year by reason of such investments.

(b) In the event that any equity is sold during the base fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or a capital loss and the amount thereof.

6. "Income." Any yield of equities, including but not limited to dividends, other than capital gains.

7. "Hypothetical fixed income securities earnings." (a) The aggregate of the hypothetical interest yields computed pursuant to subparagraphs (b), (c) and (d) of this paragraph seven.

(b) The board shall compute with respect to each investment made or maintained by the pension fund in an equity during the base fiscal year, the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this subparagraph seven, if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by such fund for a period (in the base fiscal year) co-extensive with the period during which such equity was held by such fund in the base fiscal year.

(c) For the purposes of this section, the amount of any such investment in an equity during the base fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the base fiscal year, in the case of any such equity acquired by the pension fund prior to the commencement of such fiscal year and held by such fund on the first day of such fiscal year; and

(ii) the total amount paid by such fund to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by such fund during the base fiscal year.

(d) For the purposes of this section, the amount of interest which would have been earned by the pension fund on such hypothetical fixed income securities during the base fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph (c) of this paragraph seven, by the assumed rate of interest for the base fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the pension fund for a part of the base fiscal year.

8. "Assumed rate of interest". (a) In relation to any base fiscal year, a hypothetical rate of interest, fixed as hereinafter in this paragraph eight prescribed, which shall be used for the purpose of the computing, pursuant to paragraph seven of this subdivision a, amounts of interest which would have been hypothetically earned on hypothetical investments of the pension fund in fixed income securities during such fiscal year.

(b) The board shall fix the assumed rate of interest with respect to each base fiscal year. In the event of a tie vote with respect to the fixation of such rate, it shall be fixed by an arbitrator designated by the board. If there is a tie vote as to the designation of such an arbitrator, such rate shall be fixed by an arbitrator appointed by the supreme court, on the application of any member of the board. The cost of any arbitration pursuant to the foregoing provisions of this subparagraph (b) shall be paid from transferable earnings.

9. "Six per cent interest offset". In relation to any base fiscal year, the excess, if any, of the hypothetical fixed income securities earnings with respect to such year, over the amount which such earnings would be if they have been computed on the basis of an interest rate of six per cent, rather than on the basis of the assumed rate of interest; provided, however, that there shall be no six per cent interest offset with respect to any base fiscal year unless the hypothetical fixed income securities earnings with respect to such fiscal year exceeds the equity experience factor with respect to such fiscal year; and provided further that no six per cent interest offset with respect to any base fiscal year shall in any event exceed the amount obtained by subtracting the equity experience factor with respect to such fiscal year from the hypothetical fixed income securities earnings with respect to such fiscal year.

10. "Interest comparison factor". In relation to any base fiscal year, the amount obtained by subtracting the six per cent interest offset, if any, with respect to such fiscal year, from the hypothetical fixed income securities earnings with respect to such fiscal year.

11. "Cumulative earnings differential for the base fiscal year". In relation to a base fiscal year, the amount (expressed as a positive or negative quantity) obtained by adding to the earnings differential for such base fiscal year, the total of all earnings differentials for all prior base fiscal years.

12. "Transferable earnings". In relation to a base fiscal year, the total amount required by the provisions of subdivision c of this section to be distributed, with respect to such base fiscal year, in the manner provided by subdivision d of this section.

13. "Cumulative distributions of transferable earnings for prior base fiscal years". In relation to a base fiscal year, the total of all payments of transferable earnings made or required to be made by the pension fund to the police officer's variable supplements fund and the superior police officers' variable supplements fund with respect to all prior base fiscal years pursuant to subdivisions c and d of this section.

14. *6 Police officer's variable supplements fund". The police officer's variable supplements fund established by subchapter three of this chapter.

15. "Police superior officers' variable supplements fund". The police superior officers' variable supplements fund established by subchapter four of this chapter.

16. "Superior police officers". Members of the uniformed force of the police department who (a) hold the position of sergeant or any position of higher rank in such force, or (b) are detectives.

b. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board shall compute:

(1) the earnings differential with respect to such base fiscal year, and the interest offset, if any, with respect to such fiscal year;

(2) the total contributions made to the police pension fund, subchapter two, with respect to such base fiscal year on behalf of all members of the uniformed force of the police department who are police officers, as of the last day of such base fiscal year; and

(3) the total contributions made to the police pension fund, subchapter two, with respect to such base fiscal year on behalf of all members of the uniformed force of the police department who are superior police officers, as of such last day.

c. If the cumulative earnings differential for the base fiscal year is a positive quantity and exceeds the cumulative distributions of transferable earnings for prior base fiscal years, a sum equal to the amount of such excess shall be distributed by the pension fund in the manner provided by subdivision d of this section.

d. (1) If there be transferable earnings with respect to the base fiscal year, computed as hereinabove provided, such transferable earnings shall be divided into a police officer's variable supplements fund share and a superior police officers' variable supplements fund share in the ratio that the total contributions made to the police pension fund, subchapter two, with respect to such base fiscal year on behalf of police officers bears to the total contributions made to the police pension fund, subchapter two, with respect to such base fiscal year on behalf of superior police officers, as computed for such base fiscal year pursuant to the provisions of paragraphs two and three of subdivision b of this section.

(2) On or before August thirty-first of the current fiscal year, the pension fund shall pay from the contingent reserve fund to the police officer's variable supplements fund and the superior police officers' variable supplements fund their respective shares of such transferable earnings with respect to the base fiscal year, as such shares are computed pursuant to paragraph one of this subdivision d.

e. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

f. The police officer's variable supplements fund and the police superior officers' variable supplements fund shall not have any rights under this section to any payments by the pension fund to such variable supplements funds derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after July first, nineteen hundred eighty-eight. Any and all rights of the police officer's variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after such July first shall be governed solely by the provisions of section 13-232.1 of this subchapter. Any and all rights of the police superior officers' variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city included in the period commencing on such July first and ending on June thirtieth, nineteen hundred ninety-two shall be governed solely by the provisions of section 13-232.2 of this subchapter. Any and all rights of the police superior officers' variable supplements fund to payments from the pension fund derived from or based upon the investment earnings of the pension fund in any fiscal year of the city commencing on or after July first, nineteen hundred ninety-two shall be governed solely by the provision of section 13-232.3 of this subchapter.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-232.1 Payments to police officer's variable supplements fund for base fiscal years commencing on or after July first, nineteen hundred eighty-eight.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, five, six, seven, eight and fourteen of subdivision a of section 13-232 of this subchapter shall apply to this section 13-232.1 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred eighty-eight.

2. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred eighty-eight and which precedes the base fiscal year.

3. "Cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight". (a) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in subpararaph (b) of this paragraph three.

(b) (i) The cumulative earnings differential for the base fiscal year (as defined in paragraph eleven of subdivision a of section 13-232 of this subchapter), as applicable to the nineteen hundred eighty-seven-nineteen hundred

eighty-eight base fiscal year (as so defined) shall be computed pursuant to the provisions of such section 13-232.

(ii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 with respect to such nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year.

(iii) The amount of transferable earnings (as defined in paragraph twelve of subdivision a of such section 13-232), if any, for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, determined pursuant to such section 13-232, shall be added to the cumulative distributions of transferable earnings computed pursuant to item (ii) of this subparagraph (b).

(iv) The sum resulting from the addition prescribed by item (iii) of this subparagraph (b) shall be subtracted from the amount computed pursuant to item (i) of this subparagraph. The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight.

4. "Earnings differential". The amount (expressed as a positive or negative quantity) by which the equity experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the hypothetical fixed income securities earnings with respect to the base fiscal year. If such equity experience factor is greater than such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater than such equity experience factor, the difference between the two shall be expressed as a negative quantity.

5. "Cumulative earnings factor". (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year, increased with interest at a rate equal to the assumed rate of interest fixed with respect to such base fiscal year pursuant to the provisions of paragraph eight of subdivision a of section 13-232 of this subchapter, as made applicable to this section 13-232.1 by subdivision a hereof.

(b) In applying the provisions of this paragraph five for the base fiscal year nineteen hundred eighty-eight-nineteen hundred eighty-nine, the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight" shall be substituted for the term "cumulative earnings factor for the immediately preceding base fiscal year".

6. "POVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the police pension fund, subchapter two, with respect to such base fiscal year on behalf of all members of the uniformed force of the police department who are police officers, as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to such police pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the police department as of the last day of such base fiscal year.

7. "POVSF unfunded accrued liability". In any case where the valuation of assets and liabilities of the police

officer's variable supplements fund by the actuary pursuant to subdivision e of section 13-270 of this chapter shows that for any base fiscal year, such liabilities exceed such assets, the term "POVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such base fiscal year.

8. "Police officer". A member of either this pension fund or the police pension fund provided for in subchapter one of this chapter who, at the time of retirement for service, was not a police superior officer as defined in subdivision four of section 13-278 of this chapter.

c. As soon as practicable after the close of each base fiscal year, but not later than December thirty-first of the current fiscal year, the board shall compute the POVSF cumulative earnings factor with respect to such base fiscal year.

d. If the POVSF cumulative earnings factor for such base fiscal year is a positive quantity, the pension fund, on or before December thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the police officer's variable supplements fund, as the payment due for such base fiscal year under this section, an amount determined pursuant to the provisions of subdivision e of this section.

e. The amount payable for such base fiscal year as provided for in subdivision d of this section shall be the lesser of (1) the POVSF cumulative earnings factor for such base fiscal year referred to in such subdivision d or (2) the liability POVSF unfunded accrued liability for such base fiscal year.

f. No amount shall be due from or payable by the pension fund to such variable supplements fund under this section for any base fiscal year which shall exceed the POVSF unfunded accrued liability for such base fiscal year, regardless of the amount and character of the POVSF cumulative earnings factor for such base fiscal year.

g. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

**HISTORICAL NOTE**

Section added chap 247/1988 § 18, see note below.

**NOTE**

Note provisions of chap 247/1988 §§ 14, 15, 27, 28, 29.

§ 14. The legislature hereby finds that the provisions of this act remedy certain inequities which operate to the disadvantage of the city of New York and remedy certain other inequities which operate to the disadvantage of the beneficiaries receiving variable supplements from the police officer's variable supplements fund provided for by subchapter three of chapter two of title thirteen of the administrative code of the city of New York. As a part of the remedies for such inequities, fifteen per cent of the assets of the police officer's variable supplements fund as of July first, nineteen hundred eighty-eight, but not exceeding the sum of seventy-five million dollars, shall be transferred to and become the property of such city within thirty days after this act becomes law.

§ 15. The provisions of section 13-232 of the administrative code of the city of New York shall be inapplicable to determination of any and all rights of the police officer's variable supplements fund referred to in section fourteen of this act and of the police superior officers' variable supplements fund (provided for by subchapter four of chapter two of title thirteen of the administrative code of the city of New York) to any payments from the police pension fund (provided for by subchapter two of such chapter two) derived from or based on investment earnings of such police pension fund in any fiscal year of such city commencing on or after July first, nineteen hundred eighty-eight. Any and all rights of such police officer's variable supplements fund to payments from such police pension fund derived from or based upon the investment earnings of such police pension fund in any such fiscal year commencing on or after such July first shall be governed solely by the provisions of section 13-232.1 of such code. Any and all rights of such police

superior officers' variable supplements fund to payments from such police pension fund derived from or based upon the investment earnings of such police pension fund in any such fiscal year commencing on or after such July first shall be governed solely by the provisions of section 13-232.2 of such code.

*NYC Administrative Code 13-232.2*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-232.2 Payments to police superior officers' variable supplements fund for base fiscal years included in the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-two.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, four, six, eight, nine and ten of subdivision a of section 13-232 of this subchapter shall apply to this section 13-232.2 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

1. "Base fiscal year". Any fiscal year of the city included in the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety-two.

2. "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred eighty-eight and which precedes the base fiscal year.

3. "Cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight". (a) An amount, expressed as a positive or negative quantity, as the case may be, which shall be determined in accordance with the method set forth in subparagraph (b) of this paragraph three.

(b) (i) The cumulative earnings differential for the base fiscal year (as defined in pararaph eleven of subdivision

a of section 13-232 of this subchapter), as applicable to the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year (as so defined) shall be computed pursuant to the provisions of such section 13-232.

(ii) The cumulative distributions of transferable earnings for prior base fiscal years (as defined in paragraph thirteen of subdivision a of such section 13-232) shall be computed pursuant to such section 13-232 with respect to such nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year.

(iii) The amount of transferable earnings (as defined in paragraph twelve of subdivision a of such section 13-232), if any, for the nineteen hundred eighty-seven-nineteen hundred eighty-eight base fiscal year, determined pursuant to such section 13-232, shall be added to the cumulative distributions of transferable earnings computed pursuant to item (ii) of this subparagraph (b).

(iv) The sum resulting from the addition prescribed by item (iii) of this subparagraph (b) shall be subtracted from the amount computed pursuant to item (i) of this subparagraph.

(v) The remainder resulting from the subtraction shall be the cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight.

4. "Equity experience factor". (a) An amount (expressed as a positive or negative quantity) which shall be determined for each base fiscal year in accordance with the method of computation set forth in the succeeding subparagraphs of this paragraph four.

(b) The amount of income earned by the pension fund during the base fiscal year from its investment in equities shall be computed.

(c) To each such amount of income for a base fiscal year there shall be added the capital gains, realized and unrealized, occurring during such base fiscal year by reason of such investments.

(d) From the sum resulting from the addition prescribed by subparagraph (c) of this paragraph there shall be subtracted the capital losses, realized or unrealized, occurring during such base fiscal year by reason of such investment.

(e) In the event that any equity is sold during the base fiscal year, the expense of such sale, including but not limited to broker's commissions, shall be deducted from capital gain or added to capital loss, in determining whether such sale produced a capital gain or a capital loss and the amount thereof.

(f) (i) With respect to base fiscal years occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, the remainder resulting from the subtraction prescribed by subparagraph (d) of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapter two hundred forty-seven of the laws of nineteen hundred eighty-eight and chapter five hundred eighty-one of the laws of nineteen hundred eighty-nine.

(ii) With respect to each base fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-two, the remainder resulting from the subtraction prescribed by subparagraph (d) of this paragraph shall be adjusted so that it equals the amount which it would have been in the absence of the enactment of chapter two hundred forty-seven of the laws of nineteen hundred eighty-eight.

(iii) For the purpose of determining the entitlement, with respect to any base fiscal year included in the period beginning on July first, nineteen hundred ninety and ending on June thirtieth, nineteen hundred ninety-two, of the police superior officers' variable supplements fund to receive payment of any sum from the pension fund pursuant to this section, the cumulative earnings factor for such base fiscal year shall be calculated in the same manner as if (A) that part of this subparagraph, which part, prior to July twenty-sixth, nineteen hundred ninety-one, referred to chapter five hundred eighty-one of the laws of nineteen hundred eighty-nine, had never been enacted and (B) items (ii) and (iii) of

this subparagraph, as such items were in effect prior to July twenty-sixth, nineteen hundred ninety-one, had never been enacted.

(g) Any adjustment required to be made pursuant to the provisions of subparagraph (f) of this paragraph shall be computed pursuant to a scientific method recommended to the board by the actuary and approved by the board; provided that if the board is unable to approve, by the required majority vote, any such formula recommended by the actuary, such adjustment shall be computed pursuant to a scientific formula recommended by the actuary and approved by an arbitrator designated pursuant to the procedure set forth in subparagraph (b) of paragraph eight of subdivision a of section 13-232 of this subchapter.

(h) The equity experience factor for such base fiscal year shall be the amount remaining after the adjustment prescribed by subparagraphs (f) and (g) of this paragraph has been made.

5. "Hypothetical fixed income securities earnings". (a) The aggregate of the hypothetical interest yields computed pursuant to subparagraphs (b), (c) and (d) of this paragraph five.

(b) The board shall compute with respect to each investment made or maintained by the pension fund in an equity during the base fiscal year, the amount of interest which would have been hypothetically earned during such fiscal year, under the methods of calculation prescribed in this paragraph five, if an amount equal to such investment had instead been hypothetically invested in fixed income securities and such securities had been held by such fund for a period (in the base fiscal year) co-extensive with the period during which such equity was held by such fund in the base fiscal year.

(c) For the purposes of this section, the amount of any such investment in an equity during the base fiscal year shall be deemed to be:

(i) the market value of the equity on the first day of the base fiscal year, in the case of any such equity acquired by the pension fund prior to the commencement of such fiscal year and held by such fund on the first day of such fiscal year; and

(ii) the total amount paid by such fund to acquire the equity, including but not limited to broker's commissions and other expenses of such acquisition, in the case of any such equity which is acquired by such fund during the base fiscal year.

(d) For the purposes of this section, the amount of interest which would have been earned by the pension fund on such hypothetical fixed income securities during the base fiscal year shall be deemed to be the amount obtained:

(i) by multiplying the amount of the investment in such equity, determined as prescribed by subparagraph (c) of this paragraph five, by the assumed rate of interest for the base fiscal year; and

(ii) by prorating the interest so computed, in any case where the investment in such equity was maintained by the pension fund for a part of the base fiscal year; and

(iii) by multiplying the amount of interest computed for the full base fiscal year pursuant to items (i) and (ii) of this subparagraph by a fraction, the numerator of which is the amount designated as the equity experience factor with respect to such base fiscal year by subparagraph (h) of paragraph four of this subdivision b and the denominator of which is the remainder produced by the subtraction prescribed by subparagraph (d) of such paragraph four with respect to such base fiscal year; and

(iv) by adding together the products of all such multiplications performed pursuant to item (iii) of this subparagraph in relation to all such equities held by the pension fund during such fiscal year.

6. "Cumulative earnings factor". (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year.

(b) In applying the provisions of this subdivision six for the base fiscal year nineteen hundred eighty-eight-nineteen hundred eighty-nine, the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred eighty-eight" shall be substituted for the term "cumulative earnings factor for the immediately preceding base fiscal year".

7. "PSOVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all members of the uniformed force of the police department who are police superior officers, as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the police department as of the last day of such base fiscal year.

8. "Police superior officers". Members of the uniformed force of the police department who (a) hold the position of sergeant or any position of higher rank in such force, or (b) are detectives.

9. "Police superior officers' variable supplements fund". The police superior officers' variable supplements fund established by subchapter four of this chapter.

c. As soon as practicable after the close of each base fiscal year, but not later than August thirty-first of the current fiscal year, the board shall compute the PSOVSF cumulative earnings factor with respect to such base fiscal year.

d. If the PSOVSF cumulative earnings factor for the base fiscal year is a positive quantity, the pension fund, on or before August thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the police superior officers' variable supplements fund a sum equal to the amount of such factor.

e. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-232.3 Payments to police superior officers' variable supplements fund for base fiscal years commencing on or after July first, nineteen hundred ninety-two.

a. For the purposes of this section, the definitions of terms set forth in paragraphs two, five, six, seven, eight and fifteen of subdivision a of section 13-232 of this subchapter shall apply to this section 13-232.3 with the same force and effect as if such definitions were specifically set forth in this section.

b. For the purposes of this section, the following terms shall mean and include:

(1) "Base fiscal year". Any fiscal year of the city beginning on or after July first, nineteen hundred ninety-two.

(2) "Prior base fiscal year". Any fiscal year of the city which begins on or after July first, nineteen hundred ninety-two and which precedes the base fiscal year.

(3) "Cumulative earnings factor as of June thirtieth, nineteen hundred ninety-two". An amount, expressed as a positive or negative quantity, as the case may be, which shall be equal to the cumulative earnings factor for the nineteen hundred ninety-one-nineteen hundred ninety-two base fiscal year computed pursuant to section 13-232.2 of this subchapter.

(4) "Earnings differential". The amount (expressed as a positive and negative quantity) by which the equity

experience factor (expressed as a positive or negative quantity) with respect to the base fiscal year differs from the hypothetical fixed income securities earnings with respect to the base fiscal year. If such equity experience factor is greater then such hypothetical fixed income securities earnings, the difference between the two shall be expressed as a positive quantity. If such hypothetical fixed income securities earnings are greater then such equity experience factor, the difference between the two shall be expressed as a negative quantity.

(5) "Cumulative earnings factor". (a) The cumulative earnings factor for any base fiscal year shall be determined as follows:

(i) If the cumulative earnings factor for the immediately preceding base fiscal year was a positive quantity, the cumulative earnings factor for the base fiscal year shall be equal to the earnings differential for the base fiscal year.

(ii) If the cumulative earnings factor for the immediately preceding base fiscal year was a negative quantity, the cumulative earnings factor for the base fiscal year shall be equal to the sum of:

(A) the earnings differential for the base fiscal year; and

(B) the cumulative earnings factor for the immediately preceding base fiscal year, increased with interest at a rate equal to the assumed rate of interest fixed with respect to such base fiscal year pursuant to the provisions of paragraph eight of subdivision a of section 13-232 of this subchapter, as made applicable to this section 13-232.3 by subdivision a hereof.

(b) In applying the provisions of this paragraph five for the base fiscal year nineteen hundred ninety-two-nineteen hundred ninety-three, the term defined in paragraph three of this subdivision b as "cumulative earnings factor as of June thirtieth, nineteen hundred ninety-two" shall be substituted for the term "cumulative earnings factor the the immediately preceding base fiscal year".

(6) "PSOVSF cumulative earnings factor". With respect to any base fiscal year, the amount obtained by multiplying the cumulative earnings factor for such base fiscal year by a fraction, the numerator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all members of the uniformed force of the police department who are police superior officers, as of the last day of such base fiscal year, and the denominator of which shall be the total contributions made to the pension fund with respect to such base fiscal year on behalf of all persons who are members of the uniformed force of the police department as of the last day of such base fiscal year.

(7) "PSOVSF unfunded accrued liability". In any case where the valuation of assets and liabilities off the police supeerior officers' variable supplements fund by the actuary pursuant to subdivision e of section 13-280 of this chapter shows that for any base fiscal year, such liabilities exceed such assets, the term "PSOVSF unfunded accrued liability" shall mean the amount of the excess of such liabilities over the amount of such assets for such base fiscal year.

(8) "Police superior officers". Members of the uniformed force of the police department who (a) hold the position of sergeant or any position of higher rank in such force, or (b) are detectives.

c. As soon as practicable after the close of each base fiscal year, but not later than December thirty-first of the current fiscal year, the board shall compute the PSOVSF cumulative earnings factor with respect to such base fiscal year.

d. If the PSOVSF cumulative earnings factor for such base fiscal year is a positive quantity, the pension fund, on or before December thirty-first of the current fiscal year, shall pay from its contingent reserve fund to the police superior officers' variable supplements fund, as the payment due for such base fiscal year under this section, an amount determined pursuant to the provisions of subdivision e of this section.

e. The amount payable for such base fiscal year as provided for in subdivision d of this section shall be the lesser of (1) the PSOVSF cumulative earnings factor for such base fiscal year referred to in such subdivision d or (2) the PSOVSF unfunded accrued liability for such base fiscal year.

f. No amount shall be due from or payable by the pension fund to such variable supplements fund under this section for any base fiscal year which shall exceed the PSOVSF unfunded accrued liability for such base fiscal year, regardless of the amount and character of the PSOVSF cumulative earnings factor for such base fiscal year.

g. The comptroller shall furnish to the board such information and data as it may request for the purpose of carrying out the provisions of this section.

§ 13-233 Trustees of funds; investments.

a. The members of the board shall be the trustees of the several funds provided for by this subchapter, and shall have full power to invest the same, subject to the terms, conditions, limitations and restrictions imposed by law upon savings banks in the making and disposing of investments by savings banks; and, subject to like terms, conditions, limitations and restrictions, such trustees shall have full power to hold, purchase, sell, assign, transfer or dispose of any of the securities or investments in which any of the funds provided for by this subchapter shall have been invested as well as of the proceeds of such investments and of any moneys belonging to such funds.

b. Notwithstanding the provisions of subdivision two of section one hundred seventy-seven of the retirement and social security law, or any other provision of law to the contrary, the amounts which may be invested by the pension fund in securities pursuant to the provisions of paragraphs (a), (b), (c), (d), (e) and (f) of subdivision twenty-six of section two hundred thirty-five of the banking law, shall be subject to the following maximum limits, in lieu of any such limits imposed by any other provision of law:

(1) Not more than fifty per cent of the assets of the pension fund shall be invested in such securities; and

(2) Not more than five per cent of such assets shall be invested in the securities of any one corporation and its subsidiaries; and

(3) Not more than two per cent of the total issued and outstanding equity securities of any one corporation shall be owned by the pension fund.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-234 Allowance of interest.

a. Such board shall annually allow regular interest on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this chapter. The amount so allowed shall be due and payable to such funds, and shall be annually credited thereto by such board.

b. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-four. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-four, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-four in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-four in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four, shall be credited as of December thirty-first nineteen hundred sixty-four to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-five and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-four. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-four and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth,

nineteen hundred sixty-five, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-four had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-five, provided that the sum of said special interest and any additional interest to be paid pursuant to subdivision c hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

c. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-four which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to paragraph b hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to paragraph b hereof additional interest, as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-four which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-four and who retire or die prior to June thirtieth, nineteen hundred sixty-five, the amount of additional interest for calendar year nineteen hundred sixty-four shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to paragraph b hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

d. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-five. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-five, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-five in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-five in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five, shall be credited as of December thirty-first, nineteen hundred sixty-five to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-six and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-five. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-five and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first, nineteen hundred sixty-five had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-six, provided that the sum of said special interest and any additional interest to be paid pursuant to subdivision e hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

e. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for calendar year nineteen hundred sixty-five which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to subdivision d hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to subdivision d hereof, additional interest as determined by

multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-five which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-five and who retire or die prior to June thirtieth, nineteen hundred sixty-six, the amount of additional interest for calendar year nineteen hundred sixty-five shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to subdivision d hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

f. The investment earnings of the retirement system shall be determined for the calendar year nineteen hundred sixty-six. To the extent that such earnings are in excess of the amount allowed as regular interest for calendar year nineteen hundred sixty-six, the board shall declare a rate of special interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the amount required for the allowance of regular interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-six in the annuity savings funds of members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six. Special interest, as determined by multiplying said special interest rate by the mean amount for the calendar year nineteen hundred sixty-six in the individual annuity savings funds of persons who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six, shall be credited as of December thirty-first, nineteen hundred sixty-six to the individual annuity savings funds of persons who are members, with a balance, after adjustment, as of June thirtieth, nineteen hundred sixty-seven and who are allowed regular interest at the rate of three per centum per annum for calendar year nineteen hundred sixty-six. For members who are allowed regular interest at three per centum for calendar year nineteen hundred sixty-six and who do not have a balance, after adjustment, in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, a payment shall be made equal to the amount of special interest which would have been credited as of December thirty-first nineteen hundred sixty-six had they had a balance in their annuity savings funds as of June thirtieth, nineteen hundred sixty-seven, provided that the sum of said special interest and any additional interest to be paid pursuant to subdivision g hereof is ten dollars or more. Special interest shall not be considered in determining rates of contribution of members.

g. If the full one per centum of special interest has been allowed, then to the extent that the amount of said earnings exceeds the amount allowed as regular interest and the amount allowed or paid as special interest, the board shall declare a rate of additional interest, expressed to the lower one-tenth of one per centum, but not to exceed one per centum, to be determined by the amount by which the investment earnings exceed the sum of the allowance of regular interest and the allowance and payment of special interest divided by the aggregate mean amount for the calendar year nineteen hundred sixty-six which would be the reserve-for-increased-take-home-pay of all members to whom special interest is credited or paid pursuant to subdivision f hereof. In determining the reserve-for-increased-take-home-pay of any member to whom special interest is credited pursuant to subdivision f hereof, additional interest as determined by multiplying said additional interest rate by the mean amount for calendar year nineteen hundred sixty-six which would be said member's reserve-for-increased-take-home-pay shall be included. However, for members who are allowed regular interest at three per centum per annum for calendar year nineteen hundred sixty-six and who retire or die prior to June thirtieth, nineteen hundred sixty-seven, the amount of additional interest for calendar year nineteen hundred sixty-six shall not be included in the retirement allowance, but shall be paid in a single payment provided that the sum of said additional interest and any special interest to be paid pursuant to subdivision f hereof is ten dollars or more. Additional interest shall not be considered in determining rates of contribution of members.

h. (1) During the period commencing on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty, special interest at the rate of one and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(2) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two, special interest at the rate of three and one-half per centum per annum, compounded annually, shall be allowed with respect to the individual account of

each member in the annuity savings fund.

(3) (a) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three, special interest at the rate of four per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(b) Subject to the provisions of subdivision j of this section, during the period commencing on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(c) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight, special interest at the rate of one per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member in the annuity savings fund.

(d) Subject to the provisions of subdivision j of this section, during the period commencing on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety, special interest at the rate of one and one-quarter per centum per annum, compounded annually, shall be allowed with respect to the individual account of each member of the annuity savings fund.

(4) Such special interest provided for by paragraphs (1), (2) and (3) of this subdivision shall be credited to such individual account of each member entitled thereto in the same manner and at the same time as regular interest is required to be credited to such account with respect to the same period of time. Such special interest shall not be considered in determining rates of contributions of members. Nothing contained in this subdivision h shall be construed as applicable to any member who is subject to the provisions of article fourteen of the retirement and social security law.

i. (1) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred seventy-seven and ending on June thirtieth, nineteen hundred eighty.

(2) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of three and one-half per centum per annum compounded annually shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty and ending on June thirtieth, nineteen hundred eighty-two.

(3) (a) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of four per centum per annum compounded annually shall be included for each city fiscal year and portion thereof occurring during the period beginning on July first, nineteen hundred eighty-two and ending on July thirty-first, nineteen hundred eighty-three.

(b) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one per centum per annum compounded annually shall be included for each city fiscal year and portion thereof occurring during the period beginning on August first, nineteen hundred eighty-three and ending on June thirtieth, nineteen hundred eighty-five.

(c) Subject to the provisions of subdivision j of this section, in determinating the

reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one per centum per annum, compounded annually, shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-five and ending on June thirtieth, nineteen hundred eighty-eight.

(d) Subject to the provisions of subdivision j of this section, in determining the reserve-for-increased-take-home-pay of each member entitled to such a reserve, additional interest at the rate of one and one-quarter per centum per annum, compounded annually, shall be included for each city fiscal year occurring during the period beginning on July first, nineteen hundred eighty-eight and ending on June thirtieth, nineteen hundred ninety.

(4) Additional interest shall not be considered in determining rates of contribution of members. Nothing contained in this subdivision shall be construed as applicable to any member who is subject to the provisions of article fourteen of the retirement and social security law.

j. (1) The provisions of paragraph (2) of subdivision h of this section and the provisions of paragraphs (1) and (2) of subdivision i of this section, to the extent that any of such provisions grants special or additional interest, as the case may be, for any period prior to July thirty-first, nineteen hundred eighty-one, shall not apply to any person who was not a member on such July thirty-first, and shall not apply to any person to whom, on such July thirty-first, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-256 of this subchapter. Nothing contained in subdivisions h and i of this section shall be construed as granting special or additional interest, as the case may be, to any person with respect to any period wherein such person was not a member entitled to be credited with regular interest for the same period or was not a discontinued member entitled to be credited, as a discontinued member, with regular interest for the same period.

(2) (a) The provisions of subparagraph (a) of paragraph (3) of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to December sixteenth, nineteen hundred eighty-two, and the provisions of subparagraph (a) of paragraph (3) of subdivision 1 of this section, to the extent that such subparagraph grants additional interest for any period prior to such date, shall not apply to any person who was not a member on such date and shall not apply to any person to whom, on such date, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-256 of this subchapter.

(b) The provisions of subparagraph (d) of paragraph (3) of subdivision h of this section, to the extent that such subparagraph grants special interest for any period prior to the date of enactment of this subparagraph (b) of this paragraph (2) (as such date is certified pursuant to section forty-one of the legislative law), and the provisions of subparagraph (d) of paragraph (3) of subdivision 1 of this section, to the extent that such subparagraph (d) grants additional interest for any period prior to such date, shall not apply to any person who was not a member on such date and shall not apply to any person to whom, on such date, a deferred retirement allowance or any part of such a retirement allowance was payable pursuant to the provisions of section 13-256 of this subchapter.

k. (1) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred seventy-seven to June thirtieth, nineteen hundred eighty on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest was credited to such funds with respect to such period.

(2) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty to June thirtieth, nineteen hundred eighty-two on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of three and one-half per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary

interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(3) (a) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-two to July thirty-first, nineteen hundred eighty-three, on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of four per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(b) Subject to the provisions of paragraph four of this subdivision k, in addition to regular interest annually allowed for the period from August first, nineteen hundred eighty-three to June thirtieth, nineteen hundred eighty-five, on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this article, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(c) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-five to June thirtieth, nineteen hundred eighty-eight on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(d) Subject to the provisions of paragraph (4) of this subdivision k, in addition to regular interest annually allowed for the period from July first, nineteen hundred eighty-eight to June thirtieth, nineteen hundred ninety on the mean amount for the preceding year in each of the funds provided for in accordance with the provisions of this subchapter, there shall be annually allowed with respect to such period supplementary interest at the rate of one and one-quarter per centum per annum on such mean amount for the preceding year in each of such funds. Such supplementary interest shall be annually credited to such funds at the same time and in the same manner as regular interest is credited to such funds with respect to such period.

(4) The provisions of paragraphs (1), (2) and (3) of this subdivision k shall not apply to or affect (a) the allowance of interest on or the crediting of interest to accounts of members or discontinued members in the annuity savings fund or (b) the allowance of interest on or crediting of interest to reserve-for-increased-take-home-pay of members or discontinued members or (c) the determination of the amount of any benefit payable to any member or beneficiary.

l. On or after May first, nineteen hundred eighty-nine and not later than October thirty-first of such year, the board shall submit to the public officers and permanent commission referred to in paragraph (e) of subdivision eight of section 13-214 of this subchapter the recommendations of such board:

(1) as to whether legislation should be enacted providing for the crediting of special interest to members after June thirtieth, nineteen hundred ninety and if so, the recommended rate thereof and duration of such crediting; and

(2) as to whether legislation should be enacted providing that in the determination of reserves-for-increased-take-home-pay of members entitled to such a reserve, additional interest shall be included for any period after June thirtieth, nineteen hundred ninety, and if so, the recommended rate thereof and the period as to which

such interest should be included; and

(3) as to whether legislation should be enacted providing for the crediting of supplementary interest after June thirtieth, nineteen hundred ninety to such funds to which subdivision k of this section is applicable and if so, the recommended rate thereof and duration of such crediting.

m. The allowance of special interest, additional interest and supplementary interest, if any, with respect to any fiscal year of the city beginning on or after July first, nineteen hundred ninety shall be governed by the applicable provisions of section 13-638.2 of this title.

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-239 Rules regulating loans to members.

Any member who shall have been a member continuously at least three years, may borrow from the pension fund, subject to such rules and regulations as may be approved by such board, an amount not exceeding ninety per centum of the amount of his or her accumulated contributions provided that the amount so borrowed together with interest thereon, can be repaid before attainment of age sixty-three years by additional deductions of ten per centum from his or her compensation made at the same time compensation is paid to the member. The amount so borrowed together with regular interest creditable to the account of the member on any unpaid balance thereof shall be repaid to the pension fund in equal instalments by deduction from the compensation of the member at the time the compensation is paid, but such instalments shall be at least two per centum of the member's earnable compensation and at least sufficient to repay before attainment of age sixty-three years, the amount borrowed with interest thereon. Notwithstanding anything to the contrary in this subchapter, the additional deductions required to repay the loan shall be made, and the interest paid on the loan shall be credited to the proper funds of the pension fund. In lieu of loan, any member whose rate of contribution is cancelled, may withdraw from his or her account and may restore thereto in any year as he or she may elect any sum in excess of the maximum in his or her annuity savings account and due thereto at the end of the calendar year in which he or she became entitled to cancel his or her rate. The actuarial equivalent of any unpaid balance of a loan at the time any benefit may become payable shall be deducted from the benefit otherwise payable except that each loan made pursuant to this section shall be insured by the pension fund, without cost to the member, against the death of such member in an amount up to but not exceeding twenty-five thousand dollars as follows:

1. Until thirty days have elapsed after the making thereof, no part of the loan shall be insured.

2. From the thirtieth through the fifty-ninth day after the making thereof, twenty-five per centum of the present value of the outstanding loan shall be insured.

3. From the sixtieth through the eighty-ninth day after the making thereof, fifty per centum of the present value of the outstanding loan shall be insured.

4. On and after the ninetieth day after the making thereof, all of the present value of the outstanding loan shall be insured.

Upon the death of a member, the amount of insurance so payable shall be credited to his or her accumulated contributions.

§ 13-242 Termination of membership; miscellaneous.

Membership in the pension fund shall cease upon the occurrence of any one of the following conditions:

1. When the time out of city-service, other than time on a preferred civil service list, of any member who has resigned or has been separated from the service through no fault of his or her own, and who has total service of less than twenty-five years, shall aggregate more than five years in any period not exceeding ten consecutive years since he or she last became a member.

2. When any member shall have withdrawn more than one-quarter of his or her accumulated deductions.

3. When any member shall die.

4. When any member shall be retired on a pension.

5. When any member becomes eligible to participate in another pension or retirement system supported in whole or in part by the city or state of New York.

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-243 Death benefits; ordinary death benefits.

a. Upon the death of a member or of a former member, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed with such board during the lifetime of the member:

1. His or her accumulated deductions; and, in addition thereto,

2. If such member is in city-service or is on a civil service preferred eligible list by reason of city-service, unless a pension be payable by the city under the provisions of section 13-244 of this subchapter, an amount equal to the compensation earnable by him or her while a member, during the six months immediately preceding his or her death, and, if the total number of years in which allowable service was rendered exceeds ten, then an amount equal to the compensation earnable by him or her in city-service while a member during the twelve months immediately preceding his or her death, and in addition, in either such case, the reserve-for-increased-take-home-pay.

b. Until the first payment has been made on account of a retirement benefit without optional selection of a member, such member may be construed by such board to have been in city-service and the benefits provided in this section may be paid in lieu of the retirement allowance.

c. The member, or on the death of the member, the person nominated by him or her to receive either his or her

accumulated deductions, his or her death benefit, together with the reserve-for-increased-take-home-pay, or both, may provide by written designation duly executed and filed with such board that the actuarial equivalent of the benefit otherwise payable in a lump sum shall be paid to the person designated in the form of an annuity payable in installments not more often than once a month, the amount of such annuity to be determined at the time of the member's death on the basis of the age of the beneficiary at that time.

d. Notwithstanding the foregoing provisions of this section, and in lieu of any lesser amount thereby prescribed, upon the death of a member, prior to the first payment of a retirement benefit, who has attained the minimum age or completed the minimum period of service, as elected by him or her for retirement, and whether or not such member shall have filed application for retirement, there shall be paid to his or her estate, or to such person as he or she has nominated or shall nominate by written designation duly executed and filed in accordance with the requirements of this subchapter:

1. His or her accumulated deductions; and in addition thereto,

2. The amount of reserve equal to the present value of the pension he or she would have received if he or she had retired and became entitled to pension on the day immediately preceding his or her death.

The beneficiary of such deceased member shall have the right to accept such benefits in lump sum or in such periodic payments, on an annuity basis, as such beneficiary shall elect.

*NYC Administrative Code 13-244*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-244 Death benefits; accidental death benefits.

Upon the accidental death of a member before retirement, provided that evidence shall be submitted to such board proving that the death of such member was the natural and proximate result of an accident sustained while a member and while in the performance of duty at some definite time and place and that such death was not the result of wilful negligence on his or her part, his or her accumulated deductions shall be paid to his or her estate, or to such persons as he or she has nominated or shall nominate by written designation, duly acknowledged and filed with such board. Upon application by or on behalf of the dependent of such deceased member, such board shall grant a lump sum payment of the reserve-for-increased-take-home-pay and, in addition thereto, a pension of one-half of the final compensation of such employee, which pension shall in no case be less than one-half of the full salary payable to a first grade police officer on the date of death of such employee:

1. To his or her surviving spouse, to continue until the death of the surviving spouse; or

2. If there be no surviving spouse, or if the surviving spouse dies before any child of such deceased member shall have attained the age of eighteen years, or if a student, before such child shall have attained the age of twenty-three years, then to his or her child or children under such age, divided in such manner as such board in its discretion shall determine, to continue as a joint and survivor pension of one-half of his or her final compensation until every such child dies or attains such age; or

3. If there be no surviving spouse or child under the age of eighteen years, or if a student, under the age of twenty-three years, surviving such deceased member, then to his or her dependent father or mother, as the deceased member shall have nominated by written designation duly acknowledged and filed with such board; or, if there be no such nomination, then to his or her dependent father or to his or her dependent mother, as such board in its discretion shall direct, to continue for life.

4. Notwithstanding any other provision of law to the contrary, and solely for the purposes of this section, a member shall be deemed to have died as the natural and proximate result of an accident sustained in the performance of duty upon which his or her membership is based, and not as a result of willful negligence on his or her part, provided that such member was in active service upon which his or her membership is based at the time that such member was ordered to active duty, other than for training purposes, pursuant to Title 10 of the United States Code, with the armed forces of the United States, and such member died while on such active duty on or after the effective date of the chapter of the laws of two thousand five which added this subdivision while serving on such active military duty.

Open par amended LL 145/1952 § 1

Amended chap 223/1963 § 5

**NOTE**

Provisions of chap 348/1989, as amended by chap 564/1993 § 1:

§ 6. This act shall take effect April 1, 1990, and shall apply to widows or widowers of members who remarry on or after April 1, 1990; provided however that, effective July 1, 1993, widows or widowers of members who had remarried prior to April 1, 1990, may apply to have their accidental death benefits and special accidental death benefits reinstated prospectively effective July 1, 1993; provided further, that for those widows or widowers of members who had remarried prior to April 1, 1990 and have been granted benefit reinstatement effective on or after July 1, 1993, if the deceased members' child or children who are under the age of eighteen, or if students under the age of twenty-three, are currently receiving accidental death or special accidental death benefits such benefits to said child or children shall cease upon reinstatement of such benefits to the widows or widowers, except if such child or children are issue of a prior marriage in which case the benefits shall be divided between the surviving widow or widower and the deceased member's child or children by a prior marriage such that fifty percent of the benefits accrues to the widow or widower and fifty percent of the benefits accrues to the surviving child or children of the prior marriage per stirpes until age eighteen or if a student until age twenty-three.

**CASE NOTES FROM FORMER SECTION**

¶ 1. Where widow of retired policeman had been granted a pension as a matter of discretion under Greater New York Charter § 354, which pension by express statutory provision was to terminate upon a remarriage, but the widow

had secretly remarried and for several years thereafter had collected pension checks, representing by her endorsements that she had not remarried, and upon being discovered she had agreed to make restitution and had repaid nearly half of the moneys obtained when she sued for and obtained an annulment, she was not now entitled to an order compelling the trustees of the Pension Fund to vacate the determination of revocation upon theory that the annulment operated retroactively and destroyed the marriage ab initio, since even if she showed a clear legal right to restoration her conduct was such as to suggest that in exercise of discretion the extraordinary remedy of mandamus should be withheld, and moreover there was no semblance of a suggestion that the discretion to revoke the pension was improperly exercised.-Coffey v. Valentine, 107 (22) N.Y.L.J. (1-27-42) 399, Col. 7 M.

¶ 2. An order directing Trustees of the Police Pension Fund to award widow of patrolman an accidental death pension instead of an ordinary death pension based on death of the patrolman from injuries received when he fell from running board of a private automobile which he had hailed for a ride to a special post to which he had been assigned, was affirmed by the Court of Appeals without opinion.-Dolan v. McGahen, 297 N.Y. 913, 79 N.E. 2d 743 [1948].

¶ 3. Police pension board did not fulfill its duty to take evidence of facts and to make an independent determination of the issues based on the evidence when the board merely referred an application for accidental death benefits to a medical board of physicians and recommended denial of the application on the basis of the medical board's determination without a consideration of the evidence disclosed by the police department records. Brady v. City of N.Y., 22 N.Y. 2d 601, 241 N.E. 2d 236, 294 N.Y.S. 2d 215 [1968], reversing, 26 A.D. 2d 278, 274 N.Y.S. 13 [1966].

¶ 4. Petitioner, who was awarded an accidental death pension upon the death of her husband in 1971 and whose pension benefits were terminated upon her remarriage in 1977 to an employee of the Federal Government who died in 1978, was not entitled to reinstatement of her accidental death pension since it is the intent of the statute that benefits to a widow shall permanently terminate upon her remarriage.-Matter of Giraldi (Trustees of Board of Police Pension Fund), 183 (24) N.Y.L.J. (2-4-80) 6, Col. 4 T.

¶ 5. Where there was no evidence that decedent identified himself as a police officer and proof did not establish that he was acting as a police officer during a fight with another person outside of a bar, denial of request of mother for accidental death benefits was not arbitrary or capricious.-Breslin v. N.Y.C. Police Pension Fund Bd. of Trustees, 60 N.Y. 2d 622 [1983] affirming, 92 App. Div. 2d 800 [1983], reversing, 111 Misc. 2d 184 [1981].

**CASE NOTES**

¶ 1. In adjudicating a claim for accidental disability, the court cannot weigh the medical evidence or substitute its judgment for that of the Medical Board. Only if the Board of Trustees determination is "wholly irrational" should the court step in and upset the Board's determination. Appleby v. Herkommer, 165 A.D.2d 727, 563 N.Y.S.2d 786 (1st Dept. 1990).

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-245 Accidental death benefits in the case of deaths occurring prior to July first, nineteen hundred sixty-five.

a. Notwithstanding the provisions of section 13-244 of this subchapter, in any case where a pension was or is awarded under the provisions of such section, by reason of the death of a member occurring before July first, nineteen hundred and sixty-five, such pension, subject to the provisions of subdivisions b and c of this section, shall be:

(1) For each full calendar year, on and after January first, nineteen hundred and sixty-five, an amount equal to one-half of the annual salary or compensation payable, on July first, nineteen hundred and sixty-five, to a member of the uniformed force of rank, seniority and other salary-determining status, equal to that of the deceased member on the date of his or her death, but in no case less than one-half of the salary payable, to a first grade police officer on July first, nineteen hundred sixty-five, and

(2) For any portion of a calendar year, on and after January first, nineteen hundred and sixty-five, the appropriate pro rata portion of the amount which would be payable, under the provisions of paragraph one of this subdivision a, for the full calendar year which includes such portion of a year, if a pension were payable under this section for such full calendar year.

b. Such pension shall be payable to the same persons and shall be subject to the same terms and conditions, including provisions as to termination, as the pension which would otherwise be payable, on and after January first, nineteen hundred and sixty-five, pursuant to section 13-244 of this subchapter by reason of the death of such member.

c. The pension payable pursuant to the provisions of subdivisions a and b of this section shall be in lieu of any pension which would otherwise be payable on and after the effective date of this section, pursuant to the provisions of section 13-244 of this subchapter and, except as otherwise provided in paragraph one of subdivision e of section 13-686 of this title, shall be in lieu of any supplemental retirement allowance which would otherwise be payable, on and after such date, under the provisions of subchapter six of chapter five of this title of the code or any other law.

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-252 Retirement; for accident disability.

Medical examination of a member in city-service for accident disability and investigation of all statements and certifications by him or her or on his or her behalf in connection therewith shall be made upon the application of the commissioner, or upon the application of a member or of a person acting in his or her behalf, stating that such member is physically or mentally incapacitated for the performance of city-service, as a natural and proximate result of such city-service, and certifying the time, place and conditions of such city-service performed by such member resulting in such alleged disability and that such alleged disability was not the result of wilful negligence on the part of such member and that such member should, therefore, be retired. If such medical examination and investigation shows that such member is physically or mentally incapacitated for the performance of city-service as a natural and proximate result of an accidental injury received in such city-service while a member, and that such disability was not the result of wilful negligence on the part of such member and that such member should be retired, the medical board shall so certify to the board, stating the time, place and conditions of such city-service performed by such member resulting in such disability, and such board shall retire such member for accident disability forthwith.

**HISTORICAL NOTE**

Section added chap 907/1985 § 1

**DERIVATION**

Formerly § B18-43.0 added LL 2/1940 § 2

**CASE NOTES FROM FORMER SECTION**

¶ 1. Petitioner, who applied for an order directing the trustees of the Police Pension Fund to grant him a service-connected disability pension rather than an ordinary disability pension, claimed that the surgeon submitted false reports because of personal hatred and animosity toward him which prevented a fair evaluation of whether the disability was service connected or not. **Held,** the matter would be remanded to the trustees so that there would be such a review as to preclude a claim that his pension application was not fairly processed.-Matter of Varchim (Trustees, etc.), 145 (66) N.Y.L.J. (4-6-61) 13, Col. 8 T.

¶ 2. A patrolman was retired because of an anxiety complex which the Board of Trustees found prevented him from carrying out his duties. The patrolman's psychiatrist testified that the complex did not interfere with the patrolman's competency. **Held,** the court would not substitute its judgment for that of the Board of Trustees as to which medical opinion was correct.-Epstein v. Murphy, 148 (118) N.Y.L.J. (12-20-62) 10, Col. 1 M, aff'd 258 N.Y.S. 2d 324 [1965].

¶ 3. Petitioner was properly denied service-connected disability retirement. In 1948 he sustained laceration of hand and sprain of both arms which incapacitated him for two weeks. About one month later a tremor developed that eventually led to his retirement. An independent neurologist concluded that the 1948 accident was not responsible for the tremor.-In re Kaplan, 151 (25) N.Y.L.J. (2-5-64) 14, Col. 3 M, rev'd on other grds. 25 App. Div. 2d 827, 269 N.Y.S. 2d 587 [1966].

¶ 4. Refusal to grant police officers a service-connected disability pension was arbitrary where medical proof established a causal relation between disabling condition of psychoneurosis, and the injuries sustained by the officer in line of duty accidents.-Tenore v. City of N.Y., 150 (107) N.Y.L.J. (12-3-63) 12, Col. 6 M.

¶ 5. Determination retiring police officer under non-accident disability, would not be disturbed, where although petitioner had been injured in a collision in 1954 and he had thereafter complained of shoulder and back pain, there was no evidence to show a causal relation between the accident and present disability.-Bree v. City of N.Y., 150 (122) N.Y.L.J. (12-24-64) 8, Col. 3 F.

¶ 6. A policeman, injured in 1963, applied for disability retirement on April 29, 1964. On June 9 the medical board certified his disability to the Board of Trustees of the Police Pension Fund. Before the Board could act the Police Commissioner suspended the policeman because of his refusal to answer questions before a grand jury. The policeman was afforded no hearing regarding his refusal to testify before the grand jury. The Court rejected the contention of petitioner that his right to be retired on a pension vested automatically on June 9 since he had not requested retirement until July 1. Moreover, as no regular meeting of the Board of Trustees was held before July 15 when petitioner's employment was terminated the Board did not fail to act "forthwith" as provided in this section. However, before dismissal petitioner should have been given a hearing at which he could have explained his refusal to answer questions before the grand jury. Absence of such notice and hearing constituted a denial of due process of law. The proceeding was remanded to determine upon due notice an opportunity to petitioner to be heard, whether his employment in the police department should be terminated.-Conlon v. Murphy, 24 App. Div. 2d 737, 263 N.Y.S. 2d 360 [1965], reversing, 44 Misc. 2d 504, 254 N.Y.S. 2d 68 [1964].

¶ 7. A police officer whose application for designation of a certain injury as a "line of duty injury" had been disapproved could bring an Article 78 proceeding for an order directing approval of his application as there was no administrative appeal from such determination and he was presently aggrieved as such determination has immediate financial consequences for the injured officer and as such determination is final it is judicially reviewable.-Jedynski v. Murphy, 154 (109) N.Y.L.J. (12-8-65) 17, Col. 1 T.

¶ 8. Where there was ample credible evidence to support determination of medical board that his psychiatric

disorder was not due to his police career petitioner did not establish his right to retire for a service-connected disability even though his psychiatrist reported that his mental incapacity was a natural and proximate result of such city service. A mere difference of medical opinion as to causal relationship over a long period of service is insufficient to find that the determination of the board was arbitrary. Wegell v. Board of Trustees of Police Pension Fund, 161 (36) N.Y.L.J. (2-21-69) 15, Col. 2 F.

¶ 9. Petitioner whose application for service connected disability retirement was denied and who was retired on ordinary disability was entitled to a trial where the medical board found him unfit to perform police duty by reason of a compensation neurosis but there was no evidence to show whether the neurosis was caused by any event other than injuries that occurred in the line of duty.-Matter of Anthony Melnick (Police Pension Fund) 165 (57) N.Y.L.J. (3-25-71) 18, Col. 1 F.

¶ 10. There was no unreasonable delay in processing petitioner's application for retirement for disability despite claim by petitioner that his application was withheld from the meeting of trustees scheduled for February 23 because the board knew that petitioner was being sentenced for a crime on February 28 where applications of others examined by the medical board of the police pension fund on the same day as petitioner were also processed in March.-Glazer v. Board of Trustees of the Police Pension Fund, etc., 66 A.D. 2d 760, 411 N.Y.S. 2d 611 [1978], aff'd, 48 N.Y. 2d 790 [1979].

¶ 11. Police officer upon retirement for disabling heart disease should have been retired with accidental disability benefits rather than ordinary disability benefits since statutory presumption that this condition was incurred in the performance of duty was not rebutted and presumption carries with it presumption of accidental causation.-Lemmerman v. McGuire, 102 Misc. 2d 56 [1979].

¶ 12. Court erred in directing that an accident disability retirement pension be granted to petitioner because this power resides in the board of trustees and not the court which must remand when there has been an arbitrary or capricious determination.-Matter of Durstec, 81 A.D. 2d 553 [1981].

¶ 13. Trustees of the Police Pension Fund acted without authority when they adopted resolution defining an accidental disability as one caused by the intervention of an external, unexpected and unusual fortuitous event proximately causing the injury where the provisions of this section state that accidental disability retirement may be awarded if physical incapacity is the "natural and proximate result of such city service".-Picciotto v. McGuire, 112 Misc. 2d 763 [1982].

¶ 14. Denial of accidental disability to petitioner, a police officer who was injured while removing barriers at a concert in Central Park, by Board of Trustees of Police Pension Fund was not capricious and unreasonable where it found that the injury was the result of a performance of an ordinary duty and not the result of an accident.-Del Grosso v. Board of Trustees of Police Pension Fund, 113 Misc. 2d 440 [1982].

¶ 15. Where petitioner did not show or even allege that his elbow disease was the result of any particular accident matter should not have been remanded to Medical Board to identify cause of disability in proceeding to obtain accident disability retirement pension.-Manzolillo v. N.Y.C. Employees' Retirement System, 87 App. Div. 2d 792 [1982].

¶ 16. Petitioner's hearing loss which was illegally caused by his exposure to noise on the firing range while a firing range officer for the police department did not entitle him to a service-connected accident disability retirement, and he was entitled to be retired for ordinary disability only.-Matter of Cardone v. Codd, 59 N.Y. 2d 700 [1983].

¶ 17. Where petitioner, an employee of the sanitation department, injured his back while lifting a heavy can of garbage he was not entitled to accident disability retirement since an injury which occurs without an unexpected event as the result of activity undertaken in the performance of ordinary employment duties is not an accidental injury within the meaning of this section.-Shannon v. Bd. of Trustees of N.Y.C. Employees' Retirement System, 92 App. Div. 2d 528 [1983].

¶ 18. Petitioner, a Housing Authority Patrolman, was not entitled to accident disability benefits when while on duty he sustained a disabling back condition when he placed a spare tire in the trunk of his patrol car, such injury not being within the scope of "accidental injury" for purposes of this statute.-Menno v. N.Y.C. Employees' Retirement System, 91 App. Div. 2d 537 [1982].

¶ 19. To obtain accidental disability retirement, petitioner must prove that he was physically or mentally incapacitated because of an accidental injury received in city service, and it is not sufficient to establish that the disability is employment related.-Lichtenstein v. Bd. of Trustees of Police Pension Fund, 57 N.Y. 2d 1010 [1982].

¶ 20. Statutory presumption that a disabling heart condition sustained by a New York City police officer was accidentally sustained as a result of his employment was rebutted when petitioner's disabling heart condition, which was mitral valve disease, was caused by rheumatic heart disease, and that disease is always caused by rheumatic fever.-Matter of Vecchiarello v. Bd. of Trustees of Police Pension Fund, 115 Misc. 2d 241 [1982].

¶ 21. Injury to police officer's knee resulting from fall in abandoned building while in line of duty was result of performance of ordinary duty and not the result of an accidental injury. Determination of board reinstated granting ordinary disability retiremant and denying accidental disability retirement.-Michael Tarr v. Board of Trustees of Police Pension Fund of NYC Police Dept., 98 A.D. 2d 687 [1983].

¶ 22. Petitioner hurt his back doing a task not ordinarily his duty and was retired for ordinary disability. He seeks accidental disability. Denied. For there to be a determination of accidental disability "there must be an intervening, external and unusual event which causes the injury, and not a routine movement causing a preexisting condition to flare up."-In Re Aiello v. McGuire, 124 Misc. 2d 415 [1984].

¶ 23. In order to obtain accident disability retirement, a petitioner must establish that he suffered physical or mental incapacitation "as a natural and proximate result of an accidental injury received in . . . city-service" as outlined in this section and must be sudden, unexpected, out of the ordinary and injurious in impact. A loss of balance and fall to the floor or a slip on wet pavement and fall are both within the scope of this section.-Matter of McCambridge v. McGuire, 62 N.Y. 2d 563 [1984].

**CASE NOTES**

¶ 1. The determination by the Police Pension Fund trustees that petitioner's psychological disability, resulting in part from stress and other traumatic events related to his police work was not an "accidental injury" within the meaning of Ad Cd §13-252, was not arbitrary, capricious or an abuse of discretion. Trustees were entitled to rely on the opinion of the Medical Board regarding medical testimony. Matter of Casiano v. Brown, 209 AD2d 182, 617 N.Y.S.2d 477, leave to appeal denied, 85 N.Y.2d 804, 626 N.Y.S.2d 755 [1994].

¶ 2. Disability retirement under Ad Cd §13-252 was properly disallowed when the Medical Board repeatedly addressed the issue whether smoke inhalation by running up and down stairs while evacuating a building could have caused the chronic condition of premature ventricular contractions sometime later. Matter of Stegmuller v. Brown, 216 AD2d 23, 627 N.Y.S.2d 638, leave to appeal denied 87 N.Y.2d 807, 641 N.Y.S.2d 598 [1995].

¶ 3. Accidential disability, for purposes of pension and retirement, must meet the common sense definition of a sudden and unexpected event, as opposed to an injury resulting from routine performance of duty. It is the precipitating cause of the injury, rather than the job assignment at the time, that determines entitled to accidental disability benefits. Hallihan v. Ward, 169 A.D.2d 542, 564 N.Y.S.2d 395 (1st Dept. 1991).

¶ 4. In an accidental disability case, where the Board of Trustees has a determination by a tie vote, this will result in ordinary disability retirement. That finding will be disturbed only if entitlement to greater benefits can be show as a matter of law. Hallihan v. Ward, supra.

¶ 5. The Medical Board may properly consider the length of time which passes between a line of duty injury and the onset of back pain in making its recommendation that there is no causal connection between the line of duty injury and the current disability. Schmidt v. McGuire, 119 A.D.2d 532, 501 N.Y.S.2d 55 (1st Dept. 1986); Matter of Scotto v. Board of Trustees, 76 A.D.2d 774, 429 N.Y.S.2d 3 (1st Dept. 1980), aff'd 54 N.Y.2d 918, 445 N.Y.S.2d 134.

¶ 6. A fall down a flight of stairs as a result of one's own misstep is not an out-of-the ordinary or unexpected event as to constitute an accidental injury within the meaning of the statute. Starnella v. Bratton, 92 N.Y.2d 836, 677 N.Y.S.2d 62 (1998), reargument denied, 92 N.Y.2d 921, 680 N.Y.S.2d 461 (1998). Accord, Rosenthal v. Board of Trustees of Police Pension Fund, Article II, 252 A.D.2d 388, 675 N.Y.S.2d 350 (App.Div. 1st Dept. 1998), leave to appeal denied, 93 N.Y.2d 801, 687 N.Y.S.2d 625 (1999) (police officer fell on stairs, allegedly because lights over a revolving door were not working).

¶ 7. A police officer fell in a precinct parking lot after he stepped out of a patrol car and was walking towards the station house. The fall was allegedly due to a construction hole. The court held that the occurrence was an "accident" within the meaning of the statute. Finazzo v. Safir, 273 A.D.2d 75; 708 N.Y.S.2d 410 (App.Div. 1st Dept. 2000).

¶ 8. Petitioner, who was employed at the time as a New York City police officer, was injured when she fell from a second-story window ledge to which she had climbed to gain access, via a window, to an adjoining office at the Queens Narcotic District Office. The court held that petitioner's injury was not the result of an "accident" within the meaning of the statute, but was the result of her conscious and highly imprudent decision to attempt to gain entry by means of a window ledge. Thus, petitioner was retired on ordinary disability rather than on accidental disability. Sullivan-Dorsey v. Board of Trustees of the New York City Police Pension Fund, 288 A.D.2d 131, 733 N.Y.S.2d 399 (1st Dept. 2001).

¶ 9. In Baird v. Kelly, 25 A.D.3d 311, 806 N.Y.S.2d 578 (1st Dept. 2006), a police officer contended that he developed post-traumatic stress disorder after being harassed by reason of his anti-corruption activities. He had been an investigator for the Commission to Investigate Allegations of Police Corruption (Mollen Commission). The court held that the campaign of harassment was not an "accident" for purposes of accidental disability retirement. The behavior arose out of purposeful conduct, not accidental happenstance. Petitioner's proper remedy for the campaign of harassment is a civil rights action, the court said.

¶ 10. A police officer developed cancer of the right tonsil and soft palate area. He claimed that the cancer had been environmentally induced as a result of his prolonged exposure to and inhalation of toxic debris without protective respiratory apparatus, during the collapse of the World Trade Center, and thereafter, when he was involved in the rescue and recovery operation. He brought an Article 78 proceeding after the Board of Trustees denied his application for accidental disability retirement. The court held that where the officer presented medical documentation that petitioner's cancer was aggravated by the service related injury, and the Board of Trustees had no credible evidence of lack of causation, the officer was entitled to accidental disability retirement. Thus, where a line of duty incident aggravates a pre-existing condition, accidental disability retirement must be awarded. Lahm v. Bloomberg, 2004 WL 1381060, N.Y.L.J., Apr. 27, 2004, at 18, col. 1 (Sup.Ct. New York Co.).

¶ 11. A court upheld a determination by respondent Board of Trustees that petitioner's knee injury was not caused by an "accident" within the meaning of the statute. The injury occurred when petitioner moved her chair away from her desk, and the chair slid backwards out from under her, causing her to fall. There were no visible hazards in the office. The court said that the fall was analogous to a fall down stairs as a result of one's own misstep, i.e., not so out-of-the-ordinary or unexpected as to constitute an accidental injury as a matter of law. Gamman v. Kelly, 11 A.D.3d 389, 784 N.Y.S.2d 44 (1st Dept. 2004).

¶ 12. The court upheld a determination by the Board of Trustees denying petitioner accidental disability retirement benefits. Petitioner had twisted and felt a snap in his knee as he exited his patrol car to direct traffic. The officer's stepping out of his car to direct traffic did not, without more, constitute the sort of sudden, fortuitous mischance that could be deemed accidental within the meaning of the statute. Gray v. Kelly, 15 A.D.3d 275, 791 N.Y.S.2d 9 (1st Dept.

2005).

¶ 13. In one case, a police officer claimed that she worked for a day at the 9/11 disaster site, and that when she refused to do another tour of duty at the site, a superior officer handcuffed and humiliated her, after whch she was psychologically unable to function as a police officer. She therefore sought accidental disability retirement. The court, however, found that the incident was not qualified by the statute, and upheld the Trustee's denial of accidental disability retirement. In re Stephanie Picciurro v. Bd. of Trustees of the NYC Police Pension Fund 2007 NY Slip Op. 9914, 46 AD3d 346, 847 NYS2d 553, 2007 NY App. Div. Lexis 12744 (App. Div. 1st Dept).

Administrative Code of the City of New York

***** Current through December 2009 ****

*NYC Administrative Code 13-252.1*

Administrative Code of the City of New York

Title 13 Retirement and Pensions

CHAPTER 2 POLICE PENSION FUNDS

SUBCHAPTER 2 [POLICE DEPARTMENT, SUBCHAPTER TWO PENSION FUND]

§ 13-252.1 Accidental disability retirement; World Trade Center presumption.

1. (a) Notwithstanding any provisions of this code or of any general, special or local law, charter or rule or regulation to the contrary, if any condition or impairment of health is caused by a qualifying World Trade Center condition as defined in section two of the retirement and social security law, it shall be presumptive evidence that it was incurred in the performance and discharge of duty and the natural and proximate result of an accident not caused by such member's own willful negligence, unless the contrary be proved by competent evidence.

(b) The New York City Police Pension Fund (NYCPPF) board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.

2. (a) Notwithstanding the provisions of this chapter or of any general, special or local law, charter, administrative code or rule or regulation to the contrary, if a member who participated in World Trade Center rescue, recovery or cleanup operations as defined in section two of the retirement and social security law, and subsequently retired on a service retirement, an ordinary disability retirement, an accidental disability retirement, or a performance of duty disability retirement and subsequent to such retirement is determined by the NYCFDPF board of trustees to have a qualifying World Trade Center condition, as defined in section two of the retirement and social security law, upon such determination by the NYCFDPF board of trustees, it shall be presumed that such disability was incurred in the performance and discharge of duty as the natural and proximate result of an accident not caused by such member's own willful negligence, and that the member would have been physically or mentally incapacitated for the performance and

discharge of duty of the position from which he or she retired had the condition been known and fully developed at the time of the member's retirement, unless the contrary is proven by competent evidence.

(b) The NYCPPF board of trustees shall consider a reclassification of the member's retirement as an accidental disability retirement effective as of the date of such reclassification.

(c) Such member's retirement option shall not be changed as a result of such reclassification.

(d) The member's former employer at the time of the member's retirement shall have an opportunity to be heard on the member's application for reclassification by the NYCPPF board of trustees according to procedures developed by the NYCPPF board of trustees.

(e) The NYCPPF board of trustees is hereby authorized to promulgate rules and regulations to implement the provisions of this paragraph.
