Public Service Commission
Hon. Jaclyn A. Brillling, Secretary
3 Empire State Plaza
Agency Building 3
Albany, New York 12223

Dear Ms. Brillling:

Enclosed please find a copy of correspondence I recently received from my constituent, Mr. William Miller, regarding the suspension of net metering by Central Hudson. I believe his letter is self-explanatory.

Would you kindly review this matter and advise as to why Central Hudson is permitted to limit their net metering so that I may review for potential legislation.

Thank you for your assistance.

Sincerely,

A handwritten signature in black ink that reads "John J. Bonacic". The signature is written in a cursive, flowing style.

JOHN J. BONACIC
State Senator

Message:

Hi,
Thanks for making this avenue available for contacting you.
I have gotten caught up in the effort to develop clean energy, reduce energy costs, and create good local jobs. Following the encouragement of NYSPSC and NYSERDA, I contacted local installers of photovoltaic systems for the home. Friday, while in the process of reviewing contracts for the installation of a system on my roof (that would tie in to Central Hudson and the grid) I learned that Central Hudson has just suspended entrance into their Net Metering Program (it allows for a fair exchange of electricity between

co-generating customers and Central Hudson).

What is the State doing about this? Can you do something? What can I plan on?

My project is on hold, but I hope you can help.

Thanks for your time,

Bill
