Re: Case 12-E-0577 – Proceeding on Motion of the Commission to Examine Repowering Alternatives to Utility Transmission Reinforcements – First Set of Information Requests to NRG Energy, Inc. and Dunkirk Power LLC

Dear Ms. Quirk-Hendry:

Enclosed, please find information requests NMPC-1 through NMPC-14 from Niagara Mohawk Power Corporation d/b/a National Grid (“National Grid” or “Company”) in connection with the “Dunkirk Repowering Options” proposal dated March 26, 2013 provided by NRG Energy, Inc. (“NRG”) to National Grid in this proceeding (“Repowering Proposal”). These information requests are made pursuant to Part 5 of the Rules of the New York Public Service Commission (16 NYCRR pt. 5). The Commission’s rules provide that answers shall be served within ten days following service (16 NYCRR 5.4(b)); however, we request that answers be provided sooner if practicable. Responses should be sent via email to me (carlos.gavilondo@nationalgrid.com), Sarah Steitz (sarah.steitz@nationalgrid.com) and Bill Malee (bill.malee@nationalgrid.com). For each response, please provide the response immediately following the request using the supplied form and identify the name and title of the preparer. If you cannot prepare a response by the requested reply date, please inform me as to when the response will be forthcoming.

Because the entire Repowering Proposal is labeled as a confidential communication and because NRG has not provided a public—or redacted—version, National Grid is treating the attached information requests as confidential.

Please contact me if you have any questions regarding this request.

Sincerely,

/s/ Carlos A. Gavilondo
Carlos A. Gavilondo
