Note: 1. HD programming for MLS Direct Kick is available on Channels 495-499. CableCARD customers will continue to view Travel Channel HD on Ch. 763, Optimum Sports HD on Ch. 773 and Optimum Sports2 HD on Ch. 774. Programming subject to change or discontinuance. A digital cable box, HD digital cable box, CableCARD or a QAM tuner is needed to receive all channels. Customers with QAM tuners will receive some channels on non-standard channel positions. All HD channels require an HDTV. Channel availability depends on level of service and equipment. Channel locations subject to change. Visit optimum.com for the most current channel listings. All services & channels may not be available in all areas. An HD digital cable box with an HDMI connection to a 3D TV and manufacturer-approved 3D glasses are required to view 3D programming. Subscription to channels and valid Optimum ID and password required for TV to GO programming, available only in the U.S. All channels not available on all devices. Emmy Award winning Optimum TV® delivers great entertainment. But we're not here to win awards, we just want you to like Optimum, to really like Optimum. That's why we offer over 450 channels, including exclusive local channels like News12, MSG Varsity and more. Optimum TV also offers over 165 free HD channels at no extra charge with no expensive equipment to buy. Plus you'll enjoy On Demand programming you just can't get on satellite. Hey, did we mention Optimum TV won an Emmy?

Cablevision has taken several steps to improve system operation and has achieved several goals, outlined below:

1. Cablevision founded in 1973 began offering cable TV service to 1,500 homes in Hicksville. Today Cablevision serves more than 750,000 homes across Long Island employs more than 5,000 Islanders. OptimumTV – Cablevision’s fiber backbone supported system, is the leading technology in providing superior picture quality, increased channel capacity and expanded programming services. Programming on Optimum includes local proprietary programming like News 12 and News12 Traffic & Weather, MSG Varsity High School programming.
2. Cablevision continues to upgrade and enhance its state-of-the-art fiber optic cable system and head-end. The system servicing the residents in the Village was completed in 1999 and continues to be upgraded. With the use of fiber technology, subscribers receive improved picture quality, virtually uninterrupted by weather-related problems and Cablevision’s “iO” – interactive Optimum television. iO provides the opportunity for additional channels including video on demand and HD programming. Cablevision has raised the standard of excellence in virtually every area of service, from signal delivery to customer service. To provide a more reliable system, Cablevision’s Stand by Power/Status Monitoring capabilities keep the service in operation in the event of a power failure. 24-hour status monitoring provides the technicians with up-to-the-minute information on any power-related problem.
3. Cablevision has implemented an extensive preventative maintenance program. This program, in conjunction with a head-end upgrade effort, has allowed us to reduce our service call ratio dramatically to .37 per subscriber per year.
4. The battery operated stand-by power for the Long Island System keeps the cable system operating for approximately 4 hours in the event of a power failure. As a result, Cablevision has experienced a significant reduction in power related outages, resulting in a reduction in subscriber cable outage time.
5. Cablevision’s 750 MHz fiber optic network telecommunications system stretches across Long Island improving audio visual quality and reducing outages. The fiber optic head-end located at the Hicksville Technical Center is a state-of-the art operation and serves as a model for the cable industry.
6. Cablevision implemented an Installation Repair Program within the system. This program has decreased the number of multiple trips to customers and has increased time appointments to allow for four-hour windows.
7. Cablevision is committed to promoting a partnership between cable and the schools in its community. To reinforce that commitment, Cablevision provides up to five free cable television outlets and one free Internet outlet to every Long Island school.
8. Cablevision supports hundreds of Long Island community based organizations through cash contributions and/or the production and airing of public service announcements and community service programming on its cable system.

FCC Rules & Regulations, Part 76, Multichannel Video & Cable Television Services, Subpart K - Technical Standards, 76.601 (c) (2), Number of Channels to be tested, Measurements should be taken on a minimum of four (4) channels, Plus one for every 100 MHz of distribution. E.g. A 750MHz System would require testing of 11 Channels.

Channel	Frequency	Call Signs	Signal level	C/N	HUM	INCHNL	CTB	CSO
3	61.2500	WPXN	12.4	46.20	0.4	1.10	68.50	63.50
11	199.25	WPIX	13.3	49.00		0.65	64.50	62.90
21	163.25	WLIW	12.5	49.20		1.05	65.90	63.20
30	259.25	HGTV	09.5	47.30		1.12	61.30	60.00
36	295.25	ESPN	09.4	47.70		1.12	61.50	62.40
46	355.25	A+E	11.6	48.20		1.16	60.80	61.90
57	421.25	ANPT	10.5	48.30		0.96	59.20	61.80
63	457.25	TRVL	10.6	47.60		1.20	59.30	60.10
66	475.25	FOOD	11.7	49.50		1.36	60.50	59.80

24 Hour Testing

Visual signal level Variance (24 Hour Testing), has been performed and has passed the requirements of Part 76, Subpart K 76.605 (c), (3) of the FCC Rules & Regulations. yes No

COMMENTS: _____

The above data represents compliance to the Rule & Regulations of the FCC, Part 76, Subpart K, 76.605 - Technical Standards. I have reviewed the actual proof documents and verify the above is a true summary. The Systems Technical Inspection file is the back up to this document and is located at (Add the address where the technical file is maintained)
