

Central New York Joint Apprenticeship and Training Committee

for the Electrical Industry

July 10, 2012

The Central New York Joint Apprenticeship and Training Committee would like to express its appreciation towards NYSERDA for the opportunities they have granted us with educating the electrical industry. With the financial support granted to the CNYJATC from NYSERDA, we have been able to successfully educate and train a strong workforce of electricians with current and green technologies to better serve our customer's needs. As the Assistant Training Director of the CNYJATC, I am requesting that you continue the funding for NYSERDA's Workforce Development Training Programs. They have been a great help in assisting our educational needs, and we look forward to future endeavors with them. Thank you for your attention in this matter

Sincerely,

A handwritten signature in black ink that reads "Jeff DeSocio". The signature is fluid and cursive, written in a professional style.

Jeff DeSocio

Assistant Training Director
