

Dear Judge Costello,

Your Honor, as President of Bristol Harbour Village Association, I represent 347 homes within the Village. The BHVA Board feels the Community was treated unfairly by the Public Service Commission when the Commission visited Bristol Harbour without speaking to the complainants. Again, the Village is asking for all meter usage to be revised and to have fair and equitable rates for all users.

The Village is requesting the Public Service Commission revisit the Village to speak to the complainants about the issues.

I am hoping your Honor will redirect the Commission to revisit this complaint.

Respectfully Submitted,

Steve Janto,

BHVA President
