Re: Application of Champlain Hudson Power Express, Inc. for a Certificate of Environmental Compatibility and Public Need Pursuant to Article VII of the PSL for the Construction, Operation and Maintenance of a High Voltage Direct Current Circuit from the Canadian Border to New York City
Case 10-T-0139

Dear Secretary Cohen:

As you may be aware, an issue has arisen as to when Entergy Nuclear Power Marketing, LLC and Entergy Nuclear FitzPatrick, LLC (“Entergy”) filed their Petition for Rehearing of the Commission’s April 18, 2013 Order in the above-referenced proceeding.

To avoid any possible confusion with respect to the time and manner in which Entergy’s Petition for Rehearing was submitted to the Commission, Certificate Holders Champlain Hudson Power Express, Inc. and CHPE Properties, Inc. respectfully request that the Secretary’s Office state for the record the date and time when Entergy’s Rehearing Petition was received for filing and the manner in which such service was made (i.e., by hand, by e-mail, by electronic upload to the Commission’s Document and Matter Management System, etc.).

Respectfully submitted,

George M. Pond, Esq.
Attorney for Champlain Hudson Power
Express, Inc. and CHPE Properties, Inc.

cc: All parties in Case 10-T-0139
