Re: Case 18-E-0067 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Orange and Rockland Utilities, Inc. for Electric Service

Dear Secretary Burgess,

The Town of Ramapo hereby supports the testimony submitted on May 25, 2018 by the New York Power Authority as it pertains to Case 18-E-0067-Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Orange and Rockland Utilities, Inc. for Electric Service.

The Town is beginning the process of converting many of its street lights to LED technology and plans on installing connecting nodes as a part of the project. The smart connecting nodes will allow the Town of Ramapo to control its lights by dimming lights, metering usage, and have a quicker response time to outages, all for the benefit of our residents, and particularly pedestrians.

We urge the Public Service Commission to strongly consider and adopt the testimony submitted by the New York Power Authority regarding the Orange and Rockland Utilities, Inc. rate case.

Thank you in advance for your consideration in this matter.

Respectfully,

Michael B. Specht  
Supervisor
