Hon. Kathleen H. Burgess  
Secretary to the Commission  
New York State Public Service Commission  
Agency Building 3, 19<sup>th</sup> Floor  
Albany, NY 12223-1350

**Subject: Case No. 16-E-0558** – In the Matter of New York Independent System Operator, Inc.'s Proposed Public Policy Transmission Needs for Consideration for 2016.

Dear Secretary Burgess:

The New York Independent System Operator, Inc. (“NYISO”) hereby submits proposed transmission needs driven by Public Policy Requirements for consideration by the New York State Public Service Commission (“Commission” or “NYPSC”) as a part of the NYISO’s 2016–2017 transmission planning cycle.

The NYISO Open Access Transmission Tariff (“OATT”) provides that at the start of each cycle of its Public Policy Transmission Planning Process, the NYISO “will provide a 60-day period, . . . to allow any stakeholders or interested parties to submit to the [NYISO], or for the [NYISO] on its own initiative to identify, a proposed transmission need(s) that it believes is being driven by Public Policy Requirement(s) and for which transmission solutions should be requested and evaluated.”<sup>1</sup> The NYISO “will post all submittals on its website after the end of the needs solicitation period, and will submit to the NYPSC all submittals proposed by stakeholders, other interested parties, and any additional transmission needs and criteria identified by the [NYISO].”<sup>2</sup> For any submittal proposing transmission needs that require a physical modification to transmission facilities in the Long Island Transmission District, the NYISO will post those submittals on its website and submit them to the Commission and the Long Island Power Authority (“LIPA”), together with any transmission needs and criteria proposed by the NYISO.<sup>3</sup>

The OATT further provides that the Commission “will review all proposed transmission need(s) and, with input from the [NYISO] and interested parties, identify the transmission needs, if any, for which specific transmission solutions should be requested and evaluated.”<sup>4</sup> In

<sup>4</sup> OATT Section 31.4.2.1.

connection with the Commission's role in the NYISO's Public Policy Transmission Planning Process, the Commission issued, on August 15, 2014, a "Policy Statement on Transmission Planning for Public Policy Purposes" in the above-entitled proceeding to establish procedures "to guide the transmission planning process for public policy purposes."<sup>5</sup>

In the case of submittals proposing transmission needs that require a physical modification to transmission facilities in the Long Island Transmission District, the tariff requires LIPA to review those submittals and identify the transmission needs within the Long Island Transmission District driven by a Public Policy Requirement, in consultation with the New York State Department of Public Service.<sup>6</sup> The OATT also requires LIPA to issue a written statement as to whether a Public Policy Requirement does or does not drive a need to physically modify transmission facilities solely within the Long Island Transmission District and then transmit to the Commission for review and a determination whether the transmission need identified by LIPA should be considered a Public Policy Transmission Need for purposes of the NYISO evaluating transmission solutions for selection and regional cost allocation under the Public Policy Transmission Process.<sup>7</sup>

On August 1, 2016, the NYISO issued a letter inviting stakeholders and interested parties to submit proposed transmission needs driven by Public Policy Requirements to the NYISO on or before September 30, 2016. Submitted for filing herewith in the above-entitled proceeding are twelve (12) proposals for transmission needs driven by Public Policy Requirements provided to the NYISO by: (i) AVANGRID Networks, Inc., (ii) City of New York, (iii) H.Q. Energy Services (U.S.) Inc., (iv) Invenergy LLC, (v) New York Power Authority ("NYPA"), Niagara Mohawk Power Corporation d/b/a National Grid, and Central Hudson Gas & Electric Corporation, (vi) New York Transco LLC, (vii) "New York Transmission Owners"<sup>8</sup> and NYPA, (viii) NextEra Energy Transmission New York, Inc., (ix) North America Transmission, (x) Poseidon Transmission 1, LLC, (xi) PPL Translink, Inc., and (xii) PSEG Long Island. The NYISO has posted these submittals on its Planning Studies website.<sup>9</sup>

<sup>8</sup> As stated in their submission, the "New York Transmission Owners" include Central Hudson Gas & Electric Corporation, Consolidated Edison Company of New York, Inc., New York State Gas & Electric Corporation, Orange and Rockland Utilities, Inc., and Rochester Gas and Electric Corporation.

<sup>9</sup> The submittals are posted under "Proposed Needs" contained within the "Public Policy Documents" folder on the NYISO's Planning Studies website, which can be accessed at [http://www.nyiso.com/public/markets\\_operations/services/planning/planning\\_studies/index.jsp](http://www.nyiso.com/public/markets_operations/services/planning/planning_studies/index.jsp).
