Postponement of a tariff filing by Consolidated Edison Company of New York, Inc. to modify its Demand Response Programs.

SUMMARY OF RECOMMENDATION: Staff recommends approval of the postponement.

Discussion

Consolidated Edison Company of New York, Inc. (Con Edison or the Company) made a tariff filing proposing to modify its Demand Response Programs: Rider L – Direct Load Control Program, Rider S – Commercial System Relief Program, Rider T – Critical Peak Rebate Program, and Rider U – Distribution Load Relief Program. The proposed filing has an effective date of February 23, 2012.

The Company has agreed to a postponement of the effective date of the amendments to March 19, 2012 to allow adequate time for the public comment period to end in accordance with the State Administrative Procedure Act. Con Edison has filed a
supplement to implement the postponement and requests a waiver of the requirement of newspaper publication of the change proposed by the supplement

It is recommended that:

1. Supplement No. 90 to Schedule P.S.C. No. 9 – Electricity be allowed to go into effect on February 5, 2012; and

2. special permission be granted waiving the requirement of Section 66(12)(b) of the Public Service Law as to newspaper publication of the change proposed by the supplement.

Respectfully submitted,
