**Proceeding to Investigate Whether Charter Communications, Inc. and its Subsidiaries
Providing Service Under the Trade Name “Spectrum” Have Materially Breached
Their New York City Franchises**

Case 18-M-0178

Re: Charter Communication Inc. Confidential Review of Digital Maps

Dear Ms. Labelle and Mr. Agresta :

In Charter Communication Inc.’s (“Charter”) May 9, 2018 Response to the Commission’s March 16, 2018 Order to Show Cause in the above referenced-docket, Charter offered to make “available for confidential review by the Commission and the Department digital maps that show the locations of Charter’s New York City cable plant.” *See* Charter’s Response to Order to Show Cause at 30-31; *see also* Declaration of John Quigley at 3 n.1. We have not yet heard from the Department with respect to this proposal, but Charter’s offer remains open to make these materials available for inspection by Department Staff at a mutually convenient time.

Please let me know if you would like to further discuss or to schedule a time for Charter personnel to make these maps available and walk through them with Department Staff.

Respectfully submitted,

/s/ Maureen O. Helmer
