Re: Case No. 00-F-0566: Brookhaven Energy Limited Partnership  
Petition to Amend Article X Certificate  
Proof of Publication of Amendment Notice

Dear Secretary Deixler:

Pursuant to 16 NYCRR 1000.6, enclosed for filing please find the affidavits of publication of Brookhaven Energy Limited Partnership's notice of petition to amend the above-referenced Certificate of Environmental Compatibility and Public Need.

If you have any questions, please do not hesitate to contact me at this office.

Respectfully submitted,

Stephen L. Gordon

### NOTICE OF PETITION

CASE NO. 00-F-0566

IN THE MATTER OF THE PETITION OF BROOKHAVEN ENERGY LIMITED PARTNERSHIP TO AMEND ITS CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY AND PUBLIC NEED TO ALLOW ALTERNATIVE EQUIPMENT FOR A NATURAL GAS-FIRED ELECTRIC GENERATING FACILITY TO BE CONSTRUCTED AND OPERATED IN THE TOWN OF BROOKHAVEN, SUFFOLK COUNTY, NEW YORK

Brookhaven Energy Limited Partnership (Brookhaven Energy) is petitioning the New York State Board on Electric Generating Siting and the Environment (Siting Board) for an amendment to its Certificate of Environmental Compatibility and Public Need (Article X Certificate), issued August 14, 2002. As approved, the Article X Certificate authorized Brookhaven Energy to construct and operate a nominally-rated 580-megawatt (MW) natural gas-fired combined cycle electric generating facility (the Project) in the Town of Brookhaven, Suffolk County, New York near Exit 66 (Sills Road) on the Long Island Expressway. The amendment is required to accommodate a proposed change from a design based on Alstom GT-24 combustion turbine and associated equipment to one based on Siemens V-84.3A combustion turbine technology. The proposed modification will slightly reduce the Project's winter output rating from 560 MW to approximately 540 MW.

The proposed equipment change will include the following modifications to the Project:

- Both combustion turbines and associated heat recovery steam generators (HRSGs) will feed a single steam turbine with a new generator ("2-on-1" design) rather than each combustion turbine having its own steam turbine on a common generator shaft (originally approved "2-on-2" design).

- The two generation buildings will be reconfigured into a single, lower-profile generation building. This building will be approximately 12 feet lower than the originally approved 72-foot buildings.

- The height of the HRSGs will increase by approximately 8 feet from 72 feet to approximately 80 feet above grade.

- The two 90-foot tall air-cooled condensers (15 cells each) will be combined into one 90-foot tall air-cooled condenser (24 cells).

- Instead of two emergency diesel generators, one emergency generator with double the originally approved capacity will be used. Thus, the overall capacity will remain the same.

- Emergency diesel generator and fire pump stacks have been repositioned to be attached to the western HRSG stack, and thus will be extended to the HRSG stack height of 160 feet, whereas the stacks were originally approved at locations more distant from the stack, standing 100 feet and 80 feet above grade, respectively.

- Generator leads and poles will be installed between the new steam turbine-generator's transformer and the switchyard, along the western side of the plant but within the previously approved tree clearing area.

- To accommodate the third generator connection, a circuit breaker will be added to the switchyard's ring bus arrangement.

- Steam injection for power augmentation of the combustion turbines has been eliminated.

- Inlet air cooling may be used during the warm seasons.

- An electric auxiliary boiler has been added.

- Minor changes have been made in the location of sources, buildings, roadways, etc. within the previously approved footprint of disturbance.

All of the foregoing changes will be accommodated within the previously approved disturbance area.

Brookhaven Energy has studied the impacts of the proposed equipment change. As with the originally approved design, the proposed modification will have no significant adverse impacts,

and the proposed equipment change will not result in a material increase in any environmental impact. All environmental impacts will remain either virtually the same or, in some cases, be reduced, as a result of the proposed equipment change. Similarly, electrical impacts will remain virtually unchanged, confirming the Project's ability to safely and reliably interconnect with the bulk electric transmission system. As a result, only very limited modifications to the previously approved Article X Certificate Conditions are required to accommodate the equipment change.

In order to ensure that the Project construction schedule can proceed as anticipated to meet a commercial operations commencement date of Summer 2005, Brookhaven Energy must obtain the Siting Board's approval of the Certificate Amendment request as soon as possible. Accordingly, Brookhaven Energy is requesting that its petition to amend be treated as a modification subject to a public comment period of not greater than 15 days. For further information or a copy of the Petition, and supporting materials, please contact:

## LEGAL NOTICES

## Legal Notice 115971

Public Hearing  
NOTICE is hereby given pursuant to Article 18-A of the General Municipal Law of the State of New York (the "Act") will hold a public hearing on the proposed granting of financial assistance to Inter County Bakers, Inc. (the "Company"), a corporation organized and existing under the laws of the State of New York and Inter County Realty LLC, a limited liability company organized and existing under the laws of the State of New York (the "Owner") regarding the acquisition, renovation and equipping of an approximately 67,000 square foot building and real property related thereto located at 1110A Route 109 in Lindenhurst, New York to be owned by the Agency, leased to the Owner and subleased to the Company for use by the Company as a warehouse and distribution facility in its business of specialty food manufacture and bakery supply distribution (said facility is hereinafter referred to as the "Facility").

Pursuant to applicable State Law, the Agency proposes to grant certain financial assistance with respect to the Facility including certain exemptions from New York State sales and use taxation, local real property taxation and mortgage recording tax as shall be determined by the Agency. Pursuant to the Act, the Facility which is owned by the Owner shall be transferred to the Agency and leased by the Agency to the Owner and subleased by the Owner to the Company.

Owner, Inter County Realty, LLC. The Owner's address is: 1110 Route 109, Lindenhurst, New York.

Company: Inter County Bakers, Inc. The Company's address is: 1110 Route 109 in Lindenhurst, New York.

Facility Proposed Location is: 1110A Route 109 in Lindenhurst, New York.

Public Hearing: All persons, organizations, corporations or governmental agencies are invited to submit comments concerning the granting of financial assistance. The hearing will be held on March 4, 2003 at 7:15 P.M. in the Offices of the Agency located at 57 Sunrise Highway, in Lindenhurst, New York.

Project Application: The Project Application together with a costs benefit analysis with respect to the Facility shall be available for public inspection by the public at the office of the Agency at the above specified address during the regular business hours of the Agency.

Participation at the Hearing: Persons desiring to submit comments concerning the Facility and the financial assistance to be granted thereto should contact the Town of Babylon Industrial Development Agency, 57 Sunrise Highway, Lindenhurst, New York 11757, Attn: Jeffrey A. Casale, Executive Director, at (631) 226-3669 on or before March 3, 2003 at the office of the Agency. Written comments can be submitted prior to the hearing at that address. The Agency reserves the right to limit the time available to any person presenting comments.

## Legal Notice 11595161

**NOTICE OF PETITION CASE NO. 00-P-0566**  
**IN THE MATTER OF THE PETITION OF BROOKHAVEN ENERGY LIMITED PARTNERSHIP TO AMEND ITS CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY AND PUBLIC NEED FOR A NATURAL GAS-FIRED ELECTRIC GENERATING FACILITY TO BE CONSTRUCTED AND OPERATED IN THE TOWN OF BROOKHAVEN, SUFFOLK COUNTY, NEW YORK**

Brookhaven Energy Limited Partnership (Brookhaven Energy) is petitioning the New York State Board on Electric Generating Siting and the Environmental Conservation (Siting Board) for an amendment to its Certificate of Environmental Compatibility and Public Need (Article X Certificate), issued August 14, 2002. As approved, the Article X Certificate authorized Brookhaven Energy to construct and operate a nominally-rated 580-megawatt (MW) natural gas-fired combined cycle electric generating facility (the Project) in the Town of Brookhaven, Suffolk County, New York, near Exit 66 (Sills Road) on the Long Island Expressway. The amendment is required to accommodate a proposed change from a design based on Alston GT-24 combustion turbine and associated equipment to one based on Siemens V-84.3A combustion turbine technology. The proposed modification will slightly reduce the Project's winter output rating from 560 MW to approximately 540 MW. The proposed equipment change will include the following modifications to the Project:

o Both combustion turbines and associated heat recovery steam generators (HRSGs) will feed a single steam turbine with a new generator ("2-on-1" design) rather than each combustion turbine having its own steam turbine on a common generator shaft (originally approved "2-on-2" design).

o The two generation buildings will be reconfigured into a single, lower-profile, generation building. This building will be held on March 4, 2003 at 7:15 P.M. in the Offices of the Agency located at 57 Sunrise Highway, in Lindenhurst, New York.

Project Application: The Project Application together with a costs benefit analysis with respect to the Facility shall be available for public inspection by the public at the office of the Agency at the above specified address during the regular business hours of the Agency.

Participation at the Hearing: Persons desiring to submit comments concerning the Facility and the financial assistance to be granted thereto should contact the Town of Babylon Industrial Development Agency, 57 Sunrise Highway, Lindenhurst, New York 11757, Attn: Jeffrey A. Casale, Executive Director, at (631) 226-3669 on or before March 3, 2003 at the office of the Agency. Written comments can be submitted prior to the hearing at that address. The Agency reserves the right to limit the time available to any person presenting comments.

**Legal Notice 11597829**  
**NOTICE OF APPLICATION**  
**IN THE MATTER OF THE PETITION OF NISSEQUOGUE COGEN PARTNERSHIP TO AMEND ITS AS-YET UNIFORM AFFILIATED ENTITY, FOR A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY PURSUANT TO PUBLIC SERVICE LAW SECTION 68**

Nissequogue Cogen Partners, on behalf of an as-yet-unaffiliated entity (the "Applicant") has filed a petition with the New York Public Service Commission seeking a Certificate of Public Convenience and Necessity pursuant to Section 68 of the Public Service Law to construct a 79.9 megawatt electric generating facility in Stony Brook, Town of Brookhaven, New York.

The Applicant has requested that the hearing required by the Public Service Law be held before the Public Service Commission on the basis of the Applicant's petition and accompanying material and such exhibits and other information as may be filed by any party or Public Service Commission staff counsel, and that oral testimony not be taken.

Any person opposed to the granting of the Certificate of Public Convenience and Necessity should, within 10 days of publication of this notice, notify in writing the Secretary of the Public Service Commission at Agency Building 3, Empire State Plaza, Albany, NY 12223, of the reasons for the opposition.

## Legal Notice 11597829

steam turbine-generator's transformer and the switchyard, along the western side of the plant but within the previously approved tree clearing area.

o To accommodate the third generator connection, a circuit breaker will be added to the switchyard's ring bus arrangement.

o Steam injection for power augmentation of the combustion turbines has been eliminated.

o Inlet air cooling may be used during the warm seasons.

o An electric auxiliary boiler has been added.

o Minor changes have been made in the location of sources, buildings, roads, etc. within the previously approved footprint of disturbance.

All of the foregoing changes will be accommodated within the previously approved disturbance area.

Brookhaven Energy has studied the impacts of the proposed equipment change. As with the originally-approved design, the proposed modification will have no significant adverse impacts, and the proposed equipment change will not result in a material increase in any environmental impact. All environmental impacts will remain either virtually the same or, in some cases, be reduced, as a result of the proposed equipment change. Similarly, electrical impacts will remain virtually unchanged, continuing the Project's ability to safely and reliably interconnect with the bulk electric transmission system. As a result, only very limited modifications to the previously approved Article X Certificate Conditions are required to accommodate the equipment change.

In order to ensure that the Project construction schedule can proceed as anticipated to meet a commercial operation commencement date of Summer 2005, Brookhaven Energy must obtain the Siting Board's approval of the Certificate Amendment request as soon as possible. Accordingly, Brookhaven Energy is requesting that its petition to amend be treated as a modification subject to a public comment period of not greater than 15 days. For further information or a copy of the Petition, and supporting materials, please contact:

Stephen L. Gordon, Esq.

## Legal Notice 11597829

Notice is hereby given that sealed bids will be received for Eastport/South Manor Central High School District, New Eastport/South Manor Secondary School, Standard and Athletic Locker Rebid. Bids may be mailed or delivered to the Administration Office of the Eastport/South Manor Central High School District, 390 B Montauk Highway, Eastport, New York 11941, until Monday, February 10, 2003 at 11:00 a.m. (local time), at which time bids will be opened and publicly read aloud. Bids received after 11:00 a.m. (local time) will be returned unopened.

Bids being taken at this time are for the following work packages:

(14) Standard and Athletic Lockers (SAL)

C. Bids must be separately submitted per the Form of Proposal.

D. The project shall proceed in accordance with the Master Milestone Schedule contained in the Bid Documents.

E. Prepare bids in accordance with Drawings, Specifications, and other Bidding and Contract Documents as prepared by Burton, Behrendt, Smith (BBS), Fanning/Hovey/SBLM Association, Sawick and Murray.

F. Bidding Documents may be examined starting Friday, January 24, 2003, at 9:00 a.m. at the following location: Please call prior to pick up.

Burton, Behrendt, and Smith, P.C.  
244 East Main Street  
Patchogue, NY 11772  
Phone: 631-475-0343  
Fax: 631-475-0361

G. Bidders may obtain one copy of the documents from Burton, Behrendt, Smith (BBS) for a refundable deposit of \$100.00 for the first complete set of documents. No partial set of documents. No deposit. Deposits are to be paid to Burton, Behrendt, Smith (BBS), and shall be sent or delivered to Burton, Behrendt, and Smith, P.C. 244 East Main Street, Patchogue, NY 11772. Deposits are fully refundable to each "Bidder" if documents are returned to Burton, Behrendt, and Smith (BBS) in good condition within 30 days after the bid closing date. Bidders may request additional, complete sets of documents beyond the initial set for the non-refundable cost of \$100.00 per set.

H. Any and all questions of a scope and/or technical nature should be directed by fax to Greyhawk North America, L.L.C. attention Brent Chow, fax number (631)874-7132, with a copy to the Architect Burton, Behrendt, and Smith (BBS), attention Larry Salvesen, fax number (631)475-0361. All responses requiring clarifications or additional information that affects the Bid or other Bidders shall be answered through an addendum and forwarded to all companies that have obtained a bid set.

I. A bid security in the form of AIA Document A310 or a certified check shall accompany each bid. The bid security shall be in the amount of 5 percent of the total bid. Bid security will be forfeited if bid is withdrawn after closing time on date for receiving bids.

J. Successful bidders are required to furnish a satisfactory Performance Bond and Labor and Material Payment Bond from an acceptable surety in an amount equal to 100 percent of the full contract sum.

K. All bids shall conform to all requirements of the bid specifications. Bid failing to do so may be declared informal and may be rejected. Owner reserves the right to waive informalities except as permitted by law.
