Time Warner Cable Information Services (New York), LLC (the "Company") herein provides data for New York State Customers pertaining to its compliance with the Public Service Commission's Service Standards (Title 16, NYCRR Part 603).

The attached reports and data summarized below provide information about the Company's performance for June 2014. Certain Service Standards described in that Part 603 indicate that measurements should be made at the central office. However, the network architecture used by the Company to provide its services does not include central office switches. Therefore, the data responding to these Service Standards has been measured at the network hub level. Those measurements appear in the Time Warner Cable NY Hub Level Report, attached.

## 2. Timeliness of Repair: Percent Out-of-Service Over 24 Hours

*Exhibit II* illustrates the percentage of out-of-service troubles that are not resolved within twenty-four hours for each TWC OR. For supporting data, please refer to the Time Warner Cable Hub Level Report for June 2014, attached. Note that these metrics include customer requests for repair appointments where a truck roll is a requirement, as is typically the case, and where the mutually agreed upon appointment time is more than 24 hours after the customer reported the trouble.
