

Dear Secretary Burgess:

On behalf of Eight Point Wind, LLC, and the proposed Eight Point Wind Energy Center, I am pleased to submit the attached Final Public Involvement Program (PIP) as required under Article 10 of the Public Service Law. We appreciate the constructive comments on our preliminary PIP provided by your staff in their letter of February 29, 2016. In addition to the Final PIP we have included a summary matrix which identifies each of the DPS staff comments and where in the PIP they each have been addressed.

The Eight Point Wind Energy Center Project (“Project”) is a proposed 103.4 MW wind energy project, located in the Towns of Canisteo, Greenwood, Hartsville, Hornellsville, Jasper, Troupsburg and West Union, Steuben County, New York. The interconnection request for the Project has been submitted to NYISO and has been given queue #422.

The attached PIP plan has been drafted to encourage public participation in the planning, pre-application, certification, compliance, and implementation process and to ensure that the Siting Board is made aware of stakeholder concerns about the Project throughout the Project application review process.

If you have any questions concerning this electronic submittal please do not hesitate to contact me at (561) 694-5036 or Ryan.Pumford@nee.com.

Sincerely,

Ryan Pumford

Project Developer
