Re: Case 14-M-0196 - Tariff filing by Central Hudson Gas & Electric Corporation to establish fees for residential customers who choose to opt out of using automated Meter Reading devices.

Dear Commissioners,

In the following paper with video links, we discuss the “antenna affect” caused by electronic utility meters.

DEBUNKING THE UTILITY INDUSTRY MYTH ABOUT SMART METER SAFETY: THE ANTENNA EFFECT

<http://stopsmartmetersny.org/images/UtilityDebunk.pdf>

There is no “antenna effect” caused by analog meters because analog meters are purely electromechanical and contain no electronic components.

Electronic utility meters are the first electronic device to be installed on the utility side of a consumers circuit panel.

Had electronic utility meters been properly tested, it would have been discovered that the design of electronic meters is dangerously flawed.

Thank you.
