Galloo Island Wind Project 15-f-0327

I hope that the following information will satisfy your request that we have and own a dwelling that is close enough to be considered for intervenor funding. We do not currently reside on Galloo Island.

Property code. Listed under 600 community services and Sub description Religion. According to the assessor it was changed from Marine when it was owned by the Coast Guard to the current property code listing some time after we purchased the property. There was no property code for a Waterfront Lighthouse property being refurbished into a Bed & Breakfast that contained a USCG aid to navigation. See Jefferson County Tax bill, 223889 95.00-1-1.1.

If noticed in the many documents available through the article 10 that “Keepers Quarters” is used along with lighthouse. Literally means the quarters that the keeper of the lighthouse resides or lives in.

The Keepers Quarters contains doors, windows, bathroom, kitchen, bedrooms, living area, well and septic system similar to what is found in most homes, dwellings or residences. And will be used as our residence and a B&B when it is restored to the condition it was in @ 1885.

Sincerely Anthony & Cara Dibnah
