Re: Multiple Intervenors Third Set of Information Requests

Question:

In response to Multiple Intervenors Information Request No. 2, Rochester Gas and Electric Corporation (“RG&E”) states, in pertinent part, that it was requested by Exelon Corporation (“Exelon”) to participate with the New York Independent System Operator, Inc. “in an analysis of the retirement of Ginna in January 2014.” Prior to RG&E’s participation in that analysis, had RG&E conducted any of its own analyses as to the potential retirement of the R.E. Ginna nuclear power plant (“Ginna”)? If so, identify such analyses. Has RG&E conducted any analyses as to the potential retirement of Ginna other than the one requested by Exelon? If so, identify such analyses.

Response:

RG&E objects to this interrogatory because it requests information that is irrelevant and outside the scope of the current phase of this proceeding (i.e., the interrogatory seeks information that does not “involv[e] the request of RG&E for Commission acceptance of a Reliability Support Services Agreement between RG&E and R.E. Ginna Nuclear Power Plant, LLC, and for approval of the allocation and recovery of the costs of that agreement.”)

Subject to and without waiving these objections, RG&E provides the following response.

Prior to RG&E’s participation in that analysis, had RG&E conducted any of its own analyses as to the potential retirement of the R.E. Ginna nuclear power plant (“Ginna”)?

No.
