**Request No.:** GNP-15-080

**Respondent:** Javier Bonilla

**Re:** Entergy Entities First Set of Information Requests

**Question:**

The December Letter states that RG&E anticipates filing petitions for the approvals required for the GRTA project “in the first quarter of 2015.” Please confirm that RG&E’s filing of these petitions on or after the end of Q1 2015 will not adversely affect the estimated December 1, 2016 to June 1, 2017 in service dates identified by RG&E.

**Response:**

RG&E objects to this interrogatory because it requests information that is irrelevant and outside the scope of the current phase of this proceeding (i.e., the interrogatory seeks information that does not “involv[e] the request of RG&E for Commission acceptance of a Reliability Support Services Agreement between RG&E and R.E. Ginna Nuclear Power Plant, LLC, and for approval of the allocation and recovery of the costs of that agreement.”)

Subject to and without waiving these objections, RG&E provides the following response:

RG&E has met with the appropriate regulatory agencies and has identified the permits that are required for the project. All permit applications are expected to be submitted by June 2015. See also the response to GNP-15-046 (UIU-8).
