STATE OF NEW YORK
Department of Transportation
Special Hauling Single Trip Permit (Except Manufactured Home)
www.nypermits.org
Permit Number: 3545859

Standard Permitted Vehicle and Load Requirements

This permit is only valid for highways under New York State Department of Transportation jurisdiction. Permission must be obtained from appropriate authority when traveling over NYS Thruway, NYS Bridge Authority bridges, Parkway, County Roads, Town Highways, and City (including New York City) or Village Roads.

All permitted moves must comply with Part 154-1 title 17 of the New York Compilation of Code, Rules and Regulations.

Maximum speed shall not exceed 55 MPH.

An amber revolving light shall be located on the top of the towing vehicle, visible in a 360 degree rotation and shall be operational at all times.

Overdimensional permitted vehicles/loads shall display **OVERSIZE LOAD** warning signs at least 7 feet long and 18 inches high with letters at least 10 inches high, located front and rear and shall display red or orange fluorescent flags at least 18 inches square, on staffs, located at the extremities of the vehicle/load.

A vehicle may carry more than one (1) item as part of the permitted load, provided that it matches the load description on the permit and items are not stacked to create a height exceeding thirteen feet six inches measured from bottom of tires to top of load, or loaded side-by-side to exceed width of eight feet six inches, or loaded end-to-end and vehicle, inclusive of load, exceeds length authorized under the NYS Vehicle & Traffic Law, Title 3, Article 10, Section 385.3 or combination of vehicles, inclusive of load, exceeds length authorized under the NYS Vehicle & Traffic Law, Title 3, Article 10, Section 385.4.

When permit allows axle weights, axle grouping weights, or gross weight to exceed those authorized under the NYS Vehicle & Traffic Law, Title 3, Article 10, Section 385.5 through Section 385.13, the load may not constitute more than one (1) item.

The New York State Department of Transportation (NYSDOT) does not warrant the accuracy of data provided as incorporated into permit routing. Permittees are responsible for adherence to posted warnings and other traffic control, especially as regards to available clearances. When vehicles/loads are expected to exceed 13'11" in maximum necessary clearance, a physical route survey (defined by 17 NYCRR Section 154-1.2 (u)) is required as a condition of permit issuance, to assure that bridges, other structures and utility lines will not prevent the movement of the vehicle/load.

Bridge Locations

Specific bridge locations can be found on the NYSDOT Posted Bridge Map located on the NYS Department of Transportation website on the following page: <https://gis.dot.ny.gov/html5viewer/?viewer=postedbridges>. Please click the "Find BIN" button at the top of the page, then type in the BIN number listed on the permit. This information can also be accessed by clicking the Bridge Finder link from the Company Dashboard in HOCS. If there are questions, please contact the NYSDOT Central Permit Office at 518-485-2999 ext 2.
