Re: Matter 24-00515 - In the Matter of Utility Thermal Energy Network Performance Metrics.

Dear Secretary Phillips:

A Utility Thermal Energy Network (UTEN) Performance Metrics Technical Conference was held in-person and via Webex and phone, on March 19, 2024. The technical conference provided an opportunity for discussion of potential UTEN performance metrics, using the performance metrics list compiled as Appendix B in the Order Providing Guidance on Development of Utility Thermal Energy Network Pilot Projects (Guidance Order) issued on September 14, 2023. The conference presentation was filed on March 21, 2024, to Case 22-M-0429 and the above referenced Matter. Accordingly, stakeholders should be advised that Matter 24-00515, In the Matter of Utility Thermal Energy Network Performance Metrics, has been established and will be used for all materials related to the technical conference.

A second technical conference is scheduled for April 25, 2024, to further discuss potential performance metrics, focusing on the categories of Financial, Societal, and Customer metrics.

The April 25, 2024, technical conference will be conducted in-person in the 3rd Floor Hearing Room in Agency Building 3, Empire State Plaza, Albany, NY and virtually, via WebEx and phone, beginning at 1:00 p.m. For security purposes, those planning to attend in person must provide their names to Jordan Lesser via email at jordan.lesser@dps.ny.gov by April 23, 2024.

Those choosing to participate virtually, via Webex or by phone, may do so using the following –
