

STATE OF NEW YORK
PUBLIC SERVICE COMMISSION

CASE 23-G-0225 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of The Brooklyn Union Gas Company d/b/a National Grid NY for Gas Service.

CASE 23-G-0226 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of KeySpan Gas East Corporation d/b/a National Grid for Gas Service.

NOTICE OF PUBLIC STATEMENT HEARINGS

(Issued June 30, 2023)

PLEASE TAKE NOTICE that public comment is invited concerning proposed changes in the gas delivery rates and practices of The Brooklyn Union Gas Company d/b/a National Grid NY (KEDNY) and KeySpan Gas East Corporation d/b/a National Grid (KEDLI) (collectively, the Companies).

The Companies filed amendments to their gas tariff schedules on April 28, 2023, proposing to increase their annual gas delivery revenues effective March 31, 2024. KEDNY proposes to increase its revenues by \$414 million (a 28 percent increase in base delivery revenues or a 17 percent increase in total revenues). KEDLI proposes to increase its revenues by \$228 million (a 24 percent increase in base delivery revenues or a 14 percent increase in total revenues). Although the actual bill impacts of these proposed changes on any particular customer class will vary based upon revenue allocation and rate design, the Companies state that a typical KEDNY residential heating customer will have a \$30.95 average monthly bill increase and a typical KEDLI residential heating customer will have a \$28.52 average monthly bill increase.

The Companies state that the rate increases are largely due to the need to invest in critical infrastructure to comply with Federal and State pipeline safety mandates, increased costs to deliver expanded energy efficiency and other demand reduction offerings, and economic factors such as rising cost of material due to inflation, increased contractor costs, and increases in property taxes. The Companies state that their rate filings are focused on delivering safe and reliable service, meeting the needs of customers, and advancing the goals of the Climate Leadership and Community Protection Act (CLCPA). The propose to effectively maintain the current pace of leak prone pipe replacements through a more targeted replacement strategy; aggressively repair gas leaks and target the repair of high-emitting leaks through the use of advanced leak detection technology; continue or expand customer oriented initiatives to ensure energy affordability, improve customer experience and maintain customer satisfaction; improve the resiliency of the distribution system by investing in automation, safety valves, and storm hardening projects; and continue or expand many CLCPA-supporting initiatives such as non-pipe alternatives, energy efficiency and demand response programs.

The Companies' pre-filed testimony and exhibits in these proceedings may be reviewed online at the Department of Public Service web page, www.dps.ny.gov, by searching under Case 23-G-0225 or 23-G-0226.

Under New York State law, the Public Service Commission (Commission) must consider a utility's proposal and may adopt or reject it, in whole or in part, or modify it. In doing so, the Commission will consider changes proposed by the participating parties and general public. Administrative Law Judges are presiding over the gathering of public comments and all evidence relating to the proposal. As indicated in this

Notice, public statement hearings will be held over two days to obtain comments from the public concerning the Companies' proposals.

PLEASE TAKE NOTICE that virtual public statement hearings will be held before Administrative Law Judges (ALJs) James A. Costello and Maureen F. Leary, as follows:
